Barrels of chemical dispersants lie at an airport in Ciudad del Carmen, Mexico, as preparations are made to combat oil leaking from an off-shore well in the Gulf of Mexico. (AP Laserphoto)

U.S. mobilizes to combat oil slick near Texas coast

CORPUS CHRISTI (AP) - Coast Guard officials, surprised by thick balls of oil that washed up on a Mexican beach, have called for immediate mobilization of massive equipment to combat the world's largest oil spill.

Coast Guard Capt. Roger Madson, who is directing the spill containment operation, has ordered "strike teams" and equipment to battle the spill from North Carolina and California.

Coast Guard spokesman Richard Griggs said Wednesday that six 15,-000-pound "floating fences" were being shipped here. The mobilization was called for after the unexpected discovery of "tar balls" on a Mexican beach about 60 miles south of Brownsville.

"It was a surprise that it washed up that far north. It was sooner than we anticipated," Griggs said. The oil is flowing at a rate of 30,000 barrels a day from the runaway Ixtoc

I oil well in Mexico's Bay of Campeche, said Coast Guard Lt. John

The thick oil has been flowing out of control since the well blew out June 3. Experts have projected it my take until October to cap the well.

The 612-foot floating fences - called booms - are made of rubberized material and float two feet below the water and two feet above. They can be used either close to the coastline or offshore. Previous projections have said traces of the oil may turn up about 40 to 50 miles off the Texas coast this weekend.

A six-hour Coast Guard flight from here Wednesday charted the northernmost evidence of the slick about 70 to 80 miles southeast of Brownsville. Griggs said the slow northward movement of the oil is apparently continu-

But Craig Hooper, a National Oceanic and Atmospheric Administration scientist aboard the flight, said there was no evidence of any patches of oil in that general area.

The oil that washed ashore and left a five-to 10-foot wide strip along the Mexican beach may have floated north undetected beneath the Gulf's surface, experts said.

A NOAA plane was scheduled to make a reconaissance flight today to again track the northern edge of the oil.

The officials gathered here to monitor the massive slick are now actually dealing with a series of smaller slicks. The northernmost oil is merely a thin sheen on the water's surface. Further south, however, the oil is still in thick patches that officials call "mousse" because of the density.

A streamer of "mousse" has been spotted about 120 miles south on U.S. waters. That patch is about 12 miles long and up to 200 yards wide.

U.S. has permission to enter Mexican water

MEXICO CITY (AP) - The U.S. Coast Guard has permission to enter Mexican waters to clean up the oil slick from the runaway oil well in the Gulf of Mexico if the slick moves north of the 25th parallel, according to a Mexican government official.

Capt. Americo Flores Nava of the subcommission for prevention and control of ocean pollution said Wednesday such a cleanup operation would be authorized only if the slick pased the parallel, which is near Brownsville. Flores Nava said the extreme northern end of the spill has advanced to the 21st parallel, off Tuxpan in the state of Veracruz, about 125

of "tar balls" on a Mexican beach about 60 miles south of Brownsville.

Guard, is about 70 to 80 miles south-

but there is none of that," he said. The well, a test hole being drilled in

the Gulf of Mexico about 50 miles offshore from the fishing village of Ciudad del Carmen, went out of control and caught fire June 3. PEMEX, the Mexican national oil company, has hired a team of international specialists to try to stop the flow.

Methods include drilling a relief well at an angle into IXTOC-1 to milk off the flow, which has been reduced from its original 30,000 barrels a day to 20,000 a day.

PEMEX hopes the relief well will reduce the pressure enough to permit divers to plug up the runaway hole with cement. PEMEX says it is putting everything it has into stopping the flow but says the best bet appears to be the relief well, which may not be completed until sometime in Septem-

PEMEX Director Jorge Diaz Serrano said he considers the spill "a serious accident but not a catastrophe." However the ultimate effect of the spill on the region's sea live, including the rich shrimp fishing grounds near the spill, is not yet

Housing group proposed

Would administer mortgage program

By LANA CUNNINGHAM

Midland Housing Finance Corp. may be the name of a new organization designed to deal specifically with administering a Single Family Mortgage Revenue Financing Program in the Tall City.

During a meeting Wednesday of the Housing Authority of the City of Midland, Chairman Harry Clark proposed organization of the new group to be composed of three members of the Housing Authority and two members from the Midland Housing Asso-

The Housing Authority had been pursuing the home loan program until a bill passed by the State Legislature to clarify the group's role was vetoed by Gov. Bill Clements.

The governor charged that another bill, HB1876, allows a non-profit corporation to do the same thing, but a housing authority can't undertake the program.

To meet the requirements under HB1876, Clark said he will propose to the Midland City Council during its Aug. 14 meeting that the third organization be approved to administer the program.

At least three persons are required to be charter members of the organization and the number can go up to nine. Clark is proposing the City Council approve himself, Gene Abbott and Fred Kester of the Housing Authority and two members of the Midland Housing Association comprise the charter board of the Midland Tall City. If approved, the new cor-Housing Finance Corp.

en revenue bonds to provide money for home loans to middle income families. The loans would be administered by local savings and loan institutions to applicants who qualified.

The Housing Authority began pursuing the program in early 1979 and went so far as to select an underwriter, who then conducted a feasibility study of the program in Midland.

But the governor's veto put a hitch in the organization's schedule. Another slowdown came with the introduction of a bill into the U.S. House of Representatives.

The bill was passed out of the House Ways and Means Committee Monday. If approved by Congress, it would set regulations on the amount of bonds which could be sold and the maximum limits on family income and

Mark Tessier of Howard, Weil, Labouisse, Friedrichs, Inc., the underwriting firm of New Orleans, La., reviewed a market analysis on Midland for the Housing Authority mem-

He said maximum amount of bonds which could be sold is \$39,700,000. Applicants could have a family income as high as \$35,000 and get a loan for a home costing as much as \$65,-

Clark later pointed out these are the maximum limits allowable for the

lousing Finance Corp. poration could establish maximums
The home mortgage program would below these numbers to deal with

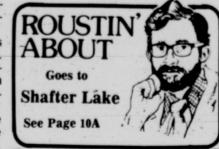

'moderate income' families. He also said the Housing Authority had been considering about \$25 million in bonds, with \$20 million going for home loans and the other \$5 million for insurance and other fees.

Tessier remarked that bonds for two cities had been sold on a 71/4 percent interest rate. By the time each city would add fees for local savings and loan institutions to process the applicants and loans, final

interest would be about 81/4 percent.
Although the Housing Authority was questioned about the program competing with the home loan programs of the savings and loan institutions, Clark said the two would not be in competition. Those who can afford to pay the 10 to 11 percent interest would not be the type to qualify for the lower interest program, he noted.

One man in the audience remarked that this program "is a good selling point for the demand on housing. The

P.O. Box 1650, Midland 79702

I need a copy of the birth certificate for my son who was born in Midland County. Can I obtain a copy in Midland, or do I have to write to Austin?—Mrs. S. B.

ANSWER: You can get a copy of your son's birth certificate by contacting the office of the County Clerk in the Midland County Courthouse, 682-9481.

All births in Midland County are recorded in Midland. The births are reported by the hospitals where the babies are born, or by midwives, in the event the babies are born outside the hospitals.

My sleep is disturbed at night by the "ding-a-ling" noise from the truck of an ice cream vendor, who drives down streets in my neighborhood usually between 9 and 10:30 p.m. Is there anything that can be done about

ANSWER: The Midland Police Department says to give them a call at 683-4281 the next time this happens, and a patrol car will be sent to your neighborhood to see about the problem.

In cases such as this, the police advise the vendor to tone down the recording played on the truck, which is designed to let children know the truck is in the area. If this advice is ignored by the vendor, appropriate action is

ATTENTION MRS. R.N.: You requested recipes for Low Sodium Pickles, Yellow Squash Relish and Zucchi-

Answer Line published the recipe for Zucchini Pickles

Sunday, thanks to the Midland County extension agent's

Mrs. T. E. Charter of Midland has responded to our appeal for one of the other two needed recipes--the one for Yellow Squash Relish--which she says is not only pretty to look at, but is delicious.

Janice Rabenaldt, consumer information specialist with Pioneer Natural Gas Co., suggests that for Low Sodium Pickles, you contact a salt substitute manufacturer, or check a copy of "The Complete Book of Preserving" by Anne Serranne at the Midland County Public Library

Here is the recipe for the relish provided by Mrs.

Ingredients — 12 cups yellow squash after it has been put through a food chopper, 4 cups chopped onions, 2 large cans pimientos and 2 large bell peppers. Procedure - Grind through food chopper, mix and add 5 teaspoons salt. Let stand 1 hour or overnight. Drain

Mix 2 1/2 cups vinegar, 1 tablespoon pickling spices, 2 teaspoons celery or dill seeds and 1 teaspoon tumeric. Heat and strain. Add 4 cups sugar, stir until dissolved. Add squash mixture, bring to boil and simmer 2 to 3

minutes. Do not overcook. Place in jars and seal. Makes 8 to 10 pints. Mrs. E. A. Voliva also called in to say you can contact her at 684-6051 or 684-6823 for more squash recipes.

Debbie Russell writes in that a friend of hers, Mrs. Charles. Crawford, Route 3, Lindsay, Okla., 73052, "makes the best (squash relish) ever eaten." She says you can write to Mrs. Crawford for that recipe.

miles south of the 25th parallel. The U.S. Coast Guard reported Wednesday the unexpected discovery

The northernmost portion of the slick, according to the U.S. Coast

east of Brownsville, a great deal closer to the Texas coast than the location reported by Flores Nava.

He said the slick is only in small, finger-like streaks. "Many people think it involves huge black slicks. . .

Federal funds OK'd for housing

By LANA CUNNINGHAM Staff Writer

Midland County has been approved for 20 units of rent-subsidized housing, according to County Judge William Ahders.

Ahders said his office received the letter of approva Wednesday from the Dallas office of the Department of Housing and Urban Development for the housing under

Section 8 for low income residents. His office has 10 days from receipt of the letter, dated July 19, to fill out necessary forms for obtaining the \$39,816 allotted for the units, Ahders said. Those forms should be filled out and mailed by early next week, he

The county decided in April to apply for the funds in order to also obtain money for street paving. The street funds were approved in June.

Funding will be used to subsidize rents for three elderly applicants and 17 "non-elderly" renters,

Breaking it down by divisions, the allotment is for one-bedroom units for three elderly persons and three non-elderly, two-bedroom units for 10 non-elderly applicants, three-bedroom units for two non-elderly applicants and four-bedroom units for two non-elderly appli-

The Midland Housing Association will operate the program.

Betty Sheeler, who will be working as a volunteer to get the rental program started, said, "We don't have a start-up date yet. We are happy to get it approved even though it is a small program.

Midland Housing Association, organized to deal with housing problems in the Tall City, has opened an office in the Casa de Amigos building, 1101 E. Garden

Office hours are from 8:30 a.m. to noon Monday through Friday and by appointment. Telephone num-

"They've been a while processing the application," Mrs. Sheeler noted. "We hope the 20 units will work smoothly and maybe later we can apply for a larger

MHA, a non-profit corporation, was established to address housing problems brought to its' attention.

Approval of the funds marks the first time that Midland County, or even the city, has received funds for a Section 8 rental subsidy program for low income

Proposed county budget won't require tax hike

By BILL MODISETT Staff Writer

Midland County taxes likely won't increase if a budget proposed for 1980 is adopted by county commissioners, County Judge Bill Ahders said Wednesday.

Ahders said he is "optimistic" the proposed budget, filed Tuesday with County Clerk Rosenelle Cherry, will be adopted. The budget proposal calls for total expenditures and balances in 1980 in excess of \$9.5 million.

"I think we took a close look at each department, and each department head was most cooperative when we asked them to take a second look at their budget and to cut it some;" Ahders said Wednesday.

"I will be pleased if the commissioners' court accepts this budget,"

Commissioners will meet Aug. 13 in regular session, Ahders said, and they are expected to announce that a public hearing on the proposed budget will be held Aug. 27. The budget could be approved at that meeting.

The proposed budget calls for expenditures of \$5,693,160.50. Anticipated ending balances in county funds of \$3,899,121.14 boost the total budget figure for 1980 to \$9,592,281.64, according to a summary sheet attached to the budget proposal.

The budget is less than the current

total 1979 budget of \$9,900,001.14 and only slightly more than the total 1978 budget of \$9,512,289.05.

Total receipts for the county in 1980 are anticipated to be \$4,886,875, with the bulk of that amount coming from ad valorem taxes. More than \$1.6 million in receipts is expected from other sources, including revenue sharing funds, the budget indicates. Ad valorem tax receipts for 1980 are

expected to increase by \$275,848 over the 1979 figures, while total expenditures by the county are expected to climb by \$498,566.

