Ribbon-Cutting Ceremonies

A RIBBON CUTTING ceremony was held Monday at Cal-Tex Produce Co., 109 E. 9th, in Cisco. The produce company will sell a full line of vegetables and fruits to area stores, restaurants, rest homes and hospitals. They have seventy different choice items to offer local businesses. At the present time they have one salesman and one truck, but they expect their business to grow and expand. They will start off covering a 100 mile radius from Cisco. Mike Dressick, president, lives in Fresno, Calif., and he grows a lot of the items sold by Cal-Tex, so produce is of fresh, first grade quality, when it reaches the warehouse. Jack

Ray, of Cisco, will be the manager. Cal-Tex employees want businesses to know that they will offer good produce, and good customer service at a fair price. Shown in the above photo are (left to right), Fred Wheeler, chamber member, Linton Batteas, chamber member, Shirley Hargrave, chamber member, Patsy Hogan, chamber member; Lynn Talley, treasurer of Cal-Tex; Jerry Morgan, chamber member; Dewain Burnett, vice president of Cal-Tex; Mike Parsons, Secretary of Cal-Tex; and Randy Speegle, manager of the Chamber of Commerce. (Staff Photo)

Area Boys Attend Basketball Camp At Cisco Junior College July 16-20

56 area boys attended a basketball camp for one week at Cisco Junior College from July 16th through July 20th. Friday morning Wrangler Coach Dan Montgomery directed an awards ceremony in which award winners were presented with ribbons and trophies. Coach Montgomery also directed the camp.

The Sportsmanship Trophy was awarded to Joe Brannen, a seventh grader from Perrin. The Outstanding Camper award went to Vernon Pennywell of Houston Texas.

Other campers that received awards were: Bryan Barnes of Novice, best passer; Brad Hutton of Perrin, best ball handler; Vernon Pennywell of Houston, best rebounder; Wade Lane of Granbury, Mr.

Hustle; Hunter Cooley of Hawley, best offensive player; and David Pierre of Houston, best defensive player.

First place in Division I for boys 14 and older went to the Sixers made up of Motley, Barnes, Cooley, Pennywell, Hutton and Rabon.

First place in Division II was the Hawks made up of

AARP Holds Monthly Meeting

Cisco's AARP monthly meeting was held Thursday, July 19, with a covered dish dinner at 6:00 p.m. in the Corral Room.

President O.T. Killion, asked Rev. Fuston, visiting minister of Breckenridge, to offer thanks.

Dick Lindley, accomplished pianist of Lake Leon, pro-

vided delightful dinner music. Following the meal, a salute to the flag was given, led by Velma Joyner. An applause of thanks was extended to hostesses, Mabel Thetford and Ethel McClelland for the red, white and blue table decorations. (Continued Inside)

Denton Family Reunion To Be July 28-29

There will be a family reunion for the family and friends of Walter Denton.

The reunion will be held in the conference room at the BEST WESTERN MOTEL on Saturday July 28th and Sunday July 29th.

All family and friends are encouraged to attend.

Oscar Lopez Receives Degree

The University of Texas at Austin awarded 707 Bachelor of Arts degrees in the College of Liberal Arts at the close of the 1984 Spring Semester.

From Cisco, announced by Dean Robert D. King, was Oscar Misael Lopez. Congratulations, Oscar.

CHS Football Workouts To Start Aug. 13

Candidates for the 1984 Cisco High School football team will begin two-a-day workouts on Monday, August 13, according to an announcement by John Parchman, director of athletics and head football coach.

Those who plan to be members of the Lobo squad were asked to pick up their equipment at Community Gym prior to the beginning of workouts.

Mr. Parchman reminded players that they will need to undergo a physical exam prior to beginning workouts. "All local doctors have the necessary forms for the physicals," Mr. Parchman said. "Those who want to get their physicals elsewhere must pick up a form," he added.

"Girls who plan to play basketball also will need to undergo a physical exam," Mr. Parchman said.

Mr. Parchman expects a squad of some 60 young men to report for practice on August 13. The 1984 team will be built around seven returning lettermen. Fourteen seniors were members of last year's squad and one other player has moved away.

"We have a lot of good kids and we're excited about prospects for the coming season," Mr. Parchman said.

The 1984 season will open on Friday, Sept. 7, at 8 p.m. in a game at Chesley Field in Cisco against the De Leon Bearcats.

New Business In Cisco

The new TOWN & COUNTRY store opened Saturday at 6:00 a.m. The store is located on Conrad Hilton across from Dairy Queen next to I-20. The store will carry a full line of groceries, and has a deli and fountain drinks. For your convenience the store will be open 24 hours a day. The employees pictured above are (in alphabetical order): Lisa Buchanan (not pictured), Butch Case (manager), Lora Maddox, Dona Marsh (Asst. Manager), Phyllis (Cricket) Prescott, Lorna Sedore (Deli Manager), and Doug Swarts. The store also has self-service gas pumps.

Nadine Stephan Retires After 13 Years At Cisco Nursing Care Center

Shown above: resident Mrs. Georgia Chapman pins on the corsage for Mrs. Nadine Stephan at her retirement party. Mrs. Brewster, Administrator (left) observes.

Friday afternoon, July 20, the residents and staff of Cisco Nursing Care Center joined together to say "Best Wishes" to Nadine Stephan. Nadine is retiring after 13 years at the Cisco Nursing Care Center.

The staff hosted a surprise "happy retirement" party with the residents giving Mrs. Stephan a corsage. Residents, staff and visitors enjoyed cake, decorated by volunteer Janice Casey, and punch.

During the 13 years Nadine has worked at the center, almost all of them as housekeeping and laundry

supervisor, the home has changed ownership and administrators several times. While Nadine worked under these different administrators, one thing remained the same. She has always had a deep concern, warm understanding, and a very real love for the residents and a true loyalty to her employers.

She has managed to run both the housekeeping and laundry departments, smoothly, seeming to always be in the right place at the right time. She has had to be plumber, mechanic, nurses aide, exterminator and ar-

bitrator. Her duties have included sweeping, moping, dusting, scrubbing, waxing, washing and drying clothes, and above all, lending a sympathetic ear.

The staff and residents wish Nadine the very best for her retirement. She will be missed by all.

Ambulance Memberships Still Short

Tommy D. Patterson of Pafford-Patterson Ambulance has reported that memberships are coming in a lot better but they are still 300 members short in Eastland and Cisco.

The service provides transfer to any hospital within a 60-mile radius, with \$1.00 charge per loaded mile over this.

Discount rates still are in effect: Family \$36.00; Single and/or individual \$30.00; and Business \$45.00.

Mr. Patterson urges those who have not joined to do so before the special prices end.

THEY'RE YOUR TEETH

DENTAL INSURANCE HOW TO GET THE MOST FOR YOUR MONEY

Most insurance companies, medical, car, home, all require that you have a problem and that you pay a deductible before they pay on anything. Dental insurance, however, recognizes that they can save a bundle by paying for your regular exams, cleanings, x-rays and fluoride, therefore preventing problems before they occur. That is why the average company will pay 100% of your regular checkups. If you, or your company, are paying the premium on dental insurance you have already paid for this benefit, in most cases. There are very few exceptions. To not use this "free benefit", especially in today's society where gum disease and tooth decay are so prevalent, is almost criminal. The insurance companies know that with regular checkups and cleanings 95% of dental problems can be prevented, or at least taken care of while they are small enough that the cost is negligible, therefore saving them hundreds of thousands of dollars. If the insurance companies have figured this out, just think how important it is for us to accept that truth and benefit from it.

The way to get the very best use of your insurance dollar is:

1. Learn to ask questions! It is your mouth, your insurance, and your right! Most of us in America today have been programmed to accept whatever people want us to believe - it is time we learned to question things and make our own decisions again. Call around until you find a dental office in your area that can answer your questions. Many offices have a highly trained, competent insurance person who is familiar with all the insurance company policies and can tell you what your coverage is, and will often handle your insurance papers for you. All you need to do is ask. Some dentist will accept "assignment of benefits" (that means he will allow your insurance company to pay him, instead of you, and you pay him the difference) This is strictly up to the individual dentist. But it is worth asking, it is definitely to your advantage if he will. Again all you need do is ask.

2. When you have found the office that seems to be well qualified and meets your needs, make an appointment to have you, and your family's teeth cleaned, checked, and x-rays taken.

3. Sit down with your dentist and discuss what is going on in your mouth. Dentistry has changed so much in the

past few years that many of our preconceived ideas are completely outdated. For instance, dentures are something that no one should ever have to consider as the only alternative. Missing teeth can be replaced with permanent bridges as opposed to removable appliances. Broken teeth or teeth with very large cavities can often be restored and reinforced with beautifully constructed porcelain crowns that are perfectly matched to your teeth in size and color. If a molar does not have decay, there is a new process called "acrylic sealant" that can be used to protect it from decay. Teeth that are discolored or misshaped can be corrected by a new process called "bonding". Gum disease can be treated and corrected. There are far too many new things in dentistry to list in this space - but talk to your dentist about your needs. He will be glad to discuss with you the possibilities and procedures needed to achieve total dental health for you and your family.

4. When you and your dentist have worked out a program whereby you can achieve total dental health, discuss with his insurance person what your insurance will pay and what your part will be. Also in some cases, if there is a large amount of work to be done, a payment plan can be worked out for you. Again this is dependent upon your dentist office policy. Don't be afraid to ask.

5. When you and your dentist have agreed upon a treatment plan get behind the plan - your dentist can't do it by himself. Use your insurance to your best advantage - get your mouth healthy and then use your free benefits of regular cleanings and checkups to keep it that way. Who among us are so naive as to think we can have an engine rebuilt and then run it for five, ten, or fifteen years without ever changing the oil, putting water in the battery, or even checking the belts, and then expect the mechanic to feel responsible if our engine develops problems. Yet that is just the way most of us do our mouths! Once everything is fixed it is supposed to stay that way, no matter how we treat it, and if we develop a problem it must be that the dentist didn't do good work. Folk, it just doesn't work that way.

Dentistry today is very exciting! It has much to offer you. Get involved, ask questions, find out how easy it would be to give you, and the family you love, what they deserve - total dental health. It is by far the cheapest way!!!

