BRISCOE HISTORICAL COMMITTEE MET LAST WEEK AT SILVERTON

The Briscoe County Historical Society met Thursday evening at 7:30 in the PCA Community Room at Silvertown with 25 present.

Mrs. C. O. Allard, chairman, conducted the business meeting, and she appointed Mrs. Perry Thomas, Mrs. James Davis, Mrs. Myrtice Gillespie and Mrs. C. L. McWilliams to serve on the Museum Committee.

The different committees reported on the progress they are making. O. R. Stark, Jr. reports that the History Committee would return the material of the Donnell family back to the family since it is a history of the life of Mr. Donnell's family and would mean more to that family personally to have it printed as a family keepsake.

Mrs. Carroll Garrison reported that the Museum Committee is studying the different phases of organizing and putting together things for the Museum, which is proving to be a slow process.

Gladys Stroup brought several pictures of monuments to show to the Society in order to get an idea of what it might want to use.

Judge M. G. Moreland told an interesting story of how a plot of land located 9 miles south and 6 miles west of Silvertown was laid out for a town site in 1910, but never materialized. A Mr. Dower planned the town, but sold the land to D. N. Montague, who later sold it to Eugene Lawson.

Mrs. Allard urged that each committee continue to work on its project and progress be made by next meeting. She closed the meeting with these remarks by Winston Churchill: "Courage is the first of human qualities because it is the quality which guarantees all others."

Refreshments of coffee and Cokes were served to the following: Mr. and Mrs. M. G. Moreland, Gladys Stroup, Mr. and Mrs. Alton Johnson, Mr. and Mrs. Alvin Redin, Mrs. Myrtice Gillespie, Mr. and Mrs. W. E. Scott, Jr., Mr. and Mrs. True Burson, Mr. and Mrs. Carroll Garrison, Mrs. C. L. McWilliams, Mrs. Berton Hughes, Mr. and Mrs. Joe Montague, Mr. and Mrs. R. G. Alexander, Mr. and Mrs. C. O. Allard, Maynard Wilson, and the host, O. R. Stark, Jr.

The next meeting will be Thursday, August 26 at 7:30 P. M.

Ewing and other relatives and friends in this area. Mrs. Ewing accompanied Mrs. Wilson and girls to Lubbock Sunday morning to attend the Gregg family reunion. They stopped at Plainview and picked up Mrs. Bertha Gregg, who accompanied them to Lubbock. They arrived at McKenzie Park early enough to cook their breakfast. Sharon is 17 years of age and it was the first time she had ever seen anyone build a fire outside. They were the only ones who ate breakfast out, but the rest of the Gregg family began arriving soon afterward. They all brought basket lunches and the day was spent taking pictures and visiting. There were 55 present and they came from Kilgore, Quitaque, Tulia, Amarillo, Plainview and Lubbock; and from Lovington and Albuquerque in N. M.; and Oklahoma City. Mrs. Wilson and the girls left Wednesday morning to visit her mother, Mrs. Gertrude Gregg, and her brother, Roby Gregg in Amarillo. They will stop to see Mrs. Ewing again enroute home.

BIGGER TRUCKS TO ROLL ON TEXAS HIGHWAYS

The Legislature has seen fit to allow the operation of longer vehicles on Texas highways. These vehicles can be a maximum of 65 feet. The present length for a combination of vehicles is 50 feet. The law has been changed as a result of the trucking industry to improve the efficiency and quality of the service to the public.

These combinations commonly known as "double-bottoms", although used extensively, are virtually unknown in many areas of the country. Texas has been one of those areas. However, beginning September 1, 1965, we will begin seeing the "big-rigs" on our roads.

Our purpose in this article is to acquaint the motoring public with the fact that the bigger and longer vehicles will be on our roads. And, though we occasionally see a long truck, mobile home, or some oil field equipment on the highway and we need to drive accordingly—these are not too numerous. The "double-bottoms" will be there day and night, especially on our thru highways.

In the past a vehicle combination of this type would have required a permit and would not have been allowed on the roadway at night.

Since the picture is changing, Texas motorists will need to change some driving habits. Look for these longer and larger vehicles at night.

