NUMBER 40

## This And That About One Thing and Another

Saturday morning the atmosphere at the postoffice was permeated with the spicy tantalizing fragrance of delicious apples and when we called for our mail the PO force was gazing hungrily at a basket of the bright red fruit, and wishing the owner would hurry and claim them, and put temptation out of their reach. We gazed a moment too, and then someone yelled, hey editor, these are for you! So the lid came off in a hurry and there were apples all around.

We are indebted to Mr. and Mrs. J. W. McDonald of Hotchkiss, Colo. for this delightful surprise, and we are surely grateful. Every apple in the basket was large and firm and unblemished, perfectly formed and of delicious flavor. Many thanks to you, Mr. and Mrs. McDonald for your thought of us, and the pleasant surprise.

And now it's time for apple recipes. We'll print one of our own soon, old-fashioned Dutch apple cake. Don't you have some recipe that you particularly like to use with apples?

This lemon pie recipe might have been more tempting as a summer dessert but a good lemon pie is good any time.

### Lemon Chiffon Pie

Mrs. Chas Gowin  
4 eggs beaten separately.  
1 cup sugar Juice of 1 1/2 lemons  
Combine lemon juice, egg yolks and 1/2 cup sugar and cook in double boiler. Beat whites and add 1/2 cup sugar. Put one-half mixture in cooked yolk mixture and use balance for meringe. Pour in baked pastry shell, top with meringe and brown in oven.

In a previous issue of The Quitaque Post it was stated that Dr. deVore's wife and child would join him here in Quitaque soon. However, we have just learned that this will be an impossibility as Mrs. deVore has been bedfast in a hospital for 3 and a half years with cancer and tuberculosis of the lungs. We know there have been several asking why Dr. deVore's family did not come to Texas with him and this should answer those questions.

Quitaque was well represented at a meeting Monday afternoon at Silvertown to plan a county organization for the CROP program which is a contribution program for overseas relief designed to reach the farmers and the rural population.

