School Attendance Here Was Exceptionally Good

Seventeen members of the class of '62 were presented their high school diplomas here at the Commencement Exercises.

Almost a full house was on hand to hear Tommy Lou Johnson as she presented the Salutatory address, Bob Saul the Valedictory, and Dr. Walter Juniper of West Texas State as he delivered the Commencement address, which was very much appreciated by all.

Principal George Ray Colvin, in making the special awards to the High School students came up with some figures that were very pleasing to all local parents and patrons of Quitaque High School. Those figures were the attendance records of the High School students. Seems the entire high school had a record of 98.18 percent for the school year.

Some very terrific records of attendance have been chalked up in the schools for the current year and the graduating Seniors take some of the very top honors to round out the year for one of the most outstanding classes ever to graduate from QHS.

Ten of the 17 graduates had a perfect attendance record for the school year. They are Ethel Austin, Sharon Bailey, Charles Barrett, Lonnie Cagle, Johnny Rhea Helms, Tommy Lou Johnson, Sammie Johnston, Dellis Monk, Robert Phelps and James Starkey. Four of these same Seniors had a perfect 4 year attendance. They are Tommie Lou Johnson, Dellis Monk, Robert Phelps and James Starkey. Charles Barrett and Johnny Rhea Helms missed only 1 day in four years and Sammy Johnston missed only 2 days.

Other records of note were turned in by the 8th Grade, who had one 6-weeks period of perfect attendance and the 11th Grade who had two 6-weeks perfect attendance by the class and only one absence the entire Second Semester.

Percentage wise the High School attendance was as follows: of the 18 members of the Senior Class, 10 had no absences for a 55.55 record of perfect attendance and an average attendance of 98.27; the Junior Class had 5 of 12 class members with no absences, a percentage of 41.66 with P. A., and a class average of 98.79; the Sophomores had 10 of 24 with P. A. for 41.66 and a class average of 41.66; the Freshmen had 7 of 21 with P. A. for 33 1-3 and a class average of 98.27. All of which goes to prove that there wasn't much hooky playing in QHS!

Members of the Junior class with perfect attendance for the year are Rex Anderson, Linda Chandler, Judy Colvin, Jerry Faye Elliott and Ray Gene Hutcheson. Sophomores with P. A. were Phil Barefield, Joe Charles Bedwell, Clyde Dudley, Ray George, Jack Johnson, Bobo Morrison, Terry Don Morrison, Charlotte McKay, Jim Saul, and Terry Woods. Freshmen were Charlene Bailey, Donna Bedwell, Jerry Beth Grundy, Warren Lee Merrell, Deborah McKay, Earnest Reagan and Brenda Whittington.

Figures and statistics are usually dull but these kind of statistics are worth repeating and everyone can rightly be proud of our school.

Mr. and Mrs. Sid McFall left Monday, May 21, to work on the Brumley Ranch at Clarendon during the summer months.

Mr. and Mrs. T. J. Reeves of Plainview and Mr. and Mrs. Joe Bailey, Sylvia and Kathy of Spade attended the Commencement Exercises Friday night, guests of Sharon Bailey. Mr. and Mrs. Reeves spent the night with Mr. and Mrs. Bud Bailey and returned home Saturday morning.

They will be reissued that night.

Mr. and Mrs. Alton Johnson and Jill and Mrs. Cora Gragson attended the recital of Mrs. Ohmer Kirk's piano pupils at Floydada Monday night.

Jill Johnson of Quitaque, Beverly Barnhill and Sally Case of Turkey were local pupils presenting selections on the program.

This is the third year Jill has been in the National Guild Auditions. Her rating this year was "Superior plus plus." Her grade was 99%.

Clyde's parents, Mr. and Mrs. A. M. Saul of Mineral Wells, attended the funeral services and on returning home, found that thieves had entered their home and stolen just about everything in their house that was loose. Among the items stolen were clothing, linens, the drawers out of their dresser, all the food in the refrigerator, the washing machine and television set. It was believed that the thieves had planned to take everything in the house since the beds were stripped and one of the mattresses had been moved off the bed, food was removed from the refrigerator and the drawers taken from the dressers.

Mr. Alcorn was the third uncle in addition to his grandmother taken by death in the past two months.

It Pays To Be On Your Toes

Buck's 66 Service caught a customer Tuesday morning that was so impressed with the good service received that he gave them a \$50 tip. What actually happened is this: Seems that the Phillips Petroleum Co. have Mystery Motorists who make the rounds of Phillips service stations all over the country, checking the dealers and driveway salesmen for their neatness, courtesy and service, and if they come up to the standards set by the company, they are given a certificate worth \$50 in cash.

The attendants must be in proper uniform, use a friendly and courteous greeting and perform the various services that the company expects the attendants to perform.

No one knows who the Mystery Motorists are, or when they are likely to be around. Buck and his crew met the qualifications and are fifty bucks richer as a result.

Mr. and Mrs. Cecil Seaney of McLean attended the Commencement Exercises here Friday night. They came to see Charles Barrett graduate. They visited for a short time at the home of her parents, Mr. and Mrs. A. C. Barrett after the program.

