Legislation Provides New Cotton Provisions

Upland cotton farmers will be able to choose between three acreage allotment programs under the new legislation enacted on April 11, Louie Kitchens, Chairman, Agricultural Stabilization and Conservation County Committee said today.

The choice will be between: A. Growing cotton under the old program—keeping within the "effective" allotment (the allotment established for the farm last fall plus an reapportioned acreage), and thus qualifying for a price support loan at the basic level of 30 cents a pound, Middling 1-inch cotton at average location; or

B. Reducing cotton acreage and keeping within a smaller "domestic" allotment, thus qualifying for the regular price support loan and an additional price support payment of 3.5 cents a pound on the normal yield of the cotton acreage determined for the farm. For farms with an effective allotment of more than 15 acres, the extra price support payment will also depend on the producer's not exceeding the farm's feed grain base. The farm's domestic allotment in most cases is 67 percent of the farm's "effective" allotment except that for small farms the domestic allotment is the smaller of the effective allotment or 15 acres.

C. Planting cotton within the farm's 1964 effective cotton allotment plus up to 5 percent as "export market acreage," provided an application is filed by June 1, 1964, and bond furnished within 15 days after such filing. In this case, all the cotton except the part credited to the export acreage would be eligible for the basic price support of 30 cents. The additional price support payments, however, would not be eligible to growers planting an export market acreage.

The chairman pointed out that the new program supplements, rather than supersedes, the cotton, the cotton program which has been in operation in prior years. Marketing quotas will be in effect for the 1964 cotton crop, as approved by growers voting in a referendum last December, and any "excess" cotton will be subject to marketing quota penalties, as in former years.

One major difference for 1964 is that the grower may, if he wishes, plant a one-third smaller acreage of cotton and meet other conditions of the program and in return be eligible for a 3.5 cent price support

payment in addition to the regular price support loan at the 30-cent rate. The acreage not planted to cotton because the grower planted within the smaller "domestic allotment" may be planted to other crops (with the feed grain limitation mentioned under point "B" above), thus providing an additional source of income.

The other major difference is that a grower may produce some cotton to sell at the world price if he files an application by the June 1, 1964 deadline and furnish a bond assuring that the cotton from the export acreage will be exported without Government subsidy.

Mr. Kitchens said that notices will soon be mailed to growers containing information on the new program provisions as they apply to the individual farm. If the grower wants to plant and export market acreage, he will need to file an application at his ASCS County office by June 1, 1964, and furnish the bond within 15 days after such filing.

Growers will decide which allotment they wish to use and plant on the basis of that allotment. If the acreage is determined in excess of the chosen allotment, the producer will have a period during which he can adjust the acreage. After the planted acreage is verified and found to be within the domestic allotment, the eligible producer will then file an application for the additional price support payment.

COTTON QUOTAS STILL IN EFFECT IN '64

Cotton marketing quotas will continue in effect in 1964, as approved by growers last December, Louie Kitchens, Chairman, Agricultural Stabilization and Conservation County Committee, said today. The question arose as a result of the recently enacted cotton legislation, which supplements the cotton program already in effect. Marketing quotas were approved for the 1964 upland cotton crop by 94 percent of the growers voting in a referendum throughout cotton producing areas.

The Chairman explained that under a quota program, marketing penalties apply to any "excess" cotton. This part of the program will operate the same as in former years.

The difference this year, is that, under the new cotton legis-

lation, the upland cotton grower will have three allotment programs to choose from. He can choose to keep his cotton plantings within the old "effective" farm allotment (after any re-lease or reapportionment); he can plant within a smaller "domestic" farm allotment and use the acreage so reduced for other crops—but not in excess of his farm's feed grain base if the farm has an effective allotment of more than 15 acres; or he can plant within the effective farm allotment plus an acreage (5 percent of the allotment) for export only, after filing an application by June 1, 1964, and furnishing bond that the export acreage production will be exported without Government subsidy.

Under both the effective and the domestic allotment plans, the farmer will be eligible for the usual price support cotton loan, at a basic level of 30 cents a pound Middling 1-inch cotton at average location. Under the domestic allotment plan, the farmer will be eligible for an additional price support payment of 3.5 cents per pound on the normal yield of the cotton acreage planted for harvest within the domestic allotment, provided he also meets the programs' feed grain provisions where applicable. Under the export acreage plan, the farmer will be eligible for the 30-cent price support loan on all his cotton except that credited to the export acreage.

Mr. Kitchens said that all growers should decide which allotment they want to use and plant accordingly. If the cotton acreage is determined in excess of the chosen allotment, the grower will have an opportunity to adjust the acreage to the allotment by a deadline to be established by the ASC County Committee.

To The People of Briscoe County

I wish to take this means of expressing my appreciation to the people of Briscoe County for the courtesy they have shown me during my campaign for sheriff.

I have made great effort to see each and every one of you, though I have missed a few I left cards at their homes.

I want the people to take this as my personal request for their vote and support on May 2.

Sincerely,
Vinson Smith
Candidate for Sheriff

TUESDAY, MAY 5 LAST DAY FOR ABSENTEE VOTE ON BOND ISSUE

Commissioner Edna Hawkins reminds local voters that Tuesday, May 5, is the last day for absentee voting on the Hospital Bond Election and if you are going to be away on Saturday, May 9, then you are urged to take advantage of the few days left for absentee voting and cast your vote one way or another in this important issue.

Absentee voting will take place in the County Clerk's office at Silvertown.

Johnny King and Lulu of Fort Worth are visiting his parents, Mr. and Mrs. John King, this week. Johnny is recovering satisfactorily from a recent auto accident and surgery following the accident.

and Jeanette Montoya, Flomot, 2nd in Sr. Share-the-Fun; and Linda Gowin, 3rd in Jr. Share-the-Fun.

