Carter Amtraks to latest

BALTIMORE (AP) - President Carter rode a train to Baltimore today, inspected a solar-heated home and an abandoned school being converted to apartments and told a street-corner crowd: "We are making good progress, giving our people a better life and making you independent of foreign oil."

Carter rode a regularly scheduled Amtrak train as he took his once-aweek road show 37 miles outside Washington to continue his campaign for an energy program.

Standing under a hot sun at an inner-city intersection, the president declared to several hundred persons crowded onto the sidewalk: "Our country is determined to win the energy war and I believe the people here on East Biddle Street will help me."

when he asked, "Do you agree?"

The crowd responded with cheers The president added that with coop-

Midland police investigate shooting; One man wounded

intruder

Midland Police Department officials are investigating a shooting today after a man reported to the emergency room at Midland Memorial Hospital about 7 a.m. with wounds in his hand and stomach.

No arrests have been made at this time in connection with the incident. According to police officers, the man, who was listed in satisfactory condition at Midland Memorial Hospital, reported that he had been shot earlier today following an argument

with several strangers. Police officers also are investigating a reported break-in at a residence in the 700 block of S. Lincoln St. in which a Midland woman shot at an

Details were still sketchy, but police said that a woman at 705 S. Lincoln St. was awakened by a noise in her home about 6 a.m. today. Police said the woman told them that she noticed a strange man at the foot of her bed. The woman shot at the man with a pistol, police said.

Police said the woman told them that the man subsequently exited through the back door of the house.

eration among government officials and others, "we'll have energy security for our nation and a better life for

> all Americans. Carter's brief remarks were sandwiched between handshaking trips along the rope restraining the

> From the inner-city neighborhood, the president drove to a downtown hotel to continue his energy theme in an address to the national convention of the Sons of Italy in America.

Carter was accompanied on the 35minute train ride by a number of prominent officials of Italian descent, among them Attorney General Benjamin Civiletti, U.S. District Judge John Sirica, Assistant Housing and Urban Development Secretary Gino Baroni and Rep. Mario Biaggi, D-

Carter scrapped plans to make the trip from Washington to Baltimore by helicopter and instead took the train. The change in transportation apparently was an effort to demonstrate presidential concern for energy conservation.

The president and his wife Rosalynn rode aboard the last car, which had been reserved for the presidential

By Franchelle Moore

P.O. Box 1650, Midland 79702

I recently received a notice for renewal of my Texas driver's license. I want to know the purpose of the medical history questions on the reverse side of the My husband received his renewal notice in February.

and there were no questions on his. I have answered "No" to all the questions, but I wonder what would happen if I had to put "Yes" on some of them?-Mrs. W.R. ANSWER: The Driver's License Division of the Texas

Department of Public Safety says that all renewal notices are required to have the medical history questions. If a driver is just obtaining a duplicate of a license, the questions are not required.

If you had to answer "Yes" to some of the questions pertaining to medical handicaps, the question of renewal would be referred to the Medical Advisory Board, which is composed of doctors appointed by the State Board of Health, who provide their services without personal compensation.

Questionnaires are provided by the medical board for the applicant to have filled in by his or her personal physician. When the medical board receives the medical history, a decision is made by three physicians on the board to determine if the applicant is still capable of operating a motor vehicle.

I would like to know the name of the first Hereford bull brought to the United States from England. I saw a movie, "The Rare Breed," which told of this bull.—S.S.

ANSWER: The Reference Department of the Midland County Public Library may have come up with the "right bull" for you.

Checking the National Geographic publication on "Cattle of the World," the name of the first Hereford bull imported from Hereford county in England was "Mars." Misters Goff and Miller made the initial importation of the cattle to Virginia in 1786. The herd included one bull, "Mars," a creature with "deep red hide and white face." "Mars" lived to be 19 years of age.

While on the subject of Herefords, another source, "World Book," states the breed was brought to the United States when Henry Clay imported Herefords in 1817 for his Kentucky farms. The breed was not brought in on large scale until 1850, and the breed became popular in 1880.

And if you are still interested in Herefords, James Michener's novel, "Centennial," has an abundance of factual information on the breed.

Also of note, Odessa rancher, Paul Slator, was among the first in this area to raise the polled Hereford, importing the breed from England.

I have taken advantage of grocery store specials on canned vegetables and fruits - several cans for a \$1 and the like. My problem is that in a relatively short period of time, the tops of these cans have started to swell. I wonder if these foods are safe for human consumption? I have heard that the foods from such cans can be cooked a certain period of time and be safe to eat. What do you suggest?-Mrs. S.W.

ANSWER: Answer Line suggests that you return the cans in question to the grocery store where they were purchased for replacement. We are sure that any store in Midland would be most accommodating. After all, why risk the possibility of botulism?

Oil reported ashore on beaches of Texas

PORT ISABEL (AP) - The world's largest oil spill reached U.S. beaches early today as crude oil from a runaway Mexican well washed ashore along a sparsely populated section of Texas' southern coast, the U.S. Coast

A Coast Guard spokesman, who asked not to be identified, said the oil was observed on the beach of South Padre Island in an area from 10 miles north of Port Isabel to 20 miles north of the canal between the Gulf of Mexico and the town of Port Mansfield.

This approximately 40-mile stretch of beach is north of the heavily populated area of the resort island and south of Corpus Christi.

Another major concentration of oil from the runaway well in the Gulf of Mexico was sighted early today in the Gulf of Mexico, 50 miles due south of Aransas Pass, near Corpus Christi, Texas. The Coast Guard said this oil was 10 miles long and two miles wide.

Further details concerning the discovery of oil on the beach were not immediately available, the spokesman

The gooey crude has been spilling into the gulf since the well blew out June 3. Discovery of the oil on Texas beaches and the concentration of oil south of Aransas Pass came less than 24 hours after the Coast Guard reported the oil had drifted into U.S. waters and thick strips of oil washed ashore just south of the Mexican border.

Carl Posey of the National Oceanic and Atmospheric Administration had predicted Monday that the oil would reach South Texas beaches today.

Meanwhile, Posey said tests were being made to determine if tar balls sighted some 50 miles from the coast are from the Mexican oil spill.

If the tar balls are from the spill, Posey said, it could mean they drifted north undetected below the Gulf surface. The Coast Guard has barricaded the Brazos Santiago Pass at the southern tip of Texas but the floating barriers will not stop oil traveling below the surface.

NOAA scientist John Robinson said divers have found

evidence of oil as deep as 40 feet below the surface.

Divers will begin working this week beneath the surface of the Brazos Santiago Pass, which leads to ecologicallydelicate waters, in an effort to keep oil from the inland

Officials say oil that washes onto the fine-grained South Texas beaches will be relatively easy to clean. Bird cleaning crews are standing by to launch a cleanup operation if birds in the area are doused by the runaway

Robison said there have been no previous spills where large quantities of oil moved beneath the surface, but the scientist added that no one has ever tried to battle a spill

Estes, Horton sentenced

Billie Sol gets 10 years; Midlander 3

DALLAS (AP) - Billie Sol Estes, the former financial wizard whose big-time wheelings and dealings landed him in prison in the 1960s, stood outside a federal courtroom trying to comfort his distraught wife and four teary-eyed daughters.

Estes, 54, appeared calm, even though U.S. District Judge Robert Hill moments before had sentenced the West Texas con man to 10 years in federal prison for concealing assets from the Internal Revenue Service and for scheming to defraud inves-

Hill assessed the maximum penalty tions returned July 11.

"I don't feel like asking you for mercy. I know in my heart you'll dothe right thing," Estes told the judge before he was sentenced.

"I'm sorry I've put this country through such great shame. But I want you to know that if you send me to prison, you won't be ashamed of me as a prisoner ... I'd rather be in prison in this country than free anywhere else," he added.

Co-defendant Raymond K. Horton, a Midland entrepeneur, was assessed a three-year prison term and fined \$10,000 for concealing assets from the government.

"I've made some bad judgements. I have no one to blame but myself," the 51-year-old Midland oil man said.

Estes attorney, G. Brockett Irwin, said he "definitely" plans to appeal the sentence. However, Horton's attorneys said they have not made a decision yet.

Hill advised Horton that if he did not file a written notice of appeal within 10 days, he would be required to report to the U.S. Marshal on Aug. 20 for confinement.

Personal recognizance bonds for both men also were continued, pend-

through such great shame. But I want you to know that if you send me to prison, you won't be ashamed of me as a prisoner....I'd rather be in prison in this country than free anywhere else." - Billie Sol Estes

Among the eight witnesses asking Hill for leniency in his decision was J.H. Burkett, a Panhandle farmer whom Estes allegedly swindled out of \$50,000 through documents bearing the forged signature of Tyler millionaire Billy D. Pyron.

Burkett, now a used car salesman in Abilene, told the judge he was not retracting the testimony he gave during the four-week trial. However, he said, he had reached a "satisfactory" agreement with Estes to repay the

"I hope you will give Mr. Estes that opportunity," he pleaded.

Attorneys for both sides are scheduled to meet with Hill next week to decide on a motion filed by Estes requesting a new trial. Accompanying the motion was an affidavit from juror Ray Loggins, who claimed he was coerced into voting for conviction during deliberations. Also to be decided is whether the state will retry Estes and Horton on charges they bilked legitimate leas-

ing companies out more than \$600,000 through the sale of non-existent oil field steam cleaners. The jury deadlocked on a verdict, and a mistrial was declared.

Estes, who at one time claimed his political clout stretched from the Texas plains to the steps of the nation's capitol, built a multi-million dollar fortune in the late 1950s by selling non-existent fertilizer tanks to the government and hundreds of West Texas farmers.

However, that empire crumbled when the "Boy Wonder of Abilene" was convicted and sentenced in 1965 to 15 years in prison.

He was paroled in 1971, serving 61/2 years of the term, after agreeing not to engage in any private or promotional business activities.

The U.S. Parole Commission had scheduled a hearing last month on the remaining nine years of the sentence, but delayed action until Hill had rendered his decision in the latest case.

Odessan charged, juvenile held in stabbing of Midland policeman

An Odessa man has been charged with deadly assault on a police officer and an Odessa juvenile detained following the Sunday night stabbing of a Midland police officer at a local Midland Police Department offi-

cials said today they anticipate additional arrests in the wake of the inci-Officer Terry Lowe, 30, was report-

ed in fair condition today at Midland Memorial Hospital. Lowe was admitted to the hospital

Sunday with stab wounds in his back after he and another Midland police officer attempted to break up a fight about 11 p.m. in the parking lot of El Rancho Grande Hall, 409 E. Scharbauer Drive.