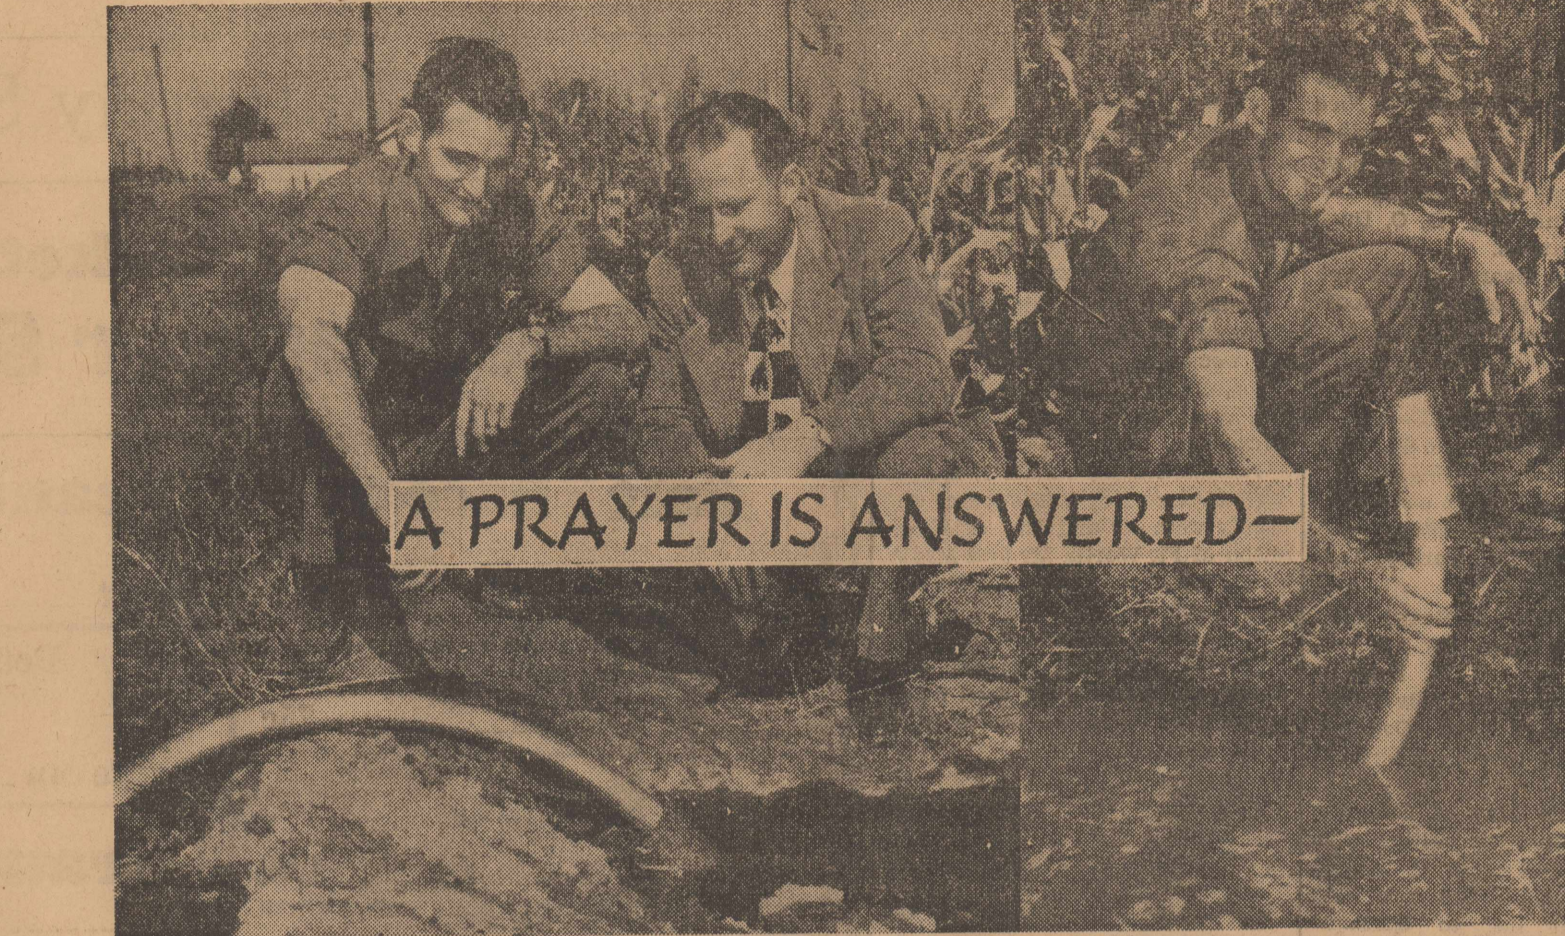

The letters, CROP, represent Christian Rural Overseas Relief, and the program is sponsored by the Christian Churches and the Agricultural organizations. Mr. Holmes, whose home is in Ralls, and who is one of four field men sent out from College Station to explain the program to rural Texas, was present and assisted in planning an organization for Briscoe County.

The program is new in Texas, the national organization having started only about a year ago. It is primarily a commodity program designed especially for farmers, and the extension service at College Station is headquarters, with Mr. Pruitt, head of the extension service as state chairman. At the meeting Monday Earl Cantwell was elected chairman of the county setup, W. J. Rice, vice chairman; Dee McWilliams, secretary, C. E. Bedwell, treasurer; and the editors of the county papers, publicity chairmen.

A moving picture was shown depicting the extreme need of the devastated regions, the stark poverty, the starvation, and the danger of a future world where children of today grow up in such almost unbelievable conditions. The picture was unposed, of actual scenes and it is hard for us to believe that such conditions exist. Surrounded as we are by abundance of everything, we cannot conceive of the utter lack of food, shelter, clothing.

More about the program will be published from time to time.

Cleat Miller, who underwent surgery last week at the Plainview sanitarium, developed pneumonia this week and Tuesday was in very serious condition but Wednesday he was reported responding to treatment and showing some improvement.

Bill Ebbs, left, Wayland College ministerial student, smiles with quiet satisfaction as irrigation waters flow through the improved syphon tube which he conceived. The idea was perfected and designed by J. L. Hardin, business manager for the college. At the right, Ebbs demonstrates a new technique for filling tubes—easing an odious chore for irrigation farmers.

(The above pictures of Bill Ebbs and the new syphon he dreamed up which he hopes will be such a boon to irrigation farmers that it will build new dormitories and laboratories for Wayland College, were on the front page of Monday's issue of the Amarillo News, and thanks to the kindness of the News editors, we have the loan of them for Bill's hometown paper. And the following story by David Rasco, regional editor of the Daily News, accompanies the pictures. We're using all of this story this week, even if it means omitting other news items, because of the fine tribute which it pays to a deserving young man of admirable character, who is a product of our community. And of course, Bill is almost in the family, since Mrs. Ebbs is a sister of Gaston and Margaret Owens, who compose the force at The Post.)

By David Rasco

Plainview—Down here in Plainview, boosters of growing Wayland College sometimes refer to the school's expansion program as the "Little Marshall Plan." The sobriquet has been tacked on the program in good humored honor of the college president, energetic Dr. Bill Marshall. Other than the similarity to names, the Little Marshall Plan has no resemblance of the major American political platform for aid to war-recovering countries.

But with the help of the Good Lord and Bill Ebbs, the Little Marshall Plan will go along in an expanding fashion. Bill, a serious-minded young ministerial student at the college, has made the building plan its most significant contribution.

Not only does Wayland stand a chance to reap good financial rewards from Bill Ebbs' work, but farmers all along the irrigation belt someday may praise his name.

And for the cynics and skeptics, young Bill has an answer. "There is real power in prayer." For it was through prayer—a humble request to the Lord to help him find a way to aid the college—that Bill Ebbs conceived the idea for the newly patented "Wayland College Syphon Retainer".

Bill's idea simply is a refinement of the old standard model metal syphon, which irrigation farmers use to suck water from their main ditches onto the fields. But application of the Ebbs principle in manufacturing syphons will reduce some of the back-bending drudgery incumbent in the irrigation farming.

Though the new Wayland College syphon will be a measureless boon to agriculture, the real story lies within Bill Ebbs and how he came about the idea.

Bill is 25 years old. He has a pleasant smile and an easy-to-meet manner. He is an infantry veteran of World War II, and slogged his way across France, Germany and Italy with the 103rd Division.

He was reared in Quitaque, where his father, James T. Ebbs, operated a blacksmith shop and

did small machine work.

But of present importance is Bill's classification as a freshman ministerial student in Wayland College—the grand old Baptist school on the South Plains.

Bill's enrollment last month was not his first trial at college. He matriculated for the second semester at Wayland last year. He was forced to withdraw from school when his father received a back injury. Characteristic of the young man, Bill went to California and helped his Dad—foregoing temporarily his school work.

There's a manner of serious intent about Bill Ebbs. He's not to be counted when discussing post-war youth and all its manifold problems. He didn't have the opportunity of a high school education—quitting in his later grammar grades.

