Nations pledge aid to starving refugees

UNITED NATIONS (AP) - The United States and other U.N. members have pledged \$210 million in emergency aid to Cambodians threatened by starvation and disease inside their war-torn country and in refugee camps in Thailand.

The United States reaffirmed its \$69 million donation at a day-long conference Monday, but U.N. officials declined to give a breakdown for other countries, saying they were made in various forms and covered different time spans.

U.N. Secretary-General Kurt Waldheim said of the \$210 million pledged, about \$160 million would go to Cambodia, where some 2 million persons face starvation and epidemics. He said most of the remainder would go to Cambodian refugees in Thailand.

Secretary of State Cyrus R. Vance told the conference the U.S. contribution included \$30 million pledged by President Carter, \$9 million in aid for refugees in Thailand and \$30 million in additional aid now going through Congress.

"Some issues transcend politics," Vance said. "This is one of them." "Clearly there are differences among governments on the political situation in Kampuchea (Cambodia). But all of us must put those differences aside as we ask all the authorities involved in Kampuchea to turn away from calculations of political and military advantage and turn to the overwhelming human issue that is before us.

Outside the U.N. headquarters, more than 100 demonstrators from all over the United States also called on the United Nations to take urgent steps to prevent the Cambodian refugees fyom starving.

We are crying out for help for the Cambodian people; otherwise they will become extinct," said In Tam, premier in the Lon Nol government that held power before the communist regime of Pol Pot took power in **April 1975**

Vietnam invaded Cambodia on Christmas Day, overthrew the Pol Pot government two weeks later and installed a pro-Hanoi regime headed by Cambodian Communist Heng Samrin.

Pol Pot guerrillas have been fighting a losing war against the invaders and the Heng Samrin forces ever since, and the fighting has created tens of thousands of refugees.

The Heng Samrin government said Monday that from now on it was "ready to receive whatever quantity of humanitarian aid ... without political conditions

Rosalynn to visit Thailand

BANGKOK, Thailand (AP) - Rosalynn Carter will come to Thailand this week to visit Cambodian refugees, and meet with the king and queen of Thailand, a Foreign Ministry source said today.

Mrs. Carter was to arrive here Thursday evening and depart Saturday, the source said.

In Washington today, a White House official said Mrs. Carter will visit refugee camps on behalf of her husband, President Carter, who last month pledged \$69 million in refugee assistance. Emergency legislation to provide relief funds is being rushed through Congress.

Light voter turnout expected

Iranians issue threat against 60 Americans

By The Associated Press

Iranian demonstrators threatened today to execute some 60 Americans held hostage at the U.S. Embassy in Tehran if the U.S. government tried to rescue them. Meanwhile, Iranian Prime Minister Mehdi Bazargan resigned and Ayatollah Ruhollah Khomeini told his Revolutionary Council to take over the government.

"Any military or non-military attempt by the U.S. or its agents in Iran to free the American spies held as hostages in their embassy will cause their immediate execution," the demonstrators said in a broadcast message

A West German radio broadcast from Tehran also said other Americans, employed by private U.S. firms in Iran, were being rounded up by armed Iranians and taken to the U.S. Embassy grounds.

The U.S. government had ruled out any military intervention, fearing this would endanger the hostages.

America's chief represenative in Iran, Charge d'Affaires L. Bruce Laingen had been negotiating with Bazargan's government at the Foreign Ministry since Sunday when the demonstrators seized the embassy and demanded the extradition of ousted Shah Mohammad Reza Pahlavi, now hospitalized in New York. The U.S. government refused to meet the demand

The demonstrators at the embassy also threatened Laingen today, telling him to come out "from your hiding place" and surrender as soon as possible "because your secret (wireless) contacts with Washington will be of no help.

Hassan Tabatabai, an official of the premier's office in Tehran said Bazargan, who has headed the governht since the successful conclusion of the Iranian revolution last February, resigned because of Khomeini's escalating anti-American campaign. He cited "developments over the past few days as well as (Bazargan's) physical tiredness." Tehran Radio quoted Bazargan's letter to Khomeini as saying because of "interference, instances of obstacles being created, of opposition and of differences of views (making) it impossible for me and my colleagues to carry out their duties and continue to shoulder responsibility ... I hereby tender my resignation so that all affairs may be brought under the com-

mand of the leadership in any manner deemed appropriate

The broadcast quoted Khomeini as saying he appreciated Bazargan's "untiring efforts and services during the period of transition and while having confidence in his religious devotion, trustworthiness and good will, I have accepted the resignation. I assign the Revolutionary Council to run the country's affairs during the period of transition.

Bazargan resigned several times before in protest against the dominance of the cleric-run Council, but each time previously Khomeini talked him into remaining in office.

The Carter administration had been negotiating with the Bazargan government for the release of the U.S. Embassy hostages, who also reportedly included seven or eight Iranians. But the Iranian government had no influence on the students occupying the embassy.

American officials ruled out military action or other retaliatory measures, fearing this would endanger the captives. There also were fears that Khomeini would stop 800,000 bar-rels of Iranian oil exports daily to the United States.

The State Department said it received assurances indirectly from the students that all the hostages were well. But the department still was unable to reach the embassy by telephone

Radio Tehran reported anti-American demonstrations across Iran. Mobs seized the U.S. consulates in the cities of Tabriz and Shiraz and ransacked the Iran-American Society cultural center in Isfahan. Pars, the Iranian news agency, reported workers in the southwest oil fields took an American employe, Bill Herr, hostage. But the State Department said

Texans balloting on three constitutional amendments

AUSTIN, Texas (AP) - Election officials expect less than a 10th of Texas' eligible voters will go to the polls today to decide on three more amendments to the state's muchamended constitution. The polls open at 7 a.m. and close at

7 p.m.

Supplement

5

the

Midland Reporter Telegram

The Texas Constituion has been amended 230 times since it was adopted in 1876.

Results on the latest three proposed changes will be gathered by the Texas Election Bureau, an unofficial votegathering agency financed by Texas newspapers and radio-television stations

What happens to the three constitutional amendments proposed by the 1979 Legislature could depend largely on the voter turnout in a number of

Answer Line

Today on

Page 4A

682-5311

Texas' big cities with local elections and bond issues also on the ballot. The Texas secretary of state's of-

fice estimated no more than 500,000 would vote. This would be only 9 percent of the 5.75 million registered voters.

The proposed constitutional amendments would:

- 1. Make the appointment of public notaries statewide instead of county-by-county and increase the terms from two years to four years.

- 2. Allow the Legislature to review, and if necessary suspend or repeal, any rule adopted by an administrative agency;

- 3. Set up a \$10 million bond program to help preserve the family farm by the state guaranteeing land purchases.