Out-of-town folks here to see Johnny Helms receive his diploma last Friday evening were Mr. and Mrs. C. A. Wright of Grand Falls, Texas, Mr. and Mrs. Don Davis and Donna of Lubbock and his father, W. E. Helms of Childress. Mrs. Wright and Mrs. Davis are his aunts.

Ronald Kaiser of Amarillo spent Saturday night at the home of Mr. and Mrs. H. B. Finney. His wife, Henryetta and children had been here for the past week visiting her parents and they returned home Sunday.

Mrs. Scott Bolton was a business visitor in Tulla last Friday.

Mrs. H. C. Boyles and children of Silvertown spent Sunday with her parents, Mr. and Mrs. D. C. Dhck.

Mrs. Joe Woodruff accompanied Mrs. Maggie Nell of Turkey to a meeting of the Avon Representatives in Plainview last Monday.

Mr. and Mrs. George McAlavey of Flomot spent Sunday with Mr. and Mrs. J. W. Harvey.

Work has been progressing at a steady pace on the securing of easements for works of improvement within the Kent Creek Watershed.

Members of the board report that approximately 95 percent of the landowners have already been contacted and completed the necessary easements.

Thus far cooperation has been splendid, for not a single person has refused to sign after it was explained to him. It is hoped that all of the easements can be finished within the next week or ten days, so that the work can begin just as soon as the watershed plan arrives back from Washington.

A group in Hall County is also working on easements for channel improvement work there, and though work began only last week, about 50 percent of the easements have already been secured.

There will be seven structures, and eight miles of channel improvements when the watershed project is completed.

Gasoline Farmers Union To Meet Monday Night

The Gasoline Farmers Union will have its regular monthly meeting next Monday night, May 28th at 8 o'clock P. M. in the Community Building at Gasoline.

Willie Gragson spent from Wednesday until Friday in the Odum Hospital at Memphis last week, suffering with a kidney infection.

Dee Whittington spent last week in Turkey with his aunt, Mrs. Bill Farley.

Mr. and Mrs. Jimmy Rhoderick of Silvertown, Mr. and Mrs. Lynn Rhoderick and Scott of Aiken, and Mr. and Mrs. J. D. Johnson of Ranger attended the Commencement exercises here Friday night. They came to see Tommy Lou Johnson get her diploma.

MRS. PUCKETT BRINGS HOME THE FISH - NOT A STORY

Mrs. E. A. Puckett returned last Friday after a two weeks vacation in Gainesville and other points east. She spent part of her time with her daughter, Mrs. Lonnie Thurman and her husband. She visited Mrs. H. G. Gardiner and Mr. and Mrs. Barney Bogan in Denton and attended a garden party given by Mrs. Bogan while in Denton.

Mrs. Puckett visited a sister, Mrs. Paul Spann and husband at Decatur, and a brother, A. J. Tipps at Bridgeport. She visited Mrs. W. C. Womack at Gordonville and then went fishing at Lake Texhoma. She had very good luck, and brought home the proof. One day she caught seven fish, measuring 16 and 17 inches long, and a channel cat measuring 21 inches long. The wind became so high she was forced to quit that day. She reports good catches all the time she was there.

Climax of her trip came with a visit in Tulla with Weldon, Billie Jean and Cindy Griffin. Mr. and Mrs. Thurman accompanied her there last weekend before returning home.

Alvin Ross has moved to the Louis Cumming's place, formerly the Turner place south of Flomot. The Arnold Johnsons are making repairs on the house vacated by Mr. Ross and plan to become Flomot residents.

WALTER ROGER'S NEWSLETTER COMMUNICATIONS

The House of Representatives has passed three bills this session that will have a revolutionary effect on communication, not only in this country but throughout the world. The effect in this country will not be a broad overall effect, but can go into each and every community. The first bill that was passed was the Educational TV Bill, designed to implement the television channels reserved in the public spectrum for educational broadcasting.

Subsequently, and in fact last week, a second bill was passed that will permit the full use of a part of the spectrum that has been virtually untapped. This is called the All Channel Television Receivers Bill. The goal of this bill is to provide a television system which will serve all the people, encourage local outlets, foster competition—particularly in the larger markets—and meet educational needs. There were many suggestions as to how this could or should be done. After extensive hearings on all suggestions, it was concluded by the Committee on Interstate and Foreign Commerce that the best approach was to authorize the Federal Communications Commission to require that all television receivers shipped in interstate commerce or imported into the United States for sale or resale be equipped at the time of manufacture to receive all television channels; that is, the 70 channels in the UHF portion of the radio spectrum, as well as the 12 in the VHF portion. The difference between VHF and UHF can be likened to the difference between a small pie (VHF) and a large pie (UHF). Due to the wide range of VHF, the license holders were quick to grab up all the available frequencies, because it gave them a larger market and an opportunity to have a larger business and to make more money. As a result, UHF licenses went begging. The FCC has allocated space in the radio spectrum sufficient for a total of 2,225 stations — 1,544 UHF stations and 681 VHF stations. Five hundred of the VHF stations already on the air. However, only 103, or about 7 percent, of the 1,544 UHF station are actually on the air. If the American people are to enjoy the fullest benefits of television service, a major portion of the unassigned UHF channels must be put into operation. It was this problem that prompted the All Channels Television Receivers legislation.

