Talks To Hostages Expected By Panel

Timing Of Release Delays Mission

By The Associated Press
SECRETARY-GENERAL Kurt Waldheim on Wednesday delayed the departure of a special U.N. investigatory commission to Iran until the weekend and said Iranian authorities want the commission members to talk to all of the approximately 50 American hostages in Tehran.

One of the five commission members said there was a 'gentlemen's agreement' that the hostages would be freed as a result of their mission. However, a well-placed diplomat said the panel's departure was delayed because no agreement had been reached on the timing of the release.

That's the remaining thing to be worked out — as to when and where they are going to be released," said the diplomat, who asked not to be identified.

Shah Return Asked

Iranian officials have backed off their demand that ousted Shah Mohammad Reza Pahlavi be extradited before the hostages are freed. But in a Tehran Radio broadcast, ailing revolutionary leader Ayatollah Ruhollah Khomeini again called for the return of the deposed monarch.

Khomeini urged his countrymen "not to allow the foreigners, whoever they may be, to interfere in your destiny... and to forcefully demand from the U.S.A. and any other government which may have risen in defense of the criminal, Mohammad Reza Pahlavi, that this criminal be returned to us together with the nation's lawful riches, and do not rest until final victory."

"Little More Time"

Waldheim, speaking to reporters in New York, said he postponed the departure of the five lawyers and diplomats because the Iranians had asked for "a little more time" to prepare for the inquiry, which the U.N. chief called a "fact-finding mission" to hear Iran's grievances against the United States and American grievances over the hostage-taking.

The panel is to investigate Iranian charges of mass murder and corruption against the deposed shah, and complaints that the United States had interfered in Iranian affairs by supporting the shah's rule.

The commission members were already at the airport in Geneva, Switzerland, preparing to take off for Tehran on a chartered flight at 1 p.m. Wednesday when they received word of the delay.

In Tehran, the governing Revolution Council requested a full briefing on the commission's task from Foreign Minister Sadegh Ghotbzadeh, who returned Tuesday from a week-long trip to Athens, Rome and Paris.

"We should hear the foreign minister's report and prepare ourselves for the commission," spokesman Hassan Habibi told reporters after a lengthy council meeting Wednesday night.

Waldheim ordered the delay after he received a message from Iranian President Abolhassan Bani-Sadr that gave formal approval to the mission but that left "open questions." Waldheim spokesman Rudolf Stajduhar said the U.N. chief apparently contacted Bani-Sadr or other Iranian officials for clarification, and then called the news briefing to announce the postponement.

The nature of the "questions" and whether they had been resolved was not disclosed. But the Carter administration signaled its acceptance of the Iranian demand for a meeting between the investigators and the hostages.

"The hostages must under no circumstances be subjected to interrogation. It is vital, however, for the commission to determine that they are all present and to assess their condition," a White House statement said.

It also said the United States "has taken note of the secretary-general's statement that the commission will undertake a fact-finding mission. It will not be a tribunal."

As Waldheim announced the delay in New York, one of the commission members, French lawyer Louis-Edmond Pettiti of France, told a reporter in Geneva that "clarifications" were necessary to "avoid any interpretations (of the com-

mission's mandate) which might cause us difficulties in our work."

The hostages were spending their 109th day in the captivity of young Moslem militants at the U.S. Embassy in Tehran.

The militants, who have demanded the exiled shah's return to Iran in exchange for the hostages, have not said whether they accept the idea of the U.N. mission. But they have repeatedly pledged obedience to Khomeini, who Bani-Sadr said had approved the mission.

At the U.N. briefing, Waldheim formally announced the composition of the commission, which had previously been leaked to the news media.

Besides Pettiti, the members are Andres Aguilar of Venezuela, former ambassador to Washington; Mohamed Bedjaoui, Algeria's U.N. ambassador; Syrian diplomat Adib Daoudy, and lawyer Hector Wilfred Jayewardene of Sri Lanka. Aguilar and Bedjaoui are the co-chairmen.

Bedjaoui told a reporter at Geneva airport there was "a gentlemen's agreement for the release of the hostages." He also denied reports that Waldheim or the panel had set a deadline of Feb. 27 for release of the hostages.

Waldheim, when asked when the hostages would be released, said there was no deadline for the whole procedure.

Games Boycott Set By Carter

WASHINGTON (AP) — The Carter administration said Wednesday the United States will officially boycott the Moscow Olympics this summer and that U.S. Olympic Committee officials and athletes are expected to follow suit.

White House counsel Lloyd Cutler made it clear that the committee, which oversees U.S. participation in the games, is being relied on to abide by President Carter's decision.

In Bonn, West Germany, chief State Department spokesman Hodding Carter announced the final decision as the deadline arrived for the Soviet Union to pull its troops out of Afghanistan.

"The United States set a deadline for its decision on whether to participate, a decision to be contingent on the withdrawal of Soviet troops," said Carter, accompanying Secretary of State Cyrus R. Vance on a tour of European capitals.

"Today is the day on which that decision was going to be based. It is clear there is no sign of a Soviet withdrawal. The president has made clear that our decision is therefore irrevocable. We will not participate in the Olympics in Moscow," the spokesman said.

In Washington, State Department spokesman Thomas Reston said the boycott decision is "firm and unalterable."

He said, "It is a position which is shared by more than 50 governments throughout the world and which will be reflected, we are convinced, by the non-participation by at least that number of national Olympic teams in Moscow."

"Decision Unchanged"
The White House said in a written statement that, with the month passed and the Soviet forces remaining in Afghanistan, "the president has therefore advised the United States Olympic Committee that his decision remains unchanged, and that we should not send a team to Moscow."

"The president thanked the committee for its earnest and patriotic efforts to present the case for transferring, postponing or cancelling the games, and asked it to take prompt action to formalize its acceptance of his decision," the statement said.

The statement said Carter's position on the Olympics "has been overwhelmingly supported by the United States Congress and the American people."

Outraged by the Soviet thrust into Afghanistan, President Carter served not-

ice in a Jan. 20 nationally broadcast address that he was giving the Russians 30 days to withdraw or risk a U.S. boycott of the Olympic Games in Moscow this summer.

Thirty days passed, and the Russian forces remained in Afghanistan. The president had told the American Legion Tuesday he was not giving ground — that Wednesday's deadline would not be extended.

Reports from Kabul, the capital of Afghanistan, said the troops remained in the nation, and that a rumored "cosmetic" withdrawal of a limited number had not occurred. In Moscow, the deadline passed without comment.

The official Soviet news media has said that Carter was trying to blackmail the Soviet Union and that such pressure would not affect Soviet foreign policy objectives.

A U.S. boycott of the Summer Olympics became a key element in Carter's response to the occupation of Afghanistan. Since the Kremlin was awarded the competition in 1974 by the International Olympic Committee, it has promoted the choice as an indication of international support for the Soviet system of government.

Carter has had no success in efforts to lead the International Olympic Committee to cancel the Games or move them.

Washington Sales To Begin Friday

"ROCK BOTTOM" prices will prevail throughout Lubbock beginning Friday as virtually every sector of the city's businesses participate in a series of George Washington birthday sales.

Clearance sales, special promotion and introductory offers will be presented in a special section of The Avalanche-Journal's morning and evening editions Friday.

The event, spearheaded by the Retail Trade Development Committee of the chamber of commerce, is being hailed as the largest sale of its kind ever held here.

Planning for the unusual effort has been underway for some time.

Methodist Hospital Slated New Check

By KIM COBB
Avalanche-Journal Staff
METHODIST Hospital will accept the original non-accreditation ruling imposed in December by the Joint Commission on Accreditation of Hospitals, but will be re-examined by the commission next week, the Avalanche-Journal has learned.

If Methodist passes the new accreditation survey, the institution will be without JCAH accreditation for only four days.

The hospital was notified in December by the JCAH, a private inspection firm, that it faced loss of accreditation on the basis of a survey taken in September. The JCAH decision was made on the basis of a shortage of registered nurses at Methodist as well as questionable record-keeping methods.

Hospital officials originally decided to appeal the ruling, allowing Methodist to retain accreditation until an appeal decision was made. During the appeals process, the report on the hospital would have been termed a "tentative adverse action against the hospital."

In accepting the original decision, Methodist's loss of accreditation becomes effective Friday. But the JCAH has granted Methodist a waiver of the

six-month period hospitals must usually wait before trying for accreditation again and a three-man JCAH team will start a new survey of Methodist Feb. 26.

If Methodist is able to prove it meets JCAH standards, accreditation will be granted retroactive to the Feb. 26 survey date. That would leave Methodist Hospital without accreditation only for the four days between Friday and Feb. 26.

But if Methodist fails its accreditation check again, the institution will have to wait six months — without accreditation — before the JCAH will allow another survey.

"This is not something which is done on a routine basis," JCAH spokesman Jan Schullman said. "This facility obviously feels that they want any questions about their facility removed as quickly as possible."

Accreditation by the JCAH is a voluntary measure, but is used to determine eligibility for Medicare and Medicaid programs. If Methodist fails the second accreditation check it could stand to lose its Medicare/Medicaid billing privileges, but if it wins new accreditation, Mrs. Schullman doubts the four-day lag will create problems.