District 9-B Tennis Players Champs

District 9-B walked away with all the tennis honors at Region One tennis tournament held last Friday and Saturday at Texas Tech.

Terry Woods and Jack Johnson of Quitaque, who breezed to the district championship, losing only 2 games of 36 played in the district tournament, took the Regional title with little more opposition.

Johnny Lacy of Turkey won the boys singles; Nikki Clements of Lakeview took the girls singles, and Sandy Verden and Tommy Payne of Lakeview won the girls doubles to make it a clean sweep for this district.

Jack Johnson took fourth in the discus toss on Friday in the track and field events.

The Woods-Johnson team drew a first round bye at Lubbock; Nazareth was the first victim of the Quitaque team, falling 6-0, 6-0; Jayton was the semi-final foe of Johnson and Woods and that team went down 6-2, 6-1; in the finals of the tourney Quitaque won over Shallowater, 6-2, 6-1, 6-1.

Thus, the Quitaque team lost only 9 games of 85 played in district and regional play.

This advances the teams to the state tournament, which will take place at Austin on May 8 and 9. Supt. Johnny Mason, who is the tennis coach, and Coach Gene King, will accompany the Johnson-Woods team to Austin.

HAD TONSILS REMOVED

Jimmie Don and Jon David, small sons of Mr. and Mrs. Jimmie Davidson, had their tonsils removed in Groom Memorial Hospital Saturday morning. They returned home Sunday at noon, and at latest report, they are doing fine.

DISCUSS HOSPITAL QUESTION

A group of interested citizens from Silvertown met with a group of local residents in the Quitaque school auditorium to discuss the upcoming hospital and bond vote question, the bond election to be Saturday May 9.

The Silvertown group explained to those present something of the background of the hospital program and explained why action must be taken now in order to qualify for Hill-Burton now or wait at least another year before trying for the help from that agency.

A lively question and answer session took place during the evening with some of the questions and their answers being as follows:

The question was asked if it would be possible for this precinct to withdraw from the hospital district if this precinct voted against the bond issue. The answer to that question is no—the county vote as a whole rules.

Dr. Muckleroy stressed the need for 100 percent cooperation on a county-wide basis if the hospital is to be a success.

When asked what his attitude would be if there is a close vote on the issue, Dr. Muckleroy said that if the issue passed, but was by a very close margin, indicating only possible support, that he would meet with the Commissioners' Court and recommend that the bonds not be issued.

Dr. Muckleroy also told the group that if Quitaque voted the issue down by a substantial margin, for instance, 5 to 1 against, even though the vote might carry on the Plains, he would still meet before the Commissioners' Court and recommend that the issue go no further, for he stressed that it will take the full cooperation of every resident of the county to make a hospital a success. Dr. Muckleroy also expressed

DOGS TO BE VACCINATED AGAINST RABIES MAY 12

Dogs will be given rabies vaccinations on Tuesday, May 12 at the Quitaque Vocational Ag Shop behind the High School building, according to Elmer Berryhill, Vo-Ag teacher.

The shots will be given the one day only, and since it has been two years since anyone has been in Quitaque for this purpose, everyone who has a dog is urged to take advantage of this chance to have their pets immunized against this deadly disease.

The vaccinations will begin at 8:30 a. m. and will end at 3:30 p. m. Don't forget the date—Tuesday, May 12. Be sure to take advantage of this.

This project is sponsored by the Quitaque F.F.A. Chapter. The fee for this service will be \$2.00 per animal.

To The People of Precinct No. 2

As election day is Saturday, May 2, I want to remind the voters of my candidacy for the office of Commissioner of Precinct No. 2. I have made a determined effort to meet and personally solicit each voter in the precinct, but it is possible that I have not had the opportunity to contact some of you.

I hope you will consider this a personal solicitation for your vote. It has been a pleasure to see and visit with the people of this precinct. Your vote and influence will be greatly appreciated.

Sincerely,
B. K. Hamilton

SATURDAY IS FIRST PRIMARY

To The Voters of Precinct No. 2

Saturday is the day for the first Democratic Primary and I want to urge everyone to go to the polls and vote, and to take this as my solicitation for your vote and influence in Saturday's election.

I have made a real effort to see every voter in Precinct No. 2 but there have been a few that I have been unable to see but I did leave my card at the homes when I found no one there.

I appreciate all past considerations that you have shown me. I would like to say also that I appreciate the campaign conducted by the other two men in the race. They have conducted themselves in a gentlemanlike manner and I appreciate this.

If you see fit to elect me Commissioner I will do my best to take care of the needs of this precinct as well as the business of Briscoe County.

Sincerely,
Orval Cobb

Memorial Services Held Last Sunday At Turkey For Mrs. Roxilea Hall

Funeral services for Mrs. Roxilea Hall, wife of Dr. Richard M. Hall of Turkey, were held at 3 o'clock last Sunday afternoon in the Turkey Church of Christ.

Officiating at the service were Jack Hutton, minister of the church, Alva Johnson, a retired Turkey minister, and H. B. Mason, Kirksville, Mo., Church of Christ minister.

Burial was in Dreamland Cemetery at Turkey under the direction of Seigler Funeral Home.

Mrs. Hall died at 3:40 p. m. Thursday in Groom Memorial Hospital.

Roxilea Keeter Hall was born October 28, 1929, in Claude, and graduated from Groom High School.

She was married to Richard M. Hall on October 7, 1951, in Alpine.

Mrs. Hall attended Texas Tech was a graduate of Sul

Thanks, Folks!

I want to say a few words of appreciation to the people of this precinct for the many words of kindness and encouragement which have been expressed to me during my campaign in the Commissioner's race. I sincerely appreciate every one of them.

