Carter's energy campaign puts ashore in lowa

ABOARD THE DELTA QUEEN (AP) — President Carter's Mississippi riverboat campaign for his energy program was putting ashore today in Burlington, Iowa, where 7,000 "town meeting" tickets were snapped up three hours after they were offered, first-come, first-served.

"People lined up as many as 500 at a time" when the tickets were offered by the White House advance team at 9 a.m. Saturday, said Peggy McCormally of Burlington, whose husband, JoXn, publishes the Hawk Eye — touted as the first newspaper t/ support Carter's 1976 presidential bid. By noon, folks from Burlington and nearby towns in Iowa, Illinois and Missouri had cleaned out the supply, she said.

On Tuesday, the fourth-day of his seven-day cruise, Carter spent 41 minutes as host of a radio talk show in Davenport, Iowa. The "call-in" format was reversed for the guest host, as Carter dia3 persons pre-selected by the League of Women Voters from 1,000 applicants.

His questioners were all friendly and generous with their praise. Cindy Wolf, "just a little person," asked what she could do as an individual to improve America.

The president, after suggesting everal ways to save energy, told her:

"You can inventory your life ... and use your own initiative, instead of

waiting for a public official, even a president, to tell you and others what must be done.

Another listener, confused, asked, "Who is this?"

"My name is Jimmy Carter," the guest host said. The woman's question: "How do you like Davenport?"

Carter's answer: "Davenport is one of my favorite places."

In response to another question, the president denied he is thinking about importing nuclear wastes from other countries for storage in the United States.

From Davenport, Carter traveled across the river to Moline, Ill., where he toured a John Deere farm implement plant and watched a demonstration of a 'biomass converter," which the company is trying to perfect.

The machine, bigger than a house trailer, burns chopped corncobs in a special furnace, producing a low-grade combination of flammable gases used to help power a 212-horsepower diesel engine that, in turn, powers a 100-kilowatt electrical generator.

Carter, who asserted his campaigning is on behalf of his energy program rather than for his own re-election, said the experimental machine represents the sort of private initiative needed to develop alternatives to imported oil.

After the steamboat resumed its downstream journey, Carter and daughter Amy joined other passengers in pecking out tunes on the vessel's steam calliope.

"Practice makes perfect," the president said after his performance. "If I can do it, anybody can.

Amy played "Mary Had A Little Lamb" and Carter played a tune which mystified reporters. It was later identified by press secretary Jody Powell as "I Met A Fox Upon The Road."

The president and his daughter each won a certificate bearing a gold-colored seal and proclaiming the bearer to be a "duly certified calliopist." The certificates are to be automatically revoked if either ever plays "Marching Through Georgia."

After nightfall, Carter used a loudspeaker to address a crowd of several thousand who gathered at Muscatine, Iowa, as the steamboat paused about 50 yards offshore.

Rain began to fall, and as lightning flashed menacingly in the distance, Carter told the crowd, "Don't worrry about the rain . . . it'll make the corn grow green.

U.S. will not sponsor resolution for PLO

WASHINGTON (AP) - The United States will not sponsor any resolution in the United Nations Security Council supporting Palestinian "rights" and is prepared to use its veto power to block any such measure, special Mideast envoy Robert Strauss said today

In a television interview, Strauss said he and other senior advisers. unanimously recommended to President Carter on Tuesday that the U.S. position be against passing a new resolution now because of the "hesitation" he found in both Israel and Egypt during recent talks.*

Strauss said he expected Carter to endorse the recommendation "that we not go forward" with a resolution. The president, taking a vacation cruise on the Mississippi River, has not announced his decision.

If such a resolution is introduced in the Security Council debate that begins Thursday, the U.S. response be "negative." Strauss said on

In the interview today, Strauss hinted that he had not been enthusiastic, in the first place, about sounding out Israel Prime Minister Menachem Begin and Egyptian President Anwar Sadat on possible U.S.-sponsored resolutions supporting the "rights" of the Palestinians.

In shaping policies, he said, "you don't always get there down a common road.'

However, Strauss said, the decision that he go to the Middle East with the proposals last week was reached unanimously and, as a presidential adviser, he gave his full support.

Strauss denied reports of disarray in shaping U.S. policy toward the Middle East. He said he and Vance were good friends and that Carter was in overall charge of U.S. foreign relations.

However, he acknowledged there is "a bit of awkwardness," stemming from the fact that Vance directs policy and that Strauss in in charge of American mediation efforts. On a related issue, Strauss firmly opposed U.S. negotiations with the Palestine Liberation Organization until that group is willing to give up its stated goal of destroying Israel.

policy of shunning the PLO "a bit ridiculous.'

"Among the range of options, postponement (until mid-September) is far and away the most likely one," one official said of the U.S. position after Tuesday's strategy meeting. He and the other sources asked not to be identified because Carter had yet to reach a decision on the touchy issue.

By mid-September, Sadat and Begin will have met again and Strauss will have completed another Mideast trip, one that might take him to Jordan and Saudi Arabia, as well as to Egypt and Israel.

The U.S. approach to the debate had initially been to promote a resolution supporting Palestinian "rights" without defining them or supporting statehood.

But Strauss, who told the White House meeting of his recent talks with Begin and Sadat, said he found both leaders opposed any such move.

Street shooting kills one

San Angelo officers arrest suspect

By MIKE SLATON Staff Writer

A 22-year-old Junction man died Tuesday night at Midland Memorial Hospital after he was shot several times by an assailant almost in front of the Midland Police Department offices.

Daniel Nixon died in the emergency room of Midland Memorial Hospital about 8:30 p.m. Tuesday, officials

He had received shotgun wounds to both shoulders and small caliber gunshot wounds to the head, according to ambulance reports.

Betty Sue Preece, 3041/2 W. California Ave., a passenger in Nixon's car, was uninjured in the shooting incident, officials said.

San Angelo authorities arrested a man about 1:30 a.m. today in connection with the shooting, police said.

Coy Preece Jr., 22, was arrested by Tom Green County sheriff's deputies in San Angelo after they received a call from Preece's father, officials said.

A warrant charging Preece with murder was issued by Midland County Peace Justice John Biggs Tuesday night, officials said.

The last moments of the chase and the shooting were

witnessed by several members of the Midland Fire Department and one police officer as they stood in front of Central Fire Station.

Vernon McNew, an emergency medical technician, today said the car driven by Nixon rounded the corner of Texas Avenue from either Wall Street or Front Street and headed north.

Nixon's car struck a van parked on the west side of Texas Street and continued north as a pickup allegedly driven by Preece pulled alongside, McNew recalled.

McNew said he heard at least two shots fired as the man in the pickup leaned out the window and pointed a pistol at the Nixon car.

The pickup turned east on to Fort Worth Street as the police officer who had been standing in front of the fire station reached his patrol car and began to follow it, officials said.

Texas Street and East Front Street, officials said.

The car driven by Nixon came to rest against a stop sign on the northwest corner of Texas Avenue and Fort Worth Street, officials said.

Police officers were driving to San Angelo early today to transport Preece to Midland, officials said.

Too much rain causes problems

NBC-TV's "Today" program.

In the council, the United States has the power, through its veto, to kill any modification of the longstanding U.N. resolutions affirming Israel's right to exist within defensible borders and dealing with the Palestinian issue strictly as a refugee problem.

While reaffirming those resolutions, a U.N. committee's draft resolution scheduled for debate Thursday would have the council "affirm that the Palestinian people should be enabled to exercise its inalienable rights of self-determination, national independence and sovereignty in Palestine.

The recommendation to Carter came after a nearly two-hour strategy meeting at the White House Tuesday chaired by Vice President Walter F. Mondale. Besides Strauss, the other participants include secretary of State Cyrus R. Vance and national security adviser Zbigniew Brzezins-

Following the meeting, three sources told The Associated Press that the United States would initially seek a postponement of a Security Council vote on the Palestinian issue

But if pro-Palestinian forces insist ments

Abandonment of that goal is a precondition to talks, he said. "We can't negotiate or talk with someone about whether or not Israel exists," he said. They are there.

This put Strauss in a position directly opposite to that of outgoing U.N. Ambassador Andrew Young, who already has met with a PLO representative and has called U.S.

Corps offers new plan for Trinity River Project

pated.

FORT WORTH (AP) - The U.S. Army Corps of Engineers has recommended a \$783 million version of the Trinity River Project which "contains some severe environmental trade-offs," corps officials said.

A seven-year, \$7.5 million study released Tuesday comprised six volumes of recommendations concerning a three-pronged plan for flood control, electricity production and recreation.

The corps would be forced to purchase 11,693 acres to offset the loss of natural habitat through flooding.

Local authorities along the river would be required to assume \$340.8 million in construction costs, depending on the project in their area.

Projects supported by the corps include the 68,000-acre Tennessee Colony Lake and electric project, a 45-mile navigation and flood control channel from the Houston Ship Channel to Liberty and a nine-mile Southeast Dallas floodway extension along Five Mile and White Rock creeks.

The study rejects the West Fork floodway extension proposed for Tarrant County and the construction of a navigation channel upstream of Liberty, calling them "economically unjustified."

A government spokesman said the entire process, including public hearings and continued litigation, may take as long as three years. The plan must be subjected to public review and congressional scrutiny.

A federal court injunction must be lifted before the corps can begin construction.

