## Looking Things Over

By "MACK"

A new Public Enemy No. 1—That guy with the bright lights driving madly down the highway who will not dim them when meeting an approaching car—there is one driver who should have his license taken from him.

I guess we had a good time on our vacation this year—early in 1936 friend wife and I agreed to take a two week's vacation but it developed that I could not get off. So to even things up, friend wife just took four week. Yes, I am sure WE had a good time on OUR vacation.

Come to think of it, Quitaque is getting to be a better place in which to live every day—we have five blocks of good paving—they started work on Highway 86, and prospects for hard-surfacing are bright—Unk Charles Craig is about to get a six month's job waving a red flag—Mr. Wimpy Tunnell is actual at work painting his house (by himself)—its gonna rain real soon—cotton prices are good—we'll soon be rid of the candidates—and Roosevelt is going to be re-elected.

Am shortening this line quick today, cause I gotta hurry down to the ball games. We are going to see some real baseball in Quitaque's First Annual Tournament, so you had better not miss a game.

## Quitaque Nine Defeats Floydada In Fast Game

Playing heads-up baseball after a disastrous exhibition at Floydada last week, the Quitaque nine came back to take a 10-2 win over Floydada in a fast game on the local diamond Sunday afternoon, evening the series at one game each.

Floydada scored in the second inning, bunting hits on Pitcher Joe Bedwell to put across two runs, but were held to scattered hits during the remainder of the game. Betty Medler, relieving Bedwell on the mound in the fifth, allowed only one hit in five innings. Both pitchers were backed by excellent fielding and teamwork.

Floydada hurlers were hit hard throughout the game, as local batters connected for long base hits, while poor support in the field accounted for several scores. The locals put across four runs on a badly rattled visiting nine in the first inning to cinch the game.

"Skipper" Wilson, local infielder, threw the game into an uproar in the sixth inning with a play that left fans and players alike puzzled. Wilson made a bold attempt to steal home base as the visiting pitcher wound up to pitch to Manager Pete Womack, batting for the locals. Badly rattled, the pitcher balked, automatically allowing the base, ran out of the box, then threw home in an effort to tag the fleet Wilson. Wilson scored safely as Womack, still in the batters box, laid down a neat bunt and reached first. After a great deal of discussion, the batter was called back, but the run was allowed. Wilson, incidentally, is one of the fastest men and most daring base runners on the Quitaque nine.

No game has been announced for next Sunday. The local team may be seen in action, however, this week, as the annual Quitaque Invitation Baseball Tournament gets under way.

## C. A. PROGRAM AT THE ASSEMBLY OF GOD CHURCH

## QUITAQUE AND PARNELL WIN IN TOURNAMENT

### Three Games Scheduled for Play Today

Meeting the Flomot nine on Patterson field Wednesday afternoon at one o'clock, the Quitaque Baseball team opened its annual Invitation Baseball tournament by taking an 18-11 win in the first game.

Six teams are entered in the first annual classic, including with Quitaque, Parnell, Gasol'ne, Flomot, Edgin and Floydada.

The opening game turned into a pitcher's nightmare, as both Quitaque and Flomot sluggers collected long base hits to run up the wild score. Midler and Gregg pitched for the locals, with Manager Pete Womack behind the plate. Batteries for the visitors were Lee and Slover, pitchers, with Pyron, catcher.

In the second game of the double-header Wednesday, Parnell took an easy victory from the Gasoline Rinky-Dinks, 35-11, to loom as one of the favorites in the tournament.

The tourney is being conducted as a two-game elimination affair, each team being allowed to lose two games before being disqualified.

On the card for today (Thursday), Floydada, strong contender for tournament honors, and Edgin, will meet in a first round match at nine-thirty a. m.

In the first game in the afternoon, Gasoline and Flomot, both losers in the opening games, will battle for the right to remain in the tournament. The game will be played at 1:30 sharp.

The feature game of the day will be played at four o'clock between the Wednesday afternoon winners—Parnell and Quitaque. Both strong teams, the afternoon game may turn into a championship battle.

All games are played at Patterson Field. The tournament will close either Saturday afternoon or Sunday. Manager Pete Womack of the local club announced late yesterday. Definite announcement will be made later of the exact date and time of the final games.

