

# League Baseball Club Being Reorganized

Mr. Muleshoe

Reorganization of the Muleshoe entry in the Capitol League will be gone into at a meeting of local baseball fans to be held at the Goss Service Station tonight.

Six clubs were represented when a general meeting of the league was held at Amherst, Tuesday night, including Muleshoe, Sudan, Amherst, Olton, Springlake, and Earth. It is understood that the towns of Needmore, Enochs, and Anton, although they were not represented, expect to have entries in the league.

Eight clubs, including all those named above, with the exception of Olton, finished out the league season last year.

The Muleshoe team wound up the season in fine shape, having a bank balance on hand, new uniforms and much equipment.

Attending the meeting at Amherst Tuesday night from Muleshoe were Carroll Goss, Les Lambert, and Carroll Howell.

First workout for the prospective candidates for the Muleshoe club will be held at Legion Field Friday afternoon at 6 o'clock, weather permitting, and all who wish to try for the team are asked to be present. All fans and players are invited to attend tonight's session.

## Softball Players Are Asked To Meet

Everyone interested in forming a softball league in Muleshoe is asked to meet Friday night, April 2, at 8 o'clock with Billy Holder, at his home, the Royce Garth garage apartment. Players and fans alike are invited to attend, Mr. Holder said.

## Visiting Texas

Our livestock boys look everything Littlefield had to offer at their show except the show ring itself. We may not take many football games from them, but we always manage to take home the bacon when it comes to livestock shows. Lamb county, how come you all so backward in livestock production?

You may console yourselves, however, by considering the facts; Bailey county boys have taken high honors wherever they have showed this year. Amarillo and Fort Worth included. We just have the know how, and if you don't have it, you don't have it.

## Fire Fighting Tips For Home Owners

Fires are extinguished in two ways: (1) by reducing the temperature of the burning materials to below their burning point; and (2) by smothering the fire to shut off its oxygen supply. The first method is generally used for burning solids, but the second method, smothering, is more effective for gasoline and kerosene fires.

Foam, carbon dioxide and vaporizing liquid extinguishers are among the appliances used for fighting large liquid fires. In homes, however, where extinguishers are not usually available, it is practical to keep a bucket of sand hand for small gasoline or kerosene fires.

It is a good idea to keep sand for fire fighting purposes in a rounded bottom or conical shaped pail. The fact that the bottom of the pail isn't flat discourages its use as a scrub bucket, thus keeping it in constant use as a fire pail. Such pails are made of rust resistant galvanized steel. They should be hung on the back porch where they will be ready for any emergency.

## Lubbock Said "In Heart Of Sandstorm Belt"

E. R. Hart hands The Journal a clipping from The Dallas News that includes a statement that Lubbock people may not like. Discussing Tuesday's sandstorms The News article said: "Lubbock, in the heart of the West Texas sandstorm belt, reported winds of 24 miles an hour."

Muleshoe was hard hit that day, but visitors here said the dirt blew no worse here than in most other Panhandle and Plains communities.

## Rainbow Girls Service

Members of the local Rainbow Girls Assembly are expected to attend services at the First Methodist church at 7:30 Sunday evening, when Rev. T. G. Craft, pastor, will deliver a sermon in which he will discuss the work of the order. Everyone is invited.

## Attend Mason Meeting In Lubbock Tuesday Night

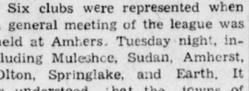

A group of Master Masons of this community went to Lubbock Tuesday night to witness the conferring of the M. M. degree on a candidate by the crack Lubbock team, using full dress. A supper was served.

Those attending from Muleshoe included Dan Winn, W. B. Winn, Connie Gupton, Ross Goodwin, O. H. Morris, Earl Ladd, Dee Brown, Blondy Ray, Buck Wood and Ross Goodwin.

## Spent Easter Here

Mr. and Mrs. Clyde Bray, Jr., of twin sons, Ronald and Rodney, of Austin, spent the Easter weekend with his parents, Mr. and Mrs. Clyde Bray, Sr. Dan Bray, attending a school in Lubbock, also spent the weekend here with his parents.

## Mahon Announces For Re-election

Congressman George Mahon has authorized The Journal to announce his candidacy for reelection, subject to the Democratic Primaries this summer.

## Church To Hold Gospel Meeting

A gospel meeting at the Muleshoe Church of Christ is announced by Ebb Randol, minister, the meeting to begin tomorrow, Friday, April 2, and to continue through April 11.

Evangelist W. T. Garnett, of Lovington, N. M., will be the preacher, who will arrive Monday. Minister Randol will preach at services Friday through Sunday.

Among subjects to be discussed during the first days of the meeting by the minister are: Friday, "Manifestation of Faith;" Saturday, "Preaching the Word;" Sunday morning, "Have We Outgrown Our Plea;" and Sunday evening, "A Question by Peter Answered by Paul."

Everyone is invited to attend these services, to be held in the new building of the church.

## Junior Class Attends Party Friday Night

The Junior class of Muleshoe high and their sponsors attended a skating party in Clovis Friday evening, March 28. The group attended the theatre after the party.

About twenty-five persons attended. The room mothers furnished sandwiches for refreshments.

## Buy Farm At Progress

A. E. Kreigel and family have bought the Leon Smith farm in the Progress community and are moving there from Oklahoma Lane.

## Easter Guests

Guests in the home of Mr. and Mrs. Hubert Gammons Sunday were Mr. and Mrs. Robert Butler and son, Stephen, Mr. and Mrs. E. G. Butler and son, E. G., Jr., Mr. and Mrs. W. L. Kay, Dwan and Janell, all of Amherst; Mr. and Mrs. W. W. Couch, Mr. and Mrs. Loyd Stephens and children, and Mr. and Mrs. C. E. Roark and children, all of West Camp community.

All the children enjoyed an Easter egg hunt in the afternoon.

## West Camp District To Merge With Muleshoe And Farwell Districts Soon

West Camp school district will be consolidated with Muleshoe and Farwell districts under agreements reached in the last few days by trustees and others representing the three districts.

Metes and bounds of the division line are not available to The Journal. In general, however, Muleshoe will get that part lying south of a line about one half mile north of West Camp school; shortly beyond the school, the line jogs south then continues west to the state line.

Farwell school district will serve the northwest portion of the West Camp district. Negotiations have been underway between representatives of the three districts for several days.

Legal aspects of the proposed consolidations are being threshed out by attorneys.

# THE MULESHOE JOURNAL

Dedicated To The Progress And Development Of Bailey County And The Great Muleshoe Country

VOLUME 26 NUMBER 14 MULESHOE - COUNTY SEAT OF BAILEY COUNTY, TEXAS THURSDAY, APRIL 1, 1948

## Dollar Day In Muleshoe Monday

Once again it is Dollar Day time in Muleshoe, and local merchants have come up with a list of bargains they will offer the shoppers Monday. Some of the stores are advertising their specials for this month to be effective also on Saturday, April 3.

Last first Monday saw the beginning of Dollar Day sales events in Muleshoe and all merchants participating reported the event was greeted with enthusiasm by the people.

We urge our readers to look over other pages of this paper for Dollar Day Specials which will provide savings that it will be worth taking trouble to buy. Let's all trade in Muleshoe!

## Rev. Brian Speaks At "Family Night"

Rev. Walter Brian, pastor of the First Baptist church, Sudan, will be the speaker of the weekly "Family Night" program of the Lazbuddy Baptist church this week, Rev. L. H. Edwards, pastor, announces.

The family night program will be given at the church Saturday, April 3, at 7:30 o'clock.

At the close of Rev. Brian's talk, color films depicting the life of the Navajo Indians will be shown. The pictures, taken on the reservation near Gallup, N. M., require about 45 minutes to show.

## Open House At First Grade Building 7th

Open house for the newly completed first grade school building will be held next Wednesday, April 7, Supt. W. C. Cunningham announced today. New furniture for the building has been received, he said, and the public is invited to view the new building, its furniture and fixtures between the hours of 12:45 and 3:45.

Refreshments will be served to all visitors.

Mrs. J. J. DeShazo, Mrs. W. C. Cunningham, and Miss Effie Childers are first grade teachers; Mrs. Redie Boone also teaches a group of second graders in the building, which has four class rooms.

## Back From California

Miss Bernice Williams has returned home after a stay of three months with a sister and brother-in-law, Mr. and Mrs. W. J. Drake, at Salinas, Calif. Dry weather still prevails there, Miss Williams said, and has affected business activity to some extent.

## Easter Visitors

Mrs. R. J. Klump and Mrs. Birdie Paul spent Easter Sunday in the homes of Mrs. Klump's sisters and brothers, near Texico.

## Here From Littlefield

Miss Edna Bridwell of Littlefield visited over the week end with Pat Bennett.

## School Trustee Election Apr. 3

The five school districts of Bailey county are scheduled to elect trustees the coming Saturday, April 3, according to announcement of the county superintendent, Judge Cecil Tate.

In Muleshoe and Three Way districts, because of consolidations that have occurred in the last year, a full complement of trustees will be chosen, seven in each district.

Bula school will elect one trustee, Circle Back will elect two, and West Camp will elect two.

## Rockey Body Works Is Now Operating

Rockey Tractor Company's body works is now fully operative, O'Neil Rockey said today. New equipment has been placed and the shop is fully manned.

Equipment includes a hydraulic power straightener, fender rolling machine, enclosed DeVilbiss paint booth, etc.

The shop rolls fenders, straightens and repairs automobile bodies, does vehicle and farm machinery painting. It is located in the rear of the Rockey Tractor Company building.

## "Poor To Average" Crops Forecast For Plains By Lo, The Poor Indian

From Lubbock Avalanche "Poor to average" is the verdict of the Red Man concerning South Plains crops for 1948.

The wind at sunrise Monday, March 22, was variable out of the northwest and west, which means, according to an old Indian legend, that the area is about over its bumper crop cycle.

## Annual Event Observed

For nearly 20 years, the Avalanche-Journal has been noting the wind direction at sunrise on March 22 for the benefit of its readers. The late J. W. Willborn of Post was observer of the legend in this area and after his death, the late W. O. Stevens recorded the direction of the wind and of late years, former district judge Clark M. Mullican, who now lives in Wichita Falls, has been making the observation.