Public hearings on the proposal will be conducted in Bowie High School Auditorium in Arlington Sept. 18, in Fairfield High School Auditorium in Fairfield Sept. 19 and in Liberty High School Auditorium in Liberty, a government spokesman said. Meetings will begin at 7:30 p.m.

Texas voters have rejected three times since 1973 various forms of the Trinity River Project - including a costly barge canal from Dallas to the Gulf of Mexico.

Most Midlanders realize it isn't wise to complain about the rain.

Reason for that is simple: it might stop and a more or less standard drought might resume.

But too much rain can create problems - and additional expense - for road and highway maintenance personnel.

That's exactly what's happening this year in the Tall City and surrounding Midland County, according to officials.

An extraordinarily wet year now looms as a reality, statistics from the National Weather Service office at Midland Regional Airport indicate. In fact, through Tuesday morning, Midland had received 12.04 inches of rain so far this year.

on-

Rainfall through August for Midland averages only 9.58 inches and average yearly rainfall stands at 13.51 inches. With more than four months remaining in 1979, Midland already threatens the annual rainfall figure.

pleased to see the rain falling, officials of the city of Midland and Midland County noted Tuesday that rain

and runoff can be problems. Extremely wet years undermine paving on streets and highways, wash out caliche roads, create delays for road and street crews and boost the price tag on road, street and highway repairs.

Midland's Public Works Department already has experienced chughole problems created by the above-average rainfall, said Public Works Director Fred Baker.

"We're noticing a few more holes." he said, noting that the situation is not as bad as it may become if rainfall continues into the fall and winter months.

Problems result on city thoroughfares when water soaks into the crushed caliche base of the road, disintegrating the caliche. Vehicles on the streets then break through the asphalt, creating potholes, he said. Baker pointed out, however, that the city's massive seal-coating project to fill in cracks and potholes in

WHILE MOST PEOPLE are streets has helped in preventing water from getting into the streets' bases.

> ONE PROBLEM AREA, he said, has been along Scharbauer Drive, where water has seeped into an old sanitary sewer line ditch, causing the covering over the ditch to cave in. Newcomers to Midland also may be confused by low portions in the center of some streets where water collects during rainy periods. Baker said such streets are called "inverted crown" streets. These streets are designed so the center of the street can serve as drainage, he said.

Although such streets may create a temporary inconvenience for motorists when it rains, Baker claimed inverted crown streets are less expensive than storm sewers.

Baker said this year's rainfall has boosted cost of street repair for the city although "it has not increased it dramatically."

What will happen if the rain continues in Midland?

"The more we get, there will be more cracks with water getting to the

base, and I would expect more repair costs," said Baker.

The rain has caused a dilemma in another way for Midland County's Road and Bridge Department, noted Albert Stewart, road superintendent.

HE SAID THE rain has caused delays for the department. When it rains, road crews must grade - and sometimes "re-caliche" - county roads before the caliche dries.

So department personnel who normally would be assigned to other projects have to be put to work grading roads, while other projects are put on "hold" for awhile. That particularly has been the case this year.

County Commissioner Win Brown noted, "You can't very well grade a caliche road after it's dry.'

The rains also have washed ou some roads in the county, said Stewart. "We've had a minimum amount of washing. But we have had some problems with standing water,' he added.

While standing water doesn't par

Hardest hit areas in the county, he said, are the east and northeast portions

THE STATE DEPARTMENT of **Highways and Public Transportation** office here hasn't experienced many problems with highway surfaces cracking or potholing because of the rainfall this year, said maintenance and construction supervisor Cecil Watkins.

But, he noted, drainage has presented a problem.

"About the biggest problem we've had is drainage into our ditches,' said Watkins.

Since highways don't have curbs and gutters like city streets do, they don't hold water, said Watkins. But water washing out of fields and off the roadways pours into the highway ditches, clogging them with sand and debris, he said.

A lot of maintenance is needed to keep the ditches clear of debris, which can cause water to back up on the highways, he said

So the rain may keep Midlanders' yards green and nice-looking, but road and street maintenance personnel aren't altogether sure that every raincloud has a silver lining.

Funnel cloud reported near **Big Spring**

A funnel cloud reportedly was sighted early today about 20 miles north of Big Spring and the Howard County Sheriff's Department was on the lookout for tornadoes.

Elsewhere in the area, however, the weather was milder and no rain was reported. Skies were clear to partly cloudy in most Permian Basin communities

Midlanders can expect more clouds and perhaps some rain this evening, but sunny skies should prevail Thursdav

Probability of rain this evening is only 20 percent, however. According to the National Weather

Nevada's gas chamber, idle 18 years, prepared for execution

CARSON CITY, Nev. (AP) - A prison official says the Nevada gas chamber, idle since 1961, has passed a final readiness test in advance of the scheduled execution of admitted killer Jesse Bishop.

Howard Pyle, acting superintendent of the Maximum Security Prison where the gas chamber is located, also said Tuesday three guards have been chosen to turn switches, one of which will drop a cyanide pellet in the chamber. None of the men will know who flipped the live switch if the execution is carried out Monday.

Bishop will be flown Thursday to Las Vegas where a U.S. District Court hearing is scheduled on a Clark Counpublic defender's effort to stop what would be Nevada's 32nd execution by lethal gas.

Bishop said in an interview Monday that he's sane and "I don't give a damn about their gas chamber. He said he would strongly oppose the defenders' effort to block his execu-

MMH to mail amended cancer center application

Midland Memorial Hospital officials expect to have an amended application for the proposed Allison Permian Basin Radiation Therapy Center in the mail to Austin by Fri-

day. They had expected to mail the application, which has been amended to include more powerful cancer treatment equipment, last week, but a suggestion to rearrange one section of the center caused another delay.

New architects drawings for the center, to be built primarily from a \$2 million donation from Midlander Helon Y. Allison, were expected to arrive today, a hospital spokesman said.

The change was approved by the hospital building committee at a meeting last Friday with the architects and equipment consultant H.O. McKinzie.

McKinzie was recommended to the hospital by officials at M.D. Anderson Hospital and Tumor Institute in Houston. The changes recommended

Quakes hit California

PALM SPRINGS, Calif. (AP) Two separate earthquakes rattled Southern California, with the second tremor registering 4.1 on the Richter scale, setting off burglar alarms and shaking up Palm Springs residents. Both quakes hit Tuesday, about 13

hours and 150 miles apart. "I thought somebody was lumber-ing down the stairs," said Mike Duchowny, a reporter at television station KESQ in Palm Springs. It 'sounded like somebody was dropping a piano down the stairway," he said

Earlier, Santa Barbara residents, 150 miles to the northwest, were awakened by a quake that measured 3.3 on the Richter scale.

Riverside County authorities reported several calls after the 7:01 p.m. desert quake. There were no reports of damage or injury.

California Institute of Technology seismologists in Pasadena said the larger tremor was centered about 95 miles east of Los Angeles.

Many residents described the quake as one of the biggest in the Palm Springs area.

The 6:18 a.m. Santa Barbara quake, centered about five miles north of La Cumbre Peak, caused no damage or injuries, seismologists said.

Residents said they felt a short thump, as opposed to a rolling motion. One man said it was like a sonic boom. \$

by McKinzie, which added another \$1.3 million to the original price tag of the facility, are expected to smooth the way for approval from the Texas Health Facilities Commission in Aus-

The state agency must issue a cer-tificate of need before the facility can be built. Once the amendments to the application are received and get an initial review to make sure there are no ommissions or errors in the paperwork, the agency has 90 days to make a final determination on the matter.

During that time, the Permian Basin Health Systems Agency will hold local hearings on the application and make a recommendation to the state agency.

The local HSA gave its approval to the original application, but that approval was challenged by officials of Odessa's Medical Center Hospital on procedural grounds.

Before the process of local hearings could be repeated, MMH withdrew the application to make the changesin hopes of eliminating Odessa's objection that the Midland center would only duplicate facilities already available in Odessa.

Service office at Midland Regional Airport, when skies aren't cloudy with thunderstorms tonight, they should be mostly fair.

And it should continue to be warm, the weather service said today.

Low temperature tonight is expected to drop into the middle 60s. High on Thursday should be in the low 90s. Winds should be from the south

at five to 10 mph tonight. Tuesday's high temperature in Mid-

land was 90 degrees, according to the weather service. Record high for Tuesday's date is 102 degrees, set in 1964.

The low temperature this morning was 62 degrees, a cool reading but a full 10 degrees shy of the record 52-degree reading for this date, set in 1952

Thunderstorms were noted. throughout Texas late Tuesday and early today as storm lines, some producing heavy rain and strong winds, rolled through the northeastern and north central portions of the state.

Heavy storms, accompanied by gusty winds and hail, ripped through portions of West Texas Tuesday, uprooting trees and damaging roofs. A tornado ripped the roof of a house

in Stephens County before returning to the clouds. No injuries were report-

Gusty winds that heavily damaged roofs and scattered debris were reported Tueday in the West Texas communities of Eastland, Ranger, Morton Valley, Olden, Coleman and Camp Colorado.

Other thunderstorms were reported along the Rio Grande from Del Rio to Laredo.

Senators called 'baby-killers,' seek inspection of mailing

WASHINGTON (AP) - Two senators, labeled "baby-killers" in a mass mailing by an anti-abortion group, are supporting a call for investigation of the material by the U.S. Postal Service.

Sens. Birch Bayh, D-Ind., and George S. McGovern, D-S.D., wrote the Postal Service earlier this summer, according to Bayh's press secretary, Jim Barrett. Their letter supports an investigation request from the National Abortion Rights Action League, Barrett said Tuesday.

