Turkey Young Couple Wed In Home Service

Miss Tommie Jo Browning, daughter of Mr. and Mrs. Jess Browning of Turkey and Ray Cruse, son of Mr. and Mrs. E. R. Cruse, also of Turkey, were united in marriage Friday night, Sept. 20 at 8 o'clock in the home of the bride's grandparents Mr. and Mrs. H. E. Mullin, Sr., Buster Mullin of Clovis, N. M., uncle of the bride, reading the vows.

Those attending the wedding were the bride's parent and brother, Mr. and Mrs. Jess Browning and E. J.; Mr. and Mrs. H. E. Mullin, Mr. and Mrs. Buster Mullin and family of Clovis and James Ches-shir of Abilene.

Mr. Chesshir served as best man while Miss Sandra Mullin acted as bridesmaid.

The bride was attractively attired in a blue dress with black accessories. She attended Turkey schools and was a member of the junior class.

The bridegroom received his discharge from the Navy on May 9 of this year after serving two years and seven months, a year and four months of which was spent overseas, during which he participated in the invasion of Okinawa. He also attended the Turkey schools before enlisting in the Navy.

The newlyweds left Saturday morning for a short visit in House, N. M., accompanied by Mr. and Mrs. Jess Browning and E. J., and returned home Tuesday morning.

The couple's plans as to their future home are indefinite.

FIFTH SUNDAY SINGING CONVENES AT GASOLINE

The Five County Fifth Sunday Singing Convention will meet at Gasoline in all day session Sunday, Sept. 29.

C. M. Lyles, president.
Dorothy Jean Casey secr.

New Teachers Added To Quitaque Faculty

The school is progressing nicely. At last the faculty is fully complete. Mrs. Jack Wise asked to be relieved last week, which was done, her place being filled by Mrs. Ruth Moore of Ranger, Texas. The final teacher was found in the person of W. C. Gammill of Fort Worth. Both Mrs. Moore and Mr. Gammill come to us well recommended. We think they will do a good job of work.

The school lunch program under the leadership of Mrs. N. B. Herrington got off with a bang last Monday. To date, Wednesday, about \$100.00 has been collected by the teachers from pupils at twenty cents each covering the present week. This means that 500 lunches have already been paid for. We call that feeding the multitude, but a few loaves and fishes will not get the job done.

From teacher reports, there is now on roll in the two schools around two hundred and forty pupils. There are to be more later. The canning center under the direction of Mrs. Kerr Hamilton is doing a fine business with the housewives putting up fruit and vegetables to fill the hungry mouths of husbands and children during the winter months.

COMMUNITY CLUB CHANGES

At the last meeting of Quitaque Community club on Sept. 2, decision was made by club members present to change the meeting night from the first and third Monday night to the second and fourth Tuesday nights of each month.

This change makes the next meeting night of the club fall on October 8 All members, and everyone else interested in the community, please bear this in mind and let's have a real attendance and start doing things.

The glamorous Gypsy Rose Lee, actress and authoress, is bringing her own company of girls to the State Fair of Texas Auditorium on Oct. 5-20 and will be a feature of the Tommy Dorsey Show during the State Fair, announced Julius Schepps, chairman of the Entertainment Committee of the State Fair Association.

Miss Lee, prima donna nuda of the American stage who finds time

in her strips about the country to write first rate detective novels of a burlesque background and to study the writings of Marcel Proust has been starred both on the Broadway stage and in Hollywood movies.

The engagement of Gypsy Rose Lee and Company for the star-studded Auditorium show marks her first State Fair of Texas appearance.

TURKEY YOUNG LADY SECOND POLIO CASE

Miss Bobbie Mullin, daughter of Mr. and Mrs. I. D. Mullin was taken to the Plainview Sanitarium Tuesday where it was pronounced that she was a victim of polio. This is the second case of the dread disease from Turkey, the other being Miss Bobbie's small nephew Carl Lance Lee, son of Mrs. Alpha Lee.

Bobbie's condition was reported Wednesday as not immediately severe and that little Carl Lance was improving rapidly. He has been moved "upstairs" to the convalescent ward, it was reported this (Thursday) morning.

Bobbie graduated from Turkey high school last May.

Baptist WMS

The Baptist WMS met Monday afternoon at the church with ten present for the first of a series of Week of Prayer programs. Mrs. Jacks was leader.

