METRO EDITION

Iran's Khomeini says U.N. settlement call was 'a step forward'

Ruhollah Khomeini said today the U.N. Security Council's call for a negotiated settlement of the U.S.-Iranian crisis was "a step forward," the official Pars news agency reported.

In other developments, members of Iran's Turkish minority seized facilities of the state-run broadcasting company in Tabriz, capital of the largely Turkish Azerbaijan Province. But tension between the two groups eased in the the holy city of Qom, 100 miles south of here.

The apparent softening of Khomeini's stance on the resolution was disclosed after a meeting in Qom with Foreign Minister Sadegh Ghotbzadeh, Pars said. xghotbzadeh was quoted as saying they "noticed that this is not a resolution condemning

Observers said the remarks by Khomeini and Ghotbzadeh were the most moderate yet by revolutionary leaders during the month-long crisis. Last week Khomeini rejected in advance any steps taken by the Security Council, alleging that it was controlled by the United States.

Ghotbzadeh's statement made no mention of the resolution's call for the immediate release of 50 American hostages held in the U.S. Embassy and did not outline possible negotiations for their release.

Today was the second straight day of clashes in Tabriz, 300 miles northwest of Tehran, and Qom between Khomeini's backers and followers of the religious leader of Iran's Turks made Khomeini supreme ruler for

On Wednesday night a Khomeini revolutionary guard and one of minority leader Ayatollah Mohammed Kazem Shariat-Madari's personal guards were shot and killed and eight other persons were wounded in the clashes in Qom, informed sources said. Before the revolutionary turmoil, Shariat-Madari was considered Iran's most influential religious lead-

No casualties were reported today, and tension eased in Qom after Khomeini paid an afternoon visit on Shariat-Madari and said "plotters' were responsible for the trouble.

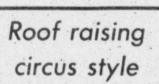

"Do not quarrel between yourselves and focus on the one and only enemy It is your religious duty and national responsibility to concentrate on the confrontation with the United States," Khomeini said in a state radio broadcast to the nation.

The demonstrators in Tabriz said they were angered by broadcast satements attributed to Shariat-Madari appealing for calm, saying they would only believe the remarks were authentic if they heard them from Shariat-Madari himself.

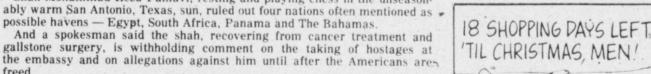

The protesters also were angry over official referendum returns, still coming in, which claim endorsement of the constitution in the province. The constitution fails to meet the minority's demand for more auton-

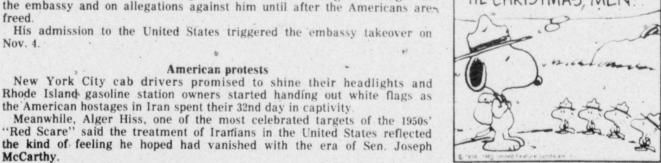

Pars quoted Khomeini's son Ahmad as saying his father and Shariat-Madari discussed relations with the United States and "CIA agents and SAVAK, who at this critical juncture are sowing discord among Moslems. SAVAK was the secret police of the

Meanwhile, The Associated Press obtained photographs of hostages in the embassy made by Iranians for Britain's Thames Television. No information was available on the circumstances under which the photographs were taken.

It's the biggest big top in the country, and it takes 30 men and two elephants a full eight hours to put together. Reporter-Telegram photographer Mike Kardos takes a look at the organized pandembnium of raising the roof for the Circus Vargas on Page 11A.

Rationing or higher tax?

Carter's advisers want one or the other

WASHINGTON (AP) - There is a growing consensus" among President Carter's advisers that he should recommend a big increase in the federal gasoline tax or gasoline rationing to reduce oil consumption, says a high administration official.

These two photos of U.S. hos-

tages exercising inside the grounds

of the U.S. Embassy in Tehran were

among several released by the Ira-

nians. None of the hostages were

identified. President Carter contin-

ued to apply pressure on Iran

through economic denial, domestic

trouble erupted in Iran, and the Ayatollah Khomeini called the U.N.

resolution 'a step forward' as the

hostages spent the 33rd day in

captivity. (AP Laserphotos)

"It boils down to choices between rationing or taxes," the official said in an interview Wednesday. He did not want to be identified.

He indicated an increase in the gasoline tax is considered the more likely choice because a rationing program would require a larger government bureaucracy to administer and because a tax would fit what the official described as the "free economy concept" of reducing consump-

He said the amount of a proposed tax could range as high as 50 cents per gallon, although it could be substantially less. The gasoline tax is now 4 cents per gallon.