Hugo Garcia Bernal, 17, of Odessa remained in Midland County Jail today after he was charged Monday with deadly assault on a police offi-

Peace Justice Bob Pine set bond at

Midland police Monday also placed a 16-year-old Odessa juvenile in custody after the youth was found in Odessa. The youth currently is being detained in Culver Youth Home following a detention hearing Monday afternoon in Judge Willie DuBose's County Court at Law.

Police said they will return to Odessa today for further investigation into the incident.

According to police officials, the Sunday incident involved an Odessa automobile gang known as El Bar-

Several Midland youths Sunday had driven to Odessa and met with the El Barrio group there, Midland police said. Later Sunday, members of both parties returned to Hogan Park in Midland. From there, the group went to El Rancho Grande where a disturbance occurred between the parties, according to Midland police.

Officer Lowe and Officer Al Chitwood were summoned to the scene and found the youths in two separate groups outside the nightclub, according to officials. When Lowe attempted to make an arrest, he reportedly was jumped by the others. During the scuffle, Lowe was knocked down and stabbed, officials said.

Texas area forecasts

South Texas: Partly cloudy and warm through Wednesday with widely scattered mostly daytime show-ers and thundershowers mainly near the Coast. Highs 90 to 102. Lows 70 to 80.

Port Arthur to Port O'Connor: Mostly east winds about 10 knots through Wednesday. Seas 1 to 3 feet. Winds and seas locally higher in widely scattered showers and thundershowers.

Border states forecasts

Oklahoma: Sunny with hot afternoons through Wednesday. Fair tonight. Highs mid 90s east to near 102 Panhandle. Lows in the 70s.

New Mexico: Partly cloudy with widely scattered afternoon and early nighttime thundershowers central and west. Mostly fair east through Wednesday Not much change in temperatures. Highs 70s and 80s mountains to the 90s lower elevations. Lows 40s and 50s mountains to the 60s elsewhere.

Selection of Davis jurors

drags on in Fort Worth court FORT WORTH, Texas (AP) - Jury selection in the murder retrial of millionaire Cullen Davis continues at a snail's pace as defense attorney Richard "Racehorse" Havnes resumes his individual questioning of panelists

After a two-hour opening speech to the 51 potential jurors, Haynes spent the better part of Monday interrogating 11 panelists. None of the 11 was excused, but a woman questioned by prosecutor Jack Strickland last week was dismissed. The woman said that after reflection, she felt she already had an opinion in the case.

Davis is being tried a second time on charges he conspired to solicit the murder of State District Joe Eidson, who was presiding over Davis' turbulent and bitter divorce trial. Eidson,

More of same weather forecast

If consistency is the key to contentment, the weather should be a source of great calm.

Wednesday should be a carbon copy of the past few days: mostly fair with the high expected to be in the mid-90s and the overnight low in the upper

Winds, according to the National Weather Service office at Midland Regional Airport, should decrease to 5-10 mph from the southeast by tonight.

That sounds surprisingly like Monday, when the recorded high was 94 degrees and the overnight low 69.

To cut complaints about the weather, record high for Monday's date is 107 degrees set in 1964. Record overnight low for the date is 61 degrees set

No rain is mentioned in the forecast again, so the monthly total of .1 inch and annual accumulation of 10.13 is

likely to remain unchanged. Area towns were all reporting clear skies early today and the makings of another hot day.

who was not harmed, withdrew from the case and another judge granted the divorce earlier this year.

In his opening remarks, Haynes told jurors what would be expected of them, calling the trial "Phase Three" of "the millionaire's marriage, misery and misfortune.

"You are about to embark on one of the most unique experiences a human being can have," the dapper attorney said, emphasizing the great amount of time jurors will be thrown togeth-

"It is somewhat akin to being adrift in a lifeboat for two months, or whatever period of time it takes," he

Most of the 11 jurors queried said they were familiar with Davis, his ex-wife, Priscilla, and his present wife, Karen Master Davis. But they said they knew little of the details of the case, despite wide news coverage of Davis' first trial on the same

A Houston jury, hearing the case on a change of venue, was unable to reach a verdict in the first trial and mistrial was declared. The jurors deadlocked 8-4 for conviction.

Although prosecutors moved to change the location of the re-trial from Davis' hometown in May, State District Judge Gordon Gray said he would attempt to seat a jury in Fort Worth before considering relocation

Haynes repeatedly asked jurors if they would "hold (Davis) to a higher standard of accountability because of his wealth.'

to another Texas city.

"I believe the evidence will show you...that Mr. Davis is a wealthy man," Haynes said, his voice rising as he addressed the panel. "It might be said 'so rich it's vulgar or obscene

or rude. But none of the panelists questioned felt Davis' bank account would play a part in their deliberations. Several panelists, however, said the anticipated length of the trial might work a hardship on their jobs.

Animals part of earthquake study

SAN FRANCISCO (AP) - Five minutes before one of the strongest earthquakes to hit Northern California this century began jostling the region, an elephant at a wild animal park in Redwood City almost tore her barn door from its hinges.

Scientists studying Monday's outburst by the normally docile beast and similar behavior among other animals - say it could provide more evidence for a growing belief among Western seismologists that animals may some day help humans predict the fearsome quakes.

The earthquake, which registered 5.9 on the Richter scale as it raced along the Calaveras Fault, did relatively little damage and injured only a handful of people. But it set off strange reactions in many animals.

"It's very interesting, very encouraging news," said Dr. Jack Evernden, a U.S. Geological Survey research geophysicist studying the impact of earthquakes on animals. "With documentation like that, it makes it so much easier to believe. It gives more credibility to the whole

The reactions of the animals at the 65-acre Marine World Africa U.S.A. in Redwood City south of here will be added to a daily record of their behavior being kept to determine, after the fact, whether animals do sense

The quake began in late morning. Two waves lasting more than 15 seconds each jolted the state over a 350-mile wedge from a point north of here to Encino just north of Los Angeles, according to the California Institute of Technology

Two aftershocks, registering 3.0 and 4.0 on the Richter scale, came shortly before and shortly after 3:30

Towns near the epicenter, like Hollister 100 miles south of here, reported damage to buildings, glass and store merchandise. One Santa Cruz County

woman fell and broke her leg, and three people in Hollister were hospitalized for symptoms of heart at-

tacks In addition, Pacific Gas & Electric reported a few minor power outages, and Pacific Telephone said service was delayed for a time, mostly due to overloaded circuits

At Marine World, spokeswoman Mary Jo O'Harran said there were reports Sunday night of unusual behavior by llamas, a baby cougar and a 5-week-old tiger.

Evernden said there has been a lot of skepticism about a link between quakes and animal behavior, especially because there has been little documentation of animal behavior before an earthquake.

"There's been a lot of anecdotal things, people saying what their animals did after an earthquake but nothing has been recorded on a daily basis." said Evernden. "This is essentially the beginning of this kind of

research. It's nice to get some good

examples. He said similar research is now

underway at UCLA and Stanford, trying to validate claims advanced by Chinese scientists, who use animals in their often-successful quake prediction program.

Evernden said one popular theory is that animals react to an electrical field. He said the behavior reported before earthquakes is usually the same: restlessness and fright.

The quake was the fifth strongest felt in the area since the turn of the century. The great quake of 1906, which killed 700 and reduced San Francisco to smoking rubble, occured before the Richter scale was developed. It has been estimated at 7.9 on the scale.

The Richter scale is a measure of ground movement as recorded on seismographs. Each increase of one means a tenfold increase in magnitude. A quake measuring 6 on the scale can cause severe damage.

Winds still frustrate fire effort

By The Associated Press

High winds, sometimes whipping to 35 mph, and hot temperatures are frustrating thousands of firefighters trying to contain stubborn blazes that already have consumed more than 100,000 acres of Northwest forests and rangeland.

National Guardsmen have been called into battles against fires in Montana and in Idaho, where officials say they are not sure how much land has been charred.

"With all the heat, smoke and winds up there, they can't even fly over it to measure the acreage," said fire information officer Kay Savage.

The largest fire in Idaho, at Gallagher Peak, about 40 miles northwest of Idaho Falls, has burned 50,000 acres of rangeland and timber.

Two fires, which have burned between 51,000 and 60,000 acres, were thought contained late last week, but gusty winds pushed the flames past fire lines, sending the blazes out of control again.

On Monday, smoke jumpers leaped into the Idaho Primitive Area, where a fire has been blackening acre after acre of land since July 26. On Mon-day, back fires — small blazes purposely set to burn toward a larger blaze and keep it from spreading were started 600 yards from the Middle Fork Lodge on the Salmon River. once owned by the late gambling millionaire Bill Harrah of Reno.

The U.S. Forest Service issued an evacuation order for the residents of the lodge, but most elected to stay, a Forest Service official said

Idaho Gov. John Evans said 10,000 gallons of jet helicopter fuel has been made available for use by the National Guard through an emergency allocation by the State Office on En-

Guardsmen from seven Southern states have joined the fight against a fire near the copper-mining town of Anaconda, Mont. Two mule and horse trains were sent into remote areas with supplies needed to battle a fire in the Lincoln-Scapegoat Wildnerness Area about 15 miles northeast of Ovando, Mont.

In the Wind River Range of Wyoming, 450 Indians from reservations in Wyoming, Montana, New Mexico and Arizona were fighting another blaze. Temperatures near the fire rose to 106 degrees on Monday.

Meanwhile, in the Umatilla National Forest of Oregon, a fire continued burning out of control early today. That fire began Monday and has burned about 100 acres of pine trees.

On Monday, firefighters managed to control three small fires in northeastern Oregon. Those fires had covered just more than 100 acres.

Three fires were burning in Wyoming's Yellowstone National Park on Monday, but posed no threat to popular tourist areas. A few backcountry hiking trails had been closed, however, said Kelly Marting of the National Park Service.

She added that the blazes, covering nerly 10,000 acres, were being allowed to burn themselves out, in accordance with the park's fire management

Kennedy is 'pick'

NEW YORK (AP) - Sen. Edward Kennedy is the overwhelming presidential pick of independents and Democrats in a three-way race with Jimmy Carter and Gov. Edmund G. Brown Jr., according to an ABC-Harris poll.