Slaton Mayor John Landreth Dies At 79

SLATON (Special) — John Landreth, who was elected mayor of Slaton in 1973, died Wednesday at his home here.

Landreth, 79, who had been under a doctor's care, died about 7 a.m.

Services will be at 11 a.m. Saturday in First Baptist Church here with the Rev. Robert Moore, pastor, officiating.

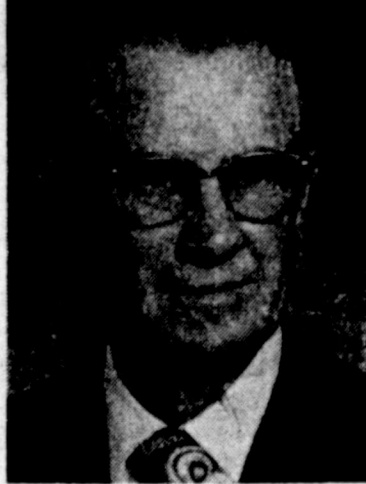

Burial will be in Englewood Cemetery under the direction of Englands Funeral Service.

Landreth was born in Indian Territory and was a graduate of Shady Point, Okla., High School. He graduated from business school in Chillicothe, Mo., in 1920 and had attended Northwestern University in Chicago.

Landreth worked for the Union Pacific Railroad for three years and then was employed by Santa Fe Railroad for 17 years. He had been superintendent of five railroad divisions in Wellington, Kan., Las Vegas, N.M., Galveston, Chicago, Topeka, Kan., and Los Angeles. In 1969, he retired as general manager of the Western Santa Fe lines in Los Angeles.

He was named Slaton's Man of the Year.

Dust May Prove Hazard For Dedicated Joggers

By RAYNIE HARDESTY
Avalanche-Journal Staff
HOWLING WINDS blasting dust across West Texas and painting skies brown again today will be unpleasant for most Lubbockites, but a local physician says the dusty climate could create health problems for joggers, smokers and those recovering from virus and flu infections.

Breathing through your nose will trap most of the dust particles and prevent them from entering the lungs, says Dr. Gabor Racz, a physician at Health Sciences Center Hospital.

But, he warned that joggers who persisted in running during dusty weather should refrain from breathing through their mouths because the dust can enter the lungs.

Racz also said blowing dust, which is expected to be present in Lubbock for a fourth day today, also can prove troublesome for smokers and those recently suffering "flu-like" viruses.

Both conditions "paralyze the cilia

(the tiny hairs that trap particles) in your nose," explained the doctor, who added the problem could trigger coughing.

People generally are not allergic to dust, said Racz. "But, unfortunately, the winds pick up not only the dust, but all the pollutants that some people are sensitive to."

Dust particles were so intense in Lubbock's air Wednesday, that a Micro-Environmental Labs technician reported to The Avalanche-Journal that he was unable to distinguish pollen and fungal fragments from dust. He reported the material simply appeared to be "black."

Even though blowing dust and westerly winds gusting to 20 to 30 mph are predicted for the Lubbock vicinity today, a National Weather Service spokesman said the forceful winds "may let up after tomorrow (Thursday)."

Winds that gusted to 43 mph in Lubbock, to 61 mph in Midland and to 55 mph in Amarillo on Wednesday, are

Marine Veterans Honor Fallen Comrades, Foes

IWO JIMA, Japan (AP) — A group of U.S. Marine veterans, some bearing scars of the bloody World War II battle they came to commemorate, honored thousands of comrades and foes who died on the black sands of Iwo Jima 35 years ago. The men, who flew to Tokyo on Wednesday after four days on the tiny but once strategic speck of rock 700 miles south of the main Japanese islands, walked along Invasion Beach, groped through dank caves that once hid the enemy and joined a handful of Japanese veterans of the campaign in a simple memorial service for both sides atop Mt. Suribachi, which dominates the five-mile-long island.

The island has no civilian population now. The U.S. Coast Guard mans a navigational radio and the Japanese, who regained the island from the U.S. peacefully in 1968, maintain an official presence.

Charles Early, seriously wounded in the battle, told a small assembly atop the mountain: "Few men were more skillful and dedicated to the injury — and destruction — of the other than the Marines and Japanese on this island 35 years ago. Yet today we meet here as friends."

Early, an attorney in Sarasota, Fla., said, "If we, the Japanese defenders and

Marines who fought here 35 years ago, can now be friends, then why not all men?"

The weather Tuesday, anniversary of the invasion, was clear and balmy. Early said it was much the same as the day when Marines came ashore and quickly met withering Japanese fire.

Jury Says Wiring Not Responsible For Fire

COVINGTON, Ky. (AP) — A federal jury concluded Wednesday that old technology aluminum wiring did not cause the May 1977 fire that killed 165 people at the Beverly Hills Supper Club.

The jury, which heard 36 days of testimony in a trial that produced 7,000 pages of transcript, took just a little over five hours to reach its decision.

The jury, which even took a lunch break during the five hours, returned with a verdict at 3 p.m. Attorneys for the 22 aluminum wire and electrical device manufacturers had to scramble to contact one another and get back to the courtroom.

The judge wouldn't allow reporters to talk to jurors following the verdict.

Defense attorneys who did make it back to the courtroom in time said they

were delighted with the verdict.

"We're very happy," said Alex Rose, who had presented the final defense arguments only the day before. "There's no way you can measure the thousands of hours that we've put in. For me it's been a full-time job for the last six months."

Stanley Chesley, attorney for the plaintiffs — representatives of the estates of the 165 persons who died and for many of those injured — said he hadn't decided whether to appeal the verdict.

"It's a tough loss," Chesley said.

The verdict means there will be no continuation of the trial unless the deci-

sion is appealed.

Presiding U.S. District Judge Carl Rubin had divided the trial into two parts. The first was to determine if aluminum wire caused the fire.

If the jury had found that to be the case, a second trial would have been held to determine whether the 22 companies named as defendants conspired to cover up alleged deficiencies in the old technology branch circuit aluminum wiring.

It was the first jury test of any case stemming from the Memorial Day weekend fire at the Southgate, Ky., club. All other litigation has either been settled out of court or is still pending.

TV Champagne Disclosure Hastens Charge

STOCKHOLM (UPI) — Television personality Bo Holmstrom told viewers of his prime time documentary show about the time he bought champagne for his 15-year-old daughter to celebrate New Year's.

Wednesday he faced prosecution under Sweden's strict liquor laws.

Holmstrom's program, *Magasinet*, was seen by Anders Nord, who is Temperance Ombudsman in kovid, a town in southern Sweden.

Nord lodged a complaint with the local police against Holmstrom, alleging bootlegging, which for Swedes means buying alcohol in the state liquor stores for redistribution.

Under Swedish law alcohol cannot be sold in the liquor stores to anyone under 20.

A current campaign aimed at stopping teenage drinking aims to stamp out bootlegging by adults who buy alcohol for teenagers.

"Parents are the main bootleggers in society. When a trendsetter like Holmstrom goes on TV and says that he has bootlegged, it destroys all our work," said Nord.

Commission Chairman Says Holding Down Oil Imports Saved U.S. Millions

AUSTIN (AP) — Chairman John Poerner of the Texas Railroad Commission said Wednesday the United States saved \$11 million in January by holding down oil imports.

Poerner also told executives at the statewide oil allowable hearing the commission is "finally gaining" on a backlog of paperwork brought on by the federal Natural Gas Policy Act of 1978.

The executives smiled when Poerner said one of the reasons for the backlog is that the Federal Energy Regulatory Commission "has adopted interim regulations, final regulations, interim final

regulations and final final regulations." The commission routinely set the market production factor for March at 100 percent. It has been maintained at that level, with the exception of a few months, for nearly eight years. As usual, the East Texas Field was restricted to an 86 percent allowable to avoid possible waste.

Poerner said crude and petroleum products imports into the United States totaled 8,462,000 barrels a day for the four-week average ending Feb. 1, a decrease of 373,000 from the same period in 1979.

He said a commission staffer had figured this decline saved the United States \$11 million — "certainly a significant savings."

Since December 1978, Poerner said, the commission has received more than 20,000 applications for category determinations under the federal gas act yet only

last month did the agency "for the first time, process more applications in a week than it received."

Nevertheless, he said, there is still a backlog of 16,000 applications. What category a well is placed in determines how much may be charged for gas from the well.

JUST WHAT are the United States' military capabilities at this point in time? Could we defend the Persian Gulf if worst came to worst? How many men, planes, tanks and ships could the U.S. have in Iran or Saudi Arabia in two weeks, a month?

OF MORE IMPORT for the moment is what a number of other nations in the Arc of Crisis—from India to South Africa—are thinking. How and to what extent they respond to U.S. profers of military assistance may well determine not only their own fate, but America's.

BUT, SHORT OF an Atomic Armageddon, if it comes to a military chess game or push against shove in the Persian Gulf, then the U.S. has a ways to go.

