None injured when tornado hits Houston

HOUSTON (AP) - A tornado aimed its scatter gun fury at an affluent, heavily populated residential area on Houston's west side, destroyig 10 homes and damaging 40 others but causing only minor injuries and no deaths, authorities said.

"There was this terrific noise and all the windows blew out at one time," said Susan Whitworth, 27. "The front doors blew off their hinges and the brick living room wall was completely blown in.

The twister dipped down in the Country Village subdivision late Tuesday afternoon, wrecked a house on one block, then skipped to another area to continue its destruction.

There was no immediate estimate of damage to the approximately 50 homes in the stricken area off the Katy Freeway. But John Caswell, the Harris County assistant Civil Defense director, said 10 of the houses were destroyed.

He said about 20 familes were left homeless by the twister, but found shelter with friends and relatives.

Another tornado touched down Tuesday in Brazoria County, south of Houston, causing \$15,000 damage to a business office and slightly damaging several homes, a sheriff's department spokesman said.

A third tornado ripped roofs off of mobile homes, overturned a car and blew out windows and doors in several houses northwest of Houston in Harris County Tuesday afternoon.

There were no reports of injuries. The twisters were spawned in clouds that soaked the Houston area with a day long rain that caused street flooding in some areas. Emergency vehicles en route to the scene also were hampered by the snarled rush-hour traffic

Police closed the area to all but residents Tuesday night in a securitymeasure to prevent looting.

'It only lasted a couple of minutes, but now everything is gone, all my china, all my furniture, all gone," said Nancy Weissler, 24, who had moved into her home three weeks

Meanwhile, gale winds gusting to 86 mph, heavy rain and high tides buffeted Corpus Christi and other areas of the Texas Gulf Coast today, forcing some evacuations of housing and business districts.

No injuries were reported. Police used high-profile buses to evacuate residents in three sections of Corpus Christi, including a public housing project where officers had to wade in and use bullhorns to warn residents of rising waters.

Nearby Aransas Pass recorded 12.65 inches of rain since Tuesday morning, with 8 inches falling since

midnight. An official wind gust reading of 65 mph was recorded at Port Aransas. but a private source in the same area reported gusts to 86 mph.

The storm was spawned by a small, non-tropical low pressure system off

Several roads in the Corpus Christi area were closed to traffic, including U.S. 181 north of the city, where the highway spans Nueces Bay.

The Leathers public housing project was hardest hit, although an affluent area known as Hidden Cove also was partially evacuated.

The central-city business district known as Six Points had water four feet high flowing through the streets.

The Corpus Christi Marina, located at the foot of the downtown area in the city's picturesque bay, was under water and closed. Swollen bay waters posed no threat to the downtown area.

Houstonite Joe Termina takes comfort in briefly hugging his 6-year-old son Joey after a tornado heavily damaged their home in west Houston. The twister did major damage to about 20 homes and apartments in the fashionable neighborhood, but no one was

U.S. military due build-up, but gradually

WEDNESDAY, SEPTEMBER 19, 1979

WASHINGTON (AP) - Administration planners intend to build a new 'rapid deployment' military force to face the possibility of aggressive moves by a new generation of Soviet leaders.

"We mean to build up slowly to be ready for the problems of the 1980s-and 1990s," said one administration official. "I don't see it as a crash

This official, who asked to remain anonymous, said the United States should have the capability to send "significant forces" swifty into areas where the United States does not maintain a continuing military pres-

Looking beyond aging Soviet Premier Leonid Brezhnev and his generation of Russian leaders, administration planners say they are concerned that Brezhnev's successors may be inclined to follow a bolder

policy in projecting Soviet influence and power around the world. One of the strongest supporters of the "rapid deployment force" concept is Zbigniew Brzezinski, President Carter's national security ad-

Brzezinski told reporters Tuesday that "we need to compete with the Soviets assertively in those parts of the world wherever the Soviets impose on us such a competition either directly or indirectly.

Brzezinski is concerned by what he perceives to be an increasing tendency by the Soviets to exert their power in the Middle East, Africa, and the Caribbean area, using Cubans as proxies.

Acting on Carter's orders, Pentagon staff officers have been developing plans for a force of up to 100,000 troops which could, in emergencies, be airlifted from the United States to regions such as the oil-producing Per-

Administration officials stressed they are contemplating a broader scope for such a force than the Persian Gulf or Middle East. They said they anticipate a great deal of turbulence and violence in coming decades in the Third World, including Africa, Latin America and Southeast ASIA.

Army chiefs are planning a force of about three divisions thatocan sustain itself without reinforcement for 60 days in a remote area. The Army would deploy smaller units if a particular crisis situation warranted a less-

Gen. Edward C. Meyer, Army chief of staff, said Monday a headquarters and planning staff for a rapid deployment force will be "well on the way to reality" early next year.

Administration officials suggested the possibility of limited exercises and the "pre-positioning" of some equipment for the force overseas while it is taking shape.

One of the problems which must be solved is a shortage of strategic airlift capable of hauling large shipments of heavy weapons, ammunition, equipment and supplies over long distances.

This is a high priority Pentagon program, but experts say it will take s of millions of dollars to comple

\$10.2 million school bond issue set for Oct. 23

By SUSAN TOTH Staff Writer

Midlanders will be asked to approve \$10.2 million in school bonds Oct. 23 for items school trustees call "the bare necessities."

Passage of the bond issue, officially called at a special meeting of the school board Tuesday, will cost Midlanders an extra 6.6 cents on their tax rate next year, with the average tax increase over the 15-year life of the bonds about five cents.

About half the \$10.2 million will be earmarked for Midland High School expansion and renovation.

Lee High School will get another \$1.27 million, while an elementary school in the growing northwest section of Midland will account for \$2.1 ments of the expansion, trustees million.

Vocational facilities will require \$431,000, and \$844,600 will go for other capital improvements in the bond plan outlined by the board Tuesday. A million dollars of the \$5.5 million

going to Midland High School will be used for land acquisition next to the The board plans to purchase the 13

remaining pieces of property next to the campus to expand the athletic practice fields and build a \$2.4 million athletic facility.

Another half-million dollars will be used to remodel the current Midland High gym into a library-learning center, one of the more essential ele-

District officials plan to spend \$300,-000 on a Midland High boiler house and the remainder of the \$5.5 million for such items as reroofing, auditorium refurbishing, swimming pool renovations and an overhaul of the air

conditioning system. Almost half the \$1.27 million set aside for Lee High School will be used for a \$500,000 vocational agriculture farm project area.

Lee students now have to drive to the Midland High facility for their farm projects, trustees have noted, and travel time takes most of the class period.

Other major items on tap for Lee include \$313,000 for air conditioner and boiler replacements, \$122,000 for acquiring the vacant strip of land across Neely Avenue from the school and paying it for a parking lot and \$110,000 for reroofing.

Other vocational facilities included in the bond election are a \$148,500 CVAE facility at Goddard Junior High School, a \$108,000 addition to the CVAE and industrial arts shop at San Jacinto, \$26,000 for a CVAE horticulture greenhouse at Midland Freshman School and \$148,500 for a building trades facility to be shared by both high schools.

The \$844,600 planned for other capital improvements will be spent on basics such as reroofing four schools for \$210,500, replacing incandescent

elementary schools for \$145,000 and replacing heaters in 11 elementary

schools for \$160,000. Other major capital expenditures include \$134,700 worth of lockers for five schools, \$36,200 to recover 6,580 seats at the stadium, \$44,000 to pave or sealcoat parking lots and \$30,000 for resurfacing tennis courts at four

Trustees said they were optimistic the all-or-nothing, one-item bond package would appeal to voters, despite the recent defeat of two-thirds of the city's \$16.83 million bond re-

The tax increase needed to fund the bond package is modest, trustees

lights with fluorescent fixtures in 16 said Tuesday, even based on a steady rather than growing tax base.

The 4 percent average increase over the 15-year life of the bonds is projected on the current value of property in Midland, Trustee Joe Dominey noted.

"If we assume an increase in the tax base from increasing residential and industrial growth, the increase will actually be less," said Dominey.

"I think we've done our homework and the need is there," Trustee John-ny Warren said. "I'm optimistic (about the chance of the bonds passing) because Midland is a progressive town. I think we can show the citizens there is a real need and they will go along with us.'

Americans undecided about wage, price controls

But they are clear in criticizing Carter's guidelines as inefficient

NEW YORK (AP) - Americans are split on the wisdom of mandatory wage and price controls, mainly because they doubt such measures would control inflation, an Associated Press-NBC News poll says.

But the public clearly doesn't think the Carter administratpon's voluntary wage and price guidelines are succeeding in slowing the inflationary spiral as evidenced by the fact that a majority expects more inflation in the

Those voluntary guidelines are now undergoing a major restructuring, with an announcement of the new rules expected about the end of the

Questioned directly on wage and price controls, 46 percent favored such measures, while 44 percent opposed them. Ten percent of the 1,599 adults interviewed nationwide by telephone Sept 10 and 11 were not

Because of the error margin inherent in any sample survey, the 46-44 finding can only be called an even split in public opinion. It is not possible to say with assurance that the public favors wage price controls.

The latest finding shows a very slight weakening of support for mandatory controls. In the April AP-NBC News survey, the public split 49-43 in

favor of controls, with 8 percent unde-

A major reason Americans aren't too hot for controls is that they don't think such measures would work. Only 33 percent of those questioned said wage and price controls would succeed in controlling inflation while 53 percent said such measures would fail and 14 percent were not sure.

The responses to these questions are directly related.

