Word has been received here that SSG. Roy Dan Hoover, son of Rev. and Mrs. Dan Hoover of Coleman, has arrived with the 44th Chemical Company in Saudi Arabia. His wife, Yvonne Hoover, and son, Brandon, reside at Fort Hood. The Hoovers have many relatives in the Cisco area.

The Fort Worth Star Telegram prints in its Wednesday editions statistics for Fort Worth area high school football teams. And the Cisco Loboes were listed in several categories last Wednesday. In total offense, Cisco was fifth in the area with 1,523 yards, for an average of 380.9 yards per game. In rushing offense, the Loboes were third with 1,416 yards, averaging 354.0 yards a game. Cisco was fourth in scoring offense with 127 points for an average of 31.8 points a game. Cisco rated second in total defense, allowing only 414 yards in four games, average of 103.5 yards each outing. Rushing defense lists Cisco first, allowing 264 yards, for an average of 66 yards a game. In passing deeighth, allowing 150 yards for an average of 37.5 yards. The Loboes were seventh in scoring defense, allowing only 23 points to be scored in four games for an average of 5.8 points. Individual stats showed

# **Thrift Mart Stores Have** New Wholesale Supplier

Thirft Mart's Eastland and Cisco stores have a new wholesale supplier. Thrift Mart will now be featuring foods from Fleming Co., Inc. of Oklahoma City, OK.

Fleming is the largest food distributor in the country, and it has both a division office and a distribution center in Fort Worth.

"We look at this as a very positive move for our company," General Manager Bill Williams said. "We look forward to a long-term relationship with Fleming."

Williams said that Thrift Mart will now be supplied by Fleming because of Affiliated Food Stores' uncertain financial situation. Affiliated, Thrift Mart's former supplier, filed for reorganization under Chapter 11 of the Federal

Bankruptcy Act on Aug. 31. "Our primary objective is to keep groceries on our shelves with as little disruption in customer service as possible," Williams said. "We felt it to be in the best interest Commander Dewey Struck of of our customers to seek out other wholesalers who can fill our needs."

Thrift Mart has not been affected by Affiliated's financial situation, Williams said. Thrift Mart is an independent entity, and Affiliated did not won any of Thrift Mart's assets or stocks.

Fleming was established in Topeka, Kan., by O.A. Fleming and two associates in 1915. Ned Fleming, O.A.'s son, took over the company in 1921 and served as president until 1964, when he became chairman of the board.

By the end of the 1980's, Fleming was serving 5,000 grocery stores in 36 states,

with more than \$12 billion in annual sales. Today, one out of every 10 supermarkets in the United States is served by

Thrift Mart has 11 stores in North Central and West Texas. The independent, family-owned business was started by William's father, Clyde, who opened a store in Roaring Springs in 1950. Expansion of the company began with the purchase of stores in Comanche and Eastland in 1975.

"With Fleming's expertise and Thrift Mart's knowledge, I see a good growth partner ship," said Dick Turner of Fleming's Fort Worth divi-

# Mrs. Maxwell's 4th Grade Class Presents **Books To Elementary School Library**

Students from Nannette Maxwell's last year's 4th grade class donated \$153.00 worth of books to the Cisco Elementary School Library last year as part of their "Mr. Mouser's Mosquito House" project. These students, under Mrs. Maxwell's guidance, sold miniature houses to hang on Christmas trees after deciding to use the money they earned to enlarge the library's book section on animals.

worked on this project for made by the 4th grade class. several weeks and used the money for library books. Students not only helped choose the books to purchase, but they made and assembled the little houses themselves, with some assistance from parents and local businessmen who donated materials. Approximately 200 of the houses were completed by the students and delivered to buyers who now have a very Mrs. Maxwell's class unique Christmas ornament

The mosquito house idea began some years back when one of Mrs. Maxwell's students brought one of the little houses made by his grandfather, Mr. Mouser, to show Mrs. Maxwell. The students modeled their houses after his, hence the name "Mr. Mouser's Mosquito Houses"

The students are very proud that the books they purchased for the library are books that all the students can use, and each book has a student's signature inside the front cover to remind readers where the book came from.

Many students already have checked out the animal books and are putting them to good use. Mrs. Maxwell's 1989-90 4th grade class will be remembered for many years to come as the students who worked many hours to purchase library books for the school, they not only learned from Mrs. Maxwell how a business works, but they learned what they can accomplish for a good cause as well.

ground of the average dentist?

