The Fish Get Bigger and Bigger!

The "littles fisherman" has taken over the lead in the local fishing derby in the bass division.

Randy Stark, 10-year old son of Mr. and Mrs. O. R. Stark, Jr. landed a tackle-busting 5 lb. 9 oz. beauty at Hawkins Lake early Wednesday of last week. He was fishing with his dad and his brother Scotty. O. R. said that Randy called

for help when he hooked fish, but his father told him it was his fish to land or lose and the youngster reeled him in all by him self. Mrs. Warren Payne was leading in that division of the fishing derby with a 4 lb. 10 oz. dandy, until Randy took over. The contest has less than a week to run now and fishermen have some pretty good-sized fish to try to top.

Criss Reagan, son of John Reagan, and his friend, Ernst Klaschus, from Munich, West Germany visited in Quitaque several days last week. Criss is attending Western Reserve University at Cleveland, Ohio, working on his master's degree and teaching school.

He was asked if the United States and Texas in general was as he expected them to be, and he answered that no one could exactly picture another country in his mind until he saw it. He stated that all the people he had met had been very friendly.

School Starts Monday

The Quitaque schools will open for the 1966 - 67 school year next Monday morning, August 29, with a general assembly in the school auditorium at 8:30 a. m., according to Supt. Herman Moseley, who will be starting his first full year as superintendent of the local school system.

Following the general assembly, registration will begin immediately and books will be issued. A full day of regular classes will be on schedule Tuesday morning.

The buses will run their regular schedule Monday morning and any changes that are necessary will be made later in the week.

Lunches will be served in the lunchroom Monday. The following prices will be in effect this year: 35¢ for grades 1-8; 40¢ for high school pupils and 50¢ for adults.

The increase in prices for school lunches is necessary due to increased cost of food and the reduction of food commodities received from the U.S.D.A. for the lunchroom.

Mr. Moseley has announced a faculty meeting at 8 o'clock Friday night in the lunchroom. Supt. Moseley states that the

school has a complete faculty to start school with and feels that the school is very fortunate as many schools will start without a full staff. He also stated that all teachers are well qualified for the assignments they have been given and one teacher, Mrs. Novelle Wise, qualifies as a part time librarian and will serve in this capacity as a consultant to the teacher who is responsible for the library.

The faculty and each assignment is as follows:

Mrs. Novelle Wise, First Grade.

Mrs. Dora Hawkins, Second Grade.

Mrs. Ina Mae Baird, Third Grade.

Mr. Dean Johnson, Fourth Grade home room teacher and Modern Math in Elementary School.

Mr. Darrell Hinton, Teacher of Social Studies in Elementary School and Junior High basketball coach.

Mrs. Ann Jones, English in Elementary grades and Fifth Grade Home Room teacher.

Mr. Wilburn Leeper, Grade School Principal and Science teacher in Elementary School.

Mr. Don Johnson, High School basketball coach and

Social Studies teacher.

Mrs. Joe Mae Merrell, High School Math and Commercial subjects.

Mrs. Delene Tyler, High School English and Library.

Mr. Elmer Berryhill, Vocational Agriculture.

Mrs. Frances Wise, Vocational Homemaking.

Mr. George R. Colvin, High School Principal and Science teacher in high school.

Mrs. Ola Jean Kingston, P.E.S.O. Special Reading teacher.

Mrs. Herman Moseley, P.E.S.O. Special Reading teacher.

Mrs. Kingston comes from the Lubbock school system, where she has taught in the Elementary schools there for the last six years. She has had 17 years experience and has a Masters Degree from West Texas State University. Mrs. Kingston lives on a farm near Flomot.

Dean Johnson, a brother of Coach Don Johnson, comes from Canyon where he has been attending West Texas State University. Dean is married and he and his wife Agatha have no children. They will live in the apartment owned by M. E. Loving, where Mrs. Gladys Tipton and Larry lived.

The lunchroom this year will again be under the management of Mrs. Mary Woods and her assistant will be Mrs. Faye Brummett.

The bus drivers will be Dean Johnson, Johnny Brummett, Ralph Carter and Cecil Rice, who will drive a bus, do the mechanic work and service the buses.

During the summer months the school houses have been repainted inside and all rooms and furniture have been cleaned and polished. The floors in the high school have been refinished and the floors in the middle building and grade school have been cleaned, waxed and polished.

Several other small repairs have been made during the summer months and the school plant is in first class condition to begin a new school year. The rains have helped our lawn a great deal and it looks very good. All of the trees have been trimmed for shape and looks.

We hope that everyone will help to keep our school as clean as possible since the school plant in the community usually serves as an indicator to outside people as to the pride the community has in its school.

Almost 5 Inches Rain Falls Here

Quitaque, along with the rest of this part of the world, has caught a lot of rain the past week, but fortunately, not as much as some parts of Texas and New Mexico.

An unofficial report for the city of Quitaque set the amount received here in town at 4.90. The rain started here last Thursday and the hardest rain was probably received that afternoon or night.

