Supt. Mason invites the parents and other interested patrons to visit the Quitaque schools sometime next week and get a better understanding of the vitally important responsibility which rests upon the public schools in a country governed by and for the people.

As a part of the observance of Public Schools Week, the Quitaque Lions Club will eat at the school lunch room at noon on Monday, March 1.

QHS Girls Win Second

Quitaque's High School Pantherettes captured second place in the final district standings as they fell to a fired-up Estelline crew in the finals of the girls district tournament here last Saturday night. The final score in that game was 77-46.

Matador won third place in the tournament by taking a 53-27 win over Lakeview.

Saturday night's championship game was never much of a contest as the Estelline girls scored first and never let up on the pressure, leading 18-7 at the end of the first period, 41-17 at halftime and 64-32 at the end of three periods of play.

Estelline's Cherri Rapp, who is only a freshman, quickly dispelled most of Quitaque's hopes

PROPOSED LEGISLATION COULD BE VERY COSTLY TO QUITAQUE ISD

A new bill, House Bill 55, has just been introduced in the legislature by Rep. Richards, that possibly could cost the Quitaque Independent School ALL of their Floyd County school district. This could be a very damaging bill to our district and cause possible hardship on those who live in "out part" of Floyd County, if it should become law.

This bill seeks to disannex, without approval of our Board of Trustees, a portion of a County Line school district located in one county but not in the county of the principal school.

In other words, should Floyd County decide to disannex that portion of their county now considered part of the Quitaque ISD, they could do so under this impending Bill No. 55 against the consent of the principal school (Quitaque).

We stand to lose approximately 35 square miles of our district, about 20 students, plus values for that portion of our school district which is used to support our school financially.

By all means, and immediately, we should each write to our representative and let him know our feelings on this bill. Write to:

The Hon. Ralph Wayne
Member, House of Representatives,
Austin, Texas

Probably the most subtle bill to come before the legislature this year is that of Governor Connally's House Bill No. 446 and its companion bill in the Senate, No. 124.

These bills are purported to give school teachers a salary increase over the span of the next 10 years. However, they are not what they seem.

This deceiving piece of legislation brings to mind a Biblical saying to all—"leading a lamb to slaughter"—and the taxpayer is the lamb. The slaughterer is in the demanding of excessively higher taxes and the shirking of the state's responsibility to the local school district.

The teachers are in actuality fighting for a deserved increase in pay under the motto "\$45 in '65". This means that the teacher is asking for a \$45 per month increase in base pay for next year. If passed, it will mean a \$405 pay increase for all teachers next year.

The teachers of Texas need a substantial improvement in their salaries as Texas schools are presently 39th in the national scale—and Texas is considered the second richest state in the United States. If Texas is going to move forward in education, salaries and the quality of the program provided for children needs to be continually improved. These objectives can more nearly be met under the "Teachers' \$45 in '65" proposal, which will give the raise and will leave local districts more funds with which to improve their own program. Our bills are SB-4 and HB-5.

Under Mr. Connally's bill, teachers will get an average of \$184 per year raise over the next ten years. This, I am afraid will have a tendency to "freeze" teacher salaries. Then, in the face

of increased cost of living, such a minute increase could become a burden. Whereas, with an over all salary increase under the Teachers Proposal, a way would be left open for bargaining in the next ten years, instead of having salaries "fixed" and not being able to foresee future needs.

But the above is NOT what will hurt schools the most. The taxing capacity of the local school districts will be tested under the Governor's bill, for he proposes an all out effort to transfer a major portion of the financing of public schools to the local tax payer and thus freeing the State of this responsibility.

The State of Texas is at present set up on 80-20 basis for financing education. This means that the state supports the schools 80% and the local school district furnishes the other 20 percent by taxation.

But here is what is about to happen under the Governor's Bill:

- It would require that the combined local districts of Texas pay a whopping 70 percent of the increase, rather than our usual 20 percent.
- The Bill will shift 20 percent of the total cost of textbooks to the local district. This has NEVER been an expenditure expected of the local district. This has always been provided for by the State of Texas under the "free textbook" policy as long as most of us can remember.
- Another 20 percent of the matching funds for Teacher Retirement is contained in his bill. (A teacher withholds 6% of his salary toward retirement, and the school district DOES NOT add this 6% in any way.) If and when the teacher retires, the

PANTHERS MEET DARROUZETT AT 8:15 FRIDAY NIGHT

Bledsoe and McAdoo play at 3:00 p. m. Friday afternoon to get the regional tournament underway. Adrian vs. Anton follows that game at 4:15. The winners of those two games play at 10 Saturday morning to determine the finalist from that bracket. At 7 p. m. Friday Rochester meets Meadow and at 8:15 Quitaque plays Darrouzett. Winners of these two games will play at 11:15 Saturday morning and the winner of that game will be the finalist in the lower bracket.

