Passenger may have been with murder victim

A Midland County deputy testified Thursday afternoon concerning the arrests of 17-year-old murder trial defendant Kelly Joe Chambliss of Midland and co-defendant Raymond Wesley Mathis, 20, but defense attorney Allen McFall raised a question about whether a passenger was riding in the van driven by Army Sgt. J.B. England July 18.

Chambliss is on trial in 238th District Court here on a charge of murder filed in connection with England's death. England was fatally wounded about 10 miles east of Midland on Interstate 20 July 18.

The co-defendant, Mathis, was convicted of murder in the case in September and assessed a 99-year prison sentence. That conviction now is on

Sgt. Pat Fuller of the Midland County Sheriff's Department testified at length Thursday and detailed the arrests of Mathis in Ward County on July 18 and Chambliss at a residence on Griffin Street in Midland either shortly before or after midnight that same day. Under questioning by McFall, one of a defense team that also includes

Eddie Garza, Fuller testified he does not know if a passenger was riding in the van with England when he was shot. 'I'm reasonably sure at this time that there was not," Fuller testified, although admitting he could not positively say another person was not

McFall also brought out the fact that although officers found .22-caliber, .25-caliber and- .38-caliber ammunition in the car being driven by Mathis, the co-defendant, when he was arrested in Ward County, they

did not find weapons capable of firing all three-calibers of ammunition. What they did find, Fuller testified, were two .22-caliber semi-automatic rifles in the trunk of the vehicle and a .22-caliber magnum rifle in the pas-

senger compartment of the vehicle. Still under cross-examination by McFall, Fuller admitted it probably would have been easier for a left-handed person to have fired at England from the passenger's seat of a vehicle passing the van than a

Earlier, Fuller had testified that he arrested Chambliss at the address on Griffin Street, read the defendant his rights and took him to jail.
Fuller said he had been told Chambliss was attempting to leave for

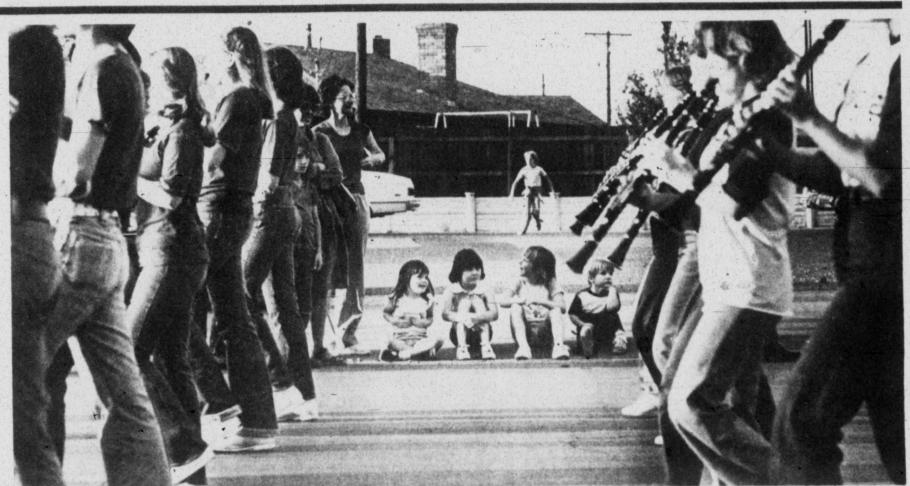

He also said a man named Bob Crane, about 20 and believed to be from Waco, was present with Mathis when he was arrested.

Crane was not arrested, Fuller testified, but he said that since the shooting, efforts to contact the man as a potential witness in the case have been unsuccessful.

Testimony earlier in the day Thursday indicated officers were called to the scene of the shooting 10 miles east of Midland on 1-20 about 4:30 a.m. According to Deputy Benny Fishback, first officer to arrive at the

scene, he found Sgt. England sitting with his back against his van, his shirt and the top part of his pants soaked in his own blood. Two couples were attempting to aid the sergeant when Fishback arrived, he said. One of the women told Fishback she was a nurse and that person, testified the deputy, was treating England for shock and trying to keep

Clements raps state's lawsuit

Says neither he nor SEDCO is to blame

AUSTIN (AP) - Gov. Bill Clements doesn't think much of Attorney General Mark White's federal court suit against SEDCO Inc. and Permargo, a Mexican drilling company, for the

Mexican oil spill. "I don't think his suit is any good against anybody," the Republican governor commented after the Democratic attorney general filed the legal action Thursday in Houston.

"I think it is politically motivated." Clements commented, repeating a charge he has made frequently in his long feud with White over who should pay for oil spill damages to the Texas

Clements was founder of SEDCO, a worldwide drilling firm, but, since becoming governor, has put all his stock in a blind trust. He says neither he nor SEDCO had anything to do with the June 3 oil well blowout in the

Bay of Compeche. White's suit claims that the Mexican oil spill has caused more than \$10 million damage to the state's economy and environment.

However, White told a news conference there would be no legal action against Pemex, the Mexican oil monopoly, "until it is certain that all negotiations by the U.S. Department of State for damages from Mexico in

regard to the oil spill have been ex-

White stressed the state might ask more than \$10 million when the full impact is known of oil washing ashore on Texas beaches. He asked an additional civil penalty of \$1,000 a day since the oil from Ixtoc I entered Texas waters about Aug. 1.

White said more than 2.4 million barrels barrels of crude oil has poured out of the uncapped well.

Three spill-related damage suits totaling more than \$355 million were filed previously against SEDCO, Pemex and Permargo by Texas fishaffected along the coast.

SEDCO filed a federal court suit in Houston asking that its liability be limited to \$300,000 under maritime law. The Houston court set, an Oct. 23 deadline for any other damage suits against SEDCO

White's suit alleges that under the Federal Water Pollution Control Act, SEDÇO and Permargo are liable for the cost "removal of oil, including cost of restoration or replacement of natural resources damaged or destroyed as a result of the discharge of

City of Midland now considering applying for development funds

By LANA CUNNINGHAM Staff Writer

After a span of four years, the Midland City Council is taking steps to consider applying for Community

Development funds. The change of heart, according to one council member, is the result of a change in leadership at the Department of Housing and Urban Develop-

A public hearing on the issue has yet to be set, however. City Manager James Brown said his staff is preparing a schedule which will include

deadlines for the funds application. Richard Hennessy, director of planning and community development for the city, said Thursday his office is

'developing a schedule' for the coun-

That schedule wasn't ready as of

early Thursday, he said. The issue of CD funds likely will surface at the council's Nov. 13 session, since the material apparently won't be ready for the council's next session Tuesday. The application

would be for the 1980-81 fiscal year. The City Council last year - after two lengthy sessions before crowded council chambers - slapped down the proposal to submit an application

for CD funds on a tie vote of 3-3. Primary reason for denial, councilmen said; was HUD's requirement to attach a plan for rental subsidy under Section 8 of HUD. Since that stipulation was instituted

Oil & gas..

Carter's standing with public

in 1977, the council has voiced its opposition to rental subsidy and has refused to apply for the other CD

That refusal has meant a loss of about \$1 million in funds for the city each year. HUD's requirement that each CD

application include a Section 8 rental subsidy program isn't part of the federal government's law, claims Gordon G. Marcum II, a council

"It was just a personal requirment of Patricia Harris" that was adopted by each HUD office on the ladder of rank, he said. That explains why the Dallas office strictly enforced that requirement, Marcum

"We understand the new head (of HUD) has committed himself to changing policies of passing out the

money," he said. Even so, there has been no word out of Washington that CD applications won't need the Section 8 addition. But Marcum said the City Council felt it should give it a try.

If the council decides to pursue the funds, the city is required under the law to hold a public hearing before the council actually takes a vote on a resolution to proceed with the appli-

'A majority of the council wanted to go ahead and file the application,

Texans who saved gasoline may be responsible for hike in state gas tax

AUSTIN (AP) - Texans who curtailed their driving because of rising fuel prices may force a hike in the state's nickel-a-gallon gasoline tax, several top state officials say

An assistant state comptroller Thursday said revenue from the tax the lowest in the nation - has fallen \$7 million below the projected "The \$7 million is a result of the gas shortage and people buying less

gas and obviously driving fewer miles," Robert Spellings said. The Highway Cost Index Committee this week voted to transfer \$31.5 million from general revenue funds into the highway fund. Spellings said \$24 million of that money was a result of a lag in vehicle registration fees. That delay was caused by a switch to a staggered registration system.

Spellings said that money will be recovered. State officials are worried, however, about the decreased gasoline tax income. Gov. Bill Clements has said he will ask the next regular session of the Legislature to raise the tax.

"It's the only thing that makes sense," he said. The governor has also talked about switching the tax to a percent basis. He said such a system would allow the revenues to increase as the price of gasoline increased. The recent Legislature took no action on that

Man in Oswald's grave may be an imposter

DALLAS (AP) - Enough doubt has been cast on the identity of the body buried in assassin Lee Harvey Oswald's grave that the remains should be dug up to see if President John F. Kennedy was killed by an impostor, say Dallas

The Dallas County officials point to discrepancies found by their own check of records and to others alleged by a British author who says Oswald may have been impersonated by a Soviet agent.

But officials in adjacent Tarrant County, where Oswald's grave is located in Rose Hill Cemetery, have resisted the proposed exhumation. They say they will do so only if ordered by a court. Oswald, named as Kennedy's lone assassin by the Warren Commission, was shot to death while in police custody two days after Kennedy's assassination in

Earlier this year, the House Assassinations Committee said there was a possibility the Warren Commission was wrong in concluding that Oswald acted

alone, but said it had no solid evidence. The assassination spawned many theories, including some that Oswald was part of a conspiracy, that Cuban President Fidel Castro or organized crime

played a role in the murder or that Oswald himself was a Soviet agent. "Somebody has raised the question as to who is in that grave. The easiest way to find out is to ... run some tests," Dallas County Medical Examiner Charles S. Petty said Thursday.

'We said to Tarrant County, if you exhume him we'll test him. We have more capability along that line than they do," Petty said. "If there's a question and a reasonable question that science can resolve, then that's our business.

