

The QUITAQUE TRIBUNE

VOLUME 3 NUMBER 50

QUITAQUE, BRISCOE COUNTY, TEXAS — THURSDAY, MAY 30, 1963

PRICE 5 CENTS PER COPY

Saturday Is Preparation Day For Baptist V.B.S.

Boys and girls by the millions will soon be released for the summer from the routine of school-work. What will claim their interest and energy? For great numbers of them it will be a wasteland. For some, especially in the city, it even may lead from wasted time to various forms of delinquency. The First Baptist Church of Quitaque feels that she has a priceless opportunity of claiming the time and providing a ministry of Bible teaching and creative activities that boys and girls gladly respond to through the Vacation Bible School.

Boys and girls from ages 3 to 16 of all denominations are invited to attend. On Saturday, June 1, at 9:30 A. M., Preparation Day will begin a week of Bible Study, Mission activities, Handcraft, Vocational Counseling, and "Teen-Problems" panel discussions. Following the time together at the church on Saturday, all the boys and girls will participate in a parade downtown and conclude with a picnic at the park. Each person is asked to bring a sack lunch.

Monday through Friday, June 3-7, the Vacation Bible School will be held from 8:00 P. M. until 11 A. M.

There will be a place for each child in one of the five departments: Nursery Three Year-olds, Beginner, Primary, Junior and Intermediate.

Congressman Walter Rogers' Newsletter

Congressman Rogers Thinks Farmers Misread Mood of Congress

The majority of the nation's wheat growers, by their resounding "no" vote in the Wheat Referendum last week, have turned thumbs down on high wheat prices through rigid, federally enforced controls. Will wheat prices be depressed seriously? Will a wheat glut develop? These questions remained to be answered. The farmers had the choice of programs. If the alternative they chose works satisfactorily—and I believe that, in view of the vote by the farmers themselves, it deserves a fair trial—and no further wheat program will be necessary.

In advance of Tuesday's referendum, I made it clear to farmers in our district that they should study all the facts before making a decision. I also notified them of my belief that no interim wheat legislation could be expected from Congress this year should the referendum fail to carry.

Already, some of those who strongly opposed a "yes" vote in the referendum are saying they believe Congress will provide new wheat legislation before this Session ends. I'm afraid they've misread the mood of the Congress, which had set up the enabling legislation under which the defeated program was proposed to the wheat growers, and also the primary political orientation of most Members of Congress.

Most Congressmen are from urban areas. My Texas colleague in Congress, Bob Poage, the Chairman of the Livestock and Feed Grains Subcommittee of the House Committee on Agriculture, estimates that not more than 6 percent of Members of Congress are from major wheat producing areas. That Congress is so heavily weighted to urban areas reflects the dramatic shift in our population over the

In Attendance

Local Students Have Outstanding Record

Twelve Seniors Receive Diplomas Here

Twelve seniors received the diplomas last Friday night at Commencement Exercises held in the Quitaque school auditorium, which was filled to capacity with interested families and friends.

Mrs. Ross Herrington played the processional, and the invocation was led by the Rev. W. A. Tarpoley. Ray Gene Hutcheson gave the welcoming address. A special in song was then presented by the Rev. Roy Davidson.

Following the valedictory by SeReatha Stephens, the awards were presented by Prin. Geo. Ray Colvin, who commended the students and parents for the fine attendance record that has become a tradition of students of Q.H.S.

Jamie Johnson was presented a certificate for being on the "A" Honor Roll every six weeks during the school year.

Following the presentation of awards, H. M. Baggary, Editor and Publisher of the Tulia Herald spoke to the assembly.

Supt. Johnny Mason presented the diplomas to the graduates and the Rev. Davidson led the benediction and the recessional was played by Mrs. Herrington.

After the program Friday night the graduates left on their annual Senior Trip. This year's group is spending a week at a guest ranch at San Antonio.

Four Years of Perfect Attendance

Judy Colvin

Mr. and Mrs. John Wolf of Lamesa visited his sister, Mrs. H. S. Foster and Mr. Foster on Monday. Their daughter, Mrs. Wanda Hilton of Seagraves brought her parents here for the visit. Mrs. Fannie Keeter of Lockney, sister of Mrs. Foster, was also a visitor in the Foster home.

