PRICE 5 CENTS PER COPY

COACH JOE STREUN

Board Hires New Coach

Quitaque High School has a new basketball coach. He is Joe Streun (pronounced Strine) who was born and reared at Hereford and who was coach at Kelton High School last year. The local school board selected Coach Streun from some seven men who had applied for the job as coach of Quitaque High School.

Coach Streun comes to Quitaque with the very highest of recommendations from the Kelton Superintendent of Schools and also from Gus Miller, former West Texas State College basketball coach, under whom Mr. Streun played basketball for three years.

He grew up at Hereford where his parents are still living. The elder Mr. Streun is a farmer-stockman. The new coach graduated from Hereford High School in 1954 and in 1953 and 1954 the Hereford basketball teams advanced to the finals in the regional playoffs. Wayne Stark was coach of the Whitefaces and in 1954 the Hereford lads boasted a season record of 28 wins and 3 losses. He also ran the half mile in track and placed 4th in the Regional finals.

At West Texas State, Coach

Streun played three years of basketball, as a member of the Freshman team, then as a Sophomore and a Junior. Due to reasons of health he was forced to stay out of school for two years and when he returned to WT as a Senior, he did not play basketball. As a Junior Coach Streun was an All-Border Conference Honorable Mention. He is 6 ft. 7 1/2 in. tall in his sock feet and played forward and center at WT. As a junior at college his field goal shooting percentage was 56 percent and on his free shooting he had a very gaudy 80 percent average.

Last year's job at Kelton was his first year of active coaching. His High School squad consisted of one senior, 2 juniors, and 4 sophomores, a total of seven boys.

One man close to the situation said by rights that team should not have won a single ball game but by season's end Coach Streun had built it into a winner. Kelton played a tough schedule, numbering among their opponents such teams as Samnorwood, Hedley, Miami and Briscoe, the latter a team that local fans well remember. Kelton played Briscoe 4 times

DRIVE-IN REMODELED

Mrs. Seburn Neatherlin has just finished doubling the size of her drive-in, which is located on Main Street. In addition to enlarging the building, she has painted it inside and out and is adding other improvements inside the building, and will be better able to serve her customers.

BIRTHDAY PARTY HONORS SON OF LATE COACH ROBERTS

Mrs. Glen Sanders was hostess for a birthday party last Thursday, July 19, honoring little Rodney Roberts of Estelline, son of Karen Roberts. Rodney was two years old. Cake and cold drinks were served to the following guests: Judy, Mike, and Gary White, Rusty Mason, Dee Whittington, Jana Jo and Neal Payne, Evelyn Gragson, Connie and Susan Eddins of Estelline and Carolyn and Sandy Sanders.

Mr. and Mrs. Bill Helms were in Plainview Monday on business.

GOOD RAINS FALL OVER THIS AREA

Rain showers have fallen in our immediate vicinity almost daily for the past week and on two occasions good rains have fallen to bring July's total to date to 2.75 (as of Wednesday morning) inches of moisture.

On Friday of last week the official gauge at the City Hall caught .40; on Saturday another .10 fell; Sunday and Sunday night an even inch was measured and Tuesday 1.25 fell on the city proper. The showers have been scattered and heavier amounts fell in spots while at other locations the rainfall was lighter. However, from all reports available early Wednesday, almost everyone has had sufficient rain for the present and some are wanting sunshine now in order to fight the weeds.

Hail was reported to have fallen south of town during Tuesday's rain. Ford Johnson was reported to have been hardest hit with hail. The hail strip was a narrow one, and is believed not to have been too great.

Crops are looking good all over the Valley and are growing and fields are green. Prospects for a good crop look pretty good at the present time, given sufficient time to mature.

HERE FROM CALIFORNIA

Mr. and Mrs. Leonard Curtis and daughter of Bakersfield, Calif. are visiting her mother, Mrs. Otis Wilson and Mr. Wilson this week.

COUNTY RECEIVES COMMENDATION

Carlos McLeod, Chairman of the 1962 Cancer Crusade for Briscoe County has received commendations from the state Chairman, Dr. G. V. Brindley, Sr., for the outstanding success of the educational and fund raising campaign here this year.

Briscoe County was one of forty-six leading counties in the state which this year adopted an Honor Roll goal for the Crusade here. This goal, \$900, has already been exceeded by the volunteer workers and contributors in this county.

Dr. Brindley's letter pointed out that Mr. McLeod and all who helped with the Crusade here furnish inspiration to the entire state Crusade. "The real spearhead of our Crusade," he said, "has been furnished by those counties, like yours, which adopted an 'Honor Roll' goal and have now exceeded this goal."

"Throughout Texas we are in the closing phases of the most successful Crusade we have ever conducted against cancer," Dr. Brindley said. "The gains made this year in reaching people for education and contributions are not limited to any one of the state and are, in fact, a reflection of widespread knowledge and enthusiasm of thousands of volunteers."

Dr. Brindley reported that as a result of the leadership of such outstanding counties, Texas has already made a record contribution to cancer control in 1962. More than \$1,320,000 has already been contributed by Texans for the Society's program of research, education and service.

Sixty cents of every Crusade dollar will be immediately available for use in these programs within the state of Texas. In addition to this, the national Society supports research in Texas directly to the tune of around forty cents of this dollar in the average year.

During the current year, support of this Texas research reached a record level and the Society is actually spending one dollar and ten cents in Texas, for all programs, for every dollar contributed by Texans during the Crusade.

