

THE MULESHOE JOURNAL

Dedicated to the Progress and Development of Bailey County and the South Plains of Texas

LITTERA SCRIPTA MANET—THE WRITTEN WORD ENDURES

MULESHOE, County Seat of Bailey County, TEXAS, THURSDAY, MAY 7, 1942

TWENTIETH YEAR, No. 17

Spring Term Of District Court Gets Underway

The spring term of district court opened here Monday before Judge C. D. Russell, with the grand jury returning three indictments, each of them resulting in a plea of guilty.

Raymond Bengue was sentenced to two years in the state prison after he pleaded guilty to a charge of theft. The charge alleged that he stole \$79 from W. Merrill Stevenson at the latter's home near Muleshoe last January.

H. T. Boddie received a two-year suspended sentence after pleading guilty to a charge of removing mortgaged property.

A three-year sentence was suspended in the case of John Newman, who pleaded guilty to a charge of arson of insured property.

Grand jurors serving at this term of court are: D. C. Stovall, H. J. Weyer, Mervin Willardling, E. J. Calloway, Charles Leas, Ernest Kalbas, Jesse Cummins, Tommy Galt, L. M. Dupler, Paul Sparkman, D. V. St. Clair and D. P. Ragsdale.

Court will be resumed May 18, at which time civil cases and additional criminal cases will be heard.

The following petit jurors have been called to appear at the next session:

A. W. Copley, Lonnie Arnold, J. A. McGee, Virgil Webb, A. B. Simmons, D. B. Head, W. J. Blalock, A. J. Shaffer, A. V. Lemons, J. M. Murrath, J. E. Day, J. W. Killough, J. J. DeShazo, T. H. Gaddy.

W. L. Patton, C. S. Sullivan, Perry Fort, Gordon Bain, J. R. Lee, James A. Cox, G. J. Garth, Clyde Holt, C. M. Walgrave, E. H. Place, W. T. Autry, Cecil Davis, J. H. Lucas, Arthur Askew, J. E. Embry.

Farm Labor Shortage To Be Worked Out

The Texas USDA War Board and the United States Employment Service will work together to help solve the farm labor shortage problem in order to insure the success of the Food for Victory program in Texas.

An agreement concluded by the two organizations calls for reports of labor shortages from county USDA war boards, frequent consultations between war boards and Employment service representatives, both at the state and county levels, and expansion of the employment service farm placement section in order to meet all requirements for farm labor.

When either a USDA war board or a local representative of the Employment service discovers or recognizes the need for an expanded service or the initiation of specific steps to alleviate a labor shortage, they will report the problem and take the necessary steps to supply labor. If it cannot be solved locally, the state groups will undertake a solution.

The agreement was signed by E. F. Vance, chairman of the Texas USDA War Board, and J. H. Bond, director for Texas United States Employment Service.

April's Rainfall Totals 2.96 Inches

Rainfall for the month of April was 2.96 inches, the weather station reported yesterday. This is very little short of the April rainfall for 1941. Total for the year now stands at 4.13 inches, compared to 5.75 inches at the same time last year.

Wanted: Names Of Service Men

Next week The Journal will compile a list of Bailey County men in the service of their country, and families who have representatives in the armed forces are requested to cooperate by sending in the name, rank and address of the soldier. If present address is unknown, send name, rank and where last stationed.

Plans are to make this "honor list" a regular weekly feature of The Journal, and the help of all is requested.

Information should be mailed or brought to The Journal office as soon as possible.

Exercises For 8th Grade To Be Held May 14

Commencement exercises for eighth grade graduates will be held at the high school auditorium at 10 a. m., Thursday, May 14, and school officials request that the parents of each child be present.

The program follows: Invocation: Supt. W. C. Cox. Class Song: Class. Presentation of Awards and Diplomas: H. D. Bentley. Members of the class are: Betty Lou Atchison, Raymond Bass, Billy Bentley, Louise Beebe, an, Billy Block, Mauris Buchanan, Ernest Gattin, Louise Gilliland, Betty Greer, Doyle Griffin, Robert Harvey, Melvin Howard, Douglas Howard, Juanita Hammons, Billie Jenkins, Margaret Ann Johnson, Zane Lambert, Evelyn Lambert, Fred Lambert, Vinita Magby, William Mitchell.

Norma Lee Osborn, Ozell Owen, Betty Jo Sterling, Jessie Snow, Joyce Taylor, Lee Roy Thomas, Nancy Thurman, J. C. White, Virginia White, Jess (Peaky) Winn, Jack Young.

Windstorm Hurts Gardens, Flowers

One of the most severe wind storms in many months visited this section last Tuesday and Wednesday. Home gardens and flowers, which were so promising, are now practically ruined in many instances. Large limbs were broken off trees over town, and farms which were ready for planting were blown out so that they will have to be prepared again.

Very little damage was reported on the large truck farms, but few of them had been planted with full crops when the storm struck. Onions, which were up to a nice stand, were cut down to the ground, but growers say they will come out again within a few weeks.

RELATIVE LOCAL WOMEN HELD IN FLORIDA

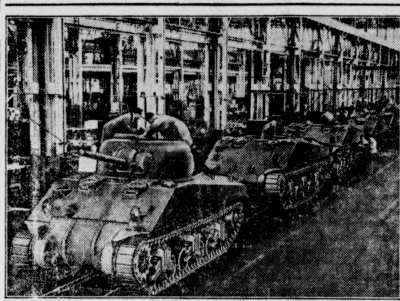

Funeral services will be held at Manhattan, Kans., Friday afternoon for S. A. Diebler, father of Mrs. Arthur Ryan. Mr. Diebler died Sunday at his home in Daytona Beach, Fla. He is a brother-in-law of Mrs. Gus Priboth and Mrs. Myrtle Priboth.

Mrs. Ryan and daughters, Margaret and Virginia, and the Mesdames Priboth left Monday for Manhattan to attend the funeral services.

DISPLAY AT SCHOOL

The public is invited to view a display of drawings, models and research findings at the high school during commencement week. The display will be in Room 10, laboratory department, which will be open every day next week during "study" hours. Parents and visitors will find this exceptionally interesting and well worth their time.

Tanks for U. S. Fighting Forces

Uncle Sam's latest type tank, the all-welded 80-ton M-4, is being built on an assembly line such as is shown above. The big battle wagon in the foreground is the first one off the line.

Farmers And Ranchmen Are Paying Debts

Farmers and ranchmen generally are cutting down debts at a more rapid rate than at any time in the history of the land bank system, reported H. E. Schuster, director of the Western National Farm Loan Association upon his return from a conference of representative directors of 19 associations held at Lubbock on April 30.

This group of directors, meeting with officers of the Federal Land Bank of Houston, reported that farmers' cash is flowing into debt retirement and that the land bank's loans are in the best condition in 10 years. In addition, they said, a reserve fund of approximately \$850,000 already has been stored up by land bank borrowers as a cushion against future conditions. The land bank's interest on funds placed in the "future payment fund" equal to the rate paid by borrowers on their loans.

The directors urged that land values be appraised on the normal agricultural value rather than according to market trends. This policy helped to prevent wholesale foreclosures during the depression and is equally important now in times of rising prices.

They said, it was explained that a farm or ranch family must go through periods of both high and low prices and good and bad yields during the years it spends in paying off a long-term mortgage; this makes the normal production value of the land based on average income a safe guide.

