Childers Family Holds Reunion At Cisco

A family reunion was held Sunday, August 4, in the home of Mr. and Mrs. J. H. Childers at Cisco. All of the children were present except three, and also most of the grandchildren and other relatives gathered for the occasion, making 47 present in all.

Mr. and Mrs. Childers were residents of this area for a long period, making their home on their farm at Gasoline. They moved to the Plains from here about two years ago, and then moved to Cisco where they bought a tourist camp on the highway between Cisco and Eastland, the Bankhead Tourist courts, which they are operating now.

The family gathering was held at the picnic grounds on Cisco lake. Each family brought food prepared, and a feast of fried chicken, and other good food was topped off with watermelons.

The family consists of fifteen children. Mrs. Childers had five children when her first husband died in 1917, and Mr. Childers had seven children when his first wife died in 1916. They were married in 1919 and they had three children, Eugene, Mrs. Ruby Rose of Melrose, N. M., and Mrs. Billy Joe Pointer.

Mrs. Rose could not attend the reunion and the only others not present were two children of Mr. Childers by his first wife, who live in Fort Sumner, N. M. Sunday was the first time the five children of Mrs. Childers had been together since 1925. These include A. P. Childers, J. D. Childers, Neal Childers, Mrs. R. W. Maloney and Mrs. Bert Keeney.

Eugene Childers, the youngest boy in the family returned about a month ago from overseas service in the armed forces. He had served about two years, most of that period being stationed in Germany.

Those present for the reunion were the parents Mr. and Mrs. J. H. Childers and son Eugene of Cisco; Mrs. R. W. Maloney and children of Fort Worth; Neal Childers and son of Irwin; Mr. and Mrs. T. H. Childers of Wichita Falls; Mrs. O. N. Childers and son of Wichita Falls; Mrs. J. J. Childers of Valley View; Mr. and Mrs. Otho Childers and son of Valley View; Bert Keeney and family of Coleman; R. E. Dorsey and family of Ropesville; Mr. and Mrs. Hackney and daughter, Mr. and Mrs. Edwin Dorsey and Harold Dean Dorsey, all of Lubbock; Mr. and Mrs. B. J. Pointer and Miss Bettie Pointer, of Quitaque; Mr. and Mrs. L. D. Donley and family of Amarillo; Mr. and Mrs. A. P. Childers of Clayton, N. M.; Mr. and Mrs. J. D. Childers and Mrs. O. D. Brogden of California.

PATTERSONS MOVE TO MINERAL WELLS

Mr. and Mrs. A. L. Patterson left this week for their new home in Mineral Wells. Their home here was sold to Mr. and Mrs. A. L. Morris.

In Mineral Wells Mr. and Mrs. Patterson have bought several pieces of property besides the new home, including a duplex apartment and other real estate.

They will be greatly missed here where they have lived for many years, and both were active in church and community affairs. They entered business in Quitaque in 1914 and had one of the nicest dry goods stores in this area, with a large stock of high grade merchandise. They sold the store in May, 1945 to Joe Bedwell.

Mineral Wells' gain will be our loss, but our best wishes for the health and happiness of these fine people go with them to their new home.

REEVES-TYLER

Mrs. Fern Reeves of Bridle Bit and Grady Tyler of Kent community were recently married, the ceremony being performed at Silvertown. They are now at home on the Tyler farm where the groom recently built a new two-room home preparatory for the event.

Mr. and Mrs. J. T. Persons and family left last week for a vacation in Colorado, returning home Wednesday night.

REV. H. E. EAST

Rev. H. E. East of Tulla will be the speaker for the revival meeting at the First Baptist church which is scheduled to begin Sunday, August 11 and continue through August 25.

Rev. East is a devout Bible student, a fine preacher and a popular evangelist. He has recently conducted successful meetings at Floydada, Ralls, and other nearby communities which have drawn good crowds.

The public is cordially invited to attend the meeting which will be held in the church building where a recently installed air conditioner is making the church a pleasant, comfortable meeting place. Services will be held twice daily, in the morning at 10 a. m. and in the evening at 8:30 p. m.

MRS. SHARP RESIGNS AS FARM LOAN ASSN. SEC.-TREAS.

The resignation of Mrs. Bertha Sharp as secretary-treasurer of the Briscoe National Farm Loan association became effective August 1, and E. W. Scheid of Quitaque assumed the duties of the office.

Mrs. Sharp had been associated with the national farm loan associations since their institution in 1927. She is thoroughly familiar with every phase of the organization and its work, and her resignation was reluctantly accepted by the officers. She says she does not plan to "retire entirely" but will assist her husband in his insurance office at Turkey.

The Briscoe National Farm Loan association, with offices located in Quitaque, is a consolidation of the former Turkey and Silvertown associations and services about \$1,500,000 farm loans and has a capital structure of about \$90,000. In the near future the association will pay the second 5 per cent dividend to the stockholders for this year.

