The 150,000-ton Romanian oil taker "Independenta" burns after it caught fire following a series of explosions triggered by a collison with a Greek

freighter in the Bosporus Strait Thursday. (AP Laserphoto)

50 missing in collision

Tanker burns after hitting frieghter

ISTANBUL, Turkey (AP) - A Romanian oil tanker and a Greek coastal freighter collided in the Bosporus early today, setting off thunderous explosions and fire, leaving 50 Romanian crew members missing and dumping nearly 30 million gallons of oil into the sea, officials said.

They said rescuers found one dead crewman and picked up three from the 150,000-ton Romanian tanker Independenta, which carried a crew of

Police said the 33-member crew of

the 5,298-ton Greek coaster Evria was

unhurt. The tanker, loaded with crude oil destined for Romania, collided with the Evria at the mouth of the Bosporus, triggering powerful explosions that shattered windows in a wide area in Istanbul.

Witnesses told police the tanker was rocked by three blasts which sent thick smoke into the air. Governor Orhan Erbug said an estimated 95,000 tons of oil, or 28.4 million gallons,

poured into the Marmara Sea. Lamesa auto accident fatal to two women

LAMESA - Two women were killed and a man was injured in a head-on accident near here Wednesday morning.

Bessie Rivers Gatlin, 68, and her daughter-in-law, Karen Gatlin, 34, both of Greenwood, were dead on arrival at Medical Arts Hospital in Lamesa after the accident, which happened about 9:15 a.m. Wednes-

According to Department of Public Safety reports, Karen Gatlin was driving a 1975 Vega north on Texas 137 about four miles south of Lamesa when the Vega was in collision with a southbound 1979 pickup driven by Rudy Jimenez, 37, of Lamesa.

Jimenez was in good condition with bruises and abrasions in Medical Arts Hospital here.

The accident was investigated by DPS Trooper Joe Stone of Lamesa.

Big Spring mishap kills one

BIG SPRING - Orvin Elrod, 64, 403 Washington St. in Big Spring, died about 10:30 p.m. Wednesday at Malone-Hogan Hospital of internal injuries received in an automobile accident at the intersection of East 14th Street and Virginia Avenue here Wednesday night.

The three-car accident about 9:45 p.m. resulted in injuries to two other persons, officials said.

Driver of a second car, Steve Willis, 22, 206 E. 13th St., was undergoing treatment early today at Hall-Bennett Hospital here. His condition was not available, according to a hospital spokesman.

Pauline Elrod, 64, 403 Washington St., was treated and released from Malone-Hogan Hospital Wednesday night. Mrs. Elrod was the driver of the vehicle in which her husband was

a passenger, police said. An unidentified third party, the occupant of a parked vehicle struck in the accident, was not injured, accord-

Authorities closed the famed Topkapi Palace, the Byzantine-built church St. Sophia and the Blue Mosque, all located on a peninsula

facing the Marmara sea where the oil. spill spread. Navigational authorities ordered all shipping in the area halted and the city ran special buses for thousands of

commuters stranded on the Asian and European sides of Istanbul. Port officials said the Evria was towed off the city's southern shoreline pending an investigation into the

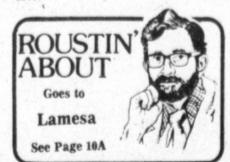

cause of the mishap. The 20-mile long Bosporus Strait links the Black Sea and the Mar-

A statement from the Istanbul navigation and oceanography department said flames aboard the stricken Romanian tanker were contained but advised all vessels in the area to avoid the site of the accident.

The port authority said the Greek coaster was headed into the Mediterranean with an unspecified cargo loaded at a Soviet in the Black Sea.

The worst oil spill in history occurred in Mexico's Bay of Campeche, 500 miles south of Texas. It began when the Ixtoc I test well blew out June 3. In the following months more than 100 million gallons of crude

spilled out. The Ixtoc I spill was more than double the worst previous, that of the wreck of the supertanker Amoco Cadiz off the French coast in March

Iranians split over hostages

Radio Tehran reported.

By The Associated Press

The Iranian government was reported preparing today to free all hostages held in the U.S. Embassy in Tehran except white American males, but the Moslem militants holding the mission angrily denied captives would be released and accused Iran's foreign minister of pandering to world public opinion ..

CBS correspondent Randy Daniels reported from Tehran that Foreign Minister Abolhassan Bani Sadr told him in an interview that "all women and blacks would be freed very soon.' He did not say exactly when this

would take place. However, the occupiers told Tehran Radio: "No. Something like this will not be considered. Our conditions are known. We do not recognize any statement except our statements as broadcast by Tehran radio and television or statements we issue during embassy

press conferences. "We denounce any negotations concerning the hostages' release before the United States extradites the de-

posed shah. "We remind government officials to pay attention to internal problems connected with the people, instead of negotiating abroad and paying atten-

tion to international public opinion. "Our action stems from the will of the people and the leadership of Ayatollah Ruhollah Khomeini without anyone telling us what to do.'

The State Department said six or seven women and one black U.S. Marine were among the 62 Americans held hostage in the embassy since Nov. 4. But it was assumed that by "blacks" Bani Sadr also meant the 36 non-American hostages, most of whom are dark-skinned Pakistani and Indian employees of the embas-

Bani Sadr told a news conference

TV newsmen seized, freed

NEW YORK (AP) - Student militants holding the U.S. Embassy in Tehran seized three members of an NBC-TV news crew at gunpoint today but released them within a few hours, NBC reported.

A network spokesman said the three apparently were detained because they had filmed scenes Wednesday from a nearby rooftop of the militants placing sandbags on the roof of the embassy, in apparent preparation for defending it against any at-

They were freed after the State Department and the British Embassy intervened on their behalf, the spokesman said.

The newsmen, all British citizens, were correspondent Martin Fletcher, cameraman Barry Fox and technician Derek Herincx.

The spokesman said they were seized outside their Tehran hotel, their rooms were searched and then they were taken to the embassy.

Wednesday that the non-Americans might be freed by the weekend if proven "innocent" of any crimes,

Meanwhile, the United States blocked Iran's attempt to ahraign it before the U.N. Security Council, and President Carter stymied an attempt by the Iranian government to withdraw its billions in oil revenues deposited in American banks.

'We're going to work actively to prevent a discussion by the Security Council until the hostages are released," State Department spokesman Hodding Carter said. "There is no way this government will negotiate under the gun of its people being

Secretary of State Cyrus R. Vance, after meeting with U.N. Secretary-General Kurt Waldheim, told reporters: "We have indicated that if the hostage question is resolved, then we're prepared to see the Security Council go forward and deal with the issues that anyone wishes to put before it, including the Iranians." The Security Council met for about 45 minutes and decided to hold further consultations, but council members said they were "disinclined" to meet Iran's request for a meeting to air its charge that the United States was

creating a "climate of war." U.S. Ambassador Donald F McHenry said the council wanted a response to its demand last Friday for restoration of the U.S. Embassy's diplomatic immunity and the release of those held captive by Iranian students demanding the return of the deposed shah for trial.

Khomeini's revolution forced the shah to flee in January. After four months in Mexico, he was admitted to the United States last month for gallbladder surgery and treatment for lymph cancer at a New York hospitals. Carter administration officials said Wednesday they expected him to be well enough to travel in two weeks, and the Mexican government was expected to give him refuge again.

U.S. may still cut food exports

WASHINGTON (AP) - White House press secretary Jody Powell is refusing to rule out a possible cutoff of U.S. food exports to Iran, but the idea drew

opposition today from two Democratic senators. Questioned about the possibility, Powell said repeatedly Wednesday that he would not discuss any choices that President Carter may or may not be

While Powell said reporters should not take this as a sign that a cutoff is actually under study, his statements represented a softening of Carter's oft-repeated pledge never to impose an embargo of American grain exports.

Today, however, Sen. Alan Cranston, D-Calif., told reporters: "I think we should exercise great restraint in regard to the situation while those (U.S. Embassy) hostages are there. Cutting off food would not necessarily contribute to saving the lives of the people.

Sen. Gary Hart, D-Colo., said "I think the people who are holding the hostages probably eat a very small fraction of a percentage of the grain that we send to that country. I think if we get into the situation of holding the health of the vast majority of the people of the country (Iran) hostage to our policy, then we're just playing the same game they are.

The senators spoke outside the White House after meeting with Carter on another matter. Iran purchased food and animal feed worth \$490 million from American farmers during the 12-month period that ended Sept. 30, and \$452 million the

The potential impact on Iran of a cutoff of U.S. food sales is unclear. Iran's revolutionary leader, the Ayatollah Ruhollah Khomeini, has said his nation can get along without the food, and Carter has said repeatedly that any nation denied U.S. grain shipments could easily buy what they need else-

Nevertheless, American food exports to Iran could become a highly emotional issue.

Several Republican congressmen, including Rep. George Hansen of Ideho and Rep. Bob Livingston of Louisiana, have urged a cutoff of food to Iran in response to the takeover of the U.S. embassy there.

Carter campaigned for the White House in 1976 in part on a promise not to repeat such grain embargoes as the cutoff of U.S. soybean exports to Japan in the Nixon administration and President Gerald R. Ford's embargo of grain sales to the Soviet Union in 1975.

United Way at 93 percent

Volunteers reported \$945,044 in pledges have been collected as of 10 a.m. today in the Midland United Way campaign for 1980.

The amount is 92.9 percent of the \$1,017,000 goal, campaign chairman W.F. "Bill" Ortloff said. A complete total for the week was expected to be announced today at an awards luncheon for campaign volunteers and award-winning employee groups of Mid-

Celebrities lead the Great American Smokeout

By The Associated Press

Led by a host of celebrities ranging from actor Ed Asner to Emily the chimpanzee, cigarette smokers who want to quit puffing joined today's "Great American Smokeout," trying to go for 24 hours without lighting

This is the third annual smokeout. The American Cancer Society, sponsor of the event, said that 14 million people participated in last year's program and predicted: "This year we expect as many or more."

Among those who quit in 1978 was Asner, who is national chairman of the smokeout for the second consecutive time. Other public figures who are serving as honorary officials for this year's campaign include skater JoJo Starbuck, members of the New England Patriots football team, Surgeon General Julius B. Richmond and Emily, a 5-year-old chimp from the Columbus, Ohio, zoo who's been dressed in a T-shirt reading, "Kiss

Me, I Don't Smoke." The Department of Health, Education and Welfare estimates that 54 million Americans smoke. It also says, however, that 30 million people have quit smoking since 1964 and says that total U.S. cigarette consumption fell in 1978 for the first time in 10 years.