But he did have the desire to enter the ministry and to equip himself in the best scholastic manner. He took special examinations to enter Wayland.

Bill was among those who sat down in the school convocation about a month ago when President Marshall explained the school's building expansion program.

"For those who can help, we welcome financial assistance. For those unable to assist at present, we recommend seeking a solution to our problem in prayer."

This was the essence of Dr. Marshall's request to the student body.

And Bill Ebbs took his words to heart. He prayed. And he found the solution.

"The idea for the syphons came to me in a flash," Bill recalled. "I was doing a little custom combining on some feed for Billy Ed Whitfill near Lockney."

"I had been thinking about doing something for the school," he continued. "Dr. Marshall's words had remained on my mind."

He recounted he was near the end of a row with his combine, when he saw several of Whitfill's syphons scattered on the ground.

"Then's when the flash came to me," he said simply.

"You may say it's background—working around a blacksmith shop when I was a youngster—but I say it was an answer to a prayer," he asserted.

He mulled over his idea for the new syphon, then went to Dr. Marshall and told him about it. The school president was impressed with the earnest intent of the lean young man.

The two then went to J. L. Hardin, the school's business manager. By chance, Mr. Hardin had served as an aircraft design engineer during the war. He was excited about the possibilities of the syphon.

Mr. Hardin drew up rough plans and Claude Witten, head of the school's department of agriculture, was called in for consultation.

"It would work," was Mr. Witten's terse comment.

To be certain of their ground, the school officials then asked a number of prominent farmers of

the Hale County area to inspect crude first models of the syphon. Most of them gave encouragement.

Mr. Hardin then made finished plans of the idea—never deviating from the essential thought which was Bill Ebbs' gift to his college. The business manager then rushed to Washington, D.C., where the patent was made on the syphon retainer.

Now school officials are casting about to find some means to put the syphon into commercial production. And if the syphon has sufficient sales appeal cash soon will begin rolling in.

And Bill Ebbs will have genuine satisfaction when he considers his part in the new building, the new jobs and courses which Wayland someday will offer.

## SPEAKER AT BAPTIST CHURCH NEXT SUNDAY

Rev. Raymond Spence will be the speaker Sunday at both morning and evening services at the First Baptist Church. Rev. Spence was reared up around Lockney and Silvertown. He is a student at Baylor university, Waco, where he is preparing himself for missionary service in Japan.

Rev. Ray Riley is absent this Sunday from his local duties as he is conducting a two weeks meeting at Lowell, Okla.

The windows for the auditorium arrived this week and are being installed, so the building will be comfortable. Don't stay away because of the weather.

## SOCIAL FOR YOUNG PEOPLE

Young people of the Baptist church enjoyed a Halloween social Tuesday night at the church. The committee in charge of arrangements were Mrs. Roy Burgess, Miss Roberta Duck and Miss Betty Owens.

The evening's entertainment included ghost stories, action games and contests, a horror story told with all of the action demonstrated, bobbing for apples, and other contests in keeping with the Halloween theme.

Refreshments (besides the apples) were cake and hot chocolate. About 15 young people attended.

## BRIDAL SHOWER

Mrs. Orval Boling, nee Miss Betty Brunson, was complimented last Friday afternoon with a bridal shower in the home of Mrs. Ralph Carter. Assistant hostesses with Mrs. Carter, were Mrs. Knox Parley, Mrs. Murry Morrison, Miss Pa Morrison and Miss Othelia Woodruff.

Delicious refreshments were served to guests who gathered during the afternoon at the Carter home.

Mrs. Frank Pa... she received hands from broke white... Severa...

## COTTON COMES ROLLING IN WITH THE KIDS TO HELP

Cotton started coming in this week at a rate to keep the gins running around the clock. Whether or not the closing of school had anything to do with the gin rush, is a matter of opinion, but at any rate school was dismissed Monday for two weeks to enable the children to help with the harvest, and the harvest picked up like everything. It may be that the children are so anxious to get back in school they're exerting themselves to get the cotton in.

And as usually happens when school turns out for cotton picking the weather turns threatening. Monday was the coldest day we've had this Fall season when several reported thermometer readings of around 33 degrees. (That was from the late risers. It may have been colder earlier in the day.) There was a heavy frost Monday, and Tuesday the cold lingered, with Wednesday turning a bit warmer and overcast skies threatening rain.

Some folks with good memories stated that our first cold spell struck October 7, when frost was heavy in the low places.

The two gins reported 2095 bales ginned this (Thursday) morning. Last week's report was 1383 bales.

Lit Bogan came in Wednesday afternoon from San Diego where he has completed his Marine boot training. He will report from here back to San Diego for orders.

## Good Crowd Attends School Entertainment

Friday night the high school put on a show for the public to try and raise funds for their individual candidates for queen. All high school classes participated.

The seniors sponsored a boxing match in which the following participated: W. R. Bull vs Lynn Hamilton, Bob Payne vs James Baird, Claude Chandler vs Jerry King. Joe W. Bailey refereed.

The Juniors sponsored a prettiest girl—ugliest man contest. Buddy Holcomb was voted the ugliest man and Gloria Neatherlin the prettiest girl.

The Sophomores arranged for a basketball game between the high school girls team and a team made up of girls from the town. The high school team won. The outsiders were represented by Rinkey Holcomb, Ineatha Chandler, Othelia Woodruff, Roberta Duck, Margaret Owens Louise Farley and Joanne Merrell.

The high school team was composed of Reba Jo Barrett, Joanna Bedwell, Melba Jo Woods, Paquita McCracken, Alpha Mae McFall, Patsy Stark, Patsy Brown, Betty Ruth Merrell, Valvarie Honea and Una Lee Duck.