Facts about the poll

NEW YORK (AP) — Interviews with 1,599 adults across the country Sept. 10-11 were the basis for the Associated Press-NBC News poll on mandatory wage and price controls.

Telephone numbers for interviews were chosen at random in a manner that assures every household in the country with a telephone a roughly equal chance of being selected. A procedure was used in the interviewing to assure the proper balance of

male and female respondents.

Green monster seeds to sell for just \$100 a dozen

HOPE, Ark. (AP) — Seems like you can't buy anything cheap anymore. Ivan Bright and his son Lloyd plan to sell their watermelon seeds for \$8.33 each, or eight for \$50, or a dozen for

But these aren't just any old seeds They come from the Bright's 200pound melon that eclipsed the 197pounder listed in the 1979 Guinness Book of World Records. Hope city officials certified the melon's weight

after it was picked late last month. The Brights are preserving the monster melon in a cool room until the Arkansas State Fair at Little

Rock later this month.

Ivan says he will cut the melon at the end of the fair. With an estimated 600 to 700 seeds inside his beauty and people reportedly lining for a share, he hopes to make more than \$5,000.

But that won't necessarily make

Ivan Bright a happy man. The Hope Advertising and Promotion Commission had offered a \$10,000 prize for a 200-pound melon at the Hope Watermelon Festival. Bright's melon didn't reach 200 pounds until 33 hours after the contest deadline

favor such measures by a 77-18 margin. Those who don't think controls will work are opposed to mandatory government actions by a 64-29 edge.

As September opened, the public didn't think much of the voluntary guidelines.

Sixty-one percent said they expect inflation to get worse in the next year, while only 9 percent expect the pace of rising prices to slacken. Twentyeight percent expect inflation to re-

Those who think controls will work main at current levels and 2 percent were not sure.

Thus, more than three out of five Americans continued to believe inflation is still out of control.

For polls with about 1,600 interviews, the results should vary no more than 3 percentage points either way simply because of sample error. That is, if one could talk to all adults in the country, there is only one chance out of 20 that the results would vary from the findings of this poll by more than 3 percentage points.

United Way schedules **Kick-off Fair Saturday**

Midlanders will have the opportunity Saturday to find out how their United Way of Midland contributions work in the community. The United Way Kick-off Fair will be held from 10 a.m. until 2 p.m. in

Staff members and volunteers from the 19 United Way agencies in Midland will be on hand to inform Midlanders about the work of each agen-

cy and to help kick off the general campaign for 1980. Formal ceremonies will begin at 11 a.m. This will be followed with short presentations by the agencies and a performance by the rock group

'Thunderhead.' Kick-off of the general campaign also signals the end of the pilot campaign of 15 Midland firms which agreed to be pacesetters for the general campaign.

The pilot firms this year include Adobe Oil and Gas Corp.; Atlantic Richfield; Elcor-Ortloff Corps.; The First National Bank; Fox, Westheimer & Co.; Getty Oil Co. and Lynch, Chappell, Allday & Aldridge. Other pilot firms included Midland National Bank; The Midland

Heroin offered, attorney claims

SAN ANTONIO, Texas (AP) - An FBI agent offered heroin to three persons in exchange for their cooperation in his investigation of a 1977 slaying in the Bexar County Jail, the defense attorney for a fired jail captain has claimed in federal court.

Attorney Oscar Gonzalez said in a pretrial hearing Tuesday that the agent. Joe Davis, made the offers to three persons subsequently charged with criminal civil rights violations in

Julian de la Rosa, assistant agent in charge in the San Antonio FBI office, declined Tuesday night to comment on the allegation. Davis has also declined comment.

Eight persons are charged with civil rights violations in the September 1977 death of Hugo Ellis Saenz. Saenz, who was awaiting trial on charges of killing the sister of Robert

Riojas, was slain in his jail cell. Four of Saenz' fellow inmates Johnny Rodriguez Salinas, Eddie Rivera, Martin Reyes and Felix Ricondo - have been convicted of state charges in the slaying and another, Jose Luis Maldonado, still faces

The federal civil rights indictment charges Saenz was killed in a revenge plot masterminded by Riojas.

The indictment charged Riojas arranged for the killing, offering money, drugs and legal assistance in exchange. McRae and former jail Sgt. Richard Ramos are charged with

More DC-9s discovered to have cracks in tail

NEW YORK (AP) - Two more Air Canada DC-9 of DC-9s jetliners have been found to have cracks like one which caused a tail cone to blow off in a near disaster over the Atlantic Ocean earlier this week.

Meanwhile, it was disclosed Tuesday that the problem with the DC-9s has been known to the Federal Aviation Administration for three years, and the FAA approved modifications on the planes of other airlines to fix the problem. Texas International revealed in Dallas that after

discovering cracks in the tail section of one of its DC-9s three years ago, engineers developed a "doubler" to strengthen the tail section and reduce the problem to one of routine maintenance.

Texas International spokeswoman Peggy Dyer said that after the airline got FAA approval to install the doubler, it was put on "all of our aircraft."

A spokesman for Air Canada, Steve Pisni, said he was unaware of any notification from FAA on the DC-9 problem but that Air Canada was told in 1976 by the manufacturer, McDonnell Douglas Inc., of the possibility of cracks in the rear pressure bulkheads

Rescuers continue efforts to reach crash survivors

PORT McNEILL, British Columbia (AP) - A saws and axes to rescue four survivors of a light plane crash about 12 miles south of this northeast Vancouver Island community.

A fifth survivor from the Tuesday crash of a twin-engine Pacific Coastal Airlines plane walked out from the crash site earlier. Four men were killed

in the accident. One of the victims was pilot Ray Crandall, 53, of Nanaimo, British Columbia, a seven-year veter-

an with the airline. Neither the identities of the passengers nor the conditions of the survivors were immediately avail-

A search and rescue center spokesman said the four survivors and four bodies were flown by helicopters late Tuesday to a hospital in Port

Steep terrain and thick brush prevented a rescue helicopter from landing at the site.

The Britten Norman Islander was on a flight to Port Hardy from Nanaimo on eastern Vancouver Island and encountered dense fog in the area of the crash site, airline President Don McGillivary said in an interview from Nanaimo.

No communication was received from the pilot because the plane was flying too low for radio signals, he said.

The search and rescue spokesman said a civilian helicopter, another belonging to the Royal Canadian Mounted Police and a third from the U.S. Coast Guard station on Whidbey Island in Washington state, took part in the rescue.

The American craft was called because other search and rescue helicopters in British Columbia were not available, he said.

The crash is the second for the Nanaimo-besed airline this year. Six persons were killed April 19 when another twin-engine plane crashed on take-off at Cassidy airport near Nanaimo.

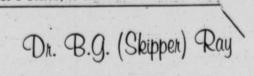

Midland's tax take ahead of last year

With September's sales tax rebate from the State Comptroller's Office added to the yearly total, Midland has registered a 12 percent increase in its rebates so far this year.

September's payment was \$567,235.89, about \$50,-000 above the September 1978 payment of \$512,732.88. This brings the yearly mark up to \$2,825,436.76. Last year at this time it was \$2,502,770.84.

The city of Odessa received a check for \$747,551.43 for September, a decrease of about \$40,000 from the \$789,083.80 received for the same period a year ago. Odessa's payments for the year are up only 4 percent, said the Comptroller's Office. This year the amount is \$3,866,760.30 as compared to \$3,683,-

523.25 a year ago The city sales tax is collected by merchants and other sales tax permit holders along with the state sale tax. It is rebated monthly, by the Comptroller's Office, to cities in which it is collected.

40 B Plaza Center Midland, Texas 79701

He said a McDonnell Douglas service bulletin at that time gave airlines the option of making the structural modification or accelerating X-ray inspection of the bulkheads.

'We chose that route (X-ray) at that time," Pisni said. "Now we're doing both.

He added that he understood some other operators of DC-9s had chosen the modification route after the

An FAA spokesman in Washington, Fred Farrar, said Tuesday that the agency was "looking into the possibility that this is a PROBLEM THAT MIGHT NVOLVE MORE THAN ONE AIRCRAFT, AND IF WE DO GET ANY INDICATION THAT IT IS A WIDESPREAD PROBLEM WE WOULD ORDER INSPECTION OF ALL DC-9s.

Later Farrar said the FAA had also notified DC-9 wners of the problem in 1976 and had, like McDonnell Douglas, "suggested" either a modification or frequent X-ray examinations

CBS News reported Tuesday that FAA computer records showed that tail cones of other DC-9s have fallen off accidentally at least six times before, although the Air Canada incident was the first time a tail cone fell off during flight

Meanwhile, the National Transportation Safety Board said the DC-9 has one of the best safety records in U.S. aviation.

Of a dozen types in general use, only the Boeing 737 and 727 had better accident rates than the DC-9, and theirs were only slightly better, the board said. In Boston, FAA probers continued their investiga-

tion of the Air Canada accident Monday, in which the split bulkhead caused about 10 feet of the tail cone to fall off. The plane returned safely to Boston. A flight attendant was slightly injured. As experts studied the Air Canada plane in Boston,

pieces of a flap broke off an American Airlines cargo plane, a Boeing 707, and rained down Tuesday over the Chicago suburb of Palatine. The plane landed safely and no one was hurt.

On Tuesday, Air Canada said a crash program of visual inspection of all its fleet of 43 Series 32 DC-9s had turned up another cracked bulkhead. The airline said that plane, checked at Regina, Saskatchewan, was grounded and was being ferried to Air Canada's main maintenance base at Dorval, Quebec.