The program was continued Tuesday afternoon and Wednesday evening in connection with the regular prayer meeting service.

Next Monday afternoon, which is the Fifth Monday of the month, women of the society will meet at the home of Mrs. Dunavant to sew for the orphanage. They plan to pack a box of clothing ready for shipment and all who have any garments to contribute for the orphan children are requested to bring in their donations as soon as possible.

Pfc. and Mrs. Billy Joe Pointer came in Monday from Cisco where she had been in the hospital, but is better now. Mrs. Pointer's mother, Mrs. John Childers of Cisco, has also been receiving treatment at a hospital and is now better. Billy Joe was home on emergency leave to be with his wife.

Jim Baird and family moved this week to the former Jim Partin home northwest of town which they have enlarged and improved. Claude Cantrell has bought the Baird home and they plan to move this week. The former Cantrell home will be moved to Hereford.

Clem Woods, John J. Woods and Leonard Curtis are shipping their household goods by rail to California this week, and plan to leave in a few days to make their homes out there.

MOTHER OF GRADY STARKEY BURIED AT WELLINGTON

Last rites were held at the Baptist church at Wellington Tuesday afternoon at 2 o'clock for Mrs. Alice Davis Starkey, who passed away at her home there Monday afternoon. The service was conducted by Rev. C. E. Jameson and Rev. Herbert Brown, assisted by the Wellington Baptist pastor. Interment was in the cemetery at Wellington, which city had been Mrs. Starkey's home for many years.

Survivors are the husband, T. B. Starkey, and nine children, all of whom were present for the last rites. The children are four sons, Grady Starkey of Quitaque, Bert, Charlie and Aaron of Wellington, and five daughters, Mrs. Henry Brown of Levelland, Mrs. Bill Boston of Littlefield, Mrs. J. W. Brooks of Abernathy, Mrs. Ed Morgan and Mrs. Raymond Powell of Perryton.

Mrs. Starkey was 74 years old and had been married 58 years.

Methodist Ws of CS

Mrs. Frank Gillespie was hostess Tuesday night to the meeting of the Methodist WsCS. Miss Minnie Mae Roberson directed a short devotional and Mrs. Kelly Tipps of Laredo, a former member of the society and guest for the evening, sang "Be Still My Soul."

A review of the book "The Silent Billion Speak" was presented by Mrs. W. R. Scott. Refreshments of cookies and fruit punch were served to two guests Mrs. Tipps and Miss Willie Mae Grundy, and the following members: Mmes. Alton Johnson, R. E. Hardberger, Mort Hawkins, Bill Woods, Venus Gillespie, W. R. Scott, the hostess and Miss Minnie Mae Roberson.

Mrs. Bill Gaston and small daughter Thalia Ann, of Dallas were here for a couple of weeks visiting her mother Mrs. Maude Dunham who accompanied them home this week for a few days visit.

Miss Beth Starkey accompanied her father and family home from Wellington where they had been to attend the last rites for Grady's mother. She remained over until Thursday before returning to her work at Lubbock.

Rev. and Mrs. E. B. Thompson were in Lubbock and Lamesa on business Tuesday and Wednesday.

Persons Co. Chairman Good Roads Committee

Austin—R. B. Persons, prominent Briscoe County good roads advocate, has been chosen Chairman of the Briscoe County Good Roads Amendment Campaign Committee, it was announced by Charles E. Simons, executive vice-president of the Texas Good Roads Association.

Appearing on the ballot in the November 5th General Election as Amendment Number three, the Good Roads Constitutional Amendment guarantees the availability of motor vehicle registration fees and gasoline taxes exclusively for road purposes, with the exception of one-fourth of the gas tax that will continue to be allocated to the Available Free School Fund.

"His deep interest in better and more improved highways and farm to market roads was the primary factor in his selection to head the Briscoe County campaign," Simons said.

"With so many outstanding organizations backing the Amendment," Simons continued, "we feel that every citizen in Briscoe county should be fully informed of the provisions of the measure and the benefits they will derive from it. For this reason, we have selected Persons to head the Briscoe county committee and direct a vigorous educational campaign to point out the merits of this amendment."

Chief purpose of this proposal, it was emphasized by the Good Roads Association executive vice president, is to assure the ultimate construction of rural mail and school bus routes, and all-weather farm-to-market roads. Also, it will insure improvement, maintenance and policing of all roads and urban trafficways.