The Saturday morning losers will play at 5:00 o'clock Saturday afternoon and the championship game will be at 6:15 Saturday afternoon. The reason for the early starting time is due to the fact that West Texas State has a game scheduled for Saturday night. The West Texas freshmen play Clarendon JC at 3 o'clock Saturday. Local fans will have a chance to see Jack Johnson in action again in this game.

Paul Hamilton of Denton visited his mother, Mrs. J. N. Hamilton, over the week-end.

Richie Lee, son of the Rev. and Mrs. Curtis Lee of Amarillo visited Mr. and Mrs. N. V. Hamilton, Mr. and Mrs. Elmer Lanham and other friends in Quitaque Saturday. The Rev. Curtis Lee is a former pastor of the Methodist Church here.

Guests in the home of Mr. and Mrs. Grady Tyler and children Sunday were her mother, Mrs. Ermine Blair of Clarendon, Mr. and Mrs. Dale Bradley and girls, Amarillo and Alcydene Bradley of Farwell.

Mr. and Mrs. Roy Don Sconce and family and Bobby Watson of Stamford spent the week-end with their grandparents, Mr. and Mrs. J. A. Watson.

Mrs. Patsy Martin and Donna and Mrs. Buddy Morris were in Lockney to visit Mrs. H. K. Carpenter and Mrs. M. T. Wither Monday morning.

Mr. and Mrs. Buster Chadwick, Stephanie and Laqueta and Vanessa, Valerie and Vona-ciel Robison visited Mr. and Mrs. Guy Paul Smith at Plainview Sunday.

Mr. and Mrs. J. Ronald Taylor of South Plains visited Mr. and Mrs. Jimmy Davidson and boys last Friday. Mrs. Taylor visited her parents, Mr. and Mrs. Willie Woods Saturday.

Mr. and Mrs. W. N. Lecroy of Childress visited Mr. and Mrs. C. E. McElyea Monday and helped Mr. McElyea celebrate his birthday anniversary.

SUPT. MASON DISCUSSES PROPOSED PAY RAISES

State has been matching the funds dollar for dollar. Now, Mr. Connally, in his bill, wants the local district to help pay the State's part of this fund.

To put it another way, under the Governor's Program, the teacher would get less than half the raise asked for and the local district (that's us) would pay twice as much for this lesser amount.

I have made a comparison of the two bills based on this year and how each would affect our school district:

\$45 for 65 (SB-4—HB-5)	\$405 x 14 teachers equal \$5,670
7% of LFA (our part)	\$1,072
State would pay	\$4,598
We would pay	\$1,072
Teachers get	\$ 405

Governor's Bill
SB-124—HB-446

\$184 x 14 teachers equal \$2,576	
12% of LFA	\$1,769
State would pay	\$ 807
We would pay	\$1,796
Teachers get	\$ 184

The LFA (Local Fund Assignment) is our share of the State's educational expenses. So by comparing the two bills, I feel sure that you can see that under the Teacher's Bill our financial obligation would be increased by \$1,072; the teacher would get \$405 raise and the State would contribute \$4,598 on the already established share on 80-20 basis. Whereas, if the Governor's Bill is passed, our LFA would increase 12% the teacher would only get a raise of \$184 and the State (instead of 7%) to \$1,769 and would contribute only \$807 to the total effort. This leaves us to raise the difference locally—about \$3,800.

In cold facts and figures this writing can be summed up thusly:

Panthers Nudge Quail In Bi-District Playoff

Quitaque's amazing Panthers, who were not figured by many to have a chance against the highly-touted Quail Quails, shot themselves into a fourth consecutive trip to the regional tournament at Canyon this week-end.

The margin of victory was a single point, 64-63, and that just about tells the story for it was that kind of game.

The Panthers scored first in the thrill-packed contest only to have the count tied at 2-2. The Panthers then went ahead 6-2, the widest margin incidentally, that Quitaque had during the entire game. The Panthers kept the Quails Dale Morris well covered during the early minutes of the game, six minutes of the first quarter passing before he got off his first shot. However, the Quails Ward was hitting from the corner and the Quails led 15-11 at the end of the first quarter. The Quails were shooting hot in the opening minutes of the second quarter and quickly had themselves a 10 point 27-17 lead. Getting

behind in the second quarter has almost been standard procedure with this year's edition of the Panthers, but they don't seem to be particularly uncomfortable when behind and they certainly do not panic. With the Quails leading 31-23 late in the period, the Quitaque lads shut Quail off with one more field goal and trailed by only three points, 30-33 at the half.

