CHS Homecoming Queen Loboos Will Travel To Albany Friday Night For District Game

1984 QUEEN—Angela Bradford, shown with her father, was named as the Homecoming Queen of Cisco High School in last Friday night's half-time activities. The Loboos hosted the Ranger Bulldogs for the annual event. (staff photo)

A good name is predicted for this Friday night's football battle between the Cisco Loboos and the Albany Lions in Albany. The Loboos are coming off a 69-19 defeat of Ranger, while the Lions are recuperating from a 26-7 loss to Coleman.

The Albany-Coleman game was not decided until the final quarter of play when Coleman scored 20 points to come from behind 7-6 and win the game, 26-7. Coleman defeated Cisco in the final quarter of play two weeks ago.

Cisco's Jr. High and High School junior varsity teams will play in Cisco Thursday night against teams from Albany. The 7th grade game is scheduled to begin at 5:00 p.m., followed by the 8th

JC Will Play In Athens

The Cisco Junior College Wranglers will take on Henderson County Jr. College this Saturday, October 13, at 2:30 p.m. in Athens. The Wranglers are 4-1 for the season.

CJC defeated West Texas State JV last Thursday night in Childress, by the score of 48-13. Five different passers combined for 297 yards on 24 of 38 passing attempts for Cisco.

The leader in the Wrangler passing attack was Mike Frazier. He threw four touchdown passes, while Gene Kennedy and Mike Nolan had one scoring pass each.

With only 3:14 gone in the opening period, the Wranglers struck quickly with Frazier hitting Mike Robertson on a 15-yard scoring play. Walter Rule added the extra point.

The following kick-off was returned by the West Texas JV for a touchdown, but the extra point attempt was blocked for a 7-6 score.

Frazier combined with Robertson again for a touchdown, this time a 27-yard play to make the score 14-6 with 3:30 left in the opening period. Frazier then hit Brian Taylor from 25 yards out with two seconds left in the first half to end the

scoring before half-time. In the second half, the Wranglers put the game away in the first seven minutes of the third quarter. A 32-yard pass from Frazier to Greg Holmes and a 31-yard pass from Kennedy to Ty Harding added two touchdowns to Cisco's score. Raymon Hernandez added the extra point to make the score 35-10-6.

David Smith added a four-yard run and Robby Thompson took a 15-yard pass from Nolan to complete the CJC scoring.

Commodities Will Be Given Here Oct. 17

Commodities will be distributed in Cisco on Wednesday, October 17, from 10 a.m. to 2 p.m. The new location will be the First Christian Church, 302 W. 8th St. This time the commodities available will be cheese and butter. All eligible people are encouraged to come.

linebacker. Coach Parchman says, "He is probably the key to their offense."

Albany also has some big kids "who like to line up and run right at you."

James Berry, Cisco end and safety, will probably be back this week in the lineup. He has been out with a broken bone in his wrist, but he had the cast removed on Tuesday of this week and is expected to play Friday night.

Coach Parchman said Berry has been working out for the past two weeks, doing everything except full speed contact drills.

The starting line-up is expected to be the same as in past weeks.

Fund Set Up For Pee Wee Cozart

A fund has been set up at 1st National Bank in Cisco to defray medical expenses for Pee Wee Cozart.

Mr. Cozart was transferred last week from Brownwood Regional Hospital to John Sealy Hospital in Galveston by Cisco Volunteer Firemen in the Department Rescue Unit. Pee Wee was an active Volunteer Fireman in Cisco for a number of years.

He contracted a rare fungus and has undergone two surgeries to remove an eye and bone from one side of his face and his palate.

He is expected to have another operation in the near

future. The doctors do not know how he contracted the fungus.

At the present time, Mr. Cozart is on the Kidney Dialysis Machine but after several X-rays and a brain scan, the fungus seems to have stopped spreading. Doctors have told him that he will probably stay at least another month in the hospital.

His wife Vivian is staying with him in Galveston. She reports that he is very homesick. Cards and letters may be sent to Pee Wee Cozart in care of Jeanie Sealy Wing, Room 311, Bed I, Galveston, Texas, 77550.

NOMINEES FOR Homecoming Queen 1984 were waiting on the sidelines during last Friday night's game with Ranger, before going on field during the half-time ceremony in which Angela Bradford was named as queen. Other nominees

were Sabrenia Justice, Tammy McCulloch, Lynn Pittman, Jeanine Reich, and Shelly Schaefer. Each of the girls were escorted on the field by their fathers. (staff photo)

HALL OF REMARKS

BY HERREL HALLMARK

THE LOBOOS really delighted a Homecoming crowd last Friday night as nothing seemed to go wrong for Cisco when they defeated Ranger 69-19 in Chesley Field. The Loboos will play Albany this Friday and it is expected to be a good game, since both teams need a win.

Half-time activities at last Friday night's game included the crowning of Angela Bradford as Homecoming Queen of Cisco High School. We offer our congratulations to Miss Bradford for her honor.

RAINS FELL in the Cisco area last weekend and more was predicted for this week. At the writing of this column, the skies were cloudy and looked like they were about

to open up and pour down some moisture. All the rain we can receive is appreciated, and everyone is urged to continue praying daily for more rain.