Death Takes Estelline Pioneer Sunday, Spt. 22

Many friends in and around Turkey were grieved to learn of the death of Robert Morrison, who passed away Sunday, Sept. 22, in Estelline, where he had lived for many years. Mr. Morrison, who was 71 years old, had lived in Hall county since 1907. He is survived by his wife and one son, Jake Morrison.

Funeral services were held in Estelline Tuesday afternoon at 3 o'clock in the high school auditorium. Alva Johnson of Turkey and Norman Gipson of Ballinger conducted the services, the song service being directed by Clark Johnson of Canyon.

GIRL SCOUTS TO HOLD INVESTITURE CEREMONY

Investiture ceremony for a group of Girl Scouts will be held Saturday afternoon at 4 o'clock at the Baptist church. Eighteen girls have been practicing for the ceremony, which will designate them as full-fledged Girl Scouts, and most of the girls have their uniforms.

Mothers of the Scouts are invited to witness the ceremony and the girls will serve refreshments following the service.

All girls who are interested in becoming Scouts are invited to attend the investiture ceremony, and bring their mothers. It is important that mothers, and other adults who are interested in this fine work for girls, take an active part, as their influence and cooperation is needed in order for the work to continue and succeed.

THE GIRL SCOUTS HAVE ALL-DAY PICNIC

Saturday, Sept. 21, seventeen Girl Scouts gathered at the school house at 10:30 a. m. for an all-day picnic at Roaring Spring. Mrs. Orlin Stark, Mrs. J. C. Rhoderick, Jr. Mrs. Joe Bedwell and Mrs. J. Persons made the trip with us. All the Scouts took picnic picnics. The lunch was topped off with a large freezer of home made ice cream made by Mrs. J. Rhoderick, Jr.

We waded in the stream, played games, did exercises and acted our investiture exercises until the manager of the swimming pool came. Then most of the girls went swimming which resulted in a very bad cold. Nevertheless we had the time of our lives.

Reporter, Melb Jo Woods.

Star-Telegram Editorial On Underground Water

The Star-Telegram recently published an Austin dispatch giving details of the very considerable lowering of the water levels in the irrigation area of northwest Texas. According to the experts who made the survey, the water level is now as much as 50 feet lower in some wells than it was when irrigation first was begun there. In most of the area the level has dropped 15 to 30 feet. Consequently the cost of pumping water to the surface level has greatly increased and, in at least some instances, is becoming prohibitive.

Some there are who advocate that the state assume control of these irrigation waters in much the same way that it has assumed control of the oil wells of Texas. They would have to issue permits to drill water wells and refuse to issue such permits in areas where the water level is dropping rapidly, thus holding the use of water to present supplies and maintaining the value of the irrigated lands now using the water.

A. B. Tarwater of Plainview, former member of the Texas Legislature and now operating a farm west of Plainview where he makes use of two wells for irrigation, has a different plan. The former lawmaker would have the state construct small dams along all the rivers of that section to hold the water and prevent the present heavy runoff. He thinks water would go into the earth from the lakes so formed and so act to raise the water levels all over the area to offset the water pumped out for irrigation.

That plan seems to have common sense behind it and to be much better than the state control plan earlier mentioned. The lakes would serve more than one purpose, being useful for recreation in areas which need lakes. They would, if the plan be successful, increase supplies of water for those now using it and might make it possible to irrigate larger areas to the profit of the section and its people.—Fort Worth Star Telegram

TECH SENDS IMPROVED SUDAN SEED BACK TO SUDAN

Lubbock, --Thirty seven years after Sudan grass was introduced into the United States from Sudan Africa, Texas Tech has shipped Africa 500 pounds of Texas state Certified Sweet Sudan grass seed.

Sudan grass was brought to America in 1909 by C. V. Piper of the United States Department of Agriculture. Since that time improvement of the grass has been made in the United States and many years Sudan has been the principal summer pasture crop for livestock from Kansas southward. Improvements of the main have been to make the grass more palatable to livestock and less subject to insects and diseases.

Texas Tech department of plant industry, headed by Dr. A. W. Young, recently received a request for the sweet Sudan seed from the Government Supply Mission of South Africa. The 500-pound shipment was made August 23.