Overall, however, total expenditures and balances in funds are expected to decrease by \$307,719.50 from the current year's budget.

Ahders said he personally does not believe an increase in county taxes will be needed. Current county tax rate is \$1.05, with 95 cents being charged for county taxes and 10 cents for state taxes, per \$100 in assessed valuation. The assessed valuation is based on 32 percent of the full value of property.

The budget proposed also incorporates a 10 percent cost-of-living increase for county employees and offi-cials, and provisions for changes in salary for county employees and deputies of the Midland County Sheriff's Department.

Earlier in the year, commissioners appointed a committee to study county salaries and to make recommendations for increases, if needed.

That group, the Midland County Salary Evaluation Committee, recommended an amount representing 6.26 percent of the total employee payroll be budgeted for individual salary adjustment in 1980 in addition to a cost of living increase, the employment of a full-time personnel director-purchasing agent and that salaries of elected officials be raised to the 1971 levels of buying power. However, commissioners essential-

Extended forecasts

Saturday Through Monday

North Texas: Partly cloudy and continued quite warm. Maximum temperatures from 90 east to 98 extreme northwest. Lowest 70 to 76.

The weather elsewhere

Texas area forecasts

West Texas: Some low cloudiness otherwise mostly fair through Friday except a slight chance of showers or thunderstorms over southeast portions and over western Panhandle this morning and over the Panhandle and south Plains tonight. Warmer most sections through Friday. Highs mid 80s north and mountains to upper 90s southwest. Lows mid 80s north to lower 70s south except upper 50s mountains. Highs Friday mostly in 90s to near 103 along the Rio Grande except 80s mountains.

South Texas: A flash floed watch is in effect across the extreme northwest. Scattered showers and thunderstorms west and north with a chance o heavy rain extreme northwest. Partly cloudy and quite warm elsewhere. Widely scattered showers and thunderstorms mainly west and north tonight and Friday. Highs low to mid 90s north to near 100 along the Rio Grande-Lows 70 to 80.

Border states forecasts

New Mexico: Widely scattered afternoon or nighttime thundershowers through Friday except mostly fair northwest. A little warmer most sections, then not much change Friday. Highs 70s and 80s mountains with mostly 90s at lower elevations. Lows upper 30s to mid 30s mountains and mid 50s to near 70 elsewhere.

Long-time Odessa official annnounces plans to retire

ODESSA - The third long-time employee in a week Wednesday stepped down from the Odessa city government, but city officials insist the change was not requested by the city

Raymond Fuqua, director of finance for the city, gave the city notice of his retirement at the end of this

Young cyclist listed 'serious'

A teen-age motorcyclist critically injured in a traffic accident Tuesday afternoon was listed in serious condition early today, according to officials.

Officer Joey Heinmannn said Russell Dean Potter, 13, Route 5, Midland, was making a turn on FM 868 near Holiday Hill Road when his motorcycle and a car driven by Clarence Cockerham, 22, of Midland were in collision.

The accident occurred about 5 p.m. Tuesday, police said.

The 27-year city employee had been eligible for retirement the past seven years, according to Chester Nolen, assistant city manager, and simply decided to take advantage of an opportunity to go into private business.

"Neither the City Council nor the city manager asked for his retirement or his resignation," Nolen said. "It's an inopportune time because of

all this coming up before."
Assistant Police Chief Tommy Callendar was asked to resign July 26 for allegedly refusing to allow two officers to appear at an El Paso hearing without a subpoena. Callendar issued a statement Wednesday refuting many of the points in the charges against him, and calling the matter "a forced resignation without just

Tuesday, Bryan Henderson, director of public works and city engineer, resigned, citing "working difficulties with the city council."

In an apparently unrelated matter, **Assistant County Attorney John Pratt** was forced to resign after he allegedly visited a massage parlor without authorization from the county attor-

Federal felony drug charges filed against five persons

Federal felony drug charges were filed Wednesday in Midland against three men and two women arrested in Odessa Tuesday.

Charges of conspiracy to manufacture methamphetamines were lodged against Paul Lee Scott, 28, of Andrews, Calvin Wayne Crisp, 48, of Dumas and Dennis Rus Kent, 24, Jackie Ann Taylor, 21, and Becky Ann Hamm, 27, all of Lubbock, The charges were filed at a 1:30 p.m. U.S. magistrate's hearing in Midland's

U.S. Courthouse Wednesday. U.S. magistrate Mike Cuningham set bonds of \$200,000 for Scott, \$35,000 for Kent and \$10,000 each for Crisp, Ms. Taylor and Ms. Hamm.

Attorneys for three of the defendents will be provided by the court. Area law enforcement officers and special agents from the Drug Enforcement Agency served a search warrant at a West Odessa mobile home at 4:30 p.m. Tuesday.

During the search of the mobile home, a laboratory suspected of being used for manufacturing methamphetamines was seized, officials said.

Indictments returned in shootings

The Midland County Grand Jury Wednesday returned three separate attempted murder indictments against Ricky Baeza, 20, 705 N. Lin-

The indictments relate to shootings Sunday at the 19th Annual Family Fair at Our Lady of Guadalupe Church, a spokesman for the Midland County Sheriff's Department said

Six men, including Baeza, were injured in two shooting incidents about 12:30 a.m. and 10:30 p.m. Sunday at the fair at 1301 Cherry Lane.

Deputies today said they were looking for two other men who may have

been involved in the shootings. Law enforcement officials have theorized that "a long-standing feud" culminated in the incidents.

Five of the wounded men remained in Midland Memorial Hospital today in fair condition.

They are Henry Sanchez, 24, 1811 E. Spruce Ave.; Sammy Sanchez, 21, 1604 Cottonwood Ave.; Jose Galindo, 25, 1303 S. Jefferson St., Ricky Rayos,

17, 510 N. Lee St., and Baeza. Johnny Ceballos, 19, 2302 N. Main St., who was transferred Sunday in serious condition from Midland Memorial Hospital to Odessa's Medical Center Hospital, was released from the Odessa hospital Monday.

Three of the injured men may have been bystanders, a deputy said.

At least eight and possibly as many as 11 shots were fired in the course of the Sunday incidents, officials said.

New group is proposed

(Continued from Page 1A) money hasn't been available here for

Tessier said the program is a one-

time only thing and should be reserved for bad times. 'What are bad times?" he asked. "I think double digit inflation like we

have now is bad times for home buyers. The bonds would be sold in the name of the city of Midland. Tessier said many people like to buy munici-pal bonds because they are exempt

Meanwhile, the large amount probably would not affect the city's bond rating or the city's ability to sell

from income tax

bonds for other projects, he added. In other action, the Housing Authority reviewed the financial statements for fiscal year 1978-79. The authority administers Hillcrest Manor, a lowincome high rise housing unit for handicapped or elderly persons.

For the last fiscal year, the authority recorded \$6,300 more in receipts and \$4,000 more in expenditures, leaving it at least \$2,000 in the black.

18-year-old man indicted

Eighteen-year-old Sammy Jurado, Route 3, Midland, was indicted on a charge of murder Wednesday by a Midland County Grand Jury, according to a spokesman for the Midland County Sheriff's Department.

The murder indictment stems from the death of Jurado's uncle, Felix Bermea, 32, who was shot at least five times at his home Tuesday night,

According to officials, the shooting allegedly grew out of an argument Jurado and Bermea had concerning

The argument reportedly took place about 9:30 p.m. between the houses of the two men and was con-

tinue at the front of Bermea's home, where ambulance attendants found his body, officials said. Peace Justice Robert Pine ruled

Bermea dead at the residence and ordered an autopsy.

Deputies said they have recovered a .22-caliber revolver believed to have been used in the shooting.

Work on jury wheel begun

Midland County officials Wednesday began "reconstituting" the county's jury wheel for the coming year, according to District Clerk Madge

According to Mrs. Wallis, statute requires the county's jury wheel to be reconstituted between Aug. 1 and Aug. 15 each year. Officials participating in the process, as required by law, are Mrs. Wallis, the county clerk, county tax assessor-collector and the sheriff, or deputies of those officials.

The officials Wednesday began verifying jury tabs against voter registration lists, a process Mrs. Wallis estimated will take several days. When that action is completed, the jury tabs - or names of prospective jurors - will be placed in the jury

Names are drawn from the jury wheel during the year for jury panels for the county courts and district courts, Mrs. Wallis said.

Bypass necessary

CHEYENNE, Wyo. (AP) - A bypass is being built around an Interstate 80 bridge that was weakened by a train wreck, forcing motorists on the major east-west route to detour 60 miles out of their way.

The highway was blocked late Tuesday night when an 80-car train and two of three engines derailed.

Mishap preventable, NRC panel says

WASHINGTON (AP) - The Three Mile Island nuclear power plant accident last March might have been prevented if only the plant operators had allowed safety equipment to function as planned, the Nuclear Regulatory Commission staff said today

The NRC Office of Inspection and Enforcement, in a report more than two inches thick, said it was still investigating some 35 possible violations of federal operating rules and radiation protection limits in connection with the accident last March 28 near Harris-

But Victor Stello Jr., director of inspection and enforcement, wrote in a summary of the report, "Perhaps the most disturbing results of the...investigation is

"Perhaps the most disturbing results of the...investigation is confirmation of earlier conclusions that the Three Mile Island Unit 2 accident could have been prevented, in spite of the inadequacies" that investigators found.

The plant's design, equipment, accident analyses and emergency procedures "were adequate to have prevented the serious consequences of the accident, if they had been permitted to function or be carried out as planned."

confirmation of earlier conclusions that the Three Mile Island Unit 2 accident could have been prevented, in spite of the inadequacies" that investigators found. Stello said the plant's design, equipment, accident analyses and emergency procedures "were adequate to have prevented the serious consequences of the accident, if they had been permitted to function or be carried out as planned."

'For example, had the operators allowed the emergency core cooling system to perform its intended function, damage to the core would most likely have been prevented," he sad.

Istead, the core of the reactor, containing its radioactive fuel rods, was severely damaged by overheating and released so much radiation inside the reactor building that the operators are still unable to enter it for inspection and clean-up operations and the building may remain sealed at least through this year.

The report said the operators were probably not alone in holding some responsibility for the accident.

"On the other hand," Stello wrote, "had certain equipment been designed differently, it too could have prevented or reduced the consequences of the acci-

'The results of the investigation make it difficult to fault only the actions of the operating staff.'

And Stello said some of the operating mistakes were made because operators had been taught to draw conclusions from instrument readings and to take certain actions that turned out unexpectedly to be wrong in the conditions that developed at Three Mile Island, a type of accident which had not been fore-

The report did not allege any violations of NRC rules but said that "potential items of non-compliance were identified during this investigation and...are under review and will be handled through the enforcement channels of the Office of Inspection and Enforcement.

A staff briefing given the NRC commissioners today listed 19 potential items of non-compliance in the operation of the plant. These included the fact that valves had been left closed when they should have been open, taking out of operation emergency feedwater systems that might have prevented the accident if they were working.

The list also noted that the plant's owner, Metropolitan Edison Co., failed to report an earlier incident somewhat similar to the early stages of the Three Mile

The staff also listed 16 possible violations of radiation protection standards, including the release of 11 times as much radioactive gas outside the plant as regulations allowed from March 28 through April 30 this

And the report noted a number of cases in which persons inside the plant were exposed to excessive doses of radiation

"Less than half of the portable radiation survey instruments were operational," the investigation report said. But it agreed with earlier reports that the public was exposed only to a small amount of radiation, which "represents minimal risks...to the offsite popula-

The report said plant operators failed to declare an emergency on the plant site within minutes after the acident begn although they should have because of a pressure rise in the reactor building.

'Subsequently, there were several radiation monitor alarms indicative of an emergency situation but no emergency was declared," the report said.

It said a radiation instrument reading caused by the beginnings of fuel damage was registered at 6:22 a.m. on March 28 and radiation levels continued to in-

The operators finally declared a site emergency based on these alarms at 6:55 p.m., nearly three hours after the accident began, the report said.

Senate goes along with House plan to cut some Amtrak Service

fifth of the Amtrak passenger train network appears headed for elimination under a congressional plan that falls far short of President Carter's original rail cutback proposal. In perhaps the last major fight over

Amtrak this year, the Senate voted 89-11 Wednesday to go along with a House-passed formula that probably will result in the closing of 20 percent of the 22,700-mile system. Sen. Russell Long, D-La., chairman of the Commerce surface transporta-

tion subcommittee, said the plan will "eliminate those trains that represent an unreasonable waste of limited resources.' Less than one-third of 1 percent of

inter-city travelers use Amtrak trains, Long said, and two-thirds of fare costs are subsidized by taxpay-The Senate passed the measure

after adopting an amendment requiring Amtrak to cut fares at least 25 percent for the elderly and handi-The Carter administration in Jan-

uary recommended a 43 percent cutback with an estimated savings of \$1.4 billion over the next five years. That proved to be too sweeping for Congress, and House and Senate committees began rewriting the plan.