The Freshmen had a picnic cake walk with everyone taking part.

All during the show the high grade was selling cold pop on the corners.

The grand finale was the supper and everyone got plenty to eat, although the crowd dwindled by that time. Bro. T. made his contribution to the program as auctioneer and was a great success.

The combined efforts of all brought in about \$100.00 to the various queens.

Mayor M. L. Roberson and Secretary Homer Gregg made a trip Monday evening to Plainview where they attended the first of a series of meetings at which school for water works students and employees will be conducted. The school will be in three days a week for three weeks and Mr. Gregg plans to be throughout. The school is being by the extension service at College.

Bert Grundy is on well list this week taking time out to Bert's accustomed around 18 hours per rest won't hurt him.

### LONGHORN BELLOW

By Students of Flomot High School

Jane is awful blue today. You see Richard went to Plainview. What was the name of the show Sunday. Was it Silver City?

Oliver, we are wondering who will get your big senior picture, your Mother or Madeline.

Mary Elizabeth had girl company over the week end, she says. Tho I'm doubtful whether it was girl company or not.

Say Donnie how fast were you going Saturday night when you passed the house. It couldn't be you were in a hurry to see a girl from Turkey!

Folks, meet a Senior Boy. Name Paul Cruse; Weight 170lbs; Height 6ft 2 in.; Hair black; eyes brown; Favorites: Sport football; color pink; song "My Happiness"; subject Civics. You'll hear from us again next week.

### FRESHMAN CHUCKLE

By Emma Jean Whitford  
We started our six weeks tests Tuesday and finished Wednesday. Sure am glad to get through.

We have a new girl in the Freshman class. Her name is Betty Jo Stiles. She is brown headed, brown eyed and freckled faced. She is fifteen years old. She came from Gainsville. So that makes 4 girls and 3 boys.

Dudley still isn't coming to school. James hasn't come this week. Eula Mae is still here but I haven't seen Joe lately. Mary Ruth and Junior aren't getting along so good. Me, I'm alright.

O yes, I almost forgot. We elected Queen and the King. Emma Jean Whitford is Queen and James Shannon is King for Halloween.

Conversations: James, how was the party last night? How did you come out with Mary Alice? Well don't I get an answer?

Eula Mae how is Joe? Eula Mae: As far as I know he's fine.

Meet our ideal girl at Flomot. She's a senior. Name, Wanda Pearl Fisher; Hair, blond; eyes, blue; complexion, fair; feet, small; hands small; personality, good; favorite color, blue.

### PANTHER SCREAM

By Students of Quitaque School  
Alpha Mae is the most intellectual student in the class. At the beginning of school, Mr. Cross asked her why she was taking that course and why was it important. She readily replied, "Because its all there is left for me to take and it is necessary to have one more credit to graduate."

Everyone insists on Stelle giving her speech first; she can take up the whole period talking about nothing. The rest of the class delights in getting up and reading their outlines instead of their speeches; consequently, they get to memorize from 30 to 40 lines of poetry for the next assignment.

Lynn and Curtis insist on sitting by a certain junior girl in Texas History and helping her count her pieces of chalk.

### JUNIOR NEWS

In order to form a more perfect standard and for betterment of the Junior class of 1949 declare these rules open for enforcement:

Rule No. 1. To have all the pep squad court the football boys. (Are you kidding?)

No. 2. To reach class not later than thirty minutes after the specified time.

No. 3. To denote at least one night a week to studying.

No. 4. To have something cooking every night

Here we are again, the Junior class of 48-49. Everyone is really

studying hard, but lots of good it does.

Here we go again with more gossip.

Some girls sure do think our quarter back is the hot mud, and to think he had to get all bunged up just so they would think that "Long-Legs" or Ben told us to tell all the girls that he is still available.

"Pete" is still trying to make up for loosing time in English II last year. We can't think of anything except Geometry so we'll close with this:

### FRESHMEN NEWS

Jackie Hulsey gets to visit the office every now and then.

But Patrick is always trying to hide behind something in General Science class.

Billy Carpenter only knows three words in History and they are "I don't know."

Nancy Smith just sits around in the study hall trying to figure out which boy to wink at next.

Patsy Carpenter can't seem to pay attention in class. I wonder which boy she's thinking about. The one east or west of town?

Barth Owens doesn't have any trouble getting his lessons. There is always a freshman girl around

to help him. Claudie Chandler just can't study in that study hall. Is it because there are too many to talk to?

Maybe you think Monty Wise has a job at the Ingrams drug store, but he doesn't. He just likes the place.

Cloris Neatherlin always seems to have a smile for all the boys around.

Betty Ruth Merrell seems like all her studies are about that guy named E. G. Reed.

Harold Chase always figures out some way to get to sit by a girl in the study hall.

Valvarie Eonea never has her lessons. Could it be because Bob Chase keeps her up so late?

Marie Owens doesn't care anything about the boys, just sits around like there's not such things.

Carl Lewis can always be found talking to some girl.

There is never a dull moment in English with Buddy McFall around.

Alma Fae Hulsey comes to school once in a blue moon.

Margaret Jo Beck and Shirley Foster have been getting their part of the cotton.

Jimmie Davidson is keeping his good eye on Nancy.

Aubrey Lou Grundy seems to have a Senior cornered.

Granada Miller is just as good as she always was now that she's

Freshman. The winner what Addie Bee Carl was doing at Turkey Sunday. Clara Ruth Woods is our English expert this year.