Jerry White, Pastor of the First Baptist Church of Stroud, Oklahoma. Bro. White has pastored churches in Texas and Oklahoma and has been in his present pastorate just over two years. The church he serves is one of the leading churches in N.E. Oklahoma. He is a native of Iron River, Michigan. He is a graduate of the University of Tulsa and Southwestern Baptist Theological Seminary.

"Bro. Jerry White is a powerful, dynamic preacher with a heart for the Lord. He desires to see churches grow and to see them reach people for Jesus Christ," said Bro. Cecil Deadman, pastor of East Cisco Baptist. The first revival services will be on Sunday, October 28th at 10:50 a.m. and 6:30 p.m. Noonday luncheon services will be held Monday through Thursday with the weeknight services beginning at 7:30 each evening. East Cisco Baptist Church Plans Attendance Campaign October 28

East Cisco Baptist Church will join other Southern Baptist Churches across the United States for a GREAT DAY IN THE MORNING High Attendance campaign, October 28th. Classes and Departments in the church were challenged in early September to set their goal for the day. Goals were suggested by Pastor Cecil Deadman, Sunday School Director Jack Phillips and Minister of Music and Youth, Steve Smith. With one or two exceptions the goals were accepted as presented or increased. The final church wide goal was set at 185 to be present on October 28th which represents 66 per cent of the total Sunday School enrollment. To encourage each class the Sunday School is involved in a GET OUT OF THE RED campaign. Each person who makes a commitment to attend on this special emphasis Sunday will help his or her class to Get Out of the Red according to Bro. Deadman. "A poster has been placed in each Sunday School Classroom illustrating that class goal using red strips. As the people sign up to attend they do so on a white gummed label which is placed over the red strip. When all of the red strips are covered that class is Out of the Red! Sign up began this past Sunday and two Departments have already signed up enough to reach their goal. Several classes are just one or two away from their goal and we still have three weeks to go in order to reach our overall goal", said the pastor. "We would invite anyone who does not have a church home to join us in our Bible Study program. Our Sunday School meets at 9:45 each Sunday morning, we would invite you to join us for a GREAT DAY IN THE MORNING, October 28th", said Bro. Deadman.

AMERICAN LEGION AUXILIARY

The president, Shirley Brewster, called the meeting to order and Gertrude Jones, led the prayer.

The group repeated the "Pledge to the Flag" and "The Preamble to the Constitution" in unison.

The minutes of the previous meeting were approved as read.

Putnam News

By Mrs. R.B. Taylor

Fall has evidently come to the Putnam area. Last Sunday the temperature was in the upper 30s and some said there was frost on their neighbors roof and called the neighbor out to verify it. I suppose that is a record for frost in Sept.

We haven't had but a few sprinkles of rain this week, but maybe enough to keep the top of the ground moist enough that the wheat some farmers have planted will come on up. We are still hoping and praying for that big rain to fill tanks and lakes.

Not much in the way of news has been going on. Mrs. Minnie Johnson of Dallas came out with Marie and Bill Lewis last week end. Minnie is the Lewis' landlady and she just wanted to visit Putnam. Come again, Minnie.

Rev. and Mrs. Jackie Willoughby had lunch and visited with Ollie Burnam Sunday after services at the Baptist Church.

Mr. and Mrs. Babe Donaway spent last weekend with her sister the Milton Donaways.

Mrs. Joe Shirley of Cisco visited Judy Maxwell Monday.

Mrs. Veda Yarbrough of the Golden Holiday Home at Baird celebrated her 90th birthday Tuesday. Visiting her were her sister Mrs. Faye Woods of Cisco, Mrs. Ollie Burnam, her nieces Mrs. Jo An Collinsworth of near Putnam, and Mrs. Stella Hughes of Cisco.

Mrs. Myrtle George met with a group of China painters to start a class at Putnam on Fridays. She will be coming every Friday.

Visiting Mrs. Myrtle Weeks have been her nieces, Mrs. Dora Eubanks, Mrs. Leta Jones and Mrs. Etta Summers of Admiral and Mrs. Dink Pruitt and Mrs. Mary Wagley of Baird.

Tom Lemmons of Abilene visited his grandmother Mrs. R.B. Taylor Wed. on his way to Eastland on business.

Ollie Burnam had lunch at Cisco Thurs. with Mrs. Fay Wood of Cisco and Mrs. Flossie Burnam of Lake Leon.

We understand that Mr. and Mrs. Witt from Moran

have moved into the house of the school ground. We are always glad to welcome new comers to Putnam.

Hubert Donaway and family of Odessa spent the weekend with his parents the Milton Donaways.

George Lee Ramsey of Austin visited his father and Maxie Solomon and the Milton Donaways the weekend.

Annie Mae Donaway, June McCullough and Dorothy Toni of Scranton acted as judges on the quilt exhibit at the Breckenridge Fair Friday.

Want to apologize to Mrs. Pete Mendez' mother for inadvertently omitting her name as a guest at the Woman's Study Club Luncheon last week.

The most efficient, the most economical heating and cooling system for your home.