Petty's office was approached in August by an attorney representing British author Michael Eddowes, whose book "The Oswald File" suggests a Soviet agent took Oswald's place while Oswald was in Russia, came to the United States, killed Kennedy and is buried in Oswald's grave. Eddowes says he has evidence indicating that Lee Harvey Oswald, who

defected to the Soviet Union in 1959, was not the man who returned to the United States in 1962 with a Soviet wife and represented himself as Oswald. Oswald's wife, Marina, who has since remarried, could not immediately be reached for comment.

Eddowes said the 1963 autopsy records fail to record a scar behind the body's left ear from a mastoidectomy Oswald underwent.

him from choking on his own blood. .

Fishback said officers who searched the scene found \$214 in eash in England's wallet and an Army identification card.

A search of the van also revealed pools of blood, mounds of broken glass from the shattered passenger's side window and a fired bullet.

Although England was unable to speak, Eishback said he indicated by way of sign language that he had been shot about 20 minutes before Fishback's arrival.

Testimony during the Mathis trial in September revealed England, who was on his way to Forr Bliss at El Paso from Marion, N.C., died shortly before 8 a.m. after being taken to Midland Memorial Hospital by ambu-

According to testimony in that trial, England suffered three bullet wounds in the face and one in the right arm.

City may apply for funds from HUD

(Confinued from Page 1A) Marcum noted.

"Right now, we're just looking at applying. It takes such a long, formal procedure that our staff needs to gear up and do what is necessary," he said

"I'm hopeful that the atmosphere in Washington and HUD has changed to let communities like Midland participate without the government getting too involved in it." Marcum added.

- If HUD rejects that application because the rental subsidy has been deleted, Marcum said it probably will come back to the City Council-"We'ff have to have another_big vote," he said, referring to the No vember 1978 tug-of-war session.

Marcum said the CD funds primarily are used for rehabilitating houses of the elderly and handicapped citizens, for paving and rebuilding streets and for relieving drainage problems

Midland last applied for CD funds in 1977. The money then was to be used for rehabilitating homes, paying and curbing streets, building a senior citizens center and making park improvements.

That application, though, was denied in Washington because there was no rental subsidy program included.

Cullen Davis' passive role' described

Dr. Roger Shuy, a linguistics professor from Bethesda, Md., provided jurors in Davis'-murder solicitation trial the most unusual testimony to

Using charts to illustrate his analysis, he said Thursday he determined through 50 hours of listening to the state's tape recordings that McCrory dominated the damaging conversations with Davis.

"Very clearly, Mr. Davis had the passive and Mr. McCrory the active

role." the Georgetown University professor said. "Mr. Davis was quite

The testimony tended to corroborate the defense testimony that Davis was duped by McCrory into discussing the murder of his divorce judge and others.

But chief prosecutor Jack Strickland said the defense analysis cost Davis almost \$10,000 and quipped -'I would have told them McCrory dominated the conversation for \$3,-

Shuy said he also found 125 discrepencies in the state's transcripts and what he actually heard on the record-

Economy shows 2.4 percent growth

WASHINGTON (AP) - The U.S. economy rebounded from a secondquarter slump to grow at an annual rate of 2.4 percent from July through September, the government reported today.

The figure from the Commerce Department was stronger than expected and threw doubt on whether the nation's seventh recession since World

War II was under was Much of the growth was attributed to a surge in sales, which had suffered from April through June because gasoline lines inhibited shopping and a shortage of crude oil depressed trade, said a Commerce analyst who asked not to be identified

The third-quarter growth, which some analysts say could be a temporary plateau before the nation's output again turns down, followed a second-quarter decline of 2.3 percent at an annual rate.

HAD THE THIRD-quarter figure also shown a drop, the statistics would have lined up well with the traditional definition of a recession: two consecutive quarters of declining output.

The third-quarter growth figure was the strongest so far this year, though still weaker than the 3.5 percent expansion in the third quarter of

And it occurred, in good part, because Americans saved a mere 4.1 percent of their earnings - the lowest savings rate in more than 25 years, Commerce analyst Adren Cooper said. Is the economy in recession'

'We don't know from this," Cooper said. "If you look at the figures, gross national product is back almost to the level of the first quarter.

GROSS NATIONAL product adjusted for inflation stood at an annual rate of \$1.43 trillion, about \$2 million higher than the first quarter level, the report

Consumer purchases from July through September rose 1.1 percent to an annual rate of \$924.8 billion, more than recovering from the 0.7 percent decline of the previous quarter, the report indicated.

Trade surged 47 percent to \$19.4 billion at an annual rate, again more than making up for the 22 percent drop in the second quarter: An annual rate figure if computed by extending the activity of a single

quarter over the span of a full year. Although the report indicates that inflation slowed from an annual rate of 9.3 percent in the first two quarters of the year to 8.4 percent in the third quarter the income of Americans suffered

Wayne County unable to pay employees; IOUs rejected

-DETROIT (AP) - Financially strapped Wayne County was unable to pay its employees today and a judge rejected a plan to use redeemable 10Us instead of real money.

The county, the nation's third most populous with 2.7 million people in Detroit and some of its suburbs, has \$330,000 in its general fund, or 25 percent of the \$1.6 million needed to pay its employees, said Treasurer The impending chaos is complicated by the facts that no one is sure how

many employees the county has (estimates run from 5,300 to 9,000), state auditors gave up trying to decipher the county's books, and no one is in

Gov. William Milliken has barred state help unless county officials reorganize to put an executive in charge, saying the lack of a county executive is the main reason for the financial mess.

"What you've got is a \$350 million-dollar-a-year operation with no one in charge," said Robert Berg, Milliken's executive assistant for public affairs. "You have all these elected officials (27) charging off and worrying about their own little department, and nobody's in charge.'

Meanwhile, Council 25 of the American Federation of State, County and Municipal Employees filed suit Thursday in Wayne County Circuit Court demanding that county officials be arrested for violating Michigan

The suit asks that no money-be spent by the county until the payroll is met, that the county pay interest on the back wages it now owes, and that state officials investigate Wayne's finances_

The union also asked Circuit Judge Irwin H. Burdick to order the county to meet the \$2 million payroll. Burdick refused but called for a hearing on the issue Tuesday. He did bar the use of scrip in place of eashable checks.

INCOME ADJUSTED for both inflation and taxes was down 0.3 percent in the third quarter to \$990.3 billion. It had fallen 0.4 percent in the preceding

"Real income is down, yet there's a strong recovery in consumer spending," Cooper noted. "Consumers didn't save. They just spent most of

Before adjustment for inflation, the Value of the nation's goods and services stood at an annual \$2.39 trillion in the third quarter, up at an 11 percent annual rate from the second quarter.

The statistics are likely to heighten, rather than depress, debate over whether there is a recession.

Many experts, including Treasury Secretary G. William Miller, argue that the July-September data is a "false signal" and that the economy remains in "a recessionary mode."

OTHERS, INCLUDING Walter E. Hoadley, chief economist of the nation's largest bank, the Bank of America, say the real decline may still be

Hoadley told a gathering Thursday that, "If the third quarter is positive, we're not in it (a recession) and haven't been in it but we have been doing a lot of worrying about it But pinpointing the start of a recession is an academic nicety.

There is little debate among analysts that the nation is in for its seventh recession since World War II.

Whether it started in March or in October, analysts in and out of government say that by the end of the year business activity will have slowed dramatically

The Carter administration forecasts that nearly 1 million Americans will lose their jobs by the end of next year.

BATA RESOURCES Inc., of Lexington, Mass., the nation's largest private forecasting firm, believes the downturn will take an even worse employment toll, especially in the wake of the Federal Reserve Board's action Oct. 6 to sharply tighten credit.

Robert Gough, director of the firm's forecasting operation, said Data Resources is predicting an unemployment peak of 7.8 percent late next year. That's 2 percentage points — or 2 million people, — higher than the current 5.8 percent unemployment rate.

Storm drops half-inch of rain, hail on Permian Basin area

A sudden, short-lived storm dropped up to half an inch of rain and some heavy hail on parts of the Permian Basin Thursday, but the weath erman said no more rain is expected for the weekend.

The National Weather Service of fice at Midland Regional Airport re3 ported 37 inch of rain and marblesized hail from Thursday's downpour, while golf-ball sized chunks were reported south of Odessa and near Ran-Forecast for Saturday calls for

partly cloudy skies and warm after-

noons. High should be in the mid-80s, with the overnight low expected to be in the upper 50s. Southwesterly winds should be de-

creasing to 5-10 mph by tonight, the weatherman said. Residents in north Midland got

about a half-inch soaking in the shower, while rain gauges in west Midland recorded only about a tenth of a

Greenwood, 10 miles east of the city, received only-about a quarter of an inch, while Midkiff recorded norain at all.

The shower upped the monthly rainfall total to .91 inch and the annual accumulation to 13.19 inches. Thursday's high temperature was

recorded at 85 degrees, and the overnight low reached 59. Neither mark approached the rec-

ord temperatures for the dates of 90 degrees set in 1936 or 35 degrees set in In other parts of the state, fog was

once again being reported along the upper Texas coast northward into the piney woods of East Texas. The areas around Houston and Lufkin reported visibilities near a mile because of the Predawn temperatures over Texas

continued mild for this time of year. Early morning readings were mostly in the 60s and 70s, except for temperatures in the 50s over the Panhandle and mountains of West Texas. Extremes at 4 a.m. ranged from 46

at Marfa to 78 at Brownsville. The National Weather Service said skies probably would continue partly cloudy today over most sections of the state. Temperatures were expected to be rather warm again with afternoon highs in the 80s over the entire state.

One dies in Marine base explosion

TOKYO (AP) - A fuel tank exploded in flames at a U.S. Marine Corps camp at the height of a typhoon today. killing one person and injuring 46, 10 critically, a Marine spokesman said. Japanese news reports said the typhoon, packing 55 mph winds, toppled

the tank, which ruptured and exploded in a fireball The reports said that 14 quonset huts and a camp laundry were destroyed in the fire that burned for

almost four hours after the blast. Master Gunnery Sgt. Bob Green, the Marine spokesman, said he did

_not know the cause of the explosion and that no information was available immediately on the identity of the victims or whether they were Americans or Japanese.

The most seriously injured were burn cases, Green said. Plans were being made to evacuate them to U.S. military hospitals.

Japanese news agencies said the blast occurred when a fuel tank at the Marines' Camp Fuji, 90 miles southwest of Tokyo, was blown over by howling winds and ruptured, exploding and setting fire to buildings.

Green said he could not confirm that. 'The fuel tank leaked, flowed and then ignited, that's all I know.'