The official said a decision has not been made among Carter's advisers on whether even to recommend the tax to the president. He said some advisers remain skeptical that either a gasoline tax or gasoline rationing would work to reduce consumption.

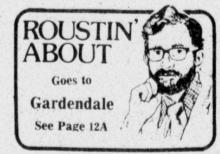

He said other options are also still under consideration, including establishment of oil import quotas. But he stressed there is "a growing consensus" in favor of either taxes or ration-

Congress earlier this year approved legislation that would allow rationing when there was a 20 percent reduction in supplies. The administration would have to go back to Congress to change that legislation if it wanted to impose

rationing to encourage conservation. CBS News reported Wednesday night that the Energy Department has come up with a standby rationing plan to handle a 20 percent gasoline shortage. That plan would reportedly give ordinary motorists about three

quarters of their normal usage. For the alternative rationing plan to force conservation, CBS said, the department is studying two options. Under one, each car would carry a sticker saying which day of the week it would have to stand idle. The other would permit a particular car to be filled up only on a certain day each week.

The administration official said one appealing feature of an increase in the gasoline tax is that tax receipts could be used to offset a possible reduction in Social Security payroll taxes, which are scheduled to rise sharply in 1981. He said they also could be used to provide new investment incentives for business through an accelerated depreciation allow-

Nellie stumps for John

By LANA CUNNINGHAM

The Republican nomination for President will come down to a race between Texan John Connally and former California governor Ronald Reagan, predicted Nellie Connally, wife of the presidential candidate

Speaking Wednesday at a news conference before attending a reception in Midland, Mrs. Connally discounted former Midlander George H.W. Bush as a serious candidate in the race.

The Midland stop is one of 11 cities on a fund-raising tour in Texas for Mrs. Connally. The Midland reception was hosted by Mr. and Mrs. Roger Allen. Tickets were \$125 each

Concerning Bush, Mrs. Connally said "he's a fine fellow and has a certain amount of support. It's the liberal Republican support which is about one-fourth of the

Until his comment earlier this week on the Iranian situation with the 50 American hostages, Mrs. Connally said her husband had purposely refrained from making

"John feels the United Nations should boycott Iran financially and politically and in every kind of way,"

'He hasn't made a statement up to this point because he didn't want to jeopardize the hostages. He doesn't want to upset any of the special negotiations that are going on.'

The milk scandar in the early 1970s in which Connally was accused - and found innocent - of taking bribe money from milk companies isn't being mentioned in the campaign except by the media, according to Mrs.

If her husband wins the GOP nomination and subsequently the general election, Mrs. Connally said she feels it would be an honor to be first lady. However, she pointed out she wouldn't be an adviser on matters as Rosalynn Carter is doing

The fact that Connally, as governor of Texas in 1963, was injured when President John F. Kennedy was assassinated, doesn't deter Connally from running for the country's highest elected office, said his wife.

Unlike some of the other presidential candidates who already are in office as senators, Connally has had no "podium from which to speak. He's had to make his own news," Mrs. Connally said.

And the fact that Connally once was a registered Democrat but changed to the GOP won't hurt his chances in the race, she contended.

Former lieutenant governor Ben Barnes, who is traveling with Mrs. Connally, pointed out at the conclusion of the news conference that a poll released Sunday by a Columbus, Ohio, newspaper shows Connally to be leading the Republicans in that state.

Connally received 38 percent of the Republicans' voice vote; Reagan, 34 percent; and Bush, 12 percent. 'Connally's passing Reagan already is very signifi-

cant," Barnes said. "Ohio is an important state in

Swearing-in ceremonies set for Odessan Lucius Bunton

Swearing-in ceremonies for Lucius Bunton of Odessa as the first "resident" judge of Midland's U.S. District Court are scheduled for 2 p.m. Friday in the district courtroom on the third floor of the George Mahon Federal

Bunton, 54, was confirmed by the U.S. Senate last week as a new federal judge in the Western District of Texas. He had been recommended by U.S. Sen. Lloyd Bentsen and nominated by President Jimmy Carter. U.S. District Judge William Sessions of El Paso is expected to be on

hand to administer the oath of office to Bunton. Other federal judges expected to be present for the ceremony include

Judge Adrian Spears and Judge D.W. Suttle, both of San Antonio, and Judge Harry Lee Hudspeth of El Paso. Bunton said U.S. District Attorney Jamie Boyd and Assistant U.S. Dis-

trict Attorney Wayne Speck, both of San Antonio, also may be on hand. The public is invited to attend the ceremony, Bunton said.