Mr. and Mrs. Ralph Carter were in Amarillo Saturday on business.

Voters Say Integrate Schools

Lions Roar -

By George Ray Colvin

A congregation of about sixty-five enjoyed the Lions Club Family night, Monday night of last week at the Quitaque City Park, the last regular meeting night.

The first thing on the program was the meal. This meal supposedly was prepared by a number of Lions. Lion Jimmy Davidson made the tea, which was rendered strong enough by the addition of some instant tea. Bill Griffin and Bill Woods some way worked up a pot or two of red beans. There was a tossed salad, the origin of which is unknown, but may have come by way of the Jake Merrell Hacienda. The chicken was cooked by Lion James Brunson assisted by a lesser light Lion Elmer Berryhill.

After every one had all they wanted to eat, that is most every one, (a few of the children and Lion Jack Morrison were still eating) the games started. This part of the program was planned and executed by Lions O. R. Stark and Roy Davidson. The first part was a balloon race by the small children. The teams with balloons full of air ran to a park bench and burst the balloon by placing the heavy part of their anatomy on it. Then there was a sack race by several adults, both men and women. The women got in because it looked easy, but that was the wrong estimation as there were more spills than racers. Then came the dressing race between Lions James Brunson, Slocum Robinson, and Bill Woods on one side and Lioness' Elva Rice, Ruth Brunson, Clara Ruth Davidson. This of course was won by the men, with Lion James Brunson showing the greatest skill and technique in donning women's clothing. Then there was a driving lesson by Lion Roy Davidson.

The last thing was the Ice Cream and there was not near enough by that time for every one was served only one time.

Mr. and Mrs. Bud Bailey and girls spent Sunday in Plainview with her parents, Mr. and Mrs. T. J. Reeves. They attended services Sunday morning at Emmanuel Baptist Church.

BOLLWEIL INFESTATION INCREASES HERE

More reports of boll weevil infestation have been coming in the past week. All farmers in this area are urged to be on the lookout for signs of the pest in their own crops.

Since the boll weevil is new to this part of the country little is known by most local farmers as to just how to look for the bug and what to do after finding it.

The eggs of the weevil are laid on the cotton squares, then the boll grows around the egg and it is hatched inside the young cotton fruit, according to O. R. Stark, who has been doing some reading on the subject. The egg hatches into a whitish larvae, then matures into the grey bug and grows his beak, and bores his way out of the boll and the female then proceeds to start laying eggs on the cotton squares. If nature does not interfere, a pair of weevils can produce a million offspring in one season.

When infestation reaches as much as fifteen percent, then it is time to start spraying the cotton to kill the insect. Several sprays will be necessary to control. Hot weather is one of the best means of control, therefore, the type weather we are having now is against the farmer.

Beulah Halcombe and Frank Gribble of Crowell and J. B. Sauls and daughter of Hamlin spent the week-end with Mr. and Mrs. Bill Sauls.

CLEANUP DAY AT GASOLINE COMMUNITY BUILDING

Saturday, July 28, is clean up day at the Gasoline Community Building, beginning at 7:30 A. M. The men will work outside and the women will work inside. Everyone interested is urged to come and help.

At Coaching School All-Star Basketball Game New Attendance Record Expected

A strong possibility exists that the attendance record already held here for the Coaching School All-Star Basketball game will be broken Friday night, Aug. 10. Current record of 5,936 was established when the All-Star game was played in the Coliseum in 1956. Nearest approach came last year in San Antonio, when the turnout was 5,900.

But the list of players known to this area's cage fans is imposing enough to encourage good attendance.

Among the players for the North are Sammy Johnston of Quitaque, Carl McAdams of White Deer, John (Dud) Malaise of Odessa, Bob Measels of Seminole, Eddie Pruitt of Fort Stockton, and Russ Wilkinson of Lubbock Monterey. Malaise, Measels, and Wilkinson have signed letters of intent with Texas Tech.

Reserved basketball tickets are \$2 and \$1.50. Mail orders, including a 25-cent mailing fee, may be sent to the Texas Tech Athletic Department. Reserved admissions to the North-South football game, slated for Saturday night, Aug. 11, are \$2.50 and \$2.

Mr. and Mrs. O. C. Love of Albuquerque, N. M. were visiting friends and relatives in town over the week-end.

W. E. Helms, Jr. of Childress spent Sunday with his parents, Mr. and Mrs. Bill Helms, and Johnny.

Mr. and Mrs. Joe Edd Helms attended the wedding of her brother, Danny Green and Donna Payne, which was performed at Silverton Saturday afternoon.

LIGHTNING STRIKES HOUSE

Lightning struck a house of Mrs. Ada Goldston, sister of F. C. Benson, Sunday afternoon, burning a hole in the roof. The house was vacant. Etuel and Clyde Dudley saw smoke coming from the roof and stopped to put out the fire. The house is located six miles southeast of Quitaque.

Mrs. Travis Morrison and children left Tuesday to visit her brother, Leroy Johnson and family in Roswell, N. M. and to visit her sister, Mrs. Edgar Jouett in Alamogordo, N. M. They plan to visit Cloud Croft and Ruidoso while they are in New Mexico.