Naturally your question is, can they "fit" into present day traffic? Let's look at the turning movements of these 65 feet length "double-bottoms." According to Traffic Safety, a National Safety Council publication, the Department of Commerce says that, after tests they ran, the 65 foot combinations have less off-tracking than the 50 foot, five-axle tractor semitrailers.

"For a 90 degree turn, such as a city street intersection, the 65 foot 'double' has a track width 2.7 feet narrower than the 50 foot tractor semitrailer." Turning on the cloverleaf intersections of the Interstate System, the Department of Commerce tests show the "doubles" are 1.2 feet narrower than those of the smaller combinations.

Another question, and equally important, is it safe to pass a "double-bottom"? We again refer to the Department of Commerce report showing a 10 m.p.h. speed differential (car at 60 and truck at 50 m.p.h. for example) it takes 15.17 seconds for the car to pass a 55 foot long combination on a two-lane road. If the truck being passed is 65 feet long, the passing time is 15.75 seconds, only two-thirds of a second more.

Mainly, we will need to allow just a little more time and distance passing these vehicles and look forward to seeing them on our roads day and night.

OPEN AIR REVIVAL BEGINS SUNDAY AT FLOMOT CHURCH

An old-fashioned outdoor meeting will be conducted at First Baptist Church at Flomot, beginning Sunday, August 8 and continuing through Sunday, August 15.

Rev. LeRoy Burris, pastor of Aiken Baptist Church, will be the evangelist. Bud Brock, local music director, will have charge of the music.

Services will be conducted twice daily at 10:00 a. m. and 8:15 p. m.

Pastor L. B. Edwards stated that this is to be a community-wide revival and people of all faiths are welcome.

Mr. and Mrs. Ray Doyle Ramsey and boys returned home Monday from a vacation trip to Ruidoso, N. M. They left here Sunday, July 25, driving to Clovis, where they spent the night. The boys went swimming, then they visited the zoo. They drove on to Ruidoso the next day and checked in at the cabin where they stay when in Ruidoso. Tuesday the Ramseys visited the Hughie Watermans and the Wayne Whites. They went golfing, skating and sight-seeing, also. They were still in Ruidoso last Saturday when the storm hit that area and reported that it was a rough one. The high winds and hail did a great deal of destruction to the Hondo Valley and the area around Capitan. Ruidoso and the Hondo Valley was hit by a heavy rain and 4½ inch hail storm in June that destroyed their fruit crop.

ROGERS TO TAKE PART IN DALHART EVENT; FARM BILL DEBATE, DECISION DUE SOON

WASHINGTON, D. C. (Spl) — Congressman Walter Rogers will be in Dalhart on Saturday, August 7, to participate in the parade and other events at the annual XIT Reunion and Rodeo celebration.

The Congressman said it is his hope that business before House committees on which he serves will be completed in time Friday. He said he would plan for him to leave Washington to return to the capital Sunday because the Omnibus Farm Bill now is scheduled to come before the House in the week of August -14.

"It was first thought that the farm bill would be deliberated a week earlier," Congressman Rogers said. "However, the delay is permitting needed time for informal discussions of farm matters with Congressmen from urban areas.

"Legislation affecting wheat, feed grains, cotton, and other segments of the agricultural economy has been combined this year into one bill. This was done in order to attract the widest possible support for farm legislation, although many of us felt that problems affecting separate commodities could better be handled were the bills brought up one at a time," Congressman Rogers said.

Scheduled for consideration by the House this week are bills affecting civil service retirement annuity adjustments; correction of salary inequities for teachers employed at U. S. installations overseas; and joint labor-management programs of product promotion.

Congressman Rogers will convene the Subcommittee on Irrigation and Reclamation on Monday to consider recommendations broadening scope of the Small Reclamation Projects Act under which smaller water conservation projects are authorized. The subcommittee, of which he is chairman, held three days of hearings last week in multi-purpose Oregon, Washington, and Nevada dam and reservoir projects. Another subcommittee on which Congressman Rogers serves, the Subcommittee on Territorial and Insular Affairs, will meet on Thursday and Friday to consider pending legislation affecting U. S. interests in Antarctica.

