Parking in the Tall City may seem like a bad dream to some Midlanders, but a sign at the bottom of a light pole actually is pointing out where residents could park while going

through a nearby spook house. In reality, the "nightmare" of finding a parking place can be like a two-edged sword; finding a parking

place in the first place and trying to remember at the end of the day where the car was parked. (Staff Photo by Mike Kardos)

Bolivian coup is successful

LA PAZ, Bolivia (AP) - Bolivia's new military strongman, Col. Alberto Natusch, declared a state of siege, dissolved congress and had himself named president only hours after leading a bloody coup and assuring his countrymen political freedom...

The state of siege, which suspends all constitutional guarantees, was announced late Thursday and came amid rumors that a counter-coup would be attempted. Students, unions and major political parties oppose Natusch, denouncing him as a military dictator.

At least six students and workers were killed in clashes with soldiers throughout the country Thursday after Natusch seized power from President Walter Guevara's 11-weekold civilian government — Bolivia's first democratically elected one in a decade. Natusch declared himself president and named a Cabinet.

But the Bolivian congress immediately rejected Natusch as president and declared support for Guevara, who from a hiding place somehwere in La Paz, asked his countrymen to resist the Natusch rebels and reverse one of more than 200 in Brazil's 154-year history as a repub-

Bolivia has a \$3 billion foreign debt, a 25 percent rate of inflation, an overvalued peso and a foreign trade deficit of \$350 million a year. Unless the problems are solved, life for Bolivia's million people with a per capita income of \$380 a year is certain to get more difficult.

Guevara was negotiating with the International Monetary Fund, and the United States had opened the door to additional assistance, according to diplomatic sources who asked to remain anonymous. Those possibilities undoubtedly were wiped out with the

Savings account bill could help housing industry

WASHINGTON (AP) - A Senate-passed bill that would allow unlimited interest to be earned on checking and savings accounts is being hailed as a weapon against inflation and a boon to the housing industry.

But opponents claim the measure would bankrupt many savings and loan associations, which have provided the mortgage money for 60 percent

of the nation's homebuyers. The far-reaching bill, which also would override state laws that restrict the interest charged on home mortgages and big loans for farm and business, was passed on a 76-9 vote Thursday night:

A Senate-House conference now must work out a compromise between the House bill, which would simply authorize interest-paying checking accounts nationwide, and the broader Senate measure.

The Senate bill aims to increase the interest small savers may earn on deposits. The law now limits a bank passbook account, for example, to 51/4 percent. By 1990, the bank could pay whatever it wishes.

Sen. Robert Morgan, D-N.C., a leading opponent of the bill, claimed it would devastate savings and loan associations. Since they have much of their money tied up in old home mortgages at interest rates as low as 4 percent, he said, there is no way they can afford to pay most of their depositors 11 percent or 12 percent interest.

Sen. William Proxmire, D-Wis., whose Banking Committee wrote the bill, predicted it would dampen inflation by giving Americans greater incentives for saving more and spending less.

Jonathan Lindley of the National Savings and Loan League called the bill "a big step forward in equipping the savings and loan industry to meet

the housing needs of the nation in the 1980s. Representatives of the housing and real-estate industries said the measure "will lead to an unprecedented increase in interest rates for home mortgages which could put costs, finally, beyond the ability of people to Here are key provisions of the bill:

-Starting in January 1982, federal regulators would be required to raise interest limits paid on savings by at least one-half percentage point a year. All limits would end in 1990 unless the Federal Reserve Board concludes that would damage the economy or a segment of the lending

-Federal savings and loan associations ultimately would lose the one-quarter-point advantage they now have over banks in the amount of interest they can pay. But they would be allowed for the first time to invest up to 20 percent of their assets in consumer loans, which are more lucrative than mortgages.

-Federally chartered banks, savings and loan associations and credit unions could offer interest-bearing checking accounts. Such accounts already are authorized and highly popular in New York and New England. The accounts would be allowed in California only if authorized by the state legislature.

Unemployment rate up again

Still not sign of recession, analysts say

WASHINGTON (AP) - A spurt of layoffs, mostly among women and blacks, pushed the nation's unemployment rate back up to 6 percent in October, the government reported

The Labor Department said the number of unemployed persons rose by 200,000 from September to 6.2 million. As a result, the jobless rate returned to the level reached in August following a drop to 5.8 percent in

September. Despite the rise, Labor Department analysts said the figures did not provide signs that a recession is taking

"You would have to have a crystal ball to say these are indications to say we're in or about to enter a recession," said Labor economist Norman Bowers. "The figures don't say

Bowers said the rising unemployment appeared to stem from the fact that new jobs were not created at a fast enough rate to provide employment opportunities for those who had lost their lobs.

The nation's unemployment rate has fluttered between 5.6 percent and 6 percent for the past 15 months.

Carter administration economists had forecast a recession and sharply rising unemployment this fall, but unexpected economic expansion has diminished the prospect of an immediate big jump in joblessness.

The Labor Department said the increase in unemployment last month resulted from workers losing their jobs, as opposed to people who entered the job market but were unable to find work. Two-thirds of the job losses struck women or blacks.

Total employment, as measured by

the government's survey of households, declined by 220,000 during October, to 97.3 million. However, a supplemental survey of business establishments reported a contradictory rise of employment by 300,000

The Labor Department, which uses the household survey to determine jobless figures, was at a loss to explain the discrepancy, other than to note that such a result has occurred occasionally in the past.

The jobless rate among adult women rose from 5.5 percent in September to 5.8 percent in October, and the rate for blacks jumped from 10.6 percent to 11.7 percent.

The jobless rate among minority teen-agers went from 31.5 percent in September to 35.7 percent, the highest

in nearly a year. The department provided these -job market.

Kansan says Texas didn't want gasohol plant

AUSTIN, Texas (AP) - The president of a Kansas firm that wanted to build a \$25 million gasohol plant in Texas says the company will look elsewhere while a Senate committee tries to figure out how to revive the abandoned project.

'We have been besieged by offers from just about every state in the union,' said Cloud Cray, Midwest Solvents president. "Texas just didn't want us." Cray commented at a Senate Special Committee on Gasohol hearing. The committee wants to know why the proposed Rio Grande Valley project died after apparently winning legislative and Alcoholic Beverage Commission

At the heart of the issue is whether 190-proof alcohol is fit for human consumption. A top ABC official originally told Midwest the potent alcohol it planned to produce was not drinkable, but he said he was "overruled" by other staff members. The project died.

Joe Darnall, assistant ABC administrator, said he initially decided, "I could live with an interpretation that 190-200-proof alcohol - raw and straight from

the still - is unfit for human consumption." But the ABC senior staff rejected that ruling. Alan Johnson, director of hearings, testified he found a 1933 federal court decision saying such alcohol was drinkable. Midwest was notified of the change and the project was abandoned.

Committee Chairman Raul Longoria, D-Edinburg, said Attorney General Mark White will be asked to interpret the 1979 bill that the company thought cleared the way for the plant.

Cray said the project has been opposed by the Texas liquor lobby. He said the industry has an "overpowering worry" that such a facility would mean "someone outside would come in and open the door to a strong national concern controlling wholesale and retail sales in the state.

Committee members said they wanted to know if the liquor lobby got to the ABC staff before it changed the ruling. Longoria sent out an urgent call for W.S. McBeath, ABC administrator. McBeath boarded a plane in Houston but did not arrive in time to testify.

However, several staff members said they had not been contacted by lobbyists. "I am absolutely convinced there was no collusion and no pressure from the liquor industry on the administrator or the staff," Darnall said.

Longoria said McBeath would be interviewed at the next hearing. Cray said the firm would like to resurrect the proposed Santa Rosa project, which would result in 481 new jobs for the impoverished town. The Rio Grande Valley Sugar Growers Asssociation was to work with the firm to produce gasohol — a mixture of nine parts unleaded gasoline and one part alcohol.

Teddy's foray recalls brother's 1960 victory

WASHINGTON (AP) - Sen. Edward M. Kennedy, on the brink of announcing his own bid for the presidency, is visiting the state that delivered his brother John F. Kennedy a crucial primary victory nearly two decades ago: West Virginia.

Kennedy's trip today to address a Jefferson-Jackson dinner in Charleston, the state capital, has been planned for several months.

But the symbolism of the visit hasn't been lost on Kennedy organizers. It's the Massachusetts Democrat's first campaign-style trip since he formed a presidential campaign committee Monday and made his challenge official.

AUSTIN, Texas (AP) — Gov. Bill Clements announced the appointment Thursday of Jonathan Hole of Austin, formerly of Midland, as Texas director of the White House Conference on Families.

Hole is special assistant to Commissioner Jerome Chapman of the Department of Human Resources. He will be on loan to the governor's office through next summer, said a statement from the governor's Hole formerly was a Presbyterian minister in and Greeley, Colo., and

served as pastor at Christ Presbyterian Church in Midland. He also is a former chaplain for the Midland Police Department. According to the governor's statement, President Carter called the White House conference "to examine the strength of American families, the difficulties they face, and the ways in which family life is affected

by public policy and other facets of our society.'

Chicago mayor opens promised war on snow

CHICAGO (AP) - Mayor Jane Byrne, whose criticism of last winter's snow removal services helped assure her election, has declared war on big snowstorms - and she's making sure top city officials will be at the

The mayor's battle plans call for city workers to pitch in on snow removal in the event of heavy snow, for a complete overnight parking ban on 100 miles of major thoroughfares beginning Dec. 1 and for the clearing of residential streets.

It was partly on the coattail of record snows last winter that Mrs. Byrne swept into office. She strengthened her campaign to unseat Michael Bilandic by underscoring the city's feebleness in fighting the fury of Mother Nature.

"Last winter, the City of Chicago was not prepared for a severe weather situation, and a tragic breakdown of basic city services resulted," she said Thursday. "I will not allow that to happen this winter or any other winter while I am mayor of Chicago. There will be no repeat of last win-ter's snow-removal debacle."

Her divisions will include 200 tow trucks to remove illegally parked cars, 150 four-wheel vehicles with plows to work the side streets, \$15 million worth of new heavy equipment and 200,000 tons of salt treated with calcium chloride to increase effectiveness against ice in extremely cold weather.

A spokesman for the House Banking Committee said its subcommittee on economic stabilization hopes to question Treasury Secretary G. William Miller within a few days and act on the proposal next

Approval by the full banking committee is expectulckly, sending the measure to the floor, where both supporters and opponents have predicted it will pass.

In the Senate, however, Sen. William G. Proxmire, D-Wis., banking committee chairman, said he would begin hearings Nov. 19 and continue them "until the many issues involved ... have been thoroughly explored and discussed."

Proxmire is an outspoken opponent of government aid to the nation's No. 3 automaker, which has said it expects to lose more than \$1 billion this year.

Sen. Jake Garn of Utah, ranking Republican on the banking committee, said, "A lot of questions must be answered before I would even consider committing public funds for loan guarantees."

Garn said the plan is based on assumptions by Chrysler which may not be realized, including ample fuel supplies, inflation of around 8 percent and a 20 percent increase in the company's share of the U.S.

