YOUR HOME-OWNED NEWSPAPER

VOLUME XI

QUITAQUE, BRISCOE COUNTY, TEXAS, THURSDAY, OCTOBER 8, 1936

No. 45

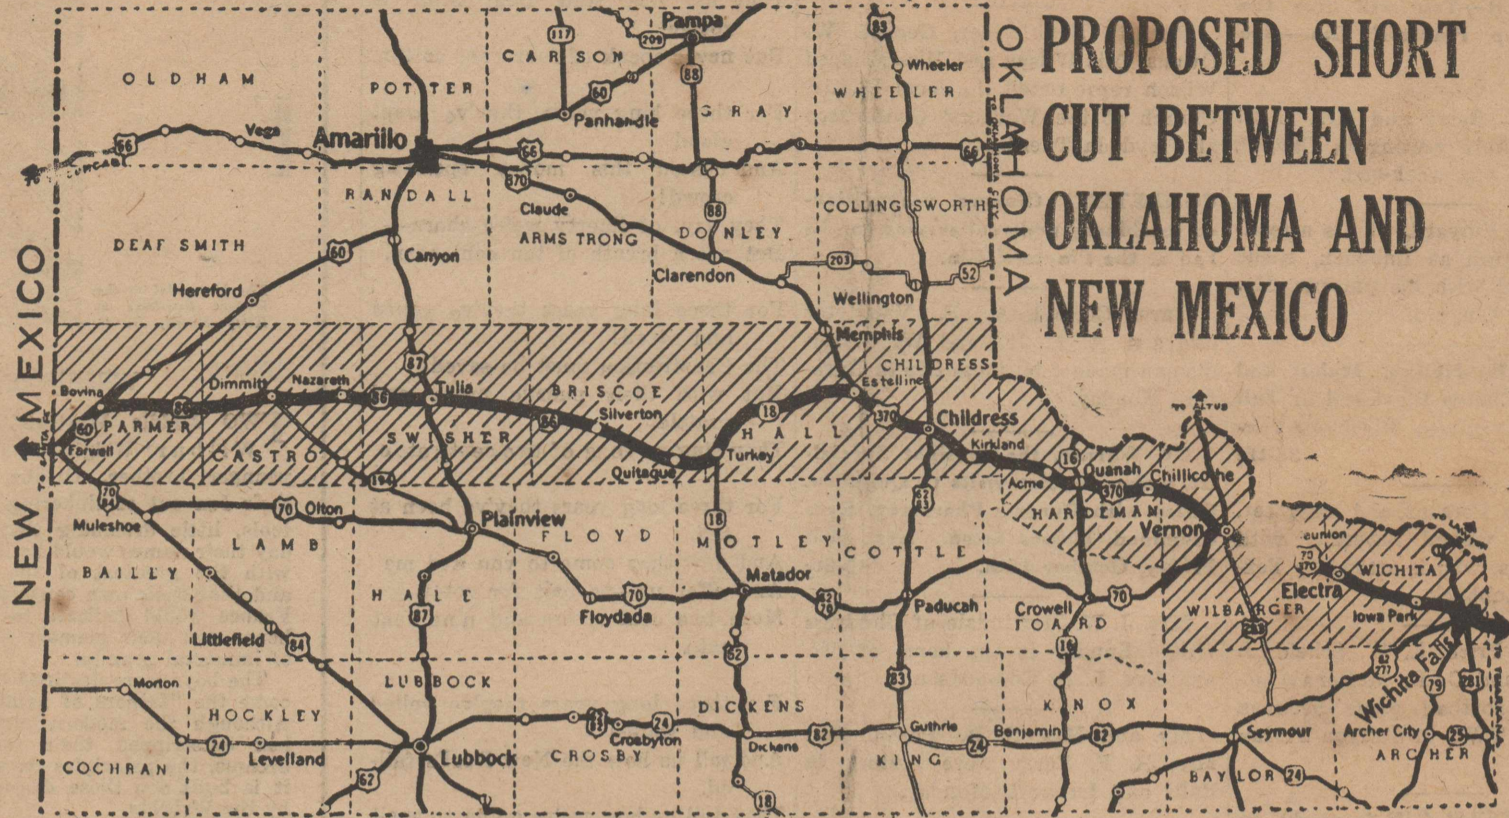

NEARLY INCH OF RAIN COVERS QUITAQUE AREA

Another slow rain, starting Tuesday afternoon, and continuing until nearly noon Wednesday, covered the Quitaque territory. According to measurements on the Government Rain Gauge at the Quitaque Post, eighty nine one-hundredths of an inch fell.

The rainfall will not do much damage to the opening cotton, according to local farmers, except delay the harvest. The near-record rain falling last month, when nearly nine inches was recorded, gave the Quitaque territory plenty of moisture for the time being, and this moisture was not needed.

The records show that October rainfall in 1935 totaled .93, falling on the 17th and 24th. In 1934, only .07 was recorded during October.

The rainfall Tuesday and Wednesday sent the total moisture of the year to 16.72, nearing the amount that fell the entire year of 1935, which was 17.69.

PROPOSED SHORT CUT BETWEEN OKLAHOMA AND NEW MEXICO

The above map, prepared by the Highway 86 Association, shows the new proposed short cut from Oklahoma to New Mexico, by way of Highway No. 86. This map was prepared to show how, by hard surfacing 86, tourists could save many miles in coming from Oklahoma points, or down State points, enroute

to New Mexico, California, or other points west, and returning. This map will show, beyond a doubt, that this connection is very important, and work should be rushed to its completion.

The Highway 86 Association, composed of citizens in Parmer, Castro, Swisher and Briscoe Counties is

headed by Andrew Acker as president and T. A. Singer as secretary, both of Castro County.

