(By Jane Scott) We get quizes in history Quizes in math, Quizes in homemaking All to calm the teacher's wrath.

No matter what 'they're mad about No matter "who it's at" No matter what the pupil thinks It's a quiz, and that's that.

Each one assigns a lesson And each a mile long And after each assignment The teacher's "done us wrong."

She just assigns the lesson, That's all SHE has to do

WE're the ones who have to get it, Civil Service Examinations WE're the ones to see it through.

Another Party In The Offing

The women of the Methodst church have just about completed plans for a bigger and better party that the one for which the men were responsible not so long ago. The women are not planning to have a perfect party, for that would discourage more to follow, this attempt is only meant to eclipse the last one and that will leave a little room for improvement in the next one.

They have decided not to disclose the menu but to state that supper would be served at 7:30 and that "there would be plenty of what there was." Entertainment, games and contests are planned for the young folks and just as much fun for the older folks (if any admit not being "young folks"). Food and fun, all free, and all Methodists, young and old, short and tall, lean and fat, are invited. The party is planned for Friday night, February 25, at the church.

The next circle meeting will be February 28 in the home of Mrs Brittain.

Wet Wash Price

Make us prove our Price is lower

At our low price of 4c per pound for Wet Wash we can do your laundry cheaper than you can do it at home, and we will be glad to prove it. The actual cost of materials you can purchase is more than 4c per pound-to say nothing of the cost of your investment and the time and worry of operating it.

We urge you to investigate the relative costs of doing your laundry at home and of sending it to our modern plant. You already know we can do it better. We can also prove that we can do it cheaper.