Mr. and Mrs. Foster LaSater of McLean spent Sunday with the Ray Persons. Mrs. LaSater is the former Conde Gilbert, and she brought flowers to decorate parents graves.

Mrs. Metzger of Farmington, N. M. arrived Saturday to stay with her grandson, Mark Metzger, while his parents, Rev. and Mrs. Kenneth Metzger attend the Northwest Texas Conference at Abilene.

Mrs. Jarrell Rice and Mike visited her parents from Saturday until Wednesday of this week while her husband accompanied the Ag boys on a fishing trip to Lake Altus.

against wheat farmers by other segments of the economy are forestalled

"I am not too much of a preacher . . ." So said Astronaut L. Gordon Cooper as he spoke Tuesday before a joint meeting of the House and Senate. Here are the words of the magnificent prayer he said while in the 17th orbit of his flight:

"I would like to take this time to say a little prayer for all the people, including myself, involved in this launch operation.

"Father, Thank You, especially for letting me fly this flight. Thank You for the privilege of being able to be in this position; to be up in this wondrous place, seeing all these many startling, wonderful things You have created.

"Help guide and direct all of us that we may shape our lives to help each other, trying to help one another rather than fighting and bickering.

"Help us to complete this mission successfully.

"Help us in our future space endeavors that we may show the world that a democracy really can compete, and still be able to do things in a big way and are able to do research, development, and can conduct many scientific and very technical programs.

"Be with all our families. Give the guidance and encouragement, and let them know that everything will be OK.

"We ask in Thy name. Amen."

Attendance at Quitaque High School, which is always very fine, could well have been as fine as any school in the country, according to figures released by Principal George R. Colvin during the presentation of awards at Commencement last Friday night.

Seventeen High School students received perfect attendance awards for the 1962-63 school year.

Percentage-wise the attendance by classes for the year was as follows: Freshman 97.34; Sophomores, 97.77; Juniors, 98.74; and for the Seniors the attendance record was 99.19! For the entire High School the above figures add up to the fact that 98.263 percent of the pupils attended school every day. On top of being present every day they were prompt, too. For the year the Freshman Class had 8 tardies, the Sophs 17, Juniors 17, and the Seniors 4. Percentage-wise the tardies would look like this: .0016. Out of the twenty-five students that were tardy, fourteen were tardy only one time, with the other eleven being late a total of thirty-two times. Out of the enrollment of 70, 45 were never late for school.

Freshmen Barbara Reagan and Marilyn Hutcheson received perfect attendance awards; for the Sophomore Class Jerry Beth Grundy, Deborah McKay, Charlene Bailey, Donna Bedwell, and Brenda Whittington; in the Junior Class Terry Woods, Bobo Morrison, Dwight McKay, Jim Saul, Jennifer Whittington and Joe, Charles Bedwell were present every day; and four Seniors rounded out the list of winners of awards. They were Dwayne Smith, Cappy Wise, Jerry Elliott, and Judy Colvin.

The Senior Class leave an impressive record of attendance for four years for future classes to shoot at. Tops for the class was Judy Colvin who had a perfect attendance for all four years in high school (Prin. Colvin said Judy's biggest problem was getting her dad up and off to school). Jerry Elliott and Dwayne Smith had 3 years of perfect attendance, Rex Anderson, Cappy Wise, Linda Chandler and Chlonez Woods had 2 years without missing any time and Ray Gene Hutcheson had one year of perfect attendance.

For the four years, total absences for the graduating seniors was only 52½ days. Cappy Wise and Dwayne Smith missed one day each and since Cappy Wise had two years perfect attendance, that means he missed a half day two of his high school years. Chlonez Woods missed day and a half during her high school career, Jerry Elliott two days, SeReatha Stephens 2½ days, Ray Gene Hutcheson 4, Kay Hamilton and Rex Anderson each missed 9½ days, Linda Chandler 11 and Robin Harmon 11½ days.