IRS Suggests Guidelines For Tax Shelter Investor

Careful tax planners are thinking about next April's tax bill right now. It pays to be wise to the strict new penalties dealing with abusive tax shelters and avoid the promise of tremendous tax write-off ratios as the sole reason to invest.

The Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) makes participation in abusive tax shelters more hazardous than ever, with penalties and interest approaching 50% when IRS disallows the claims.

IRS defines abusive tax shelters as marketing schemes that involve artificial transactions with little or no economic reality, frequently making use of unrealistic allocations, inflated appraisals, or losses in connection with nonrecourse loans.

Investing in an abusive tax shelter may be an expensive proposition when all of the consequences are considered, IRS noted. For example, the promoter generally charges a substantial fee. If the return is examined by the IRS and a tax deficiency is determined, the taxpayer will then be faced with payment of the tax, interest on the underpayment, plus the possible application of severe penalties for negligence or civil fraud. And, in the most aggravated situations, IRS may decide

to prosecute the case for criminal tax violations.

Since there are many abusive tax shelters and more are developed daily by promoters, it is not possible to list all the factors a taxpayer should consider in determining whether an offering is an abusive tax shelter. However, one should ask the following questions, which might provide a clue to the abusive nature of the plan:

1. Do the promised tax benefits far outweigh the economic benefits.
2. Is this a transaction you would seriously consider, apart from the tax benefits, if you hoped to make a profit?
3. Do shelter assets really exist and are they insured for less than their purchase price?
4. Is there a nontax justification for the way profits and losses are allocated to partners?
5. Do the facts and supporting documents make economic sense? In that connection, are there sales and resales of the tax shelter property at ever increasing prices?
6. Does the investment plan involve a gimmick, device, or sham to hide the economic reality of the transaction?
7. Does the promoter offer to backdate documents after

Point System Unchanged For Duck Hunting

AUSTIN - The 100-point system of bag limits for duck hunting in effect in Texas since 1970 is proposed to continue during the upcoming duck seasons with no changes in point values.

Two species of ducks, however, are proposed for addition to the list of legal game birds. They are the black-bellied whistling (tree) duck and the fulvous whistling duck. If this change is adopted by the Texas Parks and Wildlife Commission the two species would be 70-point ducks.

Public comment on the point system and other proposals for the upcoming seasons may be directed by mail to Bill Brownlee, Migratory Game Bird Program Director, Texas Parks and Wildlife Department, 4200 Smith School Road,

the close of the year and are you instructed to backdate checks covering your investment?

8. Is your debt a real debt or are you assured by the promoter that you will never have to pay it?

The watchword when evaluating investment prospectuses is that, if something sounds too good to be true, it probably is.

Austin, Texas 78744, or by calling toll-free 1-800-792-1112.

Point values for the various duck species proposed for 1984-85 are: 100-point ducks -- cavasbacks; 70-point ducks-mallard hens, Mexican-like ducks, redheads, mottled ducks, black ducks, wood ducks, hooded mergansers and fulvous and black-bellied whistling ducks; scaup, wigeon, shoveler and mergansers, excluding hooded mergansers; 20-point ducks -- all other ducks not listed, except that the season is closed on masked ducks.

A hunter's daily limit is achieved when the point value of the last duck taken and added to the sum of the point value of ducks already taken that day reaches or exceeds 100 points.

Kokomo News

Zelda Jordan

It seems that summertime has really set in with the hot temperatures that we are having. It could be worse tho. We have had higher temperatures in summers of the past. Some parts of the northern area of the community received about an inch of rain one day last week, but we received only a very light shower here at our house.

Bro. John Taylor of Eastland was the supply preacher at both services at the Kokomo Baptist Church on Sunday. Mrs. Taylor,

Chip, Bobby and Derrick accompanied him to Kokomo. Jeff Buckley of Desdemona and Jason Greene of Brownwood were also visitors.

Bro. Joe O'Neal brought the message at the church service at the Gorman Care Center on Sunday afternoon. Nancy Hendricks led the singing with Wynelle Brown at the piano. Others from the Kokomo Baptist Church were Mrs. Joe O'Neal, Ava Rodgers, Hope Joiner, Mammie Little, Carolyn Little, Anna Laura Clearman and

Zelda Jordan. Mr. Eugene Baker was a visitor and helped in the service.

Mr. and Mrs. J.C. Clearman were recent visitors in Lawn with Mr. and Mrs. Jamie Clearman and family and Mr. and Mrs. Hugh Clearman and in Abilene with a niece, Mr. and Mrs. Choate.

Mr. and Mrs. Jimmy Little and Mrs. Dora Garrett were among those enjoying the firework display at Eastland on July 4th.

Glenn and I enjoyed a good barbecue supper and musical program at Frank A. Gray Memorial Park at Gorman on the 4th. Didn't get to stay for the firework display. The Park Association is to be commended for a job well done. A lot of time and effort was put into plan-

ning and carrying out the activities at the park to make the July 4th celebration a special one for everyone from the youngest to the oldest person attending. We are so fortunate in America. Not every nation has the freedom that we enjoy, so let us pray every day for our country and do all we can to help preserve this freedom.

Mr. and Mrs. J.L. Morrow were dinner guests with his sister, Mr. and Mrs. Charles Elston in Huckabay on Sunday.

The Glenn Jordan were visiting with the Claude Fullers on Saturday night.

Emmett Lasater and Glenn Jordan visited with Mr. and Mrs. Alvin Lasater on Monday.

Mr. and Mrs. D.F. Eaves and Mrs. F.C. Eaves were

among those attending the F.C. Eaves Family Reunion at Possum Kingdom Lake during the weekend. Deliah Eaves of Kermit and Mr. and Mrs. Mark Eaves of DeSoto met them for the reunion.

Jason Greene of Brownwood is visiting with Mr. and Mrs. Lyle Greene, Jeff and Jeanette.

Buster Johnson of Carbon visited with Mr. and Mrs. Vernon Fields and Lindell on Sunday.

Mr. and Mrs. Joe Bond, Shannon and Brian attended a family reunion at the Kiva Inn in Abilene during the weekend.

Our congratulations to all the Little League All Stars. There were four Kokomo boys on the Gorman All Star Team that won second place

in the Gorman tournament. They are Gary Browning, Brian Bond, Lance and Layne Morrow.

Mrs. Kathy Watson and Jackaline of Abilene, Mr. Ben Rollins, Mr. Lum Tuggle, Bro. Jim Andrews and Jim Don, Mr. and Mrs. David Willoughby, of Eastland, Mr. and Mrs. Clifford Nelson, Mr. and Mrs. Wilbourne Wood and Mrs. Daisy Wood of Carbon, Mrs. Bobbie Brown, Mrs. Pauline Dennis of Gorman, Mr. and Mrs. Glenn Jordan, Mr. and Mrs. J.L. Morrow, Mr. and Mrs. J.C. Clearman, Mrs. Ruth Bryant, Mrs. Hope Joiner, Bro. and Mrs. Joe O'Neal and Mr. and Mrs. Alvin Lasater were the visitors with Mr. and Mrs. Albert Hendricks during the past week.

Lutheran Outreach Ministries and Holy Trinity Episcopal of Eastland recently shared in a Vacation Bible School experience, with the Rev. Steve King of Emmanuel Lutheran, Knippa, and the Rev. John Holmes of Holy Trinity conducting the opening worship service each morning.

CAPITOL UPDATE

John Tower
U.S. SENATOR for TEXAS

WASHINGTON, D.C. 20510
America is confronted today by the Soviet Union's drive to dominate the high seas. While our leaders are moving to meet this challenge, it will require nothing less than a sustained and comprehensive effort in rebuilding our nation's naval defenses.

The Soviet naval threat did not develop overnight, but is the result of a longtime build-up on the part of the Russians. To see how Soviet naval power has grown, we must look at the past.

The United States is essentially an island nation in that it relies on the seas for foreign trade. A large navy is needed to protect these sea lanes and to guard America's vast coast lines.

However, the Soviet Union has a limited number of usable seaports and imports few products. There is no need for the Soviets to maintain a sizable navy except for offensive purposes.

Following World War II and through the mid-60s, the United States enjoyed naval superiority and maintained peace and freedom of the world's waterways. The United States relied upon superior technology and better trained personnel to ensure a qualitative edge over the Soviet Union. The fleet's worldwide networks of U.S. and allied naval bases, dockyards and supply depots offered a decisive advantage.

In contrast to America's overall strength, the Soviet navy was technically unsophisticated and possessed relatively few heavy surface warships and aircraft carriers. The Soviets also were handicapped by a limited number of sea ports.

However, recently the scales tipped in favor of the Soviet Union. It extended its reach to strategic points around the globe while the United States followed a general policy of maintaining its military status quo. The Soviets also have increased the numerical superiority and diversity of its fleet while challenging, and in some cases, surpassing America's precious advantage in sophisticated technology.

For example, the U.S. fleet of ballistic missile submarines once outnumbered the Soviet fleet 31 to 0. Today that advantage has reversed with the Soviets now possessing 91 ballistic submarines compared to 41 for the U.S. Navy.

In other areas, the United States has increased its number of attack submarines to 95, but the Soviets maintain an overwhelming numerical advantage of 198. Additionally, the Soviet's growing naval arsenal has grown to include a land-based force of an estimated 400 Bader, Blinder and Backfire bombers. The U.S. Navy's fleet of 187 surface vessels is heavily outnumbered -- 186 to 283 -- by the Soviet's growing inventory of cruisers, destroyers and frigates.

While this Soviet bid for naval supremacy went unanswered for over a decade, the U.S. Navy has begun to re-establish American maritime strength. It is clear that the American fleet is stronger and more efficient today than just four years ago, particularly in terms of combat readiness and day-to-day operations.

However, the Soviets fully intend to maintain or extend their level of naval power. For a maritime nation like the United States, national security is contingent upon a strong navy.

Congress must be willing to sustain the recent progress to bring our fleet to its necessary strength. To accept anything less would be to ignore an historical truth. As President Theodore Roosevelt once observed, "A good navy is not provocative of war. It is the surest guaranty of peace."

A NEW HANGING BASKET

Over the years many, many hanging baskets are killed by too much water or by not enough water, or by moving the hanging basket to the sink or bath tub for watering. Now we have a new concept in hanging baskets that solves all these problems.

