## Superintendent Urges Parents To List All School Age Children During Census

Supt. of Schools Johnny Mason reminds everyone in this school district that it is very important that their children of school age be listed on the current school census that is being taken.

If you have a child that will be 6 and under 18 years of age before September 1, 1962, then that child should be listed on the census.

Supt. Mason stated that little trouble is encountered in the census where a family has children already in school since the blanks are sent home by them for their parents to fill out. There are some families however, who will have children of school age for the first time this next school term. They should contact Mr. Mason, and not later than Wednesday, January 31, when the census must be completed.

The state pays the local district \$80 per pupil listed in the school census. Even if a child should be sick or unable to attend school, or even if the child quit school, the school district still would get the \$80 in aid. Mr. Mason says that he will be more than glad to help any one with questions concerning their children.

Mr. Mason also reminds parents that next Wednesday, January 31, is the day for the Teacher In-Service Training, and the buses will run at 2:45 instead of the usual time.

Mr. and Mrs. O. E. Chandler and family spent last weekend in Tahoka and Lamesa. They visited Mr. and Mrs. Gus Chandler and family in Tahoka Saturday afternoon, then drove to Lamesa and spent the night with his sister and her husband, Mr. and Mrs. Weldon McBrayer.

## Revision Proposed For U. S. Standards For Grain Sorghum

College Station, Jan. 24 - Because of the change in character of the grain sorghum crop due to the adoption of new varieties, the U. S. Department of Agriculture has announced a proposal to revise the Official Grain Standards of the United States for grain sorghum.

The proposed changes include the elimination of the class Red Grain Sorghums and all the subclasses in the classes of Yellow Grain and White Grain Sorghums. Since the new varieties and hybrids are heavier than the old ones, it is proposed that the test weight per bushel be raised from 55 to 59 pounds for No. 1, from 53 to 56 for No. 2, from 51 to 54 for No. 3 and from 49 to 51 for No. 4.

Also, in order to provide for better keeping quality, a proposal has been made to lower moisture content from 14 to 13 percent for No. 1, from 15 to 14 for No. 2 and from 16 to 15 for No. 3. It is also proposed to eliminate dockage and substitute a factor for fine foreign material in the grade table. Alternative proposals provide for dockage as now applied and a special grade 'Tough' instead of moisture as a grading factor.

Informal public hearings to consider these proposals have been scheduled for Lubbock on January 29 at 1:30 p.m. in the MacKenzie Terrace, 407 E. Broadway and January 31 at 9:30 a.m., Continental Hotel, Kansas City, Missouri.

Interested persons may also submit written data, views or arguments to the Director, Grain Division.

### HIGHWAY PATROL REPORT FOR MONTH OF DECEMBER

At the stroke of twelve midnight December 31, 1961, "Old Father Time" slipped quietly away. But the resounding echoes and visions of his destruction of grinding metal bodies crashing glass, torn and broken limbs and smashed lives will live long in our memories. His record in Briscoe County has been an expensive one.

For the entire year of 1961 in this county there were 18 crashes resulting in 2 persons killed, 8 injured and an estimated property damage of \$23,105.00, in comparison of the year 1960 here were 18 crashes resulting in 2 persons killed, 14 injured and an estimated property damage of 13,620.00.

For the month of December the Texas Highway Patrol investigated 1 rural traffic accident in this county according to Sergeant D. R. Dowdy Highway Patrol Supervisor for this area.

These wrecks accounted for one person injured and an estimated property damage of \$300.00.

The veteran Patrol Supervisor cautions all motorists not to be guilty of negligence in permitting their windshields and window glasses to be covered with any form of frozen precipitation while driving. This enhances your chances of an accident many times.

Mrs. S. L. Montgomery of Lubbock visited her mother, Mrs. F. M. Sachse last Sunday.

Mr. and Mrs. Park Bolton of Lockney visited relatives and friends here Sunday.

ion, Agricultural Marketing Service U. S. Department of Agriculture, Washington 25, D. C. not later than February 15, 1962.

The proposals are scheduled to appear in the January 13 Federal Register. Copies will be available from the AMS Grain Division.