Such a record as has been compiled by the students of Quitaque High is something for which they can be very proud. However, as Mr. Colvin pointed out, the parents of these students are to be commended too, for without their encouragement and cooperation, such records would never come into being. Parents oftentimes could put a trip, a job of some sort or other things in the way of school attendance, but this does not seem to be a practice among the parents of local school children. Congratulations are in order for both students and parents for achieving such high marks of attendance in school.

Mr. and Mrs. Arthur Gregg of Amarillo visited at the home of his sister, the John Ewings, Sunday afternoon. They spent the night with Mrs. Gregg's brother, Mr. and Mrs. Buddy Morris.

Mr. and Mrs. Everett Stone of Sterley attended church services at the local Assembly of God Church Sunday. They were guests of the Rev. and Mrs. W. A. Tarpoley for lunch.

Twenty-one Eighth Graders Promoted

Twenty-one Eighth graders were promoted into high school at exercises held at the school auditorium last Thursday night.

The processional was played by Patsy Herrington and the invocation was led by Melinda McWilliams. Patricia Brunson, class Salutatorian, welcomed family and friends to the program.

Elementary School Prin. Glen Sanders then presented special awards to the grade school pupils earning them.

Following the presentation of the special awards, Janet Bailey gave the Valedictory address and then the class was challenged to be "Good Citizens" by Jimmy Davidson, principal speaker for the evening.

Supt. of Schools Johnny Mason then presented the diplomas to the Freshmen-to-be. The benediction was led by Earl Lee Woods.

Members of the graduating class was as follows: Janet Bailey, Don Brummett, Patricia Brunson, Pamela Curtis, Annis Dudley, Cora Ivory, Joe Mack Jacobs, Jill Johnson, Sammie Sue Johnson, Lupe Leal, Joe Lucero, Patsy McDonald, Renee McKay, Meinda Mc-

Williams, Sheila Payne, Dale Ramsey, Jimmy Reed, Monte Stephens, Peggie Tiffin, Earl Lee Woods and Ina Gale Woods.

Thirty-four grade school students received Perfect attendance awards Thursday night. They were Carol Blenkenship, Debra Brunson, David Brunson, Mary Helen Brunson, Perry Brunson, Roger Brunson, Donnie Buckalew, Max Ham, Janis Hamilton, Karen Hamilton, L. W. Hamilton, Ray Don Hamilton, Danny Jones, Clarence Ivory, Phineas Ivory, Janis Johnson, Cheryl Merrill, Jerry Monk, Jimmy Monk, Gwen McKay, Renee McKay, Trent McKay, Johnny Pointer, Carol Purcell, Cleve Purdy, Dale Ramsey, Donald Ray Ramsey, Wanda Ramsey, Wanda Ramsey, Molly Reed, Valerie Robison, Vanessa Robison, Monte Stephens, Johnny Tiffin and Larry Tyler.

Thirteen students were awarded certificates for being on the "A" Honor Roll every six weeks for the school year just ended. They are Becky Berryhill, Diane Brooks, Anita Hunter, Barry Johnson, David Johnston, Eddie Owens, David Reed, Molly Reed, Vanessa Robison, Carolyn Sanders, Sherry Stark and Lynette Taylor.

Two Receive Degrees At W T

VERLON HAMILTON

A number of relatives from here were in Canyon Sunday to see Verlon Hamilton receive his degree at West Texas State. Among those attending the ceremony were Mr. and Mrs. Leroy Hamilton and boys, Mrs. Joe Woodruff, Mr. and Mrs. R. L. Brunson, H. W. Hamilton, and Mr. and Mrs. Earl Hamilton and children. Also present were Mr. and Mrs. George Ray Colvin and Etwolie. Mr. and Mrs. Raz Ware of Flomot, Mr. and Mrs. Clint Hicks and children and Mrs. Norman Andress of Lubbock accompanied the local group and Mr. and Mrs. Bud McKay of Amarillo met the group at Canyon.

Verlon was also one of 19 who were commissioned as 2nd Lt. in the Army. He will go to a camp in Virginia on July 11 for advanced training for a period of probably ten weeks.