Others see a pattern, starting in Cuba and hopping the Atlantic to Angola and Ethiopia, South Yemen and finally Afghanistan, a pattern of Russian expansionism born of Communism's goal of world conquest.

THESE DAYS a time in what seems like ancient U.S. history when "containment" of Communism was almost a religion in the West.

Others, notably some former State Department officials and Pulitzer Prize winning Arthur Schlesinger, Jr., warn against assuming Afghanistan is part of some massive Moscow master plan.

BUT, THE President has already weighed in with his decisions, for all practical purposes. For the moment, at least, he and his advisers plan to build an Arc of Defense if possible, from Egypt through Saudi Arabia and Oman and to Pakistan.

THE SOVIETS have amassed perhaps up to 200,000 troops, either in Afghanistan or across the border from Iran.

Soviet planes, including the Backfire bomber, are within striking distance not only of Iranian oil fields and the Strait of Hormuz but Kuwait and key oil shipping facilities.

THE ALTERNATIVES? Peace at any price, perhaps war nearer home. The Russians have never played games with windup soldiers, and aren't now.

PUNCTUATION IS pretty important, all right. Consider: "Woman without her man would be a savage." "Woman—without her, man would be a savage."

WE pledge allegiance to the Flag of the United States of America and to the Republic for which it stands, one Nation, under God, indivisible with Liberty and Justice for all.

Rowland Evans and Robert Novak

Back Of The Pack

WASHINGTON—John Anderson's 20-year journey from Goldwaterish young congressman to trendy presidential candidate neared its destination earlier this year in a post East Side Manhattan apartment when he received from multimillionaire General Motors heir Stewart Mott the maximum \$1,000 check for his campaign.

THAT WAS proved by Iowa Republicans in the Des Moines Register poll which gave him only 1 percent support for President and, more revealing, rated him a loser in the debate.

DESCRIBING HIMSELF to us as a latter-day Diogenes "looking for a thinking man," Sheinbaum wrung his hands in despair over President Carter and disappointment with Kennedy before finding Anderson.

HIS VOTES began to change in the late 1960s. In 1978, Anderson voted the liberal line 64.7 percent of the time, but if he had been present for all the ADA-selected roll call votes his percentage would have surpassed 70 percent—extraordinary for a Republican, but exceptional even for a Democrat these days.

APART FROM percentages, Anderson's appeal to the Motts and Sheinbaums is framed in his national security positions: against the B-1 bomber, against the MX mobile missile, against a nuclear powered carrier, against Carter's proposed 5 percent defense spending boost.

THAT IRRITATES Rep. Jack Kemp, who braved disdain from fellow conservatives to campaign for Anderson in 1978 against a right-wing congressional primary foe. But it was not Kemp who saved him.

THE UNITED Auto Workers, helped by many Democratic precinct chairmen, ran a re-registration campaign to bring Democrats into the Republican fold. The difficulty of duplicating this re-registration feat in a presidential election year, an intimate of Anderson told us, is one reason he is running for President instead of Congress.

Canada Takes Another Turn

WHILE MOST Americans probably won't pay that much attention, concerned citizens of this nation will find something very disturbing in this week's Canadian elections. In the first place, Canadian voters returned Pierre Elliott Trudeau and his Liberal Party to power by a convincing margin.

ON ANOTHER point, in rejecting not only the imposition of the gasoline tax, but presumably the "austerity" that Clark proposed, the Canadians may have mirrored what many of their American counterparts feel.

WHAT BROUGHT about Clark's downfall was his proposal to impose an 18-cents per gallon tax on gasoline, boosting its cost to \$1.20 a gallon.

NOT ONLY did he lose a vote of confidence in the Parliament but brought down the wrath of the people, already burdened with mounting costs at every turn.

ACTUALLY, the gasoline tax hike was just part of an overall "austerity budget" Clark had proposed. Clark, who had upset Trudeau little more than nine months ago—making his tenure the shortest in Canadian history—also had "image" problems with the critical Canadian electorate.

IN COMPARISON to the flamboyant Trudeau, who ruled for 11 years before his defeat and "retirement," Clark was seen as a somewhat youthful, awkward, small-town person.

Now, Tax-Paid Abortions

THE SUPREME COURT stepped dangerously close this week to decreeing that individuals have a "right" to government handouts. By a 6-3 vote, the nation's highest tribunal refused to block a lower court's order forcing the taxpayers to pay for poor women's "medically necessary" abortions.

Chrysler Making Offers You Can Hardly Refuse

WASHINGTON—All right, we've asked you as nice as we could to buy a Chrysler car. First, Joe Garagiola offered you \$500 off on any automobile from the Chrysler lot. Then Ricardo Montalban told you what a Chrysler product would do for your image.

Timely Quotes

"The fuel shortage is worse than many of us think," said the local patrol. "The other night I got a call from a fellow who reported he had been mugged for the fluid in his cigarette lighter."

Overheard: "I knew I was in trouble the day I found out my wife thought love, honor and obey was a multiple choice question."

A prospective buyer asked a veteran salesman "How do you visualize the car of the 1990s?" "I visualize it," granted the salesman, "as still unpaid for in the 1990s."

"THE RED SOX always choke in the clutch," Reilly said. "Joe DiMaggio," Cohen said. "There was a class guy."

"My doctor says everybody should jog every day," Pelikowicz said. "My doctor says nobody over 30 should jog," Baker said. "The Yanks have always been the class team," Cohen said.

"Vitamin C and Vitamin B," Truscott said. "And zinc," Allenson said. "Don't forget zinc," Harry Truman, Harrington said. "Ike," Cohen said.

"My wife is after me to buy a Mercedes," Truscott said. "I was rightfully amused to see that you Americans eat your boiled eggs in a bowl instead of direct from the shell," he said.

Hot Seat In Sauna

WASHINGTON—"Truman" Harrington let the name hang in the heavy heat of the sauna. Then, "Truman. He could make a decision. He'd do something."

"Truman," said Pelikowicz. "He was one of the people." "And how about Eisenhower?" asked Cohen. "He was a general, but he let the people alone. He wasn't always nagging everybody to do good."

"There's nobody today," said Reilly. "They're all just candidates. They're just running. None of them would know what to do with the job if he got it."

"Franklin Roosevelt," said Carruthers, who went to Princeton. "He ruined the country. It's never been the same since."

"I'M TAKING 10,000 mgs of Vitamin C every day and I catch a cold every month," said Baker. "That's because you're overweight," snapped Volpini. "I take only 2,000 mgs of C a day and I never catch a cold." He stretched out an arm and admired the bicep.

"Vitamin C," said Truscott. "It won't work unless you take plenty of Vitamin B."

"My doctor says zinc tablets are the thing to prevent prostate trouble," said Allenson. "Plenty of coarse bran, that's the ticket," said Harrington. "It's a vacuum cleaner for your system. Coarse bran with a little honey and milk. It doesn't dissolve."

Feds' Role In Brilab Probe Misunderstood, Says Prosecutor

HOUSTON (AP) — A lawyer who helped investigate and prosecute a key figure in the Texas phase of the Brilab scandal says the government's role in such FBI investigations is misunderstood.

Terry Lord, who was with the Justice Department's Strike Force from 1970 until 1977, also said the use of informants in such investigations is necessary.

A Houston lawyer the past two years,

Lord was involved in the investigation of Joseph Hauser, who was convicted in Los Angeles in 1977 on four counts of bribery and attempted bribery of union officials.

A Houston federal grand jury began a Brilab investigation after a report was leaked that Hauser—an FBI informant posing as an insurance representative, and a Texas labor official left \$5,000 on the desk of Texas House Speaker Billy

Clayton after seeking information on state employee insurance.

"The sensitive nature of this kind of investigation brings out a lot of criticism but I think the FBI is willing to take that," Lord said. "The strike force is always prepared to take this kind of criticism."

Lord acknowledged there have been charges of entrapment during the Brilab operation but said the FBI is being criticized for its methods after being criticized many years for not going after organized crime figures.

The FBI plays a major role in Strike Force investigations but other federal

agencies are called in to assist when necessary.

Lord said many people simply do not understand the role of the Strike Force and the effort needed to pursue entrenched organized crime figures.

"The investigation of organized crime requires a great deal of investigative technique for which the FBI is best suited," he said.

"Criticism comes from a lack of understanding of this type of investigation because the case development involves a great deal of information before an undercover agent ever goes into a meeting with an individual. You have to understand one case leads to another. You

can't look at each little event as separate."

Lord said organized crime involves shielding individuals at the top against prosecution.

"The only way to attack such criminal activities is to prosecute at lower levels, going after those whose information and testimony could implicate those at the top," he said.

"If you understand that approach you

have to realize there are going to be such defenses (as entrapment)."

Witness Testifies For Alien Schooling

HOUSTON (AP) — An educator testified in federal court Wednesday that children of illegal aliens could develop a hatred and distrust for the social order if denied an education in the public schools.

Dr. Thomas Carter of Sacramento State University, who has done extensive research in the school systems of the southwestern United States, said a child refused an education by law "will feel persecuted, alienated, separated from society, and potentially dangerous."