With Judge Mullican in Wichita Falls, the Avalanche-Journal was at a loss for someone to make the observation; but who should show up Sunday but "Old Chief Kickapoo" himself and the annual campfire ceremony was conducted as usual this morning.

The presence of Chief Kickapoo was a harbinger of grave concern. It seems to hinge on the effects of the white man's "Leap Year," which allows young white squaws to leap from the frying pan into the fire if she wants to, which adds another day to the year.

## Matter of Reasoning

Finally, after much pow-wow, and with the smoking campfire curling upward across the prairie, the momentous forecast was made. Indian reasoned thus: "Washington couldn't tell a lie; Roosevelt couldn't tell the truth, and Truman couldn't tell the difference.

Old Chief Kickapoo said last year was the greatest of all crop years and he said he thought ten per cent of the crop yield ought to be a reasonable fee for his services, but that so far he had not even rated credit for a pair of socks supporters.

So this year, he says the farmer must work hard, conserve moisture and cut corners in order to help nature produce an average crop.

## Guests of the Zimmers

Mr. and Mrs. Tom Zimmer had as their guests the past week her brother, T. V. Bracken and Mrs. Bracken, of Tucson, Ariz. They were en route to Billings, Mont.

## Visit At Friona

Mr. and Mrs. Tom Zimmer and her mother, Mrs. S. I. Bracken, were visitors Sunday in Friona with T. V. Bracken and family.

# Call Water Meeting!

## City Election Next Tuesday

Voters of the city of Muleshoe are reminded that next Tuesday, April 6, is city election day.

A mayor and two commissioners are to be elected.

Two full slates of candidates have been nominated and the printed ballots include the following names:

For Mayor, Connie D. Gupton, Ray N. Edwards.

For Commissioner: Raymond Green, Rip Taylor, Will Harper, Dudley Malone.

Julian Lenau is the retiring mayor. Commissioners are Edwards and Matt Dudley. The latter is moving soon to a point outside the city limits which would disqualify him to hold city office.

Voting will be at the city hall.

## Bus Station Here Moved This Week

The Muleshoe bus station has been moved from the Dew Drop Inn to the Brandon Conoco Service Station, it was announced here by C. M. Owens, traffic manager, and J. B. Johnston, passenger agent, of the Texas, New Mexico & Oklahoma Coaches, Inc., both of Lubbock.

H. L. Brandon & Sons are the agents, the two announced. The officials said they believe local people will find the bus station to be more conveniently located, and said it would tend to eliminate traffic congestion on the main street when the buses are stopped here.

## Grapefruit Juice For School Lunch Rooms Distributed

Thirty-two hundred cases single strength grapefruit juice and 556 boxes of fresh pears are being distributed now to community school lunchrooms and eligible institutions in 16 West Texas counties. They were purchased recently by the U. S. Department of Agriculture's Production and Marketing Administration to make larger outlets for this season's bumper crops.

School participating in the national reimbursable school lunch program are also receiving 830 cases of peanut butter in addition to the pears and grapefruit juice, Roy Bond, County superintendent of Lubbock county, said. Bond is acting as agent for USDA in distributing commodities in this 16 county area.

Funds for buying certain foods, such as peanut butter, which are needed for well rounded lunches are provided for in the National School Lunch Act. Other foods bought with these funds and distributed in this section of the state so far this year include canned whole tomatoes, 2504 cases; tomato juice, 1600 cases; cheddar cheese, 825 cases; concentrated orange juice, 892 cases.

In addition to pears and grapefruit juice, USDA also has bought several seasonally abundant crops this year to expand farm markets and make full use of the nation's total food supply. Of the amounts purchased, West Texas schools have received 1635 cases of peaches, 452 cases of dried eggs, and 1940 sacks of Irish Potatoes.

## Don Sanders Honored At Surprise Party Tuesday

Don Sanders was honored at a surprise party given him in the home of his parents, Mr. and Mrs. Claude Sanders, Tuesday night, Mr. and Mrs. Jerry Kirk helped sponsor the party.

About 25 young people enjoyed games that were played. Hot dogs and cokes were served picnic style as refreshments.

## Sells His Home

Dick Blackshear has sold his home located on the south side of the square in Muleshoe, and plans to leave with his family soon to take over management of a tourist court he has bought in Mountainair, N. M.

## City Election Next Tuesday

## Sells His Home

Dick Blackshear has sold his home located on the south side of the square in Muleshoe, and plans to leave with his family soon to take over management of a tourist court he has bought in Mountainair, N. M.

## Roping Club Has Bought New Site

Purchase of 23 acres of land right near the city limits as a future home for their roping matches and rodeo was announced this week by the Muleshoe Roping Club.

The club bought land from the Warren interests, owners of the Muleshoe Ranch, and said they will move their arena, built last year on land they had leased from T. M. Cox, to the new location soon.

The new site is just across the railroad tracks north from the Irrigation Supply Company headquarters.

Development of the new ground will begin just as soon as possible. Last year, the first year of the roping club's existence, a fine roping match between Clovis and Earth teams and a two day rodeo program were held.

Many business and professional men of Muleshoe have voluntarily loaned the club money this week to establish a fund for paying for the land and improving it. This money will be refunded when the club makes some money, in the meantime the loan will bear 6 per cent interest.

The club members hope to get a crossing over the Santa Fe tracks established in the neighborhood of the new grounds, making access very convenient to the public.

## H. E. Sanders Rites Conducted

R. E. Sanders, a former resident of the West Camp community in Bailey county, died at the Brownfield Hospital last Wednesday afternoon after suffering a stroke the preceding Saturday. His son, Raymond, 13, found his father upon arising in the morning. Mr. Sanders was 38.

Mrs. Sanders passed away in 1935. The family had moved from this county in 1943.

Mr. Sanders was born May 25, 1909, in Llaho county, Texas, and the family came here from Ralls, where they had resided 16 years.

He is survived by his daughter, Bonnie Ruth, and son, Raymond R. Sanders, both of the home. Other survivors include his parents, Mr. and Mrs. M. L. Sanders, Sr., Ralls; a sister, Mrs. P. L. Hardin, of West Camp community, Bailey county; and two brothers, Lewis Sanders, West Camp, and M. L. Sanders, Jr., of Ralls.

Funeral services were conducted Thursday, March 25, at the First Baptist church in Ralls by Rev. Larkin, of Seminole, Okla., assisted by Rev. Lloyd Garrison, pastor of West Camp Baptist church. Interment was in Ralls cemetery under direction of the Marr Funeral Home of Ralls.

### Herrington Manager Of Alfalfa Mill Here

Bob Herrington, for six years assistant manager of the National Alfalfa Dehydrating and Milling Company, formerly the Denver Alfalfa Mill, will become manager of the Muleshoe Alfalfa Dehydrating Company effective April 15, it has been announced here.

Mr. Herrington has been active in civic circles during his residence in Plainview, particularly in the Plainview Kiwanis Club, of which he was a member.

His wife and children will join him here at the end of the current school term.

The Muleshoe mill is owned by Charles and Julian Lenau, A. X. Erickson, Irvin St. Clair, Sr., and Rufus Gilbreath, and had a successful season last year, its first year to operate.

### Honor Roll

The Journal acknowledges a rather large list of new and renewal subscriptions received in the last few days. Thanks a million!

### ATTEND SUNRISE SERVICES

Mr. and Mrs. E. E. Dyer and Mr. and Mrs. Roy Dyer attended the Sunrise Services in Plainview Sunday and visited in the home of Mr. Dyer's sister, Mrs. Henry Slaton.

### Uncle Sam Says

What did the Secretary of the State of Wyoming say to the Banking Commissioner when they met in Cheyenne in 1937? "I'd like to find a plan to assure a comfortable retirement for myself and my family," said the Secretary of State. "Why don't you do what I am doing, buy Savings Bonds regularly out of income?" his friend replied. Today they have begun the second 10 years of their retirement plan. The then Secretary of State is now Governor Lester C. Hunt, and the former Bank Commissioner is the present director of Savings Bonds sales. You, too, can emulate their example. If you invest \$12.75 each month in a series E Savings Bond of \$25 maturity value over a period of 20 years and hold ALL the bonds to maturity you will receive an average yearly income of \$700 for the ten years following.

### Pack of Seed Nets Million Dollar Crop Plant Immigrant Has Typical Success Story

One package of seed sent home by a missionary less than 30 years ago has developed into a crop now valued at more than 200 million dollars a year. That is the success story of a plant immigrant - Korean lespezea.

Only three decades ago Dr. Ralph Mills, a medical missionary, sent a package of lespezea seed from Korea to the U. S. department of agriculture. Department specialists planted the seed at the experimental farm across the Potomac river from Washington. In a few years there was enough seed to plant lespezea at several state experiment stations.

The imported crop fitted well on the poor, slightly acid soils unfit for such crops as alfalfa and soon was being grown widely in the East Central states as a seed and pasture crop. Now its use is becoming more widespread, particularly in areas of low fertility land.

The U. S. crop of Korean lespezea, developed directly from the single package, now is valued at more than 200 million dollars a year. Value of the seed crop amounts to 20 million dollars. The hay crop makes up another 100 million dollars of value. Although value of the pasture crop is difficult to estimate, specialists contend that it amounts to at least 100 million dollars. These figures do not take into account the profitable use of millions of acres of low fertility land made possible by introduction of the new legume crop.

### He's a Rat

What is the most destructive animal in the world?  
No-it's not a puppy or a small boy!  
The common Norway or brown rat has absolutely no competition when it comes to the ability to destroy. Annually, rats alone destroy about

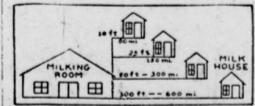

4 per cent of the total grain and cereal crop in the United States, figures compiled by extension service entomologists indicate. As if its destructive abilities were not enough, the rat is host to carriers or is itself a carrier of bubonic plague, typhus and other diseases which are deadly to man.