The administration finally eased its stance when higher gasoline prices and gas lines in some parts of the country resulted in record ridership on Amtrak trains this summer.

Sen. Frank Church, D-Idaho, said the congressional plan "is acceptable to the administration.

On a 65-35 vote, the Senate rejected an amendment by Sen. John Melcher, D-Mont., for a one-year moratorium on any cuts. He argued that some of the trains being scrapped are almost full and should be saved.

The congressional plan, drafted by a House committee and approved by the full House last week, does not specify which trains will be eliminated, but sets criteria for Amtrak to use in deciding which trains survive.

The criteria call for eliminating long-distance trains unless they carry an average of at least 150 passengers per mile and lose no more than seven cents per passenger for every mile traveled. Short-haul trains would have to carry 80 passengers per mile and lose no more than nine cents.

While final decisions will not be made until later this year, some trains that might be scrapped, according to estimates of the Senate Commerce Committee and others,

The New York-Kansas City "National Limited;" the Chicago-Miami "Floridian;" the Chicago-Houston
"Lone Star;" the Chicago-Seattle "North Coast Hiawatha;" the Bostonto-Kentucky "Hilltopper;" a New York-Florida train, either the "Silver Meteor" or the "Champion;" and the 'San Joaquin," a short-haul train from Bakersfield to Oakland in Cali-

Amtrak estimates that these trains,

WASHINGTON (AP) - Mout one- originally targeted to be eliminated, not provide sufficient service would be retained under the House Senate standards:

The Washington-Montreal "Montrealer;" the New York-New Orleans 'Southern Crescent;" the Washington-Chicago "Cardinal;" either the "Silver Meteor" or the "Champion;" and a short-distance train running from Los Angeles to Ogden, Utah.

The bill would preserve all commuter trains at least until April 1, 1981. It also stipulates that each quadrant of the country would be entitled to keep a train if the final Amtrak plan does

The regional balance provision, ac-

cording to some estimates, would save these trains: the Salt Lake City-Seattle "Pioneer," either the Chicago-Houston "Lone Star" or the Chicago-Laredo "Inter-American," and two short-haul trains, the Seattle-Portland "Mount Rainier" and the Vancouver-Seattle "Pacific Interna-

tional.' Minor differences between the House and Senate bills will have to be worked out later by a conference

Mostly fair weather forecast for Basin area

Skies had cleared in most Permian Basin communities by this morning and the National Weather Service office at Midland Regional Airport was predicting it will be mostly fair through Friday. The afternoon Friday should also be

Chagra: Drug smuggler or hero?, attorneys ask

"Jimmy" Chagra — big-time smug-gler of "Colombian Connection" cocaine and marijuana or a hero who flew to South America only on a mercy mission?

Lawyers for the 34-year-old Las Vegas gambler and the United States government placed that question before jurors Wednesday at the start of Chagra's trial on charges he masterminded the importation of tons of marijuana and pounds of cocaine.

The eight-man, four-woman jury was picked after U.S. District Judge William Sessions of El Paso warned that jurors must not consider the fact that the original judge in the case was assassinated May 29

Federal Judge John H. Wood Jr. of San Antonio was murdered by an unknown gunman as he left his apart-

Sessions is protected around-theclock by armed U.S. marshals, and guards searched purses or briefcases of everyone entering the federal courthouse.

Wood was not the only person connected with the case to die violently. Chagra's lawyer brother, Lee, was

murdered last December in his El Paso office, and the records law enforcement officers found there reportedly fueled a federal grand jury drug investigation that still continues.

The Chagra charge with the biggest wallop is "continuing criminal enterprise" in illicit drugs. Conviction carries a prison sentence of 10 years to life imprisonment, a possible \$100,000 fine and confiscation of any profits he might have made from the drug

Assistant U.S. Attorney Ronald Guyer of San Antonio said in opening arguments to the jury that the continuing criminal enterprise law "may be termed the 'kingpin statute.'

What the government will bring to you will be testimony of accomplices of Mr. Chagra, co-conspirators who acted with Mr. Chagra in many of-fenses from 1974 to 1978," Guyer told

He said the government would prove that Chagra flew to Colombia in November 1977, met a confederate who had "made contact with Mr. Chagra's sources" and flew out with 13.2 pounds of cocaine.

Other accomplices, Guyer said, sold 4.4 pounds of the drug and returned \$70,000 to Chagra to finance a shipload of marijuana from Colom-

Ultimately, he said, federal author-ities confiscated three ships carrying 100,000 pounds of marijuana, all tied in some way to Chagra.

Guyer said the government also would prove that in 1974 through 1976 Chagra "was responsible for deli-

very" of tons of marijuana to Connecticut, Pennsylvania and Oklaho-ma — the latter case involving a single shipment of 17,000 pounds to

Chagra's lead attorney, Oscar Goodman of Las Vegas, Nev., said the government's case rested on "pur-chased testimony" of the alleged accomplices.

"The government witnesses have been offered the fact that they won't be prosecuted for their offenses," Goodman said.

He said Chagra did, indeed, fly in and out of Colombia once but not to smuggle out cocaine.

"Jimmy Chagra was contacted by Lee (Chagra) to aid an individual burned in Colombia in 1977. Jimmy Chagra arranged to have an air ambulance fly down to aid this individual.... Jimmy Chagra advised the U.S.—authorities he was going to pick up this injured individual. He picked up medicine to treat the burns. The government will try to show this was nefarious activity. The evidence will show it was an heroic act on his part," Goodman said.

He told jurors that Lee Chagra was the "subject of intense interest on the part of the U.S. Government. They believed Lee Chagra was the kingpin of operations involving marijuana and cocaine.'

"Former representatives of the government will testfy that Lee Chagra was the suspect, but their interest shifted from Lee Chagra (to Jimmy Chagra) because of the Colombian incident and the murder of Lee Chagra," Goodman said.

Lee Chagra often represented defendants in federal drug cases, and his frequent adversary was Assistant U.S. Attorney James Kerr of San

Kerr, highly active in drug prosecu-tion and in an El Paso federal grand jury investigation of the international narcotics trade's possible links to that city, narrowly escaped death when his car was riddled with 20 bullets in November.

Jimmy Chagra has denied any connection with either the attempt on Kerr's life or Wood's assassination, although his lawyers had claimed Wood was biased and tried to get him to turn the case over to another

Sessions spoke to potential jurors of the Wood assassination Wednesday and told them the trial would involve

only the four-count drug indictment. "The fact that there may have been in the media some connection beween this case and the death of Judge Wood is a matter of pure speculation and must not be involved in your determination of the guilt or innocence of the

neys, is questioned upon his arrival at the Austin federal court house Wednesday. (AP Laserphoto)

early today. Stafford's wife tells of killings

OKLAHOMA CITY (AP) - Roger Dale Stafford's estranged wife says she saw Stafford and his late brother open fire on six steakhouse workers killed in a robbery here a year ago.

Verna Stafford is a first-class liar," Stafford's chief attorney, J Malone Brewer, said Wednesday, promising to attack Mrs. Stafford's testimony today.

Defense attorneys were to continue their cross-examination during a preliminary hearing before Special District Judge Leonard Geb, who must determine whether there is enough evidence to try Stafford, 27, on six first-degree murder charges.

Mrs. Stafford, 26, admitted under questioning by District Attorney Andrew Coats Wednesday that she had lied to police, minimizing her involvement in the steakhouse robbery-murders

The young woman testified in chilling detail about the killings, alleg-"I figured I'd be locked ing that her husband and up...and wouldn't be able to tell you the story," his late brother Harold, Mrs. Stafford said, ex-29, committed the murders during a \$1,200 rob-bery. Harold died in a plaining why she had denied participating in motorcycle accident six

"No one's promised days later. me anything" to testify, Mrs. Stafford testified that the shootings began she said. Coats said after Wednesday's court ses-sion that he had not dewhen her husband became angry at Louis Zacided whether to file any carias, who was actingas manager of the steacharges against Mrs.

Museum expansion

Maurice R. Bullock, chairman of the board of executors of the Permian Basin Petroleum Museum, Library and Hall of Fame, in disclosing plans for a \$1 million museum expansion project, said, "The time has come to do something we couldn't do at the beginning.

"We have a proven record, have established ourselves in the Basin as something to take pride in, and are ready to do more.'

We agree wholeheartedly with the chairman in his observations, and it appears that this is the general feeling throughout the vast Permian Basin Empire.

The expansion plans as envisioned by Bullock, Museum President Russell J. Ramsland and others are exciting ones, indeed.

They call for the erection of a 9,000-square-foot addition to the existing building. Designs for the exhibits include a simulated flight by the museum's 1948 pipeline patrol plane. The display will use a huge mirror to give an impression of a flight over a moving landscape. This thrilling display will be right in line with the museum's famous, almost unbelievable marine exhibit which never fails to impress museum visitors.

Other exhibits which are bound to interest visitors, involve a fiery blow-out of an oil well, to be built with help from the Red Adair well firefighting organization, and a "nitro-shot" in which visitors will feel the "thwump" of imagined

If these thrilling projections don't whet your appetite for prompt museum expansion, we don't know what will.

It is "action-packed" displays like these and others now in existence in the museum which make it stand out above other facilities of similar nature anywhere.

It is interesting to note also that the museum will offer sponsorship of exhibits in the new addition to companies in the petroleum industry - relating to well completions, well stimulation and servicing, recovery methods and pipelining. All of this is intended to give the viewing public an authentic, yet readily understandable, picture of petroleum industry operations from start to finish. Public education, then, is a key word in the overall presentation.

Although Bullock's encouraging revelation that the museum already has \$448,000 to apply toward cost of the project as outlined, some of it earmarked by donors for specific uses, it still is urgent that all residents of Midland and other Permian Basin cities consider donating to this most worthy

This is something in which all of us could and should have a part. It is our museum and it is up to us to support it in every way possible. Many of the previous contributions have been large, or comparatively large, but right now an appeal is being sounded for donations small as well as large for this particular project.

The Permian Basin Petroleum Museum has proved a tremendous success from its beginning, reaching heights far beyond the fondest initial expectations. Thousands upon thousands of visitors from far and near already have viewed the impressive exhibits in the present facility, and steppedup attendance is expected as word of its fame continues to spread at home and abroad.

And, as stated by Ramsland and Bullock, plans for the addition as proposed are "even more exciting and fascinating than our present building turned out to be.

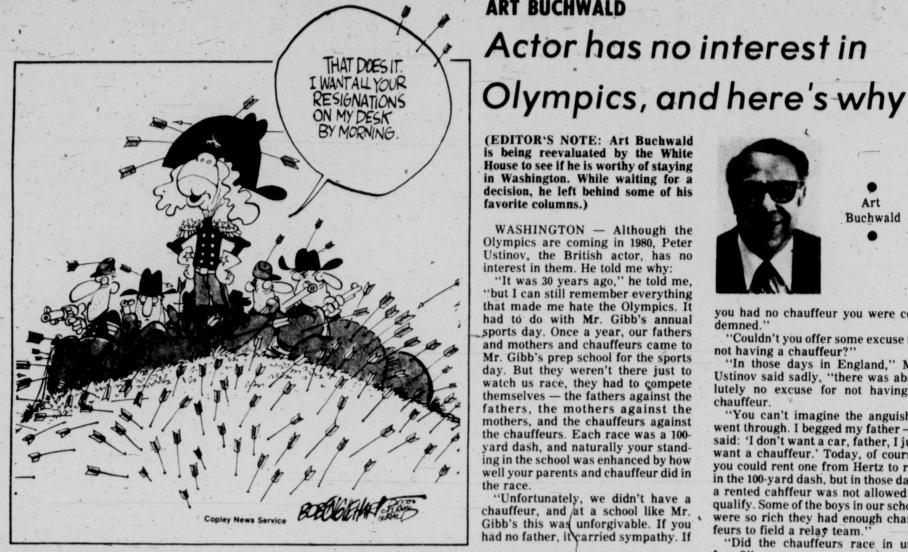

Permian Basin Empire residents have every reason to be proud of this tremendous facility and all that it means to the city, region, industry and public in

And now, as proclaimed by Chairman Bullock, "The time has come to do some of the things we couldn't-do at the beginning.'

