## **METRO EDITION**

DIAL 682-5311, P.O. Box 1650, MIDLAND, TEXAS Vol. 50, No. 264, Daily 15¢, Sunday 35¢

FRIDAY, DECEMBER 7, 1979 **44 PAGES, 4 SECTIONS** 

## COMING SUNDAY

#### **Challenging Education**

The arrival of students from Cambodia, Laos and Taiwan has been a challenge for Midland public school programs originally designed to teach Spanish-speaking students. Sunday's Reporter-Telegram takes a look at their progress and adjustments.

#### **Bolling for Dollars**

Cotton-picking used to be a labor of bending the back and dragging the sack. That's all changed now, and Midland County's multimillion dollar crop is chronicled by writer Ed Todd and photographer Bruce Partain in Sunday's West Texas Life.

#### Abortion's Controversy

While abortion is on the increase nationwide, so is the controversy surrounding it. Read the first of a two-part series on abortion a in Sunday's Lifestyle section.

## Iranians expected to set trial date

meini's regime announced today that within 48 hours it will make a statement on a spy trial date for some of the 50 American hostages at the U.S. Embassy and that death sentences are possible

The government also struggled to put down a rebellion in the northwest by the nation's biggest ethnic minority, the Turks, whose spiritual leader said he supported the insurgents' fight for "freedom and their rights.

The announcement on a trial date declaration was made by Foreign Minister Sadegh Ghotbzadeh, who also said those Americans not suspected of spying will be released "as soon as possible," and that arrangements were being made for all the captives to be visited.

However, a spokesman for the student militants holding the Americans contradicted the foreign minister. "We will release nobody, nobody at all" unless the deposed shah is returned to Iran, and "we have made no decision on the visits," the spokesman said in a telephone interview.

State Department spokesman Walter Ramsay told reporters in Washington that scheduling trials for the hostages was "absolutely outrageous. They (the Iranians) had no business taking them hostage and they have no business putting them on trial.

'Our position is that all the hostages should be released. We welcome the news that visits to the hostages may be arranged and we hope they can be arranged soon.

There have been persistent, but unconfirmned reports that about eight hostages have been under intensive interrogation during the past two weeks. The Americans were seized 34 days ago.

Asked if he thought the hostages would be sen-tenced to death, Ghotbzadeh said: "I hope we don't reach that extent. But on the face of the earth anything is possible.

The foreign minister gave no specific date for the planned release, or say how many hostages, who include diplomats, Marines, women secretaries, a

TEHRAN, Iran (AP) — Ayatollah Ruhollah Kho- teacher and a businessman, might be freed. But he said there were two types of hostages -those who did not "work in espionage and those who are guilty of espionage." Of the latter group, he said, "I don't think those people are going to benefit from diplomatic immunity

Ghotbzadeh said the reason arrangements were being made for all the hostages to be visited was to show the world that allegations the captives have been mistreated are untrue. Some of the hostages have not been seen by neutral observers since the day the embassy was seized Nov. 4

The Moslem militants holding the captives have vowed to keep them until President Carter extradites Shah Mohammad Reza Pahlavi to Iran to stand trial as a war criminal.

Khomeini's forces ousted the shah's government in February. The toppled monarch is now convalescing at a U.S. Air Force base in Texas following cancer and gallbladder surgery in New York. The Carter administration has refused to extradite him

Khomeini's confrontation with the United States is not the only crisis he is embroiled in. Ethnic Turkish rebels have claimed control of the capital of northwestern Azerbaijan province, and said any government peace mission must be approved by the religious leader whose reservations about Khomeini's theocratic constitution touched off bloody rioting.

Supporters of Ayatollah Mohammed Kazem Shariat-Madari, Iran's second most important religious leader after Khomeini and spiritual head of the nation's 13 million ethnic Turks - about one-third of Iran's population - seized the radio and television station in the Azerbaijan capital of Tabriz on Thursdav

They said they ousted Gov. Noreddin Gharavi, and his fate was not immediately known. A spokesman at the Tabriz office of the Moslem People's Party, which is loyal to Shariat-Madari, said: "We haven't had a governor for 24 hours.

## Iran crisis at-a-glance-

#### By The Associated Press

Iran's foreign minister said some hostages might be freed and that it will make a statement within 48 hours on a spy trial for some of the hostages - with possible death sentences - as the crisistin Iran reached its 34th day. Here are the highlights:

#### Khomeini's government

Ayatollah Ruhollah Khomeini's regime announced it will set a spy trial date soon for some of the 50 American hostages and that death sentences were possible

Foreign Minister Sadegh Ghotbzadeh also said he hoped those not suspected of spying will be released "as soon as possible," and that arrangements were being made for all the captives to be visited.

There have been persistent, but unconfirmned reports that about eight hostages have been under intensive interrogation during the past two weeks.

#### In Iran's provinces

Ethnic Turkish rebels claimed control of the capital of northwestern Azerbaijan province today, and said any government peace mission must be approved by their religious leader, whose reservations about Khomeini's theocratic constitution touched off bloody rioting.

Supporters of Ayatollah Mohammed Kazem Shariat-Madari, spiritual head of Iran's 3.5 million ethnic Turks, seized the radio and TV station in Tabriz.

#### Washington reaction

The State Department labeled as "absolutely outrageous" the Iranian announcement that some of the Americans will soon be given a date for trial as spies

However, spokesman Walter Ramsay said the government welcomed the neutral visits to the hostages.

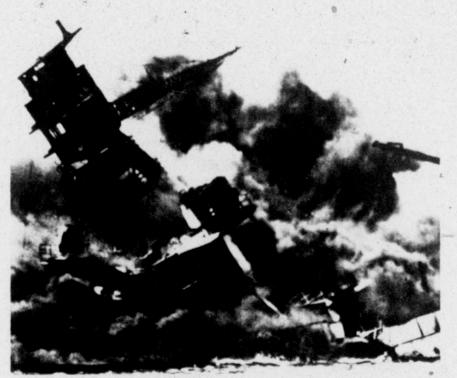

Meanwhile, Carter administration officials were meeting today with families of the hostages. The department invited one member of each hostage family to the session and was paying to fly relatives to Washington.