During the opening minute of the third quarter the Quails increased their lead to 9 points but here the Panthers began to apply the pressure, and also to peek away at the Quails lead, just before the buzzer sounded to end the third period Jamie Johnson let fly at the center circle and split the net with a perfect shot to put the Panthers out in front for the first time since the opening minutes of the game. The score at that point was 46-45.

The lead swapped hands almost with every shot in the final quarter. The Quails stole the ball away twice during a space of less than a minute about midway through the final period and Quail had a 5 point margin. However, as stated before, the Panthers just kept plugging and pushing, with a minute left to play the Panthers trailed 60-61. Larry Tipton hit a jumper in front of the basket to make it 62-61 with Quitaque in front. Quail moved the ball down court and was called with charging. Larry Tipton then very calmly dropped in the two free tosses for a 64-61 lead with 15 seconds left.

This was time enough for Dale Morris to get off another shot which, of course, he made. However, time ran out as the Panthers threw in the ball and they had earned themselves another bi-district title.

That one-point victory was one of the most satisfying one in the memory of most local fans, if for no other reason than few thought early in the season

is was likely to happen. Remember, if you will that not a one of the Panthers had ever started game in high school and only two of them had seen any action with a first team and that for only a few minutes.

This team lost 9 games this season, five of them to members of Quail's district—two to Hedley, one to Groom, and two of the losses were to Quail. So, Tuesday night's win wiped out some unpleasant memories for the Panthers.

Coach Gene King's charges made mistakes during the course of the game but the game strategy was flawless. The Panthers found out early in the season that they couldn't run and shoot with the Quails, for that type of game was right down their alley. Instead, the Panthers let the Quails run when they had the ball but played their own, more deliberate style of basketball when Quitaque had the ball.

The win was a team victory and credit can not be given to any one individual over another. Jamie Johnson hit the bucket for 30 points for scoring honors for the night. Eddie Monk tallied 14 points, Monte Stephens 6 points and Warren Lee Merrell hit for 4 points. Every member on the team hauled down very important rebounds. Monte Stephens did an outstanding job of ball handling and keeping the game slowed according to plan. Larry Tipton did a good job of rebounding and as mentioned earlier dropped in the game winning points when the pressure was terrific.

For the Quails, as usual, Dale Morris was outstanding. His 26 points was high. He is a very fine basketball player, the only fine this writer ever saw in action who's lack of height was no handicap. Not only can he jump high enough to touch the rim of the basket (he is 5-9 and the basket rim is 10 feet off the floor) but he hits a fantastic percentage of his shots.

The Panthers will play in the regional tournament at Canyon this week-end and will play their first game Friday night at 8:15.

The First National Bank and Rice Dry Goods treated the Panthers to a feed at City Cafe in Silverton following the game Tuesday night.

ACCESSORIES ARE GOOD MEDICINE, TOO!

Yes, your doctor's prescription is important—most important. But for the prescription of medicine to be most beneficial, other health items may also be required.

For example, there is the fever thermometer to check the temperature trend, the eye cup to administer the fluid, adhesive tape and gauze for the protective dressing, or an insulin syringe to quickly inject the drug. These, and many other prescription accessories are carried on our shelves, too, to make your doctor's Rx more effective.

Our pharmacists are trained to advise you concerning all accessory products. They are proud, along with the doctor, to be part of the health team that strives daily to keep you and your family well.

Mrs. Joyce Atnipp visited Mr. and Mrs. Sid McFall and Mrs. Ava Hawkins Tuesday.

Mrs. Amos Persons of Farmington, N. M. has been visiting relatives here since Wednesday of last week. She spent Wednes-

day night with her sister, Mrs. J. B. Baird and family. She visited Mr. and Mrs. Ray Persons Thursday. Her son, Andy Persons, who is attending college at Portales, N. M., joined her and the Bairds Friday night. Andy and his mother drove to Matador Saturday to visit their parents and grandparents, Mr. and Mrs. T. E. Long.

Mrs. Baird, Mrs. Amos Persons and Andy drove to Lubbock to visit Mr. and Mrs. James Baird and Mr. and Mrs. Tommie Baird and son, Sunday. Mrs. Persons went back to Matador Wednesday to spend some time with her parents, who have both been very ill with the flu and complications. Mr. Long was in the hospital for three weeks.