GLEN LEWIS SLATED FOR BIG GAME AT SAN ANTONIO

Lubbock, --The problem of which of a squad of 70 good players to take to San Antonio for the Sept. 28 game with the Texas Aggies is causing Coach Dell Morgan of Texas Tech much trouble. home in the season's opener against West Texas State Morgan and virtually all of his squad and that in certain positions there was little difference between his men. There were some standouts, to be certain, but in the main elimination of some candidates from the first road trip might be an injustice, Morgan feels.

Almost 200 aspirants for the Red Raider team showed up and this number has been sharply pared as practice moved along. Now the selections come tough for Morgan. Tech has met the Texas Aggies five times in the past and has not yet won. Morgan is anxious to mark up a 1946 win.

Included among the men considered certain to play in San Antonio is Glen Lewis, Quitaque, back.

H. M. Newberry, a cooperator in the Cross Conservation Group who lives twelve miles southwest of Silverton, is seeding twenty acres of alfalfa on his farm this week.

Bray Cook, a member of the Board of Supervisors of the Cap Rock Soil Conservation District, who lives 36 miles northeast of Silverton, is constructing 18 miles of terraces on his farm this year. Terraces are being constructed with a home-made thirty-two inch disc type terracer attached to a farm tractor. Mr. Cook says one advantage of this type terracer is the inexpensive construction cost and the small additional cost in maintaining terraces from year to year.

Merle Graham, a cooperator of the Rock Creek Conservation Group, is constructing a trench silo to store surplus sorghum forage feed on his farm. The silo will be constructed with crawler type tractor, grader blade and carry-all. Mr. Graham had the assistance of soil conservation engineers in making the design and lay-out for this silo.

Ed Whitfield, a cooperator with the Cap Rock Soil Conservation District, who operates a farm four miles southeast of Silverton, is harvesting 90 acres of alfalfa for seed.

Joe Mercer has 155 acres of alfalfa up to an excellent stand on his farm southeast of Silverton. Mr. Mercer finished seeding this alfalfa just before the recent rains. Mr. Mercer who had the assistance of Cap Rock Conservation Engineers assigned to the Cap Rock Soil Conservation District in planning his irrigation system, will use four irrigation wells to apply water to this acreage. Seeding was done with a wheat drill at the rate of

18 pounds per acre.

The following Cap Rock Soil Conservation District Supervisors met in regular session on Friday, Sept. 13: Obra Watson, Pierce White and Bray Cook. Visitors attending the meeting were W. Scott Amend, district conservationist, of Plainview, and Leo White, county extension agent, Silverton.

The following applications for assistance from the Cap Rock Soil Conservation District were approved: J. C. Bramlet 320 acres; N. R. Honea, 160 acres; A. L. McMurtry, 12,840 acres; Bernice May, 240 acres; and J. K. Bean, 640 acres.

Agreements were approved for the following: Joe B. Mercer, W. B. May, L. W. Francis, J. C. Bramlet, Carl V. Wimberly, Frank Mercer, E. R. Long, W. A. Rowell, Printz Brown and Fred Mercer.

W. B. May, a cooperator of the Cap Rock Soil Conservation District, who lives in the San Jacinto Conservation Group, is becoming concerned about the sheet erosion that has occurred on his farm as a result of recent rains. Mr. May, who has the assistance of soil conservation engineers in planning the terrace system on his farm, made an inspection trip to the Scheid and Gasoline conservation Groups to inspect terraces and type of equipment used in that area last week.

Elbert Dickenson, a cooperator with the Cap Rock Soil Conservation District who lives in the Gregg Conservation Group, 16 miles southwest of Silverton, is floating wheat land this week with an all-steel land leveler. Mr. Dickenson, who has the aid of soil conservation service technicians in his conservation work, says land made smooth by floating will permit a more uniform distribution of irrigation water.

From where I sit... by Joe Marsh

Going Fishing? Here's How!

To hear Willie Wells and Basil Strube arguing about trout fishing, you'd think it was more important than the atom bomb.
Willie favors dry flies, Basil pooh-poohs anything but wet flies. Willie swears by a Royal Coachman; Basil won't hear of anything but a Silver Doctor. And by the time it comes to steel rods versus bamboo rods... #IX&*!?!
But on Saturday, each got back from Seward's creek with a catch that couldn't have differed by more than several ounces!

Each had used his favorite kind of fly, his favorite rod and his favorite place to cast. So over a friendly glass of beer, they allowed as how maybe they were both right... which is how so many arguments should end.
From where I sit, if we all respected one another's different opinions—whether about trout flies, or drinking beer, or voting, life would be a whole lot pleasanter.