Communications between Tokyo and the camp were disrupted by Typhoon Tip, which moved through Japan today, leaving at least four Japanese dead in the north.

It hit the Shizuoka area, where the camp is located, shortly before reaching Tokyo. The fuel fire occurred about 1:30 p.m., when the storm was at its peak in the area.

Jesse Bishop is one of 559 on the states' Death Rows

By The Associated Press

As convicted murderer Jesse Bishop faces the gas chamber in Nevada on Monday, he is one of 559 men and six women on Death Rows across the country.

A check of all 50 states by The Associated Press shows that about four-fifths of the men and women under death sentence in America today are in states in the Deep South

But actual executions remain quite rare, and a check with prison officials failed to turn up anyone on Death Row — besides Bishop — whose sentence is likely to be carried out soon.

Bishop, 46, has said he will refuse to appeal his death sentence, even though it is considered probable that he could be granted a stay of execution if he requested it.

Thirty-five states have the death penalty, but only two men have actually been executed in the last 12 years, during which time the U.S. Supreme Court first ruled against the death penalty, and then ruled favorably on rewritten state death penalty laws.

Gary Gilmore, a convicted murderer, faced a firing squad in Utah on Jan. 17, 1977, and John Spenkelink, a convicted killer, died in the Florida electric chair last May 25.

Florida has the nation's largest Death Row population: 139 men and one woman. Texas follows with 119 men and one woman, Georgia with 71 men and one woman, Alabama with 45 men and one woman, Arizona with 34 men, California with 23 men, and Oklahoma with 19 men.

Other states with persons on Death Row include:

Mississippi, 13 men; Tennessee and Illinois, 11 men each; South Carolina, 10 men; North Carolina, eight men and two women; Arkansas, nine men; Virginia, Utah and Nevada, seven men each: Indiana, Delaware. Nebraska and Washington, four men each; Kentucky and Montana, three men each; and Louisiana, Idaho, Pennsylvania and Wyoming, one man

Very few of the Death Row population have had execution dates fixed, and prison officials say all of those dates are likely to be stayed by court appeals

In Georgia, five convicted murderers have execution dates: James Lee Spencer on Tuesday; Bob Redd on Wednesday; Van Roosevelt Solomon on Oct. 26; Terry Lee Godwin, Nov. 16, and Wilbur May, Nov. 30. But state prisons spokeswoman Sara Passmore said she believes Georgia's next execution "is still a year away.

In Wyoming, convicted killer Mark Hopkinson, 29, is scheduled to die on Oct. 25 but is expected to get a stay pending an appeal.

Larry Ransom has an execution date in Tennessee on Nov. 27, but state prison authorities say a postponement is almost certain.

The method of execution in 16 states is the electric chair. Nine states have gas chambers, four use hanging, four states - Texas, New Mexico, Idaho and Oklahoma — call for lethal injections, and Utah offers the choice of hanging or the firing squad.

Oregon reinstated the death penalty in November 1978, but the method of execution was never decid-

Attempts to save Bishop to go on

CARSON CITY, Nev. (AP) — Attempts to keep Nevada Death Row inmate Jesse Bishop from being executed Monday were expected to continue even though a U.S. Supreme Court justice refused to delay

U.S. Supreme Court Justice William Rehnquist issued a brief opinion Thursday in which he refused to delay the execution of Bishop, who insists he does not want anyone interfering with the execu-

High court rejects effort to avoid death sentence

CARSON CITY, Nev. (AP) - Efforts by a Las Vegas man to avoid his death sentence for the beating and strangulation slaying death of a Texas woman have been rejected by the state Supreme

The high court's ruling Thursday against Henry Deutscher cited in part its recent ruling which allowed the execution of convicted killer Jesse Bishop, facing death in the gas chamber on Mon-

The decision against Deutscher was written by Justice Noel Manoukian. In unusual separate comments, the other four high court justices said they either concurred or concurred only with the result. That indicates there was at least some disagreement over Manoukian's legal reasoning in reaching the decision.

Deutscher, 38, was convicted in the August 1977 death of Darlene Joyce Miller, 37, of Canyon Lake, Texas, who was visiting leas Vegas and had been seenileaving a bar with him a www hours before her

body was found. The woman's head had been beaten with a rock, and there were teeth marks on her body. One of the key prosecution witnesses was a dentist who showed that the teeth marks on the body matched

Deutscher's bite Deutscher still has an opportunity to appeal his death sentence in the federal court system. It was not known immediately whether he would make such

an appeal Deutscher claimed that Nevada's capital punishment law is unconstitutional and that the trial court gave faulty instructions. He also said pre-arraignment statements he made were improperly admit-

The convicted killer also alleged prosecutorial misconduct and lack of probable cause to arrest him. But Justice Manoukian said there was "no reversible error" despite the various issues raised by the inmate's public defenders who represented him

Need a new

do-it-yourself.

tion schedule.

Lawyers for the NAACP Legal Defense Fund. asked that the same emergency request be submitted to Justice William J. Brennan Jr.

The full Supreme Court voted 7-2 on Oct. 1 to reject the arguments of two public defenders seeking to keep Bishop alive. Brennan and Justice Thurgood Marshall, opposed to capital punishment, cast the

Besides the NAACP action, the American Civil Liberties Union was expected to file a petition with the sentencing judge, Clark County District Court Judge Paul Goldman of Las Vegas.

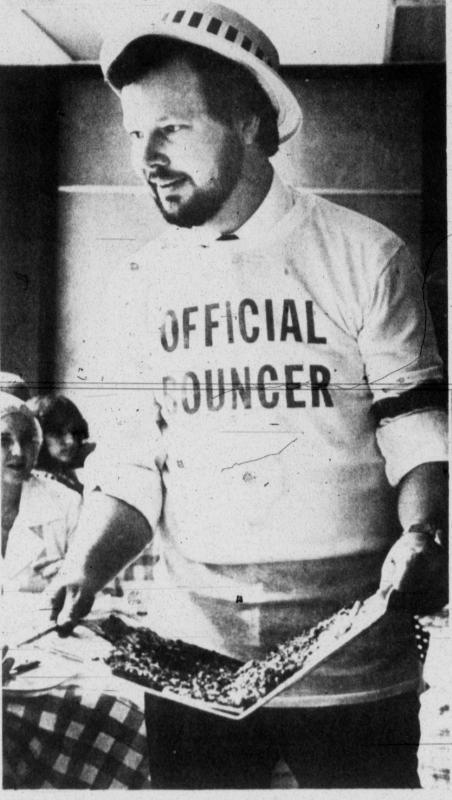

But Goldman, who as a result of previous appeals has resentenced Bishop to death twice since his original sentencing, said any petition would be rejected.

Bishop, 46, was reported in good spirits by state Prison Director Charles Wolff Jr. after he received a visit Thursday from an ex-wife whose name prison officials will not release His mood contrasted with bitter remarks made the

day before in a telephone interview during which Bishop said the "system" wanted him dead and that he'd be executed in the gas chamber eventually even if he sought a stay pending appeal.

Bishop was sentenced to death for killing newlywed David Ballard of Baltimore, Md., during a December 1977 casino holdup in Las Vegas.

Bishop said Wednesday he could handle on-again, off-again delays in his execution even if it meant years on Death Row, but "it gets harder on the people who love you each time.

Taking over as a pizza server and chief bouncer in the Midland Memorial Hospital cafeteria Thursday is Bill Owens, who generally heads the respiratory care department at the hospital. Hospital visitors and employees went through more than 800 slices of pizza and gallons of root beer at the all-you-can eat special, replete with old movies and live entertainment. (Staff Photo)

Resentencing of three former officers Oct. 30

HOUSTON (AP) - The resentencing of three former Houston police officers ordered by an appeals court on their convictions in the drowning of Joe Campos Torres is set for Oct. 30.

U.S. District Judge Ross N. Sterling must resentence Terry Wayne Denson, Stephen Orlando and Joseph James Janish. He originally gave them 10-year suspended sentences with five years proba-

They were convicted 1½ years ago of a violation of Torres' civil rights resulting in his death following a three-week trial. But the Justice Department appealed the sentences on grounds that an offense carrying a possible life term was not subject to

The 5th Circuit Court of Appeals sent Sterling an order on Oct. 4 to resentence the men.

Torres, 23, drowned in Buffalo Bayou in May 1977 after the defendants allegedly beat him while he was handcuffed and in their custody.

Official denies rumor that Brezhnev is dead

MOSCOW (AP) - "With rumors like that, he should live for 100 years," says a Communist Party official who denied a new torrent of Western reports that Soviet.President Leonid I. Brezhnev had died.

Moscow's morning newscasts today made no mention of the foreign rumors or the denial, made to The Associated Press Thursday by a party official, who declined to be identified.

The broadcasts headlined an account of the visit to Budapest, Hungary of Andrei P. Kirilenko, a close Brezhnev aide, and reports of a Syrian-Soviet communique following President Hafez Assad's visit to Mo-

Western diplomats noted that it was unlikely Kirilenko would have left Moscow if a crisis was imminent.

Earlier this week, the Kremlin acknowledged that Brezhnev, who turns 73 on Dec. 19, has been forced to bed by an unspecified illiness. Word of the ailment surfaced when Brezhnev failed to meet with Assad, the Soviet Union's closest Arab ally, during the Syrian's four-day arms-shopping spree that ended Thursday, Arab diplomats said Kremlin officials told them Brezhnev was ill and had not intended to slight the Arab leader.

Brezhnev was last seen in public Oct. 8 when he returned from a visit to East Berlin.

Unconfirmed reports of his death or serious illness began turning up Thursday in New York, Washington, Rome and Helsinki. They were the latest in a long series of such reports that have recurred with growing frequency over the past five years.

"We have heard the rumor," spokesman Hodding Carter told reporters. "We have checked with Moscow and we have no information to substantiate it.

The latest question about Brezhnev's health appeared to be linked in part to a report from Baltimore that three eye specialists from Johns Hopkins hospital had gone to Moscow for 'possible treatment" of an unidentified Russian patient. Moscow sources said the patient was a top Soviet leader who underwent surgery last

The sources would not name the patient, but said he was a member of the 13-man ruling Politburo. There has been no firm word that Brezhnev

Leonid Brezhnev

might be suffering an eye ailment. Brezhnev, a barrel-chested 200 pounder, appeared palid and pasty-

faced during his visit to Berlin, marking the 30th anniversary of East German's Communist regime. As has been the case in numerous recent speeches, Brezhnev slurred his words as he announced plans to pull 20,000 Soviet troops out of East Germany in a bid for similar NATO restraints.