I have made an effort to see everyone in this precinct but I have not been able to contact everyone. I believe that I did leave a card at every home where I did not personally contact anyone.

I urge everyone to vote in the First Primary on Saturday and I will appreciate your vote and support in the election.

If elected I will do my very best to conduct the affairs of Precinct No. 2 and the county to the very best of my ability.

Thank you,
Charles Gowin

Judge and Mrs. Arthur Tipps and family of Wichita Falls spent Friday night and Saturday morning with his sister, Mrs. N. V. Hamilton and Mr. Hamilton.

Saturday, May 2, is the day for voters to go to the polls in the first Democratic Primary and cast votes for the candidates of their choice.

Many of the candidates on the ballot, from the Governor's race on down to the local level have opposition, so the voter will have some choosing to do. The race for governor is likely to be hotly contested, as well as many others.

In Briscoe County, voters will elect a sheriff, and incumbent Johnny Lanham has two opponents, Vinson Smith and Raymond Grewe, both of Silvertown. Grewe is a former sheriff of this county; also to be elected is a County Attorney, and three commissioners.

County Attorney George Miller is a candidate for reelection and is unopposed.

Precinct No. 2 must elect a County Commissioner, since the death of Mort Hawkins caused that vacancy. His widow, Mrs. Edna Hawkins is serving as Commissioner until the General Election in November.

There are three candidates in the race for Commissioner of Precinct No. 2: Orval Cobb, B. K. Hamilton and Charles Gowin. Hamilton is a former commissioner of this precinct.

Voters are urged to go to the polls Saturday and vote—vote for the candidate of your choice—but vote.

ELECTION ORDER THE STATE OF TEXAS COUNTY OF BRISCOE

ON THIS, the 17th day of April, 1964, the Commissioners' Court of Briscoe County, Texas, convened in regular session at the regular meeting place thereof in the Courthouse at Silverton, Texas, the following members of the Court, to-wit:

M. G. MORELAND, COUNTY JUDGE, Presiding; and

L. H. WATTERS, COMMISSIONER, Precinct No. 1

Mrs. EDNA EVELYN HAWKINS, COMMISSIONER, Precinct No. 2,

A. D. ARNOLD, COMMISSIONER, Precinct No. 3,

ROY S. BROWN, COMMISSIONER, Precinct No. 4

being present, and among other proceedings had by said Court, were the following:

WHEREAS, a petition has been duly presented to the Commissioners' Court of Briscoe County, Texas, wherein the petitioners, alleging themselves to represent more than ten per cent (10%) of the resident qualified property tax-paying voters of Briscoe County, Texas, who have duly rendered their property for taxation, and praying this Court to order that an election be held in said County to determine whether or not bonds of said County shall be issued in the total principal sum of ONE HUNDRED EIGHTY FIVE THOUSAND DOLLARS (\$185,000), bearing interest at a rate not to exceed FOUR AND ONE-HALF PER CENTUM (4½%) per annum, and to mature serially within any given number of years not to exceed TWENTY FIVE (25) years from their date, for the purpose of establishing and equipping a county hospital to be located in or near the city of Silverton, Texas, and for all necessary permanent improvements and buildings in connection therewith, pursuant to authority conferred by the Constitution and laws of the State of Texas, particularly Section 9, Article 8 of the Constitution, and Chapter 1, Title 22, and Chapter 5, Title 71, Revised Civil Statutes of 1925 as amended; and whether or not a tax sufficient to pay the interest on said bonds and to provide a sinking fund sufficient to pay the principle thereof at maturity shall be levied on all taxable property within said County, and

WHEREAS, this Court, upon due advice and investigation, has ascertained and determined that said petition is signed by more than ten per cent (10%) of the resident qualified property taxpaying voters of Briscoe County, Texas, who have duly rendered their property for taxation, and that such petition should be granted, and that the election as prayed for in such petition should be ordered; therefore

BE IT ORDERED BY THE COMMISSIONERS' COURT OF BRISCOE COUNTY, TEXAS:

THAT an election be held in said County on the 9th day of May, 1964, which date is not less than fifteen (15) nor more than thirty (30) days from the date of the adoption of this order, at which election the following proposition shall be submitted to the qualified voters who own taxable property in said County and who have duly rendered the same for taxation, for their action thereupon:

"SHALL the Commissioners' Court of Briscoe County, Texas, be authorized to issue the bonds of said County in the total prin-

cipal sum of ONE HUNDRED EIGHTY FIVE THOUSAND DOLLARS (\$185,000), to mature serially within any given number of years not to exceed TWENTY FIVE (25) years from the date thereof, bearing interest at a rate not to exceed FOUR AND ONE HALF PER CENTUM (4½%) per annum, for the purpose of establishing and equipping a county hospital to be located in or near the City of Silverton, Texas, and for all necessary permanent improvements and buildings in connection therewith, and to levy a tax sufficient to pay the interest on said bonds and to create a sinking fund sufficient to pay the principal thereof at maturity, pursuant to authority conferred by the Constitution and laws of the State of Texas, particularly Section 9, Article 8 of the Constitution, and Chapter 1, Title 22, and Chapter 5, Title 71, Revised Civil Statutes of 1925, as amended?"

That said election shall be held under the provisions of the Constitution and laws of the State of Texas, particularly Section 9 of Article 8 of the Constitution and Chapter 1, Title 22 and Chapter 5, Title 71, Revised Civil Statutes of 1925, as amended, and all persons who are legal voters of said Briscoe County, Texas, and who have duly rendered their property for taxation, shall be entitled to vote at said election.

