Plans Made To Give Sabin Oral Vaccine

The Sabin Oral Vaccine Polio Prevention Program will be launched in Silverton and Quitaque Sunday, September 16, from 12:00 noon until 6:00 p.m. The Hale-Floyd-Briscoe County Medical Society URGES THIS PROGRAM. Its members will direct and supervise clinics and the administration of the vaccine, to ALL RESIDENTS OF THIS AREA. Visitors in the area can receive the vaccine, but will need all 3 types for complete polio protection.

The cost of the vaccine will be the contributions of those who take it, whatever they can afford. Vaccine will be provided free of charge for those who cannot pay. A different type of vaccine will be given at each of the three times. Sabin polio vaccine provides lasting protection. In more than 283 million people taking the vaccine, there have been no ill effects. Sabin vaccine is licensed by the U. S. Public Health Service. Sabin is different from Salk vaccine. Salk vaccine is administered with a hypodermic needle and requires booster shots over a period of years. You should take Sabin vaccine EVEN IF YOU HAVE HAD SALK to insure your protection and to PREVENT YOUR BEING A CARRIER OF POLIO VIRUS.

Sabin vaccine is administered by mouth — three drops on a sugar cube (for infants, three drops in mouth with eye-dropper). Even diabetics can safely absorb the small cube of sugar. Pregnant women should be immunized. If you are acutely ill, postpone taking the vaccine. Minor colds, sore throats or respiratory type flu will not prevent your taking this vaccine. A person must wait two weeks after tonsils or adenoids have been removed before taking the vaccine. It does not matter whether or not the patient eats before taking the vaccine. Clinics will be at the Silverton High School and at the Quitaque High School in Briscoe County. The first round will be September 16 (make up round September 23) the second round will be October 28 (make up round November 4) and the third round will be December 9 (make up round December 16).

Mrs. Letha Mae Jacobs spent from Tuesday until Friday in Amarillo, a guest of her sister, Mr. and Mrs. Rudell James and boys.

Guests in the Blue Brown home Sunday were their children, Mr. and Mrs. Bennie Brown of Amarillo and Mr. and Mrs. Carl Brown.

Mrs. F. C. Benson returned home Monday about noon from two weeks visiting her daughter, Mrs. B. C. Lannom and family at Ft. Stockton. Her grandson, Tony, brought her home. While Mrs. Benson was in Ft. Stockton, she and her four sisters spent one week-end in Clouderoft and Ruidosa, N. M. She reports a very nice vacation.

Mr. and Mrs. Hubert Setliff, Martha and Myra of Plainview visited her mother, Mrs. W. E. Morrison Sunday evening and attended the evening services at the local Church of Christ.

Melvin Cobb of Wichita Falls spent the Labor Day week-end with his parents, Mr. and Mrs. Orville Cobb and Janice.

Mrs. W. E. Morrison was hostess for a birthday dinner, honoring her grandson, Gerald Bedwell, Sunday, Sept. 3, on his birthday. Guests present to enjoy the day and the meal were the honoree, Gerald, Sherri Golden, Murry Wayne Morrison, Judy Colvin and Bobo Morrison.

Revival Starts Friday

A revival meeting will begin Friday night, September 7 at the Baptist Church here in Quitaque and will continue through Sunday, September 16.

Evangelist for the revival will be the Rev. Robert W. McGinnis, pastor of Casa View Baptist Church of Dallas.

Directing the music during the revival will be Duane Harris, a Wayland College music student.

Services will begin each evening at 7:30 p.m. with prayer groups meeting at 7 o'clock. Monday through Friday mornings of next week services will be held at 7 a.m. The nursery will be open for all services.

Coffee and rolls will be served after the morning services. Tuesday and Wednesday nights of this week were devoted to prayer preparation for the revival. Tuesday night the church met by Sunday School Depts. at the church for prayer. Wednesday evening the regular schedule was followed with

the church family praying together in the auditorium. The Rev. McGinnis has been preaching 17 years. He is a graduate of Howard Payne College in Brownwood and Southwestern Seminary at Ft. Worth. He is a WW II veteran, having served 44 months in service with 39 of them in the ETO.

In 1961 the Rev. McGinnis participated in a two weeks preaching mission in Alaska and served in Fairbanks. He was pastor of Fernwood Baptist Church in Dallas for 8 years and has been at Casa View since February of this year.

Duane Harris, who will lead the singing for the meeting, is 18 years old, a graduate of Joplin High School, and is dedicated to Ministry of Music. His ambition is to be a Choral Director in college. He has studied piano for 10 years, the organ for 4 years and is also a soloist. A cordial invitation is extended to everyone to attend any or all services during the revival.