Probably the largest vote will come from the Houston area where Mayor Jim McConn is seeking a second twoyear term against eight challengers. Voters there must also select 14 city council members from a field of 88. A Nov. 20 runoff is expected for the

mayor's race and for at least 10 of the council posts. Brownsville and Cameron County

also have local elections. In Fort Worth, there is a referen-

dum to place a ceiling on property tax increases. There are bond issues to attract

voters in Dallas, Austin and Jefferson counties.

More has been said about Proposi-

Robert L. Pendleton succumbs at age 63

Robert L. Pendleton, 63, 2503 Humble Ave., died Monday in an Odessa hospital following an illness.

Services will be at 2 p.m. Wednesday in the First Baptist Church of Midland with Dr. Daniel Vestal, pastor, officiating. Burial will be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

Pendleton was president of Commercial Bank & Trust Co. He came to Midland July 15, 1959, as president of the bank from Pueblo, Colo.

He began his banking career with the Lubbock National Bank and had served as senior vice president of the First National Bank of Pueblo, Colo.

He was an original board member and secretary of the board of directors of the Midland County Hospital District. He was a director of the West Texas Chamber of Commerce and a former director of Citizens Savings and Loan Association of Midland. Pendleton was a director and member of the executive committee of the

tion No. 3 than the others, although Proposition No. 2 has been the most controversial

If approved by voters, Proposition No. 3 would let the commissioner of agriculture create a Farm and Ranch Loan Security Fund and issue up to \$10 million in general obligation bonds. The state would guarantee up to 90 percent of the amount due. The loans would be made by private lenders but the state could help the farmers pay back their loans, charging 6 percent interest. An applicant must have lived in Texas at least five years and must have farm and ranch experience and training.

Proposition No. 2 would authorize legislative review of rules and regulations made by state agencies. It passed the House and Senate easily

posing it.

but drew opposition from Gov. Bill

- Lee High School: Precincts 4, 15, 19, 26, 28.
- Midland High School: Precincts 6, 7, 27.
- Fannin Elementary School: Precincts 8, 20.
- Westside fire station at Circle Drive: Precincts 9, 21.
- Northside fire station at North Edwards Street: Precinct 10.
- Fire station at Thomason and Midland drives: Precincts 11, 13, 18, 22.

- Bowie Elementary School: Precincts 12, 14, 23.

No shortage of candidates in today's Houston election

HOUSTON (AP) - There was no shortage of candidates - nine for mayor and 88 for the City Council - but a shortage of Houston voters was forecast today in an election marked with general disinterest and some confusion. The weatherman called for fair skies and temperatures in the mid-70s.

Mayor Jim McConn is seeking his second two-year term, and political observers have said he should lead the ticket, although a Nov. 20 runoff appears certain.

His two chief challengers are Councilman Louis Macey, 44, and Leonel Castillo, 40, former Houston city controller and recently resigned commissioner of the U.S. Immigration and Naturalization Service.

The reconstructed City Council has caused some concern among voters as to how to cast ballots.

In years past, the eight City Council members were elected by a citywide vote. But, the U.S. Justice Department found Houston in violation of the federal Voting Rights Act because recently annexed areas were predominantly white.

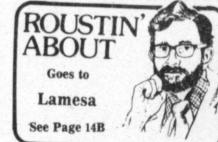

The department approved a new plan whereby the council was increased to 14 members, five to be elected at large and nine from specific districts.

This means each voter can cast a ballot for six council members.

Absentee voting has fallen below the figure of two years ago and election officials blame that on the new system. This confusion could cut into the turnout today.

Minorities definitely will increase their representation on the city's governing body.

only Iranians were manning the two consulates, and there were no reports of attacks on some 700 other Americans still working in the country.

Water fight on in Upton County

RANKIN - The city people essentially will be pitted against the country folks at 7 p.m. today, when the Upton County Water District board convenes in the courthouse here to consider petitions in which about 100 Upton County landowners are seeking to be stricken from the Upton County. Water District.

The water district, a countywide taxing entity, was created in 1977 so that bonds could be issued to finance waterworks to provide the 4,600 residents of Rankin and McCamey with water.

But about 75 county landowners, including some of the county's 900 rural people, farmers and ranchers among them, attended the Oct. 2 water district meeting to present petitions and to request at a public hearing to be removed from the district.

The landowners, represented by the Upton County Landowners Association, contend that they are not in favor of causing the county's major towns "to fade away" due to a lack of water.

The landowners want the cities to have adequate water, but not at their expense and at the jeopardy of the landowners' water rights, says Linda Dusek of Midkiff, president of the landowners association.

"The bill (creating the district) gives the five-member water board the authority to condemn underground water rights from the private landowners" outside the two cities, she says.

The water district is considering moving underwater to McCamey-Rankin from south of Upton County in the Bakersfield area. At one time, the district board had considered joining the Colorado River Municipal Water District to tab onto lake water. Both solutions to the cities' water problems would cost millions of dollars.

At present, Rankin and McCamey get water from wells which are eithe. drying out, have low output or the water simply isn't potable.

Dallas attorney Paul Phy is representing the landowners. Representing the water district are Dallas attorney Pete Tart and Upton County Attorney John Menefee of McCamey.

THE MIDLAND REPORTER-TELEGRAM, TUES., NOV. 6, 1979

More blasts hit burning oil tanker

GALVESTON, Texas (AP) - Another series of explosions rocked a burning oil tanker in the Gulf of Mexico overnight as oil seeping from its compartments continued to drift toward shore

The Burmah Agate has been afire since Thursday, when it collided with the freighter Mimosa near the entrance to the Galveston Ship Channel

Two more bodies of crewmen washed ashore at Galveston today, bringing the confirmed death count from the crash to 13. Another 19 sailors are missing and presumed dead.

Periodic explosions have hampered efforts to control the continuing fire on the Burmah Agate. Fireboats have maintained a round-the-clock water barrage

The latest round of explosions again caused the fireboats to scatter, but no injuries were reported.

Coast Guard Lt. Gabe Kinney said the latest explosions occurred throughout the early morning hours. "I wouldn't really call them minor, but I wouldn't call them major, either," Kinney said.

on Monday, Coast Guard Chief Petty Officer Richard Griggs said Navy equipment would be put in place at Galveston "in the event we have to deal with a lot of oil. There is a lot of oil still on board that tanker.'

The Navy equipment is the same that was used against oil seeping from a blown-out Mexican well in the Bay of Campeche. That well continues to leak oil into the Gulf, and several South Texas beaches have been stained by it.