PANTHER SCREAM

SENIOR NEWS

The seniors this year are little—but loud. They make more noise than the others put together. You can hear Owens, Hutch and Adkins any time in the hall gossiping.

The senior class is composed of six girls, Margaret Owens, secretary, Eloise Tunnell, treasurer, Billie Rae Hutcheson, Majorie Crabtree, vice president, Evelyn Kimmell, and Betty Rae Adkins, reporter, and two boys, Roy Grundy, president and Lit Bogan.

If you see a student running around with their hand stuck out and a gold ring on their finger, you know it's a senior sporting a new class ring. We are very proud of our new class rings.

Some of the seniors and juniors thought we didn't have enough color in the school so they have dyed their hair red.

We chose Mr. Bailey for our class sponsor and we are sure he will

help make our last year a very interesting one.

JUNIOR CLAPTRAP

The 1946 junior class of dear old QHS is quickly taking its place in the long line of "let's show 'em how it's done-ers."

You'll find us working together to obtain our goal and hope to receive the cooperation of our fellow schoolmates and townspeople.

To start the year off right we elected the following officers:

Class president, Earnest Barbee, vice president, Ima Lee Morris; secretary, Jean Thompson; treasurer, Sue Barrett, reporter, Kenneth Hamilton. We chose Mrs. Jim Baird as our sponsor and Mr. and Mrs. Tom Barbee and Mr. and Mrs. P. P. Rumph as our class parents.

The president appointed an activity committee composed of Ima Lee Morris, Sue Barrett, Jean Thompson, Poss Hamilton, Arthur Patrick and Ernest Barbee.

The purpose of this committee

is to make plans for raising money for our year's activities.

FOOTBALL NEWS

The Panthers are playing eleven-man football this year and have a very promising team. They have been working out for the past few weeks under direction of Coach Bailey, with a little aid from Steve Mayfield.

The boys coming out for football are: Lit Bogan, b 155; Arthur Patrick, b 192; Poss Hamilton, b 160; Roy Grundy, b 182; Tub Merrell, c 230; Herman Graham, 1 227; Clar-

ence Lewis, e 150; Don Lewis, b 110; Glen Hamilton, G 146; R. W. Bull, b 136; Carl Montgomery, c 122; Wayne White, g 172; Charles Kelly, T 130; Emanuel Lay, e 134; James Baird, b 105; Buddy Holcomb, e 130; Dean Purcell, g 128; Wayne Crabtree, c 132.

Roy Grundy was elected captain of the team and Arthur Patrick, co-captain.

They are planning to have night games this year if a transformer for the lights can be obtained.

The first game of the season will be Friday night, with Matador,

played there. The Matador lineup is as follows:

R. C. Geisecke, center; Albert Marshall, r. guard; John Towing, r tackle; Wayne Timmons, r end; James Price, l guard; Hal Courtney, l tackle; Wayne Spray, l end; Bob Rushney, quarter b; Barney Nelson, half b; Tom Rufus Edmondson, half b; Billy Joe Stephens, full back.

The boys need your help and encouragement Friday night, so let's do our part and we're sure they will do theirs.

The football game Saturday night at Lubbock, Tech vs. WTSC, ended with a final score of 26-14, Tech the victors.

Quitaque is very proud of the local boy, Glen Edward Lewis who made the second touchdown in the game.

A large number of Quitaque football fans attended the game, including the following:

E. P. Lewis, Edgar Morrison, Buck Bolton, Joe King, Bruce Price, Glenn Ramsey, Travis Morrison, William Rucker, Earl Morrison, Lela Faye and Pat Morrison, Arthur Patrick, Lit Bogan, Margaret Hamilton, Eloise Tunnell, and Donald Weast and Mr. and Mrs. Willie Amel Smithy of Silverton.

Misses Billie Rae Hutcheson and Riny Holcomb and Charles Russell, Willie Royce Bradshaw and Herbert Hill of Turkey.

Mrs. Arch Bridges of Mt. Vernon, Texas, was here last week visiting in the home of her nephew Bill Middleton and family. Mrs. Middleton's sister, Miss Carrie Davis of Clarendon also visited in their home over the week end.