BIRTHDAY PARTY FOR VISITOR

A birthday dinner, honoring Mrs. Antschy Hamner, 313 W. 20th, Houston, Texas, was given in the C. H. Hamner home last week. The out-of-town guests for the occasion were Mr. and Mrs. Luel Hamner, Mr. and Mrs. Cecil Gardner and Mr. Jim Hamner, all of Childress; Mrs. Bob Morris and children and Mrs. Gerald Imel and Debbie of Tulia; Mr. and Mrs. Charles Hamner and family, Estelline; Mrs. Frank Cade and Frankie of Ft. Worth.

Mrs. Antschy Hamner returned to Houston Sunday. Her children, Christie and James, remained for a vacation with Mrs. Bob Morris in Tulia.

Only about half of the eligible voters in the Quitaque School District exercised their right to vote last Saturday on the question of integrating the public schools.

Only 163 votes were cast with 109 voting to abolish the "Dual System" while 54 voted to keep them as they are at the present.

The margin of vote to integrate was 2 to 1. Most observers felt that the issue in question would bring out a good percent of the voters of our school district, but not so. Less than half the number that voted in the first Democratic Primary turned out to indicate how they felt about a most vital step to be taken by our community.

Supt. Mason reported that the Board of Trustees would meet Thursday night to further discuss plans for the coming school year and more announcements will be at a later date.

DPS Announces Need For More Patrolmen

An invitation has been issued state-wide by the Texas Department of Public Safety to any and all high calibre young men in the State who wish to compete for one of the 150 positions now available in State Law Enforcement. "The challenge of the rigid qualifications for patrolmen in the four field service: Highway Patrol, License and Weight, Driver's License, and Motor Vehicle Inspection; is expected to attract many outstanding young men." Major Harry Hutchison, Commander of Region No. 5 of the Department of Public Safety, said today.

Assignment to one of the above services will be made on the basis of aptitude, interest and ability at the conclusion of a period of basic training, then specialized training in the assigned service will be given in the field and in the classroom after which a home station will be designated.

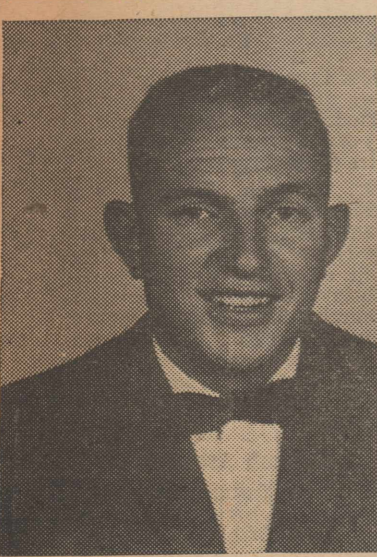

Applicants must be between 21 and 35 years old, between 68 and 76 inches tall, weigh not less than 2 pounds or more than 3 pounds per inch of height and be in sound physical condition. They must have a high school education or the equivalent and their record must be able to stand rigid examination as pertains to character and citizenship. Selection procedures will include written and oral examinations.

"Any young man who wants to measure himself against these high standards is urged to pick up or write for the necessary forms from any D. P. S. Field Office throughout the state." Major Hutchison said. Formerly examinations were given only three times per year. They are now being administered monthly, the second Saturday of each month, at each of 17 centrally located examination centers throughout the State. "In addition to offering a challenge which separates the men from the boys," Major Hutchison said, "the Department of Public Safety offers a rewarding career to men who want to follow law enforcement as a profession. There is always an opening and room for advancement for this type of men in the Department," he concluded.

Mr. and Mrs. A. B. Ramsey, Jr. and family, Mr. and Mrs. Wendell Farley and children and Mrs. H. B. Boyles and children of Silverton spent Sunday at Roaring Springs on a picnic.

Mr. and Mrs. Woodrow Cobb and girls, and Mrs. Jean McCarver and son of Hale Center spent the week-end with Mr. and Mrs. Orval Cobb and Janice.

JERRELL RICE

Jarrell Rice, a spring graduate of West Texas State College, will teach social studies and coach the Junior High boys and girls in the Quitaque school system.

MRS. EARL WISE

Mrs. Earl Wise, who has been teaching in the Flomot school system for the past several years, will join the Quitaque faculty this fall. Present plans call for her to teach High School English.

Mrs. Billie Wise arrived home Saturday evening from El Paso after an extended stay there. Mrs. Wise had major surgery and has been visiting her sister, Mrs. James R. Johnson, while recuperating in El Paso. Cappy went down Friday by bus to drive his mother home.

Clyde and Jim Saul accompanied Doyle Saul of Plainview to Mineral Wells Sunday to visit their mother and grandmother, Mrs. A. M. Saul, who is ill.

THIEVES PAY VISIT TO MORRIS STEPHENS WED. NIGHT

Morris Stephens went to his pickup Thursday morning to go to his ranch, only to discover that thieves had payed a visit to his pickup the night before.

All of his papers, credit cards and a number of checks were scattered over the seat of the pickup and a billfold with \$20 in cash which he had left unlocked in the pickup missing.

His daughter SeReatha and her cousin who is visiting at the Stephens home, were sleeping in a trailer house just about four feet from the pick and Morris, himself, slept not over 15 feet away. SeReatha reported her dog was also sleeping in the trailer with them and kept growling during the night. She said they looked out the window but saw nothing and supposed that there were probably other dogs prowling the neighborhood.

This was the first report of theft in some time here in Quitaque, and people in small towns tend to become lax about locking cars and doors.

Mr. and Mrs. Tracy Drake visited their son, Shug, in Amarillo from Monday until Thursday of last week.