Pisni said after the problem on the second plane was found, all planes in the Series 32 fleet were rechecked, and cracks were found in a third plane at

Eastern flight aborted

ATLANTA (AP) — An Eastern Airlines Boeing 727 with 105 persons aboard lost power in one of its three engines just after taking off from Hartsfield Airport Tuesday, but returned to make a safe landing, an Eastern spokeswoman said.

The 727 can fly on just one engine if necessary, added spokeswoman Carolyn Wills. Many passengers continued their journey to Washington on another plane, she said. No injuries were reported.

10,000 Texans may not day. "The staff has come to end. get spring scholarships

AUSTIN, Texas (AP) — An estimated 10,000 Texas college students could miss out on scholarships next spring as a result of the federal government's decision to withhold \$4.1 million in funds, says the state commissioner of higher education.

"At this time the (U.S.) Office of Education is waiting for us to throw in the towel and accept their conditions," Kenneth Ashworth said Tuesday.

'Frankly, I think we're going to lose the money."

Ashworth said the Office of Education is pressuring Texas to include 34 private non-profit institutions in the grant program, which is financed 50-50 by the state and federal government.

lied health programs dominate the list of 34, Ashworth said in a statement, and none is accredited by the Southern Association of Colleges and Schools. Federal officials have given Texas until Feb. 1 to

make more institutions eligible for the grants or lose the \$4.1 million.

Texas area forecasts

North Texas: A flash flood watch is in effect for extreme southeast today. Mostly cloudy with occasional right and scattered thunderstorms externe west today and tonight. Possible locally excessive rain over extreme southeast today. Decreasing cloudiness and a little warme Thursday. Scattered thunderstorms central and east Thursday. Highs 77 to 85. Lows 60 to 73. Highs Thursday 80s.

South Texas: Flash flood watch in effect. Rain with South Texas: Flash flood watch in effect, rain with scattered to numerous showers and thundershowers mainly near the coast and central and northeastern sections. Chance of some locally heavy rainfall. Decreasing cloudiness with showers and thundershowers decreasing from the west and north Thursday: A little warmer most sections Thursday. Highs 76 to 88. Lows 64

Port Arthur to Port D'Connor: Gale warnings are in effect from Port O'Connor to Galveston. Small craft warnings in effect from Port Arthur to Galveston. East to northeast winds 30 to 45 knots in squalls from Galveston to Port O'Connor. Easterly winds 11 to 25 knots from Port Arthur to Port O'Connor. Easterly winds 15 to 25 knots from Port Arthur to Galeston. Seas today 15 to 25 feet from Galveston to Port O'Connor and 6 to 12 feet from Port Arthur to Galveston. Numerous showers and thundershowers through Thursday.

Port O'Connor to Brownsville: Gale warnings in effect from Port O'Connor to, Corpus Christi. Small craft warnings in effect from Corpus Christi to Brownsville. North to northeast winds 30 to 45 knots in squalls from Port O'Connor to Corpus Christi. Northerly to northwes-ter winds 20 to 30 knots from Corpus Christi to Browns-ville. Winds decreasing slowly todayy and tonight: Seas 10 to 15 feet today. Numerous showers and thundershow-ers today, decreasing tonight and Thursday.

High winds, heavy rains hit Corpus Christi, coast

By The Associated Press

Gale-force winds gusting to 86 mph and blinding, heavy rain combined with extraordinarily high tides early today to swamp Corpus Christi and other areas of Texas' Coastal Bend, forcing some evacuations of housing and business districts. No injuries were reported.

Weather story still the same

The weatherman is playing the same record he's been playing the past several days: Overcast skies becoming partly cloudy with warmer temperatures.

This time, the forecast is for Thursday, according to the National Weather Service at Midland Regional Air-

Skies should become mostly fair on Thursday. But until then, a 20 percent chance of showers stays in the forecast, said the weatherman.

High Thursday should be in the middle 80s while the mercury should drop to 60 tonight.

High Tuesday was 85 degrees, while the overnight low today was 60. Record high for Tuesday's date is 98 degrees, set in 1945, while the record low for today is 46, set in 1971.

Precipitation records for the month remain stable at .01 inch and 12.21 inches for the year.

Skies were cloudy and temperatures were cool early today, according to weather watchers in other Permian Basin towns.

Police used high-profile buses to evacuate residents in three sections of Corpus Christi, including a public housing project where officers had to wade in and use bullhorns to warn residents of rising waters.

Nearby Aransas Pass recorded 12.65 inches of rain since Tuesday morning, with eight inches of that total falling since midnight.

An official wind gust reading of 65 mph was recorded at Port Aransas, but a private and reliable source in the same area reported gusts to 86

Several roads in the Corpus Christi area were closed to traffic, including U.S. 181 north of the city, where the highway spans Nueces Bay.

The Leathers public housing project was hardest hit, although an affluent area known as Hidden Cove

also was partially evacuated. The central-city business district known as Six Points had water four

feet high flowing through the streets. The Corpus Christi Marina, located at the foot of the downtown area in the city's picturesque bay, was under water and closed. Swollen bay waters posed no threat to the downtown area,

which is on a bluff over the bay. A flash flood warning was in effect for neighboring Matagorda and Brazoria counties, where rainfall accumulations up to 13 inches were re-

ported in a 24-hour period. The Colorado River was out of its banks in Matagorda County, where some evacuations of low-lying areas

were reported. A pontoon swing bridge over the Intracoastal Canal south of Matagorda Bay was reported on the verge of being closed by mid-morning.

students in semifinals

Midland

Four students from Midland High School and five students from Lee High School have qualified as semifinalists in the National Merit competi-

Midland High School students recognized for the outstanding honor are William H. Foster, son of Mr. and Mrs. Lynne E. Foster, 2512 Shell Ave.; Mark A. McMurry, son of Mr. and Mrs. M.B. McMurry, 161 Barbara Lane; Herbert M. "Mark" Stanley, son of Herbert M. Stanley Jr., 2512 Seaboard Ave., and Charles R. "Randy" Stough, son of Mr. and Mrs. C.R. Stough, 2310 W. Storey Ave.

Semifinalists from Lee High School are Leonard J. Hobbs, son of Mr. and Mrs. Leonard Hobbs, 3312 Fannin Ave.; Edward E. Jezisek, son of Mr. and Mrs. Edward Jesisek, 4513 Anetta Drive; Charles K. Osborn, son of Mr. and Mrs. Charles Osborn, 2413 Stanofind Ave.; David D. Coons, son of Mr. and Mrs. Richard L. Coons, 2508 Metz Place, and Aric V. Rohner, son of Mr. and Mrs. Thomas Rohner, 1506 McDonald St.

The students are among 15,000 of the nation's most intellectually able. Those who advance to finalist standing will be considered for approximately 4,300 Merit Scholarships to be awarded in the spring of 1980.

More than 1.1 million students enrolled in about 18,000 high schools entered the 1980 Merit Program by taking the 1978 qualifying test

Semifinalists are the highest scorers in each state, named from the top .5 percent of the state's senior class: To increase the educational opportunities of semifinalists, most of whom will complete high school and enter college in 1980, their names also are sent to regionally accredited U.S. colleges and universities

Shuttle project 'crippled'

WASHINGTON (AP) - The na tion's space shuttle program, now at least eight months behind schedule and plagued by cost overruns, has been crippled by shortsighted management practices brought on by its tight budget, according to a report for the National Aeronautics and Space Administration.

'Long-range planning has not been performed to the extent required for a program as complex as the shuttle,' said the study on the NASA project released Tuesday.

Development costs for the shuttle have escalated steadily from the original estimate of \$5.15 billion in 1971valued dollars. And NASA Adminis trator Robert A. Frosch has told Congress there is only a 50-50 chance the shuttle's first manned space flight. originally scheduled for November, will get off the ground by next July.

The pressures of a tight budget have led to too much emphasis on short-term problem solving and not enough on overall costs of the nation's next manned space venture, said the study conducted by a special staff of consultants from NASA and the Air

It said shuttle managers set up work schedules that demanded more than could be delivered. That has caused planned work to be deferred each year as money gets tight, resulting in steadily increasing costs.

The program has reached the point where the schedule can no longer be pushed back to ease budget pressures, the report said. New budgets and work schedules must be more realistic now that the development stage of the project is so advanced, it said.

Deputy NASA Administrator Alan M. Lovelace said management assessment would be an important part of the agency's re-examination of the shuttle program, which also has had technical problems in several areas.

So far this year, NASA has gone to Congress twice for additional shuttle money. Congress has approved a \$185 million supplement to NASA's fiscal 1979 budget and is considering a request for an additional \$220 million for fiscal 1980, which starts Oct. 1. The project budget for both years now is about \$3 billion.

President Carter has asked Frosch for a personal briefing on the shuttle problems by Oct. 15. He also has asked for a review by another panel of consultants before then.

Several burglaries reported Tuesday

A burglary reported Tuesday at a grocery store in the 2400 block of West Illinois Avenue resulted in the loss of a cash register, a carton of cigarettes and a six-pack of beer, according to police reports.

Entry to the store was gained through the roof, police said.

A trailer and welder valued at \$4,-300 were reported taken from a business on Commmercial Drive in southeast Midland, police said.

A green metal tool box, a blanket, a red soldering iron and 15 cassette. tapes were reported Tuesday as missing from a pickup parked in the 3300 block of West Wadley Avenue, police said.

The items had an estimated value of \$690, according to police reports. Someone had entered the pickup through the camper shell door, police said.

Parents' claim that boy denied care investigated by Air Force

GREAT FALLS, Mont. (AP) - Air Force officials are investigating allegations that a 2-year-old boy who died at a local hospital had been turned away from a military hospital four hours earlier because his mother couldn't produce her ID card.