NEWS from the High Plains Research Foundation

Dr. Earl Collister, Director of the High Plains Research Foundation, announced the ad- dition of Bob Angeley to the Staff of the Foundation. Mr. Angeley will fill the position of Public Relations Representative. Bob, formerly with the Farm and Ranch Department of KG- NC radio and TV in Amarillo, is well known in the Spring- lake, and Muleshoe, Texas area where he went to school.

Angeley's farming experience in Lamb County, under irri- gated conditions, gives him ready knowledge and under- standing of the agriculture needs of West Texas. Bob will travel extensively over the High Plains to assist in the educational work for the Foundation.

He graduated from Spring- lake High School and attended college at Eastern New Mexico University at Portales, N. M.

Dr. Earl H. Collister stated, "With the growth of, and ad- ded demands upon the Found- ation, we find that we must en- large the staff of many of our departments. Bob Angeley, with his knowledge of West Texas and the High Plains, will be of great value to the Foundation in our educational program."

Bob, his wife Gaye, and their two children now live in Plain- view.

Dr. R. G. Garrett, Executive Director of the Texas Animal Health Commission, announces the reaccreditation of B r i s c o e County as a modified Accredited Tuberculosis Area.

County Agent Leon E. Gros- didier, has received a certificate which is good for six years. The commission expressed its appreciation to the people of Briscoe County for the splendid cooperation extended to its rep- resentatives while work was be- ing conducted in Briscoe County and requests the further cooper- ation of the citizens of the area to maintain the tuberculosis status of the county.

Planting Dates May Influence Size of Weevil Population

Weather conditions during the spring and early summer will to a large degree determine the size of the boll weevil popu- lation in the infested areas be- low the Caprock. However, farmers in infested areas should be aware of the factors involved in both late and early plantings as far as weevils are concerned. Early plantings — in some cases — gives time to set a crop before larger weevil populations develop, points out Don Rum- mel, Extension Entomologist. Early plantings will also attract early emerging weevils and ac- tually serve as trap crops. April cotton provides early food and breeding sites and allows for extra generations.

If farmers in weevil infested areas would avoid planting un- til May 10 - 15, some early emerging weevils would die from lack of food. If planting takes place over a long period— early to late—emerging weevils are assured of a constant food supply, probably resulting in heavier over-all infestations, the entomologist warns.

DEBUT NEARS FOR \$75 SAVINGS BOND

A reminder that the new \$75 series E United States savings bond, bearing the portrait of the late President Kennedy, will go on sale May 1 came today from O. R. Stark, Jr., local savings bond chairman.

Decision to issue the \$75 bond which fills a gap in the lower denomination range of savings bonds, was announced by the White House late in January. The issue date of May 1 was fixed to coincide with the launching of "Operation Security," a nation-wide savings bonds campaign which runs un- til July 4. May 1 is also the 23rd anniversary of the issuance of the first series E Bond.

Purchase price of the new bond, which reach full redemp- tion value in seven years and nine months, is \$56.25.

The new bond is not a "me- morial" to the late President, in that it is no different from other denominations of savings bonds, all of which bear portraits of deceased chief executives. How- ever, beneath the portrait of Mr. Kennedy are carried the words from his inaugural address: "Ask not what your country can do for you; ask what you can do for your country."

FLOMOT SCIENCE STUDENTS TO VISIT SPACEMOBILE

Since it was impossible to schedule the Spacemobile for every school, Supt. Barron, on learning that the Spacemobile program would be at the Lock- ney schools on May 1, made plans in June of 1963 to take the science and math students of Flomot to Lockney to see the program. This program in Texas is sponsored by the Di- vision of Program Development of the Texas Education Agency. In instances where knowledge cannot be brought to the stu- dents, the Flomot school sys- tem believes in taking the stu- dents to the knowledge.

Tech Science Professor Visits Flomot Science Department Dr. Arthur L. Draper, As-

sociate Professor of Chemistry at Texas Technological College, visited the Science and Mathe- matics department of the Flo- mot school system on April 16. Dr. Draper's visit was made possible by a grant made by the National Science Foundation to the Texas Academy of Science. Dr. Addison E. Lee is the pre- sent director of the Visiting Scientist Program of the Texas Academy of Science.

The Visiting Scientist Pro- gram in the fields of science and mathematics set up for junior and senior high schools who qualify. It makes possible visits of professional scientists dur- ing the school year to discuss up- to-date knowledge in their fields.

Dr. Draper received his Ph. D. from Rice Institute, and has been of the Tech faculty since 1959. Alignment of atoms in solids is Dr. Draper's special field. He brought plastic models of two of the more than 23 ways solids are joined. He dis- cussed recent developments in chemistry and physics as well as career opportunities in these fields.

The first hour of his visit to the Flomot School, Dr. Draper talked to the Seventh and the Eighth Grades. The second hour was spent with the high school. The entire third hour was spent answering the questions of the high school students interested in science and mathematics. In the afternoon a high school class in mathematics asked to hear him. Special conferences were arranged for individual inter- views and questions. At the end of the school day Dr. Draper commented that Flomot had the most inquisitive and interested group of students to which he had spoken in several years.

In recent years many changes in the school's curriculum have been suggested by men of sci- ence, industry, and business.

FOR SALE: Two good used typewriters. One Royal standard and one Royal portable. See them at The Tribune.

Flomot schools hope to benefit recently. They were met there from Dr. Draper's experiences relating to the fields of mathe- matics and science.

Mr. and Mrs. Ralph Carter visited their children, Mr. and Mrs. Larry Hedrick and Scott at Plainview Saturday after- noon.

Mr. and Mrs. Barney Joe Martin and children of Plain- view spent Sunday with her parents, Mr. and Mrs. Seburn Neatherlin.