We Do Custom Grinding GRAIN ONLY

If you have grain to sell, we believe it will be to your interest to see us before you sell, as we buy either at your granary or at the elevator.

SET YOUR SIGHTS

It takes planning to achieve a goal

Some young men know what they want and plan for it. Others are still looking for their niche. The new Regular Army can help both.

Perhaps you want to go to college but can't afford it. If you enlist in the Army, you'll get your chance. Honorably discharged after a three-year enlistment, you are eligible for 48 months of education at any college, trade, or business school for which you can qualify. The Government will pay your tuition, laboratory fees, etc., up to \$500 per ordinary school year, plus \$65 a month living allowance—\$90 a month if you have dependents.

If you haven't found your spot, an Army enlistment offers you training in any of 200 trades and skills. You leave the service eligible for further training at the best civilian schools.

You can assure yourself of the benefits of the GI Bill of Rights if you enter the Army on or before October 5, 1946. See your nearest Army Recruiting Station for details.

HIGHLIGHTS OF REGULAR ARMY ENLISTMENT

- Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men now in the Army with 6 or more months of service.)
- Enlistment age from 18 to 34 years inclusive (17 with parents' consent) except for men now in Army, who may reenlist at any age, and former service men depending on length of service.
- A reenlistment bonus of \$50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 3 months after last honorable discharge.
- A furlough for men who reenlist within 20 days. Full details of other furlough privileges can be obtained from Recruiting Officers.
- Mustering-out pay (based upon length of service) to all men who are discharged to enlist or reenlist.
- Option to retire at half pay for the rest of your life after 20 years' service—increasing to three-quarters pay after 30 years' service. All previous active federal military service counts toward retirement.
- Choice of branch of service and overseas theater (of those still open) on 3-year enlistments.

NEW, HIGHER PAY FOR ARMY MEN

In Addition to Food, Lodging, Clothes and Medical Care	Master Sergeant or First Sergeant	MONTHLY RETIREMENT INCOME AFTER:		
		Starting Base Pay Per Month	20 Years' Service	30 Years' Service
In Addition to Column One at the Right: 20% Increase for Service Overseas. 50% Increase if Member of Flying or Glider Crews. 5% Increase in Pay for Each 3 Years of Service May Be Added.	Technical Sergeant	\$165.00	\$107.25	\$185.63
	Staff Sergeant	135.00	87.75	151.88
	Sergeant	115.00	74.75	129.38
	Corporal	100.00	65.00	112.50
	Private First Class	90.00	58.50	101.25
	Private	80.00	52.00	90.00
		75.00	48.75	84.38

Room 203 Federal Bldg., Lubbock, Tex.

"Doggone, Mrs. Spaniel, you've got a fortune there!"

"Wonder how much, friend Foxhound?"
"I'd say a hundred bucks apiece, charming lady!"
"Flatterer! Why, when my grandpa was a pup, he brought only \$25. That was 20 years ago, of course, but he became a Champion!"
"My good woman, don't you realize how much prices have gone up since then? Look at hamburger, for instance..."
"Oh, Mister, how I'd love to look at hamburger!"

"Stop it—please! My point is that the price of nearly everything has gone way up in the last 20 years. Except electricity. And us dogs don't use electricity. That's unfair. I'm going to raise a howl about it!"
"But we do use electricity in lots of ways. It cooks our food and warms our baths and whisks our spare hairs off the furniture."
"H-m—guess you're right, gorgeous gal... And it'll please you to know that the average family gets twice as much electricity for its money today as it did 20 years ago!"
"Twenty years ago—when Grandpa was a pup—wasn't hamburger was... how much did you say hamburger was?"
"I'll have to scratch up the exact figure for you. But now I must run along and pick up a scent. Electricity and I—forgive me—do a great deal of work for a cent. Yip, yip! Good day, Mrs. Spaniel."

Though this story's all fun, its facts are all true. Many things are scarce and expensive these days, but electricity is plentiful and cheap. One reason it's so cheap is because of your wider use—but another big reason is because America's business-managed electric companies constantly seek and find new ways to keep it so.

AIN'T LIFE GRAND?

Life is a crazy subject to be writing on, especially when people know so very little about it, and what makes it hum around. Webster says that life is the quality or character distinguishing an animal or a plant from inorganic or from dead organic bodies, which is especially manifested by metabolism, growth reproduction, etc., but my estimation of life is something that gets you into lots of trouble if you aren't careful, and can make you careful if you are. Some people say it has something to do with making your heart beat it out "8 to the bar" when your best boy friend or girl friend appears. But, despite the fact that lots of people are unhappy about life, I simply don't know what we would

do without. But I'll give you three guesses!