The embittered parents, Airman Dan Greiger and his wife Susanna, allege an airman on duty at the Malmstrom Air Force Base hospital turned the child away before he died Saturday in a civilian hospital.

Although the parents concede Danny may have died of meningitis anyway, they charge the actions of the airman under other circum stances could have cost a life.

The parents said an internal investigation has already begun and say they will ask for an additional probe by the office of the Air Force inspector general.

A base information officer, Lt. Carol Northrup, confirmed Tuesday that officials were looking into the matter. She declined further com-

ment. The airman has not been iden-In an interview, Mrs. Grieger described the incident:

She awoke early Saturday at their base residence and found her son's blue eyes wide open. His mouth was bloody and his legs appeared purple.

She quickly changed the child's diaper and called a friend who drove her and the child to the base hospital. The airman on duty asked for Mrs. Greiger's ID card and she told him she forgot it. Her companion, Sherrie

Day, said she had her base ID card and offered to vouch for Mrs. Grieger's residency. "Her ID eard wouldn't do any

good," the airman was quoted as The airman refused to admit the

child, even though Danny was bleeding from the mouth and his legs appeared dark colored. The airman simply asked her where "all the blood" came from. "My son was dying in my arms," Mrs. Greiger said as she continued her story.

The woman was told to sit and wait but she and her companion decided to rush the child to Montana Deaconness Medical Center, about five miles from

As soon as they arrived at the Deaconness emergency room, a nurse took a quick look at the ehild and immediately admitted him. Doctors quickly began trying to save the Within an hour, with her husband

now by her side, the parents were told their baby was dying. "We just prayed," Mrs. Greiger said in concluding her account.

An autopsy showed the cause of death was meningitis, Mrs. Grieger from a car.

said. Meningitis is an inflamation of the membranes covering the brain and spinal cord, often the result of a viral infection.

The Griegers say they took Danny to the Deaconness facility the previous Thursday night after he developed a high fever. A blood test showed no evidence of illness and the couple was told by an attending physician at Deaconness to take the child home and check his condition every four hours, the parents said.

Grieger was sharply critical of the base hospital. "I feel that they didn't do a damn thing for us." He said he will try to leave the Air Force on humanitarian or hardship grounds and that his commanding officer was conducting an investigation into the

An investigation, he adds, is "not going to bring our baby back." 'Maybe it will help another mother

whose child would be saved," Mrs. Grieger said.

Funeral, vacation delay PUC decision on electric rate hikes

AUSTIN, Texas (AP) - A funeral and a vacation have delayed the Texas Public Utility Commission's decisions on requests by Dallas Power & Light and Texas Electric Service Co. for higher electric rates.

The commission had scheduled votes on the two major cases today but announced it had put off the decisions until sometime in October.

Commissioner Henry Moak Rollins' mother-in-law died Monday night, and her funeral was scheduled today. Commission chairman George Cowden plans to leave on vacation at the end of this week and return to work

The commission is expected to decide the two rate cases shortly after

Rollins' vote evidently is needed to break a tie, since commissioner Garrett Morris has voted contrary to Cowden on all but one or two major rate cases over the past two years.

Cowden said he had assigned the

DP&L case to Rollins for commission-level review. Texas Electric Service Co. (TESCO) sought rate increases totaling \$91.5 million over a 12-month period. PUC examiner Alan Holman re-

commended a \$27.4 million increase. Dallas Power & Light wanted increases totaling \$57 million a year, but the PUC staff said the company was entitled to only \$24.1 million in higher rates — a 9.8 percent in-

Officials think rabid kitten may point to disease source

DENTON, Texas (AP) - City and county health officials believe a rabid kitten that came into contact with as many as 90 persons may have come from a colony of cats near a North Texas State University observatory. Five more persons have begun the

painful series of rabies shots, bringing the total number to.16 who are receiving the inoculations. The kitten was at the observatory,

formerly the Nike missile base, while the 90 people watched a lunar eclipse Sept. 6 through Sept. 9. 'We may have found the source," sanitarian Steve Callahan said Tuesday. "We received a call saying there

Witnesses at the observatory said they saw someone dump the kitten

Callahan said officials have spoken to one homeowner in the vicinity of the base, but the homeowner said he did not own the kitten.

DEATHS

Jack Samples

Jack Samples, 75, died Sunday at his residence, 1202 Community Lane. Services were to be at 2 p.m. today day in the First United Methodist Church with Dr. Charles Lutrick, pastor, officiating. Burial was to be in Resthaven Memorial Park directed

by Newnie W. Ellis Funeral Home. Masonic rites were to be conducted at graveside.

Samples was born Dec. 6, 1903, in Commerce. He spent his early life in the Masonic Home in Fort Worth. He was graduated from Texas A&M College at College Station. He started work as a landman with Shell, living in a number of different places. After a number of years he went to work for Champland in Fort Worth.

Samples moved to Midland in the early 1950's. He then moved to Corpus Christi with Southern Minerals, returning to Midland as head of Southern Minerals. He retired from the company in 1965.

He was past president of Midland A&M Club, Midland Community Theatre, Petroleum Club of Midland and Texas State Guard Association.

Samples was a colonel in the Texas State Guard and public relations officer on the headquarters staff in Austin. He held honorary offices as Commander of the 4th Defense Group, Texas State Guard in Midland and as Kentucky Colonel and Admiral of the Texas Fleet.

Masonic affiliations include: Fort Worth Lodge 148, Fort Worth; Acca-cia Lodge 1414, Midland; Washington Chapter 2; Royal Arch Masons, Houston; Houston Council 1, Houston; Royal and Select Masters, Houston; Corpus Christi Commandery 57; Knights Templar; San Antonio Consistory; Scottish Rite Suez Temple, A.A.O.N.M.S., San Angelo; Royal Order of Jesters, San Angelo Court 160; Red Cross of Constantine; Senior DeMolay, Fort Worth Chapter; Member Advisory Council, Midland chapter; 16 years District Governor, District 2, State DeMolay Association of Texas; Past Sovereign, Permian Conclave of the Red Cross of Constan-

Survivors include his wife, Margery; three sons, James Clevenger Martin and Joseph Rabb Martin, both of Dallas, and Arch Clevenger of Westland, Mich.; a daughter, Suzanne Martin Brien of Houston and a sister, Mrs. Hal V. Carlson, Anaheim, Calif.

Pallbearers were to be John A. Bates, Sam Parham, Sam Conner. Richard S. "Dick" Anderson, Bill Gesell, Ken Dawson, Dr. T. June

Honorary pallbearers were to be members of the Red Cross of Constantine, Murray Fasken, Col. W. B. Smith, Louis Shank and Dr. William M. Hibbits.

The family requests memorials be directed to the Masonic Home in Fort Worth or to the Permian Basin Petroleum Museum, Library and Hall of

Thelma Williams

Graveside services for Thelma B: Williams, 77, of rural Midland will be at 1 p.m. Thursday at Hillcrest Cemetery in Wichita Falls. Local arrangements are being handled by Newnie W. Ellis Funeral Home.

Mrs. Williams died at home Mon-

She was born Feb. 3, 1902, in Memphis, Tenn., and grew up there. She moved to Wichita Falls in 1930. She was married to the late B.E. Williams in 1929 in Burkburnett.

The couple moved to Wichita Falls in 1930, and resided there until 1955, when they moved to Buchanan Lake. In 1960, the Williams moved to Midland. Her husband died in 1974.

Mrs. Williams was graduated from the School of Nursing at Methodist Hospital in Memphis, Tenn., on Feb.

11, 1927. She was a Baptist. She was a member of the Texas Board of Nursing Examiners

Survivors include a son, Fred E. Williams of Midland; two daughters, Shirley Holiman of Midland and Charlene Gee of Odessa, seven grandchildren and two great-grandchilren.

Christine Henry

LUBBOCK — Services for Christine Sides Henry, 72, of Lubbock, mother of Ben C. Sides of Midland, were Tuesday in Resthaven Funeral Home chapel here with burial in Resthaven Memorial Park.

Mrs. Henry died Sunday in a Lubbock nursing home after a short ill-

She was a Lubbock resident most of her life. She was a member of the Oakwood Baptist Church and the Idalou chapter of Eastern Star.

Other survivors include her husband, a son, a daughter, two brothers, a sister, 11 grandchildren and eight great-grandchildren.

rose," said Levin.

What is a Walton worth?

SAN DIEGO (AP) - "I have this empty feeling in my stomach," said Bill Walton, rocked by the stiffest compensation award in pro sports

"I don't think it was fair," Walton said after San Diego Clipper teammates Kermit Washington, Kevin Kunnert, Randy Smith and a 1980 first-round draft pick were awarded to the Portland Trail Blazers Tues-

Ending a two-month tug-of-war, National Basketball Association Commissioner Lawrence O'Brien ruled that Washington, one of the league's prized power forwards, and Kunnert, 7-foot reserve center, must go to Portland as payment for the loss of

The 6-foot-11, All-Pro center played out his option with the Trail Blazers and signed with the Clippers May 12, reportedly for the largest sports salary ever - a five-year contract calling for \$900,000 per year.

IF THE year-old Clippers choose to keep Smith, a starting guard who averaged 18 points per game last year, they must pay Portland \$350,000 and their 1982 first-round draft

choice. "It's a real setback," said Walton. "We were very close to a championship team. Indirectly, I'm somewhat responsible for that.