## MRS. JOE GRAHAM PRESENTED BOOK BY CENTENNIAL CAST

Members of the cast of "After Supper at the Old F Ranch," Quitaque's Centennial play, Wednesday presented a finely bound copy of the book, "Charles Goodnight" by J. Everts Haley—a biography of the famous rancher—to Mrs. Lucille Ross Graham, author of the play. Mrs. Graham was ill and unable to make the trip to the Centennial at Dallas with members of the cast. The book was purchased for her by members of the cast, and was presented Wednesday afternoon of last week by Mrs. E. C. Price, Mrs. J. W. Ewing and Mrs. A. L. Patterson. The fly-leaf of the book contained the signatures of all who were associated with Mrs. Graham in the production.

Draper, pastor of the First Baptist Church of Lorenzo, and a former local pastor, was in charge of the services. He was assisted by the pastor from Cone, where he is now conducting a revival meeting.

Interment was in the Quitaque Cemetery.

Mrs. Allen died here early Saturday morning at the home of her daughter, Mrs. Guy Hawkins. Death followed a long illness.

Mrs. Allen was born in Hill County, Texas, in 1878. She had been a resident of Quitaque for a number of years. Her husband preceded her in death in 1924.

Surviving are eight children: Mrs. Virgil Wilcox of Elgin, Oklahoma; Mrs. Guy Hawkins of Quitaque; Jack Allen of Albuquerque, New Mexico; Ralph Allen of Pampa; William Allen of Los Angeles, California; Carl Allen of Alsea, Oregon; Martin Allen of Maud, Oklahoma; and Mrs. Myrtle Allen of Apache, Oklahoma. Services were in charge of the Harcastle Funeral Home.

## Local Couple Are Honored On 25th Anniversary

Mr. and Mrs. E. E. Burgess were honored Sunday with a surprise anniversary dinner on the occasion of their twenty-fifth wedding anniversary at their home north of town.

Mrs. Anna Kendrick, sister of Mr. Burgess, visiting here from Atkins, Arkansas, and Mrs. Roy Burgess arranged the Silver Wedding observance.

A cleverly dressed bride and groom in miniature, set in the center of a red heart, formed the centerpiece of the table, surrounded by flowers and ferns. Following the dinner, the honored guests were presented with three trays of gifts from members of the family and friends.

Only members of the immediate family were present at the dinner Sunday—including Mrs. Kendrick, Mr. and Mrs. Roy Burgess, Rayburn Burgess, and the honorees, Mr. and Mrs. E. E. Burgess.

## SCHOOL TO OPEN FIRST MONDAY IN SEPTEMBER

### Large Enrollment Expected In System

Quitaque schools will open officially on Monday, September 7, it was decided at a meeting of the Board of Trustees last week, P. P. Rumph, President of the Board, announced.

No plans have been considered at the present time in regard to dismissing school for a period during the cotton picking season, Superintendent E. W. Scheid stated. Schools will open at the usual time in September, however, and any decision in regard to closing the schools will be made at a later date.

A large enrollment in both High and Grade schools is anticipated. The exact number of transfers received this year was not revealed, but a large number of students from nearby rural districts are expected to take advantage of the courses offered in the local high school this fall.

Two school buses will be ready for operation on opening day, it is understood.

With State affiliation granted this spring in five new commercial courses, Quitaque High School will offer students a total of 24 fully affiliated credits, an unusually good rating for a school of this size. Typing, book-keeping, Commercial Law, Junior Business Training, and Commercial arithmetic will be among the practical commercial courses offered High School students.

The local school system was highly complimented this spring by State Inspector of Schools, J. D. Wilson, on a tour of inspection here early in May. Affiliation in newly added courses was granted at that time.

Witcher of Lovington, New Mexico, Mrs. R. J. Hammock of South Plains, W. S. Morris of Amarillo, Charlie and Howard Morris of South Plains, and J. L. Morris of Quitaque.

All the children were present for the funeral services.

## ACCEPTED BY RADIO

DALLAS—The radio network on the grounds of the Texas Centennial Exposition sometimes is put to strange uses. Recently a young lady demanded that a certain doctor be paged. She explained he had proposed, had given her only until midnight to answer. She wanted him to know it was "yes."