Few farms are entirely free of rats, although rat populations can be reduced quickly. Cleaning up the premises, rat proofing, cutting off food supply, poisoning and trapping are major points in an effective rat control program. But, once the control measures begin to show results, there can be no relaxing. Rat control is a permanent, year-around program. A few days of poisoning will have only a temporary effect on the rat population.

### Modern Dairy Buildings Will Boost Efficiency

Increased efficiency has entered the dairy industry with more widespread use of milking rooms and milk houses.

The ideal location for a milk house is attached to the milking room or barn. In most areas, sanitary requirements permit construction under the same roof.

Miles of walking are saved annually when the milk house is adjacent to the milking room or barn, figures compiled by Cornell university show.

Adjacent construction permits the dairyman to coordinate feeding, caring for the cows, milking them and handling the milk into an efficient system.

### Rabbit and Chicken Raising Is Profitable

To offset high meat prices, home production of rabbits and chickens can be carried on very economically, making the family at least partially independent of commercial sources.

Raising of rabbits and chickens at home has a big advantage in the economical use of feeds, because such animals mature more quickly and at a lower feed cost per pound of gain in weight.

### Mrs. Laing Hostess To Rainbow Officials

A covered dish luncheon was held Monday, March 29, in the home of Mrs. John Laing of Earth, honoring several officials of the Order of the Rainbow for Girls.

Those attending from Muleshoe included Mesdames Ross Goodwin, Mother Advisor, Bill Collins, Jim Cox, and Miss Elizabeth Harden.

### Mrs. Martha Marie Whitefield, Supreme Deputy of Order of Rainbow for Girls in Texas, of Dallas, was met in Plainview by the Mother Advisors, and others.

The purpose of the meeting was to discuss work with Mother Advisors and other officials, for Oton, Earth and Muleshoe.

**HOME FOR HOLIDAYS**  
Billie Jim St. Clair was home

for the Easter holidays from where he attends school.

### MARRIAGE LICENSES

Harlan Erwin Davis and Jo Campbell, Muleshoe.  
Edgar J. Boyce and Bill Fine, Baileyboro.

Robert A. Allen, Albuquerque, and Minnie Ethel Wainscott, shoe.

**National Legion Visits Texas**  
 Delegates from Texas, New Mexico and Oklahoma will convene on Amarillo the evening of Monday, April 10, to pay honor to the National Commander of the Alpha Legion, James F. O'Neil, Conchester, N. H., who will conduct there a week's itinerary in of Wollard, commander of Benhardson Post, of Muleshoe, said the post likely will be represented by one or more members at luncheon when Mr. O'Neil will speak.

**Girls' Achievement Club Organized Here**  
 On March 18 a group of girls met in the home of Jo Ann and Jerre Lee Hale and organized the G. A. C. or Girls Achievement Club. Our sponsors are Mrs. Marvin Wimberley, Mrs. Mack Hale, and Mrs. Brock. We elected Jo Ann Hale president and Frances Wimberley, secretary.

THE MULESHOE JOURNAL

**Memorial for Alamo's Heroes**

San Antonio's annual Pilgrimage to the Alamo, which opens the city's Fiesta San Jacinto, will be held Monday, April 19, when a scene similar to this will be enacted at the "Shrine of Texas Liberty". Cities, organizations and individuals are invited to send flowers which are carried to the Alamo as a memorial to the men who died in its defense.

Doris Jean Copley was named sergeant-at-arms and Pearlene Coulter, treasurer and reporter. Present were Clara Jean Adkins, Peggy Pettit, Frances Wimberley, Lois Wimberley, and Pearlene Coulter, and one visitor, Jenice Thompson.

Refreshments of sandwiches, hot chocolate, Hi-Ho crackers, vanilla wafers, were served. We will meet at Pearlene Coulter's April 1.

★ ★ Fashions ★ ★

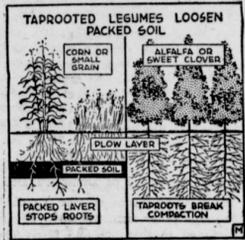

Few fabrics broadcast a woman's good taste as much as the butcher-linen suit shown above as pictured in the April issue of Good Housekeeping magazine. Few investments yield such dividends. That far-traveling green plus the neat tailoring that always marks butcher linen will make her equally attractive at both ends of a town. In brown, navy and black. Cotton and cotton. In sizes 9 to 15. \$16; about \$18. An R & K Cohama fabric.

**Legumes Open Soil To Air and Water System of Rotation Prevents Compaction**

Tight "stuffy" soils are robbing many farmers of high bushel-per-acre yields of corn and small grains each year. Loams, silt loams and clay loams need large amounts of organic matter in the plow layer and deeper to keep them open and loose for high crop production. Heavy soils that are low in organic matter and worked with heavy tractors and machinery become

Tap roots of alfalfa and sweet clover, as shown in sketch, break through packed soil to assure water and plant food for growing crops.

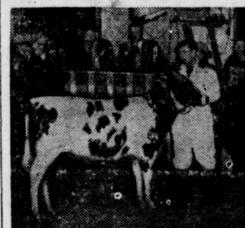

packed, especially just below the plow sole. These compactions slow down the intake of water. They cut down the amount of water and air the soil will hold for crop use. They keep the fibrous roots of corn and small grain "upstairs" away from water and plant food held deeper in the soil.

Temporary relief can be had by using machines that reach below the ordinary plow layer and break up the plow sole compactions. Real relief, however, comes only through regular use of deep-rooted legumes in the rotation.

The driving tap roots of sweet clover and alfalfa force their way through the compactions and reach deep into the soil, thus opening it to air and water. The mineralized organic matter they leave there improves soil tilth and furnishes plant food for other crops.

Channels of the tap roots are routes for water and air and fibrous roots to follow deep into the soil. Compaction-busting alfalfa and sweet clover need phosphate and potash if they are to do a good job.

**Smash Sale Records**

All records for Ayrshire auction sales in the U. S. were broken when an average of \$2,267.39 was paid for 23 Scottish bred Ayrshires imported and sold by Frank V. Lille of Bellefontaine, Ohio. The sale grossed \$52,150.

A new record price for Ayrshire bull calves was set at \$4,000 by Howard Baum and Sons of Paint Valley farm, Bainbridge, Ohio, in the purchase of eight-months-old Killoch Gay Spark (above).

**Increased Yields Noted With Use of Fertilizer**

Wheat yields can be stepped up 7 to 14 bushels per acre and the hay crop can be increased through use of more fertilizer in hay and pasture crops seeded in small grains, declares Dr. D. R. Dodd of the Ohio experiment station.

This practice is particularly profitable on land already highly productive, Dodd points out. As an example, he cites tests made by research men on plots at the Ohio station. The land's producing capacity already had been built up by good soil management so that it was producing an average of 85 bushels of corn, 23 bushels of wheat and 3 tons of hay per acre.

In the tests, a 2-12-6 fertilizer was applied at increasing rates to wheat.

**Minnesota Starts Big Tree Planting Project**

As the first step in a far-reaching tree planting program authorized by the state legislature last year, Minnesota is planting about two million trees this year.

A million deciduous and coniferous trees are being sold at cost plus handling expense for planting on private lands. Another million coniferous trees are available for free distribution for planting on public lands.

**Easter Breakfast In Young Home**

Jack Young entertained his college friends Sunday morning at 8 o'clock with a breakfast in the home of his parents, Mr. and Mrs. Tye Young.

The tables were beautifully decorated with bunnies and colored eggs carrying out the Easter theme. Those attending were: Jim Bickel, Doyle Trapp, Maxine Trapp, Maurine Wilterding, Fuston McCarty, Mary Arnold, Edna Bridwell, Herbert Griffiths, Porky Farrell, Martell LeVeque.

Charlene Black, Pat Bennett, J. M. Bowen, Don Bryant, Bill St. Clair

Jayne Damron, Norma Lea Osborn, Pesky Winn, Morris Hicks, Nell DeShazo, Margaret Ann Johnson, Bob Harvey, Mr. and Mrs. Tye Young, and the host.

**Mrs. C. W. Wilhite Honoree At Party**

The Daughters of Ruth Sunday School class of the First Baptist church, surprised their teacher, Mrs. C. W. Wilhite, with a birthday dinner, Tuesday, March 30.

After the candles were lighted and the dinner was over the gifts were opened. She received many nice gifts. An amateur program was given

and Marilyn Snethen read an original poem dedicated to Mrs. Wilhite.

Those present and enjoying the party were Jeri Nell White, Shirley Corns, Betty Shook, Marilyn Snethen, Sue Johnson, Cora Lee Stinson, Pat Lane, Jackie and Tommie Bovell, Barbara Bowers, Clifford White, Mona Ellis, Mrs. Buchanan, and Mr. and Mrs. Willite. Everyone had a wonderful time.

### Bridal Shower Given For Miss Irene Orteg

A shower for Miss Irene Orteg, who is to be married today to Ted Haberer was held Thursday, March 25, in the home of Mrs. Fred Clayton. Co-hostesses were Mesdames Elvis Clayton, Claude Cupp, V. J. Sigman and Fred Clayton.

The table was laid with a lace cloth, had crystal appointments, with multi-colored sweet peas and white candles. Refreshments of tiny sandwiches, individual cakes,

punch and mints were served the guests.

Misses Bonnie Cupp and Wanda Clayton assisted the hostesses in greeting the guests and serving.

The following guests were present:

Mesdames Walter King, A. C. Bell, R. F. Mayfield, Irene King, Winnie Huff, Lester Kelley, R. C. Hyde, Billy Ott, J. L. Hinson, H. Haberer, Milton Ott, J. L. Hinson, H. A. Angeley, A. C. Barton, R. G. Wilson, jr., Orbie Armstrong, Gentry Armstrong, Troy Kirby, Clyde Goodwin, W. C. Stout, Hollingsworth, L. T. Smith, Rex Angeley, C. W. Terry, G. C. Green, Sam Jones, Ruby Jones, C. T. Jordan, Kenneth Parish, Gus Parish, Edgar Barton, Earl Miller, Posie Cunningham, Sapp Kendrick, Bill Clayton, E. H. Green, N. G. Barrett, Maggie Banks, R. D. Brown, Floyd Burgess, Fred Clayton, Phillip Haberer.