Dr. Richmond has urged all smokers to participate in the smokeout. "It is my hope that you will then find the will power to join the growing number of Americans who have quit smoking," he said Wednesday. 'Smokers of America are a declining minority," said HEW Secretary

Patricia Harris - a former smoker. Organizers of the smokeout scheduled rallies, parades and other special events to focus on cigarettes.

Bostonians who quit smoking will be able to line up at two kissing booths for kisses from the Patriots and their cheerltaders as well as from other local celebrities. "It's a very light-hearted approach to helping people quit," said Karen Rouse of the local cancer society.

A similar view came from Sandy Pierce of the King County (Seattle) unit of the American Cancer Society. "We're taking a fun approach," she said "It's a serious problem, but instead of making it all so heavy all the time, it's supposed to be fun." The slogan of the local campaign, Ms. Pierce said, is: "Get the pack off your back."

Some of the events got under way early. A Wednesday kickoff party in Decatur, Ga., featured a giant cigarette which was extinguished by firefighters. The remains were hauled away in a hearse.

Farmer reaps more than 'first bale'

Staff Writer

George Hargrave's hobby is farming cotton.

And last Oct. 4, he harvested a patch from his 150-acre plot he planted last spring and brought to the gin what turned out to be the first bale ginned in Midland County.

For his early stripping, Hargrave on Wednesday in the Midland County Courthouse reaped publicity, a \$100 check from the Midland Chamber of Commerce and his share of praise for helping make "cotton king" in Midland County and Texas.

"It's just my hobby," said farmer Hargrave, who is tooling manager for Drilco in Midland. "When I retire from Drilco, that (cotton farming) is what I'm going to do for a living.

The No. 1 bale of the 1979 season is just one of an estimated 30,000 bales to be reaped from 38,000 acres of dryland and irrigation cotton in Midland County, Charles W. Green, the Midland County agricultural agent, said following ceremonies on the first-floor lobby of the courthouse.

"I don't see how we can miss 30,000 (bales) right now," Green said. "We would have to have hall or a windstorm (to cut into production), but if there's a stalk ready, it'll get stripped" and the cotton will be ginned.

Since Hargrave's first wagon load of cotton was ginned at Midland Farmers Co-operative gin Oct. 15, around 4,500 bales have been ginned there and the equivalent of an additional 3,500 bales have already been stripped and are awaiting ginning,

More of same weather due

Nighttime of late is no time to go running into the wind.

Some do, though, and end up with a premature Rudolph's red nose, as the nightly temperatures drop to freezing or near-freezing levels.

And "more of the same" cold weather whipped by a southerly breeze will be upon the Midland area tonight, said a weatherman at the National Weather Service at Midland Regional Airport.

The mercury tonight again is predicted to drop into the mid-30s, but may dip to around 30, which was today's low reading. Record low for the date is 24 degrees set in 1932.

Friday's high is to be in the mid-60s. Thursday's high was 61, which misses by a wide margin the record high of 85 degrees for a Nov. 14 in 1933.

Clear skies dominated Texas today, but clouds hovered overhead for the first time in several days in the Rio Grande Valley and in portions of West

Predawn temperatures were chilly again in most sections, with readings in the 30s and 40s.

The forecast called for partly cloudy skies over the Rio Grande Valley northward, with mostly fair skies elsewhere. Scattered evening showers were forecast for southwest

High temperatures ranging from the upper 50s in the Panhandle to the 70s in south and southwest portions were expected.

Burhalter's ex-wife testifies he hired someone to spy on fiance

BROWNSVILLE, Texas (AP) -The ex-wife of Dr. Archie Herman Burkhalter testified he hired someone to spy on her fiance several months before the man was shot in what prosecutors say was an attempted

Burkhalter sent his ex-wife, Laurita, a copy of a private investigator's report he had commissioned on her Sept. 29, 1978, she testified Wednes-

"Will send you the ones the last few days on John if you like," she said he added in a handwritten note at the

bottom of the report. The note and report were admitted in evidence Wednesday at the doctor's attempted capital murder trial. John Hensley, who Mrs. Burkhalter married less than a month after she received the report, was shot in the

face Feb. 15 outside the couple's

South Padre Island condominium. He was blinded but survived and will testify at the trial. Assistant District Attorney Joe K.

Hendley said he "hoped" to finish his case and call Hensley to the stand Prosecutors alleged Burkhalter

hired an old family friend and the man's nephew to kill Hensley. At the time of the shooting, Burk-

Housing bonds await new action in House

Midland and other Texas communities will have to wait before issuing bonds in the low- and moderate-income housing initiative following discarding of the resolution this week by its author, Congressman Al Ullman, D-Ore., Harry Clark, chairman of the Midland Housing Finance Corporation, said Wednesday.

Dropping House Joint Resolution 3214 resulted in the loss of the "transfer of transition authority" clause in the bill which would have allowed the sale of bonds, Clark said.

Additions to a new bill may allow sale of the bonds later, Clark said.

The Midland Housing Finance Corporation had planned to sell \$35 millien in bonds to provide low-interest mortgage money for low- and moder-ate-income Midlanders under the provisions of the bill.

Organizers had hoped to sell the bonds this week and planned to start the program here by December. Removal of the bill was termed a "clean-up" by Ullman, said Clark. Additions to the bill by various

states and organizations seeking ap-

proval under the bill's provisions

complicated it to such a degree that Ullman apparently thought it best to start over, Clark said. A new bill, HJR 5417, also intro-

duced by Ullman, must have a transfer of transition clause injected into it before bonds can be sold, Clark said. Although he has not read the new bill, Clark said he understood it was

additions were tacked on. The transfer of transition clause essentially confirms the legality of the sale of the housing bonds, said

similar to the old bill before all the

The clause was introduced to the previous bill and no difficulty is expected in introducing the clause to the new bill, said Clark.

"It definitely hampers the program at the present time," added

kidnapping his ex-wife and taking her to his Pasadena, Texas, Hospital. Hensley is a witness in the abduction case, which has been postponed

halter was to be tried on charges of

for trial until the attempted capital murder case is over.

Burkhalter is being tried with Scott David Minnick who is accused of aiding S.J. Wilburn, the convicted hit man in the case. Wilburn was found guilty and sentenced to life imprisonment in July

It was the sharp eye of a 14-year-old high school freshman that led to recovery of a rifle the state alleges was used to shoot Hensley.

Crystal Hudson testified Wednesday she was riding to school the morning of the shooting an noticed two cars parked on the causeway linking South Padre Island to the mainland community of Port Isabel. She said one man was standing on the bridge throwing two packages into the bay.

She jotted down the two cars' license numbers and her father later gave them to police, she said.

Divers recovered a rifle and a telescopic sight from the area under where she saw the parked cars on March 7, Texas Ranger Bruce Casteel

The gun was admitted in evidence Wednesday.

Minnick was stopped the day of the shooting driving a car bearing one of the license numbers Miss Hudson had given police, according to earlier tes-

Wilburn was arrested at the Port Isabel side of the causeway driving a 1968 cadillac outfitted with gun ports and a tripod. The car's backseat had been removed and the trunk padded to allow someone to lie prone and shoot a weapon from the vehicle.

said Charlie Wright, gin superintendent. The gin has been "running around the clock" for a month, he said. Approximately 200 farmers produce cotton in the county.

The county cotton crop may gross up to \$9 million this year and would represent two-thirds of the county's agricultural output. The lint is wringing farmers 55 to 58 cents on the

"Agriculture is very important to the Midland economy," said Joe Kloesel, president of the Midland Chamber of Commerce. "This year, particularly, cotton has been coming on so strong that the crop could be valued as much as \$9 million." Earlier in the ceremony, State Sen.

W.E. "Pete" Snelson of Midland presented Hargrave a plaque recognizing the first bale which, at 514 pounds, is somewhat heavier than the standard 480-pound bale of lint.

And Snelson noted a sign, posted on the bale by Green, which gave some statistics on cotton and touted: "Cotton is King in Midland County."

"I'm interested in that sign that 'Cotton is King in Midland County,' said Snelson, "and cotton is king in Texas. In the years ahead, it will continue to occupy the No. 1 standing. It's a substantial one. It's no small en-

After the ceremony, Hargrave returned to work at the tooling company. Working at his hobby on the farm south of Midland, would come later.

Midland County farmer George Hargrave, left, grew the county's first bale of cotton for 1979. Wednesday he stands beside landowner Verna Martin, who is holding a plaque presented to Hargrave by Sen. Pete Snelson. The Chamber of Commerce also presented Hargrave a check for the bale. (Staff Photo)

Despite lack of protesters, shah surrounded by security efforts

NEW YORK (AP) - The anti-shah demonstrations outside New York Hospital have stopped. But inside, security is as tight as ever for Shah Mohammed Reza Pahlavi, who is resting in \$1,000-a-day quarters while Iranian students demanding his return hold Americans hostage in the U.S. Embassy in Tehran.

The 17th floor of New York Hospital-Cornell Medical Center is guarded by 18 marksmen. The doors are oneway mirrors. Every visitor, package, telegram, bouquet and greeting card sent to the shah, a cancer victim, is screened for possible explosives.

The rooms adjacent to his are empty to serve as buffers. Other patients on the floor are shooed away by security

Although anti-shah demonstrations have ceased since the embassy takeover, the extensive security was heightened by last week's intrusion by a white-robed man who was seized after threatening doctors with a

Ever since a mob of Iranians seized the embassy in Tehran on Nov. 4, little has been heard from the deposed monarch, who is under a death sentence by a revolutionary court in his

The only official announcement from his quarters since the takeover has consisted of 169 words, nearly half of them about his medical condition. In that statement, the shah reca" 1

how during his reign 45,000 Americans had lived in peace, tranquility and prosperity in Iran. He prayed for return of that peace, the statement The shah offered to leave his ac-

commodations if it would help free the hostages, but his doctors warned that any move could be fatal

Repeated requests for interviews have been turned down on grounds that the shah is too ill. "The family at this point wants to remain in seclusion," a spokeswoman said on one

When asked why the shah was able to entertain visitors such as former Secretary of State Henry Kissinger and singer Frank Sinatra, one member of the shah's contingent said: 'That's different. They were close personal friends.