Carter was the second expert witness called by lawyers challenging a Texas law that prohibits a free public education for the children of illegal aliens.

A group of Hispanic parents filed lawsuits against 17 Texas school districts

that have denied their children free admission.

U.S. District Judge Woodrow Seals ordered the suits held in abeyance until he could rule on the constitutionality of the state statute.

Attorneys for both sides agreed that whatever the decision, an appeal is a certainty and the case probably will reach the U.S. Supreme Court.

Texas Supreme Court Rules Millionaire Architect Of Sound Mind

AUSTIN (AP) — Millionaire architect George Dahl, designer of RFK Stadium in Washington, D.C., and Fair Park in Dallas, won a Texas Supreme Court decision Wednesday that he is mentally competent.

Dahl's daughter, Gloria Akin, wife of Associate Justice Ted Akin of the 5th Court of Civil Appeals in Dallas, had sought a court decree that Dahl, 85, was of unsound mind.

Mrs. Akin wanted the courts to ap-

point her Dahl's guardian and designate First National Bank in Dallas to administer his money.

A Dallas probate court jury, however, returned a verdict that Dahl was sound mentally, and the 7th Court of Civil Appeals in Amarillo upheld the verdict.

"It cannot be held that the jury's finding is so against the great weight and preponderance of the evidence as to be manifestly wrong and unjust," the appeals court said.

The Supreme Court upheld the decisions without writing a new opinion.

Mrs. Akin's appeal to the Supreme Court said assets controlled by Dahl "are conservatively worth \$5 million."

Besides his own money, Dahl administers a trust consisting of his late wife's share of their community property and naming Mrs. Akin and her children as beneficiaries.

Dahl came to Dallas in 1926 and designed more than 3,000 projects, including the Dallas Public Library, the Dallas Morning News Building, the Texas Centennial buildings at Fair Park and the Neiman-Marcus Building. He also designed RFK Stadium and Memorial Stadium at the University of Texas at Austin.

Mrs. Akin obtained temporary guardianship of Dahl a day after he called her, her husband and their 22-year-old daughter together at his apartment in April 1978 and announced he was severing their relationship.

Disension arose between Dahl and the Akins over money and his plans to marry Joan Renfro, a divorcee in her mid-50s.

Dahl married Mrs. Renfro, longtime executive secretary of the Dallas Rotary Club, six months after the trial of his daughter's guardianship suit.

His lawyers said Dahl objected to what he regarded as the extravagance of his daughter and her family with money from the Lillie E. Dahl Trust.

pay. Mr. Dahl was upset by this bill, especially after they had already spent about \$21,000 on clothes and incidental supplies for the season."

Mrs. Akin's unsuccessful appeal objected that the trial judge let Dahl's lawyers accuse her before the jury of finding her father "guilty of being old and not dying."

"This is strong medicine calculated to arouse passion and hate," her appeal said.

The court of civil appeals dealt with the argument by saying the judge had sustained objections to several jury arguments or remarks by Louis Bickel, Dahl's lawyer. Others were not objected to, the court said, and could not, therefore, be attacked on appeal.

Court Rules New Trial For Texas Man

AUSTIN (AP) — The Texas Court of Criminal Appeals ruled Wednesday that a Houston man sentenced to life in prison in a 1978 stabbing murder is entitled to better legal representation for his appeal.

Cliff Clark, 35, was convicted in the Aug. 20, 1978 slaying of Stephen Boyd Smith.

The appeals court said Clark's lawyer submitted a brief that called the appeal "frivolous." The opinion said the court was not satisfied with the attorney's efforts.

some 640 pages, yet the body of counsel's brief is no more than two typewritten pages," the opinion said.

The brief failed to discuss important aspects of the case, according to the appeals court.

The case was sent back to the trial court to allow a judge to provide Clark "effective assistance of counsel on appeal."

"The record in this case consists of Firm residents make up about 3 percent of the total United States population. The figure was 30 percent in 1920.

Defense Rests In Gacy Murders Trial

CHICAGO (AP)—The state called its final witness Wednesday and rested its case against John W. Gacy Jr., who is accused of committing more murders than anyone in this country's history.

Assistant State's Attorney William Kunkle Jr., who heads the prosecution, rose after a noon recess, said "the state rests its case" and sat down without further comment.

On Thursday, the defense will bring out its first witnesses and Judge Louis B. Garippo will rule on a defense motion for acquittal, which was entered after Kunkle's statement.

Kunkle said the defense motion was a routine action taken in criminal cases after the prosecution's case is finished.

In 13 days of testimony, 60 witnesses have testified for the prosecution, which contends the killings of 33 young men and boys were planned and premeditated.

Defense attorneys, however, maintain Gacy "was motivated by an overwhelming and uncontrollable primitive drive" and therefore is innocent by reason of insanity.

Recalled as the last witness Wednesday was Lawrence Finder of the Cook County state's attorney's office, who elaborated on the confession Gacy made

Jan. 3, 1979. He was arrested Dec. 21, 1978.

Finder said Gacy told investigators that on some occasions he stored several bodies under his bed for as long as 24 hours and that he was thinking of putting others in his attic because the crawl space beneath his house was full.

Gacy wound up disposing of at least four corpses in the Des Plaines River, Finder said.

The remains of 26 bodies were dug up from the crawl space under Gacy's modest ranch-style house last winter. Another skeleton was found under an asphalt driveway, another beneath a garage tool shed and one more under flooring of a room addition.

Finder said Gacy, 37, told interrogators that his killings became less frequent late in 1978 because he was working so hard and was too tired to go "cruising" for young male prostitutes.

Gacy told investigators that his crawl

space had become filled by March 1978 and that before he was arrested, he was planning to have the whole area covered with cement, the witness said.

'Tentative Settlement' Announced In Fords' Divorce Trial

DETROIT (UPI) — Attorneys reached "tentative" agreement Wednesday on a multi-million dollar, out-of-court settlement in the high stakes, high society divorce trial of auto magnate Henry Ford II and his jetsetting second wife, Christina.

The agreement capped nearly two full days of private negotiations designed to save the celebrated couple a lengthy and messy public trial.

Details were not released, but the Italian-born Mrs. Ford reportedly had sought a property settlement of between \$10 million and \$15 million.

The settlement was announced by A. Robert Zeff, attorney for the Mrs. Ford, as Wayne County Circuit Judge John R. Kirwan reconvened the trial that had been recessed twice Wednesday to allow continuation of the delicate negotiations.

"At this time, the plaintiffs wish to announce that a settlement has been tentatively reached," Zeff told the court.

Kirwan had allowed continuation of the lengthy talk and kept court in session more than an hour past the normal closing time following repeated assurances from attorneys that progress was being made.

Ford, 62, wearing a dark gray suit, sat quietly with his arms folded a few feet away from his estranged wife as the settlement was announced.

Neither looked at the other. Earlier, as she was being led into the courtroom, the elegant 49-year-old blonde told the crowd of reporters, "I'm very happy" with the settlement.

Zeff also said he was "very much satisfied" with the agreement.

There were several last-minute delays, apparently due to Mrs. Ford's dislike of certain provisions of the settlement.

Attorneys who several hours earlier

told Kirwan a settlement was "imminent" finally were given about 45 minutes to report back to the judge on whether the case would be settled without a trial.

They just made the deadline. Ford and his wife lived apart for the last four years of marriage and celebrated their 15th anniversary as the trial began Tuesday. Neither contested the divorce, sought under Michigan's no-fault divorce law.

The only issue was money. When asked earlier if Ford, grandson

of auto pioneer Henry Ford, was being fair in his offer to his wife, Zeff said, "If he wasn't being fair, I'm sure my client wouldn't be negotiating."

Court records filed early in the divorce proceedings had pegged Ford's net worth at about \$70 million.

Ford retired last fall as Ford Motor Co.'s chief executive officer.

Mrs. Ford filed for a legal separation in December 1977, two years after her husband moved out of their 76-room Grosse Pointe Farms mansion.

The couple was introduced at a Paris dinner party 20 years ago by European socialite Rosemarie Marcie-Riviere. Mrs. Marcie-Riviere, who had been married to Ford's late uncle, Ernest Kanzler, now is the target of a \$10 million slander suit filed last Friday by Mrs. Ford.

Memorial Center Land Sale Proposal Accepted

By RAYNIE HARDESTY
Avalanche-Journal Staff

Approval of a land sale bid for property near the downtown civic center has put the Urban Renewal Agency another step nearer disposing of the 98-acre area acquired by the agency after the May 1970 tornado.

The board of commissioners Tuesday unanimously approved a bid for \$152,200 by Richard H. Slosburg of Omaha, Neb., for purchase of a 61,000-square-foot parcel of land adjoining the west side of IBM property in the Memorial Center Addition.

The bid is the second approved by the agency within a month. In January, the board approved a bid for purchase of two land parcels to be used for a main post office.

The latest developer plans to construct a 5,645-square-foot office facility that will be offered for lease, said Robert Stack, assistant urban renewal director.

Slosburg, who is paying for development "out of his own pocket," hopes to begin construction by May or June, Stack said.