"If one of the assumptions does not materialize if the economy turns out to be worse than expected then Chrysler financing needs may be even greater than projected, and its hopes for recovery diminished," Garn said.

Be wise, give a hoot'

The theme of the annual banguet of the McCamey Chamber of Commerce had an appeal which surely must have touched all those in attendance - "Be Wise -Give a 'Hoot' About McCamey."

This very definitely set the tone for the banquet session, which was held Tuesday night in the neighboring Upton County city.

The banquet speaker, Jack Tompkins of Houston, formerly of McCamey, also hit the nail on the head, with this bit of sound advice. "Be proud of McCamey, protect it, stand up for it."

"Be enthusiastic about McCamey, about West Texas, about your station in life," he added. "I believe the character of West Texans is second to none.'

We like this kind of talk because it not only is meaningful to McCamey, it applies to every city, large or small, be it Midland, Dallas, Tyler, Amarillo or Waxahachie.

"Be proud of your community and your region and stand up for them.

A community whose citizens don't give a hoot for it doesn't have much going for it. In fact,

such a community is dead on the vine. Citizens who do give a hoot for their community and who stand up and work for it are indeed wise

Tompkins, who was reared in McCamey and was graduated from high school there, said there are those who really do give a hoot about McCamey, and he counts himself as one of them. He now is a Certified Public Accountant with a Houston firm.

He challenged his hometown audience to make McCamey a "place where quality is unexcelled." He said that whatever problems a community may have, they can be surmounted with a "daring and sharing" will and spirit.

In encouraging proper planning in meeting community goals, he commented, "We never plan to fail, but do we fail to plan?"

And again, all this applies to most any community anywhere.

The good people of McCamey would do well to make their chamber of commerce banquet theme a year-round objective, while also heeding Jack Tompkins' wise,

ORLANDO, Fla. - There's nothing like a few conservative successes to prod the liberals into re-examining their own pet ideas.

Congress is now considering legislation that would crimp the power of political action committees (PACs), mainly because conservatives finally took advantage of a liberal invention and used it to defeat some liberal politicians.

'The dirty work of the PACs cannot be allowed to continue," Rep. Millicent Fenwick, R-N.J., recently moaned. The legislative action under consideration, however, is based on the usual double standard. It would crimp the PACs, all right, but it would leave the AFL-CIO and NEA a free

Oddly enough, I also think the PACs should be done away with, but of course it must be an even-handed cut of the sword that lops liberal and conservative alike. Given the present liberal Democrat majority in both Houses, such a fair approach is about as likely as Fidel Castro hanging up his soldier suit and becoming a

Pol Pot's three million victims

By JACK ANDERSON

WASHINGTON - Seldom in the course of human affairs has there been a horror to match the tragedy that has befallen the gentle people of Cambodia. Millions of faceless men and women, who have been shot and bludgeoned to death, cry out from mass graves for a judgment against their murderers.

In a nation of 7 million people, an estimated 3 million were wiped out by the brutal dictatorship. Even Attila the Hun at his bloodiest was not as ruthless as the communists who ruled Cambodia for four terrifying years.

They enslaved the entire populace in a way that violated every international standard of human conduct. They are guilty of a crime so monstrous that it is not easy to reduce to human terms. The very least that the United Nations should do is condemn the gang of revolutionaries who turned Cambodia into a nightmare.

While they remained in power, the world was indifferent to the fate of the Cambodian people. Aerial photographs showed that the communists had emptied the cities. Intelligence sources told us of mass killings and cruelties. The survivors lived on the leaves and insects they could scav-

We tried to tell their story to a world that would not listen. Only five weeks after the communist takeover, we asked the question, on June 4, 1975, "What has happened to more than 3 million Cambodians who were driven out of their city homes?'

We reported that the Cambodian Communists "may be guilty of genocide against their own people. Certainly, the ruthless uprooting of 3 million people is an act out of the Dark Ages. Yet no one - not the United Nations, not the Red Cross, not a single nation - has called upon the Cambodian authorities for an ac-

counting. We collected a file two inches thick of intelligence reports and affidavits attesting to the slaughter in Cambodia. Again and again, we laid out the chilling details. Not until May 1978, after we published a series of columns on the Cambodian savagery, did the world pay any attention.

Even then, no action was taken to counter the savagery of the communist regime. Quite the contrary, in fact. Just last month, the United Nations voted to recognize this murderbus gang of thugs as the legitimate government of Cambodia, entitled to the full status and dignity of a seat in the august international body. To its shame, the United States was one of those nations that voted in favor of the mass murderers.

Who exactly are the individuals responsible for the monstrous crimes in Cambodia? Collectively, they are known as "Angar," which means simply, "The Organization." They are the survivors of a group of terrorist exiles and students who gathered in Cambodian House in Paris during the late 1940s and early 1950s to formulate their anarchist ideology. They directed subversive activities in their homeland for 20 years before seizing power virtually overnight during the collapse of the U.S.-supported Cambodian government in the spring of 1975. Most are in their early 50s.

At the top of The Organization is Premier Pol Pot, who claims - probably falsely - to have been a peasant and a Buddhist monk. After flunking out as an engineering student in Paris, he returned to Cambodia to teach history and geography while organizing the Khmer Rouge guerrillas. Then he disappeared into the

jungle. Pol Pot's real name is probably Saloth Sar.

His wife, Khieu Ponnary, is a power in her own right, as is her sister, leng Thirith, who married the foreign minister, Ieng Sary.

Another student dropout from the Paris days who went underground with Pol Pot is Son Sen, who was apparently running the revolutionary army. His wife, Yun Yat, served as the regime's mouthpiece and propaganda minister.

The reigning intellectual of the collective leadership is Khieu Samphan, the titular head of state. A sickly child vho grew into a cold, embittered, impotent man, he was frequently in trouble with police for spouting communist dogma. Once in 1960 he was stripped naked by police and photographed in broad daylight on a Phnom Penh street. Vicious and violent. Khieu Samphan probably provided the ideological rationale for the

slaughter of the innocents. These are the men and women responsible for the Cambodian Holocaust. If a latter-day Nuremberg tribunal is ever formed to sit in judgment on the perpetrators of Cambodia's tragedy, these are the ones who should sit in the defendants'

Lest you think the corporate and trade association PACs are a great force for free enterprise, let me point out that studies show the majority of the bucks went to incumbents, regardless of party and regardless of philosophy. In other words, the corporate and trade association PACs are trying to buy influence, not necessarily elect men and women committed to enlarging liberty.

Labor is guilty of the same narrow view of things, with their money and horsepower going strictly to candidates who tow the labor line. On both sides of the fence, the PACs are representing a narrow range of interest.

Some folks look at the activity of PACs and come up with the notion that the way to combat them is to finance Congressional races out of the public till. This is not only a noxious notion on its face (taxpayers forced to finance people they don't like), but it would not solve the basic problem. In the first place, public financing

means you're stuck with incumbents. An incumbent has such a tremendous advantage in terms of name recognition, free mailings and opportunities for publicity, that to require dead even expenditures penalizes the challenger 50 laps in a 60-lap race. In the second place, people have

precious little control over their politicians now. Cut them loose from the necessity of raising money and you'd have no control over them.

A better idea is to find ways to move back in the direction of the original 'ideas of the Constitution. One of those ideas is that a congressman should represent his district. A law which required that a candidate could receive contributions only from legal residents of his district and only from individuals would do a lot to diminish the influence of national oganiza-

There is no good reason why a voter in Montana should send money to North Carolina to elect a conservative senator; there is no good reason why a New York banker should send money into a Texas congressgional

Make the candidate and the incumbent absolutely dependent on the people in their district and you will have started toward a better system of accountability.

Naturallty, this is a proposal that will draw fire from both sides. For one thing, political fund raising has become a very profitable industry. For another, bankers want to contribute to members of banking committees (ditto, everybody else) and union organizations want to eliminate antiunion incumbents wherever they

This is the very trend, though, that is carrying us farther and farther from the orginal idea of representative government. Local elections shouldn't become hostages to national issues and organizations. We, who have no special axes to grind, should do everything we can to make our representatives accountable to us, not to Washington and New York organizations regardless of which ideology they represent.

INSIDE REPORT: Soviet Union said risking death of the SALT II treaty

By ROWLAND EVANS AND ROBERT NOVAK

WASHINGTON - While President Carter warns Senate fence-sitters that they dare not vote against SALT II for fear of Soviet reactions, the Kremlin is risking the treaty's death in order to secure Soviet military dominance over all of Europe. The secret dread of Carter's SALT-

sellers is that Soviet actions may kill Senate ratification of the Strategic Arms Limitation Treaty (SALT II). Far from turning down the decibel level of its harsh attack against modernized nuclear weapons for NATO, the Kremlin shows every intention of increasing the volume. Turning up the juice on its latest

propaganda barrage - so similar to the successful Soviet attack against the neutron warhead a year ago would incite predictable reactions in the U.S. Senate and quite likely tip the balance against the treaty. That might be characteristic Russian clumsiness, but the suspicion here is that the Kremlin consciously puts European supremacy ahead of the SALT

Carter is getting into this predicament: While his agents fan out across the Senate to argue with the rhetoric of near-desperation that fence-sitters must support SALT II, he is wholly unable to control Moscow's bullying assault against modernizing NATO's nuclear weapons.

The president's problem is one of dates. NATO is due to consider, and surely approve, nuclear weapons modernization at a Brussels meeting

on Dec. 13 to give the Western alliance equality with Warsaw Pact nuclear weapons. According to the optimistic SALT timetable of Senate Majority Leader Robert Byrd, the Senate then will be nearing a final vote on the

The escalating Soviet attack on nuclear modernization could not come at a worse time from SALT's standpoint. Led by President Leonid Brezhnev himself, the Soviet campaign reached a new peak Oct. 25 when defense Minister Dmitry Ustinov accused the U.S. - not NATO - of 'whipping up an atmosphere of fear, putting the arms race into a higher gear and openly conducting military

preparations. Such intemperate language is really directed not at the U.S. but at NATO's vulnerable European members. Yet, its unavoidable side effect

is to incite anti-Soviet anger in the U.S. Senate, tipping into opposition senators sitting on the SALT fence. Against the Soviet campaign,

Carter's SALT-sellers are hard put to

find an offsetting political argument, although they are trying desperately hard to win new recruits to the trea-

On the evening of Oct. 22, Sen. Edward Zorinsky, a maverick Democrat from Nebraska who is the most junior member of the Senate Foreign Relations Committee, was telephoned at home by Majority Leader Byrd. Ostensibly, Byrd was asking when the committee might finish up with SALT; actually he called to gently pessure Zorinsky to get off the fence on the right side.

For Zorinsky, that was just more of the same. In three successive days, he was visited by elder statesman Averell Harriman; telephoned by Zbigniew Brzezinski, Carter's national security adviser; and importuned in yet another telephone call by Secretary of State Cyrus Vance

("Please, Ed, we need you") The message is the same for every fence-sitting senator: Vote for SALT so that our NATO allies will not feel the U.S. has deserted the road of detente; vote for SALT or "the Russians won't understand us.'

