bond election. The election - to ask approval of about \$10 million in bonds - is expected to be called for Oct. 23.

70, and I expect there's another 15 or 20 years of vinegar in me yet," she noted. She has lived in the house 34 years, she told trustees.

"We would not enjoy any great pride in displacing a widow from her homestead," Trustee Johnny Warren told her.

"I think we can enter into negotiations with you in good faith and offer you a price that will be fair to the district and to the landowners (in the area)."

The school district plans to acquire most of the land from the present campus site to F Street between Illinois and Tennessee avenues.

Trustees acquired almost four acres in the area when they reached an out-of-court settlement with the heirs of the J.E. and Irene Hill estate this year. That settlement is expected to establish the value paid for othe land in the area. The uncertainty of the situation also adds to the anxiety of the residents in the area, Mrs. Ingham noted. "There are things I could do to my home that I don't

# Record crowds greet Mondale in China

XIAN, China (AP) - Vice President Walter Mondale arrived in this cradle of Cginese civilization today to the applause of an estimated 100,000 people lining the streets.

The Midland Reporter-Telegram

DIAL 682-5311, P.O. Box 1650, MIDLAND, TEXAS

Vol. 50, No. 174, Daily 15¢, Sunday 35¢

A Chinese official who estimated the crowds in this far western city that was once the capital of the Tang Dynasty said the turnout was of unprecedented size and spontaneous.

The welcome in Xian (Sian) was different to the one Mordale received in Peking, where everything was correct but somehow depersonalized.

However, senior Vice Premier Deng Xiaoping (Teng Hsiao-ping) was at Peking airport to see Mondale off and wish him a safe journey as he left the Chinese capital after a four-day visit both described as "very successful."

Mondale told Deng he had reported fully to President Carter on his talks and that Carter, in reply, expressed himself as "very pleased" and "de-lighted at the progress made on this visit.

Deng sent his best wishes to Carter and to his security adviser, Zbigniew Brzezinski, andsaid, "please extend my best wishes and affection to the people of the United States."

Deng made a triumphal visit to the United States in January and Febru-

Members of the Mondale party pointed out that it was rare for Deng to go to the airport to say farewell to someone less than a chief of state.

When he arrived in Peking Saturday, Mondale faced clear Chinese dissatisfaction with the pace of normalibation and the delay in congressional approval of the Sino-American trade agreement.

He wound up the Peking leg of his

eight-day mission Tuesday with the announcement that Chinese Premier Hua Guofeng (Hua Kuo-feng) would visit the United States next year and Carter will visit China. Both dates

are to be arranged. To the satisfaction of the Chinese, Mondale also announced a massive U.S. effort to help China get \$2 billion in commercial credits, build power plants and attract American business. He also announced the Sino-American trade agreement would be submitted to Congress for approval before the end of the year.

Mondale spent his last morning in Peking playing tourist, visiting the Forbidden City and climbing the Great Wall.

In the vermillion-walled Forbidden City, Mondale strolled down the imperial path which only the emperors trod. Then his motorcade drove about 40 miles to the Great Wall where Mondale, his wife Joan and daughter Eleanor climbed halfway to the top.

# six U.S. cities in October

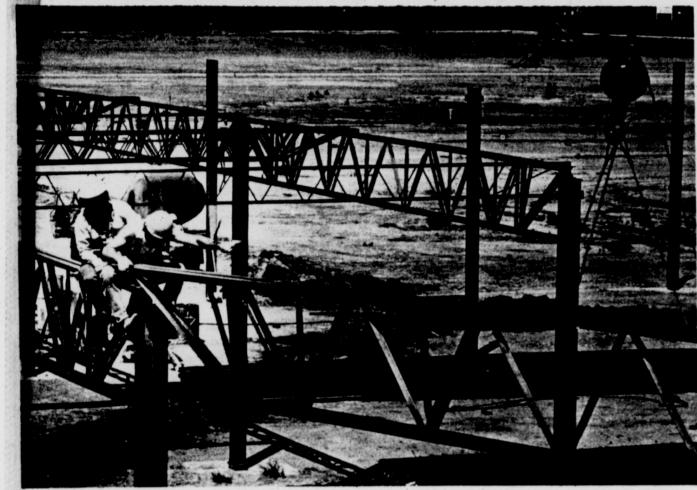

WASHINGTON (AP) - Pope John Paul II will visit Boston, New York, Philadelphia, Des Moines, Chicago and Washington on his six-day visit to the United States in October, the National Conference of Catholic Bishops confirmed today.

The announcement said also that the pope is expected to meet with President Carter at the White House, becoming the first pontiff to visit the Executive Mansion.

The pope will leave Rome on Sept. 29. His first stop will be Ireland, where he will visit the shrine of the Blessed Virgin at Knock. He will arrive in Boston on Oct. 1.

"In each city the Holy Father is expected to celebrate mass for a large outdoor congregation," said the announcement issued jointly in Washington and at the Vatican.

# **OKs TESCO rate hike**

#### By LANA CUNNINGHAM Staff Writer

Slicing a large chunk out of a rate hike request by Texas Electric Ser-vice Co., the Midland City Council voted Tuesday to approve a 2.74 percent overall rate increase.

The utility company filed a request in May for a 16.1 percent overall rate increase. Shortly thereafter, the Midland City Council joined with other cities in the TESCO system and hired a consulting firm.

Assistant City Manager Fred Poe, who represented Midland in the league, told the council during a regular session in City Hall the consultants recommended the 2.74 percent hike after studying TESCO's request.

The Public Utilities Commission has recommended a 5.2 percent hike in rural rates, he said. TESCO has the right to appeal Midland's rate to the PUC, which in turn often makes the urban rates the same as rural charges

City Councilman Carroll Thomas said he felt inflation would account for more than a 2.74 percent hike, and later he gave the only dissenting vote to the motion for approval.

Looking at TESCO's rate hike of 13.2 percent which became effective in October 1978, Thomas remarked that it looks like the electric company is playing games with the cities.

"I think the electric company is playing games, too," Poe agreed, 'but I think the commission (PUC) is forcing them to play games.'

Mayor Ernest Angelo Jr. added that, in his opinion, the commission is forcing rates to go up. "It's (PUC)® made an adversary out of us (cities) with the utility companies.'

MidTran officials were authorized to apply for an operating assistance grant through the Urban Mass Transportation Administration. Joyce Fisher, transportation coordinator, said MidTran can apply for \$25,709 for fiscal year 1979.