Mr. and Mrs. Johnny Brummett had lunch Sunday with Mr. and Mrs. Tracy Drake. In the afternoon, the group visited Mr. W. P. Hawkins in the Stanley Hospital in Matador.

New Arrivals

Mr. and Mrs. Wayne Hunter have a new son, born Wednesday, July 18, in the Stanley Hospital in Matador. The young man weighed 9 lbs. 10 oz. and has been named Randall Layne. He has two sisters and a brother.

Mother and baby returned home Saturday and are doing fine.

Mr. and Mrs. H. B. Finney spent the week-end in Gotebo, Okla. with his sister, Mrs. C. W. Shaw and Mr. Shaw. Two other sisters Frye of Oklahoma City, and Mr.

of Mr. Finney, Mr. and Mrs. A. F. and Mrs. Hugh Reed of Wichita Falls met them at the Shaw home. The group went fishing and caught over 100 fish. They had a fish-fry Saturday night. They report a very nice week-end.

Ferguson's Fine Foods Cafe

- NEXT DOOR TO THE BANK -
- OPEN SUNDAYS -

Mr. & Mrs. Ray Ferguson

Mary Pittman and Bill Rucker and girls spent the week-end in Abilene with the Richard Pittman's. They attended the Grace Methodist Church where the Rev. James C. Holman is now pastor.

Minnie Mae Roberson spent from Sunday until Wednesday of last week in Pampa with Mr. and Mrs. Rueben Hilton.

Mr. and Mrs. R. A. White of Tulsa spent Sunday afternoon with his sister, Mr. and Mrs. P. John Monk and family.

Mr. and Mrs. Aubrey Craton and

girls of Menden, La. spent from Thursday until Saturday with her cousin, Mrs. Jim Stroup and Mr. Stroup.

Mr. and Mrs. Murry Wise and baby of Lubbock visited Mr. and Mrs. Jim Stroup Sunday afternoon. They had visited Mr. W. P. Hawkins in the hospital in Matador.

Mrs. Novelle Wise left Friday to visit her daughter, Mrs. Morris Parker and Mr. Parker in Monroe, La. for a few weeks.

Visitors last week of the W. J. Carter's, the Ralph Carter's and the Boone McCrackens were Mr. and Mrs. Jerry Harrison and Robin of Hale Center; Mr. and Mrs. Eric Carter, Floyd and Don Lee of El Paso; Mr. and Mrs. L. W. Thomas and Paul of Pie Town, N. M.; Mrs. C. M. Wells of Colgate, Okla.; Mr. and Mrs. E. L. Shico of La Mesa, Calif.; D. E. Cline of Hot Springs, E. W. Carter of Phoenix, Ariz., Mr. and Mrs. W. R. Wells of Odesa, Mr. and Mrs. Alvie Francis, Barry and Becky of Silverton, and Mrs. Stewart McCracken, Jo Beth and Ronnie of Tulia.

W. J. Carter and his brother, E. W. Carter from Phoenix, Ariz. left Friday to visit relatives a few days at Calera, Okla.

Mr. and Mrs. Guy Kimbell of White Flat visited his sister, Mrs. Anna Hughes Sunday.

Alvie Francis of Silverton, son-in-law of Mr. and Mrs. Boone McCracken entered the Methodist Hospital in Lubbock last Tuesday, where he was placed in traction for a back injury.

Mr. and Mrs. Bill Griffin and Johnny were in Amarillo Saturday on business. Mrs. Griffin and Johnny remained over night for a visit with her sister, Mrs. Paul Yarborough and family.

Mr. and Mrs. Bud McMinn, his mother, Mrs. Luther McMinn and Mr. and Mrs. Ronald Vaughan of Silverton visited the Gaston Owens Sunday afternoon. Mr. and Mrs. George Owens and Betty were dinner guests of the Gaston Owens.

James Taylor of Denver, Colo. arrived Friday night of last week for a visit with his parents, Mr. and Mrs. Dick Taylor. Mr. and Mrs. Dan Duncan of Amarillo also visited her parents Friday night.

Mrs. Joe Brooks of Silverton visited at the home of her son, Hubert and family Saturday.

Mrs. Buster Chadwick took her daughter, Laqueta, to Memphis Saturday to the doctor. Laqueta has been very sick with a virus infection.

Stephanie and Laqueta Chadwick spent Friday night in Turkey with their grandparents, Mr. and Mrs. Guy Smith.

Mr. and Mrs. Lee Griffin of Ft. Worth visited his brother, Bill, and family last week.

Mrs. Anna Carpenter and Renee of Tishomingo, Okla. are here visiting this week.

Mr. Charlie Carpenter and son, Jimmy, brought Mrs. H. K. Carpenter home Monday after several weeks visit in Ruidoso, N. M. She will be at her home and will appreciate her friends stopping by to see her.

Mrs. Nora Stevenson of Albuquerque, N. M. is here visiting her sister, Mrs. Edgar Morrison for a few days.