I made a personal trip to Bartlesville, Oklahoma where these new baskets are made just to see first hand the fantastic baskets with the plants growing in them. Yes, the Springeri Fern and the Angel Wing Begonia were hanging down eight feet with a six foot diameter.

This new hanging basket is a totally new concept in this type of container for indoor or outdoor use that makes plant care a snap. This basket is made of a transparent plastic that lets you see the entire soil at all times. The basket is fifteen inches in diameter and will hold four, six inch plants. The basket has a cone coming up in the center where a clear plastic rod, that is three feet long comes through the cone for hanging the basket. On the bottom of this rod is a precision ball bearing to enable the basket to be easily rotated. The basket is automatically rotated by the breeze when hung outside. There is a

brass valve built into the bottom of this basket. You just have to snap the drain hose on this valve to drain off the excess water. There is no overwatering and no mess on the floor from watering. Of course by not having to move the hanging basket to a sink or bath tub to water there is no change of damaging the plant. With this type of drainage you are able to leach out all of the unwanted salts each time you water. The valves are made of brass therefore preventing any rust problems.

Considering all these facts of seeing through the basket (clear plastic), not being able to overwater and leaching out the unwanted salts everytime you water and last but not least not having to take down the hanging basket to water it and damaging the plant, this is the natural way of growing plants. There are also specially designed stands for these baskets to sit on instead of hanging them. The stands are made of oak and makes an attractive piece of furniture. If you use these planters as hanging baskets or on these stands you are growing plants the natural way.

These hanging baskets come from Natures Basket in Bartlesville, Oklahoma.

Gordon Cited For

Distinguished Service

COLLEGE STATION--DeMarquis Gordon of Eastland, who has served as Eastland County Extension agent for the past 18 years, has been named to receive the Distinguished Service Award, the highest recognition given by the National Association of County Agricultural Agents.

The award is presented annually to county agents throughout the nation who have made outstanding contributions to agriculture and improved living, said Shackelford County Extension Agent Lawrence Winkler, president of the Texas County Agricultural Agents Association.

Gordon is one of seven county agents with the Texas Agricultural Extension Service, Texas A&M University System, to receive the award. Others (and their counties) are Kyle Smith, Gaines; Jim Price, Jack; Alfred Croix, Denton; Kent Powell, Upton; Gus Person Jr., Guadalupe; and Jerry Lackey, Lavaca.

Texas award winners will be recognized at the TCAA annual meeting Aug. 5-8 in Brownsville. Actual presentation of awards will be at the NACAA meeting Aug. 19-24 in New Orleans.

Gordon has conducted outstanding educational programs in peanuts, pecans, beef cattle, forages, soil fertility and community development through an active county program building committee. He has helped peanut growers increase average yields from 750 to 1,450 pounds per acre during his tenure in Eastland County through effective use of result demonstrations and other educational programs.

Gordon was instrumental in organizing the Eastland County Pecan Show which is one of the largest in the state. He also has taught more than 2,000 individuals to bud and graft pecan trees at annual propagation workshops.

He also organized the

county's first hay show and was instrumental in establishing the Eastland County Fair.

Gordon also has conducted in-depth educational programs in farm and ranch management that have helped producers improve their decision-making.

He has given strong leadership to the 4-H program in Eastland County. Through his efforts 4-H'ers with livestock projects have fared well at the major stock shows in Texas.

Gordon was named the Outstanding Young Man by the Eastland Jaycees in 1972.

Prior to assuming his position in Eastland County in 1966, Gordon served in McLennan and Hamilton counties.

He holds bachelor's and master's degrees from Texas A&M University, both in agricultural education, and has done additional graduate work at Colorado State University.

WORD of GOD

New Testament (Fulfilled)

And went again into the judgment hall, and saith unto Jesus, Whence art thou? But Jesus gave him no answer.

John 19:9

Management Tips For Area Alfalfa Farmers

Before Eastland County area alfalfa growers seed a new crop this fall, they should select seed proven in this area, check soil for fertility and prepare a good seed bed, says an agronomist for Pioneer Hi-Bred International, Inc.

"These important management practices should help farmers produce higher yields and better quality hay when they harvest the first cutting next spring," says Jim Schrib, Texas agronomist for the Southwestern Division of Pioneer.

He says that university and Pioneer field tests indicate that several commercial varieties are adapted to this area. One is Pioneer alfalfa variety 555 which has proven itself as a high-yielding, quality hay throughout the region.

In irrigated field tests conducted in Plainview from

1978-1982, Pioneer 555 had total per-acre production of more than 39 tons, compared to 33 tons of Texas common, he says.

According to the Oklahoma State University/Central Alfalfa Improvement Conference report for 1983, Pioneer variety 555 had the highest production record among 23 commercial varieties in regional yield tests conducted the past four years," he says.

"Farmers can expect five to six years of production from this variety. It is a semi-dormant alfalfa which is high in forage quality and bred specifically to withstand the extreme weather conditions found in the Southwest. It has a high leaf-to-stem ratio and excellent heat tolerance, high disease and aphid resistance and fast recovery after harvesting."

Schrib says that prior to planting any alfalfa seed, farmers should have soil samples analyzed to determine how much, if any, phosphate and potash will be needed. These fertilizers are important elements in alfalfa production.

He says that under normal circumstances, seed should be planted at a rate of 15 to 20 pounds per acre at a soil depth of a quarter to a half inch. Seed should be planted in late August or early September.

Allsup's Stores Work For

"JERRY'S KIDS"

Allsup's Convenience Stores will again join the fight for the Muscular Dystrophy Association in 1984. Through Labor Day, Allsup's will display collection canisters for "Jerry's Kids" in all 271 stores in New Mexico, Texas and Oklahoma.

According to Jack Crow, Director of Public Relations, "The Muscular Dystrophy Association is seeking causes and cures for forty (40) crippling neuromuscular related disorders. They depend almost entirely on contributions from private contributions and corporations, and the proceeds from the Labor Day Telethon, so the canister collections play a very important part of the fundraising activities. We, at Allsup's, are proud to be a part of such a worthwhile endeavor."

In addition to the canisters, Allsup's "Door Bell Brigade" will be marching again this year! All area youngsters who would like to help MDA and "Jerry's Kids", are encouraged to pick up the Brigade packets at your local Allsup's store on Satur-

day and Sunday, August 25th and 26th. After collecting door-to-door and returning the collections to the store, each youngster will receive a free fountain drink of their choice.

From Jack Crow, "We're looking forward to working with area youngsters in the campaign against Muscular Dystrophy. Thanks to all our friends and customers for your generosity, because your nickles and dimes add up to millions of dollars for research and treatment. So, look for the MDA coin collection canisters and give to "Jerry's Kids". Your pocket change can be the key to the cure."

Lake House, very attractive place. 1 bedroom, 1 bath, boat ramp, nice yard. \$40,000.

Oil Belt News

Drilling Bits

Two new producers have been brought on line in Eastland County's Nimrod Field, with Monarch Energy Corp of Dallas as the operator. Located one mile southeast of Nimrod the wells are in an 80-acre lease in the H&TCRR Survey, A-111.

The No. 1 Wright showed potential to produce 102 barrels of oil per day on an open choke. The well bottomed at 1,430-ft. and will produce from a perforated interval in the Cross Cut Formation, 1,360 to 1,362 feet into the hole.

Showing a potential to produce 25 barrels of oil per day on an open choke. It is the No. 2 Wright. The well bottomed at 1,422-ft. and will produce from a perforated interval in the Cross Cut Formation, 1,368 to 1,369 feet into the hole.

Eastland County's Flatwood Field gained a new producer when Stanley-Rogers Hardware Co. of Cisco completed the No. 1 Little five miles south of Eastland.

The well indicated ability to flow 231,000 CF gas per day on a 3/4-in. choke. It was rated at 360,000 CF on absolute open flow. It was taken to a 1,609-ft. bottom and will produce from a set of perforations in the Gardner Formation, 1,025 to 1,028 feet into the wellbore.

The operation is in an 82-acre lease in the Messer Survey, A-372.

A Duncanville-based operator has staked location for the No. 1 Hood King, a developmental well to be located one mile northwest of Eastland. With projected total depth of 4,000-ft. the well is in a 320-acre lease in Eastland County's Regular Field, H&TCRR Survey, A-1712. The operator is North Ridge Corp.

At a location five miles north of Eastland, Snow Oil Co. of Ft. Worth has finished a new oil producer in Eastland County's REB Field.

County Fair Photo Contest

The Eastland County Fair Association and the Microplex Photo Club are sponsoring a photography exhibition and competition. This will be a part of the Eastland County Fair and will be held in the Concession Building from October 3 to 6, 1984.

Color or black and white photographs will be accepted in the following categories:

1. Youth ages 16 and under-any subject
2. Cats
3. Dogs
4. Farm Animals
5. Exotic or Zoo Animals

Only these categories are acceptable, and pictures of birds, fish, insects, etc. are not included. Nothing should be submitted which has previously been shown at the Eastland County Fair.

An entry fee of \$1.00 for each print submitted will be charged. Photographs should be 8 x 10 in size and should be matted and unframed. Sales are encouraged at prices determined by the photographer.

Entries should be brought to the Concession Building on Wednesday, October 3rd between 4:30 and 7:00 p.m. They will hang during the Fair and must be picked up by the owners between 5:00 and 6:00 p.m. Saturday, October 6th.

An out-of-town judge will award ribbons and prizes at his discretion and will declare one picture "Best of Show."

Reasonable care will be taken and security will be provided, but the Eastland County Fair Association or the Microplex Photo Club cannot be responsible for loss or damage to photographs.

The well is designated as the No. 1 Lowrance-East, flowing oil at the rate of 38 barrels of oil and 120,000 CF gas per day on an open choke.

Location is in an 80-acre lease in the H&TCRR Survey, Sec. 17, Blk. 4. Bottomed at 3,996-ft., the well will produce from perforations 3,526 to 3,552 feet into the hole.

The No. 1 Roberds has been finished by Dallas Production Inc. of Dallas.

It is a developmental well in Eastland County's Regular Field, two miles northwest of Rising Star. Drillsite is in a 160-acre lease in the ETRR Survey, Sec. 12, Blk. 2.