John Ingram, president of Mid-Tran, informed the council that businessmen are helping in donating funds for hiring people to prepare for the seven mini-buses when they arrive.

North A Street from Louisiana Avenue to Crest Drive will be widened and straightened by South Texas Construction Co. The council accepted that firm's low bid of \$115,000.

The council approved an agreement

with the Soil and Water Conservation District for an environmental conservation learning center, which will be constructed in Hogan Park.

Also approved was a proposal with Honeywell for alterations to the air conditioning and heating system in City Hall. Fred Baker, director of public works, said the improvements will bring a savings in energy costs. The new system will utilize outside air for heating and cooling.

The council heard a review of the beneficial insects program, rejected requests to sell some city-owned land and extend water service outside city limits and approved various zoning changes, preliminary plats and special permits.

Odessa council denies TESCO's rate hike bid

**ODESSA** — Texas Electric Service Co.'s first bid for a new 16.1 percent rate hike was denied Tuesday on a first reading by the Odessa City

Council. The proposed rate hike is part of a statewide effort, which would raise utility bills upwards from \$5 per customer per month and statewide would generate an additional \$88 million annually in revenue.

In denying the hike, Odessa in effect joined other Texas cities which are contesting the proposed increase in electricity.

Odessa councilmen diapproved the 16.1 percent hike after a consulting firm said a 2.74 percent rate increase would generate \$14.5 million in new revenue and adequately, would

serve TESCO's needs.

A second reading of the proposed rate-hike ordinance will be Sept. 11. As a matter of course, TESCO in the

past has appealed rate disapprovals to the Texas Utilities Commission.

In other action, the council authorized the sale of an Odessa taxi service, AAA Motor Co., owned by Ulysses S. Brown, to Edward Garcia Jr. of Long Beach, Calif., and formerly of Pecos. Garcia plans to return to West Texas.

The council also approved increasing the first quarter mile of a taxi fare from 90 cents to \$1.10 and raising the waiting time" rate from \$6 to \$10 per hour.

The Odessa Council also approved several plats and rezoning requests.

# Courts building part of bond issue

EDITOR'S NOTE: Midlanders will go to the polls Sept. 4 to decide the fate of a \$16.83 million bond issue contaning nine proposals. This is the fourth in a seven-part series examining each proposal.

OL

**E**R

#### By LANA CUNNINGHAM Staff Writer

Generally, as a city grows, so does the number of citations for traffic and other miscellaneous violations.

Midland's City Council apparently has reasoned that the Tall City follows that "rule," and has included a \$380,000 Municipal Courts Building to its \$16.83 million bond issue.

Voters will go to the polls Sept.

4 to decide the fate of nine propos-

The Municipal Court currently is located in the Public Safety Building, 404 E. Texas Ave. That structure also houses the Midland Police Department and the Central Fire Station.

The new structure, built solely for the Municipal Court system, will have about 4,000 square feet of space on a piece of land directly across E. Texas Avenue from the Public Safety Building, according to City Manager James Brown.

That tract of land currently is being used for parking by those working in the Public Safety Building, he said. "The clerks office is filled to over-

flowing," Brown said in explaining

the need for a new building.

"There is barely room for existing personnel and files. The people are falling over each other. There's not even any office space for the warrant officers," he added.

Although more clerks are needed to handle the increasing load, Brown said the city can't hire any more until some room is found.

Jean Jones, a court clerk, said 12 persons work in the office during the regular day hours. The prosecuting attorneys must use the municipal judge's office and the clerks themselves have no storage space for files and records, she said. "All we have is a closet '

The working area is a combination

of two smaller ones, Ms. Jones said. One of the smaller ones had been a jury deliberation room. But the jury was kicked out and the clerks took over the space. The jury now must do its deciding in the court room, she added.

"We have three working part-time at night to keep up with the daily work load. There's no space to have them working during the day," the city manager said.

"Our work load is getting greater all the time," he said, pointing out the officers are writing about 450 traffic

ed States.

LUBBOCK - U.S. District Court Judge Halbert Woodward Tuesday sentenced James W. Garrett to a five-year term, bringing tooan end federal action against 26 residents of the Big Spring area charged with the use of false income tax forms to obtain loans from loan agencies.

Garrett pleaded guilty to a charge of filing a false income tax claim. All but six months of his five-year term was probated, according to assistant U.S. Attorney Roger McRoberts.

Garrett was one of 26 people indicted last January on federal charges alleging the use of false income tax forms to get loans from loan agencies, McRoberts said.

He said the defendants used false information to prepare income tax returns that showed they were due large refunds. These returns were then taken to finance companies and pawn shops, who loaned money based on the refund amounts shown, McRoberts said.

Each of the 26 defendants received sentences ranging from probation to five years in prison, McRoberts said.

### million budget School trustees accept \$28

#### **By SUSAN TOTH Staff Writer**

Midland school trustees Tuesday accepted with little comment a \$28.42 million budget for the 1979-80 school year and heard a report that showed minority students in the district were making some gains, but still lag behind anglo students on standardized tests.

The budget, a \$2.39 total expenditures, also million increase over the were decided earlier.

# Fast pace expected at MC registration

Some 200 students an hour were expected to be registering at Midland College today, and that pace should continue through 8 p.m. Thursday.

Registration hours today and Thursday are from 10 a.m. to 1 p.m. and from 4:30 to 8 p.m. in the Physical Education Building.

Students without preregistration time permits should register between 6 and 7:30 p.m. Thursday.

Classes will begin Tuesday. Late registration will be Sept. 11 for those taking up to five classes and Sept. 15 for those taking three or fewer classes.

# Strikes disrupt school schedules

**By The Associated Press** 

More than 6,500 striking school teachers disrupted classes in seven states today, but some walkouts were resolved as other districts struggled to reach agreements before classes begin next week.

Teachers are striking for higher wages and other benefits in parts of Louisiana, Oklahoma, Michigan, Pennsylvania, Illinois, Indiana and Ohio

In Oklahoma City, where a strike of more than 1,000 teachers entered its sixth day, high school students out of class blocked traffic Tuesday and hurled rocks at passing buses.

All 85 schools in the Jefferson Parish district in suburban New Orleans remained open Tuesday, despite a strike by more than 2,000 teachers over wages in a two-year contract. School officials say the four-day-old walkout is losing steam, but union leaders say fewer teachers are showing up for classes.