FREDDY DAVIDSON

Mr. and Mrs. Jimmy Davidson and boys, Mrs. Estelle Davidson and Mrs. Stewart McCracken and children of Tulia attended the Commencement Exercises at West Texas State at Canyon Sunday afternoon. Freddy Davidson received his B. S. Degree, along with 358 more graduates. Several Masters degrees were earned at WT this year also. The Davidsons had lunch with the Stewart McCrackens at Tulia, then drove on to Canyon for the exercises at 5:00 Sunday afternoon.

FRUITDALE BAPTIST CHURCH OF DALLAS YOUTH CHOIR TO VISIT QUITAQUE

The 36 voice youth choir of the Fruitdale Baptist Church, Dallas, under the direction of Mr. Bill Davidson will present a concert in the First Baptist Church of Quitaque on Thursday evening, June 6, at 8:00 P. M.

Following the concert the group will sponsor a youth fellowship for all the young people of Quitaque. A most enjoyable evening has been planned.

The young people from Dallas are touring West Texas, presenting concerts in Olney, Dickens, Plainview, Spur, and Abilene and visiting Wayland College, Plainview, Hardin Simmons University, at Abilene and Southwestern Baptist Theological Seminary in Fort Worth.

Mr. Bill Davidson, director of the choir, is the brother of the Quitaque pastor, Roy Davidson. He is Minister of Music at Fruitdale Baptist Church in Dallas. He served four years with the United States Air Force and received his training at North Texas State in Denton.

The public is invited to attend the concert, Thursday, June 6, beginning at 8:00 in the evening.

Mrs. Buster Chadwick spent from Monday until Thursday of last week in the Odom Hospital in Memphis, suffering with an acute sinus condition. She and Stephanie returned to Memphis Monday of this week for a check-up and she reports the infection is somewhat under control. Stephanie had to have an ingrown toenail removed.

Mrs. Ralph Carter returned home from Medical Center in Plainview last Wednesday but she must remain in bed for a week and then return to the hospital for further treatment.

WAYLAND COLLEGE SUMMER BASKETBALL CAMP BEGINS WEDNESDAY, JUNE 5

Plainview (Special) — Young basketball players with a desire for improvement will find the Wayland Baptist College Summer Basketball Camps just the prescription for overcoming faults and getting the jump on the 1963-64 cage campaign. The first session is scheduled to get underway June 5.

Expert coaching techniques will be employed by Harley J. Redin, Wayland athletic director, and Clifford Ozmum, oaskeball coach who will make up the camp staff. Reservations are coming in fast for the five sessions, and players wishing to attend are urged to get their reservations in as soon as possible. The first session still has the least reservations, and 36 is the maximum number for any one session.

In addition to detailed study in basketball fundamentals, boys attending the camp will get a taste of swimming, trampolining, tennis, and other activities. Players will receive individual instruction three hours a day and play in team scrimmages six nights during the camp. Films of top college and professional teams will be shown.

McDonald Hall will serve as housing for the players in each session and Wayland varsity players will be counselors. Total cost for the camp is \$67 which includes insurance, tuition, room and board.

This is the last summer that Texas high school players may attend basketball camps, but it is stressed that by Interscholastic League rules, players attending this year's camp will not be affected in eligibility standings.

Sessions for the camps are scheduled for the following dates:

1. June 5 through June 14
2. June 17 through June 26
3. June 27 through July 6
4. July 10 through July 19
5. July 25 through August 2

ASSOCIATE MATRONS HONOR ASSOCIATE GRAND MATRON

The Associate Matrons of District II, Section 5, Order of the Eastern Star, honored Mrs. Molly Goodpasture, Associate Grand Matron of the Grand Chapter of Texas May 26 in the First National Bank Community Room. The room was decorated with pink and white organdy cloth and pink tea was served from a crystal bowl. There were fifty people registered from Quitaque, Matador, Roaring Spring, Paducah, Clarendon, Memphis, Silverton, Shamrock and Childress.

Mr. and Mrs. Pete Rice drove to Amarillo Sunday, sight-seeing, and had lunch at Myers Chicken at their new location at 2700 Georgia.

Mr. and Mrs. Cecil Boyles of Paducah spent Sunday at the home of their daughter, Mrs. Buddy Price and family.

Joe Seay received orders to report for service and will be leaving June 5.