Saccharine is 550 times as sweet as sugar. But it still doesn't go very well as a pet name.

## Outlook For Agriculture In Texas Bright

AUSTIN, August 4—It is significant that the agricultural outlook for Texas is far more optimistic than for the country at large, according to Dr. F. A. Buechel, assistant director of the University of Texas Bureau of Business Research.

Although some damage has been sustained in scattered areas of the State by drought and perhaps even more by floods, present indications are that the total output of major crops and livestock enterprises will be nearer normal than it has been for the past several years, he said.

"This fact in conjunction with the higher level of prices of farm products which is already assured, should make for substantial gains in the agricultural income of the State," he continued. "Retail trade in Texas is already reflecting this improved agricultural outlook. In Texas the increase in retail sales during June over those of June last year, was considerably above that in the Nation at large.

"Aside from the uncertainties mentioned above in connection with the corn crop, the business outlook in the country as a whole for the second half of the year continues bright. The demand for automobiles, steel, and a great variety of other goods promises to be well sustained. The revival in the cotton textile industry also is important.

"Looking still farther ahead, the longer term factors, those likely to operate over the next several years

## WORK STARTED WEDNESDAY ON STATE HIGHWAY

### Labor Under Direction of WPA and Highway Department

Fond dreams of a hard-surfaced highway across this section of the Texas Panhandle appeared a step nearer realization this week, as work on Highway 86 in Briscoe County was renewed, Wednesday.

Under the auspices of the Works Progress Administration in cooperation with the State Highway Department, a six months project calling for grading, drainage, and select material on approximately six miles of highway, extending from the Hall County line to one-half mile west of Quitaque, was inaugurated Wednesday.

Approximately eighty men, representing all available WPA labor in the entire county, will be concentrated on the work here. The project is scheduled for completion on or before January 1, 1937.

S. R. Powell has been employed by the Works Progress Administration as Project Supervisor on the Highway job. County Commissioner L. E. Graham announced, Elmer Terry has been named by the State Highway Department as foreman.

Work with teams was started on the stretch west of town early Wednesday. The entire crew of laborers will be placed on the job, probably this week.

No detours will be necessary while the work is in progress, Powell stated. Second-class barriers will be used, and all cars will be flagged, but traffic will be permitted on the stretch under construction, according to the supervisor.

"There are definite indications that the Highway Department plans to hard-surface this section of Highway 86 in the near future," Commissioner Graham stated Wednesday.

"Our contract calls for grading, drainage, and 'select material,'" Graham pointed out. "That is a very good indication that the highway is being prepared for hard-surfacing. However, no definite or official announcement has been made."

Completion of grading and drainage work included in this project will, with the exception of a short stretch west of Silverton, place Highway 86 through Briscoe County, across Swisher to Tulia, and across Castro to Dimmitt, in readiness for hard-surfacing.

# WORK STARTED

(Continued from Page 1)

An organization, known as the Highway 86 Association, and composed of civic leaders from all towns on Highway 86, is working steadily to secure hard-surfacing of the entire route across this section of the Panhandle to the New Mexico line.

The proposed route, completely hard-surfaced, would provide a short cut to Clovis, and other points in New Mexico and west; and would attract a great deal of traffic and business to the towns on the Highway, members of the association propose. Their recent agitation represents the first concerted action on the matter, and promises to secure a hard-surfaced State Highway for this section.

## Outlook For

(Continued from page one)

Year to be extremely favorable. Tremendous shortage of durable goods—including construction—that accumulated during the depression, our enormous supply of investment funds, low rates of interest, relatively low level of commodity prices—in comparison with the 1923-29—make a situation probably stronger than any that existed in this country at the end of earlier depressions.

Should not be overlooked that the improvement in general business and international trade during the depression lows, we are far below normal. Industrial production is now back to the levels of 1930, the first year of the depression. Population in this country has increased by more than six millions since that time. Assuming that the increase in per capita consumption, which has prevailed consistently in this country with only intermittent interruptions for more than a century, will ultimately be resumed, it can readily be seen how much farther we still have to go to reach our old stride in industrial production.