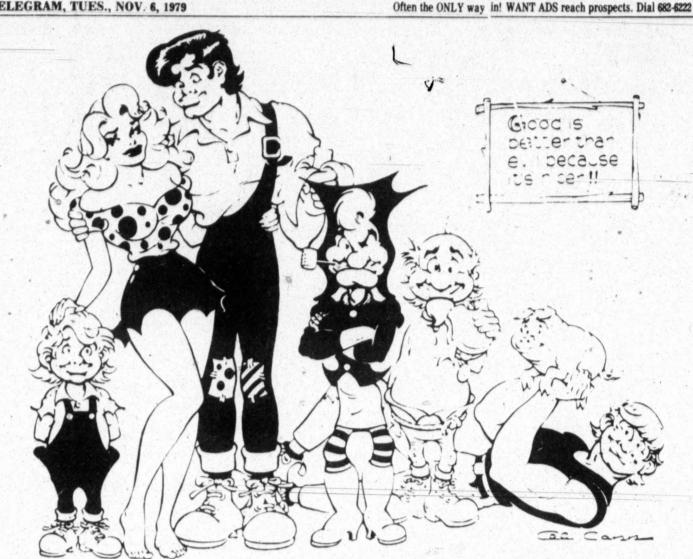

Remains of the empty freighter Mimosa, which was heavily damaged and burned in the collision, on Monday was towed to a Galveston shipyard where its owners will determine what to do with it, Griggs said.

Three early-morning explosions shook the Liberian-registered tanker Monday, forcing fire boats to pull back

Oil from the Burmah Agate, which carried 400,000 barrels of light crude oil, stretched 100 miles on the surface of the Gulf of Mexico and washed ashore in four places on the Texas coast during the day, including one four-mile stretch at West Beach. Officials said the stubborn fire aboard the ship prevents them from boarding her and stopping the oil flow

Tug boat captains hired by the tanker's British owners worked through the night spraying water on the disabled ship in hopes of preventing further eruptions

"They're drenching her with water. trying to cool the decks down," said Coast Guard Lt. j.g. Don Zelazny. He said there was a danger of more explosions "unless we can get those decks cooled down."

The hillbilly characters of Al Capp's "Li'l Abner" survived seven presidents and became an American institution. Capp died Monday at a Cambridge, Mass., hospital. He was 70. This is a 1977 section of the Chicago Tribune - New York News Syndicate comic strip. (AP Laserphoto)

Al Capp, creator of Dogpatch clan, dies at 70 years of age

CAMBRIDGE, Mass. (AP) - Al Capp, the cartoonist who brought to life for millions of readers the world of Dogpatch, U.S.A., while earning a special place in American folk culture, is dead at the age of 70.

His comic strip "Li'l Abner," which Capp used to lampoon hypocrisy and political hot air with hillbilly bluntness, was laid to rest two years ago, after 43 years in the world's newspapers

Capp, who died Monday, created the dim-witted and big-footed Li'l Abner; blonde, busty Daisy Mae; scrappy, pipe-smoking Mammy Yokum and the all-giving Shmoos. He made American institutions of the bumbling detective Fearless Fosdick, Kickapoo Joy Juice, Lower Slobbovia and Sadie Hawkins Day the day the maidens of Dogpatch

chased after the town's bachelor's. Capp, who suffered from emphysema, died in Mount Auburn Hospital near his Cambridge home, his attorney, Alvin Hochberg, said

Started in 1934 in the Depression,

'Li'l Abner'' became an immediate

success, spreading to more than 900

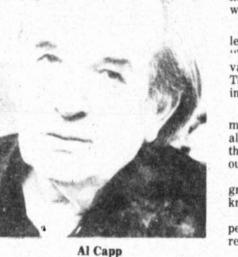

newspapers around the world. The

strip became the basis for a hit

Broadway musical in 1956. Capp

earned \$500,000 a year at his peak of

lent, I attacked.'

him a darling of political liberals. In the 1960s, he began taking on liberal causes. For example, he created Joanie Phoanie, a Joan Baezlike folk singer who ate caviar and warbled about poverty and protest.

"When conservatives were fraudulent. I attacked them," Capp said. "The liberals loved me. The conservatives maintained an icy silence. Then liberalism became too suffocatingly smug. I attacked them.

"The conservatives continued to maintain an icy silence. But the liberals didn't. They rose from one end of the country to the other and denounced me.

"It was a shock to realize that graduates of Smith and clergymen knew language like that."

With the changing times, newspapers began dropping the strip. Capp retired "Li'l Abner" on Nov. 13, 1977. Born Alfred Gerald Caplin in New Haven, Conn., on Sept. 28, 1909, Capp tell from an ice truck when he was nine and was run over by a streetcar. He had to have his left leg amputated and was outfitted with a wooden leg. He landed his first full-time art job with The Associated Press in New York. He stayed six months before becoming an assistant to Ham Fisher, creator of the populor bexing strip, "Joe Palooka. Capp is survived by his wife, Catherine, his daughter, Julie Ann Cairol of Cambridge, his son, Colin Cameron Capp of Little Rock, Ark., and eight grandchilden.

Banker R.L. Pendleton, 63, dies; Services Wednesday

(Continued from Page 1A)

Midland Industrial Foundation and director and treasurer of the Midland Development League

He served on the finanacial advisery committee of the city of Midland and Midland Junior Achievement. He was a financial advisor to the Midland Petroleum Club. He served two terms as treasurer of the Midland Chamber of Commerce and was on the financial advisory committee of the Midland United Way.

He was a past director of the American Red Cross and received national recognition for 15 years of service to that organization.

He was past president and director of the South Plains Bankers Association and was named in Who's Who in Colorado in 1958-59.

He was named Boss of the Year by the Midland Jaycees in 1962 and by the Midland chapter of the National Secretaries Association in 1970.

He was a member of the First Baptist Church, the Downtown Rotary Club and the Midland Country Club.

He was a graduate of Texas Tech University and attended Northwestern University in Chicago, Ill. He had done post-graduate work in communications and intelligence at the U.S. Naval Academy

Survivors include his wife, Maurine; two sons, Robert L. Pendleton Jr. of Dallas and Richard R. Pendleton of Arlington; a daughter, Dorothy Jean Sweatt of Arlington; and a sister, Bonnie Mae Mosley of Marietta, Ga.