Rose Davis watches her step now that she takes Math with her big brother. He is a Senior.

### CHAMP STEER AT STATE FAIR PAYS OFF BIG TO SCHOOL BOY

Two dollars a pound was the top price paid for the Grand Champion steer of the Junior Steer Show at the 1948 State Fair of Texas Junior Livestock Auction Sale which began at 9:30 a.m. in the Swine Arena, Ray W. Wilson, State Fair Livestock manager, announced.

Sim A. Reeves, Jr., a 14-year-old Fort Stockton, Texas high school boy, pocketed a check for \$2,480 from the Burris Feed Mills of Dallas, high bidders on the 1240 lb. red and white Hereford champion, Ferdinand.

Ferdinand brought his young owner a total of \$2,740 in premiums and sale price during the Junior Livestock Show. When asked what he intended doing with the money, young Reeves replied that he would put it in the bank until he finished high school and then use the prize money to pay his way through Texas A&M where he plans to study agriculture.

Representing Burris Feed Mills

at the Auction was Wiley Aikens of Dallas. Prominent among the bidders were various officials of meat packing plants, banks, meat retailers, hotel and restaurants, all anxious to obtain the best quality beef, lamb and pork.

The Junior Livestock Auction was opened with short speeches by Ray W. Wilson, R. L. Thornton, president of the State Fair, and John Carpenter, chairman of the auction sale. These speakers pointed out the importance of the contributions made by the young 4-H Club members and Future Farmers to the livestock industry. "Texas can be proud of these boys who have produced these fine animals," Mr. Thornton pointed out.

Bidding slowed down on the Reserve Grand Champion, a 1110 lb. Hereford steer, to a closing price of \$1.05 a pound. Reppy Guitars, an 11-year-old Big Spring boy, withdrew his animal from the sale.

PIONEER

LOOK!...EVERY NEW CONVENIENCE WITH THE ONE THAT

Stays Silent  
Lasts Longer

BECAUSE IT FREEZES WITH NO MOVING PARTS

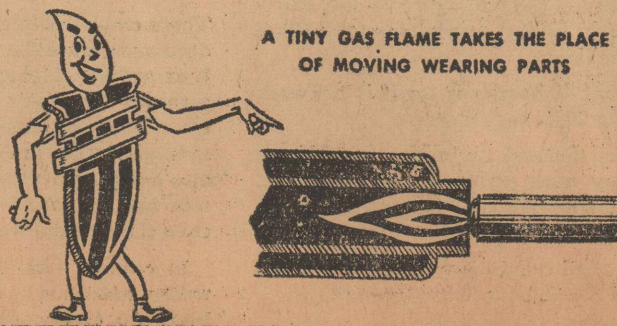

COME SEE the great new Servel Gas Refrigerator! It's a beauty—with every new convenience to save you marketing time, make food storage easier. For fresh foods and frozen foods it's up to the minute.

But good looks are just the start. Servel brings you permanent silence, longer life, too. For the Servel Gas Refrigerator—and no other refrigerator—brings you the famous different, simpler freezing system with no moving parts. No valves, piston or pump. No machinery at all to wear or get noisy. A tiny gas flame circulates the refrigerant in Servel's noise-free freezing system.

More than two million families are enjoying silent Servel Gas Refrigerators today. Ask any of them, and they'll say, "Pick Servel. We know from experience, it stays silent, lasts longer!" Come see the new Servel Gas Refrigerators now on display.

### CHECK FOR YOURSELF

- ✓ Big frozen food compartment
- ✓ Plenty of ice cubes in trigger-release trays
- ✓ Moist cold and dry cold for fresh foods
- ✓ Convenient Servel meat storage tray
- ✓ Dew-action vegetable fresheners
- ✓ Handy egg tray
- ✓ Flexible interior arrangement with sliding shelves adjustable to eleven different positions
- ✓ Plastic Coating on shelves—keeps them rust-free, scratch-free, easy-to-clean

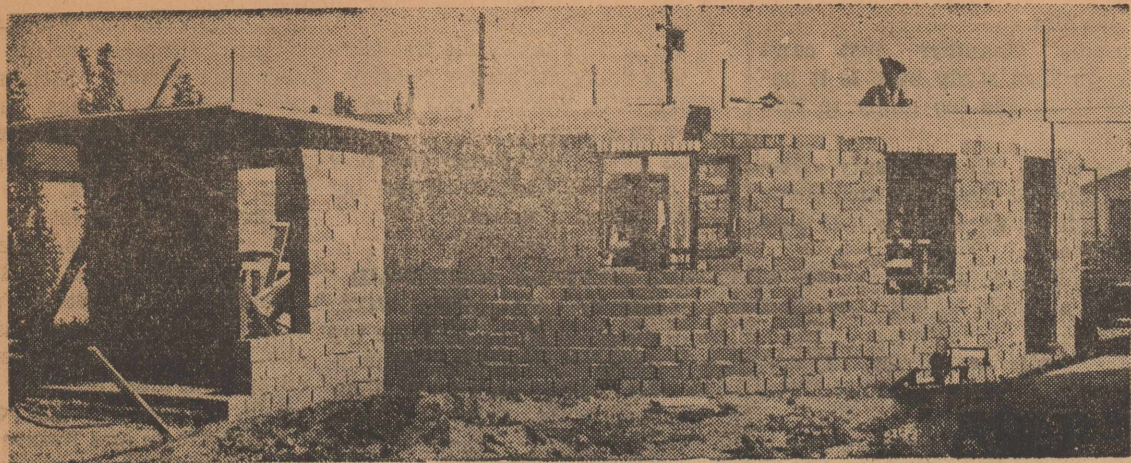

STAYS SILENT...LASTS LONGER

walls. Ask Terry why a circular house and you won't get any fanciful or merely esthetic explanations. He gives you reasons that reflect the viewpoint of a building contractor, architect or home-building financier.