This means, as we view it, the time has come for us - all of us to lend support to the expansion project. Hopefully, the response from the public will be prompt and generous. All of us then can be even more proud that we had a part in it. It is private enterprise

BROADSIDES

WASHINGTON MERRY-GO-ROUND

Hit man ring is based in Chile

By JACK ANDERSON

WASHINGTON - It reads like a paperback thriller or the script for a Hollywood suspense flick, but it is frighteningly, incredibly real. The secret police of at least six south American military regimes have been running a joint undercover operation whose function is to assassinate common enemies in foreign

The secret organization is called 'Operation Condor," after the baldheaded vulture of the Andes. Its headquarters is located in Chile. Though membership has varied since Condor's formation in 1976, other member nations have included Argentina, Bolivia, Brazil, Paraguay and Uru-

Although Condor functions as an intelligence-gathering organization to keep track of "leftist" exiles and other opponents of the ruling juntas, its "Phase Three" section is the Mafia-like enforcement arm, according to top-secret documents and other sources.

The special section "involves the formation of special teams from member countries assigned to travel anywhere in the world to non-member countries to carry out 'sanctions' including assassination — against Condor enemies," according to a 'Top Secret-Sensitive" report of the Senate Foreign Relations Commit-

One "Phase Three" team is charged with drawing up the Condor "hit list" in a particular country. Then a second team is dispatched to locate the targeted victims and conduct surveillance on them. Finally, a third team, drawn from one or more member police agencies, is sent to carry out the "sanction" decided

So far, apparently, Condor has failed to establish an outpost in the United States, but an attempt was made at one point to open a station in Miami, according to the secret report. The CIA got wind of the plan and notified the State Department. A formal protest to the governments involved was considered, but was vetoed by then-Secretary of State Henry

Instead, U.S. disapproval of the proposed Condor station was quietly relayed to the Chilean secret police, DINA, which seemed to be the moving force behind Condor.

The outpost was never set up, but this may not have stopped Condor from doing its dirty work in the United States. In September 1976, the prominent Chilean exile, Orlando Letelier, was blown to bits with a young American associate as they were driving past the Chilean chancery on Washington's Embassy Row.

The confessed hit man claimed DINA had hired him, and a secret FBI report at the time states: "It is not beyond the realm of possibility that the recent assassination of Orlando Letelier...may have been carried out as a third phase of 'Operation

Quick action by the CIA and the French and Portuguese governments prevented similar Condor strikes on another occasion, sources told our associate Dale Van Atta. Following the assassinations of the Bolivian ambassador and a Uruguayan attache in Paris, and a Chilean diplomat in the Middle East, a Condor first team had selected three prominent European leftists as targets for retaliation.

But while the second team was looking for the targets, the CIA discovered that the assassinations were to occur in France and Portugal and urgently notified those governments.

French and Portuguese authorities tipped off the intended victims, then called the Condor nations' representatives on the carpet "to warn them to call off the action," according to the secret report. It added: "They did after denying that it had ever been planned.

ART BUCHWALD

favorite columns.)

(EDITOR'S NOTE: Art Buchwald is being reevaluated by the White

House to see if he is worthy of staying

WASHINGTON - Although the

"It was 30 years ago," he told me,

"but I can still remember everything

Because of worldwide outrage at the Letelier murder - three top officials of DINA were indicted in the United States, but extradition has been refused — the Chilean president. Gen. Augusto Pinochet, dissolved the sinister police force in 1977. Its replacement agency is primarily an intelligence-gathering agency, CIA sources said.

But others are not so sure that DINA's ghost has been laid to rest. Chilean undercover agents have still been able to enter the United states on false passports to buy electronic eavesdropping equipment and the secret report notes that "persons accompanying President Pinochet to the signing of the Panama Canal Treaty used false passports."

The report concluded, "What is clear, is that DINA and Condor possess both the motive and capability to harm United States residents.'

SOUND OFF: Q. My solution to the oil crisis: free enterprise. We'll see competition. And we'll see the people work out solutions. - Patricia Tursi. Yakima, Wash.

A. Great Idea. But who's going to persuade the OPEC nations, which rig oil prices, to return to the free enterprise system? If they sold their oil on an open market, economists tell me it would reduce the price by \$12 to \$15 a barrel

Q. I would like to know why Frank Sturgis, who used to work for you, wound up at Watergate? - Ora Gates, Mobile, Ala.

A. He worked for Richard Nixon, not me. Sturgis was hired by the Nixon campaign to break into Water-

Footnate: Address your letters to Ask Jack Anderson, Box 2300, Washington, D.C., 20013. Your full name will be used unless otherwise requested. Because of the tremendous volume of mail, personal replies are impossible.

Mark Russell says

Among those called by President Carter to Camp David mountaintop was the head of the Audubon Society Why? With bird waste as a fossil fuel, our energy worries are over.

Onward, the advisers marched up the mountain - bird-watchers, clergymen, lawyers, doctors. What Carter really needed was a faith-heal-

The only ones who were not invited were Gerry Ford and Linda Ron-

Art Buchwald

you had no chauffeur you were condemned. "Couldn't you offer some excuse for not having a chauffeur?"

"In those days in England," Mr. Ustinov said sadly, "there was absolutely no excuse for not having a chauffeur.

"You can't imagine the anguish I went through. I begged my father - I said: 'I don't want a car, father, I just want a chauffeur.' Today, of course, you could rent one from Hertz to run in the 100-yard dash, but in those days a rented cahffeur was not allowed to qualify. Some of the boys in our school were so rich they had enough chauffeurs to field a relay team.'

"Did the chauffeurs race in uni-

"Always," Mr. Ustinov said, "but the one liberty they were permitted was that they were able to wear sneakers. It wasn't that I didn't have a chauffeur alone that was so humiliating, it was also that my father wouldn't run in the fathers' race. Father was a former German diplomat and he wore a monocle. He felt it was beneath his dignity to race the 100-yard dash, and he also had a fear of losing his monocle. So while the other boys at school had their mothers, fathers, and chauffeurs to cheer on, all my marbles were on my mother, and she turned out to be a lousy sprinter."

'What was wrong?'

"Her start was very bad, and she preferred to go off from a standing position, while all the other mothers crouched. Time and time again I told my mother she would never get a good start from a standing position, but she was very stubborn and wouldn't listen. Naturally, Mother always came in last and since she was the only one I had in the competitions I had to apologize for her bad form to the other boys - a most terrible

'To make matters worse the boys at Mr. Gibb's knew my father was German and, to be unkind, they said I lost the First World War. There were only a few who were pleasant, and they said that their fathers had told them that whenever they overran a German trench they found the sanitary conditions immaculate as compared to those of the French. But since I had a French mother, even this was not consoling.

"So Olympics may mean something to other people," Mr. Ustinov said, "but all they do for me is remind me of my mother puffing down the 100yard track, suffering from bad acceleration and trying so desperately to make up to me for the fact her husband wouldn't run and we didn't have a chauffeur.'

Mr. Ustinov wiped a tear from his eye. "Maybe she was a lousy sprinter but she was my mother.

THE BIBLE CAN YOU QUOTE IT?

By LAVINA ROSS FOWLER AND **ELIZABETH ROSS WIERSEMA**

1. The Lord when curing individuals of their many great human afflictions, set himself against tyrannical laws, which have no place in the courts of God's love. The Pharisees, who were reputedly guilty of regarding the law above charity, criticized and accused him of healing on the Sabbath. Give his reply. Matthew

2. How many types of landscapes are mentioned in the 23rd Psalm?

3. How did the Israelites compare their stature with the sons of Arnak, which they found in Canaan? Numbers 13:33

4. From whom did Aaron learn how to diagnose leprosy? Leviticus 13

5. "And unto him that smiteth thee

on the one cheek ----." Luke 6

Four correct...excellent. Three correct...good

Saudi official speaks bluntly on Middle East peace

WASHINGTON - Saudi Arabia is not the most often heard voice in the Middle East and is often ignored when speaking on matters other than oil. For example, was anybody listening when a top Saudi official spoke bluntly in Los Angeles recently on the Palestinians and Middle East peace?

Addressing the Chamber of Commerce, Dr. Ghazi A. Algosaibi, minister of industry, made it clear that the Saudis feel that the United States has the responsibility to create justice for the Palestinians and insure peace in the region.

Any other "peace," Algosaibi declared, with Camp David in mind, is "humiliation by a different name." He said when Hitler dominated Europe, and Japan was conquering the Far East, peace was "out of the question" and was not a popular word in

"Those who advocated peace in the West in those days," Algosaibi argued, "were not called peacemakers and given prizes. They were called traitors. Sometimes they were shot by terrorists who, in those days, were called the resistance. Why should the situation in the Arab world be any different? Why are you shocked when Arabs react to the arrogant, illegal occupations of their land as any other self-respecting nation would react?"

He said as long as Israel holds Arab lands and Palestinians remain dispossessed and homeless, "the angel of peace will not visit our shores." He claimed "relentless brainwashing" makes many Americans think of Palestinians as terrorists, but that Arabs regard them as three million people scattered over the world without a flag. It is Palestinian children,

he said, "who occasionally get burnt to death in air raids, Israel's 'civilized' answer to guerrilla raids.

"Human life, Israeli and Palestinian, is sacred," Algosaibi argued. "Security is essential for all parties — Israelis as well as Palestinians. Those who believe an Israeli state is wonderful but a Palestinian state is terrible are racists. Anti-Semitism works in many directions...The Holocaust was the horrible culmination of racism in Europe. Let us try to avoid a new Holocaust in the Arab world."

Terrorism, the minister declared, is "indefensible," nor should it be acceptable when "performed, efficiently and dazzlingly, by a modern militaristic state. How can we condemn today's terrorists and hail the terrorists of yesterday? The Palestinians are victims of deliberate acts of terrorism on a massive scale. It is surprising that some of them find violence the only appropriate answer?"

A tough, controversial speech, indeed, laced with admonitions to the West such as to quit explaining Islam "in terms of women without souls, harems and barbaric punishments (mostly) biblical anyway. It is amusing to see biblical punishments ridiculed as savage, while vague biblical promises are presented as divine truths and title deeds for countries in the 20th century. The "New Arab World" Algosaibi

spoke of is one of "more schools,

hospitals, better public services and the eradication of illiteracy and poverty," a "caravan of lean camels, not a fleet of magic carpets." Algosaibi expressed resentment of Western "cultural imperialism" over

Arabs. He remarked that just as his Jewish friends say only a Jew can be sensitive to all manifestations of anti-Semitism, so only an Arab can feel the full impact of "anti-Arab anti-Semitism.

"In novels, films and TV programs," he argued, "Arabs are inevitably stupid, evil and lazy. When an Arab buys a property in America, it is a minor scandal; when a non-Arab buys the same property it is a sound business investment. When an American acquires an expensive painting, he is considered cultured; when an Arab does it, he is decadent or

"In cartoons, foreign nations are represented by their leaders, while Arabs are represented by monsters that would put Frankenstein to shame. I think it is time for the Anti-Defamation League to extend its activities to cover the defamation of Arabs. Jews and Arabs are cousins, after all."

Algosaibi observed that U.S. industrailism will collapse without Arab oil, and that Arab nations can keep their independence "in the face of expanding communism" if U.S. strength is guaranteed - therefore interdependence. He thinks scenarios and temptations concerning the dispatch of U.S. Marines to "get the oil" and for Arabs to play David to Goliath (U.S.) amount to adventurism. "Let us pray that reason shall always tri-

Now Algosaibi is no ordinary minister. He runs a \$40 billion industrialization program, and is regarded as one of the creative young (39) people in the government. He received his M.A. at the University of Southern California (in international relations), his Ph.D. in economics from the University of London. He has published five volumes of poetry, one in English, and comes from an old family whose good reputation predates oil.

umph," he added.

So often we pay attention to Saudis only when they talk oil supply and prices. Once in a while we should listen to the lively, debatable and more profound views of officials like Algosaibi. He'd be great on a TV panel, flanked by a Zionist and a PLO

DEATHS Cynthia Earnest

BIG SPRING - Services for Mrs. Frank (Cynthia) Earnest, 86, of Big Spring were to be at 2 p.m. today in Nalley-Pickle Rosewood Chapel with burial in Mount Olive Memorial

She died Tuesday in a Big Spring hospital after a long illness.

Mrs. Earnest was born Dec. 30, 1892, in Van Zandt County. She moved to Howard County in 1908. She was married to Frank E. Earnest Nov. 13, 1910, in Howard County. Her husband

died July 10, 1962. Survivors include three sons, Theo "Pete" Earnest of Sand Springs, Joe Earnest of Big Spring and Ed Earnest of Fort Worth; a daughter, Mrs. J.W. Stephenson of Granbury; a sister, Mrs. L.F. Loudmay of Abilene; 11 grandchildren, 24 great-grandchildren and two great-great-grandchil-

Erda Lewis

BIG SPRING - Services for Erda Lewis, 81, of Big Spring were to be at 3:30 p.m. today in Nalley-Pickle Memorial Chapel here. Burial was to be in Trinity Memorial Park.

Lewis died Tuesday in a Big Spring hospital following a lengthy illness. He was born Feb. 6, 1898, at Sterling City. He moved to Forsan in 1937 from Snyder and then to Big Spring in 1960. He was married to Lillie Alexander Oct. 5, 1919, in Snyder.