More than 1,800 teachers were off the job in six Michigan districts with a total of some 60,000 students. Meanwhile, 100 teachers in Cassopolis, Mich., reached a tentative agreement on a new contract late Tuesday night. The teachers had failed to show up for orientation Tuesday.

Word that the Detroit Federation of Teachers, which represents 12,000 teachers, had agreed to a tentative contract "fell apart" when union officials found a "snag in the contract language," said union spokeswoman Yvonne Johnson. School is scheduled to begin Sept. 6.

Oklahoma City school officials threatened to suspend an estimated 1,000 students who stayed out of classes in support of striking teachers or in protest against classroom conditions

Superintendent Tom Payzant said principals will be instructed to identify students boycotting classes, con-tact their parents, and take further action if necessary.

One administrator said the rockthrowing incident Tuesday stemmed more from an abundance of sunshine than from the teachers' salary dispute.

Attempts to resume negotiations failed Tuesday when school board members refused to show up at a downtown hotel room rented by the union. The school board contends it is not obligated to negotiate because the strike is illegal.

Jefferson Parish officials said about 33 percent of the district's teachers were in classes Tuesday. "That's up one percentage point from Monday," said board spokesman Joe Miller.

However, Donald Kuehn of the American Federation of Teachers, parent group of the 1,800-member Jefferson Federation of Teachers, said he didn't have a complete count, "but we figured we picked up about 20 teachers.

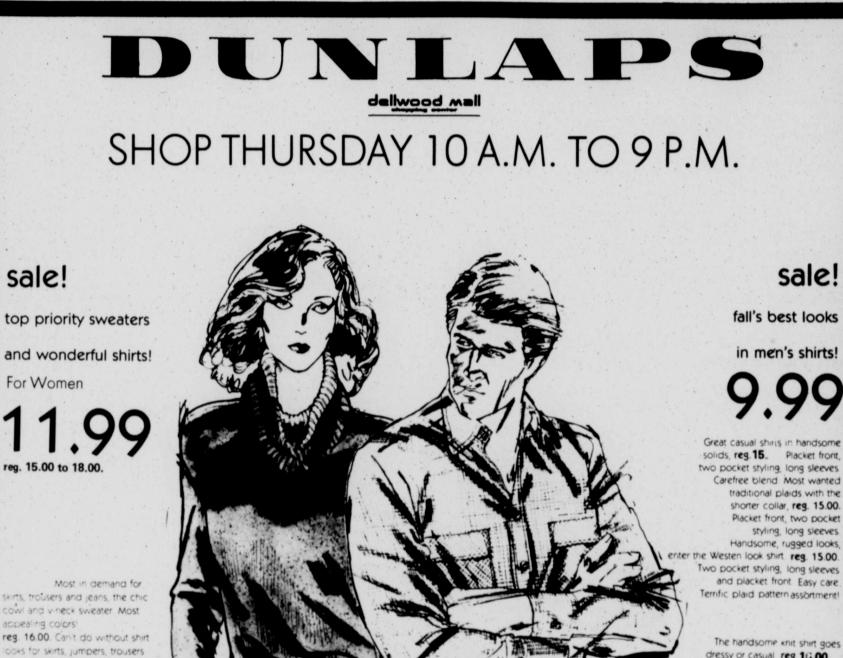

In Illinois, more than 600 teachers stayed out of classes Tuesday in wage

disputes, while a two-day walkout at the northwestern Chicago suburb of Park Ridge apparently ended after a 12-hour negotiating session Tuesday night.

Some 165 Pennsylvania teachers walked off the job Tuesday in the South Butler County School District about 40 miles north of Pittsburgh. Nearly 700 teachers in two other suburban Pittsburgh districts were already on strike.

In Indiana, Superior Court Judge William R. McHanna ordered teachers in Tippecanoe County back to work, but teachers were to vote today on whether they would obey it. Classes for 3,800 pupils in Crown Point were canceled for the third straight day Tuesday when only 29 of the 267 teachers showed up for work.

Teachers in the Ohio Valley Local School District and the Rittman Exempted Village District walked out Tuesday,

City Council approves budget

#### By LANA CUNNINGHAM **Staff Writer**

Midland City Council approved a proposed budget of \$22,484,186 for fiscal year 1979-80 during a regular session Tuesday in City Hall.

A public hearing on the budget produced only one questioner dealing with the Crime Prevention Unit.

Almost no comment came from the council or audience on ordinances dealing with the city tax rate, Revenue Sharing budget and increases in the water, sewer and garbage rates. Patti DeFrance, president of the Midland City Council of Parent-Teacher Associations, asked if the budget called for reducing the Crime **Prevention Unit.** 

Mayor Ernest Angelo Jr. replied that while the council did not increase that item in the budget, nothing had

tickets each day in the downtown area

Personnel are needed to send notices - and later, warrants - to those alleged violators who fail to show up in court on their tickets, according to Brown

Employees who keep the court rec-ords up to date don't have an office either, he said.

When the courtroom and municipal judge's offices first were installed in the Public Safety Building about 15 years ago, Brown said the city only needed two employees to handle the work load.

Now, there is not even a place for a defense attorney to have confidential talks with his clients. "They're using the hallways for confidential uses,' Brown said.

And being located in the same building as the police department is intimidating to many people who may think they certainly don't have a chance with the police watching them, he added.

"We are trying to physically remove the municipal court from the police station," Brown said about the proposed location

expanded room for clerks' offices, a

The need for a second courtroom is apparent in the near future, Brown said. At that time, the inside of the shell will be completed and utilized. The warrant officers also would have separate quarters as would defense attorneys, Brown said.

#### budget. been cut from it over last year's

monies Mrs. DeFrance said she had heard a bicycle program in the schools was being deleted. But City Manager James Brown said the police officer who had conducted the program has left the force and it has taken awhile to find a replacement.

Police Chief Wayne Gideon later informed Mrs. DeFrance another officer is being trained to conduct that program in the schools.

He added his department will assist schools in setting up a Helping Hands program

Fred Tyler, executive vice president of the Midland Chamber of Commerce, presented the agency's proposed budget of \$64,630 for the coming year. Angelo later said that figure was slightly below what had been estimated for inclusion in the city

The \$22 million budget was up 10 percent over the 1978-79 budget of \$20,312,226. This reflects a 7 percent cost-of-living increase for employees, adding 13 employees, large hikes for

inflation. Current tax rate of 63 cents per assessed \$100 was approved unanimously

operating motor equipment requiring

gasoline, higher electric charges and

Increases of 10 percent in water, sewer and garbage rates also were approved. This puts the base water rate at \$4.40, base sewer charge at \$3.30 and garbage service at \$4.40.