The shah flew to New York Oct. 22 from his exile in Mexico. Two days later, he underwent gallbladder surgery that confirmed the presence of cancer in his lymph system. Two days later, the shah celebrated his 60th birthday with calls from the heads of state of Morocco, Jordan, Spain, Egypt, Mexico, Monaco and the Netherlands, as well as the Nixons, the Kissingers and members of the Rock-

Nowadays, according to many sources, the shah eats regular hospi tal food, although still on a bland diet. He watches television — old movies to pass the time and news broadcasts to follow the events in Iran.

chairman ITT to have new board

NEW YORK (AP) - Rand V. Araskog, who emerged victorious in a boardroom power struggle last summer, will replace Harold S. Geneen as chairman of International Telephone & Telegraph Corp. at the end of this

Geneen, 69, resigned from the post

Araskog, 48, became president of the giant communications concern in July, replacing Lyman C. Hamilton Jr. Hamilton was deposed after 28 months on the job after Geneen reportedly became dissatisfied with Hamilton's stewardship of the firm.

Geneen, who ran the company for 20 years, said Wednesday he was pleased with Araskog's performance in four months as president.

"I have tremendous confidence in the way Rand Araskog is running the company and for its future under his direction," Geneen said in a statement. "I-think it is time for him to assume the added responsibilities of the chairmanship

Karen Gatlin

GREENWOOD - Services for Karen Gatlin, 34, of Greenwood will be at 10:30 a.m. Friday in the Franklin-Bartley Funeral Home chapel in Lubbock with the Rev. Everett Ward, minister of the Calvary Baptist Church of Artesia, N.M., officiating. Burial will be in Peaceful Gardens Memorial Park in Lubbock.

Mrs. Gatlin was killed in an automobile accident near Lamesa

She had been a resident of the Greenwood area five years. A member of the First Baptist Church of Greenwood, she belonged to the Greenwood Boosters Club and Greenwood PTA. She was graduated from Lubbock High School in 1963.

Survivors include her husband, Tommy Gatlin; two sons, Tommy Glenn Gatlin and Matthew Wade Gatlin, both of the home; three daughters, Vickie DeGwen Lester of Amarillo, Charolotte Faye Gatlin and Judy Suzanne Gatlin, both of the home; her parents, Mr. and Mrs. Walter A. Goodgion of Lubbock; three brothers, Richard Alan Goodgion, Randall Kent Goodgion and Kevin Walt Goodgion, all of Lubbock; and a sister, Judith Ann Waller of Lamesa.

Bernard L. Stark

JACKSONVILLE, Fla. - Military services for Bernard Lee Stark, 51, of Jacksonville, Fla., father of Debra Ann McLucas of Midland, were to be at 11 a.m. today in the Hardage-Krauss Funeral Home's Blanding Chapel here. The body will be cre-

Stark died Monday at his home. He was born on Sept. 17, 1928, in Neodesha, Kan. He was a retired chief petty officer of the U.S. Navy. Other survivors include his wife, two daughters, a sister, five brothers

Bessie A. Gatlin

GREENWOOD - Services for Mrs. J.H. (Bessie Anne Rivers) Gatlin, 68, of Greenwood will be at 10:30 a.m. Friday in Franklin-Bartley Funeral Home chapel in Lubbock with the Rev. Everett Ward, pastor of Calvary Baptist Church of Artesia, N.M., officiating. Graveside services will be at 3: 30 p.m. Friday in Turkey Cemetery in Turkey with the Rev. Melvin Clinton, pastor of the First Baptist Church of Turkey, officiating.

Mrs. Gatlin died in an automobile accident near Lamesa Wednesday. A longtime resident of Turkey, she had lived in the Greenwood area for the past two years. She was a mem-

ber of the Baptist Church. Survivors include five sons, Leon Gatlin of Canutillo, Tommy Gatlin of Greenwood, Jimmy Gatlin and Dicky Gatlin, both of Midland, and Howard Gatlin of Abilene; three daughters, Peggy Ellison of Lamesa, Christine Mansell of Midland and Karen Sorrel of Stanton; a sister, Velma Mitchell of Arkansas; 28 grandchildren and 18 great-grandchildren.

Henry Miller

BIG SPRING - Services for Henry Miller, 92, were Wednesday at 2 p.m. in Nalley-Pickle Funeral Home Rosewood Chapel with the Rev. Billy Hendrix officiating. Burial was in Trinity Memorial Park.

Miller died Monday in a Big Spring nursing home.

He was born July 4, 1887, in Erath County. He was married to Addie Trindol July 11, 1905, in Erath County. He moved to Big Spring in 1929 from Ranger. He was an oil field worker most of his life. He was a Baptist. Mrs. Miller died Sept. 25, 1976.

Survivors include a daughter, Mary B. Walker of Big Spring, and two

Nancy Haymes

LUBBOCK - Services for Mrs. J.O. (Nancy Caroline) Haymes, 88, of Lubbock, mother of Nancy Jo Thompson of Big Spring, were to be at 4 p.m. today in the First United Methodist Church with Dr. Sam Nader, pastor, officiating. He was to be assisted by the Rev. J. Waid Griffin, associate pastor. Burial was to be in Resthaven Memorial Park directed by Rix Funeral Directors.

Mrs. Haymes died Monday at her home after a long illness.

The Tye native had been a Lubbock resident since 1957. She was married Sept. 10, 1913, in Tye to the Rev. J.O. Haymes, who was pastor of the First United Methodist Church from 1930 to

Mrs. Haymes was a member of the Builders' Class, Women's Society of Christian Service and the First United Methodist Church.

Other survivors include her husband, a son, two sisters, four grandchildren and three great-grandchil-

The family suggests memorials be made to a favorite charity or the Kings Manor Home in Hereford.

Estaban Flores

McCAMEY - Estaban Flores, 78, of McCamey died Wednesday in a Crane nursing home.

Services will be at 10 a.m. Friday in Sacred Heart Catholic Church in McCamey directed by Dennis Gregg Funeral Home. Burial will be in Resthaven Cemetery

Flores was born July 1, 1901, in Kennedy. He was a retired general contractor. He was a Catholic.

Survivors include a sister, Seria Zarate of McCamey.

A.L. Richardson

ABILENE - Graveside services for Aervel L. Richardson, 69, father of Carolee Claudill of Big Spring, were at 3 p.m. Wednesday in Cedar Hill Cemetery here directed by Tanner-Aulds Funeral Home of Iowa Park.

The Rev. Ken Cole officiated.
Richardson died Monday in a Wichita Falls hospital.

He was born Feb. 9, 1910, in Bonham. He moved to Anson with his parents, the late Mr. and Mrs. A.O. "Alvin" Richardson, in 1922. He moved to Abilene with his parents in 1925. He graduated from Abilene High School in 1929. He attended Hardin-Simmons University. In 1947 he went to work for Kraft Food Co. and retired 27 years later in Wichita

He was married to Anna Mae Craft April 3, in 1966, in Iowa Park. He was a Mason. He was a member of the First Baptist Church of Abilene.

Other survivors include his wife, a stepdaughter, a sister, two granddaughers and three step-grandchil-

M. Jennings Sr.

TULIA - Services for Monroe Jennings Sr., 59, of Tulia, father of Charles Jennings and Ethel Shaw, both of Midland, were to be at 2 p.m. today in Jackson Chapel with the Rev. Henry Jackson, pastor, officiating. Burial was to be in Rose Hill Cemetery, directed by Wallace Funeral Home.

Jennings died Monday in an Amarillo hospital following an ill-

He was born Nov. 10, 1920, in Groesbeck and was married to Bernice Willis in 1941 in Vernon. He moved to Tulia in 1944. He was a Baptist. He was a retired worker for a grain elevator company.

Other survivors include his wife; a daughter, four sons, and 21 grandchil-

Israeli defense minister tries to defuse rising tensions

TEL AVIV, Israel (AP) - In an apparent attempt to defuse rising tensions in the occupied Arab territories, Defense Minister Ezer Weizman today abolished the senior army post for the area and took responsibil-

ity for contacts with Palestinian leaders, Israel Radio reported. The move came in the wake of an expulsion order against Nablus Mayor Bassam Shakaa after the mayor privately told Maj. Gen. Danni Matt, the top officer in charge of the West Bank, that he understood why

Arab terrorists attack Israel. In a mass protest over the expulsion order, the mayors in 25 towns in the

West Bank of the Jordan River and Gaza Strip and all their city councilmen resigned Wednesday. Weizman was reported unhappy with Matt's conduct. His order abolishing Matt's position appeared to be a way of firing the general, although

the radio said the move had been under consideration for some time. A spokesman for Weizman denied that any personnel changes had taken place but said a realignment had been planned in preparation for the establishment of Palestinian autonomy in the West Bank and Gaza.

"It has nothing to do with Matt," the spokesman said. Matt has been accused in the Israeli press of trapping Shakaa by repeatedly asking the mayor his opinion of last year's terrorist attack on a coastal road, in which 34 Israelis died. An unidentified officer then leaked the

conversation between Matta and Shakaa to the news media. A statement broadcast by Israel Radio said Matt's responsibilities will

be assumed by Maj. Gen. Avraham Tamir, a close Weizman aide. Meanwhile, Shakaa was being held in a top security prison near Tel Aviv, pending a Supreme Court hearing on his expulsion.

Resigned Nablus councilman Selim Abdul Haak said the expulsion would strengthen the resolve of Palestinians to boycott a plan for Palestinian autonomy now being negotiated by Egypt and Israel.

"The Israelis can expel Shakaa bodily but his policies will be stronger and stronger all the time," Haak said in a radio interview.

Israel's West Bank military government refused to accept some of the resignations. Gaza Mayor Rashid al-Shawa was informed his decision to quit was not approved, but Shawa said he was leaving anyway.

and seven grandchildren. Egyptians hold flag-raising rites on land of Ten Commandments

MOUNT SINAI, Egypt (AP) — Egyptian soldiers raised their flag today near this venerated desert mountain where Moses is said to have received the Ten Commandments as Israel made its fourth-stage withdrawal from territory captured in the 1967 Mi-

The flag-raising ceremony, attended by about 200 Egyptian and Israeli soldiers, passing tourists and Bedouin Arabs, clears the way for President Anwar Sadat to celebrate the second anniversary of his peace initiative. "Here the Ten Commandments came down with

the moral injunction which is today applied to relations between people," said Israeli Gen. Dov Sion, referring to the Biblical caveat to "love thy The Israeli government of Prime Minister Menachem Begin agreed to turn over the 600-square-mile

area in the south central Sinai two months early at the request of Sadat, who has placed great symbolic importance in its return. The Egyptian leader has long said he wanted to build a three-in-one house of worship for Jews, Christians and Moslems at Mount Sinai, although some officials said he has altered these plans in

deference to 30 solitude-seeking monks at the St. Catherine's Monastery, built 1,400 years ago. At a military ceremony at an Israeli-built airfield 12 miles from the mountain, the Israeli flag was lowered and an Egyptian flag raised in a ceremony that has now been repeated four times as Israel carries out its phased withdrawal from the desert

Bigger, bolder C. of C.