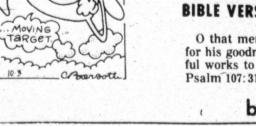

Such appeals may well have their persuasive side. But Byrd confides to intimates he is not close to the 67 Senate votes needed for treaty approval, and he may benefit more from guns than soft soap. Signals are coming from the White House of imminent concessions to Sen. Sam Nunn and others who demand higher defense spending in return for support-

ing SALT. The White House scare tactic of warning senators that defeat of SALT could spell the doom of NATO has backfired and is winding down under orders from the top. The president has been told that if SALT is not ratified the warning could turn into a self-fulfilling prophecy - leaving this country not only without an arms treaty but without a NATO alliance.

But substituting defense spending for scare talk will not help if the administration is correct in this private prediction: The Kremlin feels that forcing NATO to scrap nuclear weapons modernization is more important to Soviet ends than inducing the Senate to approve SALT. Seemingly, Moscow puts much more faith in weapons than in treaties.

An error in transmission of a recent column attributed President Carter's lack of support in Philadelphia to three years of "inflation;" it should have read "inattention."

Jury hands Thirley Freeman 10-year probated sentence

The same jury that Wednesday convicted Thirley "California" Free-man of voluntary manslaughter for the Aug. 13 shooting death of Robert Armsted Roseberry, 34, on Thursday handed the Midlander a 10-year probated prison sentence.

The 10-man, two-woman 142nd District Court jury deliberated about an hour and 45 minutes Thursday morning before returning the probated prison term to 55-year-old Freeman.

That jury had deliberated about two hours Wednesday evening before finding Freeman guilty of voluntary manslaughter in connection with the 34-year-old Midlander's death at a

Freeman had been charged with murder in the case and had pleaded innocent.

Roseberry was shot to death outside the Texas Bar, 805 E. Texas Ave., about 9:40 p.m. Aug. 13. Testimony shot twice.

Witnesses testified during the trial that Roseberry and Freeman had argued at the bar that day, and police officers had been called to the scene three times in reference to disturbances involving the two men_

On one occasion, according to testimony, Freeman had been stabbed by Roseberry.

Witnesses also said they saw Freeman fire three shots at Roseberry outside the bar that evening. Two of the shots were fired after Roseberry climbed underneath a parked car.

Taking the witness stand, Freeman testified that he shot Roseberry in self-defense because the man had stabbed him (Freeman) earlier in the day and he feared for his life.

Freeman was represented during the trial by attorney Trey Lohmann.

The case was prosecuted by Assistant District Attorney Richard Davis, assisted by Assistant District Attorney Charles Seltzer.

His bad heart's not bad enough for immediate transplant surgery

STANFORD, Calif. (AP) - Fireman Fred Kelley, who came here in search of a new heart with funds voted him by his Massachusetts hometown, says he isn't all that disappointed at being rejected for immediate transplant surgery because his bad heart isn't bad enough.

"That's the way it goes," he said in an interview Thursday. "Well, I think in a way it's kind of good. With this drug they're going to give me I could live another year ... by that time I would probably have to go into transplant - with a transplant I could have another five years.'

Kelley said the drug is nitroglycerine, a muscle relaxant associated

Drive for \$30 million for Cambodia stalled

WASHINGTON (AP) — A drive to win quick approval in Congress of \$30 million for starving Cambodians is stalled, but one leader says he thinks it is still possible to approve the money next week

The Senate was likely to approve a bill today authorizing the \$30 million, but a separate bill to appropriate the money is hung up in a conference committee.

Senate-House conferees working out a compromise between house and Senate foreign aid appropriation bills have already agreed to cut through usual procedures and tack on the \$30

But the conferees broke up in disagreement over a different issue late Thursday and postponed further deliberation indefinitely. One conferee, Rep. C. W. Young,

R-Fla., said he thought the conferees agreed not to come back until after Thanksgiving.

But the conference chairman, Sen. Daniel Inouye, D-Hawaii, said he believes conferees can finish the bill next week and that Congress can give the \$30 million final approval next

"I'm certain we can get this cleaned up," Inouye said.

As a practical matter, the funding delay apparently will have little real consequence on Cambodian aid.

President Carter does not need Congress' approval to supply up to \$39 million worth of food and medicine as soon as the international orgaizations

conducting the famine relief effort ask for it.

Young and Rep. Clarence Long, D-Md., said there is no urgent need for the \$30 million because enough food and medicine is already committed to supply the Cambodians for

But a State Department official who did not want to be named said Wednesday that fast action by Congress would dramatize America's eagerness to help Cambodia and inspire similar efforts by other countries.

The \$30 million is part of the \$69 million U.S. contribution pledged by Carter last week for an international effort to save between 2 million and 3 million Cambodians from death by supplying food and medicine.

The House approved the authorization for the \$30 million two days after Carter made the pledge and the Senate was expected to approve it easily

Sen. Edward M. Kennedy, D-Mass., had planned to try to at least double the money, but aides say he will not

leave the figure at \$30 million. Inouye said the dispute stalling the appropriation bill is over the amount the United States should contribute to

But a major controversy was solved

Friday on a similar issue. The House had voted to prohibit U.S. aid to Vietnam, Cambodia, Laos and Angola, even indirectly, through the world banks.

Grand jury indicts eight

Eight people were indicted Wednesday by the Midland County Grand

Jury. Richard D. Shelton, 209 N. Donald St., and Curtis Ray Stinnett, also known as Curtis Ray Deary, 1709 N. Edwards St., each were indicted on charges of aggravated assault with serious bodily injury and robbery.

Shelton is free on bonds totaling \$12,500. Stinnett remains in Midland County Jail in lieu of bonds totaling \$12,500.

Clarence Weldon Slaton of Oklahoma City, Okla., was indicted on a charge of driving while intoxicated, subsequent offense. He is free on \$3,000 bond.

Richard Floyd, 1623 E. Magnolia Ave., was indicted on a charge of theft of at least \$200, but less than \$10,000. He is free on \$7,500 bond.

A re-indictment on a charge of unauthorized use of a motor vehicle was returned against Joseph Micciche Jr. of Dallas. He currently is free on \$10,000 bond.

Names of three individuals indicted by the grand jury were not immediately released.

NEW YORK (AP) - Sometime drug guru Timothy Leary stormed off the set of a New York television talk show when the host insisted on talking about drugs and bringing out a reformed drug addict as a

"I didn't want to come here and talk about drugs," Leary said Thursday when the host of "The Final Days of Stanley Siegel" placed a telephone call to Columbus, Ohio, where TV personality Art Linkletter had a speaking engagement.

Linkletter's daughter, Diane, died in 1969 at the age of 20 when she jumped from the window of her sixth-floor apartment during an LSD

Linkletter has laid part of the blame at Leary's feet. "I have definite proof that Diane mentioned Dr. Leary as one of the reasons that she thought nothing was wrong with LSD," Linkletter said. "She believed it when he said it was God's gift to young people.

CARBONDALE, Ill. (AP) — Grey Panther leader Maggie Kuhn says the "Grey Panther movement is a new kind of Marxist analysis of what must be done to humanize all ages of people. Speaking at a two-day seminar on aging at Southern Illinois Univesity,

Ms. Kuhn urged elderly people to help fight against rising utility company rates. "Fighting these kinds of battles sure beats taking Geritol," Ms. Kuhn,

72, said Thursday She said the elderly, particularly those on fixed incomes and unable to pay utility bills, should form a lobby to fight the companies.

Ms. Kuhn and five other retirees started the Grey Panther movement in 1970. Since its inception, the group has acted as a watchdog of utility commissions, advocated consumer rights, and worked for reforms in nursing homes.

SAN FRANCISCO (AP) - Bianca Jagger's hopes for a lucrative California divorce settlement from rock star Mick Jagger have been dashed by the state Supreme Court, which says California is not the proper place for their divorce trial.

The high court denied without comment a request from Mrs. Jagger to review an appellate court ruling that a Los Angeles trial court was an improper forum for her suit to shed the international rock star and lead singer for the Rolling Stones.

The couple was married in France in 1971 and separated in 1977. A divorce suit she filed in England had been delayed by legal maneuvering and she filed for dissolution of the marriage in Los Angeles Feb. 5. A California divorce might prove more costly to Jagger because of the state's common property laws.

PARIS (AP) - Good news for fugitive filmmaker Roman Polanski. His latest film, "Tess," dedicated to his slain wife Sharon Tate, opened to rave reviews in Paris and promises to be a box-office hit.

The 46-year-old, Polish-born director's latest movie is said to be faithful to the 1891 Thomas Hardy novel, "Tess of the d'Urbervilles," a gent'ly told story of star-crossed love, youthful mistakes and miserable penance, and, above all, honor.

Critics saw the film Tuesday and on Wednesday capacity crowds lined up in the rain to get into the theater where the film opened.

Polanski has kept a low profile in France since fleeing there to avoid sentencing in a California court on conviction of having had unlawful sexual intercourse with a 13-year-old girl. Polanski has said he will return to California for sentencing someday.

50 injured in collision of school bus, pickup

A school bus collided with a pickup truck and somersaulted into a ditch miles northwest of here, injuring all 48 students aboard and the drivers of both vehicles, authorities said.

A large number of the Midland Gem and Mineral Club will display their work in faceting, silverwork, gold and silver casting, cabochon jewelry, minerals and pictures and many other items.

Last year, the club had more than 100 members participating. Other clubs in the area also will bring cases

Reputable dealers from eight different states have been selected for the show and each have a supply of rough rock, slabs, gemstones, silver supplies and unusual gifts in all price ranges, according to Mickey Taylor and Kathryn Stickney, spokesmen for the Gem and Mineral Society.

There will be three working dealers demonstrating silversmithing, the art of making sand bottles from natural colored sands and the fashioning of gold wire ring mountings for faceted stones, cabochons and free form

Always of great interest to the younger group who atttend is the fluorescent showing of minerals as they react to long and short wave ultraviolet lighting. Jerry Savage will be in charge.

Two other club members will show basic lapidary cutting, trimming and finishing during the show. The Facetors Guild of Midland will demonstrate the faceting of a gem stone. This part of the show is managed by local club members who will answer any questions pertaining to these demonstrations, said Taylor.

Special prizes will be given away each hour from both adult and children's tickets. The adult prizes are made by club members with children's prizes to carry an educational

The grand prize is a white gold pendant set with Tourmaline and Cubic Zirconia, fashioned by Harry Bish and C.C. Thomas. This will be given at 6 p.m. Sunday.

The Midland club is programmed for progress and each year hold classes both in the fall and spring for members in silversmithing, faceting and beginning lapidary techniques.

A new feature this year is the advanced classes in silversmithing and lapidary. Bill Newby is shop chairman and maintains the special equip-

Camp Fire Council acquires new director

Amy White recently assumed the position of executive director of Midland Council of Camp Fire Girls,

Mrs. White, originally from the Kansas City, Kan., area, moved to the Tall City in July when her husband was transferred by Atlantic Richfield

Mrs. White said she "hopes to increase the number of kids we work with and the program involved with outdoor educational recreation through summer day camps.