Mrs. George Neatherlin of Temple spent several days here with her son, Seburn and his family this week. Seburn drove to Tulia last Saturday for his mother. She had been in Colorado visiting a sister who is very ill and had also visited in Tulia with her daughter, Mrs. Bunky Mills.

Sunday the Netherlins drove to Plainview and visited Mr. and Mrs. Barney Joe Martin and family.

Mrs. O. R. Stark, Jr. and children left Sunday evening for Sweetwater to visit her parents, Mr. and Mrs. Louie Hartgraves. O. R. Will join his family this week-end and they will leave on vacation.

Mr. and Mrs. H. K. Carpenter, Jr. and girls of Amarillo visited Mrs. Patsy Martin and children Sunday. The group took their lunch to the City Park and ate it. In the afternoon the Carpenters, Mrs. Martin and children and Mrs. Buddy Morris visited relatives and friends at the Lockney Convalescent Home. Mrs. M. T. Witcher, mother of Mrs. Morris, was not well Sunday but Mrs. Morris called Monday and she was feeling better.

Mr. and Mrs. Johnny Brummett spent from Wednesday until Saturday in Spearman at the home of their daughter and family, Mr. and Mrs. Claude Sheets and children, and other relatives. Mark and Lynn Sheets returned home with their grandparents for a visit this week. Connie Sue and Stanle Price visited Mark and Lynn at the Brummett home Monday.

T. Persons spent a recent vacation trip downstate where they visited in Dallas, visited Six Flags Over Texas at Arlington, and visited Mrs. Persons' daughter, Mrs. Barbara Kaether and family at Alvarado. Mrs. Persons remained almost a week with her grandchildren while the parents were on a business trip.

J. T. Persons attended a Board Meeting of the Federal Land Bank Mrs. Charlie Gowin and Mrs. J.

down state and went fishing at Lake Possum Kingdom before returning home. He brought some fish home.

Mrs. Christine Grundy of Lamesa brought her father, N. L. Bedwell, to his home last Saturday after his visit with her and her family and another daughter, Mrs. Reed Bethel and family. Mrs. Grundy spent the night with Mrs. Jess Grundy Saturday night.

Mr. and Mrs. Venoi Cain and boys and a friend, Joe Cheney, all of Pharr, Texas, arrived Tuesday for a visit with Venoi's parents, Mr. and Mrs. W. W. Cain.

Mr. and Mrs. George McAlavey of Flomot visited Mr. and Mrs. J. W. Harvey Sunday. Afternoon callers of the Harveys were Mrs. Grace Cox and Latresa and Mrs. Cox's father, Mr. W. B. Hughes of Silvertown.

Ellen and Mary Jo Thomas, daughters of Mr. and Mrs. Buck Thomas of Silvertown, are visiting their aunt, Mrs. Odell Johnston and family this week.

Mrs. Mary Johnston of Lefors is visiting at the home of her son, Wallace and Mrs. Johnston, and her grandson, Odell and his family this week.

Mr. and Mrs. H. W. Cross of Paducah spent the week-end with Mr. and Mrs. N. V. Hamilton. The Crosses report that they are retiring from teaching and plan to make their home at Commerce, Texas.

Mr. and Mrs. James May spent Sunday with her parents, Mr. and Mrs. J. W. Lutts at Estelline. Mrs. May took her father to Memphis to the Goodall Hospital for treatment for a knee injury. Mr. Lutts fell on Easter Sunday, injuring his knee and since that time he has had a number of injections and treatments on the knee. Mrs. May drove back to Estelline Monday to see how her father was feeling and found him improved.

Mr. and Mrs. Bill Mayfield and baby of Farwell spent Saturday night with his parents, Mr. and Mrs. J. A. Mayfield. They left the baby with his grandparents Sunday while they attended Commencement Exercises at West Texas

State. Mrs. Mayfield's brother, Bill McKenzie, was a member of the graduating class.

Jimmie Dell Mayfield, student at WT, attended Commencement Exercises here Friday night.