Most chambers of commerce across the land are becoming bigger and bolder not only in their support of business, but in their views and activities in the area of overall community betterment through social, political and legislative changes.

And the Midland Chamber of Commerce, which was organized as such more than a half a century ago, certainly is no exception. It has broadened its overall operation and concepts in recent years as it has reached out to serve the entire community. And the trend in this direction now is being stepped up to meet ever-changing conditions.

But in order to accomplish its expanded program of work, the chamber must have additional revenue through increased membership.

This is why the Midland Chamber of Commerce now is in the midst of a 10-day membership campaign, designed to produce \$30,000 annually in new money from additional members.

Considering Midland's tremendous economic and population growth in the last few years, this goal certainly is realistic and attainable.

Six teams of eight persons each, working under the leadership of Chairman Mike Bradford, are engaged in the new member solicitation. Final reports will be made on

"Our Progress Is Your Future," he chamber's new slogan, is the theme of the membership campaign.

The Midland Chamber of Commerce with its expanded areas of service, merits the all-out support and cooperation of all citizens of the Tall City - individual and corporate.

Through the years, the Midland Chamber has taken the lead in every worthwhile community project, serving as the city's nerve center. It would, of course, be impossible to list all of the chamber's hundreds of achievements during its existence, but needless to say, the Tall City would not have many of the fine facilities and services residents now enjoy were it not for the chamber of commerce and its far-reaching efforts. The Objec--tives for Midland project of several years ago stemmed from chamber of commerce leadership, just

AND ROBERT NOVAK

WASHINGTON - Senate troubles

for SALT II persist thanks to Presi-

dent Carter's failure to link the trea-

ty's ratification with survival of the

Western alliance, an ill-conceived ef-

fort that collapsed at last month's

Headlines proclaimed that assem-

bled members of the alliance's par-

liaments had called for early Senate

ratification of the arms control treaty

(SALT II). But behind the scenes,

there were bitter recriminations

among U.S. delegates, and attempts

by embarrassed Europeans to tone

down the unrestrained language

drafted for them by the Americans.

Those efforts belied the Carter ad-

ministration's claim of Western Eu-

rope pleading for salvation through

SALT. Rather, it was American

SALT-sellers in Ottawa unwittingly

buttressing the Soviet campaign

against nuclear modernization in

order to label Senate rejection of the

treaty as subversive to NATO's fu-

This NATO gambit bears family

resemblance to Carter's successful

strategy for the Panama Canal Trea-

ty. Instead of arguing the merits of

giving away the canal, the president's

men warned that rejection by the

Senate would reap havoc throughout

the Western Hemisphere and lined up

Latin American statesmen to agree.

Lloyd Cutler, Carter's chief SALT-.

seller, pursued the same strategy in

tying an umbilical cord between SALT II and NATO.

But European political leaders proved less malleable than the Latin

Americans. NATO parliamentarians

NATO political assembly in Ottawa.

as has the new Objectives program which was launched a few weeks ago.

Thinking back over the last two or three years, here are a few major projects completed, under way or in final planning or engineering stages, in which the Midland Chamber of Commerce has had a leading role: Midland Regional Airport expansion and improvement program; conventionexhibits center; Midland Memorial Hospital expansion; expanded commercial airline service; public transportation system, leadership training, loop road; housing, parking, conventions, expanded shopping facilities, and many

The chamber also is responsible for creating the highly successful Midland Industrial Foundation and its fine Industrial Park. During the last couple of years, the Midland Chamber has worked closely with Texas Instruments in its industrial expansion program here, and with PPG Industries and Michelin Tire Co., which are scheduled to break ground early next year for new industrial plants.

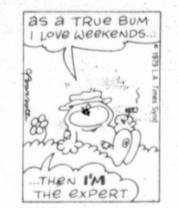

But these are only a few of the many and varied services and activities provided by the chamber's competent staff and its scores of volunteer workers.

The Midland Chamber of Commerce today is more of an economic force than ever before, while at the same time reaching more business firms, individuals and groups than at any time in its 55-year history.

Considering all this, it is evident that the power of the community exists in its Midland Chamber of Commerce.

If you are not already a member, please think about it.

Why and how it happened in Iran

By JACK ANDERSON

WASHINGTON - The loss of Iran may turn out to be the most grievous blow to the United States since the Vietnamese War. This has opened the crucial oil fields of the Persian Gulf to a possible takeover by hostile forces.

For two decades, the United States had built up Iran to be the protector of American interests in the Persian Gulf. Then overnight, the government fell into anti-American hands. Suddenly, America's overseas oil supply has become dangerously vulnerable.

From secret documents, here's the story of the U.S. failure in Iran. It goes back to the post-World War II

In 1950 Mohammed Mossadegh, age 70, the eccentric leader of a splinter party in the Iranian National Assembly, began to inflame the nation with his demands for nationalizing oil.

To Western eyes, Mossadegh was sick, ugly, hairless and banana-nosed factors which, given the Iranians' superior esthetics in such matters, gave him an irresistible charisma. Three years of incredible theater, grisly murders, baroque impostures, fantastic chaos and incomparable demagoguery followed, as the pajama-clad "Mossy" roused the masses with impassioned spiels, weeps and blubbers.

Then he would collapse in a great heap and would be carried about, unconscious, through admiring hordes driven to run amuck by the sight of his inert body. The drama escalated magnificently, with the shah run out of the country. For three years, Iran whirled in intermittent

The miserliness of the oil companies, the growing appetites of the Arabs for the oil money flowing away under their feet, and the penchant of the State Department for taking the path of least resistance opened the

tag and supporter of SALT, was asked

to introduce the resolution. After

some hesitation, Coterier agreed. His

initial caution might have stemmed

from its extraordinary language. Be-

sides contending that U.S. failure to

ratify would be "seriously disrup-

tive" to NATO, it specified that would

be true "particularly with regard to

the forthcoming decision on the mod-

ernization of NATO's theater nuclear

forces." Europeans were amazed at

U.S. officials seeming to buttress the

Soviet campaign against NATO's nu-

With the U.S. delegation still in

Washington, the assembly's military

committee toned down the American

language. The warning against un-

dercutting nuclear force moderniza-

tion was stricken. So was a clause

contending that linkage of "the cur-

rent situation in Cuba to SALT ratifi-

cation would unnecessarily jeopar-

dize alliance security interests." The

committee also added what the

Javits-Biden resolution omitted: "re-

specting...the sovereign right" of the

U.S. to decide on SALT and noting

requirements for "credible deter-

rence, stable nuclear balance and fu-

arrived in Ottawa, anti-SALT sena-

tors were outraged to discover the

clear modernization.

door to a fatal precedent.

The decision on what to do about Mossadegh's upheaval was resolved. not by seeking a new and just "modus vivendi" with awakening nationalism but by first destroying Iran's economy through a worldwide oil industry boycott of its exports and then by deposing Mossadegh through a CIA

The CIA installed the young shah on the Peacock Throne and permitted the oil companies to resume their exploitation of Iran. But the ghost of Mossadegh was not completely exorcised from the land.

His ringing protests could not be stilled. And the spirit of Mossadegh remained as a growing undercurrent, bubbling beneath the surface, stirring the volatile Iranian people - an undercurrent that was bound to burs through the dams that the shah had created to wall it in, sweeping him out of power.

This undercurrent went undetected by our intelligence agencies. In August 1978, on the eve of the shah's overthrow, the CIA compiled a 23page intelligence assessment entitled Iran After the Shah." But despite its prophetic title, this gave no forewarning of what was about to happen. On the contrary, it stated: "Iran is not in a revolutionary, or even in a pre-revolutionary situation.

This caused President Carter to proclaim that "Iran, because of the great leadership of the shah, is an island of stability in one of the more troubled areas of the world.

Carter used the tremendous leverage of the United States, meanwhile, to persuade the shah to relax his grip on the country, to ease press censorship and to release political prisoners. The shah later complained, no doubt correctly, that these moves convinced his enemies that he was weakening.

He started to crack down, and the

for lack of consultation.

certain trumpet.

bloodbath lasted two days. This prompted a telephone appeal from Carter to the shah to stop the bloodshed. A cable from the Iranian embassy in Washington offered different advice, which was attributed to ex-Secretary of State Henry Kissinger. He was quoted as urging, "I believe that you have to get the prisoners you released and put them in jail again. Your work will be easier if you put them in jail." Kissinger told us that

e had not been quoted accurately. In any event, it was too late. The spirit of Mossadegh was about to burst loose. It was already shaking the Peacock Throne. The alarmed shah turned to the United States for support; he called upon American ambassador William Sullivan for ad-

eign policy strategist George Ball to Iran. Ball concluded that the only way to prevent a total collapse of the government was to turn it over to civilian control, with the shah as no more than a figurehead.

Carter disregarded this advice. At the urging of his military chiefs, he ordered a small naval task force, led by the nuclear carrier, Constellation, into the Persian Gulf. Then he abruptly changed his mind and canceled the order. The task force wound up in Singapore

Thus the president offered the shah no advice or support. "This is something in the hands of the people of Iran," he said-blandly. So the people went on a rampage and trampled down the shah's government.

They turned for leadership to Ayatollah Ruhollah Khomeini, an ancient but rigid Moslem, who embodied the reckless in a timid age, bloody in a squeamish age, puritanical in a hedonistic age, intolerant in an ecumenical age - in short a fanatical man in a frivolous age.

lenge to the West not only because of his Draconian approach but his spiritual belief. He would sacrifice oil wealth, safety, convenience, pleasure, life itself to pursue his beliefs. In so doing he puts chips on the table which his Western adversaries have thus far been unwilling to call.

those who can obey their con-sciences and still have fun."

IT HAPPENED HERE

30 YEARS AGO (Nov. 15, 1949):

Jno. P. Butler, chairman of the Chamber of Commerce Highway Committee, Monday night recommended to directors of the organization that steps be taken to provide a road connecting the Pegasus field of South Midland, and Northwest Upton counties with the Midland-Rankin Highway.

Members of the Sunshine Makers 4-H Club discussed plans for the county 4-H Harvest Banquet Saturday night at a meeting Monday in the Assembly Room of the Midland County Courthouse.

The Community Chest finance campaign was \$6,999 short of its \$32,-000 goal, as returns announced by Chairman Bert Ryan totaled \$25,001.