Several mini-ventures will be continued by the new director, with more areas of interest added. "I hope to expand jurisdiction to other surrounding towns."

Mrs. White, a graduate of Kansas University with a B.S. degree in out-

door education-recreation, taught in Topeka, Kan., at an outdoor environmental education center for grades 1 through 12.

She later moved to Tulsa, where she was employed as a program specialist with the Parks and Recreation

Schlafly attacks, Smeal defends SS proposals

WASHINGTON (AP) The prime antagonists in the fight over the Equal Rights Amendment are at loggerheads over whether the Social Security system discriminates against women.

Eleanor Smeal, president of the National Organization for Women, told-a House Ways and Means subcommittee Thursday that Social Security perpetuates in retirement the sex discrimination women faced in the job market.

The result is that twothirds of the nation's poor are women and the average elderly woman has an income of only \$2,813 a year, she said.

The bread contains 60 percent more protein than any bread on the market and this is attributed to the fact that cottonseed is so high in protein.

The bread contains no sugars, shortening or preservatives and has a nutty-like flavor that is different from any bread made.

Because of a gossypol gland, cottonseed protein was not suitable for human consmption before 1950. Then, the United States Department of Agriculture discovered a way to selectively cross-breed cotton plants by the Hopi Indians to produce a glandless cottonseed.

Since that time, seed breeders have been working to incorporate this characteristic into commercial varieties of cotton.

The Natural Fibers and Food Protein Commission in Texas has been researching the cottonseed protein since the glandless cottonseed was produced.

Through the commission, Texas A&M University, Texas Tech University, The University of Texas and Texas Women's University have been able to do research on the glandless cottonseed and researchers at Texas A&M University developed a nut-like product from the glandless cottonseed kernels which are called "Ta-

In the meantime, farmers are paid a premium for the special seed and ginners also are paid a premium for the special handling they provide.

The new strain of cottonseed is kept

Stock market gains

NEW YORK (AP) - Stock prices were mostly higher today on the strength of hopes for some letup in the recent tightening of credit by the Federal Reserve.

Gainers outnumbered losers by close to a 2-1 margin in the mid-day tally of New York Stock Exchangelisted issues. The Dow Jones average of

30 industrials slipped .86 to

819.28 by noontime. But the Dow would have shown a gain of almost 2 points had it not been for ex-dividends, or dividendpayment adjustments, in the

prices of six stocks in the

average. Late Thursday the Federal Reserve reported a \$1.3 billion decline in the basic measure of the money supply for the latest reporting The figures brought some

tentative signs of progress in the Fed's effort to slow monetary growth. Citibank of New York today deferred action on

raising its prime lending rate, although its formula called for an increase from 151/4 to 151/2 percent. Chrysler rose ¼ to 8¼. On Thursday the Carter administration put its support be-

hind a plan to provide the troubled company with \$1.5 billion in loan guarantees. The NYSE's composite common-stock index rose .04 to 58.21. At the American Stock Exchange, the market

value index was up 1.42 at

208.35. Volume on the Big Board totaled 11.58 million shares at noontime, against 10.45 million at the same point Thursday.

Rollover may be 'only game'

By JOHN CUNNIFF

CHICAGO (AP) - For nearly 50 years the longterm, fixed-rate home mortgage, on which borrowers knew for 20 years ahead the size of their monthly notes, might soon have to move over for the The rollover is a mortgage written for the same

length of time - but with a difference: instead of

paying the same interest rate for 20 or 30 years, the borrower agrees to have the rate renewed periodical-If it comes into being, and lenders and regulators say a decision on that could come soon, it will loosen another anchor of stability in an increasingly volatile

Gathered for their annual convention, members of the U.S. League of Savings Associations heard Jay Janis, Federal Home Loan Bank Board chairman. say regulations might be changed to permit such

loans. The bank board regulates the associations, whose charter commits them to taking the savings of depositors and channeling them into mortgage

Unless interest rates fall back into the single numbers, he said, "It seems to me that the fixedrate, long-term mortgage...will have to give way before too long to some other type of mortgage." He told newsmen later that the rollover was almost

Pressure for the change is coming mainly from lenders, who claim inflation is damaging their business. Inflation forces up their costs, they explain, while they are locked into 5 percent loans made

While existing loans won't be affected, lenders want more assurance that in the future they can adjust to changing conditions. They want the right to review mortgages at stated intervals, perhaps every five years, and raise or lower rates to reflect existing

"You can take a chance looking five years into the future," said a research analysts for the league, "but nobody can see 20 years ahead anymore." It isn't like the 1950s, he said, when lender's costs varied

little from year to year. That was the heyday of the long-term mortgage, which began during the Great Depression. Before that, a homeowner generally could obtain a loan for only five years at a time, with no renewal guarna-

As a consequence, many people lost their homes, a condition that obviously couldn't be continued. The long-term, fixed rate mortgage, generally called the conventional or direct reduction mortgage,

caught on quickly. But just as very few people foresaw the depression, few envisioned inflation and interest rates as high as 15 percent, where they are in some areas.

The pressure for change, grew slowly. At first the variable interest mortgage, which rises or falls with changing conditions, was suggested, and just this. summer it was approved by the bank board.

The problem with variables, however, is that they can vary too quickly, resulting in bookkeeping difficulties. So far, the concept has not been pushed strongly by S&Ls. The rollover, a compromise between the fixed and variable rate, is expected to fare

Canada, for example, already has the system, and recently it was described by T. Stewart Ripley, president of the Trust Companies Associations of Canada. He said it works well; he recommended it "Many homeowners today, rather than renew for

five years, will often renew for one year, hoping the rate will drop in the next few months. And if the rate is lower in 1980, then he will renew for a five-year term," Ripley said. Though the contract might be written for 25 years,

the consumer isn't obligated to renew with the same lender; he or she can shop around. In some in-stances, only a letter is needed for renewal.

Times have changed, say lenders here. Nobody can see to the end of the century, let alone to the end of the year. Instability demands flexibility, they say. Just as in the Depression.

Nuclear energy is no bugaboo in Barnwell

BARNWELL, S.C. (AP) Nuclear energy is no bugaboo in Barnwell County, South Carolina, where the country's last operating commercial nuclear burial ground is located.

Folks here support nuclear power. They just don't want to live in the nation's To that effect, Gov. Dick Riley on Wednesday ordered a 50 percent reduction

in the amount of low-level nuclear waste that may be buried in South Carolina, a two-year process to begin immediately.

At a news conference in Columbia, S.C., Riley said the Barnwell site will continue to accept all low-level nuclear waste generated in South Carolina, but will reduce shipments from other states.

Riley had foreshadowed the decision last week, telling reporters his state would not absorb the waste turned away from Washington state and Nevada, whose governors closed disposal sites there. A month ago, low-level nuclear wastes generated in the United States were

trucked to just three sites: 15 percent to the Hanford site near Richland, Wash.; 5 percent to Beatty, Nev.; and 80 percent to Barnwell, with more than half of that coming from the Northeast. On Oct. 4, Gov. Dixy Lee Ray closed the Washington dump, citing

unsatisfactory enforcement of shipping regulations. On Oct. 23, Nevada Gov. Robert List closed the site near Reno. "I'm just tired of having to assume the responsibility for having our people take the

Riley said Wednesday he thought resolution of the problem was essential to continued nuclear development in the United States and he hoped his announcement would spark national action.

"I do think there will be a reaction in Congress....We should decide first things first," he said. "We can't keep proceeding into a never-never land saying someday" we'll do something about nuclear waste storage.

Riley's cutback order sharply reduces the disposal options available to hospitals, research labs and commercial reactors, which daily create such low-level waste as contaminated clothing and reactor sludge

For now, nuclear facilities are storing waste on site. How long they can do that "depends on the type of waste," said Louise Dressen of the U.S. Department of Energy. She said hospitals which use nuclear equipment for diagnosis and treatment have only a two-to three-week storage capacity.

The governors of the three states will be meeting with NRC (Nuclear Regulatory Commission) chairman Joseph Hendrie on Nov. 6 to discuss what assurances they can get on the enforcement of transportation and packaging regulations," she said.

Abundant crop of endorsements doesn't necessarily mean success

WASHINGTON (AP) - Once there was a presidential candidate who harvested such a crop of campaign endorsements it was hard to keep track of

Just about every Democrat who was anybody endorsed Sen. Edmund S. Muskie. His campaign collapsed before the last frost of

That is worth noting as Sen. Edward M. Kennedy and President Carter wage their struggle for endorsements in the campaign for the 1980 Democratic presidential nomination.

The support of Democratic officeholders and party leaders is an asset to any candidate. But the only endorsements that count are the ones that spell votes in the competition for nominating delegates.

Every candidate tries to create a bandwagon psychology, and a succession of campaign endorsements can serve that goal. There is concern in the Carter White House that defections to Kennedy are going to give the impression of a stampede from the president to his challenger.

Carter's people say they have plenty of endorsements, too, and expect more. They count 20 governors on the president's side, and mayors of such major cities as New York, Los Angeles and De-

They are braced against the prospect that some people who now work for the administration will walk out and join the Kennedy campaign, but it still

It certainly did in the case of former Iowa Sen. Dick Clark. The Carter people thought they had effectively neutralized him, since he was on the administration payroll at \$57,500 a year as refugee

But Clark said he never promised to remain neutral forever, only for as long as he held the State Department job. He cleaned out his desk and joined the challenger Thursday.

Clark could be particularly valuable to Kennedy, since the leadoff contest of 1980 will be the Iowa precinct caucuses Jan. 21. He will presumably try to use whatever organization remains from his unsuccessful bid for Senate re-election in 1978 to boost the Kennedy cause in that presidential contest.

Endorsements and allies are no substitute for political organization, particularly in competition as specialized as the Iowa caucuses. The key task in any campaign is to identify and get out the candidate's vote. That goes double in the kind of neighborhood politics that begins the selection of delegates in

limitations

SAN ANGELO, Texas (AP) -Chairman John Poerner of the Texas Railroad Commission said today spending and taxing limitations should be placed on the federal gov-

ernment. The commission regulates Texas' energy and transportation industries.

"We must put a limit on the authority of our Congress to spend, to prevent the value of our money from being further diluted," said Poerner in a speech prepared for delivery to the Rotary Club.

Poerner said Americans are "supporting a bloafed, expensive federal government ... that has taken to inflating the currency so that the dollar of 40 years ago is (now) only worth 18

He said the printing of more money to battle inflation encourages Americans to live beyond their means.

90 strikes completed

AUSTIN (AP) - Texas operators reported 40 oil and 50 gas discoveries during the last half of October, the Railroad Commission announced Thursday.

The commission said 996 wildcat gas wells had been reported through October, 104 more than in the first 10 months of 1978. A total of 429 wildcat oil wells had been reported, 46 more than in the first 10 months of last

The commission said the new oil discoveries included six in South Texas; five each in the Midland and Refugio areas and Southeast Texas; four each in the San Antonio and Lubbock areas; three each in West Central Texas and the San Angelo area; two each in North Texas and the Panhandle; and one in East

President piling up victories in Congress on energy plan

By DAVID ESPO

WASHINGTON (AP) - Vote by vote and bill by bill, President Carter is piling up victories in Congress on his energy program.