The family requests memorials be made to the Permian Basin Dialysis Center in Odessa, the Midland Memorial Hospital Foundation or to a favorite charity

GAO completes its study of food distribution practices

WASHINGTON (AP) - In one country, healthy children receive free U.S food while those who need it go hungry. In another, the food is stored in dirty, insect-ridden warehouses. Those were among findings made

Another Marine dies of burns

SAN ANTONIO, Texas (AP) - The toll in the freak fire last month at a U.S. Marine base in Japan has risen to nine with the death of a young Marine from Colorado, medical authorities say.

Officials at Brooke Army Medical Center'sd burn unit identified the latest victim Monday as Lance Cpl. Orlando E. Sandoval, 20, of Pueblo, Colo.

More than 70 young Marines were burned last month when Typhoon Tip damaged a rubber fuel tank, sending 5,000 gallons of burning gasoline into a Marine barracks area at the Mount Fuji base.

public Monday by the General Accounting Office, which reported to Congress on what happens to the hundreds of millions of dollars in American food donations. Congress is considering a \$679 mil-

lion food program this year, compared with \$573 million in the fiscal year that ended Sept. 30.

The GAO, the congressional investigative agency, said among other things it found that:

-In Sri Lanka, well-fed children in the capital got food while poor children in remote areas went hungry.

-In Ghana, pupils at one private school got food while children at another school 150 yards away didn't. Auditors found that one-third of the food sent was either unaccounted for or distributed by improper methods.

-In Tanzania, food was stored in insect-infested warehouses, and despite food distribution standards, "frequently any child brought to the center was fed."

The GAO said too many agencies are involved in delivering food relief supplies and recommended that the programs be consolidated.

"We're not talking about explosions of the entire vessel, but more like a belching or burping within the tanks where vapors have built up. The water will decrease the chances of these explosions, or burps," Zelazny said.

He said only three compartments out of 36 on the tanker are believed leaking oil at present, but he said officials won't know for sure until the fire is put out and they are able to board the vessel.

Griggs said crude oil stained the upper Texas coast on four sandy beaches Monday. He said so far "all clean-up is being done by contractors hired by the owners of the tanker. The Coast Guard 'is simply monitoring their activities."

The oil rode southerly winds to the coast, but forecasters promised winds would shift to the north with the passage of a cold front.

Rain chance in forecast

The Midland area, in addition to getting the chills from the Canadian winds, may get "rained on" tonight and Wednesday

Probability of rainfall tonight is 30 percent, said a weatherman at the National Weather Service at Midland Regional Airport, and the chance of rain Wednesday will increase to 40 percent.

The rain would be the first for the month and the last since Oct. 30, when 0.06 inch was gauged at the weather bureau and brought the year's total rainfall to 13.25. Normal for the year is 13.51 inches.

The fresh chill is augmented by the cloud cover, which tends to hold down the temperature by blocking out the sunlight. The high Wednesday is to be in the

mid-50s, which will be 26 degrees cooler than Monday's high of 76 degrees. The record high temperature for a Nov. 5 is 83 degrees in 1955.

This morning's low was 41 degrees, which was well above the record low of 21 degrees for a Nov. 6 in 1959. Observers throughout the Midland

area reported a windy, cloud-covered and chilly morning.

Small fire on DC-9 doused by airport unit

Texas International reported a power unit was smoldering on one of its DC-9s when the plane landed about 5:14 p.m. Monday at Midland Regional Airport, according to a report from the Midland Fire Department.

A unit at the airport responded to the call. But only a gallon of water was required to put out the fire, according to the report.

gress elected in July but allowed it to reconvene Monday and in talks with members indicated he might resign. But a a congressional source said

ratify his self-proclaimed presiden-

would surrender power to Congress were "absolutely false."

"With sincerity and firmness, we will not permit the nation to become enslaved by predatory terrorism," the right-wing colonel and former commander of Bolivia's military college declared.

All military garrisons in the country declared their support of Natusch the day of his coup. But the country's last military president, Gen. David Padilla, exhorted the Bolivian people

Funeral services will be private.

At least 15 demonstrators killed by troops favoring Bolivian coup

LA PAZ, Bolivia (AP) - Troops supporting Col. Alberto Natusch's coup killed at least 15 demonstrators against military rule, raising the death toll in La Paz to more than 60 in five days as the new military strongman resisted congressional pressure. to resign.

Soldiers and armored cars blasted away at student demonstrators in the downtown area Monday with small arms and cannon fire. Then the soldiers moved into hillside slum areas. Firing continued into the night as flares illuminated the shanties.

A Roman Catholic priest reported a woman candy vendor was killed by a soldier firing his automatic rifle from a distance of 20 feet.

Downtown streets were nearly impassable because of paving-stone barricades thrown up by demonstrators protesting the coup. A general strike that has shut down businesses, factories and mines since the coup last Thursday was extended until Fri-

dav. Natusch's coup ousted President Walter Guevara, Bolivia's first elected civilian president in nine years, and the colonel proclaimed himself

after shifting back and forth, the colonel finally said he wanted Congress to

Natusch then went on the government radio and television and said reports by some congressmen that he

to continue fighting against Natusch. 'Never more than now, the armed forces, because of some ambitious, disloyal and unpatriotic men, are acting irresponsibly like criminals,' said Padilla in a handwritten note.

Padilla, who held the elections last summer despite the opposition of many in the military establishment, also was in hiding. There were persistent rumors that he was grouping military forces for an attempt to nullify the coup, but there have been no reports of any military clashes to confirm the rumors

Natusch for several days claimed he was thwarting a Cuban-backed revolution. On Monday, he warned the people to beware of ideological conspiracies from the United States, Europe, the Soviet Union and China as well.

Meanwhile, he sent a note to the U.S. government asking for recognition. The Carter administration cut of aid to Bolivia to demonstrate its opposition to the coup, and the State Department said it had not answered the note.

Natusch closed down all of La Paz's daily newspapers and banned broadcast news reports apart from official communiques. His government also began muzzling foreign news agencies. United Press International and Agence France Presse were ordered to stop sending news reports out of the country.

Jimmy Carter's 'announcement tour' to include stopover in Texas capital

AUSTIN, Texas (AP) - President Carter will visit Austin as a part of his official announcement tour on Dec. 8, a local campaign official said today.

Lowell Lebermann, former city councilman who is arranging the Carter visit, said the fund-raising appearance would begain with a 10: a.m. brunch at a downtown hotel, followed by a noon reception at the Austin Municipal Auditorium. He said other details of the Texas visit wwould be

San Angelo

man arrested

BISBEE, Ariz. (AP) - A San Angelo, Texas, man arrested in his hometown will be brought here for trial in the slaying of a New Hampshire man near Tombstone in June, Cochise County Sheriff's deputies reported Monday.