Total land bank and land commissioner loans outstanding through these 19 associations represented at this meeting amount to 14,876 for \$30,910, \$21.02.

Fire Department Is Reorganized

At a meeting Thursday night, April 30, the Muleshoe Fire Department was reorganized. This became necessary through the loss in membership of men going to army and navy service.

Sixteen members were present and new officers were elected as follows: Arthur Crow, fire chief; Tye Young, first assistant; Irvin St. Clair, second assistant; R. J. Kiump, secretary treasurer; and Wayne Vardeman and J. H. Holmes, captains.

A few new members have been added during the past week, and the company will soon be back to the required strength.

RETURN FROM DALLAS

R. L. Brown, local realtor, and Mr. and Mrs. Paul Paine arrived in Muleshoe Tuesday night from Dallas. Mr. Brown and Mr. Paine drove down Sunday. Mrs. Paine returned with them. They drove back by way of Crowell and Mr. Brown said press reports of the devastation wrought there by last week's storm were not in the least exaggerated. Mr. Paine recently bought an all-pipe farm near Muleshoe, and improvements on the property, including an irrigation well, are underway.

25 Men Complete Bailey County's Army Call For May

The following Bailey County men have been called for induction into the armed forces May 13:

- Carl Wallace Young
- Frank Lee York
- Oleis Earl Hollman
- Lawrence Thomas McQuillen
- Addison Godfrey Gordon
- Barney C. Kizer
- Wilford Ray Adrian
- Chester Lee Atchison
- Volunteers already in the service who complete Bailey county's quota for the current call, are: Quentin Willard Aday
- Joe Bill Alsup
- Leo Keller Alford
- Harold Lewis Atchison
- Edwin Wayne Atchison
- Delbert Clifton Baker
- Henry Leon Barbour
- Jack Neil Barbour
- Myron Key Bayless
- Cecil Lee Beems
- Edward Latchford Beggs
- J. W. Blue
- Harold Manning Brinker
- Evered Dean Case
- Tommy Leo Carlisle
- Harold Lewis Carpenter
- George Neal Carter

Land Man Says "It Pays to Advertise"

AUSTIN, April 28 — Bazcom Giles, Commissioner of the General Land Office, today announced the awarding to the highest bidder of 983 tracts of school land which had been advertised for sale on April 8 by the School Land Board.

Commissioner Giles said after studying the numerous bids received that "this was the most successful sale of school land held in recent years. The Public Free School Fund received the highest average price per acre and also the highest average price per tract that was ever received in the state's history."

HALF THE FARM SCRAP IS ALREADY DELIVERED

COLLEGE STATION, Tex. May 4—As salvage officials prepared to launch an all-out campaign to get more scrap metals collected, county USDA war boards report that Texas farmers already have sold half the scrap from their farms.

The Texas USDA War Board is making a survey of the results of its state-wide campaign to get scrap iron off the farms and into the mills.

Reports from 158 counties as of March 31, indicate that 87,227 tons of scrap metal have been delivered by the farmers in those counties but that an additional 88,000 tons still remain on the farms.

Complete reports from 254 counties on the number of auto graveyards in the state show 1,019 graveyards with a total of 37,891 cars. This does not include auto graveyards in cities of 10,000 or more population, as the WPA made a separate survey in those cities.

Recent Land Transfers In County Listed

Land transfers in Bailey county during the past few weeks, as recorded in the office of County Clerk M. G. Bass, are as follows: A. M. Lettwich, Sr., and wife Vournie, to H. F. Lafferty, south 380 acres, Section 36, Block C, Melvin, Blum & Blum survey.

J. S. Edwards, and wife Alice, to Joe H. Simmarch, northeast quarter, Section 19, Block Z, P. W. & W. D. Johnson subdivision in Bailey and Farmer counties.

J. L. Howard, independent executor for Mrs. Eva Howard, deeded, to L. H. Davenport, Tract 1, Section 185 Swisher county school land.

Willie W. Williams, and wife Bonnie, to M. A. Snider, Jr., Section 79, Block Z, W. D. & F. W. Johnson subdivision.

C. E. Enoch to C. C. Snitker, northwest quarter, Section 3, League 107 Fisher county school land.

Roy Whittington, and wife Netta, to D. M. Oehnhaus, east 148.2 acres, Labor 6, League 191 Ector county school land.

W. L. Blaylock, and wife Martha, to J. H. Bomar, 120 feet of land off west end Lot 22, Maple, 2 1/2, Muleshoe.

Charles L. Lenuu, and wife Marie, to W. D. Wanzor, Lot 13, Block 45, Muleshoe.

E. R. Hart, and wife Mary E., to Willie W. Williams, east half Section 68, Block Z, W. D. & F. W. Johnson subdivision.

Local Scouts and Cubs will leave Friday noon for Lubbock, where they will take part in the 14th annual Boy Scout of America camp.

Registration For Sugar Rationing Is On; 5,837 Sign Up

More Tires And Tubes Issued By County Board

New tires and tubes and re-treads issued during the first week in May by the Bailey County board, follow:

Passenger Car Retreads— W. M. Pool, Jr., farmer; Dee Warner, road commissioner and farmer (2); Acle Daniels, farmer. **New Tractor Tires and Tubes—**

Ray Pugh, farmer, two rear tractor tires; H. L. Flaniken, farmer, two rear tractor tires; Jesse F. Mitchell, farmer, one rear tractor tire; Elmo Stevens, farmer, two rear tractor tires and one tube; D. C. Lumpkin, farmer, one truck tube; Loyd E. Pollard, farmer, two rear tractor tires.

Issued during the last week of April were the following: **Tractor Tubes—** A. E. Newton (2); J. M. Murrath; R. C. Martin; Odie L. Thompson (2); Woods E. Goetz.

Truck Tubes— E. B. Richardson; W. T. Millen; H. B. Mathis (2); W. H. Hayes, produce trucker; E. V. Billingsley (2); Lloyd Quisenberry; John M. Murrath; B. P. Wiseman; C. A. Barnett; Jack Stalling; John Allen McGee.

Truck Tires— E. B. Richardson; W. H. Hayes. **Tractor Tires—** G. W. Edwards (2); William M. Bryant.

Passenger Car Tubes— R. Carter; John R. Bright minister; (2) Andrew S. Howard. **Truck Reaps—** Rudolph Weidebush, oil and gas dealer.

Trailer Tire Recaps—

James A. Gowdy (2). **Obsolete Tires—** Jim R. Price (2); E. V. Billingsley (2).

Peanut Planting Goal Is Passed

Texas farmers will plant even more peanuts than the 1,056,000 acres they were asked to plant, USDA war board reports from the counties indicate.

Reports from 231 counties with a total goal of 1,048,335 acres indicate that 1,125,724 acres either already have been planted or the seed for planting has been purchased, the Texas USDA War Board announced. This acreage exceeds the goal for these counties by 77,189 acres.

At the same time, the county USDA war boards report a need for nearly twice as many peanut pickers as the 917 machines at present available. B. F. Vance state board chairman, said the board had been informed an ample supply of pickers would be made available, as the War Production Office has authorized the manufacture of 3,600 new pickers to harvest this year's record crop.