Harry Bray Signs Recording Contract

Harry Bray has signed a two year standard Recording Artist Contract with Allstar Publishers of Houston and will soon have a commercial record released for sale. Royalty contracts have already been issued to Harry by United Artists. He was in Houston last week to sign the contracts and to deliver the master tapes of his record, which is now in production for nationwide release.

Harry's manager informed him last week that the first sale had already been made of his record; a juke box operator has placed an order for 500 of the records to be delivered the day they are released.

The name of Harry's record is "Guitars" and the flip side is "So Lonely". Both numbers were written by Harry. He has entered into contract with two other local musicians, Dick Polk and Jack Morrison. The three of them recorded the record to be released soon.

Harry plays tenor, or lead guitar, Jack plays standard or rhythm guitar and Dick plays the bass guitar.

While in the United Artists studio last week Harry was informed that an album of songs that he has written might be released soon. Harry said that if this came to pass it would be impossible to continue operation of his laundry and in the classified section of the Tribune will be found his ad listing the Bray Laundry for sale. He stated that although a great deal of his time will be spent in Houston, they will probably continue to make their residence in this area.

Mrs. Price Colwell and children of Amarillo spent the week-end with her sister, Mrs. Alton Johnson and family, and with her mother, Mrs. Jim Tunnell.

Billy Frank Davis of Amarillo stopped to visit his uncle, Paul Bailey, and family Sunday afternoon.

Floyd County Fair To Be This Weekend

The three-day ninth annual Floyd County Fair begins at noon Thursday with a free barbecue on the fair grounds.

About \$250 in prize money will go to the floats, riding clubs and bands participating in the parade beginning at 3 p.m. Thursday down Main street.

A talent show will be held at 7:30 p.m. Thursday.

Friday is the day scheduled for swine, sheep and cattle judging beginning at 9 a.m. in the livestock building.

Final event of Friday's schedule will be gospel singing at 7:30 p.m. The second annual quarter horse show will be held at 9 a.m. Saturday.

At 10 a.m. Saturday baby beef will be judged.

A fiddlers contest beginning at 7:30 p.m. Saturday will end the three-day fair.

A major attraction this year will be the Texas Game and Fish Commission wildlife exhibit in the main building on the fair grounds. Nine wire cages and three wire pens will hold deer, antelope, ocelot bobcats, puma, raccoon, porcupine, javelina, skunk, mink and armadillo.

Five tanks will hold nine species of pan fish, six species of bass, crappie, catfish and 17 varieties of cages.

Small birds will be housed in 11 cages.

Also in the exhibit are rattlesnakes, western moccasin, copperheads and coral snakes.

A carnival will operate on the grounds throughout the fair. A fireworks display will be held each night.

H. G. Boyles of Silverton was in Quitaque on business Monday.

W. J. CARTERS OBSERVE SIXTY-FIRST ANNIVERSARY

Mr. and Mrs. W. J. Carter were surprised Tuesday morning when their granddaughter, Mrs. Alvie Francis and family arrived. Mrs. Francis remarked, "Grandma, we came to help you celebrate your sixty - first wedding anniversary, and our little boy, Barry, starts to school on the same day." Mr. and Mrs. Francis and Mr. and Mrs. Boone McCracken brought lunch and helped Mr. and Mrs. Carter enjoy the day.

SENATOR YORBOROUGH FAVORS ABOLISHING POLL TAX

Dear Fellow Texan:
Of the 50 states in the Union, only five still charge admission to the voting booth. Only five demand a poll tax. Texas is one of the five. The others are Arkansas, Alabama, Mississippi and Virginia.

I co-sponsored a Resolution that if adopted, will make it possible for the people of this country to do away with the poll tax once and for all.

This proposed amendment to the Constitution was passed last March by the U. S. Senate, and it passed the House on August 27th, with 163 Democrats and 132 Republicans voting in favor of it.

If 38 of the 50 state legislatures ratify this proposed amendment, no poll tax will be required in Federal elections. Of course, I look forward to the day when the poll tax will also be outlawed in State elections. But our proposed amendment applies only to federal elections — elections of the President, Vice-President, U. S. Senators and Representatives.

Fellow Texan, the road to the ballot box should be a freeway — not a toll road.

I hope that the Lone Star State will be the first to ratify this amendment to the Constitution — this amendment in favor of the rights of man.

We have passed the halfway mark of the 20th century. The time has come to treat the right to vote as one of the great democratic rights of Western man, like the rights to freedom of speech, freedom of religious worship and freedom of the press.

