Congressman Walter Rogers' Newsletter

ISSUE

Prospects seem improved, at this writing, for approval by Congress this year of a Constitutional amendment to permit State legislature to be based on responsibilities: national defense representation factors other than and national economic vitality. population. A two-thirds vote of each House of Congress would be necessary to send a Constitutional amendment to help in the form of grants-in-aid the States, where ratification by three-fourths of the States' legislatures would be necessary be- programs themselves. Handling fore it could become part of the grants-in-aid has become one of

Federal action in recent years power be concentrated through poses a greater threat to sound "boss rule" in a few areas, it is State government than does the easy to conceive of situations June 15 decision of the U.S. Supreme Court requiring that aid programs could become tools both Houses of the State legis- for solidifying political monoplatures be structured on populoly, and no effective counter lation grounds, in accordance voice could be raised from areas with the Court's "one man, one where representation is shattervote" dictum.

It is estimated that in our State of Texas, carrying out the intent of the Court decision would concentrate 17 of the State Senators in only five of the 254 Texas counties. Similar concentrations would occur in State after State. It is easy to envision under such circumstances an absence of responsiveness in at the Gasoline Community State legislative halls to all prob- Building, Tuesday, September from a visit with their children lems save those in which big cities have a direct stake.

I have commented before on trends that have occurred in the tend. national legislature, the U. S Congress. sapping the strength of what was once known as the FLOMOT 4-H 'farm bloc.' The 'farm bloc' was a cohesive force of representative es from rural and semi-rural constituencies who banded together in the 1930's to advance programs returning America's agricultural economy from the grip of severe depression. They were the men who best understood the problems of America's farmers, small towns, and small cities and were able to bring an end to year of punishment America's farmers had suffered at the hands of other segments of the U.S. economy.

There is no longer a 'farm bloc' in Congress because of the fact that America's population shifted to urban and suburban areas and representation in Congress has generally followed this shift. It is now estimated that seven out of ten members of he U. S. House of Representatives come from primarily ur- his Navy boot training at San Randy Stark and grandmothers ban areas. PATTERNS FOR PROGRESS

The Industrial Foundation -

Tool for Community Development

In little more than ten years Industrial Foundations have been established in 182 Texas communities. These are communities — both large and very small

- which have recognized the vital need for a community financing group

Called by various names, the Industrial Foundation is a community-wide

organization with the prime objective of creating payrolls. Its functions vary

from community to community, but basically its purpose is to provide development funds for the land, brick and mortar required for new industry.

It is one of the best ways to show favorable community attitude towards

new industry or to help finance the expansion of an existing local industry.

By having community money invested in an industry the community becomes

The Community Industrial Development Foundation is another PATTERN FOR PROGRESS.

WTU's area development representatives have information about the creation

of industrial foundations. These facts are available to growth-conscious communities on request through your WTU local manager.

READY FOR THE UNEXPECTED

The average person can't plan ahead for sudden illness. But the pharmacist must. It's one of the most important part of your pharmacist's job to keep informed of all the new products in the vast and complex drug prescription field.

And behind your pharmacist's ability to serve you is the nation's pharmaceutical industry, which each year places several hundred new drug products in the service of better health. Just one of them, recently developed, required four years of research costing millions of dollars. It was studied by more than 200 physicians in 4,500 patients. The report on its safety and effectiveness filled 27 volimes with 14,000 pages of facts.

team serving you, your druggist visited an aunt, Mrs. Lorena and the pharmaceutical houses safeguard your well-being by anticipating your health needs. So when the unexpected oc-

curs, your pharmacist is ready.

GAS DOES THE BIG JOBS FOR LESS

Each year you must heat enough floor

space to house an army! Multiply the living space in your home by the number of cold days in a season. You'll agree heating the cumulative floor space is a big job. That's why most homeowners heat with dependable GAS. Practically maintenance free, GAS heating provides you with a constantly-changing supply of fresh, filtered, warm air so important to family health. Enjoy healthy savings, too. Economical GAS beats anything else by a country mile.

I would like to say Thank You to my friends for remem bering me with cards and letters while I was in the hospital. A special thanks to the men who donated blood.

Raymond Hamilton