A Kennedy-Carter race showed both groups favoring the Massachusetts senator 63 to 32 percent, according to results released Monday.

The survey of 967 voters, taken July 27 to 29, said the president edges Brown 51 to 42 percent among both groups in a two-way race, and 55 to 36 percent among Democrats only.

In a three-way showdown, 52 percent of Democrats and independents chose Kennedy. Carter garnered 25 percent and Brown, 18 percent. Among Democrats only, Kennedy

13. Democrats picked Kennedy over Brown, 69 to 25 percent. Independents alone chose the California governor over Carter, 49 to 46.

got 59 percent, Carter, 23, and Brown,

airplane to slide down the runway and onto the grassy area. Prop blades were broken off, several holes were found in the fuselage and oil was sprayed on one side. The pilot and two passengers were not injured. (Staff Photo by Mike Kardos)

Attorney general's office joins investigation of NTSU funding

AUSTIN, Texas (AP) - The attorney general's office has joined five other state and local agencies investigating possible criminal misuse of state funds at North Texas State Uni-

Lonny Zwiener, head of the attorney general's education division, said Monday he would work with the state auditor in reviewing records of a private foundation that supports the Denton university.

The House General Investigating Committee, the Department of Public Safety and the district attorneys of Denton and Austin also are looking into university finances. State auditors have said they found

at least \$182,430 deposited with the foundation although the 43 donors involved intended the money to go to the university. Zwiener told the House committee

it appeared former or present college

officials should pay the state for "small" amounts of overpaid travel expenses. That money could be recovered through civil suit, he added. "One thing that would help would be an audit of the foundation's own

funds," Zwiener said. "There has been some investigation by the auditor but not the real audit that might explain some of the items. The Denton County district attor-

ney's office is keeping foundation records locked in the Denton court-

Rep. Bill Hollowell, D-Grand Saline, asked if the state had authority to audit a private, non-profit corpora-

"I think it's questionable, but I think we can get it. Most foundation records can be obtained under the Open Records Act," the assistant attorney general said.

Since the legislative committee began looking into North Texas State's business affairs, university President C.C. "Jitter" Nolen and foundation executive director Jim Reid have resigned. Several college administered have been fired by the North Texas regents.

Denton County District Jerry Cobb has stepped out of the probe, claiming possible conflict of interest because some of his relatives work at North

Travis County District Attorney Ronnie Earle told the House committee more work needs to be done before he can decide to charge anyone with theft of state funds

Cobb invited the Texas Prosecutors Coordinating Council to take over his end of the investigation.

Andy Shuval, council executive director, said his group would decide Aug. 17 whether to assume responsibility for the probe. If the council declined, the attorney general could step in.

Committee Chairman Richard Slack, D-Pecos, said after the meeting that changes in laws governing foundations likely will be recommended as a result of the North Texas investigation. Most state universities have supporting private foundation similar to the Denton school. "You want to insure honesty but

you don't want to discourage contributions," he said. A contribution reporting system or broader authority of the state auditor

to review private foundations might solve the problem, he said.

Slack said the legislative committee would leave the matter largely with state and local officials. He refused to release a DPS report on the investigation because the district attorneys were still using it.

Oklahoma judge to slate trial in 'steakhouse murders' case

OKLAHOMA CITY (AP) - Oklahoma County District Judge Homer Smith was to set a trial date today for Roger Dale Stafford at Stafford's arraignment on charges of murdering six steakhouse workers here last

Prosecutors were seeking a Sept. 24 trial date, said First Assistant Oklahoma County District Attorney James McKinney. Defense attorney J. Malone Brewer said he would seek a mid-October trial.

"From the time I've come into this case, they've pushed and pushed and pushed me to go," Brewer said. "I need adequate time to prepare. I don't know why they're in such a

Stafford is accused of murdering four teen-agers and two men at a Sirloin Stockade steakhouse on July 16, 1978. The mass murder was the worst in Oklahoma history. Brewer said he will subpoena sever-

al news reporters to testify at a hearing on his request to move the Stafford trial from Oklahoma County. He hopes the reporters will document heavy publicity the steakhouse murder case has received here. Brewer said he will file a motion

next week to move the trial. "I just don't see how we could be

denied a change of venue," Brewer said, arguing that the steakhouse murders have received so much publicity in the Oklahoma City area that a fair trial for the 27-year-old Stafford here would be impossible.

"We don't think it (the trial) should be moved any place," McKinney said, promising to oppose Brewer's re-

Prosecutors are in no hurry to file a list of their estimated 30 witnesses at

Fire scene 'disaster'

AUSTIN, Texas (AP) - Gov. Bill Clements announced Monday the federal Small Business Administration has declared the Woodway Apartments in Houston a disaster area as a result of the fire that destroyed many

of the apartments. Clements said victims of the July 31 fire may apply for low-interest SBA loans to help replace belongings.

A loan application center will be operated at the apartment complex Tuesday, the governor said in a statement.

the Stafford trial, McKinney said. "What I want to avoid is the news media hounding these witnesses to death, trying to interview them," McKinney said. "We just don't like

the news media knowing more about

our case than we do ourselves.' Prosecutors are not required to hand over their witness list to defense attorneys until five days before the trial, McKinney said.

Brewer said he will also file a motion in district court next week seeking to bar trial testimony by the star prosecution witness - Stafford's estranged wife, Verna.

Brewer said he will argue it is illegal for a wife to testify against her husband. Prosecutors dispute that

Epitaphs: lines of joy and grief

GARDEN CITY - Epitaphs are meant to be memorable — even if the beings, now stilled, they were dedicated to have faded in memory with the passage of time.

Born to die

The epitaph on the tombstone of Florenne Calverley, who died a babe in 1918, proclaims those three words: "Born to die." And there's more: "In heaven there is one angel more."

Sentiment is a precious quality, though it often is accompanied by both joy and grief.

The grave markers, dating from before 1900 and into the 1900s, in the Garden City Cemetery tell of those

Eugene C. Looney died at age 16 in 1928. His was a tragic death, or so "they" say. A photograph of him in repose in an open coffin is affixed to the obelisk-like marker, but the picture has been marred by vandalism.

Again we hope to meet thee When the day of life is fled And in Heaven with joy to greet Where no farewell tears are shed

A granite marker to "Mother,"

Maxine Carter, reads:

No pain, grief, or fear Can reach this peaceful sleeper here

Ellen Darie Davis died on Nov. 17, 1921 - the day of her birth. "Blessed taph on the petite white marker. Jessie P. Ticer was into her 25th

are thee, early death," reads the epi-

year when she died in 1909.

LOVE - LIFE - TRUTH One darling one hath gone before

To greet us on the blessed shore

The epitaph to Robert E. Doughtery, who was buried at age 6 in 1901, simply says: "Gone but not forgot-

George Gooch was laid to rest in

Gone to a brighter home Where grief cannot come

1926 at age 51:

A cross-shaped stone marker tells where Pansy Pollard at age 13 was buried in 1903: Some of the engraved words have faded: "Beautiful, lovely she was...(from) earth to bloom in heaven."

Morris Cecil Jeffress was almost 3 when he was mourned in death in

Weep not father and Mother for me, for I am Waiting in glory for thee

Margaret Calverley was into her 74th year when death visited her in

She was too good, Too gentle and fair To dwell in this cold World of care

Martha O. Ticer died in 1909 at age

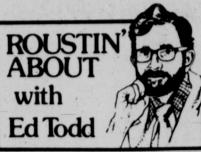

As a wife devoted as a mother affec-As a friend ever kind and true

Harry P. Calverley's epitath goes thusly: "Here I lay my burden down, change the cross into the crown."

Memorable words to Jno. T. Ramsel, who died at age 40 in 1927, are

We'll join thee in that Heavenly land, no more To take the parting hand

Perhaps another cause for joy and grief was in the worldly parting of

Ella Williams. She was almost 5 when

she was laid to rest in 1891: She was the sunshine of our home An angel to us given

Just when we learned to love her God called her back to heaven

The words "beautiful, lovely" on the cross-shaped grave marker tell of the of the love one had for another in life and death. (Staff Photo by Ed Todd)

Associates testify in Chagra trial

AUSTIN, Texas (AP) - Las Vegas gambler Jimmy Chagra would go broke if his luck shooting craps were as bad as his choice of associates in alleged drug operations, according to testimony in his narcotics smuggling trial.

by Ed Todd)

A Florida boat captain said Monday he ran out of gas and drifted for three days while guiding two small Colombian freighters laden with marijuana to their rendevous with vessels chartered by Chagra Another witness testified he not only cheated

Chagra but also betrayed a close friend to narcotics officers in order to save himself from a prison term. The friend is now in prison. Hamilton Jud Myers of South Florida said he helped Chagra locate and partially unload the Co-

lombian freighters before they were confiscated by the Coast Guard. Myers, 30, testified he ran out of gas while searching for the fishing boats that were to take the cargo

He said Chagra located him in an airplane and sent gasoline, enabling the unloading to begin-The confiscation of the "Miss Connie" and the other freighter was big news in Florida at the time,

Myers said Myers said he worked for Chagra for more than a week around Christmas 1977 locating the freighters

and helping unload them He said he watched Chagra board the freighters and inspect the marijuana.

"I saw him take a knife and cut open the bales and take samples of marijuana.... What he was trying to do was cut them down in price," Myers said.

He said he made a number of 49-mile runs in a speed boat with Chagra between Fort Lauderdale, Fla., and Bimini in the Bahamas in connection with trying to unload the freighters.

On Christmas night, he said, Chagra brought "a small vial of cocaine" with him in the boat and "he did some and I did some, just before we got stopped by the Coast Guard" for running without

Myers said Chagra paid him \$12,000 "for driving the boat and doing what I did." He said he accepted "an opportunity to cooperate

Black and white puppy sought after child bitten

A small black and white puppy that bit a 4-year-old child is being sought by the youth's parents and the city Animal Control Department.

Mrs. Steve (Becki) Sapp said her son, Scotti, was bitten Friday night on the back by the puppy.

The dog had been seen in the neighborhood around

the 4400 block of West Roosevelt Ave., previous to the Friday incident, she said. Neighbors have reported seeing the puppy since then. Mrs. Sapp said she has been told the puppy bit a dog in the neighborhood, but it had the rabies

If the puppy can not be located, the child will have to undergo the series of rabies shots, said Mrs. Sapp. She estimated the puppy is about 4-months-old. Anyone who has seen the dog or knows it's owner

may telephone Mrs. Sapp, 697-5969 or the Animal Control Department, 683-4281.