At present, all of the right of way, except a short distance in Parmer County, has been secured. Grading and drainage has been completed on most of the route.

The paving of Highway 86 should

interest every citizen from Wichita Falls to Clovis New Mexico. Local citizens are urged to "put their shoulders to the wheel" and give every assistance possible to this project of hard surfacing 86.

The proposed route shown on the above map is, all paved with the exception of Highway 86.

PANTHERS TO PLAY CONFERENCE GAME FRIDAY AT THREE

Weather permitting, the Quitaque Panthers will meet the Turkey Turks Friday afternoon in the first conference football game of the season. The game will be played at Turkey, starting promptly at 3 o'clock. Admission will be 10 and 25 cents.

Turkey has played two games this season, tying one and winning one by a top heavy score. Quitaque has only played one game, losing 19 to 0 to the E-telline eleven. Both teams are primed to win their first conference game.

Coach Roy Morris, while not predicting a win, is expecting a hard fought game, and with the proper "breaks" states that Quitaque will be tied for top honors in the conference after the game Friday. The local coach says the Panthers are rounding out into a creditable ball club and assures the fans of a hard, fighting group of boys.

Coach Al Duncan of the Turkey Turks announces the probable starting line up as follows: Ends, Arnold and Meachem; tackles, Cotton and Chondson; guards, Gafford (capt.) and Mullin; center, McGlodkin; halves, Elliott and Y. Yarbrough (capt.) full back, Farley; and quarterback, D. Yarbrough.

Coach Morris' starting line-up will probably be Starkey and Persons at ends; Cutbirth and Grundy, tackles; Self and Taylor at guards; center, McCutcheon; Hollis (Capt.) at quarter; Bogan and Young, halves, and Hrtcheson at full.

Local fans are urged to make the trip to Turkey Friday afternoon and support the Panthers in this game.

NEW CITIZEN ARRIVES AT TAYLOR HOME

Mr. and Mrs. Carl O. (Jinks) Taylor announce the arrival of a nine and a half pound boy, born Thursday, October 1st. The young man has been named Jimmie Fred.

Proposed Constitutional Amendments

How are you going to vote November 3rd on the Proposed Constitutional Amendments? Do you know what you are voting for or against? We doubt if the average voter will know what he is voting for that day. Therefore, for your consideration, we are publishing concise summaries of each of the six proposed constitutional amendments, starting this week and continuing until all are discussed. Turn to another part of this issue and read each one—then go to the poll's November 3rd and vote according to your judgement. All of the amendments are important—study them carefully.

These summaries were prepared by W. W. (Hick) Halcomb of the Department of State.

Luke Barker Says:

The constable about ruined the plummin' in Tick Binn's house, burn't er rite out, when he poured some o' Tick's likker in t' it. Uncle Tip Bloom sez that seems t' be th' usual crop o' llers an rag weeds this year.

Looking Things Over

You ought to be an Editor! He has the best time in the world—with new comedy popping up every day. A certain man in our town, who does not advertise in the local paper, gave me the very devil because his name was misspelled in the local columns (he says it does not pay to pay for advertising, but he wants all the free stuff he can get). Another time—a certain party jumped on me for missing a news item which concerned him—and a very short time later he came in and wanted to murder me for mentioning the fact that he had visited another town. Said it was supposed to be a secret.

More comedy—a certain merchant requests that the Post raise the dickens about buying mail order goods—and that very same merchant orders his printing from an out of town establishment.

Yep! it's a funny world—the people in it make it so funny.

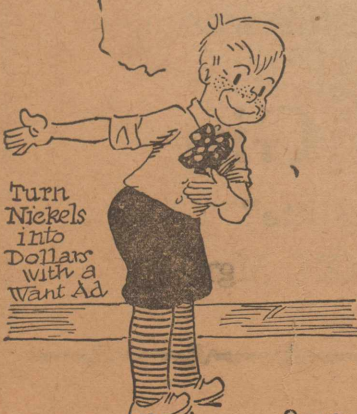

I found out, a long time ago, that no one is going to see things just like I do, therefore, all I want is that the other fellow grant me the same privilege that he expects me to give him.

I put a help wanted ad in the Post last week. The paper was in the mails at twelve—at one the ad was answered. Advertising pays—Mr. Gaston Owens is now connected with the Post.

The Mr. Ed Grundy—Mr. Ernest Tunnell combination who was to fill this space this week fail to turn in any copy—they didn't say why—we hope they see fit to show their wares at some later date.

MICKIE SAYS—

"FRIENDS, IF YA LIKE BARGAINS, TH' MOST FER TH' MONEY IS THEM 'MIGHTY MIDGETS', THE WANT ADS—THEY RENT HOUSES 'N FARMS, GET FOLKS JOBS, FIND THE LOST, AN' TURN 'WHITE ELEPHANTS' INTO CASH—ALL FER A FEW NICKELS"

Ladies of Silverton Invite Local Women To Hear Book Review

The Silverton ladies are to have the privilege of a great book review on Wednesday, October 21, when Mrs. O. T. Bundy, at a "seated" silver tea, will give a survey of the most talked of book in many moons: "Gone With the Wind," by Margaret Mitchell. The meeting will be at 4, at the Presbyterian Church.

"The story epitomizes the whole drama of the South under the impact of the war and its aftermath—yet not a war novel except as the war affected the lives of the South." Says the Atlanta Journal: "It is not too much to say that it is among the most powerful and original novels in American literature."

The Silverton people feel so pleased to have this opportunity that they want to share it with their Quitaque neighbors, feeling sure that the Club women especially, as well as others, who care for the best things in literature, will want to avail themselves of this treat.