Judge Hudspeth of El Paso was confirmed at the same time as Bunton, but Hudspeth's swearing in ceremony was conducted elsewhere. Prior to the appointment of Bunton, federal judges from El Paso or San

Antonio were assigned to courtroom duty in Midland. Now, however, Bunton will serve as a resident federal judge here with primary responsibilities for the Midland-Odessa Division of the Western District, the Pecos Division and one-quarter of the El Paso Division.

A native of Del Rio, Bunton was in private practice in Odessa for 20 years prior to his appointment. He also served as district attorney of the 83rd Judicial District in Marfa for six years.

Former MHS student given probated sentence in robbery of student

A 17-year-old former Midland High School student has been handed a five-year probated prison sentence after pleading guilty Wednesday to the Oct. 26, 1979, robbery of a fellow student at the high school.

Richard D. Shelton, 209 N. Donald St., was scheduled to go on trial Tues day morning in 142nd District Court here, but changed his plea to guilty about 9 a.m. Shelton entered his plea in front of an eight-woman, four-man jury which

then deliberated about a half-hour before returning the five-year probat-Shelton, a student at the high school at the time of the incident, was

charged with the robbery of a younger male classmate at Midland High According to police reports at the time, the younger student was as-

saulted by two fellow students and robbed of a small amount of change. One of the victim's teeth was knocked out during the scuffle in the robbery, police reports indicated.

A second person charged in connection with the case, 18-year-old Curtis Ray Deary, 1709 N. Edwards St., has not been tried yet.

Senator wants tuition for state colleges upped

Unless it's UT or A&M

AUSTIN, Texas (AP) - Sen. Bill: Moore, D. Bryan, has suggested a tuition increase as a source of building money for state colleges outside the University of Texas and Texas A&M

Moore, chairman of the powerful Senate State Affairs Committee, offered the idea Wednesday as a member of the Special committee on Higher Education Financing.

The panel's chairman, Lt. Gov. Bill Hobby, opposes any dedicated fund for construction at Texas' smaller universities and showed his feelings. frequently in questioning witnesses.

Spokesman for 14 of the 15 state university governing boards appeared before the committee. Only Midwestern University failed to send a representative. Virtually all speakers said the col-

leges need a guaranteed source of money for construction and building repairs. Seventeen schools had relied on the 10 cents per \$100 valuation state property tax, which the 1979-Legislature repealed.

A proposed constitutional amendment establishing a new fund from other state taxes failed to get through this year's legislative session.

Moore first suggested the tuition approach in questioning F. H. McDowell, president of East Texas State University

"What would you think about using a tuition increase for such a fund?" he

"I'd have no objection," McDowell replied. Resident tuition is \$4 per semester

hour, with a \$50 per semester minimum. McDowell said doubling the tuition rate would produce about \$35 million to \$40 million a year. Moore later said he was "giving

some thought" to the tuition idea but at this point did not plan to introduce legislation. They have got to have some per-

manent fund. It (a tuition increase) looks like the logical place. ... The cost of higher education is going up like anything else, and it is ridiculous not to bring tuition up," Moore said. Texas A&M and the University of

Texas at Austin, along with some other schools in their systems, finance construction with income from the \$1 billion Permanent University

Leonard Rauch, chairman of University of Houston regents, said his school is interested in buying land for a buffer around the university, which is located in a rundown part of Houston. He called a night club across from the campus a "dumping

"Some of the people, we feel, don't come to the University of Houston. because of what they must drive

through to get there," he said. Rauch, like other university gov erning board chairmen, endersed the continued use of formula funding for all state colleges. The formulas guarantee that similar programs will get the same number of dollars per student, no matter where they are locat-

But he said the formulas adopted by the Legislature have failed to recognize "the debilitating losses inflation now causes.

He also criticized the Texas College Coordinating Board for watering down formula recommendations made by its special study commit-

\$1,133.61 found missing from firm

A tan bank bag with \$1,133.61 in checks and cash was discovered missing Wednesday at Colortime Television Rental, 1403 N. Lamesa Road, according to Midland police.

The bag was taken from behind a counter in the store sometime during the day, police were told.

Police today said they were investigating the theft and had a suspect in the case.