Basin areas gain wildcat operations

C&K Petroleum, Inc., of Midland No. 1-28 Read is a new 9,000-foot wildcat in Howard County, three miles northwest of Coahoma. It is 467 feet from north and 2,173

feet from east lines of section 28, block 30, T-1-N, T&P survey. Site is one and one-eighth miles

north of the Coahoma (Mississippian) field discovery and 7/8 mile southeast of an 8,850-foot dry hole.

MARTIN TEST

Cotton Petroleum Corp., operating from Midland, staked a 9,000-foot wildcat six miles northeast of Stanton in Martin County.
Scheduled as No. 1-A Graves, it is

660 feet from north and 1,980 feet from east lines of section 10, block 35, T-1-S, T&P survey.

The location is 1/2 mile south of Spraberry Trend Area production.

CROCKETT WILDCATS

International Oil & Gas Corp. of Midland No. 1 Fort Lancaster is an 8,800-foot wildcat in Crockett County. 29 miles west of Ozona.

The site is 660 feet from south and east lines of secton 1, R. Dickerson survey and one and one-eighth miles southwest of Devonian gas production in the Ingham field. It also is 2.25 miles west of the pool's Canyon 6400

International Oil & Gas also will drill No. 1-16-33 as an 8,900-foot wildcat in Crockett County, 19 miles west

It is 1,311 feet from north and 1,980 feet from east lines of section 16, block 33, University Lands survey. Ground elevation is 2,350 feet.

The location is 5/8 mile southwest of the Howards Creek (Canyon) field and 1/2 mile southwest of the pool's Pennsylvanian pay.

SCHLEICHER AREA

J. Cleo Thompson of Dallas No. 3-A-D P. L. Childress is a 9,000-foot wildcat 14 miles northeast of Ozona in Schleicher County

Drillsite is 1,270 feet from north and 1.420 feet from east lines of section 11, block EF, GC&SF survey. It is five miles south of Ellenburger production in the Ozona, Northeast field, four miles west of the Turkey Roos (Ellenburger gas) field and 1/2 mile west of Canyon production in the Ozona, Northeast area.

STONEWALL EXPLORER

H. W. Herndon Jr. of Fort Worth spotted No. 1-D-141 Thomas B. Rutherford as a 6250-foot wildcat seven miles south of Aspermont in Stonewall County

It is 2,173 feet from south and 1,980 feet from west lines of section 141, block 1, H&TC survey and 3/4 mile northeast of the depleted Tompkins, East (multipay Strawn) field and 1.25 miles south of the Frankirk, East (Palo Pinto, Ellenburger and Canyon sand) pool.

CONCHO, MENARD TESTS

C. F. Braun & Co. of Oklahoma City announced locations for four wildcats in Concho County and one in Menard

Each will be drilled to 2,500 feet. No. 1-A Baptist Foundation is four miles southwest of Melvin and 1,320 feet from north and west lines of Paul Anderson survey No. 1770. It is 7/8 mile west of a 1,760-foot dry hole.

Braun No. 1-C Baptist Founcation is six miles southwest of Melvin, two and three-eighths miles northwest of an 1,808-foot dry hole and 1,320 feet from north and west lines of Carl W. Dann survey No. 1404, abstract 113.

The No. 1-B Baptist Foundation is 2.5 miles southwest of Melvin, 1/2, mile northast of a 1,770-foot failure and 1,320 feet from north and east lines of R. W. Hoskins survey No. 20, abstract 1636.

Braun No. 2-B Baptist Foundation is four miles southwest of Melvin, 1.320 feet from north and west lines of Moritz Creydt survey No. 1402, abstract 98. It is 1/4 mile southeast of a 1,650-foot failure.

The Menard County wildcat is Braun No. 1-D Baptist Foundation, 10 miles southwest of Melvin and five miles northeast of the Bar-F (Cross

The site is 1,320 feet from south and west lines of J. F. Yoho survey No.

EDWARDS TESTERS

William Perlman of Houston spotted a pair of 8,500-foot wildcats in Edwards County, 27 miles northwest of Rocksprings.

The No. 1-2 Ada Cauthorn is 1,320 feet from north and west lines of section 2, CCSD&RGNG survey, abstract 2438. It is three miles west of 585-foot oil production in the Holman Ranch field and 2,600 feet south of a 7,405-foot depleted gas well. Ground elevation is 2,268 feet.

Perlman No. 2-8 Ada Cauthorn is 1,320 feet from north and 1,320 feet from east lines of section 8, GC&SF survey, abstract 2724 and three wiles west of the Holman Ranch (585) pool and 3,750 feet southwest of the depleted gas well. Elevation is 2,259 feet.

RUNNELS PROJECTS Hamco Exploration & Development Co. of Dallas No. 1 Gaston Ernst has

been staked as a 4,700-foot wildcat in Runnels County, three miles west of

It is 1,850 feet from south and 1,000 feet from east lines of section 73, block 63, H&TC survey and 2,310 feet southwest of the one-well HFB (Goen) field and separated from it by a 4,953foot dry hole.

J.-B. Production Co. of Denton staked a 5,000-foot wildcat .25 miles south of Miles in Runnels County.

It is No. 1 South Miles City Unit, 1,869 feet from north and 164 feet from west lines of section 135, WCRR survey. Ground elevation is 1,774 feet.

The location is 1/2 mile north of the Uban (Miles oil) pool and separated from it by a 4,877-foot dry hole

NOLAN DISCOVERY

Texas Oil & Gas Corp. of Midland No. 1 Brooks has been completed as a Canyon sand oil discovery in Nolan County, four miles northwest of

The strike finaled for a daily pumping potential of 42 barrels of 39.7-gravity oil and three barrels of water, through perforations from 4,672 to 4,682 feet. The pay was acidized with 1,000 gallons and fractured with 15,000

Total depth is 6,530 feet and 4.5-inch casing is set on bottom. Plugged back depth is 5,500 feet.

The Canyon sand was topped at 4,670 feet on kelly bushing elevation of Other tops include the Wolfcamp

reef, 3,636 feet; Palo Pinto, 5,540 feet; Odom, 6,134 feet, and Caddo, 6,364 Location is 923 feet from north and

725 feet from west lines of section 62, blockX, T&P survey.

The well opens Canyon sand production in the EVB which produces from the Palo Pinto.

UPTON TEST

Texas Pacific Oil Co., Inc., of Midland filed application to drill its No. -B Damron as a location south offset to the lone producer in the Heluma, Southeast (Devonian) field of Upton

The discovery well is the same firm's No. 1-A Damron, completed for 183 barrels of 43.4-gravity oil and 35 barrels of water, through a 1/4-inch > choke and perforations from 8,812

Wellsite is 944 feet from south and 2,310 feet from west lines of section 4, block A, L. Brigance survey, 12 miles northwest of McCamey Scheduled depth is 9,500 feet.

Texas Pacific Oil Co. Inc. also will drill a location northeast offset to the lone producer of the McKay Creek (Caballos) field of Terrell County. Operating as the No. 1-B Ellen A.

Word, the site offsets the same firm's No. 1-A Ellen A. Word. Location is 1,320 feet from south

and 850 feet from west lines of section 34, block R3, GC&SF survey, 33 miles northeast of Sanderson. Contract depth is 6,500 feet, with

ground elevation, 2,959 feet. **** Mobil Oil Corp. of Houston will drill the No. 3 Brown-McNinch Unit 10 miles southeast of the Wolfcamp gas opener and three and three-quarters

mile southeast of the Wolfcamp 9,200 opener in the Brown-Bassett field Terrell County, 29 miles northeast of Location is 1,483 feet from north and 1,367 feet from east lines of section 341/2, block 161, GC&SF survey.

Contract depth is 6,200 feet. . TOM GREEN PROJECT

Tucker Drilling Co. Inc. of San Angelo will drill a 1/2-mile east stepout to the re-opener and lone producer of the Mt. Susan (Strawn sand 5350) field of Tom Green County, one mile southeast of Christoval.

Wellsite is 1,100 feet from north and 2,200 feet from east lines of J. Zerbach surven No. 1827. Scheduled depth is 5,700 feet.

WINKLER WELLS FINAL

MR Oil Co. of Monahans filed potential test on two wells in the War-Wink (Delaware 5085) field of Winkler County, seven miles northeast of

The No. 1-A University finaled to pump 26.0 barrels of 39-gravity oil and 24 barrels of water in 24 hours, through perforations from 5,094 to 5,098 feet, after an acid treatment of 500 gallons and fracture job of 4,000

Total depth is 5,140 feet, with 4.5-

inch casing set at that depth. Location is three-quarters mile northwest of production, 467 feet from south and 2,173 feet from west lines of section 44, block 1, University Land

The same firm's No. 1-Q University completed three-eighths mile north and slightly east of the discovery well

Operator reported a 24-hour pumping potential of 10.4 barrels of 39-gravity oil and 102 barrels of water, through perforations between 5,099 to 5,107 feet. The pay was acidized with

Total depth was reached at 5,150 feet, where 4.5-inch casing is set. Plugged back depth is 5,123 feet.

Location is 467 feet from south and 660 feet from east lines of section 44. block 21, University Lands survey.

DRY HOLES

ANDREWS COUNTY

DOE announces charges against four oil comanies

WASHINGTON (AP) - The Department of Energy says four oil companies may have committed price-control violations totalling more than \$145 million.

And three consumer groups - citing industry accounting methods contend oil company profits actually are at least 33 percent higher than

On the possible violations, the DOE's Office of Special Counsel said Wednesday that "none of the actions involve any allegations of willful wrongdoing.

Some of the alleged violations may not have led to overcharges for consumers yet, but could result in overcharges if uncorrected, officials

Search rate unequaled

LONGVIEW, Texas (AP) - Texas Railroad Commissioner Jim Nugent says the search for new domestic oil and gas is going on at a rate unequaled in the last 20 years.

Longview told a Longview civic club Tuesday that most of the American public is aware that "efforts to find and develop oil and gas have effectively doubled in the last five to eight years.

There are twice as many rigs in the field today as in 1971," he said. "In 1971, 27,000 wells were drilled nationwide; this year the number will push 50,000, and spending for exploration and development will be more than four times as great."

Nugent said the upswing in drilling activity is due mainly to higher prices.

"Increased prices not only act to spur drilling, but also lengthen the life of old wells," he said.

Westbrook, td 4,050 feet, ran logs, preparing to rig up and drill out cement.

The companies — Gulf Oil, Sun Oil Co., Marathon and Amerada Hess alone. will have opportunities to comment

on the allegations and to challenge the department's eventual decisions. The latest notices raise the total of suspected violations to almost \$7 billion, the department said. Most of those alleged violations have been

disputed by the oil companies. Dorothy Brown, spokeswoman for Gulf Oil in Pittsburgh, said the charges constitute "an attempt by the DOE to make old news new," noting the alleged violations stem from "differences of opinion" over interpretation of DOE's complicated price control regulations.'