Complete reports from the 254 counties in the state in all probability will bring the total acreage near the 1,140,000 mark. Vance declared, or approximately 80,000 acres in excess of the state's goal.

MILLARD MOORE INDUCTED INTO ARMY TUESDAY

Millard Moore, Lamb county farmer, widely known in Muleshoe, left Littlefield Tuesday morning for Lubbock, where he and more than seventy other Lamb county men were inducted into the army. Moore's wife is the former Miss Neva Douglass.

A big business was done in the sugar rationing registration business Monday and Tuesday, with a total of 5,837 persons filling in the special forms and receiving ration books in Bailey county. Registration will continue until 4 p. m. this afternoon (Thursday), and ration board members urge all who have not registered to do so at once.

Schools over the county have been dismissed all this week so that teachers could assist in the registration. During Monday and Tuesday, people were lined up, awaiting their turn.

It is likely that the stamps being issued now will be for one commodity that may be placed on the future ration list. Stamps Nos. 1 through 4 are for sugar, and they must be presented one at a time during a specific period. Thus, Stamp No. 1 must be presented before May 16, and it will enable the person to whom it is issued to buy one pound of sugar. After May 16, it will be void, and Stamp No. 2 must be presented to buy a pound of sugar. The stamp must be detached before it is presented.

Although the first four stamps are for sugar, it was explained, no one knows the purpose that may be indicated for the other period. It could possibly be for dry goods, hardware, or any other time that might be rationed.

Places of registration and the number receiving ration books up to Tuesday afternoon are: Progress 382; Circleback 391; Liberty 346; West Camp 229; Muleshoe 1,832; Goodland 122; Baileyboro 374; Stegall 217; Watson 300; Bula 686; Fairview 209; Longview 318; Maple 312.

State 4-H Club Boys Gather All Kinds War Materiel

Texas 4-H Club boys have collected and moved into the channels of the national armament program 1,866 tons of scrap iron. Collections of other scrap materials include 50,875 pounds of aluminum and 114,084 pounds of waste paper.

On the Food for Victory front, the club boys have 48,070 hens in production with 664,057 baby chicks coming along.

They have on feed 9,145 hogs, 3,677 beef calves and 3,472 lambs. This information is contained in a preliminary report issued by L. L. Johnson, state boys' club agent of the Texas A. & M. College of Extension Service on the basis of returns from county agricultural agents in 113 out of 254 Texas counties.

Johnson said he expected these totals to be doubled when all counties are heard from. Enrollment reports from 184 counties show 25,243 members in boys' 4-H Clubs. The state goal for 1942 is 47,000.

AT THE HOSPITAL

Dismissed: Mrs. Ellen Kinser of Muleshoe; Mrs. Quintella Roberts of Maple.

Bette Jo Guthrie, daughter of Mrs. Vivian Guthrie, was treated for cuts and burns received Saturday afternoon, when she was struck by a car while riding her bicycle.

Mrs. E. K. Angely, who lives near Muleshoe, received treatment Tuesday afternoon for burns suffered when she spilled hot water on her feet.

Births: To Mr. and Mrs. Jack Julian of Muleshoe, a daughter, Louise. The baby was named Nancy Louise. The baby was born Sunday, May 3.

To Mr. and Mrs. Melvin Hallford, a daughter, who has been named Beverly Yvonne.

Admitted for medical treatment: Millie Grace Powell, of Baileyboro; Dr. A. E. Lewis of Muleshoe; Mrs. J. J. Baker of Maple.

Evelyn Bradshaw, daughter of Mr. and Mrs. E. H. Bradshaw of Baileyboro, underwent a major operation Tuesday night.

SUBSCRIPTION RATES
In Bailey County, one year, \$1.50; Outside of County, one year, \$2.00

Advertising that does not show in its text or typography that it is paid for must be marked as an advertisement. All local advertisements remain in this paper for the time specified or until ordered out. All notices, it matters not by whom nor for what purpose, if the object is to raise money by admission fee or otherwise, is an advertisement and when sent in for publication must be paid for at the regular advertising rate per line for each issue printed.

Obituaries, cards of thanks, and resolutions of respect will also be charged for at the same rate.
Any erroneous reflection upon the character, standing or reputation of any person, firm or corporation which may appear in the columns of the Muleshoe Journal will be gladly corrected upon being brought to the attention of the publisher.

In case of error or omissions in local other advertisements, the publisher does not hold himself liable for damage further than the amount received by him for such advertisement.

WASHINGTON SNAPSHOTS

The war emergency may be used as a smoke screen behind which to settle basic principles of the American patent system.
A bill (S. 2303), on which hearings are now being held, would give the President power to seize patents, and the government the right to license them at royalties it stipulated. The bill is ostensibly a "war measure," but defenders of the patent system wonder why no provision is made to limit the major features of the bill to the war or emergency period.

To informed observers it looks like a renewed attack on property right in invention, a principle generally held to be basic to the American industrial system since the days of the Yankee tinker.
A similar attack was made at the Temporary National Economic Committee (TNEC) hearings a few years ago, and proposals for compulsory licensing have repeatedly been considered and discarded in the last 30 years.

Normal international patent agreements which have contributed to the desirable flow of scientific knowledge from country to country in peacetime are now held up as acts of treason, and the benefits America has received from agreements which gave us the results of advanced research in other countries are ignored.

A long list of top-flight industrialists will be called from their war production duties at home to spend days under cross-questioning at the patent hearings. Everyone agrees that every invention which can contribute to victory must be fully utilized in the war effort. Industry proceeds to produce them, without fanfare or headlines.

13th Cowboy Reunion To Be Held Again

STIMFORD, Tex., May 4.—The thirteenth annual edition of the Texas Cowboy Reunion will be held this year "as usual" despite the war, it was decided at a recent meeting of directors of this non-profit organization. Dates for the reunion were set for July 2, 3 and 4.

Although a number of rodeos throughout the Southwest suspended showings for this year, directors felt that, in spite of the shortage of tires, the reunion should be held for the benefit of the thousands of soldiers from every section of the United States who are stationed in Texas. Many service men from the north and east have never seen a real western rodeo. It was pointed out, and this year's reunion will afford them that opportunity. Reduced prices are being offered for men in uniform.

All of the regular reunion features, plus some new ones, will be on the program for this year. W. G. Swenson, president, has announced. The three daily rodeo shows, the old-time square dances, the modern ball game, the quarter horse show, the reunion of old-time cowhands, and one of the greatest attractions, the chuck wagon meals, all will be included, he said. A number of improvements and additions have been added to the plant since last year.

With the large number of troops in this area, it is expected that the attendance will surpass even last year's record-breaking crowd of more than 60,000.

Doesn't Scare Them Away Though

STIMFORD, Tex., May 4.—The ghost shrimp—used as bait on the Pacific coast—is a very soft-shelled crustacean. Its transparency makes it possible to see the internal organs and even the beating of the heart. It makes its home in the mud and sand along the coast from Vancouver Island, B. C. to the mouth of the Tia Juana River, San Diego county, California.

The most noticeable difference in the wild and domestic strains of the turkey is the markings on the tail feathers. The tips of the tail feathers and tail coverts are deep rusty or chestnut in the true wild turkey, while in the domestic strain they are white. Also, the wild bird has longer and more slender legs and has a more slim and erect appearance as a whole. The domestic bird has short, rather thick legs and is plump in appearance.