County still searching for Culver house parents

Although Midland County's Culver Youth Home was expected to be reopened in mid-November, the facility remains closed

The youth detention facility has been closed since Oct. 8 due to a lack of house parents

The man heading up the search for new house parents, Juvenile Probation Officer Grover Green, said Wednesday he is investigating the backgrounds of two sets of applicants. Green added that he hopes the minimum security detention facility for juveniles will be able to reopen short-

The salary paid house parents by the county has been one problem, Green conceded Wednesday

Of six initial sets of applicants, the county has yet to find new house

"Most of it was the salary," the juvenile probation officer said. Three of those applicants indicated the salary was too low and two other sets wanted a situation in which the husband could work an additional job outside the facility

But there are other factors, Green

"I really think the whole thing is that jobs are plentiful around here and everybody has got them a job," Green noted.

While the facility remains closed, juveniles detained by law enforce ment personnel in Midland County are being housed either at the Midland City Jail or Midland County

Asked if such an arrangement presents a problem for the county, Green replied, "It's just a matter of not wanting to keep them in jail if we can possibly help it.

Green had said in November that an average of six juveniles per day were housed in Culver Youth Home

Midland County pays a couple \$672 per month for serving as house parents at the facility. That salary in creases to \$746 per month after six

commissioners have discussed possi bly increasing the salary. But the commissioners wanted him to first interview the last two sets of applicants and then, if house parents could not be found, discuss the salary

Green said he and Midland County

"Both these prospects look pretty good," the juvenile probation officer

But apparently these last two sets of applicants may be the county's final hope before it has to take another look at the salary situation.

"We just haven't had anybody else apply," Green added.

For their salary, a couple is expect ed to be at the facility 24 hours a day, five days a week. If the house parents work seven days a week instead of five, they are paid an additional \$60. All expenses of the house parents

are paid by the county with the ex-

Temperatures to swing up as cold front effects diminish

Temperatures should begin to take a swing upward Friday as the effects of a cold front that passed through the Permian Basin on Wednesday begin to diminish

The weatherman said the high Friday should be in the upper 60s after an expected overnight low in the middle As usual, skies should be fair with

no precipitation in the forecast, according to the National Weather Ser vice at Midland Regional Airport. High on Wednesday was 74 degrees almost hitting the record high for that

date of 79 set in 1951 The mercury dipped to the freezing mark of 32 degrees for today's overnight low, said the weatherman. Record low for this date is 8 degrees set in

Area cities reported clear skies and cold temperatures early today.

A fast-moving cold front moved southward across Texas today, bringing with it slightly cooler tempera tures and a few widely scattered

By early today the front was moving on a line from near Longwiew to. Laredo. The front was expected to be out of the state this afternoon.

Northerly winds gusted to near 30

mph along the front. Forecasts called for partly cloudy skies and widely scattered showers or thundershowers from the Lower Rio Grande Valley northward into Southeast Texas. The rest of the state was to have mostly clear skies and slightly cooler temperatures

Highs were to range from about 50 in North Texas to about 70 in South

Some dense fog was reported early today in the Valley and along the gulf coast. Some scattered showers were reported during the night in eastern sections of the state. Elsewhere skies

were clear in West Texas and partly cloudy to cloudy in the eastern half of

Early morning temperatures were mostly in the 40s and 50s. Extremes ranged from 23 at Amarillo to 60 at Alice, Cotulla and McAllen.

118-pounder lifts 4,500 to save child

SAN DIEGO (AP) - "I don't know how I did it. My body hurts all over now." said 44-year-old Martha Police say the 5-foot-3, 118-pound

woman helped rescue a child from beneath a 4,500-pound Cadillac Wednesday by lifting the front end. "Things like this have happened before," said police spokesman Bill

Robinson said, "but I can't recall it being done by anyone so small." The Tijuana woman reacted after a car went out of control near an elementary school as parents dropped off their children. Eight-year-old Berta Luz Amaral of San Diego was

struck by the car and dragged more than 20 feet. Ms. Weiss said one of the wheels ran over the child and was resting partly atop her when the car came to a

"The mother start screaming" and attempted to pull the child from under the wheel, Ms. Weiss said. At that point, she rushed to the front of the car and began lifting.

"I could feel the car moving when I was pulling up. I lifted it up enough for the lady to get the little girl out."

Traffic investigators said the woman had grease "all over her from where she had picked up the car. She had tire marks on her slacks.'

Handley died Sunday in a Houston hospital. He was a retired geophysical con-

tractor. Born Jan. 16, 1917, in Cleveland, Handley was a Methodist. Other survivors include his wife, a

daughter, a stepdaughter, two grandchildren and a great-granddaughter.