Walton's "durability" was the central question, O'Brien said. He said he took into account that Walton's contract "reflects a clear recognition by both San Diego and Walton that his past medical history created legitimate concerns about his ability to fully perform in the future.

After signing as the NBA's top draft choice of 1974, Walton, 26, was sidelined for half of the Trail Blazers' games. He sat out all of the 1977-78 season with a stress fracture in his foot, a year after winning MVP honors for leading Portland to the

Mets acquire Ed Lynch

NEW YORK (AP) - Right-handed pitcher Ed Lynch was acquired Tuesday by the New York Mets from the Texas Rangers as a part of the Aug. 12 trade which sent first baseman Willie Montanez to Texas.

Lynch, 23, was drafted from the University of South Carolina by Texas

ices

"If Walton in his first five years had proven as durable as (Wilt) Chamberlain, (Bill) Russell and (Kareem) Abdul-Jabbar, it would be virtually impossible to calculate his value or to compensate Portland for his lose," said O'Brien, after reviewing written submissions and testimony from the

O'BRIEN NOTED that Walton's contract with the Clippers included "unique terms for salary reductions in the event he is unable to play a specified number of games

'Therefore," ruled O'Brien, "I do not agree with Portland's arguments that San Diego's contractual agreement to Walton demonstrates that his 'durability' is no longer a risk and that his value must be judged solely on the basis of his skills.

After the announcement, Portland owner Larry Weinberg said he 'didn't believe the Trail Blazers were made whole" for the loss of Walton. .Clippers' owner Irv Levin said he

called Weinberg and congratulated "For what," asked Weinberg, ac-

and Smith 30. Washington, in his sixth pro season, nearly surpassed his career high last year when he averaged 11.3 points per game. He led the club in rebounding with a 9.8 average. Kunnert, who averaged 6.5 points

"For coming out smelling like a

WASHINGTON IS 28, Kunnert 27

and 7.0 rebounds, said he accepted the decision "philosophically. "It had to happen," said the fiveyear veteran from the University of

Iowa. "There's nothing you can do about it. I'll probably get a chance to play, more at Portland. 'It destroys this team," said high-

scoring San Diego guard Lloyd Free. Portland Coach Jack Ramsay said the addition of Washington and Kunnert "really solidifies our club." Asked if he would prefer Smith or

money and an additional draft choice, Ramsay said he personally favors Portland receiving the money

The Clippers have until 5 p.m., EDT Thursday to decide whether they will keep Smith or send Portland the \$350,-

as Stargell hits homer think we've only scored 10 runs in the By The Associated Press last five games, so we're fortunate to be 2-3 in those games - in light of our Willie Stargell and the rest of the

run production.

Johnny Bench was Cincinnati's run production Tuesday night with a ninth-inning homer.

Pirates survive Montreal

Padres 4, Astros 0 Manager Bill Virdon was singing the same song after his Astros were held to six singles by Eric Rasmus-

In other words, it rained a little bit 'My main concern is that we're not while the teams were struggling for scoring runs," he said after Houston's the National League East Division fifth loss in the last seven games. "We lead. The first delay halted action for haven't been scoring many runs since just five minutes, but the second took the All-Star break. It's been tough on a whopping two hours, 54 minutes, our pitchers. and the sixth inning didn't begin until

The Astros have three games remaining against Cincinnati.

Phillies 5, Cardinals 3 Pinch-hitter Greg Gross delivered a 10th-inning sacrifice fly to score Manny Trillo, then Garry Maddox cracked an RBI single to lead Philadelphia to its 13th victory in 18 games and pull the Phillies within a game of the third-place Cardinals in the

Meanwhile, Pete Rose extended his hitting streak to 15 games and pulled within nine hits of a major league record 10th consecutive 200-hit sea-

Dodgers 6, Braves 1

Jerry Reuss pitched a four-hitter and Steve Garvey reached the 100-RBI plateau for the third consecutive seasons as Los Angeles beat Atlanta. Cubs 2-2, Mets 0-1

Dave Kingman drove in the game winning run in each game and Bruce Sutter picked up both saves in the Chicago's double-header sweep of New York.

Kingman's two-run, third-inning single won the opener and his 11th-inning single delivered the winner in the nightcap — boosting Kingman's RBI total to a league-leading 110.

Sutter, meanwhile, had 37 saves tying the NL record he shares with Clay Carroll of the 1972 Reds and Rollie Fingers of the 1978 Padres.

The Mets have lost 21 of their last 25. New York's Lee Mazzilli went hitless in the nightcap and had his 19-game hitting streak halted.

Bears finally use Golden Richards

IRVING - Golden Richards must have been excited for more than one reason Sunday for his performance against his former teammates.

One reason is that he latched on to three passes, the first three of the season after having none thrown his way in the first two games, and secondly, the fact that he had a TD catch against the Cowboys.

WHY THE Bear quarterbacks neglect throwing to Richards in puzzling to say the least, and when he was with the Cowboys, he was dangerous as a punt returner too. It seems like Chicago is not using his talents, but then I am only a sports writer and not a

Anyway, Richards was on the scoring end of a 52-yard scoring pass from quarterback Vince Evans and had a total of 79 yards on his three receptions. "They (Dallas) had on a blitz and we picked it up and the Cowboy Tanner advised against counting him. secondary didn't cover me so I was wide open. Vince did a good job on that play and on the other long TD pass too. He picked up the blitz on the scoring strike to James Scott."

Scott, by the way, only played junior college football at Henderson before signing with the Bears four years

RICHARDS ALSO went on to say that Evans also picked up the Cowboys' blitz on another play that would have been for long yardage, but Thomas Henderson barely tipped the ball away and it was incomplete.

"If you have to get beat, then it's better if the Cowboys are the ones that do it, " said Richards after-

Richards went into the game with Dallas pretty-well banged up. "I hurt more in my heart than physical-

' stated Richards. He went on to say that on the TD pass the Bears had two wide receivers on one side of the field and he had the option to split the middle, which he did. "I was surprised to be so all alone," laughed Richards. "The offensive line did a great job on the play

ON HIS feelings about facing his former teammates, Richards said "I was so keyed up that the most I slept this whole week was three hours one night. This game was very important to me and I'm happy over the touchdown, but we have a heckava lot more

Walter Payton was happy over his performance. "If we'd played anywhere except Dallas, we would have won going away." When asked about the difference in the 1977 Wild Card team and this year's team he said this, showing a bible open to the 27th psalms. "I don't think they (Dallas)

made too many second half adjustments. They were just moving the ball better than us.

EVANS WAS sacked late in the game after the Bears had taken a 20-17 lead and it came on a third and eight with about three minutes left. "The play was a 79 pass over the middle to Payton. They (Dallas) were in a nickel defense and Cliff Harris doubled on Walter, so I decided to run

and got sacked." "Our offensive line did a real good job except for a couple of plays on their pass blocking. Otherwise, they did a good job of protecting me, " said

On the TD pass to Scott, Evans hit Scotty on a 64-yard pass. "That was a post pattern and we wanted to get that one on them in the first half. They had man-to-man coverage on our back and I sawHarris coming on that one,'

Evans was injured in the first half. 'It was a couple of stiches on my chin and a cut just under my lip and it came on the screen pass in the second

quarter when Harvey Martin hit me.' Mike Phipps had been listed as the starter against Dallas, but Evans wasn't concerned one way or another. 'Whether I know I am starting or not, I am always mentally prepared for it." He went on to say that the game

plan was to throw to the backs a lot. We figured that Dallas would take our wide receivers out on third down Anyway, the 1979 Bears do have a much better attitude and still could

wind up in the playoffs, especially since Payton is off to his best start in three years.

Harvey Martin is in agreement about this year's Bears. "The Bears are playing very well and they have tremendous enthusiasm, and Payton right now, is the best running back in the league. He's just a great football player. He is a weapon everytime he touches the football. They (Chicago) are going to eat the Central Division alive," quipped Martin. He also went on to say that the Bears are one of the most physical teams in the league. "If you think anything else, they are going to walk all over you.

Enough said about Neill Armstrong's football team.

Dallas faces blue Monday

DALLAS (AP) - Monday night Texas Stadium. games are bad enough for the Dallas

But Monday night in Cleveland?

Tom Landry had rather not. "I really don't know why we don't

have a better Monday night record,' said Landry, whose team is 7-6 on that day of the week. "I really haven't thought about it much.

But Landry does have memories of playing in Municipal Stadium. 'I have memories of mud up to my ankles," said Landry. "It seems like

it rains everytime we play there." Dallas is 2-8 against the Browns in Cleveland. 'We've only won two games up

there?" Landry asked. "That's all?" Dallas' biggest victory in Cleveland was 6-2 in 1970 played in the mud. It put Dallas in the playoffs and on the road to its first Super Bowl appear-

Cleveland is just one of five NFL cubs that hold an edge in the all-time series with the Cowboys (14-7). But Dallas won the last meeting 41-17 at

Oddsmakers installed Dallas an early three-point favorite.

Landry began preparations for the game this week by setting up a fumbling drill for star tailback Tony Dorsett, who was round booed last week for his three lost fumbles to the Chicago Bears. The fans are entitled to do what

they want to do and Tony has to learn to handle it (the boos)," said Landry. "We all have been booed from time to

Dorsett, playing only his second game since he broke a toe by dropping mirror on it in July, gained 108 yards Sunday in Dallas' 24-20 National Football League victory over Chi-

Because of the fumbles, he was booed at Texas Stadium for the first

"Let 'em boo," Dorsett said after the game. "I don't have to work for those people everyday. I just want my teammates to believe in me. Fans are fickle and they expect the Cowboys to basis.

be almost perfect." Landry ordered "the gauntlet" for this week's drills.