Lewis was a retired pumper for Continental Oil Company. He was a member of the 14th and Main Church of Christ and the Masonic Lodge.

Survivors include his wife; a son, Art Lewis of Snyder; a daughter, Mrs. Paul Gordon of Big Spring; two brothers, Hester Lewis of McKinney and Arthur Lewis of Apache, Okla.; two sisters, Mrs. Jud McGaha and Mrs. Pearl Cole, both of Snyder, four grandchildren and seven great-

William Mitchell

chell of Midland, were at 2 p.m. Wednesday in West Funeral Home chapel. Burial was in Carlsbad

Mitchell was born Sept. 28, 1909, in Carlsbad. For the past 18 years he was caretaker at Lake Avalon near Carlsbad. He formerly was caretaker at Lake McMillan, between Carlsbad and Artesia, N.M., for eight years. Previously, he was employed by Morris Lumber Co., Mitchell Transfer and Storage, PCA Potash Mine and the city of Carlsbad.

He was a member of Fox and Walnut Church of God in Carlsbad.

Other survivors include his wife, a son, four brothers, four sisters, four grandchildren and a great-grand-

Oil holdings seizures overshadow conference

LUSAKA, Zambia (AP)-The dispute between Britain and Nigeria over Nigeria's seizure of British oil holdings overshadowed the Commonwealth Conference as it turned today to world economic and political prob-

lems and Southeast Asia.

British Foreign Secretary Lord
Carrington confronted Nigerian Foreign Minister H.E.O. Adefope at an outdoor reception Wednesday and displayed his anger over the Nigerian government's seizure of British Petroleum's holdings in the West African country.

British officials were convinced that Nigeria's purpose was to warn Prime Minister Margaret Thatcher against recognizing the elected new biracial government in Zimbabwe Rhodesia, and Carrington told report-

"Nothing could be more counterproductive and less likely to succeed than an action of this kind to move the government's policy on southern Africa. This will have a serious affect on Anglo-Nigerian relations."

He strongly denied Nigeria's allegation that Britain was supplying oil to South Africa, which Nigeria said was the reason for the takeover.

Adefope told reporters the takeover was "not necessarily linked with Zimbabwe," but added, "We must get Britain to look at Zimbabwe in a different light ... No black African can consider himself free until southern Africa is free.

Zimbabwe Rhodesia has a new black-majority government led by Prime Minister Abel Muzorewa, but Joshua Nkomo and Robert Mugabe. co-leaders of the Patriotic Front guer-

rilla alliance, and many members of the Commonwealth regard it as a facade for continued domination of the country by former Prime Minister Ian Smith and the white minority.

Nkomo, who has 15,000 fighters in camps in Zambia, was an invited guest at the opening of the conference Wednesday and sat about 12 feet behind Mrs. Thatcher. He listened impassively as she said her Conservative government was "wholly committed to genuine black majority rule in Rhodesia.

The guerrilla chief later told report-"Mrs. Thatcher has learned something in the past 24 hours if she really meant what she said about genuine black majority rule."

He also said he would meet Mrs. Thatcher only if she accepted the Patriotic Front as "the, not a, factor in Zimbabwe." But British sources said such a condition was unlikely to be met, and there was no indication Mrs. Thatcher wanted to meet him.

BP said the nationalization of its holdings in Nigeria would cut off about an eighth of the company's total supplies, roughly 9.6 million gallons daily. It predicted this would upset the world oil market and force up spot

Angel Chocolate-Pear Pie a delicious dessert

SACRAMENTO, CA.-There's a candy called "Divinity Puff," deceptively light and fluffy considering the entire outer coating of white chocolate. There's also a rich dessert pud-ding named "Food for the Gods" that's almost always overdressed with a generous dollop of whipped cream right on top. There's a coffee that's been advertised for years as the "heavenly coffee," presumably to be served with mere mortal food. (What one wonders about all these delights is how they achieve such a

FOOD

lofty distinction)?

Here to join the ranks of light, absolutely delicious and good enough for the immortal is Angel Chocolate-Pear Pie. It's a melt-in-your-mouth fantasy. Rich with chocolate, whipped with cream and topped with buttery pears, this unearthly concoction sits in a shell of fluffy meringue. Somehow it's awfully easy to cut the pieces too big, but nobody seems to complain much. There's a curious perversion, though, in the name "Angel Chocolate-Pear Pie." You get

the feeling something so good just has to be sinful!

ANGEL CHOCOLATE PEAR-PIE

2 egg whites 1/8 teaspoon cream of tartar

1/8 teaspoon salt 1/3 cup granulated sugar 1/3 cup sifted powdered sugar 1 package (1/4 lb.) sweet

cooking chocolate 3 tablespoons water 1 cup whipping cream

1 teaspoon vanilla 2 fresh pears Chocolate curls

Beat egg whites until foamy. Add cream of tartar and salt; beat to mix well. Add granulated sugar, then powdered sugar, a little at a time, beating well after each addition. Turn off mixture and scrape bowl as needed. Beat until all sugar is dissolved and mixture stands in very stiff peaks. Spoon into lightly greased 8inch pie plate. Shape into "nest," building sides up 1/2 inch above edge of plate. Bake in 275 degree F. (very slow) oven 1 hour. Turn off heat and cool pie shell in oven 30 to 45 minutes. Place sweet cooking chocolate and water in saucepan. Heat and stir over low heat until chocolate is melted. Cool to room temperature. Whip

cream with vanilla. Fold in cooled chocolate. Pare, core and slice pears. Cover bottom of pie shell with some of pear slices. Heap chocolate mixture

lightly into shell. Arrange remaining pear slices on top. Garnish with chocolate curls. Chill about 2 hours. Makes 6 to 8 servings.

Simplify meal preparation with 'Summertime' dairy food leaflet

Market index

Stock market mixed

NEW YORK (AP) - The stock market was mixed today, levelling off after

Tuesday's rally.
The Dow Jones average of 30 industrials, up 7.68 Tuesday, slipped back 1.28 to 845.14 by 2 p.m. today.

But gainers clung to a 6-5 lead over losers in the midafternoon tally of New York Stock Exchange-listed The market's rise Tuesday

was attributed partly to a rally by the dollar in foreign exchange, accompanied by a \$5-an-ounce decline in the price of gold. Today the dollar showed

less strength, but the gold price tumbled again, falling by about \$8.

Gold mining stocks, how ever, managed some fractional gains. ASA was up 1/4 at 24%, and Homestake Mining added ¼ to 32¼.

Harrah's jumped 4% to 26

and Holiday Inns gained ¾ to 19%. Holiday Inns said it had had some "general" merger discussions with Harrah's. Revco D.S. climbed 11/2 to

261/4. The company reported higher quarterly earnings and raised its dividend.

The NYSE's composite common-stock index was unchanged at 59.14. At the American Stock Exchange, the market value index was off .55 at 198.14.

Volume on the Big Board reached 24.53 million shares with two hours to go.

Livestock

AMARILLO, Texas (AP) — Texas Panhandle and western Oklahoma feedlot roundup. Confirmed: 12,200.

Trade moderate throughout the Panhandle area early Wednesday. Slaughter steers fully 50-1.00 lower, heifers 50-2.00 lower to mostly 1.00-2.00 lower. Feedlots reporting broad inquiry from most buyers. Sales on 7800 slaughter steers and 4400 heifers. Note: all live cattle prices based on net weights fob the feedlot after 4 percent shrink.

Slaughter steers: good and mostly choice 2-3, 70-80 percent choice, 1050-1150 lb 60.00-61.50, late sales 60,00-60,50. Mixed good and choice 2-3 1100-1125 lb 59,00-60.00.

Slaughter heifers: early in the day, several pens good and ostly choice 2-3 900-950 lb 60.00. Bulk good and ostly choice 2-4 50-70 percent, choice, 875-975 lb—55,00-59.00, late 55,00-57800.

55.00-59.00, late 55.00-5760.

BUSINESS MIRROR

Workaholics rate self-worth greater than net worth

By JOHN CUNNIFF **AP Business Analyst**

NEW YORK (AP) — Although they really can't spare the time, workaholics are speaking up in their own defense. Their habits, they say, are not indicative of emotional weakness. Instead, they personify excellence.

The attitude quickly surfaces in conversations with workaholics, who resent the word as perjorative. They are tired of being considered psychological misfits, of being poor family people, of being

And they have defenders. "What's wrong with this country," said Eugene Jennings, a counselor to many executives, "is that we have too few workaholics and too many part-time executives play acting a Marilyn Machlowitz, who dealt with the subject in

her doctoral dissertation at Yale, comments that "practicing pscyhologists do not so much define workaholism as they denigrate workaholics." Jennings, a professor who not only instructs budding workaholics in his Michigan State management

courses but who acts as a confidential adviser to corporation chiefs, maintains the word is loaded with myth.
"The large majority of chief executive officers of

major industrial corporations who worked their way from the bottom are workaholics," he states flatly. He feels they might not have got there otherwise. "In science and the arts we admire workaholics,"

he states. But in business — well, that's another story, one often associated with a variety of negative personality traits, which Jennings calls nonsense.

He maintains that highly successful, self-propelled

executives do not have an unusually high divorce rate. He claims that on average they do not die prematurely. And he insists they are seldom alcho-holics.

Some, he suspects, might have better marriages and better health, because they must tend to such matters or see their goals undermined. For the same reason they may be inclined to avoid heavy drink-

Miss Machlowitz also sees constructive attitudes in the workaholic personality. "What causes workaholism?" she asks rhetorically. "Obvious prerequisites are energy, optimism and drive," she an-

Her studies indicate they are not money-mad or power-crazy either. "The workaholic's ultimate goal is not money and not even power — it is simply to be No.1. Recognition by others is the greatest triumph.' They do, of course, recognize the value of money.

In fact, she says, they crave it, but usually as a measure of success. She feels "a workaholic is more concerned about self-worth than net worth. Miss Machlowitz concedes that workaholics have negative as well as positive personality traits. "They are impatient with the pace of everything, and everyone, around them," for example. And typically

they turn their play into work. "It pains them not to work, she says. But they are also enormously energetic people; paradoxically, she oberves, their energy expands as it is expended. And they have the ability also to turn

their work into play, to enjoy rather than dread it.
Why then the workaholic's bad reputation?
Jennings feels it was developed "by an anti-establishment segment of society that felt it was immoral to dedicate something as sacred as a life to something as immoral as the corporation.

Jennings, a prolific author and a pioneer in the study of executive mobility, or the routes to success in the corporation, conducts regular studies of execu-

tive behavior and has access to executive profiles.

A question he always asks is: "Are you happy?"

And, he says, "those most likely to answer 'yes' are those working 60 hours a week or more, which by his definition makes them workaholics. These workaholics apparently don't apologize, as they once might

One message they deliver, said Jennings, is that with too few people showing single-minded dedica-tion, and too many pursuing the "full" life, too many jobs are being done poorly today.

Carter asking new weapon for FBI

WASHINGTON (AP) - President Carter is urging Congress to give the FBI a new weapon in the fight against organized crime, corruption and white-collar The administration's proposed FBI charter would,

for the first time, grant the bureau authority to demand access to a criminal suspect's telephone and bank records. It also would require the bureau to notify the

suspect that investigators were examining those Noting the provision would "significantly expand" FBI authority, Carter said "this is essential if the FBI is to be effective in combating white-collar

crime, fraud, corruption and organized crime." Justice Department and FBI officials acknowledged the provision may arouse controversy, but said it does nothing more than grant the bureau authority other federal agencies already have.

The administration formally presented the proposed charter to Congress on Tuesday and a bipartisan group of senators, led by the Judiciary Committee chairman, Sen. Edward M. Kennedy, D-Mass., introduced it in the Senate.

Kennedy and other key members of the Senate and House have worked with administration officials in drafting the proposal over the last two years.

In many respects, the proposal would write into law the investigative guidelines first established by former Attorney General Edward H. Levi in 1975 and 1976. The guidelines, and later the charter, grew out of demands for a sure-fire system of preventing the FBI from abusing its power as it did in the past with harassment of civil rights and antiwar organizations and their leaders.

Carter said the proposal would grant the FBI new authority in only two areas: -The bureau could investigate "patterns of ter-

rorist acts" that involve violations of laws even though there may be no federal violations. -The bureau could issue investigative demands

for financial and communications records maintained by banks and other institutions on individuals under investigation. Several other federal investigative units already have such authority, which is similar to a grand jury subpoena. The provision would require the FBI to follow the

steps applied to other agencies, which must notify an individual when his bank or telephone records are being inspected. Authorities may delay notification f they can prove an immediate alert would jeopardize the investigation. The reaction of several senators to the proposed

charter indicate it will face strong criticism and probably major surgery before winning congressional approval, if it does.