Catnip is one of the best lures for bobcats. Make it by adding twenty drops of oil of catnip to an ounce of oil of paraffine. They really go for it!

A man noticed one morning that his newsboy had a puppy on his stand with a "For Sale" sign over him. He asked the boy how much he expected to get for the dog.

"Fifty thousand dollars," replied the youngster. "I won't take a cent less." The man whistled and passed along.

A few mornings later the man noticed the dog was gone. "Sell your dog?" he inquired.

"Yep," the boy grinned. "Did you get your price for him?"

"Yep. Took a couple of \$25,000 cats."

The first national election held in the Republic of Texas in September, 1836, resulted in a crushing victory of General Houston over Henry Smith and Stephen F. Austin.

Muleshoe Hatchery

A man visiting a house for the first time found that his host was the father of three wild children. The latter made so much noise that the visitor found it difficult to hear a word that was said.

One child was busy ripping the upholstery out of a brand-new divan. A second lad was driving nails into an expensive table and the third was swinging gaily from a chandelier.

The bewildered guest eyed the youngster who was driving nails into the furniture. He turned to his host.

"I say," he said, pointing to the boy with the hammer, "don't you find it rather expensive to let your children play like that?"

The host smiled proudly. "Not at all," he replied cheerfully. "I get the nails wholesale!"

When that new food from wood is perfected, the expression "room and board" will have added significance.

SOUTHERN WILDLIFE

History of Hush Puppies

Hush puppies originated somewhere in the southern mountain regions. As usual around these homes there were always a lot of hound dogs and where there are hound dogs there are always plenty of puppies. While the folks ate the puppies whined and in order to stop this, an extra pone of cornbread was made for the puppies—thus the name "hush puppies." Use the following ingredients:

- 1 cup of corn meal.
- 1/2 cup of flour.
- 2 tsp. baking powder.
- 1/2 tsp. salt.

Mix at home; put in jar for convenience sake, and just before frying your fish, add enough water to this mixture to make pasty. Add an egg to this and beat well. Drop a spoonful at a time in the hot grease with a fish as they fry. Chopped onion recipe makes enough for two hungry campers.

Sportsmanship

A Louisiana game warden has listed what he believes to be the essentials of a good sportsman. His list follows:

- (1) Be as courteous to me as I am to you.
- (2) Display game and licenses without being asked when I identify myself as a warden.
- (3) Think of a warden as an aid to better fishing and hunting, rather than an obstacle to your hunting and fishing happiness.

No Sit-Down Strikes Either

By building dams and thus producing ponds, beaver are considered very valuable. The ponds they build furnish fish habitats.

HANDCUFF WEDDING

WITH THESE HANDCUFFS I THEE WED.

BLESS YOU MY CHILDREN.

Riders of Buck River

THE STORY SO FAR: Buck Hart, Jim Telow, and Pete Tolman, alleged rustlers, had been "drugged"—shot in the back. In retaliation, Lee Hart, brother of one of the victims and brother of the sheriff, believed to have taken a shot from the back at Cal Terry, manager of the big Diamond Revere sis ranch. He braver the big ranchers decide to call in a large number of Texas ex-peace officers to invade the rustlers' territory and kill them. Terry objects.

"Not a chance for you to win that election. You know that. Why fool yourself?"
"I don't think we'll win," Terry agreed. "But we'll have made our fight. After that, my suggestion is, the first time we catch a rustler re-handled we go to court with it. When we don't convict him, I'd get the strain in Cheyenne, Denver, and Salt Lake papers, with a review of the whole controversy. I think then that the public sentiment in the West would back us in fighting back the only way we can."

"It's ready to back us now if we have the nerve to act," Ellison said bluntly.
"Not the way you propose," Terry differed. "We don't want the whole thing on the mill in the streets against us, or government troops being sent in to stop us."
"No chance of either. The Governor is a cattleman himself. We have big pull with the administration. We'll be looked after. Don't worry about that. I've talked with Mr. McFaddin. He's with me. So are the Antelope Creek and the Two Star ranches. All the decent cowmen will throw in with us."

"Not many of the little fellows," Terry disagreed.
"You've got them wrong, Cal. A lot of the small cattlemen are afraid of big pull with the administration. They're like the thieves are in the saddle, but they will be with us when they find out we're going to stand up on our hind legs and fight. They don't like this condition any better than we do."

"Maybe not, but they would oppose us if we tried armed insurrection. The time isn't ripe yet, Clint. Let's give the rustlers a little more rope to hang themselves with."

"No," Ellison said grimly, bringing his closed fist down on the top fence rail. "Let's hang them now, or we still have a chance to win."
"It would be a mistake," Terry insisted.

CHAPTER X

Calhoun Terry went to the meeting of the Western Cattlemen's Association at Denver knowing a decision would be reached as to the best way of dealing with the rustlers operating in his territory.

"You know why we are here, gentlemen," Ellison began. "It is very important that what we say should be and should remain secret. We'll hear from Doctor Porter first."

Doctor Porter had been an army surgeon during the Civil War, and later had moved West and gone into the cattle business.

Briefly Doctor Porter outlined what was planned. A list of more than a hundred names of rustlers had been submitted by their field detectives and by individual ranchmen. He proposed that before the meeting adjourned this list be gone over name by name, and voted on by such of the men here as knew the rustlers.

"All this has been talked over with each of you individually," Porter said. "At the present time Sunday Brown, whom some of you know, a famous deputy United States marshal from the Indian Territory, is busy hunting about sixty fifty men in Texas and Arizona. He is choosing tried men, all of them officers who have fought as marshals or sheriffs against desperadoes. In the course of two or three weeks Brown and his men will reach this city. From here they will be sent by special train to the scene of action. In addition to these, there will probably be fifty cattlemen and their friends in our party. Our intention is to move fast and secretly, so that nobody will know what we are about until too late to stop us. We expect to meet no organized opposition. The rustlers whom we trap will fight if they get a chance, but that is to be anticipated. If everything goes well we ought to be able to sweep through the country, wipe out scores of rustlers, and get back to the railroad with our identities unknown."

A big wide-hatted stockman named Kineman took the floor.

"Fine," he said. "If everything goes right. His gaze swept the room leisurely. "But hell, boys, chances are you can't pull it off. Do get me wrong. I'm with you. Let the cows come off. Still, a hundred armed men on horseback can't go galumphing through the country without plenty of people getting wise to it."

Terry was of the same opinion. The names of those on the list to be rubbed out were taken up for consideration. All the men at the meeting felt the tenseness when Ellison rose with a paper in his hand. They were about to condemn scores of men to death.

Ellison read the first name. It was that of a notorious bad man known as Black Yegger. Nobody had anything to say in his favor. His name went on the black list. The second one read was unknown to Terry.

"Just a moment, if you please," he said. "I have a message with important news sent me by my secretary. It's from the sheriff."

The hum of conversation died down. "Jackson wires me that yesterday a meeting of small cattlemen, including rustlers, no doubt, was held at Round Top to form an independent ranchers' and stock-growers' association. They voted to hold their roundup about the middle of May, three weeks before the legal one set by us. Other branches of this association are to do the same."