### 1962 Feed Grain Sign-Up Period Set

College Station, Jan. 24 - Producers who wish to comply with the 1962 feed grain program will sign up between February 5 and March 30, reports C. H. Bates, extension farm management specialist.

Provisions of the 1962 program are very similar to those for 1961. One change is that idle and fallow and for the years 1959 and 1960 will be considered in the soil conserving base for farms. This will give less flexibility in the use of land diverted from feed grains, explains Bates.

Payment rates for diverted acres will be in line with those for 1961 because support prices for feed grains have been set at identical levels. The rates are again based on the normal production of the farm times the county support rate. The minimum acreage reduction (from the 1959 - 60 base) is 20 percent, which will earn a payment based on 50 percent of the local support price. For diversion of between 20 and 40 percent the payment will be figured at 60 percent of the local support price.

Barley, which was not included in last year's program because of late passage of legislation, is included in the 1962 program. A producer having barley plus grain sorghum or corn can participate in barley reduction independent of the other crops. If he wishes to comply on barley alone, however, he must stay within his 1959 - 60 base on corn and grain sorghum if he wants to receive price supports. On the other hand, if he wishes to comply on the corn and grain sorghum he must not exceed his base acreage for barley.

Cooperating farmers will be eligible for price supports on their 1962 crops of corn, grain sorghum, barley, oats and rye, subject to the base yield limitations, Bates continues. Also, they are permitted to draw one - half of their total diversion payment at the time of their sign - up.

Non - cooperating producers will not be eligible for price supports on feed grains, but they will receive the market price for them. Since no acreage will be diverted they will not receive payment for any additional conservation use. Grain producers should study carefully their individual alternatives in these programs. Decisions should rest on the estimated outcome for each operator, based on the goals he is seeking, says Bates. Producers having questions about the effects of varying levels of compliance on their 1962 operations should contact their local County ASCS office manager or their local county agent.

Mr. and Mrs. Webb Taylor attended the Fat Stock Show at Amarillo Wednesday.

## USDA Announces Change In Skip-Row Cotton Planting

College Station, Jan. 24 - The four - row limitation on "skip-row" planting will not apply to the 1962 cotton crop, according to an announcement by Secretary of Agriculture Orville L. Freeman.

Under regulations for 1961 and earlier crops, skip - row cotton planting was permitted provided the skips left idle or planted to other crops were equal in width to the four rows of cotton. If the skip rows were any narrower, the entire acreage was counted as planted to cotton for acreage allotment and marketing quota purposes. Under this arrangement many growers planted a four - and - four pattern - four rows to cotton and four left idle or planted to other crops.

The change, Secretary Freeman said, will provide the cotton grower with more latitude in planning and carrying out his operations. Under the new system, only land actually planted to cotton will be

Just address her cards in care of Zoe's Rest Home, Childress.

The Quitaque Panthers took top honors in the Estelline Tournament last week-end, while the Pantherettes were only able to win third place.

The Panthers took on the Lakeview girls in the opening and dropped a close one to a team that they had beaten rather handily only a few days earlier. Friday night the Pantherettes' opponents were the Clarendon girls and after playing a nip and tuck first quarter, fell behind and wound on the short end of a 61-30 count. Saturday night the QHS girls took a 41-31 win over Estelline.

The Panthers drew Childress B as their first opponent, won that one, then had to scramble all the way before downing Clarendon Friday night 41-36. The Quitaque lads experienced their coldest night, scoring-wise, of the season. The locals trailed the big Broncos until 4 minutes deep in the third period, when they went ahead, 22-22. Quitaque was never behind again although the Broncos tied the count at 30-30 and again at 32-32. From that point on the Panthers managed to stay ahead but could never build up a comfortable margin. Sammy Johnston, the top scorer for the Panthers over the entire season, managed only 18 points during the three games played during the tournament. He wound up with 5 points against Clarendon, while Robert Phelps won scoring honors for the Panthers with 11 points: James Starkey and Jack Johnson each marked up 10 points and Dellis Monk made 5.

Saturday night the Panthers took a 61-34 win over the Estelline Bearcubs in the tourney finale.