Although his exact condition remains a tightly guarded Kremlin secret, Brezhnev has been reported over the past five years to be suffering a variety of chronic ailments including heart disease, emphysema, gout and cancer of the jaw. He reportedly has had anywhere from three to seven heart attacks, including one as early as 1961.

The effects of his varied illnesses are visible, according to diplomats who have met with him. He wears a hearing aid and a heart pacemaker and receives injections of an anti-coagulant drug to thin his blood, according to Western reports.

He walks with a slight limp, favoring his left leg, and often needs assis-

'Son of Sam' investigations reopened by the authorities

NEW YORK (AP) - Authorities have reopened investigations of the "Son of Sam" killings to learn whether confessed murderer David Berkowitz had an accomplice during his year-long killing spree.

Officials in North Dakota already are investigating the connection between Berkowitz and a man who apparently killed himself there. Those same officials said they have been in frequent contact with New York City investigators.

New York City sources who asked not to be identified said Thursday that Queens District Attorney John J. Santucci has ordered the case reopened. They said he assigned two assistants to check information that the North Dakota suicide victim may have been

a Berkowitz accomplice in one or more of the six so-called .44-caliber Santucci's office refused official

The man believed to have commit-

ted suicide was John Carr, 31, of

John Carr died Feb. 16, 1978, at Minot Air Force Base, N.D.

"We have evidence that they knew each other," Lt. Terry Gardener of the Ward County sheriff's office, told The Associated Press last week. They appeared to be associates. They knew each other well.

Gardener also said Carr was out of North Dakota for four months during the period of the killings

_ In addition, the Minot Daily News reported Tuesday: "We have received new information that Carr was in fear for his life from someone back East that he was afraid of.'

Gardener said New York detectives had been in Minot as recently as September and that there was frequent followup correspondence.

About Student Parking At Midland High

Some who are opposed to the school bond election have said that land to be acquired for needed expansion of the Midland High Campus will be used for student parking areas. That is absolutely untrue. The BOND ISSUE TO BE VOTED OCTOBER 23RD DOES NOT CONTAIN ONE SINGLE DOLLAR FOR ADDITIONAL PARKING AREAS AT MIDLAND HIGH! A small area to be used for parking has already been bought and paid for and is not included. It does, however, provide \$122,000 for an additional parking area at Lee High School, which is badly needed.

What Will Be Done at Midland High School

· A new library and learning center adequate to meet the needs of 1,8000 students

 A new physical education plant to replace the present inadequate, out-of-date aymnasuim facilities A badly-needed new roof

for parking · Remodeling classrooms, offices and science laboratories

Paving and walks-but_NOT

 Enlargement of the totally inadequate Band Hall

 Replacement of windows, floortile, lockers and inadequate lighting

• Badly-needed repairs to the auditorium, and other facilities

Here Are The Facts: Campus Area

The Midland High Campus is the smallest high school campus in West Texas. Its 13 acres is of similar size or smaller than 8 elementary schools and both of our freshman schools in Midland! To expand this campus to make it comparable to Lee High (which has 40 acres-more than 3 times the area of Midland High), additional property required...and some of it has already been obtained. The area is fast becoming commercial-and waiting longer to obtain the needed land would cost taxpayers 2 to 3 times more.

Compensation To Property Owners

Every property owner in the expansion area of Midland has been or will be more than adequately compensated for land used for this purpose. Our School Board recognizes-and the law recognizes-that any landowner whose property is taken for public purposes must be compensated at fair market value of his property. This is just...it is fair...it is reasonable. Yet this expansion will cost taxpayers far, far less than building a new high school in another location.

This is the economical way to get the job done.

What Inflation Has Done

The rapidly-increasing cost of public education is a subject which every school district in the nation must face and solve. Inflation affects schools just like it affects families and businesses.

Costs have risen at an astronomical rate, and all forecasts say they will continue to soar. We cannot afford to postpone the essential repairs and improvements which are badly needed throughout our school system-or they will cost us much, much more. Let's do it NOW: We can't afford to waitand neither can our children.

Other Midlanders attending were Essie haisler, Frances Walker, Carolyn Sowell, and Paula Booth of Epsilon Eta Chapter, and Jann Buttery, Mary David and Cynthia Williams of Zeta Xi Chapter.

Kissing disease' closer

NEW YORK (AP) — An important step towards making a vaccine to fight infectious mononucleosis - the so-called "kissing disease" among teen-agers - has been reported by a Harvard Medical School researcher.

Scientists are anxious for such a vaccine because the virus which causes mononucleosis may also be the cause of two types of cancer.

Dr. David Thorley-Lawson of the Sidney Farber Cancer Institute said Thursday he has purified a vaccinelike-substance that makes rabbits produce antibodies against the virus that causes the disease, a lingering illness of teen-agers and young

Thorley-Lawson, a biochemist, said the rabbit antibodies neutralize the virus when it is grown in human cells in a test tube.

If further tests succeed, the substance would become a strong candidate for a human vaccine for the widespread ailment.

Mononucleosis is caused by a germ called the Epstein-Barr virus, named for the two British, scientists who isolated it in 1964.

Besides causing mononucleosis, it is also believed to help cause two kinds of cancer which are widespread in underdeveloped countries.

One of these is Burkitt's lymphoma, the most common childhood cancer in

Sears

A special purchase, though not reduced, is

central Africa. The other is nasopharyngeal carcinoma, a nose cancer common in southern China that kills 65 percent of its victims within five

Scientists believe almost every member of the human race - including those in developed countries like the United States - becomes infected with Epstein-Barr virus at some time in life

Children who get it usually don't show any symptoms. But teen-agers and young adults get a fever, sore throat and general malaise that hangs on for weeks.

Once a person gets Epstein-Barr virus, he carries small but measurable amounts of it in his body for the rest of his life. But he is protected against further flareups by his own immune system.

The hope is that a vaccine would stimulate the immune system to make antibodies in advance of infec-

In an article in the British scientific journal Nature, Thorley-Lawson said he purified the potential vaccine from Burkitt's lymphoma cells. It contains no virus, meaning there would be no threat of accidental infection, as with some antiviral vaccines.

Thorley-Lawson plans next to test it on marmosets, a small monkey.

Separated Siamese twins Lisa and Elisa Hansen celebrated their second birthday in Odgen, Utah, yesterday. Their parents, David and Patricia Hansen, gave the girls a private birthday party. (AP Laserphoto)

FRIDAY, OCTOBER 19, 1979

15 wildcat sites staked in Basin

Eleven-West Texas and Southeast New Mexico counties have gained sites for wildcat operations.

Windfohr Oil Co. of Fort Worth announced location for a 4,950-foot wildcat in Crane County, 13 miles southeast of Monahans.

The prospector is No. 9-C M. B. McKnight, 467 feet from north and west lines of section 10, block B-21, psl

It is one location east of Holt production in the Running W, North field and surrounded by Tubb production in the Sand Hills pool.

FLOYD EXPLORER

Harken Oil & Gas, Inc., of Abilene No. 1 Pigg is to be drilled as a rank 10,600-foot wildcat in Floyd County, 10 miles northeast of South Plains. Ground elevation is 2,610.84 feet.

Location is 1,980 feet from north and 660 feet from east lines of section 110, block 4, T&P survey.

GARZA TEST

Highland Resources, Inc., of Houston No. 1 Spellings Trust is a new 9,500-foot wildcat in Garza County, five miles east of Southland. The prospector is 660 feet from

south and 3,495.41 feet from west lines of John Walker survey, abstract 354. Ground elevation is 2,709.5 feet. The drillsite is one location north of

the depleted Ellenburger discovery in the Seale field.

GAINES PROJECTS

Galaxy Oil Co. of Wichita Falls No. 1 Thomas Forbes is to be drilled as a 13,000-foot wildcat in Gaines County, 16 miles southeast of Seminole.

Operator staked location 3,660 feet from south and 467 feet from east lines of labor 17, league 301, Terry County School Land survey.

It is 3/8 mile southeast of a 12,870foot dry hole and one location northwest of depleted Devonian and Mississippian production in the Birge field. The pool has one active Devon-

Thornton and Collins of Midland No. 1-A Calgon-State is a project in Gaines County, 15 miles north of An-

The operator filed location at 2,310 feet from north and 467 feet from east lines of section 19, block A-22, psl survey. Although re-entry was not designated on the Railroad Commission form, the location falls on Exxon No. 1 Calgon-State in the Block A-22 Unit of the Means, North field The depth destination is 4,850 feet.

DAWSON PROJECT

RK Petroleum Corp. of Midland No. 1 Puckett is to be drilled as a 12,000foot wildcat in Dawson County, 6.5 miles northwest of Lamesa.

It is 660 feet from north and 1,980 feet from east lines of section 61, block 35, T-6-N, T&P survey. The site is 7/8 mile southeast of depleted San Andres production in the Welch, Southeast field and one and one-quarter mile southeast of the Well, Southeast (Spraberry) pool. Elevation is 3,053 feet,

NOLAN WILDCAT

Texfel Petroleum Corp. of Abilene No. 1 B. E. Hanson and others has been spotted as a 7,200-foot Nólan County wildcat, seven miles south of

Site is 1,980 feet from south and 1,050 feet from east lines of section 88, block 23, T&P survey and 3/4 mile southwest of the one-well T.D.Y. (Ellenburger) field. It also is 1/2 mile north of the depleted Highland (Mississippian) pool.

STONEWALL TESTS

Three wildcats have been announced in Stonewall County. C. W. Bolin of Wichita Falls No. 1

Brown is a 5,600-foot wildcat 20 miles northeast of Aspermont and 3/4 mile east of a northeasst extension area to the Bissett Ranch (Strawn oil) pool.

Drillsite is 1,827 feet from south and 2,583 feet from west lines of section 24, block F, H&TC survey.

Davis Fasken of Midland spotted a 3,900ofoot wildcat in Stonewall County, nine miles northwest of Peacock.

It is No. 1 J. D. Patterson, 2,550 feet from north and 330 feet from west lines of section 393, block D, H&TC survey. It is a south twin to a 6,760foot dry hole and three and fiveeighths miles southwest of the Ben S (Tannehill) pool.