Most of the rain that fell here in town was of the gentle, drizzly variety with very little runoff. Heavier amounts fell in the area, however, and this is termed as one of the wettest Augusts in history. James Monk from over at Flomot reports over nine inches of rain for the month of August and that total will not be missed too far in a lot of places over the area.

Crops are looking real good at the present time, although some damaging hail fell in the Gasoline area.

Mr. and Mrs. Ray Gene Hutcherson of Lubbock spent the weekend with their parents, Mr. and Mrs. Joe Bedwell and Mr. and Mrs. Clarence Barrett, Marilyn and Ronnie Hutcherson, and attended Homecoming.

Mr. and Mrs. W. E. Hawkins are the proud parents of a new baby boy, born Friday at 5:40 p. m., August 19, in the Plainview Hospital and Clinic. The young man has been named C. L. and he has two sisters, Cindy and Kelly. He and his mother arrived home Monday about noon and reported to be doing fine.

Grandparents are Mr. and Mrs. C. A. Hawkins and Mr. and Mrs. Lottie Gilbert.

Refreshments of cookies, punch and coffee were served to those who called. Due to the rain, many were unable to attend the housewarming who had planned to do so.

Large Crowd Here To Attend Homecoming

Quitaque has just had what many described as the "best homecoming yet!"

Last Saturday at noon in the local City Park a crowd estimated at between 700-800 was fed a barbecue lunch, obviously enjoyed by everyone, because the food was all consumed. At the 1963 Homecoming, a considerable amount of food was left over.

The out of town visitors began arriving the early part of last week. Visitors were here from New Mexico, Arizona, California, Oregon, Wisconsin, Colorado, Kansas, Oklahoma, Louisiana, Arkansas and from all over Texas. There were possibly visitors from other states as well, who were not on the register book.

The weatherman cooperated by sending showers before the visitors started arriving and the yards and countryside were all dressed up in green, the lakes are full, and the rains then held off long enough for most everyone to get home before the flood arrived.

For some of the visitors, it was the first time to revisit the home town in many years and

most reported that things did not look too familiar, and they were surprised at the number of nice homes that had been built here since they had left.

Rayburn Burgess, who delivered the homecoming address at Saturday nights program in the school auditorium, remarked that this was not the same valley he moved away from just a few years ago.

Rayburn spoke on "The Spirit of Rural America," then narrowed it down to "The Spirit of Quitaque," expressing the hope that Quitaque and other rural towns like it, will never lose their friendliness and spirit of one-ness, something that is sometimes hard to find in the larger towns and cities.

Mrs. Novelle Wise, who has taught school here for many years, was crowned Homecoming Queen during the program Saturday night. All three of Mrs. Wise's children are graduates of QHS, and all three were present with her Saturday night. They are Monte Wise of LaCrosse, Wis., Murray of Quitaque, and Mrs. Morris Parker of Monroe, La. They

What to do while the line is busy

1 Take for granted that whoever is talking on the line will hang up soon.

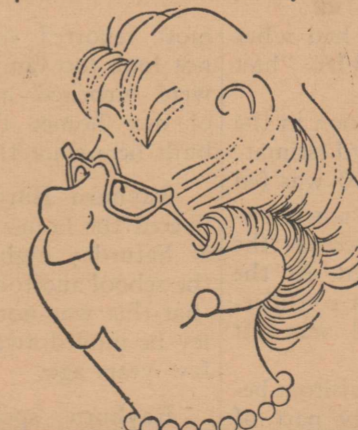

2 Hope that no one left his receiver carelessly off the hook.

3 Think about how reliable a telephone connection is once you get it. And how Gen Tel is constantly at work to modernize and improve service.

4 Be patient. After all, you may have talked for 20 or 30 minutes once yourself. So decide not to call the telephone company to report an out-of-order phone.

5 Think again about trouble-free telephone service. Then, when you get a line, think of the other party, too.

WTU NOTEBOOK—PATTERNS FOR PROGRESS

INDUSTRIAL FOUNDATIONS . . . to finance industrial growth

Competition between states and cities to improve their competitive abilities to attract new payrolls has increased the forming of Industrial Foundations in Texas. Many industries want and need someone else to own the land, brick and mortar, keeping their money available for plant operations. Industrial Foundations indicate the interest and desire of a community for new industry. Local citizens who participate usually figure that they get a return on their money in a Foundation by having an additional payroll circulating in their community.

- PURPOSE — is to give a community a corporate entity to assist industry to create jobs within the community — can be an existing industry as well as a new one. Foundations usually assist industry that cannot or will not use normal commercial financial institutions.
- EXTENT OF ACTIVITIES — usually are to acquire and develop industrial property . . . construct buildings for lease . . . provide funds for training workers . . . purchase machinery and equipment . . . prepare promotional material and prospecting expenses and any other function that would give the community a competitive advantage for a new payroll
- ORGANIZATION — is usually by a group of businessmen who are interested in the economic growth and development of their community. A local attorney should prepare the application for the charter and by-laws in order to conform to state laws and internal revenue service regulations. The local bankers' support is very helpful in forming an Industrial Foundation.
- TYPE — of Industrial Foundations vary — profit or non-profit — stock or contributions — the type a town needs depends upon the attitude and characteristics of the local people and its competitive position with other towns to attract new manufacturing payrolls. In most cases, Industrial Foundations are only used to assist industries where labor cost is a big factor in the operation, as the payroll provided is the important thing to the economy of the community.