THE Electric heat pump. It's part of "the plan" — the Energy Saving Plan Here's how it works:

THE ELECTRIC HEAT PUMP. It can save you money on your home energy bills. And when it's used along with other WTU-recommended energy conservation measures according to the ENERGY SAVING PLAN, you can save even more. WTU will pay YOU money when you install an electric heat pump to meet the E.S.P. requirements that add to your home's comfort and energy efficiency. That's where the ELECTRIC HEAT PUMP comes in — it's part of "the plan" because it's the most efficient system for heating and cooling. During the winter it removes heat from the outside air and pumps it into your home. In the summer it reverses the process and becomes an air conditioner. So you get even comfort year-round. Roaring Ranger Days Oct. 13

Roaring Ranger days will be roaring a little louder than usual when the James Gang rides into town. The 55 member James Gang is a group of Granbury area residents that dress in authentic 1800s costumes and recreate gunfights, bank robberies, saloon shootouts, and even a hanging. The gang will appear Saturday, October 13th, in Ranger.

Judge Roy Bean (Larry Woods) said that most of the members are "History Nuts" and they try to be as authentic as possible in their dress and actions. Woods said that the members have assembled their outfits by looking through antique shops and junk stores for apparel and accessories. The weapons that the

James Gang uses are also historical in nature, ranging from the old cap and ball flintlocks to the "modern" double action pistols which were introduced in the late 1800s.

The James Gang began in Granbury as a social club for history buffs but has grown into a group that not only entertains all over Texas but performs many acts of charity and service as well. With money that has been raised performing the James Gang has donated a basketball court to a halfway house in Granbury and to a beautification project for Lake Granbury.

The Gang recently has

performed in Springtown, at the Fort Worth Fat Stock Show Parade and the Granbury Bean Cook-off.

Roaring Ranger Days will also feature the original Our Gang- Little Rascals own Spanky McFarland, a Hot Air Balloon, the World Championship of Swamp Surfing, a Classic Car show, featuring over 50 antique and classic automobiles. Almost anything goes games competition, Live musical entertainment, Wonderful Women, Washer pitching, horseshoe pitching, street carnival, food booths, parade and a barn dance featuring a live country western band.

HEY KIDS!!!!!! Spanky is coming to town for Roaring Ranger Days...Saturday, October 13th, and to honor Spanky.

KEAS Radio is sponsoring a "Spanky and Our Gang" Look-A-Like contest. Any child of any age is eligible to enter and may do so by being

dressed in costume. So if you think you look like Spanky, Buckwheat, Alfalfa, Darla, Porky or any of the other "Little Rascals" come and

meet the original Spanky McFarland in person and compete for prizes in the KEAS "Spanky and Our Gang" Look-A-Like contest at Roaring Ranger Days.

Loboes Defeat Bulldogs 69-To-19 In Homecoming

The Cisco Loboes climaxed a week of Cisco High School Homecoming activities here Friday night as they defeated the Ranger Bulldogs 69-to-19 in District 11-AA play.

The Loboes are now 1-1 in district play and 2-3 for the season. Ranger is also now 2-3 for the season, but they are 0-2 in District play.

Cisco scored three touchdowns in the first quarter, four in the second quarter, and two in each of the final two quarters. Ranger managed two touchdowns in the first quarter and one in the third quarter.

The Loboes received the opening kick-off from Ranger and started their first drive of the game from their own 28-yard line. With Wade Shackelford at quarterback, the Loboes moved the ball downfield in four plays to Ranger's 45 on runs by Josh Potter and QB Shackelford.

A handoff from QB Shackelford to Johnny Ramirez netted a 45-yard touchdown. A try for two extra points failed on a quarterback sneak, leaving the score at 6-to-0, with 10:54 left in the first quarter.

Ranger came back on their first possession of the ball and started a drive from their own 30-yard line. Craig Koch quarterbacked for the Bulldogs and runs by Jeff Thackerson, Billy Bradshaw and Andy Marusak moved the ball to Cisco's 42 in six plays. A pass to Billy Grumbles netted the touchdown for Ranger. The extra point kick was blocked by Cisco's Danny Kearney, leaving the score tied at 6-to-6 with 7:58 left in the first quarter.

Later in the first quarter, Cisco's Patrick Qualls in-

tercepted a Bulldog pass at Cisco's 47 to set up the next scoring drive for the Loboes. A run by Ramirez moved the ball to Ranger's 21, and a pass to Steve Abbott carried it on down to the four-yard line. A handoff to Potter netted the touchdown and the extra point kick by Johnny Seabourn was good making the score 13-to-6, with 1:42 left in the first quarter.

On the ensuing kick-off, Ranger's Breck Daniels returned the ball 92 yards for a touchdown. The extra point kick by Koch was good to tie the score again, this time at 13-to-13 with 1:26 left in the first quarter.

Cisco received the kick from Ranger and started a drive from their own 34-yard line. Two runs by Ramirez placed the ball on Ranger's 13-yard line. A hand-off to Abbott moved the ball into the end zone for a touchdown. A run by Ramirez for two extra points failed, making the score 19-to-13, with 37 seconds left in the first quarter.

On Cisco's next possession of the ball, a drive which originated on the Loboes 48-yard line took nine plays for Abbott to score on a 13-yard pass play. Potter, Ramirez, QB Shackelford and Kearney carried the ball during the drive and Mike Wester received one pass. A pass to Abbott also netted two extra points for a score of 27-to-13, with 7:31 left in the second quarter.