JUNIOR CULTURE CLUB STUDIES "HEALTH"

The Junior Woman's Culture Club met Tuesday evening with Mrs. Frank Gillespie. The subject for the evening was "Health." Mrs. Roy Burgess was leader. The roll call was answered with a Health Habit, followed by a very interesting talk on "Health" by Dr. E. C. Price.

Those present were Misses Mary Lucy Montgomery, Ila Steele Patterson, Mary Ollie Persons, Myrtice Hadaway, Ruby Norton, Maudie Meredith, Jewell Everett, Minnie Mae Roberson, Mable Atkinson and Mmes. Roy Burgess, A. C. Bickford, Jr., J. W. Lyon, Jr. and the hostess, Mrs. Frank Gillespie.

STYLE SHOW AT LUBBOCK STARTS TODAY

LUBBOCK, Oct. 6.—Several hundred merchants from West Texas and Eastern New Mexico and approximately one hundred wholesale representatives will gather in Lubbock today for the thirteenth semi-annual Wes Tex New Mex Wholesale Clothing market.

Latest styles in men's and women's clothing, ladies' ready to wear, millinery, hosiery, shoes, novelties and miscellaneous items will be displayed. Wholesalers will set up their displays in sample rooms at Hotel Lubbock and Hilton Hotel.

The market will last four days. There are two sides to every argument—your own and the wrong one.

Texas Farm Income Over Half Billion

AUSTIN, October 5.—The United States Department of Agriculture said today gross income from farm and livestock production in Texas last year was estimated at \$550,630,000, a 13 per cent gain over 1934. Included was \$58,751,000 from government rental and benefit and cotton price adjustment payments.

Gross income from crops, including government payments, amounted to 62 per cent of the total. That from livestock and livestock products made up the remainder. Gross income from cotton and cotton seed, including government payments, was the largest single item. It amounted to \$238,492,000. Milk ranked second at \$75,181,000, and cattle and calves third with a gross income of \$52,796,000.

HOME DEMONSTRATION CLUB TO MEET AT M. E. CHURCH

The Quitaque Home Demonstration Club will meet at the Methodist Church this week, instead of with Mrs. R. Neal Greer, as previously announced. The meeting will be held Friday afternoon.

Mrs. Victor T. Hall, president of the organization, urges all ladies to be present. Miss Geneva Meadow, County Home Demonstration Agent, will be present at that time.

AGRICULTURAL BRIEFS

BY THE BRISCOE COUNTY AGENT

From every direction we are receiving maps and more maps—Thanks to the boys in the forks of the creek. We have to have these maps in order to "figure out" how much money each farmer will have coming.

If I were measuring these farms and making the maps, there are a few things I'd do with my map that some of the farmers are not doing. The principle changes that I'd make are these: 1st, I'd put down all my measurements; 2nd, I'd write in each field just what that field was used for in 1936; and 3rd, I'd write my name and my landlord's name on the map. When I had all that down I would mail it or bring it to the County Agent's office, believing all the time that he could figure out just what was going on at my place. All of you who haven't made your maps yet, please try following the suggestions given above. It will help out lots. Thanks.

For the most part the maps we are receiving now really resemble

maps more nearly than Jig saw puzzles. We appreciate that too.

Sowing Time
...Pop! pop! pop! and chug! chug! chug! can be heard day and night this week. The farmers are putting in wheat in a hurry now. The three week's rainy weather put us a pretty good season in the ground and now it's dry enough to get that wheat planted.

We do not have any authentic information from Washington as to how much wheat to plant this year, but a strong recommendation comes that we should plant only 95 per cent of our base acreage for harvest—That does not mean that we cannot plant all we want to for grazing nor does it mean that we can not leave volunteer wheat for grazing.

Pool Checks
We are not as good at "doping" things out as "Old Tack" is, but we

(Continued on back page)

Plenty of Food Is Consumed by Visitors At Texas Centennial

DALLAS, Oct. 7.—Setting a dinner table daily over a period of 120 days for 38,000 invited guests has been the unusual chore of Dallas caterers having concessions at the Texas Centennial Exposition. These continuous dinner parties have driven the food handlers purchasing agents over the State to buy up the best of foods Texas has to offer.

A careful survey of the food concessions of the Exposition reveal 1,600 pounds of ground coffee are used daily to make 41,600 cups of the delicious brew served over counter and table on the grounds. During the period of 120 days an average of 10,000 pints of beer have been guzzled. 1,200 loaves of bread, 2,000 pounds of fish, 7,000 pounds of meat, 6,000 pounds of vegetables, 9,000 pints of milk, 400 pies, 14,400 buns, 400 pounds of hot dogs and 1,200 pounds of hamburger have been consumed.

This gives a grand total for the period of 1,200,00 pints of beer, 360,000 loaves of bread, 48,000 pounds of coffee, 240,000 pounds of fish, 1,840,000 pints of milk, 48,000 pies, 1,728,000 buns, 576,000 hot dogs and 1,152,000 hamburgers.

Checking some of these items back to the producer it is found that the Texas cattleman has received \$100,000 for the beef upon the hoof for the 2,302 head of beeves. A similar sum has been traced back to the vegetable producers and these items do not account for the butter, eggs and poultry that have proved to be a sizeable bill.

No effort has been made to check up the tonnage on soft drinks, doughnuts, tea, candy and confections, cake and pastries other than pies, ice cream, sandwiches, hard liquors, prepared packing house meats, items that run into the hundreds of thousands of dollars. Exposition visitors have spent millions for rooms and hotel accommodations, not only in Dallas, but over the state, and their gasoline bill has been tremendous.