Directors of the association are J. B. Bray, Turkey, president; True Burson, Silvertown, vice president; Herbert Brown, Silvertown; Luke Lane, Turkey; and H. J. Bailey, Quitaque.

CHILDRESS TO VOTE ON WATER IMPROVEMENT

CHILDRESS, Aug. 5
Childress took its first real step toward doing something about the water situation that has plagued it annually for years, when the city council last week voted a bond election to finance a \$250,000 water improvement project.

This project, though temporary, will bring from 700,000 to 1,000,000 gallons of water daily into the present system.

The council went a step further for a permanent water supply by hiring Freese and Nichols of Fort Worth to make the preliminary engineering on a water project at Quitaque Creek.

The Quitaque Creek project, surveyed some 20 years ago for the same reason and abandoned because of the cost, has been revived and the contractors are making use of the old plans and specifications and survey levels to make their estimates.

This project can be built for an estimated \$2,500,000 and will furnish water to the city by gravity flow for an unlimited number of years.

Mrs. D. C. Duck and Miss Una Lee returned home Tuesday evening from a visit in Utah with relatives. They made the trip with Mr. and Mrs. Bert Degan of Turkey.

QUITAQUE FOLKS, ATTENTION PLEASE!

At the meeting of the Community Club Monday night, Mayor Roberson and City Secretary Bill Middleton presented a proposition to purchase the sewer system which had been made to the city by Southwestern Sewer Co.

The matter was explained by the city officials and discussed by all present. The city will buy the system, to be operated in connection with the water department, if the people want it.

Should the city purchase the system there are quite a number of residents who are not now patrons of the system who would have to tie on in order to make the sewer department self-sustaining, in other words—pay expenses.

Committees have been named to contact the citizens on the proposition to find if the people want to buy and use the system. With the necessary increase in the number of taps, sewer rates could be lowered and a comprehensive sanitary program can be instituted and maintained.

Be thinking the matter over and when a committee or citizen calls on you to discuss the proposition be ready to talk to him or them and state your wishes in the matter and whether you are willing to cooperate.

Only full cooperation of the entire citizenship of the town can put this deal over. It is up to the people if they want it. The city officials are ready and willing to do their part.

LEGION PLANS FOR ROPING, RODEO AND FREE AUTO AUG. 24

The local post of the American Legion have marked up Saturday, August 24, for a big day in Quitaque. In connection with the drawing of the beautiful 1946 Plymouth car which they are giving away on that day, they are sponsoring a big matched roping and rodeo. Two top-notch ropers, Richard Gentry of Lubbock and Red Whatley of Crosbyton will vie for a purse of \$500.00 or more. Then there will be jack pot and ribbon roping, open to all, and all entries returned to the ropers in prizes.

This will be followed by the drawing for the car. Tickets for the drawing will be given with each \$1.00 donation to the Legion for their building fund.

The show will be held at the Quitaque Roping Club arena, in the northeast part of town, and a small gate fee will be charged.

The club has thirty head of new brahma calves which they have just received and these lively young rascals are hard to catch.

More about the rodeo events will be published next week. For information about entries write the Quitaque Roping Club.

Mrs. Pete Clark spent several days last week at a Matador hospital receiving treatment. She is now at home and is reported doing nicely.

QUITAQUE SCHOOLS TO START MONDAY, SEPT. 2ND

The Quitaque schools will open Monday, Sept. 2nd, according to announcement this week of the school trustees. Most of the faculty has been secured, and despite a number of difficulties which have presented themselves, the situation is clearing up and there is promise of a good school year.

LODGE MEETING

Quitaque Masonic lodge held its regular monthly meeting Tuesday night with fair attendance. After routine business had been disposed of the first degree was conferred upon Macy E. McCoy. At the refreshments period all present filled up on cold soda pop.

HOME WITH DISCHARGE

Mr. and Mrs. Glen Barrett came in Wednesday afternoon on the bus, Glen coming from California where he received his discharge on August 5 from military service and Mrs. Barrett coming from Roswell, N. M., where she has been waiting his return from overseas.

Glen entered service in the spring of 1945, and received his training at Camp Maxey. He has been stationed for the past months in Manila.

Mrs. W. J. Simmons and Miss Mary Simmons visited relatives the past week at Borger.

EVERYDAY RELIGION

THE PROPHET WHO HEARD WITH HIS EYES

By E. B. Thompson

In the eighteenth chapter of Jeremiah is an interesting parable or drama. The Prophet was impressed to go down to the potter's house in order that he might hear the words of God. However when he arrived, he found that no word was actually spoken to him by the potter, but he watched the artist at his work. It was from this drama then that the revelation of God's will for the prophet came! God was conducting a class in visual education for Jeremiah!!