Leo Oil Co. of Hamlin No. 1 Brigham is a 2,900-foot wildcat six miles southeast of Flat Top.

The opertor will attemp to reopen the Clarice (multipay Tannehill)

Location is 365 feet from north and 955 feet from east lines of section 139, BBB&C survey.

IRION PROJECTS-

Belco Petroleum Corp. of Houston staked a pair of 9,500-tests as wildcats or projects in the Sugg (Ellenburger oil) pool of Irion County, 11 miles north of Barnhart.

The No. 1143 Sugg, approximately 1/2 mile west of Ellenburger production, is 2,080 feet from south and 2,180 feet from west lines of section 114, block 14. H&TC survey. Ground elevation is 2,547 feet. It is two miles southwest of Wolfcamp production in the Ela Sugg field and two and fiveeighths miles southeast of the depleted Barnhart, Northeast (Fusselman) field, the site is surrounded by Spraberry Trend Area production.

Belco No. 1361 Rocker B is 810 feet from south and 1,880 feet from east lines of section 136, block 1, T&P survey. Ground elevation is 2,492

The site is one loation northwest of Ellenburger production and 2.5 miles southwest of Wolfcamp gas production in the Ela Sugg pool. It also is two miles southeast of the depleted production in the Barnhart, Northeast

CONCHO WILDCAT

Sulo Oil Co. of San Antonio No. 1 Ella houston is a 3,900-foot wildcat two miles east of Paint Rock in Con-

Location is 800 feet from north and 625 feet from east lines of AB&M survey No. 1. It is 2,310 feet north of the depleted discovery well of Paint Rock, West (conglomerate) field. It will test for production in that zone, and also for completed in the field's Goen D gas pay.

Worsham Oil Co., Inc., of Abilene No. 1 Fred Parker is a 2,650-foot wildcat in Runnels County, 1.5 miles southeast of Hatchel.

The location is 792 feet from south and 330feet from east lines of John Brown survey No. 528, abstract 20. Ground elevation is 1,734 feet.

The sire is surrounded by depleted wells in the one-well Elm Creek, South (Gardner oil) pool.

CHAVES EXPLORER

Yates Petroleum Corp. of Artesia, N.M., No 1-LH-Y Duncan is a 4,300foot wildcat in Chaves County. Scheduled as a replacement for No. 1-LH Duncan, it is 10 miles northwest of High Lonesome and 860 feet from north and 1,980 feet from west lines of section 3-8s-25e. Ground elevation is

The No. 1-LH Duncan, also scheduled to 4,300 feet, was junked and abandoned at an unreported depth.

EDDY PROJECT

Amoco Production Co. No. 1-HK State Communitized will be drilled as an 11,000-foot wildcat in Eddy County, six miles northwest of White City.

It is 1.980 feet from south and 660 feet from west lines of section 6-24s-25e and 1.5 miles east of the Rock Tank, South (Morrow gas) pool and three and one-quarter miles south west of the Horseshoe Bend (Morrow gas) field.

ANDREWS OILERS

Thornton & Parish of Midland No. 1-12 University has been completed as the third well in the Block 6, north (Devonian) field of Andrews County, eight miles northeast of Andrews.

The operator reported a daily flow ing potnetial of 185 barrels of 44.2gravity oil and eight barrels of water, from open hole at 12,617 feet, where 5.5-inch pipe is set, and total depth of 12,623 feet. The pay was acidized with 250 gallons, and the gas-oil ratio is

It is one location southwest of other Devonian production and 567 feet from south and 2,173 feet from east lines of section 12, block 5, University Lands_survey. ****

ARCO Oil & Gas Co. No. B-2-AA tion north of one of the three wells in the Martin (Wichita) field of Andrews County, 15 miles south of Andrews.

On 24-hour potential test it pumped 26 barrels of 37.4-gravity oil, plus 29 barrels of water, through perforations from 6,702 to 6,985 feet. The paywas acidized with 5,500 gallons and fractured wiith 10,300 gallons.

Total depth is 8,956 feet and 4.5-inch pipe is set at 8,616 feet. Plugged back depth is 8,230 feet.

Wellsite is 1,844 feet from south and 2,035 feet from east lines of section 1,

block 11, University Lands survey. A re-entry project, the well originally produced from the McKee

PECOS PUMPER

Rial Oil Co. of Midland No. 1-29 Belding-State is a new well in the Belding, East (Yeates) pool of Pecos County, five miles south of Fort

It finaled for a daily pumping potential of 20 barrels of 38-gravity oil and four barrels of water, through perforations from 2,566 to 2,598 feet. The gas-oil ratio is 100-1, and the pay was acidized with 300 gallons and

fractured with 2,500 gallons. Total depth is 2,722 feet and 4.5-inch pipe is set on bottom. Plugged back depth is 2,604 feet.

The well is one location northwest of the pool's only other producer and 2,173 feet (amended) from north line and 1,980 feet from east lines of section 29, block 27, University Lands

SCURRY TEST

Western Reserve Oil Co. of Midland No. 1 Rhoades is a 7,100-foot test in the Loyd Mountain (Strawn) pool of ScurryCounty, 10 miles northeast of

It is 467 feet from north and 1,375 feet from west lines of section 151, block 2. H&RC survey and one location southwest of the pool's only

Gasoline price climbs

HOUSTON (AP) - The price of gasoline in Texas has slipped over the dollar mark for the first time, but the American Automobile Association says the overall price rise has been moderate.

And availability of the fuel has improved sharply during the past month, the AAA said

The association's monthly survey showed premium unleaded gasoline now is selling at full-service pumps for an average of 100.2 cents a gallon, compared with 98.9 cents last

The average cost of all grades increased 0.3 cents per week, the AAA said, far less than the weekly one-cent-a-gallon boosts recorded throughout the summer months.

The survey showed that more stations were pumping on Sunday than since the days of early

Congress in hurry to help poor with winter fuel bills

WASHINGTON (AP) - Suddenly, members of Congress sound like they can't move fast enough to spend more than \$1 billion helping the poor pay their heating bills this winter.

"The important thing is to get the dough out before people freeze to death," said Sen. Jacob Javits, R-N.Y.; sponsor of a \$1.2 billion emergency fuel assistance provision that received final Senate approval Wednesday His sense of urgency was seconded

by House Speaker Thomas P. O'Neill, who made an unprecedented appear ance before a House panel to make a pitch for \$1.35 billion in aid.

"The first session of the 96th Congress faces no higher priority than providing low-income fuel assistance to meet this winter's needs," he said. 'I do not believe we can afford to adjourn without adressing this prob-

O'Neill, who emphasized he was speaking "as the elected constitutional head of the House of Representatives," said disagreements about details of the program should not delay its approval. "Prompt action is a national imperative," he concluded.

'This matter will be handled in an expedited manner," promised Rep. William Natcher, D-Ky, chairman of the appropriations subcommittee that listened to the speaker.

Natcher did not indicate immediately when he would reconvene the panel for a vote. Rep. Silvio Conte, R-Mass., suggested the House meet in special session Saturday to approve he money, but O'Neill didn't re-

Meanwhile, the Senate Labor and Human Resources Committee arranged to meet today to debate precisely how to distribute the money senators have agreed to spend. An aide to Sen. Harrison A. Williams, D-N.J., the committee chairman, said it was possible the panel could complete work on the measure by the end

What is prompting the swift action in Congress is sharply higher prices for home heating fuels. In the case of heating oil, prices have risen by more than 50 percent since the end of last winter and now stand at over 80 cents a gallon in some parts of the coun-

The Carter administration has asked Congress to spend a total of \$1.6 billion for emergency fuel assistance this winter, including \$400 million in an existing program that can make eash grants or provide space heaters or other goods in emergency situation. The other \$1.2 billion is a new

Until Wednesday, the administration had insisted that the program was "contingent" on passage of the-"windfall profits" tax the president has asked Congress to approve.

Hospital staff attend meeting

Members of the Midland Memorial hospital staff attended a radiology conference in association with the gram at noon Wednesday.

The program, "Nuclear Cardiolo gy," was presented by Dr. James M. McGee, radiologist at Midland Memo-

McGee presented videotapes of heart scans done at MMH, demonstrating examples of all types of heart disease. The program was designed for all physicians with particular emphasis on the usefuliness of this diag nostic procedure for family and general practitioners.

McGee, who is board certified in both radiology and nuclear medicine, said Midland Memorial Hospital has one of the considerable experiences in nuclear cardiology, and that original research currently is being conducted

LONDON (AP) Black nationalist tion," provided transition arrange ments are agreed to.

They said British and U.S. assurances of contributions to a fund to compensate white farmers for land Rhodesian government in which they will participate went a "long way" to allay their concerns.

The guerrillas sent their message to Lord Carrington, the British foreign secretary and chairman of the sixweek old talks, and British sources said he welcomed the Front's "unambiguous" announcement and was 'happy and content' to begin discussions of the transition.

Mugabe and Nkomo had been eclipsed from the talks since Monday for refusing to accept Britain's stipulation in the draft constitution that any new Zimbabwe Rhodesian govcontinuing medical education pro , ernment compensate white settlers for expropriated land.

> The guerrillas, who have been batthing for control of Rhodesia for seven years, took the position that there should be no compensation from them because the white minority in the rich African nation originally seized the land from the black majority.

> As a result, both Britain and the United States gave clear signs they would contribute to an international fund to compensate the white settlers: in the breakaway British colony.

But Britain is still sticking to its proposal that a British governor take over and supervise new elections in Zimbabwe Rhodesia, and that the vote be supervised by the currently white-led army.

Lines, numbers decorate city in marathon mania

NEW YORK (AP) - A bright blue line snakes through all five New York City boroughs. Big numbers - 23, 24, 25, 26 - are painted on Central Park's

Nylon- and rubber-shod feet thud on city streets and sidewalks and crunch on the kinder path around the Manhattan reservoir.