V. M. Peterman, Earl Parish, R. L. Drake, Waldo Drake, Jerrel Haberer, Rodger Haberer, Jarvis Angeley, Taylor, R. K. Fennell, C. D. Rogers, E. R. Hawkins, O. K. Angeley, Lena Hite, J. N. Seymour, J. J. Coker, Roy Haberer, Eugene Morton, Russell Haberer, F. L. Burdow, Alton Hollingsworth, C. C. Barden, E. C. Clayton, Claude Cupp, Tom Jones, S. T. Newman, Ben Orteg, Mary Hamby, V. J. Sigman, Molly Clayton, H. B. Weaver.

Misses Mary Miller, Wanda Clayton, Bonnie Cupp, Oma Dell Franklin and Joyce Jones.

A large number of friends, who were unable to attend, sent gifts.

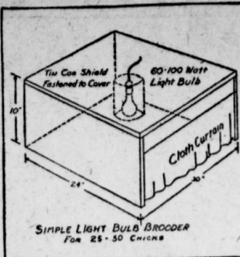

### Portable Saw

Lugging logs to the saw has been changed to bringing the saw to the logs! Quickly and easily attached to the tractor, this new Dearborn cordwood saw travels any place the tractor will go. Operated by the tractor's power take-off, the belt is always in place, saving the usual bother of lining up belt, saw and tractor. The blade will cut through large and heavy wood, fence posts and railroad ties. When not in use the blade is covered with a metal safety guard. To transport the saw the entire unit is raised by the tractor's hydraulic mechanism.

**ERRATA**  
In the list of donors to the fund of the Muleshoe boys Fat Stock Show, published in The Journal last week, the name of Damron's Drug Store inadvertently was omitted. Perhaps other firm names were not included in this list and if so The Journal regrets the oversight.

### Light Bulb Brooder

It is possible to construct an electric brooder for baby chicks at little cost. Box lumber, wall-board or similar material may be used. The globe is protected by a tin can. For the curtains, burlap may be used. The brooder or cloth should be cut three or four inches high about every two inches.

### Flies Resistant to DDT Developed by Scientists

A strain of DDT-resistant houseflies, requiring nearly twice as much of the chemical to kill them as ordinary flies, has been developed by the USDA. The possible future development of DDT-resistant houseflies in nature is of considerable importance to public health. The problem depends somewhat on how long it may take for wild flies to develop such resistance. This would complicate control.

### RETURN FROM TRIP

Mr. and Mrs. H. L. "D" White returned Sunday from a two-week trip to points in Indiana, Ohio, Kentucky, and Oklahoma. They attended the Easter Pageant in Lawton, Oklahoma, Easter morning.

### IN LUBBOCK ON BUSINESS

Mr. and Mrs. Doc Will Noel Woodley were in Lubbock Tuesday on business.

### HAVE EASTER EGG HUNT

The youngsters of the Sunday school department of the Methodist church and their guests had pleasure of participating in an Easter egg hunt at the church last Saturday afternoon.

### ATTEND SPRINGLAKE CHURCH

Mr. and Mrs. Mickey McGill of Plainview attended the Springlake Church of Christ last Sunday.

**Tree 'Butchery' Blamed On Untrained Pruners**  
It often takes 50 to 75 years to raise a good shade tree. But, extension foresters insist, it takes only a few minutes for an untrained pruner to ruin its beauty. Poor trimming technique is destroying the beauty of many streets. Examples of good pruning are seen on most public building grounds. On the other hand, on almost any street examples of tree "butchery" can be seen.

## W. R. LEIGH MAKES AMERICA'S FABULOUS WEST LIVE AGAIN IN EXCITING ART SHOW!

**"The Killer." Mr. Leigh's factual interpretation of how the cougar of our Western plains kills horses that roam the plain. It is a legend among cattlemen that no human has ever seen the cougar kill his prey, the horse, and the artist's conception, based on extensive research, coincides with that of Will-James, that other lover and recorder of our fast disappearing wild and wooly West.**

William R. Leigh, whose Indian and western paintings record an integral part of American history as nostalgic as a Will James "Western," opens another of his stimulating exhibitions at the Grand Central Art Galleries, Grand Central Terminal, 15 Vanderbilt Avenue, New York City, April 13 through 24, to which the public is invited. Today when Americanism in the best sense is held out as a beacon to other less fortunate nations, Mr. Leigh's exhibition is like turning back through enchanting pages of American history and having them come to life vitally and accurately.

### NEWS BRIEFS

**TO S. S. CONVENTION**  
Rev. and Mrs. A. W. Blaine and children plan to attend the annual Sunday School Convention of Texas Baptists to be held in Houston next week.

**ATTENDS AMARILLO SERVICES**

A PEEK AT THE MAID'S COTTONS

The 1948 Maid of Cotton models a pale blue cotton chambray formal by Dorris Varnum, reminiscent of romantic days in the Old South.

Texas can brag with just pride about its glamorous blonde beauty, Matilda Nail of Fort Worth, 1948 Maid of Cotton. Here is the National Cotton Council official portrait study of the Maid by Jacques d'Harcourt. On her \$5,000 mile international tour as King Cotton's fashion and goodwill ambassador, Matilda will wear the latest and smartest cotton fashions which have been created especially for her wardrobe by twenty-five of the country's leading designers. The Maid will visit more than 30 cities in the United States, France, and England.

In a sophisticated mood, the 1948 Maid of Cotton wears a dramatic frock by Pat Fremo in brilliant print cotton with contrasting cummerbund.

Checking Equipment Will Pay Dividends Tractors Need Regular Servicing, Adjustment

Periodic checking of tractors and other farm equipment is a timely precaution that will prevent serious delays in the field, assure safer operation of machinery and make farm work easier.

Increasing the life of vital machine parts results in more units of useful production per machine and per part. This in turn means less cost per unit produced by the machine. A machine naturally wears out with

Careful inspection of tractors and other farm equipment at regular intervals will increase efficiency of the machinery.

use. However, the rate of wear may be reduced greatly by a skillful operator who is exacting in his attention to adjustments for wear and for proper and systematic lubrications.

A tractor in good repair, agricultural engineers estimate, can operate on two to three less gallons of fuel than the tractor with faulty operation. Adjustments in the carburetor, governor, timing, manifold and valves also will increase the efficiency.

A careful check will disclose loose bolts and nuts as well as parts that need adjusting or replacing, thus eliminating the chance for costly breakdowns later. Every repair and adjustment should be made just as soon as the need is noted.

Farmers also are advised to equip their tractors with fire extinguishers and to provide secure holders for grease guns or other servicing tools carried on the machine. Loose accessories may cause falls or result in a tragedy.

Mrs. Aylesworth and Mrs. Gaede Attended Plainview Forum

Mrs. Dave Aylesworth and Mrs. Raymond Gaede, members of the Bailey County Home Demonstration Clubs, recently were alternate delegates from this county to the Youth Forum in Plainview. The Farmer-Stockman magazine was the sponsor of the meeting. T. C. Richardson, editor of the Texas edition, and Mrs. Randal were representatives for the Stockman. The 4-H girls and boys and their leaders of District Two, with their agents, were the honorees.

Gold Star Girl Katherine Black represented the 4-H girls of Bailey county. David Stovall of the 4-H boys was unable to attend, so Arlyn Kriegel of Oklahoma Lane went as representative.

The subject of the meeting was debating. A list of some of the subjects debated on were: 1. The principal purpose of a contest is to win a prize. Cary Joe Magness led the discussion. 2. The skill and knowledge acquired in competing for honors and prizes is forth more than the immediate rewards in money. Francis Routh of Tulsa led the discussion. 3. An ambitious and intelligent boy or girl does not need the stimulus of contest to bring out their best talents and efforts. The discussion was led by Dickie Roberts of Hale county. 4. The hope of winning honors and prizes induces more boys and girls to enroll in 4-H and vocational classes than self development. Harold Brownman of Dimmitt led the discussion.

★ ★ Fashions ★ ★

Emphasis on the very small waist is placed by the midriff dress shown above as pictured in the April issue of Good Housekeeping magazine. It's two-piece striped cotton, in brown, oxford, green. Sizes 10 to 18; about \$17. Majestic.

AT SUNRISE SERVICE

Mrs. Lela Barron and Mr. and Mrs. L. S. Barron were in Plainview Sunday to attend the sunrise Easter service staged at the athletic stadium by the Plainview Council of Church Youth.

HAVE GUESTS

Guests in the home of Mr. and Mrs. Jack Beddingfield were Mr. and Mrs. H. T. Wilkinson of Denton, Mr. and Mrs. Madison Blalack and Billie Beddingfield of Pyote, and Mr. and Mrs. Marshall Blalack of Greenville, for the Easter holidays.

HAVE WEEK END GUESTS

Mrs. Morris Douglass and Mrs. Dudley Malone had as guests over the week end their parents, Mr. and Mrs. Buck Slaughter of Shamrock, Mrs. Less Duncan, a sister, and Mr. Duncan of Dallas, Billy King of Oklahoma City and Mr. and Mrs. Evans of Lubbock.

Lazbuddy News

The Junior class of Lazbuddy presented its Junior play, "Just Ducky", March 23. The play turned out better than expected. There was a large crowd out to see it. The Baptist and Methodist

churches of Lazbuddy enjoyed a big dinner together Easter Sunday. The eats were good, and there was a big crowd.

A domino party was held in the home of Alex Steinbock Friday, March 26. Those present were: Mr.

and Mayfield and daughter, Fern, Mr. and Mrs. Eulan Pharam and daughter, Sharon, Mr. and Mrs. Truman Gleason and children, Jerry Don and Linda Carol, Gene Gastin, Edgar Broyles, Willie Steinbock and Mr. and Mrs. Raymond Trieder. A lunch was served at a rather late hour. Everyone enjoyed a good time.

Mrs. Alma Steinbock has returned home from the Muleshoe hospital. She is getting along very nicely.

Senior Class Attend Skating Party Friday

The senior class of Muleshoe high held a skating and theatre party at Clovis Friday, March 26.

About sixty students attended the party along with sponsors, Mrs. Jerry Kirk and Miss Elizabeth Bailey, and several room mothers. The mothers attending were Mesdames Robert Precure, N. Moore, H. O. Barbour, Tiller and Jay Weyer. Refreshments of sandwiches were served to the group.