Every man present knew what this meant. By means of these roundups the enemies of the big ranches would collect and brand the mavericks before the wagons and men of the large outfits could get into action. All calves not following their mothers closely would be assigned to the small cowmen and to the rustlers who had started herds of their own. By means of this Doctor Porter waved his telegram for a cessation of talk.
"There's another piece of news in my wire, gentlemen. Jackson says that early this morning the body of Pete Tolman was found in front of his cabin. He had been shot through the forehead by a bullet from a rifle."

LOOKING BACKWARD

FIFTEEN YEARS AGO
(From files of May 6, 1927)
Dan Winn, the Continental oil man, has moved his office from D. O. Smith's to his warehouse on the railroad tracks.

Harold Grimsley and Glenn Barton of Rocky Ford, Colo. were the weekend guests of Wayne Wallace.

Mrs. I. W. Harden returned the first of the week from Temple, Okla. where she and Mr. Harden attended the funeral of his sister, Mrs. A. M. Hodgin.

Chester Layne and wife of Matador, who were weekend guests of his parents, Mr. and Mrs. Thomas Layne.

Med Stockard, who has been working at The Journal office, left Saturday for Melrose, N. M., and from there will go to Parker county. E. L. Dyson of Dawson, has taken the job of compositor at The Journal office.

On Wednesday afternoon at the home of W. C. G. Elmore, Lois Parton and Miss Mark Kirkland were united in marriage by Mr. Elmore, justice of the peace. This was Mr. Elmore's first marriage since taking office. The

USO Follows Soldiers To Distant Parts

AUSTIN, Tex., May 4—President Roosevelt's revelation that "hundreds of thousands of American troops are operating in areas thousands of miles from home" makes possible the disclosure that the USO has been establishing a center a day during recent weeks. Harry C. Wiess, state USO chairman, said this week:

"The USO goes with the army to its expeditionary bases in every land," the chairman explained, "so during the spring months it has expanded both its operations and its planned operations greatly."
Mr. Wiess, who heads the Texas war fund campaign opening May 11, used this method to demonstrate the need for every Texas county to exceed its quota in the campaign.
"As American soldiers expand their operations to new continents, so must the USO, the citizens' way of providing recreation and comforts for the men in service, grow with them," he declared.
The chairman noted that a \$5,000,000 fund has been set up in the USO budget for unforeseen expenses of this nature during the coming year, but expressed the opinion that this might not cover the gigantic war operations yet to come.
"Many USO centers are already operating in Texas, and more

are to be built at the dozens of new training centers already authorized," Mr. Wiess pointed out. "Through USO Texas can demonstrate its hospitality to the thousands of men from other states coming here for their training. We must go well over our \$1,110,000 quota."

Organization work in the 19 USO regions was virtually complete this week, ready for the drive which will be opened May 11 with an address by President Roosevelt.

The Axis is taught with each bond bought.

SPRING HOUSE CLEANING IMPORTANT IN WAR TIME

Spring house cleaning is more important in war time than in ordinary years.

Mrs. Bernice Clayton, Extension Service specialist in home improvement, says cleaning now will help the homemaker salvage materials needed for the war effort, reduce fire hazards in the home, eliminate hiding places of insects and rodents, increase space needed for other uses, and make the home and grounds more attractive.
Keeping things in good condition is in line with the pledge thousands of Extension Victory Demonstrators in Texas are signing. The specialist says a Victory demonstrator's home and farmstead should be as orderly as an army camp and as clean as the deck of a battleship.

newly-weds will live in the Circleback community.

TEN YEARS AGO
(From files of May 5, 1932)
The total number of scholastics in Bailey county this year is 1680, an increase of 149 over the number reported in 1931.

Onan Robinson was seriously burned about the arms and lower limbs Friday afternoon when he spilled a can of gasoline on himself and on a car on which he was working. A spark from the battery ignited the gasoline on the car and that which had splashed on Robinson's clothing.

Ivory Medlin, 20-year-old son of Mr. and Mrs. H. Medlin of Enoch died Friday.

Verne Singer of Littlefield was here Saturday calling on friends. He recently returned from Nicaragua, where he had for several months been campaigning with the U. S. Marines against the natives.

Mrs. I. M. Williams, daughter, Essie, and son, Perry, left Tuesday for Lake Arthur, N. M., to join Mr. Williams former Muleshoe business man, who has purchased a grocery and dry goods store at that place.

FIVE YEARS AGO
(From files of May 6, 1937)
Mrs. J. Clyde Taylor has been elected president of the Muleshoe Parent-Teachers Association succeeding Mrs. A. W. Coker.

Mrs. W. W. Smith of Maple died last week after a lengthy illness.

Miss Ann Franklin, assistant telephone operator here for the past year, has accepted the position of chief operator at Bovina.

Mr. and Mrs. E. M. Black of Altus, Oklahoma, were here last week prospecting for a land location.

A marriage license was issued Saturday by Cecil McLaughry, deputy county clerk, to Miss Madeline Williams and J. L. Elmore of the Circleback community.

Feather-edged haircuts, 1942 edition of the windblown bob, have taken Texas Tech campus by storm. An average of one coded in ten has abbreviated her tresses in keeping with the war mode.

SAFETY BULLETIN OUT FOR FARM MEN, WOMEN

To help farm men and women act as their own safety engineers the U. S. Department of Agriculture in cooperation with the Federal Interdepartmental Safety Council has published a bulletin called "Watch Your Step—Farm Safety for National Defense."

Mrs. Bernice Clayton, Extension Service specialist in home improvement, points out that every year hundreds of thousands of accidents, big and little, take a tremendous toll of the farm family's time and money. With families already short of labor and faced with the need of producing more Food for Freedom, neither the farm family nor the nation can afford accidents, she says.

The new pamphlet on practical ways to prevent some of the more common farm accidents is available from the U. S. Department of Agriculture, Washington, D. C.

X-RAY AND RADIUM

Sure, every acre's raising more.... Now what's upping the mileage from this oil?

How does prize wheat or corn at the county fair get that way? Sure, man-made soil improvers—modern synthetics—were added to improve on nature.

AND MODERN SYNTHETICS in Conoco Nth motor oil make it yield mileage that outscored all other brands tested in the sensational Death Valley Certified Competition. Five big-name quality brands got every fair chance against Conoco Nth oil. All were run till engines failed and none came closer than 58% of the mileage totaled by Conoco Nth... the oil you can have for your needed Spring oil change that's now overdue... the oil whose best known man-made extra substance—at no extra premium—gives your engine OIL-PLATING.

OIL-PLATING backs up the familiar fluid type of oil film with a surfacing of lubricant close-bonded to inner engine parts. Every cylinder wall, for instance, becomes a wall of OIL-PLATING that doesn't all drain dry during the time you use Conoco Nth. Even after all-day parking, the OIL-PLATING is still up to the topmost piston rings, ready to lubricate before any oil can circulate. That's one plain way of foiling excess wear, and keeping up mileage with your engine OIL-PLATED.