"MAN SIZED" MELON RAISED IN QUITAQUE

This week Arthur Barrett is displaying a "man sized" watermelon, raised by him on the Persons farm, two and a half miles south of town. The melon was 32 inches long, 33 inches around and weighed 53 pounds. Mr. Barrett states that this is the only one he has found thus far, and suggests, if the local citizens want one, to come to his farm and help his head maize and perhaps one can be found.

BAPTIST W. M. S.

The Baptist Woman's Missionary Union met at the church on Oct. 5 for a study of the organization of the work, and a business meeting. The meeting was called to order by the President, Mrs. R. Neal Greer, and the group sang a song, "My Prayer." After studying the organization for the W. M. U., the Standard of Excellence was explained. The ladies adopted their constitution and by-laws. They voted to meet in Circles on the 1st and 3rd Mondays and at the church on 2nd and 4th Mondays of each month. It was voted to have a social on the 5th Mondays.

New Circle Chairmen were elected. Mrs. Grady Starkey was elected Chm. of Circle No. I, Mrs. Chas. Gowin, Chm. of Circle No. II, and Mrs. Ray Persons, Chm. of Circle No. III. The ladies are contemplating a great year of service for the Master. There were 14 ladies present. —Reported.

CROSS CHILDREN MAY HAVE WORMS

Watch for upset little stomachs, bad breath, fretfulness, loss of weight, itching around nose and arms. They may have pin or round worms. White's Cream Vermifuge has safely and for years, reliably expelled the worms and toned the delicate tract. White's Cream Vermifuge recommended by druggists.

Skin Sufferers

MADE HAPPY OVERNIGHT! Thousands apply Palmer's "Skin Success" for healing relief from skin distress. It works like a magician in many cases. Successful for 20 years. Also use Palmer's "Skin Success" Soap to keep skin in better condition. 35c each.

Lemons for Rheumatism Bring Joyous Relief

Want to be rid of rheumatism or neuritis pain? Want to feel good, years younger and enjoy life again? Well, just try this inexpensive and effective lemon juice mixture. Get a package of the REV PRESCRIPTION. Dissolve it in home in a quart of water, add the juice of 4 lemons. A few cents a day is all it costs. If you're not free from pain and feeling better within two weeks you can get your money back. For sale, recommended and guaranteed by all leading druggists. Any druggist will get the REV PRESCRIPTION for you.

Mrs. J. W. Martindale of Childress visited Sunday in the home of Mr. and Mrs. L. S. Edmondson.

Mr. and Mrs. S. R. Powell and Mrs. H. E. Berry were visitors in Falls and Lubbock Monday.

AT THE METHODIST CHURCH

We are rejoicing at the fine spirit that resulted from the services concluded last Sunday by Brother Kirby. His warm heart, deep earnestness and genu'ne sincerity was greatly appreciated by all who heard him.

It is now less than one month until the annual conference. With the fine cooperation that has been manifested during the year continued, the church is going to send up one of the best reports in some time.

The church school year started off in high last Sunday. Lets keep the work going, making every effort count towards a better church school—more efficient services and a growing interest and attendance.

GEO. L. KEEVER, Pastor

THE TURKEY TROT

Said to be one of the cleverest exhibitions of a single industry is the annual Turkey Trot held at Curero each year when groomed and costumed turkeys parade to the strains of marsh' music. The affair this year, Nov. 10-11, has been designed as a Centennial festival. The turkey industry is of major consequence in Texas.

The cheapest way to wipe out a debt is to pay the fellow back in his own coin.

Another good memory test for you is to try to remember what it was you worried about last week.

It's a wise man who realizes that everybody's lot grows about the same amount of weeds.

For Sore or Tired Feet DR. TICHENOR'S ANTISEPTIC "GOOD FOR WHAT AILS YOU"

THREE LONG YEARS

By Hon. Jack Houston, Congressman, 5th Kansas District

(With Apologies to Nobody)

Republicans for three long years Have shed their coats and skins and tears

To tell their comrades how they feel Regarding Roosevelt's New Deal.

For three long years they've played for votes.

But never mentioned nine cent oats. They say this New Deal Stuff is rotten

But never speak of four cent cotton.

For three long years they've wept aloud

And cursed this money spending crowd! They say, of liberty we're shorn— But not a breath of ten cent corn.

For three long years they've yelled and raved!

The Constitution must be saved! But with their puerile prate and prattle,

They sing no song of two cent cattle.

For three long years they've been at sea

And now they come to you and me And offer us—as bait for votes— More two cent steers and nine cent oats.

For three long years they've yelled and wailed

And tell us how the New Deal's failed.

They tell us how we're going to spoil But never mention ten cent oil.

For three long years they fume and fret

And hammer and slander our New Deal set.

They tell us all Roosevelt's a cheat But forgot to talk of two bit wheat.

They offer, as in the days of old, 'A crown of Thorns, a cross of Gold' 'A balanced budget'—can you beat it?

Well, one thing's sure, you cannot eat it.

The final test of religious faith is to live it.—Charles Reynolds Brown.

If you cut a pattern for quilt blocks from fine sandpaper instead of ordinary paper, you will find it will not slip. Moreover, it need not be pinned in place.

Thirty-two states have met the Federal requirements that entitle them to Federal aid in old age pensions.

Another way for a motorist to keep contented is to read the ads that brag about his own car and skip the rest.