There are approximately 55 mil-

lion television receivers in the hands of the public; however, only about 9 million, or about 16 percent are capable of receiving UHF signals. The overwhelming bulk of television set production is limited to VHF receivers, and the situation is growing steadily worse. In 1953, more than one-fifth of the television receivers were equipped to receive UHF. In 1961, only about one-twentieth were so equipped. The absence of sets equipped for UHF reception simply made impossible the profitable operation of a UHF broadcasting station. In fact, 100 UHF licensees have had to go out of business. This situation was fast developing into a most serious concentration of power in all economic fields associated with television. The proper administration of this new legislation will result in the opening of many possibilities for new business and new and expanded television reception, without endangering or interfering with present reception or receivers.

In fact, it will solve the problem in a much better manner than was being pursued by the FCC. Existing television sets will not be affected in any manner. I am advised by manufacturers that a converter can be attached to an existing set for a relatively small cost to enable reception of all channels. If a person does not desire to receive UHF broadcasts, nothing need be done. He can continue to receive the present stations without interruption. The method being pursued by the FCC would have been to separate different geographical areas so that one area would be all VHF and another would be all UHF. Had this proposal been followed through, those who found themselves in an all UHF area would have had to buy a converter or a new all-channel receiver. It would also have brought much confusion and economic injury to present VHF station owners.

The third bill referred to in the communications field is probably one of the most important to pass the House of Representatives in its history. This is the Communications Satellite Act of 1962. This act not only opens the door for this country to lead the way in using outer space for communications purposes, but it does so on the free enterprise philosophy. The corporation to be created under this act will be one in which the public will have the right and privilege to purchase stock. It will be run like any other free enterprise corporation in the com-

communications carrier field. It will not be government owned or dominated. Working for Texas

Meet a fellow Texan: Preston Smith.

Preston Smith's story is in the best Texas and American tradition—a farm boy who worked his own way to an education and a place of honor in his business and community life.

Born in the heart of Texas, at Georgetown, he moved with his family to Dawson County in 1923 when he was 10 years old. He went to school at Sunset, Lamesa, and Texas Tech. In his adopted home town of Lubbock, with his wife Ima and their two children, he now carries out the full responsibilities of a typical Texas business and civic leader.

A steward at St. John's Methodist Church—member of the Salvation Army Board, the Kiwanis Club, the Chamber of Commerce, the Texas Farm Bureau—these are some of the activities close to the heart of Preston Smith, citizen.

He did not stop there. In his daily pursuits Preston Smith came to realize that business and government are closely related in the American system—and that without good government we cannot have a favorable climate for good business. A man of direct action, Preston Smith went into the business of government. He served six years in the Texas House of Representatives and six in the Senate.

Senator Smith has supported sound statewide legislation for better schools, roads, welfare and conservation. He took the lead in establishing a permanent building program for state colleges. He had the integrity to support necessary state spending and the courage to oppose extravagance and waste. In government, as in business and at home, Preston Smith believes in meeting our obligations and paying our bills.

Having proved himself as one of the best-rounded, best-equipped, best-informed and most highly respected Texans in both his private and public careers, Preston Smith was a logical candidate to succeed Ben Ramsey as Lieutenant Governor of Texas.

Voters in 102 counties gave Preston the lead over four opponents in the First Democratic Primary. Now he is in the runoff. He got there without the support of any self-serving group or power bloc. His opponent has the endorsement of labor leaders and other special interests who want to dominate our state government.

Preston Smith asks only for the votes of individual Texans who want a Lieutenant Governor without any strings attached. He is depending on independent-minded Texans everywhere to vote for him on June 2.

Elect your independent candidate for Lieutenant Governor—

CARDS OF THANKS

Words cannot express our thanks and appreciation for the love, kindness and good deeds that were extended to us during the illness and death of our dear mother. May God bless each of you.

The family of Mrs. H. E. Curtis

Words are wholly inadequate for us to express our heartfelt appreciation for the flowers, cards and words of sympathy and the loving care from our friends and neighbors during the past weeks of sorrow and suffering. So much has been done by so many people that it would be almost impossible to thank you except through this means, but for now let us say Thank You and may God bless you.

cluding seascapes, western, fog and rain. Various techniques such as pallet knife and faded background will be seen.

Twenty-eight students are planning to take part in the exhibit. Mrs. Vaughan is in her fourteenth year of teaching. She has been finishing a commercial art course in which she is working toward a certificate. She is beginning to offer a few courses in commercial art. A ten-year certificate in fine arts training will be award-

ed Mrs. Vaughan soon. Her goal is to be a free lance commercial artist.

In extending this invitation to the exhibit, Mrs. Vaughan said, "You will miss something if you do not see the exhibit as the students have done exceptional work."