Daily potential of seven barrels of oil per day on an open choke was posted with the Railroad Commission. The well went to a 3,787-ft. bottom, and top of pay zone was logged at 1,052-ft. Production will be from perforations 1,052 to 1,072 feet into the wellbore.

Katlico Operating Co. of Lubbock has revealed plans to drill a 4,200-ft. developmental well in the Arledge Field. The operator has 80 acres leased, with drillsite in Eastland County's H&TCRR Survey, A-174 and has designated the venture as the No. 1 Callarman. Drillsite is three miles southwest of Cisco.

H.E. Austin of Cisco has filed first production figures on a new oil well in the Nimrod Field. The No. 4B

Texas "B" showed potential to make 50 barrels of oil per day on an open choke.

The operator has 55 acres leased, with drillsite in Eastland County's H&TCRR Survey, A-1980, seven miles south of Cisco.

The well will produce from an interval 1,323 to 1,340 feet into the wellbore. Total drilling depth was 1,382-ft.

A new producer has been brought on line in Eastland County's REB Field, with Ridge Oil Co. of Breckenridge as the operator.

Located four miles northwest of Eastland the well is in a 122-acre lease in the H&TCRR Survey, Sec. 33, Blk. 4. It is designated as the No. 1 Courtney.

On an open choke, it pumped 14 barrels of oil per day. The well bottomed at 3,750-ft. and will produce from a perforated interval in the Marble Falls Formation, 3,418 to 3,426 feet into the hole.

A 4,000-ft. developmental well is planned by Southeastern Resources Corp. of Ft. Worth at a drillsite two miles east of Cisco. The location is in an 80-acre lease in the H&TCRR Survey, A-1526. Well's designation is the No. 1 T. Choate. It is in Eastland County's Regular Field.

Eastland County's Moreno Field gained a new producer when Morrison Energy Co. of Abilene completed the No. 2 Martin Unit No. 2 five miles south of Carbon.

The well indicated ability to pump five barrels of oil per day on an open choke. It was taken to a 3,400-ft. bottom and will produce from a

set of perforations in the Marble Falls Formation, 2,751 to 2,770 feet into the wellbore.

The operation is in a 40-acre lease in the J. Collins Survey, A-1355.

Blanco Industries Inc. of Blanco has filed for permit to drill the No. 4 Burkhead-Falls, a 1,150-ft. developmental well two miles north-northwest of Rising Star. Location is in a 11-acre lease in Eastland County's Regular Field, ETRR Survey, A-853.

A Ft Worth-based operator has staked location for the No. 1 R. Schlaepfer, a developmental well to be located three miles north-northwest of Cisco. With projected total depth of 4,200-ft., the well is in a 40-acre lease in Eastland County's Richey Field, SPRR Survey, A-465. The operator is Richey & Co. Inc.

Dyna Corp./Investments Inc. of Eastland has revealed plans to drill a 2,000-ft.

developmental well in Eastland County's Regular Field. The operator has 10 acres leased, with drillsite in the H&TCRR Survey, A-854 and has designated the venture as the No. 1 Slater Sikes "B". Drillsite is two miles north of Carbon.

An Abilene-based operator has staked locations for the No. 1 Higgins ECPII and the No. 1 Lovell ECPII, developmental wells to be located four miles south of Carbon. With projected total depth of 3,400-ft. each, the wells are in Eastland County's Marsan Field.

The No. 1 Higgins ECPII is in a 110-acre lease in the MEPPRR Survey and the No. 1 Lovell ECPII is in a 252-acre lease in the R. Saul Survey, A-438.

The operator is Morrison Energy Co.

North Ridge-Corp. of Duncanville has revealed plans to drill a 4,000-ft. developmental well in Eastland County's Regular Field. The operator has 160 acres leased, with drillsite in

the H&TCRR Survey, A-302 and has designated the venture as the No. 2 Juanita Williams. Drillsite is four miles north of Eastland.

A 3,500-ft. wildcat well is planned by Sun Country Drilling & Exploration of Mineral Wells at a drillsite seven miles south of Carbon, Eastland County. The loca-

tion is in a 291-acre lease in the Joseph Rubarth Survey, A-41. Well's designation is the No. 1 Whiteside.

Better School Discipline

Lack of discipline in the classroom is disrupting education. This fact has been confirmed by a number of studies that also note a direct correlation between children with trouble at school and children in trouble with the law.

To help overcome this problem, Governor Mark White in 1983 initiated the Classroom Disciplinary Management and Strategy Program, developed and implemented at Southwest Texas State University. The program, the Governor noted, is "the first of its kind in Texas with the goal of developing better teaching tools for enhanced discipline in the classroom."

Less than one year later, the program has already had a positive impact in the schools. Of 37 school districts participating in the pilot program, 33 reported that they had implemented a total of 39 new programs. Even districts that did not begin school-wide programs benefited. "I use the information I received last summer every day, every period," noted one teacher who implemented change in her own classroom.

The Classroom Disciplinary Management and Strategy Program grew out of needs confirmed by a variety of sources. Both *A Nation at Risk* and the Carnegie study, *High School: A Report on Secondary Education in America*, emphasize the need to improve our schools and to renew public confidence in public education. This year, as in 14 of the last 15 years, Americans questioned for the Gallup Poll have identified discipline as the

number one concern in public education; drug abuse was identified as the number two concern.

The program addresses the key issue of discipline. Effective classroom discipline is approached as a prerequisite, not only to academic achievement, but also to the development of good citizenship. Funded by the Criminal Justice Division, Office of the Governor, and administered by the Texas Juvenile Justice Center at Southwest Texas State University, the program is designed to help schools prevent problems such as school disruption, truancy, drug and alcohol abuse, juvenile delinquency and other behaviors detrimental to the educational process. Emphasis is placed on taking positive steps to prevent discipline infractions from escalating into more serious problems.

Working closely with the Southwest Texas State University School of Education, the Texas Juvenile Justice Center will conduct training in effective classroom management techniques and strategies to reduce school discipline problems. Participation is open to school teams composed of four or five representatives, including at least one administrator, from either a school district or single campus. The training is action-oriented, with each team developing a plan to improve school discipline and provide alternatives to school suspension. Follow-up technical assistance will be available to school districts which send teams to training.

TEXAS GARDENER TIPS

How To Identify And Control Stinkbugs

Knowing how to identify and control stink bugs, one of Texas' most common garden pests, can help ensure a healthy and productive vegetable garden.

Stink bugs are recognized by their broad, shield shape and by the disagreeable odor which they emit when disturbed. Adult stink bugs are about one-half inch in length and their color varies with the species. Some are green, some brown and others are marked with striking color patterns.

Stink bugs attack many vegetable and fruit crops, causing damage when they insert their piercing, sucking mouthparts into the plant tissue and suck out the juices.

Stink bug damage varies with different plants, but the general damage is the same. Symptoms among some of our most popular crops are:

Peaches develop a condition

called "catfacing." The area where the fruit is pierced has a retarded growth, giving it a gnarled, deformed appearance. Droplets of gum may also be detected where the skin was stung.

Tomatoes attacked by stink bugs have small yellowish spots when they ripen. The flesh under these spots is hard and lumpy.

Beans and peas attacked by stink bugs show a small spot on the pods where the insect's mouthparts entered. The seeds either don't develop or have discolored spots on them.

Okra and squash often have a wilted appearance when attacked by stink bugs. Small fruit often drop off.

home garden may be difficult. First, the bugs often quickly reinfest a garden after it's been treated. Second, stink bug damage can appear to be increasing, even though the pests have been controlled, because visible signs of damage increase as the plants continue to grow.

For best results, inspect your garden frequently. When stink bugs are found, an approved pesticide should be applied, with a reapplication made in five to seven days if the infestation persists. Effective chemicals cleared for use on most fruit and garden vegetables include Carbaryl (Sevin®), Malathion, and Naled (Dibrom®). Use only approved insecticides and follow all directions and precautions on the label.

No Secret To Selecting A Ripe Watermelon

For some people, picking the "perfect" watermelon is a favorite summer rite that involves thumping and shaking and looking for telltale signs of what could be inside.

But, judging the quality of a watermelon is very difficult unless it's cut in half or quartered, says Texas A&M University Agricultural Extension Service food and nutrition specialist Mary K. Sweeten.

In fact, one recent produce industry study showed that about forty percent of consumers find melons the most difficult fruit to judge for ripeness and freshness, she adds.

According to Sweeten, there are a few appearance factors which may be helpful - but not totally reliable - in guiding you to a good, ripe, juicy watermelon.

The surface of the watermelon should be relatively smooth, she says. The rind should have a slight dullness, neither shiny nor dull. The ends of the melon should be filled out and rounded, and the undersides of the melon should have a creamy color.

It's easier, but usually more expensive to buy a cut watermelon, says the specialist. Even then, you may not get the best melon for your money unless you inspect it well. The best melon has firm, juicy flesh with good red color, she says. Look out for white streaks with whitish seeds since these indicate immaturity.

Also avoid a melon with

dry, mealy flesh or watery, stringy flesh, she says. These are signs of over-maturity or aging after harvest.

The peak watermelon season is here so there are plenty of delicious melons to choose from at the supermarkets and produce stands. With prices low and likely to get lower as the season progresses, you may have several chances to pick the "perfect" melon.

Child Passenger Safety- A New Law

A law just passed by the Texas Legislature and signed by Governor Mark White will go a long way toward protecting the health and safety of Texas children. The new law requires the use of automobile safety seats belts for children under the age of four. Its aim is to reduce the grim statistics which have Texas leading the nation in deaths and injuries for this age group.

Last year in Texas, 78 children under the age of four died as innocent

passengers in automobiles, and another 6,603 were injured - many seriously. National studies indicate that up to 80 percent of the deaths and injuries could have been avoided through the proper use of child passenger safety restraints.

Texas lawmakers passed the bill mandating the use of child passenger seat systems on June 30, 1984. Specifically, the legislation requires children under two years old to be secured in safety seats, and children between the ages two and four years old to be secured by either safety seats or safety belts. The Law goes into effect October 31, 1984.

The new legislation also provides for a \$25.00 to \$50.00 fine for non-compliance, but the penalty can be dismissed if a person provides a safety seat system within 10 days of the offense. No fines will be charged until January 1, 1985.