#### The shah in Texas

State District Judge Peter Michael Curry ruled San Antonio officials could deny parade permits to Iranian students who sought to protest the arby Lackland

## Pearl Harbor bombing recalled

## Special significance to ceremonies this year

The battleship Airzona belches smoke after the surprise Japanese attack on Pear Harbor on Dec. 7, 1941. (AP Laserphoto)

PEARL HARBOR<sup>®</sup> Hawaii (AP) - There were no guest speakers at the "off. year" ceremonies today marking the surprise bombing of Pearl Harbor. But this year, the ceremonies took on a special significance as some 50 Americans remained hostage at the U.S. Embassy in Tehran.

Two-thirds of the Americans now living had not been born the day 38 years\* ago that Japanese bombs shattered a quiet Sunday morning and plunged the nation into World War II.

The unexpected attack left the U.S. Pacific Fleet smashed and burning, hundreds of war planes destroyed on the ground and 2,300 people dead.

Marking the occasion were the traditional Pearl Harbor Day ceremonies aboard the Arizona Memorial, which spans the submerged oil-seeping hulk of the battleship Arizona. The memorial is engraved with the names of 1,177 crewmen lost

Presiding over the services was Pearl Harbor Naval Base Commander, Rear Adm. E. S. Briggs, who at the time of the attack was a 15-year-old Missouri schoolboy.

It was an "off year" commemoration and therefore there were to be no guest speakers, said a Navy spokesman. More elaborate ceremonies are held every five years after the attack.

Military personnel and employees here were to observe a minute of silence. In New York City, cab drivers planned to-shine their headlights in memory of Pearl Harbor and in support of the hostages being held in Iran, and in Falls City, Neb., Pearl Harbor Day coincided with "Free the Hostages Days.

While the number dwindles of those who remember hearing President Franklin Roosevelt call Dec. 7, 1941, "a date that will live in infamy," future generations will at least get a glimpse of the action.

A \$4.2 million Arizona Memorial Visitors Center is scheduled for completion next summer, offering twin movie theaters with films of the attack and a museum

By the end of this year, the Arizona Memorial will have been visited by more than 13 million people since the opening in 1962, a Navy spokesman said.

Each day, American and Japanese tourists line up side-by-side to wait for the boat and a trip out to the memorial

The city had also denied a permit to Ku Klux Klansmen who planned a counter-rally, fearing violence might result if the two groups mixed. During the hearing, the judge told a San Antonio College student he

would not side with the ailing shah or Khomeini. "The plague on both their houses," he said.

The shah's visit to the United States for medical treatment inspired the Nov. 4 embassy takeover.

#### The American public

Sixth graders asked Maine's governor "Will there be a war?" as two Rhode Island women joined the Carter administration in urging a flood of letters to protest the holding of American hostages in Iran.

University of Iowa students denounced "jingoist warmongers" in a : rally supporting their Iranian colleagues, but high school students in Rhode Island hung an effigy of Iranian ruler Ayatollah Ruhollah Khomeini.

#### Oil companies abroad

The stalemate in Iran, the burning of the U.S. Embassy in Libya, and anti-U.S. demonstrations elsewhere in the Middle East had oil companies worried.

Most U.S. companies operating in the region said they were taking steps to protect employees and their families. Some companies have begun evacuating the families.

#### Shah's nephew shot and killed

A nephew of the deposed Shah of Iran was shot and killed today as he left his mother's home in Paris' fashionable 16th district, police said. Sources said the man was shot twice in the head with a pistol as he left the house. His mother is a twin sister of Shah Mohammad Reza Pahlavi.s

Police said the victim, one of two sons of Princess Ashraf, was shot by a motorcyclist at about 1 p.m.

Princess Ashraf is not now in Paris, the sources said. The yictim, whose name was not immediately available, was identified only by his relationship to Princess Ashraf. In New York, a spokeswoman for the shah confirmed the shooting, but did not know which of the two sons was the victim

## Another standby gas rationing plan being drafted

WASHINGTON (AP) — The Carter administration is making another stab at drafting a standby gasoline rationing plan that would be used only. in a severe shortage.

Energy Secretary Charles W. Duncan said Thursday the new plan, being published today, would involve distribution of gasoline rationing coupons on the basis of vehicle registrations.

It was reported earlier this week that the plan, which would go into effect if supplies fell short by at least 20 percent for 30 days or more, would give ordinary motorists three-quarters of their normal usage

Duncan's announcement came as he set a national target of holding gasoline consumption next year to no more than this year's level. To meet that target, he proposed a set of voluntary gasoline conservation goals for each state.

President Carter proposed a standby rationing plan Feb. 27 that would have involved mailing gasoline allotment "checks" to owners of registered vehicles. Under the plan, the checks would have been "cashed in" for ration coupons

The House rejected that plan in May

In October, after prolonged wrangling, Congress agreed to legislation that authorized the president to prepare a standby rationing plan.

The measure set out the following conditions:

Outside

tails on Page 2A.

to

So

C

-The plan must go to Congress and could be rejected by a veto in both houses

-The plan must take into account past state gasoline consumption patterns

-In a shortage of less than 20 percent, rationing could be imposed only with the agreement of both houses of Congress

-In a shortage of 20 percent or more, lasting at least 30 days, the president could impose rationing as

682-5311

682-6222

682-5311

long as neither house objected.

The legislation also made counterfeiting of ration coupons a federal crime equal in seriousness to the counterfeiting of money

Some 4.8 billion gasoline rationing coupons, printed during the 1973-74 Arab oil embargo, are stored in Army ammunition bunkers near Pueblo, Colo

Duncan, in announcing the rationing plan would be released today, revealed no details of the proposal. He did say: though, that extra rations would be available for such high-priority needs as farming and public services.

\*7

He also told a news conference that other options, short of rationing, are being considered. Among those, he explained, are requiring each vehicle to stand idle one day a week, permitting vehicles to fill-up only once-aweek or asking Congress to raise the federal gasoline tax from the current 4 cents a gallon to as much as 50 cents

## United Way's volunteers expect goal to be reached

United Way volunteers were expected to close out the campaign for 1980 today with a victory celebration for reaching the \$1,017,000 goal.

Campaign chairman W.F. "Bill" Ortloff was to announce ht: achievement of the goal at a noon volunteer report meeting at the Midland Hilton

Achievement of the goal will ensure that each of the 19 member agencies can continue to provide needed community services and programs.