But Conoco Nth oil also includes Thialkene inhibitor

... another synthetic... invented to inhibit or restrain the dangerous "jelling" of oil under excess strain. Engine heat and pressure can even gum up oil into something like fly-paper coating—only dirtier, and not much better for mileage. Against this threat, Thialkene inhibitor was created for Conoco Nth (U. S. Pat. 2,218,132). And Conoco Nth out-mileaged the others in the Death Valley Test—from 74% all the way up to 161%. You can get real optimistic about your own mileage. Conoco Nth will come through for you. Change at Your Mileage Merchant's Conoco station. Continental Oil Company

Red Cross To Sew Each Afternoon

The Red Cross room will be open each afternoon from 1 p. m. to 6 p. m. We are asking each woman of our community who possibly can, to set Wednesday and Thursday afternoons aside for Red Cross work at the local Red Cross room, which is located in the King Grocery building.

We have received a large shipment of materials and yarn. There will be plenty of hand work for those who do not care to run sewing machines. Also, we are asking all persons who have electric portable sewing machines, or any other type sewing machine, to please loan them to us. We assure you that all machines will be taken care of.

If there are ladies who cannot come to the sewing room to work, and care to they may call for sewing to take home with them.

Mary E. Hart,

Flying In His Blood! From Sergeant To Lieutenant In Matter Of Days

LUBBOCK, Tex., May 4—A Master Sergeant yesterday was a First Lieutenant today! That is the record of Walter P. Schattell according to Col. Thomas L. Gilbert, commanding officer of the Lubbock Army Flying School.

During his spare time as a farm youth, Lieutenant Schattell built his own airplane from raw materials and discarded parts of wrecked planes, then when it was completed took it aloft. He's been flying or helping to "keep 'em flying" ever since for Uncle Sam.

The Air Corps is recognizing his ability by this promotion from a non-commissioned officer to a commissioned officer, according to Col. Thomas L. Gilbert, commanding officer of the Lubbock Army Flying School.

Reared on a farm near Hemphill, Texas, he and three of his brothers became interested in aviation and Lieutenant Schattell accumulated forty-five minutes of instruction in piloting a plane, back in the barnstorming days of 1926. About this time a plane was wrecked in a nearby town and sold for junk and he purchased it. He and his brothers took the badly damaged plane home and stored it in the family garage. Between long hours of hoeing cotton, feeding and milking cattle, cutting wood and other farm chores, they worked on it. In six months it had been completely rebuilt from raw materials, the junked plane and parts from other wrecked planes. Since Schattell had some experience in flying he was elected to take it aloft. The flight proved successful and thus he started his aviation career. He was the first airplane builder, designer and flyer in his home county. Now he has 336 hours of flying time to his credit.

He first enlisted in the Army at Fort Bliss, Tex., in 1928 and was sent two days later to DoD's Field, Tex., where he was with the 12th Observation Squadron. In 1931, he was transferred to Brooks Field, then to Hawaii (where he met his wife who was chief bookkeeper in the field post exchange) where he served with both the 59th and 65th Observation Squadrons. Later he was sent to Kelly Field, Tex., as a member of the 40th Attack Squadron. He organized the 63rd School Squadron and in 1939 was sent to Brooks Field again and helped to organize the 32nd Pursuit Squadron. He was then transferred to the 65th School Squadron and served with that squadron until the time he was transferred to Lubbock, where the Air Corps is training heavy-weight aviation cadets to fly its big bombers and transport planes. At Lubbock he served as 83rd

BETTER BABY YOUR MOTOR

But how do I do it?

UNTIL PEACE COMES WITH VICTORY no motor cars will roll from the assembly lines which once produced more than 5,000,000 automobiles a year.

Thus is brought home to every car owner the vital, war-time necessity of making his car last longer.

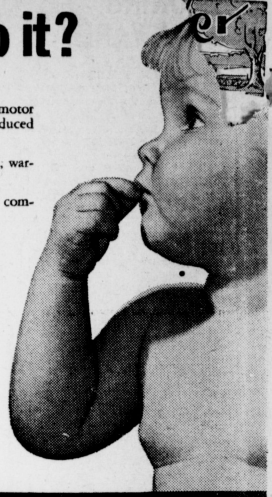

If you are puzzled as to just what steps to take, a complete answer is ready and waiting for you at any Phillips 66 Service Station. There you will find a free folder, "Ten Patriotic Precautions for Good Citizens and Good Drivers" . . . published by Phillips in the interest of National Welfare. Also trained men to tell you what the Phillips Plan can do to help make your car last longer.

The heart of your car is the motor. Its care is of first importance. So keep the following facts in mind when you are deciding which oil to use:

The famous Phillips organization makes a complete and frank statement which does away with all doubt, if you want our best oil. Without hedging, without reservation, we say that Phillips 66 Motor Oil is our finest quality . . . the highest grade and greatest value . . . among all the oils we offer.

For seasonal or for the regular 1,000-mile change, play safe and save by asking for Phillips 66 Motor Oil.

Collection Of Literature For Army Continues

Intensive collection of books and magazines for men in service in 24 West Texas counties will continue through May 11, Miss Elizabeth H. West, librarian at Texas Tech, Lubbock, announced this week. Miss West, director of the Victory Book campaign for District 17, estimates that a donation of one book to every 15 persons will be required to meet the quota set by the Red Cross, American Library Association and United Service Organization.

"Books collected in District 17 will go to the nearest training camp in order to cut down transportation cost," Miss West said. Many of those from District 17 will go to the Lubbock air base, others will go to camps at Abilene and Midland.

A total of 720 books and numerous magazines have already been turned over to the Lubbock air base library by campaign directors. They include recreational books, such as adventure, mysteries, westerns and novels; and histories, biographies, and textbooks in suitable fields.

Largest single collection of books donated thus far has been 100 books from one person, according to Miss West, another had given subscriptions to two current magazines. "Gifts of cash are equally acceptable," Miss West said, "because many books that are especially wanted will not be given, and can be purchased instead."

Bailey county's quota in this Victory Book drive is 640.

Vaccinations To Prevent Typhoid Fever Urged

If you have not been vaccinated against typhoid fever within the last two or three years, Dr. Geo. W. Cox, state health officer, advises you to go to your doctor or the nearest health officer and have him give you the three "shots" that will protect you against the disease.

"The three shots that will protect against typhoid are given at intervals of one week apart," Dr. Cox stated. "As it takes some time for the protective treatment to be established throughout the system, it is wise not to delay in having it done. My advice is have it done now so that immunization may be complete before summer arrives."

This advice was addressed particularly to Boy Scouts, Girl Scouts, and other youngsters who are looking forward to spring and summer hiking trips. It is, however, meant also for others, young or old, whose business or pleasure during the summer will take them to places where there may be doubt as to the purity or safety of the water supply, or as to the care with which food is handled.

A psychologist says that a person is sicker if he can say "Susy sits in the soup." Personally, we wonder about Susy.

MARRIAGE MAXIMS

Once a man has tied the knot, he doesn't have much rope. Courtship makes a man spongy; marriage makes him fork out. No girl marries a man for better or for worse, but for more or less. Marriage is like a cafeteria. He grabs what looks nice to see

him, and pays for it later.

In a Missouri court the wife said her husband struck her, and the husband said she struck him. We can't say who'll get the divorce until we know how it strikes the judge. Few traffic jams are caused by people rushing to buy things they see advertised on billboards.

EXTENSIONS --- 250 FT.

It has always been the policy of this company to extend its Electric Lines any reasonable number of feet to serve its customers, but due to the shortage of copper and other critical materials, the War Production Board has amended the regulations, effective March 26, 1942, to the extent that it is only possible for us to make extensions up to 250 feet in length without special permission from the War Production Board. In view of this condition, if you are planning to build a home where an extension of our Electric Lines will be required for you to have Electric Service, may we suggest you contact our Local Office so that you may be sure electricity can be supplied to you.