Public Service Announcement

ALL REGIONAL EDUCATION SERVICE CENTERS IN THE STATE OF TEXAS ARE REQUIRED TO PROVIDE REGULAR OPPORTUNITIES FOR THE GENERAL PUBLIC TO EXAMINE AUDIO-VISUAL ITEMS AND OTHER MATERIALS WHICH ARE AVAILABLE FOR USE BY THE PUBLIC SCHOOLS. THE REVIEW PERIOD FOR THIS QUARTER HAS BEEN SCHEDULED FOR 8:00 P.M. TO 4:00 P.M. ON FRIDAY, JULY 27TH. THE PUBLIC IS INVITED TO PERUSE MATERIALS ON THAT DAY AT THE REGION 14 EDUCATION SERVICE CENTER, 1850 ALBANY HIGHWAY, ABILENE, TEXAS. ALTHOUGH NO APPOINTMENT IS REQUIRED, AN ADVANCE PHONE CALL - (915) 676-8201 - WOULD BE HELPFUL IF THE

REVIEWER IS INTERESTED IN EXAMINING A PARTICULAR ITEM. EVERY EFFORT WILL BE MADE TO SEE THAT MATERIALS ARE AVAILABLE TO INTERESTED PERSONS.

Eastland County Receives Rebate On Tax Revenue

Mixed drinks sold in Eastland County during the second quarter of this year produced \$5,911.11 in total tax revenue, and \$886.67 in rebate to three cities.

The City of Eastland had \$1,072.38 in total tax revenue with the city receiving \$160.86; Cisco had \$837.65 total, with the city getting \$125.65; and Ranger, \$4,001.08 in total tax revenue with the City of Ranger getting \$600.16.

The sales were through private clubs in this county.

State Comptroller Bob Bullock Thursday sent checks totaling \$11.8 million to 222 counties and 426 cities as their share of the state's 10 percent mixed drink tax collected during the second quarter of 1984.

Bullock said the state collected a total of \$40.9 million in taxes on the sale of mixed

drinks during the quarter, up 5.5 percent over the same period in 1983.

Texas cities and counties each received a 15 percent rebate on the tax collected on mixed drinks sold within their boundaries under the law that legalized the sale of mixed drinks in the state.

The state's general revenue fund will receive the balance—\$29.1 million—of the tax money collected.

The mixed drinks tax is collected by the Alcoholic Beverage Commission and city-county rebates are sent out quarterly by the Comptroller's Office.

Bullock said the mixed drinks tax has brought in \$80 million so far during 1984.

The Texas Legislature recently increased the mixed drink tax from 10 to 12 percent, and decreased the city and county share of the

tax from 15 to 12.5 percent, effective October 2, 1984, but the actual amount returned to cities and counties will not change, and the state will get the entire gain from the tax increase, Bullock said.

Revival To Be Held July 26

Mangum Baptist Church will hold the regular monthly singing Thursday, July 26, at 7 p.m. Everyone has been invited to attend.

Take stock in America.

UNITED STATES SAVINGS BONDS

YOU AUTO KNOW

OOOOO

IN THE INTEREST OF SERVING THIS AREA, JIM CALDWELL BRINGS YOU THESE IMPORTANT MONEY-SAVING ARTICLES:

LISTEN—as in stop, look, and listen—does NOT refer to audio headsets. It's against the law in a number of states to drive while wearing the distracting personal radios.

Your car's cooling system will work better if the outer radiator surface is cleaned of any insects, leaves, dirt, or grease that might interfere with a full flow of cooling air.

When radial tires are rotated, tires are switched front to back ON THE SAME SIDE OF THE CAR. The spare may be included in the switch on one side or the other.

Lubrication of the suspension and steering systems should be scheduled at least once a year.

What's in your trunk? Every extra 100 pounds of golf clubs, lounge chairs, and other things you carry cuts your gas mileage by one or two miles.

Evangelical Church Camp Experiences

by Wanda Hallmark
 For the first time in my life, I went to church camp. My children have been able to go each year for the last four years, mainly because I was never able to go as a child.
 On Monday, July 9, Jana Spangler, a good friend, and four campers and myself took off to Buffalo Gap, Texas for our "spiritual renewal." When we arrived, there were already some of the campers there. Jana and I chose bunks, (I chose the bottom) and we put on our wise old counselor looks and waited for our group of girls.
 Camp was totally different than what I expected. It was both terrifying and gratifying at the same time. I felt terrible pangs of homesickness, sunburn, and heat. The camp food had a reputation of its own, which was justified. The cabins were nice enough, but the bunks left a lot to be desired.

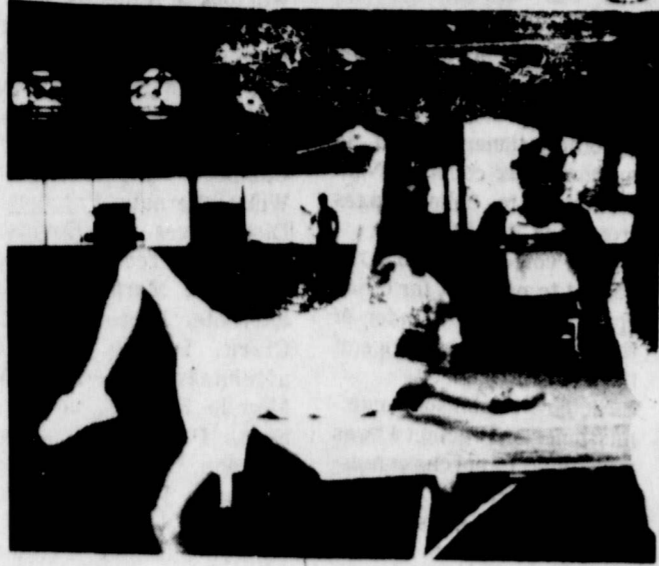

Our cabin of girls raided a boys cabin one night, and it was found out later, a girl lost a very expensive ring in the process. The ring was found later on that evening with the help of a flashlight.

Two girls kept sneaking out on the last night, and Jana took a giant stool off the top bunk, when the camp director brought them back the last time it was the last time because we both remained awake and "on guard" until our departure. During a raid on our cabin, a boy knocked the window off the runners and I lost my temper when he would not listen to me and go away so that I could fix it.

But, there were times when someone needed a word or someone to pray for them. At times a boy or girl would come up to us and say thank you for encouraging them or helping them with something that was bothering them. That's when the troubles and the homesickness didn't matter.

When it was time to leave Saturday morning we hugged the girls goodbye, and we knew that they would be in our prayers each day. During these six days we know that the love of Jesus touched the lives of several there. And isn't that what church camp is for?

WTCC Opposes Recontrol Efforts

Strong opposition to the proposed "Natural Gas Market Policy Act of 1984" has been voiced by the West Texas Chamber of Commerce. Also known as the House Energy and Commerce Committee Natural Gas Bill, H.R. 4277 is an attempt to "recontrol" the natural gas industry, according to WTCC.

"By imposing a two-year price freeze on all price escalator clauses in the gas decontrolled on January 1, 1985 and July 1, 1987, the measure effectively reimposes price controls on categories of gas decontrolled by the Natural Gas Policy Act" said Dan Mendell, III of Midland. Mendell chairs the chamber's Mineral Resources Committee.

"In addition," continued Mendell, "these provisions overturn clauses in thousands of existing gas sales contracts, resulting in changes to all parties involved and uncertainty as to the price paid for almost 50% of the nation's gas supply." The West Texas Chamber of Commerce maintained that other provisions in H.R. 4277, such as take or pay and contract carriage, would also cause unnecessary stumbling blocks to energy producers and transporters.

"With a fragile recovery now underway among oil and gas companies, any new taxes or roadblocks would be very detrimental for the industries and extremely bad timing for the West Texas economy," concluded Mendell.

About 75 percent of the water used in the home is used in the bathroom. The West Texas Chamber of Commerce lists the following ways that water use can be decreased and your water bill reduced without any great sacrifice:

1. Repairing leaky faucets can result in large water savings. A slow drip can waste as much as 170 gallons each day, or 5,000 gallons each month. Repairing a faucet which leaks a small drop can save you \$10.00 or more per month on your water bill.
2. Your toilets may be leaking and need repairs and you may not know it. Add a few drops of food coloring in the storage reservoir. If the colored water moves into the toilet bowl between flushings, you will know you have a leak. Repairing a leaking toilet can result in a decrease in water use and a savings of several dollars a month on your water bill.
3. Using the toilet as a trash disposal for facial tissue and other trash results in many unnecessary flushes. Each time you dispose of trash in a trash basket instead of flushing the commode, you save 5 gallons or more of water. Three or four unnecessary flushes per day would result in a waste of 400 to 500 gallons of water per month.
4. Bathing in the shower instead of the bathtub will reduce water use by 5 to 10 gallons.
5. Shampooing your hair while taking a shower will require only a little more water than a normal shower and save the 10 to 15 gallons of water normally used in a separate shampoo.
6. Ponding water in the basin for handwashing or shaving instead of letting the faucet run will reduce water

use for these activities by about half.

7. When brushing your teeth, turn the water faucet on only when you need to rinse your toothbrush, rinse your mouth or clean the sink rather than letting the water run continuously. This will decrease water use during this activity by almost two-thirds for most folks.

- Ten to twelve percent of in-home water use takes place in the kitchen.

8. Running water from the tap until it is cool enough to drink is probably the easiest wast habit to break. This can be done by storing water for drinking in the refrigerator. If you have problems, tie a colored ribbon on the faucet to remind you of the nice cool water in the refrigerator.

9. Wait until you have a full load of dishes before using your automatic dishwasher. Not only will you save water, but you will save expensive detergent and energy.

10. The washing machine constitutes from 12 to 14 percent of in-home water use. Automatic washing machines use 30 to 60 gallons per load, so it is important to wash full loads to obtain maximum benefits from your water, energy and detergent.

If you implement a good water conservation program in your home but still find your water consumption is high, you might have a water leak between your meter and the house. It is easy to check. Turn off all faucets, indoors and out, and then check your water meter. If it continues to run, you have a leak and need to have it repaired.

Amy O'Brien To Represent Eastland C of C

Amy O'Brien

Amy Leigh O'Brien, 1984 graduate of Eastland High School, will represent the Eastland Chamber of Commerce as a dutchess in the Annual DeLeon Peach and Melon Festival which begins Monday, July 30.