We have long known that impressions made on the mind through the medium of the sense of sight are most lasting and potent. The motion picture industry is a powerful agency educationally-- both for good and bad impressions. The radio strives hard to bring television to practical use in order to increase its own grip on the imagination, by adding sight to sound. The idea is not new but old, and this ancient messenger of the Lord learned it's secret long ago, and came to hear God's word with his eyes! What were the lessons he heard?

He came to know that man had been invested with the double capacity of accepting or rejecting God's will for him. "The vessel that he made of clay was marred in the hands of the potter." Man's free choice is at once his most precious and perilous possession! God is all powerful except-- the powers he has given man! These he does not violate but leaves in our hands. Sublime-- terrible freedom!

Then this prophet learned that God was patient with man, and did not throw him over and away, but worked with his failures. "he made it again, another vessel." Not the vessel of his original dream and design perhaps, but a vessel-- God is patient with the race.

Although man has this great sublime and terrible freedom, no force in God's universe is stronger than God. His will, will finally be realized. If one generation fails Him, he will work with and through other generations of his children until his great major purpose in the life of man comes to glad fruition. Jeremiah came to know these great facts as he watched the potter mould his vessel.

"Have thine own way Lord-- thou art the potter-- I am the clay-- have thine own way."

Services Held Friday For L. J. Bedwell

Last rites were held Friday afternoon at 5:30 o'clock at the community house at Gasoline for L. J. Bedwell, who passed away Tuesday night at a Wichita Falls hospital. Rev. Joe Wilson of Enoch, Texas, a close friend of the family and their former pastor, officiated at the service, assisted by Rev. A. L. Shaw, Baptist pastor at Quitaque. Interment was in the Quitaque cemetery under direction of Stewart Funeral Home.

Pallbearers were Duncan Chandler, Lawrence Bedwell, Hugh Ed Chandler, Murry Morrison, Guy Young and Bill Chandler.

Honorary pallbearers were W. J. Carter, H. B. Finney, W. E. Helms, W. E. Morrison, Leon McCracken and Ben Chandler.

Flower bearers were Henryetta Finney, Paulita McCracken, Alpha May McFall, Mary Jo McCracken, Ina Ruth Morrison, Lois Bedwell, Evelyn Chandler, Inetha Chandler, Violet Kaneen, Dorothy Jean Buckelew, Ruby King and Opal Broxson.

Lewis Jett Bedwell was born October 5, 1880 at Center Point, Ark. In 1902 he married Miss Daisy D. Chandler and to this union four sons were born, Clyde M. Bedwell of Matador, Eugene and Joe Bedwell of Quitaque, and Lewis Bedwell, Jr., of Roswell, N. M. all of whom survive and were present for the last rites. Other survivors besides the wife and sons and nine grandchildren are his mother Mrs. M. A. Cook of Quitaque; two brothers, N. L. Bedwell of Amarillo, and Henry Bedwell of Morton; and five sisters, Mrs. Ike Icenhower of Lakeview, Ore., Mrs. Nellie Wynn of Dougherty, Okla., Mrs. Ethel Barnett of Dierks, Ark., Mrs. Gus Gibson of Quitaque and Mrs. Tom Young of Tulla.

Mr. Bedwell was converted and joined the Baptist church 40 years ago. His membership was in the church at Gasoline and he was loyal and earnest in the work of the church. He was a Mason and kept his membership in the lodge at Center Point.

Before coming to Texas, Mr. Bedwell taught school and was a merchant. The family came to Texas from Arkansas in 1920 and settled on the place at Gasoline where he owned farming property and operated the store and post-office for many years, until his failing health a few months ago induced him to dispose of the business.

Until very recently Mr. Bedwell had enjoyed excellent health and to his host of friends his passing seems quick and untimely. He was always cheerful and uncomplaining, and even in the last few days of his illness, the family could not realize that the end was near. A devoted husband and father, a kind and considerate neighbor, a loyal friend, his passing is sincerely grieved by a great number of friends. He was a good man.

TIBBETTS MOVE TO DURANGO

Mr. and Mrs. George Tibbetts and children left this week for their new home at Durango, Colo. The Tibbetts have bought a place about six miles from Durango, on the highway. There is a roomy ten-room house, a large orchard of about a hundred fruit trees, including pear, apple, cherry, plum and apricot, as well as other land in cultivation.

Mrs. Tibbetts is taking her large flock of turkeys with her and George is keeping his tractor and other farm machinery for use there.

Since Mr. and Mrs. Lewis Graham moved to Durango several years ago they have had droves of "guests" from here who decided to vacation in the cool mountain breezes which Mr. Graham so enthusiastically described. We've an idea the Grahams will heartily welcome the new neighbors--and someone to share the Texas' visitors with. It's sure a nice place to vacation.

