ROGERS SAYS RING THE BELLS

THE FOURTH OF JULY 'We hold these truths to be self-evident, that all Men are not WE. created equal, that they are en. dowed by their Creator with among these are Life, Liberty, and the Pursuit of Happiness.

So declared the Representatives of the United States of assembled, on July 4, 1776.

Declaration of Independence government that has been of of petition and other righs asparamount influence through all sured by the Constitution. the days of the Republic.

On this occasion of the 187th anniversary of that first Fourth of July, Independence Day, let us pause a moment and remember that Thomas Jefferson and the other "Representatives of the United States of America" were declaring their intention to establish a government more in keeping with distinctly Ameri. can ideals than that government which had exercised such tyran. neous powers over the colonies and their peoples. The founders were not declaring their intention to do away with govern. it of thinking of the govern. 'absolute Despotism." They declared it was their "Right.

Boating Tips ...

FISHING BOATS AREN'T ALLOWED TO OBSTRUCT TRAFFIC

Knowing the rules of the road is vital for safe and competent small boat handling. Since they are based on common sense, these rules are easy to learn and remember. Mercury boating authorities say the following are among the most important: keep to the right in narrow channels and when meeting another craft head on. And "commit" yourself early by turning off a collision course when there is still considerable distance between your boat and an oncoming one. Give way to any boat approaching in your danger zone—your right-hand side from dead ahead to slightly more than a right angle. Sailboats have right away over powerboats. Craft being overtaken and boats leaving docks also have the right of way. Observing these rules will enable you to meet any water-borne traffic situation with confidence. Knowing the rules of the road is vital for safe and competent