Amy, 18, is the daughter of Mr. and Mrs. H.V. O'Brien, 1201 S. Seaman St., Eastland.

She and her escort, Mike Woolley, son of Mr. and Mrs. Dick Woolley of Cisco, will participate Wednesday in the Queen's Reception, Street Parade, Queen's Coronation and a spaghetti dinner and entertainment.

The street parade will begin at 7 p.m. Wednesday.

During her high school years, Amy has served in the E.H.S. Maverick Band, Flag Corps, participated in UIL competitions, served as a Junior Varsity and Varsity Cheerleader, and was an actress in the UIL and Jr. and Senior class plays. She competed in UIL tennis and editorial writing on the regional level. She received the U.S. Speech and Drama

Award her senior year and also served as Lions Club Sweetheart last year.

She will attend Hardin-Simmons University in the fall.

Mondays activities at the DeLeon Festival will consist of judging of the Little Miss and Queen contestants. Feature of the Tuesday festival will be the appearance of Ray Price on the Festival Stage at 9 p.m.

Judging of fruit will be Wednesday with the parade and queen's coronation. A tractor pull and Bluegrass Musical is set Thursday with another tractor pull and old-time fiddlers contest Friday.

A free watermelon slicing is among other activities set for Saturday's closing day.

Commissioners Meeting

Eastland County Commissioners Monday approved several road crossings with pipelines. Harry Jones, representing Carswell Pipeline Co., was given permission to cross County roads No. 104 in Precinct 4, No. 159, No. 334 and No. 345 in Precinct 1 and Nos. 335, 342 and 340 in Precinct 2 with a jet fuel pipeline.

The 6-inch pipeline will be laid across north Eastland County. When finished, it will run from north of Abilene at the Pride Refinery to Carswell Air Force Base in Ft. Worth.

Johnie Smith, Jr. with Ray Richey and Company was given permission to cross County Road 121 in Precinct 4 with the gas pipeline.

Four bids on a mobile home located north of the county jail were opened. Commissioners voted to

postpone any action until the next meeting, enabling them to study the bids.

Commissioners voted to authorize tax collector Nancy Trout to collect taxes from the City of Carbon.

They voted to amend to the budget to pay rent for office space for the remainder of the fiscal year for Justice of the Peace Precinct 4.

Richard Robinson, commissioner of Precinct 1, was authorized to purchase a used truck with a covered bed to transport government food commodities to the county.

Commissioners heard of an appeal for office space for Central Texas Opportunities by Mayor Doris Griffin of Rising Star, who is on the board of directors.

Ms. Griffin said that the office space should be in Cisco of Eastland. Commissioners

suggested a building in Eastland that might be suitable, and the Central Texas Opportunities group will look at it this week.

Election judges and alternates, who will serve until July 1985, were appointed by the commissioners.

In Precinct 1 Mrs. Bernard Campbell will serve, Pam White alternate. Precinct 2, Dick Hodges, Jane Davidson alternate. Precinct 3, Bruce Goldman, Margaret Green alternate. Precinct 4, L.E. Clark, Bobbie McKillip alternate. Precinct 5, Mozelle Rhymes, no alternate. Precinct 6, Hope McGaha, M.M. Stubblefield alternate. Precinct 7, C.M. "Mutt" Carrol, Mary Claborn alternate. Precinct 8, J.V. Heyser, Tom Autrey alternate. Precinct 9, Mrs. Morris Newnham, Mrs. Howard Hill alternate.

Phelps Reunion To Be Held Aug. 4th and 5th

The Phelps reunion will be held at the Cisco County Club on the 4th and 5th of August. The country club will be opened around noon on Saturday, cold cuts will be served that evening. Sunday we will have a covered dish meal. Each family bring a covered dish. We are looking forward to see you all there.

WORD OF GOD

He that saith unto the wicked, Thou art righteous; him shall the people curse, nations shall abhor him:

But to them that rebuke him shall be delight, and a good blessing shall come upon them.

Black-Eyed Peas From HERITAGE FARMS, INC. Black-Eyed Peas are our business

A Note About Black-Eyed Peas:

We at HERITAGE FARMS put three half bushel baskets per sack to guarantee 28 lbs. per bushel. We market this 3 half bushel sack of peas all over Texas as a bushel. I have found through experience that you can heap a bushel basket and pack firmly with peas and on the average you will only have 23 - 25 lbs.

We also shell the peas we produce and I have found that our sack of peas will yield 18 - 20 pints of shelled peas. Through test of bushel baskets of peas I find they yield 13 - 15 pints of shelled peas.

So folks what I'm trying to get around to is this-HERITAGE FARMS, INC. located 3 1/2 miles south of Carbon, Texas has more BLACK-EYED PEAS than you can shake a stick at. If you need BLACK-EYED PEAS come and see us-We'll fix you up. You pick'em, we pick'em and/or we can also shell them for ya!

If you don't have time to come see us, look on your local grocery shelf or ask for fresh BLACK-EYED PEAS grown by HERITAGE FARMS. If he doesn't have them he can get them by the bushel or fresh shelled in 3 - 5 pint bags.

Remember, BLACK-EYED PEAS are our business at HERITAGE FARMS, INC. Located South of Carbon, Texas. For more information call:

County News Briefs

CISCO

The Cisco Chamber of Commerce has appointed two new Board Members to serve out the unexpired terms of Dr. Norman Wallace and Elaine Dixon. Gerald Winnett and Frank Barrett were nominated to serve out the remainder of these terms. A number of other items were discussed in a recent meeting, with Director Wooley reporting that the Steering Committee was still contacting different businesses about coming to Cisco.

The Cisco High School Class of '69 will hold its 15th Reunion July 28. The evening meal will be catered by Oscar's Barbeque. For more information, or to make reservations, call 442-2537.

"Guys and Dolls" rehearsals are in progress at the Roof Garden Theatre, and reported to be going quite well. The Musical will run August 2 through 4 and August 6 through 11. It is not too late to make your reservations by calling 442-2589. The ticket price per person is \$12.50. "Guys and Dolls" is based on a story by Damon Runyon with music and lyrics by Frank Loesser.

Plans are underway for an Eastland County Health Fair on Thursday, Sept. 6 at the Cisco Senior Center in the Corral Room, 400 Conrad Hilton Ave. Hours are from 10 a.m. to 8 p.m. The Fair is being jointly sponsored by the Eastland Extension Service Family Living Committee and the Cisco and Eastland AARP Chapters. Persons or organizations interested in having a booth at the Health Fair may contact Mrs. Janet Thomas, Eastland County Extension Agent. Booth space is available free. The Fair will provide free health education, materials and screening.

EASTLAND

The annual Lawmen-Citizen Banquet will be held Saturday, Aug. 18 at Siebert Elementary School in Eastland. Eastland County Law Enforcement Association is the sponsor. Floyd Hacker, chief Criminal Law Division, Texas Department of Public Safety, will be the principal speaker. Tickets at \$5.50 each will go on sale soon, and will be available from all lawmen in Eastland County. The banquet will be catered by Oscar's Barbeque. Special awards will be Citizen of the Year and Lawman of the Year. The public is cordially invited to attend.

Fishing Report

Terry L. Wilson

Saturday night's tournament drew some competitors to Lake Leon. Nine anglers were on hand for some cool night fishing. First place was won by Rodney Mitchel with 2 fish weighing 1 pound 9 and 1/2 ounces. Rodney's fish were taken on worms rigged Texas style in the dam region. Second place went to Terry Wilson, who also won big bass honors: Terry's fish weighed 1 pound 9 ounces one fish. Third place was captured by Don Flowers with one fish weighing 1 pound 8 ounces. Terry's fish was taken on a spinner bait while Mr. Flowers fish was caught on a worm.

Most of our contestants reported numerous strikes, and caught some smaller fish. Martine Goltke weighed in one fish at 13 ounces. All of these fish were able to be released, back to fight again next year.

Channel cats and some yellows are moving well at Leon. The Gerth family's from Amarillo and Hobbs, N.M., caught over 35 channel cats and one yellow cat weighing 27 pounds, in a recent fishing trip on Leon. Crawdads and perch seemed to produce the best.

Some area anglers will be competing in the North Texas Championship Bass Tournament July 29th. This

is a 13 lake event including Lake Leon, Whitney, Possum Kingdom and other well known Texas Lakes. First place is a 17 1/2 foot Lotus bass boat.

This is a 2 fish 14 inch min. Weigh-in will be located in Ft. Worth at the Fin & Feather Sport Center.

Always remember keep what you can and release the rest. Conservation begins with you.

CRAPPIE FISHING LEAFLET OFFERED

AUSTIN - A new leaflet on crappie fishing has been made available free by the Texas Parks and Wildlife Department.

Authored by fishing biologist Paul Seidensticker of Jasper, the publication includes facts on crappie life history, movements and methods for catching them.

To obtain the leaflet, write the Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, TX 78744, or call toll-free 1-800-792-1112.

The water outlook is considered brighter for Lake Leon Water District, according to recent surveys made of the Lake. Water District Board Members say that conservation is working, and that the District can continue to supply water to Eastland, Ranger and nearby communities for about a year without any additional water in the Lake. And certainly, in a year's time, enough rain can come to put the water shortage behind us.

A new Photo Processing establishment has opened at 601 West Main in Eastland. It is owned by James and Marilyn Farmer, and features high quality, fast photo service. A brand new development machine, one of the first in the state, will enable Express Photo to offer one-day service. Reprints can be made in about three minutes.

GORMAN

Free Blood Pressure Checks are offered any day, any time at Blackwell Hospital in Gorman. The public is welcome to come by the Nurse's Station for this service.

RANGER

Ranger City Commissioners approved a plan by Ron Butler, City Water Commissioner, to encourage citizens to help maintain a clean town. The first weekend of each month will be designated as a time when all citizens can dump any type of trash at the city dump without paying a fee. This will include tree limbs, pickup loads of trash - any debris that clutters up premises.

The public is invited to a reception honoring Mrs. Dianna Graham at Ranger General Hospital on July 28, 3-5 p.m. in the Hospital Conference Room. Mrs. Graham recently resigned from her position as Hospital Administrator.

Ranger High School Class of 1969 will meet July 28 at Lone Cedar Country Club Pool, 1-5 p.m. All are urged to come. This Class meets only every five years, so members, teachers, and families are urged to come out and enjoy the visiting.