U.N. troops pack scorpions to go home

(AP) - U.N. peacekeeping troops are packing their souvenirs of duty in the dusty Sinai wilderness — scorpions frozen in plastic, spent shell casings and pinup calendars - as they disband and head for home. .

UNEF, the 4,015-man United Nations Emergency Force, ceased to exist on July 25, more than 51/2 years after the U.N. Security Council sent it out to monitor the truce that ended the October 1973 Arab-Israeli

The death of the sevennation peacekeeping force was an indirect result of the peace treaty signed by Israel and Egypt March 26 even though the treaty envisioned its continuance as a buffer force. The Soviet Union, opposed to the treaty, refused to agree to extension of UNEF's mandate from the Security Council.

The first to go were 140 Swedes who packed their gear Tuesday and began moving out of this base camp nestled in the rolling sand dunes of the northern Sinai about 17 miles east of the Suez

silently, her face grim.

CAMP SINAI, Egypt Canal. The military withdrawal is expected to take up to two months. A number of civilians will remain behind to wind up such chores as shipping home equipment, but UNEF officials say they, too, should be gone within six months.

"Our men were all handpicked, the best in the Swedish army," said Maj. Sven Ullgren, a journalist from Goteborg, Sweden in civilian life. "To serve in UNEF is considered very pres-

This is the second time a UNEF peacekeeping army has been sent packing. Originally established by the Security Council on Nov. 5, 1956 after a previous Egyptian-Israeli war, it was ordered out by Egypt in 1967, an act that set the stage for the third Mi-

deast conflict.

Registration will be from 8:30 to 11 a.m. and from 4:30 to 7 p.m. on

Most women

now live longer

WASHINGTON (AP) Since 1900, a woman's life expectancy at birth has increased 28.8 years while a man's has risen 23 years, according to the American Council of Life Insurance.

The council says a female born today can expect to live 77.1 years on the average, compared to 48.3 years in 1900.

However, the longevity of a male child born today is 69.3 years, compared to 46.3 year at the turn of the century.

Cain still on minds of St. Louis Card football team

By The Associated Press

The preseason schedule has the St. Louis Cardinals in the Astrodome tonight opposing the Houston Oilers. But the hearts of the Cardinal coaches and players will remain on a practice field in St. Charles, Mo.

That's where they lost their teammate J.V. Cain 11 days

THE LATE tight end also will be on the minds of everyone else under the Dome tonight when there is a moment of silence prior to the kickoff for the Houston native, who died after collapsing during a pass pattern

200

"I doubt if the team will ever really put it (Cain's death) behind them," said Cardinal Vice President Bing Devine. "But life goes on and I think they are responding. We had a scrimmage on Saturday and that was a benefit. It gave the team some action and something to relate

COACH BUD Wilkinson had been banking on Cain's return from Achilles tendon surgery to pay dividends this season. The torch now falls to Al Chandler and Eason Ramson, who filled in for Cain last season.

quarterback Gifford Nielsen while starter Dan Pastorini continues to recover from a sore shoulder, and Jim Hart will take the first snap for St.Louis.

THE CARDINALS' first two draft picks, running backs Ottis Anderson of Miami and Theotis Brown of UCLA, also will be on display tonight.

Meanwhile, Carl Eller will face his former Minnesota Vikings teammates tonight in the first preseason encounter for his new club, the Seattle Sea-

The Seahawks, who obtained

the 37-year-old defensive end this week for 24-year-old defensive tackle Steve Niehaus, have been trying since then to justify

"It is a trade I normally wouldn't make," said Seattle head Coach Jack Patera, who coached Eller's defensive line in Minnesota before the Seahawks hired him in 1976. He explained that Niehaus, the club's No.1 pick that first year, hadn't lived up to his potential, and that Eller "was Minnesota's best defensive lineman last season.'

The New York Giants also will meet a recently traded ex-teammate Saturday when they host the Cleveland Browns at the Meadowlands.

THE GIANTS traded Jack Gregory to the Browns Wednesday after the defensive end walked out of camp Monday-and threatened to retire unless the Giants worked out a suitable

"Cleveland - that's my town. I've been sorry ever since I left." said Gregory, a 13-year veteran and the Giants' defensive captain the last three seasons. He will be returning to the club with which he began in 1967 and earned All-Pro honors.

The Giants also lost four-year veteran tackle Bill Bain to the Washington Redskins, who acquired him on waivers Wednesday along with guard Gary Anderson from the New Orleans

The San Francisco 49ers received encouraging news on running back James Owens, their first draft choice out of UCLA, who was reported in good condition Wednesday after being hospitalized in Palo Alto, Calif., for non-contagious meningitis. The 49ers expect him to miss only about a week of

Jim Sundberg of the Texas Rangers, is out at home plate trying to score from second on Dave Roberts' double off the left field wall in fourth inning of game with Detroit in Arlington Wednesday night. Lance Parrish of the Tigers makes the tag on Sundberg. Story on Page 2C. (AP Laserphoto).

Budner blanks M-Cubs, 1-0

SHREVEPORT - Scott Budner allowed five Midland hits while fanning seven and walking one here Wednesday night as the lefty hurled the Shreveport Captains to a 1-0 Texas League victory over the Midland

Midland returns home to begin a five-game set with the San Antonio Dodgers Friday night.

Bob Brenly provided the offensive firepower for Shreveport as he belted a solo homer over the left field fence in the third. Brenly collected three hits for the evening while shortstop Tom Runnells added a pair of safe-

For Midland, it was a frustrating night. Jared Martin was the only Cub to get past second base, and in the sixth, he was called out while trying to steal home.

Elcor bombards Baird in tourney

TYLER - Elcor combined strong hitting with solid pitching here Wednesday as the Chems defeated Baird, 16-1, in a loser's bracket contest of the Texas Teen-Age Senior State Baseball tournament.

Elcor lashed 12 hits while Chem pitchers Jay Doeling and DeWayne Holmes checked Baird on just three safeties.

Brian Cantrell powered a grand-slam homer to pace the Elcor offense while Doug Schmidt, John White and Doeling each doubled.

Elcor's other Wednesday assignment was postponed because of rain. They're scheduled to play a double header today in the double elimination tourney with still a shot at the championship trophy.

Bill Farley went the distance for Midland as his record dipped to 9-4.

Dorsett changes mind over curvew fines

THOUSAND OAKS, Calif. (AP) -Dallas Cowboys running back Tony Dorsett says he has had a change of heart about his threat to file a formal grievance with the NFL Players Association if his \$1,200 fine stands.

"If all this is taken the wrong way, it could be a disruptive thing and I don't want that," he said Wednesday. "Right now the rapport of the players and coaches is excellent and it is important that we keep that."

Dorsett said he would be "unhappy" if he had to pay the fine, for not returningto the Cal Luheran campus until 7:30 a.m. Sunday after the Hall of Fame Game against Oakland in

But he added he would not take the matter "that far" — which he indicated referred to filing a grievance.

Dorsett and Thomas Henderson led a group of Cowboys players Tuesday in asking the players union to clear up a "free time" contract clause. Henderson was penalized \$300 for the same offense as Dorsett the same morning, but said he was only one

The players interpret the clause to mean that for one 24-hour period each week, they will have no practices, meetings or curfews.

Drew Pearson, Cowboys player rep resentative, said Wednesday: "It's my understanding that the wording of the rule states that once preseason games are under way, the team must be given a minimum of four days off per month. During the 24

hours you have off there are to be no

practices, no meetings and no cur-

fews. Coach Landry evidently inter-

prets it to mean just no meetings and no practices. He suggested that we get a clarification.'

Dick Berthelson, staff counsel for the NFLPA, said he agrees with the players' perspective and has in formed Landry of his opinion.

Landry, who has insisted he will continue to enforce curfew until ordered by the league commissioner to do otherwise, apparently made his stand clear in a meeting with players

Tuesday night. Dorsett described the meeting as

"Coach said what he had to say and there were a couple of questions. No one got heated up at all. It's just an issue that's not particularly clear. The players and coaches just need to come to an understanding. Once things are spelled out clearly, every-thing will be OK," Dorsett said.

Landry says the \$1,200 fine was the result of Dorsett's being on a "double" because he already had been fined for being late the previous Wednesday. The amount of the fine reportedly doubled with each hour Dorsett remained away from camp.

Diablos capture wild 11-10 win in Arkansas

By The Associated Press Outfielder Mark Brouhard drove in two runs and cut down the poten-

tial tying run with an accurate throw to home in the ninth inning Wednesday night as the El Paso Diablos took an 11-10 Texas League victory over the Arkansas Travelers. In other Texas League action, Tulsa

edged Amarillo, 4-3, Shreveport slipped past Midland, 1-0, and Jackson and San Antonio split a doubleheader. Jackson took two extra innings to beat San Antonio, 2-1, in th first game and San Antonio took the nightcap, 1-0.

Going into the eighth inning, El Paso and Arkansas were tied, 9-9. El Paso grabbed an 11-9 lead in the bottom of the eighth. Steve Lubratich

reached second on a throwing error by losing Arkansas pitcher Ray Serage, 7-2. Brouhard then drove Lubratich home with a single and scored on a single by Tom Bhagwat.

Arkansas cut the margin to 11-10 on a solo homer by Fred Tisdale, who finished the night with four hits, including a double, in five trips to

Tye Waller singled, was sacrificed Randy Thomas singled. Brouhard's perfect throw cut Waller down at the plate. Both Waller and Arkansas manager Tommy Thompson were ejected for arguing about the call at

Griffey knee surgery

CINCINNATI (AP) -An orthopedic surgeon said there is "a fair chance" that surgery will be necessary for ail-ing Cincinnati Reds outfielder Ken Griffey.

Dr. Robert Heidt, who examined Griffey at a hospital Wednesday, said there appeared to be no damage to cartilage supporting the inside and outside portions of the knee. He did not rule out the possibility of other cartilage damage, how-

"There is a fair chance that surgery will be necessary, but it could wait," Heidt said Wednesday night.

"A lot depends on the player when he's confronted with what he's

"It's of a fairly major note. There is nothing to be said until all the results of the tests are in,"

Heidt said the matter would be discussed with Reds President Dick Wagner and Griffey

Meanwhile, second baseman Joe Morgan was scratched from the lineup Wednesday night and sent home because of an inflammation in his right eye, the team announced. .

Morgan apparently suffered the injury Monday night when a throw to second base from catcher Johnny Bench hit him. He was given medication for the eye Wednesday.

The Reds veteran is hitting .254 this season with six home runs, 22 runs batted in and 17 stolen bases in 21 attempts. Griffey underwent an

examination at Christ

Baltimore ready for series with Yankees

By The Associated Press Now that the Baltimore Orioles have proved to the Milwaukee Brewers who's boss in the American League East, they'll try to show the New York Yankees the same thing.

Baltimore swept three games from the previously red-hot Brewers in Milwaukee, climaxing the rout with a 5-2 victory Wednesday. The Orioles lead second-place Boston by 71/2 games, are 9½ ahead of Milwaukee and 14 in front of the two-time defending World Champion Yankees. The Orioles invade Yankee Stadium Friday for a four-game series.

Al Bumbry extended his hitting streak to 13 games, opening the contest with a single that spurred a three-run Baltimore first inning off Lary Sorensen. 12-11. Dennis Martinez, 14-8. coasted home with an eighthitter as the Orioles won for the 13th time in 15 games.

"It wasn't do or die, but it certainly was crucial," said Bumbry. "We came here feeling we had to win two out of three. Winning all three means now we know we can beat Milwaukee.

'We've beaten them six straight now, three at our place and now three here after they embarrassed us in three games here early in the year.

Milaukee beat the Yankees three times over the weekend for a sweep of their own but those victories had little meaning following Baltimore's devastation of the Brewers.

"Now we have to sweep them three straight in Baltimore next week," said Sorensen. "It's either that or play .800 ball the rest of the way. And the way Baltimore is playing, they might do that, anyway.'

By The Associated Press

keep the Cincinnati Reds in the Na-

tional League's West Division race.

Ray Knight has been using the in-

jured slugger's lumber for the last four games and has driven in 14 runs

homers in that final month.

George Foster's bat has helped

Rich Dauer added a solo homer for Baltimore, which has a 72-34 record and a .679 percentage. At their present rate, the Orioles would win 110 games this

In other AL games, Cleveland had its 10-game victory string under unbeaten Manager Dave Garcia broken by Boston 7-4; Oakland stopped Minnesota 7-1; Kansas City nipped Toronto 4-3; New York defeated Chicago 9-1; Texas edged Detroit 4-3, and Seattle beat California 7-6.

Red Sox 7, Indians 4 Jim Rice had a pair of two-run homers, giving him the AL lead with 27 this season, and Dennis Eckersley, 13-5, beat his former teammates on a 10-hitter. The Red Sox thus salvaged one game of the four-game series and moved on to Milwaukee to-

The game was delayed 2 hours, 18 minutes by rain, which bothered Eckersley

"I really wanted to play and beat them," he said. "I knew they were due to lose - it was about time.