Bayh told the Postal Service he felt the material was misleading and thus in violation of postal laws, Barrett said.

The material repeatedly uses the phrase, "Stop the Baby Killers" and contains "some very inflammatory language" about abortion procedures, Barrett said.

The anti-abortion letter, signed by Ohio State Sen. Donald E. Lukens, asks contributions to a "\$275,000 antiabortion political war chest."

The letter says the money will be used to campaign in 1980 against Bayh, McGovern and three other members of Congress — Sen. Frank

1

Church, D-Idaho; Sen. John C. Culver, D-Iowa, and Rep. Robert F. Drinan, D-Mass. - who allegedly have supported legislation that would allow abortions in some cases.

Lukens, who served two terms in Congress in the 1960s, was quoted as saying, "Basically, this letter represents my honest, sincere, hard-core feelings on this whole topic.'

Lukens also was quoted as saying he doubted any action would be taken by the Postal Service.

The letter is being circulated by any anti-abortion group called Americans for Life and lists Rep. George Hansen, R-Idaho, as honorary chairman. Hansen has acknowledged lending his name to the project, but has said he was not involved in preparing the letter.

Earlier this year, another antiabortion group, the Life Amendment Political Action Committee, released a "hit list" of 12 members of Congress it will try to unseat next year.

In response, leaders of such groups as the National Abortion Rights Action League have said they will try to raise \$1 million to help re-elect those senators and congressmen.*

He also said he agrees with the Attorney General's office that the public defenders lack standing to bring their court action. He had dismissed them from his case.

Bishop says a stay of execution only postpones the inevitable and that's worse than going to the gas chamber on schedule. He said he sees no point in asking the state Pardons Board to commute his sentence.

Once Thursday's court proceedings in Las Vegas before U.S. District Court Judge Harry Claiborne are completed, Bishop, 46, will be flown back to the Maximum Security Prison in Carson City.

cy charges.

The two, appointed by Gov. Bob Graham, began their investigation Tuesday in the Death Row unit at Florida State Prison in Starke. They met privately with inmates, correctional officers and even an undertaker who received Spenkelink's body. Information about the interviews was not released to the media.

"It was my feeling that this is important to set the public's mind at ease," Graham said. "If there are problems, we'll take appropriate action.

Graham ordered the investigation Aug. 10 after published reports that Spenkelink's rectum was forcibly go next.'

The inmate's letter said Spenkelink's mouth was also sealed shut with "layer upon layer of two-inch adhesive tape

The St. Petersburg Times reported Spenkelink was denied an opportunity to deliver a last statement to official witnesses even though Department of Corrections rules require it.

Prison officials have denied doing anything wrong.

'We want to interview any of those who were on the same level and those who may have been above." Williams said. "We hope to get enough information to indicate where we need to

Davis prosecutors to play tapes

prelude to playing tapes, which depict FORT WORTH, Texas (AP) -Davis and McCrory discussing mass Prosecutors have set the stage to play the first of several hours of tapes murder. the most damaging evidence the state

FBI agent Ron Jannings testified earlier this week that McCrory quoted "price tags" for four persons Davis allegedly ordered slain.

Jannings said the list included a \$200,000 contract on Davis' ex-wife, Priscilla; \$500,000 for his younger brother, Bill Davis; and \$80,000 each for Eidson and Judge Tom Cave.

Davis contends he was framed by McCrory, Priscilla and former Fort Worth karate instructor Pat Burle-

JA directors meet, discuss launching 1979-80 season

Plans for the launching of the 1979-80 season of Junior Achievement of Midland were reviewed this morning for directors of the association at their first meeting of the new year in the JA Business Center.

Gary Peterson, executive director, said 17 Midland business firms will counsel that number of JA miniature companies this year. The first of three orientation sessions for company advisers will be held Thursday. The recruiting of high school students will begin soon after the beginning of the school term, and the first day of the JA program is scheduled Sept.

President Paul Henderson presented a plaque to Joe Kloesel, retiring president, for outstanding service performed during his terms as president

lows:

Glen Barb, Counseling Firm and Adviser; Ed Hagen, School & Achiever and Scholarship & Awards; Dick Borgan, Staff Compensation; W.H. "Bill" Collyns, Public Relations and Banquet; Thomas Bruner, Fi-nance and Fund Drive; Kloesel, Long Range Planning; Fred Middleton,

The 45-year-old industrial heir testified at his first trial on the murderfor-hire charges that he was the intended victim of a murder's plot.

A Houston jury deadlocked 8-4 for conviction in that first trial which

ended in a mistrial last January. Defense attorneys have implied that McCrory had time to somehow alter, or exchange the tapes between the time he left Davis and met with FBI agents. Tuesday, prosecutors tried to head off that implication by questioning Hubbell at length about the difficulty of removing the reel-toreel tape on the body microphone.

Project Business, and Eugene Abbott, **Business Center.**

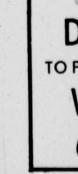

Henderson reported that the Project Business phase of the JA program will be expanded this year.

Peterson reported briefly on the National Junior Achievers Conference held recently at Bloomington, Ind., and attended by 14 Midland Achievers.

Treasurer Tom Bruner submitted the financial report, stating that JA is starting off the year in excellent financial position.

DALLAS (AP) — Bishop College will receive \$107,000 from the Department of Health, Education and Welfare as reimbursement for money spent on federal programs since HEW ended the college's federal funding in January.

Bishop officials requested \$450,000. Trustees and advisers for the troubled college spent four hours in a closed-door meeting Monday trying to resolve budget problems caused by the HEW cut.

Another \$107,000 still is being negotiated, but the college is unlikely to get that much, an HEW spokesman said.

McCrory went to the FBI just over a year ago, claiming Davis had ordered him to hire the murders of State District Judge Joe Eidson and

others. Hubbell testified he strapped a body recorder to McCrory and secretly taped McCrory's meetings with Davis. To demonstrate the use of the recorder - which is about the size of a sardine can - Hubbell taped it to the left calf of assistant Tarrant County

District Attorney John Bankston. The lanky, silver-haired FBI sound technician also showed jurors how the

The workshop will run from 9:30 a.m. to 12:30 p.m. when a salad luncheon will be served.

Also, Mrs. Jackson will be featured guest performer at the annual musical of the Macedonia Baptist Church sanctuary choir at 2:30 p.m. the following Sunday. Myrtle Hall is president of the

group, and Norma Lewis is musi-

VISITING in the home of Martha Griffis of Midland are her parents, former residents Mr. and Mrs. Joe Dobson.

Now a Coleman County rancher, Dobson was recently featured in an area newspaper, telling of his experiences during the Great Depression of the 1930's.

'It was tough then," he recalls. Dobson, now 73, and his wife, Ila, lived in the Midland area while he was employed with Atlantic-Richfield Oil Co. in the oilfield when the Depression began its attack on the nation in 1929.

While others were being laid off in droves, Dobson said that the only reason he didn't lose his job was that he could do more jobs. "I was an electrician and communi-

cations man and could fix leaking pipelines. Besides, my wife could serve as night watchman at the camp," he was quoted as saying.

During that time, Dobson also had a small farm near Stanton. He remembers that things were especially tough for the fulltime farmers and that a good 500-pound calf would only bring \$11 to \$12. He said that cotton brought four cents a pound and milo maize sold for \$4 to \$4.50 per ton.

Dobson said that everything was cheap, but the problem was in finding a buyer.

Cancer reports misleading, say medical journal editor

CHICAGO (AP) - Public anxiety over what substances cause cancer is heightened by misleading and inaccurate scientific reports, the editor of the Journal of the American Medical Association says.

Dr. William R. Barclay said Monday government agencies in particular often issue scientific findings to create drama and justify their existence.

"Allegations against artificial sweeteners, atomic energy plants, food colorings and preservatives, pharmaceutical products, and industrial chemicals are made almost daily and keep the public in a state of fear that borders on hysteria," Barwho survived the Depression made it clay said. because most of those affected were Scientific tests forming the basis of originally from rural areas and knew these reports, Barclay added, are how to grow food. "There's no exoften conducted with dosages exceedcuse for a person not making a good living if they are willing to work," concluded Dobson. ing any to which man could be exposed and are evaluated by persons with questionable expertise. His views were expressed in an ...FORMER MIDLANDER Deneva editorial in the current issue of the Merrell Spartz, now a resident of weekly scientific magazine. Alamogordo, N.M., began a pen pal relationship while attending grade

Barclay said his editorial was prompted by a recent National Cancer Institute report that reserpine, a patients. drug used to treat high blood pressure, caused cancer in mice and

"If you took the time to read the report, you'd be puzzled as to how in the hell they came to the conclusion this drug causes cancer," Barclay said in an interview.

rats.

"If people took those headlines at face value and stopped using the drug, some would suffer strokes and some 'would suffer heart attacks," Barclay said.

Contacted for comment, a spokesman at the National Cancer Institute said the agency would prepare a response.

then must spend valuable time answering the questions of concerned

"It is incumbent on government to exercise extreme care in the analysis of these studies, to submit the reports to careful scientific peer review, and to be certain that any interpretation of the reports to the lay press accurately reflects conclusions that the data can support," he said.

Such reports frequently are issued at the end of the week and the mischief has been done by the time they can be verified and discounted in several days, he said.

Partly to create drama and partly

a month.