Tuesday night the Panthers won game number 23 for the season as they drubbed the Turkey Turks 82-24. They have lost two games. The Pantherettes won by a 46-31 margin and now stand 6-1 in district competition and the Panthers are undefeated in district play. Quitaque Jr. High also won in the opening game of the night.

Robert Phelps took scoring honors again with 23 points while Janice Dudley meshed 25 points.

In the boys game, both the starting five and the second five scored more points than the Turk's full-game total. The starters ran up a 33-5 first period lead, at which point the second unit took over and ran the total to 72-22 before the starters went back in with less than three minutes left to play. The first five made 43 points to Turkey's 7, while the second five made 39 points while Turkey managed only 17 against them.

Friday night the local teams will host Estelline High in a pair of conference games, then on Tuesday Lakeview will come to Quitaque for the next-to-last conference game of the season. The District Tournament is just two weeks away.

Funeral services for Charles Lynn McGowan, 12, son of Mr. and Mrs. Richard McGowan of Hereford, were held at 2 P. M. Tuesday in Grace Gospel Church there. The Rev. H. V. Fields, pastor, officiated.

Burial was in West Park Cemetery in Hereford under the direction of Gilliland Funeral Home.

Charles Lynn died at 2:30 A. M. Monday at his home after an illness of 10 years. He was born Jan. 19, 1949, in Dumas and moved to the Black community with his family in 1954.

Surviving, in addition to his parents, are three brothers and three sisters, all of the home.

Those from Quitaque who attended funeral services were Mr. and Mrs. Warren Merrell, Truman Merrell and Mrs. D. J. Anderson.

### LOCAL MEETINGS CANCELLED FOR WITNESSES' ASSEMBLY

Jehovahs Witnesses' local meetings are being cancelled from January 26 through 28 for their Texas Circuit No. 9 assembly in Lubbock. The program activities for the 18-congregation circuit from Texas and New Mexico will be built around the theme, "Assist One Another to Do God's Will."

V. D. Tiffin, presiding minister of the Quitaque Congregation, said, "This assembly is designed to help all age groups to assist one another; for this reason, entire families of Witnesses and good-will persons will be in attendance."

"To assist one another to do God's will," Tiffin said, "is a principle of activity with us that is far reaching: primarily with the Witnesses individually, then in our house - to - house ministry to the people, calling back on interested persons, starting home Bible studies with those desiring this assistance, and encouraging all to greater acts of faith."

"The theme for the three - day training program," Tiffin said, "has the godly principle of promoting pure worship and eradicating from mind and heart the two great evils of our day, materialism and godlessness."

W. R. Thomas, district supervisor from the Watch Tower Society, New York, will be chairman of the Lubbock meet to be held in Fair Park Coliseum. He will talk on the subject, "Uniting Men in a Split-up World," Sunday at 3 P. M.

TEXAS PRESS ASSOCIATION

AUSTIN, TEXAS — Substantial progress has been made by the Legislators toward enactment of Gov. Price Daniel's program.

Lawmakers seeking re-election this spring are diligently at work. They want to be home by the filing deadline . . . February 5.

Loans: House of Representatives sent a much-amended loan regulatory bill to the Senate. Bill would set up tight supervision over those who lend in amounts less than \$1,500. Exceptions are banks, credit unions, savings and loan associations and various kinds of cooperative credit groups.

Those exempt from the regulatory law would be limited to 10 per cent interest per year. All loans over \$1,500 would likewise be held to 10 per cent.

House bill allows a 3 per cent month charge on loans under \$100 . . . 2 1/2 percent on the part of the loan from \$100 to \$200 . . . 2 per cent on \$200 to \$500 . . . and 10 per cent on the part of the loan between \$500 and \$1,500.

When interest on a loan over \$20 is less than \$4, the lender can charge \$4 in lieu of interest.

Rural Roads: Senate passed the proposal by Sen. Neville Colson of Navasota to cut the spending on farm-to-market road construct-improvement by \$17,500,000 a year. This amount will be used for construction of secondary and primary highways.

A House rural bloc on the Agriculture Committee favored reduction. They preferred a ten year graduated cut . . . to reach the goal set by Governor Daniel, Texas Farm Bureau, the County Judge and Commissioners Association and the Texas Good Roads Association.