Hitchhiking Pests

"Hitchhiking" insects, taking advantage of the frequency and speed of modern airplane flights, offer a continual threat to areas of the nation now free from certain insect pests. A continual watch must be kept at airports in infested areas to assure that "hitchhiking" insects do not move from one part of the United States to another or leap easily across international boundaries via the airplane.

Last summer, inspectors of the bureau of entomology and plant

quarantine intercepted the projected flight of thousands of Japanese beetles trying to hitchhike by airplane from beetle infested airports in Washington, Baltimore, Philadelphia, New York and Newark. These beetles threatened to move into beetle free sections of the United States.

Inspectors closely checked more than 7,000 airplane flights and supervised the application of a thin film of DDT from aerosols over hundreds of commercial and military planes. The beetles' favorite food plants in the immediate vicinity of the airports were sprayed, using mist blowers for the job. The summer's program was the most comprehensive ever attempted to prevent beetle spread, and yielded the largest number of interceptions for any season since this type of control work became necessary.

Production of Citrus Shows Steady Increase

Production of citrus fruits in the United States has about doubled each 10 years of the last 40, a department of agriculture report indicates, with prospects that the record will continue to climb.

California and Florida produce more than 90 per cent of the oranges. Florida and Texas account for 90 per cent of the grapefruit. Almost the entire commercial crop of lemons is grown in California.

### MR. MULESHOE—

(Continued from Page 1)

Jack Cox: (Sunday afternoon) The reason I am down here drinking coffee is: My wife put me to scraping the sand off the lawn and generally trying to clean up. She was taking a nap, which I interrupted so often to ask questions about the work that she sent me away.

Note to Mr. Howard Carlyle, San Angelo, Sheep Country, Texas: Your exile period is now over and you and your family may return to Muleshoe at any time you so desire. (You got some time off for good behavior). Whenever I go into Hart's I still expect you to offer to wait on me, time flies so fast. This is your official invitation to return back home. (If YOU, Mr. Reader, will renew your subscription, you may get a nice write up here, YOUR-SELF).

And some of those people who journeyed to California and Oregon—what about them? Isn't it about time some of them were racking back? If we had all of them back, we would have a bigger town than we have now.

Bob Jones: As Lefty McWilliams' farm went by my place during the

### FURNITURE FASHIONS by Frances Ainsworth

GRAND RAPIDS, MICHIGAN—These 18th Century pieces demonstrate that traditional styling can have a distinct modern flare. Kindel combines a double headboard with twin size bed units . . . designs a nightstand to hold every bedside need including top shelf for radio and small drawer for glasses . . . recreates a chest-on-chest from the DeForrest collection. The Oxford finish reflects the beauty of rose satin spreads—deep toned gray walls. This furniture shows a perfection of design and craftsmanship.

recent sandstorm, I heard a swishing sound.

Sudden thought: Where has Jack Lenderson been (split in-

finite, but who cares) these last few weeks? Every once in a while I miss Jack for whole months at a time, now I've definitely lost him. I might have to offer a reward, after all.

Gill Wollard: If Bob Precure and Delma McCarty would spend as much time thinking how to make more money as they do on how to get something to hurrah me about, they'd get rich.

Shunted to one side and relegated to the benches the last two weeks is the sad case of the Mr. Muleshoe column. I fully expected to see a steady file of people wanting to cancel subscriptions but it hasn't materialized. The facts are that so much news was turned in by our readers that this froth had to be eliminated. Better luck next time, our editor said to Mr. Muleshoe, obviously seeking a way to prevent dashing cold water on a budding young journalist.

### WE WERE NOT ALONE!

Two Lubbock business men told this editor Tuesday that their city, Littlefield and all other towns they saw that day were "just as dusty" as Muleshoe. The editor had apologized to the visitors for our unruly weather.

Many fields near Lubbock were blowing badly, making highway travel difficult, they said. A Muleshoe man visited Levelland that day and said the same conditions prevailed there and at points between the two cities. We were not alone with our sandstorm that day!

### AT SUNRISE SERVICES

Mr. and Mrs. J. M. Forbes attended sunrise Easter services at Plainview and visited with relatives Sunday.

### Mostly Static

By Berry

Howdy Folks: Spring must be in the air for sure, because a certain dentist looked into a patient's mouth, turned to the nurse and said, "My niblick, please."

Yes, spring is everywhere. It makes the girls realize they have the skin they love to retouch.

It's the time of the year when the girls want to look spic and span. More spic and less span. It's also a good time for married women to try and keep leap year in their marriage by praising their husbands now and then, even though it scares them at first.

And it's time to get out in the garden and raise things. If you plant as many as four rows, you are bound to raise a good crop of blisters and sacriilacs.

We might close with this thought. It's also the best possible time to see us about that Deepfreeze some freezer you've been thinking about buying all winter. Why don't you?

**Berry Electric**

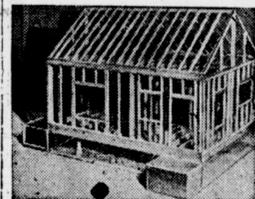

### New Device Controls 'Cancer' of Buildings Pipes Enable Chemical To Reach Termites

Termites, the "cancer" of buildings, now can be controlled. Through all the ages the tiny insect that feasts on wood in homes, farm buildings and other structures has been a constant destroyer. Annual property losses run far into the millions. Ordinary control measures could not get at the intricate tunnels hidden away in difficult and impossible to reach places.

A new device, hailed as an effective means of combating the destructive pest, was demonstrated at the annual convention of the National Association of Home Builders in Chicago by W. B. Hill of Memphis, Tenn., nationally known as a termite expert.

His method consists of installing a series of slotted pipes at the time of construction in all inaccessible areas, including dirt-filled porches, sun parlors, stoops, steps and fireplaces. Annually a perforated pipe is slipped into the slotted pipes and all hidden areas are treated with a powerful chemical toxic blown

In this novel display, a colony of termites is feasting on the framework in a model home structure. It provides dramatic proof of the destructive ability of the tiny insects.

through openings in the pipes. Hill, who has spent 20 years figuring ways of waging war on the termite, also has devised a display showing live termites at work. Enclosed in glass, his small scale model home has an army of hungry termites actually at work constructing their intricate network of mud tunnels or shelter tubes. It shows the worker, the soldier on guard and the immature, young potential queen who swarms in the spring.

### Beware the 'New Look,' Crop Specialist Advises

Beware the "new look," especially in crop varieties. That is the advice of Joe Robinson, Iowa State college agronomist.

"New varieties seem to hold some sort of magic charm over many farmers," stated Robinson. "I am happy to see the farmer change to new varieties whenever they can increase his yield but just because a variety carries a new name is no indication of its value." Robinson pointed out that performance records are more important than newness.

Selection of suitable hybrid corn varieties creates another problem. Unlike other crops, some hybrid corn varieties are produced by only one concern. Eligibility of both the private hybrid lines and the experiment station lines for certification depends on the performance records in a corn yield test.

### Mosquito Control

Use of DDT, 2,4-D and other newly-developed weed killers is aiding efforts for mosquito control. Cost of some of the new insecticides, however, makes their use prohibitive on large mosquito breeding areas. Ditching and other more permanent methods still must be resorted to in those areas.

Photo, from the New Jersey agricultural experiment station, shows an aerosol fog generator used by a mosquito extermination commission.

### Income From Poultry Increases in Nebraska

Sale of poultry and eggs has been accounting for 9 to 12 per cent of the cash farm income in Nebraska, according to figures compiled by J. H. Claybaugh, extension poultryman.

Yearly egg sales have been more than 50 million dollars and as high as 57 million for the past five years. Sales of poultry have averaged more than 20 million, reaching a peak of 27 million.

### Mrs. Sam Damron Is Honoree At Shower

Mrs. Sam Damron was honoree at a bridal shower given in the home of Mrs. W. B. Wagnon, Tuesday, March 30, from 4 to 6 p.m. Hostesses were Mesdames W. B. McAdams, E. R. Hart, Jesse Osborn, R. L. Hobbs, Irvin St. Clair, J. L. Aalsup and W. B. Wagnon.

A color scheme of yellow and white was used throughout the rooms. The centerpiece on the table was yellow snapdragons with yellow and white tapers burning on each end. Individual cakes with yellow rose buds, nuts, mints and punch were served.

Miss Lela Barron presided at the bride's book and showed the wedding album.

Mrs. John Smith and Mrs. Irvin St. Clair, Jr., poured the punch.

Those attending were: Mesdames Mildred Lambert, Clyde Taylor, W. H. Kistler, Tye Young, Arnold Morris, H. C. Holt, Robert L. Jones, Jr., Robert L. Jones, B. Z. Beaty, A. E. Lewis, Roy Jordan, Rufus Gilbreath, L. T. Green, Jr., M. F. Green, Martin Oliver, Claude Riley, Charles Lenuu, Howard Elliott, Buck Woods, Vance Wagnon, Spencer Beavers, S. C. Beavers, Lowell I. St. Clair, Earl Ladd, Lela Barron, A. J. Gardner, Sam Fox, Noel Woodley, Joe Damron, Sam Damron, the honoree, W. B. Wagnon, the hostess, and Miss Barabara Morris.

### VISIT IN SLATON

Mrs. J. E. Day visited in the home of her daughter and husband, Mr. and Mrs. H. C. Dunn, of Slaton during the Easter holidays.

### CARD OF THANKS

We wish to thank the people of Muleshoe and Bailey county for the shower and other kind deeds shown after the fire we had last week. Mr. and Mrs. Willard Carter.

## Johnson & Nix Become Dealers In Muleshoe For Oldsmobile Motor Cars

Johnson & Nix have become the Muleshoe representatives for the Oldsmobile line of fine motor cars, the Oldsmobile company announced this week.

Fred Johnson, of the Johnson & Nix company said they will maintain full sales and service for the line and said he already has delivered three of the new 1948 models to local people. One of the 1948 "Futuramic" Series "98" cars will

be on display in the company show rooms the latter half of this week and Mr. Johnson extended an invitation to all to come in and view the new creations.