Chagra, 34, is accused in a four-count federal indictment of conspiring to import marijuana and cocaine from Colombia and of supervising a "continuing criminal enterprise" involving at least five underlings. He could receive 10 years to life in prison, a \$100,000 fine and confiscation of his alleged drug profits if convicted of the "continuing criminal enterprise" count.

Paul Taylor, 40, a Denver salesman, testified that he and Dudley Connell, 31, an El Paso travel agent, obtained a kilo (2.2 pounds) of cocaine from Chagra on consignment but never paid him the \$70,000 He said he and Connell were allowed to buy the

cocaine because Taylor went to Colombia and provided "moral support" and paid some expenses of Chagra's alleged accomplice in a cocaine smuggling venture, Henry Wallace. U.S. District Judge William Sessions of El Paso, presiding over the trial, signed an order granting

the tall, bearded, well-tanned man testified. Taylor told basically the same story as Connell: Wallace had invited them to invest in a plan to smuggle 13.2 pounds of cocaine, worth about \$32,000 a pound, from Colombia. They made no invest-

Taylor immunity from prosecution shortly before

ment, but Taylor went to Colombia on Oct. 21, 1977, to 'check on the operation." He paid a few bills for Wallace and viewed a large amount of cocaine at the home of a "Colombian connection.

Taylor claimed he never had tried cocaine before meeting Wallace in Colombia. "Did you know what cocaine looked like?" defense lawyer Oscar Goodman of Las Vegas, Nev., asked.

"I went to the library and looked things up," On Nov. 26, 1977, Taylor said, he and Connell went to Fort Lauderdale, Fla., where Chagra gave them a kilo of cocaine on credit, with a purchase price of \$70,000. Aware they would make very little if any profit at that price, Chagra promised to give them 5,000 pounds of marijuana he expected to receive

from Colombia by sea, Taylor said.

The cocaine sold poorly, both Connell and Taylor said, so they decided to double-cross Chagra and not pay him the \$70,000.

Hogs 1.700: Barrows and gilts mostly 50 higher; 1-2 210-240 lb 37.25-37.75; 200-210 lb 37.00-37.25; 1-3 250-255 lb 36.50-37.25. Sows weights under 500 lb firm to 50 higher, 500 lb and heaiver 1.25-1.50 higher; 1-3 330-500 lb 29.00-29.50; few low dressing down to 28.00; 500-850 lb 30.50-31.00.

Sheep 50: Spring slaughter lambs steady to weak. Slaughter ewes steady. Spring slaughter lambs, choice and few prime 95-110 lb with No. 1 and 2 pelts 58.00-59.00; shipment 123 lb with No. 1 pelts 57.00; wooled 90-105 lb 57.00-58.00. Slaughter ewes, package utility 122 lb 18.00.

Estimated receipts for Tuesday: Cattle 500; hogs 2.000; sheep 100.

Cotton

LUBBOCK, Texas (AP) — Monday's base price cotton quotation for strict low middling 1-116 for Lubbock is 58.95 cents per pound.

gains

NEW YORK (AP) - The stock market rallied late Monday and managed a small gain after the govern-ment reported consumers are being more cautious about taking on new debts.

The Dow Jones average of 30 industrials, down more than four points in early trading, closed with a gain of 2.39 to 848.55. Volume on the New York

Stock Exchange was a quiet 27.19 million shares,down from 28.16 million Friday. The Federal Reserve Board reported consumer credit expanded by a sea-sonally-adjusted \$2.88 billion in June, the smallest in-

crease since February 1978. "That is consistent with the notion the consumer is pulling in his horns," said Monte Gordon, an analyst with Dreyfus Corp. New auto credit was down 9.2 percent from May, reflecting de-

pressed auto sales. Overall, new credit extended in the month was down to \$26.64 billion from \$28.03 billion the previous month, but repayments also slacked off to \$23.76 billion from \$24.3 billion.

With Congress out of session, there was little news to affect the market. "It's the summer doldrums drifting phase," said Larry Wachtel, an analyst with Bache Halsey Stuart Shields.

Pan American World Airways got a boost when the Justice Department said it would oppose the bid of Eastern Airlines to take over National Airlines. Pan Am, which has tentative Civil Aeronautics Board approval for its own takeover of National, was up % to 7%. Eastern was unchanged at 8%.

Aircraft makers were strong. Lockheed was up 21/2 to 27, McDonnell Douglas rose 1¼ to 26% and Boeing, which reported higher earnings, was up 1% to 451/4. Itel, a computer-leasing

firm hurt by the declining value of its computers after International Business Machines announced a new line, was off 1/8 to 41 %. IBM rose % to 691/4. Chrysler, which is looking

for \$1 billion in government aid, was down 1/8 to 71/2.

Gambling issues were strong. Bally Manufacturing rose ½ to 41% as the most actively traded issue on the NYSE. Caesars World and Resorts International each reported strong winnings at. their Atlantic City casinos. Caesars was up 11/2 to 27 on the Big Board and Resorts A rose 1/8 to 463/4 on the American Stock Exchange.

Oil issues showed strength, with Exxon up ¼ to 54¾, Gulf rising ¼ to 27½ and Texaco up ¼ to 28¼. Nationwide turnover in

NYSE-listed issues, including trades in those stocks on regional exchanges and in the over-the-counter market, came to 31.13 million shares.

The daily tally on the NYSE showed gainers outnumbering losers by an 8-7 margin. The exchange's composite index of common stocks rose .12 to 59.45. The Amex market value index rose .20 to 199.31. straight days. Standard & Poor's index of

400 industrials rose .37 to 115.33. The S&P 500 stocks average was up .26 to 104.30. In the over-the-counter

market, the NASDAQ composite index slipped .22 to 142.41. It was the first drop after that index set records for seven straight days.

Grain

KANSAS CITY (AP) — Wheat futures KANSAS CITY (AP) — Wheat futures Monday on the Kansas City Board of 5,000 bu minimum; dollars per bushe

from Thu.

KANSAS CITY, Mo. (AP) — Wheat 428 cars: 2 to 7½ lower; No. 2 hard 3.88½-4.14n; No. 3 3.90¼; No. 2 red wheat 3.69½-3.70½; No. 3 3.69½. Corn 61 cars: 5 to 5½ lower; No. 2 white 2.65¼; No. 3 2.65-3.00n; No. 2 yellow 2.63-2.79n; No. 3 2.43-2.78n.

Waste disposal to be discussed

Austin Bureau

AUSTIN-High-level and low-level nuclear waste disposal will be two of several topics discussed at four public meetings in Texas conducted by the Texas Energy Advisory Council's advisory committee on nuclear energy.

Four separate locations have been chosen for the public meetings: Lubbock, Sept. 7 in Meeting Room 107 of the Lubbock Memorial Civic Center; Austin, Sept. 8 in Room 118 of the Joe C. Thompson Conference Center at The University of Texas; Houston, Sept. 10 in Tanglewood Room of the Holiday Inn Medical Center; and Dallas, Sept. 11 in the Mezzanine Meeting Room of the Dallas Convention

All meetings will start at 9 a.m.

Recommended policy statements of the council, proposed by the advisory committee, will be debated at the regional meetings.

According to the advisory committee's recommended policy statement, proposals to be considered involving high-level nuclear waste disposal include: -That the state and federal government determine whether geologic formations in Texas are suitable for use as underground containment facilities,

—That Texas encourage implementing one or more
demonstration sites, —That Texas retain approval
authority over in-state locations of waste disposal sites, either demonstration or permanent, -That Texas house a disposal site only if it serves the national interest and after alternate sites throughout the nation have been adequately surveyed and evaluated, —That during the federal site evaluation process Texas' interests be protected by a group with technical and policy expertise such as the Texas Energy and Natural Resources Advisory Council, and —That the Texas Department of Health's Radiation Control Branch be responsible for consulting with the federal government on nuclear waste disposal licensing in Texas and for recommending either approval or disapproval of specific federal siting decisions to the TENRAC.

High-level radioactive wastes, a by-product of the fission process, are generated by several methods, including the U.S. military weapons program. According to information from TEAC, this program uses "fission chain reaction to breed bomb-grade plutonium.

Once the plutonium has been chemically separated, liquid effluent containing fission fragments remains.

"Tens of millions of gallons of high-level waste in this liquid effluent form are presently stored on government reservations such as those at Richland, Wash., and Aiken, S.C.," TEAC material shows.

Nuclear powered submarines and some Navy major surface warships produce high-level spent nuclear fuel and the commercial power plan program generates in excess of 1,000 tons of spent fuel each year.

Processed high-level nuclear wastes can remain dangerous for up to 600 years before it reaches a radioactivity level equal to uranium ore bodies commonly found around the world. Unprocessed high-level wastes, such as spent fuel, however, contain uranium and plutonium as well as fission products and may remain dangerous for several thousand

Methods currently utilized for storing high-level nuclear wastes are temporary, and in some cases leaks have developed. The advisory council feels "an alternate method of disposing of high-level waste, which would not require long-term care by society, is of the essence.

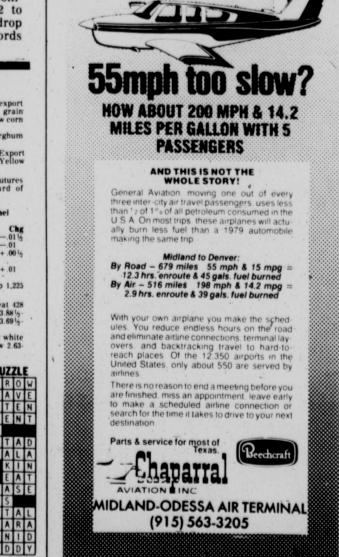

Among proposed solutions being studied, which would provide adequate shielding and containment over thousands of years, are geologic formations (salt domes) that have proven stability, deep ocean trenches, the ice caps of Antartica and deep space. To date, geologic formations have received the most attention, although they still draw criticism from anti-nulcear forces as being unsafe.

Under a major contract with the Department of Energy, the Office of Nuclear Waste Isolation at Bat-telle Memorial Institute, Columbus, Ohio, is studying several salt formations as possible underground sites for permanent dispossal of commercial power plant high-level wastes.