James and Donnie Brunson and Joe Bedwell are spending a few days his week in Truth or Consequences, N. M. on a fishing trip.

Mrs. Jim Stell of Friona spent a few days last week with her daughter, Mrs. Jack Chand- ler and family. Mr. Stell join- ed his wife Sunday and she ac- companied him home.

Mrs. Clovis Hill and baby of Amarillo visited her parents, Mr. and Mrs. A. C. Barrett on Thursday of last week.

Mrs. Dud Watters and Sandra of Silverton visited their mother and grandmother, Mrs. Willie Lou Boyles Saturday afternoon.

Mr. and Mrs. Carl Brown and Carl, Jr. accompanied Mr. and Mrs. S. C. Brown on a fishing trip to Granite Shoals

recently. They were met there by Mr. and Mrs. Bumpy Farley and Dianne. They report poor fishing but a nice trip. They drove on to San Antonio where they visited the Alamo, and then went to the Longhorn Caverns and also the L.B.J. Ranch.

Facts, Figures, And Opinions

- Q. Will the proposed hospital be a county hospital?
A. No. It will be a hospital district hospital with the district boundaries the same as the boundaries of Briscoe County.
- Q. What is the difference between a county hospital and a district hospital?
A. A county hospital would be maintained with county funds and supervised through the Commissioners' Court. A district hospital would be maintained with hospital district funds and supervised by hospital district commissioners elected by the people of the district.
- Q. Will the county be responsible for the financial operation of the hospital?
A. No. By law the county cannot support a district hospital in any way.
- Q. Will the Commissioners' Court continue to pay for charity patients?
A. No. By law a hospital district assumes the responsibility of the indigent (charity) patients.
- Q. Where will the hospital district get its money?
A. A special hospital district tax is levied on the county valuation not to exceed 75c per \$100.00 valuation.
- Q. Will a hospital district tax change my state, county or school taxes?
A. No. A hospital district tax will not affect other taxes.
- Q. Who collects hospital district taxes?
A. By law the county tax collector assesses and collects the tax.
- Q. Does a part of the hospital district tax go to the county or state?
A. No. All hospital district tax money goes to the hospital district.
- Q. Will the hospital be built with Federal funds?
A. Yes. Hill-Burton funds match all other funds dollar for dollar, in- cluding private donations.
- Q. What are Hill-Burton funds?
A. Hill-Burton funds are state administered federal funds used to build non-profit medical facilities.
- Q. Will there be any Federal controls on the operations of the hospital.
A. No. Hill-Burton participates in a building and equipping program only, and has nothing to do with operation.
- The ONLY times Hill-Burton re-enters the local picture are when the hospital needs to be enlarged or in the event the hospital is sold. If the hospital district sells the hospital to a private concern or individual, Hill-Burton demands their half of the proceeds. There would be no government control of the hospital—the hospital would be 100 per cent controlled by the elected commissioners of the hospital district.
- Q. Does Hill-Burton help on hospital fixtures and equipment?
A. Yes. Hill-Burton participates on a 50-50 basis on the complete unit, including all fixtures, equipment, supplies and the medicine needed to open the hospital.
- Q. Are Hill-Burton funds available for operation of the hospital?
A. No. Hill-Burton funds are for construction and equipping only.

Jim LANGDON
FOR RAILROAD COMMISSIONER

a BIG MAN
FOR A **BIG JOB**
For ALL the People!

That Swisher County Hospital lost \$40,000 on operations last year has been a widely-discussed fact. Scarcely anyone has asked how or why this deficit operation is so.

Following is a letter which Dr. Neville Muckleroy received last week from Jack Driskill, Swisher County Judge:

To confirm our telephone conversation dated the 15th of April, 1964, I would like to explain why our County Hospital has showed a considerable loss. The views expressed below are my personal views.

Our Hospital is a two story affair, which requires RNs on each floor for each of the three eight hour shifts as well as LVNs and nurses aides. This one factor probably costs us in payroll around \$3,000.00 monthly; whereas if we had a one story Hospital the help required would be considerably less.

The maintenance is quite high on an old building as well as electricity and other bills.

It is my opinion that with a new building properly built any County could expect to break even for a number of years and probably never loose over \$12,000.00 a year.

Hope this will be of some help and I would like to see Briscoe County establish a hospital. I certainly believe it is a definite asset to your community.

Sincerely,
Jack Driskill

Experts in the field of hospital planning have done extensive research in the matter of the economics of hospital operation. The architects who have been working on a preliminary plan for the proposed Briscoe County Hospital have implemented in their plan ways to increase the economy of operation of a local hospital through the use of a one-story structure, one centrally-located nurses' station, etc. Physical design has a great deal to do with the economy of operation of a hospital.

In some cities old hospital buildings are actually being abandoned in favor of building new structures. It is more economical to build a modern hospital plant which can be operated with a smaller deficit than to continue absorbing tremendous financial losses.

Swisher County Hospital has been used as the classic example by those opposing hospitals because of its antiquated facilities which cause terrific and often unnecessary personnel expenses.

Judge Driskill pointed out that they have 49 on the hospital payroll with salaries of \$10,700 per month. On Sunday evening of this week there were no patients on the first floor (maternity) and the receptionist, registered nurse, LVN and aides were on duty with no duties.

The exact cost of operation of the proposed Briscoe County Hospital would be impossible to determine because it will be directly proportionate to how much the people will use the entire hospital facility.

In a letter dated March 31, 1964, to Dr. Neville Muckleroy, the Texas State Department of Health advised: "The area in which Silverton is located is an intermediate hospital service area, which has a relatively high priority for assistance under this (the Hill-Burton) program, since only 44.5% of the bed needs have been met." (This area referred

to includes Memphis, Floydada, Tulia and Clarendon.)