This new amendment, if ratified by three-fourths of the states, would not apply to elections for state, county, city, school district, or any other local office. That would be a state matter. But I believe the people of Texas will follow through and do away with the poll tax altogether in their state elections if we adopt this national amendment to do away with the poll tax as a prerequisite for voting in national elections. Texas voters showed in the state Democratic and Republican primaries this year that they oppose the poll tax. Both Democrats and Republicans oppose it in Texas.

Anybody who ever tried to sell a

poll tax in Texas knows that cost is a genuine barbed-wire barricade between the voter and the voting booth. To people who don't have much income, a dollar and a half for poll tax is hard to come by. When the children need a doctor, or medicine, or bread and milk, you have to put their needs first, even if it means sacrificing a measure of your freedom — of your right to vote.

As far as the principle is concerned, it is just as unfair to draw the line on right to vote at the \$1.50 mark as it would be unfair to impose other property qualifications for voting.

Some people say the poll tax keeps only a few people from voting, so it should not be taken seriously. That's not true. Suppose Fellow Texan, you applied that false theory to freedom of religion, and said, "Nobody can pray unless he gets a permit from the government." The theory wouldn't stand up, would it? No. The poll tax is a shackle on full citizenship, and I hope the new amendment is ratified as soon as possible and that this barrier is swept away as a shackle and a servitude of the past.

Every right to vote, every human right is of the greatest importance and these human rights are on the march.

Gas Taxes Being Refunded

College Station — September 6. Want to add a nice chunk of cash to this year's farm income? Farmers who do are reminded that they may now submit claims for federal gas tax refunds, according to C. H. Bates, farm management specialist, Texas A&M College.

The refund may be received for all gasoline used for agricultural purposes on a farm or ranch, Bates says. Claims should include fuel used by the operator himself or by custom operators working for him, he added. However, fuel used in vehicles on roads and highways is not eligible for refund.

The claim for federal refunds must be made from July 1 to September 30 on gasoline used between July 1 of 1961 and June 30 of 1962. The procedure is simple and all farmers who filed claims last year will receive Form 2240 in the mail this year. Farmers who did not file last year may obtain the forms from their county agent or from the Internal Revenue Service, according to Bates. He also suggests that a copy of Publication 308 of the Internal Revenue Service may be of help to the applicant.

The federal gas tax refund should not be confused with the state refund which is for a shorter period of only six months, explains Bates. This refund involves a more complicated process and additional information should be obtained from the State Department of Revenue in Austin.

Also, Bates reminds that any points that are uncertain should be checked on before the claim is filed and that farmers should keep their records to verify claims submitted.

INTERNAL REVENUE SERVICE TO INVESTIGATE "EXPENSES"

Uncle Sam's tax collection agency, the Internal Revenue Service, is taking a long critical look at tax abuses in the areas of "entertainment expenses," "business travel," and "expense accounts."

Canceled checks alone are no longer being accepted as adequate substantiation for claimed expenses. Consequently, before Mr. Hardworking Businessman gets too far off on the wrong foot with the IRS in 1962, Ellis Campbell, Jr., Dallas IRS district director, comes up with some helpful suggestions.

"Accurate record keeping is the best way to save federal tax money. The following pointers can be as useful to our area self-employed folks as to corporation executives that I can think of," Campbell said, claiming deductions on personal tax returns for business expenses, whether reimbursed or not.

Campbell revealed that entertainment expense records should provide relation of the expenditure to the taxpayer's business, and the ordinary and necessary business purpose of the expense.

Records should show the name of the person or persons entertained and the companies they represent, as well as the date and place of entertainment.

"Naturally," Campbell cautioned, the amount of the expenditure must be ordinary and necessary. If the sum is sizeable, be sure to keep a copy of the bill. It's necessary for us to know whether the entertainment was paid by out-of-pocket cash, credit card, check, or charged to the employer."

Campbell's next article will discuss proper record keeping for federal tax purposes of "Home Entertainment," and "Club Dues."

Air Conditioning experts agree...

WATER cooling is BEST!

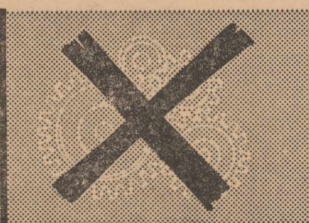

Youngsters learn mighty early about the cooling effect of water when the weather's hot. And air conditioning engineers know that water cooling is far more efficient than air cooling. The reason is simple . . . 85° water can absorb more heat from your home than 100° air.