The board also unanimously approved construction plans for a Holiday Inn on property at Avenue Q and Eighth Street. The approval, however, included stipulations concerning landscaping, sign regulations and color compatibility with other developments in the Memorial Center Addition.

Billy Ray Wilder, the developer who contracted to build the hotel, purchased the 5.23-acre area for \$450,000, but is attempting to re-enter the contract under a joint venture with Holiday Inn.

The Urban Renewal Agency also is negotiating the sale of property at the southeast corner of Avenue L and Fourth Street with the Postal Service, which has agreed to pay \$116,135 for two small parcels of land for construction of a new main office. That bid was accepted at last month's board meeting.

The post office, motel and office facility negotiations, along with transactions for construction of a legal office at the corner of Seventh Street and Avenue O, leave only two parcels of land for sale in the Memorial Center Addition.

Your Personal Biorhythms

Zoning Panel To Eye Business In Home

By MARY ALICE ROBBINS
Avalanche-Journal Staff

A Lubbock woman has run into some problems with the city's zoning ordinances because she operates a small ceramic business in her home.

Genell Muth of 5531 18th St., owner of Genell's Ceramics, was cited by city zoning inspectors in January for illegally operating a business in a residential zone. Since 1975, the owners of home businesses have had to get the permission of the Zoning Board of Adjustment to continue operating in their homes.

Mrs. Muth has requested the ZBA to grant a zoning exception to allow her to keep the business in her home. That request is expected to be considered by the ZBA when the board meets at 8:15 a.m. today in City Council Chambers.

According to zoning administrator Jerrell Northcutt, his department has received five letters from Mrs. Muth's neighbors regarding her request for a zoning exception.

Three of the letters expressed objections to the home business, chiefly because of alleged parking problems created by the ceramic shop's customers. However, two of the letters supported the request, and one neighbor cited the "positive effect" the ceramic business has had on the area.

Northcutt noted that about 30 percent of the Muth home and an accessory building in the backyard are devoted to the ceramic business. The definition of a home occupation in the zoning ordinance states that the business must be within the home and prohibits any accessory buildings, he added.

That definition also specifies that no

goods be sold on the property. Northcutt said, noting that Mrs. Muth does sell ceramics out of her home.

In other business today, the ZBA will consider five requests for variances to the city's sign ordinances.

The first of those requests is from Albertson's Southco to allow a larger building sign on the Albertson's store at 6524 Slide Road. The store owners are asking the board to allow them 184 square feet of sign area on the building.

In the other four sign cases, business owners have requested permission to install free-standing signs in front of their businesses or offices.

Bill Cox is seeking a variance on spacing requirements for a sign in front of attorneys' offices at 2112 Indiana Ave. Jack Geddes is requesting a variance to allow another sign at an office building located at 6309 Indiana Ave.

This week we've got lots of things cooking! So, here are the newest and most exciting of all the recipes.

NO BAKE OATMEAL COOKIES

(Submitted by Vera Johnson, Slaton)

3 cups quick cooking raw oats
1/2 cup sugar
1/2 cup milk
1 stick or 1/2 cup oleo
1/2 cup cocoa
1 tsp vanilla
1 cup coconut or 1/2 cup coconut and 1/2 cup chopped nuts
3 cups (quick cooking) raw oats
Put oats in large mixing bowl with coconut and nuts or coconut. Combine sugar, oleo, milk and cocoa in pan. Boil one minute stirring constantly then pour over oats, nuts and coconut. Mix well and drop by spoonful on waxed paper. After 10 or 15 minutes, put in container with lid. Makes four or five dozen cookies, depending on how large spoonfuls you use.

For LaVerne Stolle of Slaton, here is a special recipe from Robbie Warren, Lubbock, So. for everyone on a special diet or all those not on any diet, would you believe this recipe?

WACKY COCOA CAKE

3 cups flour
2 cups sugar
1/2 cup cocoa
2 tsp baking soda
1 tsp salt
2 cups water
1/2 cup vegetable oil
2 tbsps vinegar
2 tps vanilla
Combine flour, sugar, cocoa, baking soda and salt in large mixer bowl. Add water, oil, vinegar and vanilla. Beat three minutes at medium speed until thoroughly blended. Pour batter into a greased and floured 13 x 9 x 2-in pan. Bake at 350 degrees for 35 to 40 minutes or until cake tester inserted in center comes out clean. Cool, frost as desired.

GREEN CHILI CHEESE PUFFS

(Sent by Marie Martin, Lorenzo)
1/2 cup grated cheddar cheese
1/2 tbsps flour
1/2 tsp salt
1/4 tsp pepper
5 egg whites
1 small can chopped green chilies
1/2 cup fine dry bread crumbs
Shortening for deep-frying
Combine cheese, flour, salt, pepper and chilies. Mix together. Beat egg whites stiff, and fold in cheese mixture. Shape into balls using teaspoon. Roll balls in bread crumbs, fry in deep fat until golden brown. Drain. (For more appetizers, puffs can be sliced in half.)

SPINACH SOUFFLE

Submitted by La Noma Stringer, Lubbock
1/4 cup oleomargarine
1/4 cup flour
1/4 cup milk
1/2 lb processed cheese (loaf-type), cubed
1/4 tsp pepper
1 10-oz pkg frozen chopped spinach, cooked and drained
6 slices crisp-cooked bacon, crumbled
1 tbsps finely chopped onion
4 eggs, separated
Heat oven to 350 degrees. Make white sauce with oleomargarine, flour and milk. Add cheese and pepper, stir until melted. Remove from heat, stir in spinach, bacon and onion. Gradually add slightly beaten egg yolks, cool slightly. Fold in stiffly beaten egg whites; pour into 1 1/2-qt souffle dish. Bake at 350 degrees for 45 minutes. Makes eight servings.

Southwesterners do like this kind of cooking! Mrs. Jerome Powers of Brownfield enclosed the following recipe:

CHICKEN AND RICE MEXICALI

1 reg. size can cream of mushroom soup
1 reg. size can cream of chicken soup
1 can (10-oz) tomatoes and green chilies
1/2 tsp salt
3 cups chopped, cooked chicken or turkey
3 cups cooked rice
2 cups grated longhorn cheese
1 cup chopped onion
3 cups crushed corn chips
1/2 cup chicken broth or water
Mix all ingredients except corn chips. Spoon half of the mixture into a buttered 13 x 9-in. casserole pan. Cover with 1/2 of the corn chips. Repeat layers. Bake uncovered at 350 degrees for 45 minutes.

Reader's Exchange received the nicest letter from Dorothy F. Dominguez

of Fort Sheridan, Ill. She enclosed a recipe for Black Forest Cherry Cake, which we will use at a later time (a similar recipe was published just last week.) Dorothy's husband is Lt. Col. Rodolfo G. Dominguez who grew up in Sundown and is a graduate of the University of Texas. During Dominguez' 19 years in army service, the family lived in Germany. Nice to hear from away-from-home folks!

The column has also received a wonderful letter from Mrs. M.A. Waters of Petersburg. After her recipe for Blue Ribbon Fudge was published, she received two letters of appreciation — one from Pauline Johnson (Lubbock) and the other from Beulah Scudder, also of Lubbock. Mrs. Waters commented the letters gave her a warm feeling, and it did Reader's Exchange, too.

JUMBO RAISIN COOKIES

4 cups sifted all-purpose flour
1 tsp baking powder
1 tsp soda
1/2 tsp salt
1/2 tps cinnamon
1/4 tsp nutmeg
1/4 tsp allspice
1 cup water
2 cups raisins
1 cup shortening (all vegetable)
2 cups sugar
3 eggs
1 tsp vanilla
1 cup pecans if desired
Sift together first seven ingredients. Add water to raisins and boil five min-

utes or until liquid is decreased to 1/2 cup. Cool. Cream sugar and shortening, add eggs one at a time, beating well after each addition. Add sifted dry ingredients and blend well. Add vanilla, and hand-fold in raisins and nuts. Drop by teaspoonful on a greased cookie sheet. Bake in 400 degree oven eight minutes. Yield: 5 dozen cookies. (Note: This has been Mary's favorite recipe for 18 years.)

Now for some requests — Helen Carpenter of Hobbs would appreciate having a Blackberry Wine Cake recipe.

Lola Barrera wonders if any readers have the recipe for Spanish Salad that's served at Furr's. It is the liquid ingredients she needs.