Randall Eugene Bailey, 25, was arrested in San Angelo Sunday night for investigation of homicide in the killing of Edwin James Jeffrey, 22, of Keene, N.H., deputies said.

discussed at a meeting in Dallas Tuesday night.

A previously scheduled Carter-fund raiser featuring presidential adviser Sarah Weddington has been cancelled, Lebermann said. He said Ms. Weddington was unable to come at the time the Texas hosts wanted.

Lebermann was chief fundraiser for Democrat John Hill in his unsuccessful 1978 race against Gov. Bill Clements, Republican.

Alton B. Smith

Alton B. Smith, 60, 300 S. Lee St. died Sunday in a Midland hospital following a short illness.

Services will be at 2:30 p.m. Thursday in Mt. Calvary Missionary Baptist Church with the Rev. Robert Lathan, pastor, officiating. Burial will follow in Fairview Cemetery directed by Jackson Funeral Home. Smith was born Oct. 1, 1919, in Marlin. He had lived in Midland 38 years. He was a baker and a member of Long Branch Church of God in

Christ. Survivors include his wife, Wynnelle; five sons, Alton Smith Jr. and Gregory Smith, both of Denver, Colo., and Preston Smith, Fredrick Smith and David Smith, all of Midland; a daughter, Ruth Smith Beaty of Midland; two sisters, Lula Mae Shelton and Lou Willie Dedrick, both of Midland; two brothers, Jesse Smith and Oscar Smith, both of Midland; and a grandson.

Sons and brothers will be pallbearers.

J.M. 'Jim' Smith

BIG SPRING - Services for J.M. "Jim" Smith, 73, of Big Spring were to be at 2 p.m. today in Nalley-Pickle Rosewood Chapel with burial in Mount Olive Memorial Park.

He died Monday in a Big Spring hospital. Smith was born Oct. 6, 1906, in

Clinton, Ky. He moved to Howard County in 1907. He retired from Cosden Oil and Chemical Co. after 20 years of service. A member of the First United Methodist Church, he was married to Edith Stamper in 1948 in Big Spring.

Survivors include his wife; a stepson, Lloyd Stamper Jr. of Fort Worth; two brothers, Luther Smith and W.H. Ward Jr., both of Big Spring; and two sisters, Catherine Dodson and Anna Smith, both of Big Spring.

'Bill' Duke

Services for William C. "Bill" Duke, 63, 3501 Lockheed Drive, were Monday in the First Baptist Church. Burial was in Sunset Memorial Gardens in Odessa directed by Newnie W. Ellis Funeral Home.

Duke died Thursday in a Midland hospital after an illness.

Pallbearers were to be Bill Boyd, J.D. Luckie, Gary Brown, Ed Nicks, Johnny Thompson and David Wilks. Honorary pallbearers were to be Joe Zant, Clyde Kinsey, Jerry R. Brown, Phillip Caudle, Paul Caudle and Mike Roberts.

Dawson County.

Survivors include her husband, Price Gann; a son, Lee Gann of Llano; four sisters, Mrs. Leonard Barton of Fort Worth, Mrs. George Kovar of Baytown, Mrs. George Patrick of Pearland and Mrs. M.B. Shaffer of Van Alstyne; and a grandchild.

Bill Conner

Services for Bill Conner, 73, veteran Midland grocery store and restaurant owner-operator, were to be at 2 p.m. today in the Mable Holt Glass Memorial Chapel of the First United Methodist Church, with Dr. Charles Lutrick, pastor, officiating, assisted by the Rev. J.B. Stewart, retired associate pastor.

Interment was to follow in Resthaven Memorial Park, directed by Newnie W. Ellis Funeral Home.

Conner died Saturday in a Midland hospital. He was born Oct. 12, 1906, in Navar-

ro County. Conner came to Midland in 1929 and for more than a quarter of a century, he and his brother, the late Ellis Conner, operated the Hokus-Pokus and Piggly Wiggly grocery stores. Bill Conner later was a partner in the operation of the Hotel Scharbauer Coffee Shop and the Diamond Horseshoe Restaurant. He established Conner Grocery and Delicatessen 17 years ago.

He was a long-time active member and officer of the First United Methodist Church.

He was married to Helen Weisner July 7, 1935, at Dallas.

Survivors include the widow; a daughter, Mrs. H. Kelly Ireland of Tyler; a brother, Dillard Conner of Fort Worth; three sisters, Mrs. H.B. Allgood of Dublin, Mrs. J.C. Frazier of Malakoff and Mrs. Walter Southlin of Fort Worth; and two grandchildren.

Calvin Young

Services for Calvin "Socky T" Young, 79, 207 S. Madison St., were to be at 3 p.m. today in Jackson Funeral Home chapel. Burial was to be in Fairview Cemetery.

He died Wednesday in a San Angelo nursing home after a lengthy illness.

Stella Merrill

BIG SPRING - Stella Merrill, 84. of Big Spring died Monday in a Big Spring rest home after a long illness. Services will be at 9 a.m. Wednes-

day in St. Mary's Episcopal Church with graveside rites at 1 p.m. Wednesday in Sweetwater Cemetery directed by Nalley-Pickle Funeral Home.

Mrs. Merrill was born Oct. 11, 1895, in Smith County. She grew up there and moved to Sweetwater in 1925 and to Wichita Falls in 1929. She moved to Big Spring in 1960. She was a member of St. Mary's Episcopal Church.

Survivors include two nephews Fred Coleman Sr. of Big Spring and Carl Oates of Dallas; two nieces, Mrs. Neal Ball of La Feria and Mrs. Don Cates of Forney; and a number of great-nieces and great-newphews.

Cynthia Garcia

Cynthia Isabel Garcia, 14 months, daughter of Mr. and Mrs. Raymundo E. Garcia, 705 N. Baird St., died Sunday in a San Antonio hospital.

Graveside services were to be at 4 p.m. today in Fairview Cemetery with the Rev. Charles Hassenaur, pastor of Our Lady of Guadalupe Catholic Church, officiating. rangements are being handled by Newnie W. Ellis Funeral Home.

She was born August 25, 1978, in Andrews.

Other survivors include a brother, Raymundo Garcia Jr., of Midland; two sisters, Norma Angelica Garcia and Nancy Yarnia Garcia, both of Midland; her grandparents, Mr. and Mrs. Carlos Valenzuela of Mexico and Mr. and Mrs. Martin S. Garcia of Midland, and several aunts and uncles.

Answer Line

I recently was in the restaurant at our beautiful new airport. I wished to order breakfast and was informed that breakfast was served only through the buffet line. For example, if you wished to order a fried egg, nothing doing!

This is a bad set-up and I am sure many of our out-of-town visitors would agree. And the price of the buffet is \$3.25.