Mr. and Mrs. George Owens and Betty returned home Saturday from a two weeks vacation trip to Van Horn and Dell City. George brought back a pretty good fish story, and the proof. Numbered among his catch were two nine lb. catfish, two six pounders, a five pounder and one that weighed 1 1/2 lbs. after being dressed. Mrs. Olen Lane and Leigh Ann of Van Horn returned home with them for a visit here and at Turkey.

The Owens entertained Tuesday evening with a fish fry at their home. Guests were Mr. and Mrs. Luke Lane and Mr. and Mrs. Smitty Guest and children of Turkey, Mrs. Olen Lane and Leigh Ann of Van Horn, Mr. and Mrs. Seburn Neatherlin and their granddaughter Cindy Martin of Plainview, Aleta Neatherlin and Rodney Hammons and Barbara Moseley of Flomot and Mr. and Mrs. Gaston Owens and Eddie.

Mr. and Mrs. Ray Don King and baby of Abilene spent Friday night of last week with his grandparents, Mr. and Mrs. Buddy Morris. They left Saturday morning to visit his parents, Mr. and Mrs. Bill King and vacation in Colorado Springs, Colo.

Bernard Bray of Turkey and his sister, Bertha Heller of Hot Springs, Ark. visited their brother, Harry Bray and his wife last Friday night.

Mr. and Mrs. Glynn Barrett and children of Amarillo visited relatives and friends here Saturday. Glenna and Wanda Ramsey, Debbie Farley and Bobby Boyles of Silvertown returned home with the Barrett's to spend the week.

The Gaston Owens and Eddie visited in the home of their children, Mr. and Mrs. Dwain Henderson at Silvertown Friday night. They met Gaston's aunt, Mrs. Frank Gattis and daughter Linda, from Loco Hills, N. M. there for a short visit. Mrs. Gattis and Linda returned home Saturday, accompanied by her parents, the Rev. and Mrs. Malcolm Prince this week and attended the graduation exercises at Artesia, N. M. High School, where Linda is a member of the graduating class.

COTTON PLANT EXTRACTS REPEL AND ATTRACT BOLL WEEVILS

College Station — Scientists of the U. S. Department of Agriculture have extracted from the cotton plant a substance that repels boll weevils. It is the third substance extracted from the cotton plant with potential value for controlling the most destructive of all cotton insects, the boll weevil. The first substances were an attractant that draws weevils to cotton plant and a feeding stimulant which makes the plants appetizing to the insects. The three substances were found by scientists of USDA's Agricultural Research Service working in cooperation with the Mississippi Agricultural Experiment Station at the Boll Weevil Research Laboratory, State College, Miss.

Shaving Sidelights: Things You Never Knew About Your Beard

The repellent was discovered in connection with work with the attractant. When the attractant was warmed to room temperature, part of it vaporized or degraded. The part remaining proved repellent to boll weevils. A procedure was then developed for extracting the repellent from cotton squares (flower buds) and seedlings, the same part of the plant containing the attractant.

The scientists listed these possibilities for the substances. Plant breeders could conceivably develop cotton varieties either with a high content of the repellent so plants would repel weevils or with such a low content of the attractant that the plants would not attract weevils.

The discovery also introduces the prospect of starving boll by driving them away from the kind of food they need. In laboratory tests, weevils were kept away from cotton squares, bolls and seedlings for 5 to 12 hours even when they had no other food to eat. When

tractant that draws weevils to cotton plant and a feeding stimulant which makes the plants appetizing to the insects. The three substances were found by scientists of USDA's Agricultural Research Service working in cooperation with the Mississippi Agricultural Experiment Station at the Boll Weevil Research Laboratory, State College, Miss.

other food was available, the weevils left the treated plant parts untouched for 36 hours.

Other possible uses for the attractant include the luring of weevils to a trap or simply to an area away from the cotton plants. The

feeding stimulant does not attract weevils from a distance, but offers the possibility of forcing them to starve on the wrong kind of diet.

Research is continuing on the substances and cotton strains are being checked for their content of them.