The Committee on Interstate and Foreign Commerce, on which Congressman Rogers also serves, will continue consideration this week of a proposed Federal program to combat heart disease, cancer, stroke, and other major heart diseases.

The doctor reports that he is doing good.

Webb's brothers, Preston of Hugo, Okla., and Joe of Mesquite, arrived about 10 o'clock Monday morning.

NEWS from the High Plains
Research Foundation
FLAME CULTIVATION

Many things can be said in favor of flame cultivation, but most important is that weeds can be economically and effectively controlled.

The High Plains Research Foundation, as the international leader in flame cultivation research, has pioneered for this area the use of heat in agriculture. In this program of weed control, the net profit to farmers along with the conservation

of water has been the objective.

Research has shown that for each pound of weeds growing in a field yields of grain sorghum are reduced by 60 pounds per acre. Weeds compete with the growing crop for the same moisture as well as for the same plant food. The control of weeds through flame cultivation is an aid toward more effective water use.

One more aspect of flame weed control in a water utilization program that must be considered is the fact that soil is not agitated or stirred thus allowing moisture to evaporate; also yields are not reduced due to root pruning caused by some of the conventional sweep cultivations.

Weeds cost money in that they consume both fertilizer and valuable moisture. The larger the weed becomes, its need for moisture increases and also the consumption of fertilizer goes up. By eliminating the weeds when they are small, this wasteful and costly consumption is stopped.

"Destruction of weeds at a time when they cannot produce seeds will not only reduce the immediate problem of weeds, but would also reduce the long-range weed problem.

Results at the Foundation have established that if flamed properly, the yield and/or quality of the West Texas crops will not be lowered. Weed control by using flame cultivation is one of the lost major phases of crop production to be mechanized. Major breakthroughs have been made in the last few years using heat to control weeds. Near perfect control can be exerted if properly applied.

The Foundation feels that flame cultivation offers a great potential in reducing the loss due to moisture uptake of weeds. Weed control by the use of heat also is an aid in cutting the cost of production as a safe, economical, and effective method that will not lower the quality of the crops grown in the West-Texas area.

Jack Parks, Flame Cultivation Engineer for the Foundation, reports that flame can be used to control weeds and save the farmer money if used properly. Flame should not be used as a salvage too for crops.

"If the use of heat as a means of controlling weeds is a planned part of the farmers program, he can cut his cost of crop production," Parks further says. "The use of heat is also being used late in the year as a harvest aid. The dessication of green foliage of grain sorghum at harvest time has proven to be a good practice to make more net return from a given crop."

Section 1. That Section 4, Article III, Constitution of the State of Texas be amended to read as follows:

"Section 4. The members of the House of Representatives shall be chosen by the qualified electors for the term of four years; but a new House of Representatives shall be chosen after every apportionment, and the members elected after each apportionment shall be divided by lot into two classes. The seats of the members of Class A shall be vacated at the expiration of the first two years, and those of Class B at the expiration of four years, so that one-half of the members of the House of Representatives shall be chosen biennially thereafter. Representatives shall take office following their election, on the day set by law for the convening of the Regular Session of the Legislature, and shall serve thereafter for the full term of years to which elected and until their successors shall have been elected and qualified. Except in case of an election to fill a vacancy, and except in the first election following each re-apportionment, a person who has been elected to the House of Representatives shall not be eligible to be a candidate again for membership in the Legislature until the term for

which he was elected has less than one year remaining."

"Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of the state at an election to be held on the first Tuesday after the first Monday in November, 1965, at which election all ballots shall have printed on them the following:

"FOR the Constitutional Amendment to provide for a four-year term of office for State Representatives." "AGAINST the Constitutional Amendment to provide for a four-year term of office for State Representatives."