Angelo remarked about the rate increases that "it's a necessity that water and sewer operate with their own revenue and it must cover the bonded indebtedness. The garbage increase is in trying to keep in line with the cost of services at the landfill."

Several items to be purchased with \$612,000 of Revenue Sharing funds were approved. These ranged from various computers to a merit increase for a city employee who had been overlooked to a sweeper for Midland **Regional Airport.** 

Another item under these federal funds is a \$32,000 gas dispensing machine which Brown said would keep better track of gasoline usage by employees and departments.

The device is programmed similar to a computer with gasoline amounts charged to various employees recorded on magnetic tape.

That tape, Brown said, can be run through a computer the following day, and a printout will show if a certain employee or department is overusing its gasoline allotment.

clerk. Standing from left are Duane Peter and B.G. Williams, warrant officers. A new Municipal Courts Building would provide more space and offices for the employees. (Staff Photo by Bruce. Partain)

# Trustees say school bond issue will upgrade Midland High School

# More rail workers prepared to join Rock Island walkout

CHICAGO (AP) - Thousands of brakemen, firemen and conductors were prepared to join a strike against the Rock Island Line today in a walkout that could further hamper the movement of grain from the nation's midsection.

A spokesman for the United Transporation Union in Lakewood, Ohio, said UTU locals were authorized Tuesday to strike at 6 a.m. today.

Some 1,800 members of the Brotherhood of Railway and Airline Clerks struck Tuesday in a dispute over retroactive pay.

UTU members - yard and operating workers, except for engineers honored picket lines set up by clerks from Chicago to Colorado Springs and from Minneapolis to Houston.

The unions are seeking retroactive pay totalling \$14 million, a company spokesman said.

The strike affected traffic on 7,200 miles of Chicago, Rock Island and Pacific Railroad track and threatened the movement of grain, produce and industrial products in 13 states.

Also affected were 27,000 commuters in suburban Chicago and Joliet, Ill. They were placed on shuttle buses and other railroads honored Rock Island tickets.

The railroad normally operates 100

#### Hospital administrator announces resignation

**ODESSA** — Administrator of Odessa's Women and Children's Hospital leaves Friday to become administrator of a facility in Covington, La.

Ted C. Lorenz Jr., administrator at the Odessa hospital since January 1977, announced his resignation Monday.

His replacement is expected to be announced later this week by Lifemark, the Houston corporation which owns the hospital.

trains daily in Illinois, Iowa, Minnesota, Missouri, Kansas, Colorado, New Mexico, Texas, Oklahoma, Arkansas, Louisiana, Tennessee and Nebraska.

Railroad officials vowed the line would not be paralyzed.

The UTU spokesman said 12,000 to 15,000 members work as firemen, enginemen, conductors and brakemen for the Rock Island, and their grievance was similar to the clerks.

The clerks union includes telegraphers, freight handlers and other yard workers, billing clerks and ticket clerks, officials said.

In Washington on Tuesday, the National Mediation Board rejected a request from the railroad that it recommend that President Carter name an emergency board to study the dispute. Naming an emergency board automatically would postpone the strike for 60 days.

The board does not believe the strike threatens to deprive any section of the country of essential transportation service, said Chairman Robert O. Harris.

Chris Knapton, a railroad spokesman in Chicago, said current wages, averaging "about \$7 to \$8 an hour" are not the issue.

"It's retrocative pay back to early 1978 that amounts to about \$14 million and we just haven't got it," he said. Knapton said "60 to 70 experienced engineers were flown out of Chicago" to man trains and other supervisory personnel are taking over as switchers and brakemen. "We'll haul grain to Kansas City

and use other carriers to take it to the Gulf Coast." he said.

Several industries served by the line said the strike will have little immediate impact on their operations

Dick Burkett, vice president of Archer Daniels Midland Co., parent company of ADM Corn Sweeteners processing plant in Cedar Rapids, said other lines can be used. He said the Rock Island strike "is more inconvenient than anything else."

The rest of the piece of land on which the building would be constructed would be paved for parking, Brown added.

The Municipal Court Building will be Proposition No. 5 on the ballot.

Thursday: Renovating and expanding the Public Safety Building.

# Campaigner asks Carter support

JACKSON, Wyo. (AP) — A cam-paigner for President Carter has solicited support from the nation's Democratic lieutenant governors but has been told Carter should take his case directly to the people.

"He won last time by the popular vote, the grassroots vote," said Tennessee Lt. Gov. John S. Wilder. "It was suggested he needs to continue that."

Wilder and 19 other Democratic lieutenant governors at the National Lieutenant Governors Conference in Grand Teton National Park met in closed caucus Tuesday with Tom Walsh, Carter's political director, who asked for their support.

Before the caucus, Walsh told The Associated Press state officers could hurt Democratic presidential chances by withholding support from Carter while waiting to see if Sen. Edward Kennedy, D-Mass., would challenge the president.

"He didn't ask for an endorsement from us," Wilder said after the caucus. "He indicated Kennedy wasn't running. He said he (Carter) was running against (California Gov. Jerry) Brown."

Some Republican lieutenant governors appeared upset that presidential politics had been injected into the conference.

Missouri Lt. Gov. William C. Phelps, vice chairman of this year's conference, called the Democratic caucus "unprecedented." He said the conference is not intended as "a political convention," and noted no Republican candidates or campaign aides were invited.

# disaster area

County declared

AUSTIN - Midland County has been declared a disaster area due to heavy rainfall and flooding on July 19, Gov. Bill Clements said Tuesday.

The declaration, by the Small Business Administration, allows residents of Midland and the seven area counties to apply for low-interest, longterm loans to help offset losses suffered.

The other counties involved are Dawson, Borden, Howard, Martin, Glasscock, Andrews and Gaines.

because you don't want my house, you just want the land.

"It just wears you down," she added.

At least one other landowner in the area agreed.

Mrs. James Holman told board members she and her husband had built a dentist's office on property in the expansion area in 1976.

No one told them about the plans then, despite the fact the district had been buying property in the area since 1969. Major acquisitions did not start, however, until 1977

"I think the responsibility for your problem should be laid to previous school boards," Warren told Mrs. Holman, "who didn't have the foresight to do the longrange planning for Midland High School."