The charter, announced Tuesday, provides for freedom of the press and th right of Nicaraguans to associate freely with organizations and political groups regardless of ideology. It also abolishes cruel and unusual treatment of prisoners and the death

penalty and limits jail sentences to no more than 30 years.

Other clauses guarantee working mothers the right to state-supported child care and bar authorities from drafting citizens without pay for construction work.

However, the junta that ousted dictator Anastasio Somoza last month after a seven-week Sandinista guerrilla offensive, extended its state of emergency for 30 days.

Junta spokesman Manuel Espinoza said the provisional charter would be in

effect until a new one is written by a state council. He did not say when the council would be named, but that its 33 members would be appointed by the Sandinista National Liberation Front, whose guerrillas led the revolt that ended 42 years of Somoza family rule.

The Sandinistas took their name from a Nicaraguan rebel who fought the U.S. Marines who put Somoza's father into power in the 1930s. The presidency then descended from father to son.

Somoza fled to Florida after his regime fell, then went to the Bahamas. He arrived in Paraguay Sunday and was granted a residency visa by the government of dictator Alfredo Stroessner.

Vietman to launch new campaign

BANGKOK, Thailand (AP) — Vietnam is expected to launch a new campaign in Cambodia against former Premier Pol Pot's Khmer Rouge guerrillas after the monsoon rains end in October, and 100,000 Cambodians will probably seek refuge in Thailand, Secretary-General Prasong Sunsiri of the National Security Council told a panel discussion. Former Foreign Minister Bhichai Rattakul, another panelist at the meeting

Tuesday, said the number could reach a million.

The Thai government is the unwilling host to about 200,000 Indochinese refugees. Hordes of Cambodians crossed the border in May and June when the Vietnamese tried to crush the guerrillas in northwest Cambodia. The Thai army drove about 45,000 of them back across the border.

Greek government freezes wages

ATHENS, Greece (AP) - The Greek government announced an anti-inflation program including a wage freeze until the end of the year, strict price controls, a reduction in government spending and big increases in interest rates on both deposits and loans.

Government spending will be cut initially more than \$400 million, a statement said. Interest rates on deposits, which now range between 7.5 and 12.5 percent, will be increased four percentage points and those on loans will increase three to four points.

Turkey extends martial law

ANKARA, Turkey (AP) - The Turkish Parliament approved extension of martial law for two more months in 19 of Turkey's 67 provinces. Interior Minister Hasan Fehmi Gunes said the extension was needed to continue the campaign against political terrorism and protect campaigners and voters during parliamentary elections Oct. 14.

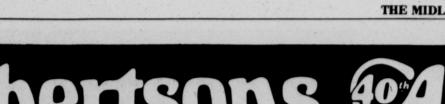

Martial law was proclaimed eight months ago in 13 provinces and extended to six others two months ago. Thousands of suspected terrorists have been jailed, and comparative calm has been restored on the university campuses. But an average of five persons a day are still being killed in the gang war between leftist and rightist groups.

Political violence has taken about 2,000 lives in the past 20 months.

One of oldest women dies

CAGLI, Italy (AP) — Giuseppa Santini, one of Italy's oldest women, died Tuesday at the age of 106. She had just returned from a birthday party in a nearby village for Adele Belli, who was celebrating her 106th birthday.

Amoco Production Co. No. 1 Andrikopoulos is a new 15,500-foot wildcat in Lea County, N.M., 25 miles west of Jal

The prospector is 1,980 feet from south and 660 feet from west lines of section 24-25s-33e.

LEA FIELD TRY

Exxon Corp. U.S.A. staked its No. 9 F. W. Harrison in the Custer (Devonian) pool of Lea County, five miles north of Jal.

Scheduled for a 10,800-foot bottom, it is 1,980 feet from south and 1,470 feet from west lines of section 25-24s-

EDDY FIELD WORK

A trio of field operations have been announced for Eddy County, N.M.

The Superior Oil Co., operating from Midland, staked location for a 12,800-foot project in the Burton Flat (Morrow gas) pool, nine miles northeast of Carlsbad.

It is No. 3-D Government, 2,904 feet from north and 1,980 feet from west lines of section 1-21s-27e.

LaRue & Munch of Artesia, N.M., will dig No. 5 Gates-Federal 15 miles southwest of Maljamar in the Leo (Queen and Grayburg) pool. Scheduled for a 3,700-foot bottom, it

is 330 feet from north and 2,310 feet from west lines of section 22-18s-30e.

Cities Service Oil Co. No. 2-S Government is a new project one and one-quarter miles southwest of the Winchester (Morrow gas) pool, 12 miles northeast of Carlsbad.

Scheduled on an 11,400-foot contract, it is 660 feet from south and 1,980 feet from east lines of section 3-20s-28e

CHAVES PROJECT

A new project has been spotted in an undesignated Abo pool of Chaves County, N.M.

It is Jack L. McClellan of Roswell, N.M., No. 1-K New Mexico-Federal.

The 4,700-foot test is 1,980 feet from south and west lines of section 31-9s-26e and 12 miles northeast of Roswell.

IRION ACTIVITY

A Wolfcamp oil discovery and a pair of field producers have been reported in Irion County.

The discovery is Meadco Properties of Midland No. 1-18 Fisher, 16 miles northeast of Barnhart.

The operator reported a daily pumping potential of 40 barrels of 41.6-gravity oil, plus 25 barrels of water, through perforations from 7,-584 to 7,612 feet. The gas-oil ratio is 1.650-1.

Total depth is 7,800 feet and 4.5-inch. casing is set on bottom.

The well is 3,030 feet from north and 1,200 feet from east lines of section 18, block 27, H&TC survey. It is one and one-quarter miles northeast of 7,688foot Wolfcamp gas production and four miles northeast of 7,600-foot Wolfcamp oil production in the Ela Sugg multipay field.

The Cal (Canyon) pool, nine miles southwest of Mertzon, gained its eighth well with completion of Fortune Drilling Co., Inc., of San Angelo No. 2-1149 Murphy.

The operator reported a daily flow ing potential of 80 barrels of 42.9-gravity oil and 10 barrels of water, through a 13/64-inch choke. The gas-oil ratio is 937-1.

The well finaled through perforations from 6,918 to 6,971 feet after 1,000 gallons of acid and 61,000 gallons of fracture solution.

The oiler is 1,773 feet from north and 651 feet from east lines of section 1149, TCRR survey.

Belco Petroleum Corp. of Houston No. 1-137 Rocker B was completed as the third well in the Sugg (Ellen-burger) field of Irion County, 11 miles north of Barnhart.

The operator reported a daily pumping potential of 46 barrels of 48.5-gravity oil and 15 barrels of water, through perforations from 8,-901 to 8,910 feet, after a 1,500-gallon acid treatment.

The gas-oil ratio is 2,413-1.

Wellsite is 660 feet from south and east lines of section 137, block 1, T&P survey The Wolfcamp was topped at 7,990

feet and the Ellenburger was entered at 8,840 feet on ground elevation of 2,531 feet.

VAL VERDE TEST

Vanderbilt Resources Corp. of Denver, Colo., announced location for a 10,300-foot Strawn project in the Vinegarone (10,000 Strawn) pool of Val Verde County, 19 miles northeast of Juno

The project is No. 2 Addah M. Cauthorn, 1,200 feet from south and 1,200 feet from east lines of section 10, GC&SF survey, abstract 2,280 feet.

Source defended By MICHAEL O'CONNOR

HOUSTON (AP) - The president of Arizona Public Service Co. believes most criticism of nuclear energy is the "irrational blatherings and posturings" of environmentalists and politicians

Keith Turley told a small gathering of delegates to the national American Legion convention here Monday that this country's nuclear industry is surounded by an "atmosphere of fear" created by those critics along with the biased and sensational reporting of the media.

He was part of a question-answer forum on energy presented by the Legion as the final preconvention activity before it officially opened today a sevenday meeting that apparently has the energy crisis as its focus.

The main speaker scheduled for the convention's opening ceremonies was Richard Morrow, president of Standard Oil Co. of Indiana.

The organization's emphasis on energy stemmed from its view that the nation's energy problems are, as its convention literature put it, "a threat to both the national security and our economy.'

The Legion said it was offering its services "in an effort to help find meaningful and satisfactory solutions" to the problems.

Monday's forum included representatives of the oil, natural gas, nuclear and solar industries, each presenting his point of view to the small, receptive audience.

Turley had some criticism of his own for President Carter. saying if the nation's battle to overcome the energy crisis is "the moral equivalent of war, then we are now in retreat."

Emphasizing that "not one death has directly resulted from nuclear power," Turley said it "is not 100 percent safe, but it is safer than any other form of energy.

promised low rates. The Railroad

Commission allowed the company to

ignore contractual agreements and

By SUSAN STOLER

AUSTIN, Texas (AP) - After a five-year fight over skyrocketing natural gas prices, a settlement by Lo-Vaca Gathering Co. and its wholesale customers promises consumers higher utility bills.

The Houston-based natural gas supplier and buyers representing 99.8 percent of its sales volume asked the Texas Railroad Commission on Tuesday to approve final wording of the mammouth agreement.

One in four Texans likely will feel effects of the settlement since Lo-Vaca supplies virtually all of Central and South Texas and sells to electric and natural gas companies serving Dallas, Fort Worth, Houston and other areas.