J. C. Purcell returned home Saturday with his discharge from the navy which he received last week in California. J. C. served some over a year in naval service, making several overseas trips during his enlistment.

Injuries In Car Crash Are Fatal To Mrs. Self

Tragedy struck in Turkey last Friday evening when two cars collided at an intersection in the northeast part of town, wrecking both machines and injuring most of the occupants, one fatally. The accident occurred about 7 o'clock at the intersection west of Lawrence Hedrick's home.

Mrs. R. C. Green and her three children were enroute home, traveling north and Mr. and Mrs. Son Chadwick and daughter, and Mrs. Chadwick's parents, Mr. and Mrs. W. E. Self were in the Chadwick car going east. Neither driver saw the other car, it was stated.

The impact smashed the front of the Green car and the Chadwick machine was smashed up and overturned. Fearing it would catch fire Mr. Chadwick kicked out the glass and extricated the victims.

Mr. and Mrs. Self appeared to be the most severely injured and were rushed to Matador hospital by ambulance of Stewart Funeral Home, where Mrs. Self passed away Saturday afternoon from internal injuries and shock. Mr. Self is still in the hospital suffering with head and chest injuries and though his condition is serious because of a heart ailment he was reported Wednesday to be getting along as well as could be expected.

Mrs. Chadwick, not believing herself severely injured though suffering intense pain, consented about 11 o'clock Friday night to be taken to the hospital where examination disclosed a broken collar bone and pelvis bone. She is still in the hospital where she must remain for sometime. Mr. Chadwick and their daughter received minor cuts and scratches.

Mrs. Green and children were taken to Matador by Mr. Green immediately following the crash where their injuries were found to be of minor nature, bruises and scratches.

Last Rites Monday For Mrs. W. E. Self

Funeral services for Mrs. Self were held at the Assembly of God church Monday morning, August 5 at 10 o'clock with Rev. P. A. Powell and Rev. C. H. Browning officiating.

Alice Brandette Adaline Icenhower was born in Detroit, Red River county, Texas, June 13, 1874, and passed away August 3, 1946, at the age of 74 years, 1 month and 20 days.

She was married to William E. Self at Detroit on October 6, 1894. To this union seven children were born, one boy, a twin of Bob, dying in infancy.

Mrs. Self was converted at Detroit at the age of 22. In the years following, she lived a consistent Christian life.

She is survived by her husband, two brothers, Alex Icenhower of DeKalb and Luther Icenhower of Detroit, Texas; and six children, Mrs. Lela Burnette of Blossom, Mrs. Ruby Mae Sterley of Muleshoe, Mrs. Dessie Morrison of Gasoline, Mrs. Carrie McKay of Turkey, Mrs. Jewel Chadwick of Turkey and Elmer (Bob) Self of Turkey. They were all present for the funeral.

Pallbearers were Lawrence Hedrick, Clayton Ham, Drew Holcomb, Roy Russell, Paul Meacham and G. T. Blackshear.

Flower bearers were Mrs. Byron Young, Mrs. Harry Bray, Mrs. Roy Russell, Mrs. Drew Holcomb, Mrs. Clayton Ham and Mrs. Lawrence Hedrick.

Burial was in Dreamland cemetery, Turkey, under direction of Stewart Funeral Home.

NEW MAGAZINE SECTION

The magazine section which is included in this issue will be a regular weekly feature beginning with the first issue in September. The new feature is not a local news section but carries articles of regional interest and information about our neighboring towns and communities. Let us hear how you like it.

Mr. and Mrs. J. B. Chandler, Mr. and Mrs. Otis Purcell and Dean spent Sunday at Lockney visiting the Carl Chandlers and the Bobbie McAninches.

Announcing
The Organization of the
Stewart Funeral
Benefit Association

Up until this time we have only been able to sell \$150.00 burial policy through the Stewart Burial Association. We are now organizing the Stewart Funeral Benefit Association in order to give each person a more complete and larger policy.

The Stewart Burial Association will continue to operate as it has in the past.

The Stewart Funeral Benefit Association will work hand in hand with the Burial Association by supplying patrons with a Cash Policy in order that they may buy a nicer funeral if they wish, pay doctor bills, or whatever bills occur at the time of death. This is strictly a Cash Policy; you can spend any part for a nicer funeral and the balance is paid in cash to the beneficiary.

Ages 1 to 50	Ages 51 to 65	Ages 65 to 70	Ages 71 to 90
\$500.00	\$300.00	\$200.00	\$150.00

If you are interested in a larger policy or want this explained in detail, write or call Stewart Funeral Home in Turkey, or see Orlin Stark in Quitaque.

(We also need some agents to sell our new policy. If you can work part time or full time and are interested, see George Stewart, Turkey.)