HUMAN CLOCK: Coal mine research supports Princeton theory that body rhythms of sugar, gland, temperature, night-day, other levels must be simulated on space trips . . . **TRANSPLANT KEY:** Human organ grafting "takes" for much longer periods, thanks to use of chemical amethopterin in complex process . . . **PAIN FLUID:** New York volunteers who submitted arms to pinching, crushing, heat and electricity may ease suffering of millions. Their sores produced "pain substance" being studied for anti-pain effect . . . **LONG SLEEP:** Research in artificial hibernation, first developed for extremely ill, is spurred by aeromedics trying to reduce space traveler's body needs. Cooling "pulse mattress" being tried with drug combination . . . **NATURAL ENEMIES:** Over half-million weedy acres in West cleared by imported beetles.

SUCCESSFUL FAILURE: Birth control chemical rejected by company for human use is effectively birth-controlling bird pests . . . **NTH DEGREE:** Chemistry of nerves and muscles is advanced with device which measures temperatures in millionths of a degree . . . **"SAFE" TUMORS:** Some fish in every trout hatchery in U.S. have cancer, but survey shows no human hazard . . . **MORE OR LESS:** There may be more livestock in underdeveloped nations as result of chemical which keeps stored sperm cells alive for long periods without refrigeration. Another substance causes pregnant sheep to reabsorb its fetus . . . **FACE THERAPY:** Criminal habituality is allegedly reversed by Midwest plastic surgeon who has straightened face deformities of 1,800 convicts.

CREATURES OF DISTINCTION: Individuality is not exclusive human trait. Texas scientists find teetotalers, occasional imbibers and full-time drunks among chickens offered beer; finicky eaters, gluttons, athletic types and lazy softies among rats in similar tests . . . **ROSY ROSES:** Florists are dusting tranquilizers on plants to retard growth in timing sales for Easter and other holidays . . . **BUGGED SCHEDULE:** Germless apartment at U. of Illinois not ready as reported in last month's "Soundings". Construction problems delaying occupancy by two years.

(From Medicine at Work, publication of the Pharmaceutical Manufacturers Association).

TRAINING YOUR TOMATOES

Tomatoes may be trained in many ways: Sketch 1 — trained to 1 stem with all side shoots removed. Sketch 2 — trained to 2 stems, or 2 branches of 1 stem, tied to separate stakes. Sketch 3 — 2 stems, but trained to a single strong stake. Tying is unnecessary with supports shown in sketches 4 and 5.

Ask a woman and you'll get an opinion — especially on subjects close to home like house-cleaning.

Interviewers for the Gallup Survey rang doorbells recently with 6 questions for the lady of the house. If they didn't get to you, here's a chance to measure your answers with those who got counted.

1. Q. Do you think a household cleaner should also act as a disinfectant, deodorant, or both?
 A. 79 per cent of the women interviewed wanted triple-duty products.
 2. Q. Have you changed to a pine oil cleaner recently?
 A. One out of every eight women said they changed from noppine to pine oil brand within the last year.
 3. Q. Do you use disinfectants in your home?
 A. 81 per cent of the women interviewed do.
 4. Q. For what purposes do you use disinfectants in your home?
 A. Big use is in the bathroom (8 out of 10 women use them here). More than half use disinfectants in general cleaning.
 5. Q. Do you use a disinfectant in doing the laundry?
 A. 39 per cent of the women who use disinfectants use them in the laundry.
 6. Q. Is pine oil added to household cleaners to make it smell better, to improve cleaning, or to kill germs?
 A. Women interviewed gave various opinions. The correct answer to this one is that pine oil is added to improve cleaning and to kill germs — the pleasant aroma is an added plus.
- For a set of six free "Household Hints" leaflets, write to Dept. CR, Pine Cleaner Information Center, 1028 Connecticut Ave., Washington 6, D. C.

CARDS OF THANKS

I want to thank all my friends for their thoughtfulness during my stay in the hospital and since returning home. Thank you for the cards, flowers, gifts and visits. Especially do I thank you for your prayers. May God bless each of you.
 Mrs. Delene Tyler

SAVINGS BOND REPORT

Perry Whittemore, Chairman of Briscoe County's Savings Bond Committee, reports that Series E and H Savings Bond Sales in Briscoe County totaled \$20,768 in April. Sales for the first four months in 1963 were \$38,865 and 48.6 per cent of the year's goal has been achieved.