Hurricane David threatening islands

SAN JUAN, Puerto Rico (AP) -Fury-packed Hurricane David skirted past Barbados early today and took aim on the islands of Martinique and Dominica, 350 miles southeast of Puerto Rico.

The U.S. National Weather Service in San Juan reported at 6 a.m. EDT that David, one of the most dangerous storms ever to threaten the tiny islands of the Lesser Antilles, was about 35 miles east-southeast of Martinique, moving northwestward at about 14 miles per hour.

The "intense" hurricane, with winds clocked at 140 mph, had slowed somewhat overnight and veered slightly north. It was expected to hit the northern tip of the French island of Martinique late this morning, or the 30-mile-wide channel that separates it from the independent island nation of Dominica. Tourist-crowded Barbados was

# Despite start of school year,

Although the school year started today, Mother Nature is keeping summer in the forecast for a while

longer The National Weather Service at Midland Regional Airport is calling for fair skies tonight through Thursday with breezes expected to be a balmy 5 to 10 mph from the southeast.

The mercury should dip into the upper 60s tonight, but rise into the low 90s on Thursday, the weatherman said.

Record high for an Aug. 28 is 102 degrees set in 1964, about eight degrees warmer than the 94 degrees recorded Tuesday. The overnight low today was 66 degress, much warmer in comparison to the record low of 57 degrees set in 1930.

No precipitation has been recorded in the last 24 hours, keeping the monthly tab at 2.15 inches and the yearly total at 12.18 inches.

Skies throughout the Permian

lashed by gale winds and heavy rains late Tuesday and early today but the main body of the storm passed well to the north, and there were no reports of casualties or serious damage. Martinique residents reported by telephone that heavy wind-whipped rain had been falling since the early morning hours.

The weather service said the hurricane was expected to maintain its current speed and direction for 24 hours more. That would put it just south of Puerto Rico and the Virgin Islands by Thursday morning. Forecasters said it was still too early to tell whether David would reach the United States.

A hurricane warning also was posted for the French island of Guadeloupe, north of Dominica. Warnings were discontinued for the islands of St. Lucia, St. Vincent and the Grenadines, as well as Barbados. All are in

summer weather still forecast

Basin were clear early today. A stalled tropical depression continued to dominate Texas weather patterns early today, as showers and thunderstorms dumped more rain on far South Texas overnight and during

the morning. The tropical depression came ashore Monday but moved back over the Gulf of Mexico late Tuesday, and rainfall amounts in South Texas were generally less than one inch.

However, the National Weather Service has issued a flash flood warning for the lower Rio Grande Valley since there was a strong likelihood the rains would continue in that area. For the rest of Texas, skies were

mostly clear, except for low clouds forming between Del Rio and Victoria, and patchy fog in the Houston area before sunrise.

The forecast mentioned a chance of rain for every part of the state except North Texas, which was supposed to remain clear.

10

the Lesser Antilles, the island chain curving south from Puerto Rico to the north coast of South America.

David's top winds dropped Tuesday evening from 150 mph to 140. But the weather service's midnight advisory said the weakening trend did not continue, top winds were still 140 mph, and "David is still a very dangerous hurricane."

The storm center passed more than 60 miles away from Barbados, the Caribbean's easternmost island. With the hurricane-force winds extending out 50 miles, "that gives us a buffer of about 10 miles," the head of the local hurricane relief organization, Sir Carlisle Burton, said Tuesday.

But Bridgetown, the capital, looked like a ghost town Tuesday after a spokesman for the U.S. National Weather Service warned that David. the second Atlantic Ocean hurricane of the season, could be one of the worst storms in the history of the Antilles.

Tourists stayed in their hotels. Residents boarded up their homes and stores. Small boats were moved to sheltered harbors. The airport was closed.

The governor of Puerto Rico, Carlos Romero Barcelo, warned his islanders that David might hit them. too, and called his Cabinet and key government officials together to plan for a possible emergency.

# Surprise, Surprise: Margaret Thatcher makes unexpected visit

gator.

Store.

7 PLAZA CENTER

**BELFAST**, Northern Ireland (AP) - Prime Minister Margaret Thatcher made a surprise trip to Northern Ireland today to talk with security chiefs and about the Irish Republican Army's new bombing campaign and the threat of a Protestant backlash.

Mrs. Thatcher made her first visit to the embattled province as prime minister as both her cabinet and that of the Irish Republic met to tighten security in the wake of the IRA slaying Monday of Lord Mountbatten, three companions on a boating trip and 18 British soldiers.

Meanwhile, a Protestant guerrilla organization pledged revenge on the IRA, and a few hours later a Roman Catholic was killed on his Belfast doorstep.

As forces of the Irish Republic and Britain hunted for the IRA bombers who blew up Britain's famed soldierstatesman and two truckloads of troops two days ago, the outlawed Ulster Freedom Fighters declared in a statement delivered to local newspapers: "In view of the latest wave of Irish Republican Army attacks, we will resume hostilities against known IRA men.

**Tuesday evening Patrick John** Hardy, whose brother was killed during riots in Belfast four years ago, was shot and killed by two men who escaped on a motorcycle. Six of the man's 10 children were inside the house

Hardy was the 24th person killed in Ireland this week as a result of the

Survivors include a daughter, Gale E. Walton of Midland; two sisters, Nancy Dillow of San Angelo and Mrs. three brothers, D.D. Lee of Eola, Barney Lee of Chihuahua City, Mexico, dren and 11 great-grandchildren,

10-year-old war in Northern Ireland. Northern Ireland's biggest legal paramilitary Protestant organization also threatened to take up arms. The Ulster Defense Association, said it would be "compelled to take the law into its own hands" unless British

forces rounded up more IRA men. The UDA demanded the dismissal of Mrs. Thatcher's cabinet minister for the province, Humphrey Atkins, because he has been on a vacation in Tunisia this month, the traditional time for sectarian rallies and militant speeches in Northern Ireland.

Militant Protestants have long complained that the British government is "soft" on the IRA to get Catholic support for a power-sharing political solution which the Protestants reject.

Atkins visited Northern Ireland Tuesday, then reported to Mrs. Thatcher and other key members of her Cabinet in London. Official sources said army and police commanders in Northern Ireland were instructed to seek ways of tightening security, but there were no plans to increase the 13,500 British troops stationed in the province.

In Britain, Scotland Yard chiefs also were trying to persuade government leaders and other likely targets for the IRA to accept bodyguards.