Allocation hearings for the agencies are in progress now and the United Way board of directors will make a final decision on allocations Dec.

## Lamesa woman, 78, killed when car collides with truck

LAMESA - Martina Rodriquez, 78, of Lamesa was killed Thursday morning when the car in which she was a passenger collided with a tractor-trailer truck, according to Lamesa police.

Mrs. Rodriquez died at 11:10 a.m. Thursday in Medical Arts Hospital here, about 40 minutes after the accident occurred, officials said.

Driver of the car, Encarnacion Rodriquez, 83, Mrs. Rodriquez's husband, was slightly injured in the accident and was treated and released from the hospital, police said.

Lloyd Wayne Terrell of Seagraves, driver of the truck, was not injured in the accident, officials said.

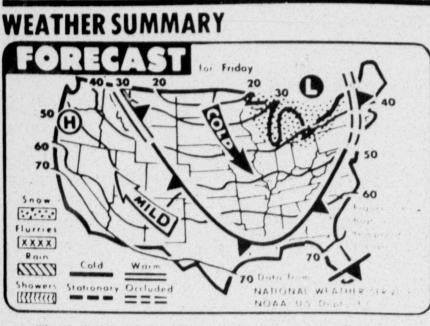

Police reports indicated the truck was northbound on Lyan Avenue and the Redriguez auto was southbound when the collision occurred.

## First secretary of education sworn in

WASHINGTON (AP) - The newest member of President Carter's Cabinet, Shirley M. Hufstedler, says the Department of Education will seek to 'make dreams come true'' for Americans

The nation's first secretary of education was sworn in Thursday in a brief ceremony in the East Room of the White House.

Chief Justice Warren E. Burger administered the oath of office to the former federal appeals judge, who is often mentioned as the leading female candidate for the next vacancy on the Supreme Court.

She was meeting hundreds of her 14,000 new employees today in her first visit to the headquarters of what was formerly the U.S. Office of Edu-

## Two cleared years after conviction

ST. PAUL, Minn. (AP) - Two years after convictions for kidnapping, Donald Larson and Kenneth Callahan have been cleared by a jury that found them innocent after less than three hours of deliberation.

The verdict was a sudden end to a retrial that had taken eight weeks, with testimony from 153 witnesses and hundreds of exhibits introduced by prosecutors seeking to show that they had kidnapped Virginia Piper, bound her, and held her for ransom seven years ago.

Members of Callahan's family emitted shrieks of joy as the verdict was read in U.S. District Court here. Callahan himself smiled only slightlv

Larson, who still faces life in prison for the 1976 slavings of his wife, her lover and three children, grinned broadly

"I don't feel bitter," Callahan later told reporters. "I don't have time to be bitter. But I'm concerned that what was done to Donald and me could be done to anybody."

In 1977, a jury convicted Callahan and Larson, both 54, of the kidnapping. But that conviction was overturned on appeal, and a new trial was ordered.

Ronald Meshbesher, who represented Callahan, was blunt in assessing the new verdict by a jury of eight women and four men. "I don't think they bought any of the case," he said. "It stunk from the word 'go' and the jury sensed that."

Added Bruce Hartigan, Larson's attorney: "The main difference (between this trial and the one in 1977) was the jury. We had a young, intelligent jury. We had a questioning jury rather than an accepting jury.

Acting U.S. Attorney Thor Anderson, who prosecuted the case, said he believed the government's case was stronger this time because of new

cation in the Department of Health, Education and Welfare.

The president extolled the 54-yearold jurist as a believer "in excellence...and the value of human beings.

The ceremony set off a round of celebrations in the capital, including a victory banquet thrown by the National Education Association, the 1.8 million-member teachers' union that lobbied for years for a place in the Cabinet for education.

In a brief appearance at the NEA celebration, Mrs. Hufstedler said she would look to the nation's teachers for guidance. She said she prefers to consider herself a student rather than "the nation's school marm," as one magazine called her

"There is a voice in Washington at the Cabinet table that wants to listen to what you have to say," she said.

"I won't agree with every one of you - but of course, you don't agree with each other," she added, drawing laughter. The other major teachers' union, the American Federation of Teachers, opposed the separate department

Mrs. Hufstedler, a judge for 18 years, said, "It is incumbent to make this department (one) about which dreams can come true for the great hope of Americans to give all students, able-bodied or not, rich or poor, whether their skin is black, white, yellow or red or any shade of the rainbow...a chance to enter into the richness of the experience of the

mind.

Most of the new department's 152 programs will be transferred from HEW, but four other Cabinet agencies also are ceding their education agencies. The new department technically does not come into existence for up to six months from Mrs. Hufstedler's swearing-in.

Think it can't be done? Try a WANT AD! Dial 682-6222

In the meantime, she must choose a staff, and it was learned that she has offered the No. 2 job, undersecretary of education, to Lisle Carter, president of the University of the District of Columbia and a top HEW official in the 1960s.

When the new department is officially created, HEW will be renamed the Department of Health and Human Services.

Shirley M. Hufstedler, the nation's first secretary of education, kisses President Carter after she

tion will seek to "make dreams come true" for Americans, says Mrs. Hufstedler. (AP Laserpho

## Unemployment rate drops to 5.8 percent

WASHINGTON (AP) - The nation's unemployment rate dropped from 6 percent to 5.8 percent in November, a clear-sign that the economy remains healthier than most forecasters have expected, the government reported today

The Labor Department said total employment rose by 350,000 jobs during the month, while the number of jobless persons in the labor market. fell by 140,000 to just over 6 million.

During the past five months, the jobless rate has moved like a yo-yo, rising from 5.7 percent in July to 6 percent in August, back down to 5.8 percent in September, up to 6 percent again in October and back to 5.8 percent.

The pattern has been a welcome

## DEATHS Mary W. Baker

12

FLOYDADA - Services for Mary Williams Baker, 81, of Floydada, mother of Darleen Cockburn of Midland, will be at 2 p.m. Saturday in City Park Church of Christ here with Thomas Pauley, minister, officiating.

Burial will be in Floyd County Memorial Park directed by Moore-Rose Funeral Home.

She died Thursday in a Floydada hospital following an illness.

A native of Sycamore, she was married to Robert Lee Baker Oct. 11, 1956, in St. Jo. He died March 18, 1962. Mrs. Baker moved to Floyd County in August 1962 from Duncan, Okla., and was a member of City Park Church of Christ.