Garcia was hardly crushed by his first defeat at the Indians' helm.

"I really didn't expect to win them all," he noted. "I'm pleased in a way, if you can be pleased after losing. The way these ktds kept coming back ... they never give up.

A's 7, Twins 1 The A's got their fourth consecutive complete game and won for the fifth time in the last seven contests. Rick Langford pitched an eight-hitter for his fifth route-going effort of the year. Langford has been the victor in five of the last 10 Oakland wins, dating back to June 22. "I might go into a state of

shock with statistics like that being thrown at me," said Manager Jim Marshall. "But we're using kids and some are getting better. It would be an awfully long winter ahead if they

"I knew we'd be a factor in the pennant race one way or another, by playing well against some clubs. But I know that contending teams have got to be thinking sweep when they go up against us, too.

Royals 4, Blue Jays 3 Kansas City got its sweep of a three-game set against Toronto as sore-thumbed George Brett, designated hitting instead of playing third base, had two doubles and a single and drove in a

Brett singled home Willie Wilson in the first, then snapped a 2-2 tie with an RBI double in the

Yankees 9, White Sox 1 Reggie Jackson, Lou Piniella

and Jerry Narron powered home runs and the Yankees completed a three-game sweep of Chicago, which has lost seven in a row. Don Hood, 4-0, pitched seven innings of four-hit ball for New York.

Hood learned 10 minutes before the game that scheduled starter Ed Figueroa had arm trouble.

"It's tough to start on such short notice," said Hood. "But you don't want to think about it. It's hard enough as is.'

Mariners 7, Angels 6 Dan Meyer homered, doubled and singled and drove in three runs for Seattle while Randy Stein, 1-1, pitched 3 1-3 innings of shutout relief.

seeking Walling's triple with Kern

ARLINGTON, Texas (AP) - Rangers reliever Jim Kern earned his 18th save and preserved Steve Comer's 12th victory of the season while Jim Sundberg's two-run triple provided the game-winning run Wednesday night in a 4-3 victory over the Detroit

Comer, 12-6, was chased with two out in the seventh inning on a walk, a single and consecutive RBI singles by Alan Trammell and Ro LeFlore With the score 4-3, Rangers, and the tying run on second base, Kern came on to strike out Lou Whitaker.

Texas jumped on Tigers starter Milt Wilcox, 8-5, for a run in the third inning on Dave Roberts' double down the left field line and Mickey Rivers' RBI single.

Texas broke a 1-1 tie in the fifth on a walk, a sacrifice and Buddy Bell's single

In the sixth, Richie Zisk singled and moved to second when Johnny Grubb was safe on an error. Sundberg then tripled into the left field corner on a ball left fielder Steve Kemp had trouble running down.

Gamble trade is puzzling

ARLINGTON, Texas (AP) - Al Oliver calls them a revolving door. Jim Kern calls them a shambles. Doc Medich calls them embarrassing.

The "them" is the Texas Rangers front office, which apparently lost Oscar Gamble to the New York Yankees in the Mickey Rivers' deal Wednesday because they don't understand baseball's rules.

Rangers fans bombarded a local radio station with calls, the majority saying the Yankees had taken the Rangers'in a trade that had taken quite a few twists and turns since its original announcement.

Texas announced "completion" of the trade late Wednesday, sending the contract of Gamble to the Yankees in exchange for Rivers' contract - plus third baseman Amos Lewis, a minor leaguer hitting .282 with 20 home runs and two players to be named later.

The Rangers will receive three players to be named. On Monday, the Rangers and Yan-

kees announced that Rivers had been traded to Texas for minor leaguers Gary Gray, Mike Hart, Domingo Ramos and a player to be named

However, Texas failed to obtain waivers on Gray and Hart and could not send them to the Yankees' AAA farm team in Columbus. Commissioner Bowie Kuhn noticed the failure to clear waivers and voided the deal.

The Rangers' Chairman of the Board Brad Corbett and executive vice president Eddie Robinson swung into action, again. Robinson and the Yankees agreed to an even-up trade Gamble fr Rivers and Gamble was pulled from the starting lineup Tuesday night. However, Corbett said no deal and ordered Robinson to get an

By then it was too late and Gamble, who had just bought a new home in Arliegton, was sent to the Yanks.

"It seems kind of funny that they would want to trade the leading hitter on the team," said Gamble. "All I know is that the Ranger front office is acting like it messed up. but I don't mind going to the Yanks.

Medich said: "They (the front office) messed up. They are trying to pass the buck off to the American League. How can you have any confidence in them after you've seen this fiasco. They (the front office) have been put in a very embarrassing situ-

sparks Astro win HOUSTON (AP) - Houston's Denny Walling says his first trip to the plate against San Francisco's Vida Blue Wednesday night, a strike releaving the game with a stiff shoulout, was a donation to the Giants'

"He's one of the best fast ball pitchers in the major leagues and hes got a lt of stats," Walling said. "He's had

the 300 strike outs, the 24-8 record and the Cy Young Award. I'll admit it, I was nervous the first time. That strikeout was a donation. But when the collection plate came

around the second time, Walling was not nearly as generous, blasting a two-run triple to highlight a four-run Houston fourth inning that paced the Astros to a 5-4 victory. "He pitched to me pretty good all

The Giants loaded the bases off Houston relievers Ric Williams and Randy Niemann in the seventh but managed only one run on a sacrifice

fly by Darrell Evans, who also hit two doubles and drove in three runs. Jack Clark was another sore spot for the Astros. He went four for four with two doubles and two singles, driving in one run.

San Francisco took a 2-0 lead in the first on Joe Strain singled and scored on Clark's first double. Clark then scored on Evans' double

Houston got one run back in the first when Cesar Cedeno walked went to second on a ground, took third on Terry Puhl's controversial single and scored on Terry Puhl's single.

Puhl hit a fly ball to shallow centerfield and Bill North charged the ball and appeared to catch it but third base umpire John Kibler ruled North trapped the ball.

Bobby Fox new ETSU track coach *

COMMERCE, Texas (AP) — Bobby Fox, an assistant football coach at East Texas State University the past eight years, has been named track coach, school officials said Wednesday.

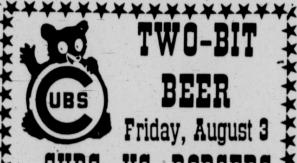

Fox succeeds Wendell Palmer, who had served as interim track coach the past two years. Fox will retain his duties as defensive coordinator.

Fox was a Little All-America defensive back for ETSU in 1955. He served as track coach at Tarleton State University from 1966 to 1968, track coach and head football coach at Texarkana Community College from 1959 to 1965, and assistant football coach at West Texas State from 1969 to 1971.

Marketbasket survey confirms fears: Grocery prices still rising

By the Associated Press

Supermarket shoppers had to stretch their dollars still further last month as grocery bills measured by an Associated Press marketbasket survey rose by more than half a percent.

At the start of August, the average cost of a random selection of food and non-food items was about 5 percent higher than it was seven months earlier. One out of four products checked by the AP went up during July.

The AP survey covers 14 commonly purchased food and non-food items. The price of the items was checked at one supermarket in each of 13 cities on March 1, 1973 and has been rechecked on or about the start of each succeeding month. 15th item, chocolate chip cookies, was dropped at the end of November 1977 because the manufacturer discontinued the package size used in the survey. Among the latest findings:

-The marketbasket bill went up at the checklist store in seven cities and down in six cities during July. On an overall basis, the average marketbasket was seven-tenths of a percent higher at the end of the month than it was at the start. During June, in contrast, the average marketbasket bill dropped by seven-tenths of a percent.

Comparing prices today with those at the start of the year, the AP found that the average marketbasket bill at the checklist store has increased by 4.9

-The price of food has been rising much more than the price of other supemarket items. During July, for example, non-foods accounted for only 9 percent of the increases, although they represented 21 percent of the items surveyed. When non-food items were removed from the marketbasket totals, the AP found that the average bill at the checklist store had increased by 6.2 percent in the first seven months of 1979. The government is now

predicting that food prices alone will rise by nearly 11 percent this year. Coffee and milk led the list of items increasing in price last month. The price of a pound of coffee increased at the checklist store in 11 cities, to an average of \$3.03. Coffee prices have been rising since a frost in Brazil wiped out

hopes of a crop surplus. The price of a quart of milk went up last month at the checklist store in seven cities, reflecting higher prices paid to

-Eggs decreased in price in seven cities at the checklist store, offering bargains to consumers looking for non-meat sources of protein. There also were some specials on meat — the price of chopped chuck went down at the checklist store in five cities during July, while frankfurters declined in six

A look at the overall number of items in the AP survey showed slightly fewer increases during July than during June. Here are the percentages of increases and decreases:

Deeper recession forecast

- An internal Carter administration document predicts Americans will face a deeper recession with higher unemployment next year than the White House has forecast publicly, according to a

The internal assessment says the jobless rate will hit 8.2 percent in the fall of 1980, meaning a total of 8.2 million Americans could be out of work. In June, the unemployment rate stood at 5.6 percent.

A source, who asked not to be identified, said Wednesday night the projections are contained in "an internal document" that probably was never intended to be made public.

The predictions were prepared by a joint task force that included senior staffers from the Treasury Department and Council of Economic Advisers, the source said.

The internal forecast differs sharply from the economy outlook the Carter administration released July 12.

At that time, the ministration was projecting an unemployment rate next year of only 6.9 percent. The latest Labor Department figures, for June, show 5.6 million Americans were out of work. The internal projection means an additional 2.6 million Americans could be out of work next

The figures in the more pessimistic forecast closely parallel predic-tions being made by the Federal Reserve Board. The board chairman, G. William Miller, will soon move into the administration as secretary of the treasury.

It was expected that the internal document would increase pressure on President Carter to propose a tax cut for 1980 to give the economy a boost.

The internal document made the following pre-

-Economic output: A decline in the gross national product of 1.4 percent this year, rather than the milder 0.5 percent dip in real terms the administration predicted July 12. Also, recovery will be weaker in 1980 than that forecast predicted. The administration said three weeks ago output would grow by 2 percent in 1980, while the internal document predicts a 1.1 percent rise.

-Unemployment: The nation's jobless rate will rise in the remaining months of this year and hit 8.2 percent by the end of 1980, not the 6.9 percent forecast earlier.

-Inflation: The inflation rate for the economy as a whole will be 8.8 percent in 1980, compared with the July 12 figure of 8.1 percent. These figures include a variety of goods outside the Consumer Price Index, which has been climbing at a 13 percent

annual rate this year. Without making a rcommendaton, the economists also included estimates of how various tax cuts and anti-recession spending programs would affect the

economy. They said combining a \$25 billion cut in Social Security taxes and a \$5 billion increase in government spending would slow the inflation rate to 8.5 percent in 1980.

Card surcharges said to be illegal

By GLENN RITT

WASHINGTON (ZP) -The Energy Department is allowing service stations to charge extra if motorists pay by credit card, but a House subcommittee chairman says that's against the law.

"It is unfair to put the service station operator in the middle on this issue," Illinois Democrat Frank Annunzio, chairman of the House consumer affairs subcommittee, said Wednesday.

"On one hand, the Department of Energy leads the operator to believe that there is nothing wrong with surcharging a credit card, when such an action could land the service station operator in jail," he said.

Under federal law, Annunzio said, anyone adding a surcharge to a credit card purchase can be sentenced to up to a year in jail or fined \$5,000, or

The Energy Department said its lawyers were studying Annunzio's

Even before the congressman's warning, independent dealers were lambasting Energy Department rules that let them charge extra for such services as washing windshields, checking oil and filling tires, as well as honoring credit cards.

Charging extra will only alienate customers, station owners claimed.

About 700 dealers who own their own stations invaded Washington on foot and in horn-tooting tow trucks Wednesday to protest the rules.

They marched in front of the White House, disrupting lunchtime traffic, and then rallied on the Capitol's

The independent dealers were angriest over Energy Department rules that set a uniform gross profit margin of 15.4 cents per gallon. Many dealers say they must cut back current margins under the rule, even as skyrocketing inflation worsens rents, wages and the price of electricity and other services

The independent dealers want profit margins equal to 30 percent of the wholesale price of gasoline. This would raise margins immediately to between 16 cents and 18.6 cents per

· Jerry Ferrara, executive director of the New Jersey Gasoline Retailers Association, said refiners are increasing gasoline prices five cents a month. "Under the new rule, we'll have to absorb that cost," he said.

The Energy Department also ruled that stations owned by wholesalers and refiners must claim their current profit margin, or 15.4 cents per gallon, whichever is less.