That's why ARKLA-SERVEL Sun Valley's GAS air conditioners are WATER cooled! Water cooling, plus Sun Valley's "no moving parts" principle, gives you two big advantages unavailable with other air conditioners. One, a Sun Valley gives you CONSTANT EFFICIENCY, while air cooled units lose as much as 15% efficiency. Two, Sun Valley operating COSTS REMAIN CONSTANT, while air cooled equipment operating costs rise as much as 23%.

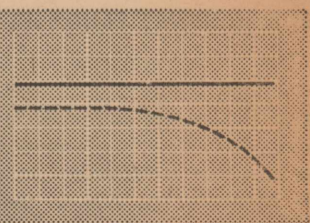

KING-SIZED FILTER

double Sun Valley's double filtering capacity STOPS ALL HOUSEHOLD ODOORS! It even takes cigar and fish odors, giving your home Spring-like freshness all year long.

NO MOVING PARTS

. . . in the heating or cooling cycles of the Sun Valley . . . nothing to wear out or break down! Sun Valley is year-around comfort for the mortgage life of your home!

CONSTANT EFFICIENCY

Sun Valley has no comfort-robbing friction to run up your operating costs. It doesn't cost a penny more to operate the Sun Valley for an hour when it's 115° than it does when the temperature is 90°.

Salinity Test - Don't Guess

College Station, Nearly one-fourth of Texas farmland is under irrigation and thus subject to possible "salting-up," according to L-570, "Test for Water Quality and Soil Salinity" recently published by the Texas Agricultural Extension Service.

The bulletin explains that salts put in the soil by irrigation water accumulate and can cause poor soil structure, trapping of water, and toxicity to crops. These water carried salts remain behind when the water is used by the plants or evaporates and large amounts can easily be accumulated.

Symptoms of excess salts in the soil are yellowed leaves, shedding of leaves and stunted growth or death of the plants due to reduced intake of water into the plants. Methods recommended by the bulletin to remedy the salted conditions include leaching the soil, irrigation more often, planting tolerant crops and using good cropping practices.

The new bulletin also discusses the testing of water and soil salinity for irrigation farmers, a new service of the Texas A&M Soil Testing Laboratory which was begun on August 16. This service may be used in the same way that the soil testing lab is used and the information sheets necessary for the tests are available from your county agent or from the Agricultural Information Office, College Station.

"Test for Water Quality and Soil Salinity" may also be obtained from the Agricultural Information Office.

TEXAS PERSONAL INCOME AT RECORD HIGH IN 1961

Personal income, the most comprehensive gauge of consumer purchasing power available on a state basis, totaled \$414 billion for the country as a whole in 1961, a rise of \$15 billion, or 4 percent over 1960 according to Harry C. Meyers, Manager of the Dallas Field Office of the U. S. Department of Commerce.

Nationally, per capita income last year amounted to \$2,263 or 2 percent above the previous record of \$2,215 attained in 1960, Mr. Meyers stated.

In Texas, the rise in personal income was up 6 percent in 1961 over 1960, against the rise for the nation of 4 percent. Total personal income for Texas in 1961 was \$19.5 billion, up a billion dollars, from \$18.5 billion in 1960. Only seven other states; Kentucky, Mississippi, Arkansas, Arizona, Colorado, Nevada, and Hawaii outranked Texas in gain in personal income between 1960 and 1961. Nevada led all states with a 10 percent increase, followed by Arkansas with 9 percent, then Arizona with an 8 percent increase. Colorado, Hawaii, Mississippi, and Kentucky came up with increases of 7 percent, while Texas, Maryland, Iowa, Tennessee, North Carolina, Utah, and California increased 6 percent in 1961 over 1960.

Details on personal income for 1961 are presented in the August issue of the Survey of Current Business, copies of which may be obtained from the U. S. Department of Commerce, Dallas Field Office, 500 South Ervay Street, Dallas 1, Texas.

Total amounts spent by all states on driver examinations and driver education average less per driver than the price of a gallon of gasoline.

CONGRESSMAN WALTER ROGER'S WASHINGTON REPORT

NO DISARMAMENT

There can never be unilateral disarmament by this country. Anyone advocating such a policy is either mentally unbalanced or seeking the overthrow of our government. I know of no Member of Congress who would give a second thought to a suggestion of unilateral disarmament. They would consider such a suggestion completely and utterly silly. Hence, since the affirmative action of the Congress

CARDS OF THANKS

Words are inadequate when the time comes to try to express our thanks to our many friends during our recent bereavement.

We sincerely thank each and every one for their deeds of kindness and thoughtfulness.

To the pall bearers and the honorary pall bearers who accompanied us to the resting place of our loved one, we would like to say a special "thank you."

May God richly bless each one of you who has helped us in any way, is our prayer.