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for the election and this Amendment shall be published in the manner and for the length of time required by the constitution and laws of this state.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. HOUSE JOINT RESOLUTION NO. 57 proposing an Amendment to Section 1-a of Article V of the Constitution of the State of Texas, by adding to said Section as presently written, the following provisions:

"(1) Two (2) Justices of Courts of Civil Appeals; (ii) two (2) District Judges; (iii) three (3) members of the State Bar, who have respectively practiced as such for over ten (10) consecutive years next preceding their selection; (iii) three (3) citizens, at least thirty (30) years of age, not licensed to practice law nor holding any salaried public office or employment; provided that no person shall be or remain a member of the Commission, who does not maintain physical residence within this State, or who resides in, or holds a judgeship within, or for, the same Supreme Judicial District as another member of the Commission, or who shall have ceased to retain the qualifications above specified for his respective class of membership. Commissioners of classes (i) and (ii) above shall be chosen by the Supreme Court with advice and consent of the Senate, those of class (iii) by the Board of Directors of the State Bar under regulations to be prescribed by the Supreme Court with advice and consent of the Senate.

"(2) The regular term of office of Commissioners shall be six (6) years; but the initial members of each of classes (i), (ii) and (iii) shall respectively be chosen for terms of four (4) and six (6) years, and the initial members of class (iii) for respective terms of two (2), four (4) and six (6) years. Interim vacancies shall be filled in the same manner as vacancies due to expiration of a full term, but only for the unexpired portion of the term in question. Commissioners may succeed themselves in office only if having served less than three (3) consecutive years.

"(3) Commissioners shall receive no compensation for their services as such. The Legislature shall provide for the payment of the necessary expense for the operation of the Commission.

"(4) The Commission may hold its meetings, hearings and other proceedings at such times and places as it shall determine but shall meet at Austin at least once each year. It shall annually select one of its members as Chairman. A quorum shall consist of five (5) members. Proceed-

ings shall be by majority vote of those present, except that recommendations for retirement or removal of Justices or Judges shall be by affirmative vote of at least five (5) members.

"(6) Any Justice or Judge within the scope of this Section 1-a may, subject to the other provisions hereof, be removed from office for willful or persistent conduct, which is clearly inconsistent with the proper performance of his said duties or casts public discredit upon the judiciary or administration of justice; or any such Justice or Judge may be involuntarily retired for disability seriously interfering with the performance of his duties, which is, or is likely to become, permanent in nature.

"(7) The Commission shall keep itself informed as fully as may be of circumstances relating to misconduct or disability of particular Justices or Judges, receive complaints or reports, formal or informal, from any source in this behalf and make such preliminary investigations as it may determine. Its orders for the attendance or testimony of witnesses or for the production of documents at any hearing or investigation shall be enforceable by contempt proceedings in the District Court.

"(8) The Commission may, after such investigation as it deems necessary, order a hearing to be held before it concerning the removal or retirement of a Justice or Judge, or it may in its discretion request the Supreme Court to appoint an active or retired District Judge or Justice of a Court of Civil Appeals as a Master to hear and take evidence in any such matter, and to report thereon to the Commission. If, after hearing, or after considering the report and report of a Master, the Commission finds good cause therefore, it shall recommend to the Supreme Court the removal or retirement, as the case may be, of the Justice or Judge in question and shall thereupon file with the Clerk of the Supreme Court the entire record before the Commission.

"(9) The Supreme Court shall review the record of the proceedings on the law and facts and in its discretion may, for good cause shown, permit the introduction of additional evidence and shall order removal or retirement, as it finds just and proper, or wholly reject the recommendation. Upon an order for involuntary retirement for disability or an order for removal, the office in question shall become vacant. The rights of an incumbent so retired to retirement benefits shall be the same as if his retirement had been voluntary.

"(10) All papers filed with and proceedings before the Commission or a Master shall be confidential, and the filing of papers with, and the giving of testimony before, the Commission, Master or the Supreme Court shall be privileged; provided that upon being filed in the Supreme Court the record loses its confidential character.

"(11) The Supreme Court shall by rule provide for the procedure before the Commission, Masters and the Supreme Court. Such rule shall afford to any judge against whom a proceeding is instituted to cause his retirement due process of law for the procedure before the Commission, Masters and the Supreme Court in the same manner that any person whose property rights are in jeopardy in an adjudicatory proceeding is entitled to due process of law, regardless of whether or not the interest of the judge in remaining in active status is considered to be a right or a privilege. Due process shall include the right to notice, counsel, hearing, confrontation of his accusers, and all such other incidents of due process as are ordinarily available in proceedings whether or not misfeasance is charged, upon proof of which a penalty may be imposed.