Salt basins in Mississippi, Louisiana, Texas and Utah are being tested by ONWI. Eight salt domes of 263 in the interior Gulf Coast have been selected for further study by ONWI: the Cypress Creek, Richton and Lampton domes near Hattiesbury, Miss.; Vacherie and Rayburns domes in northwest Louisiana; and the Keechi, Palestine and Oakwood domes in East Texas.

Salt formations in the Permian Basin near Amarillo and in the Paradox Basin in Southeast Utah are also under study.

A second issue to be discussed at the regional meetings concerns low-level wastes. According to the TEAC, the Nuclear Regulatory Commission defines such waste as all "radioactive waste other than irradiated nuclear fuel and the solvent extracted from fuel reprocessing.'

REEVES WELL

Operators announced wildcat projects in seven West Texas counties, a pool was reopened in Runnels County, and West Texas and New Mexico counties gained new field wells and projects.

UV Industries, Inc., of Salt Lake City, Utah, announced location for a 7,500-foot wildcat in Mitchell County, eight miles northwest of Silver.

The project, No. 2 Ellwood Estate. is 660 feet feet from south and west lines of section 14, block 12, H&TC survey. It is two and one-quarter miles nothwest of the Dixon (Strawn) area which produces at 6,200 feet.

REEVES WILDCAT

Gulf Oil Corp. spotted location for a 7,020-foot wildcat in Reeves County. 18 miles southeast of Pecos.

It is No. 8 S. E. Ligon, 467 feet from north and west lines of section 18, block 7, H&GN survey.

The site is 3/4 mile southeast of Gulf No. 4 Ligon, recently completed Cherry Canyon discovery, and 5/8 mile north of No. 6 Ligon, a well in the Waha, West (Delaware) pool which produces at 5,034 feet.

ECTOR RE-ENTRY

Amoco Production Co. will re-enter an old well in the Circle Bar (Devonian) pool and plug back to 10,700 feet and test as a wildcat.

The project, No. 1-AW David Fasken, is 550 feet from north and west lines of section 46, block 41, T-1-N, G&MMB&A survey.

It it 1/2 mile east of a dual Ellenburger and Fusselman well and one location south of Devonian production and nine miles north of Odessa.

STONEWALL TESTER

NP Energy Corp. of Texas, Abilene, announced location for a 6,500-foot wildcat in Stonewall County, three miles southwest of Aspermong. It is No. 2 Van Bullard, 2,250 feet

south of the northwest corner of section 198, block D, H&TC survey on on the west section line.

The drillsite is 5/8 mile west of a 6,466-foot dry hole and 7/8 mile southeast of the one-well Johnsons Chapel (Tannehill) field and separated from the well by Tannheill failures.

NOLAN TEST

General American Oil Co. No. 1 Killgore is a new 6,100-foot Pennsylvanian wildcat in Nolan County, one miles west of Sweetwater.

Drillsite is 1,315 feet from north and 1,648 feet from east lines of section 45, block 22, T&P survey. It is two miles north of the depleted Auld (Cisco) field and two miles east of the Rowan & Hope (Strawn reef) pool.

TERRELL EXPLORER

Credo Oil & Gas, Inc., of Beaumont as a 2,000-foot wildcat in Terrell County, 33 miles northeast of Sanderson. The prospector is 467 feet from

south and 2,173 feet from west lines of section 28, block R3, GC&SF survey.

The location is one and one-quarter miles northwest of the Six Shooter (Wolfcamp) field and one and seveneighths miles southwest of the Word (Wolfcamp) pool.

TOM GREEN TEST

Alford Petroleum Corp., The Woodlands, spotted location for a 6,800-foot wildcat in Tom Green Countu.

The test, No. 3-79H Llano County School Land, is 660 feet from north and west lines of section 31, Llano County School Land survey No. 964. The site is one location southwest of a 6,780-foot dry hole and six miles southeast of the Carlsbad (Strawn reef gas and Strawn sand oil) pool. It also is one location southeast of the depleted Eidelbach (Ellenburger)

RUNNELS REOPENER

J. D.Thomas of San Angelo completed his No. 1 Hilda M. Kvapil as the reopener of gas production in the Urban (Miles) area of Runnels County, one and one-quarter miles east of

Field wells potential

The Hoople (Clear Fork) field of southwest Crosby County was extended 3/8 mile southeast with completion of United Energy Corp. of Midland No. 3 Montgomery.

The operaror reported a daily pumping potential of 51 barrels of 30-gravity oil and 93 barrels of

Completion was through perforations from 4,373 to 4,437 feet, after an 8,000-gallon acid treatment.

Wellsite is 1,787 feet from north and 2.173 feet from east lines of section 1069, EL&RR surlvey, abstract 346.

TERRY WELL

Texland, Rector & Schumacher of Fort Worth No. 1 Maudie Young has been completed in the Warhorse (upper Clear Fork) area of Terry County, six miles southeast of Sun-

The well, in the northeast portion of the pool, completed for a daily pumping potential of 42 barrels of 29-gravity oil and 36 barrels of water, through perforations from 6,656 to 6,742 feet.

The pay section was treated with 16,000 gallons of acid. The gas-oil ratio is 333-1. Location is 2,533 feet from south

and 2.559 feet from east lines of section 17, block D-11, SK&K survey. Total depth is 6,775 feet and 4.5-inch casing is cemented on bottom.

DOE says report inaccurate

WASHINGTON (AP) - The Department of Energy has described as "totally inaccurate" a published report that it underestimated by \$9 billion the additional oil company revenues allowed by its recent "gasoline tilt rule'

The Washington Post reported such a "miscalculation" Monday, based on a department estimate published last January. The newspaper report did not note, however, that a revised, higher estimate was published in February, prior to the rule's March 1 adoption.

Before that date, federal price controls required that crude oil and refining cost increases be spread proportionally among all refined products.

The "tilt" rule, adopted to reflect more realistically the higher costs of refining gasoline, allows companies to "tilt" more of their costs into the price of

The Post, based on the department's January figures, said the Carter administration estimated that the rule would add 1.6 cents per gallon to the cost of gasoline in 1979 and 1.8 cents in 1980, for a two-year increase of 3.4 cents per gallon.

It said the administration estimated this would increase oil company revenues by some \$3.7 billion over those two years.

But the Post said companies have already increased gasoline prices by four to six cents a gallon this year and the result "will balloon the price tag of Tilt up to \$12.9 billion by the end of next year".

Garza area gains drillsite for wildcat

Centaur Petroleum Corp. of Fort Worth No. 1 Connell Estate and others has been spotted as an 8,000-foot wildcat 10 miles east of Justiceburg in Garza County.

The prospector is 1,980 feet from north and 660 feet from east lines of section 69, block 5, H&GN survey.

The site is 3/4 mile north of a 7,816-foot dry hole in Kent County and two miles southwest of production in the Polar, North (Ellenburger) pool.

Echo Production, Inc., announced plans to re-enter a Devonian producer in the Jones Ranch, South multipay pool of Gaines County and plug back to 5,300 feet for tests of the San

The project, bottomed at 11,350 feet, is 853 feet from north and 2,173 feet from east lines of section 1, block A-7, psl survey and three miles north of Higginbotham.

It is one location north of one of the pool's three San Andres producers.

YOAKUM PROJECTS

A. J. Vogel, Inc., of Midland staked a pair of projects in the five-well Spivey (San Andres) pool of Yoakum County, three miles northwest of Plains.

The No. 1 Clawater, one location south of production, is 467 feet from north and 2,440 feet from east lines of section 372, block D, John H. Gibson survey. It is contracted to 5,500 feet.

The No. 2 Clawater, also scheduled for a 5,500-foot bottom, is one location south of production and 467 feet from north and 1,640 feet from west lines of section 372, block D, J. H. Gibson

STERLING EXTENDER

Dorchester Exploration, Inc., of midland No. 1-3 Reynolds has been completed to extend Pennsylvanian oil production one and one-quarter miles north in the Conger (Pennsylvanian oil and gas) area of Sterling County.

The extender, 10 miles west of Sterling City, finaled for a 24-hour flowing potential of 20 barrels of 50.6-gravity oil and no water, through perforations from 7,254 to 3,718 feet after a 2,000gallon acid freatment and a 22,000gallon fracture job.

The gas-oil ratio is 56,300-1.

The hole is bottomed at 8,200 feet and 4.5-inch pipe is set at 7,966 feet, the plugged back total depth.

Wellsite is 1,320 feet from south and west lines of section 3, block 22, H&TC

Storage fire still burning

TOLEDO, Ohio (AP) - A Gulf Oil Corp., spokesman said today foam will be used to put out a fire that has burned in a gasoline refinerry storage tank since lightning struck it Sunday afternoon

Thick black smoke smoke continued to pour from the tank and officials had said earlier they planned to let it burn itslf out. Quentin Wallerstedt, a Gulf spokesman, said it was impossible to say how long this would take. Hence, the decision for firefighters to smother it.

The fire has caused about \$1 million damage and the loss of about 800,000 gallons of gasoline, officials said. No major injuries were reported.

DOE counsel quarrels with investigation report

By PATRICK TYLER JONATHAN NEUMAN The Washington Post

WASHINGTON - A report released by the White House Monday clearing the oil industry of hoarding gasoline during the recent fuel shortage relied entirely on data supplied by the industry and included no independent audits, according to federal energy

The report was presented as a summary of the findings of "the investigation of the activities of oil companies, as requested by the president." It was not, however, prepared by the

ENERGY

Department of Energy's investigating arm, which had been assigned to conduct audits of gasoline pricing and allocations during this year's shortage, officials acknowleded.

DOE general counsel Lynn Coleman said that DOE officials preparing the report on what they repeatedly refer to as "the investigation" never actually left the Energy Department, and relied on information supplied by the American Petroleum Institute and other industry sources.

At the same time, in an interview, Coleman defended the report as an "intensive effort to analyze and display facts that ordinarily show up as numbers on a computer printout.'

Though much of the information routinely released by DOE about the oil companies comes directly from them, President Carter, when he first requested the report in May, and called for a thorough investigation.