Progress News

The Progress Sunday school was not so well attended Sunday, although all the teachers except one were present. Everyone is invited to attend each Sunday morning at 11 o'clock.

Miss Imogene Lowry, who is attending school at Lubbock, visited homefolks over the weekend.

Mr. and Mrs. Jess Murrah and Dorothy visited Mr. Murrah's brother at Leveland Sunday.

Mr. and Mrs. Doc Wilhite and daughter, Jera Lynn, were in Amarillo on business Monday.

Mr. and Mrs. J. A. White, who have lived in our community the past several years, have moved to Berger.

Mr. and Mrs. James Gregory have returned from Houston, but plan to leave soon to make their home in Nevada.

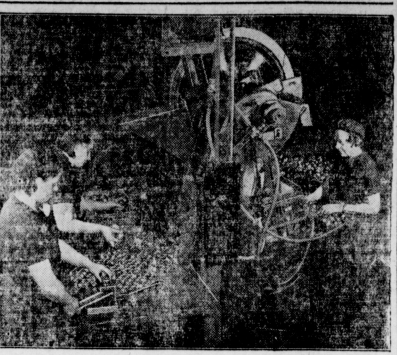

Jess Gordon and Hill Murrah transacted business in Portales Saturday.

Mr. and Mrs. George Dill and children of Bulis visited their parents, Mr. and Mrs. E. J. Callaway, and sister, Mrs. Frank Thomas, Sunday.

Mrs. J. W. Gregory has moved to town to make her home.

Mr. and Mrs. Cap Needham and sons who have recently returned from California, are in Amarillo on business.

Auto Body Plant Makes Bomb Parts

These workers are helping turn out bomb parts by the millions each week. In fact, the production, through highly improved methods, is three times as great as was ever thought possible.

THIS BUSINESS OF Living

BY SUSAN THAYER

That little stone crock or used coffee can or empty mayonnaise jar found on the shelf of practically every kitchen in the United States represents a problem few housewives have been able to solve. These are the containers used for bacon grease. You know the difficulty! That rich, heavy grease—no woman with a spark of thrift in her makeup can bear to throw it away. Besides, where can she throw it? But why on earth should any American woman treasure the drippings from bacon as housewives would in Europe or Asia? For generations this has been a hard of plenty, with pure, white lard and snowy, vegetable shortening available at prices the average housewife can well afford.

To be sure, your great grandmother—and mine—hung on to every bit of grease left from their cooking. If it couldn't be used as food, it went into the soap kettle, where they made the crude, yellow soap that kept the clothes and houses and faces of those long-ago generations clean and shining—a soap very different from the gentle, fragrant bars modern industry gives us today! Perhaps some of the satisfaction these ancestresses of ours felt over a plentiful supply of grease in a pioneer world has been handed down "unto the fourth and fifth generations"—although a great food industry, modern manufacturing methods and swift sure transportation have made for us a very different world, where grease has been nothing but a nuisance.

But today things are beginning to be different. The grim necessities of total war have made kitchen grease, so long despised by rich America, valuable once more. Before very long, I've been told, the War Production Board will actually start a grease-saving campaign. Not for the sake of adding to our food supply, which will be adequate no matter how long the war continues, but for the sake of increasing our supply of glycerine, needed in the manufacture of explosives. The plan is to salvage all the millions of pounds of glycerine that have been going into garbage cans.

I think most of us will be glad to be asked to save our kitchen grease, clean it, and deliver it to some convenient collecting depot. We're all so eager to do everything we can to help win this war—even honey, small things like saving grease. Besides, think of the satisfaction of having a worth-while use for this by-product of cooking which makes us like to save—a hangover from our less abundant pre-industrial days.

American Sailor: "Battleship! Why, the flagship of our navy is so big that the captain goes around the deck in his auto."

British Sailor: "You ought to see our flagship. Have a look at the kitchen. It's so large the cook has to go through the Irish stew in a submarine to see if the potatoes are cooked."

Study Club Book Review Tonight At Fellowship Hall

A book review, sponsored by the Muleshoe Study Club, will be given tonight at Fellowship Hall. Mrs. H. E. Williams will review the book, "City of Illusion" by Bards Fisher, commencing at 9 o'clock. A charge of twenty-five cents will be made, plus three cents tax. The proceeds will go for the purchase of new books for the public library, and every citizen who can possibly do so, is requested to buy a ticket.

The library has now become a necessity, and demands for books are increasing every week. These books are not only for the people of Muleshoe, but for those of the entire county. There is always a list of good books, furnished by the State of Texas, and these are free to the public, but the Muleshoe Study Club is keeping up and constantly adding to the large list of books started some time ago. They have had the cooperation of other clubs and organizations of the city, as well as the citizens of the territory, but with the present war restrictions, new books must be purchased regularly, for people who have turned to reading as a diversion.

VISITS AT BANGS, TEX.

Wayne Vardeman, West Texas Gas Co. representative, is spending his annual vacation visiting with his mother at Bangs, Tex. Fred Weatherford of Littlefield is looking after company affairs while Wayne is gone.

Officer: "What's going on here? Why are you fighting in the street?"

Woman: "You keep out of this, officer. This man's my husband."

Officer: "Then why don't you do your fighting at home?"

Woman: "What? And break all the furniture?"

Rumors Fly Of Jap Camp Here

Rumors of all kinds have been circulating since last Friday about the location of a Japanese concentration camp near Muleshoe. One rumor was to the effect that land had already been purchased and that work of plowing the land was then underway. There is probably some basis for the rumors, as the government has been trying to purchase a tract here from certain parties, but this deal had not been made up to noon Wednesday.

There are other deals pending, it was learned, but no definite information was available at press time.

ATTEND FUNERAL

Mr. and Mrs. Gene Kistler and children attended the funeral Sunday of Mrs. Kistler's grandmother, Mrs. S. R. McLaughlin, of Plainview, Tex. Mrs. McLaughlin was one of the early settlers of Hale county, having lived in the county 37 years.

Query: Is it better to stay up half the night waiting for the boy friend to go home, or to marry him and stay up half the night waiting for him to come to it?

Maple News

Mrs. Clyde McCormack entertained the Epworth League with a party Wednesday night of last week. Plans were made for a joint observance of Mother's Day and Father's Day at the Methodist church May 31.

Mrs. Mike Flanigan was overcome by gas fumes from a butane stove Sunday morning and was rushed to a Littlefield hospital where she was quickly revived.

Misses Marie Weaver and Vernell Hogue were guests Sunday of Miss Lena Fae Fleming.

Miss Christine Kirkpatrick and Joyce were guests Sunday of Miss Martha Fort.

School was dismissed Friday, May 1. The eighth grade commencement was held Monday night, May 4.

Miss Wilma Blaylock, who is attending school at Canyon, visited homefolks over the weekend.

"If a person drinks more than a quart of whiskey a day, he is apt to suffer from beri-beri," says a physician. Yes, and also from the willie-wills.

Spencer Beavers is here this week from California, visiting home folks.

A NEW QUOTATION . . .