He estimates that his house—with 1,386 square feet of space and costing \$6,500—will knock down construction costs of \$4.68 per square foot, which is less than half of what the average house in Lubbock costs, according to the building contractor.

"You get more space in your rooms, too," says Terry. Although the square footage of his house is slightly more than the average two-bedroom home, he points out that his living room measures 36 feet from end to end and his bedrooms are 24 feet long.

Terry likes to invite visitors to walk around the house to see if they can "escape the breeze". Prevailing southwest winds strike the rear of the house and follow the curve of the circular wall. Visitors marching around the house feel the breeze pursue them.

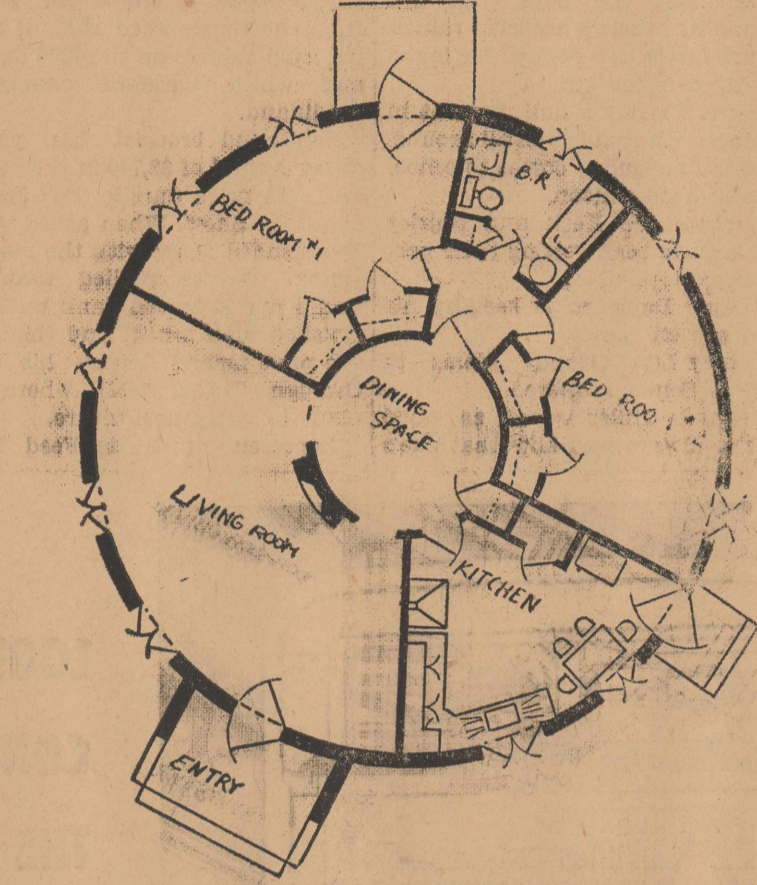

Casement windows that scoop in the never-ending zephyrs take advantage of this natural air-conditioning. Only the dining room in the inner circle has no outside windows. This room is lighted by a skylight.

Ask Mrs. Terry, an attractive 34-year-old blonde, about The House the Terry Built and you get strictly the feminine reaction.

She admits that when her husband first broached the round-house idea she was rather dubious. "But Elmer had his heart set on the idea and I just couldn't object," she confesses.

"But now with the walls up and part of the house built, I can see just how it's going to look, and now I'm crazy about it".

Young Jock had only one worry concerning the radical design. How was Santa Claus going to visit him next Christmas without a fireplace? That called for a hasty revision. Now the interior plans in-

perintendents flocking to the site of his new home have proved irksome at times. One time he had to park his car some distance from the house because sightseers in their automobiles had crowded

lives or answering questions of spectators on the site of his new house. He's had several requests for copies of his blueprints and he gives them without charge. Terry's toughest critics have been

residents of the neighborhood in which he is building. They thought at first that a house of such radical design would jar the complacent harmony of their attractive homes and gardens. But as the Terry's house nears completion most of the neighbors are losing their prejudice and are voicing admiration.

A farmer, completing his nightly chores, saw a dim figure standing beside the barn holding a lantern. "Who are you?" the farmer challenged.

"It's only me—Charlie" came the answer.

"What are you doing here late?" the farmer demanded.

"I'm courtin' Sarah," said Charlie.

"Whatcha' got the lantern fo'r?" the farmer inquired. "When I courtin' Missus Brown, I did take a lantern!"

"Yes sir," Charlie answered solemnly. "Anybody can see that."

If brevity is the soul of wit a stylists continue the trend in bathing suits, there will be a lot of laughter at the beach.

**1 1/2 Billion Dollar Road Block!**

RAILROADS MUST OPERATE around the clock every day and night of the year.

Although they know this, leaders of 16 railroad unions are demanding a five-day, Monday through Friday, week for one million railroad employees.

They want 48 hours pay for 40 hours work—in itself a 20% wage increase.

They also demand a minimum of 12 hours pay for any work performed on Saturdays, and 16 hours pay for any work performed on Sundays and holidays.

On top of all this they want an additional increase of 25c an hour for every employe!

**You'd Pay the Bill!**

Summing up these demands, they mean that these union leaders seek to force the railroads to give one million employes an annual raise which would average \$1500 per employe!