It's marathon mania time again. On Sunday, 14,000 men, women and children will group on the Staten Island side of the Verrazano Narrows Bridge, eager to put their bodies through agony to run 26 miles and 385 yards through the streets of Brooklyn, Queens, the

Bronx and Manhattan. Before the starting gun, the competitors will seem to merge into one mass, blending into a sea of multi-colored T-shirts and tank tops

But the 10th annual New York City Marathon calls for the supreme individual effort. Each runner - consumed for weeks ahead of time with preparation faces the grueling event alone, trying to pass his or her private endurance

Ed Haggerty, 37, a seasoned athlete who plays rugby union, has already run two marathons, but he says he would never recommend that someone take up

'It becomes obsessive." Haggerty says. "It's a time drain and a mental drain. I get up in the murning and I think about the marathon." Drew Melton, a 35 year old bond trader and veteran marathoner, took a week off work to train, ran too much and caught a cold. He realizes his chances to beat his previous time are slim, but he'll be running Sunday. "The more time you think about it the more anxious you get about it. I've just started to think about it," he says.

And Bert Berliner, a photo editor and first time marathoner who used to call runners "fanatics," now admits he's one. Berliner, 35, says the race is his personal odyssey: "I can't think of any other goal that is so important to me. When I picture what the Verrazano Bridge is going to look like, I'm just

overwhelmed. Haggerty and Melton say they're running to beat their best marathon times, coincidentally identical marks of 3 hours and 6 minutes.

"I know I can run 26 miles. That's a piece of cake," says Haggerty, who owns and edits Rugby Magazine. "To me it's just a question of am I going to run better than 3:06 or not? If I break my time, then all the training is worth

Others run hoping to win or to qualify for next spring's Olympic trials. But Berliner falls amid the majority whose goal is simple: To complete the cace, to somehow struggle across that finish line at Tavern on the Green in

Illegitimate children point of landmark case

AUSTIN, Texas (AP) - The Texas Supreme Court has ruled in a landmark Dallas paternity case that illegitimate children born before Sept. 1, 1975, have until their 22nd birthday to establish the identity of their fa-

"This brings joy to my heart," said Bill J. Ballard, a Wichita Falls specialist in paternity law. "It's time for rejoicing for many kiddies whose parents neglected to get married.' The opinion in the Dallas case was written by the civil appeals court

there. The Supreme Court upheld the ruling Wednesday. The Texas Department of Human Resources, formerly the welfare department, sued on behalf of the child's mother to compel Edward Charles Delley of Dallas to support an illegitimate child born in 1968. Both parents were 17 at the time.

The ruling is important to the state because child support could erase the need for state welfare payments in many cases. Before the Delley suit was filed, the appeals court said, Delley signed a

sworn statement, witnessed by two people, acknowledging he was the

Delley contended a four-year statute of limitations barred the state's The Dallas trial court dismissed the suit. It held the statute of limitations

barred the suit, because the child had been born more than four years prior to the time it was filed. However, the Dallas appeals court ruled the four-year limitation for ille-

gimate children born prior to Sept. 1, 1975, does not start to run until the child reaches 18 years of age. The appeals court remanded the Delley case to Dallas for a possible

A law effective Sept. 1, 1975, requires paternity suits for children born after that date to be filed within a year of the child's birth. Ballard said in a telephone interview the Supreme Court ruling Wednesday 'gives hope" that even those children will have a year after reaching 18 to

"As a matter of public policy," the Dallas appeals court said, "we doubt that fathers of illegitimate children should be absolved from the duty of paying child support because a paternity suit has not been filed within four years of the birth of the child."

Fake FDIC representative may be on most-wanted list

BOULDER, Colo. (AP) - He was 'soft spoken, very cool," and seemed to be what he said he was — a federal bank official, the bank president

But the man whipped out a gun, announced he was Earl Edwin Austin, a man on the FBI's most-wanted

list, and made off with an estimated \$250,000 from the Arapahoe National "He identified himself as a representative of the FDIC (Federal De-

posit Insurance Corporation) and wanted to speak to me about a private Darrell Brubaker, bank president, said after the robbery Thursday We went into my office, he said it

was confidential and asked me to

close the door. He handed me a note and it stated he was there to take money from the bank and that he had accomplices outside who were armed with hand grenades and were prepared to back him up," the bank president said.

"He showed me a gun. He never took it out of the holster," Brubaker said of the man dressed in sport clothes and a hat.

"He stated to me he was wanted by the FBI, that he was one of the 10 Most Wanted Men and he gave me the name of Earl Austin," he said. "He was soft spoken, very cool, very collected, a lot cooler than I was.

The FBI said they had an all points bulletin out for Austin, 38, in connection with Thursday's robbery

Judge gives choice of fine, jail, soap

CORTLAND, N.Y. (AP) - A city judge who believes mouth washing helps defendants clean up their language says he may abandon the unusual sentences if police are reluctant to carry them out.

City Court Judge Lynn P. Dorset offered the punishment as a substitute for a \$50 fine or 10 days in jail to a local youth for shouting obscenities at police early last month outside of a Cortland tavern.

Thomas South, 20, agreed to have his mouth washed out with soap in the first floor washroom at the city's police department. The sentence was to be carried out tonight by arresting officers Christopher Kabat and James Rice.

"I doubt if I'm going to do it," Kabat said. "I doubt if the other officer will, either. We don't want to be liable if the soap makes him

Dorset says the unusual sentences could be halted because of the policemen's hesitancy to enforce them. "It's the first time anyone's ever said anything to me about it, and

probably I won't have it (the soap punishment) anymore if that's the way they feel about it," Dorset said. Dorset said he gives defendants the mouth-washing punishment about

once a month. "I know my mother did it to me, and once was enough," he said. "I use it just if somebody badmouths a police officer who really has no comeback

Dorset said some who choose the fine seem to "come back time after time. But with the soap, I've never seen him or her back in my court

Bicyclist injured when hit by cars

A 24-year-old Midland bicyclist was injured about 7: 15 a.m. today when he was struck by two separate vehicles at the intersection of M Street and Texas Avenue. -

According to Midland police, Michael Yusas, 4303 Andrews Highway, was riding his bicycle in the pre-dawn dark when a car pulled out in front of him. Yusas' bicycle struck the car and overturned, reports indicated.

Another vehicle then came along and struck Yusas, who was lying in the street, police said.

Yusas was taken to Midland Memorial Hospital, where officials this morning said an initial examination revealed possible internal injuries.

FRIDAY, OCTOBER 19, 1979

Rebels face No. 1 Cooper tonight

By BOB DILLON

It's showdown time for Robert E. Lee tonight. Coach Gil/Bartosh sends his Rebels against the No. 1-ranked

Class AAAA team in the state in the Abilene Cooper Cougars in a big District 5-4A shootout.

Last year, Lee traveled to Abilene and downed Coach Ray Overton's Cougars, 28-25 in a real thriller and in that one the

homecoming.

Well, this time around, it will be the Rebels who will be showing off in front of their homecoming crowd, taking the No. 9. ranking into the game of unbeat en AAAA outfits.

LEE WILL be trying to keep a three-game winning streak going against the Cougars, who before 1976, had won 10 in a row. In 1976, the last time the Rebels wore the 5-4A crown, Lee took a 13-7 decision and then in 1977 it was 16-13 in favor of the Tall City team and then of course

last year's dandy So the two rivals have been evenly-matched for the past three years and even though the Cougars have rolled past five opponents, scoring 206 points to 21, the Rebel defense, tops in 5:4A won't take a back seat to anybody, not even the mighty

"WE NEED to play super defense and not make any errors In order to make it close with Cooper, " said Bartosh who still has plenty of concern over six starters that missed last week's San Angelo game. Five of those six will be playing tonight and even though that is a plus for the Rebels, the fact that four of them have hardly had much contact, could hurt Lee's chances tonight.

Radio Station KCRS will do the play-by-play with the kickoff set for 8 p.m. and a crowd of more than 11,000 is expected in Memorial Stadium for this one.

WHILE BARTOSH is concerned over some of his injured players, Overton, too, may only have limited duty from 229 pound fullback Terry Orr, who has a bruised shoulder. "Terry last week against Odessa and he helps our offense go, " said Overton.

Bartosh agrees that the big senior does give the Cougars a more powerful weapon when in the lineup. "He runs well, blocks well and catches the ball very well too, "quipped Bartosh.

While Lee boasts of the No. 1 defense in the league, Cooper comes into tonight's confrontation with the top offense. "They (Cooper) go along not doing very much and then suddenly make the big play on you, " said Bartosh.

While Bartosh is impressed with the Cougar offense, Over-

(Color photo on Page 4D)

ton is highly impressed with the rugged Rebel defense. Lee has only given up 321 yards pn the ground and an amazing five through the airways in its first two games, so the Cougars are bound to put the ball into the air and they have two gifted quarterbacks in John Slaughter and Lanny Dycus.

DYCUS LEADS the league in passing. The 185-pound junior has connected on six of 12 passes for 152 yards and one touchdown while Slaughter; an 180-pound senior, has six of eight passes, good for 81 yards and one TD The two have combined for a total of 233 yards passing.

With 233 yards through the airways, the potent Cougar ground attack has racked up:498 yards for a total offense of 731 yards in two games in 5-4A

Lee, meanwhile, has given up only those 326 yards in two league outings and that is what it will have to rely upon in order to give the Cougs a stern test. Orr is doubtful and if he isn't able to start at fullback, Steve Moake, a 200-pounder, will start there on offense and at a defen-

sive tackle on defense, according to Overton.

Cooper has plenty of speed and size in the forward wall with the likes of Paul Mergenhagen (215), Alvin Jenkins (210), Steve Hill (200) and David Johnson (220) in the enterior line. Orr also starts at linebacker and is joined by middle linebacker Greg Berry, a 190-pound senior who Bartosh calls "Super".

"THEY CAN hurt you'so

many different ways and also

have a strong kicking game in

Kyle Stuard, "commented Bar-

tosh. Stuard is the leading punt-

er in the league with a 45.0 aver-

age, but then the Rebels can

we will have our hands full,

said Overton.

Joining Butler, Thompson and Waldron in the Rebel backfield will be two players alternating at flanker in Wade Cartwright and Joe Windsor. Bartosh alternates those two to bring in plays from the sidelines.

Keith Pantalion, a 160-pound senior tailback for the Cougars

Senior quarterback Gary Butler ... ready to guide Lee against Cooper

Texas-Arkansas shootout heads big SWC slate

By DENNE H. FREEMAN AP Sports Writer

Asked the other day if he knew Lou Holtz was unbeaten in Little Rock, Fred Akers replied: "Arkansas is unbeaten in a lot of places."

But the oddsmakers don't figure Holtz and the Razorbacks will be unbeaten at sundown Saturday. Holtz loves to play in Little Rock.