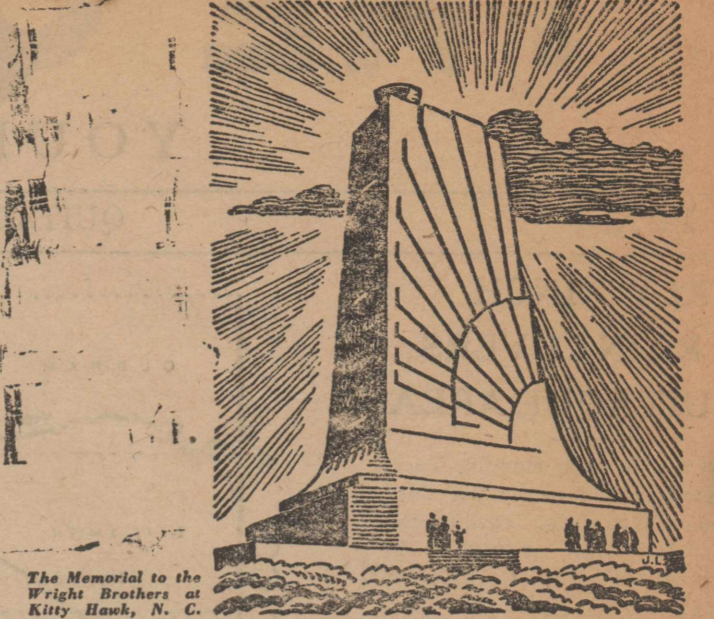

A thorn in the flesh is more troublesome than two on the bush.

Save money—read the ads.

Milestones of American Genius

The Memorial to the Wright Brothers at Kitty Hawk, N. C.

WILBUR and ORVILLE WRIGHT TWO Middle Western boys, Wilbur Wright and his younger brother, Orville, got their fun out of tinkering with tools, little dreaming that one day their names would be linked with the greatest of the land and that their own country and France would dedicate to their honor and their memory shafts of immortal granite. The boys were destined to become the "fathers of aviation." Although the modern airplane has outstripped their fondest dreams, the principles on which it is built are those discovered by the Wrights. There was four years' difference between the brothers: Wilbur was born in Henry County, Indiana, in 1867, and Orville at Dayton, Ohio, in 1871. From their earliest childhood they displayed a passionate interest in mechanics. A home-made printing press was one of their first achievements. While in the bicycle business for a living, they gave all their spare time and funds to experiments with locomotion in the air. Like other practical dreamers of "humanity with wings," the Wright brothers started with motorless glider contraptions. They soon discarded these for heavier-than-air motored models. They selected the remote hamlet of Kitty Hawk, North Carolina, for their experimental work because of its favorable winds, and it is here that a magnificent memorial, straining its granite wings to the skies which they conquered, has been erected. This monument to their genius is shown in the illustration, and another is being planned for Dayton, Ohio. Their early attempts met with but slight success: a minute or so in the air in 1903. Not until 1908, after winning a prize for a successful flight in France, were they hailed as founders of modern aviation. The following year they duplicated the feat during the Hudson-Fulton celebration by flying over the Hudson River. Wilbur Wright died in 1912. His brother is still living in Dayton. Their life's work made America the homeland of aviation and will be gratefully remembered for all time. (Copyright by Memorial Extension Commission.)

Helps Babies Rest Ends Colic Pains Aids Digestion

When your baby tosses about, cries in pain and cannot sleep, why not get at the cause with McGee's Baby Elixir. It neutralizes indigestion acid, ends gas cramps and colic pains and then helps them become cheerful again. They sleep better. McGee's Baby Elixir is made of the purest medicinal extracts and syrup. It cannot harm. Years of use has proven that. Simple directions tell exactly how to use it. Tastes good. Gives relief promptly. Two sizes: 35c, 60c. (adv)

SENIOR NEWS

WHAT THE SENIORS OF '35-'36 ARE DOING

Lewis Bedwell, Ray Morrison and Preston Taylor are attending WTS-TC at Canyon.
Henry Gardiner is attending Rice Institute at Houston.

Jack Hall chose as his future alma mater, Texas Tech at Lubbock.
Howard Hall outgrew the small community and went to Oregon to work.

Frankie Sanders is holding a position with the Utilities Company in Quannah.

Haney Wise, Margaret Graham, Cloie Woodruff, Virgil Purcell, Willie Marie Brummett, Ethel Carter, J. C. McGhee, Evelyn Moore, Alex Reeves, Ernest Kelly, and He'en Reed are helping keep the home fires burning.

AN EXPLANATION IS DUE

For the benefit of those who do not understand this talk the Seniors are offering about the Centennial, this explanation is given: Each year, usually the latter part, it is the custom of the Senior Class to enjoy "Senior Day." This year, since it is Texas' 100th birthday, State Superintendent L. A. Woods has suggested that all schools, especially the senior classes, take advantage of the opportunity of seeing the Centennial. This idea was accepted eagerly by the Senior Class for its Senior Day. The activities sponsored by the Seniors for the next month will be for the purpose of raising funds for the trip. "On to the Centennial" has been adopted as the class slogan.

HISTORY IN THE MAKING!

Columbus made history when he discovered America—to this community Supt. Scheid made history when he supervised the mowing of the high school lawn. The student body, faculty, and passers by note a marked change in its appearance.

Keep up the good work Mr. Scheid! The student body is backing you!

SENIOR RINGS ARE HERE!

The lower classmen have been noticing a lot of money in the hands of the Seniors these days. As you have probably already guessed, this is for the Senior rings. The rings are in the express office, and the Seniors are very anxious to pay off their C. O. D. and start wearing them.

PEP, DID YOU SAY?

The Seniors are showing their enthusiasm and class spirit in many ways this year, but especially in the way they started their campaign for funds for the Centennial. This was shown in the "42" Tournament given this week, and is to be shown in the annual Senior play, which is to be given the first part of November. "On to the Centennial."