Mr. and Mrs. Ray Persons visited Mrs. M. T. Witcher in Lockney last Wednesday, then drove to Plainview to visit Mr. and Mrs. Tom Persons who had been ill with the flu. They talked to Tom Sunday by telephone and they were both improved and his wife had been able to go back to teaching school.

Mr. and Mrs. Sid Bogan spent from Friday until Monday with his son, S. T. Jr. and family. They also visited in Dallas with his daughter, Mrs. Jerrel Gaddy and her family and had lunch with them on Saturday. While in Dallas, the Bogans stopped at the Mary True Home, a rest Home associated with Buckner Orphans Home, and visited with Rev. and Mrs. J. Lowell Ponder. He is superintendent of the Home. They also visited with Mrs. Frank Wise, who lives at the Home. Mrs. Wise is a former resident of Quitaque, and the Rev. Ponder is a former pastor of the Baptist Church here and later was District Missionary of this district.

Mr. and Mrs. Bogan attended church services with S. T. and his family Sunday and returned home Monday, reporting a very nice trip.

Mr. Bogan also reported that the family had not heard from his son, Lit, who is stationed on Okinawa, in some time and they felt that he might be in Viet Nam. Mr. Bogan and S. T. called Lit's wife in Garden Grove, Calif. and visited with her via telephone, and she said that she felt that he was still on Okinawa.

Mr. and Mrs. Robert Hancock of Tulia and Mrs. Roman Friemel, Gary, Mike and Lnette, spent the day Sunday with their parents and grandparents, Mr. and Mrs. Hayden Boggs and Ricky, Little Shonda

Hancock returned to her home after spending a week here.

Mr. and Mrs. J. R. Berryman of Matador visited their daughter, Mrs. Ober Johnson and her family Sunday.

Mr. and Mrs. Charlie Gowin were host and hostess for a birthday dinner honoring J. G. Gowin on his 88th birthday Sunday, February 22.

Mrs. J. T. Rogers baked his birthday cake (as she has done for several years) and decorated it with "Happy Birthday, Bro. Gowin," and surrounded the words with pink roses and green leaves and pink candles.

The guests enjoyed a meal of chicken and dressing with all the trimmings, including homemade light bread baked by Mrs. A. C. Barrett.

Those present to enjoy the meal and fellowship were Mr. and Mrs. Bob Hulett, Amarillo; Mr. and Mrs. John Gowin and five children of Lawton, Okla.; Mrs. Marion Wilson, Pampa; Mr. and Mrs. Joe Tartar, Lubbudie; Mr. and Mrs. Charles Barrett, Clarence Barrett, Mr. and Mrs. A. C. Barrett, Mrs. Jay Gowin, Betty, Linda, James and Douglas.

Afternoon callers were Mr. and Mrs. A. D. Moseley, Flo-mot, and Mr. and Mrs. Floyd Rogers of Littlefield.

The group made a number of photographs and enjoyed a day of visiting.

Mrs. Tommy Beck and children of Turkey visited her parents, Mr. and Mrs. Roy Smith Sunday. Afternoon callers at the Smith home were Mr. and Mrs. H. E. Porter and Carolyn of Floydada. Late in the afternoon Mr. and Mrs. Floyd Rogers of Littlefield and Lottie Jo visited the Smiths and had supper with them.

Dwain Smith and Miss Carolyn Porter were to have been married February 14, but due to the fact that Dwain's orders failed to come through, the wedding had to be postponed. Dwain called from San Diego, Calif. Tuesday night of this week to report that his orders have now come through and the wedding will take place next Sunday, February 28, in Calvary Baptist Church at Floydada.

CONGRESSMAN WALTER ROGER'S WASHINGTON REPORT

GENERAL ACCOUNTING OFFICE: WATCHDOG ON SPENDING

The General Accounting Office is an arm of the Congress—not an agency of the Executive Branch—and its job is to be certain that the intent of Congress is carried out in regard to expenditures of taxpayers' money. The GAO reports to the Congress at the end of each

fiscal year on the findings of its auditors and lawyers in reviewing the fiscal management of government agencies. These annual reports show that real economics can result from aggressive auditing of government books.

The 1964 report of the GAO states: "Refunds, collections, measurable savings, and other financial benefits resulting from the work of the General Accounting Office amounted to \$321,489,000. This amounted to a return of over \$7 for every dollar spent by the General Accounting Office for the year."