And his players have picked up the However, a Holtz-coached Arkansas team has yet to beat Texas. And

the Razorbacks are picking a tough time to try again. TEXAS IS riding the euphoria of a

16-7 victory over Oklahoma. The Akers-coached Longhorns are No. 2 in the nation. Arkansas is No. 10. The oddsmakers say it's Texas by four and one-half points.

"We are better than I thought we would be but we're not real solid team," says Holtz. "I have confidence in this team. But I'm concerned our team may not have the confidence

Akers said the Texas defense will face a stern test.

"Arkansas' offense will be the best balanced we have faced this year, said Akers. "They hit a remarkable number of passes and they have a good offensive line. They get your attention because they have great big-play potential.

Kickoff for the regionally televised game is 3: 10 p.m. with a sellout crowd of 53,555 fans on hand in War Memorial Stadium.

TV, radio sports slate

FOOTBALL-Dallas-St. Louis, 1 p.m., Channel 7, KCRS.

IN OTHER SWC action, Houston is a 12-point nod over Southern Methodist in the Astrodome, Texas Tech is a 21-point selection over Rice in Lubbock. Baylor is a 13-point pick over Army at West Point, and Tulsa is a four-point favorite over Texas Chris-

Arkansas and Houston lead the SWC race with 2-0 ledgers. Texas is 1-0 followed by Baylor 3-1, SMU 2-1 and Texas Tech and TCU, each 1-2.

Mustang Mania is also crippled going into the meeting with the Cougars. Freshman Mike Fisher of Waco Richfield will start at quarterback for the injured Jim Bob Taylor

'Houston is an outstanding team and we are really beat up," said SMU Coach Ron Meyer.

All-America wide receiver Emanuel Tolbert and linebackers Eric Ferguson and Clarence Bennett are expected to miss the game against the unbeaten Cougars.

The Houston-SMU series has a weird statistic. Neither team has ever won at home.

THE SWC can boost its 15-8-1 edge against outside competition if Baylor and TCU come through.

Baylor Coach Grant Teaff warned against downplaying Army

"I do know they beat a fine Stanford team that tied the No. 1 team in the nation, USC," said Teaff.

Charlotte Marburger walked off with medalist honors Thursday during qualifying round of the Women's City Golf Tournament at Hogan Park. The tourney starts Tuesday and runs through Thursday. (Staff Photo by Mike Kardos).

Bullups win short game, 7-0

The Midland High Bullpups downed the Abilene junior varsity, 7-0 in the rain Thursday night in Memorial Stadium in a game that only lasted

Lightning and rain hit the stadium with Midland on top, 7-0, going into the second period and Athletic Director Sam Cox called the game off when lightning and rain hit

The Bullpups now stand 4-2 on the year and Abilene is 3-3 with the

Dallas, St. Louis to tangle Sunday

DALLAS (AP) — It's been a long time since Ottis Anderson exploded onto the National Football League scene with a 193-yard rushing performance ... a very, very long time for the St. Louis Cardinals.

Anderson, the Cardinals' No.1 draft choice out of Miami, has done just about everything expected of him. He's third in the National Conference in rushing with 663 yards and has added 21 receptions for 150 additional

BUT DESPITE his performance, starting with that near-record yardage against Dallas - the Cowboys won the game 22-21 on a late field goal - St. Louis has failed to become the NFC East contenders that so many fans figured they'd be. They're 2-5, rattling around the division basement along with the New York Giants, four games behind co-leaders Dallas and Philadelphia — and they play the Cowboys in Dallas this Sunday.

Sunday's other games are Philadelphia at Washington, the Giants at Kansas City, Atlanta at San Francisco, Baltimore at Buffalo, Cincinnati at Cleveland, Green Bay at Tampa Bay, Oakland at the New York Jets, Miami at New England, Chicago at Minnesota, Detroit at New Orleans, Houston at Seattle and San Diego at Los Angeles. On Monday night it's Denver at Pittsburgh.

AFTER BEING chewed up so royally by Anderson, who came within one yard of Alan Ameche's first pro

with Menard, 3-2. The Owls, 4-1, have

victory over the Cowboys.

game record, the Cowboys began reestablishing their Doomsday Defense, to the point that it is now the conference's best against the rush.

They take a 6-T record into the game and are rated roughly 10-point favorites to beat the Cardinals - but Cowboys Coach Tom Landry, never one to take matters lightly, observes: "O.J is still running well. It's not going to be an easy day." Anderson gained 73 vards in St. Louis' 24-20 loss to Philadelphia last Sunday.

As if facing Dallas' defense wasn't enough, the Cards must also try to prep their own defense (second in the NFC against the rush but ninth against the pass) for an onslaught by Roger Staubach.

THE COWBOYS' quarterback is No.1 among conference passers and has thrown 11 touchdowns while being intercepted only three times. Last Sunday night against Los Angeles he completed 13 of 18 passes for 176 yards and three TDs. He now owns the Cowboys' TD passing record of 137, having passed Don Meredith's 135 during the 30-6 victory over the

Considering all of that, St. Louis Coach Bud Wilkinson was asked what the Cardinals would have to do to defeat Dallas.

"Be very lucky," he said.

THE REDSKINS, 5-2, will have to contain him if they are to stay in the East Division race. They didn't do it very well in Philadelphia two weeks ago, when Montgomery scored all four touchdowns in the Eagles' 28-17

Laney captures Enduro crown

John Laney, 20, of 31 Lavera Dr., won the 200 cc. class "B" and overall class "B" divisions at the 20th Annual Mile High Enduro, in Cloudcroft, N.M., which is an American Motorcycle Association sanctioned National Championship Event. Points won count toward a national Enduro championship. The event was held

The 102 mile course included seven timed-checkpoints to determine the score. Of a possible 1,000 points, Laney scored 987 points, a comfort-

able win, he said. Riders from all over the country competed in the event, bringing the number of entrants to more than 250. Laney said approximately 80 riders were entered in the Class "B" divi-

This is Laney's first victory in an -AMA nationallhy sanctioned event.

He has competed in Motorcross for a number of years, but this is his first attempt at Enduro, which is timed competition.

RICHARD VINCENT

Andrews will remain unbeaten

There's no doubt as to tonight's top game. It has to be the Andrews-Pecos battle, which incidentally is the District 2-AAA opener for both outfits.

Trying to select a stock that goes up in price is an easier proposition than offering a prognostication about this

But the fearsome forecast must

AFTER PERSUING the statistics, it's obvious these two teams are as closely matched as twins. Each possesses the ability to strike quickly. while on the other hand, both defenses

are downright tough: To date, Andrews really hasn't broken a sweat in running up a 6-0 mark although they've faced a couple of

good teams - Seminole and Kermit - during the last three weeks: Pecos, though, has played mostly patsies and was extended to a 3-0 decision over Snyder last week to remain 6-0. The logical choice would be to pre-

dict a tie, but that, as has often been said before, isn't much fun.

So, with nothing but a gut feeling, the nod goes to Andrews to cop a 21-12 decision over the Eagles.

night, then Lamesa and Sweetwater have to be two of the worst. And that means their District 3-AAA opener should be - if not well

IF ANDREWS and Pecos are the two best teams hooking-up Friday District 5-A crown.

played - at least exciting. Basically, they're evenly matched, the Golden Tornadoes struggling to a

0-6 reading while the Mustangs have been lackluster enroute to a 1-5 log.

For strictly personal reasons and the desire to see Julian Bush's hardworking kids finally notch a victory, I'm going out on a very shaky limb and predicting the Tors to defeat the " Ponies 14-7

Rebel-Cougar shootout

(Continued from Page 1D)

is the No. 4'rusher in the league He has 158 yards in 23 carries while Slaughter and Dycus are next. Slaughter has 91 yards in 19 carries and Dycus is averaging 9.7 yards per carry with 88 yards in only nine carries. Next comes Orr with 86 yards in 18 cracks into the line, but the big blockbuster fullback, only car ried two times for five yards against Odessa last week in the Cougars' 21-0 victory over the Bronchos..

While you have to be Impressed with the credentials of Dycus and Slaughter in the passing department, the Rebels have a fine signal-caller too in Butler, who has hit 12 of 17 passes for 138 yards and one TD and is the No. 2 thrower in the league behind Dycus.

Butler's favorite targets have been Larry Linne and Windsor. Linne has four catches for 56 yards and Windsor three for 37 while Cooper's top receivers have been Pantalion (Tops in, the league). Orr and Steve Mafpass. Pantalion has latched on to three passes for 94 yards and one TD and is averaing 31.3 yards per reception while Orr has three for 53 and Malpass two for 48. Jenkins has three for 32

vards and a TD. Waldron has gained 134 yards in 32 carries to be the leading rusher for the Rebs in district

warfare to date. Anyway you look at it, the games shapes up as a realbarnburner with the winner takreveover the driver's seat in the

magic?

Both teams are state ranked and it shapes up as a great battle.

Before getting into tonight's big shootout in the Tall City, looking backwards to last week, it was not one of the better weekends for this corner on trying to pick Class AAAA football games, but at least the average didn't drop below the 80 per cent mark.

Last week the record was 50 correct and 10 incorrect for a percentage of .833 or 83.3 and on the year, it stands 206 right and 37 wrong for an 85.1 percentage.

There were some real shockers, but then in schoolboy football there always are, especially as the season nears the halfway mark.

Turning now to this weekend's battles tonight and Saturday:

MIDLAND LEE throws its rugged defense at the powerful Cooper offense tonight as the Rebels hope to celebrate homecoming. Terry Orr is doubtful for Cooper and I still feel like the Reb defense will shut down some of the things that Ray Overton's Cougars have been getting away with. Anyway, whether or not Orr plays, got to pick the upset of the season as the Rebels will celebrate tonight after polishing off Cooper, 14:10 in a real

Texas tough

(Continued from Page 3D) quarterback since Bobby Layne and he was actually a single wing tailback in college. Most of the Texas passing records date back to Layne or Paul Clements, who followed Layne. With the kind of material Texas gets, that's really not too surprising. Why should they waste their time finessing folks

when they're built to outmuscle 'em. It's a lesson Woody Hayes learned early in his career at Ohio State. Most folks forget that Hayes' had Johnny Borton his first year at Columbus and the Buckeyes were a throwing team, at least for that era, but they were also a team that barely made it to the 500 mark. Hayes quickly decided that the pass for a team that outmanpowered its rivals was just an invitation to disaster

Still, Little may be the best passer at Texas since the early 1950s, although-that is not necessarily to be interpreted as praise. Most Texas quarterbacks throw the football like it's a 16-pound shot. Little throws it like a javelin. And honest, he might be pretty good, but nobody will ever know. The Longhorns don't recruit receivers, which was obvious against

But, then, with that the defense, who's gonna notice or really care.

on their shoes tightly tonight for there's boud to be a whole lot of hitting going on.