The Ranger Braves won the National Pony League Tri-City Championship, and will go to Eastland for the District Tournament. There they will play Eastland, Brady, Merkel, and Clyde. The winner of this Tournament will play in the State Tournament in East Texas. Ranger Coaches are Rex Hatton and Mario Abila.

"Drive In Band Camp" To Be Held At CJC Aug.

The annual Cisco Junior College "Drive In Band Camp" will be held on the campus of CJC during the week of August 6-10, 1984. Any student who has had at least one year of band or instrumental instruction is eligible to attend the camp.

Instructors for the camp will be area band directors and Mr. Tim Jones, who is also camp director. Courses to be offered this year include theory, rhythm, section rehearsals, full band rehearsals, and possible stage band classes. Registration will take place at 9 a.m. in the band

hall on Monday, August 6. The camp will conclude on Friday afternoon, August 10. Classes will meet from 9 a.m. to 3:30 p.m. each day. Cost for the camp is \$35 per student and this includes a noon meal each day. Advanced registration is not required, but full payment will be due on the first day of class.

The purpose of the camp is to help band students prepare for the coming season and to refresh their playing and reading skills after having been off for the summer.

County Agents Expected For Statewide Meeting

COLLEGE STATION-- Discussions centering on professional improvement and Rio Grande Valley agriculture will highlight the annual meeting of the Texas County Agricultural Agents Association in Brownsville, Aug. 5-8.

The event, to be held at the Fort Brown Motor Hotel, should attract some 400 county agents with the Texas Agricultural Extension Service, Texas A&M University System, says Lawrence Winkler, TCAAA president and Shackelford County agent.

Among featured speakers will be Dr. Zerle L. Carpenter, Extension Service director; Charlie Rankin, radio farm director from Edinburg; David Eymand president of the Texas Shrimp Association; and Harold Robbins, southern regional director of the National Association of County Agricultural Agents.

Others addressing the annual meeting will be Earle Younts with the National Cotton Council; John M. Shelton III, president of the Texas and Southwestern Cattle Raisers Association; and Preston Sides, Extension 4-H specialist.

Representatives of the Fort Worth, Houston, Dallas and San Antonio livestock shows also will be on hand to discuss plans and show changes for the coming year.

The opening assembly of the meeting will be at 8:30 a.m. on Aug. 6 followed by an awards luncheon recognizing winners of the Distinguished Service and Achievement awards. Distinguished Service Award winners (and their counties) are Kyle Smith, Gaines; Jim Price, Jack

Alfred Croix, Denton; Kent Powell, Upton; DeMarquis Gordon, Eastland; Gus Person, Guadalupe; and Jerry Lackey, Lavaca. The Achievement Award will be presented to Tony Douglas, Delta County.

Tours of shrimp farming and nursery operations plus several other industries in the Rio Grande Valley will be featured that afternoon.

A special awards luncheon on Aug. 7 will honor those county agents who have conducted outstanding educational programs in a wide range of activities during the past year, including excellence in public information efforts and the preparation of result demonstration handbooks.

A highlight of the four-day meeting will be a banquet that evening honoring seven individuals as "Men of the Year in Texas Agriculture." So honored will be D.G. "Bill" Nelson of Amarillo, executive vice president of the Texas Wheat Producers Association and Producers Board; W.R. Moore Jr. of Monday, wheat and cotton producer; Arnie Lawler, Camp County farmer and retired conservationist; C.B. Richards, San Augustine County rancher and businessman; Roddy Peoples, San Angelo farm broadcaster; Jack Barton, Houston banker and agribusinessman; and James Leo Greer, Rocksprings rancher and pecan grower.

The meeting will conclude with a business session on Aug. 8 which will include committee reports and the installation of new officers and directors.

SEEDS FROM THE SOWER

By Michael A. Guido, Metter, Georgia

Some delight themselves in friends, and they fail. Others delight themselves in pleasure, and they pass away. Many delight themselves in money, and it melts away. But it is written in Psalm 37:4, "Delight thyself in the Lord."

To delight yourself in the Lord means to make the Lord Jesus your joy. This can be done only as you search His word and seek His will. For the word "delight" is not the usual word, meaning pleasure, but the unusual word, meaning to delight yourself in the Lord, the Psalmist appoints those who delight in Him!

What about my desires? Lord and I want a fortune, shall my faith bring a fortune? Faith is not a means to gratify self but to glorify the Saviour. The true desire of one who delights in the Lord is, "Not my will, but Thine."

It is well worth while to subject our deeds and desires to careful and frequent examination. When our will is subdued to His will we may have what we will.

If you did not get your desires from the Lord, see if you really delighted in the Lord. He never disappoints those who delight in Him!

here we go again

Allsup's Convenience Stores

Will Help Jerry's Kids

Allsup's Convenience Stores will again join the fight for the Muscular Dystrophy Association in 1984. Through Labor Day, Allsup's will display collection canisters for "Jerry's Kids" in all 271 stores in New Mexico, Texas and Oklahoma.

According to Jack Crow, Director of Public Relations, "The Muscular Dystrophy Association is seeking causes and cures for forty (40) crippling neuromuscular related disorders. They depend almost entirely on contributions from private contributions and corporations, and the proceeds from the Labor Day Telethon, so the canister collections play a very important part of the fundraising activities. We, at Allsup's, are proud to be a part of such a worthwhile endeavor."

In addition to the canisters, Allsup's "Door

Bell Brigade" will be marching again this year! All area youngsters who would like to help MDA and "Jerry's Kids", are encouraged to pick up the Brigade packets at your local Allsup's store on Saturday and Sunday, August 25th and 26th. After collection door-to-door and returning the collections to the store, each youngster will receive a free fountain drink of their choice.

From Jack Crow, "We're looking forward to working with area youngsters in the campaign against Muscular Dystrophy. Thanks to all our friends and customers for your generosity, because your nickels and dimes add up to millions of dollars for research and treatment. So, look for the MDA coin collection canisters and give to "Jerry's Kids." Your pocket change can be the key to the cure."

Moran News

By Mrs. Luke Huskey

Frances Green visited with relatives and friends in Austin, Corpus Christi, and De Soto, last week.

Mrs. Fred Stovall, Sr. received treatment in the Albany Hospital, last week.

Moran received a much needed rain last Wednesday. 1.2 inches fell about midday. The surrounding area did not receive as much, but all that fell was very much appreciated.

Mrs. Bill Sipe of Graham and Leo Thames of Iowa Park have been recent guests of their mother, Mrs. C.H. Bridges. Mrs. Bridges will move to Iowa Park, in the near future to make her home.

Lucion Brooks received treatment in Graham Hospital, Cisco, last week.

Mrs. Vicki Hestand and daughter, Wendy and Mrs. Kathy Craft and daughter Carolyn, of Tucson, Az., are visiting their parents, Mr. and Mrs. Charles Reynolds.

Elma May Huskey spent the week end in Burleson and Ft. Worth with her nephews and wives, Mr. and Mrs. Foy Dunaway, Mr. and Mrs. James R. Dunaway and Mr. and Mrs. Bill Dunaway, and families.

A BABY DAUGHTER
Mr. and Mrs. Larry Hudson are the proud parents of a baby daughter, born Tuesday, July 17. The daughter was named Josi Leigh. She weighed 9 lb. 1 oz. and was 22 inches long. Josi Leigh has two sisters, Kerri and Tera.

Putnam News

By Mrs. R.B. Taylor

I am happy to report that Putnam had another nice shower Tuesday. Gauges over town all measured over an inch. We are so thankful. The grass and weeds are pretty and green. The tanks around town are full of water, but sorry to say it does not extend very far away. All our neighboring towns are still suffering for rain. The temperature has cooled a little, especially nights are nice and cool. How thankful we are for air conditioners and fans.

We had some severe lightning along with the showers. A tree was struck at the Cavanahs.

We are sorry to hear that Mr. Ken Cavanah, who underwent surgery at Dallas Veterans Hospital 2 weeks ago, had to return to the hospital again today. We wish him a speedy recovery.

Have you noticed as you drive along I-20 that the old depot at the Donaway place has been moved. Mr. Donaway sold it to someone who moved it to Abilene.

Grandparents are Mr. and Mrs. Bobby Moore and Mr. and Mrs. Kenneth Hudson, all of Moran. Mrs. Joe Moore of Moran is the maternal grandmother. Paternal great-grandmothers are Mrs. Fleeta Kidd and Mrs. Nellen Hudson, both of Coleman.

Solomon, Monday evening. Mrs. Dora Eubanks, Mrs. Leta Jones and Mrs. Etta Summers of Admiral visited their aunt, Mrs. Myrtle Weeks Tuesday.

The James Isenhower family of Coleman visited their mother Ollie Burnam, Friday.

Annie Mae Donaway visited her mother Mrs. Nettie Speegle in the nursing home at Baird, Friday.

Visiting G.W. Weeks have been: their son John and a friend Rusty Lee of Waco. Bill and Janice Hennager of Abilene, David and Alice Martin of San Antonio and John and Willa Rice of Gorman.

Don't forget to turn your TV on Channel 9 at 7 a.m. Sunday!

Cisco Steak House To Hold Flea Market

It's time for another flea market. Linda Allen of the Cisco Steak House & Inn reports that she expects a big turn out for this one!

There will be dealers from this area and as far away as Tucson, Arizona. All dealers are welcome. The fee for a booth is \$6.00 for the entire weekend.

There is plenty of parking, some come out and see all of the bargains for yourself. You'll be glad you did!

Dealers will have booths set up all day on Friday July 27th, Saturday July 28th and Sunday July 29. Don't miss it!

A.A.R.P. Meeting

(Continued from Page One)

Special recognition was given to seven visitors present.

Reports were given by the following: Maurine Thompson read minutes of the June meeting. Rose Knowlden gave the treasurer's report. Reports were approved as read.

Jack Roberson reported the goal of 150 members for '84 was soon reached and raised to 175, then to 200. Present enrollment is 205. He challenged members to reach for 225 by September.

Vida Killion gave the Sunshine report. She sends cards to the bereaved, sick and shut ins.

Velma Joyner urged participation in the projects of lap robes for the Nursing Home and sheets and pillows for the Day Care Center.