The Irish Cabinet was to meet in special session today to discuss the situation. But Irish Prime Minister Jack Lynch did not advance his scheduled return Thursday from a vacation in Portugal.

The IRA, fighting to drive the British from Protestant-dominated Northern Ireland and unite it with the Catholic Republic, made a new attack Tuesday in Brussels, Belgium. It bombed a stage where a British army band was about to perform, injuring 11 spectators and four bandsmen.

Police in Sligo, Ireland, said they were optimistic about the search for

owner of the liquor store.

Results of an autopsy performed Monday night showed Starritt had been shot twice in the head and Mrs. Taylor had been shot once in the back, officials said.

The bodies of Starritt and Mrs. Taylor were found near each other, officials said.

Taylor's body was found near the front of the store with a single bullet wound to the chest, officials said.

Powder burns on his chest indicated he had been shot at very close range.

Investigators said they believe Taylor shot himself.

All three were apparently shot with a .30-.30 caliber rifle which was lying near Taylor on the floor of the liquor store, officials said.

Neither money nor liquor was taken from the store, officials said.

BIG SPRING - Services for H Noble Read, 92, a prominent Howard County rancher, will be at 10 a.m. Thursday in Nalley-Pickle Rosewood Chapel here with burial in Trinity Memorial Park.

He died Tuesday in a Big Spring hospital.

Read was born Oct. 24, 1886, in Rich Pond, Ky., and came to Big Spring with his parents at an early age. He attended Big Spring schools. He was married to Bonnie Belle Leatherwood Feb. 2, 1907. She died in 1952.

They first ranched near Lee's Store southwest of Big Spring and moved to a ranch northeast of Coahoma in 1909. Read resided there the rest of his life.

He was a former director of the State National Bank and a member of First Presbyterian Church. He was married to Jennie Coleman June 6, 1953, in Big Spring. She died Jan. 14, 1977.

Survivors include three sons, C.D. Read of Big Spring, Hezzie Noble Read Jr. of Coahoma and Roger Read of Las Vegas, N.M.; two daughters, Sue Read of Big Spring and Jane Sanders of Bowie, 11 grandchildren and 19 great-grandchildren.

# Khomeini orders rebellion crushed, despite overtures

TEHRAN, Iran (AP) - The state news media today reported new fighting and executions in western Iran, even as a delegation of Kurds talked with government officials here about ending the Kurdish rebellion. Iran's interior minister reported agreement on a crucial point in the talks, but a prominent Kurd disputed that.

The Kurds, who have a different language than Iran's Persian majority and belong to a different Moslem sect, have been fighting for autonomy in their home provinces in mountainous western Iran. After government troops crushed a rebellion in the town of Saggez last weekend and appeared poised to move on the Kurdish stronghold of Mahabad, a delegation from Mahabad went to Tehran to discuss ending the fighting.

Today, however, state radio reported that the military garrison in the Kurdish town of Jaldian was attacked for six hours Tuesday night by "KDP (Kurdish Democratic Party) members with heavy weapons" and one sergeant was killed. The radio said the garrison's power and water supplies were cut off, but gave no further details.

shem Sabaghian said talks with the Kurdish delegation, from Mahabad's city council, had produced agreement that the army will enter Mahabad when the government deems it necessary and "the decision is entirely up to the government." He claimed over state radio that the Kurds "agreed that the army has to enter Mahabad and take hold of the city's security."

A KDP official reached by telephone in Mahabad disputed Sabaghian's claim. "I am certain the goodwill delegation has not agreed to the army entering Mahabad. Not one person in Mahabad is willing to agree to the army entering the city," he said, adding that state radio "is distorting reports of the negotiations." Sabaghian said no date has been set yet for the army to enter Mahabad.

On Tuesday, Khomeini issued new orders to crush the Kurdish rebellion and reports of executions mounted. He sent Moslem cleric Hosseini Kermani on a fact-finding mission to Kurdistan with orders to "crush the outlaws if need be," Tehran Radio reported

# Crude may have hit Laguna Madre

#### **By GREG THOMPSON**

CORPUS CHRISTI, Texas (AP) -Coast Guardsmen fighting runaway oil from a blown-out Mexican well today faced the renewed threat of a tropical depression and evidence that oil had entered the ecologically delicate Laguna Madre.

The depression, which had appeared to be spending itself in northern Mexico, unexpectedly moved offshore late Tuesday, and scientists said it could strengthen if it remains over water.

The Coast Guard feared Monday that the depression, with sustained

winds of 35 mph and gusts to 50 mph, would intensify into Tropical Storm Elena and swamp the floating barriers that protect the lagoon.

That sensitive 100-mile-long lagoon harbors rare wildlife and serves as a breeding ground for shrimp and other commercial marine species.

The depression veered inland about 80 miles south of Texas late Monday, and National Weather Service scientists who had said it could go back over water acknowledged toat Tuesday's shift was unexpected.

"We are essentially back to where we were Monday. It is not as strong as it was then, the winds are only 15 to 25 mph. If it stays over water there is a better chance of it strengthening,' said Coast Guard spokesman Jim McGranachan.

Coast GUARD OFFICIALS RE-PORTED Tuesday night that concen-trations of oily tar balls were found on the delicate Long Island in the southern Laguna Madre. The oil was apparently driven into the lagoon Monday when the area was lashed by the outer edges of the depression.

Scientists said they will not be able to gauge the environmental impact until the situation can be studied.

On Tuesday, scientists had reported a monstrous patch of oil, up to 15 miles wide and at least 30 miles long, looming just below Brownsville and appearing ready to further devastate the tourist industry on the busy Labor Day weekend.

The multimillion-dollar tourist industries at both ends of Padre Island have been hit hard by the massive spill from a still-spewing offshore Mexican well. Tourism is off at least 50 percent at South Padre Island, the area's major resort.

More than 83 million gallons of crude has spilled from the Ixtoc I test offshore well that blew out June 3, spewing 1.25 million gallons of oil a day into the Bay of Campeche, 500 miles south of Texas.

# Opener finals

Harvey E. Yates Co. of Roswell, N.M., No: 1 Travis-State communitized has been completed as a Pennsylvanian discovery in Eddy County, 10 miles southwest of Loco Hills.

The operator reported a 24-hour potential of 412 barrels of 45-gravity oil and 8 barrels of water, with a gas-oil ratio of 1.100-1.

The flow was through a 24/64inch choke and from pay behind perforations at 9,816-9,862 feet, after 6,000 gallons of acid.