MIDLAND HIGH, fresh from an easy 31-0 victory over Big Spring travels to Abilene to take on a pretty good Abilene High football team in P.E. Shotwell Stadium. Midland is back on the track and takes a 4-1 seasn record and 1-1 District 5-4A mark into the game and despite the fact that tailback Billy Applin won't play, Michael Feldt, Jeff Robnett, Jerry Zachery and Rick Ankerholz

have enough to post a 20-14 victory.

ODESSA HIGH'S Bronchos still have a very fine team and after two tough losses in 5-4A, will take out their wrath against the San Angelo Central Bobcats in W.T. Barrett Stadium tonight. Quarterback Billy Rumbaugh may return to the lineup after missing the Lee and Cooper games. Going to go with the Red Hosses to post a 27-0 victory over the punchless Bobcats.

ODESSA PERMIAN takes on the Big Spring Steers in Big Spring and Mojo still has had some tough games there. Tailback Ricky Reynolds, the No. 2 rusher behind Midland's Jeff Robnett is out, but it won't make much difference as he rests to get ready for Cooper next week. Mojo to take a 35-0 victory over the Steers to remain undefeated in districr play.

Greenwood rips MHS sop

By BOB DILLON Sports Writer

The Greenwood Rangers stormed to their fifth victory in seven outings Thursday afternoon in posting a 31-0 victory over the outmanned Midland High sophomore unit at Memorial Stadium.

The Rangers, now 5-2, scored 25 points in the first half and added six more in the second half. It was their second win over the MHS sophs this year, having won 20-6 in the first meeting some two weeks ago.

Quarterback Tommy Somers got the Rangers on the scoreboard in the first period by going nine yards for the first score of the afternoon. The kick failed, making it 6-0 with 9:36 left in the opening period.

Greenwood added another score in the same period when tailback Joe Mobley scooted 17 yards for the TD. This time, the run for the two-point conversion failed, making it 12-0 with •5: 12 left in the first period.

Fullback Rex Evans, an 183-pound

junior, scored for the Rangers in the second period, going over from eight yards out and once again, the run failed to bring the score to 18-0 with 9:23 left in the first half...

Mobley scored his second touchdown of the afternoon late in the second period when he took a 12-yard pass from Somers for the score. Somers booted the PAt for a 25-0 lead at halftime.

The Rangers put a little icing on the cake in the final period when Vondell Woolfolk scampered 52 yards for the final score of the afternoon. The extra point was blocked by Midland's Bobby Gotovac.

Midland spent a frustrating afternoon in having four passes picked off by the alert Ranger secondary.

Greenwood also reccovered one fumble by Midland to take advantage of five big turnovers.

George Garnett, Gotovac, Danny Rider and Ray DeLeon stood out for the Midland sophomore unit on defense while Russ Padgett and Tommy Pyle were all over the place on defense for the Rangers along with Somers, Homer Lopez and Clay Co-

Woolfolk and Mobley led the rushing attack for the Rangers which wound up with 316 yards via the infantry route, with 139 and 131 yards, respectively.

Greenwood has an open date until Oct. 26 when the Rangers entertain Lubbock Christian at home.

Bryant worried about Tennessee

BIRMINGHAM, Ala. (AP) - This is "cigar week" for the top-ranked Alabama football team, but Coach Bear Bryant said today he is worried that Tennessee will keep the Crimson Tide from lighting up.

"They are getting mighty hungry to beat us," said "No team wants to beat us more than Bryant.

Each time Alabama defeats longtime rival Tennessee, Bryant enlivens the locker room celebration by handing out cigars to his players. They have been able to light up for eight straight years.

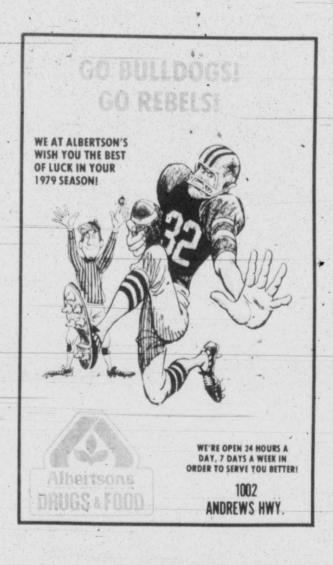

Coach Johnny Majors, brought back to his alma mater in 1977 to, among other things, halt the Tide's domination, said he knows what it will take for his 4-1 Vols, ranked 18th in the nation, to turn back the Tide

"You must have poise, emotion, ability and a few breaks to play with a team like Alabama," he said. "This is probably the best team we have faced in the

three years I have been at Tennessee. Alabama statistics tend to bear that out. The Tide leads the nation in seven categories, including the ones that count, scoring offense and scoring defense. The Tide has swamped its five opponents by an average victory margin of 42 points, while giving up

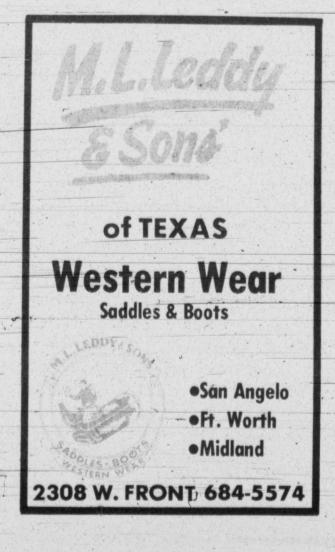

only 1.8 a game. Nevertheless, said Bryant, the Vols "are five times more potent than anything we've seen yet because they're Tennessee.

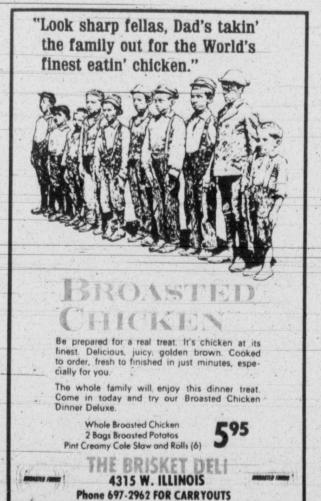

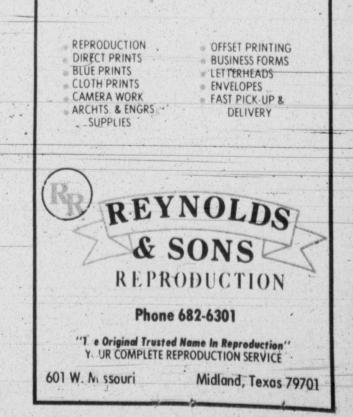

We're A Winning Team

America strives to measure up in metric world

By RANDOLPH E. SCHMID

WASHINGTON (AP) - The Traveling Metric Show rolls into Michigan this week, an effort aimed at persuading Americans to measure milk by the lifer, hamburger by the kilogram and the miles to grandmother's house by the kilometer.

Americans gave the system mixed reviews at U.S. Metric Board hearings earlier this year in Dallas, Boston and San Francisco.

Indeed, Americans have steadfastly ignored the metric system despite its being the official system of weights and measures since 1893. This country alone among the world's industrial nations - seems to prefer using quarts and pints, and more obscure measures such as bushels and pecks, all four of which can be converted to the metric liter.

The only other non-metric nations are Brunei, Burma, Liberia and North and South Yemen.

The sessions in Dearborn, Mich., on Thursday and riday are expected to feature a lively discussion on the merits of metrics, according to Bill DeReuter of the Metric Board, with auto industry figures arguing both sides of the question.

Congress created the board in 1975 to "coordinate the voluntary conversion to the metric system." While many consider this a mandate to encourage Americans to give up yards, pounds and gallons in exchange for meters, grams and liters, others even board members - disagree.

And if it is a mandate, it is one without teeth, since conversion is voluntary.

Changeover activists include U.S. industries that want to sell their products overseas where the metric system is nearly universal.

But firm opposition also exists, from people for whom the English system is too deeply ingrained to those, like the garage mechanic with a full set of English system socket wrenches, who hope to avoid the inevitable costs of the changeover.

Nonetheless, the board predicts the metric system will be the dominant system in the United States by

In Detroit, the car companies are already converting to metrics-because of their large involvement in overseas markets, and they are pushing for other industries to follow.

However, the United Auto Workers union is concerned the costs of retooling to accomodate metric measurement would be borne by car owners and

mechanics, according to DeReuter. UAW fears were realized, at least in part, by the alcohol industry.

Distilleries and vineyards, under pressure from the U.S. Bureau of Alcohol, Tobacco and Firearms, were leaders in adopting metrics, but the changeover brought price increases for wine and liquor A federal study last year noted that "most wines

and distilled spirits that were converted to metric sizes experienced unit price increases greater than those that did not convert. DeReuter said that public forums in Dallas and Boston drew opposition to change, so the board was

surprised when a majority of those speaking in San Francisco favored use of metric measurement. The Detroit meeting will likely include discussions on the current hot topic in the world of metric

measurement — gasoline pumps. Gasoline prices of more than \$1 a gallon have led to problems because most pumps can indicate prices

on's to 99.9 cents. Some stations are selling by the half-gallon as an interim measure, but metric proponents are urging a

conversion to pumps that measure in liters, which are slightly more than a quart. This, they claim, would be cheaper than changing

the calculator part of the pump. Some independents have already converted to liter measurements. For the time being, there is no national concensus,

and gas station owners or oil companies must make the decisions individually. The metric board has no power to compel the use of metrics, and when others tried to use leverage, the public outcry was overwhelming.

In 1977, for example, the Federal Highway Administration proposed converting highway speed signs to kilometers-per-hour. The plan was withdrawn after a two-month barrage of public opposition: of more than 5,000 comments sent in, 98 percent were nega-

The National Weather Service has also eased its push for metric usage, offering both Celsius and Fahrenheit temperatures but delaying further moves toward metric windspeeds and other mea-