Miss King—"J. B., what are you doing with your feet on the desk?"
J. B. Tiffin—"Economy, madam. I've lost my eraser, and I'm using my rubber heels."

Luther Burt—Why do you call Frances Graham a Boy Scout driver,

WHOSE WHO

Walter Taylor, R. E. Seif, Harold Bogan, J. D. McCutchen, and Bob Young are the Junior football heroes.

Dorothy Dee Sachse, Mar'ion Sanders, Ineatha Hawkins are the men-haters.

Wren Vinyard, Howard Castleberry, Charles Walden and Bryant Eddleman are the ladies men.

Edna Young, Jimmie Payne, Doris Kimbell and Dalsie White are the bus heroines.

Po'k Hall, Orval Graham and Charles Burgess are the teachers pests.

Koren Keever, Charity Cain and Marjorie Wakefield are the best flirts.

Edwin Dorsey, Clarence Grant, and Wayne Whittington are the bus heroes.

Christeen Merrell, Bernice Seiff and Ineatha Chandler are the best models for the Junior class.

Mr. Scheid (while shaving) — "What in the world can be the matter with my face? I must be coming down with some horrible disease."

Mrs. Scheid—"Oh, I'm so sorry! It's my fault. I used your shaving brush to paint the screens, and I forgot to clean it."

A man who had taken a girl out to dinner when she was 18 met her when she was 30, and she looked as though she had been out to dinner ever since.

Why do the girls of the Junior Class flirt with Howard Castleberry? Why does Clarence Grant always

CAN YOU FANCY THIS?

Marion Sanders wishing she rode on the Gasoline bus or that he rode on the Greymule bus?

Dorothy Sachse's flirting? Bryant Eddleman's beating Edward Grundy's time with a Senior girl?

Edna Young not jealous of some one? Orval Graham and Edwin Dorsey's courting Charity Cain and Marjorie Wakefield?

R. E. Seif's allowing a freshman girl to play hands with him in chapel?

There seems to be a National Campaign in favor of requiring periodic inspection of breaks on autos. That should help a lot, for instead of drivers running over a man, they will probably be able to stop right on top of him.

Coach Morris (after workout) — "Has anyone seen my vest?"

"Sure, Mr. Morris," said Joe Taylor, "you have it on."

"I surely have," replied Mr. Morris gazing solemnly at his vest, "and it's a good thing you saw it or I'd have gone home without it."

The occasion was one of Miss King's history exams, and the question was, "Give an account of the marriage Laws of the Greeks." One youth's reply ran as follows: "The marriage laws of the Greek's were something like our own. No Greek man was allowed to marry more than one wife. This system was known as Monotony."

Being rich may have its penalty, but we've never heard of anyone unwilling to pay the penalty.

Pimples, Blackheads Go!

Agricultural Briefs

(Continued from page one)

have been doing some plain and fancy figuring during these rainy days and we've "figured out" as how Briscoe should receive cotton tag check by or before October 25 at 1:10 p. m. We will not put the method of calculating this out right here, but if anyone is interested, we'll try to explain it.

Turkey Talk

Only about 30 days now till time to put those turkeys on the market. Have you started putting the finish on them yet, or, are you just letting them finish themselves? A good crushed grain mash with a little cottonseed meal and bone meal or meat scraps added will certainly put the desired finish and pounds on those turkeys. Try it one time—you'll always be a believer in finishing turkeys.

And while we're talking turkeys, lets not forget that November 30 to December 3 will be Turkey Show Week at Plainview. Lets not let all our choice birds go on the Thanksgiving Market—lets save some of the "tops" to show at Plainview. They should bring us a better price than at Thanksgiving.

Now For the Riddles

This week we have help in the office that should prove quite valuable to every one concerned.

Mr. Looe Miller has been transferred from Floydada to Silvertown as assistant in Soil Conservation Work. Mr. Miller has had two years working out Cross Word Puzzles and answering riddles that come to the County Agent's office. He should prove very valuable in this line up here. We are happy to announce his connection with this office.

STATEMENT

Statement of ownership, management, etc., required by the Act of Congress of August 24, 1912, of The Quitaque Post, published weekly at Quitaque, Texas, for October, 1936. STATE OF TEXAS) COUNTY OF BRISCOE)