While the president called for a complete probe, he released the DOE report Monday despite these factors: The entire DOE report is based on

data compiled from February to May of this year, and does not include what energy department officials described as the key shortage months of June and July. "May is the last month for which data is available," the report said. -The most crucial audits of oil

companies by the DOE, those of gasoline pricing and allocations, have not yet been completed and are not expected to be ready for at least two

-A report by an outside accounting firm which has been asked by DOE to try to determine the accuracy of the oil industry date also is not expected to be completed until the middle of the

-The Department of Justice, which was ordered by Carter to join the DOE in the investigation, had no role in writing the DOE report, a Justice Department official said Monday.

-Donald Kaplan, chief of the energy section of the Justice Department's antitrust division, said that his department declined to use its subpoena power in preparing its own interim report for the president. He said the department instead relief on information from the DOE, and on "voluntary cooperation" from oil companies.

Carter's press secretary Jody Powell officially released the DOE report Monday afternoon, but had no comment ot its contents. He deferred all questions to the Energy and Justice departments.

DOE officials who prepared the report said in interviews that their findings were incomplete and would be constantly updated as new information came in. They said they decided to release the report at this early date without statistics from June and July - because of the president's urgent request for the report. -

DOE general counsel Coleman said that about 12 top energy officials were "fairly critically involved" in the investigation, with many other staff members "working on particulars."

"This had high-level attention in the department," Coleman said. In describing how the 45-day inves-

tigation actually was conducted, he said that DOE officials had "lengthly meetings, discussing the thing oral-He said that the information gath-

ered for the probe was similar to "the kind of department wrestles with every day of the week.'

Dealers file profit suit

SAN FRANCISCO (AP) - New federal rules which place a strict limit on a dealer's profit per gallon of gasoline are the target of a U.S. District Court suit filed by a group of California gasoline dealers. Eleven dealers and the California

Service Station Association filed the suit Monday, charging the 15.4-centsa-gallon profit ceiling set last week by the U.S. Department of Energy is unconstitutional. The suit seeks an injunction barring

enforcement of the rules and a ruling declaring them invalid. The suit says existing law gives the

Energy Department authority to set maximum prices for oil products. But the suit says the law requires the rules to minimize interference with gasoline marketing and allow dealers to pass directly to consumers hikes in their supply costs.

Previous regulations provided a more complicated formula for ceiling

Coleman said the conclusions of the report were not unexpected by DOE officials. "Certainly we had a general idea of the parameters because we follow this stuff regularly. We weren't

surprised by what we found.' The 53-page report basically exonerated the oil industry of charges that it deliberately hoarded gasoline supplies to create a shortage, and thus raise gasoline prices. Intead, the report places considerable blame for the fuel shortages on the Carter administration's allocation program.

The report was compiled and written by Carlyle Hystad of the DOE office of policy and evaluation.

Hystad said in an interview Monday that the report was based mostly on industry statistics. He said that one DOE investigating arm, the special counsel's office, "did not provide any conclusions regarding specific com-

The special counsel office is the one that has been assigned the audits of gasoline pricing and allocations. Hystad said these audits were not yet completed, so the findings could not be included in the report to the presi-

Hystad also said that an audit being conducted by the Alexander Grant & Co. accounting firm on the accuracy of the oil industry data was not included in the report because it was not yet completed Hystad and Coleman differed on theiraccounts of whether the special counsel's office and the outside accounting firm contributed to the report.

Coleman said that the DOE did, in fact, consult with and rely on the special counsel (Paul Bloom) and the accounting firm.

"We had the full benefit of everything they (Alexander Grant) had learned in their audit, review and input into this report," Coleman However, Hystad who wrote the

report, flatly contradicted Coleman. "We have no results from Alex-ander Grant," he said. "They were not consulted because they had no results. They were just starting when we were finishing up.

Although the DOE report was released officially Monday, it had been widely reported earlier as the result of separate leaks to the New York Times, the Los Angeles Times and The Washington Post.

One senior federal energy official contended that the Carter Administration wanted to use the report to placate the oil industry and thereby smooth the passage of a Carter-sup-

ported bill to tax windfall oil profits. Regarding the antitrust division inquiry at the Justice Department, Donald Kaplan refused to say how many investigators were working on it or to describe what they were doing However, he said, "We've been interviewing everybody in sight, including members of the press.'

He said he has decided so far not to use subpoena power because "we don't have evidence of an antitrust violation" that would merit a grand jury investigation and the authority to ssue subpoenas that comes with it.

The Justice Department's 14-page interim report, which also was released at the White House, was styled as a report to the president "on wheteher there is reason to believe that violations of federal antitrust laws have caused or contributed to the apparent gasoline shortage."

On the second page, the report makes it clear that the Justice Department's inquiry was not a formal antitrust investigation because formal investigations can only be initiated "when there is reasonable cause for believing that civil or criminal violations . . . have occurred."

For that reason, the report said, Justice officials were prevented from using subpoena power to obtain information from the oil companies.

The report goes on to raise a series of questions that it says must be answered to make an adequate determination of whether the oil companies broke the law.

In justifying further inquiry, the report concluded, "To avoid attributing current market distortions to unlawful conduct when further analysis may reveal such distortions to be the result of conduct unassociated with antitrust violations, it is necessary that we examine all of the circumstances relating to the apparent shortage.'

Pro-PLO change could end Mid-East peace treaty

HAIFA, Israel (AP)-Israel warned that a pro-PLO change the United States is reported considering for the basic U.N. Security Council resolution on the Arab-Israeli conflict could scuttle the Egyptian-Israeli peace

Foreign Minister Moshe Dayan charged that the United States was altering its Middle East policy radically to appease Saudi Arabia, its chief source of imported oil.

"This is not an erosion (of U.S. policy) but a real change," Dayan told the newspaper Yediot Aharanot. "It comes from the fact that the United States is concerned about problems of its economy, energy and the price of oil. So it is looking for an understanding with Saudi ARabia."

Israeli sources said the message the Cabinet sent to President Carter Sunday threatened Israel might back out of the treaty if language from the Camp David pact referring to the "legitimate rights" of the Palestinians was used to amend Resolution

The sources said Interior Minister Yosef Burg told the Egyptians and Americans at the resumption of the Palestinian autonomy negotiations Monday that any change in the resolution "could well have an effect on these negotiations.'

Israeli spokesman Dan Pattir said there was no threat of an immediate breakdown in the talks in Haifa on proposals for Palestinian self-government in the West Bank and Gaza Strip. But he said "Israel will not agree to or accept, under any circumstances, a change in 242."

He called the resolution "the only agreed basis on which one can negoti-

Egyptian Prime Minister Mustafa Khalil argued at the meeting Monday that a revised resolution would encourage moderate Palestinian leaders to join the talks. But after the sharp Israeli reaction, he said Egypt would not support "anything that went against Israel's assent," Burg told Radio Israel.

The Carter administration has been reported trying to attract Palestinian

The two young ladies were present-

ed by their teacher, Mrs. Roweck, in a

senior piano recital recently in Crest-

view Baptist Church, 3300 Thomas

support to the Egyptian-Israeli peace treaty with suggestions that Resolution 242 might be amended to call for a Palestinian homeland and recognition of the Palestinians' "legitimate rights.'

The 1967 resolution's only reference to the Palestinians is to the Palestinian refugee question, and Israel fears that anything beyond that would give support to Palestinian demands for a state of their own on the West Bank.

The administration is reported to believe that if Resolution 242 was amended, Yasser Arafat and the Palestine Liberation Organization might give it their support. Washington reportedly believes this could constitute acceptance of Israel's right to exist since the resolution calls for the peaceful existence of all Mideast states.

Israel has vowed never to negotiate with the PLO, which it regards as a "syndicate of murderers," and op-poses any tampering with Resolution 242. Sources in Washington said Israeli Ambassador Ephraim Evron might call on President Carter at the White House Wednesday for "clarifica-'CHiPs' patrolman

tions" of U.S. policy. Although U.S. officials insist there will be no direct contact with the PLO until it accepts Israel's right to exist, the Israelis are skeptical.

Meanwhile, the negotiations on autonomy proposals continued to explore areas of disagreement.

The United States suggested that the negotiators consider giving Palestinians on the West Bank and in the Gaza Strip legislative, judicial and executive authority. This went considerably beyond Israel's concept of Palestinian autonomy.

Khalil said inclusion of Jerusalem's Palestinians in the autonomous zone was a "must for Egypt." Israel rejected this because it carried the implication that East Jerusalem, the Arab sector that Jordan occupied from 1948 to 1967, is Palestinian territory. Israel has annexed it tm the rest of Jerusalem and says the city will never be divided again.

The lack of movement was expected since the delegations decided to tackle the toughest problems rather than define areas of general agreement, conference sources said.

Students co-recipients of music scholarship

Cynthia Kreger and Tammy Lynn James are co-recipients of the annual Wallace Wimberly Memorial Scholarship of Midland Music Teachers Asso-

Cynthia Kreger

The award is given annually to a graduating senior student who has shown exceptional promise as a pianist or vocalist and who plans to continue the study of music at the college

The award is given in memory of the late Wallace Wimberly, a longtime teacher of music in Midland.

Miss James, daughter of the Rev. and Mrs. Kenneth James, is a 1979 graduate of Lee High School and plans to attend Midland College this fall to major in voice and piano. She hopes to attend Baylor University after a year's study at MC.
Miss James studied piano for nine

years at the Houston Conservatory and, after moving to Midland with her family, has studied piano for six years with Mrs. Hans Roweck.

She has participated in annual auditions of the National Guild of Piano Teachers and has performed in Junior Festival auditions and the annual Sonatina contest here for several

She is a member of the Chopin Club, a student affiliate music ensemble. She has sung in the Koinonia group at her church, Crestview Baptist Church, and in that church's

In high school, Miss James was active in Rebelettes, the Junior Council, French Club, the Lee Choir, Student Council and Medical Explorers. She also participated in the Miss Softball America program.

Miss Kreger is the daughter of Mr. and Mrs. Lonnie Kreger of the Valley View Community

An honor graduate of Midland High School, where she was a member of the National Honor Society and president of the V.O.E. class, she will enroll in Baylor University where she plans to major in music education, with special emphasis on piano.

Miss Kreger studied piano with Mrs. Carl Leonard for 51/2 years, and during the past year has been a keyboard student of Mrs. Hans Roweck.