Many times you have heard this old quotation, "Prepare for war in time of peace," and it is good advice, but we think a new quotation is appropriate at this time, and let's "Prepare for war and peace at the same time by investing in War Bonds and Stamps."

You can buy the bonds and stamps at your local bank or post office.

H. S. Graduates Eligible For Air Arm Of Navy

High school graduates are now being accepted for aviation flight training leading to commissions as ensigns in the United States Naval Reserve air arm if they are between the ages of 18 and 26 and can pass the required physical examination. Eighth Naval District Headquarters announced this week. Acceptance of graduates began Monday. Previous to the new change by the Navy Department, the minimum age limit for Class V-5 was 19 and two years of college training was required. The upper age

bracket is unchanged by the new directive.

Naval Aviation Selection Board officials stressed that the new policy is no departure from previous requirements as to the high type of men sought, but merely places Navy wings within the reach of high school graduates. The young men sought are of the type who would normally complete two years, at least, of college work under peacetime conditions.

Those seeking enlistment in Class V-5 must be unmarried and in perfect physical condition. They may marry after being commissioned. Application may be made at any Navy Recruiting Station or Substation, or by addressing the Naval Aviation Cadet Selection Boards, located in the Eighth Naval District in New Orleans and Dallas.

When the prospective flier presents himself for enlistment he must have a certified copy of his high school credits, a birth certificate, evidence of citizenship if he is not native-born, and three letters of recommendation from persons prominent in his community as to his patriotism, loyalty and character.

If the applicant is under 21 years of age, he must provide the recruiting officer with the written consent of his parents. A 50-word resume of the candidate's occupational experience in his own handwriting and two 2 1/2 by 2 1/2 inch photographs of himself are necessary.

If accepted, the applicant is enlisted as a seaman, second class, in the Naval Reserve, with a monthly pay of \$36. After 3 months in this grade, successful candidates are appointed aviation cadets which carries pay and allowances amounting to \$75 monthly.

Preliminary flight training is conducted at one of 16 naval aviation boards throughout the

Yanks "Down Under"

THREE AMERICAN DOUGHBOYS are led on a sightseeing tour of Melbourne, Australia's second city, by members of the Australian Women's Auxiliary Air Force. Judging from the expression on their faces, they must be having a good time. Reports reaching the U. S. reveal that, in their off-duty periods, thousands of American soldiers and sailors are quickly making friends wherever they go and are being received with the customary open-handed hospitality for which Australians, like Americans, are noted.

Local Happenings

E. K. Warren, Gale Wilson and William H. Kramer of Three Oaks, Mich., and George A. Lackey of New York, were business visitors here Tuesday.

Mr. and Mrs. F. C. Skeeters and Mr. and Mrs. Melvin Pribot left Sunday for Bakersfield, Cal. where they will visit Mr. and Mrs. Skeeters' son, Cloyd, and wife.

Mr. and Mrs. Melvin Pribot, Mrs. Myrtle Pribot and Mr. and Mrs. R. L. Mathieson and children were in Borger last weekend visiting relatives.

Miss Hazel Jaggers of Meadows, Tex., has accepted a position with the St. Clair Beauty Shop, beginning her new duties last Thursday. She is a licensed operator.

Francis Gilbreath was a Lubbock business visitor Saturday.

Mrs. Charles Bonney, Mrs. Martin Oliver and Mrs. Bruce Lambert visited in Clovis Monday night.

Mrs. Minnie Solomon spent the weekend visiting at Lubbock with her brother and family, and at Seagraves with her daughter and son-in-law.

Mrs. Wm. G. Kennedy of Progress, president of the Texas Home Demonstration Association, will return Thursday from San Angelo, where she has been attending a district meeting.

A marriage license was issued here April 24 to James Bain and Charley Mae McCoy, both of Muleshoe.

Courtland Paul and wife, of Brownwood, Tex., were here for the weekend, visiting his mother, Mrs. Birdie Paul.

W. G. Harlan, who is attending Texas Tech at Lubbock, visited his parents over the weekend.

Miss Lela Mae Barron of Amarillo and Miss Jerry Ponder of Happy, spent Friday night in the home of Mrs. Lela Barron.

Miss Nona Fae Johnson of Amarillo spent the weekend in Muleshoe visiting her parents, and friends.

Mr. and Mrs. Wayne Vardeman are visiting this week at points in South and East Texas.

Mr. and Mrs. Bill Boothe, Miss Juanita Harmon and Miss Mary Lee Tidwell attended the dairy show at Plainview Saturday night.

Mr. and Mrs. C. W. Boothe, and Mrs. Bradley of Dimmitt spent Sunday in the home of Mr. and Mrs. Bill Boothe.

Mr. and Mrs. R. W. Rutherford of Littlefield and Randolph Rutherford of Tahoka, visited in the home of Mr. and Mrs. Hubert Rutherford and family last Sunday.

MISCELLANEOUS SHOWER HONORS MRS. BARRON

Mrs. Dorothy Barron was honored with a miscellaneous stork shower in the home of Ruby Hart on Wednesday, April 29, with Ruby Hart and Hazel Gilbreath as hostesses.

The decorations were tulips and bridal wreaths, with a lovely cut-glass punch bowl centering the table.

Refreshments were served to approximately 20 guests, and Truma Griffith gave an appropriate reading, "Sticky Fingers."

Many guests who could not be present sent gifts.

The Homestead Law, which provides that homesteads cannot be taken for debt other than debt contracted in payment for the homestead, was passed by the first congress of the Republic of Texas. It now exists in the constitution and statutes of the state.

PERMANENTS For Mother's Day

Look your best for Mother next Sunday by getting one of our Permanents. Or, perhaps, you would like to give your Mother a present which will be different. If so, bring her in for a Permanent, too. It's a present she will be truly proud of.

College Youths May Continue V-7 Enlistment

NEW ORLEANS, La., May 1—College graduates and college seniors may continue enlistment in the United States Naval Reserve after May 1, despite the earlier announcement that beginning about that date this class would be closed to all men attending college who have not enlisted in Class V-1, it was announced today by Commander F. C. Huntoon, Director of the Office of Naval Procurement of the Eighth Naval District.

In addition to seniors and college graduates admitted to Class V-7, all juniors who while sophomores were not eligible for Class V-1 service may enlist in V-7, as may juniors who became members of the class prior to April 15.

Class V-7 consists of men studying officer training in the Navy, who are commissioned upon the successful completion of their training period.

It was also announced that those previously eligible for V-1 training are not eligible for Class V-7. Sophomores and freshmen attending college make up Class V-1. They may continue their college education at least until the end of their sophomore year, and in many cases stay in school until graduation.

Mirabeau B. Lamar, second president of the Republic of Texas, is sometimes referred to as the "Father of Education in Texas" because of the constructive public education legislation which he sponsored.

FITS PRACTICALLY ANY FARM TRACTOR

McCORMICK-DEERING No. 25 MOWER

Here's a smooth-working mower that fits practically any farm tractor. It's the quick-attachable McCormick-Deering No. 25—a high-lift machine that gives you fast, even cutting in all crop and field conditions. It is in uneven ground, however, that the No. 25 is at its very best. The A-frame construction and casters enable the cutter bar to follow the contour of the ground. There's hinged action at the connection with the tractor. The No. 25 is an easy to use. Come in and find more about it.