Mr. and Mrs. Jimmie Davidson and boys have been on two weeks vacation. They visited in Tulia, Amarillo, and Olton last week with relatives. They spent Saturday night with Mr. and Mrs. Jack Rhine and family of Hale Center. Mr. Rhine and Jimmie were roommates while attending Tech at Lubbock. The Davidson's came back to Plainview Sunday and attended the Reunion of the E. E. Woods family. This was held in the Plainview Park and there were more than 100 present to enjoy the day. Those present from Quitaque were Mr. and Mrs. Carl Woods and family; Mr. and Mrs. Preston Woods and family; Mr. and Mrs. J. C. Hamilton and family; Mr. and Mrs. Delbert Phelps and boys; Mr. and Mrs. Willie Woods; Mr. and Mrs. Joe Edd Smith and children; Mr. and Mrs. D. W. Baca and children; Mr. and Mrs. Truman Merrell and children, and Mr. and Mrs. Jimmie Davidson and boys.

Mr. and Mrs. D. W. Baca and children moved to Hebronville, near Corpus Christi Monday after spending several weeks visiting her parents, Mr. and Mrs. Willie Woods.

Mrs. C. E. Anderson, Jr. and children of Tulia were visiting in Quitaque Tuesday.

Mrs. Florence Burdine and son, Eli and his wife and baby of Nogales, Arizona visited Mr. and Mrs. J. T. Persons the first of the week. Mrs. Burdine and Mrs. Persons are sisters.

Mr. and Mrs. Bill Harris of Cleburne visited Mr. and Mrs. J. T. Persons a few days this week.

Mr. and Mrs. Rayford Hewett of Lubbock spent the week-end here with her parents, Mr. and Mrs. J. T. Persons.

Mr. and Mrs. J. T. Persons spent a recent week-end in Cleburne at the home of their daughter and family, Mr. and Mrs. George Kaefer and children. Their son and his wife, Mr. and Mrs. Tad Persons of Richardson, joined them for the weekend.

Mr. and Mrs. Jack Hutcheson and children of Morton visited his parents, Mr. and Mrs. O. E. Hutcheson, here over the week-end.

Mr. and Mrs. Ollie Nall visited in Lubbock Saturday with his daughter and family, Mr. and Mrs. John Lindsey and family.

Mr. and Mrs. Jack Hutcheson

and children of Morton visited Mr. and Mrs. Ollie Nall Sunday afternoon.

JEHOVAH'S WITNESSES TO ASSEMBLE IN SAN ANGELO

Jehovah's Witnesses of the Quitaque, Texas Congregation will join 5,000 associates at the Courageous Ministers District Assembly in the San Angelo Coliseum, July 27 to 29, according to V. D. Tiffin, local minister.

Delegates will come from 135 congregations in Texas, Oklahoma, New Mexico, and 7 other states for the three-day meet.

The Witnesses have undertaken a door-to-door canvass of the entire city of San Angelo to obtain accommodations to supplement the 1200 hotel and motel rooms that are available in the city.

"This method of obtaining rooms is not new for Jehovah's Witnesses now," said Tiffin. "We did the same thing in Houston, Oklahoma City, and in New York for some of our larger conventions."

The meetings at the local Kingdom Hall will be discontinued during the convention week as members of the Quitaque, Texas Congregation will attend the convention.

Twenty ministers have been appointed by the Watchtower Society to participate in the three-day program that will be climaxed Sunday at 3 p.m. with the talk, "Take Courage—God's Kingdom Is at Hand," according to Tiffin.

CANECR RESEARCH IN ANIMALS BEING CONDUCTED AT A & M

Cancer in animals is one of the research frontiers at which Texas A&M College scientists are working successfully.

The School of Veterinary Medicine at A & M long has served Texans and the world of learning through its extensive, highly respected program of teaching and research.

The use of radioactive Cobalt in the treatment of cancers of the eyes and eyelids of cattle and horses is among the newer developments at the School.

So far as is known at A&M, the Veterinary Medicine and Surgery Department team is the only veterinary organization using the Cobalt 60 treatment on a clinical basis.

The technique of implanting "Cobalt needles" has been espe-

See Us FOR ALL YOUR BUTANE NEEDS

JENNINGS FARM SUPPLY

Day Phone 3211

Night Phone 2821

cially effective in treating carcinomas likely to develop in Southwestern animals having little pigmentation near the eyes. White horses are particularly susceptible to this type of cancer.

There was no hope for animals so afflicted until research led to the new treatment. Dr. W. C. Banks, professor of Veterinary Radiology, and his staff have treated 10 or so large animals with wholly satisfactory results in about 85 percent of the cases.

There is an apparent close relationship between the animal carcinoma and eye cancers developed by persons in the Southwest—particularly middle-aged persons of a fair skin who spend much time in the outdoors. Radio active Cobalt also is used effectively in the treatment of such cancers in man.

Another radioactive material Strontium 90, also is being used

by A&M veterinarians. The strontium is used clinically in the treatment of many animals for ocular diseases, those centering in and around the eyes. The Strontium 90 is used to remove the blood vessels which have invaded the cornea and tend to interfere with sight. The radioactive material removes the undesirable blood vessels without damaging deeper tissues in the eye.

The annual Texas Conference for Veterinarians held on the A and M campus late each spring is one of the ways in which information gained through on-campus research is made available to veterinarians with local practices. The conferences also feature prominent speakers from across the nation, who bring reports on research elsewhere. And then, of course, results of research at A and M are made known through professional journals.

Dr. Salk Coins A Word: Bionauts

"Super stars" of science will make up the research team of the Salk Institute for Biological Studies.

Dr. Jonas Salk, who will direct the Institute at San Diego, Calif., quite often draws analogies between sports and science.

He once said, modestly referring to his historic role in developing the polio vaccine, that "I just happened to be in the right place to catch a long forward pass."