To correct some rumors that are circulating, and for your information, The Stewart Funeral Home, Stewart Burial Association and Stewart Funeral Benefit Association, are strictly home-owned institutions. Check your county records.

PARTY AT METHODIST CHURCH FAREWELL COURTESY TO PATS

A party was given at the Methodist church Monday night as a farewell compliment to Mr. and Mrs. A. L. Patterson, who left this week to make their home at Mineral Wells.

The Pattersons have been active and loyal workers in the church for many years. Mrs. Patterson serving as church pianist and Mr. Patterson as superintendent of the Sunday school, leading the singing and in many other ways when called upon.

Their dependability as church workers was denoted in the evening's program in a clever manner by an original "responsive reading" directed by Mrs. Joe Graham who acted as master of ceremonies. Other numbers on the program paid tribute in an appropriate manner to the Pattersons.

A large plate glass mirror was presented as a farewell gift, H. G. Gardiner making the presentation and stressing the long years of their residence in Quitaque, and their service as citizens, neighbors and church workers.

The party was held on the north lawn of the church and a large crowd gathered to bid them farewell. Iced watermelons were served for refreshments.

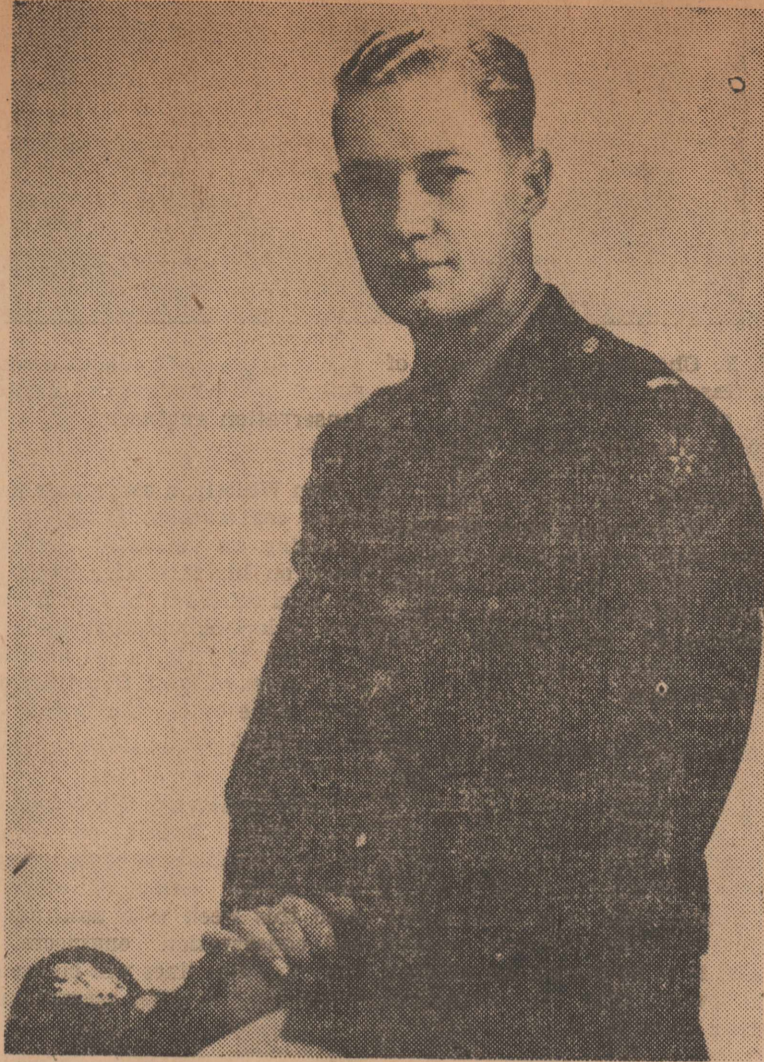

MOWING SAGEBRUSH

Mowing sagebrush has become an increasingly popular practice in North and West Texas, and stockmen should mow it immediately for best results.

The U. S. Southern Great Plains Field Station at Woodward, Okla., has been conducting date-of-mowing tests for nine years now, and recommends mowing during late June and early July. At that time sagebrush roots have less food stored in them.

Studies show that mowing of sagebrush for two successive years, when combine with deferred grazing from June to September, has these advantages: 1. Most of the brush is killed. 2. Other weeds are controlled. 3. Vigor of surviving brush is reduced. 4. Vigor and stand of grass are doubled. 5. Carrying capacity of the pasture is increased 80 percent. 6. Gain of yearling steers is increased 16 percent—336 pounds on mowed pasture and 306 pounds on unmowed. 7. A better grade of feeders is produced.