The department issued a proposed remedial order that would require Gulf to recalculate costs recovered through its retail sales of gasoline from August, 1973, through December, 1976. The proposed order said a DOE audit showed Gulf overstated those costs by \$710,929 in one month

PAGE 1D

Ms. Brown said the alleged \$710,929 remedial order was from a "test month" and that "both matters are in litigation."

The department also alleged other possible violations totaling \$1.7 million by Gulf, \$99 million by Amerada Hess, \$26.6 million by Sun Oil Co. and \$17.4 million by Marathan.

In Philadelphia, Sun Oil denied allegations it may have committed price control violations. The company said the dispute involved a surcharge imposed by a supplier and contends that surcharge was a separate ex-pense that could be passed on to consumers. Officials said the company plans to challenge DOE on the

ment Corp. No. 1 Llano- 900. Urban aid bill may be passed

WASHINGTON (AP) - President Carter's proposed multi-billion dollar aid program for "distressed" urban and rural areas appears well on its way toward congressional passage.

The proposal - a key part of Carter's urban

package - won House approval Wednesday as part of an \$8.3 billion, two-year authorization for public works and economic development projects. The aid to "distressed" areas closely resembles the national development bank proposed by Carter last year, although a separate bank would not be

created under this year's bill.

Like the bank proposal, the House-approved aid would consist of grants, loans and loan guarantees to help firms that locate, expand or remain in decaying urban neighborhoods and depressed rural communiblock 5, H&TC, 7 south-By a 301-99 vote, the House sent the overall authorization bill to a conference committee where differences with a Senate bill will be reconciled.

The Senate also approved special assistance to 'distressed" areas, although the two chambers differ on details and on other issues included in the legislation. The House refused to delete a proposal for a \$2 billion standby local public works program that

would be triggered if unemployment nationally tops 6.5 percent for three months. The Senate version of the bill does not include the standby public works program, which also is opposed by the Carter administration.

Backers of the standby bublic works program said it was the most effective way to combat rising unemployment quickly. But critics argued that the jobs would not be filled in time to counteract a recession and could end up worsening inflation. The House bill also would liberalize eligibility requirements for traditional economic development

programs, allowing about 90 percent of the country to qualify. The Senate bill would make about 68 percent of the country eligible. Currently, about 85 percent of the country can qualify for assistance. The House and Senate also differ on how much

should be spent on aid to "distressed" areas.

Officials fund a way to put energy rhetoric into practice

WASHINGTON (AP) - In a Massachusetts town of 38,000 people, federal officials think they have found a way to put years of rhetoric about energy conservation into practice. By winter's end, the town could see its fuel oil use cut by 50,000 barrels.

Federal officials hope to try the idea across the Devised by the federal volunteer agency ACTION,

the project began Oct. 24 in Fitchburg, 47 miles northwest of Boston.

By mobilizing the community to partially weatherproof its homes, Fitchburg Action to Conserve Energy (FACE) hopes to save 2.1 million gallons of oll and reduce fuel bills by \$2 million. Fitchburg's heating oil, at 95 cents a gallon, is among the highest

Today, ACTION Director Sam Brown and Massachusetts Lt. Gov. Thomas P. O'Neill will tour the

THEIR VISIT COMES a day after President Carter ended oil imports from Iran, where some 60 Americans are held hostage. Faced with the loss of 700,000 barrels of Iranian oil, or 4 percent of U.S. consumption, Carter appealed to the nation "to redouble efforts to curtail the suse of petroleum

"To cut our energy use by the 4 percent Iran gives us," Brown said in an interview, "takes just the simplest use of existing resources, people and ingenuity, which Fitchburg is proving can be done."

The idea's author, Don Green of ACTION, said, "People all over are aching for a way to help out, but they hear talk about millions of barrels of oil and think cleaning the back of their refrigerators won't help. We thought if we could get one town to work together, we could show that all those small efforts make a difference."

Tamara Stanton, ACTION's Fitchburg coordinator, described FACE:

The local antipoverty agency had \$175,000 from the Energy Department to pay federal job trainees to do total weatherproofing, but it lacked the workers. ACTION convinced the Energy Department to allow volunteers to do partial weatherproofing.

IT ALSO CONVINCED the Department of Housing and Urban Development to give the city \$95,000 for materials for moderate-income families, so a family of four with an income of \$14,000 can get free caulking, weather-stripping and insulation. Half the

residents qualify. Volunteers fanned out to explain the project from 10 FACE offices, which were also used as schools to train residents in weatherproofing.

FACE leaflets were inserted in newspapers and in gas and electric bills. Last Tuesday, 7,500 leaflets were carried home by school children.

One hundred volunteers, including students, retired people and youths from job training programs, have been enlisted to do the weatherproofing for those unable to do it themselves.

Scoreboards set up around town show how many homes have been weatherproofed and how many barrels of oil have been saved.

SCHOOLS ARE COMPETING to see which student

body can enlist the most homes. FACE hopes to partially weatherproof 7,700 of Fitchburg's 14,000 residences. Already. 750 have

Peking residents given choice in major election

PEKING (AP) - More than 300,000 Peking residents voted today in the first major election in China in 25 years in which voters were given a choice between Communist and non-Communist candi-

The first general election in 1954 was generally regarded as free and contested, but the most recent one, in 1966, gave the voters no choice. The Communist Party put up one candidate for each seat at that time, giving the voter the option only of approving or

disapproving. Today, Communists accounted for about 60 percent of the candidates. Non-Communists included eight overseas Chinese, one a native of Taiwan, and members of minority nationalities, including Mongolians and the Hui. There was also room on the

ballot for write-in candidates. The voting was to fill 350 seats in a Peking district congress. It was the first of several such elections to be held in cities across the country in the next few

The reform-minded Fifth National People's Congress, the national parliament, voted in July to permit free elections at the county and district

Under the plan, popularly elected district congresses will choose deputies to provincial and big city congresses. Those legislators will then name members of the new national people's congress.

las and Shelley Winters.

been done for a saving of 187,500 gallons of oil.

home, FACE says it can cut a home heating bill 25 to mation. 30 percent, or about \$300. Among them: -Wrapping a hot water heater in insulation.

-Caulking windows and weather-stripping doors. -- Dusting refrigerator coils. -Taping cracks in heating ducts and placing aluminum foir behind radiators to reflect heat into

Through measures costing between \$15 and \$30 a

Ms. Stanton said applicants have been doubling daily, reaching 300 Friday. The project ends Dec.

SHE HAS RECEIVED VESITS or calls from eight Massachusetts towns. Wayne County, Mich., is working on a similar project. The District of Colum-a in the clink at the Santa bia is interested in duplica'ding the project in public Clara County jail, where

No other city has ever done this, mobilized its community like this," said. Ms. Stanton. "Each town that does it will have to analyze its resources, its people and its needs the way Fitchburg did and adapt this program to its own situation.

"At long last," said B rown, "one community is showing the rest of the country what can be done when people organize the rnselves around the issue of

Khomeini's front man longtime fore of U.S.

PARIS (AP) - Foreign Minister Abolhassan Bani Sadr, the new front man of Ayatollah Ruhollah Khomeini's revolutionary regime, is a longtime foe

of U.S. influence in Iran. In the small inner circle of Iranian intellectuals that collected around the aged religious leader during his three-month e xile in Paris last winter, no one was more shadowy and withdrawn than the diminutive, mustachioed Baini Sadr.

He was the man with the sleepy voice reporters called for interviews with the avatollah before the explosion of the revolution in Iran made Khomeini a

Bani Sadr had none of the rhetorical flourish of Texas-educated Ibrahim Yazdi, who became deputy prime minister and foreign minister after the overthrow of the shah. Nor was he dashing and elegantly tailored like Sadegh Ghotbzadegh, who took control of the government media after the return to Iran. Bani Sadr did not like to talk politics. His favorite

subject was economics. He had been studying for his doctorate in economics at the Sorbonne for years and joked that if he completed his dissertation, he would ose his excuse for a French resident's visa.

Bani Sadr was born in western Iran in 1933. Like Yazdi and Ghotbzadegh, his contemporaries, he became a political activitist in the early 1950s, when nationalist Mohammed Mossadegh came to power as

The army with backing from the U.S. Central Intelligence Agency overthrew Mossadegh after he nationalized the Iranian oil industry and drove the shah from the country. Bani Sadr took his politics underground but did not abandon the fight against the monarchy. In 1963, he fled to France after being wounded in riots against the shah and spending four

He joined a community of Iranian rebels in France looking for ways to bring down the all-powerful, U.S.-armed shah. The crusade seemed hopeless. He published two books in which he portrayed Iran as a captive of foreigners, its riches pillaged by America, its oil mortgaged for the shah's grandiose development plans while the poor got poorer.

In 1977, he helped organize a committee for human rights in Irari, a grouping of exiled Iranian intellectuals ranging from Marxist to right-wing. Meanwhile, Ayatollah Khomeini was an exile in Iraq, languishing in semi-obscurity, his voice heard at home only on tape-recorded sermons smuggled into Iran. But Brani Sadr, a devout Moslem, was one of the first to see that he was a figure around whom a revolution could be built.

When the revolution triumphed last February, Bani Sadr was one of the chosen few aboard Khomeini's triumphal flight home. While Yazdi and Ghotbzadegh led the ayatollah before the TV lights. Bani Sadr quietly pushed his baggage wagon through a side entrance.

He refused a place in Prime Minister Mehdi Bazargan's cabinet. Instead, he became a member of the Revolutionary Council that wielded the real power, above the facade of the Bazargan govern-

Last væekend, following Bazargan's resignation, Bani Sacir emerged into the limelight as foreign minister and the regime's chief spokesman in its current crisis with the United States. Radio Tehran announced Monday that he would also be responsible for the ministries of finance and economic affairs.

NRC agrees with almost all of commission's suggestions

WASHINGTON (AP) - The Nuclear Regulatory Commission agrees with most of the recommendations made by the President's Commission on the Three Mile Island accident, but balks, at

proposals concerning its own role. The majority of the cies is bound to be essen-NRC commissioners optial and central, and govpose suggestions that the ernmental planning agency be replaced by a should reflect that assingle administrator responsible to the president, and that its role be reduced in future emer-

Four of the five commissioners oppose the single-administrator recommendation, NRC Chairman Moseph M. Hendrie said Tuesday in a letter to White House science adviser Frank Press.

Commissioner John Ahearne alone agreed with the presidential. panel's contention that a single administrator could make larger and faster improvements, Hendrie wrote.