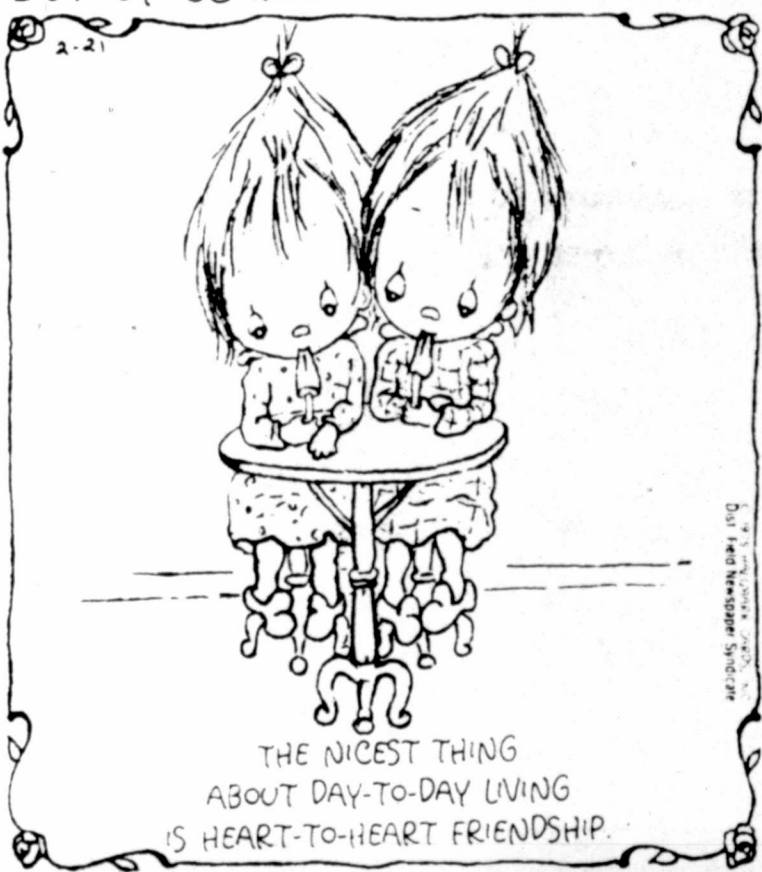

Vanita Smithy of Spur has been diligently searching for a candied (not pickled) watermelon rind recipe. She says that watermelon rind is delicious when combined with water chestnuts, wrapped in bacon, then broiled.

That's all for this week. Please send tips, recipes and requests to: Readers' Swap, Family News Department, Lubbock Avalanche-Journal, P.O. Box 491, Lubbock, TX 79408.

To Your Good Health

By PAUL DONOHUE, M.D.

Dear Dr. Donohue: Recently, our four-year-old daughter died from Reye's syndrome. Until that time we had never heard of the disease. It appears to us that the only persons that have heard of Reye's syndrome are those who have had experience with it. Would you be kind enough to explain it and its symptoms so that more parents will be more aware of it and be able to detect it in the early stages in their children? — Mrs. C.A.B.

I want to extend to you my sincerest expression of sympathy for the terrible loss you have suffered in the death of your daughter. And may I add an expression of admiration for your selfless concern for others at this time.

Reye's syndrome is predominantly an illness that strikes children, but not children exclusively. Most often it follows a viral infection like the flu. The child may seem to be recovering from the infection, then begin vomiting and appear drowsy. He may lapse into coma quite quickly.

The syndrome is due to a disturbance in the liver and brain. Other organs, such as the heart and kidneys, are also involved. The diagnosis is usually made from the sequence of events leading up to it (the drowsiness, etc.) and also by liver studies. The blood sugar may be quite low.

I wish not to alarm parents. Fortunately, Reye's syndrome is not a common consequence of virus infection. However, if a child vomits and is drowsy after a period of seeming to improve from a viral infection, the doctor should be notified so that Reye's, if it is there, can be diagnosed early.

Dear Dr. Donohue: I am 30 and began jogging. At the end of the first week I began having chest pains. The diagnosis was angina pectoris. Is it unusual for a person my age to get this? — Mrs. J.H.

Yes, it is unusual for a woman your age, without any other illnesses (such as diabetes, for example) to have angina. It is a symptom of a heart blood vessel problem. Ischemia (interruption of vessel flow) is most often due to buildup of fatty deposits in blood vessels serving the heart.

When the heart is called on to do extra work (as with your jogging) the blood vessel problem makes itself known by pain from the heart muscle itself. The heart does not get sufficient oxygen it needs and cannot get rid of its waste products. This combination produces the pain.

Angina is most often a male problem when it is found in those less than 50, although it can occur in younger women like yourself. Severe anemia or birth-related abnormalities of the heart blood vessels more than fatty deposits are suspected in younger persons.

If angina is caused by the fatty deposits in vessels an earnest effort to reduce all the factors involved must be made. Cigarette smoking must be stopped, weight brought under control, blood pressure reduced where necessary and cholesterol and other fats from animal foods avoided.

I cannot advise you specifically because of the various factors that might or might not be involved in angina at your age. You need a frank talk with your doctor about your specific case and ways to alleviate your problem. See the booklet "How to Handle Angina Pectoris." You can order a copy by mailing 50 cents and a stamped, self-addressed envelope to Dr. Donohue, P.O. Box 11210, Chicago, Ill. 60611.

Dear Dr. Donohue: I've never wanted

to ask my doctor because I feel so ignorant. I notice that my doctor has a sign outside the building which lists his name, and there are the initials "P.C." after it. I have wondered what specialty this is? — Curious.

It stands for "Professional Corporation" and it means your doctor is in practice with other doctors or alone as a corporation. Many professional people do this. It is amazing how often this question appears in my mail.

Dear Dr. Donohue: I have cataracts on both eyes and have heard that vitam-

ins E and B2 will dissolve them instead of having to have eye surgery. Is there any medical reason why this would work? — C.L.D.

No medical reason whatever that I know of.

Hints From Heloise

DEAR HELOISE:

You have helped me so much in the past and I'm hoping you can do so again. My two-year-old sofa-bed mattress — which we keep in the basement — has developed a musty, mildew smell. Is there anything I can do to get rid of the smell, other than throwing the mattress away? — Mary Ann

I can tell you what I did once when I had a very similar problem with my couch. It may sound strange, but I was rather desperate at the time. It worked so well, though, you might want to try it.

Of course, whether it would help with your problem is uncertain, but it's so simple to do, it might be worth the few cents involved.

I used fabric softener sheets — the kind which comes on a roll — stuffing them under the fitted sheet which was on the sofa's mattress.

Be generous in using the sheets. Compared to a mattress, they aren't expensive. I practically lined mine with them.

If you have zipper covers on the cushions of your sofa, place a few inside the cushions, and just leave them there indefinitely, changing when necessary.

Fold the bed up and leave the fabric softener sheets in place for several days. Hopefully, the musty smell will be gone.

Before using the bed again, remove the fitted sheet and place a mattress pad on the bed just in case you could be allergic to any fabric softener sheet residue.

If any trace of mustiness remains, place a few of the softener sheets under the mattress pad and just forget about them.

This may sound ridiculous, but it really worked for me.

The cause of that musty odor is dampness so, if at all possible, try to find a way to eliminate it.

— Heloise

Weddings

DUNN—BONNER

Terri Dunn and Wayne Bonner were married Saturday in a 7 p.m. ceremony in Westmoreland Baptist Church. The Rev. Craig Wilcox officiated.

Parents of the couple are Mr. and Mrs. J.C. Dunn and Mr. and Mrs. Gerald A. Bonner.

Honor attendants were Jamie Beene and Jerry Blackstock.

The couple was graduated from Cooper High School.

After a wedding trip to Ruidoso, N.M., they will live in Lubbock.

SCHERTZ—SALTER

ALBUQUERQUE, N.M. (Special) — Cynthia Ann Schertz became the bride of Douglas Alan Salter Saturday in a 11:30 a.m. ceremony in Holloman Air Force Base Chapel. The Rev. Brian O'Conner officiated.

Karla Kay Schertz, sister of the bride, and Richard Wayne Schertz, brother of the bride, both of Brownfield, were honor attendants.

Parents of the couple are Mr. and Mrs. A.H. Schertz of Brownfield and Jeanette Peters of Milton, Fla. Salter is also a son of Leslie Salter of Carrollton, Md.

The bride was graduated from Brownfield High School. The bridegroom was graduated from the Air Force Academy.

The couple will live on Holloman AFB following a wedding trip to Cloudcroft.

LETTER OF WARNING

DEAR HELOISE:

Aren't nylon rugs pretty — and so easy to wash and dry? They wear well too. But... don't use one to "smother" a fire! Nylon is very flammable!

When we were taught to grab a throw rug to smother a fire in order to keep oxygen from feeding the flames, it was back when throw rugs were made of cotton or wool, not nylon or other synthetic fibers.

So, don't feed the fire! If you can't contain it quickly with some type of extinguisher (cotton rugs, water, baking soda, or a regular fire extinguisher) call the fire department! Pronto! — "Experienced"

DEAR HELOISE:

I like to wear turtleneck dummies under tailored blouses, but was having trouble finding them.

I now buy any size turtleneck sweater at a garage sale, cut off the sleeves and the lower half of the front and back, then zigzag the cut edge.

Makes a very expensive-looking dickie and usually the color selection found at these garage sales is great.

Another bonus, you can use the sleeves and other cutoff parts as filler for pot holders and quilted place mats. — Jane Terry

DEAR HELOISE:

You asked for hints for those who are handicapped, so here's one:

I bought a half yard of 72-inch wide nylon net. Since this is too long to manipulate easily, I cut approximately 24 inches off, making the piece 18x48 inches.