Other survivors include three daughters, a son, two sisters, two

surprise to the Carter administration. which had predicted that unemployment would rise well above 6 percent because of an expected recession that some economists believe already has begun.

"The economy is holding up better than predictions. I doubt if anyone in the administration will complain," said John Bregger, a Labor Department economist. He added, however, that a continued slowdown in the rate of growth of new jobs and recent layoffs by manufacturers could contribute to a higher jobless rate in December.

Bregger said the recent fluctuations in the overall jobless rate stem. from changes among the part-time work force

brothers, 11-grandchildren and 10 great-grandchildren

## Russell A. Doran

SAN SABA - Services for Russell Alexander Doran, 89, of San Saba and formerly of Midland, were to be at 11" a.m. today in the Howell-Doran Funeral Home chapel in San Saba. Burial was to be in City Cemetery. He died Wednesday in a Brady

nursing home. Doran was born March 24, 1890, in

San Saba County. He had lived in Midland several years where he sold real estate. He was a master Mason, a Shriner and a member of the Presbyterian Church.

Survivors include a son, Jack Doran of Corsicana; a daughter, Jane Lemke of Rochelle; nine grandchildren and 14 great-grandchildren.

## Carter bucks U.S.S.R. over plan to improve NATO nuclear force

WASHINGTON (AP) - President Carter, seeking to preserve NATO unity in the face of a strong Soviet propaganda barrage, is trying to persuade the leaders of Norway, the Netherlands and Denmark to accept plans for improving the alliance's nuclear deterrent.

Carter was to meet today with Prime Ministers Odvar Nordli of Norway and Andreas van Agt of the Netherlands, Denmark's foreign minister, Kjeld Olesen, was to meet with Secretary of State Cyrus R. Vance and national security adviser Zbigniew Brzezinski.

All three countries have voiced reservations about the U.S.-backed plan for introducing a new generation of nuclear missiles in Europe in the 1980s

The plan — to be considered by North Atlantic Treaty Organization ministers in Brussels next week has become a major test of the U.S. ability to lead the alliance in the face of determined Soviet efforts to prevent modernization of the NATO nuclear force.

Nordli was the first to arrive at the White House, meeting before his appointment with Carter with a highlevel group that included Vice President Walter F. Mondale, Vance, Defense Secretary Harold Brown and Brzezinski

"We have some very important questions to discuss," Nordli told Mondale, whose father was born in Norway

The Carter administration saw its" neutron weapons program derailedlast year. Because of this, it has taken great pains to insure the success of the missile initiative, which would place 572 new, long-range Pershing II and cruise missiles in Western Europe, replacing older, shorter-range weapons

The Soviets have expressed alarm

Fair skies and warm weather should continue through Saturday, according to the National Weather Service at Midland Regional Airport.

Although the low tonight is expected to drop into the low 30s, the high for Saturday is expected to warm into the low 60s.

Thursday's high was 59 degrees and the overnight low was 37 degrees. over the prospect of nuclear missiles in Germany. These missiles, for the first time, would be capable of reaching Russian cities. But the "trigger" would be controlled by the United States

The Russians have asked the West to stop the missile program and have offered to negotiate an unspecified reduction in the numbers of their new SS-20 mobile, intermediate-range nuclear missiles. They also have withdrawn a division of troops from East Germany

If the NATO missile program is approved, the Soviet Union has warned, it will take "appropriate measures," presumably by adding more SS-20s and Backfire bombers. The United States and Great Brit-

ain have rejected the Soviet arms reduction proposal. We can't accept the Soviet idea

that we do nothing while we negotiate," chief White House spokesman Jody Powell said Thursday. The administration argues that the

mere introduction of the SS-20 and the Backfire requires a NATO response to maintain a nuclear deterrence. Critics have said, however, that the NATO program would escalate the arms race by introducing new kinds of weapons.

In several months of preparatory talks, the administration has added a number of disarmament measures to the arms modernization proposal to counter the Soviet propaganda bar-

They include a withdrawal of 1,000 aging, short-range nuclear weapons from Europe, as well as a one-for-one replacement program as the new missiles are deployed in the mid-1980s. That would mean an overall reduction from 7,000 to 6,000 in the number of NATO nuclear weapons stationed in Europe

West Germany has proposed, with

Fair skies, warm weather to continue through Saturday, weatherman says

> Record high for Thursday is 78 set in 1966, while the record low for today is 20 set in 1976.

No rain has been recorded in the past 24 hours or the past month. Yearly rainfall stands at 13.25 inches. The yearly average is 13.50 inches, according to the weather service.

Winds are expected to be easterly tonight at 10-15 mph.

administration support, a withdrawal of 13,000 American troops from Germany in exchange for a withdrawal of 30,000 Soviet troops.

to)

But State Department officials acknowledged Thursday that the visits from Norway, the Netherlands and Denmark indicate that at least three allies are not yet ready to endorse that program.

Norway, according to Norwegian officials, wants serious negotiations with the Soviets to begin immediately. It is willing to let the other NATO countries procede, while maintaining its longstanding refusal to allow nuclear weapons on its soil.

Denmark, another country which does not allow nuclear weapons, is proposing a six-month delay in action on the proposal while the Soviet offer is explored.

The Netherlands' final position is not yet sE Dutch officials said. The Dutch have talked of approving production of the weapons but delaying a decision on deployment until the Soviet offer can be tested.

The Parliament handed the govern-

## Dave Lyons named as new Odessa American publisher

ODESSA - Dave Lyons, 50, of Columbus, Neb., has been named publisher of the Odessa American, replacing V. Lyle DeBolt who will become, assistant publisher of the Freedom Newspapers' Valley Group, headquartered at the Valley Morning

The Odessa American is also a member of the Freedom newspaper chain

The move, effective Jan. 1, 1980, will end a 30-year period in which members of the DeBolt family have been publishers of the newspaper.

DeBolt was named publisher of the paper in 1974 after the death of his father, V.L. DeBolt Sr., who had been publisher since 1948, according to Ray Cole, general manager for the Odessa American.

Lyons has been publisher of the 12,000-circulation Columbus Telegram since October 1972. He previously had worked as advertising director for the Freedom papers in the Rio Grande Valley Group.