On the issue of the NRC role in emergencies, the investigating commission concluded that the utility operating covery and public infor-

The presidential panel

In the pink means in the clink

SAN JOSE, Calif. (AP) - "In the pink" means two cells have been painted hot pink to test a theory that the color of a person's surroundings affects his behavior.

The new color scheme has had mixed results. said jail commander Lt. Paul Becker.

'When it's used pro perly, there's a difference," he said. "You take a guy who's hostile and leave him in the strip cell for 15 minutes and he won't be quite as hos-

"But after 20 minutes it has a reverse effect,' he said. "We left some guys in the holding cell for about three hours and they tore some of the paint off the walls.

'We didn't learn about the reverse effect until the second class," said Becker, who says he got the idea while attending a class on the relation of criminal behavior to body chemistry.

The color theory is being taught by Alexander Schauss, a one time corrections officer who now directs the Institute for Biosocial Research at City College in Tacoma, Wash.

Schauss says that evi dence from other studies shows that the color -Baker-Miller pink - af fects the human endocrine system and regu lates hormones so as to reduce strength and aggressive tendencies. He said positive results

have been obtained in a similar test in Seattle at the Navy brig. Becker said the use of color will not be limited

to pink. Reduce 'We are going to re-Interference

paint the holding cell blue or yellow," he said. 'Back east, a store which had a high incidence of theft painted its walls and counters yellow and the thefts dropped to one-fourth their former level. Blue also is a very healthy color

Becker thinks painting the cell, where suspects are held before questioning, may tend to make them more honest under interrogation.

'We're going to paint he third floor brown, Becker added. "Brown is a very masculine color and we hope it will cut down on homosexual incidents.

sessment." . Hendrie's letter said the NRC is acting on most of the presidential panel's other recommendations for improving nuclear safety regula-

tion, however. NRC Commissioner Victor Gilinsky, in his own letter to Press, criticized other aspects of the report submitted to President Carter last month by the investigating panel, which conof the accident near Harrisburg, Pa.

"In emphasizing the human failures, and thereby vindicating the, equipment," Gilinsky wrote, "the report does

have been designed to avoid this kind of trou-

Gilinsky also said the report "never comes to grips with the question of after the March 28 acciwhether an evacuation dent, but no general

Pennsylvania Gov. Richard Thornburgh advised small children and pregnant women to leave the area for a few days

Comanche Peak emergency procedures to be increased

GLEN ROSE, Texas (AP) - Emergency procedures at the Comanche Peak nuclear power plant will be increased following a six-month review, the Texas Utilities Co. has announced.

The changes, recommended by a design review committee following the Three Mile Island nuclear accident, will involve upgrading operator training and emergency preparedness and improving safety valves and controls at the \$1.7 billion facility.

L.F. Fikar, executive vice president of Texas Utilities Services, Inc.,

and a member of the review committee, said Tuesday that the 28 changes will not increase the cost of building the plant

The plant's design basically is sound but does not contain some of the safeguards necessary to prevent a nuclear accident similar to Three Mile Island, the 200-page report con-

However, it added, there is only a 'remote" chance that such an accident could occur at the Glen Rose plant, scheduled to be on line in 1981.

(Radio Shaek)

that the utility operating the Three Mile. Island plant — Metropolitan Edison — misunderstood early phases of the accident and rapidly lost its credibility as a source of information. Those circumstances resulted in the NRC's taking responsibility for accident results in the NRC's taking results in the NRC's

NEW YORK (AP) — The stock market managed a modest gain in volatile activity Wednesday as traders reacted to the financial confrontation between the United States and Iran. The Dow Jones average

of 30 industrials, down about 6 points at the outset and up 6 at its afternoon peak, finished with a 2.47 gain at 816.55.

New York Stock Exchange volume totaled 30.77 million shares, up from 29.24 million Tuesday.

Bank stocks, under pressure at the outset, wound up with scattered losses. Chase Manhattan dropped ¼ to 36% as of the 4 p.m. close in New York; J.P. Morgan was down 1 at 45, and Bankamerica lost 1/4 to 25, while Citicorp was unchanged at

At the American Stock Exchange, the market value index rose 1.89 to 215.22.

Fallout report being disputed

WELLINGTON, New Zealand (AP) - The nation's two radiation monitoring authorities are at odds over whether or not New Zealand is being subjected to a fresh dose of nuclear test fallout.

Tuesday, Dr. Bernard O'Brien, director of nuclear sciences at Lower Hutt, said low-level radioactivity had been detected in rainwater samples. He said there is evidence the radioactivity is fallout from a nuclear blast in the southern hemisphere in the past

But in Wellington on Wednesday, the director of the National Radiation Laboratory, Hugh Atkinson, said tests conducted by his staff had detected no fresh fallout from nuclear fission products.

"There is no evidence of any release of fission products after tests of air samples taken at four stations in New Zealand or from rainwater samples," said Atkinson.

He said his monitoring system was geared to detecting radioactivity which was a health hazard and did not use sensitive equipment which might be used for purely scientific purposes.

"But even then the results must be questionable as they would be right on minimum detection levels,"

A U.S. satellite recently detected what some experts felt may have been a nuclear test in the hemisphere. There was speculation that South Africa, thought to be capable of producing atomic bombs, might have tested a device, but the South African government denied testing any nuclear

Bob Hope takes his act to college campuses for TV show

By FRED ROTHENBERG

AP Sports Writer Milton Berle may have been the first comedian to utilize television, but nobody has taken advantage of the small screen better than Bob Hope, who will be taking his act on the road again. This time, the road leads to six college campuses during the frenetic football season for a TV special on NBC this Monday night.

The scene may change but the format and style remain the same for the 76-year-old Hope, who has taken his one-liners to China, the London Palladium, the Ohio Jubilee and his own birthday party for some of his TV shows in the past year.

"I had been asked to appear at Florida, Alabama and Indiana State and we needed a show for Nov. 19." Hope said of the haphazard way TV sometimes fills its time. So Hope lined up appearances at Harvard, Colgate in Hamilton, N.Y. and the University of Southern California. A snip-snip here and a laugh track there, and NBC has a two-hour show called "Bob Hope on Campus" as a ratings competitor to ABC's "Monday Night Football."

Hope's humor, never mistaken for high brow, was tailored for the college audience, with an emphasis on sports,

and then laundered some more for television.

At Southern Cal, he said: -"I'm happy to be here at Charlie White U," referring to the Trojans' standout tailback, Charles White.

-"When Charlie White was introduced to me, he said: 'Hello Mr. Heisman."

-"Coach (John) Robinson is very popular, but he can't bring his wife around. (Pause) All the players want to meet Mrs. Robinson.

-"I got football in my blood. When was born, the doctor dropped me. I'm a recovered fumble."

IF THIS is your brand of humor, then you qualify as part of mainstream Americana that has made Hope a TV fixture for the past 30 years. Since October of 1978, Hope has done eight TV specials and only two dropped below the magic 30 share figure, which is TV's dividing line

between a hit and an also-ran. Hope's best share of the TV sets in use was a 42 for his salute to the 1978 World Series.

"Sports is a great subject for humor. Athletes are always in the public eye," said Hope in a telephone interview, in which serious conversation was often blocked by a comedy routine.

-"Sports people make so much money. (Pause). Reggie Jackson has so much money, he has a guy run for

Hope, an avid golfer who holds membership in about 10 golf clubs, has his own tournament, the Bob Hope Desert Classic, which annually comes the week before the Super Bowl. Last year, the tourney was the" highest rated televised golf event.

"The public likes celebrities," Hope

The pro-am format certainly helps, but so does the fact that it comes in the heart of winter and on an off-week

Hope has played golf with five of the last six presidents. Only Jimmy Carter hasn't toured the links with Hope, who says he plays with a 16 handicap, "although it was six most of my life."

"Playing golf with Presidents is fun if you don't mind a bunch of guys following you, talking into their wristwatches," he said.

HOPE SAID he told two jokes to Dwight Eisenhower to make the President laugh after he had suffered the heart attack that eventually killed

-"A funeral procession passed on the road outside the course and one of the golfers stood erect and placed his

cap over his heart. The other said, 'That was a very reverent gesture.' The first answered, 'Yes, and come Thursday, we would have been mar-ried 20 years."

-"Two golfers were arguing over who was worse, so they matched cards. One guy said 'On the opening hole I had an X,' and the other guy said: 'Then you're 1-up.'"

Golf is not Hope's only sporting interest. Since 1946, he has owned a share of the Cleveland Indians. In the late 1950s, Hope owned 11 percent of the Los Angeles Rams. He sold his interest after an ownership battle between Dan Reeves and Ed Pauley. Asked if he wished he were still a partner, Hope answered: "You wanna make me cry."

What really upsets Hope are suggestions that he wouldn't have been able to do his college campus show 10 years ago during the Vietnam War. Throughout his career, he has made jokes from both sides of the political fence and has entertained American troops since 1941. But his hawkish position on Vietnam made him unpopular on many campuses.

"I never supported war. I supported the kids," he now says.

And he hotly disputes reports that he was booed in 1969 after being introduced at a Notre Dame football

Roger's health big questionmark

DALLAS (AP) - Quarterback Roger Staubach's health is of great concern to the Dallas Cowboys going into Sunday's game against Washington but Redskins Coach Jack Pardee figures it will improve greatly .

just before kickoff. "Roger is very questionable and it will be Sunday before a decision is made whether he will start," said Dallas Coach Tom Landry Tuesday. "He is sore because of a deeply bruised thigh and can't work this

week Told about Staubach's condition over a telephone hookup with Dallas writers, Pardee said,"We expect the injury to improve. I've known Roger long enough to know what to expect from him. He'll play. And we don't expect him to miss a whole

week of practice, either." Pardee said it is a must game for the Redskins "because if we do our job it (the National Conference Eastern Division) can be a three-team race and not a walk-away.'

Dallas is 8-3 and owns a onegame lead over Washington and Philadelphia.

Pardee said he was not downgrading the Cowboys, who suffered a 31-21 loss to Philadelphia Monday night.

"The Cowboys play well enough to win just like they have for the last 10 years," said Par-

"Thanks to the Cowboys we've got a new race in the National Conference Eastern Division,' said Landry Tuesday.