Cisco's James Deadman then booted an on-sides kick which was recovered by Cisco at Ranger's 47-yard line. On the first play from scrimmage, QB Shackelford hit Abbott for a 47-yard pass play touchdown. A pass to Qualls fell incomplete for two extra points leaving the score 33-to-13, with 7:22 left

in the second quarter.

The final touchdown of the first half came about when Cisco took possession of the ball at Ranger's 34-yard line. Runs by Ramirez and Potter moved the ball to Ranger's 19, and another pass to Abbott netted the touchdown. A pass to Ramirez tacked on two extra points for a half-time score of 41-to-13, with 4:38 left in the second quarter.

With 1:14 left in the second quarter, Cisco again scored on a 24-yard pass play to Potter, but a Cisco penalty wiped out the touchdown. Since it was a fourth down play, the ball was then turned over to Ranger.

In the second half, Cisco scored on their first possession of the ball when Abbott returned a Ranger punt from Cisco's 28 to Ranger's 23-yard line. On the first play from scrimmage, Cisco's Potter scrambled 23-yards for the touchdown. A pass to Keith Reich added two more points for a score of 49-to-13, with 10:56 left in the third quarter.

Cisco took over their next possession of the ball at their own 44-yard line. A run by Potter and catch by Eric Zarate moved the ball to Ranger's 18-yard line in two plays. A handoff to Ramirez netted the touchdown and a pass-play for two extra points was batted down by Ranger's David Stewart. With 5:36 left in the third quarter, Cisco led by the score of 55-to-13.

On Ranger's next possession, they moved the ball from their own 37-yard line to Cisco's 12 in five plays. Runs by Daniels and Dean Ishmael were instrumental in the drive, as was a pitch-out to Daniels who then completed a pass to Shane Rogers. From Cisco's 12, it

took Ranger three attempts to complete a pass to Rocky Massegee for the touchdown. The extra point kick was blocked by Cisco for a score of 55-to-19 with 3:22 in the third quarter.

Late in the third quarter, Cisco's Shelby Nixon intercepted a pass from Ranger's Koch setting up a drive on the Bulldog's 41-yard line. Runs by Kearney, Potter and Abbott, along with a pass to Potter and a Ranger penalty, moved the ball to Ranger's 10-yard line in eight plays. A pass from QB John Gonzales to Abbott gained another Cisco touchdown. A pass from Gonzales to Abbott on a faked extra point kick gained two final points for a score of 69-to-19 with 4:55 left in the game.

ALBUQUERQUE, N.M.—It's vacation time at our house and we're parked in a travel trailer without utilities in a pasture 10 miles north of Albuquerque and attending the 13th annual Albuquerque International Balloon Fiesta.

There are 130 or so travel trailers parked in the same area in an outing arranged by the New Mexico Unit of the club to which we belong. We're all in a "dry camp," which means there are no water, electric or sewer hookups. We filled our

50-gallon water tank before arriving with an empty sewage holding tank. And we have no television or lights other than can be provided by the trailer battery. The outing was scheduled from Oct. 6 to the 14th.

The program began Saturday morning, Oct. 6, at 7 a.m. as the 456 hot air balloons began rising in waves of about 100 from the pasture area. They're all colors and shapes imaginable—a very spectacular sight, indeed.

Each balloon, which stands some 50 to 70 feet when inflated and 30 to 40 feet in diameter, has no power and gets its lift from hot air provided by a propane torch that blows up inside it. The balloons only fly when the wind is less than eight miles per hour.

The world's biggest hot air ballooning event this year has attracted folks from virtually every state and a number of foreign countries. Each balloon has a "chase crew" of from four to ten folks in a pickup or van. They help with the launching and then follow to retrieve the balloon and the folks (one to four) riding in it.

As we watched, the balloons went up and drifted with the wind and you could see the chase crews heading after them. They talk by CB radio and don't seem to get lost.

As we watched, the balloons went up and drifted with the wind and you could see the chase crews heading after them. They talk by CB radio and don't seem to get lost.

The U.S. Post Office has a sub-station out in the pasture where a special cancellation stamp is supposed to be used on the envelopes and cards.

Tens of thousands of people from all over were on hand in the pasture early Oct. 6th to watch. And they were out again on the 7th. After the first two days, championship events were

or the schedule. You've never seen anything like the traffic in the area.

In the center of it all, there were concession stands that had all sorts of souvenirs and food and drinks for sale.

A Kodak company man reported that the Albuquerque balloon event was the 2nd most photography spectacular in the world, judging from film sales. The no. one event is the Rose Bowl program on New Year's.