Today he might select another sport and say that the Institute faculty members are the Mickey Mantles of science—they can hit home runs from either side of the plate. Dr. Salk points out that in recruiting his Institute Fellows he searched for and found versatile scientists "who have all been trained in a field other than that in which they are working today."

Varied Abilities

They possess more than one skill or field of knowledge. They are not limited to biology. Some of the 10 Fellows already appointed are equally at home in higher mathematics and physics, or history and literature.

This unique combination of professional skills, versatility, imagination and intellectual curiosity has been described by many as the magic formula needed today to achieve the conquest of disease—from the common cold to cancer. They believe firmly that an assault on disease of the kind and magnitude planned by Dr. Salk and his colleagues could pave the way to revolutionary breakthroughs.

Just as the Mickey Mantles depend on the baseball fans who pay their way through the turnstiles, construction of the Salk Institute will depend on contributions from the general public.

\$15 Million Goal

This summer all across the nation a campaign is in full swing to raise \$15,000,000 to build and equip the Institute. The drive is sponsored by The National Foundation through the March of Dimes. It is a renewal of the partnership between all Americans and Dr. Salk—the man who did so much for them in developing the polio vaccine, and will do so much more as director of the Institute.

As another way of describing the scientists who will work at

Dr. Szilard

Dr. Salk

Dr. Bronowski

the Institute, Dr. Salk has coined the word "bionauts." "If we can speak of astronauts," he asks, "why can't we think of 'bionauts'—scientists who are capable of doing in biology what has now been done in the fields of space and of atomic physics?"

He envisages the Salk Institute as a sort of launching pad for the gifted "bionauts" of the scientific world who will comprise his faculty.

The conditions under which the Salk Institute "bionauts" will pursue their studies are probably unique. The physical as well as the intellectual atmosphere of the Institute has been designed so that the individual scientist can concentrate fully on productive work and thought. Laboratory equipment will of course be the most modern. A highly specialized reference library on biology and related fields will be maintained. The whole environment is designed to spur the Institute Fellow toward daring and uninhibited original thinking on how to reach the goal he is seeking—faster.

Pioneering Projects

In most great universities and other research centers scientists are obliged to invest a great deal of their time in teaching and in administrative detail. There will be none of these time-consuming duties for the faculty of the Salk Institute. Its members will spend all of their time on pioneering projects. Moreover, they will have complete freedom to launch whatever projects they elect and may change the direction of their research if they wish.

Experts familiar with the scientific world and its leaders agree that the 10 Fellows se-

lected thus far are entering the stage of their most productive period. Their average age is 49 years but seven of the 10 are even younger.

Dr. Warren Weaver, vice president of the Alfred P. Sloan Foundation and a Salk Institute Nonresident Fellow who is often described as the "elder statesman of American medical research," is 67; but Dr. Melvin Cohn, a famed American biochemist now with the Pasteur Institute of Paris, and a Salk Institute Resident Fellow, is only 38.

A-Bomb Architect

Dr. Leo Szilard, long-time professor of biophysics at the University of Chicago and celebrated worldwide as one of the "architects of the atomic bomb," a Nonresident Fellow, is 63. But Dr. Edwin Lennox, an American microbiologist now also on leave at the Pasteur Institute, and a Resident Fellow, is only 41.

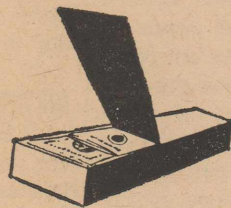

Dr. Jacob Bronowski, of London, a Resident Fellow who is well known in the United States for his books and lectures, is 54. His versatility is outstanding—in mathematics, philosophy and history.

Dr. Salk has remarked that the professional and cultural interests of the Fellows happily overlap. At a recent meeting of several of these scientists in New York City, they chatted with vivacity of organizing competing string quartets at the Salk Institute next year, of sailing and swimming in the Pacific, even of shooting a round of golf now and then. These "super stars" of science who may be expected soon to revolutionize biology and thus "help man make the most of his gift of life" are human beings, too.

Sermon topics for Sunday:

Morning Worship:
"The Opportunity to Give"
(Acts 3:1-11).

Evening Worship:
"Bigger Barns"
(Luke 12:8)

There will be a meeting of the Caprock Sub-district M.Y.F., Sunday, at 2:00 P. M. in Floydada. The W.S.C.S. will meet Tuesday, at 3:00 P. M. at the church.

The sixteenth annual Northwest Texas Conference Layman's Retreat will be held at the Ceta Canyon Methodist Camp Grounds beginning Friday, Aug. 3, at 3:00 p.m. and closing with lunch Sunday, Aug. 5. The speakers this year are Dr. Charles Ray Goff, of Chicago, preacher for the "Methodist Men's Hour," heard over 350 radio stations, and Mr. D. W. Brooks, of Atlanta, Georgia, outstanding churchman, civic leader, world traveler, General Manager of the Cotton Producers Association and Vice President of the National Cotton Council of America. All the layman of the church are urged to attend. No reservations are necessary, and the only cost is for meals.

- Local Briefs -

Mr. and Mrs. Bill White and children, Trudie, Phil and Debbie of Bremen, Ga. are visiting at the home of his brother, the Pierce Whites this week.

Mr. and Mrs. Bill White and children, Mr. and Mrs. Pierce White and Mr. and Mrs. Pete White were supper guests at the Ray Persons home Tuesday evening.