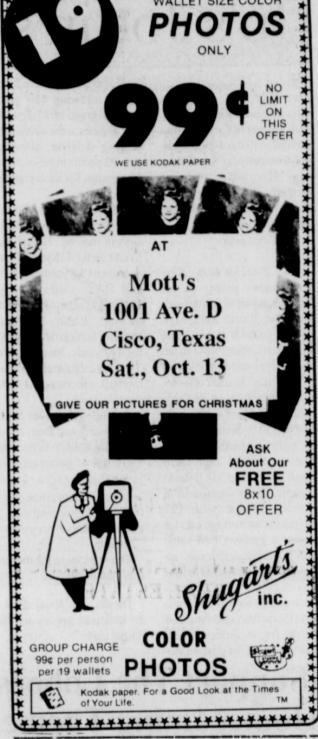

A. The graduating dentist of today usually has had four years of predental education, including basic anatomy, biology and chemistry, leading to a bachelor's degree. Prior to entering dental school, the aspiring dentist must pass a qualifying entrance exam to test mental abilities and physical dexterity. The first two years of dental school are spent learning the appropriate techniques for restoring the health of the teeth and gurns, as well as basic human anatomy, phisiology, and related subjects. The latter two years consist of work in the clinic with actual patients under the direct supervision of qualified instructors. Finally, the candidate is required to pass an examination to show his or her competence to practice in a particular state.

# Rescue For Women

Q. I have heard of Erikson's stages of life and the crises that occur. Please explain the ones for adolescence and young adults. I would like to help my teenagers through this time in their lives.

A.Erikson showed that identity is formed through identification with others who have meaning to us.

With a smoothly functioning identity we can take ourselves for granted. Erikson says we are most aware of our identity when we are

about to make its acquintance.

The Moratorium Phase is generally known as an identity crisis. New possibilities are considered. Once these decisions are made the questioning and delemmas fade and peace of mind reteums.

Erikson dipicts the life cycle with the search for identity in the

adolescent years. As adolescents they make their own personal choices, not being so dependent upon parents for all decisions made concerning hem. Separation and individuation statrs to occur in the adolescent

Identity must be resolved before the next phase of intimacy versus isolation is addressed. Woman hood (or manhood) arrives when attractiveness and expe-

ience have succeeded in selecting what is admitted into the inner sp for keeps.SOURCE; Finding Herself by Ruthellen Josselson

...FREE!! BEGINNER'S

CLASS FOR GENEAL-OGY!! On Saturday 13 October, a free workshop will be presented by the Abilene Public Library, 202 Cedar Street, Abilene, TX, 10:00 a.m. - 12:00 noon in the lubrary auditorium. Following will be an afternoon of research. Teacher will be Mildred Cornelius, Library Genealogy Specialist.

Each one who registers will receive a "FREE STARTER KIT" and although the workshop is free, you DO need to register no later than wednesday, 10 October 1990 to be assured of receiving your free starter kit. You will need to bring paper and pencil to take

notes during the class. To register, call the library at (915)677-2474, ask for the genealogy or periodical department and tell them you wish to register for the free beginner's class for geneal-

Following the class, Ms. Cornelius will help each person get started on ONE family line. You should bring all the information you have on the line you would most like for her to help you with.

NOTE: I believe this will be an excellent opportunity for the beginner, extremely fortunate having Ms. Cornelius to teach this class plus having this chance for a good start on family research. (JP)

629-8606 Mike Perry but Oh! how I missed my classmates and our little school.

Loraine Bennett picked me up at our mail box to go spend the night with her. My dad said, ball game? I said no. He went to the Bennetts house and of course we had gone to the ball game. He got after me so hard, I decided for sure no

ball playing. No school. I remember when Freedom consolidated with Flatwood and Kokomo to Flatwood. "Bless the sweet memories of our little school."

> Thanks, Modell

Five of we Norris girls Faye, Louise, Cleo, Juanita and Winnette played a "benefit soft ball game in Ranger our sister Juanita played on Ranger team. Now this was after we all married and had our families. Our papa Charile Norris loved that baseball so as we were playing we noticed him sitting on his foot behind the screen telling everyone how to hold your bat. And he told his grandkids, if your batting right handed turn your hind-end kinda toward the pitcher. That will make the ball go between first and second base a good place to hit it.

Speaking of basketball, the coaches had me jump center just because I was tall. Well, I couldn't jump three inches off floor, but I sure like to try. We played girls rules then.