Rates for direct customers will rise less than 1 percent if the plan takes effect, said Lo-Vaca President Bill Greehey. He could not predict new rates for customers of electric or natural gas companies that buy from Lo-Vaca

"There isn't any question that for Lo-Vaca to be a viable company the rates are going to be increased,"

Greehev said. Ratepayers, not big utilities like Lone Star Gas Co., should benefit from the settlement, says one consumer group spokesman.

Buchorn, executive director of Citi-

The No. 7 James O. Neal, scheduled for a 5,500-foot bottom, is one location northeast of production and 1,935 feet from north and east lines of section 47, block OW, TTRR survey.

The No. 8 James O. Neal, also scheduled for a 5,500-foot bottom, is 1,980 feet from north and 660 feet from east lines of section 27, block OW, TTRR survey. It is one location east of No. 7 Neal.

CRANE RE-ENTRY

Crest

Gulf Oil Corp. will re-enter a former Waddell producer in the Running W multipay pool of Crane County and attempt completion in the Tubb.

It is No. 284 W. N. Waddell and others, 660 feet from north and 1,980 feet from west lines of section 24, block B-21, psl survey and 19 miles northwest of Crane. It is one location west of Tubb production.

ECTOR WELL

Amoco Production Co. No. 2-AM David Fasken has been completed as the fourth well in the Fasken, South (Fusselman) pool of Ector County, 15 miles north of Odessa.

The operator reported a daily pumping potential of 33 barrels of 41.5-gravity oil and 18 barrels of water, through perforations from 12,-308 to 12,368 feet. Stimulation, if any, was not reported.

The gas-oil ratio is 5,424-1.

Total depth is 12,515 feet and 5.5inch pipe is set at 12,498 feet. The plugged back depth is 12,475 feet.

The well is one location north of other Fusselman production and 660 feet from south and 2,050 feet from east lines of section 13, block 42, T-1-N, G&MMB&A survey.

YOAKUM PRODUCER

North American Royalties, Inc., No. 2 Waldon has been completed as the third well in the Block D (Devonian) pool of Yoakum County, eight miles west of Plains.

It finaled for a daily pumping potential of 69 barrels of oil, gravity not repoted, and 347 barrels of water, through perforations from 11,912 to 11,922 feet. The gas-oil ratio is too small to measure, and the pay section was acidized with 900 gallons. Total depth is 11,939 feet and 5.5-

inch pipe is set on bottom. The new well is a southwest offset to

Devonian production and 1.800 feet from north and 900 feet from west lines of section 398, block D, J. H. Gibson survey, abastract 1604.

OKLAHOMA CITY (AP) - An auto parts retailer here is being overwhelmed with the response from the sale of a small adapter that allows a gasoline pump nozzle from a regular REAGAN COUNTY grade pump to fit into unleaded gas tank filler openings.

"We've got phone call after phone call in appreciation," Terry Brown, a buyer for Ted Ward Auto Supply stores said.

The "emergency refueling adapter" is manufactured Roller Sports Inc. of Jacksonville, Fla. Selling for \$1 each, the plastic adapters fit over the end of a regular grade fuel nozzle and taper to the size of an unleaded fuel nozzle.

Michael Kotun, convicted of armed robbery, drinks a cup of coffee with his wife Linda at their home in Long Branch, N.J. The New Jersey Parole

Board freed Kotun from the Rahway State Prison to enable him to spend time with his wife who is dying of cancer. (AP Laserphoto)

Dying woman nervous now that paroled husband is home

LONG BRANCH, N.J. (AP) - Awoman dying of cancer says she's a little nervous now that her paroled husband is home after her two-year battle to release him from prison.

"We're OK," said Linda Kotun, 28, after she brought her husband, Michael, home Tuesday from Rahway State Prison. "The kids are excited, but we're a little nervous. We have to get used to each other again."

Kotun was paroled after serving 21/3 years of a 7-10 year sentence for his 1977 conviction on charges that he held up a motorist at knifepoint at a traffic light and took \$28.

No one was injured in the robbery. Three months later, Mrs. Kotun learned that cancer she had been fighting for some time was threatening her life.

The disease had spread from her thigh to her lungs. Her right hip, leg and pelvis were removed by doctors in an effort to stem the spread of the disease

Faced with the threat of death, Mrs. Kotun, a mother of four, began a two-year battle to win her husband's release. She and a friend, Pat Gigante, began a petition drive aimed at obtaining executive clemency from Gov. Brendan T. Byrne.

The effort attracted public support for the Kotuns, who were living on welfare, but Byrne rejected the ap-

600,000 persons. Destruction to build-

ings was near total over the 19-

square-mile area, the report says.

quake's toll in human lives. "Many people died in narrow lanes," it says

Li said casualties were reduced be-

tures left standing.

"Collapse of buildings was the main

peal without explanation in September 1978.

The New Jersey Parole Board last June assigned Kotun a parole date of Oct. 30, said Thomas Stephens, board deputy director. The date was moved up to this week when doctors confirmed Mrs. Kotun's cancer had intensified, spreading to her liver and back.

"I still can't believe it: There was a time when I thought I'd never see her again," Kotun, 26, said after arriving home to the family's apartment in this Monmouth County community of 30,000. "I feel like I'm not here because when you're in there you feel like you're never going to get out."

Chinese offer look at earthquake destruction, but still no death count

mographs.

STANFORD, Calif. (AP) - Chinese officials have offered engineers a detailed look at the massive destruction caused by a 1976 earthquake in the industrial city of Tangshan, but they continue to hedge on the total number of persons killed.

The quake's toll, estimated as high as 750,000 persons by the United Na-tions and others, is believed by western experts to have been the most destructive in history, say organizers of the U.S. National Conference on

said Haresh C. Shah, a Stanford University civil engineering professor who organized the three-day meeting that began Tuesday. Some 800 per-sons, including delegates from 30 countries, are registered.

Much of the summary had been previously reported by Xinhua (Hsin-

'Tangshan is a coal mine base in our country," the report says. "After the main shock, nearly 30,000 people working underground safely returned to the ground. But the underground passageways were inundated with water.

The report did not give the total number of miners working at the time, or the casualties.

The report says auto traffic lined up for six miles outside the city, and within the city traffic was blocked for more than 10 hours.

James Earl Ray files gest, at 7.1 more than 15 hours after libel suit

MEMPHIS, Tenn. (AP) — James Earl Ray has filed a libel suit against U.S. Rep. Harold Ford for saying that Ray was responsible for the death of civil rights leader Martin Luther King

Ray, serving a 99-year sentence after pleading guilty in King's death, accused the Memphis Democrat of libeling him in statements made last month after the end of a House investigation into the civil rights leader's death

Ray filed the lawsuit Tuesday in U.S. District Court from Brushy Mountain State Prison in Petros,

Ray asked for a jury trial and said, if a jury should find Ford innocent of libel, Ray "would ... accept full re-sponsibility for the MLK homicide and abort efforts to gain a trial in the

Firing squads and whips mete out punishment in Iran arrested in Sanandaj and that "other counter-revolutionary elements in

TEHRAN, Iran (AP) — At least 70 dead were reported today in fresh clashes between rebels and troops in Kurdistan as Ayatollah Ruhollah Khomeini's firing squads and whips kept meting out punishment to trans-gressors of his stern Islamic code. Oil exports, meanwhile, dropped below 1 million harrels deily. million barrels daily.

Tehran Radio said revolutionary guards reported killing 60 rebels in mopping up operations near the Kur-dish capital of Sanandaj and identify-ing them as members of the outlawed Kurdish Democratic Party and "com-munist supporters of the People's Fedayeen guerrillas."

The broadcast said several wounded guards were taken to a hospital in Marivan, near the Iraqi border, for treatment, and that 10 guards were missing in action and presumed killed.

Press reports said more than 100 "counter-revolutionaries" also were

Nigeria tells Russia to reduce mission

Kurdistan are being sought.'

The Islamic Republican, the newspaper of the fundamentalist Islamic Republican Party, said those arrested were members of the Kurdish Democratic Party, which Khomeini banned last weekend, the People's Fedayeen and other leftist groups.

It said a large number of weapons, passports and mimeograph machines were seized, but the leaders of the Kurdish Party still eluded capture.

Meanwhile, a married woman was executed today in the northern town of Behshahr for having illicit rela-tions with a man and her lover received 100 lashes in public, the official Pars news agency reported.

A second execution — of an official of Shah Mohammad Reza Pahlavi's regime - was reported in central Iran.

The woman put to death was Narges Jabari. Pars said her husband was healthy so there was no excuse for her having sexual relations with another man.

The news agency said Capt. Parviz Shams, former chief of the state police in the central Iranian town of

manshah, Western Iran, for drinking

alcoholic beverages, and three were given 50 lashes each for gambling. It said the sentences for drinking were particularly heavy because the offenses occurred during the holy month of Ramadan.

Iran's crude oil exports, mean-while, dipped below 1 million barrels a day following bad weather conditions at Kharg Island in the Persian Gulf where giant tankers load up, a reliable National Iranian Oil Co. source said.

The source, however, said this was temporary and expected this time of year when strong winds whip up high seas making loading operations ex-tremely difficult. He said because of this, storage tanks at Kharg were filled to capacity forcing production in the oil fields to taper off.