Tourism: Large crowds turned out for the Senate and House committee meeting on these bills: (1) to appropriate \$300,000 for advertising for tourists; (2) for expansion of the Juvenile parole system; (3) and for repairs to the San Jacinto Monument.

Opposition came largely from advertising people who felt the Highway Department isn't the proper

supervisor of an advertising program.

### ATTORNEY GENERAL'S RACE BEGINS:

Former Secretary of State Tom Reavley of Austin was the first candidate for Attorney General to pay the \$1,000 filing fee at State Democratic Executive Committee headquarters.

This is Reavley's first state-wide race. The former Nacogdoches County Attorney was appointed Secretary of State in 1955. He now practices law in Austin.

Waggoner Carr of Lubbock, two-term Speaker of the House of Representatives, already has announced as a candidate.

Although Carr lost the 1960 race to Will Willson, he polled a half million votes.

The Lubbock lawyer says his platform has one basic plank, "strengthening our legal framework where needed, and more vigorous enforcement of those laws, once enacted."

Les Procter of Austin, who resigned his office of District Attorney, is expected to make a strong bid for the Attorney General's job. Procter won prominence as prosecuting attorney during the veterans land scandals.

Rep. Tom James of Dallas, the fourth announced candidate for Attorney General, is busy with legislative duties.

### SHORT SNORTS

Assistant Attorney General Bob Ehrie Shannon of Brownwood has been appointed Chief of the Attorney General's Insurance, Banking and Securities Division.

Attp. Gen. Will Willson won a judgment recovering more than \$423,000 for the State in a suit alleging fraudulent sale of land in Kinney County to the Veterans Land Board.

Agriculture Commissioner John White predicted that the growth of the European "Common Market" will have a major effect on Texas farm economy. He said Texans will export some 25 per cent of their \$800 million crop this year.

**GOOD SOIL SAMPLES MAKE SOIL TEST BETTER**

The use of fertilizer on Texas crops and pastures will pay big dividends in the areas where plant food is needed to boost yields. The cheapest, easiest and best method for determining fertilizer needs is to test the soil. But, the soil test is no better than the soil sample from which the test is made.

In fact, chemical tests based on poorly taken soil samples may actually be misleading. Here are suggestions from the chemist on how to take a good soil sample.

A spade, probe or auger can be used for taking the soil sample. Sampling should be done to a depth of six inches. If a spade is used, dig a V-shaped hole to the six inch depth and take a half inch slice from the smooth side of the hole. Then cut away all but the center one inch of the slice and place it in the container being used for collect-

ing the individual samples from which the composite sample will come.

Take a composite sample from each soil type in the field. For example, take a sample from the level ridgetop and another from the slope. In getting the composite sample, from 10 to 15 individual samples should be taken from over the area. These should be collected in a clean container and thoroughly mixed before the soil for the composite sample is placed in the sample box. In taking the random samples, field depressions, old fence lines or unusual areas within the sample area should be avoided. Too, separate sample should be taken from areas that have been cropped differently.

In numbering sample boxes, make sure the box number corresponds to the number shown on the information sheet and keep a record of the sample numbers and the area from which it was taken. The soil sampling sheet — its available from the local fertilizer dealer and the county agent — should be filled out as completely as possible. The samples along with the information sheets may be mailed to the laboratory at College Station or community leader for transportation to the laboratory. The test results should be back in 3 weeks.

**TEST SOILS TO DETERMINE FERTILIZER NEEDS**

An ample supply of plant food, in the proper balance, is the key to maximum production at the lowest cost, says Briscoe County Agent, Clarence Kerns.

Since the growing crop will

draw its total plant food from the soil and from added fertilizer, these two sources must be combined or matched so as to give the plant just what it needs, he points out.

Soils vary in the amounts of plant food they will furnish, and only a soil test will tell how much. With this information, the amount of fertilizer needed can be determined.

Proper fertilization of all crops is being given special emphasis in this county now, the county agent stated, as a step in increasing farm income next year.

Never has it been so important that ever possible effort be made to produce higher yields, the county agent said, and farmers can increase their incomes very substantially by following a program of soil testing and improved fertilization.