I will not be able to attend the meeting to help plan the Flatwood reunions. But in there with all of you,

in thought and looking forward to a big reunion.

Dear Editor,

If people missed voting for

Jesse Jackson in 1988, Clay-

ton Williams is waiting. How

can I compare to Jesse with Claytie you might ask? Well, the first element of similarity is their aspiration to start by being elected to the topmost office: Rev. Jackson with that of the Presidency and Mr. Williams with the Governorship. Their likenesses do not quithere. Something happens when they open their mouths. Rev. Jackson finds a way to bring back U.S. pilots from Syria and hostages from Iraq. Mr. Williams finds a new way to offend somebody. Both have no political experience. Rev. Jackson is a motivator, who has fought for civil rights and Mr. Williams is an overseer, who has sought his private prosperity. Both have been compaigning on someone else's concepts. For Rev. Jackson, it is Martin Luther King and for Mr. Williams, it is trying to run on parts of the 1964 and 1984 Republican National Platforms. I do not feel comfortable with Jesse Jackson, but I know that

better than greed. Why else would a rich oil man "spend six million dollars of his own money" (his own words) for a job that pays \$88,900a year (1987 figures), other than directing that office to enhance his personal wealth and maybe that of rich friends? If anyone does not believe that an asinine selfindulgent businessman could not hurt a state, then they have forgotten how the recently impeached Republican Govemor Evan Mecham caused the state of Arizona to be considered a joke. Here was another yahoo that would engage his mouth before his

strengthening civil rights is

brain. I should take back the remarks about Clayton Williams' nose picking, even though he admitted to doing it. I believe that Clayton has his finger in his nose to hold the last two brain cells in his head. His aids know to interrupt him whenever they see

smoke coming from his ears. They recognize it as an indication that those two brain cells are rubbing together and he is about to say something that has not been rehearsed.

This line of thought is not as ill-willed as some of Williams' proposals. I believe that it is much more generous to consider him to be haphazard and not a womanizing woman-hater, who enjoyed prostitutes and joked about rape. It would be despicable to believe, the "law and order candidate" would sanction medical care for rich drug abusers, like his son who sought treatment at a Dallas Rehibilitation Clinic, while preaching "the virtues of breaking rocks" for others.

With November drawing close, I have some good news and some bad. Annie ain't a drinking and Claytie ain't a thinking.

# In Memory Of Jason Ray

I have written so many different poems, but this is much moredifficult to write, because I lost my precious baby boy, very suddenly in the dark of night. Many thought of him, as a nice young man, and I am proud of what he was, but he will always be my baby and love him, as God does. Jason Ray is the 1st to leave but we will follow one by one, until we're all together again in heaven with my young son. Things will never be the same again for Jason isn't there to hold, ut our love for him will last forever for the love and memories he left behind, are worth their weight in gold. May God give us strength to except our loss, and look forward to the day, When we close our eyes to be with God

and be reunited with Jason Ray. Written by his mother, Patricia Rose Flippin

#### FALL WEBWORMS

The fall webworms have gotten a lot of attention during my first week in the county. The first question asked was, "What can I do about these webworms?", came from Maybelle Trout of Eastland.

Fall webworms are the larval stage of moths. The larvae are about 1 inch long and are pale yellow or green. They are covered by tufts of long whitish hairs. A dusky stripe bordered by a yellow stripe will be on the back. The main identifiable characteristic of the fall webworm is the web it builds in the tree or limb.

The fall webworm will feed on a variety of trees and shrubs. I have seen webs in mulberry, poplar, willow, pecan, and oak.

Newly hatched larvea begin feeding and spin a web over the foliage as they feed. These webs can cover an entire branch. There are some trees in the county where several webs are covering 50% of the tree. This type of defoliation can weaken a tree and could result in the tree dying.

Control can be accomplished without insecticides

There are several insecticides which can be used for fall webworms. Some of these products are Dipel, Sevin, Diazinon and Malathion. Whichever product you select make sure you read and follow the label instructions.

The publication entitled Fall Webworms (L-1811), is available in the County Extension Office located in the basement of the county courthouse in Eastland.

# LaLeche League **Group Is Formed**

The newly organized Eastland Group of La Leche League will hold its first meeting on Tuesday, October 9th, at 10:00 a.m., at 606 S. Daugherty.

The name La Leche is Spanish and means "the milk." A nonsectarian, nonprofit organization, the League's purpose is to offer help and encouragement to

women wanting to breastfeed their babies.