Is there any way of having this policy changed and brought in line with the otherwise modern airport? -B.K.

ANSWER: Hoyt Morgan, owner of the restaurant at Midland Regional Airport, says the breakfast policy of the restaurant had to be changed in keeping with the new early security checks required of passengers in order for them to reach the concourses in time to catch their flights.

There were times, Mr. Morgan said, that 15 or 20 persons would order breakfast from the menu, get a call to report for security and have to leave the restaurant before receiving their orders.

The buffet line, which, of course, is faster service, was the alternative. Mr. Morgan also said the restaurant does try to serve special orders to customers on diets for one reason or another. There always are breakfast rolls, doughnuts and cereals for those preferring not to go through the buffet line.

At the present time, the restaurant does not have the personnel to do both the buffet and menu. After 10 a.m., orders may be made from the menu.

Is there any place in Midland which recycles bottles, jars, etc.? I have heard of places which do this type of thing. In some cases the glass is ground fine and is added to asbestos for paving purposes. The ground

glass prevents excessive skidding by cars on pavement, I understand. It seems to me that glass is another valuable resource and should be recycled for use again. - L.M.

P.O. Box 1650, Midland 79702

682-5311

ANSWER: We checked with glass dealers in Midland, who think the idea of recycling glass is a good one, but they knew of no place in the area which does this.

One dealer spokesman said that several years ago a truck "came through" Midland, collecting used glass, but transported it to a company in Tennessee for recycling.

Will you please tell me what connection, if any, exists between the students of the Midland Independent School District and the Junior Assembly? Is there a connection between the Junior Assembly and the Youth **Centers?**

The same questions apply to the Cotillion. I am a taxpayer and contribute to the United Way, and I've been informed that neither one of the organizations involve minorities in any way.

Naturally, I am curious as to how these organizations can function through the schools and youth centers, if this allegation is true? -C. Lott

ANSWER: These dance groups you mention are private invitational, social organizations, which are not affiliated with the Midland Independent School District or the Youth Centers.

The facilities of the Youth Centers at both Midland and Lee High Schools are rented by the groups for dances. According to Marvin Rasco, manager of the Midland Youth Center, the groups have to pay the rental on a ... use-basis, in other words, each time the facilities are used.

Carter orders Justice probe of rally deaths

THE MIDLAND REPORTER-TELEGRAM, TUES., NOV. 6, 1979

GREENSBORO, N.C. (AP) - The U.S. Justice Department, acting under orders from President Carter, is expanding its investigation of Saturday's slaughter at an anti-Klan rally as organizers of the demonstration prepare to mourn their dead.

Police continued to search for at least one more suspect and a white Ford compact, which was seen in a video tape of the shooting.

Meanwhile, 14 men charged in the shootings were ordered held without bond after a judge termed them "imminently dangerous to others in the community." A probable cause hearing was set for Nov.

The men sang "Onward Christian Soldiers" and "God Bless America" outside the courtroom of Guilford County Chief District Judge Robert Cecil. Theywere led into court handcuffed together in pairs.

Twelve of the defendants face an additional murder count, police said, following the death Monday of another shooting victim, Dr. Michael Nathan of Durham

At the White House, press secretary Jody Powell said Carter had directed the attorney general to cooperate in the investigation, and the Justice Depariment had established a special unit to investi-.

gate the violence, dispatching two dozen FBI agents to the scene.

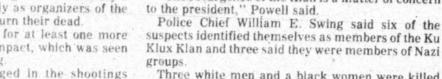

The resurgence of the Klan is a matter of concern to the president," Powell said.

ROSMAN, N.C. (AP) - Buford Posey, mayor of this tiny, virtually all-white mountain community, says he has gone into hiding after receiving death threats because residents learned he worked as an undercover agent against the Ku Klux Klan.

Posey disappeared Monday night after receiving death threats when The Asheville Citizen published a story Monday about his 1960s undercover work against the Klan, the newspaper said in today's editions.

Posey told the Citizen, in a telephone interview, he had received threats warning he would be shot if he

a doctor who founded the Albert Schweitzer Hospital at Balsam Grove.

Posey's claim that he was an undercover agent could not immediately be confirmed

Posey, 54, was appointed mayor of Rosman last May when mayor Andy Mull resigned. He had been running for election to his first full term unopposed.

But Alderman R.G. "Cotton" Galloway said Posey, a Democrat, would be opposed in today's vote by a write-

attended Monday's meeting of the Board of Aldermen.

The Citizen published a story Monday in which Posey revealed how he'd come to this Transylvania County town of 400 to avoid execution by the Klan in Mississippi.

He told the newspaper he'd worked as an undercover agent to help convict Klansmen responsible for the deaths of three civil rights workers there, and said he came to Rosman to hide with Dr. Edward Gaine Cannon,

in campaign for former mayor Bill Cathay

And at Monday's board meeting, Posey's board voted to fire him because of the story in the Citizen. Town Clerk Catherine Chapman said the vote to fire Posey was unanimous.

The mayor was invited to Monday night's meeting, and said he got as far as the door with a rifle but decided it best not to enter. "Would you go to a lynching party if you were the guest of honor?" he asked a reporter.

ficials say it is difficult to gauge what

the effect would be of a cut-off of

Iranian oil shipments to the United

Such a cut-off, threatened Monday

by Ali Akbar Mo'Infar, the Iranian oil

WASHINGTON (AP) - Federal of-

Iranian oil cutoff

could bring lines

tion. Total American imports of oil from Iran have fallen from the 800,000 to 900,000 barrels a day the United States lost when shipments halted last winter to about 700,000 barrels now, the Energy Department estimates.

And if Iran halted only direct exports to the United States, other Iranian oil would still get through. In July, only 387,500 barrels a day were imported directly from Iran, the department reported. In August, the direct imports totaled about 500,000 barrels a day.

Broader action would be needed to stop the estimated 200,000 to 300,000 barrels of Iranian oil that reach the United States daily as heavy fuel oil refined in Curacao, the Bahamas, the Virgin Islands and elsewhere.

To halt that flow, Iran would have to stop all oil shipments to those nations, which are not the targets of its displeasure.

If Iran merely sold the U.S. share of its oil to other petroleum-importing nations, the oil they would normally purchase elsewhere would be available for export to the United States. If all Iranian oil were denied the

United States, the loss might amount to about 7 or 8 percent of U.S. imports, or less than 3.5 or 4 percent of total U.S. oil supply.

But the cost to Iran of cutting its daily production by an equivalent of the 700,000 to 800,000 barrels ultimately reaching the United States, the officials point out, would be at least \$9 million a day at recent prices.