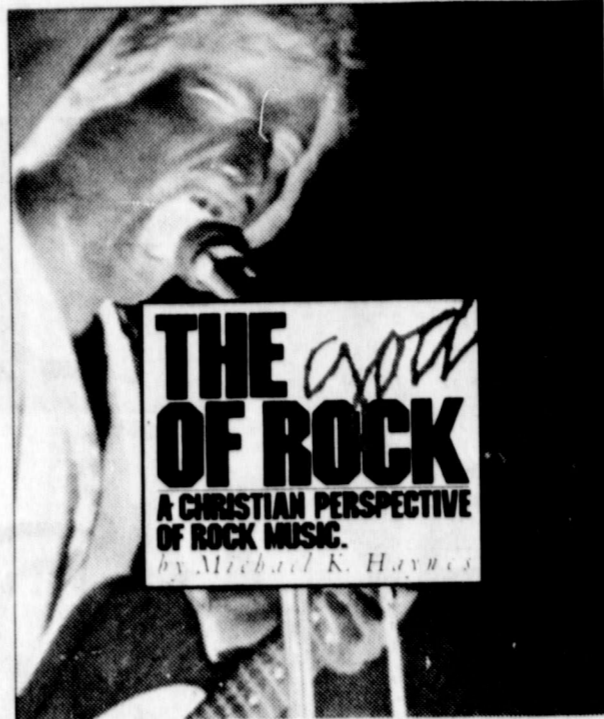

After the opening day balloon ascension ceremonies and the 560 hot air vehicles going up in a period of two hours, we watched with awe most of the morning. Then, we rushed to the Albuquerque airport for another spectacular program.

The U.S. Army's Golden Knights, a precision parachute team, was in town for all sorts of jumps over the airport with a crowd of more than 100,000 people watching.

The Air Force Thunderbirds, a precision flying team of six F-16's, staged an air show the likes of which you'll seldom see. This fine program last for an hour or more.

OUR VACATION was a bit belated this year as we were "laid low" by a heart ailment five months or so ago. And every time we asked our doctor about vacationing, he'd say "Let's not get eager." Finally, he yielded and we loaded up and headed out.

Our neighbors in the travel trailer pasture camp are neighbors from Cisco—The Ed Bradshaws and the John McGuires. And they seem to be enjoying hot air ballooning very much indeed. See you soon.

Country Living Tour Of Europe

By Adeline Meredith

When I sat down to write this account of our July, 1984, trip to Europe which was planned by Southland Travel Service and hosted by Gilbert and me, I knew it was going to be an impossible job. On completion of my attempt, and after re-reading what I have written, I am overwhelmed by the fact that I have very inadequately told of this wonderful trip. I find some consolation in being assured that it was not possible to give a complete account of all we saw and did. I am sure those who were with us could add many interesting accounts about our adventure together, but I hope this will give you readers an idea of the delightful time we had.

Twenty-three of us met at Dallas-Fort Worth airport on the afternoon of July 18th to begin a memorable trip to Europe. This group of delightful people we would be enjoying for the next 14 days consisted of Inez Cogburn and Eva Thornal from Eastland; Sue and Brice Allsup; Dorothy Anderson of Ranger and Dorothy's granddaughter, Tanya Anderson, from Albany, Virginia, and Burl Baker, Pollye Wheeler and Beth Snyder, also from Albany; Rosemary Fambro from Strawn; Nan Sauls and Louise Kimmell from Cisco; Gladys Owen from Lampasas; Doris Sutton from Ouray, Colorado; Marie Turner and Jo Welsh from Breckenridge; Mildred Mancill from Haskell; Estelle Parrish from Moran, and Jimmie and Gerald Louder from Breckenridge.

We had a good flight to London. The darkness of night was short, as was sleep within the group. We arrived at Gatwick airport at about 9:00 a.m. London time. We claimed our baggage, went through customs uneventfully and were met by a person we were to learn to respect and love in the next few days--Sepp!--how do I describe this man who on first sight appeared rather unkept? We were to find Sepp could be everything to everyone. He took care of any unexpected happening and added many delightful things to our trip which we had not expected. His knowledge about the many beautiful and historical places we were to see, which he generously shared us, amazed us all.

Sepp gathered us all together and took us to a bank in the airport to exchange travelers checks for British money, and then to our coach. There we met our excellent driver, Dave, and 19 people from South Carolina, two from Florida and two from Tennessee. These wonderful people were to become our good friends as we traveled together for the next 14 days.

Our drive from Gatwick into London to our hotel was a shock to those of us who had come from dry, brown, hot West Texas: green grass and trees were everywhere we looked! I was again amazed at the beautiful flowers which grow and bloom in every yard.

After we checked into our hotel, the lovely Hilton International Kensington, we went next door and had some lunch in a pub. We enjoyed our experiences in pubs, finding the food filling, good, and very English.

That afternoon was free. Many of us went to Harrods, some rode the double decker buses, other just roamed around the area of our hotel and some tried to catch up on sleep lost the night before.

That night we all gathered together for a get-acquainted meeting and for Sepp to tell us some things we could expect in the days ahead of us.

Gilbert and I, with some of the group, found a very good Greek restaurant across the street from the hotel. We all ordered different things and then shared so we all had a sample of the delicious dishes.

On Friday, July 20, we received wake up calls by 7 o'clock. The Continental breakfast we had been promised turned out to be a breakfast buffet of juices, fruits, eggs, bacon, sausage, oatmeal, toast, watermelon, yogurt, pastries and coffee. We had the strong English coffee; and Sepp was good to see all through the trip that we always had pitchers of water. We often received strange glances from waiters when we asked that our pitchers of water be refilled.

We left our hotel at around 8:30 a.m. to see some of London. We went into St. Paul's Cathedral, the church where Prince Charles and Princess Diana were married, and into Westminster Abbey, the coronation church of kings and queens. We also saw Big Ben, the Houses of Parliament, Buckingham Palace, No. 10 Downing Street, Piccadilly Circus, Trafalgar Square, Tower Bridge, the Tower of London and so much more. One of the most impressive stops we made was on a bridge crossing the Thames River providing an excellent view of Big Ben

and the Houses of Parliament.