Scott Donaldson

Scott Donaldson, 25, of Rankin and formerly of Midland died Tuesday at his home in Rankin.

Services were to be at 2 p.m. today in the First Baptist Church chapel with Dr. Daniel Vestal, pastor, officiating. Burial was to be in Resthaven Memorial Park directed by Ellis Fu-

Donaldson was born Jan. 15, 1954, in Biloxí, Miss. He was reared in Belton and was graduated from Lee High School here in 1972. He received a bachelor's degree in education from Sul Ross University in 1976. He taught in Odessa one year before moving to Rankin in August 1979.

Survivors include his parents, Mr. and Mrs. J.W. Donaldson of Midland; a brother, Jay Donaldson of Midland; a sister, Joyce Ann Donaldson of Midland; and his grandparents, Mr. and Mrs. M.C. Donaldson of Gaitesville and Mr. and Mrs. R.D. Dunn of

minole. He was married to Mary Ann Peking city government bans Democracy Wall

PEKING (AP) - The Peking city government announced today that it. is abolishing Democracy Wall, effectively ending 12 months of nearly uninhibited free speech in the capital

and presumably elsewhere in China. In place of Democracy Wall, the government will allow carefully screened posters to be hung in Moon Altar Park, a mile to the west. There, a registration center will be set up for those wishing to put up posters. Their names, pseudonyms, addresses and units to which they belong will be recorded.

The Peking Municipal Revolutionary Committee said the content of the posters will not be examined at the park, but "writers of big-character posters will be held responsible for the political and legal implications of the content. It is forbidden to reveal state secrets, to fabricate information and make false charges, to libel and conduct other activities that violate

The notice, distributed by the offichal Xinhua news agency, added: 'Creating disturbances or riots at the -selected site will be duly punished according to law." It said the stipula-· tions were "for the time being," but did not elaborate

The notice said the rules had been set to protect people's rights and social order and to "prevent the use of posters under pseudonyms for the conducting of law-breaking activi-

It said citizens will continue to have the right to put up posters within the work or study unit to which they

Some one hundred civil rights sympathizers made the wall the focus of their activities over the past year. Because of their accusations against Chinese leaders and the Chinese political system, the wall became worldfamous, one of the prime tourist sights in the city.

The new site has the advantage, for the city government, of being off the beaten track, in a corner of the city. Democracy wall is on Changan, the main avenue, which runs by the square, the party and government headquarters and the Great Hall of the People. Its activities were highly visible to visiting state guests as well as ordinary tourists.

Xinhua quoted an unidentified spokesman of the municipal government as saying: "China's socialist democracy is not displayed on the Xidan wall, about which some foreign journalists make a big hulabaloo. All our government offices, schools and factories have sites or notice boards on their own grounds for wall posters or big character posters. Anyone can present opinions and demands to organizations or to the leadership at higher levels.

'No country in the world allows a person to make false charges and libel others," the unidentified spokesman added.

The city government's action follows complaints from the Communist Party leadership and bitter discussions last month at a meeting of the standing committee of the national Parliament. The decision was preceded by several days of criticism of the wall and those who "used it for ulterior motives" in the municipal organ, the Peking Daily.

Wall posters and newspapers for centuries have been a traditional and widely respected vehicle for criticizing the Chinese administration. The right to post them is enshrined in the Chinese Communist constitution, largely because posters were a potent and valuable weapon used by young Communist revolutionaries not so

No. 4 in a series.

Exxon's profits should be judged by the need to generate capital for large investments.

Exxon's profits are large but so are its investments in energy. When Exxon's profits are put on a comparable basis with the profits of other U.S. manufacturing companies, we do only a little better than average.

In 1978, for example, only two companies reported higher profits than Exxon. But 545 companies were more profitable than Exxon according to the Fortune magazine list of the largest 1,000 U.S. manufacturing companies.

The difference between "profit" and "profitability" is important. "Profit" is like a worker's take-home pay. It tells you little about how many hours were worked to get it. Takehome pay might be large simply because of a lot of overtime. So, "profit" could be large, even though "profitability" (dollars earned per hour)

Shareholders invest dollars instead of time, so to have real meaning, profits must be related to the amount of money which is invested. A common measure of earning performance is "return on shareholder investment,"

During the past decade, Exxon's return on shareholder investment has ranged from a low of 12.4% in 1970 to a high of 20.6% in 1974. So far in 1979, our return has been at an annualized rate of 18.5%.