They say a freshman is only half alive, and a senior's life is full. Mr. Tate would probably say life consists of four essentials: math, math, math and math. Coach Snider would say that it takes at least five games of football, and I can just hear Mrs. Cromer saying life would be entirely incomplete if we didn't include some knowledge of home economics. I can hear "but barely, because of the scramble of girls which surround them constantly" Flomot high school boys saying "Oh life—life is beautiful, but it's even more beautiful when it has about forty blondes, brunettes, and red-heads around."

So you can readily understand that life can be defined in many different ways, but just between you and me, I think it is pretty grand every day in the year except a few and that's when we decide to have an English test in Mr. Porter's class, and then I wish, for the life of me, that I were dead!

SENIOR NEWS

Well here's the "old" senior class back for just a few words. We surely have been busy the past two weeks and everything is just going fine—with us seniors.

We got off with a fine start in school and we hope to make this

the best year in good old Flomot. We can tell the teachers they have our full cooperation (of the seniors.)

So, that Ruth Skinner is at it again. ??? No fooling that Ruth is a cute kid.

Wonder why we can't have our senior pictures taken October 2. Could it be that some of the boys have had their hair cut recently—could be.

Frank, don't you know dove season is not here yet, or is it Turkey season? Could it be these Turkey boys and girls are going to get along with the Flomot boys and girls this year? It looks that way.

Calvin: Do you know what gossip is?

Mr. Monk: No, what son?
Calvin: It goes in one ear, and over the back fence.

JUNIOR NEWS

This being the third week of school everything is going fine. We have begun to make plans for the entire school year.

The twelve boys and two girls of the junior class are looking forward to making this the best school (socially) the seniors have had.

GOSSIP

Seems as if several boys of our class are getting that "Turkey" fever again. How about that Ben? Barney Joe says that certain little blonde of Turkey has been two-timing him, but it seems he still likes to go over there.

Our class president, Ava Nell and secretary, Nita and "only" smaller

in number, but not in "will-power." O yeah!

SOPHOMORE NEWS

The sophomores welcome three new boys to our class: Jack McGann, Paul Cruse and Richard Nall (former Turkey boys.) Just ask some of the sophomore girls.

You ought to see Doris' new bracelet! Whew! Don't the rest of us wish we had a boy friend.

PEP SQUAD NEWS

The girls attended the scrimmage game at Matador last Tuesday night and all came back to school Wednesday morning with sore throats and squeaky voices, but we wouldn't have missed it for anything, and we will be at the next football game making as much noise as we did at the preceding games.

SPORTS NEWS

Last Tuesday night the Flomot Longhorns went to Matador to scrimmage the Matador Matadors.

The game lasted only about forty-five minutes, with the Matadors coming out in the lead with a few points ahead. The Longhorns played a very fine game considering the practice they had had.

FRESHMAN NEWS

Here come the freshies again. Please be patient with us folks. Our pet gripe is teachers who give us exams. When we are least prepared. Why that even makes "cheerful Betty" feel blue. Zelma Dean who have you been winking at in English class? It couldn't

have been Sue! Say Boo Boo who's the latest crush? C'mon fess up now.

Maybe someone can tell us why girls, meaning Virginia, are especially nice to certain boys' little sisters. Please Duane, you're not that hungry! Don't go down the stairs so fast. After all you have forty-five minutes.

We gotta go till next week. Bye now!

Mr. and Mrs. Lee Driver spent last Friday in Amarillo. Returning home that evening they drove to

Matador for the football game accompanied by Rinky Holcomb, Jean Thompson, Billie Rae Hutcherson, Betty Rae Adkins and Margaret Owens.

Mr. and Mrs. Bungy Rhoderick made a trip Saturday to Amarillo.

Irrigated Farms

Anyone interested in a good irrigated farm, or dry farm in irrigated area, see me. I have for sale several excellent farms, both dry and irrigated, located in the irrigation area of Swisher and Hale counties, ranging from 160 up to 640 acres. These farms are priced from \$42.50 up to \$65.00 for dry farms and up to \$90.00 for irrigated farms. I'll be glad to show these farms to prospective buyers.