The Group will meet the second Tuesday of each month. During the meetings, the Group informally discusses different phases of breastfeeding. The topic for the first meeting is "Advantages of Breastfeeding to Mother and Baby."

All women who are interested in breastfeeding are invited, as are their babies. La Leche League began in a Chicago suburb more than thirty years ago when one mother, who had successfully nursed her baby, helped another who wanted to breastfeed.

Although the League is now international in scope, with Groups in the United States, Canada, and more than forty other countries, motherto-mother help is still given to those who attend.

#### **Texas Size** Fruitcakes On Way To Troops

"They told her it couldn't be done. But come next week, one of Gladys Farek's Texassize fruitcakes will be on its way to the troops in Saudi Arabia.

"Ms. Farek said seeing the 150-pound fruitcake loaded onto a transport plane Friday was the highlight of her 18year baking career — even better than being on the Tonight Show last year with Johnny Carson.

Even borderline elevations in blood pressure can permantly damage the heart and blood vessels and raise the risk of heart attack, a new study at the University of Michigan found. Researchers suggest more aggressive treatment for high blood pressure than is customary now.

Hormone replacement therapy begun at or near menopause can sharply reduce the risk of a broken hip in the next decade. Study at the University Hospital in Uppsala, Sweden, covered 23,000 women.

Researcher at the University of Texas in San Antonio is working on contact lenses containing melanin, the pigment that colors the skin and acts as a natural sunscreen. The treated lens would filter light and protect the cornea.

Retinoids, synthetic forms of vitamin A, are being tested as a treatment for skin cancer in studies sponsored by the National Cancer Institute. One advantage over surgery: the retinoids seem to heal without scars.

#### Election 1990: New Era, **New Politics**

Even a glance at the November 6 General Election ballot shows that it is different, right down to some of the Eastland County offices.

All those boxes in the righthand column for certified write-in candidates show that more choices than usual will be available.

Although the names of the write-in candidates are not printed on the ballot, they will be posted at each polling place.

Another unusual thing about this ballot is that it has only one proposed (State) Constitutional Amendment. This one seeks 'to clarify the authority of the Senate to consider certain nominees to state and district offices and to provide for filling vacancies in those offices.'

On the national level Senator Phil Gramm (R incumbent) is expected to win by a wide margin over his Democratic and Libertarian) opponents. But Gramm hasn't been taking his election for granted - he has campaigned extensively all year long.

In the U.S. House of Representatives Charles Stenholm (D incumbent) is unopposed, and expected to draw most of the votes in the 17th District. Bi-partisan support is apparent here.

Bi-partisan support is actually needed in many parts of Texas, for this domain is fast becoming a two-party state. The presence of twice-elected Governor Clements and the strong race of Republican candidate Clayton Williams show that the state can never be taken for granted by one party again.

The outcome of the race between Ann Richards (D) and Clayton Williams is attracting national attention, and some of it is unfavorable. In the latest issue of 'Texas Monthly' the character and personality of each candidate is explored at length. This type of scrutiny is part of the price of being a public figure.

Another special feature of the Governor's race: this is the first time a woman has been a party nominee for Governor since the last term of Miriam A. Ferguson in

On another state race, the Rick Perry (R), Jim Hightower (D, incumbent) battle for Commissioner of Agriculture is attracting a lot of interest, in Eastland County and elsewhere. With the Farm Bureau officially behind Perry, the situation is up for grabs.

In Eastland County the furnished local candidates with few exceptions. This is the year of exceptions - among the long list of Democrats for County offices there is a Republican: Marie Rabel for District Clerk.

Mrs. Rabel, the wife of building contractor Gary Rabel, lives in the Nimrod community. She works in a Doctor's office in Eastland and also in her husband's office.

She says she is running for District Clerk because of her interest in good government, and because of her previous experience in County Government. Before moving to Eastland County nine years ago she worked in a County courthouse in Nevada, first in a hired and then an elective position. She also helped put in a computer system there.

In Election Precinct 8 (Cisco and surrounding area) voters will find a square and a blank space near the bottom of the right-hand corner. This is the place where voters may write in the name of Billy Bacon (incumbent), candidate for County Commissioner, Pct. 4.