Mr. and Mrs. J. B. Baird and Mike spent the weekend at Farmington, N. M. where they visited at the homes of her sister, the Amos Persons, and with his sister and her husband, Mr. and Mrs. Maurice Faust.

Mr. and Mrs. Sid Bogan left Wednesday for a visit at Tres Ritos, N. M.

Flomot News

Mrs. L. B. Turner

Mr. and Mrs. Pierce White were in Lubbock where he had a medical check-up Monday.

Mr. and Mrs. Wayne Hunter of Quitaque are the parents of a son, Randall Lane born Friday, July 20, at Stanley Hospital at Matador. The grandparents are Mr. and Mrs. Horace Hunter and Mrs. J. L. Speer of Flomot. The Hunters have three other children, Susan, David, and Aneta.

The Earl Whitakers have their grandchildren, Shirley and Donna Brown of Amarillo visiting with them this week.

Mr. and Mrs. Tom Rice and baby of Hale Center were guests of her parents, Mr. and Mrs. Art Green and children over the weekend.

Guests in the home of Rev. and Mrs. Jack Terrill recently were her sister, Miss Jane Froze of Oklahoma, his sister and her family, Mr. and Mrs. Joe Hurt and children of Barnsdall, Okla., and another brother of Rev. Terrill's and his mother, Mrs. C. R. Terrill were expected later in the week.

Ernest Fisher has improved sufficiently that he came home from West Texas Hospital at Lubbock, Wednesday, July 18. His son and wife, Mr. and Mrs. Joe Fisher of Lubbock accompanied their parents home.

STEVE CANYON

By Milton Caniff

Guests in the home of Mr. and Mrs. Harley Gunn recently were their cousins and former Flomot residents, Mr. and Mrs. W. D. Graves of Deming, N. M. and Mrs. Graves' brother, Houston Gunn of Decatur.

The Intermediate girls of the First Baptist Church left Monday morning for the Girls' Auxiliary Encampment at Floydada at the Plains Baptist Assembly. They were Misses Jean Green, Eulalia Smith, Joyce Shorter and Jeanette Montoya and were accompanied by Miss Ersie Starkey, Mrs. L. B. Turner. They came home Wednesday afternoon with Mrs. Earl Whit-

taker, who came Wednesday morning and took Mrs. Turner's place for the day.

The Intermediate boys, and their sponsor, Rev. Jack Terrill left Wednesday afternoon for the same camp and remained until afternoon Friday. Those making the Royal Ambassador Camp were Clois Shorter, Coy Franks, Terry Desadier, Wayne Gourdon, Joe Montoya and Gene Cypress.

Mr. and Mrs. Gordon Turner and Clint of Lubbock and Mr. and Mrs. Richard Turner and Ricky of Matador were guests of the L. B. Turners Sunday.

DICK'S BARBER SHOP

JOB OF MAKING YOUR NEWSPAPER

NEW YORK—Canada's newsprint producers who provide more than 70 percent of the American supply, have just finished a key phase of the job of making paper for next year's newspapers. This is the annual Spring drive, in which millions of pulpwood

logs cut in the backwoods last Fall and Winter are floated downriver to the mills. Most of the paper made from these logs will reach U.S. newspapers during 1963.

Details of the drive are explained by the Newsprint Information Committee, composed of a representative group of the Canadian mills.

Tossing one log in the river to float downstream is simple and costs nothing. Tossing in some 40 million logs is both complicated and costly.

From the air, a lake or river full of logs looks like a tub of bath water into which have been dumped twelve boxes of cornflakes. The latter eventually would present certain problems for the plumbing and these problems have their counterparts in the complex river drive.

Annual Push
Records for one such river operation show that the annual push requires the services of 300 men to move a million cords 189 miles. It takes 150 days and almost a million dollars.

As the thaw builds up the head of water in the lakes and rivers, the logs are enclosed

in booms which are towed into position behind the dams. For this job and kindred work, the inventory includes 20 power boats, 10 outboard motors, two derricks mounted on scows, ten other scows, and four houseboats.

Holding Ponds

Men are posted at the dams day and night to open the sluice gates for passage of the logs when wind and water conditions are right. Detailed arrangements are worked out with the power authorities so that there will be adequate water flow for both the log drive and generation of electricity.

On the trip downstream, eight power dams have to be passed by the logs. Intermediate holding ponds are set up where logs are again assembled behind dams at various stages of the trip so that they can be sent onward with sufficient momentum of wind and water behind them.

One company finds that Indian employees are especially good at understanding the ways of weather and river and turning them to best advantage for the drive.

of the Foundation, said "The gifts of these firms are appreciated, for it will make the Foundation headquarters more attractive to the thousands who visit us every year."

Hi-Plains Hi-Lights

NEWS from the High Plains Research Foundation

The grounds around the new office building, greenhouse and residence at the High Plains Research Foundation at Halfway have been beautified through the generosity of Nurseries in the area. Thirty-four different varieties of trees and shrubs have been presented. Some of the trees to complete the program will be available in the Fall after frost when they can be successfully moved.

A new feature of ground beautification will be a group of 15 plots of lawn grasses and clovers. The demonstration plots are 12'10" by 15 ft., each of which will have signs identifying the type of grass or clover planted. Aluminum dividers separate the plots. The one foot dividing strip will be treated to prevent spreading between plots. Paths through the plots make viewing of each variety easy. The lawn grasses and clovers planted include common bermuda, African bermuda, Tifton bermuda, Texas turf grass No. 10, Kentucky blue grass, Merion Kentucky blue, English blue fescue), Seaside bent, Highland bent, European blue (English rye), Buffalo, W. D. Clover, and Dicondria, U 3 bermuda and St Augustine.