Program director, Mrs. Louise Allison, introduced Attorney Virgil T. Seaberry, Jr., who addressed members on Will and Estate Planning.

Mr. Seaberry stressed the importance of making a will. The folly of failing to do so will result in the State making disposition of your properties...community and personal.

He cited, even though Texas honors a handwritten will, it is advisable to have stated your wishes with clarity. However, the safest procedure is to have an attorney draw up your will.

He advised it is feasible to appoint a trustee in behalf of minors; it is advantageous to enlist a power of attorney to act in your stead in case you become incompetent; that it is not recommended to give property to children before you die...you lose control.

A vibrant question and answer session left members informed and appreciative of Mr. Seaberry's address.

Let's talk.

Information about your changing telephone service from Bob Cox, Manager-Community Relations

New "Premises Work Charge."

There has been an important change recently regarding telephone wiring. The change involves the installation and repair of jacks and "inside wiring."

Inside wiring is required from the point where our lines end in a "network interface." On most new homes, this interface—a large plastic box—is usually installed near the power meter. (In large apartments, it's usually located near the circuit breaker box.)

If you don't have a new home, you probably don't have a network interface (we just started installing them in 1982). Instead, you have a similar device called a "protector."

Like a network interface, the protector is the point where our line ends and your inside wiring begins.

Until recently, we did all the installation and repair of wiring inside our customers' homes. We will still perform that work if you ask us—but the way the work is charged has now changed.

If we do the wiring, we'll now bill you "Premises Work Charges." These charges are billed for each 15-minute period required on the job. Charges cover all costs associated with the work, including materials, but costs differ for installation and repair.

Here's how the charges break down if we do the work for you:

		Other Times		
		8 a.m. - 5 p.m. Monday-Friday	Monday-Friday All-day Saturday	Sundays and Holidays
Installation	Initial 15 Minutes	\$18.50	\$22.75	\$27.00
	Each Additional 15 Minutes	\$10.50	\$12.50	\$14.75
Repair	Initial 15 Minutes	\$28.25	\$31.75	\$35.25
	Each Additional 15 Minutes	\$10.50	\$12.75	\$15.00

If you don't wish to have Southwestern Bell Telephone perform the work, you now have two other options. Those are hiring someone else (such as an electrical contractor), or doing it yourself (materials are available from many retail stores).

New rates — Small increase to you

By now, you are probably aware that Southwestern Bell Telephone received final approval for a rate increase effective June 1, which included the change in Premises Work Charges. I say you are "probably aware," because most customers will hardly notice it on their local exchange phone bill.

The rate award sounds like a lot of money—and it is, but the increase for residence flat-rate local exchange service is only 30 cents per month, or less.

Most of the increase (about 89%) was put on one group—Texas long distance companies (who pay for access to Southwestern Bell Telephone's network).

People n Things Mrs. Freda Weiser Honored on Birthday

IF YOU'VE started work on your August calendar of things you want to do, list the quarterly breakfast of the Chamber of Commerce membership. Plans are being completed for this event and will be announced in the near future.

Dr. Henry McCullough, president of Cisco Junior College, is scheduled to talk at the breakfast on August 8th.

THE WIDENING of Conrad Hilton Avenue from 12th Street to I-20 is coming along nicely, as you probably have noticed. Mr. Buddy Haun, the State Highway Department's resident engineer in Eastland County, tells us that it will probably be six weeks or so before the job is finally completed.

All the curb and gutter is in and they're now working on a culvert near Thornton Feed Mill. When this is finished, plans call for the entire highway street to be re-topped with asphalt. It's looking nice, wouldn't you say?

WHEN AND IF Mr. Royce Darr of the automotive shop gets things caught up, he plans to load up his wife and children and head to the cool country of northern New Mexico. There, Royce expects to indulge in his hobby-bird watching.

Royce has a number of books on birds of Texas and the southwest and the United States and he likes to take his binoculars and watch. With the reference books, he can identify many of them. Royce practices his hobby around home when time permits.

SPEAKING OF birds, we've been watching a family of Blue Jays and observing a Mocking Bird in our neighborhood. The Blue Jays have just about finished raising a family. Lately, they've been supervising two youngsters in learning to fly.

The other afternoon, a cat became too observant of the young birds. The two adults took after the cat, swooping down and attacking with beak and feet until the cat moved out of the area. The Jays enjoy a bird bath in the yard these hot days.

The Mocking Bird, which is the State Bird of Texas, and several other states, perches atop the highest limb of a tree. There, he sings most of the day and at night if the moon is out. He frequently leaps five or six feet into the air, turns a clumsy somersault and comes down singing - never missing a note.

The Mockingbird can imitate the calls of many other birds. His song reminds other Mocking Birds that he has staked out a territory and he won't permit intrusion. They nest usually in low trees and lay from three to five eggs twice a season. They feed on fruit and insects.

PROF WYLEY Peebles plans to attend a music convention in San Antonio around August 1st. The Bruce Stovalls have moved into their new home out in the new addition just west of town. Two new benches for golfers to use to rest while waiting to tee off at No. 1 tee and at No. 5 and 9 tee area have been provided, thanks to the First National Bank and to Ledbetter Insurance. Mrs. Lela Lloyd has been postcarding friends

from Alaska where she has been visiting her sister, Mary Carey.

A NUMBER OF Cisco golfers played in a scramble tournament at Eastland Lakeside golf course last Sunday afternoon. The local folks weren't on the winning team, which posted a score of 14 under par for 18 holes. Cisco Golfers Letha Stafford and Bennie Nichols entered a partnership tournament at Mineral Wells recently and tied for third place. They won 3rd when their birdie wasn't matched in a playoff on the second extra hole. Tracy Owens teamed up with a friend at Stephenville recently in a partnership tournament.

SORRY TO hear that Craig Mason, construction supervisor for SWBell here, is being transferred to Fort Worth. Don't know how to call SWBell to learn who will succeed Mr. Mason. Mr. Jasper Cook and probably other local Lions planned to attend a breakfast meeting of the Carbon Lions Club Wednesday, July 25. Wanda Hallmark is back on the job at The Press after two weeks of vacationing.

THINGS ARE looking real good for work to commence very soon on restoration of the Mobley Hilton. This report comes from Mr. Dick Woolley who talked with Mayor Eris Ritchie in Houston last week where the mayor is holding a school for cheerleaders and twirlers.

Mr. Ritchie had a meeting in Houston with the chairman of the Conrad Hilton Foundation and was real pleased with the result. Mr. Woolley said. The mayor was due to move his school faculty to San Antonio this week where he will work for the next two weeks or so.

WENT OVER TO Longview in East Texas last weekend to visit relatives. We expressed sympathy to folks we met there because they have to mow grass and cut weeds. "We don't have that kind of problem in West Texas," we explained to them.

East Texas hasn't had as much rain as usual but they're way ahead of our region. Pastures look green as you drive through the countryside.

At Longview, we watched while hot air balloons were launched for contests and races. And it was very interesting, indeed.

A balloon appears to be about 40 feet tall and 25 or 30 feet in diameter. They unroll it from a box, open the bottom mouth that is maybe eight feet across and point a big electric fan fed by a 12-volt battery into it. Soon, the balloon begins inflating and rising off the ground. It is attached to a gondola that holds one or two people. A propane torch is lighted and fire is aimed up into the balloon. This hot air makes it rise and lift the gondola off the ground.

Talking to one of the balloon owners, we learned that they are completely at the mercy of the wind after they get up into the sky. They literally go with the wind at the speed of the wind. They can regulate their height by use of the propane torch and by pulling on a rope to spill air.

There were some 45 balloons from all over the country. Driving back home next day, one of the balloons passed up in the back of a pickup with a New Mexico license plate.

It takes a crew of four or five people to launch a balloon and to handle it when it comes down. As it drifts, the balloon is followed by the crew in their pickup or van. It's a very interesting hobby.

Mrs. Freda Weiser

A well known smiling face at the Cisco Senior Center is that of Freda Weiser. Mrs. Weiser recently celebrated her "81st" birthday. It is necessary for you to know that she is 81 because she is an amazing lady who works harder than many of those who are years younger.

On Monday, Mrs. Weiser was observed doing what she usually does: Volunteering in the serving line at the center. She assists those who cannot carry their trays, and even some who cannot (because of their health, etc.) stand in line.

Folklife Festival To Be Held in San Antonio

At the 13th Annual Texas Folklife Festival, August 2-5, Texas' proud history is brought vividly to life by friendly and talented folks like members of the Cisco Civic League.

The group demonstrates two important, though lesser known, examples of pioneer ingenuity: making "rush lights," or tallow torches, and baking "hoecakes."

As the group explains, rush lights are made by dipping cattails in tallow made from beef fat, and hoecakes are made by baking corn patties on the blade of a hoe over an open fire, just as fieldworkers once did on the frontier.

Sponsored by The University of Texas Institute of Texan Cultures at San Antonio, the Festival is an annual celebration of the state's ethnic diversity and pioneer heritage. Each August nearly 6,000 hard-working, fun-loving Texans come together to share the folkways of their ancestors with more than 100,000 visitors. Many facets of life on the Texas frontier

are spotlighted at the Festival, along with the contributions of the more than 30 ethnic groups who settled and built the Lone Star State.

Everyone is encouraged to participate in the various activities. For example, festival-goers can try their hand at spinning a lariat and operating an old-fashioned spinning wheel; milking a goat, shearing a sheep and making adobe bricks; baking "Depression" bread, patting out tortillas and cooking hoecakes. They can

learn folk dances, like the spirited Filipino tinkling; clap along with the fiddlers and other folk musicians; and sing along with the gospel groups.

The Festival menu features both country cooking and exotic cuisine. Visitors can sample such authentic dishes as Jewish falafel (pita bread with stuffing), Mexican fajitas, six varieties of sausage and three kinds of egg rolls, to name just few.

The Texas Folklife

Festival is held on the 15 acre grounds of The University of Texas Institute of Texan Cultures, located on HemisFair Plaza in downtown San Antonio. Tickets for the 1984 Festival are \$5 for adults, \$1 for children ages 6-12, and children under 6 are admitted free. To receive more information or to order tickets by mail, write the Texas Folklife Festival, Institute of Texan Cultures, P.O. Box 1226, San Antonio, Texas 78294, or call (512) 226-7651.