'We usually don't have the gauntlet until we have a (fumbling) problem,' said Landry. "A back just runs through a line of players with everyone grabbing at the ball. We also do it in dummy scrimmages. The drill just makes backs more conscious of holding onto the ball.

Landry only blamed Dorsett for one fumble

'The first one was an exchange problem and the second one could have happened to anyone...somebody's headgear hit the ball," said Landry. "The third one was his (Dorsett') fault.

Landry praised Dorsett's progress, saying "it was the first time we've had a runner (break) in the secondary in the open. Tony gives us that. He'll be across the goal before long. He has missed so much work it's like he is in training camp. He's still not totally ready on a competitive

Bartosh fundamentals help Rebs find goal line

Last spring, Midland Lee football coach Gil Bartosh must have started spring training by introducing his team to a football. After all, first things first.

It's no secret that his team was a bit on the inexperienced side. Bartosh had two returning starters back out of 22 positions (one on offense and one on defense). At best it was a ragtag conglomeration of scrap iron. That is to say they were tough and willing, but some of them probably hadn't seen a football this side of the TV set.

It was with this group that Bartosh faced a District 5-4A schedule. That's like sitting on Death Row. Riding into the Sunset without a Horse. The Bataan Death March relived. D-Day. The troops of the Alamo

had more hope So, it is not surprising that the Rebels looked a little shaky at times against Snyder in the season opener, but Gil said, "If we continue to improve on fundamentals each week, this team could be competitive by the time district rolls around." Fat chance, coach.

Well, when you have an inexperienced crew, it takes time to touch all the bases. Gil finally got around last week to showing his offensive team where the goal line is situated on the playing field. It just so happens that the goal line is important in the game of football. It must have been one of those fundamentals that Bartosh was talk-

ing about. The Rebels may be inex-

perienced, but they aren't dummies. When a coach shows them where the goal line is, they respond. Ih fact, they responded seven times against El Paso Austin last week in a 51-13 vic-

tory. That's a lot of responding. Quarterback Gary Butler, the only returning offensive starter, knew what a football was before spring training began. He rushed for 76 yards, scored a TD, threw, for two more and completed four passes for 115 yards. However, he didn't learn to throw right-handed during the off season. Bartosh still hasn't covered all the fundamentals.

Fullback Mark Thompson pulled a bruised thigh up and down the field for 96 yards and two TDs, and his blocking was beyond reproach. Pretty good for a learner. Tailback Steve Waldron had 139 yards and one TD, and that's not bad for Lee's only returning defensive start-

Then there was end Tom Williams and guard Keith Brown opening up holes large enough for Sherman's march through

Georgia. Receiver Wade Cartwright didn't even play football last year and he was catching footballs on both offense and defense like he had fly paper for hands.

And Larry Linne is still trying to figure out which way he likes to score best. He really learned Bartosh's fundamental of Week 2. Linne scored 15 points, including a 31-yard soccer style field goal, six extra points and a TD on a 34-yard pass from Butler. All he needs to know now is

how to make a safety. This week Bartosh hopes to teach his team about penalties. Things like "You can't hold on big plays", "Don't jump off sides in critical situations" and "Stay put until the ball is snapped." Those are little things. They are fundamental, but the Rebels are still learning

Bartosh insists that school is still out on his learners. "They still have a way to go," he says. "We aren't there yet," he insists. And they still face that 5-4A schedule.

To tell you the truth, I don't know how far away the Rebels are from becoming a good football team, but it's hard to argue with 51 points against a team that had real intentions of coming to Midland and winning. Plainview this week might an-

swer a few questions for us all. But I know one thing for sure. I love a team that knows basic fundamentals. Knowing where the goal line is, can be fun.

Broyles still says playoff inevitable

By HERSCHEL NISSENSON **AP Sports Writer**

A major college postseason football playoff seems to be a dead issue...for

But Frank Broyles, Arkansas' athletic director and former football coach, still says such a playoff is 'inevitable.'

Broyles was one of an outspoken minority whose playoff proposal was beaten down by the bowls.

'We didn't foresee this much organized opposition. We didn't foresee the bowls taking such a strong stand, banding together and rallying support," he says. "It was their asserted opinion that the bowls would be ruined if we had even a four-team playoff.'

THE NCAA'S Extra Events Committee, of which Broyles is a member and former chairman, had recommended that such a playoff proposal be brought before next January's NCAA convention. But the Division I Steering Committee recommended to the all-powerful NCAA Council that the issue not even come up for a vote. The Council went along with that suggestion.

"It's somewhat of a dead issue at this particular time," says Dave Strack, athletic director at the University of Arizona and current chairman of the Extra Events Committee. 'Who can tell what the future might hold, but we've decided it would be beating a dead horse to pursue it as a committee at this time.

The bowls feel they have served college football very well and they feel they're the best thing for college football," says Broyles. "They've convinced many coaches that the structure we have now is better than a playoff. They cite the financial aspects, the good times, no pressure...things like that.

"MAYBE OUR feeling supporting a playoff is ahead of its time, like solar energy. But it's inevitable that we need a playoff, not for the 20 or 25 schools who will succeed with soccer or anything else. But what about the other schools who are in financial straits? The economic factor will be felt down the line.

For a playoff to happen now we need something dramatic, but I don't know what. The public wants it. The public is probably for it 98 percent and I think their influence will be felt down the line.

Because Michigan's Bo Schembechler once coached under Woody Hayes and adopted many of Hayes' peculiar attitudes toward the mediahe became known as "Little Woody." Now we have Wake Forest's John Mackovic, who once coached under Schembechler as a graduate assistant at Miami of Ohio, hails from Schembechier's homelown of Barberton. Ohio, and may become known as 'Little Bo.

I've never read more disgusting stuff in

Dooley's Bulldogs turned out to be the creampuffs. Wake Forest erupted for 287 yards on the ground and 283 through the air in pulling off one of the season's major upsets.

AND WHEN it was over. Mackovic said he would talk to the North Carolina media "but the Georgia press could leave our lockerroom, as far as I was concerned." Some did, some didn't, but it appears that the Demon Deacons may be more demon than deacon, for a change.

Joe Restic coached in the Canadian Football League before coming to Harvard but he hadn't been associated with the NFL since playing with the Philadelphia Eagles in the early 1950s. Until this summer, that is:

Restic, whose wild and crazy Multiflex offense has sent opposing coaches into shock, spent five weeks working with the Los Angeles Rams' quarterbacks.

They were talking about doing some things with motion and shifting," says Restic, who has been known to put his quarterback in motion, on occasion.

Restic found that the pros are "a different world. One thing that stands out is the intensity of the people. Football is still football, but that's where they're separated. The way they worked and the help they looked for ... they really wanted to improve. You always get the impression that pros don't work hard and just go through the motions, but that's not

THE GARDEN State Bowl, which drew 33,000 and change to its inaugural game at Giants Stadium in New Jersey's Meadowlands between Arizona State and Rutgers fast December, already has sold that many tickets for this year's contest on Dec. 15.

'We may have to shut off ticket sales in four or five weeks because we're obligated to hold a third of the tickets (Giants Stadium seats 76,800) for the competing teams," says bowl official Les Unger.

Many of the tickets have been purchased in large blocks by the New Jersey business community.

The Garden State Bowl guaranteed ORDINARILY ONE of the most each team \$150,000 a year ago and paid them \$166,000. This year's guarantee is \$165,000.

Jackson's days may be numbered

NEW YORK (AP) - Reggie Jackson's days as a New York Yankee may be numbered depending on who you are listening to at the moment.

According to published reports, New York Manager Billy Martin has twice urged General Manager Cedric Tallis to make a trade for the hardhitting right fielder. However, Martin angrily denied ever going to Tallis and in fact said that "Reggie has played hard for me this year.

That thing between us is over. said Martin referring to the constant differences the two encountered in Martin's previous tenure as Yankee manager. Martin said in Cleveland Tuesday

night that Jackson's name has come up "like any other player's" in trade talks "becuse we're always discussing possible trades. However, Jackson has a trade-ap-

proval clause in the five-year \$2.7 million contract he signed as a free. agent in November 1976 Because of the clause, the Yankees

are unable to trade or sell Jackson without his consent.

"The Yankee management and I have talked about trades, not just of Jackson but of a number of players," Martin said. "That's routine.

"I think it's nearly impossible, but we'll try," he They've been saying that since it hit \$300," he said. Tibble said Homestake management doesn't antic-'Now no one knows.'

Kennedy's image could hurt him, Connally says

say Sen. Edward M. Kennedy probably will attempt to unseat President Carter, but that Kennedy's liberal image will hurt him if he succeeds.

"I think he's going to be the candidate, probably," Republican presidential hopeful John Connally said Tuesday. "I think he is going to be an eloquent spokesman for the liberal left.'

But Connally told a news conference in Las Vegas that Kennedy spokesmen and speechwriters already are saying Kennedy is "not all that liberal" in an attempt to gain support from moderates.

Well, you know he's been saying that, he's been voting that, he's been espousing that, he's been speaking that," Connally said, "And I'm sure he'll try to climb off that liberal limb." And Bill Brock, chairman of the Republican Party

commented that, "If Kennedy gets nominated, a lot of Americans are going to realize he's far to the left of the label most of them want to carry.

But Brock said Carter was a "tenacious, capable individual" who will fight a Kennedy challenge. "I do not underestimate his ability as a candidate or as a campaigner," Brock said of Carter.