Total depth is 11,061 feet and 5.5-inch pipe is set on bottom. Plugged back depth is 10,538 feet

The operator requested Travis (Pennsylvanian) as the designation for the new pool. The Pennsylvanian was

topped at 9,260 feet and the Canyon was hit at 9,796 feet on ground elevation of 3,586 feet.

Other tops incude the San Andres, 2,660 feet; Wolfcamp, 8,260 feet, Atoka, 10,296 feet and Morrow at 10,645 feet.

The location is 5/8 mile southwest of Empire, South (Morrow gas) production and 1,780 feet from south and 2,080 feet from west lines of section 13-18s-28e.

#### **EDDY FIELD AREA**

Amoco Production Co. No. 1-18 Teledyne (formerly No. 1-J) has been completed from the Atoka in Eddy County, five miles northeast of Loving.

It is two miles northeast of the Atoka gas opener in the Culebra Bluff area.

Operator reported a daily flowing potential of 2,100,000 cubic feet of gas, through a 25/64-inch choke and perforations from 11,862 to 11,880 feet after 2,000 gallons of acid.

Site is 1,800 feet from south and 2,180 feet from east lines of section 18-23s-29e.

No. 1-5 University will be drilled as a

Pennsylvanian project in the Bakke

multipay area five miles south of

HNG Oil Co. of Midland spotted

announced location for a 10,000-foot wildcat in Howard County, 10 miles north of Big Spring.

It is No. 1 Mildred Cree, 1,980 feet from south and west lines of section 25, block 33, T-2-N, T&P survey. There is no nearby production. It is one and one-quarter miles east of an 8,959-foot dry hole.

camp. The location is 1,980 feet from north and east lines of section 5, block 1, University Lands survey. Contract depth is 9,500 feet. The site is one location southeast of Wolfcamp production. It is two and one-quarter miles southwest of a shut-in Pennsylvanian well.

# Deadlock on Mexican gas sale to be discussed today

#### **By MARJORIE MILLER**

MEXICO CITY (AP) - Undersecretary of State Warren Christopher meets with Foreign Minister Jorge Castaneda today to break the deadlock in the negotiations for the sale of Mexican natural gas to U.S. compan-

U.S. officials said Christopher and Castaneda would also discuss other issues between their governments. But it was thought unlikely that the American would jeopardize his chances of getting the gas negotiations going again by bringing up President Jose Lopez Portillo's refusal to discuss Mexico's sharing the cost of the cleanup of the Mexican oil spill that is polluting the Texas coast.

State Department officials in Washington said the Carter administration hopes a natural gas agreement can be reached before Lopez Portillo goes to the United States next month to meet with President Carter and address the United Nations.

The U.S. and Mexican negotiators have met at least six times since February tryimg to agree on amounts, price increase clauses and the duration of a coptract. No agreement has been worked out so far.

1977, plans called for the export of 2 billion cubic feet a day, but now Mexico says the shipments more likely

# Duncan

#### **By JOANNE D'ALCOMO**

BOSTON (AP) — Energy Secretary Charles W. Duncan has told governors of the energy-sensitive Northeast he will make sure their constituents have enough heating oil this win-

Duncan, who was sworn into office Friday, was in Boston Tuesday to meet with nine Northeast governors for the first time.

"We intend to see that the Northeast doesn't have oil problems this winter," Duncan said. "I'll exercise the authority I have to make sure that doesn't happen.'

Duncan said he will push for congressional approval of a bill to store 10 million barrels of the U.S. Strategic Petroleum Reserve in New England,

will include talks with Lopez Portillo, will be about 300 million cubic feet a day because Mexico needs more gas Castaneda, Pemex Director Jorge Diaz Serrano and other officials. He for its own development.

Mexican officials also want a higher price for the natural gas than the \$2.60 per 1,000 cubic feet provided for in the pact cancelled by the Carter administration in 1977. That agreement was negotiated by six private U.S. companies and Pemex, and the U.S. government said the price was too high. Mexican oil officials say the price should be \$3.15 per 1,000 cubic feet.

Saudi Oil Minister Sheik Ahmed Zaki Yamani also was due in Mexico City today "to exchange views on options for international energy negotiations" and other topics with Mexican officials, the Foreign Ministry announced. Mexican officials said Yamani's three-day visit to Mexico

# AAA says fuel adequate

HOUSTON (AP) - In its final weekly fuel availability report for the summer, the American Automobile Association says Texas motorists should have no difficulty finding gasoline over the Labor Day weekend.

The AAA's Texas Division said Tuesday supplies are now so ample it will return, starting Sept. 21, to its normal schedule of surveying service station operating patterns only once a month.

The report said supplies the last week of August are in sharp contrast with similar weeks in June and July when heavy declines were reported.

Of the 421 stations participating in the final survey, however, 7 percent reported being out of at least one grade of gasoline, compared with 5 percent last week.

The AAA said Texas gasoline prices have increased about 30 cents a gallon since Jan. 1 but rose by only a half cent a week during August as opposed to a cent a week in June and July.

The state's highest price averages now are for premium unleaded, 98.6 cents a gallon full-service and 96.6 cents self-service.

The AAA said 66 percent of the stations surveyed plan to operate on Labor Day, 38 percent on Sunday, and 44 percent Saturday night.

About 30 percent reported they now operate weeknights after 8 p.m

Improved night and weekend availability was indicated for the Dallas-Fort Worth area and in San Antonio, but slight declines were reported for Houston, Austin, and Waco.

#### MARTIN TESTER

Rial Oil Co. of Midland spotted a 9,400-foot wildcat, No. 1 Buck Baker, 1/2 mile south of Ackerly in Martin County

It is one location east of production in the Ackerly (Dean oil) pool and 660 feet from north and 1,980 feet from east lines of section 15, block 34, T-3-N, T&P survey.

#### STONEWALL PROJECTS

Another Midland operator, Adobe Oil & Gas Corp., staked locations for two wildcats in Stonewall County.

The No. 1 Clements, a 6,650-foot explorer, is eight miles west of Aspermont and one and three-quarter miles northwest of a 6,673-foot failure and 5.5 miles west of the Fuzz (Strawn oil)

The drillsite is 1,980 feet from south and west lines of section 276, block D, **H&TC** survey

The ground elevation is 1,924 feet.

Adobe No. 1 Hinze will be drilled as a 6,000-foot wildcat 12 miles west and slightly south of Aspermont.