She has participated in auditions of the National Guild of Piano Teachers, and this year received her National Guild High School Diploma in piano. She has taken part in numerous junior music clubs festivals through the years, receiving superior rat-

Actors' deaths due to fallout, say British papers

HOLLYWOOD (AP) - British newspapers are wondering if the cancer deaths of John Wayne and others who worked on the same 1954 film may have been caused by nuclear fallout.

Says one film promoter: "I knew the picture was a bomb, but I didn't think it was that kind of a bomb."

Lyn Unkefer helped promote the movie, "The Conqueror," which was filmed on location in Utah. The film was a pet project of the late billionaire Howard Hughes, and was the last film he produced.

Three London newspapers suggested over the weekend that the film's Utah location was contaminated by fallout from a nuclear weapons test in Nevada on May 19, 1953.

A spokesman for the Wayne family higher-than-usual radioactivity led to the cancer-related deaths of Wayne, Dick Powell, Susan Hayward, Agnes

Secret trial ends in Iraq

MANAMA, Bahrain (AP) - The secret trial Iraqi government leaders charged with plotting to oust President Saddam Hussein has ended, and the verdicts will be announced in a day or so, the Gulf News Agency reported from Baghdad today. It quoted the official Iraqi newspaper Al

Arab press reports said earlier that 34 lesser-ranking plotters were executed two weeks ago and more than 200 persons were under arrest, Iraqi authorities denied this. The earlier press reports said the

five leaders of the alleged plot were Deputy Premier Adnan Hussein al-Hamdani, Education Minister Mohammed Mahjoub, Mohey Abdul-Hussein Mashadi, former secretarygeneral of the Revolutionary Command Council; Mohammed Ayesh, a labor official of the Baath Socialist Party, and Ghanem Abdul-Jalil. The five went on trial before a

special court last Wednesday, three days after the Iraqi government announced they had been arrested for plotting a coup financed by an unnamed foreign state to end Iraq's opposition to the Egyptian-Israeli peace treaty.

Western diplomats in Beirut speculated that the plotters' aim was to reverse President Hussein's movement toward the West and to renew close ties with the Soviet Union.

Hussein, longtime strongman of Iraq's Baath Socialist regime, replaced ailing Hassan el-Bakr in mid-July as president of Iraq and head of the Revolutionary Command Council.

Moorehead and Pedro Armandariz, but considered it "absolutely not However, the widow of Bud David,

a special effects man on "The Conqueror;" was not as certain. Mildred David told The Associated Press her husband suffered severe headaches at the Utah location and was given a medical release from further work on

"He recovered and went back to work, but for eight years he suffered from vomiting attacks," said Mrs. David. "In 1971, he had an acute breathing problem, went into the hos-

Garbage-littered market only place to find food in Nicaragua

MANAGUA, Nicaragua (AP) - Housewives accustomed to shopping in clean supermarkets are flocking to this city's garbage-littered Mercado Oriental to join their less wealthy countrymen buying food in tiny wooden stalls packed tightly on the market's

"The whole world comes here to shop now. It's the only place where there is food to buy," said Regina Lacayo, a smartly dressed 25-year-old Nicaraguan. Mrs. Lacayo, who said she was using savings to buy food, explained she had just returned to Managua with her husband following the civil war in which their own food business was looted

Mrs. Lacayo blended into the crowds of peasants and laborers picking through straw baskets of produce. The baskets spilled over with squash, tomatoes, rice, beans and fly-covered meat hanging on metal cleavers. Vendors said the crowds were much larger than normal because all the supermarkets had been looted or destroyed in the seven-week Sandinista guerrilla offensive which forced dictator Anastasio Somoza to flee last month.

The market, Managua's largest in pre-war days, is the only central location in the city where those fortunate enough to have cash can buy food.

The food situation in the city is critical because many people have not worked since late May and don't have enough money to buy food. The Red Cross is supplying vast quantities of food, but even its supplies are barely ehough to meet the needs of

However, the Mercado is well stocked. In addition to food, the market has clothes, cooking oil, soft drinks, pot and pans, soap, handmade straw brooms,

watches and combs There's even a stall that carries American disco and more traditional Latin records and posters of American movie stars, including Farah Fawcett and Raquel Welch. The owner said business was bad, but he was still going to stay open until things got more

One woman, who asked not to be identified, said she was making do by economizing. She and her daughter clutched small bags with corn, potatoes,

"We are only buying in small quantities to make our money stretch," she said. "It's harder now, but we are coping with pleasure.'

Food prices are about 25 percent higher than before the war, shoppers said, but have dropped sharply from prices charged during the fighting. Beans cost about 18 cents a pound, and rice, Nicaragua's other staple food, costs about 20 cents a pound. During the war, one shopowner said, beans sold for 55 cents a pound and rice soared to 80 cents a

Enriqueta Sosa, 25, said she was using savings to buy food for her family. She said prices seemed a little lower to her and she would able to make do until she went back to work at a private clinic.

Virgilio Antonio Mendoza, 23, said he had finally been able to buy what he needed to get his bakery working again. But he said "I'm spending all the money I make on food to feed my daughter and help

my mother feed my nine brothers and sisters.' Despite the problems with money, most of the shoppers in the market said things were better now and could only get better under the Sandinistas.

Candelaria Gonzalez, a meat stall owner, said business was brisk and people were buying her beef at about \$1 a pound. Sweeping away the flys from the meat, she said, "I am selling up to \$200 a day. It is as if nothing happened."

DR. NEIL SOLOMON

What should be done if someone's choking?

Dear Dr. Solomon: I was in a restaurant one after-oon when a child at a nearby table began choking. A iece of food apparently had become stuck in his is valuable, but potentially dangerous situations should be avoided whenever possible. (If you have a medical problem, see your doctor. If noon when a child at a nearby table began choking. A piece of food apparently had become stuck in his throat. Fortunately, a physician was present with another party and he attended the child, and there were no serious consequences. But I've been wondering ever since - what would a lay person do under such circumstances?-Mr. A.D.S.

Dear Mr. S.: When a child is choking on something that was swallowed, the first thing that should be determined is whether the child is breathing. If he is, the best thing to do is to get to a hospital emergency room as soon as possible, since it is likely that an air tube is partially blocked. Equally important are the things you should not do: Do not slap the child on the back; do not give him a drink of water; and do not hold him upside down. Any such action might cause the object to move into a worse position creating an even more serious situation.

If the child cannot breathe - if he cannot cough, or speak, or cry - immediate action is indicated since his breathing may be completely blocked. If you can see the object, try to remove it with your finger, taking care not to push it further in. If this cannot be done quickly, place the child on his stomach over your knees, head down, and slap him hard between the shoulder blades. This may cause the child to

cough, and gravity may help get the object out.

Another method for trying to dislodge something from the throat is known as the Heimlich maneuver, and is suitable for use with adults as well as with children. Stand behind the child with the thumb-side of your fist between his navel and ribs, grasping your fist with your other hand. Press quickly, up and in, repeating if necessary. Air pressure may cause the object to be expelled. After breathing has been restored, the child should be seen by a doctor, since there may be some damage that needs medical at-

Obviously, the old adage about an ounce of prevention being worth a pound of cure holds true here. Young children tend to put things in their mouths, too often with tragic results, and parents should not give them toys that have loose parts. Nor should small items, such as marbles, be given to a child likely to pop them into the mouth

Similarly, foods should be cut into small pieces and children should be taught to chew thoroughly before swallowing. Serving fish or poultry with bones, or fruits with seeds, is inadvisable where very young

children are concerned. You cannot expect a young child to be able to determine what is safe and what may be hazardous; this is the parents' responsibility. A knowledge of first aid

you have a medical question, write to Neil Solomon, M.D., 1726 Reisterstown Road, Baltimore, Md. 21208. Dr. Solomon cannot give personal feplies but will answer as many questions as possible in his coulmn.)

DEATHS George Netzel

MONAHANS - Services for George Wilbert Netzel, 64, of Monahans, brother of Mrs. Jimmy Giles and Mrs. Spincer Kirkpatrick, both of Midland, were Monday with burial in Monahans Cemetery.

He died Saturday in a Monahans hospital after a short illness.

Netzel as born March 30, 1915, in Fair Oaks, Ind. He was a Monahans resident for 48 years. He was a retired truck driver.

Other survivors include a son, a daughter, two brothers, three sisters and two grandchildren.

Mrs. Larry Moss

Mrs. Larry G. (Cindy) Moss, 26, of Round Rock died Monday in a Midland hospital.

Services were to be at 2 p.m. today in Crestview Baptist Church with Dr. Kenneth James officiating, assisted by the Rev. Jack Ridlehoover of Pioneer Drive Baptist Church of Abilene. Burial was to be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

Mrs. Moss was born July 26, 1953, in Comanche. She moved from Comanche to San Angelo in 1955 and to Midland in 1958. She was graduated from Lee High School in 1971.

She attended Hardin-Simmons University and was graduated in 1974. While at Hardin-Simmons, she was a member of Tri Phi. She was a former kindergarten teacher at Bonham Elementary School in Abilene. She was active in church activities at Pioneer Drive Baptist Church in Abilene prior to moving to Austin.

Survivors include her husband, Larry G. Moss of Round Rock; a son, Brandon Lee Moss of Round Rock; her parents, Mrs. and Mrs. Lee Reese of Midland; two sisters, Judy Reese of Midland and Donna Rouse of Abilene, and her grandmother, Mrs. J.P. Jones of Comanche.

The family requests memorials be directed to the Cindy Moss Memorial Fund in care of Crestview Baptist

Florine Rayos

Florine D. Rayos, 59, 1307 S. Marshall St., died Monday in a Midland hospital following an illness. Rosary will be said at 8 p.m. Wednesday in Thomas Funeral Home

Serivices will be at 3 p.m. Thursday in Our Lady of Guadalupe Catholic Church with the Rev. Charles Hassenauer, pastor, officiating. Burial will be in Fairview Cemetery.

Mrs. Rayos was born Jan. 14, 1920, in Fort Davis. She was married to Raymond D. Rayos in 1938 in Marfa. She moved to Midland in 1954 from

She was a member of Our Lady of Guadalupe Catholic Church.

Survivors include three sons, J Rene Rayos Sr., Raymond Rayos Jr. and Silverio Rayos, all of Midland; four daughters, Linda Vargas, Dorothy Perales, Nancy Pena and Mildred Martinez, all of Midland; her mother, Josephine Dutchover of Big Spring; five brothers, Felipe Dutchover and Frank Dutchover, both of Odessa, and Sunny Dutchover, Richard Dutchover and Tony Dutchover, all of Big Spring; four sisters, Mrs. Matias Perez, Mrs. David Garcia and Mrs. Melquiades Almazan, all of Big Spring, and Mrs. Edmundo Sandoval of Fort Worth, 25 grandchildren and a great-grandchild.