The House handed the president his latest triumph Thursday, voting 299-107 to create a powerful Energy Mobilization Board designed to speed construction of high-priority energy

Included in the measure is a hotly debated provision permitting certain federal laws to be set aside if they

pose an impediment to important projects. The waivers would be subect to approval by the president and both houses of Congress.

The bill was not exactly as Carter requested it - few measures passed either by the House or Senate are but White House energy aide Bert Carp promptly termed House passage a "major advance for our energy program. The Senate has already approved a

similar measure, and a House-Senate committee will be appointed to work out the differences. The vote came as top House Democrats predicted Congress would enact

"We think by the end of the year we'll have all of the energy legislation out of the way," said House Speaker Thomas P. O'Neill of Massachusetts.

The No. 2 Democrat in the House, Jim Wright of Texas, said bills passed to date constitute "a strong national energy package. We passed it piece by piece and some people don't realize what we have done," he said.

These other major elements of Carter's energy program are moving through the congressional mill:

-The House has passed his "windfall profits" tax on the oil industry. The Senate Finance Committee has passed a weaker version, and Carter is lobbying for changes when the full Senate begins debate, probably in about two weeks.

-The House has approved legislation to foster development of a synthetic fuel industry. The Senate Energy Committee has done the same, with Senate approval expected short-

-The Senate Energy Committee also has approved a multi-billion-dollar program to promote energy conservation and installation of solar equipment. Senate debate is expected shortly, and Wright said a similar House bill will be scheduled for debate.

-Both houses have voted for money to help poor people pay their fuel bills this winter. A House-Senate conference is at work reconciling the two bills. Carter has already signed legisla-

gasoline rationing. Thursday's House action was in response to the president's request that

tion giving him standby authority for

Congress establish an independent energy board to cut through red tape that can keep a project pinned to the drawing board for years.

Under the bill, the five-member board could designate an unlimited number of non-nuclear projects, such as pipelines or synthetic fuel plants.

for special "fast-track" treatment. The board could then establish a timetable that agencies would have to meet in deciding whether to grant permits. The board could step in and make the decision itself if any agency

missed its deadline. If necessary, the board could recommend waiving some federal laws to expedite a project, although the president and both houses of Congress would have to approve such a step. Labor, water rights, criminal, civil rights and antitrust laws plus primary air quality standards could not be waived under this provision, which survived on a vote of 250-153.

The House agreed Wednesday to bar the waiver of any state or local law, although the measure does permit state or local laws to be suspended if they are passed after the board establishes its timetable for decision-

The Senate bill does not include a provision permitting federal laws to be set aside, and Carter said he opposed including it in the bill.

But Wright argued that stripping the provision from the bill would "effectively make a shambles of any opportunity Congress might have to

expedite any progress on energy.' Opponents, led by Rep. Morris Udall, D-Ariz., contended the exemption provision would lead to the wholesale dismantling of environmental

Actress isn't 'quart low' just because she yelled 'snake'

By JAY SHARBUTT

NEW YORK (AP) -There is this long-running Broadway comedy called "Gemini." In it, Jessica James plays a wild and crazy lady who at one point climbs a telephone pole and cries, "Am I weird? Nahhh!"

"My mother wanted me to be an opera singer." she was saying recently. "So I studied it. But it wasn't for me. Evryone was so stuffed. I was always doing things like yelling, 'Snake!

She was saying this at Sardi's, the show-biz res-

taurant. Nearby diners only heard her cry "Snake!" Some peered at her as if she were a quart low. Not so. She's just different. And not at all stuffed.

A tall, blonde-haired free spirit, she whoops and laughs with great abandon, has a fine sense of the absurd. That may have been honed when she spent nine years in Las Vegas, doing comedy and fronting her own band - Jessie and the James Boys.

Born in Beverly Hills, Calif., where her dad was a manufacturer of Hopalong Cassidy suits,

WORLD NEWS

Prices for staples in China increased

TOKYO (AP) — China has announced price hikes of about 33 percent for meat, fish, eggs and other staples and is lifting fixed prices on 10,000 other items, the official Xinhua news agency reported.

Urban residents and industrial workers will receive a \$3.33 monthly allowance to help them meet the higher prices, Xinhua said

The news agency also announced pay increases for industrial workers, technicians, scientists, teachers, medical personnel, actors, athletes and government officials. It gave no figures for the increases but said they would be based on merit.

First word of the new prices came Wednesday when Xinhua, in a report monitored here, said retail prices were being raised to close a gap left by an increase in prices paid to farmers. It said commerical departments lost about \$1.2 million from April to September on pigs, beef cattle, lamb and other farm products because prices to farmers had been raised but retail prices had not.

Xinhua said the government was continuing its \$4.5 million annual subsidies to maintain current prices for food grains, edible oil, sugar, cotton cloth and coal.

In a dispatch Thursday, Xinhua said the government has decided to let supply and demand determine the prices of 10,000 items, ranging from farm produce to handicrafts, which had hitherto been sold at fixed prices.

Xinhua said the move would give producers more flexibility, help promote production and increase the variety of goods produced. It is expected to lead to lower prices in the long run, the report added.

Guerrillas attack police station

SOWETO, South Africa (AP) — Black guerrillas blasted a police station with hand grenades and automatic weapons fired in a bold, early morning attack today in this sprawling black ghetto. Two policemen died of bullet wounds. Another policeman and a civilian bystander also were wounded.

All the shooting victims were black. Police units poured into the community of more than 1 million people, located 10 miles southwest of Johannesburg, to mount roadblocks and search house-to-house for the attackers.

The guerrillas, who police credited with a wellplanned and well-executed attack, vanished into the night after the explosions and gunfire at the police station. Police said they were uncertain how many were involved in the attack, the second of its kind here this year.

Junta appeals for acceptance

SAN SALVADOR, El Salvador (AP) - This Central American nation's new ruling junta, hit by a wave of political violence that has claimed 72 lives since it came to power 18 days ago, appealed to the public to accept the new government or risk civil

"There are two roads to resolve our problems," junta leader Col. Adolfo Arnoldo Majano said in a television address to the nation Thursday. "The road to violence and civil war that extreme right and left wing minorities want to force us into, (or) a regime of participation and true social change urged by ... the armed forces."

Arnoldo Majano and a second army colonel led the coup that toppled President Carlos Humberto Romero on Oct. 15. Three civilians then joined the junta in a bid to give it broad-based representation.

Bomb wounds twelve

SALISBURY, Zimbabwe Rhodesia (AP) - A bomb exploded in a shop on the main street of the eastern border town of Umtali today, wounding 12 persons, a military communique said.

"I heard a loud explosion and rushed out to see bodies lying in the street and glass all over the place," a local shopkeeper said.

The communique said it was not immediately known who planted the bomb, but that police were investigating.

Bulldogs, Bronchos gear up for Pride Bowl

By TERRY WILLIAMSON **Sports Writer**

Today's 8 p.m. District 5-4A football matchup between Midland High's Bulldogs and the Odessa High Bronchos could be termed the Pride Bowl, but then again, just about any game not involving Abilene Cooper could be put into that category.

Cooper, rated No. 1 in the land, can not win the 5-4A grid title against Big Spring tonight, but the Cougars sure seem to have one foot in the

"Realistically, with the way Cooper is going, it's just a matter of keeping our kids up for the rest of the schedule. This is the time to see which teams have the most pride," was the way MHS boss Dennie Hays

"However, if we can defeat Odessa High, we will still have a shot at determining how this thing comes out. We get Cooper at home next week and then Cooper still has to play Abilene High. I've seen stranger things happen, so we need a win Friday against Odessa High," Hays

It's for sure that the Bulldogs, 2-2 in district play, will have a little momentum going into the Cooper game with a victory tonight. So maybe - just maybe - this is could turn out to be more than a Pride Bowl.

At any rate, this should be a shotgun shootout with a lot of offense Midland High has been potent offensively with quarterback Michael Feldt leading the league in total offense and fullback Jeff Robnett leading the loop in rushing.

Odessa High, 1-3 in loop play, features senior quarterback Billy Rumbaugh and a bevy of backs capable of offensive fireworks with the likes of Geordie Mason, Jim Harris and Trey Hawkins.

Odessa High has good quickness and good running backs and they run a good offensive scheme," Hays noted. "They are dangerous to say the least and they can play with anyone on any given night. We'll be in for a long night if our kids go into this game and play half heartedly.'

Odessa High headmaster Jerry Millsapps, who earned his first 5-4A victory last week in a game against Abilene, is also aware of the MHS attack. "Midland has a very good football team. Feldt is a big key for

them. He may be the best quarterback in the league, and Robnett is the leading rusher in the league and Billy Applin has a lot of speed. I think their kicking game has been excellent with (Russell) Hays. He had a

couple of punts inside the 10 last week. They do a lot of things well." Odessa High should also be primed for a good game since they finally ended a three-game losing streak last weekend, but coach Millsapps doesn't think that makes much difference. "Our kids have never really been down. We've had a lot of tough luck and didn't win. Last week we had a little luck. But in all, our kids have played well all season.

Both teams seem to be fine injury wise, heading into tonight's game. The Bulldogs, however, lost tackle Richard Barton to knee surgery when he was injured against Abilene. Junior Matt Carr will take his place. The MHS defense will see no changes from last week. Sophomore

Joe Goebel, a 255 pounder, will start again at middle guard. "Our defense has really played well lately," Hays notes. "I thought Jerry Dedrick gave us one of the best efforts of the year at tackle last week against San Angelo. He was just outstanding. We also played three sophomores last week and they all did a good job. Goebel played very well and Kurt Holcomb looked good at linebacker. Scott Louderback played a

lot of safety and we liked what we saw. Our kicking game has been something else the last couple of weeks. Russell (Hays) and Bobby (Stovall) have really put the other teams in some holes. Both teams, however, are capable of scoring a lot of points, and that

should keep things interesting tonight. Odessa scored two fourth quarter touchdowns and made two goal line stands last week against Abilene and the Bulldogs scored 20 fourth quarter points against San Angelo in

Yeoman seeks improvement from high flying Cougars

By The Associated Press

Houston Coach Bill Yeoman says his Cougars have yet to reach the level of the 1978 Southwest Conference champions but Texas Christian Coach F.A. Dry retorts by saying he hopes he's not there the day it happens--like this Saturday in Fort Worth

"We had a heckuva team last year and this one hasn't progressed quite to the point where that one was," says Yeoman of his unbeaten, untied 1979

Dry says "Houston has everything in the world but a seven-foot punt-

He adds "They've got two outstanding tackles in Leonard Mitchell and Hosea Taylor. David Hodge is a quality linebacker and he's got plenty of

"Offensively, Houston has speed and that causes problems for us whether they're running or throwing. They are one of the top four teams in the country...What else can I say?