Heavy duty power take-off mowers with a five-foot cutter bar are used for the first mowing, and a six-foot cutter bar is used for the second mowing. For the second year's mowing the brush is cut in a direction opposite to that of the

Mrs. Zack C. Collier, of 2422 Washington, Amarillo, formerly of Quitaque, has reason to believe that her son, Lt. Zack C. Collier, Jr., whom the war department has reported missing in action and presumed dead, is still alive.

A picture was published on the front page of the June 17th issue of the Dallas Morning News of a group of veterans who were liberated from the prison at Limburg, Germany where they had been prisoners of war. Among them is a man whom Mrs. Collier thinks is her son. She is trying through publication of the picture to contact

other men who are in it. She wants anyone who recognizes himself or anyone else in the photo to write to her.

Lt. Collier, pilot of a B-17 bomber, was reported downed May 20, 1944, in a run over Dessau, Germany. On September 10, 1945, the crew were reported presumed dead. Mrs. Collier has reason to believe the men made a forced landing on the North Sea coast, and thinks her son was taken a prisoner by the Nazis. If she can contact someone in the group pictured, she can learn definitely whether or not her son was a prisoner with them.

ATTEND CHURCH AT SILVERTON

Interested stockmen in the areas where sagebrush grows should consult their county agricultural agent to find about successful demonstrations of this practice in their own vicinity, advises R. R. Lancaster, pasture specialist for the A. & M. extension service.

FIRST CUTTING

A group went from here to Silverton Wednesday night to attend a revival meeting at the Methodist church which is being conducted by Rev. U. S. Sherrill of Dimmitt. The party included Mrs. Bryan Kimbell, Mrs. J. F. Tiffin, Mrs. Mort Hawkins, Mrs. May Gillespie, Mrs.

LUBBOCK FAIR SCHEDULED FOR OCTOBER 7-12

LUBBOCK—County and community premiums for the 29th Annual Panhandle South Plains Fair to be held in Lubbock October 7-12, have been increased, officials of the Fair Association announced today.

In the county classification cash prizes have been upped as much as \$35 with both third and fourth awards jumping from \$40 to \$75 and from \$25 to \$60 respectively. First and second prizes are \$100 and \$85 this year, an increase of \$25 each. Fifth place got a similar increase to \$50. The county ranking sixth will receive a \$40 prize, \$15 more than heretofore. Those ranking seventh through fifteenth receive \$25 apiece.

With the exception of seventh and eighth places, which received \$5 increases this year, premiums for the best community display remain the same. First prize is \$25, second is \$20, third receives \$15, and fourth through eighth get \$10 apiece.

Community exhibits must be obtained from within the bounds of the eight school districts in Lubbock County and are confined to those districts only.

to whether you may be entitled to these payments which are insurance payments and not charity. Simply call at or write to the Social Security Board Field Office, New Post Office Building, Amarillo, Texas. If you write in, be sure to give your date of birth and your social security number in your first letter.

We consider every woman beautiful until she declares otherwise.

ELECTRICITY IS IN GOOD HANDS!

More Power

The cutting of land by the plow, the drilling of an oil well in the ground, the use of an axe against an oak—These are the symbols of man's power. That is how the pioneers of this country fought for survival. We have come a long way since then, but we still retain the initiative that built this country—freedom of enterprise.

Now the battle with nature has changed. Business-managed, tax-paying electric companies have turned the surging tide of nature's power into work beneficial to you. Giant turbines convert power to electricity to bring greater convenience, more pleasure and better living to homes everywhere.

Suppose this Little Fellow Belonged to You!

Take a good look at him . . . be thankful you and yours will never know his hunger! Be thankful you live where food is so plentiful that you won't miss the little you can contribute to save him. Yes, you've pledged to "Share a Meal Every Day" to help starving people. But the need for all foods is so desperate you're asked to do more.

Will you GIVE that they may LIVE?

HERE'S WHAT YOU CAN DO!

1. GIVE MONEY. More food can be obtained for a given amount of money when it is bought centrally and in large quantities. Send cash, money order, or check to your local Emergency Food Collection Committee or to Lee Marshall, Executive Director, 100 Maiden Lane, New York 7, N. Y.
2. GIVE FOOD IN TIN CANS. Leave at any Emergency Food Collection depot.

Urge your church, club, or organization to participate!

EMERGENCY FOOD COLLECTION

Silverton, Texas

Coyotes' Strange Action Alarm Hall Countians

A "queer" coyote, believed to be mad, got into Elmer Slaughter's pig pen at Bridle Bit Tuesday night and after much effort to chase him off, the animal finally left.

About midnight it went to N. V. Conder's home, a neighbor of Elmer Slaughter. The family was sleeping outside and the coyote got under their beds twice. They tried to chase it off, but it would not go. The beast did not even bother the roosting chickens on the fence, but stayed around the house.

A goat which was on the farm kept the coyote fought off until Mr. Conder could get a gun and help from a neighbor, C. E. Willhite. Mr. Willhite shot the coyote which showed no fear whatever, and they brought the animal to town Wednesday morning.

