## THREE-QUARTER MILLION VEHICLES STILL UNINSPECTED IN TEXAS

Approximately three quarters of a million Texas vehicles have only until Friday, April 15th to be inspected as required by law, according to Captain Alan Johnson, Commander of the Motor Vehicle Inspection Service of the Texas Department of Public Safety.

"In the remaining days of the inspection period, it is possible for the State's 5350 license inspection stations to handle the last minute inspections only if motorists take their vehicles in immediately so there will be no delayed periods between inspecting one vehicle and the next," he said. The first of the last week is usually not too crowded as the lines begin forming on the last two days due to motorists waiting to the very last minute.

"From now until the deadline, every minute of the inspection station's time will be at a premium, and waiting lines will become general throughout the State as it approaches."

Johnson urged all Texans to avoid the inconvenience of waiting in line to get the safety inspection sticker for 1966 by taking immediate action now. He said that beginning Saturday, April 16th, officers will be obliged to start handing out tickets for non-compliance with the Motor Vehicle Inspection law which requires an annual safety inspection of vehicles.

**LOCAL CHAPTER OBSERVES NATIONAL F.H.A. WEEK**

The local FHA chapter recently observed F.H.A. Week. The week began with girls of the chapter attending church services together at the local Church of Christ. Monday was

"Mr. Irresistible Day." All of the girls were given red ribbons and were not supposed to speak to any boy. When she did she was required to give the boy her red ribbon. The boy who was given the most ribbons became "Mr. Irresistible." Renay Rice, a junior at QHS, was our Mr. Irresistible. Also for Monday the girls dressed in their red and white.

Tuesday night was our Father-Daughter Salad Supper. Many attended this affair and from those in attendance the following were selected:

- Donnie Brunson — Baldest Daddy.
- Jack Cheatham — Daddy with the curliest hair.
- Elmer Berryhill — Fattest Daddy.
- Carl Woods — Thinnest Daddy.

After the meal, several went to the gym and played volleyball.

During the week all the girls had a secret sister. Silly gifts were given and remained anonymous. On Friday, nice gifts were exchanged and identities were revealed.

**GARRISON RETURNS FROM HOUSTON MEETING**

Carroll Garrison of Silverton has just returned from Houston where he attended the Annual Stockholder's Meeting of the Federal Land Bank. All 73 Federal Land Associations

in Texas were represented at this meeting.

Mr. Garrison represented the Federal Land Bank Association of Floydada at the two-day meeting at which plans were discussed for observing the 50th Anniversary of the Land Bank System in 1967. The Anniversary will be dedicated to American farmers and ranchers, in a program to achieve public recognition and appreciation of the contributions of agriculture to the National economy.

Hal Weatherford, President of the Bank, in his annual report stated that the \$94,000,000 loaned in 1965 was the largest in any one year in the Bank's history and that the volume of loans outstanding are now at an all time high.

Jake B. Watson is manager of the Floydada office, and J. T. Persons is Assistant Manager of the local branch office.

**WTU NOTEBOOK - PATTERNS FOR PROGRESS**

**The Area Development Department**  
- a WTU community service

**WHY WTU HAS AN AREA DEVELOPMENT DEPARTMENT**

- As a service organization, we have a basic responsibility to assist the communities we serve to grow and develop to their full potentials and capabilities.
- We have one basic product to sell — electricity — the area we operate in must grow if we are to grow.
- We have an investment in each community we serve, we are anchored in that community — unlike other companies which can move their plants and equipment elsewhere.

**WHAT THIS DEPARTMENT IS ORGANIZED TO DO**

- Assist in the planning of community development and improvement programs and in making community audits, surveys and analyses.
- Assist in forming industrial foundations and districts, in selecting plant sites, and advising on planning
- Assist in preparing statistical data, advertising material, and in organizing and training industrial teams.
- In industrial development, we prepare market analyses for prospects, make detailed studies on factors affecting plant site location, and make personal calls on prospects for the communities.
- Conduct an active program of direct mail and personal calls on industries that might locate in our service area.

**THE LOCAL WTU MANAGER — HIS VALUE TO YOU**

- As a local businessman, along with others in the community, he is interested in its growth and development.
- He devotes his time and services on community programs and projects.
- He is YOUR contact with WTU.

Ask your WTU local manager for additional information and services available.