That speaks for itself." The oddsmakers have installed the

Cougars as 16-point favorites over the Horned Frogs, who have shown signs of life the last three weeks.

the 20 miles to see.

"TCU has been playing hard and well," says Yeoman. "There is no

question in our team's mind that it is going to be a real battle. TCU will be all cranked up on homecoming.

Houston is 4-0 in the SWC and is followed closely by idle Baylor 4-l, Arkansas 3-l, Texas 2-1, Texas Tech 2-2, and SMU 2-3. In other games, Texas is a 14-point

pick over Texas Tech in Austin; Texas A&M is a 16-point favorite over Southern Methodist in a regionally televised game from College Station: and Arkansas is a 21-point nod over the Rice Owls in Houston.

Arkansas Coach Lou Holtz said "I'm not sure where this team is going but the first thing we must realize is where we aren't going. We will not win a national championship this year. We played hard to make it to the Cotton Bowl. Now, we have to play for the sake of enjoying the game of football."

Texas Coach Fred Akers said Tech is stronger now than at any time this

"They have a lot of ability and they are well-coached," Akers said. "They will be coming to play.' Houston and Texas meet next week

and the Cougars can all but nail down their third visit to the Cotton Bowl in four years with a victory.

ODESSA — It may not be for the District 5-4A football championship, but it's still big game tonight.

Midland Lee and Odessa Permian renew their heated rivalry again at 8 p.m. when the Rebels and Panthers clash in W.T. Barrett Stadium. Both have lost to league leader Abilene Cooper, but tonight's winner can get a firmer grip on second place in the rugged 5-4A football chase. Permian holds a big 15-3 edge in the overall series, but since 1972, the

games have be very close and well-played with the exception of the 1974 game when Lee whipped up on Mojo, 34-7, in Midland. Last year, these two rivals hooked up in a game of unbeatens with Permian coming out on top, 14-3, in a classic battle in the Tall City. Both the Rebels and Panthers have had injury problems in recent

weeks with Rebel quarterback Gary Butler slowed by an ankle injury and Mojo tailback Ricky Reynolds with a toe injury he received in the Abilene game some three weeks ago. Reynolds missed the Big Spring game two weeks ago and Butler played very little against the Steers last week and played hurt in the 28-14 loss to Abilene Cooper two weeks ago.

Butler will start tonight with junior quarterback Barry Corley ready in the wings if needed and after last week's 138-yard rushing performance, Coach Gil Bartosh won't hesitate to use the talented junior if he is

Reynolds, in the meantime, is doubtful and junior tailback Kent Sager, who also has been slowed with a thigh injury, gets the call on offese. Reynolds, an all-state safety for the Panthers last year when they went all the way to the Class AAAA semifinals against Plano, may see some duty tonight, according to Coach John Wilkins.

Lee takes a 6-1 record into the game and Mojo stands 5-2 after last week's 14-3 loss to Cooper in Abilene and both the Rebels and Panthers can play that defense.

Lee has the No. 2 defense and Permian the No. 3 defense in the Little

Southwest Conference, but both have slipped some on offense. Mojo has the No. 5 offense in the league and Lee stands No. 6.

Reynolds is the leading ball carrier for the Panthers on the season with 187 yards in 89 carries for an average of 5.4 yards per carry and the senior tailback has scored 30 points on five touchdowns while Lee's top grounder gainer is senior tailback Steve Waldron with 397 yards in 95 carries for an average of 4.1 yars per carry. Waldron, who also plays cornerback on defense, has four TDs on the year for 24 points.

Fullback Mark Thompson, a 190-pound senior, follows with 364 yards in 100 cracks into the line for an average of 3.6 yards and five touchdowns. Thompson scored twice last week in Lee's impressive 41-0 victory over Big Spring.

"We may be in the best physical shape that we have been in in three weeks, "said Bartosh. Clyde Smith, 190-pound offensive tackle and linebacker returns after missing two games along with Keith Brown, 200pound junior guard on offense. In fact, the only Rebel who won't play tonight is junior defensive end and tight end Bill Dern who is out for the season. Tom Williams returns at tight end and defensive end. Permian lost one player for the season in Joel Perry, senior 185-pound

Larry Linne, who leads the Rebels in scoring with 36 points, has latched on to 13 passes for 206 yards and two TDs while flanker Terry Brown of Permian has 13 receptions for 149 yards and two TDs. In league play, Linne has seven catches for 84 yards and Brown 10 for 126.

Both Lee and Permian have some talented linemen. On the strong side, Mojo has guard John Manicom and Tim Hendrix. Manicom is a 205pound senior and Hendrix tips the scales at 230 and is also a senior. When Bryan Lambert comes in at tight end, it gives Mojo some heft. He is a 196-pound senior and also the starting middle linebacker.

Irl Conally (210) and Brown (200) give Lee some size and both are juniors in the offensive line.

While Lee has Thompson at fullback, Permian counters with Alan Hainline, an 185-pound senior fullback. He has rushed for 175 yards in 32 carries in league play compared to Thompson's 190 in 48 carries.

Permian has Roy Dunn, a 6-foot-4, 230-pound junior, who handles the kickoffs, extra points and field goals while Linne kicks for Lee. Dunn has scored 26 points on the year with 14 extra points and four field

On defense, besides Lambert and Reynolds, who usually plays safety, the Panthers also jave Steve Slater, a 200-pound senior who is strong and quick to get to the ball at a defensive tackle slot. It shapes up as another typical Lee-Mojo battle and one worth driving

Rookie nets 31 for Knicks

York Knicks Coach Red Holzman had nothing but praise for 7-foot Bill Cartwright after the rookie from the University of San Francisco scored 31 points in a 134-118 National Basketball Association victory over the Utah Jazz Thursday night.

"Cartwright is going to be one helluva player," Holzman said. "He needs some time to develop but he's learning real quickly. We always go to Cartwright, that's part of our game plan against anyone. Cartwright wasn't the only hero in

the Knicks' come-from-behind triumph over the Jazz, which has won only two of its 10 outings in its first year in Utah. Toby Knight equalled Cartwright's

point production, getting 25 of his 31 in the first half while Utah was running up a 69-61 lead.

Ray Williams and Michael Richardson were the key figures in the New York comeback, scoring 37 points between them in the final two quarters. Their outside shooting, most of which came while Knight v on the bench with four personal fouls, catapulted the Knicks from a 10-point

House cleaning starts as Yankees trade seven

NEW YORK (AP) - Last season, the New York Yankees were like a roller coaster heading down a steep incline, as they plunged from World Series champions to fourth place in the American League East.

Now, they are hoping to head back up ... also in whirlwind fashion.

Thursday, the Yankees went on a wild trading binge, whipping players around faster than a blackjack dealer at a Las Vegas casino. When the action was over, they had traded away seven players and acquired five, including center fielder Ruppert Jones from the Seattle Mariners and catcher Rick Cerone and pitcher Tom Underwood from the Toronto Blue

In exchange for Jones and minor league pitcher Jim Lewis, the Yankees shipped catcher Jerry Narron, pitcher Jim Beattie, center fielder Juan Beniquez and minor league pitcher Rick Anderson to the Mari-

Bellard faces Alabama test

By The Associated Press

Emory Bellard, Mississippi State football coach, says, "I would like to see a game where Alabama's offense played Alabama's defense. 'You would have a heck of a battle

there, "he said. Perhaps the only ones who will see

such a game are Alabama Coach Bear Bryant, his staff, the Crimson Tide players and others associated with the team.

INSTEAD, BELLARD will have to contend with both Alabama's offensive and defensive units Saturday when he sends his Maroons against the nation's top-ranked team at Tu-The Crimson Tide has been virtual-

ly unbeatable at home under Bryant, winning 47 in a row in friendly Tuscaloosa and 62 of its 63 games there under the venerable coach. Adding to Béllard's woes, Alabama has beaten Mississippi State 21 consecutive times, has the nation's longest current winning streak (16, including seven this year) and has won 20 straight Southeastern Conference games, equalling the league record. Despite Alabama's apparent supe-

riority, Bryant is expressing concern about the Bulldogs, who are 2-0 in the SEC but have lost four non-league

'They are big and strong and when they are emotionally ready, they can play with any team in the nation, said Bryant. "They have a history of playing well one week and being off the next. I'm sure this will be their week to play great.'

IN OTHER games Saturday involving members of The Associated Press Top 10, second-ranked Nebraska visits Missouri, No. 3 Southern California entertains Arizona, fourthrated Houston is at Texas Christian, fifth-ranked Ohio State is at Illinois No. 6 Florida State plays at Cincinnati, seventh-rated Oklahoma is at Oklahoma State, eighth-ranked Texas is home against Texas Tech, No. 9 Arkansas visits Rice and 10th-rated Michigan entertains Wisconsin.

In the Second 10, No. 11 Brigham Young is at Colorado State, 12th-rated Pitt is home against Syracuse, 13thranked Notre Dame entertains Navy. No. 14 Wake Forest is at Clemson, 15th-ranked Purdue visits Iowa, 16thrated Washington is at California, No. 17 Tennessee is home against Rutgers, 18th-rated North Carolina plays, at Maryland, No. 19 Penn State hosts Miami of Florida and 20th-rated Auburn faces Florida at home. The Notre Dame-Navy game will

continue the nation's longest-running intersectional rivalry.

IT WILL be the 53rd meeting between the Fighting Irish and the Middies, with Navy seeking its first victory since 1963, when Roger Staubach was the team's quarterback.

The Middies, unranked despite a 6-1 record, are hurting physically, and as many as seven starters, including tailbacks Steve Callahan and Mike Sherlock, the team's top two rushers, are likely to miss Saturday's game.

Still, Notre Dame Coach Dan Devine is wary of the Middies. "I know Navy has been banged up a little bit the last few weeks," he said, "but they consistently are one of the best defensive teams in the country. They don't always have tremendous size, but they play heads up and they don't make many mistakes.

Wilborn, New York sent first baseman Chris Chambliss, pitcher Paul Mirabella and shortstop Damaso Garcia to the Blue Jays.

All of the player traffic was directed on a day in which the Yankees had introduced their new manager, Dick Howser, and officially named their new general manager. Gene Mi-

After the two deals, a Yankees' spokesman said, "What we have done is fill our two biggest needs - for a catcher and a center fielder. We also acquired some youth, getting a . 24year-old center fielder and a 25-yearold catcher. The oldest player of the six we got today is Underwood, and he's only 26." The Yankees' center field job last

season was shared by Mickey Rivers. Paul Blair, Beniquez, Bobby Murcer and Bobby Brown, and none proved successful. Rivers and Blair were traded during the season, Beniquez was frequently hurt, Murcer was aequired from the Chicago Cubs and Brown was a rookie.

That's why in the fleet-footed, surefingered, hard-hitting Jones the Yankees feel they obtained an all-around player who can fill the position.

"We got an excellent young player and we felt we had to make this trade beccause of our need for a center fielder," said outgoing General-Manager Cedric Tallis, who is assuming new duties as a scouting advisor and consultant.