A native of New York, Lyons began his newspaper career with the Brownsville Herald in 1953. He

ment of the Netherlands a setback Thursday when it rejected NATO plans to station the Pershing II and cruise missiles in Western Europe.

Observers of the Parliament said, however, the action does not bind the coalition Christian-Democrat government, which favors the plan.

State Department officials say the reservations expressed previously by the Dutch are the most critical, because the Netherlands is one of the countries in which alliance planners hope to base the new missiles.

One official said there were some fears of a "domino effect," in which Dutch desires for a delay could spread to Belgium and Italy. In both countries, there is strong domestic opposition to deployment of the weap-

If Belgium and Italy changed their positions, the cooperation of West Germany, where most of the missiles are to be stationed, would be jeopardized. The Germans do not want to bethe only continental member of the alliance to deploy the weapons.

worked as general advertising manager for the San Antonio Light from 1964 to 1969.

He is married and has four children.

The Odessa American is an afternoon newspaper with a Sunday circulation of about 40,000.

## Millions of Americans. Perhaps you.

Exxon's profits are split two ways. So far this year, 42%, of our profits have been paid out in the form of dividends on Exxon common stock. The remainder was retained by Exxon, primarily to help pay for new energy projects. You may benefit from both uses of our profits:

## Dividends

Millions of Americans have either a direct or indirect share in Exxon profits in the form of dividends. Beyond the 625,000 individuals who have a direct ownership in Exxon, there are 60,000 institutions such as pension funds, trust funds, colleges, foundations and insurance companies in which millions of people have a stake.

In 1979, Exxon's total dividends will give our shareholders a return of about 7% on the current price of Exxon stock.

## **Reinvested Profits**

Over the past ten years, more than half of Exxon's profits have been reinvested in the business, primarily to develop new supplies of oil and natural gas, coal, uranium, solar power and synthetic fuels. But the amount we must spend on these projects far exceeds our profits. We make up the difference mainly by borrowing money and from money set-aside to replace worn-out facilities.

So far in 1979, Exxon's investments in the energy business have been nearly 11/2 times as large as our profitsinvestments that will help to supply energy to millions of consumers.

SENSATIONAL OFFER

promising approach" to improving benefits for women.

A narrow majority of the 13-member panel said "serious consideration" should be given to raising the normal retirement age of 65, effective after the turn of the century

The panel recommended liberalization of Social Security's disability program and, in a rebuff to the administration, voted against most of the minor benefit reductions President Carter unsuccessfully sought to get through Congress earlier this year. A narrow majority called for doubling the \$255 burial benefit Carter wanted killed.

Councils are created by law every four years to advise Congress on Social Security, and past councils have pointed the way for many changes in the system.

Congress can reject any and all of the recommendations, but the council's 400 page report is certain to influence the on going debate in Congress about whether to roll back the

big payroll tax increase scheduled for 1981.

Henry Aaron, a Brookings Institution economist who chaired the council, said, "I think the chances (for congressional passage) are pretty good on some of our recommendations and possibly for all of them."

The report was peppered with dissenting footnotes, but the council was unanimous in saying "the time has come to finance some part of Social Security with general revenues.

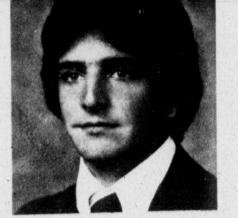

The council recommended trimming the payroll tax from 6.13 percent to 5.6 percent in 1980, and keeping it from rising to 6.65 percent in 1981. The wage base - \$22,900 now and headed for \$25,900 in 1980 and \$29,700 in 1981 - would be held to \$24,900 in 1980 and \$27,000 in 1981, under the council's recommendations

A majority said a portion of corporate and income taxes should be ear-

marked to pay for Medicare, which now absorbs 1 percent of the 6.13 percent payroll tax. Barring that, the majority said, Congress at least should use general revenues to hold the scheduled 1981 rate at 6.4 percent rather than the scheduled 6.65 percent.

But to allay the public's fears about Social Security's solvency, the panel said Congress should raise the payroll tax to 7.25 percent in the year 2005, putting it in the black for the next 75 years.

The council said taxing half the Social Security benefits would result in 10.6 million elderly people paying an average of \$350 a year in taxes in addition to what they already pay because of income from various private sources. An additional 13.6 million elderly people would not be affected because even with an increase in taxable income, their total would remain too low to be taxed.

vey No. 41 and 10 miles east of Bal-

The No. 1 A.L. Robertson is one mile southwest of production, 1,980 from north and west lines of section 1070, EL&RR survey.

The same firm's No. 1 J.G. Williams is one mile northwest of production in the north part of the field, 1,980 feet from north and west lines of section 1062, block D-19, EL&RR sur-

Both projects are scheduled to 4,800 feet.

#### \*\*\*\*

The Hoople (Clear Fork) field gained its tenth producer one location northwest of the discovery well, with the completion of Duncan Drilling Co. No. 3 Hoople, four miles southwest of Robertson.

Operator reported a 24-hour pumping potential of 62 barrels of 24-gravity oil and three barrels of water, through perforations from 4,394 to 4,414 feet, after an acid treatment of 6,000 gallons.

Total depth is 4,580, where 4.5inch casing is set and location is 1,650 from north and 2,310 from east lines of section 1065, block D-19, EL&RR survey.

#### CROCKETT TESTS

Dameron Petroleum Corp. of Midland will drill No. 1-16 W.P. Hoover as a 1.75- mile northwest outpost to the Spraberry B production and 3.25 miles southwest of Spraberry D production in the American field of Crockett County, 33.7 miles southwest of Ozona.

Location is 1,500 from south and 1,730 from west lines of section 16, block NNN, GC&SF survey. \*\*\*\*

The same firm will drill the No. 1-13 W.P. Hoover as a one and threeeighths-mile northwest outpost to Canyon production in the southwest area of the American field.

Location is 467 from most northerly north line and 1,980 from most northerly west lines of section 13, block NNN, GC&SF survey. Both test are scheduled to 7,600

feet.

#### PECOS EXTENDER

Northern Natural Gas Co. of Midland completed the No. 1-11 Hershenson as the fourth well and 3/4-mile southeast extension to the Hershey, West (Devonian-Montoya) field of Pecos County, 35 miles west of Fort Stockton.