- We don't know how long this current rate of return will last, but we do know that finding and developing energy is getting increasingly more expensive. Oil companies need to be at least as profitable as other companies if they are to continue to be able to attract the funds necessary for the high risk, big investments vital to the delivery of energy in the future.

Warsaw Pact members end two-day conference

BERLIN (AP) - Foreign ministers of the seven Warsaw Pact member nations ended their two-day conference today with a new warning to the NATO alliance to forsake plans for stationing new U.S.-built missiles in Western Europe

In a communique, the Soviet Bloc foreign ministers condemned NATO's 'dangerous plans' to station 572 Pershing II and Cruise missiles in Western Europe and urged the West to "consider once again" the weap-

ons' effect on the military balance. They also repeated their call, issued last spring in Budapest, Hungary, for convening of another disarmament conference bringing together nations of Europe, Canada and the United

The ministers said the communist alliance would be interested in negotiating a series of "confidence-building" measures designed to reduce

The East Berlin meeting took place. one week before a conference of

NATO defense ministers in Brussels, during which the missile deployment plan is expected to be approved.

Chances for approval of the missiles received a boost Wednesday night when delegates to the Social Democratic Party convention in West Berlin endorsed Chancellor Helmut Schmidt's stand on the issue.

Schmidt has urged the alliance to approve deployment of the missiles in conjunction with an offer to the Soviets to negotiate a mutual reduction in medium-range nuclear delivery

At the close of the East Berlin meeting, the foreign ministers, including Russia's Andrei A. Gromyko, met with East German leader Erich

The East German news agency ADN said Honecker praised the ministers for their "important contribution to the implementation of the coordinated peace policy of the Socialist community.

Neiman-Marcus founder's widow dies at 97, burial to be Friday

DALLAS (AP) - Mrs. Herbert Marcus, widow of the co-founder of Neiman-Marcus department stores,

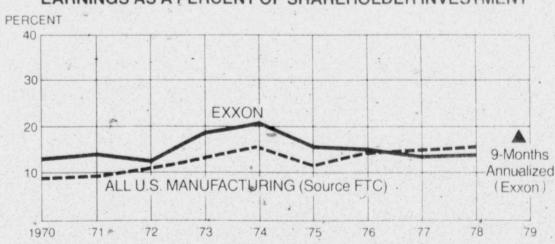

died Wednesday night. She was 97. Mrs. Marcus was born here on Oct. 4, 1882. She and Marcus lived briefly in Atlanta after their marriage, before he returned here to help establish

She became vice president of Neiman-Marcus in charge of Norticulture

She was a member of the board of directors of Temple Emanu-El in Dallas, and was made honorary life president of the Dallas Garden Center.

She was a member of the Dallas Symphony League, the Dallas Museum of Fine Arts and was co-chairman of the Greater Dallas Planning Council for several years.

EARNINGS AS A PERCENT OF SHAREHOLDER INVESTMENT

Exxon's return on shareholder investment has generally been somewhat above that of all U.S. manufacturing companies. In 1977 and 1978, however, it was below the average

market gains

Stock

NEW YORK. (AP) - The stock market recorded its second straight gain Wednesday, getting an early boost from some hopes for a break in the month-long confrontation between the United States and Iran.

The Dow Jones average of 30 industrials, up about 8 points at mid-day, settled for a 3.50 advance at 828.41 by the close. The average rose 5.29 on Tuesday.

Volume on the New York Stock Exchange accelerated to 39.30 million shares from 33.51 million the day before. Occidental Petroleum was

up 1/4 at 27 1/4 as of the 4 p.m. close in New York, and Pogo Producing rose 1 to 2034, but Exxon lost 3/2 to 571/2; Mobil dropped % to 52%, and Texaco was down 1/4 at 295%. The daily tally on the NYSE showed gainers out-

stripping losers by close to a 2-1 margin, and the exchange's composite common-stock index added .29 to Standard & Poor's index of

400 industrials rose .53 to 120.03, and S&P's 500-stock composite index was up .46 at 107.25. The Amex market value

index gained .72 to 230.58. In the over-the-counter market, the NASDAQ composite index closed at 145.92, up

Kennedy corners himself over Iran

By DONALD M. ROTHBERG

WASHINGTON (AP) - Sen. Edward M. Kennedy's Iranian flap may have a bit of a nostalgic ring to President Carter. The circumstances are not unlike the problem Carter ran into with the Soviet troops in Cuba.