By pointing the finger at errors made, the GAO serves the taxpayer by helping to make sure that bad practices are not repeated. In 1964, for example, the GAO found that the Army and Marine Corps could not agree on whether tropical wool trousers, part of their uniforms, should or should not have pocket flaps. The issue was not resolved and the services continued to procure both types. "We estimated that the Government incurred additional supply management costs of about \$68,000 annually . . ." said the GAO report, noting that a previously reported dispute among the services in regard to officers' shoe procurement had been straightened out with an annual potential saving of about \$158,000. Because it is the largest activity of the Government, its branches spending approximately half of all government funds spent each year, the Defense Department receives the heaviest attention. Among the many findings and recommendations affecting this department was one that many former G. I.'s would be glad to know about: The Army was criticized by the GAO for failing to utilize properly its trained enlisted personnel. "We found that about 35,000 of such personnel were not utilized in duties commensurate with their military or civilian training experiences," the GAO report said. "The training which the 35,000 men had received at a cost of about \$48 million was being wasted."

In another example of fiscal mismanagement which should never be repeated, the GAO found that the Justice Department, at the U. S. Penitentiary in Leavenworth, Kansas, had built and furnished a residence for the warden at a cost of about \$100,000. "This was about 3½ times the maximum amount authorized for comparable housing for a commanding officer of a military post," the GAO reported. Among many other specific points in the report, the Agency for International Development was criticized for not having adhered "to accepted standards of programming and project planning" in providing \$124.8 million for earthquake relief to Chile; the Labor Department was advised that updating its mailing lists could save the Government \$41,000 annually. The Department of Agriculture was criticized for making 2,400,000 unnecessary mailings at a cost of about \$180,000, but the GAO reported that the practice is being corrected.

Sharpshoot past actions of departments and agencies, and the Congress itself, is only part of the GAO's assignment. Its staff provides assistance to the agencies so that proper accounting procedures will be followed. In advance of activities planned by department and agencies, the GAO is frequently called upon to advise as to the legality of contemplated expenditures. The GAO also makes recommendations to the Congress for new legislation to tighten responsibilities in the handling of government funds. By way of setting an example for other government offices, the GAO ran its activities last year for \$2 million less than Congress had appropriated for the purpose—and in the past ten years the size of the GAO staff has been reduced by nearly one-quarter.

Although its work is little publicized, the General Accounting Office provides an extremely valuable service in bringing a higher degree of efficiency and economy to the operations of our government.

JUNIOR HIGH TEAMS

WIN TWO FROM TURKEY

The Junior High teams took two victories from the Turkey teams on Tuesday, February 16.

The girls game was a close one but Quitaque came out ahead by only one point—39-38.

Sherry Stark scored 21 points to lead the scoring for Quitaque, while Barbara Chandler dropped in 18. A lot of credit must be given the guards since the Turkey forwards are very tall. Quitaque's guards tied-up the ball a number of times and rebounded well.

The Quitaque Jr Hi boys beat Turkey by a score that was not quite as close as the girls game. The score was 59-22.

Roland Hamilton scored 17 points to take scoring honors for the night, followed by Raymond Lucero and Barry Johnson with 10 points each. Johnny Pointer and Lyn Payne each made 9 points and Joe Cavazos added 4 points.

There will be a game with Lakeview Thursday. On March 2, the teams take on Flomot beginning at 6.30 in the local gym. The Flomot game will be the last for the Junior High teams for this season.

SUPT. MASON DISCUSSES

(Continued From Page One)

(1) SB 124 and HB 446 (Governor's Bill) would provide a salary increase for the next school year of \$184 per teacher.

(2) Local districts would be required to pay 70 percent of the cost of this small increase in pay.

(3) This 70 percent burden is created through the inclusion in the program the cost of textbooks and teacher retirement of 20 percent extra.

(4) The bill is a ten-year plan and, if enacted into law, would be almost impossible to amend (thus "freezing" salaries) for at least a decade.

(5) The bill would give to the beginning teacher, over a ten-year period, an average increase of \$48.60 per year. It would give to the teacher with experience of several years, an average of \$125.10 per year—which is less than half the National average.

I'm sure you can see that the raise will go to the wrong rung of the ladder. For it is the new and inexperienced teachers that are more difficult to retain in the teaching profession. Too.

the beginner should advance in salary just as rapidly, if not more so, than we who have say, 15 years of experience.

We think the simplest explanation is that the TSTA program for teachers provides more than twice as much increase in salaries immediately effective and will cost local districts only half as much while the Governor's program will give to the teachers less than half as much raise and will cost the district twice as much in extra taxes.