Platts, the authoritative oil indus-try daily report, reported Friday that Iranian crude exports had dropped to 1 million barrels a day from the nor-mal 2.9 million because of technical problems

But the Iranian oil source, who asked not to be identified, insisted bad weather was to blame and said exports were expected to return to normal as soon as weather conditions permitted.

cause of losses, injuries and damages of equipment," the China group's report concludes. The quake caused damage over a 13,000-square-mile area, larger that the state of Maryland, and was also felt in the nation's leading industrial Earthquake Engineering here. "They consider it a state secret," and transportation center of Tianjin, 60 miles southeast, the report says.

WASHINGTON (AP) - U.S. intelligence officials say Nigeria, one of Africa's most important countries, has told Russia to reduce sharply the size of its military training mission there

This is regarded as a significant setback for the Russians in a country that is a major source of oil for the United States.

Intelligence specialists who asked not to be named said the development is the result of long-festering Nigerian military discontent with the Soviet mission, whose members were described as "condescending" toward their African hosts.

According to a recent intelligence report, the Russians have been ordered to cut back the size of that mission from 38 to 5 advisers next year

Also galling to the Nigerians, the report said, was a chronic failure by Russia to send enough spare parts and to provide adequate help in maintaining Nigeria's Soviet-supplied MiG-21 jet fighters.

The Nigerian air force was said to be satisfied with the planes themselves.

The reported Nigerian complaints about Soviet military aid are very similar to those which have occurred previously in Egypt, Syria, Iraq, India, Guinea and other Third World countries.

In general, it was said, those complaints have centered on alleged Soviet failure to follow up supplies of new weapons with adequate support.

A U.S. specialist said Nigeria may ask help from India, which manufactures its own MiG-21s, and possibly may be impelled to buy warplanes from Western countries.

However, acquisition of entirely new types of aircraft probably would complicate the already-difficult support and training program. Also, U.S. officials said, Nigeria is experiencing serious economic problems, despite its oil resources.

\$500 taken in Odessa robbery

ODESSA - Investigation into an early Tuesday morning truck stop robbery here was continuing today with no arrests made.

According to an Ector County Sheriff's Department spokesman, two men walked into the Red X Truck. Terminal, 6100 West Highway 80, at 3:30 a.m. Tuesday and took nearly \$500 from the truck stop.

During the robbery, one of the men indicated he had a weapon in his coat pocket, the report said.

It was not known how the men left the station, sheriff's officials said.

Sheriff's officials said they are also investigating the possibility that the two men also had robbed Albertson's in Odessa early Sunday morning.

Arkan, died before a firing squad after an Islamic revolutionary court found him guilty of torture.

The executions raised to 448 the number of Iranians known to have been put to death since the overthrow of the shah in February

Congressmen hear varying reports on dissident's health

MOSCOW (AP) - Soviet officials told a U.S. congressional delegation that Anatoly Shcharansky is "in excellent health," Jewish sources reported today. But the imprisoned Jewish dissident's mother told them e was having unbearable headaches and was "skin and bones" when she saw him two weeks ago.

Eight of the 12 congressmen met Tuesday night at their hotel with

Rhodesia attacks guerrillas in nearby Zambia

SALISBURY, Zimbabwe Rhodesia (AP) - Zimbabwe Rhodesia's air force attacked black guerrillas in neighboring Zambia today for the first time since the Commonwealth Conference and Queen Elizabeth's visit there two weeks ago.

A communique from the military command said the warplanes flew 150 miles into Zambia to attack a base camp of Joshua Nkomo's Zimbabwe African People's Union at Mulungushi, 75 miles north of Lusaka, the Zambian capital.

The attack came two days after Nkomoland the co-leader with him of the guerrilla Patriotic Front, Robert Mugabe, agreed to attend peace talks sponsored by Britain in London next month.

There was no immediate report of casualties or damage in the air raid. The communique said all the planes returned safely to their bases.

It was the farst raid into Zambia in more than a month. During the queen's visit and the biennial conference of the 39 Commonwealth countries, the Zimbabwe Rhodesian government refrained from attacks inside Zambia. Nkomo in response announced that his 15,000 guerrillas would not cross into Zimbabwe Rhodesia for raids although his forces already in the country would carry on their seven-year-old war.

While agreeing to meet in London next month with the British and Zimbabwe Rhodesia's Prime Minister Abel Muzorewa, Nkomo and Mugabe refused to agree to a cease-fire.

Official figures released last week showed Iran exported an average 2.9 million barrels of oil a day from Aug.7 to Aug. 14. Average daily production was put at 3.7 million barrels during the period and the remainder was reported retained for domestic needs

Shcharansky's mother, Ida Milgrom, and 10 other Jews who have been refused permission to emigrate to Israel.

The congressmen told the Jews that when they raised Shcharansky's case at the Foreign Ministry, they were told he was "in excellent health," Jewish sources reported.

The Americans said Foreign Ministry officials were vague about the possibility of his release, but one official whom the congressmen did not identify said he might be freed "in ther foreseeable future," a source reported.

The chairman of the upper house of the Soviet Parliament, Vitaly P. Ruban, became "irritated," the source said, when he saw that some of the congressional delegation were wearing wrist bands inscribed with Shcharansky's name and the date he was arrested, March 15, 1977.

Ruban refused to discuss the Shcharansky case.

Shcharansky, now 31, was sen-tenced in July 1978 to 13 years in prison and labor camp on charges of treason and espionage for the United States. The United States rejected the charges and Presiden t Carter, both houses of the U.S. Congress and the Israeli government appealed for his acquittal, making the case an international cause celebre.

He is now in a prison at Chistopol, on the Volga River 500 miles east of Moscow

The 11 Jews who met with the congressmen have all been waiting more than five years for permission to emigrate. They included Alexander Lerner, Viktor Brailovsky, Ilya Essas, Maria Slepak and several who came to Moscow from Minsk, Vilnius and Kiev.

The congressmen who met with them included Reps. Lester Wolff and James Scheuer, D-N.Y.; Benjamin Gilman, R-N.Y.; Pete Stark, D-Calif.; Robert Dornan, R-Calif., and Clarence Long, D-Md., the sources said.

"For the first time, I felt they were personally involved in our cases." said one Jew who attended the meet-

He said along with Shacharansky, they discussed the Jewish emigration situation, instances of anti-Semitism in Soviet society and the ban on teaching of Hebrew.

something new at the Indiana State Fair this year. You can sense it in the large brick building marked 'Swine." It's pig pride

And it's taking the place by storm with "Pigs are Precious" posters, belt-buckle boars, and tiny sterling silver sows bangling from earrings.

From the grandstands to the midway, it's in the air. But nowhere is it more apparent than in the display sponsored by the Indiana Porkettes, the wives of the state's proud pork producers.

Mrs. David Strange of Clinton County, a long-time Porkette, says the organization was founded to "give the true story" of the much-maligned mammal.

"The animals we're producing now are lean and trim," says Mrs. Strange, who acknowledges that this hasn't always been the case.

"Years ago, they were fatter, it's true. But now, we call it the new pork. And there's evidence that people's attitudes are changing.

Among the evidence are the posters that hang just a few yards from the entrance to the Courtyard of Pork Royalty, where this year's distinguished guests recline in various stages of repose.

'All pork needs is a little understanding," says one. "Hogs are beautiful," proclaims another.

Why all the fuss about porkers?

Ector schools adopts \$41.2

million budget

ODESSA - Ector County school trustees Monday adopted a \$41.2 million no-tax-increase budget over the protests of a citizens' group that wanted a tax cut and higher teacher salaries.

tains the current tax rate of \$1.185 per \$100 valuation at 75 percent assesment.

The 11 percent increase in the budget over the last one will be funded through new property on the tax rolls and increased valuations on some property.

Members of the Concerned Taxpayers of Ector County, however, con-tended trustees could cut the tax rate to \$1.09 per \$100 and, using the state funds and part of the fund balance left from last year, still maintain the \$41.2 million budget.

They also urged trustees to give teachers a larger salary increase, pointing out that teacher salaries had not increased at the same rate as other school district employees.

pride in what they do, says Mrs. Strange. Because too many people still think of pigs as dirty, says breeder Jason Spencer. And because most non-farmers don't realize the animals' value, says salesman Dave Deskins.

Deskins concedes that he was once immune to the charms of the Indiana hog. "I thought they were the ugliest, nastiest things." Now, he says, "They're the prettiest things I've ever seen.

The swine boosters are also quick to point out that pigskin is used in human skin grafts, that a hog's heart valves have kept a human heart beating, and that Heparin, used to prevent blood clots, is derived from the lowly

"Personality-wise," Spencer said, pigs are just like people. Some are really very nice. Others, well, there are some you just can't get along with

"It's a myth that they're dirty. They cover theyselves with mud to keep down their body temperatures, which average about 102 degrees. They have a social order, too. Someone's the boss, and someone's next in line.

"When it comes right down to it, they're just like us.

Offering more than an excellent North Midland location. Cubs divide pair with Amarillo Gold Sox

Cubs at home

Tonight-Gold Sox vs. Cubs, 2 games, 6:30 p.m. at Cubs Stadium.

Thursday-El Paso Diablos vs. Midland Cubs, 7:30 p.m., Cubs Stadium.

BY TED BATTLES R-T Sports Editor

Rainouts Sunday and Monday upset Midland Cubs Manager Randy Hundley because it raised havoc with his pitching rotation in the heat of the Texas League West pennant race, necessitating baseball doubleheaders Tuesday and Wednesday against Amarillo. Hundley could have been disturbed for another reason. The Cubs haven't won a doubleheader all year.