"The status quo is unacceptable," said Carter after disclosure that a Soviet combat brigade was in

With that statement, the president put himself in a rhetorical box. He had difficulty extricating himself when the Soviets refused to cooperate by agreeing to change the status quo.

Now it's Kennedy's turn to run up against his own

"Do the Iranian people have legitimate grievances against the shah?" a reporter asked the Massachusetts senator during a television interview Sunday in Kennedy adhered firmly to the standard he had set

since the takeover Nov. 4 of the American Embassy in Tehran. "It's of little value for the United States not to

speak with a single voice," said the senator. "I don't think it is useful or wise to consider the condition of human rights in Iran prior to this circumstance.'

Then, 12 hours later, in another television interview, this time in San Francisco, Kennedy abruptly violated his own standard.

Shah Mohammad Reza Pahlavi "ran one of the most violent regimes in the history of mankind," said Kennedy when asked whether the United States owed something to its long-time ally.

The next 24 hours did not go well for the senator. Repeatedly, he was asked why he had changed his

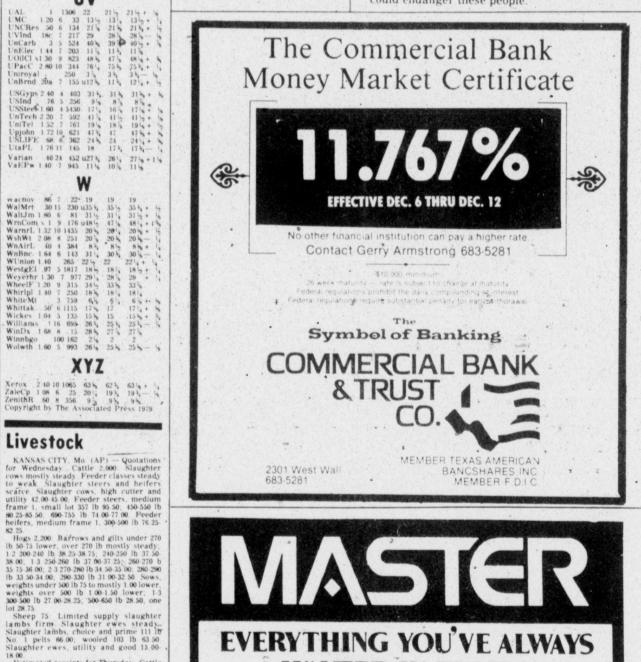

'My position is unchanged," replied Kennedy, falling back on the politician's refuge of standing in the ocean and denying his feet are wet.

Kennedy made the point that his statement about the shah wasn't that far from what President Carter said during his nationally televised news conference and what members of the U.N. Security Council said Saturday during their debate on Iran.

In both instances, it was acknowledged that the Iranian people might have grievances that could be aired after the hostages were released.

As one would expect, President Carter's political allies weren't going to let Kennedy get away with a statement that could be interpreted as upsetting the delicate situation in Tehran, where 50 Americans are

Robert Strauss, chairman of the president's campaign* committee, said the Kennedy statement "could endanger these people

Judge to rule on Alaska sale

WASHINGTON (AP) - The immediate fate of an oil lease sale that could bring drilling rigs to the icy waters off Alaska's northern coast is in the hands of a federal judge.

U.S. District Judge Aubrey E Robinson Jr. said he would rule Friday on a challenge to the sale by environmentalists and Eskimo villages that dot the North

Their immediate aim is postponement of Tuesday's government sale of leases that could eventually permit drilling in the Beaufort Sea.

The environmentalists also plan to fight for a permanent ban that would keep the drilling platforms away from the dwindling population of bowhead whales.

Environmental lawyers argued in court Wednesday that the drilling could result in oil spills that would threaten the remaining bowheads and the subsistence culture of the Inupiat people

But Justice Department attorney Margaret Strand called the suit "one more in a series of challenges" to government efforts to reduce dependence on foreign oil.

Geologists say the area could contain up to 1.25 billion barrels of oil and 3.125 trillion cubic feet of natural gas. If the estimates hold, the area would provide the biggest oil bonanza since Prudhoe Bay, which is just east of the

northeast of Eldorado.

PECOS EXTENSION

The USM (Queen) field of Pecos County has been extended 1/2 mile southeast with completion of Tahoe Oil & Cattle Co. of Midland, No. 1 Papoose, four miles north of Fort Stockton.