A partial stock of Oldsmobile parts already have been received by Johnson & Nix, which also has assembled late type equipment for proper servicing of automobiles. The firm has installed Sun motor testing ma-

chines, which diagnose distributor and carburetor troubles scientifically.

The company has Bob LaPlante, an experienced automobile repair and service man, in charge of its automobile servicing department.

Johnson & Nix are in regional Harvester dealers here also.

The new design and construction of the body for the 1948 "Futuramic" Series "98" Oldsmobile is by far the most important engineering development that this division of General Motors Corporation has made to date in the post war period, according to J. F. Wolfram, chief engineer at Oldsmobile.

In his opinion, the new Oldsmobile body combine the very latest in artistic streamline styling with such functional improvements in design as increased vision, wider and more comfortable seats, plus greater riding comfort for the driv-

er and the passengers. As a result, the "Futuramic" Oldsmobile points the way toward a "Golden Era" in automotive travel.

### Has Graceful Streamlining

Speaking of exterior appearance, Mr. Wolfram called attention to the graceful sweeping lines of the "Futuramic" Series "98" club sedan and pointed out that the lines of the front fender and hood flow smoothly into the body while the rear fender contributes a distinctive note in the advance styling of the body. Elliptical in shape, the rear fenders carry the lines well beyond the sloping contour of the rear deck and seem to flow over and around the chrome-plated rear bumper, which hugs closely to it.

The wide door accentuates the length and sleekness of the model, he explained, while the shape of the rear quarter panel glass illustrates the freshness in styling of the

than it is high by 14 inches.

### Interior Styling Is New

Oldsmobile offers two styles of upholstery, standard and deluxe, in the "Futuramic" Series. The deluxe fabric is available in rich two-tone color combinations of gray or brown, finished with bolster rolls on the seat cushions and seat backs. The trim styling of the door pads is new also and harmonizes with the various trim combinations available.

The instrument panel is newly designed, with the instruments clustered centrally over the steering column in a semi-circular arrangement, Mr. Wolfram explained. All of the controls of the various accessories are conveniently grouped around the instruments for easy access by the operator.

Because of the new body designs,

the front seats of the four door "Futuramic" Series "98" Oldsmobile are more than two inches wider than those of the corresponding model of 1947. This increased width provides greater comfort for both the driver and his passengers, Mr. Wolfram pointed out.

### IN COLORADO AND ODESSA

Mr. and Mrs. Robert King and children spent the week end in Colorado City and Odessa.

### WEEK END AT ODESSA

Mr. and Mrs. Noel King and daughter, Ann, spent the week end in Odessa with Mrs. Wolfram.

### The Earth Is The Lord's

the soul and conservation of the soil  
What is good for man is good for the land.  
The Lord's. Certainly this is true, for in the  
God created heaven and earth and all the things  
The way man has despoiled the earth could hardly  
be paying for it. God alone, through the process of  
can produce soil, and His methods of preserving  
the soil were to cover it with trees and grass so the wind  
could not blow it away as dust, or the rains wash it away as  
silt in the floods.

Yes, the psalmist of old knew what he was writing about  
when he scribbled the 24th Psalm: "The earth is the Lord's,  
and the fulness thereof." \*

\* From THE EARTH IS THE LORD'S, by Charles A. Reeder, SCS, Berryville, Ark.

\*\* This information was furnished by the Blackwater Valley Soil Conservation District.

## Muleshoe State Bank

### Irish Leader Joins Crusade for Children

Bearing greetings from the land of St. Patrick, Eamon de Valera, Irish leader now visiting in this country, pauses in New York to give 12-year-old Flaminia Nardi a contribution to the Crusade for Children, national-wide campaign of American Overseas Aid-United Nations Appeal for Children to help fight starvation abroad.

#### BLACKWATER VALLEY SOIL CONSERVATION DISTRICT NEWS

J. M. Wilson has made application for soil conservation assistance on 160 acres of irrigated land owned by W. L. Harris of Levelland. The Blackwater Valley Soil Conservation District Board of Supervisors met at the office of the Soil Conservation District Wednesday night, March 24.

Technicians ran terrace lines on the Paul Brothers Ranch.

Soil Conservation Service technicians assisted S. C. Caldwell in laying out a complete border system for watering improved pasture. L. A. Wells and Roland Bigham have been assisted in laying out ditches for watering row crop land. Technicians checked terrace lines for Troy Perkins.

A complete plan of conservation operations has been worked out with Jno. S. McMurtry on his ranch. This plan was written under the Rancher-District program recently

organized by the Supervisors. Terraces which have been built on land owned by Dickey and Robb and V. B. Mays have been checked to see if they meet specifications.

### Ginnings For 1947 Crop 52,851 Bales

Census report shows that 52,851 bales of cotton were ginned in Bailey county from the crop in 1947, a report of Connie D. Gup-ton, special agent reveals. The report, which probably includes all the ginnings for the county from last year's crop, was dated March 26.

The figure compares with 2,650 bales reported for the crop of 1946.

#### FIRST BAPTIST CHURCH HAD 326 IN SUNDAY SCHOOL

The churches of Muleshoe were crowded to capacity Easter Sunday services.

The First Baptist church had 326 in Sunday school that morning. At the regular worship hour, Rev. T. B. Stover, a Baptist missionary in Brazil for 25 years, brought the message. Rev. Stover, brother-in-law of Mrs. W. B. McAdams, is executive secretary of Brazillion Bap-

tists and head of Baptist publications there.

#### CARD OF THANKS

We wish to express our sincere thanks and deep appreciation for your many acts of sympathy, kind deeds and beautiful floral offerings during the illness and death of our beloved father, son and brother. May God bless each and every one of you.

Bonnie Ruth and Raymond Sanders.

Mr. and Mrs. M. L. Sanders, Sr. Mr. and Mrs. M. L. Sanders, Jr. Mr. and Mrs. Lewis Sanders and Family.

Mrs. P. L. Sanders and Glenn.

#### VISIT IN NEW MEXICO

Mrs. Julian Lenau and son, Don, spent the latter part of last week in Hagerman, N. M., with her sister, Mrs. E. C. Smith and family, and her father, W. L. Koen. Mr.

and Mrs. Smith and daughter returned home with her for the week end.

#### BURRETT GOLLEHON AND FAMILY MOVE TO PECOS

Burrett Gollehon and family have moved to Pecos, Texas, where he has bought a section of land in an irrigation belt. He is having a well drilled on the land now. Mr. Gollehon has farmed near Muleshoe the last five years.

#### HOME FOR EASTER

Fuston McCarty, who is studying at A. & M. College, spent the week end here with his parents, Mr. and Mrs. Delma McCarty. Fuston, an outstanding athlete during his days at Muleshoe high, is a member of the A. & M. relay team.

#### BROOKS' VISIT HERE

Mr. and Mrs. R. L. Brooks and daughter of Lubbock were visitors here Sunday.

# Introducing Muleshoe's NEW OLDSMOBILE DEALER Johnson & Nix

Phone 166 Muleshoe & Clovis Highway

### NEW FUTURAMIC OLDSMOBILE—NEW Dynamic OLDSMOBILE—FOR 1948

Here's good news for local motorists! A new Oldsmobile dealer has been appointed in this community to provide you with the finest in new and used cars. And skilled Oldsmobile-trained mechanics are ready to service your present model with modern repair equipment and genuine Oldsmobile parts. Above all, this new dealership brings you the first of the Futuramic cars—the Series "98" Oldsmobile for '48. This spectacular new model leads a parade of Style-Leaders that also includes the colorful Dynamic Series "60" and "70" Oldsmobiles. And GM Hydra-Matic Drive is optional at extra cost on all Oldsmobile models for 1948—on display at this new home for Oldsmobile Sales and Service.

There's no gear shifting . . . no clutch pushing—nothing to do but "step on it—steer—and stop"—when you go the easy Hydra-Matic way. In fact, for minimum effort . . . and maximum performance . . . there's nothing else like GM Hydra-Matic Drive.

**ARMY ENGINEERS CORPS NEEDS MANY EMPLOYEES**

The Corps of Engineers, Galveston district, U. S. Army, is in need of employes to fill positions recently established for the accomplishment of its large design and construction program in connection with flood control and maintenance of rivers and harbors in the State of Texas. The Corps lists these positions: Concrete Construction Engineer, Structural Design Engineer, Mechanical Construction Engineer, Civil Engineers, Photogrammetric Engineering Aide, Civil Engineering Aides, Mechanical Engineering Aides, Hydraulic Engineering Aides, Real Estate Administrative Assistant, Photographers, Topographic Draftsmen, Civil Draftsmen, Cartographic Draftsmen, Land Appraisers, Real Estate Negotiators, and fourth mate on pipeline dredge.

Anyone interested should write Corps of Engineers, Box 1229, Galveston.

**CLARK HARVEY GETS DEGREE AT IOWA STATE COLLEGE**

Ames, Iowa, Mar. 22.—Clark Harvey, son of H. G. Harvey, of Muleshoe, was one of 258 students receiving degrees at Iowa State College at winter quarter commencement, Saturday, March 20. Clark was granted the degree of master of science in crop production.

Dr. Charles E. Friley, president of the college, delivered the commencement address and conferred the degrees at ceremonies held in State Gymnasium.

**Fowl Cholera Has Killed Many Ducks**

An epidemic of pastorellosis, or fowl cholera, has killed an estimated 16,000 ducks on the Wildlife Refuge south of Muleshoe and hundreds of the fowls remain to be burned or buried there, it was said. However, the epidemic early this week had shown signs of abatement.

Agents of the state game commission and the U. S. Fish and Wildlife Service continued their collection and disposal of the dead fowl Saturday. They estimated that about 4,000 ducks remained to be disposed of at that time.

Work of clearing the lake was to continue until all danger of contamination is eliminated in order to prevent reinfection this fall.

**2, 4-D Is A Prime Killer Of Weeds**

College Station—Early spring is the season for killing out loco, hoarhound, bull thistle and poisonous bitterweed with 2,4-D, says Robert R. Lancaster, extension pasture specialist of Texas A. & M. College.