"Monday nights are not the best outings for us," said Landry, who has a 7-8 record in the nationally televised jousts. "We've made it interesting again. It was a most disappointing game. It seems we can't stand prosperity but it happens to all teams. It even happened to

Ever get a drink that wasn't "just what the doctor ordered?" The chances of that with a computerized bar, like this model in a Glendale, Calif., hotel, are very slim. Reinold Hofmann, top, fills one of the 112 liquor bottles in the "rack room." With the help of barmaid Joy Coward, the computer panel is keyed with customers' drink requests and the proper amounts of liquor and drink mixes are dispensed. (AP Laserphoto)

Japan observes far-reaching energy conservation goals

Copley News Service

TOKYO — President Carter recently prodded Japan to use less oil and energy in general. If he and the appropriate members of Congress came here they might learn that this nation now importing 99 percent of its oil needs is moving ahead on all fronts much more rapidly than the United States is.

Here are a few of the things Japan is doing:

Expanding an already mammoth and efficient public transportation

2. Continuing conversion of taxis to use of propane rather than gasoline as fuel. Already, most taxis burn propane.

3. Setting far more rigid air-conditioning and heating controls on public and private buildings — a low of 82 degrees in the summer and a high of 66 degrees in the winter.

4. Designating two months, February and October as energy conservation months — when even stricter regulations will be in effect. The United States designates October as such a month on a voluntary basis.

5. Accelerating research and getting into production on alternate systems of energy — solar, geothermal, use of coal, both gasification and liquefaction from coal.

The reduction of reliance on imported oil is the principal aim of the Japanese. With this general goal in mind, the plan recently put into motion is designed to reduce dependence on oil for energy from 75 to 50 percent by 1990. To do this, the nuclear share

of the total energy package will be increased from 2 to 11 percent, coal from 12 to 16 percent, liquid natural gas from 3 to 9 percent, coal liquefaction and solar from 0 to 5 percent, hydro will remain static at 5 percent, and other sources will be raised from 3 to 4 percent.

"This is quite a goal," Osamu Aizawa of the Agency of National Resources and Energy, said in an interview, "but we are determined to make it. Considering the oil situation, and we import 80 percent of our crude from the Mideast, we must make the goal."

The fact that Japan is the world's second-leading consumer of imported oil (after the United States) explains in itself why the 1990 goal must be reached.

Aizawa admits that in Japan, as in the United States, it will be difficult to reduce reliance on automobiles.

"However, we may close the gas stations on Sundays and holidays, and that will help. Also, we are finding that the Japanese people are complying to an 80 percent degree with the voluntary fuel saving schemes. The difficulty will be in achieving these goals and keeping our economy on a steady growth course."

To do this, Japan has what it calls the "Sunshine Project," the umbrella agency under which alternative sources of energy are being sought. With only one month (June) of steady rain, Japan is rich in sunshine and solar energy is being pushed — to the point that a million solar-powered homes plus big apartment houses are in the construction or planning phase.

Population changes press race

Kennedy sucumbs to call of electoral votes

By JAMES CARY Copley News Service

WASHINGTON — Sen. Edward Kennedy was pressured toward running for president in 1980 rather than 1984 by the surge of population and electoral votes into the conservative Sunbelt states, a top election forecaster believes.

Ben Wattenberg, co-editor of Public Opinion magazine, also thinks the

For Kennedy to win sufficient electoral votes then he would have to succeed in a number of traditionally conservative areas that are not considered supportive of his liberal views. Hence the decision to run now.

upcoming battle between Kennedy and President Carter for the Democratic nomination will become "harsh and poisonous."

One possible outcome of this challenge of a seated president of Kennedy's own party could be that moderate Democrats would be left without a candidate of their own middle-of-the-road ideology.

This presents a potential for centrist Democrats to cross over and vote Republican in sufficient numbers in the general election to elect a Republican president.

Concern over foreign policy and the growing image of America as weak and indecisive would be a prime cause.

All this was projected this week by a panel of experts from the American Enterprise Institute, a non-profit organization that explores and studies public policy issues.

Participating with Wattenberg were Howard Penniman, AEI's director of

Participating with Wattenberg were Howard Penniman, AEI's director of political and social processes, Rudolph Penner, AEI director of tax policy studies, and David Gergen, managing editor of Public Opinion magazine.

Wattenberg, co-author of the book "The Real Majority," said Kennedy's

wattenberg, co-author of the book "The Real Majority," said Kennedy's decision to run this time permits him to escape the major shift in electoral votes that will take place after the 1980 census.

And it is electoral votes — not popular votes — that elect the president. Since 1952 the northeast and north central states, sometimes called the Frost Belt, had 286 electoral votes and southern and western states, the conservative Sunbelt, had 245. By 1972 the Sunbelt was leading 271 to 267. Wattenberg projects that by 1984 the Sunbelt will have a 26 vote advantage — 282 to 256. This will be based on the 1980 census which will cause the House of Representatives to be reapportioned in 1982, in time for the 1984 election.

For Kennedy to win sufficient electoral votes then he would have to succeed in a number of traditionally conservative areas that are not considered supportive of his liberal views. Hence the decision to run now.

Gov. Edmund G. (Jerry) Brown Jr. of California was pictured as on the fringes of this main contest and not likely to break into the inner Democratic circle where the large voting blocs are unless either Carter or Kennedy stumbles badly.

The major issues in the general election will be different, depending on which of the three Democrats is victorious at the nominating convention.

Penniman said for Carter they will be Iran, the SALT II strategic arms limitation treaty, and the economy. For Kennedy they would include Chappaquiddick (an island where a girl drowned in a car accident with Kennedy at the wheel), and his Senate voting record.

Penniman said he could not come up with a clear image of what issues would emerge as important in the Brown campaign. But he did mention the governor's proposals for mandating a balanced federal budget as fading.

Brown also will not have the strong support of his state in the upcoming primaries that he did in 1976, Penniman said. Brown upset Carter in a number of late key state primaries.

Wattenberg said he viewed foreign policy — particularly the image of weakness the United States is projecting — as "a looming giant" of an issue, although not as important right now as the economy. Still it is the test by which voters tend to measure the toughness of a candidate.

He cited Iran as a plus right now for Kennedy. It has shifted the focus from

He cited Iran as a plus right now for Kennedy. It has shifted the focus from Kennedy and Chappaquiddick, where the public view was centered after Kennedy announced his candidacy, back to Carter and the questions critics have raised about his leadership.

Penner saw tough sailing ahead in the economy with all the political rhetoric in favor of a balanced budget, tight money and austerity tending to disappear if

and when the anticipated recession deepens.

With that will go Carter's last chance to fulfill his 1976 campaign pledge to balance the federal budget before the end of his first term.

Penner noted, however, that inflation is causing taxes to increase about \$12 billion annually. Consequently federal spending is rising at only a 1 percent pace annually compared to 3 percent earlier in the decade. One result is a projected 1980 federal deficit no higher than that expected this fiscal year,

There is a major shift in sentiment favoring higher defense spending now, with less funding for social programs, Penner said. A Harris poll was cited showing a huge increase in public support for a stronger defense from 10 percent to 76 percent in recent years.

Wattenberg said that in his view for President Carter to be renominated he would have to picture Kennedy as a left-winger and make it stick, although Carter has embraced most of the same liberal positions Kennedy has.

Texas must turn face toward 'urban' problems

AUSTIN, Texas (AP) — Texas is "distinctly" an urban state and could soon face more of the problems faced by the big northern cities people are fleeing to move here, a geography professor says.

Dr. Robert Holz of the University of Texas this week told a special House Committee on Urban Needs that the state's big cities are still "reasonably safe, comfortable places to live."

"I don't think Texas cities have the big-city problems of those cities in the Northeast," he said.

However, he warned continued growth could cause problems.

"If there isn't some control on how things develop, it seems to me there'll be a problem with a declining quality of life...which is why the people moved here in the first place," Holz said.

He said the state will continue to grow in population through the 1980s. Statistics show that 82 percent of the state's 13 million people live in urban areas — defined as areas with more than 2,500 persons.

The numbers show the state has had an urban majority since 1950.

Holz said mass transit systems would be needed in the cities as gasoline supplies dwindle. He also predicted a possible "urban implosion" — a "collapse towards the center" of cities as people move back to downtown regions to save gasoline.

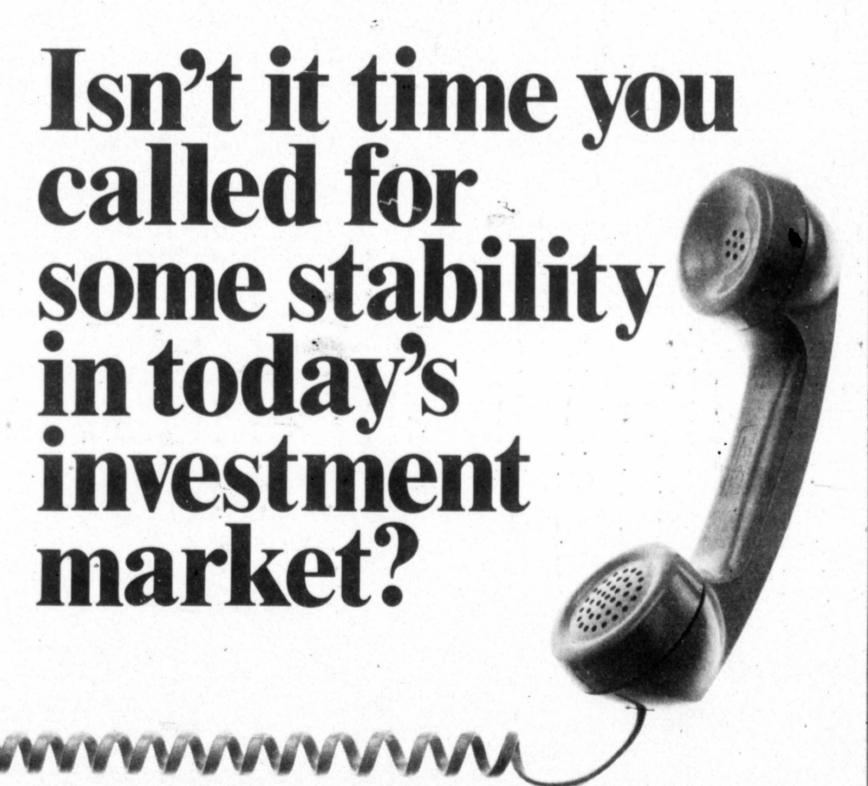

He said some experts are predicting possible conflict between the poor

people who now live near downtown areas and rich suburbanites who want to move closer to where they work.

Dr. Thomas Plaut of the UT Bureau of Business Research told the com-

Dr. Thomas Plaut of the UT Bureau of Business Research told the committee that the population increase has slowed since 1975, but he also said the increase would probably continue through the next decade.

"I would not be surprised if the growth rate of the smaller urban areas and non-urban areas overtakes that of the largest urban areas," he