The Texas Health Department figures hospital needs on the basis of four beds for every 1,000 residents. Briscoe County has approximately 4,000 residents, which indicates a need for a 16-bed hospital, the size being planned by architects.

It is generally agreed by people who have studied the situation that hospitals, as such, rarely show a profit; in fact, most hospitals operate at a loss of between \$1.50 and \$5.00 a year per capita in the area served. An accurate figure would be impossible to determine, but during the early stage of operation let's assume the proposed hospital would lose \$1,000.00 per month, for the sake of figuring individual tax rates.

The \$185,000 bond election set for May 9 would be for Briscoe County's share of the hospital (bonds must be approved by the voters before application can be made for the Hill-Burton matching funds). The following table was prepared by the First Southwest Bonding Corporation of Lubbock, showing how the \$185,000 with 4% interest could be retired in 20 years.

\$185,000 PROPOSED HOSPITAL BONDS			
Year	Principal	Interest	Total
1966	\$ 3,000	\$11,040	\$14,040
1967	7,000	7,140	14,140
1968	7,000	6,860	13,860
1969	7,000	6,580	13,580
1970	7,000	6,300	13,300
1971	8,000	6,000	14,000
1972	8,000	5,680	13,680
1973	8,000	5,360	13,360
1974	9,000	5,020	14,020
1975	9,000	4,660	13,660
1976	9,000	4,300	13,300
1977	10,000	3,920	13,920
1978	10,000	3,520	13,520
1979	11,000	3,100	14,100
1980	11,000	2,660	13,660
1981	11,000	2,220	13,220
1982	12,000	1,760	13,760
1983	12,000	1,280	13,280
1984	13,000	780	13,780
1985	13,000	260	13,260

The table shows \$13,672 for bond and interest payments, and allowing \$12,000 a year for operating losses, the total necessary is \$25,672 a year total increase in county tax receipts needed to finance and operate the proposed hospital. Based on the 1963 county tax valuation of \$7,162,313, a 40c tax rate would bring in \$28,649.25 a year which would allow bond and operating loss payments with about \$3,000 surplus. (The 40c rate is estimated; the exact rate would be determined by the elected commissioners of the hospital district based on the need up to a legal limit of 75c.) Based on the 40c rate, the following are actual example figures taken from the Briscoe County Clerk's office:

The increase in taxes of 1/4 section of irrigated land located south of Silverton which recently sold for \$600 an acre which has a tax valuation of \$3,210.00 would be \$12.84 a year.

Hospital taxes on a section of land north of Quitaque in the breaks which has a county tax valuation of \$1,250.00 would be \$5.00 a year.

Increase in taxes on a cultivated dryland section with house (that owner lives in) north of Silverton which has a county tax valuation of \$6,090.00 would be \$24.36 a year.

A dry section without a house valued at \$5,885.00 would be taxed \$23.54 a year.

A section of flat grassland above the Caprock which has a tax value of \$5,500.00 would be taxed \$22.00.

The taxes on 1/4 section irrigated land with three 8" wells, new house for hired hand and gas line with a tax valuation of \$5,265 would amount to \$21.06 a year.

Taxes on 200 acres cultivated land with owner's house located one mile south of Quitaque on pavement with a value of \$2,490 would be \$9.96 a year.

Increase in the taxes of 158 acres irrigated land about a mile south of the Midway-Drive in which recently sold which has a county tax valuation of \$1,640 would be \$6.56.

A new brick home in north Silverton (about 2100 square feet) with a tax value of \$2,450.00 would be taxed \$9.80.

A nice frame house in the west part of Silverton (1300 square feet) is valued at \$1,110.00, and the hospital tax would amount to \$4.44.

A new brick home in south Silverton (2100 square feet plus double garage) is valued at \$2,395, and the hospital tax would be \$9.58.

The building, equipment and inventory of the Briscoe County News is valued at \$2,370 for county tax purposes, and would be assessed \$9.48 per year. (This does not include publisher's residence on which he also pays taxes.)

To determine your personal share of hospital tax, determine your county tax valuation from your 1963 tax receipt and multiply by 40c. (Don't confuse the county tax with the city and school taxes, which are higher.)

According to the Texas Almanac, in 1962 Texas took in \$94,686,951 in cigarette and tobacco products tax; with almost 10,000,000 people living in Texas, this averages a little more than \$9.47 for each man, woman and child. In Briscoe County, based on the 1960 population of 3,660, local residents contributed \$34,660.20 in tobacco taxes—much more than enough to finance a county hospital!

In 1962, Briscoe County spent \$124,596.52 for county expenses, including jury, jail, general fund (includes salaries), and county road maintenance (not including any paved roads.)

According to the Texas Almanac in 1960 there were 954 families living in Briscoe County. According to statistics, 75% of the people now carry hospitalization insurance. This would mean that about 716 families living in Briscoe County are insured at an average rate of \$200.00 per family (\$143,200.00), and have no place to use this hospitalization insurance.

Figure the cost of your trips to visit friends in out-of-county hospitals. Figure the cost of your trips to the hospital when you or a member of your family is sick; figure the cost of your meals and lodging while you are at the hospital with a relative. To figure your car expenses accurately, including the depreciation on the automobile, gas, oil, etc., you must figure 10c a mile. Are you really saving money by using an out-of-county hospital?