At worst, such a large-scale cutback could mean a return of the gasoline lines, odd-even sales days, and purchase limits experienced in parts of the country earlier this year.

But the experts also point out that the United States is now less dependent on Iran and more dependent on Saudi Arabia, which has made up most of the continuing shortfalls in Iran's post-revolution production.

These experts say Saudi Arabia and other producing nations now hold the most important keys to the U.S. oil supply. The impact of an Iranian embargo would be worsened if they cut their own exports, and virtually nonexistent if they increased them.

Court to clear problem

WASHINGTON (AP) - The Supreme Court says it will clean up a sticky legal controversy over oil spills

Mobil Oil to refund

WASHINGTON (AP) - The Mobil Oil Co., saying there "is no evidence of willful wrongdoing," has agreed to pay \$19 million in refunds and penalties for overcharging on natural gas or diverting it away from price-controlled markets.

The Federal Energy Regulatory Commission said Monday that Mobil agreed to pay the refunds and penalties in a consent agreement filed in federal court. Most of the money, some \$18.1 million, will provide refunds to interstate customers of Ten-

The court agreed Monday to decide whether individuals legally responsible for oil spills can be required under the federal Clean Water Act to turn themselves in.

A federal appeals court ruled that such a requirement - paired with another section of the federal act that imposes an automatic fine for oil spills - violates a person's constitutional privilege against self-incrimination.

Government lawyers told the justices that the lower court's ruling "could disrupt significantly" efforts to keep the nation's waters free from such spills.

The case to be studied by the court comes from Garfield County, Okla., where in 1975 an oil overflow from a drilling site found its way into Boggie Creek, a tributary of the Arkansas River.

In compliance with one Clean Water Act section, drilling operation proprietor L:O. Ward notified the Environ-

THE MIDLAND REPORTER-TELEGRAM, TUES., NOV. 6, 1979

DOE makes charge

WASHINGTON (AP) - The Energy Department charged today that nine large refining companies may have violated oil price-control regulations by amounts totaling nearly \$1.5 billion.

The department's special counsel, Paul Bloom, announced the issuance of "notices of probable violation," which allege the violations but are not conclusive findings. The companies will have an opportunity to respond to the charges, which stemmed from intensive auditing over the past 22 months.

Audits of other companies are due for completion by the end of this year and Bloom said more enforcement actions are expect-

The notices alleged that the nine companies tried to recover costs not eligible to be collected from consumers under federal regulations or which were not substantiated in eligible categories.

The largest allegation was charged against Mobil Oil, which the department said tried to collect \$274,672,000 it was not entitled to.

Violations totaling \$211,600,172 were alleged against Shell Oil.

The other companies and the amounts of the charges against them were: Amerada Hess, \$88 million; Atlantic Richfield Co. (ARCO), \$58 million; Chevron USA, \$117.2 million; Conoco. \$46,051,205; Gulf, \$80,090,000; Standard Oil of Ohio, \$179 million, and Sun Oil Co., \$129,707,-850.

The alleged violations concerned non-product costs, meaning refining costs apart from the oil itself, from August 1973 through 1976. The department said non-product costs normally account for about 12 percent of the cost per gallon of gasoline

It said that with the latest notices, the department now has charged violations totaling \$6.4 billion against 35 of the largest refiners

Several of the nine firms said they planned to comment on the latest action later today.

Last-minute fight staged to stop banks lease sale

BOSTON (AP) - Environmentalists and state officials waged a lastminute legal battle to halt today's scheduled opening of bids for the sale of oil-drilling leases in the Georges Bank, the rich New England fishing grounds that provide nearly 20 percent of the world's catch.

A federal appeals court in Boston today was to consider an appeal by

business

square miles.

under our feet on this matter,"

.

That sale, conducted after a year of mostly fruitless drilling in the canyon, drew only \$40 million in bids. The first Baltimore Canyon sale garnered bids totaling \$1.3 billion.

The Georges Bank, located about 100 miles off the coast of Massachusetts, is adjacent to the Baltimore Canyon area, where oil companies have spent about \$1.6 billion for leases and drilling and have little to show for

Sixteen of the 19 wells drilled in the canyon have turned up nothing, and the discoveries made by the other three have been negligible. And while the area was once touted as a possible boon to New England oil and natural gas supplies, oil companies have now all but given up on the Baltimore Canyon.

Another Atlantic Ocean offshore begin

Deliveries being taken

HOUSTON - The El Paso Co.'s interstate gas transmission subsidiary, El Paso Natural Gas Go., has commenced taking delivery of natural gas from the Mustang Island offshore area of South Texas.

This marks the initial entry of El Paso Natural into the Texas Gulf Coast supply area with its own transmission system. The reserves are estimated at 260 billion cubic feet and are located in Texas state waters approximately 11 miles east of Corpus Christi.

Employee strike settled

WASHINGTON (AP) — A strike by 14 employees of the AFL-CIO labor federation has been settled following a brief walkout, union officials say.

The employees, on the staff of the AFL-CIO's Food and Beverage Trades Department, walked off the job Monday in a dispute over higher wages. The strikers, who decided against picketing, were members of a newly organized staff union that was negotiating its initial contract with the AFL-CIO. Details of the settlement, reached Monday night, were not announced.

mental Protection Agency of the spill, and the EPA sent his report to the Coast Guard with a recommendation that Ward be penalized.

Ward was assessed \$500 for the spill, but that was later cut in half. He refused to pay, however, and the 10th U.S. Circuit Court of Appeals on March 14 said the autmmatic penalties provided for in the act actually are criminal in nature. Therefore, the appeals court said, persons should not be required to provide evidence against themselves. 'In our view, it is permissible to

assess civil penalties based on a discharge of oil ... providing that the evidence used to establish the discharge is derived from a source wholly independent of the compelled disclosure required," the lower court said.

The court's ruling applied only to individual owners and operators and to corporations, which do not enjoy any privilege against self-incrimination. Government lawyers say up to 10 percent of the 14,741 oil spills reported last year involved individual owners and operators.

ward M. Kennedy says this "is a time for an ultimatum on inflation" to force price rollbacks by the oil indus-

Kennedy, who is opposing President Carter for the 1980 Democratic presidential nomination, said Monday that Carter should demand that the oil industry roll back price increases voluntarily or face price controls on crude and home heating oil. "We can no longer tolerate a situation where every other segment of the economy is asked to practice price and wage restraint, while the oil industry is allowed to reap unlimited profits," Kennedy said.