Gifts of shrubbery, trees and grasses have been presented to the Foundation by Larue Hughes nursery, Kress; Sun-Vue Nursery, Kress Nursery, Stark Nursery, Hi-Plains Nursery and Plainview Seed House of Plainview; Texas Tech, Simpsons Landscaping service, Toms Tree Place, Vaughan's Plant and Tree Farm, Wolfes Nursery of Lubbock; and Kershners Nursery of Carlisle.

Dr. Earl H. Collister, Director

HEALTH TIPS . . .

Don't let an accident spoil the fun of fishing.

Fishing is one of the nation's favorite outdoor sports. It offers relaxation, mild exercise and a welcome change from the everyday routine. But, as every fisherman knows, there are several built-in hazards to fishing that bear watching.

"Sidewinders" (fishermen who swing their arms in a wide arc on the cast) are responsible for many of the hook accidents, says Today's Health, the magazine of the American Medical Association. If you are a sidewinder, be sure your field is clear of other fishermen before casting.

In removing a hook from a fish hold the fish under the gills so only its body, not its head, can flop and wiggle. Trying to grab a slippery fish and remove the hook at the same time is an easy way to get hooked.

Lures and hooks left lying on the floor of a boat or on the dock are inviting trouble.

Never try to pull a hook out if one becomes imbedded beneath the skin. Your physician will snip off the back end of the hook and push it through the wound. If necessary he will administer antibiotics and tetanus toxoid.

Save your muscles from strain by avoiding excessive rowing or exercise. Protect yourself from sunburn and heat prostration.

The speaker, lecturing to a high school class on the Old West, told them Billy the Kid had killed 21 men by the time he was 21 years of age. Said one student: "Boy, what a souped-up crate he must have been driving!"

June Highway Patrol Report

The Highway Patrol investigated 3 rural accidents in Briscoe County during the month of June according to Sergeant D. R. Dowdy, Patrol Supervisor of this area.

These wrecks accounted for an estimated property damage of \$1,075.00.

The rural traffic accident summary of Briscoe County from January through June of 1962 shows a total of 12 crashes. As a result of these crashes there were 2 persons killed and 6 persons injured. The estimated property damage amounted to \$4,835.00. This compares with the first six months of 1961's total of 7 crashes killing no persons, injuring 1 person and causing an estimated property damage of \$2,170.00.

WASHINGTON REPORT

CONGRESSMAN WALTER ROGER'S TO THE PEOPLE OF THE 18TH DISTRICT:

WHY I VOTED AGAINST FOREIGN AID

Immediately after World War II there came into being a program called the Marshall Plan. It was so named because it was proposed by George Catlett Marshall, who had served as Supreme Commander during World War II and was subsequently appointed Secretary of State. The plan was designed primarily to provide aid and assistance to those nations in Western Europe that had been prostrated by the toil of war in both the natural resources and the manpower. Its purpose was to prevent these weak and sick nations from falling prey to Communist domination, or to other political philosophy contrary to democratic principles and to the will of the majority of the people. Few have challenged the accepted fact that the Marshall Plan had a basic soundness of purpose and, as implemented, provided the nucleus of economic stability to Western Europe. Many felt that when the primary purposes had been accomplished, the program should be terminated. Undoubtedly, there must have been great controversy as to when and to what extent these purposes had been accomplished, or if they were ever accomplished. The program was not only terminated, but, like "Topsy", just grew. It grew in Western Europe by leaps and bounds, it spread into every other area of the globe and even behind the Iron and Bamboo Curtains. In fact, it expanded in so many directions and in such proportions, that I seriously doubt there is any one or any group who could provide an accurate accounting of how much has been spent or how it has been spent. The debate produced a number of calculations as to the number of countries that have been recipients, the several amounts that have been received by those countries, and the over-

CHALLENGE for the motorists of Texas to reverse the trend shown in prior years for the last six months of the year.

— Go To Church Sunday —

Another question seems to be as to why foreign aid is continued, even though it is admitted that if the matter was submitted to a referendum of the people in the United States, it would undoubtedly be defeated substantially. Many have asked me where this program gets its major support. They are usually astounded when I give them the answer. The fact is that the foreign aid program from an economic standpoint amounts to a giant subsidy to both business and labor. It is generally conceded that four of every five dollars spent in the foreign aid program remains in this country. This means that the taxpayers are picking up the tab for goods, wares, and merchandise manufactured in this country, sold to the Government under the foreign aid program, and delivered free of charge to foreign countries. It explains why foreign aid program has been the support of most of the big business organizations, as well as the big labor unions. It has provided the means by which the countries of Western Europe have been able not only to stabilize their economy, but to expand it to the point that they the presently in serious competition with this country and can, by the implementation of the Common Market, create a much more serious competitive force with reference to our world markets. It can also serve as the explanation of why we can do such a big export business, yet cannot seem to stop the outflow of gold. The reason is that we are giving the money to foreign nations with which to buy their products, a case of trying to lift yourself by your own bootstraps.

In opposing this program, I have been completely out of step with both political parties. But unless information which has not yet been made available can be produced to justify this program, my opposition to both the authorization and the appropriation will be continued.