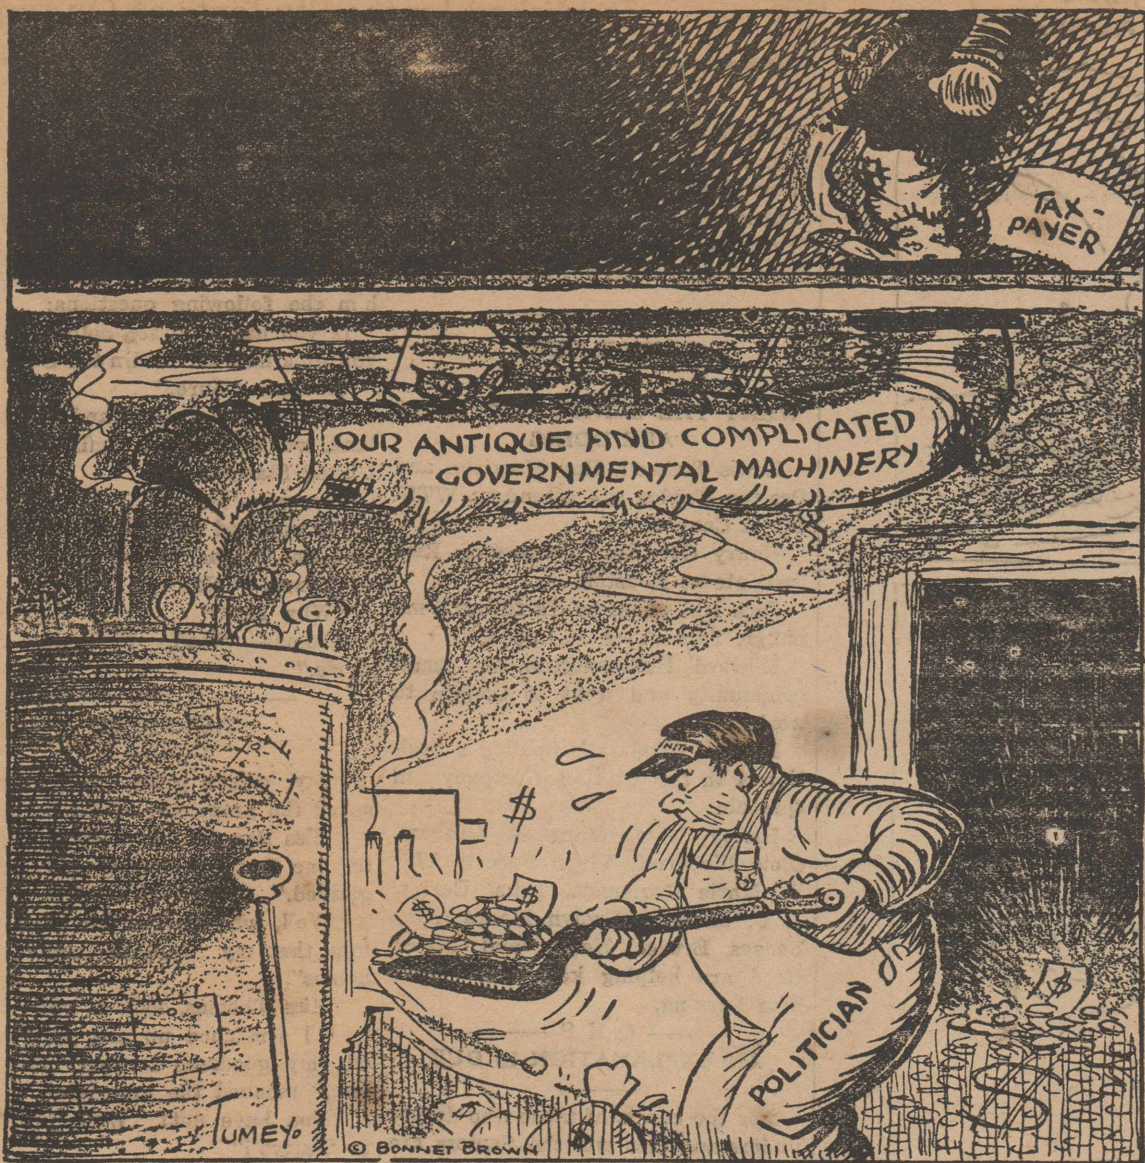

Before me, a notary public, in and for the state and county aforesaid, personally appeared Clement B. McDonald, who has been duly sworn according to law, and deposes and says that he is the publisher of The Quitaque Post, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management, etc., of the aforesaid publication for the date shown in the caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse side of this form to-wit: That the name and address of the publisher, editor, managing editor and business manager is: Clement B. McDonald, whose address is Quitaque, Texas, that the known bondholders owning or holding one per cent or more of the total amount of bonds, mortgages, or other securities are, Nunn-Warren Publishing Company, Amarillo Texas. CLEMENT B. McDONALD Sworn to and subscribed before me this 5th day of October, 1936. (Seal) ORLIN STARK, Notary Public.

The Proposed Constitutional Amendments

S. J. R. No. 3-A (No. 1)

The first proposed Constitutional Amendment to face the voter on November 3rd is S. J. R. No. 3-A which provides for a State dispensary system to have exclusive sale of distilled liquors and all profits from the sale of such liquors would go to the State. The sale of spirituous distilled liquors for private profit, as is now the case, is prohibited within this State, by this Amendment, except when sale is made to the State according to B. P. Matocha, Secretary of State. It is further provided that the State of Texas shall have the exclusive right to purchase at wholesale and to sell at retail such distilled spirituous liquors. Such sale shall be made only in unbroken packages and no such liquors shall be consumed on the premises where sold. The difference between the proposed plan and that now in effect would simply be one of ownership—i. e. by the State rather than the individual.

The State would maintain various places of business for the purpose of the sale of such liquor direct to the consumer. These places of business would only be maintained in the counties, precincts or incorporated towns where by local option elections such sale has been made legal.

Local option as now in effect would not be changed by adoption of the amendment. The sale of alcoholic beverages containing not more than 3.2 per cent alcohol which has been legalized in such political subdivisions shall not be prohibited by this section.

This Amendment further provides that the open saloon shall not be established.

It is also provided in this Amendment that the Legislature shall have

the power to regulate the sale for private profit and possession of distilled liquors for medical, scientific and mechanical purposes.

S. J. R. No. 18 (No. 2)

Proposal No. 2 effecting a change in the State Constitution is S. J. R. No. 18 providing that the Legislature shall have the right to levy taxes to provide a Retirement Fund for school teachers and persons employed in public schools, colleges and universities, supported wholly or partly by the State.

According to the interpretation of Secretary of State, B. P. Matocha, it is provided that the State shall contribute to such Retirement Fund an amount equal to that paid for the same purpose from the income of each such person. It is a matching plan. Each person so employed in such state schools, colleges and universities will likely be required to set aside so much of their salary and the State will set aside a like amount. This Amendment further provides that the amount contributed to such Retirement Fund by the State shall not exceed at any time five per cent of the compensation paid to each such person by the State or school district, and shall not be more than One Hundred Eighty Dollars for any one person in one year.