The total cost of this would be no less than 1 1/2 billion dollars per year, which is more than twice the expected net income of the railroads this year.

You'd pay the bill, because if these increased costs are forced on the railroads,

they must have still further rate and fare increases.

**Demands Unreasonable**

These employes have had substantial raises during and since the war. Their average weekly earnings are higher than the average weekly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.

In contrast with the demands of these 16 unions, which add up to the equivalent of 48c an hour, the Conductors and Trainmen recently settled their wage request for an increase of 10c an hour.

**Railroads Run for Everybody—**

**Not Employees Alone**

The railroad industry must serve not one but many groups—producers, businessmen, shippers, passengers and the general public—night and day, every day of the year. These unions are proceeding in utter disregard of this important difference between railroads and other industries. Industrial plants can be shut down over weekends and holidays, but freight, mail, express and passengers must continue to move. *Everybody who enters railroad employment knows this.*

**Strike Threat**

On September 18, 1948, the leaders of these 16 unions began taking a strike vote. But the threat of a strike will not alter the opposition of the railroads to such unreasonable demands!

### Small Increase In Payments To Needy

Payments to those who are dependent upon Old Age Assistance, Aid to the Needy Blind, and Aid to Dependent Children will be increased an average of about \$2 on October 1, 1948, as a result of recent changes in the Federal Social Security Act, according to Mrs. Ada Bailey, Floydada, Texas.

In the dying days of the Regular Session of the 80th Congress, the matching formula by which Federal money is allocated to the States was changed. The new Federal formula provides about 64% Fed-

eral to 36% State. Mrs. Bailey stated that there is, of course, no federal money allocated any State except on this matching basis.

Had not additional Federal money been made available, it would have been necessary to reduce each Old Age Assistance check between \$2 and \$3 during each month of the present fiscal year, according to Mrs. Bailey. It is now possible to avoid this cut and instead raise checks \$2 and to adopt a maximum payment of \$50 in the Old Age and Blind program; and \$27 for the first child in a family and \$18 for each additional child in the Aid to Dependent Children program.

All adjustments have already been made, and it has not been necessary for those receiving aid to visit the Welfare Office to secure such raises as are possible. It is anticipated that the Old Age Assistance rolls will show a net increase of 700 persons per month, and the average payments will increase slightly each month; to increase payments approximately \$2; and to provide for payments to new persons coming on the rolls.

Mrs. Bailey added that during the fiscal year, which will end August 31, 1949, it is anticipated that \$86,000,000 will be distributed to those entitled to receive Old Age Assistance, of which \$31,000,000 will be State money and \$55,000,000 will be Federal money; \$2,700,000 to the blind, composed of \$1,000,000 State and \$1,700,000 Federal funds; \$9,000,000 to dependent children, of which \$3,000,000 will be State and \$6,000,000 Federal. The Texas Constitution prohibits expenditures of more than \$35,000,000 for the three assistance program in any one year. Before additional money can be appropriated by the State Legislature, the Constitution will have to be amended to allow for larger appropriations.

### LOCALS

J. W. Hutcheson of Parker county and his son Morris Hutcheson of Nevada were here last week visiting the former's brother, O. E. Hutcheson and family.

Mrs. Johnny Cagle underwent surgery at an Amarillo hospital the first of last week and returned home the latter part of the week. She is getting along fine.

Wayne Hall and family came in last Friday and visited until Sunday with his parents Mr. and Mrs. Victor Hall.

Visitors last week in the A. B. Ramsey home were his sister and husband Mr. and Mrs. M. D. Banks of Shawnee, Okla., and a brother-in-law Walter Fishback of Portales, NM.

### Captain of Industry

Meet Butch—Pres., Treas., and Field Force of the One Man Odd Jobs Co., Uninc. Take a good look at him—for Butch is America.

Butch wants a bicycle. Lots of lawn and lemonade and baby-sitting lie between Butch and that bike, but we're betting on the boy. He has energy, vision, and our national habit of working hard for what he wants. He's American business—in miniature.

There are many names for Butch's philosophy. You can call it Free Enterprise, Opportunity, Democracy, or Capitalism, if you want.

But, whatever the name, America owes it much. For our most valuable natural resource lies in the ambition and initiative of Americans like Butch.

As great publications have grown from the dreams of young men with old handpresses—and great industries from the products of grubby little cellar workshops—the electric industry had small beginnings, too. Like our own company. A few men with vision strung the first small lines. People with faith risked their savings. Better and better service, at lower and lower cost, created more and more jobs—and carried the benefits of electric living to more and more people.

Free enterprise and hard work will bring Butch and his bike together. They are what built America and the American way of life, which is the highest standard of living in the world. No nation on earth has found a satisfactory substitute for that combination.

This advertisement, awarded "Advertising cum laude" in the September READER'S DIGEST, is reprinted in the Public Interest.

### MRS. T. A. SHELTON OF KRESS DIES SUDDENLY

Mrs. T. A. Shelton, 65 years old, of Kress, died about 5:45 o'clock Wednesday, October 13, in St. Anthony's hospital, Amarillo after becoming suddenly ill in the afternoon. She and her husband were visiting a daughter, Mrs. C. T. Rucker, Jr., 803 North Taylor.

Mrs. Shelton was born Aug. 21, 1883, in Austin County, Texas.

Besides the husband and the daughter, she is survived by another daughter, Mrs. B. E. Howard, Long Beach, Cal., and two granddaughters, Karen and Shelley Rucker, both of Amarillo.

