School Year Nears End

Bob Saul - Tommy Lou Johnson

Honor students were announced this week for the largest graduating class at Quitaque High in recent years. Eighteen members are due to receive their diplomas at Commencement exercises to be held Friday evening, May 18, at the school auditorium.

George R. Colvin, High School principal, announced this week that Bob Saul is the valedictorian of the class of '62 with a grade average of 96.08. Tommy Lou Johnson is the salutatorian with a grade

average of 95.58, just one-half less.

Bob is the son of Mr. and Mrs. Clyde Saul and Tommy Lou is the daughter of Mr. and Mrs. Clayton Johnson. The entire town and community is rightly proud of these two fine young people and their accomplishments.

Glen Sanders, Principal of the Quitaque Elementary School also announced the honor students for the Eighth Grade class.

Larry Tipton, son of First Grade teacher, Mrs. Gladys Tipton, is the valedictorian for the Eighth Grade with an average of 89.5. Walter Wayne Taylor, son of Mr. and Mrs. Walter Taylor is salutatorian with an average of 84.4.

Promotional exercises for the Eighth Grade will be held next Thursday night, May 17, at 8 o'clock.

Baccalaureate Services for the

1962 graduating class will be held Sunday evening, May 13 at 8 o'clock in the school auditorium.

The Rev. Roy Davidson, pastor of the First Baptist Church here will deliver the Baccalaureate sermon.

This year a new service has been added to the high school and plans are to continue it next year. A student office helper is on duty for each period of the day.

Main duties of the helpers are to greet visitors and help them to locate teachers, students, etc; to answer the telephone when the superintendent and principal are in class; to run errands around the campus; to make necessary announcements and to help out teachers in general when called upon.

This program offers an opportunity for students to train to meet the public as well as taking minute tasks off the faculty. It has been

very successful in its initial year and Supt. Johnny Mason states that he wishes to publicly thank all who have helped in this capacity this year.

In addition, there are three students who help Coach Roberts in the P. E. classes. Two girls, Ethel Auston and Jimmy Mayfield, help with the 7th and 8th grade girls and James Starkey helps with the same level in the boy's classes. This affords an opportunity for these students to work with younger students and at the same time take some of the load off the coach.

The office students and the period which they serve are:

- First - Sharon Bailey
- Second - Shirley Voyles
- Third - Ethel Auston
- Fourth - Darlene Cagle
- Fifth - Marilyn Hutcheson
- Sixth - Sammie Johnston
- Seventh - Tommie Lou Johnson.

To The People of Briscoe County:

May I say that I appreciate the courteous manner in which the people of Briscoe County received me during my campaign for County Judge. Especially do I want to thank those who voted for me. It was by your votes that I became the Democratic nominee. To those who called or came by to congratulate me or helped in any way, thank you.

I covet your continued support and shall try to be worthy of your confidence.

Sincerely yours,

Vote Heavy In Briscoe County

Briscoe County voters elected a new County Judge, Precinct No. 4 elected a new Commissioner without a runoff; Mort Hawkins and B. K. Hamilton won their way into the runoff in Precinct No. 2; H. G. Wells defeated Charley Durning for State Representative and Marshall Formby topped all the candidates for Governor to highlight last Saturday's election in Briscoe County.

M. G. Moreland, former Supt. of Schools at Silverton, unseated J. W. Lyon, Jr., as County Judge in the closest race in the county. The margin of victory was 7 votes, 518-511. Judge Lyon had held the post for many years.

In the local Commissioner's race incumbent Mort Hawkins carried the race by a large margin but not enough to win without a runoff. The final tally on that race was Hawkins 153, Hamilton 91 and Cobb, 21.

There were 958 poll taxes paid in the county and 1040 votes were cast, a good indication that voters showed more than passing interest in the election this year. In counties with a population of less than 5,000 the "overs" and "unders" are not required to register, therefore there was no way of knowing just how many eligible voters there were in the county.

Mrs. Oma Clark of Odessa is spending this week with her daughter, Mrs. Hubert Dudley and family.

Mr. and Mrs. Mort Hawkins and her father, Lockett Payne, spent Sunday with Mr. and Mrs. Frank Hawkins in Lockney. They were met there by Mr. and Mrs. Paul Kinard of Clovis, N.M. and all enjoyed a good visit.

For the first time, Briscoe County had a Republican Primary, and 8 votes were cast in that election, all being at Silverton, the only box polling Republican votes.

SAVINGS BOND SALES REPORT FOR BRISCOE COUNTY

Savings Bond sales for the first three months of 1962 in Briscoe county totaled \$70,894.00. Of this amount \$2,738.00 were purchased in March according to a report released by Perry Whittemore, chairman of the Briscoe County Savings Bond Committee.

Texans purchased \$41,512,602 E & H Bonds during the first quarter of the year and March sales were \$17,031,657.

"Today many Americans are asking, 'what can I do?' The Treasury Department's Freedom Bond Drive is an answer to that question. It is designed to remind every citizen of an opportunity for patriotic service through the Savings Bonds program — to ask him to invest his dollars in his country, for the strengthening of our economic defenses against the danger we face. Buying bonds is a practical beginning to answering this challenge and I urge all patriotic citizens to do so," Chairman Whittemore said.

A rookie policeman was asked by the chief what he'd do to break up a mob.