That afternoon we were free to do the things we chose: some scurried back to Harrod's, others had other parts of London they wanted to visit and so we went many directions and then gathered together again that night for a wonderful evening.

We went by coach to ancient Tiddy Dols for dinner. A small group of men entertained us with comedy and song as we had our dinner of emerald soup (a thick, green soup of pureed vegetables), Beef Wellington, green beans and new potatoes. Our dessert was Tiddy Dols' original gingerbread which was made with butter, crystallized fruit and Cotswold honey. This delicious gingerbread was topped with "double cream", which we would call "whipped cream"; they call the coffee cream which was served with the strong coffee, always at the end of a meal, "single cream". After dinner we went to see a very good production of "Singing In The Rain" at the Palladium. That was an experience! Up to our right was the Queen's box.

On Saturday, July 21st, we were up by 6 o'clock, had a nice big breakfast, and were on our way to Windsor Castle by 9 o'clock. I can't describe Windsor Castle; it's so massive, with its immaculately manicured landscape, it's hard to imagine anyone could call it "home".

We went back to the hotel, check out and had a quick lunch. Gilbert and I again took advantage of the pub next door.

We left London for Dover at 1:30. On our way to Dover we stopped to visit a farm family in the County of Kent. Richard Price was waiting for us at the end of their road to ride with us to his house. The Price family was so friendly it seemed hard to believe we had just met. Even their grandchild went from one to another of us as though he already knew us. Mr. Price showed us his 800 turkeys and some of his 80 cows; he also had 1000 ewes. He grows potatoes, wheat and barley. He had 800 acres of land. His son brought in a big load of barley, which had just been cut, while we were there. Mrs Price was ready for us: her dining table was loaded with food which she service with coffee and tea. Her mother, daughter and daughter-in-law helped her. After our good visit and food we returned to our coach and Mrs. Price was still waving to us as we drove far down the lane.

We spent the night in Dover in the Holiday Inn. After a lovely dinner of chicken in wine, potatoes, cauliflower, peas, rolls, delicious dessert and coffee, we walked along the shore of the Channel, enjoyed the view of the White Cliffs and the many beautiful flowers.

The next morning, Sunday, July 22nd, we had much more for breakfast than the Continental breakfast Southland had promised us on the tour. We had fruit, juice, rolls, bacon, sausage, eggs and coffee. Our breakfast each morning turned out to be much like this. We then went by coach to the port to board the ferry to cross the Channel to Calais. We had a lovely trip across. The weather was wonderful and our pictures of the White Cliffs are very good.

At Calais we were met by Willie, who was to be our driver for 11 days, with a brand-new, air-conditioned coach. Willie was a good driver and we were all to come to appreciate him very much.

Shortly after we left Calais to drive to Paris, we stopped to get a light lunch. When we went to the ladies restroom, a man was standing in line inside the restroom with the ladies who were waiting. Someone said something about his being there in the ladies restroom and he said, "We have unisex here. You will have to get used to it!"

When we arrived in Paris we checked into the magnificent Concord Lafayette hotel and had a very good dinner.

Monday, July 23rd, we saw a lot of Paris. First of all we had a picture made of our group in front of the Eiffel Tower and after that we went to Concord Square where Marie Antoinette and Louis XIV were beheaded. At the Louvre we saw Mona Lisa, Winged Victory, Venus de Milo and many other fine works of art. We were impressed with the outside beauty of Notre Dame and, when inside, were awed by the beauty of the stained glass windows. We also saw the Pantheon, where Victor Hugo, Voltaire and Rousseau are buried; the Invalides, where Napoleon's tomb is; Luxembourg Palace, where the Senate now sits; the Opera House; the Arch of Triumph; and drove through Roman City which is the oldest district in Paris. We saw so many more beautiful sights in the lovely old city, and on several occasions drove down the Champs Elysees.

We had a light lunch. I tried a delicious sandwich of beef cooked inside the bread. Sepp said they were considering having a chain of fast food restaurants in the United States which will serve these sandwiches. I hope so, because I especially liked it.

After a little shopping, we drove out to Versailles. The

palace was closed but we enjoyed the formal gardens.

We enjoyed a good dinner of melon, steak, potatoes, green beans, cheese and ice cream at La Nouvelle Eve which was built in 1898 and saw a grand spectacle. The show consisted of a comedian, topless dancers, singers, strong men, jugglers and trapeze artists.

Before we went back to our hotel we enjoyed a drive about this beautiful old city. We walked around and into the Basilica Coeur of Montmartre. We also walked under the Arch of Triumph--a lovely sight at night or in the day.

Tuesday morning we left the lovely Concord Lafayette and went to a street food market where we saw all kinds of foods there for sale. The unprotected meat, as well as dogs being allowed in eating places, was something we found hard to accept.

On our way to Switzerland we stopped in Burgundy for lunch. All along the way, when Sepp was not pointing out interesting things, he was telling us interesting facts about the countries we were seeing. He said France and England exchange electric power. Their peak periods are at different times, so at peak times France is using English power and at England's peak time they use French power. The speed limit was 70

mph for our coach and 80 for small cars. Gasoline was \$3.00 per gallon and diesel was \$2.50 per gallon.