MRS. BAIRD DESCRIBES INTERESTING VACATION TRIP

(Ed. Note: Mr. and Mrs. J. B. Baird and Mike recently returned from a vacation trip through the west and northwestern states and into Canada. We appreciate the writeup of the trip by Mrs. Baird.)

A few hours out of Quitaque, Albuquerque was our first stop, where we stayed at Bachelor Officer's Guest House, guest of Lt. Louie Havens, Jr., who is Jimmy's nephew. Sandia Base presented some interest and dinner at Bachelor's Club was a treat.

The drive to Kingman, Arizona was uneventful, but the next day, Hoover Dam and Las Vegas Nevada were stimulating, to put it mildly. The same day we drove into San Bernardino, Calif., where we spent the next week visiting Jimmy's sister and exploring Disneyland, baseball at Angel Stadium at Anaheim, horse races at Hollywood Park, a visit to International Airport and a day at the beach made time fly. We were most impressed with the flow of traffic at the International Airport. In the thirty minutes we sat in the Needle, a circular, glass-enclosed dining room, miniature of the Space Needle at Seattle, every four minutes a jet landed as another took off.

Leaving San Bernardino we took the Coast Highway up to San Francisco. China in Town, Fisherman's Wharf, and sight-seeing along the bay took one evening.

A drive through the Redwood Forest into Eugene, Oregon the next day was colorful, impressive, and very slow travel. Arriving in Eugene, Ore. at 10 p. m. we were amazed to notice that it was not yet dark.

Driving the next day took us through Portland, Seattle, Salem, Tacoma and into Bellingham, Wash. Jimmy's sister lives on Lummi Island, one of the San Juan Islands in Puget Sound, about one mile offshore from Bellingham. Ferrying in and out we went up into Van-

couver, Canada, where we visited the picturesque Stanley Park. Royal Mounted Policemen and their horses sometimes impress even adults from our part of the world.

On the island life is slow, people are relaxed. Famous Mt. Baker, completely covered with snow, passing boats, the shoreline of the city of Bellingham, and the islands dotting the Sound in every direction are views from the island. Days beachcombing were spent in woolen jackets. We know now why they call it "God's Country."

After five days on the island we went back to Seattle to tour the Space Needle. Driving this day we viewed the Cascade Mts. in all their glory, beautiful mountain lakes, National Forests and turbulent rivers through Oregon, Idaho and Montana.

Yellowstone National Park pretty thoroughly explored, bears and all. We lunched this day at Yellowstone Lodge, overlooking scenic Yellowstone

Lake with the snow covered mountains in the background. You can believe—no swimming, but coats are comfortable. A thunder storm followed out of the park and lightning struck somewhere very near us, an appropriate exit from a memorable experience.

The Tetons were equally beautiful, and Jackson Hole, Wyoming the last pretty thing we saw in Wyoming. The rest of the state is simply to hold the earth together.

Another day and into Den-

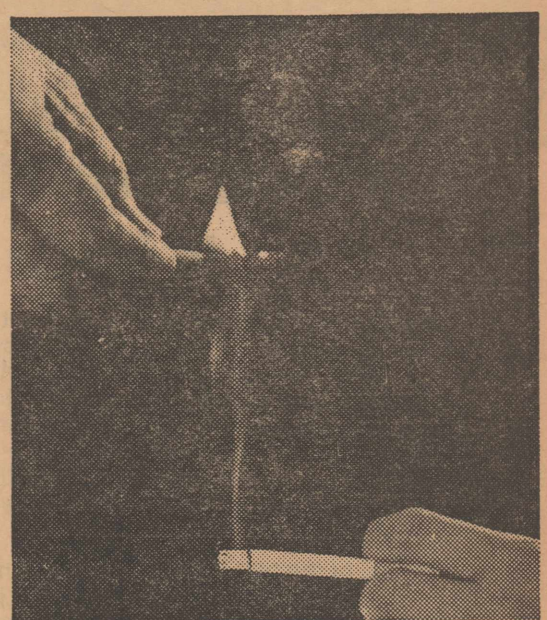

ver where we visited Jimmy's niece. We've never visited in homes much before because of the lack of time. We found that it can be fun, and such a wonderful way to get rested for the next jaunt. Everywhere we went we had a better time, but all good things must end. It wasn't bad to leave for home after four days in Denver, and sometimes we agreed with the old adage, "the best part of a trip is coming home."

Testing... 1-2-3-

1. Take a lighted cigarette.
2. Hold a match flame in path of smoke.
3. Watch smoke disappear.

This simple test shows why GAS cooking is cleaner. The flame consumes smoke. It means you can enjoy smokeless, closed-door broiling with GAS. Put a modern GAS range to any test. You'll find it can't be equalled.