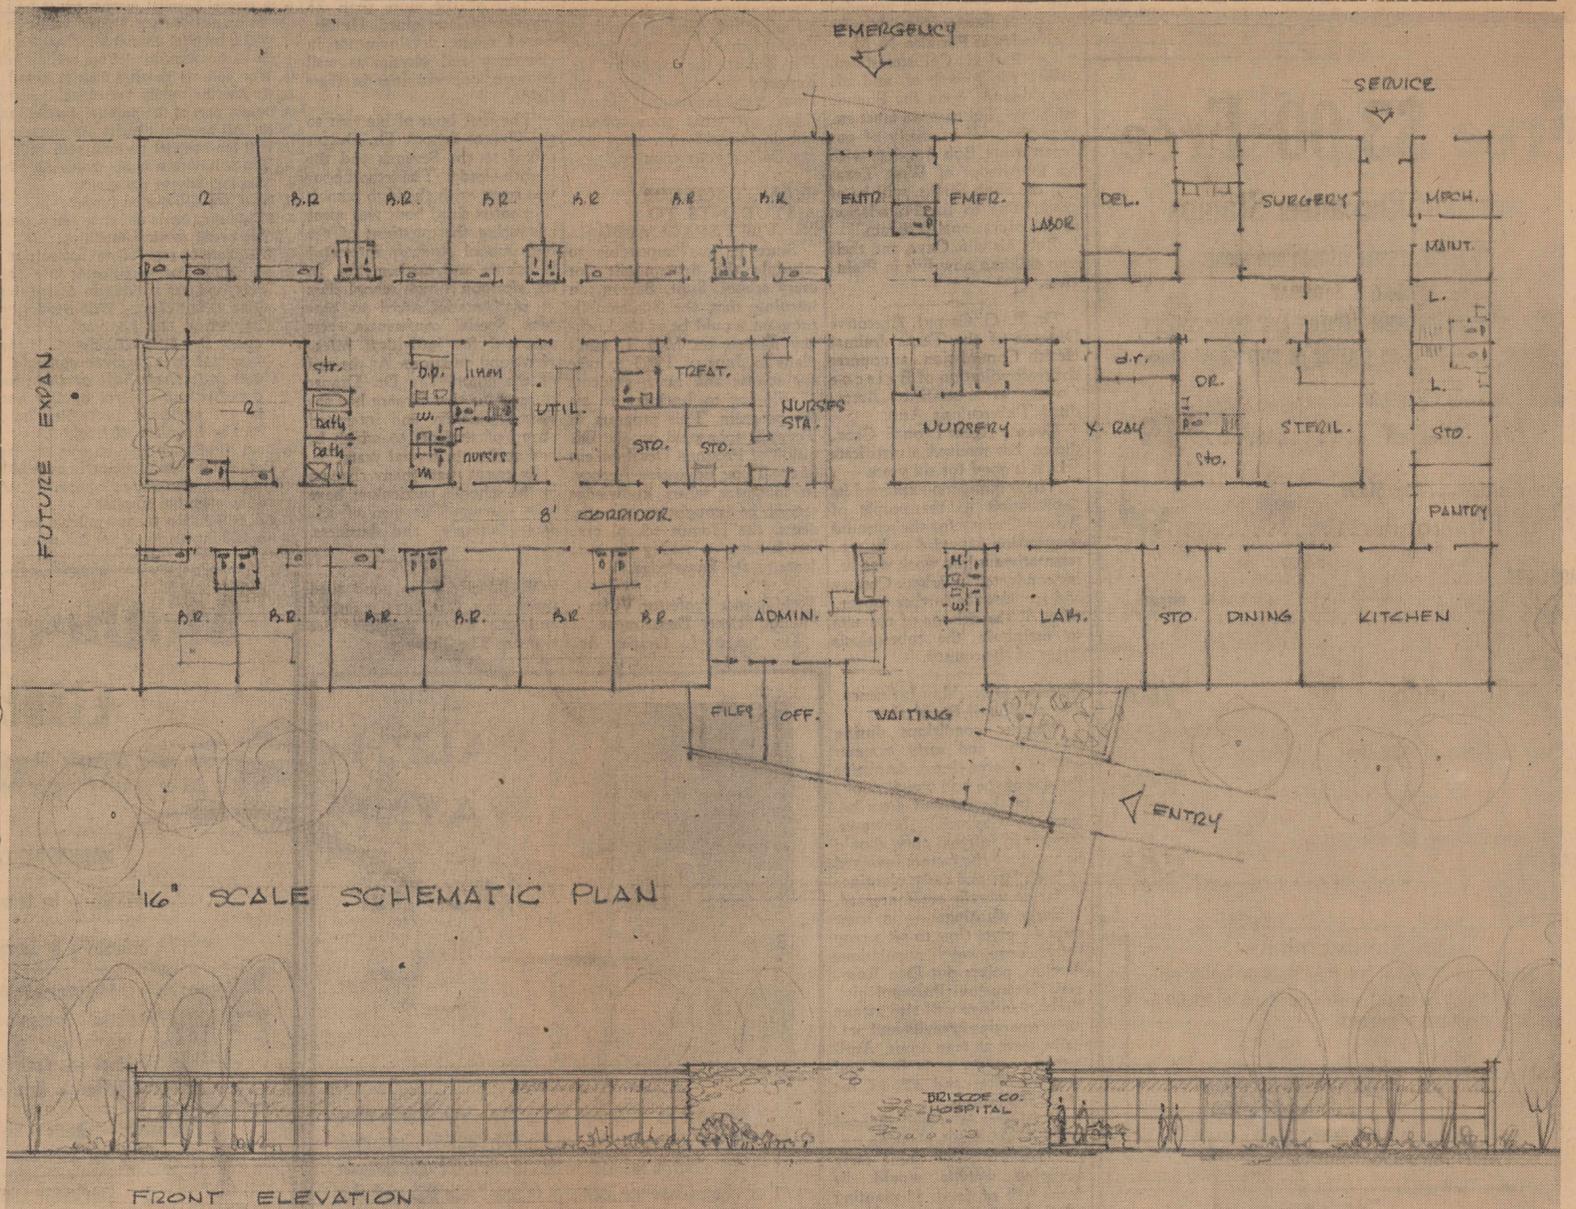

After the legislature gives us permission to have an election, the people will have to vote on the creation of a hospital district. However, the bonds will have to be approved so that application for the Hill-Burton funds can be made before May 31, 1964, to be eligible for fiscal year 1965 appropriations. A vote against the hospital issue may cost Briscoe County residents \$185,000, because after this year the funds may no longer be available for hospitals of the size that we need.