After studying the question for a few moments, the rookie answered, "Take up a collection!"

"Lips that touch wine will never touch mine," declared the fair coed.

And after she graduated, she earned her own living for years and years and years.

The age of chivalry isn't dead yet. If a teen-age girl drops her book, usually some teen-age boy will kick it over to her.

HIGHWAY WEEK PROCLAIMED

WHEREAS, one of the best-known and well-regarded qualities of the State of Texas is its soundly built and carefully maintained highway system; and

WHEREAS, a consistent program of highway construction and modernization has in recent years brought about a reduction of more than 25 percent in the fatality rate on all Federal and State highways in Texas; but

CARDS OF THANKS

We wish to express our sincere thanks to all the friends who were so kind and helpful during our sorrow. We are deeply grateful to those who stood by at the hospital, to those who sat up at the funeral home, to all who brought food, for the beautiful floral tribute, and for your prayers and untiring efforts to help us at the death of our loved one. We especially thank Bro. Holman and Bro. Davidson for their words of spiritual comfort.

May God richly bless all of you. The family of Marvin Wise.

It seems like some folks always know just what to do and say, especially those in around Quitaque. Thanks for the flowers, cards, letters, visits and phone calls. I'll be seeing you soon.

Thanks a million!

Bill Helms.

We would like to thank our many friends in Quitaque who have been so nice to us the past few years.

We are prepared to do your watch repair in our home for the next several days at a convenience to you. We will do our best to give quick service.

The J. W. Hawkins Family

WHEREAS, heavy increases in traffic endanger these advances in highway safety, since the state's population has increased by one-fourth since 1950, the state now has more than five million registered motor vehicles, and the miles traveled by these vehicles now totals 43 billion miles a year; and

WHEREAS, due to this flood of traffic some 22,000 miles of the state's 25,000-mile system of U. S. and State-numbered highways are already obsolete for the heavy loads of traffic they carry;

THEREFORE BE IT RESOLVED as the Nation at large observes National Highway Week during the period May 20-26, 1962, that the Texas Highway Department be commended for its achievements in building today's fine highway system in the face of mounting traffic problems; and

BE IT FURTHER RESOLVED, that the citizens of Texas be urged to view with concern the adverse effects and the cost in human lives

that will result if highway traffic overwhelms the capacity of our roads, and to support a sustained program of highway improvement and modernization to keep Texas growing.

THEREFORE, I, Alton Johnson, Mayor of Quitaque, do hereby designate the period May 20-26, 1962, as

HIGHWAY WEEK

and urge that special attention be directed to the needs of our highway system.

FARMER'S HOME ADMINISTRATION HELP TO SMALL COMMUNITIES

The Farmers Home Administration closed a Rural Housing Loan last week for Mr. and Mrs. Wayne White. Their new house is located on their farm one mile north of Quitaque, Texas. The Whites have 4 children and have been in need of a larger house for several years. The Rural Housing Loan enabled them to build a house which meets their needs.

The Housing Act was revised in 1961, enlarging the eligibility requirements for Rural Housing loans, making it possible for owners of non-farm tracts in small rural communities such as Quitaque and Silverton to obtain loans through the Farmers Home Administration. These loans may be used for new homes, home improvements, or construction or improvements of farm buildings.

Loans may be made only if the applicant cannot obtain credit through any other lending agency. The house should be adequate to meet the family's needs, but must be modest in design and size.

For further information, contact Don Cruce, FHA County Su-

pervisor, on Tuesday mornings at his office located in the basement of the Court House in Silverton.

NEWS from the High Plains Research Foundation

Tests using flame cultivation on cotton by the staff at the High Plains Research Foundation were conducted in 1961. The tests included three varieties of cotton, different tractor speeds, pressures, burner sizes and settings. Also the size of the cotton at first flaming was varied.

Gregg and Lockett 88-A were used in the test as representative of early and late maturing storm-proof cottons. The open boll variety selected was Paymaster 88-90. To obtain the desired seed bed, the test was cultivated twice with sweeps resulting in a bed that was raised 2 - 3 inches above the

middle. It was stressed in the report that a more efficient job of flame cultivation can be accomplished with a wide flat bed.

The five treatments used in the test are as follows: (1) check (no flaming), (2) midget and cross flaming, (3) parallel flaming, (4) cross flaming, and (5) no weed control. The results from all three cotton varieties were similar. The maximum increase in yield over the check block was 112 pounds per acre of lint cotton. The grades of cotton varied from low middling to strict low middling. Additional data in report No. 47, published last week at the High Plains Research Foundation indicates there was no measurable effect on fiber quality from flaming. The flame cultivation program will be conducted again in 1962 at the Foundation.

OH...

WHAT THE LADY SAID!

If a lady said what she thought, when dismally looking at a flat tire, it wouldn't be ladylike. And who can blame her. Flats are worse than waking with no coffee in the house.

We hope you don't have a flat, but if you do—call us. Just make a note of this number and put it in your glove compartment. A call and we'll be at the scene in jig time.

Better yet! Let us check your tires before you go tripward. We'll see that you have proper air pressure. If tires are dangerously thin, we'll set you up with a set of top quality Phillips 66 Super Action Tread Tubeless Tires that you can pay for as you ride on them.

For your own peace of mind make us your tire headquarters.