Funeral services were conducted at the Kress Church of Christ Friday afternoon, Dean Brookshire, officiating, and T. J. Finley, Kress, as casket bearers.

Her body was taken from Amarillo to Abilene where short rites were conducted Saturday.

Manley was born Aug. 21, 1883, in Austin County, Texas.

He died November 26, 1912 in Jones County, Texas. He was the father of Mrs. T. A. Shelton who is the mother of Mrs. Kress.

Survivors are a sister Mrs.

George Harvey, Abilene; six brothers, Amos, Seth, Hollis, Borden and Kline Manley, all of Abilene and Lewis Manley, Slaton.

### FLOMOT MAN INJURED IN AUTO MISHAP SUNDAY EVE

Doyle Calvert of Flomot was considerably shaken up and his car was wrecked Sunday evening when he was returning to his home in Flomot. The accident occurred at the turn-off to Flomot between Turkey and Matador.

He believed that he may have had a light heart attack as he said he just "blackied out" and his car ran into the ditch and was pretty well torn up.

Doyle himself suffered no injuries except a cut near one of his eyes, cut by a pair of shades he was wearing that were broken during the accident. He was pretty shaken up however and was taken to a Matador hospital but was released immediately and went home. Monday he was able to help with the farm work.

### SUNSHINE SHOWER

A Sunshine Shower was tendered Miss Clemmie Jacobs last Monday afternoon at the home of Mrs. and were served refreshments of Florine Cobb. Many friends called

## DEMOCRATS . . . STATES' RIGHTERS . . . REPUBLICANS

We all want to vote for

**JACK PORTER!**

We Can!

Article 2981 of the Laws of Texas (Enacted 1905) specifically provides for the voting of a split ticket in a GENERAL ELECTION.

Scratch all candidates for U. S. Senator except the name of JACK PORTER. Your vote will be counted, and your choice for Senator, JACK PORTER, will be seated.

The so-called loyalty pledge does not apply to the election on November 2. It is a GENERAL ELECTION all over the United States. It is NOT a state primary.

This has been so held by our courts and by the Texas Attorney General's Department for years past.

(Pol. Adv. paid for by Porter for Senate Committee, Lloyd Wheelock, chairman.)

cake and hot chocolate.

The honoree was appreciative and happy over the thoughtfulness of her friends who brought so many nice and useful gifts.

### ALL CRIPPLED CHILDREN ARE ELIGIBLE FOR STATE AID

Austin—In an effort to familiarize every person in Texas with the services offered by the Crippled Children's Division of the State Health Department, Dr. Geo. W. Cox, State Health Officer has released the following statement:

Every crippled child in Texas, under 21 years of age, and of normal mentality whose parents are unable to pay for needed care, is entitled to assistance from this Division.

Crippling conditions which may be treated are infantile paralysis,

osteomyelitis, club feet, harelip and cleft palate, burns, curvature of the spine, arthritis, bow legs, rickets, tuberculosis of the bone, flat feet, congenitally dislocated hip, muscular dystrophy, supernumerary fingers and toes, wry neck, elephantiasis, spina bifida, brachial palsy, Potts' Disease, congenital anomalies, spondylolisthesis, amputation, webb fingers, epiphysitis, and sarcoma.

Assistance may be obtained by applying to the Crippled Children's Division, Texas State Department of Health, Austin, or by placing an application through an established city or county health unit.

Full information about local groups and organizations throughout the state who are anxious to assist crippled children to establish their eligibility and receive proper care, may be had by writing for a pamphlet, "Handbook on Agencies." Address Crippled Children's Division, State Department of Health, Austin 2, Texas.

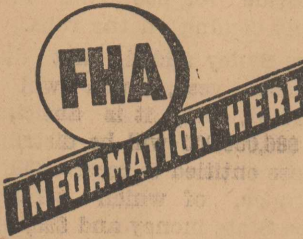

### ITEMS OF INTEREST FROM THE SCS OFFICE

Last December 1, Obra Watson, one of the Supervisors of the Caprock Soil Conservation District planted a 3 acre patch of winter peas on his farm two and one-half miles northwest of Silverton. Last May these peas were cut and put in his barn to dry. Last October Watson ran these peas and vines through his combine and obtained 1000 lbs. of seed. These peas were not irrigated. Watson spread the crop residue from these peas over his garden as a mulch to prevent

erosion as well as to build up the organic content of his soil. Year before last Earl Cantwell, also a Supervisor whose farm is located in the Rock Creek Conservation Group, harvested 2200 lbs. of winter pea seed from 2 acres. Cantwell's farm is subject to irrigation but these peas made their growth without being irrigated.

The Board of Supervisor of this District had their regular monthly meeting last Wednesday, October 13, with all members present. The Board reorganized for the coming year with Earl Cantwell, selected as Chairman, Bray Cook, vice-chairman, Obra Watson, secretary, and L. A. McJimsey was selected to be the treasurer. R. L. Brunson, who succeeded Bill Helms as Supervisor of sub-division No. 5, was welcomed into the group by the

other members. During this meeting applications for assistance were approved for, W. E. Autry and J. M. Thompson. Conservation plans between the district and Farmer were Obra Watson, Lee D. Bomar, and Bert Hawkins were also approved by the Board of Supervisors.

Austrian Winter peas and dixie wonder peas can still be planted and will serve as a winter soil improvement crop. Tests have proven that up to twenty-two bushels can be gained in crop rotation. It is almost too late for winter grazing; however, some spring grazing is likely to be obtained.

Gerald Smith, a cooperater in the Scheid Group, near Quitaque, has about six acres of Austrian Winter peas that are progressing nicely.