A total of 252 certified property-owning taxpayers signed the petition calling for the hospital bond election in two days last week. There will be a community meeting at the Quitaque school at 7:30 p.m. today (April 23). Everyone in the county is invited to attend. Among those present will be Swisher County Judge Jack Driskill, who served seven years on the Swisher County Hospital board before becoming the county judge.

Following are some questions and answers which may assist voters in making a decision on the hospital issue.

- Q. Will the doctor's office be in the hospital building?
- A. No. Doctors with private practice cannot have offices in Hill-Burton aided hospitals.
- Q. What doctors will be able to use the hospital?
- A. Doctors eligible to use the hospital would be determined by the hospital district commissioners elected by the people.
- Q. Will any doctor own a part of the hospital?
- A. No. The hospital will be owned by the people of the hospital district just as the courthouse is owned by the people of the county.
- Q. Will any doctor receive money from the hospital?
- A. No. The hospital will be operated completely separate from any doctor's clinic.

(Continued On Next Page)

Proposed hospital for Briscoe County has been sketched by Cox and Kittrell Architects of Lubbock. Cost estimates are based on this plan. The plans have been prepared by the architects without charge and the hospital district is under no obligation to use these plans. The bonds must be voted in the May 9, 1964 election if application is to be made for fiscal year 1965 Hill-Burton funds. It will then be necessary to vote on the creation of a hospital district early in 1965.

 W.S.G. — Second Tuesday Evening each month at 7:00

Five Regular Commissions —
 Meet at 7:00 P. M., Fourth Monday every month, followed by Official Board at 8:00.

The Christian Year is gaining increased appreciation as we approach the end of the year. It is often "mixed in" with other celebrations, some of a quite secular nature, though often worthy. If a pastor were to preach a sermon on every theme presented to him each Sunday, quite often he would need about five sermons.

Of course if he and his responsible officials were able to get a generous offering each time, it might be quite helpful to church budgets. Rather than having nothing to preach about, the alert pastor meets an embarrassing abundance of themes from which to choose. Next Sunday, for instance, is the beginning of National Family Week, Youth Sunday, and the Fifth Sunday after Easter. In many churches it is also traditional to have a communion service in the first morning service each month. Any preacher worth his salt will also prepare and preach sermons of a general nature that he feels should be given. So this particular pastor will concentrate on the communion aspect in the morning service next Sunday, and on that of the general needs in the evening. I John 5:19 is to be the Biblical base for the sermon just prior to the Lord's Supper, the title being "Power Through Our Connecting Link." Some simple, profound thoughts on life are our possibility in "God Makes Life," based on Gen. 1:26-7, before embarking upon the work of the week.

Attending the ceremonies from Quitaque were Mr. and Mrs. R. J. Harmon, Mr. and Mrs. O. V. Johnson, Barry and Dickie, and Mr. and Mrs. Paul Bailey and Debbie.

- Local Briefs -

Among those from Quitaque attending the funeral services for Mrs. Richard M. Hall at Turkey Sunday afternoon were Mrs. Bob Cochran and Bobby, Mrs. Duke Woods and Mrs. E. E. Woods, Mrs. George Owens, Mr. and Mrs. Ralph Carter, Mrs. S. C. Brown, Mrs. Johnny Powell and Mr. and Mrs. Gaston Owens.

Mrs. J. J. McKay of Amarillo spent Sunday night and Monday of last week with her mother, Mrs. Willie Lou Boyles.

NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS OF THE STATE OF TEXAS
Notice is hereby given to whom concerned that the application of THEODORE GEISLER, the post-office address of whom

is Quitaque, Texas, was received on the 28 day of October, 1963, in the office of the Texas Water Commission. Applicant seeks a permit to appropriate 1183.81 acre-feet of water for recreational purposes and 260 acre - feet annually for the irrigation of 245 acres in section 124, Block G & M, GC&SF RR. Company and Section 19, Block GC 2, D&SE RR. Company Surveys, Briscoe County, Texas. Diversion and use is to be made from an existing reservoir of 1183.81 acre-foot capacity located on Holmes Creek, tributary of the Little Red River, which is a tributary of Prairie Dog Town Fork of the Red River, Red River basin. The dam is located three miles north of Quitaque, Texas, and 14.5 miles southeast of Silverton, Texas, in Briscoe County, all being more fully set out in said application.

Said application was accepted for filing by the Texas Water Commission on the 9th day of March, 1964, as Application No. 2319 and a hearing thereon will be held by the Texas Water Commission at Austin, Texas, on

Wednesday, May 20, 1964 beginning at ten o'clock a. m. at which time and place all parties interested may appear and be heard. Those opposing the granting of said application should file written protests with

the Commission and the applicant at least five days prior to hearing date, giving their reasons therefor and such other information as is required by Commission Rule 305.2. Such hearing will be continued from time to time, and from place to place, if necessary, until such determination has been made relative to said application as the said Texas Water Commission may deem right, equitable and proper.

Given under and by virtue of an order of the Texas Water

Commission, at the office of the said Commission at Austin, Texas, this the 13th day of April, 1964.
(Signed) Joe D. Carter