Operator reported a flowing potential of 11.5 million cubic feet of gas per day, through a 12/64-inch choke, and flowing tubing pressure was 3,310 pounds

Production was through perforations from 15,804 to 16,335 feet. Total depth is 16,662 feet, where

5-inch liner is set. Location is 1,000 from north and west lines of section 11, block 51, T-10, T&P survey.

## **Bass completes middle** Morrow opener in Lea

Perry R. Bass, operating from Midland, announced completion of a middle Morrow gas discovery in Eddy County, N.M.

The strike, No. 76 Big Eddy Unit, finaled for a calculated absolute open flow potential of 1,800,000 cubic feet of gas per day, through perforations from 12,093 to 12,307 feet. The discovery, 10 miles northeast of Carlsbad, is bottomed at 12,622 feet and 5.5-inch pipe is cemented at 12,612 feet.

LEA OILER

David Fasken of Midland No. 1-23 Baetz is a new flowing well in an undesignated Bone Spring area of Lea County, just north of Halfway. The well finaled for a daily poten-

tial of 163 barrels of 42.4-gravity oil.

## Canada to hike exports

The Midland Reporter-Telegram

FRIDAY, DECEMBER 7, 1979

OTTAWA (AP) - Canada has agreed to nearly double its natural gas exports to the United States through 1987 and says it will sell the additional 3.75 trillion cubic feet of gas at current prices, which are lower than Mexico's.

Ray Hnatyshyn,' the Conservative government's energy minister, announced approval of the additional sales on Thursdav

He said the gas from Alberta would be sold at the current price of about \$3.45 per 1,000 cubic feet. That's 17 cents less than the \$3.62 per 1,000 cubic feet Mexico will start charging the United States for its gas after Jan. 1.

Hnatyshyn's announcement drew immediate criticism on grounds Canada will need the gas itself.

Marc Lalonde, the opposition Liberal Party's energy spokesman, said it was "one of the biggest sellouts in Canadian history." He said the additional gas exports came at a time when Canada faced its own energy shortages, and he predicted the nation "will live to regret it."

The additional gas is almost twice what Canada's National Energy Board had calculated last March would be surplus to Canadian needs through the 1980s. Canada currently uses about 1.6 trillion cubic feet a year and exports about 1 trillion cubic feet.

Hnatyshyn answered critics. saying he was satisfied the energy board had made "ample provision" for Canada's future energy needs, even taking into account the greatly expanded markets in Quebec, the Atlantic provinces and British Colum-

bia Pan-Alberta Gas Ltd., of Calgary, was given government permission to provide almost half the total new exports in a bid to encourage early construction of southern portions the proposed trans-Canadian pipeline. Eventually that pipeline will carry Alaskan natural gas across Alberta to the United States

Pan-Alberta is partly owned by one of the Canadian companies working with U.S. firms on the pipeline project.

The rest of the additional gas will be supplied by nine other

## Explorers, field discoveries reported in Basin counties

Great Western Drilling Co. of Mid- through perforations between 3,118 land will drill a 13,000-foot wildcat 1.5 milesnorth of a 12,625-foot failure and two miles southwest of a 12,800-foot

failure in Reeves County. Operator originally abandoned the location in October 1979 and is refil-

COKE PROBE

ASORA Inc. of Abilene will drill No. 1 R.G. Blackwood as a 5,350-foot wildcat in Coke County, one mile north of the Wendkirk, West (Capps and Cross Cut) field five miles east of Robert Lee.

Site is 467 from north and 3,750 from west lines of section 966.5, J. Johnson survey, abstract 473.

The field produces from the Cross Cut at 5,010 feet.

#### CROCKETT WILDCAT

The Canyon Co. of Midland spotted No. 1-1B Laura Hoover Estate as a 7,600-foot wildcat one and one-eighth mile northeast of the American (Canyon gas) field of Crockett County. Wellsite is 2,300 from south and

1,439 from west lines of section 3, block MM, T&StL survey, 28.4 miles southwest of Ozona. \*\*\*\*

The same firm will drill the No. 1-3B Laura Hoover Estate as a one and five-eighths mile southeast outpost to Canyon gas production in the American field.

Location is 793 from north and 805 from east lines of section 3. block MM, T&StL survey. Contract depth is also 7,600 feet.

D. J.H. Gibson survey **IRION EXTENSIONS** and 3,130 feet. Tucker Drilling Co. Inc. of San An-

ENERGY

OIL & GAS

The pay was acidized with 500 gallons, gas-liquid ratio is 75-1. Formerly reported as a field test in

the Garza field, total depth is 4,000 feet, where 5.5-inch casing is set, and plugged back depth is 3,500 feet. The top of the San Andres is 2,729

feet and Glorieta, 3,550 feet. Location is 990 from north and 815 from east lines of section 1229, **D&SE** survey

#### STONEWALL SITE

Sun Oil Co. will drill the No. 4 Etta Brock, one location south of Ellenburger oil production in the Mullen Ranch field of Stonewall County.

The 6,500-foot test is 1,980 from north and 660 from west lines of section 212, block D, H&TC survey, five miles north of Swenson.

#### YOAKUM PROJECT

. Getty Oil Co. spotted location for the No. 2-D J.H. Beshears 1/4 mile west of the same firm's No. 1-D J.H. Beshears, drilling below 11,225 feet in the Brahaney (Devonian) field of Yoakum County, four miles southwest of Plains.

Location for the 11,800-foot test is 2,173 feet from north and 3,300 feet from west lines of section 514, block

#### FIELD AREA

Moroilco, Inc., of Artesia, N.M., No. 1 Duncan-Federal is a new Penrose well in the Henshaw pool 10 miles northwest of Maljamar in Eddy Coun-

It finaled for a calcualted absolute open flow potential of 502,000 cubic feet of gas per day, through perforation from 2,524 to 2,534 feet. The pay was acidized with 500 gallons and fractured with 16,500 gallons.

Total depth is 3,010 feet and 4.5-inch pipe is set on bottom.

Location is 660 feet from south and west lines of section 11-16s-30e.

#### CHAVES OILER

A small pumper has been completed in the Diablo (San Andres) field of Chaves County, N.M., by Plains Radio Broadcasting Co. of Amarillo. The well, No. 1 Diablo, potentialed on the pump for 4 barrels of 23-gravity oil and no water, through perforations from 2,084 to 2,112 feet. The gas-oil ratio is too small to measure.