Discoveries, wildcats reported in PB areas

Castile Minerals Corp. of Midlanc staked a rank wildcat in Culberson County, drillsites have been announced for wildcats in Ector, Roosevelt, N.M.; Nolan and Crockett counties, and a discovery has been finaled in Ward County.

CULBERSON TEST

Castile Minerals will drill its No. 1-7 State as the 11,000-foot wildcat in Culberson County.

The drillsite is 660 feet from north a nd 1,980 feet from east lines of section 7, block 91, psl survey and 25 miles northwest of Kent.

It is two and three-quarter miles south of an 11,700-foot dry hole, Exxon No. 1 Elcor Chemicl Corp., which was plugged in 1977.

ECTOR WILDCAT

Amoco Production Co. No. 1-BG David Fasken is to be drilled as an 11,300-foot wildcat in Ector County, eight miles north of Odessa.

Location is 1,980 feet from north and 660 feet from west lines of section 35, block 41, T-1-N, G&MMB&A sur-

It is 1.5 miles northwest of dual shut-in Atoka and Wichita-Albany well in the Circle Bar, East field, and two miles east of the multipay Circle

WARD DISCOVERY

Gifford, Mitchell & Wisenbaker No. 1 Blue Jacket, discovery well of Shawnee (Atoka) field of Ward County, has been re-completed as a flowing oil discovery in the Delaware

The operator reported a Delaware potential of 219 barrels of 39.9-gravity oil and 334 barrels of water, through a 1/2-inch choke. The gas-oil ratio is

The pay was acidized with 1,500 gallons and fractured with 30,000 gal-Total depth is 16,355 feet and hole is

plugged back to 5,194 feet.

The completion was through perforations from 4,914 to 4,924 feet. The strike originally was completed

from the Atoka, through perforations from 14,450 to 15,520 feet, for a calculated absolute open flow potential of 4,102,000 cubic feet of gas per day. The wellsite is 1,901 feet from south

and 2,039 feet from west lines of section 62, block 34, H&TC survey and eight miles south of Pyote.

DARMER AREA

Rial Oil Co. No. 1-68-A Sealy & Smith (formerly No. 3-68 Sealy & Smith) has bee completed in the Darmer, Northeaat (Pennsylvanian) pool of Winkler County, 17 miles southeast of Kermit.

The third well in the field and a south offset, it finaled for a daily pumping potential of 106 barrels of 39-gravity oil and 20 barrels of water, through perforations from 9,026 to 9.059 feet

The pay was acidized with 7,500

Total depth is 9,110 feet and 4.5-inch pipe is set on bottom.

Location is 1,980 feet from south and east lines of section 68, block A, G&MMB&A survey and 17 miles

southeast of Kermit. ROOSEVELT PROJECTS

H. L. Brown Jr. of Midland announced drillsites for a pair of 8,900foot wildcats in Roosevelt County, 12 miles east of Milnesand.

The No. 1-J Federal is 1,650 feet from north and 1,650 feet from east

lines of section 10-8s-37e. The No. 1-G Federal is 990 feet from north and 990 feet from west lines of

section 3-8s-37e.

ADAMS PROJECT Adams Exploraton of Midland No. 1 Dyan-Federal is to be drilled in an undesignated area of Chaves County, N.M., 18 miles southeast of Kenna.

The project, contracted to 4,300 feet, is 990 feet from north and 330 feet from east lines of section 5-8s-32e.

CHAVEROO AREA El Ran Corp. of Lubbock staked No. 1 Federal as a 4,325-foot test in the Chaveroo (San Andres) area of

CROCKETT STRIKE

Wilson Energy, Inc., of Midland (formerly H&W Enterprises of Midland) No. 1-A Shannon has been completed as a Queen gas discovery in Crockett County, seven miles east of

It finaled for a calculated absolute open flow potential of 1,500,000 cubic feet of gas per day, through perfora-tions from 2,220 to 2,254 feet. Operator washed with 500 gallons of mud acid and fracrured with 17,500 gallons.

A re-entry operation, it is 3,973 feet from north and 3,506 feet from east lines of the Heirs of J. Wiley survey

No. 2, abstrct 3004. The strike is a former producer in the Noelke, Northeast (Queen gas)

The project orignally was drilled by Gulf Oil Corp. as No. 1-L Shannon and

abandoned at 7,625 feet in 1958. Aikman Oil & Gas Corp. and W. D. Anderson & Sons re-entered the test as No. 1 Gulf-Shannon and completed it from the Queen, through perforations from 2,222 to 2,354 feet.

UPTON RE-ENTRY

the discovery.

Union Texas Petroleum Corp. of Midland announced plans ro re-enter a former Bend oil producer in the Amacker-Tippett, South multipay area of Upton County and attempt to complete it as the second well in the Mary Shirk (Wolfcamp) oil pool.

The project is 10 miles northwest of Rankin and 1,705 feet from south and 1,930 feet from west lines of section 1, block 2, MK&T survey.

The field was discovery by Untion Texas No. 1 Mary K. Shirk. The new test is 5/8 mile southeast of

predicts WASHINGTON (AP) - The

Schlesinger

nation faces a "very uncomfortable adjustment" to a new age of energy scarcity, Energy Secretary James R. Schlesinger said in his parting words to Con-

Schlesinger told the House Budget Committee Wednesday that, for the next decade, the United States will suffer chronic fuel shortages, recessions and possibly political turmoil.

"There will be more than a decade when we'll be on the ragged edge of the supply of oil." Schlesinger said in his last scheduled congressionale testimony as energy secretary.

Incoming Energy Secretary Charles Duncan, confirmed by the Senate this week, is expected to formally succeed Schlesinger later this month while Congress is on a month-long recess that starts at the close of business Thursday.

"The responsibility of all of us is to face up to these real world conditions," Schlesinger said. "Time is running out on the United States in terms of energy supply. ... The notion that there is a plentiful supply of oil is a mirage. The American people alone in the world believe

The departing energy secretary also told the committee that an administration-backed "windfall profits" tax would generate more than enough money for President Carter's proposed \$142 billion, 10-year energy program.

The president has proposed creating an energy security fund to develop synthetic fuels, expand mass transit and help low-income Americans pay their higher fuel bills.

Schlesinger said the windfall tax on oil companies would generate surpluses for the proposed fund at least through 1985, with the annual surpluses peaking at \$14.3 billion in 1982.

"The windfall tax will more than amply fund these pro-grams," Schlesinger said, adding that depending on how much oil prices increase, the tax could rise from \$146 billion to \$270 billion over the next 10

Talks on gas deal collapse

LOS ANGELES (AP) - Negotiations by U.S. officials to buy natural gas from Mexico reportedly have collapsed, bringing into doubt whether President Carter and Mexican President Jose Lopez Portillo will meet in September, the Los Angeles Times said today

The Times said the talks fell apart last Friday, only a few days after members of the American team had announced a price agreement was

"This deal has become so politicized, it's difficult to imagine how it can ever be solved," the Times quoted

one unidentified source as saving. The newspaper said the Mexican delegation went to Washington last week with new demands calling for a price range between \$3.60 and \$4.18 per thousand cubic feet of gas, "and they made it clear that anything below \$4 had little chance of being accepted," the Times quoted a source close to the negotiations as saying.

The new position appears to set back a near agreement drawn up in three sessions on a price range between \$3.40 and \$3.60. U.S. producers currently charge about \$2 per thousand cubic feet for gas.

The Times reported its sources as saying a previously scheduled meeting for next month between Carter and Portill may be abortd.

"Perhaps President Lopez Portillo wants to come to the summit and make the final deal himself at about \$360," the Times quoted one source. "If not, and the Mexicans are really serious about a \$4 price, President Carter will have to decide if he is willing for American consumers to pay

Members of the U.S. negotiating team, including representatives from the State Department, the White House and the Department of Energy, were reluctant to comment on the report, the Times said.

Leslie Goldman, a deputy assistant secretary of energy and a member of the negotiating team, confirmed that the fourth meeting of U.S. and Mexican officials had ended Friday, and no new discussions were planned.

RRC okays mine permits

AUSTIN Texas (A) - The Texas Railroad Commission appoved two uraimum mining permits Monday for sites in South Texas.

Nuclear Development Corp. of Corpus Christi was authorized to mine uranium with a 33-acre area in Duval County, 12 miles northwest of Freer.

Conoco Inc. received a permit for a 1.760-acre area in Karnes County. nine miles west of Falls City. Only 91 acres of the permit area will be mined

Each permit covers a 10-year peri-

a hard a second second second second second

Conoco expects to produce 86,000 tons of uranium ore annually, while Nuclear Development estimates 15,-000 tons per year will be unearthed at its site

Another petroleum price increase expected soon

By MARK POTTS

AP Business Writer NEW YORK (AP) - Crude oil prices, already up 42 percent this year, may rise again soon because foreign producers are unhappy with the dollar's slide and the price they set at the June meeting of the Organization of Petroleum Exporting Coun-

Although many analysts say it's too early to tell whether OPEC will decide to call a special meeting in September, as the cartel is reported to be considering, they say such a meeting would probably lead to a price rise.

The increase probably would not be as large as previous jumps this year but could be expected to add a penny or two to the price of a gallon of gasoline or heating oil, analysts say. The base price of oil was increased from \$14.55 a barrel to \$18 a barrel in

Democrat leaders say. ration bill chances slim

chances are slim.

It was more likely that Congress would begin its month-long recess at the close of business today without producing the rationing bill Carter

The Senate was expected today to formally reject the rationing bill the House passed late Wednesday and thus set off the search for a compro-

159 vote, but ladened it with so many ately pronounced it unacceptable.

Dingell, D-Mich., the main House sponsor of the rationing bill.

House leaders had hoped to give the president at least this piece of his new energy plan before beginning their

in the House did not concern rationing. One would weaken the new federal order requiring thermostats in non-residential buildings to be set at an energy-saving 78 degrees. Others would set aside special reserves of tractor fuel for farmers and heating oil for homes in cold-weather re-

businesses from the 78-degree ther-

White House officials also indicated the president has serious reservations about the bill as it emerged from the

House. White House press office issued a statement that called the bill "a modest beginning" but said, "We are

Strike teams to fight spill

CORPUS CHRISTI, Texas (AP) Coast Guard officials, surprised by thick balls of oil that washed up on a Mexican beach, have called for immediate mobilization of massive equipment to combat the world's largest oil spill.

Coast Guard Capt. Roger Madson, who is directing the spill containment operation, has ordered "strike teams" and equipment to battle the spill from North Carolina and Califor-

Coast Guard spokesman Richard Griggs said Wednesday that six 15,-000-pound "floating fences" were being shipped here. The mobilization was called for after the unexpected discovery of "tar balls" on a Mexican beach about 60 miles south of Brownsville.

"It was a surprise that it washed up that far north. It was sooner than we anticipated," Griggs said.

thinking about meeting in Septem-

"Contacts between several members of OPEC have taken place recently about the necessity of holding an emergency meeting of the organization owing to the new decrease in the value of the dollar and its reflection on oil prices," the newspaper said.

OPEC is worried about the dollar because it does its business in dollars, and as it falls, the real value of the cartel's oil declines. The dollar's slide in recent years has been cited by OPEC members as a reason for raising the base price of oil this year by a total of 42 percent.

OPEC warned at its June meeting that it would hold an emergency meeting to discuss prices and its reliance on the dollar if the currency fell another 5 percent or more. "If the dollar devalues, then (the price of oil) is going to increase," Ali Khalifa Al-Sabah, Kuwait's oil minister, said

at that meeting.
The dollar has fallen as much as 3.5 percent against other currencies since then, according to Bank of England trade-weighted statistics. Although it has recovered much of that ground in recent days, some analysts fear it soon will resume its fall.

Unsettled conditions in world oil markets could also force a meeting even if the dollar stabilizes. Although Saudi Arabia, OPEC's largest member, is increasing its daily oil production from 8.5 million barrels to 9.5 million, the increase has been virtually offset by production cuts made or

planned by several OPEC members. That will keep oil supplies tight and prevent a possible "glut" that could erode prices, analysts say. And experts say that tight supplies will support higher prices in the spot market, where the small amount of oil not sold under contract is traded. OPEC's pricing actions have been heavily influenced recently by actions on the spot market.

While spot prices have retreated to about \$33 a barrel since OPEC's last meeting from a pre-meeting high of \$40 a barrel, analysts say supply cuts could push the price up again. "If the spot market goes very high

again, consistently high, it will put pressure on OPEC," said Walter J. Levy, an international oil analyst. "If nations are cutting supply, putting pressure on spot markets and leading to higher OPEC prices, .. it could be a very dangerous game.' Since even the current depressed

spot prices are well above the OPEC

ceiling price of \$23.50, several of the

cartel's nations have evaded the ceil-

ing by diverting oil to the spot mar-

ket, because the ceiling does not

apply there.