"I thought I had a pretty good year this year, but nobody noticed it," said Jones, who batted .267 with 21 home runs, 79 runs batted in and 33 stolen bases in 1979. "I have confidence in my ability. I know there will be days when I'll stink the place out, but I have confidence that I can have more good days than bad ones and, playing in New York, I know my talents will be noticed.'

The Yankees' catching problems became acute when All-Star Thurman Munson was killed in a plane crash in midseason. New York finished the season with youngsters Brad Gulden and Narron; both lefthanded hitters, behind the plate. Neither of them hit close to .200.

In Cerone, they got a right-handed hitter who batted .239 with 27 doubles, seven homers and 61 RBI.

Aune takes safety slot

AUSTIN, Texas (AP) — Quarter-back Jon Aune of Texas has been moved to the defensive secondary at his request in hopes of gaining more playing time, presumably next year his senior season. He is listed as sixth-string strong

safety. Aune, 6-foot-1 and 196 pounds, was

highly recruited out of Dallas Hillcrest as a quarterback but suffered a severe knee injury in the fourth game of the 1977 season against Oklahoma. Starter Donnie Little and two freshmen - Herkie Walls and Rick McIvor - are ahead of Aune at quarterback. In five games this year, Aune has carried the ball only 11 times for six yards and completed nine of 22 passes for 112 yards and one touchdown with

"I'd like to show people I can still play football," Aune told the Austin American-Statesman. "Really, though, I'd like to show myself."

Woods, 19, learned from the newscast that his neck had been cracked between the fifth and sixth cervicle vertebrae, injuring his spinal cord and paralyzing him from the neck down. His mother was by his side when the report was aired.

"If the television had been closer I would have cut if off. I couldn't do anything. I guess the doctors didn't know how he'd take it," Anna Woods said. But as it turned out.

Woods took the bad news in stride and has made significant improvements since the injury. The first sign of improvement was "everything went to stinging," Woods

"I got feeling all over now. I hit the nurse in the mouth with my knee the other night. She was massaging my legs. Bam! I could hear her jump. It was a spasm," Woods said.

Part of Woods' improvement may be due to the four physical therapy sessions he goes through daily - sessions he said are as tiring as football practices were.

ciation champion John Tate says he slept alone the night after winning his title despite the claims of an Austrian pinup model who said she "spent a night of passion" with him.

"I want to clean this up," Tate said in an interview Thursday after Mercedes Kornfeld was arrested in South Africa on a drug charge. "I ain't ever been to bed with her, I never got close to going to bed with

South African papers had quoted Miss Kornfeld, 24, as saying she spent the night with Tate after he defeated Gerrie Coetzee in a 15-round decision Oct. 20 in Pretoria. Sexual relations between whites and non-whites are forbidden by law in South Africa.

Tate, who is black, said Miss Kornfeld was among four or five women who came to his room together to congratulate him during a victory celebration at his

"All I did was talk to her and the other ladies for about 15 minutes," the 24-year-old heavyweight said. "Then I told them I was worn out from the fight and I wanted to go to sleep. I had them leave the room.

Tate said the women were still among the few hangers on still at his training camp when he awoke the next morning, but that Miss Kornfeld left shortly afterwards with South African boxer Kallie

Ace Miller, Tate's manager, said Kornfeld has posed as a newspaper reporter to get into their training camp about 10 days before the fight. Miller said he thought her presence was a "setup" and that he ordered her to leave because he didn't want an attractive woman around the camp that close to the fight.

approve sale

BALTIMORE (AP)

Stockholders of the Baltimore Orioles have approved the sale of the club to Washington attorney Edward Bennett Williams.

Approximately \$12.3 million from the sale, okayed Thursday, will be invested in conservative securities by two newly formed organizations for 13 months, the time lag presumably giving Williams a tax break.

Jerold C. Hoffberger the club's board chairman since October 1965. announced that the club would earn about \$1.5 million after taxes for

the 1979 season. That money will be distributed within 90 days to shareholders in both Baltimore Baseball Club, Inc., and Baltimore Orioles, Inc.

Permian defeats Brigade

By BOB DILLON **Sports Writer**

Odessa Permian's rugged defense shut down four bids by the Midland Lee Stonewall Brigade here Thursday night in a chilly junior varsity football game as the Panthers posted a 14-0 victory in Memorial Stadium.

Permian took the opening kickoff and marched 80 yards in 21 plays in a ball-control drive that ate up nearly seven minutes on the clock. The big plays were an end reverse along with two counter reverses that caught the Brigade defense napping.

Mike George and Stan Slater took turns on running the pigskin in the windy, cool weather and the sustained drive ended when quarterback Coy Brown sneaked over from one yard out for the first score of the evening. Jay Moore booted the extra point for a 7-0 Mojo lead with 5:02 left in the initial period.

Fumbles plagued the Brigade in the first half as Stephen Bold and Kevin Hager pounced on bobbles just as it looked like Lee was going to crank up and march the length of the field. Fullback Calvin (Thunder) Riggs, slowed by a shoulder injury, broke on a pair of nice runs along with quarter-

back Bart Ryan, but the two fumbles kept the Brigade at bay in the hardhitting contest.

Lee Coach Ernie Johnson was disappointed in his offense. "They (Permian) beat us physically and then we had some things happen to us that hurt on offense," said Johnson afterwards. Johnson went on to say that his Brigade held Permian to around 130 yards total offense, but then Lee only had about 100 yards total against Mojo.

Lee got to the Panther 10-yard line in the second period, thanks mainly to a 14-yard pass from Ryan to tight end Kenneth Hardison, but Van Gravitt's 25-yarc field goal attempt was low and Mojo held on to a narrow 7-0 lead at halftime Scott Kenney, who was all over the

field for Lee on defense, pounced on a Panther fumble and Hardison blocked a Permian punt, but the Brigade was still turned away from the goal line In the third period, Lee drove some

62 yards all the way down to the Panthert four where Mojo held and then in the fading minutes. Permian ran a fake punt with end Stacy Meeks skipping 40 yards to the Lee two for a first-and-goal situation.

Three plays later, Brown scored his second TD of the night and Moore's PAT made it 14-0 with 2:45 left in the Lee threw 21 times and quarterback

Ryan was sacked several times as linebacker Rusty Ray along with tackles Andy Orosco and Bobby Craig, played well for the Odessans who now stand 6-1 on the year compared to Lee's 6-2 reading. Next Thursday, Lee entertains Abi-

lene at 7 p.m. while Permian travels to San Angelo next Saturday.

Norm Bulaich may file charges against Packer

MIAMI (AP) — Norm Bulaich, his jaw shattered in three places and his pro football career ended, says he may look into filing legal action against the Green Bay player who injured him.

The veteran fullback examined photos of a fore-

On the first vote, San Angelo, Big Spring, Odessa High and Abilene Cooper voted to re-draw the 5-4A schedule, leaving a 4-4 deadlock among the eight-team members of the league. Cooper later changed its vote-to keep the district schedule the same and that proved to be the decisive vote in a 5-3 margin.

Midland schools remained in favor of keeping the schedule as it is. Midland's main concern was to keep the Midland Lee-Midland High matchup at the season's end as it is now, according to Sam Cox, Midland's athletic director.

"There are advantages and disadvantages to any schedule," Cox stated, "but we feel like it is important to the city of Midland to keep the Lee-Midland High game as the last game of the year.

San Angelo and Big Spring havelong wanted a change in the makeup of the district football schedule, both feeling that too much of a strain is put on them early in the campaign while sometimes making two trips to the same city in the course of a season.

Odessa High apparently joined the dissatisfied teams after suffering losses to Lee, Cooper and San Angelo in consecutive weeks this year. Cooper, who maybe had the toughest schedule of any team this year with back-to-back games against Lee and Permian and two trips to Midland, proved to be the swing vote as they waivered at the last moment.

The hiring of officials for next year's 5-4A slate was also discussed at the meeting

Three area grid loops face bitter dog fights

If District 5-AAAA is the "Little Southwest Conference," then what does that make three of this area's most competitive small school districts - 2-AAA, 6-A and 9-A?

Maybe we should dub them the "Little Big Eight," the "Little Big Ten," and the "Little Atlantic Coast Conference.

No matter what you call them, the fact remains these three districts are turning into bitter dog fights. Even more exciting, perhaps, than what appears to be a runaway in 5-AAAA. For starters, there are four teams

Right now, Odessa Ector is in the driver's seat with a 2-0 district record. But right behind them is Monahans at 1-0. Pecos, at 1-1, and Andrews, 0-1, are long-shot contenders.

still alive for the 2-AAA pennant.

And, if you believe Andrews coach Bill Shipman, nobody's going to escape unscathed in 2-AAA.

Asked if he thought the league champion would be unbeaten, the second-year boss replied, "No. I think we don't have a very large district but at the same time, we're all a little bit alike. Fort Stockton, they've got two losses and they're probably out of it." We've got to win the rest of ours. That's what were shooting for and wind up either having the district championship or flipping for it ... "

It just so happens that Shipman's Mustangs host Ector tonight, and it'll be the fourth straight "big game" the Eagles have faced in as many

The question that begs to be answered is who's going to win the durned thing?

Lordy, I'd rather be chased with a chain saw than offer a pick on this one. But I've got a hankerin' that with Andrews at home and in desperate need of a victory, the Mustangs will pull together for a 14-10 triumph. But wait, there's more. Monahans

and Pecos get it on at Pecos in another monumental 2-AAA showdown. Pecos impressed in their victory over Andrews but wasn't real sharp in last week's setback to Ector. Monahans has quietly become of one the area's best teams after a 0-2 start.

Bucking the system, I'll go with the Lobos to notch a 17-12 victory to stay near those high-flying Ector Eagles.

Now, let's move to District 9-A, where Junction is the lone unbeaten while four teams check in with 1-1 logs. There's more balance here than the SWC claimed in its preseason propaganda.

Reagan County coach Melvin Burns, whose Owls are one of the clubs at 1-1, still maintains that no one in the district will remain undefeat-

When asked about any team finish-

ing unbeaten, Burns said, "I don't think so. I said earlier that if a team wins this district undefeated, they'll have a fine football team. I don't think there's anyway for anybody to do that unless they have some luck.

Well, Burns is hoping for a little luck this weekend when the Owls entertain Junction, 2-0, in a crucial

One factor in Junction's favor is that the Eagles have already disposed of preseason favorite Mason.

Yet, if Burns knows what he's talking about, the War Birds will have to topple soon. And, I think the Owls, victims of fate last week in a loss to Wall, have the stuff - mentally and physically - to deal with Junction. For that reason, I'm taking Reagan County to defeat Junction 20-16 in the

"Wild One of the Week.

Let's not forget District 6-A, where McCamey is enjoying this week's open date atop the circuit at 2-0. Breathing down the Badgers neck,

however, are the always-feisty Rankin Red Devils at 1-0. Whether or not the Devils are a real threat will be shown tonight when

they host Clint, 0-1. Basically, the Devils boast a bellringing defense and a sometimes explosive offense. They've had their ups and downs as has Clint, a team which exploded from the blocks only to hit the skids of late.