Talk of a possible Kennedy move to challenge Carter wasn't limited to the GOP Tuesday. In a turnabout, House Speaker Thomas P. O'Neill

said he no longer doubts Kennedy is considering a run for the Democratic presidential nomination. O'Neill did the about-face Tuesday after Kennedy told reporters O'Neill was speaking for himself in predicting Sunday that Kennedy would not run.

After hearing that, O'Neill told reporters, "I would say he is giving it consideration. The speaker had said he had "strong feelings" that Kennedy did not plan to run because if he did he

would be out organizing a campaign by now. Kennedy told reporters "Tip's a good friend" but advised them to be guided by his own statements on

a possible run, not O'Neill's Kennedy said several times last week that he is no longer ruling out a run for the presidential nomina

In another apparent shift, Democratic National Chairman John C. White Tuesday backed off earlier statements that a Kennedy-Carter fight would split. the party and elect a Republican president.

White had expressed that view most recently in a televised interview last week. But White said Tuesday that a Kennedy-Carter

fight "doesn't have to" split the Democrats. 'If we handle our business poorly, if we don't do our business right, it could, but my job is to keep that from happening," the Democratic chairman said.

If Kennedy does run, he said, "we'll fight it on the issues and unify and support each other strongly.... It could work out very well.

White also said Carter is under some pressure to

declare himself a candidate early, indicating that Kennedy may grab off important supporters if Carter waits too long But White said Carter's advisers reached no

agreement at a meeting Monday night on whether he should announce early or late. White House press secretary Jody Powell said the

decision of when Carter should declare his candidacy is "the one decision that has not been made." Powell also said that if Kennedy runs against the president, "we'll do everything in our power to avoid

WASHINGTON (AP) - Two leading Republicans and benefit the Republicans." He added, "We'd much rather have the senator as an ally and supporter than as an opponent."

Rosalynn Carter predicted Tuesday, in response to a question, that her husband will "win all" of the

Reagan out in front in Florida, poll says

TALLAHASSEE, Fla. (AP) - Former California Gov. Ronald Reagan apparently had a slight lead over ex-Texas Gov. John Connally in maneuvering for delegates being selected for the Florida Republican convention.

Recent surveys by several newspapers around the state showed Reagan leading the delegate count in the three largest Republican counties - Dade and Broward in South Florida and Pinellas on the state's Gulf Coast.

Connally apparently claimed the most supporters among delegates chosen in Palm Beach County and in the Orlando area. But all newspaper surveys noted the large number of uncommitted delegates.

Officials at the state Republican headquarters refuse to release a list of delegates' names until the last ones are chosen at county caucuses Saturday. Even when the list is released, however, it will not show which candidate each delegate supports.

Delegates go on record for the candidate of their choice Nov. 17 at the GOP state convention in Orlando. The Republicans are selecting 1,357 delegates in all, 80 percent of those by lottery in each county and the rest by choice of the party hierar-

GOP's Pressler pledges 'unusual' presidential bid

WASHINGTON (AP) - The latest candidate poised to seek the 1980 Republican presidential nomination says he's "going to run an unusual

Sen. Larry Pressler of South Dakota, a freshman senator who previously served two terms in the House, said Tuesday he's ready to seek the GOP nomination. He said he'll make his formal announcement next Tuesday in Washington and then again in

'We're going to run an unusual campaign," Pressler said. "We're going to focus on gasohol, on agricultural issues, on rural and small town

'Gasohol will be a key issue," he said of the fuel mixture of 90 percent gasoline and 10 percent alcohol. "It will be a key energy issue and a key agricultural issue," he said.

He said there have been "too many platitudes in the Republican campaign so far" and he will run on issues that other candidates for the GOP nomination are ignoring. Pressler, a former Rhodes scholar and Vietnam

veteran, said he would enter every primary. a party-splitting battle that would damage the party

BUSINESS MIRROR National de facts real mind-biglers

By JOHN CUNN AP Business Ana

NEW YORK (AP) — G. Williamer has asked Congress to raise the ceiling on theral debt by

Congress to raise the ceiling on teral debt by \$56 billion to \$886 billion, a figure ras destined, he knew, to raise the roof as well.

Treasury secretaries before Mi ve had the same experience: Their requests he nemet with anger, debate, promises and threat after the noise has died they have been gra as expected.

And so the debt grows inexorably attempts to put a lid on it are as futile as tro cap Mt. Etna. It swells always, and erupts respecially when high borrowing costs add heat mixture.
The Tax Foundation estimates, for ple, that interest payments alone on the 1980 debt will be about \$57 billion, or only a bit less be entire

1940 national debt, cities and states in The contrast can be spiced with laye omparisons. That \$57 billion, notes the foun, is 600 percent more than in 1960. And with st rates rising, that percentage is also bound to But now for the shocker: As a percent gross pational product, on the total output (st.)

national product, or the total output ds and services, the federal debt has been — a ready — falling. Not in actual dollars, but in Itages. In 1960, the foundation observes, the il government owed \$290.9 billion, or 58.5 penf that year's gross output. It estimates the larend debt will amount to 35.9 percent of rear's

But after accepting those figures you hause to realize what inflation can do. It is, fonple, included in gross national product number urd, unrealistic, misleading, you say. Yes, but By using inflated GNP figures you have usion of growth when little exists. The econolight grow yery little or shrink in 1979, but there

grow very little, or shrink, in 1979, but illar figures won't reveal it. They're growing per-

One of the reason we have such inflatigim some of the reason we have such inflating moments of the monetary "experts," is that thral government is running big deficits and bing money to finance it. That borrowing, thy, inflates the GNP numbers, and keeps the to GNP ratio from rising.

At the same time, or so it is argued, the high of borrowing forces up interest rates, including paid by Uncle Sam. And those high interest rof course, can worsen the already burdensome

There is no quick solution, and Congress results the solution of the course of the cour

without much choice in dealing with Miller's re If it doesn't approve, and quickly, the Try might have to postpone the refinancing of its
So let it postpone, you say. Fair enough, bu
interest rates still headed higher, that could co government even more money. It happened spring, said Elmer Staats, the comptroller gen

There exists the possibility also that the go ment wouldn't be able to pay its workers suppliers, which would set off an even bigger co versy. To raise the limit seems to be the only pos

Over the longer term, however, various solut have been offered, including the extreme possib of simply reneging on the debt. By constantly re ancing, some say, this is what is going on anywar The more conservative approach, however, is stop those yearly budget deficits, which not only a to the total but add to the cost of financing. But the

you already have assumed, is not so easy to do. The president, for example, has little control or three-quarters of the budget, which is legislated is, says the Office of Management and Budg relatively uncontrollable under present law."

Many people say the answer is to reduce gover ment involvement in the private sector. But much that involvement, such as for supervising enviromental controls and safety, is dictated by law

Wood shingles drew much of the blame for the rapidly spreading July 31 fire that damaged or destroyed 350 apartments. One day after the fire, the City Council approved an ordinance tightening regulations on the use of wood shingles.

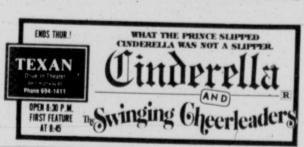

Arson investigators originally said the fire had been set deliberately but later said they had found no evidence to support such a theory.

Operators report Basin field work

MGF Oil Corp. of Midland No. 1 Stimson-Burley is to be drilled as a 9,500-foot Spraberry test in the Spraberry Trend Area field of Midland County, 6.4 miles north of Midland.

The project is 660 feet from north and 1,980 feet from west lines of section 17, block 38, T-1-S, T&P survey. Hulen H. Lemon of Midland No. 1

Lillie Midkiff is to be drilled as a 9,200-foot project in the Spraberry Trend Area of Midland County, 25.5 miles southeast of Midland.

Drillsite is 660 feet from north and east lines of section 6, block 37, T-5-S, T&P survey

WARD PROJECT

MR Oil Co. of Monahans No. 1-A University has been staked as a north offset to the discovery well of the three-well War-Wink (Delaware 5085foot) pool in Winkler County, seven miles southwest of Wink.

The 5,140-foot project is 467 feet from south and 2,173 feet from west lines of section 44, block 21, University Lands survey.

NOLAN PRODUCER

John R. Thompson Operating, Inc. of Abilene has filed potential test on the No. 4 M.L. Alderman in the Group. South (Saddle Creek) field of Nolan

Completed as a location east extension to that pay, it pumped 88 barrel of 38-gravity oil and five barrels of water per day, through perforations from 3,510 to 3,520 feet.

Total depth is 3,979 feet with 4.5inch casing set at 3,625 feet.

The pay section was washed with 500 gallons of mud acid. Kelly bushing elevation is 2,173 feet.

Location is 330 feet from south and 1,594 feet from west lines of section 70. block 1-A, H&TC survey, six miles northwest of Blackwell.

PROJECTS SCHEDULED

George G. Staley of Midland and Fisher-Webb, Inc. of Abilene announced plans to drill projects in Pecos and Nolan counties, respective-

Staley will drill the No. 1 Hokit as a 1/2-mile west stepout to Ellenburger production in the Hokit (Queen & Ellenburger) field of Pecos County.

The site is 660 feet from north and west lines of section 21, block 127, T&StL survey, 20 miles southeast of Fort Stockton.

Contract depth is 12,000 feet.

Fisher-Webb, Inc. will drill the No. 9 McLaughlin as a %-mile northeast stepout to Canyon production and 3/4mile northeast stepout to dual Canyon and upper Canyon production in the JMM field of Nolan County.

Scheduled depth is 6,000 feet and location is 467 feet from north and 1,787 feet from east lines of section 9, block 1-A, H&TC survey, 15 miles southwest of Maryneal.