Bacon has followed the procedure required by law,

PEDALING FOR A CAUSE-- Cycling enthusiasts from Texas and across the country will ride into Cisco on Thursday, Oct. 11, on day five of the American Lung Association's Butterfield 500 bike trek. The trekkers will eat lunch in Cisco on their way to Breckenridge before returning to Denton on the 500-mile, week-long trek.

# Cyclists Will Eat Lunch In Cisco Thursday During Trek

The American Lung through Abilene to the halt Association's first Butterfield 500 bicycle trek will be Oct.

Sponsored by Dallas Digi tal Corporation and Fujitsu. the 500-mile round-trip journey will begin in Denton and venture west on what was known as the Butterfield Line, the famous Overland Mail route that traveled from St. Louis through Texas to San Francisco during the mid 1800s. Overnight stops are scheduled for Jacksboro and Fort Griffin State Park near Albany before cruising Gap. Following a day of rest and relaxation, cyclists will journey through Cisco to Breckenridge and Lake Mineral Wells before returning to Denton on Saturday, Oct 13. The cyclists will have lunch

way stop in historic Buffalo

in Cisco on Thursday, Oct. 11. Their itinerary calls for the riders to take Highway 2945 (Old Abilene Highway) from Putnam into Cisco, eat lunch, and take Highway 6 toward Breckenridge. They are expected to arrive here at

and is certified as a write-in candidate.

Billy Bacon says one of his reasons for running as a writein candidate is because a lot of people have asked him to. Another consideration is that turnout in the party primaries in his Precinct was very low, with only about one-third of the approximately 2600 registered voters casting ballots. He would like to see a larger majority make the decision for Commissioner.

Bacon also says that he considers the office very important - one that requires special qualificiations. Another thing - he says he has a number of road projects he wants to complete.

This write-in candidacy and others make a person wonder whether voters will break with tradition this year.

In Eastland County moving toward a system where independent candidates can step in and be elected without being party nominees? Or, judging by the race for District Clerk - is there a chance that Eastland County will become a two-party County?

Bicyclists from as far away as Maine are expected to raise \$25,000 for the ALA-Dallas Area's Jeffrey Green Asthma Camp and the ALA of Texas' new asthma camp in Fort Worth.

Daily cycling distances will range from a high of 108 miles to a low of 65 miles, and most cyclists will spend an average of eight hours a day on the road. "It's possible for anybody to do this because the ride will be broken up throughout the day with rest stops every 10-15 miles," said trek coordinator Milton Fette. "There will also be a fullservice mobile bike shop and a team of massage therapists traveling with us. We'll have sag wagons if they are fatigued. Plus, all their gear will be transported for them."

Dallas architect Jeffrey Green, an avid cyclist for whom Camp Sunshine was renamed, was struck and killed by a hit-and-run driver near Valparaiso, Ind., during the TransAmerica Trek last summer. The trek, which stretched 3,400 miles from Seattle to Atlantic City, consisted of 300 cyclists pedaling to raise \$2 million for the American Lung Association.

The third annual "Dinosaur Day" was held recently for second graders. This day culminated a three-week study of dinosaurs. The children hunted "dinosaur eggs" and then cracked them open to find "fossils" of dinosaurs long past.

Next the children moved from one "dinosaur station" to another. The stations included dinosaur cookies, dinosaur ring toss, dinosaur tug-of-way, play dough dinosaur making, dinosaur t-shirt decoration, and having one's picture made behind a giant Tyrannosaurus Rex. The Tyrannosaurus Rex was painted and constructed by Mrs. Carol Zell.

The children relaxed under a large tree and sang dinosaur songs. Various parents from the class helped at the different stations. The day ended with a tug-of-way between the second grade teachers, Mrs. Johnson, Mrs. Odom, Mrs. Truce and Mrs.

The children also sang their dinosaur songs at a recent general PTO meeting under the direction of Mrs. White. They were so cute and gave us a very good show!

display depicting coming events for October. The 1st grade children have enjoyed making puppets, fire trucks, ships, trees, scarecrows, and leaves representing October happenings. Sandra Crutchfield volunteered in Mrs. Tankersley's 1st grade class to help with a fall art project.

All the 3rd grade classes have been to Safety City in Abilene during the past two weeks. Mrs. scott, Mrs. Ferguson, Mrs. Rains and Mrs. Zell report that they had fun and learned a lot about pedestrian, bicycle and vehicle safety. They have all drawn pictures and written stories about their adventure.

Remember, there is NO SCHOOL on Monday, Oct. 8, for students. It's an inservice day for teachers.