We saw beautiful rose fields, grain and sunflowers. The grain was very ripe and needed to be cut. The vineyards were small and fenced, showing each small field was owned by different growers.

We drove through Dole, the birthplace of Louis Pasteur. As we drove through the Jura Mountains we saw beautiful, fat Piruse cattle grazing on the tall, green grass. We were interested by the very small, good gardens we saw along our way; it seemed everyone had a garden.

We stopped in Champagne for something to drink, and bought

homemade ice cream from a man with a stand on the sidewalk. Sepp was very good about having Willie stop often so we could get drinks and use the restroom. As we crossed the French border into Switzerland we saw a Swiss being detained because he was caught trying to smuggle liquor into Switzerland, which was formed in 1291, has about 6.3 million inhabitants. I do believe that every square mile of this country, which is about the size of Maryland, is beautiful.

FmHA Assistance To Farmers In Debt Restructuring

FOUR TYPES OF ACTION: The President announced on September 18, 1984, that he has authorized the following actions by the Farmers Home Administration (FmHA) to help farmers who have demonstrated good production skills but cannot repay existing loans due to cash flow problems:

A. FmHA may set aside a part of an existing farmer borrower's debt without interest, thereby reducing payments so that the remaining payments will be within the borrower's positive cash flow necessary for repayment ability.

B. FmHA may give loan guarantees not to exceed 90 percent to other lending institutions that reduce a debt enough to allow a borrower to have the positive cash flow necessary for repayment ability.

C. FmHA will provide more credit counseling and farm management guidance to farmers.

D. FmHA will conduct a pilot project to evaluate contracting for services of other lenders experienced in servicing farm loans to augment regular FmHA county officer personnel.

(A) LOANS HELD BY FmHA

What borrowers will be eligible for assistance? All FmHA borrowers who are good managers and are in financial distress because their loan payment obligations exceed what they can pay from existing cash flow of their farm operations. What action will be taken to restructure the debt?

FmHA may set aside collection of up to 25 percent, not to exceed \$100,000, of the borrower's total debt to FmHA. If it is possible to work out a repayment schedule the borrower can meet based on the balance not set aside, payment will be rescheduled on this basis. It must be determined that a new, reduced schedule of payments can be met from the borrower's anticipated cash flow and that full payment can be resumed at the end of the set aside period. For how long will the debt be set aside?

Five years. Will the portion of debt set aside draw interest?

No, it will not accrue interest during the set aside period.

How will the set-aside portion eventually be paid off? Payments on portions set aside will resume at the end of the 5-year period.

How much loan funding does FmHA require to implement this part of the program?

None. It can be accomplished under the Secretary's present statutory authority to set aside or reschedule a borrower's existing obligation to FmHA. Restructuring loan payment to bring them within the means of the borrower's cash flow involves no disbursement of additional loan money.

(B) LOANS HELD BY OTHER LENDERS

What borrowers will be eligible for assistance?

Farmers who are good managers and whose loans are in a state of nonperformance or other classification of difficulty, and who meet the statutory restriction of FmHA services to owners or operators of "not larger than family farms."

What form will FmHA assistance take? Issuance to the bank, Farm Credit System lender or other eligible private-sector lender of a loan guarantee.

How can a lender qualify for the guarantee?

The lender must write off enough of what the borrower owes, and take any other necessary action to assure that the borrower's repayment obligation can be met from the borrower's anticipated cash flow. At least 10% of a borrower's total

debt must be written off. In adjusting the rate of payment to the farmer's cash flow, it may be necessary to reduce the balance due by more than 10 percent and/or liberalize the borrower's repayment schedule.

How would this restructuring benefit borrower and lender?

It would restructure the borrower's debt on a basis within the borrower's ability to pay, and it would avert loan failure. Where and by whom is a guarantee application made?

A lender must initiate an application, and should consult with the local FmHA office for guidance on assembling its first request. All applications are received and processed at FmHA county offices. What interest rate will the loan bear?

The rate agreed to by lender and borrower not to exceed the rate given to the lender's best farm borrower. What are the limits on FmHA-guaranteed loan amounts?

\$400,000 for operating purposes, \$300,000 for real estate purposes. How will this part (B) of the debt restructuring program be funded?

Under FmHA's appropriated authority to guarantee other lenders' loans for farm operating and real estate purposes. What happens when loans are paid in full?

When borrowers pay the guaranteed loans in full, the

guarantee is automatically terminated. **(C) ADDITIONAL CREDIT AND MANAGEMENT GUIDANCE** How will this additional assistance be provided?

By contracted experts who are competent to advise farmers on developing and carrying out financial and operational plans that are tailored to their needs and will enhance prospects for success of their farming operations. This service is extended from county offices and continues the professional expertise of FmHA along with the addition of contracted staff. Who may obtain this assistance?

Any farmer or lender who requests it. The service will not be limited to those who are direct borrowers or loan guarantee beneficiaries of FmHA.

(D) PILOT PROJECT FOR CONTRACTING LOAN SERVICES

What services will be obtained?

Services of other lender organizations experienced in servicing agricultural loans, to give FmHA's full-time professional staff reinforcement in peak seasons of farm loan servicing. When will contracting occur?