Ted Palmer

SNYDER - Services for Ted Palmer, 68, of Snyder, father of Wilma Rodgers of Midland, were to be at 4 p.m. today in Bell-Seale Funeral Home chapel with burial in Hillside

Memorial Gardens. He died at his home Monday. Palmer was born May 25, 1911, in Kaufman County. He had lived in Snyder since 1969 and was a retired mechanic. He was married to Oddest

Franks July 20, 1929, in Kemp. Other survivors include his wife, two daughters, three sons, 16 grandchildren and two great-grandchil-

'Cal' Gallagher

Services for C.E. "Cal" Gallagher, 61, 409 W. Hamby Ave., will be at 10 a.m. Wednesday in the Newnie W. Ellis Funeral Home Chapel with the Rev. Ray Simmons, pastor of Ranchland Hills Baptist Church, officiating. Burial will be in Resthaven Memorial

Gallagher died Sunday at his home following an illness.

He was born Jan. 7, 1918, in Scranton, Pa. He attended schools there. In 1942, Gallagher served in the U.S. Air Force in the Pacific Theatre. Upon his discharge, he returned to Midland. Gallagher was married to Frances Stephens in 1944 in Midland. He was employed with the Postal Department in Midland.

Survivors include his wife; two sons, Donny Gallagher of Monahans and Gary Gallagher of Midland; two daughters, Kathy Kelly of Odessa and Susan Clark of Monahans; a brother, John G. Gallagher of Rochester, N.Y.; a sister, Betty Gallagher of Scranton, Pa., and eight grandchil-

Leslie Lister

SWEETWATER - Services for Leslie A. Lister, 74, of Nolan, father of Wayne Lister of Big Spring, were to be at 4 p.m. today in Nolan Baptist Church with burial in Slater Chapel Cemetery directed by Cate-Spencer Funeral Home.

He died Monday in a Sweetwater hospital.

Lister was born Feb. 4, 1905, in Williamson County. He moved to Nolan County in 1919. He was married to Jewell Buchanan April 7, 1926, in Whitman. A member of the Nolan Baptist Church, Lister had been a deacon for 50 years. He was on the board of directors of the Taylor Telephone Cooperative.

Other survivors include his wife, two sons, a daughter, a brother, two sisters, 5 grandchildren and six great-grandchildren.

Annie Mae West

LEONARD - Services for Annie Mae West, 90, of Leonard, mother of Willena Browne of Midland, were held Monday in First Presbyterian Church here with burial in Mt. Carmel Cemetery directed by Owens Funeral Home of Wolfe City.

She died Saturday in a Greenville hospital.

Mrs. West was born June 18, 1889, in Chalk Mountain. She was married to William Henry West Nov. 12, 1905. He died May 18, 1977. She was a member of First Presbyterian Church in Leon-

Other survivors include four daughters, two sons, nine grandchildren, 13 great-grandchildren and three greatgreat-grandchildren.

Roy Lee Price

SCOTTSDALE, Ariz. - Services for Roy Lee Price, 51, of Tempe, Ariz., brother of Curtis Price and Howard Price, both of Midland, were to be at 1 p.m. today in Green Acres Mortuary

He died Saturday in a Tempe, Ariz., hospital following an illness.

Price was born Sept. 1, 1927, in Abilene and moved with his family to a farm near Midland in 1942. He was graduated from Courtney High School in 1944. He worked for Borden County for several years. He moved to Arizona in 1965.

Other survivors include his wife, two sons, two daughters, a brother, two sisters, three grandchildren and 16 nieces and nephews.

Man charged in death

WICHITA FALLS, Texas (AP) - A 24-year-old Burkburnett man has been charged in the slaying of a young man that apparently occurred from an argument over the size of a catfish, authorities said.

Thach are "very misleading."

Holbrooke acknowledged the Viet-

namese removed "a major impedi-

ment" when they dropped their long-standing demand for U.S. aid.

But, he said, "The Thach account is

Charges that U.S. reneged are 'very misleading'

WASHINGTON (AP) — A top State Department official has labeled 'very misleading" charges by Vietnam's acting foreign minister that the United States reneged on an agreement to normalize relations between the two countries.

"We did not renege." Richard C. Holbrooke, assistant secretary of state for East Asian and Pacific af-

fairs, said late Monday. Nguyen Co Thach, Vietnam's secretary of state for foreign affairs and acting foreign minister, is quoted in The New York Times today as saying "everything was agreed upon, except for the writing down" during secret talks in New York City last fall between U.S. and Vietnamese officials. In a dispatch from Hanoi, Thach is

quoted as saying he left New York after waiting in vain for a final meeting to wrap up the agreement normalizing relations

Thach blamed the situation on U.S. preference for improved relations with China, the newspaper reported. He said the United States wanted to improve relations with both counties

today, according to Mrs. Doug (Joanne) Peterson.

Local Episcopal churches were asked to participate, and the program here was started about two weeks ago.

fleeing Cambodia said today's arrivals number 31. This brings the total to

"and the China card prevailed above the normalization of Vietnam. This is

my assessment." Holbrooke confirmed that he headed the U.S. delegation at a meeting on Sept. 28, 1978, with the Vietnamese, led by Thach. But he denied that an agreement had been reached, and that U.S. relations with China figured into the talks with Vietnam.

At the meeting, the Vietnamese dropped their demand that the United States agree to a major aid commitment before Vietnam would agree to normalize relations, Holbrooke said.

Withdrawal of that demand removed the "major bilateral obstacle" to normalization, Holbrooke said, but the United States made it clear that regional normalization also was an important consideration. U.S. officials are concerned about

and its links to the Soviet Union, Holbrooke said. It was those concerns - not normalization with China - that led the State Department to slow down the estab-

Vietnam's policy toward refugees, its

military involvement in Cambodia

lishment of full relations with Vietnam, he said.

Thach was quoted in the newspaper as saying issues such as the size of diplomatic missions were being discussed before the talks broke off. Holbrooke denied the negotiators had gotten to the point of discussing em-

HOW SAFE IS YOUR DRINKING WATER? HAVE YOURS TESTED FREE!

Like most people you probably are astonished and disturbed at the news of increasing pollution of drinking water you see every day in newspapers, magazines and on television. Sooner or later you have to start asking yourself, 'How safe is my drinking water?"

The trouble is that until now you have had no practical way to tell for sure whether your drinking water is good or not.

We think it's important for you to know

what's in the water you and your family drink every day. That's why we're making it possible for you to get the full facts from a completely impartial laboratory.

Free, No Obligation Offer

It's easy to have your water tested and evaluated this way. And the service is absolutely free and without obligation of any kind. Here's all you have to do

Fill out the coupon below or call us toll free and we'll send you a water sample kit. (Easy to follow instructions). Fill the bottle with

Here's what people have discovered about their drinking water!
"The lab test of my water was a real eye opener. I thought we might have a problem but I couldn't be sure until I read the chemical analysis. Thanks for your help."

J. G. B. Chicago

"Our water had a funny smell that had us worried. Thanks to the laboratory test I've learned how to take care of it."
B. F. Miami, Fla.

it's safe.

C. G. Minneapolis, Minn.

drinking water from your regular source-tap or well-and send the sample directly to the laboratory in the pre-addressed mailing tube. A copy of the re-sults will be mailed to you

If the test report reveals pollu-tion of any kind you should re-view the Water Machine material that also is included with your water sample report. This revolutionary new discovery is so amazing it even can transform salt water from the ocean

into pure, delicious drinking water. If it can do that, imagine what it can do for you. But first you should be sure you have a drinking water problem to solve. The un-biased professional report will tell you. Remember, it's yours at no cost except postage. Fill out and mail the coupon below or call us toll free at 1-800-327-1010 (In Florida call

1-800-432-2766) for your free drinking water sample kit. There's no obligation so do it

New guidelines expected to deal with inflation

WASHINGTON (AP) A special congressional task force endorsed the nation's wage and price guidelines as the Carter administration prepared to unveil a potpourri of alternatives for the anti-inflation pro-

gram's second year. The Council on Wage and Price Stability was to release today a 50page "issue paper" dis-cussing possible new di-rections for the guidelines starting Oct. 1.

Carter administration sources said the report and statements from council chairman Alfred E. Kahn and acting director R. Robert Russell would be "honest about the shortcomings of the first year."

clude specific wage and price targets for 1980. Instead it should reveal a 'wide range of policy options," according to council spokesman Joe

The council may, for The voluntary wage example, allow wages to guidelines set a limit of 7 increase 15.5 percent for

The Carter administration is giving serious consideration to a two-year wage limit that would "reward" workers who stayed within this year's limit.

percent on pay increases this year. Prices were to be held half a percentage point below 1976-77 increases

The Carter administration is giving serious

the two years ending Sept. 30, 1980. This would allow workers who received a 7 percent pay increase this year to get 8 percent next year.

The first-year program, announced by President Carter last Oct. 24, has come under increasing attack from has become so deeply both business and labor as inflation has raged at an annual rate nearly double the administration's 7.4 percent target.

However, there were kind words for the program Monday from a House budget panel, which released a 37-point proposal for whipping in-flation.

"The wage and price guidelines program developed by the administration has been more effective than is generally perceived," the task force report said. "It's status should be clarified and the program supported.

The task force pointed out that there could be dire consequences if the government were not successful at slowing in-

"Unless inflation is brought under control to a much greater degree than is now the case and soon - our free system of government will be drastically altered. almost certainly for the the panel con-

The wage and price compliance with the anti-inflation guidelines, had hoped to release its final recommendations for the second year of the program by Aug. 1.

According to sources who asked that their names not be used, completion of the project has been delayed in part because of the major turnover in Carter's economic policy advisers.

G. William Miller, former chairman of the Federal Reserve, was sworn in Monday as treasury secretary, re-placing W. Michael Blumenthal

Russell, meanwhile, has just taken over from Barry Bosworth, who re-signed Friday after two years as director of the council. Russell had been Bosworth's deputy for

the past year. And Charles Schultze, chairman of the president's Council of Economic Advisers, was in the hospital from July 5