Location is 1,980 feet from south and west lines of section 341, block D, H&TC survey and 2.5 miles southwest of a 6,750-foot dry hole. It also is 4.5 miles northeast of the depleted Double Mountain, West (Fry sand) field which produced at 3,804 feet.

#### COKE WILDCAT

Joseph F. Corpening of Fort Worth spotted a 5,200-foot wildcat in Coke County, four miles north of Robert Lee.

Slated as No. 1 Nutter, it is on the north edge of the depleted Munn (Canyon) field and 1,775 feet from south and 1,778 feet from west lines of section 381, block 1-A, H&TC survey. Ground elevation is 2,018 feet. The depleted Munn discovery, J.B. Randle No. 1 F. C. Wojtek, was completed in 1954 through perforations from 4,-913 to 4,956 feet.

#### TOM GREEN TEST

**Texcan Resources Corp. of Houston** No. 4 Johnson is a 5,300-foot wildcat in Tom Green County, six miles north of Christoval.

The prospector is 2,099 feet from south and 1,200 feet from west lines of John Craddock survey No. 1. Ground elevation is 2,008 feet.

The drillsite is one location northwest of Christoval, North (Palo Pinto gas) production. That pay produces at 4,682 feet.

The 5,300-foot contract will allow for tests in the Strawn.

The project also is one location north of the field's Palo Pinto oil discovery which produces at 4,708 feet.

#### **ANDREWS WORK**

Three projects, including two reentry operations, have been announced in proven field areas of Andrews County. Estoril Producing Corp. of Midland

#### \*\*\*\*

Andrews.

Amoco Production Co. will re-enter its No. 49 Midland Farms Deep Unit, former Ellenburger and Fusselman producer in the Midland Farms, West field, and test for production in the Devonian. The field has three Devonian wells, all shut-in.

The operations is one and oneeighth miles northeast of one of the shut-in wells and 640 feet from north and 1,297 feet from west lines of section 1, block 42, T-2-N, G&MMB&A survey, 11 miles southeast of Andrews.

Total depth is 12,715 feet. The Devonian is productive at 11,080 feet. \*\*\*\*

The Superior Oil Co. announced plans to re-enter an Ellenburger dry hole in the Block 12 (Yates gas) area of Andrews County and test for completion in the Yates gas pay. It is No. 3-12-F University.

Tests will be made above 4,200 feet. The project originally was drilled in the Block 12, East (Ellenburger) pool.

It is one location south of Yates gas production and 550 feet from north and 1,775 feet from west lines of section 26, block 12, University Lands survey and 20 miles west of Andrews.

with the i ossibility of adding 10 million barrels later.

He also recommended that families "go ahead and convert to natural gas" in view of what he called a "tenuous" oil supply situation. In his second full day on the job,

Duncan met privately with governors from the New England states and New Jersey, New York and Pennsylvania. The meeting was called at his request.

One of the governors' major complaints was that their constituents may not be able to pay for home heating oil this winter - even if there is enough of it.

In response, Duncan said the Carter administration will seek a \$150 million appropriation from Congress to help low-income families pay fuel bills. So far, a committee has approved \$250 million in aid.

should be less emphasis on the 240 million barrels of heating oil promised by the administration and more emphasis on delivering it in

primary storage (of oil) if it has to be barged on a frozen canal," said New Jersey Gov. Brendan Byrne.

Duncan's presence in the Northeast impressed the governors, many of whom had been critical of his predecessor, James Schlesinger.

"I think we're moving towards an said Vermont Gov. Richard Snelling.

Former N.Y. polieceman studies police brutality

WASHINGTON (AP) — Jim Fyfe is a powerfully built man standing well over 6 feet tall. He drinks beer and smokes cigars and spins out endless tales of the violence and pathos and yes, the humor, of enforcing the law for 16 years in New York City. Not long ago, Fyfe traded his .38caliber Special and police lieutenant's

Not long ago, Fyfe traded his .38caliber Special and police lieutenant's badge for a Ph.D. Along the way, he studied police brutality and how to curb it.

His conclusions may hold lessons for many cities troubled by mounting complaints that police officers shoot, maim and sometimes kill citizens in unnecessary displays of force. Fyfe found that a policy change at the top, made clear to officers at all levels and strictly enforced, can "drastically reduce" the frequency of police shootings at citizens.

That sort of policy change is what the Justice Department hopes to accomplish with its unprecedented federal court suit against the Philadelphia police department. After Houston police made policy changes, Justice Department officials decided it was unnecessary to file suit there, Attorney General Benjamin Civiletti said recently.

Police critics in Houston and elsewhere argue that a restrictive policy

alone cannot wipe out use of unnecessary force by police. In 1972, Police Commissioner Pa-

trick V. Murphy imposed a policy that:

-Reminded officers "to preserve and protect life wherever possible." -Instructed them to employ "only

the minimum amount of force" necessary to accomplish a mission. —Prohibited officers from firing a

gun "where lives of innocent persons may be endangered."

-Prohibited firing at a moving vehicle.

-Stated that officers carry guns "for personal protection against persons feloniously attacking an officer or another at close range."

Before then, officers had been guided only by a vague law allowing shooting to defend life or to apprehend an escaping suspect charged with a serious crime. That is the tradition in American policing

tradition in American policing. The practice of shooting at fleeing felons has produced much of the current controversy, particularly when the suspect turns out to have been innocent.

The Murphy policy also required officers to file lengthy written reports every time a gun was fired and appointed high-level police officials to a

icer Firearms Discharge Review Board to judge the propriety of each shooting. The policy, with only minor changes, remains in effect today.

----

changes, remains in effect today. Examining the records, Fyfe found that 831 officers were involved in 630 shooting incidents in 1971. The figures

shooting incidents in 1971. The figures rose in 1972 to 1,051 officers and 803 incidents, though there was a sharp drop toward the end of the year after the new policy was imposed. But in 1973, Fyfe reported, the num-

bers dropped to 777 officers involved in 574 incidents. The incidents continued to fall, so that by 1978, only 491 officers were engaged in 372 shootings, and almost half of these involved shots fired accidentally and those fired to kill stray animals.

Fyfe said the type of incidents that declined most were the shootings at fleeing felons.

New York police, of course, still face periodic allegations of unwarranted shootings at citizens.

The Justice Department announced Monday that it had ordered an investigation into the police shooting last week of 26-year-old Luis Baez. Twenty-four shots were fired, and 16 hit Baez.

Police say Baez attacked them with scissors, but witnesses say the shots were not provoked.