Contracting at the county office level for an initial pilot program in several critical states will be completed by January 1, 1985.

At what level will contracting be conducted? County office level.

4-H Sponsor Eye Care And Safety Program

A special 4-H program on eye care and safety may reach as many as 70,000 youngsters in Texas' public schools this year.

The program is built around the character, "Seymour Safely," which is used in educational materials, games, activities and puppet shows to hold the children's attention while they learn about their eyes.

"The materials and programs are designed for use with third graders," points out Dr. Lynne Thibodeaux, a 4-H specialist with the Texas Agricultural Extension Service, Texas A&M University System, which administers the 4-H program. "Lessons focus on the parts of the eye and their functions, nutrition and health habits for healthy eyes, optical illusions and a visit to the optometrist's office."

Thibodeaux notes that the eye care program actually started about two years ago as a cooperative effort between the Texas Optometric Association Auxiliary and the state 4-H office.

"At the time some county Extension agents were using various materials on eye care in 4-H projects with great success," the 4-H specialist points out. "However, because of the wealth of eye care information and the need to develop materials for various age levels, a coordinated pro-

gram was launched, opening schools doors to Seymour Safely." The total budget for the 4-H eye care and safety program has reached about \$18,000, says Thibodeaux, with most of the financial support coming from TOAA. A special grant of \$1,300 also came from the National 4-H Council as part of a \$12,000 nationwide contribution by the American Optometric Association, which has supported 4-H vision education programs for the past nine years.

1984 Dairy Short Course Offered

The 1984 Texas Dairy Short Course will offer five sessions at various locations in the state's dairying heartland.

The annual short course schedule is as follows: Oct. 29, Washington-on-the-Brazos; Oct. 30, Civic Center, Sulphur Springs; Oct. 31, Church Hall, Windthorst; Nov. 1, Texas A&M University Agricultural Research and Extension Center, Stephenville; and Nov. 2, Civic Center, Cleburne.

"This year's short course focuses on economic strategies and management practices that should cost little to implement but have the potential for big payoff," points out Dr. Mike Tomaszewski, dairy specialist with the Texas Agricultural Extension Service, Texas A&M University System, which is conducting the short course.

"Particular emphasis will be on efficient feeding of cows, reproductive management and mastitis control," adds Tomaszewski, "all practical things that can increase profitability without a big investment."

Each of the five sessions begins with registration at 9:30 a.m.; the program runs from 10 a.m. to 3 p.m. Speakers addressing each session will be Dr. James Richardson, associate professor of agricultural economics at Texas A&M University; Dr. Nate Smith, director of the Dairy Research Division of Ralston Purina, St. Louis, Mo.; Dr. Paul Harms, professor of animal science at Texas A&M; and Dr. Bob Bushnell, veterinarian with

the California Cooperative Extension Service. Richardson will discuss 1985 dairying prospects and findings from a recent economic study of dairies in the Stephenville and Sulphur Springs areas.

Smith will address the critical area of feeding cows for profitable production, notes Tomaszewski.

Harms will focus on efficient reproductive management and will discuss recent research at Texas A&M which suggests some changes that producers can make to increase lifetime profitability.

Bushnell will discuss mastitis control measures that dairymen should find easy to implement, adds Tomaszewski.

SEEDS FROM THE SOWER
By Michael A. Guido, Metter, Georgia

He was a tough kid. The neighbors were afraid of him, and the public schools had expelled him. But he had a friend who loved him.

One day the boy said to him, "You're good, and you always do the right things. I'm bad, and I always do the wrong things. If you could just come into me, then I'd be good."

That is the secret of living the Christian life!

It is not a question of repression—that is, suppressing the wrong feelings within. If I am boiling within I might as well boil

without. It is not by imitation. Some people are always trying to imitate Christ or Christians; trying and praying to be good. Just like the girl who prayed, "God, make me good. If at first You don't succeed, try again."

But it is by the in-coming Christ. Being a Christian and living the Christian life is inviting Christ to come into your heart and allowing Him to live His life all over again in you. And the good news is Christ wants to live in you.

Lights From The Christian World by Josephine Cleveland

Some people have given long years of their lives in search for someone of something. Their fervor is no guarantee of success and their fervor often turns to discouragement.

However, if they were sent on a search and were given an ironclad guarantee that they would find the object of their search, their attitude would be one of excitement.

The Word of God gives such a guarantee. "You will find me when you seek me, if you look for me in earnest. Jeremiah 29:13.

To seek God is to find Him! The explanation of that guaranteed success is that when we really look for God in earnest, we discover that a

two-way search is underway—God is also looking for us! He yearns to meet us. Looking back on his experience, the earnest seeker recognizes that "our love for him comes as a result of his loving us first." II John 4:19.

The key issue however, is this: Are you looking for God in earnest? If so, you will find him.

Dear Lord, we thank you that you are the good

TODAYS BIBLE TRIVIA

I was called a blameless man.
Upright and righteous throughout the land.
My sons were seven, my daughters three,
Seven thousand sheep belonged to me.
I lost my cattle and children all,
Sickness to me it did befall.

My wife said, "Curse God and die"
Death to me did pass by.
I remained faithful to the end,
In spite of Satan or my friend.

God blessed me with many sheep.
For my faith I did keep.
I got old and finally died,
All my days were satisfied.