Uniform success on these has been reported by county agents over the state the past two years. The most complete kill is made by spraying when the plants are young, tender and growing. 2,4-D under any brand is the same, but its solution may be weak or strong, and the weak solutions need less water than the stronger concentrations. Directions for mixing and using the various brands are different, and may be found on their containers.

2, 4-D will kill most any other weeds coming up this season of the year. It makes a fine weed killer, but Lancaster warns to keep it away from gardens, flowers and ornamental shrubs because it will damage these plants severely, perhaps kill them out entirely.

Another important thing to remember about the use of 2, 4-D is

that it a fairly strong spray that "hangs on." Even if a sprayer is washed out after being used, it is possible to kill plants with 2, 4-D while spraying insecticides some time later on. So the safest thing to do is have two sprayers, one for 2, 4-D, and one for insecticides. This

way there will be no injuring the plants when from 2, 4-D to insecticide

**This spring, first thing...**

... you've got a date that just can't wait!

So, clear out! Get down the street, where a Conoco Mileage Merchant can drain out dirty, contaminated winter oil and refill with Spring-time Conoco N<sup>o</sup> 4... the oil that OIL-PLATES as it lubricates!

It's like this: When N<sup>o</sup> 4 Oil (Patented)\* enters your engine, a special added ingredient fastens extra lubricant so closely to metal that cylinder walls

and all working parts are actually OIL-PLATED!

Because this extra OIL-PLATING stays up on cylinder walls... won't all drain down to your crankcase, even overnight... a Spring change to Conoco N<sup>o</sup> 4 Motor Oil extra-protects from "dry-friction" starts... from power-choking sludge and carbon due to wear!

That's why, for extra-cool, extra-powerful, extra low-cost miles you'd better...

Copyright 1948, Continental Oil Company \*U. S. Pat. Nos. 1,944,941 and 2,318,122

**make a date to OIL-PLATE!**

**and Mansfield Mule April 4th**

March 30.—All set for entered championship calf roping at the Levelland Rodeo Arena. At 2 o'clock will start at Fort of Lovington, N. M., Public holder and Toots Mansfield Spring, leading contender crown.

The two outstanding calf ropers will rope and tie twelve tough brahma calves in a time event.

Mansfield defeated Fort here Aug. 11, 1946, and Fort had the best time over Mansfield here Mar. 23, 1947.

Besides the main event, a number of leading cowboys over the country will enter brahma bull riding and jackpot roping events.

Already entered in the brahma bull riding are Spec Tipton and Bud Hull.

A dance sponsored by the Levelland Rodeo Association will be held in the R. D. McDonald building on North East Avenue Saturday night beginning at 9 o'clock.

**Last Minute Jobs For The Landscape**

"If you've not made all the changes which you plan in your landscape, there's still time to get it done before growing season starts," Mrs. Laurette Williamson, Court home demonstration agent, points out.

If shrubs around the house are crowded, some of them can be moved to a border or used for screening out-buildings, she says. Or go to the nurseries and select the plants which will fit into the home landscape, as they can be successfully transplanted now.

Other jobs which can be done to the home landscape now are listed by Mrs. Williamson. Flower beds

for late spring or summer plantings can be prepared, as barnyard fertilizer will have about six weeks to decay before planting seeds. Order rose bushes from reliable sources and set them out in soil where only grass has grown for the past five years. That will insure healthy plants and many blooms.

Evergreens which have grown too large and are crowding other plants can be pruned. Do not prune early blooming shrubs until they have finished blooming, she warns. Shrubs which have not begun to bud can be sprayed with oil emulsion to control scale. If the spray emulsion has been frozen or if the oil has separated, it's a good idea to get fresh material and follow directions exactly so the plants will not be injured.

As a final job, Mrs. Williamson

**Estimating Fire Hazards**  
ON the average farm, winter means not only cold weather but also increased fire hazards. If you haven't done so already, now is the time to look around and eliminate as many as possible.

Check your stove or furnace set-up in particular. Then, as an added precaution, be prepared to fight any small fires that may break out. Hand extinguishers are for controlling flames that otherwise might spread into disastrous fires. Have several, placed strategically at the more likely danger points.

The above sketch illustrates one effective way to reduce fire hazards resulting from stoves. The stove can be set on a base consisting of a fireproof material such as asbestos cement board. Another piece of the same material can be nailed to the wall directly behind the stove to serve as a shield. Sparks or hot coals cannot burn asbestos cement board because it is made of incombustible minerals.

A wise investment in fire prevention is to enclose the furnace in a separate room with fire-resistant walls. Asbestos cement board, which is easily applied to wood framing, is ideal for this purpose, too. For more complete fire protection, your house and other farm buildings should be covered with a fireproof roofing material. Among those used widely on farms are asbestos shingles, which are weather-proof as well as fireproof.

**GOVERNOR BIDS "GOD-SPEED" TO SAFETY TOUR OF TEXAS MOTOR TRANSPORTATION ASSOCIATION**

Pointing out that if all Texans observed "Courtesy and Safety" on the highways, Governor Beauford H. Jester tells Erwin Zunker, "Driver of the Month," that the accident frequency could be slashed in half. The picture was taken in Austin as the Texas Motor Transportation Association started a statewide safety tour to visit 65 cities. The safety exhibit consists of a truck-trailer combination containing equipment on which drivers will be given free tests in each city visited. Public demonstrations will be held, and the message of safety carried to many thousands of Texans in a practical way. The Department of Public Safety is cooperating with the transportation association on the safety tour.

says, remove and burn all diseased plants, diseased and dead limbs and take out unhealthy plants. The general appearance of the landscape will be improved.

**- Hospital News -**

Mrs. R. O. Moore was in for surgery. She has gone home. Ronnie Freeman, small son of Mr. and Mrs. A. H. Freeman was in several days for medical care. He has been discharged.

Mr. C. A. Wilson has been in several days with a broken leg. He is doing fine.

Coy McCain was in a couple of days due to an accident. He has been removed to his home.

Mrs. A. D. Stancell is in for surgery. She is improving.

Mrs. Melvin Treider was in for medical care. She has been discharged.

Mrs. F. L. Oliver, Jr., is in for medical care. She is doing fine. Mr. H. H. Patterson is a medical patient. He is doing fair.

Mr. Lee Williams, a medical patient, is doing fairly well.

Mrs. I. W. Harden has been admitted as a medical patient. She is resting well.

The condition of Darlene Buhrman remains about the same. She has shown some slow improvement the last few days.

The infant daughter of Mr. and Mrs. J. E. Burris is improving. Congratulations.

To Mr. and Mrs. Earl Schmidt on the birth of a daughter, Judy Kay, March 29.

To Mr. and Mrs. Irwin Campbell on the birth of a daughter, March 29.

**West Camp News**

Mr. and Mrs. O. L. Dutton had as their guests last Sunday, Mr. and Mrs. George Williams of Amherst.

Rev. and Mrs. Lloyd Garrison were in Amarillo Tuesday to be with his father, T. L. Garrison, who underwent minor surgery at Amarillo hospital Monday. He is reported back home now and doing very well.

Mr. and Mrs. E. L. Smith of Roswell, visited with their children and grandchildren for the Easter holidays. They are Mr. and Mrs. Guy Austin and baby daughter, and Mr. and Mrs. Partin Austin and Marilyn and Sherry. They attended Easter services at the West Camp church.

**HIGH SCHOOL GRADS ENJOY ARMY STUDY OPPORTUNITIES**

High school graduates have a two fold opportunity to continue their education by enlisting in the new Regular Army. M. Sgt. John Temple, of the Clovis recruiting Station announced details today.

Volunteers enlisting for a minimum of three years can either be trained in an occupational skill of their own choosing, or, if they wish, they can receive college credits by enrolling in a self-study program sponsored by the US Armed Forces Institute.

The Army recently launched an unprecedented pre-selected school plan, M. Sgt. Temple explained, that permits a qualified high school student to pick his own field of specialization before he enlists. Following basic training, he then is assigned to the school which gives the training in the subject chosen before enlistment.

The West Camp Pollyanna Home

**SERVE THESE LARGER VEAL CHOPS**

Veal chops cooked to their tender best, add a subtle different flavor to a meal, for veal has a distinctive flavor that appeals to most folks who like good food. These are veal kidney chops, cut to contain a cross-section of the kidney. For ease of service, the chops go on the same plate with bright buds of brussels sprouts. A bowl of fruit serves as a centerpiece and later as dessert.

Demonstration club met Wednesday, March 24, in the home of Mrs. W. W. Couch.

A business session was conducted by the president, Mrs. A. J. Jones. All old and new business was brought up to date.

Mrs. Jones gave the council report. Mrs. W. W. Couch asked "What is prayer worth to us and

do we really believe it helps?" She then read a short article "What Value Prayer" by Thomas N. Caruthers, D.D.

A period of recreation was enjoyed by all. Refreshments of lemonade and cookies were served to the following members: Mesdames Partin Austin, Guy Austin, Sam

McLarty, Q. L. Dutton, Elmer Williamson, A. J. Jones, Lloyd Garrison, a visitor, and W. W. Couch, hostess.

The next meeting will be held Wednesday, April 7, at 2:30 p.m. in the home of Mrs. Partin Austin, two miles south of West Camp.

**Mrs. Dorsey Hostess To Longview Club**

The Longview Home Demonstration Club met Wednesday, March 23, in the home of Mrs. Gladys Dorsey.

Roll call was answered with each giving a helpful hint. Mrs. Laurette Williamson, agent, met with us. She gave an interesting talk on ready prepared foods. She said that everyone should read the labels and directions carefully for best results.

Mrs. Dorsey gave a report from the council of clubs in Bailey county. Mrs. Ray Buzard received the hostess gift.

Delicious refreshments of gingerbread and whipped cream and spiced tea were served to Mesdames Katherine Buzard, Cary Huff, Ima Griffin, Oleta Buzard, Ranita Dawson, Berta Kitchen, Ruth Higginbotham, Ozell Higginbotham, Mildred Newkirk, Naomi Black, Laurette Williamson, Dan Dorsey, visitor, and Gladys Dorsey, hostess.

The next meeting will be held Tuesday, April 12, in the home of Mrs. Berta Kitchen.