AMERICAN ART

NEW YORK (AP) - "Tradition and Modernism in American Art 1900-1930," an exhibition of more than 225 paintings, sculptures, watercolors, drawings and prints, is on view at the Whitney Museum of American Art through Nov. 11.

The museum says the show forms the largest exhibition ever assembled of works in its permanent collection from the period 1900-1930.

EDDY OPERATIONS

A pair of West Texas oil pools have been reopened.

RK Petroleum Corp. of Midland reopened the Holton (Strawn) field in Martin County, and Ike Lovelady Inc., also of Midland, reopened the Wolfcamp pay in the W.A.M., South pool of Sterling County.

RK Nl. 2 Anchor was completed for a daily flowing potential of 151 barrrels of 48-gravity oil, no water, through a 22/64-inch choke and perforations from 10,842 to 10,858 feet after a 2,500-gallon acid treatment. The gas-oil ratio is 3,300-1.

Total depth is 12,407 feet and 5.5inch casing is cemented at 10.976 feet. Hole is plugged back to 10,889 feet.

The wellsite is 1/2 mile mile northeast of the field's lone Wolfcamp producer and 3,700 feet from northand 660 feet from west lines of league 252, Ward County School Land survey. It. is eight miles north of Tarzan

Ike Lovelady Inc. No. 3 Foster was completed on the pump to reopen the Wolfcamp pay in the W.A.M. field of Sterling County, nine miles southwest of Sterling City.

The operatior plans to dual producer the well in the Conger (Pennsylvanian gas) field.

From the Wolfcamp, it made 9.5 barrels of oil and two barrels of water on 24-hour potential. Gravity of the oil is 36 degrees, and the gas-oil ratio is 3.370-1.

Hole is bottomed at 7,150 feet. Location is 990 feet from north and east lines of section 8, block 13, SPRR survey.

LEA WELL

Dorchester Exploration, operating from Midland, has completed No. 1

N.M., No. 1-MD Federal has been spotted in an undesignated San Andres area of Chaves County, 19 miles northwest of Elkins.

Slated to 1,000 feet, it is 2,310 feet from south and east lines of section, 12-6s-25e.

RRC hearing sites moved

AUSTIN - The Railroad Commission announced the sites for two of its 1980 monthly oil and gas proration hearings have been changed.

Chairman John H. Poerner said the Jan. 17 hearing will be held at the Quality Inn on South IH 35. Also, the July 17 hearing will be held at the Hilton Inn, off IH 35 in North Austin. The January and July hearings had been scheduled originally at another Austin motel-hotel.

All of the 1980 oil and gas proration hearings will start at 9 a.m. and all will be held in Austin.

The 1980 proration hearing schedule, as amended, now reads:

Jan. 17, Thursday, Quality Inn; Feb. 20, Wednesday, Quality Inn; March 19, Wednesday, Hilton Inn; April 17, Thursday, Quality Inn; May 20, Tuesday, Hilton Inn; June 18, Wednesday, Quality Inn; July 17, Thursday, Hilton Inn; Aug. 20, Wednesday, Quality Inn; Sept. 18, Thursday, Hilton Inn; Oct. 16, Thursday, Quality Inn; Nov. 20, Thursday, Hilton Inn; and Dec. 18, Thursday, Quality Inn.

The Commission's annual state-ofthe-industry meeting will be held in conjunction with the proration hearing for that month.

president of marketing for Atlantic Richfield Co., "but our information suggests that there are adequate gasoline and crude oil inventories to avoid serious supply shortages.'

In his latest weekly report, oil marketing expert Dan Lundberg said Sunday that gasoline deliveries nationwide will be lower this month in comparison to last year's deliveries than they have been for any month this year.

From information obtained from the oil companies, Lundberg said gasoline deliveries this month will be 10.9 percent below last November's output, and that American drivers will have to get by on 34.9 million gallons less gasoline per day than last year to keep pace with the allocation cutbacks.

Last November, however, was an unusually high month for gasoline consumption because of unseasonably warm weather. Lundberg, in a telephone interview Monday, said he was not predicting gas lines, merely pointing out that motorists will have to get by with much less gasoline than they are accustomed to getting at this time of year.

Spokesmen for Chevron, U.S.A. marketing arm of the Standard Oil Co. of California, and Shell Oil Co. said they did not expect any return of gas lines even though motorists must continue to get by on less gasoline than last year.

Profits to fall; Prices to rise, says forecast

WASHINGTON (AP) - Profits for the food industry should decline next year even though consumers will probably be paying at least 8 percent more for food, the Agriculture Department predicted today.

ment's annual farm-economy outlook conference and were more detailed than those released Mon-

In its forecast, the Agriculture Department said consumer food prices probably would climb another 8 percent next year but could hit nearly 11 percent if the winter were harsh or there were problems with crops.

At the same time, food industry profits should decline after retailers enjoyed two of the best years of the 1970s, officials said.

"Profits in the food industry are expected to decline slightly in 1980, especially if there is a slowdown in economic activity. Food manufacturers' profits are likely to decline most, while increased competition from discount and volume food stores is expected to have a negative impact on food retailers," department economist Kenneth R. Farrell said.

Food prices this year are expected to run about 11 percent higher than those in 1978.

Almost 75 percent of the added cost to shoppers in 1980 would be due to higher labor, fuel and other expenses for the firms that process, transport and market the raw food farmers produce, the forecast

Most of that would come from expected 10 percent increases each in employee wages and benefits, packaging costs and freight rates, it said.

A breakdown of the projected 8 percent rise shows the food industry accounting for 6 percent, higher farm prices for 0.4 percent and higher prices for fish and imported foods for 1.6 percent, the department said.

"It is difficult to foresee circumstances that would make the outcome more than a percent or so lower than 8 percent," said Farrell, administrator of the department's Economics, Statistics and Cooperative Service.

"But an accumulation of largely unforeseen individual phenomena could easily add 2 to 3 percent to the base forecast," he said.

Damage to fruit and yegetable crops in the winter and spring or a poor grain crop in the fall would undercut the forecast's assumption of modest gains in farm prices, said Farrell.

"A range of 7 to 11 percent would appear to easily capture most of the possibilities," he said. Farrell's more detailed forecast came a day after J. Dawson Ahalt, chairman, of the department's outlook and situation board, predicted 1980 food price of 7 percent to 11 percent above this year'

Meanwhile, the National Center for Economic Alternatives said Monday the prices of food, energy, housing and medical care climbed at an annual rate of 17.6 percent from July through September - more than twice as fast as the costs of other goods.

The liberal-leaning research group said the prices of non-necessities - such as entertainment and clothes-cleaning - rose at an annual rate of 6.6 percent during the July-September period.