On 24-hour flowing potential the well made 85 barrels of 36-gravity oil and 10 barrel of water, through a 10/64-inch choke and perforations from 3,200 to 3,386 feet, which had been acidized with 2,000 gallons and fractured with 30,000 gallons.

Total depth is 3,471 feet, with 4.5inch casing set at 3,470 feet.

Location is 3,030 from north and 4,250 from west lines of section 4, block 1, Fort Stockton Irrigated Land

Canyon 3100) field of Menard County gained its ninth and tenth producers with the reclassification to two former gas wells by M. Brad Bennett Inc., Robert K. Hillin and NRM Petroleum Co. of Midland.

The No. 1-101 Jacoby is three-quarters mile east of production and was reclassified to pump 1.5 barrels of oil and no water, through perforations from 3,046 to 3,049 feet.

The well previously reopened the field for a caculated absolute open flow of 2,600,000 cubic feet of gas daily.

Locatin is 1,750 feet from north and 1,472 feet from west lines of Hooper & Wade survey No. 101.

The same firm's No. 3-101 Jacoby is one and three-eighths mile east of production, and reclassified for a pumping potential of 1.2 barrels of 35-gravity oil and four barrels of water, through perforations from 2,-992 to 3,004 feet, after an acid treatment of 1,000 gallons.

It was previously finaled as the second Canyon 3100 gas producer for a calculated absolute open flow of 650,000 cubic feet of gas daily.

Location is 1,794 feet from north and 990 feet from east lines of Hooper . regulations. & Wade survey No. 101.

The 5750 Canyon oil pau in the Bloodworth, Northeast field of Menard County was extended five-eighths mile southwest, with the completion of Petrolero Exploration Inc. of Abilene No. 3 Durham, 10 miles northwest of Robert Lee.

Operator reported a 24-hour flowing potential of 96 barrels of 46-gravity oil and no water, through an 8/64-inch choke and perforations from 5,655 to 5,662 feet.

The producing zone was treated with 500 gallons of acid and fractured

with 1,200 barrels. Also scheduled as a 6,700-foot wildcat, it drilled to 6,665 feet and 5.5-inch casing was set at 6,162 feet. Plugged back depth is 5,795 feet.

TERRELL STEPOUT

DePaul (Strawn gas) field and as a Canyon gas testin the Davidson Ranch multipay.

The Higgins Ranch (Canyon) field of Coke County has been extended one location west with completion of Texaco Inc. No. 10 March Ranch, nine

gallons, with gas-liquid ratio of 884-1. Location is 467 from north and 4,182 from west lines of section 642.5, Alex E. Patton survey

Threshold Developement Co. finaled No. 1 Clara Cockrill in the Ridge (Clear Fork) field of Crosby County, two miles southeast of Robertson

Operator reported 15 barrels of 24.2-gravity oil and 100 barrels of water in 24 hours, through perforations between 4.264 and 4.289 feet.

The pay was acidized with 1,000 gallons and fractured with 20,000 gal-

Total depth is 4,400 feet, with 4.5inch casing set at 4,395 feet. Wellsite is 1,980 from north and

467 from west lines of section 1045, block 1, H&OB survey, abstract 268.

Getty agrees to settlement

LOS ANGELES (AP) — The Getty Oil Co. has agreed to a \$75 million settlement in a suit brought by the Department of Energy charging that the company violated federal price

The Los Angeles-based company agreed to make a \$25 million cash payment into a fund to aid economically disadvantaged persons in meeting higher energy expenses this winter, company officials said Tuesday. Getty also agreed to reduce by \$50

million a "bank of unrecovered increased costs" - costs that are eligible to be passed through to customers at a later date. It was the first such settlement of its kind and the DOE has not deter-

The DOE has brought similar charges against other major oil refiners. But previous settlements usually have involved a rollback in future prices instead of a direct cash pay-

District 8 leads Permian Basin in new oil, gas operations

District 8 of the Rail- aco Inc. No. 1-AB State of Texas lead all other Perlocations with 70. Opera- OTS 12.667. tors announced 194 operations in the West Texas, southeast New Mexico

The District 8 headquarters in Midland processed nine wildcat operations and 61 field tests.

Pecos County gained five of the wildcats, and two were spotted in Andrews County. The others were staked in block A-32, PSL, 17 Glasscock and Sterling.

District 7-C, headquartered in San Angelo, reported 42 new operations, 13 of them in wildcat country.

Runnels gained six of the wildcats and three were spotted in Coke Crockett, Irion, Schleicher and Upton counties each gained