Irl Twilla, county commissioner, took the coyote to Memphis immediately to have an examination made to see whether or not it had hydrophobia.

Some are of the opinion that it was a "tame" coyote which had wandered from home and become lost. It didn't attempt to bite any-

one or anything, according to reports.

Everyone in the Wolf Flat and Bridle Bit area had better beware of coyotes and other animals until a report of this animal is given, and be especially cautious of sleeping outdoors.

Reports came to light of another such coyote last week, when report of this one was made Wednesday. There have been numerous reports of rabid coyotes in Motley and adjoining counties within the past two years, wreaking havoc among livestock, pigs and other animals.

It behooves all farmers and ranchers to be on the alert for any symptoms among their stock and pet animals.

MRS. JOHN J. WOODS' FATHER BURIED JULY 30 AT LAKEVIEW

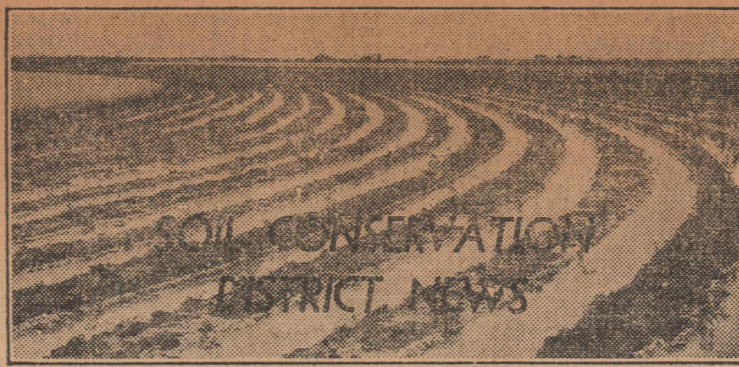

John Harlem (Happy) Boren, long-time resident of this area died in a Memphis hospital Monday July 29, after an illness of a number of months.

Funeral services were held Tuesday afternoon, July 30, at 4 o'clock in the First Baptist church at Lakeview. Rev. H. T. Harris conducted the services assisted by Rev. Aubrey C. Haynes and Rev. Jeff Moore.

Interment was in the Lakeview cemetery under direction of the Womack Funeral Home.

Boren was born March 8, 1894, in Indian Territory in Oklahoma and was 52 years, 4 months and 20 days of age at the time of his death. He moved with his parents, the late Mr. and Mrs. W. E. Boren, to Hall county where the family settled in the Lakeview community.

Boren was in the retail grocery business in Hedley for a number of years, and sold his business a

J. B. Chandler, a cooperater of the Gasoline conservation group, has eradicated approximately 7 acres of mesquite on his farm. Mr. Chandler is using kerosene around the trunk of the tree as a killing agent. He estimates that approximately forty gallons of kerosene is being used per acre on land with medium infestation of mesquites. According to Mr. Chandler, the large trees are as easily killed as the small ones.

Joe Mercer, a cooperater in the Mercer conservation group, is leveling approximately 80 acres of land this week. According to Mr. Mercer this land will be seeded to alfalfa next month. A patrol grader is being used to level turn row ridges where an excessive amount of dirt is to be moved. An all steel land leveler, with an automatic cutting blade, is being used on the

entire acreage. Gradient elevation stakes are being set by local soil conservation engineers.

Tom Whiteley, a cooperater in the Crass conservation group, is constructing an elevated irrigation ditch on his farm this week. The elevated ditch will be four hundred feet in length and will enable Mr. Whiteley to irrigate an additional sixty acres of land. Construction is being done by crawler type tractor and grader.

Merle McMurry, a cooperater in the San Jacinto conservation group, established contour guide lines on 590 acres of cultivated land this week with assistance of soil conservation engineers. The contour guide lines will be used for tillage and seeding operations on the contour.

few months ago due to ill health and moved to Memphis. His health gradually became worse.

Survivors include his wife, Mrs. Ina Boren of Memphis; one daughter, Mrs. Bobbie Nell Woods of Quitaque; three brothers, Hollis Boren of Memphis, Jim W. Boren of Wichita Falls, and George E. Boren of Atwood, Okla.; two sisters, Mrs. C. B. Linley of Lubbock, and Mrs. A. C. Stephens of Memphis; and one grandson, John Elden Woods of Quitaque.

Pallbearers were Obe Holland, Jay Hunt, Roy Alexander, Clinton Srygley, Del Wells, and Don Wright.

MINIHECA GIRL SCOUTS

The older group of Girl Scouts met Saturday at 4 o'clock at the school house. There were only five members and the leader Mrs. J. C. Rhoderick, Jr., present.