Report cards go out on Wednesday, Oct. 10. The first 6 weeks has gone by quickly.

All students get out early next Friday, Oct. 12, for Homecoming. Kindergarten through 3rd grades get out at 12:50. Fourth through 6th grades are dismissed at 1 p.m.

"Feeling Good About Me" contains eight stories about realistic problems young people might encounter and how, using traditional values, they are resolved.

Each story has a full-color illustration and teaches such lessons as right and wrong, appreciation of family, what it means to be a good citizen, out. living up to one's full potential, and why (and how) to stay away from drugs.

In the first story, "A Day With Granddaddy," young Wendy is mad. The most popular girl in school has invited her to a slumber party but SHE has to go to her grandparents house on the lake, a visit she usually enjoys. During the conversation that takes place as Wendy fishes with Granddad, she learns the relative importance of the party and the visit (her values are put into perspective) and she feels good about herself and visiting her grandparents.

Other stories involve the meaning of friendship, family relationships, respect for others, loyalty and the importance of being your own unique self, lessons not always covered in school curriculums. They reflect positive influences that build a child's self-esteem.

Each story is accompanied by a teacher's guide, which covers discussion starters. lesson objectives, and followup applications. The purpose of the lessons is to teach young people good values and encourage discussion of values between children, their parents and other family members in a home setting.

In "Real Heroes," a war game among a dozen boys and girls results in several

#### Letter To The Editor

Dear Editor,

The undersigned has attended several of the meetings that have been held regarding the E.L. Graham Memorial Hospital of Cisco, Texas. The logic of some of the people who attended and expressed their negative views regarding the necessary steps that need to be made to keep the hospital open I did

not understand. I have personally investigated from reliable sources the results of closing the hospital. Also the results of keeping the hospital open. The information I found is that if the hospital does not

1. The taxpayers will have to pay off the indebtedness that is attached to the fiscal

2. The Hill-Burton Grant of over \$300,000 dollars will have to be paid by the taxpayers plus interest of \$100,000 dollars or more.

3. With no hospital here in the Hospital District, established for this district, more than likely we will be put in the Eastland Hospital District whose hospital taxes are higher than ours would be if we raised the taxes to keep the hospital open.

4. If we lose the hospital you would lose 50 percent valuation of your property in the hospital district. Property has already gone down approximately 30 percent so without the hospital your \$100,000 property would b worth \$20,000.

We must keep our minds on the future; you can not go forward when you are looking to the past or backwards. If you live in the past you have no future. We must build a pleasant atmosphere in our area. We can destroy our enemies by making them friends.

Friendship should not be thought of as something we get, it is something we give. We are not put on this earth to see through each other but to see each other through.

One of the heaviest loads to carry is a pack of grudges. Let's not cut off our nose to spite our face. Everything in the world is done with faith, hope, and work. Let's trust our faith, hope and work and build a future not only for ourselves but for those who come after us. Let's not tear down what has been built. The Graham Memorial Hospital is the best built and equipped hospital in Eastland County.

"I watched them tearing a building down,

A GANG OF MEN in a busy town.

With a ho-heave-ho and à lusty yell. They swung a beam and

side WALL fell. I asked the foreman-"ARE THESE MEN SKILLED"

if you had to build? He gave a LAUGH and said— "NO INDEED!" Just common labor is all I

As the MEN YOU'D hire,

I can easily WRECK in a

day or two What builders have taken

years to do. I thought to myself, as I went my way.

Which of these rules have I tried to play? Am I a builder that works

with care. Measuring LIFE by the RULE and SQUARE,

Am I shaping my DEEDS to a well-LAID plan PATIENTLY doing the

BEST I can, Or, am I a WRECKER who

walks the town CONTENT with the labor

of tearing down?" Yours truly was at a meet-

ing recently at the Conrad Hilton Hotel where a representative of a managing firm made their proposal for managing E.L. Graham Hospital then answered questions about the program. A question was asked if present management could not make the hospital work, what makes the managing firm think they can make it work.

This brings to mind the situation of Chrysler Corp. when in fact they had borrowed many, many millions of dollars from the Government and was not successful in paying the loan until they elected a new President and Manager, Chrysler Corp. then paid the loan back before it was due.

As I understand the pros and cons of E.L. Graham Memorial Hospital, certainly we will pay more taxes without the hospital than we will pay with the hospital in operation and serving the community.

My vote is to keep the hospital open and pay less

> Sincerely, Stanley J. Pirtle