The I. L. Edgar Family

We want to thank all of our friends for the many nice things done for us following Elmer's accident, for the phone calls, the visits, cards, flowers, food and every way we were remembered.

Elmer and Laverne Lanham

We, the family of the late W. P. Hawkins, wish to take this means to thank you for each deed of kindness and expression of sympathy shown to our loved one during his illness and to the family at his passing.

May God's richest blessings be with you now and always.

is required before any such action could be taken, it is a foregone conclusion that the fuzzy-headed thinking of a few unrealistic dreamers is not going to have the slightest weight.

Documentary proof of this lies in the fact that Congress has just recently passed the largest defense authorization and appropriation bills in our peacetime history. Other outlays have been made in the space program, which will soon become our first line of defense. This means that 60 cents out of every tax dollar going to the Federal government is closely and directly identified with the defense of this country in refining old weapons of war and in building new ones. Add to these figures the costs of past wars for which we are still paying, and we find that approximately 75 cents of every Federal tax dollar is directly associated with "war". This should prove to the most skeptical that the United States of America is not seeking war but is ready, able and willing to take on any country or group of countries that thinks we are soft. It would do any of these countries well to look at the facts before listening to the talk of some soft-heads. This country has never lowered its guard, nor will it so long as there are aggressors in this world who preach and practice conflict.

Man has long looked upon multi-lateral disarmament of the major powers as the best method of securing the peace of the world. This has been a major concern of every civilization since the Stone Age. It has been the subject of conferences between sovereign powers since the beginning of time. To date, no satisfactory solution has been found, although the conferences

and discussions continue. As each new weapon of war has come into being, the problem has become more complex. The advent of nuclear power increased the problems and complexities many thousand-fold. It made necessary a complete re-evaluation of the studies, the research, the coordination of activities and the preparation for management of participation in international negotiations on the subject. In short, it created a situation where the slightest lack of knowledge from a technological or scientific standpoint could spell disaster.

For a number of years, activities and research with relation to disarmament negotiations had been carried out in our government in a rather loose and uncoordinated

manner. This method of operation had apparently been satisfactory prior to the coming of nuclear power and hence was continued. However, in the past several years the lack of some basic scientific and technological information on the part of some high officials in this country, due primarily to the uncoordinated efforts of the several agencies and divisions charged with this responsibility, created some very dangerous pitfalls. It was these near-tragic experiences that shocked our government into recognizing the need for absolute coordination of all of our facilities in further negotiating on this age-old issue.

Thus came into being the Arms Control and Disarmament Act, which is an act designed for the purpose of coordinating all phases of these activities under one head, in order to center the responsibility and to avoid any possibility of breaches in security clearance, research and development and all other sensitive areas including scientific and technological activities. The primary purpose of the agency created by this act is to provide the essential scientific, economic, political, military, psychological and technological information upon which realistic arms control and disarmament policy must be based. It does not have the power in any degree to bind this country in the field of disarmament or otherwise contrary to the Constitution and laws of this nation.

In order to doubly assure that there would be no misunderstanding in this particular, several of us in the Congress prepared an amendment and secured its adoption. This amendment specifically spelled out prohibition against disarmament or arms limitation not approved by the Congress in accordance with the Constitution. Hence, anyone reviewing all of the facts, even the fuzzy-heads, can readily see that the United States of America is continuing the motto "Don't Tread on Me" and is fully capable of enforcing the warning.

the 31st Annual Texas Prison Rodeo to be held here in the prison's \$1 million stadium each Sunday in October.

On October 7, the star attraction will be Rex Allen, better known as "Mr. Cowboy", and his famous horse, Koko. The celebrities to be featured on Oct. 14 include Anita Bryant, recording artist, who rose to fame with Bob Hope; and Ann Marston, a nationally-famous archer.

For the October 21 show, the star will be none other than Willie Mays stellar baseball mainstay of the National League's San Francisco Giants.

For the final showing of the rodeo on Oct. 28, Dan Blocker, who portrays the role of "Hoss" Cartwright in the weekly Bonanza television series, will be here to round out a stellar two-hour show, beginning at 2 p.m.

Aside from the stars, there will be tough inmate riders contesting tougher prison-rodeder rodeo stock in a number of thrilling events. These include the mad scramble, bareback bronc riding, saddle bronc riding, Brahman bull riding, wild horse race and the famous closing chariot race.

Prison musical groups will also be on hand to entertain the crowds expected at this year's prison rodeo. One of the groups is the Goree Girls, featuring Candy Barr, former Dallas night club entertainer.

Outside attractions will feature calf roping, quadrilles, Cecil Cornish, and a Girl's barrel race. Net proceeds from ticket sales go to pay for educational, recrea-