CRANE EXTENDER The Troporo, North (Devonian)

field of Crane County has been extended one location southeast and southwest by Bass Enterprises Production Co. No. 22 L.D. Moss, seven miles south of Grandfalls. The operator reported a pumping

potential of 64 barrels of 37.8-gravity oil and no water, with gas-liquid ratio

The well is 7,850 feet from northeast and 1,507 feet from northwest lines of section 29, block 1, H&TC survey.

GLASSCOCK OILER Wagner & Brown of Midland has

completed the No. 5-67-A Allein in the Glasscock County portion of the Conger (Pennsylvanian oil and gas) Surrounded by production, the well

pumped 66 barrels of 48.2-gravity oil and seven barrels of water, through perforations from 8,002 to 8,400 feet. The producing interval was fractured with 75,000 gallons, and the gas-

oil ratio was 11,121-1. Wellsite is 660 feet from north and west lines of section 27, block 32, T-5-S, T&P survey, 18 miles southwest of Sterling City.

STERLING OFFSET The Sterling Co. of Midland filed

application to drill the No. 2-17 Terry as a %-mile northeast offset to a dual gas producer in the Conger (Pennsylvanian oil and gas) field and the sixth Fusselman oil producer in the W.A.M. (Fusselman and Montoya) field of

Location is 1,980 feet from south and 2,600 feet from east lines of section 17, block T, T&P survey, six miles southwest of Sterling City. Contract depth is 8,800 feet.

WARD OUTPOST

Clayton W. Williams Jr. of Midland has announced plans to drill the No. 1 J.F. Patter and others Unit as a onemile west outpost to Cherry Canyon production in the Scott (Delaware & Cherry Canyon) field of Ward Coun-

Mobil agrees to refunds

WASHINGTON (AP) - The Department of Energy said Tuesday that Mobil Oil Corp. has agreed to repayments totaling some \$13.8 million plus a \$50,000 penalty, in settlement of department allegations of

overcharges on crude oil. The department said Mobil does not concede that it violated any federal pricing regulations, but has agreed to a proposed "consent order" settling the dispute in which the department's Office of the Special Counsel claimed that Mobil misinterpreted the rules...

The field has extended into Reeves and has approximately seven Cherry

Canyon gas producers. Wellsite is 5,940 feet from northeast and 660 feet from southeast lines of section 38, block 33, H&TC survey, one and one-half miles south of Barstow. Contract depth is 6,500.

SCHLEICHER TEST

Rankin Oil Co. Eltex of Midland will drill the No. 1 Hunt as a 1/2-mile southeast stepout to the four-well W.J.B. (Canyon) field of Schleicher County.

Contracted to 6,000 feet, the test is 1,320 feet from north and 1,980 feet from east lines of section 26, block A, HE&WT survey and six miles south of Eldorado

MCCULLOCH AREA

Investors Energy Group, Inc., of Sherman will drill the No. 2 Henry Land one location east of the six-well northwest extension area of the Hall (Strawn) field of McCulloch County, nine miles north of Brady.

Location is 150 feet from south and east lines of J.W. Barnett survey No. 1056, abstract 2243. Scheduled depth is 1,050 feet with ground elevation of 1,582 feet.

IRION DRAWS STEPOUTS Meadco Properties of Midland will drill two stepouts to the Canyon oil area of the Taos multipay field of

Irion County. Both projects are in section 13, block H, TCRR survey, 25 miles north of Barnhart and scheduled to 8,000

The No. 3-13 E. Sugg is %-mile south and slightly east of production and is 2,200 feet from suth and 1,100 feet from west lines. Ground elevation is

2,542 feet. The No. 4-13 E. Sugg is 1/2-mile south and slightly west of production and 1,900 feet from south and 2,700 feet from east lines. Ground elevation is

2,452 feet. The same firm will drill the No. 1-1900 A. Sugg one mile east and slightly south and 3/4-mile north of Wolfcamp production in the Ela Sugg (Wolfcamp oil and gas and Canyon

oil) field. Location is 660 feet from south and west lines of section 1900, H. Nolte survey, 20 miles northeast of Barnhart. Scheduled depth is 7,800 feet.

Meadco Properties has completed the No. 1-3076 Shelton to extend Wolfcamp production 11/4-miles southeast in the Ela Sugg field, 17 miles north-

west of Mertzon. Operator reported a calculated, absolute open flow potential of 584,000 cubic feet of gas per day and gas-liquid ratio of 60,130-1. Gravity of the condensate was 66 degrees.

Scheduled as a wildcat and in the Tom Ketchum (Canyon) field, it was drilled to 7,400 feet, where 4.5-inch casing was landed. The well is 660 feet from north and

west lines of section 3076, block 28, H&TC survey.

Spraberry Trend Area production was extended %-mile southeast with the completion of ARCO Oil & Gas Co. of Midland No. 1-32 J.R. Scott Estate in Irion County, 7.5 miles northeast of Barnhart.

The operator reported a 24-hour pumping potential of 80 barrels of 35.4-gravity oil and 45 barrels of water, with a gas-liquid ratio of 875-

Production was through perforations from 4.320 to 6,215 feet after being acidized with 750 gallons and fractured with 60,000 gallons.

Location is 1,980 feet from north and 660 feet from west lines of section 32, block 14, H&TC survey.

Texas Oil & Gas Corp. of Midland filed application to drill No. 2-A Winterbotham as a one-location stepout to Canyon C production and one-half mile south of Canyon D production in the Dove Creek multipay field of Irion County, 10 miles southeast of Mert-

Wellsite is 1,980 feet from south and 660 feet from east lines of section 30. block 21, H&TC survey. The contract depth is 6,900 feet.

REAGAN OILER

Saxon Oil Co. of Midland has completed the No. 3-10-9 University in the Spraberry Trend Area 1/2 mile south and west of production.

Completed on the pump, the Spraberry well pumped nine barrels of 38.5-gravity oil and 40 barrels of water, through perforations from 6,-175 to 7,740 feet after being acidized with 3,000 gallons and fractured with 297,000 gallons.

Gas-oil ratio is 4,800-1 and location is 1,320 feet from south and west lines of section 10, block 9, University Lands survey, 12 miles northwest of

PECOS RE-ENTRY

Zinke & Philpy, Inc. of Midland has announced plans to re-enter a well previously drilled by Charles A. Haynes in the Pecos Valley (Devonian 5100) field of Pecos County.

Scheduled No. 2 San Pedro is located 5,250 feet from south and 1,320 feet from west lines of section 3, block 213, M.J. Ashmore survey, 12 miles southsouthwest of Imperial and one location southwest of production.

Re-entered depth will be 5,366 feet. Bill J. Graham of Midland will reenter and test the No. 1-C Dow Puck-

ett in the Belding (Yates) field of Pecos County. Originally drilled by Louis Crouch as No. 2 Dow Puckett, the well is 1,980 feet from south and east lines of section 103, block 3, T&P survey, seven miles soutwest of Fort Stockton, 2,727.

Loggers will meet

The Permian Basin Well Logging Society will hold its first fall meeting at 11:30 a.m. Thursday in the Midland Coun-

try Club. The speaker will be Erwin E. King, Mid-Continent log analyst for ARCO Oil & Gas Co., Division of Atlantic Richfield Co. King is vice president of Technology in the national Society of Professional Well Log Ana-

lysts. He holds a B.S. degree in Geology from The University of Texas at El Paso. He worked for Schlumberger prior to joining

Sinclair Oil & Gas Co. in 1951. King has trained several log analysts and has authored papers on formation evaluation. including part of a series on practical log analysis in the Oil and Gas Journal during the last

RRC reports 64 openers

AUSTIN, Texas (AP) - Texas operators reported 31 wildcat oil wells and 33 gas discoveries during the first half of September, the Texas Rail-

road Commission announced Tues-In 81/2 months, the commission said, operators have reported 346 oil discoveries, 23 more than in the same period last year. There have been 865

gas discoveries, 86 more than in the same period last year. Wildcat oil wells in the first half of September included eight in West Central Texas; four in the Refugio area; three each in the San Angelo area, South Texas, and North Texas; two each in the Lubbock area, Southeast Texas and East Central Texas; and one each in East Texas, the Pan-

handle and the San Antonio and Midland areas. Gas discoveries in September included nine in Southeast Texas; six in West Central Texas; five in the Refugio area; four in South Texas; three each in East Texas and North Texas; two in the Panhandle and one in the

Midland area. Operators reported drilling 204 dry

holes in the first half of September.

Wildcat pair scheduled

W. H. Price of Granbury No. 1-C Elmer Jordan was staked as a 4,400foot wildcat in Nolan County, four miles northwest of Blackwell.

It is 990 feet from north and 2,285 feet from east lines of section 34, block 1-A, H&TC survey and one mile southeast of the Group, Southwest (Saddle Creek and Canyon reef)

TOM GREEN TRY

Daniel Oil Co. of Houston No. 2 E. H. Jones has been spotted as a 5,600-foot wildcat eight miles southwest of San Angelo in Tom Green County.

Location is 700 feet from north and

,080 feet from east lines of R. J.

Welke survey No. 927. The ground elevation is 1,985 feet. It is 5/8 mile east of Daniel No. 1

Jones, an active wilcat, three and three-eighths miles east of the XQZ (Palo Pinto) field.

The new test is separated from No. 1 Jones by a 6,418-foot dry hole drilled by Rowan Drilling Co. as No. 1 Jones and abandoned in 1953.

That test topped the Ellenburger at 6,397 feet on ground elevation of 1,993