April bond sales in Texas totaled \$12,327,195. Sales for the first four months of the year were \$52,615,020 which represents 34.9 percent of the state's 1963 bond goal.

"The 1963 Freedom Bond Drive is in full swing throughout the Nation. Literally thousands of bond volunteers are working to bring the bond message to all Americans. We of the Briscoe County Bond Committee urge all citizens of Briscoe County to buy at least one bond during our Freedom Bond Drive, which ends July 4th," Chairman Whittemore said.

HIGHWAY PATROL REPORT FOR MONTH OF APRIL

The Highway Patrol investigated one rural accident in Briscoe County during the month of April according to Sergeant W. E. Wells, Patrol Supervisor for this area.

This wreck accounted for property damage in the amount of one hundred and fifty dollars.

The rural accident summary for Briscoe County from January through April of 1963 shows a total of five crashes resulting in no persons killed, one persons injured and an estimated property damage of \$1,375.00.

If you travel the rural roads this month, you will meet up with lots of slow moving farm machinery. The Patrol Supervisor reminds motorists to be ready to slow down in plenty of time to avoid collision and pass only if you are sure you can do it successfully and safely. Remember, too, where there is a farm house, there is a driveway—even though it may be hidden from view. So be prepared to yield, if you must, to traffic entering and leaving. Yielding right - of - way costs you nothing. DEMANDING it can cost you an accident.

The Sergeant also stated, "Owners of boat trailers should check to see that they meet the State's Motor Vehicle Laws. If they do not you are asking for an arrest or an accident—or both. Every time you take your trailer on the road, make sure all warning and safety devices are working properly. Check especially the lights, and the strength of hitch and coupling. It

is a good idea to make additional checks whenever you make a stop."

Hi-Plains Hi-Lights

NEWS from the High Plains Research Foundation

Can cotton be produced on the High Plains with one fourth of the irrigation water now used? That is the question that Dr. Arthur Gohlke, Soil Scientist at the High Plains Research Foundation is in the process of investigating.

Laboratory and greenhouse experiments currently underway may disclose the possibility of securing the same yield and a better quality of cotton with a much shorter stem and a thicker leaf. A hormone used in floraculture, was applied to cotton and barley by Dr. Gohlke in a greenhouse at Michigan State University in 1962. He was then engaged in post Doctorate research there. A continuation of this experiment is currently underway at the High Plains Research Foundation at Halfway, Texas.

Cotton plants treated with the hormone with one of several methods produce plants with shorter, thicker, stems and thicker dark green leaves. Even though the treated plants undergo a great morphological change, the hormone does not appear to influence the normal growth and reproductive

Laboratory and greenhouse experiments indicate that small grains and cotton treated with this hormone will produce normal crop yields with only one-fourth to one-half of the water required by untreated plants. The application of the hormone in sufficient amounts shortens the internode distance between leaves on the stem. This produces a short, dry weather cotton plant possibly capable of producing from one to two bales of cotton per acre with less irrigation water needed. The experiments currently being conducted in the laboratory and greenhouse will be conducted in the field this year.

Dr. Gohlke's ultimate goal is to produce a highly productive cotton plant with short stalk and heavy leaf that could survive a growing cycle. Laboratory and greenhouse experiments indicate that this hormone may be invaluable in the future of High Plains agriculture, Dr. Gohlke points out that this hormone is an experimental compound and is not approved or available for commercial use.

Dr. Earl Collier, Director of the Foundation, said in commenting on this new research project "We hope that this research project will provide information that will enable our farmers to produce a better quality of cotton with less water."

TURKEY BUTANE CO. RECOMMENDS AFCO FLAME CULTIVATION

FOR WEED-FREE CROPS

Time-tested and proved, AFCO Flame Cultivation is the best answer yet for complete weed, grass and vine control in rowcrops.

Weed control means higher yields — flaming means less weeds. Gas costs average less than \$1 per acre. Crops can be flamed at 4 to 10 acres per hour. And flaming does not harm the crop when used as recommended.

You owe it to yourself to learn more about AFCO Flame Cultivation. Let us discuss flaming with you, or better yet we can arrange a demonstration.