**CONDUCTED FUNERAL**

**★ ★ Fashions ★ ★**

Dresden shepherdess effect is given by the cotton batiste nightgown above as pictured in the issue of Good Housekeeping magazine. Comes in white with blue. Sizes 32 to 40; about \$3.50.

**Q. What is the name of this cut of meat?**  
A. This is a veal kidney chop.  
**Q. Where does the cut come from and how is it identified?**  
A. The veal kidney chop is cut from the rib end of loin, clear through the flank section. It also contains a cross-section of the kidney, on a cushion of fat. The flank wraps around this section. The veal kidney chop is one of the larger of the veal chops.  
**Q. How should this cut be prepared?**  
A. The veal kidney chop should be braised as should all veal chops or steaks (veal, since it comes from a young animal, has little fat to aid in making it tender). Brown the meat first, slowly, in a small amount of hot fat (the chops may be dipped first in an egg-and-milk mixture, then in sifted cracker or bread crumbs, to protect the meat from direct heat and also to aid in browning). When the chops are nicely browned, add a small amount of liquid (water, milk, tomato juice, sour cream, fruit juices) and cook slowly, covered, until tender, usually about 45 to 60 minutes.

**Quoia's Cousin**  
**Discovered in Texas**

... Station—The A & M Col...  
 ... Texas Forest Service recently...  
 ... from the Harvard arbore...  
 ... a small quantity of seed from...

a tree species, which, until a year ago, botanists believed had disappeared from the face of the earth millions of years ago. The seed are from the Metasequoia, and Silviculturist Chief D. A. Anderson, of the Texas Forest Service, plans to find out whether they'll grow in the state.

The Metasequoia, scientists believed, disappeared from the earth about the time of the dinosaur and other giant reptiles. Then in February, 1946, H. H. Hu, a Chinese forester, discovered that the species were growing in a 100 mile area of the Szechuan and Hopen provinces. Harvard joined in an expedition which confirmed the discovery, and this year obtained some of the seed, which are being distributed to recognized silviculturists for experimental planting in this nation and Europe.

The Metasequoia, a coniferous species, is a "cousin" to the giant sequoia growing on the slopes of the Sierras in California. Its history can be traced back into antiquity, along with the ancient ginkgo tree. Today there are only a little over 1,000 trees of this species left—almost on the verge of extinction. They grow to more than 100 feet in height.

**MAKES STATE HONOR ROLL**

Billy Beavers, son of Mr. and Mrs. Clay Beavers, of Muleshoe, was on the honor roll at the University of Texas for the fall term, according to announcement of the dean. Billy is studying in the business administration department. A clipping from The Daily Texan, student publication, giving the honor roll was sent to The Journal by P. C. Windsor, a University professor, former teacher of English in Muleshoe high.

For Commissioner, Prec. 4:  
**W. E. "Woody" GOFORTH**  
**R. P. McCALL**

**Be Sure To Read Medicine Labels**

Austin.—Too much emphasis cannot be placed upon the need for reading labels on drugs and medicines before taking them," says Dr. Geo. W. Cox, State Health Officer. "Frequent reports are received of accidents, some of them fatal, affecting people who have formed the hazardous habit of taking medicines without carefully reading the labels."

**Your Home**  
 By Frances Ainsworth

I've just discovered a way to make steamed puddings in individual servings — and because this dessert is such a universal favorite I'd like to tell you my method.

I use custard cups instead of a regular steam-pudding mold. I grease them heavily and fill each half full of my regular pudding batter. Then, so they will steam well, I cover them tightly with a double-thickness of waxed paper — tied on with string or held in place with metal lids.

Once the glasses are filled and covered, I place them on a rack in my steamer, and add boiling water to come halfway up the sides of the glasses. When the water comes to a boil, I set my clock for one hour's steaming. When the hour is up, all I have to do is remove the pudding from the jars, cover with sauce and serve!

Incidentally, this is an ideal "company" dessert, because you can make the pudding ahead of time. Simply wrap each one in waxed paper until ready to use. Then, reheat in the top of your double boiler.

Speaking of desserts, if you fix lunches — as I do — you may like to try this idea. Slice each cake in two — then liberally frost the center. Put the pieces back together, wrap securely in waxed paper and pack in the lunch box. Cupcakes hold more frosting this way, and are easier to eat.

Isn't it surprising how many little home-making tricks we pick up each day? And surprising, too, how much we depend on that handy roll of waxed paper to save us time and trouble, isn't it?

Equally dangerous is the habit of taking medicine after the directions on the label have become obliterated, which many people do, thinking that they can remember what the bottle contained. Reaching for a bottle and taking medicine in the dark is another dangerous practice. It is important to remember that the law requires labels to be attached to drugs and medicines in order to protect the public.

Dr. Cox urges people to follow the simple rule of reading the label before using anything from a carton or bottle, either as food or as medicine. In brief, his advice to the public is: "Be sure you know

what you are taking, and when doubt—DON'T TAKE IT."

**RE DOWN**

**AND SO'S THE COST OF ELECTRIC SERVICE**

Everyone's talking about how skirts are down... and we want to talk about the cost of electric service being down.

**SOUTHWESTERN PUBLIC SERVICE COMPANY**

Yes, we said DOWN... while almost every other price has gone sky high, the cost of your dependable electric service has come down... down... down.

**23 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE**

Today you are receiving almost twice as much electric service for your dollar as you did a few years ago. Think it over... and you'll see more electric service... your best bargain.

**You can CASH IN ON SCRAP**

**STEEL MILLS NEED SCRAP METAL FROM YOUR FARM**

Supplies of scrap for the steel furnaces are critically low. The furnaces thrive on a diet of about equal portions of pig iron and scrap. More scrap is urgently needed, if there is to be enough steel for making farm implements and countless other products. More than three million tons of steel scrap lie idle on America's farms, according to the latest estimates — scrap that only litters the place, scrap that is wasted where it is. How much is there on your farm? How about the old car body, that rusted cultivator, those old plow bottoms, discarded tools? Every bit helps — and it is needed now.

**IT'S HARVEST TIME FOR SCRAP**

There's a bumper scrap crop to be harvested this spring — and there's money in it for you. Your scrap dealer will pay for everything usable. You can do three good turns in one scrap harvest:

1. You make some money on what you can't use.
2. You get your outdoor spring housecleaning done.
3. You help the steel mills turn out more steel for the implements and equipment you'd like to have on your farm.

Scrap means savings to you — if you'll collect it and sell it. On the first rainy day, when you can't plow or sow or cultivate, put on your oldest clothes and get that scrap together.

**HERE'S WHAT TO DO**

1. Pile up every bit of iron and steel scrap on your place.
2. Take a payload into town the next time you go. You'll make more money out of it that way.
3. If you can't drive it in, call your scrap dealer and ask him to pick it up.
4. If there is no scrap dealer near you, call your implement dealer. Ask him how to get your scrap started toward the steel furnaces.

## Patty Ann White Is Honored On Birthday

Miss Patty Ann White was entertained by her mother with a party on her sixth birthday, Thursday, March 25, from 3 p.m. until 5 p.m.

being worked, according to the food preparation committee.

The club received a letter of thanks from Mrs. Nellie Louise Griggs for the flowers presented during her illness.

We welcome Mrs. Lillie Mae Robinson as a new member. The recreation committee enter-

tained the group with several nice games which all enjoyed.

A delicious plate lunch and punch were served by the hostess. The next meeting will be with Mrs.

Zed Robinson April 8. We hope to have Mrs. Williamson that date.

Everyone is asked to bring a cup towel for the grab box.

## Betrothal of Helen Holt, Paul Gardner Announced At Tea

Engagement and approaching marriage of Helen Holt to Paul Gardner was announced Friday, March 26, at a tea given by the bride-elect's mother, Mrs. H. C. Holt, at her home.

Seventy guests called between the hours of four and six and were greeted by friends of the bride-elect, Misses Norma Lee Osborn, Yetta Farrell.

Others were Mrs. Holt, Mrs. J. Gardner. Yellow and white colors were receiving and "Bible Cake"

decorated in yellow with the words "Helen and Paul June 4, 1948" formed the centerpiece of the tea table.

Miss Mary Frances Jordan, bridesmaid-elect, presided at the tea table. Mrs. Pete Jenkins and Mrs. C. S. Holland provided music during the calling hours.

Other members of the houseparty were Mrs. James Jennings, Mrs. Carroll Goss, Jr., Mrs. Horace Holt and Mrs. Clyde Holt.

Miss Holt will receive her B. S. degree from McMurry College at Abilene in May.

The ceremony will be read in the Methodist church in Muleshoe.

### IN PLAINVIEW SUNDAY

Mrs. Earl Ladd and sons visited Sunday in Plainview with the family of her brother.

## Mrs. Shofner Hostess To Muleshoe Club

The Muleshoe Home Demonstration Club met Thursday, March 25, in the home of Mrs. H. M. Shofner with Mrs. J. T. Shofner as co-hostess.

Mrs. Byrel Wingo and Mrs. D. R. Aylesworth were appointed as a committee to be in charge of the club's entertainment for the Commissioners Court supper, which will be held in April.

Mrs. Wingo and Mrs. S. C. Caldwell gave the council report. Mrs. Aylesworth gave a report on her trip to Plainview to the 4-H boys and girls Youth Forum.

Mrs. Wingo gave a talk on "Wardrobe on Limited Budget."

There were several jars of fruits and vegetables brought to the club meeting for two families.

Refreshments were served to eight members: Mesdames A. W. Copley, Caldwell, J. E. Day, Aylesworth, Wingo, J. W. Jarman, H. M. Shofner and J. T. Shofner, hostesses.

The next meeting will be held April 8 in the home of Mrs. Ayles-

## Enochs Club Met With Mrs. Johnson

The Enochs H. D. Club met in the home of Mrs. D. T. Johnson Thursday afternoon, March 25.

The president was in charge of the meeting. Nineteen members answered the roll call with a helpful short cut for house work. Four visitors also gave their favorite short cut in house work.

Twenty garments and one quilt top was reported made by the sewing committee. Seven gardens have been broken and eight yards are

worth. Each club member is urged to be present.