Midland didn't break its record, splitting a pair with the last place Gold Sox, winning the opener 7-3 on the seven-hit pitching of lefthander Bill Earley and the hitting of Eric Grandy and losing the nightcap 6-3 as the Gold Sox unloaded for 14 hits, including homers by Gary Ashby and Brian Greer.

It was a doubleheader that was almost never played. A heavy rainstorm Tuesday morning left the skin part of infield a swampland that could never be readied by game time, unless.

Before game time, the entire infield, three to four inches deep, was replaced as the city of Midland hauled in truck loads of dirt. "It may produce a lot of bad hops," GM Bill Rigney, Jr., predicted, "But we had to do something."

GRANDY, WHO produced the game-winning hit in Saturday's game, did it again in the first game Tuesday, leading off the fifth with a solo homer to give the Cubs a never-to-be-topped 4-3 lead. The Cubs added two more in the inning, but Grandy's 10th homer was enough.

Earley raised his record to 12-6, giving up a couple of unearned runs in the second and another tally in the fifth as Ashby walked, stole second and scored on Tim Flannery's single to give the Gold Sox a 3-2 lead. Javier

losing streak. When he record his last victory back in June, it made him 6-3. He is now 7-14.

Amarillo won the second game on a couple of prodigious home runs off Midland starter Herman Segelke, 12-8, as the Gold Sox broke out of a 3-3 tie in the fourth. Ashby led off the inning, swung took two steps and broke into a home run trot as the ball was just peaking when it reached the right field fence. With two out, Greer poled his 18th of the year over the fence in center, to the left of the double deck. No one was aboard.

That made it 5-3 and the Sox added insurance in the seventh when Earl

Bill Earley Fierro promptly tied it, homering

For Fierro, it was his third home run of the series and fifth homer in his last five games.

Midland scored in the first when Grandy lifted a sacrifice fly to center after Dan Rohn and Rocky Thompson opened the game with singles. After Rohn doubled in the third and scored on a wild pitch, Grandy tripled to extend his streak to 13 straight games, but alas Stablien blanked the lanky outfielder in the nightcap.

THANKS TO Grandy, Gary Krug kept his streak alive in the first game. The first baseman had gone 0-for-3 and two were out in the sixth when Grandy coaxed a walk out of relief pitcher Floyd Chiffer, giving Gary one more chance. He made the most of it with a single to left.

Krug then beat out a deflected infield hit in the third inning of the second game to make it 12 straight, but that's about all the Cubs salvaged out of it.

Stablien broke a personal 11-game

Midland's Eric Grandy has hot bat

Cowboys favored to win NFC East

DALLAS (AP) - There is a swing of power in the National Conference Eastern Division, but it's not at the top where the Dallas Cowboys' title flag remains firmly implanted.

Charlie Waters may be out for the regular season with a knee injury and Tony Dorsett may be hobbling around on a broken toe but Coach Tom Landry somehow prevails. "Tom likes it when the going gets gritty," says a front office worker.

"He really has his game face on now."

The Cowboys, who have made the playoffs 12 out of the last 13 years good for five tickets to the Super Bowl, are deep enough for two National Football League teams.

What team can put a five-year veteran like Randy Hughes at strong safety for Waters? Or trot out a 14-year vet like Preston Pearson for Dorsett?

minister in charge of physical culture and sports, Wang Meng. The subject is one in which both are keenly interested, but no details were

immediately forthcoming. China hopes to participate in the 1980 Olympic Games in Moscow and is willing to compete alongside a team from Taiwan. Hesitancy on the part of the Nationalist Chinese over what flag to carry and what national anthem to play at the Games have blocked a solution to the problem of Chinese representation in the Olympic Committee.

The subject may come up again today when Baum meets with Vice Premier Keng Piao.

DALLAS (AP) - Charlie Waters Tuesday, Coach Tom Landry decided that Waters would be out for the probably didn't even think about it as he hobbled around in a walking cast entire year, opening up a spot on the team for someone else - whoever it But the sidelined All-Pro safety is may be.

no longer with Dallas

Only hours before announcing that Waters would sit out the current campaign, Landry said, "The decision on Waters hasn't been made yet. It's my decision ... mine and Dr. (Marvin) Knight's.'

LANDRY, WHOSE imaginative offenses somehow spring from a nevertheless conservative mind, had given a hint as to what he might do. "The conservative thing to do would be to put him (Waters) off for a year," Landry said.

The decision on Waters was just one item on Landry's worry list as Saturday's final preseason contest loomed against the Pittsburgh Steelers.

The Super Bowl rematch will be played minus Waters and running back Tony Dorsett, who's out with a broken toe. There was some good news at running back. Scott Laidlaw's hamstring troubles have cleared up enough for a return to action.

BACKUP QUARTERBACK and punter Danny White will be there, but only as a punter, thanks to a broken thumb. Landry cut punter Duane Carrell Tuesday, saying that White would be able to kick but would not be ready to steer the team for several weeks

The Cowboys made three more cuts Tuesday afternoon: linebacker Gary Cobb, a ninth-round draft pick, cor-

nerback Mark Washington and running back Doug Dennison. Earlier, the Cowboys waived free agent rookie wide receiver Chris DeFrance of Arizona State and rookie lineman Ralph DeLoach of California.

Waters' backup, Randy Hughes, had clear fluid drained from an old knee injury Monday and was listed as "questionable" for Saturday's game. If Hughes isn't able to go, Bennie Barnes would shift to free safety from his cornerback slot.

BESIDES HIS problems with sick call, Landry has been concerned about his team's lack of ability to move the ball during preseason.

He obvioulsy hoped that a strong second half showing that produced a come-from-behind victory over Houston last week would carry over against Pittsburgh.

'We're just not moving the football on the ground," Landry said. "We're averaging less than three yards per carry

"That won't get you much. That'll get you beat."

What team can lose Ed (Too Tall) Jones and Jethro Pugh to retirement and still have athletes like Larry Cole, Dave Stalls and Larry Bethea to count on?

The Cowboy flex has looked like paper mache in the preseason, but that's not unusual.

"Our defense can look awful bad early when we're not coordinated, especially if you don't have the right people in the right spots," says Landry. "We like to look at a lot of rookies and you pay the price."

If there is an heir apparent in the NFC East, it could be the young Philadelphia Eagles, who made the playoffs as a wild card team last year, losing to the Atlanta Falcons.

But Eagle Coach Dick Vermeil figures Philadelphia is still three or four years away from the Super Bowl.

Landry says look out for the Eagles.

"When a team comes into the playoffs for the first time and then has some 35 players working out in the offseason, which is unheard of in Philadelphia, you have a positive situation," says Landry. "They have enough talent to win our division.'

The Eagle rise comes as Washington washes out its "Over-The-Hill" gang, Bud Wilkinson tries to rebuild at St. Louis, and Ray Perkins takes over a struggling New York Giant team.

The Eagles still don't have the offense to match the Cowboys, who were No.1 in the NFL last year with quarterback Roger Staubach leading the league in touchdown passes.

Fullback Mike Hogan and reserve running back Jim Betterson were lost in the offseason to the Eagles when they were charged with violations of cocaine possession laws. Vermeil is hoping for young Cleveland Franklin, third-year vet Larry Barnes or Billy Campbell to come through

The Eagles are high on rookie placekicker Tony Franklin of Texas A&M, who gives them more of a field goal threat than the departed Nick Mike-Mayer

Defensively, the Eagles should be tougher with the addition of end Claude Humphrey, a former Atlanta Falcon. Vermeil remains commit-(Continued on Page 2D)

Arkansas downs Drillers in 12th inning by 3-2

By The Associated Press

Ty Waller's run-scoring single in the 12th inning lifted the Arkansas Travelers to a 3-2 Texas League baseball victory Tuesday over the Tulsa Drillers.

In other Texas League action, Midland defeated Amarillo 7-3 in the first game of a doubleheader before dropping the nightcap to the Gold Sox 6-3. Jackson rebounded from a 1-0 loss in the first game of a doubleheader against Shreveport to edge the Captains 4-3. El Paso defeated San Antonio 3-2 in a single contest.

Arkansas reliever Ray Searage, 9-3, was the winning pitcher. Searage and starter Len Strelitz limited Tulsa to nine hits. Stan Jakuboski, 2-1, suffered the loss. Tulsa scored both of its runs in

the first inning. El Paso used four hits by Steve Lubratich and a run-scoring triple by Brian Harper to surge past San Antonio. Mike Zouras hit his 20th homer of the season for the Dodgers in the bottom of the ninth, but the solo blast went for naught as Mark Miller, 8-10, allowed only one other hit. Mark Nipp, 10-7, was charged with the loss.

Shreveport's Craig Landis scored the winning run and Mike Glinatsis, 9-7, threw a shutout as the Captains blanked Jackson 1-0 in the first game Tuesday. But Jackson came back to edge the Captains 4-3 in the nightcap.

PAGE 2D

Cowboys still favored

(Continued from Page 1D)

ted to the 3-4 defense but says with the addition of Humphrey there could be some 4-3 ala the Cowboys.