"(12) No Justice or Judge shall sit as a member of the Commission or Supreme Court in any proceeding involving his own retirement or removal.

"(13) This Section 1-a is alternative to, and cumulative of, the methods of removal of Justices and Judges provided elsewhere in this Constitution."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State at an election to be held on the first Monday in November, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment providing for the automatic retirement of District and Appellate Justices for old age, creating the State Judicial Qualifications Commission, defining its functions; and empowering the Supreme Court, upon recommendation of said Commission, to remove District and Appellate Judges for misconduct and to retire such judges in cases of disability.

"AGAINST the Constitutional Amendment providing for the automatic retirement of District and Appellate Justices for old age, creating the State Judicial Qualifications Commission, defining its functions; and empowering the Supreme Court, upon recommendation of said Commission, to remove District and Appellate Judges for misconduct and to retire such judges in cases of disability."

Sec. 3. The Governor shall issue the necessary proclamation for the election, and this Amendment shall be published as required by the Constitution and laws of this State.

Thousands of homes across the country will be uncomfortable and costly to heat this winter because their builders skimped on insulation.

Today, thanks to a special process developed by mineral wool engineers, any house, old or new, can be insulated.

The process involves a special mineral wool insulation called

Working from outside the house, workman removes brick and forces mineral wool under air pressure into wall through hole cut in sheathing. Hole is later sealed and brick neatly replaced. Result: warm house.

Pieces of siding are removed at intervals along outside wall so that workman can be certain each stud space is compactly filled with insulation. When the job is done, holes in sheathing are sealed and siding is carefully replaced, as it was before.

The result is a complete seal of insulation that can reduce heating costs by as much as 40 per cent and provides greater comfort winter and summer.

You won't get rich overnight buying U. S. Savings Bonds. But for the long run, they make an excellent investment.

You get a guaranteed rate of interest—3 3/4% when held to maturity—so there are no ups and downs to worry about.

You also get certain tax advantages since Savings Bonds aren't subject to state or local income taxes and the federal tax can be deferred until the Bonds are cashed.

But probably most important is that Bonds pay off in more than dollars. When you get your Bond investment back you know it has helped Uncle Sam strengthen the cause of freedom (your cause) all around this troubled world of ours.

The German, Albert Magnus, believed the only way to remove a corn was to incant over the grave of an old man. — "They are sounding the funeral bell, And what I grasp may soon be well, And what ill I grasp do take away. Like the dead one in the grave does lay."

THE GREEK PHYSICIAN THIKESIOS OF SMYRNA PREPARED THE FIRST CORN PLASTER IN CIRCA 100 B.C.

In the early 1900's corn cures contained salicylic acid which penetrated tough skin to normal tissue causing live cells to multiply, pushing the corn up and out. However these mixtures often worked slowly and ineffectively.

IN 1951, PHENYLUM — THE FIRST IMPORTANT IMPROVEMENT IN CORN REMOVAL IN OVER 40 YEARS WAS DEVELOPED BY MEDICAL RESEARCH. THE NEW MEDICATION PHENYLUM WAS SHOWN IN CLINICAL TESTS TO BE ABOUT 1/3 FASTER, MORE EFFECTIVE AND SAFER THAN SALICYLIC ACID.

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 2, 1965. SENATE JOINT RESOLUTION NO. 27 proposing an Amendment to the Constitution of the State of Texas, amending Article III of the Constitution of the State of Texas by adding a new Section thereto to be designated Section 48b, so as to create as an agency of the State of Texas the Teacher Retirement System of Texas, vesting the general administration and responsibility of the proper operation of said system in a state board of trustees to be known as the State Board of Trustees of the Teacher Retirement System of Texas, authorizing said Board to invest assets of said system in various obligations and subjects of investment, subject to certain restrictions stated therein and such other restrictions as may hereafter be provided by law; providing that such Amendment shall be self-enacting and shall not alter, amend or repeal Section 48a of Article III of the Constitution of Texas or any legislation passed pursuant thereto except insofar as such legislation may limit or restrict the provisions of this Amendment; providing for the necessary election, form of ballot, proclamation, and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:
Section 1. That Article III of the Constitution of the State of Texas be amended by adding Section 48b thereto which shall read as follows: "Section 48b. There is hereby created as an agency of the State of Texas the Teacher Retirement System of Texas, the rights of membership in which, the retirement privileges and benefits thereunder, and the management and operations of which shall be governed by the provisions herein contained and by present or hereafter enacted Acts of the Legislature not inconsistent herewith. The general