I use this to scrub my back by soaping the net in the center and pulling it back and forth across my back.

ANN LANDERS

Dear Ann Landers: Right hand to God, this is no joke. I am both mystified and burned up. Please give me your opinion. I can't go to anyone else.

I am 38 years old, married to a good woman for 34 years. Our marriage is no better or worse than most others. She is not perfect, but then neither am I. The problem I'm a heavy sleeper and I snore. My wife says my snoring has gotten really bad this past year, and it interferes with her rest.

Last night she gave me a headband with a bicycle horn attached to it. The horn is in the back. When the snorer turns to sleep on his back, the horn blows and wakes him up. I asked her where she got it, and she said she read about the contraption in a magazine article and made one herself.

I tried the blamed thing on and it was very uncomfortable. Also, the horn is

loud and it would scare me out of my wits if it blew during the night. I refused to wear it. Do you feel I am justified? — Embattled in Elmhurst

Dear Em: You're darned tootin'.

Dear Ann Landers: I am an Oriental woman married to an American. My family was not in favor of this marriage, so I cannot go to them with my problem. My husband has a bad temper. It seems no matter what I say, I am in trouble with him. It is so frightening that I am afraid to open my mouth. He calls me awful names, and later when he sees how sad I am he tells me I must be more forgiving — a better Christian. (He is an elder in the church.)

I have begged him to tell me what I do that makes him lose his temper with

me. He says I "provoke" and "invoke," and it is natural for people to get mad under those circumstances. I still do not understand.

Sometimes I feel so dirty I take three showers a day. Still I don't feel clean. I also wish I did not have to sleep with him. Please tell me what to do. — Van Nuys, Calif.

Dear Van Nuys: The part about three showers a day was the clue. People who feel "dirty" because of things that are said to them and try to become clean by washing are mentally disturbed.

Your hot-tempered husband may be the major reason for your disturbance. In any event, I hope you will seek professional counseling. Your medical doctor can direct you. Or look in the phone book under "mental health clinics." (There are some excellent facilities in your area.) Check the medical schools, also, and good luck, dear.

photograph the baby and sell its life insurance.

I can't tell you how depressed all this has made me. It's bad enough to go home from the hospital empty-handed, but to be reminded of it so often is getting me down. Tell me what to do. — Empty Arms

Dear Friend: Simply say, "Our baby died" — and hang up. It seems to me that these companies who buy lists and do all that phoning could make one more call to the hospital, and find out if the baby lived.

There is a big difference between cold and cool. Ann Landers shows you how to play it cool without freezing people out in her booklet, "Teen-Age Sex — Ten Ways to Cool It." Send 50 cents and a long, self-addressed, stamped envelope to Ann Landers, P.O. Box 11995, Chicago, Illinois 60611.

By Oswald Jacoby and Alan Sontag

The Professor looked at the deuce of trumps lead with evident distaste. Then he played dummy's seven and his own ace.

Next he cashed the ace of hearts at trick two and led a club to dummy at trick three. Next came the key play of the hand. He discarded his last club on the king of hearts and ruffed a club with a high trump.

He entered dummy with the nine of trumps and ruffed another club.

Dummy's clubs were now good so the Professor cashed one more trump to pull West's last tooth and led a diamond to dummy's king-queen.

East took his ace, but the Professor still had one trump left to ruff a heart, whereupon dummy was good.

"You sure guarded against that 4-1 club break," said the student. "But wouldn't you have gone down if clubs had been 3-2 and trumps 4-1?"

"Not at all," replied the Professor. "When ruffed the first low club I would have known that clubs were breaking 3-2. Then I would not have had to ruff a second club and could have handled a 4-1 trump break."

This is the sort of hand that is really instructive. Of course the Professor had overbid his hand a trifle, but after you have played as well

as the Professor has for as long as the Professor has you tend to overbid a trifle. (NEWSPAPER ENTERPRISE ASSN.)

Teacher Standards Hearings To Open Here Friday

Any person with recommendations on how to prepare teachers in Texas will have the opportunity to voice his or her views Friday and Saturday when the Commission on Standards for the Teaching Profession meets at Lubbock Christian College.

The open forum will be held in the Mabee American Heritage Auditorium from 3 to 6 p.m. and 7 to 9 p.m. Friday and from 9 a.m. to noon and 1 to 4 p.m. on Saturday.

Texas now has no standards for teachers and seven sites across the state have been selected for public hearings on the issue.

Prior to its appearance in Lubbock, the commission stopped at Abilene Christian University, the University of Texas-Austin, Houston Baptist and Corpus Christi. Sixty persons showed up for

'Jump Rope-A-Thon' To Raise Funds For Heart Association

Texas Tech coeds will be getting the jump on heart disease Saturday, as members of five on-campus organizations participate in a "jump rope-a-thon" to raise money for the American Heart Association.

Members of Major Minor, the Recreation and Leisure Society, Delta Psi Kappa, Eta Sigma Gamma and Phi Epsilon Kappa, are canvassing the city soliciting sponsors for the Saturday morning contest.

Each club may enter up to six jumpers, who will jump for money between 9 a.m. and noon. Sponsors are asked to pledge at least two cents per minute, which amounts to \$3.60 over the length of the competition.

The jump rope-a-thon will be held outdoors at the Robert Fuller Track at Texas Tech.

All teams are expected to finish the contest, so the one whose sponsors promised the most money will be considered the winning team.

Winning jumpers will receive warm up suits from the heart association. Winning fundraisers will be awarded windbreakers.

Proceeds from the event will go to the Texas Chapter of the American Heart Association for research.

Homebuyer Loans Dip \$1.6 Billion In '79

AUSTIN (AP) — Savings and loan associations in Texas lent \$1.6 billion less to homebuyers last year than they did in 1978, a Texas Savings and Loan League report shows.

Mortgage lending fell a whopping 21 percent, and league officials have little hope of an upsurge soon because consumer demand and the supply of lendable funds are down.

The consumer is hollering call rope, said Pat Malone, administrative vice president of the league.

Kaplan, Smith & Associates Inc. of Pasadena, Calif., did the report for the league.

The report shows savings deposits in Texas grew 10.3 percent during the year from \$22.8 billion to \$25.2 billion — but this was well below the 1979 inflation rate of 13.2 percent.

Savings also shifted dramatically from low-interest passbook accounts and long-term certificates of deposit to high-interest, short-term jumbo CDs and money market certificates.

Malone said this squeezes lenders between what the money market dictates they pay to attract savers and what homebuyers are willing to pay for loans.

Kaplan, Smith & Associates surveyed lenders with 44 percent of Texas savings and loan assets to get a closer picture of the situation for the league.

Between September and December, passbook and long-term CD deposits dropped \$551 million at savings and loans surveyed by Kaplan, Smith & Associates, while jumbo CDs and money market certificates rose \$773.9 million.

If you pay 13 percent for money and lend at 12 percent, you are not getting anywhere, Malone said.

Consumers are resisting 13 percent mortgages where they didn't resist 12 1/2 or 12 percent, added Durward Curlee, the league's executive director.

The report did not address changes in the loan market arising from federal suspension of the 12 percent Texas ceiling on mortgage interest rates on Dec. 28. The suspension expires March 31 unless

Congress extends it.

But Malone said savings and loans report their loan applications are declining in number.

The league lobbied in 1979 to elimi-

nate the old Texas usury limit of 10 percent but succeeded only in raising it to 12 percent. The national market was hovering about 13 percent when Congress suspended state interest ceilings.

Bombing Contractor Claims Entrapment

DALLAS (AP) — James R. Bougadis, 31, co-owner of a jewelry store in a competitive shopping center, says business debts were mounting when a stranger approached him with a solution to his problems — eliminate the competition.

The stranger's suggestion was simple enough — bomb the only other nearby jewelry store out of existence.

I decided it was a good idea, Bougadis admitted Tuesday. It would solve my problems. The man convinced me.

But there was never any explosion. The torch man turned out to be a federal informant and Bougadis was later charged with offering him \$5,000 to blow up Paul's Jeweler's of suburban Duncanville.

Bougadis testified at his trial he was entrapped by the informant, hired by the U.S. Bureau of Alcohol, Tobacco and Firearms.

Bougadis also said he later had second thoughts about the scheme, but unsuccessfully tried to reach the purported arsonist and call it off.

The prosecution has based its case on two secretly recorded conversations in which the two men discuss a bomb plot.

Ladd Film Captures Energetic Performances Of Bette Midler

PASADENA, Calif. (AP) — The concert was 40 minutes late in starting. The star finally entered to a roaring ovation, sang a few lines, waved the band to silence and walked off the stage. The curtain fell before an astonished audience.

A scene from "The Rose" — No, this was the second of four performances of "Divine Madness," the Bette Midler show that was being filmed as the first venture of The Ladd Company. The audience at the Pasadena Civic Auditorium was relieved to learn that Midler wasn't pulling a Janis Joplin.

She reappeared before the curtain to explain she had been suffering from bronchitis for two months. "I feel very foggy — no, I'm not taking pills." She added that she would persist and urged her fans "please be real humanitarian about it."