Total depth is 2,215 feet and 4.5-inch casing is set on bottom. The pay was acidized with 6,000 gallons.

Wellsite is 990 feet from south and west lines of section 15-10s-27e and 20 miles northeast of Dexter.

## Atlantic sale back in court

BOSTON (AP) - The question of offshore oil drilling in the rich fishing grounds of Georges Bank was going back to federal court today as opponents tried to win another delay in the leasing of 660,000 acres of deep-water real estate.

A coalition, including the states of Massachusetts and Maine and the Conservation Law Foundation, has asked the 1st U.S. Circuit Court of Appeals to halt the sale scheduled for Dec. 18.

Last month the coalition won a lastminute delay in a sale going on in a Providence, R.I., hotel. The sale was halted by Supreme Court Justice William Brennan after a U.S. District Court judge and the appellate panel refused to issue an injunction.

The entire high court later vacated Brennan's order.

In those hearings, attorneys argued the U.S. Departments of Interior and Commerce failed to show what impact an oil spill would have on the fishing grounds.

through an 18/64-inch choke and perforations from 10,288 to 10,362 feet. The gas-oil ratio is 1,147-1. Completion was natural.

Total depth is 13,640 feet and 4.5inch oil string is cemented at 10,483 feet.

Location is 1,980 feet from south and west lines of section 23-20s-32e.

#### RUNNELS PROSPECTORS

ATAPCO of Midland filed application to re-enter and deepen to 4,000 feet as a wildcat and as a confirmer to McMillan sand, Jennings and Gardner sand oil production in the Lindemann field at the former Miami Operating Co. No. 5 C.L. James,

The 2,500-foot failure is eight miles northeast of Ballinger and will be. operated as the No. 1-B C.L. James. Location is 1.012.7 feet from north and 861.1 feet from west lines of Nor-

vell Travis survey No. 533.

Stroube, Reiff & Lewis of Abilene will drill No. 1 Barker as a 4,400foot wildcat in the Goldsboro (Gardner) field of Runnels County, six miles north of Crews

Location is 1,686 feet from south and 1,462 feet from west lines of L.D. Counts survey No. 2, abstract 1369.

#### MITCHELL GAINS OILER

TIPCO Inc: filed potential test on No. 15 Edwin Parks, one and threeeighths miles northeast of the Dixon (Odom Lime) field of Mitchell County, five miles north of Silver.

Operator reported a 24-hour pumping potential of nine barrels of 42-gravity oil and 16 barrels of water, through perforations from 6,901 to 6,910 feet, after 1,500 gallons of acid. Drilled to 7,200 feet, 5.5-inch casing

is set at 7,110 feet and plugged back depth is 7.089 feet.

Location is 3,300 from south and 1,980 from east lines of section 2, block 12, H&TC survey

#### SUTTON PROJECTS

American Quasar Petroleum Co. of Midland filed application to drill four outpost to Canyon gas production in the Shurley Ranch (Canyon) field of Sutton County.

The No. 1-3 Shurley, link test, is five-eighths mile east and west of production and 1,800 feet from north and 1,320 feet from east lines of section 3, TTRR survey.

The No. 2-3 Shurley is one-half mile south of production, 1,320 feet from south and west lines of section 3, **TTRR** survey

The No. 1-4 Shurley is five-eighths mile southeast and southwest of production, 1,320 feet from south and 1,000 feet from east lines of section 4, TTRR survey.

The No. 2-4 Shurley is five-eighths mile south and east of production, 10 feet from south and 933 feet from west lines of section 4, TTRR survey.

All four tests are eight miles south of Sonora.

companies.

The minister's announcement came on a day when the government came under attack in House of Commons over predicted shortages of heating oil in eastern Canada this winter. Opposition critics suggested the government should cut oil exports to the United States.

Canada currently ships about 100.000 barrels of oil a day to the United States, along with 75,000 barrels a day of refined petroleum products, including heating oil.

## 99 openers reported

AUSTIN (AP) — The Texas Ra road Commission said Wednesday on and gas operators reported 21 oil discoveries and 78 gas discoveries during the last half of November.

Through November, the commis sion said, operators have reported 482 oil discoveries, 54 more than in that 11-month period last year. A total of 1,119 gas discoveries have been reported this year, 143 more than in the first 11 months of 1978.

The new November oil discoveries - or wildcat wells - included six in West Central Texas; four in South Texas; three in the Refugio area; two each in East Texas and North Texas; and one each in East Central Texas and the San Antonio, San Angelo and Midland areas.

The new gas discoveries included 20 in South Texas; 19 in the Refugio area; 16 in Southeast Texas; 14 in West Central Texas; four in the San Antonio area; and one each in East Texas, North Texas, the Panhandle and in the San Angelo and Midland areas.

terminal.

TOM GREEN OPENER

Earl R. Bruno of San Angelo completed a Canyon gas discovery in Tom Green County 1.75 miles northeast of the depleted Veribest, South (Ellenburger) field, nine miles east of San Angelo.

The No. 1 Weatherford completed for a calculated absolute open flow of 708,000 cubic feet of gas per day, through perforations from 3,173 to 3.181 feet

The well was originally drilled by Sun Oil Co. as the No. 1 B.R. Weatherford and abandoned in 1963. Location is 1,980 from north and

west lines of section 104, block 11, SPRR survey.

#### **IRION DISCOVERY**

Cola Petroleum Co. of Midland announced a San Angelo pay opener and suggested new field designation of Crash for its No. 1-S Tankersley, northeast twin to the Canvon opener and and 1.74 miles northwest of the depleted Winterbotham (San Angelo) field.

Operator reported a daily pumping potential of 35 barrels of 33-gravity oil and no water, through open hole section between 1,335 feet, where 7-inch casing is set, and 1,450 feet, plugged back depth. Production was natural. Total depth is 1,645 feet,

The San Angelo was topped at 1,335 feet on ground elevation of 2,335 feet. Location spots 545 from north and 1.017 from west lines of section 4,

GC&SF survey, six miles southeast of Mertzon.

#### GARZA OPENER

Sun Oil Co. has announced completion of the No. 31-C Post Estate, lower San Andres discovery in the Garza field, two miles southeast of Post.