## A FARMER'S LIFE "AS HE LIVES IT"

By ED HOLMES (Station C. E. H. Farm)

FLOYDADA—I've been afraid sooner to write about the way I have turned my stock in the field but thus far it has worked so fine, so here are the facts.

For three weeks, 13 head of cattle and nine horses have been turned wild loose into 100 acres of crop land, consisting of 12 acres sudan, 60 acres cane, milo and hegari, 16 acres cotton and 14 acres of wheat stubble.

I really started it accidentally because I didn't have my sudan fence separate and in herding my stock on the sudan until we could get the fence built, they would get into the feed occasionally. To my surprise, when I would drive them out, they would only eat the carless weeds and crap grass. Well I deliberately drove them out into the feed, left them and pretty soon they all came back to the sudan. If you know anything about a stubborn cow or her brothers, you know I am telling the truth!

For a fact the 22 head of stock on the 100 acres in the last three weeks have about got slick fat and have about cleaned all the grass and weeds out of the field and fence rows.

People in passing come by to tell us the stock are in the field. About every day I get afraid they have decided to eat the feed or cotton and go see. They are not. I don't believe they have ruined one dollar's worth of feed and cotton. I have thus far sold at least \$30 worth of cream as clear profit from the cows and saved \$20 worth of horse feed.

Some of my feed is beginning to boot out and of course soon the stock will have to come out. You probably don't grow as much weeds and grass as I do and couldn't get by so easily.

Recently some fellows were talking and one remarked that it took good land to grow careless weeds. R. V. Tinnin spoke right up and said, "Ed Holmes has the best farm in the country then!"—Good for R. V.

Again I wish to mention farmers and their 'grapes'. Grapes are sure one fine crop for this country. Chances are that you have spent several dollars for medicine this late spring and early summer, when plenty of good ripe grapes would have been much better for you and certainly more pleasant to take.

Some people spend thousands of dollars going to France to take the "Grape Cure." You can have the same good cure on your farm for nothing if you will do some planning and a little work.

Renters, as well as land owners, should be interested in this. You do what is right and if the land owner doesn't deal fairly with you, he will have to answer for it, not you.

To be more prosperous, we naturally consume more. It is common sense to think that it must be produced. If we could all get rich trading on the other man's products, one fellow could raise an acre of potatoes, we could trade them around and around, and sure get by easy.

Chances are you are not to blame if you are not producing something. You can't produce farm products without a farm. You couldn't build mouse traps without some equipment. It takes credit (money) to get the equipment.

If you have studied our money system as far as the producer is concerned, it is rotten and broken down and you know it!

## Things We Never Knew Till Now!

Is it more practical to quit producing or work on the credit system? If all of you say, "There is nothing I can do," where will we go from here?

## The "Personal Touch" In Taxes

By RAYMOND PITCAIRN National Chairman Sentinels of the Republic

Newspaper-reading Americans are learning the names of a lot of once-unfamiliar taxes these days.

Capital-stock Tax, Undistributed Corporation Reserve Tax, Tonnage Tax, Manufacturers' Excise Tax, Communications Tax, Insurance Tax—these are just a few of the titles with which a tax-conscious Congress 's crowding the headlines.

What do they all mean? Let the experts explain. The important fact is that whatever their titles, whoever they are supposed to hit—we, the people, pay the final bill.

Not directly, of course—but in the natural course of events. As economists explain, the industries and other producers at whom such levies ostensibly are aimed must raise the tax money somehow. How? The obvious method is to add it to the price of their products—of the things which the average worker and his wife and children need and must buy.

That's why we are told there's a hidden tax in every railroad fare we pay, in every market basket we carry, in every rent bill we meet, in every suit we wear, in every phone call we make, in every mile we drive.

That's why heavy taxes, wherever aimed, boost the cost of living for every worker and consumer—for the overwhelming majority of American families. That's why, regardless of titles, such taxes retain what writers call the "personal touch."

Trick names for taxes can obscure these facts, but they cannot lower the H. C. L. That must be achieved by reducing waste in government—which makes heavy taxes necessary.

One of the needs of the times is to teach greater respect for the laws and the in-laws.