At the meeting we learned new games, started working on our second class rank, even though we haven't received our tenderfoot badge. We also chose the name for our troop. We are the Miniheca troop. This is an Indian name meaning very industrious. We are going to live up to this name.

We will meet next Saturday at 4 o'clock at the school house. We want all members to be present. Melba Jo Woods, scribe.

PRODUCTION CREDIT ASSN. HOLDS DIRECTORS MEETING

Memphis Production Credit Association was represented at the Annual District Director's Conference held in Amarillo on July 29th and 30th by President R. B. McMurry of Memphis, Vice President Otis Wilson of Quitaque, Directors S. M.

Jolly, Paducah; R. O. Ross, Matador; Tom Berry, Wellington and Secretary-Treasurer, Don Wright.

Mr. McMurry reported that the group discussed plans to complete paying off the government capital by the end of 1947, and to build even stronger farmer and rancher owned associations able to carry on with adequate and dependable credit to meet future needs. It was decided that each association should have about \$25,000 in member owned capital and surplus for each \$100,000 in loans in order to safely see members through in case destructive time should be experienced later.

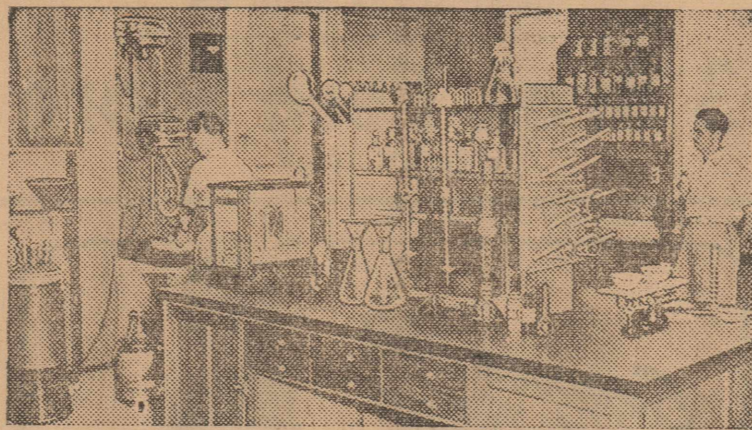

The Memphis Association now has a \$179,000 in stock and surplus owned by farmers and ranchers in Briscoe, Childress, Collingsworth, Ford, Donley, Hall, Hardeman, and Motley Counties.

FIRST LOAD OF MAIZE

George Setliff Elevator bought the first load of 1946 maize Monday, brought in by Roy Hunter. The grain tested 50 and sold at 2.90.

The elevator received its second load of grain Tuesday, a load of kafir from Dewey Auburg which tested 50 and was sold for \$2.85.

Mr. and Mrs. Jim Partin have sold their home and farm to Jim Baird. The Partin home recently was remodeled and improved and this week work was begun on enlarging the house and making other improvements. Mr. and Mrs. Baird will move to the place as soon as it is ready, and will sell their home in town. The Partins (at least Jim is) are talking "Mississippi."

MODERN LABORATORY is among main features of United Fruit Company hospital at Golfito, Costa Rica, latest addition to network of Company medical facilities throughout ten Middle American republics.

War Against Tropical Disease Just As Vital As Blocking Armed Invasion, Says A. A. Pollan

THE return of millions of GI's to the United States after exposure to diseases in Asia and the Pacific has increased the vital importance of the fight waged by universities, foundations and private industry against tropical disease, according to A. A. Pollan, Executive Vice President of the United Fruit Company.

The medical and research activities carried on by these groups was analyzed by Mr. Pollan in a report to 100 United States medical leaders and officials of the Middle American republics at luncheon recently sponsored by the International Trade Section of the New York Board of Trade at the Waldorf-Astoria.

"More and more," said Mr. Pollan, "leaders in the field of Western Hemisphere humanities are realizing that it is as important to wage a constant, coordinated and ceaseless fight against the aggression of all tropical diseases as it was to join in a united effort to protect the shores of this hemisphere against foreign invasion."

Hostile organisms account for eight deaths out of ten in Middle America, Mr. Pollan indicated, as against three out of ten in the United States. To combat these organisms, he said, and to improve the general health of the ten countries in which the Company functions, United Fruit maintains a medical department of approximately 1,100 people, including 57 full-time physicians, 137 nurses and 110 technicians. Dispensary treatments by United Fruit Company medical personnel totaled 700,000 in 1944, exclusive of 400,000 days of Company hospital care.

Mr. Pollan said he wanted to "go on record as paying tribute" to the public health services of Guatemala, Honduras, Costa Rica, Nicaragua and Panama. The agricultural executive predicted that the long-range result of such activity, in cooperation with the United Fruit Company and similar enterprises, would be the "triumphant emergence of a Middle America that both agriculturally and healthwise is destined to establish itself as America's last great frontier."