This is too big a game for the Devils, and on their home turf, they should be too much for the visitors. Rankin to nab a 28-3 cakewalk.

Down the road in Crane, the Golden Cranes will open District 7-AA play against Ozona. Neither team has done a whole lot, but Crane definitely has had more bright spots. And as things get underway, it ap-

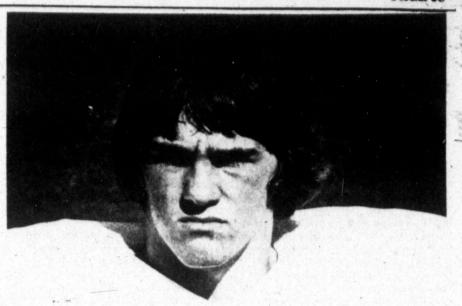

pears there's some balance here, although Kermit looked to be the class of the district earlier. I'll take Crane over Ozona 23-12 while Kermit should get their act

together to thrash Sonora by 15-7. Up north, Lamesa, still enjoying their first win of the campaign which came two weeks ago, tangles with Snyder in a 3-AAA contest. I'm afraid the Golden Tornadoes will have their bubble burst by the Tigers to the tune

of 28-10.

In District 5-A, Stanton, slowly slipping into oblivion, invades Anton. The Buffs come in 2-1-1 while Anton stands at 0-3-1. Stanton should stop their two-game slide with a 35-6 nod.

Seitz started baseball's annual garage sale

By WILL GRIMSLEY **AP Special Correspondent**

NEW YORK (AP) - Baseball's fourth annual garage sale - the free agent draft - pitched its tent today, with price tags on some 44 major league players who hope to become instant millionaires.

If one-fourth of them don't, it will be an upset. The first year of player freedom in 1976 saw 14 sign for \$1 million and more while 10 millionaires have emerged from each of the last two grab bags.

"I am glad I am not involved," said Dave McNally, former all-star pitcher of the Baltimore Orioles, now retired and prospering in the automobile business in Billings, Mont. "Before the big decision, the cards were stacked heavily in favor of the owners. Now they are stacked in

"One of the reasons I quit — other than my bad arm — was that I don't think I could have stood shuttling from one team to another. It's bad for

Dave McNally and another pitcher, Andy Messersmith, lately of the Los Angeles Dodgers, were principals in the historic arbitration ruling by Peter Seitz that a ball club could not bind a player to his contract for life as specified by the reserve clause.

Seitz's ruling on Dec. 23, 1975 had a cyclonic effect on the lords of the

If allowed to prevail, warned Commissioner Bowie Kuhn, "it would be a disaster for most of the players, the clubs and, most of all, the fans." "Financially suicidal," said Lee MacPhail, president of the American

Both proved to be panicky Chicken Littles. The sky didn't fall, after all -not even when Pete Rose and Dave Parker signed for almost \$1 million a year. The game drew 43 million people the past season and is healthier than ever in its century of existence.

Seitz and McNally can look back and view the landmark decision with detached objectivity. Messersmith, picked up by Atlanta for \$1 million, gravitated to the Yankees, returned to the Dodgers and this year got his

"The present salaries appear out of proportion," said McNally, a 20-game winner with the Orioles. "The owners brought their problems on themselves - they were obstinate and refused to budge. Now that the players have the upper hand, they don't want to give up their gains. 'I don't know what the solution is. Maybe the law of supply and demand will bring everything into proper perspective."

Seitz, a pipe-smoking grandfather of 73, a onetime avid Brooklyn Dodger fan, said he continues to watch the mad machinations of baseball but refuses to take personal responsibility for the escalation of multimillion-dollar contracts

"I am quite interested in baseball," he said, "but not as interested as I am in my 12 grandchildren.'

Seitz said he did not consider himself a Dr. Frankenstein, as some baseball brass has pictured him, nor an Abraham Lincoln who freed the slaves, as viewed by players.

'What I did was no Emancipation Proclamation," he contended. "Involuntary servitude had nothing to do with it. I decided it as a lawyer

Two minutes after his decision, Seitz was fired by the owners. "I'd never been dismissed like that before," he said. "I was fuming." In effect, he held that once a contract is terminated, the player has the right to offer his services to another club. Under the reserve clause, a club could hold — and even cover up — a player as long as he stayed in the

Astros sign Jose Cruz after free agent flirt

HOUSTON (AP) - A brief flirt with free agent status by Jose Cruz ended Thursday as the Houston Astros announced the outfielder had agreed to a five-year contract extention.

"We are certainly pleased the prior legal differences have been compromised and resolved," said Tal Smith, Astros president and general manager.

Smith made the announcement after a four-hour conference with Cruz his agent, Jack Childers, and

A state district court 10-day temporary restraining against the free agent status Cruz declared Oct. 23 was to have ended later in the day.

The court order also restrained Cruz from denying a letter of intent to extend the contract through the 1984 season had been signed in June.

DR. NEIL SOLOMON

Test can point out diabetic eye disease

Dear Dr. Solomon: As most is the possibility of blindness. At what point can a doctor tell if a diabetic is in danger of losing vision? - Mr. C.Z.

Dear Mr. Z.: A new procedure permits physicians to diagnose the onset of diabetic retinopathy (eye disease) even before lesions of the retina of the eye can be seen. Dr. Jose Cunha-Vaz, an opthamlmologist at the University of Illinois Eye and Ear Infirmary in Chicago, says he has tried the technique on more that 100 patients.

He injects a substance (fluorescein) intravenously into an arm. If the the fluorescein reaches the vitreous of the eye, some abnormality is indicated.

Dear Dr. Solomon: In theory, I feel that vasectomy is the safest and most reliable form of sterilization. My wife and I have three children and neither of us desires a larger family. However, I become panicky when I think of undergoing any kind of surgery, no matter how minor. Would you have any suggestions? - Dan

Dear Dan: There may be an answer, but it will not be available for any where from three to five years.. Dr. Louise B Tryer, of the Planned Parenthood Federation of America, reports that a new nonsurgical vasectomy procedure looks very promising. The technique involved injecting a combination of formalin and alcohol producing scarring and blocking the passage of sperm from the testicles. The aftereffects, which are minor, include some screen and redness for a day or two.

The nonsurgical procedure was first used on rats and dogs by Dr. Donald Coffey, a professor of pharmacology at the Johns Hopkins School of Medicine. It has since proved successful in 20 of 25 men on whom it was tested. Additional clinical trials are now under

If you feel you cannot wait the three to five years before this procedure is perfected, you may derive some comfort from the fact that 500,000 men now undergo vasectomies each year. In addition, 700,000 women undergo some sterilization procedure each year.

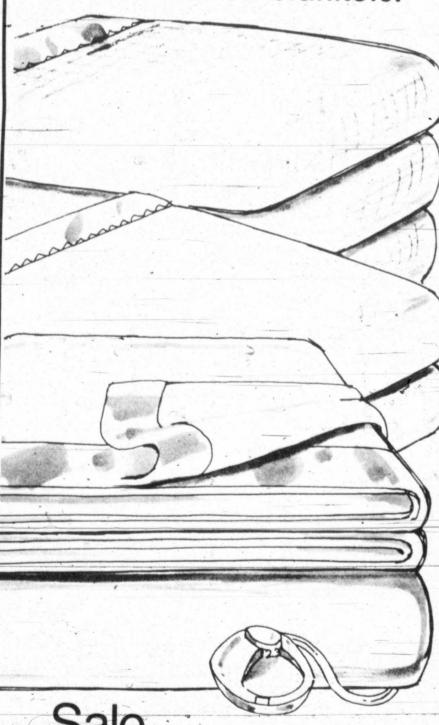

Dear Dr. Solomon: Recently I've been troubled by a boil on the back of my neck. Sometimes it goes away only to be replaced by another one What cause a boil and how can I get rid of it for good? - Lou

Separatist leadership wants Quebec sovereign

QUEBEC (AP) - The separatist leadership of French-speaking Quebec has formally proposed that the province withdraw from the 112-yearold Canadian confederation but maintain close economic ties to it.

The federal government in Ottawa had no immediate comment about the plan for a "sovereignty-association" set forth Thursday in a policy paper issued by provincial Premier Rene Levesque's government.

Opposition leader Pierre Elliott Trudeau joined several other politicians voicing skepticism about the proposal. Trudeau told a news conference the plan was cleverly designed "to make people believe they can have the cake and eat it too." Trudeau, a former prime minister, has consistently opposed Quebec separatism.

The 109-page document, entitled "Quebec-Canada: A New Deal," said a unilateral declaration of independence was "completely out of the question." However, it said continuation of the status quo was equally

Levesque's Parti Quebecois, which advocates a separate Quebec, câme to power three years ago. It contends that the rest of Canada, which is overwhelmingly English-speaking, has held down the French-dominated province culturally, politically and economically. Though the policy paper contained no new ideas, it marked the opening

of debate leading to a province-wide referendum next spring on Quebec's At that time, Quebec's 6 million citizens, of whom 5 million are French-speaking, are expected to vote on whether to authorize Leves-

que's government to negotiate terms of Quebec's separation from the rest of the country. In a public opinion poll last summer, 54 percent of the Quebecers surveyed said they would vote to authorize negotiations, 30 percent said they would oppose such a move and the rest were undecided.

However, the same poll showed that only 37 percent of the voters favored a sovereignty-association and 42 percent opposed it. "I think this is the best solution to the political crisis in which two peo-ples have been mired for generations," Levesque said Thursday, after the paper was presented.

Japan deeper into 'quagmire' since Ohira, cabinet resigned

TOKYO (AP) - Japan skidded deeper into a political quagmire today as Prime Minister Masayoshi Ohira and former Prime Minister Takeo Fukuda wrestled for control of the ruling Liberal Democratic Party and the govern-

A scheduled session of the lower house of parliament was canceled, and Fukada's supporters boycotted a party caucus aimed at resolving the

The standoff left the country without official leadership for the third day since Ohira and his 21-member cabinet resigned en masse in compli-

ance with the constitution following elections Oct. 7. Ohira and his cabinet remained in nominal charge as a caretaker government, but the 69-year-old prime minister continued to ignore demands by other party leaders, including Fukuda, to accept responsibility for the party's unexpected electoral setbacks and quit.

Rotary hears about Midland College

A classification talk by Rotarian C.C. Dakil, dean of student services at Midland College, highlighted the program at the Thursday noon meeting of the Midland Rotary Club in the Midland Hilton.

He outlined his specific duties, along with responsibilities of his staff He said that he is in charge of student recruiting, admissions, in working with the students in the area of services; and, upon completion of

their work there, in seeing to it that their credits are handled properly in transferring to senior colleges. He also discussed recruiting factors, the admissions process, and the

duties of the college's counseling staff. The continuing growth of the college, both in numbers of students, courses and services offered, were mentioned by the speaker. He said 2,550 students are enrolled in college credit courses this semester. More than 7,500 persons have been involved in the numerous community service programs offered during the last year. More than 2,500 persons are enrolled in the various programs at this time.

The campus buildings, facilities and landscaping were mentioned by Dakil, who also listed the numerous student organizations and student