The performance resumed, and Midler reappeared in one of her super-lucky dresses, a plume of red feathers attached to her rear, a plucked rubber chicken dangling from a wrist. She slammed into "Big Noise from Winnetka" with the backup of a new trio of Harlettes (the last group is suing her for \$3 million).

"Welcome to another fowl evening," Midler beamed, twirling the chicken.

If Midler had displayed any more energy, she might have tilted the Richter scale at nearby Caltech. She sang something old — "In The Mood" — and something new — "The Rose." She told jokes that were borrowed — from Sophie Tucker — and much blue.

She portrayed the spectacularly untalented Delores DeLago, singing in a mermaid costume while spinning about the stage in an electric wheelchair. She discoursed on European royalty and various other targets.

The first night's filming, which started late and had two lengthy intermissions, concluded after 1 a.m. The second performance was trimmed to two acts but still ended at 12:20 a.m. During one

monologue she interjected: "I'm just running off at the mouth up here. We're gonna call this film 'Jaws III.'"

The action was being recorded on film by 10 cameras, most of them clustered at the foot of the stage. Directing the battery was one of Hollywood's ace cinematographers, William Fraker ("Close Encounters of the Third Kind"). Director of the film is Michael Ritchie, whose films ("Downhill Racer," "The Candidate," "Bad News Bears," "Smile") have focused on winning. Obviously he considers Midler a winner.

"She's one of the great performers of our time," the tall, bearded director said during an intermission. "I'm doing the film because I think it is important to

make a record of her performance exactly as audiences see it. I'd like to see the same thing done for all the great performers of our day."

"Divine Madness" stemmed from the relationship that began with "The Rose" between Midler and the production team of Alan Ladd, Jr., Jay Kanter and Gareth Wigan. When the trio shifted from 20th Century-Fox to their own production company, Bette joined them.

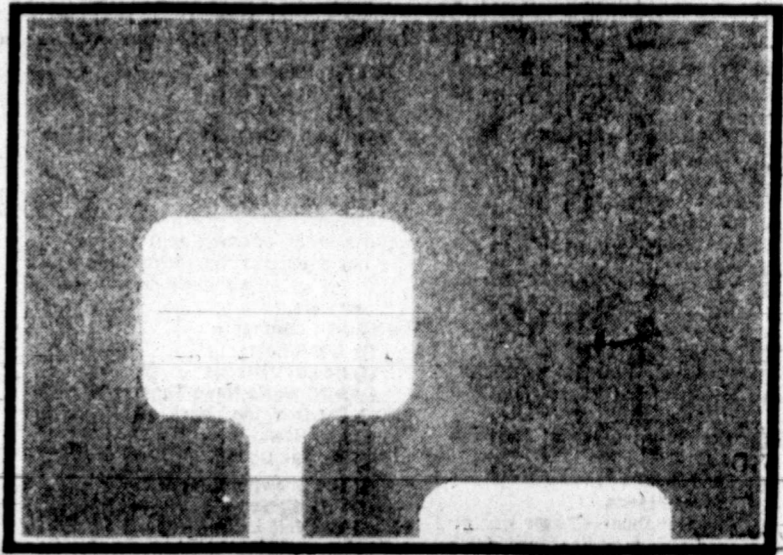

A concert film seems like a strange beginning for The Ladd Company, yet it contains logic. Instead of waiting 12 to 18 months for a movie to reach the market, the firm will have its first release in theaters this August. The risk is small — about \$3 million or half the cost of an average

movie.

"We're doing the film because Bette is such a totally unique performer," explained Ladd. "She's not just a singer, but a comedienne, an actress, all kinds of things."

"The Rose" has been a big money-maker, and not only in this country. It has been big in the United Kingdom and huge in Australia. Such business will con-

tribute to the excitement of the concert film. Most people will see a side of Bette that they have never seen before. It will definitely be an R-rated concert."

Town's Spelling Question Answered

DESOTO (AP) — It took an act of the City Council to satisfy, once and for all, a question that has confused residents of this Dallas suburb for the past 31 years.

Well, now it's official.

You spell DeSoto without a space between the "De" and the "Soto." The confusion began in 1949 when 42 persons petitioned to incorporate the town under the name DeSoto — no space. But the judge who signed the order incorporated the town as De Soto. There was no explanation for the insertion of the space.

The City Council, apparently fed up with seeing the two different spellings in various publications for years, finally passed a resolution Tuesday, making it incorrect to insert a space between De and Soto.

Mother Of Battered Baby Charged With Murder

SAN ANTONIO (AP) — A Seguin woman remained jailed Wednesday, charged with murder after her "brain dead," battered 6-week-old daughter was allowed to die in what attorneys say is a

landmark legal case in Texas. Tiny Dianna Paniagua died Tuesday afternoon at Santa Rosa Hospital here after doctors, acting under a court order, removed the infant from life support ma-

chines that had sustained her since Feb. 5. Less than three hours later, child abuse charges against 32-year-old Juanita Paniagua were upgraded to murder. She has been jailed in Seguin since Feb. 6 in lieu of \$25,000 bond.

Attorneys say the unusual case is the first under a 1979 state law that establishes a legal definition of death. That law says a person is legally dead if brain functions have ceased.

The mother and the tiny infant were pictured in the hometown newspaper Jan. 2 after Dianna was Guadalupe County's first child of 1980.

But on Feb. 5, the infant was brought to Santa Rosa with serious head, leg and rib injuries. Dianna slipped into a coma and was placed on a respirator shortly after her arrival, said Santa Rosa spokesman Jack Finger. She never regained consciousness.

State District Judge Judge B.B. Schraub ruled last week that the respirator should be shut off after doctors testified the infant's brain had ceased to function Feb. 12.

They've been running the electroencephalograms on the child's brain fairly regularly. All of them have been flat. That indicates no activity in the brain, or brain death," said Finger said Tuesday before Dianna died.

Schraub said he would stay his order

The largest power excavator used in surface mining is as tall as a 20-story building and can bite off 180 yards of coal at a time — enough to fill three railroad cars.

to give attorneys an opportunity to appeal the ruling to the Texas Supreme Court. But attorneys Charles Butts, who represents Mrs. Paniagua, and Jim Frost, guardian ad litem for the infant, decided not to appeal.

"It was all handled very carefully in court. The EEGs were not showing any sign of brain function, and there were five doctors who testified. An appeal seemed to me to be a misuse of the law," said Butts.

Butts is seeking psychiatric tests to determine if Mrs. Paniagua is mentally competent to stand trial.

Butts said the Texas Department of Human Resources has taken custody of the other three Paniagua children pending disposition of this case. Those children range in age from 1 to 5.

Butts said the children's father, Antonio Paniagua, 30, is employed full time as a carpenter in Wimberley. He must commute every day and was at work when the beating allegedly occurred. Butts added.

Your Daily HOROSCOPE

from the CARROLL RIGHTER INSTITUTE

GENERAL TENDENCIES: You accomplish much in your efforts for a greater amount of material security. You need to work considerable angles and engineer others so they do the things that are important to your present situations.

ARIES (March 21 to April 19): Study assets and see how they can be made of greater value in some way. Listen to what an affluent expert has to suggest.

TAURUS (April 20 to May 20): Take care of personal matters early in the day, but don't argue with others later. Plan now for a more social life in the future.

GEMINI (May 21 to June 21): Don't confide future plans in others who could spoil them for you. Get together with closest ties for worthwhile discussions.

MOON CHILDREN (June 22 to July 21): Good time to let others know how they can help you, but be willing to help them in some way, too. Be with good friends later.

LEO (July 22 to Aug. 21): A good day for expansion where your career is concerned. Go to one of influence for any help you need. Be cautious in travel.

VIRGO (Aug. 22 to Sept. 22): Find out how to benefit from some clever new ideas you just learned about. Don't discuss moot points that could result in an argument.

LIBRA (Sept. 23 to Oct. 22): Your ideas are excellent for improving relations with a close tie. Keep promises you have made to influential friends and show your ability.

SCORPIO (Oct. 23 to Nov. 21): Be more cooperative with partners and there is more mutual success. Take time for community work and reap fine benefits.

SAGITTARIUS (Nov. 22 to Dec. 21): Do whatever will improve your position with coworkers. Ask for their ideas and there is more cooperation.

CAPRICORN (Dec. 22 to Jan. 20): Have routine health checkups, for you are under much pressure. Don't neglect some important practical matter.

AQUARIUS (Jan. 21 to Feb. 19): Be with kin during spare time and add to happiness, but don't discuss any arguable subjects. Evening best spent at home.

PISCES (Feb. 20 to March 20): Take that short trip to see one who is important to your scheme of things. Take care of reports now and save time later. Be clever.

IF YOUR CHILD IS BORN TODAY... he or she will be very capable at what profession requires practicality. Give spiritual and ethical training early that will help lighten the burden of work and set the life on the right course. There is a tendency to mull things over too much before coming to a decision. Teach to speed up the process or others will take advantage of your talented progeny.

The stars impel, they do not compel. What you make of your life is largely up to you.