No person shall be eligible for a pension under this Amendment who has not taught twenty years in the State of Texas, but those who retire before they have taught for a period of twenty years in this State and who have been contributing to the Retirement Fund shall be entitled to a refund of the moneys paid into the fund.

All funds provided from the compensation of said persons, or by the State, for such Retirement Fund, as are received by the Treasury of the State of Texas, shall be invested in bonds of the United States, the State of Texas, or counties or cities of this State, or in bonds issued by any agency of the United States Government.

Persons who are the recipients of pensions from such Retirement Fund shall not be eligible for any other pension retirement funds or direct aid from the State.

Now Ease Neuritis Pains Fast

Bayer Tablets Dissolve Almost Instantly

In 2 seconds by stop watch, a genuine BAYER Aspirin tablet starts to disintegrate and go to work. Drop a Bayer Aspirin tablet into a glass of water. By the time it hits the bottom of the glass it is disintegrating. What happens in this glass happens in your stomach.

For Amazingly Quick Relief Get Genuine Bayer Aspirin

If you suffer from pains of neuritis what you want is quick relief.

Genuine Bayer Aspirin tablets give quick relief, for one reason, because they dissolve or disintegrate almost instantly they touch moisture. (Note illustration above.)

Hence—when you take a real Bayer Aspirin tablet it starts to dissolve almost as quickly as you swallow it. And thus is ready to start working almost instantly... headaches, neuralgia and neuritis pains start easing almost at once.

That's why millions never ask for aspirin by the name aspirin alone when they buy, but always say "BAYER ASPIRIN" and see that they get it.

Try it. You'll say it's marvelous.

BANKING SYSTEM SHOWS PROGRESS

State Bank Resources Grow More Than Three Billion Dollars in a Year

NATIONAL BANKS GAIN

American Bankers Association Gives Details of Banking Institutions and Notes Stronger Condition

NEW YORK.—Continued improvement in the condition of state chartered banking institutions, with an increase of more than three billion dollars in a year in total resources, is shown in a report just issued by the State Bank Division of the American Bankers Association.

The report was prepared by the division's Committee on State Bank Research from data furnished by state banking departments and parallels data issued by the Comptroller of the Currency for national banks which show similar improvements.

"The combined resources of 10,473 state supervised banks were \$35,724,723,000 as of December 31, 1935," the state bank report says. "Total deposits amounted to \$30,526,920,000. Total loans and discounts stood at \$12,430,404,000 and total investments were \$14,170,421,000."

A year previous, tables in the report show, there were 10,644 state supervised banks, with combined resources of \$32,680,203,000, total deposits \$27,297,959,000, loans and discounts \$13,060,033,000 and investments \$12,582,325,000.

Classes of Institutions

Of the reporting state banking institutions on December 31, 1935, 82% were commercial banks, the report states, 9% trust companies, almost 9% stock and mutual savings banks and less than 1% were private banks. The report adds:

"The parallel upward movements of deposits and total invested funds of total state supervised banks during the years 1934 and 1935, after declines in these items in 1932 and 1933, are indications of definite steps toward recovery in banking.

"Based on figures assembled for total state supervised banks on resources and liabilities as of December 31, 1933 to 1935, it is noted: (1) that deposits in 1935 rose approximately 12 per cent over the previous year, as compared with an increase of about 9 per cent in 1934 over the year 1933, and declines of 7 per cent and 12 per cent in 1933 and 1932, respectively, from the preceding years of 1932 and 1931; and (2) that total invested funds increased by approximately 2 per cent in 1935 and also in 1934, while they had decreased by 9 per cent in 1933 and by 11 per cent in 1932."

Analysis Shows Stronger Position

In a survey and analysis of earnings and expenses of state banks doing a commercial business, it is brought out that in a majority of states they have increased their earning ability during 1935. On the basis of data covering 7,928 banks in 42 states, the report says:

"The most significant fact to be pointed out is that new profits of state banks—after deducting charge-offs on loans, investments, etc., and adding recoveries—were shown in 37 of the 42 states which reported in 1935, in comparison with net profits in only 11 of the 35 states reporting in 1934. Measured in terms of dollars per each \$100 of invested funds, net profits in 1935 ranged between \$2.40 and \$1.00 per \$100, with 19 states showing profits of \$1.00, or over, per \$100; while in 1934 net profits did not exceed \$1.20 per \$100 and only three states showed profits of \$1.00, or over."

The report contains voluminous tables showing the resources and liabilities of all classes of state chartered institutions and detailed analyses of earnings and expenses by states and of insured commercial state banks grouped by size of banks.

Bankers Help Farmers

The conviction that 4-H Club work lays the foundation for sound citizenship and intelligent farming influenced a New York City bank executive to contribute \$500 to the Agricultural Committee of the State Bankers Association, to further 4-H Club activities in the state. "I am convinced that the work is so worthy, and is being so well handled that it should interest those who believe in building sound citizenship, as well as intelligent farming for the future," he said.

Unusual prominence was given this past year to agricultural work by the Tennessee Bankers Association. The Agricultural Committee report reveals hearty cooperation between bankers and extension workers. "Key bankers and county agents have been in closer contact than ever before," it says.

Georgia bankers have given both moral and financial backing to a Marketing Project sponsored by the Extension Service of the College of Agriculture, and activities the past year showed significant results. The phases of the Marketing program emphasized in the year's work are: The retail curb market; roadside marketing; miscellaneous marketing (suited to the locality); bartering (exchange of commodities or services with neighbors); standardized canned products for sale prepared in homes or canning centers.