Operator reported a 24-hour pumping potential of 277 barrels of 31.6gravity oil and 22 barrels of water,

## Spooky raindrops, melted plastic only signs of a near catastrophe

MIDDLETOWN, Pa. (AP) Spooky raindrops, radioactive debris and a melted plastic chain are the only visible signs that a catastrophe nearly erupted in the building that houses Three Mile Island's mangled nuclear reactor.

Reporters got their first televised

Arnold said the television project was not designed to view the reactor's uranium core, still sealed inside a carbon steel vessel, nor did if try to show 600,000 gallons of highly contaminated water in the building's basement.

But clearly visible were raindrops

THE MIDLAND REPORTER-TELEGRAM, FRI., DEC. 7, 1979

## South Texas puts oil spill case before House

WASHINGTON (AP) - South Texas government and business representatives have put their case before a House panel considering a measure that would offer federal compensation for damages caused by the massive Ixtoc I oil spill.

Our business community has suffered great losses through no business decision made by our business people and for which no insurance can be purchased," Kirby Liljendahl of South Padre Island said Thursday at a House subcommittee hearing.

The beach town was among the hardest hit by the scarcity of tourists during a peak summer period.

A bill introduced by Rep. Joe Wyatt, D-Texas, would authorize up to \$80 million in federal funds to compensate for damages or losses caused by oil that arrived on Texas beaches from the Mexican well.

Ralph Thompson of the South Padre Island Tourist Bureau estimated that hotel occupancy rates dropped from about 100 percent to 30 percent as news of the oil threat spread.

He said the start of the winter tourist season would show how effectively a publicity campaign has spread the word about the oil-free beaches.

Although winds and currents changed to drive the oil back toward the south, the spill in the Bay of Campeche continues and the reversal of currents in the spring could threaten the Texas coast again.

"This time it may not go away after a month," Wyatt said. "It might last all summer

Texas officials threw their support to the compensation bill.

Lawsuits have been filed by the state's attorney general, local governments and private organizatons seeking millions of dollars in dam-

Doug Caroom, representing Texas Attorney General Mark White, saidfederal compensation would relieve the international repercussions stemming from the pending lawsuits.

Any recovery for damages that the federal government later received from private companies, the Mexican national oil company or the Mexican government would replace the expenditures of the compensation fund.

The state of Texas' suit does not name the Mexican national oil company as a defendant. Caroom predicted, however, that it would be likely for the company to be named in the suit and relatons with Mexico could suffer as a result

'Litigation of this sort is never pleasant," he said."

He said another advantage of federal compensation would be a speedy resolution to the claims that face long and complex battles in the court. Frank Cox, representing Texas Gov. Bill Clements, also endorsed the

## New law plugs loophole in military justice law

WASHINGTON (AP) - A new federal law plugs a loophole through which some military personnel have escaped court-martial punishment by claiming fraudulent enlistment, ac cording to Pentagon lawyers.

Language to accomplish this was written into the Uniform Code of Military Justice in legislation signed by President Carter on Nov. 9. Congress amended the military jus-

tice law after strong appeals from the Defense Department for action to neutralize the effects of a 1975 ruling by the Court of Military Appeals. That ruling involved Armý Pvt.

Louis W. Russo, who had been convicted on charges of having been absent without leave.

Pentagon lawyers said Russo had

cance of enfisting in the armed force

"Where there has been a constructive enlistment as evidenced by voluntary submission to military authority, receipt of military pay and allowances, and performance of military duties, in circumstances where the individual met the mental competency and minimum age requirements

The lawyer contended that invalidating enlistments because of recruiter malpractice "introduces an 'unacceptable degree of uncertainty' into the military justice system. "Under the Russo line of cases,

she said; "it is possible for an individual knowingly and intelligently to enter military service and receive

look inside the containment building Thursday, by way of a remotely operated camera poked through a water heating and evaporating into hole in the building's wall last month

The gray, cylindrical building attracted world attention for several weeks last spring when a cooling mechanism in the reactor went awry; causing the worst commercial nucle ar accident in U.S. history.

But lethal levels of radiation prevented anyone from looking inside until a 9-inch hole was drilled in its massive concrete wall Nov. 10.

According to Robert Arnold, chief of the recovery operation at Three Mile Island, the best thing about the film was what it did not show.

"I think what it shows is that there is not any evidence that the hydrogen detonation that occurred March 28, on the afternoon of the accident, caused any sign of structural damage inside the building

swirling past the camera lens. Arnold said they are caused by the basement the air. When the warm air rises to the top of the building, it cools and condenses into droplets

The raindrops appeared to be fall ing at an angle, and sometimes whipped about like snow in a flurry, a phenomenon Arnold attributed to a ventilation system inside the build

At one point the camera focused on a horizontal flat area next to a track supporting fuel handling equipment. The area was covered with a mottled dark substance.

'The speckling next to the track is believed to be surface contaminasaid the video tape's sound tion. track

Arnold said the material is probably the residue of chemicals spraved to absorb airborne radioactive io-

been helped to pass Army entrance tests. This led the appeals court to hold that his enlistment was invalid and that, as a result, he could not be

tried under military law recently as Oct. 25, when a U.S. Navyjudge in the Philippines ruled that a sailor could not stand trial before a court-martial on charges of killing a bar girl. The Navy judge acted on grounds that the sailor had been enlisted fraudulently

In arguing for changes in the military justice code, Pentagon<sup>2</sup> general counsel Deanne G. Siemer told a House committee on June 11 that the proposed amendments "represent a prudent approach" by providing the military services jurisdiction to try individuals in two types of situations

-"Where there has been a voluntary enlistment by a person who has the capacity to understand the signifi-

military pay, allowances, training and benefits without being subject to court martial jurisdiction. 'An individual might serve for

months and even years, only to claim The Russo rule came into play as e an absence of jurisdiction upon an allegation of recruiter misconduct when confronted by court martial charges Pentagon lawyers said the new leg-

islation leaves untouched another ruling by the Court of Military Appeals in 1974, in which an absent-withoutleave conviction against Army Pvt. Thomas W. Catlow was thrown out on grounds that his was a forced enlist-

ment According to legal records, there was a showing that Catlow enlisted in the Army after a juvenile judge gave him a choice of doing that or serving in jail for five years. The records did

not specify why Catlow was brought before the juvenile judge at the age of 17.