administration and responsibility for the proper operation of said system are hereby vested in a State Board of Trustees, to be known as the State Board of Trustees of the Teacher Retirement System of Texas, which Board shall be constituted and shall serve as may now or hereafter be provided by the Legislature. Said Board shall exercise such powers as are herein provided together with such other powers and duties not inconsistent herewith as may be prescribed by the Legislature. All moneys from whatever source coming into the Fund to provide retirement, disability, and death benefits for persons employed in the public schools, colleges, and universities supported wholly or partly by the state and all other securities, moneys, and assets of the Teacher Retirement System of Texas shall be administered by said Board and said Board shall be the trustee thereof. The Treasurer of the State of Texas shall be custodian of said moneys and securities. Said Board is hereby authorized and empowered to acquire, hold, manage, purchase, sell, assign, trade, transfer, and dispose of any securities, evidences of debt, and other investments in which said securities, moneys, and assets have been or may hereafter be invested by said Board. Said Board is hereby authorized and empowered to invest and reinvest any of said moneys, securities, and assets, as well as the proceeds of any of such investments, in bonds, notes, or other evidences of indebtedness issued, or assumed or guaranteed in whole or in part, by the United States or any agency of the United States, or by the State of Texas, or by any county, city, school district, municipal corporation, or other political subdivision of the State of Texas, both general and special obligations; or in home office facilities to be used in administering the Teacher Retirement System including land,

equipment, and office building; or in such corporation bonds, notes, other evidences of indebtedness, and corporation stocks, including common and preferred stocks, of any corporation created or existing under the laws of the United States or of any of the states of the United States, as said Board may deem to be proper investments; provided that in making each and all of such investments said Board shall exercise the judgment and care under the circumstances then prevailing which men of ordinary prudence, discretion, and intelligence exercise in the management of their own affairs, not in regard to speculation but in regard to the permanent disposition of their funds, considering the probable income therefrom as well as probable safety of their capital; and further provided, that a sufficient sum shall be kept on hand to meet payments as they become due each year under such retirement plan, as may now or hereafter be provided by law. Unless investments authorized herein are hereafter further restricted by an Act of the Legislature, no more than one per cent (1%) of the book value of the total assets of the Teacher Retirement System shall be invested in the stock of any one (1) corporation, nor shall more than five per cent (5%) of the voting stock of any one (1) corporation be owned; and provided further, that stocks eligible for purchase shall be restricted to stocks of companies incorporated within the United States which have paid cash dividends for ten (10) consecutive years or longer immediately prior to the date of purchase and which, except for bank stocks and insurance stocks, are listed upon an exchange registered with the Securities and Exchange Commission or its successors; and provided further, that so long as less than \$500,000,000 of said Fund is invested in the government and municipal securities enumerated above, not more than thirty-three and one-third per cent (33 1/3%) of the Fund shall be invested at any given time in common stocks. This Amendment shall be self-enacting and shall become effective immediately upon its adoption without any

enabling legislation. This Section shall not alter, amend or repeal the first paragraph of Section 48a of Article III of the Constitution of Texas as amended November 6, 1956, or any legislation passed pursuant thereto. This Section shall not alter, amend or repeal the second paragraph of Section 48a of Article III of the Constitution of Texas as amended November 6, 1956, or any legislation passed pursuant thereto, except insofar as the provisions of the second paragraph of Section 48a and any legislation passed pursuant thereto, may limit or restrict the provisions hereof and only to the extent of such limitation or restriction."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this state at an election to be held on November 2, 1965, at which election all ballots shall have printed thereon the following:

"FOR the Constitutional Amendment amending Article III of the Constitution of the State of Texas by adding Section 48b relating to the Teacher Retirement Fund and the Teacher Retirement System of Texas, revising provisions for investment of moneys and other assets of the Fund, and changing other existing provisions and making other new provisions with respect to the administration of the Teacher Retirement System."