Rookie linebacker Jerry Robinson and guarterback Sonny Wade, signed from Montreal of the Canadian League, are other additions. St. Louis was shocked by the death of tight end J.V. Cain in training

camp and the Cardinals have dedicated the season to him. Rookie running backs Ottis Anderson and Theotis Brown should bolster

Coach Bud Wilkinson's ground game. "The Cardinals finished strong last year and that is always a big plus

going into a season," says Landry. The Redskins were a revolving door in the off-season as Coach Jack Pardee decimated "The Over-the-Hill' gang except for defensive lineman

Diron Talbert. "They just couldn't do the things they used to do," says Pardee in disposing of quarterback Billy Kilmer, safety Jake Scott, linebacker Chris Hanburger, defensive end Ron McDole, defensive tackle Bill

Brundige and others. Caught up in the sweep out was disgruntled running back Mike Thomas, who was traded to San Diego.

The top additions included running back Don Testerman from Seattle, and Louis Carter from Tampa Bay, defensive end Joe (Turkey) Jones from Cleveland and fourth-round draft pick tight end Don Warren.

The Giants had their share of tragedy in the off-season when defensive end Troy Archer was killed in an automobile accident.

Quarterback is a big problem for Perkins, who must choose between rookie Phil Simms of Morehead State and Joe Pisarcik.

Perkins takes over an offense that did not score more than 17 points in its last 11 games in 1978.

"They (the Giants) are a battling team and they'll win their share of games," says Landry. "But I don't think they'll get into the playoffs until they develop players like Simms."

But it's still the Cowboys in the NFC East on the summit with the rest of the pack scrambling somewhere down below

THE MIDLAND REPORTER-TELEGRAM, WED., AUGUST 22, 1979

Tubbs facing West German fighter next

CONCORD, Calif. (AP) - United States amateur heavyweight champ Tony Tubbs faces West German Peter Hussing as teams from the two countries face each other in their first Amateur Athletic Union dual meet Wednesday

The boxers see the meet as a stepping stone to the 1980 Olympics in Moscow

Tubbs, 21, who fights at 210 pounds for the Santa Monica Muhammed Ali Boxing Club, has a 110-10 record. Hussing won the newly created superheavyweight class, over 201 pounds, in this year's European Championships

Tubbs defeated San Francisco's Mike Gans in the AAU nationals this year, but lost to world champion Teofilo Stevenson of Cuba.

"It is a well-balanced team of young athletes," said John Toffoli, general manager of the Concord Pavillion, where the meet will be held.

"We recognize the West German team's impressive credentials as they dominate European action," he said, noting the West German team is ranked No. 2 in Europe

Oilers drop nine Oilers drop nine from their roster HOUSTON (AP) – The Houston Oilers dropped nine players, includ-ing eight rookies, from their roster Tuesday to meet the National Foot-ball League 50-player limit. Lopez starting to dominate golf

ball League 50-player limit.

The squad will be trimmed to 45 players by next Monday.

Among those placed on waivers were one-year defensive lineman Jim Mol of Morningside College; ninthround draft pick Richard Ellender, a wide receiver from McNeese State; and 11th-round selection Mike Taylor, offensive tackle from Georgia Tech. Others cut were rookie free agents Norris Banks, running back from Kansas; tight end John Paplham of Northern Illinois; Randall Young, offensive lineman from Iowa State:

Bruce Bell, cornerback from North Texas State; and Matt Burnett, nose guard from Lamar University. Franklin King, a defensive lineman

from Kansas, was placed on the injured reserve list.

King pays huge price

MAHWAH, N.J. (AP) - Billie Jean King says that at age 35, she's "paying a huge price to stay in condi-

tion. The tennis veteran defeated Sylvia And it puts Haniker of West Germany, 6-2, 2-6, 6-2, in the first-round match in the \$75,000 Women's Tennis Cup Tuesday

PINEHURST, N.C. (AP) - Even the fabled Babe Zaharias failed to dominate women's golf to the extent that Nancy Lopez now rules the game, said Louise Suggs, the latest member of the World Golf Hall of Fame.

Suggs, along with turn-of-the-century player Walter J. Travis, were inducted into the Hall of Fame in ceremonies Tuesday night.

"Babe didn't win all that many tournaments," said Louise, a contemporary of the famed Zaharias.

"Of course, there weren't that many tournaments to be won at the time. But I don't think she beat me but once. She didn't put an umbrella over the tour the way Nancy is doing

"Of course, I'm glad to see the exposure, the television coverage, the women's game is getting because of Nancy

"But, in a way, I'm sorry to see it, too. It puts so much pressure on her.

pressure on me. She was all fire and fall back and flail at it and grunt. But she was spectacular.

"I wouldn't jump up on that table there and do a hula, but if she had to do it to gain attention, she would. "I don't think I ever got the recogni-

tion I deserved because of her. "Course, I never had any trouble

with Babe. She just spoke her mind and I'd speak mine and we'd go our own way. I didn't want to mess with her because I didn't want to have to contend with George," professional wrestler George Zaharias, Babe's husband.

Suggs, a native of Atlanta, was only the seventh woman player selected to the Hall. She and Travis, who died in 1927, brought to 37 the number of members.is was named to the Pre-Modern Era section by a blue-ribbon committee. Suggs was the only nominee this year to be named on the necessary 75 percent of the ballots

BUSINESS MIRROR Gold buyers well borne out by experience

By CHET CURRIER AP Business Writer

NEW YORK (AP) — If the description of today's Americans as the "me generation" is indeed accu-rate, then gold is the perfect investment for the times.

First of all, it is a "winner." Inflation may be making a hash out of other people's finances, but if you own gold, you're staying ahead of the game.

Like many of today's other avenues toward selfimprovement, gold is solitary. There's no part ownership in a larger venture, no dependency on what some hired management or elected board of directors does.

As a protest against big government and big-gov-ernment spending, gold makes as clear a statement as any tax-cutting proposition on any ballot. The government can print all the excess dollars it wants, the gold bugs say, but it can't print gold.

Nobody seems to be more aware of this than the government itself. When a law was passed five years ago to permit private ownership of gold in this country, the government began regularly selling gold from the Treasury. Whatever the intent of that action, it effectively set

the government and some of its citizens on opposite sides in a financial struggle.

By increasing the supply available on the market, the government was acting to depress gold's price, or at least to keep it from rising as much as it otherwise might.

"Sell all you want," tacitly replied the buyers who came to the government auctions. "You may depress the price temporarily, but in the long run even you don't have the power to discredit gold as a store of value.'

To date, the buyers have been borne out. After a decline from about \$200 an ounce to just above \$100 in the early days of the gold sales by the Treasury, the price of gold has tripled in the past three years, passing \$300 this summer.

But the bull market in gold is somehow a joyless one. Recollections of the skyrocketing stock market in the 1960s, with all its speculative excesses and subsequent exposures of corporate chicanery, evoke images of brass bands and celebrations of prosperi-

The mood is much different now. One long-time gold bug lamented in his newsletter recently that, despite the clear-cut success of his forecasts, he was still widely described as a crank.

"How could it be," he mused, "that our predic-tions, even after they have already come true, are still so disbelieved by certain segments of the press and the vast majority of investors?"

One possible answer is that Americans aren't used to gold, the way Europeans are supposed to be. There is a bet-against-the-future aspect to gold that grates on the old all-American ideals, like growth.

If you advocate gold, in a sense you are urging an anti-social act - akin to making for the lifeboats before the other passengers find out that the ship might sink.

Gold-buyers also can be seen as contributing to the problem from which they are trying to protect themselves. Gold is, after all, a non-productive investment. It builds no factories, creates no jobs, doesn't even pay any dividends.

The gold bugs have been right in the past, and those who now predict that gold prices will go higher still may be right again.

It may turn out that they have done a great service for their customers, more than earning their subscription fees, book royalties and seminar admission charges by helping many people preserve their assets in a time of economic trouble.

But popularity, acclaim? For the bringers of bad news, that may be too much to expect

Board votes teachers must punch time clock

PUEBLO, Colo. (AP) - The school board has voted to require teachers in rural Pueblo School District 70 to start punching a time clock.

"Staff members have abused the lenient sgstem. We just want to make sure they're there,' " said Pueblo County High School Principal John Klohp following the board's 4-1 vote Monday night. Superintendent Harry Allen said principals and

some teachers requested the time clocks.

He said teachers "have been working more than their share, and then they see others not even working the minimum. That's frustrating.'

Klohp told the board that teachers by contract are required to report 30 minutes before school and remain 30 minutes after for student counseling.

Livestock auction report

The Southwestern Livestock Auction Co. ran through 948 head of cattle in a market that was steady to \$2 lower on 375- to 450-pound feeder cattle. Heavyweight utility cattle were steady to \$2 higher. Packer cows and bulls were steady to \$2 higher. Bred cows and cow-and-calf pairs were steady.

Here's the rundown on the market:

Steers weighing 600 to 700 pounds were auctioned for \$76 to \$78.50 per hundredweight; 500 to 600 pounds, \$82.50 to \$88; 400 to 500 pounds, \$87.50 to \$91; 300 to 400 pounds, \$92.50 to \$105; under 300 pounds, \$100 to \$135.

Heifers weighing 600 to 700 pounds sold for \$67.50 to \$70 per hundredweight; 500 to 600 pounds, \$73 to \$75; 400 to 500, \$77.50 to \$82.50; 300 to 400, \$88 to \$90; under 300 pounds, \$98 to \$125 per hundredweight.

Canner and cutters went for \$50 to \$53.50 per hundredweight.

Cows utility were auctioned for \$54 to \$58.50 per hundredweight.

Bulls yield Grades 1 and 2 were sold for \$66 to \$70 per hundredweight.

Bred cows sold for \$535 to \$600 per hundredweight.

Cow-and-calf pairs went for \$700 to \$900 per pair.
