MRS. CECIL RICE'S COUSIN KILLED IN AIRCRAFT CARRIER EXPLOSION LAST WEEK

Mrs. Cecil Rice received word last week that a cousin, Sn. Kenneth Gray, had lost his life when the aircraft carrier "Oriskany" blew up off the coast of Viet Nam. The flyers had just returned from a mission over Viet Nam and were safe back aboard ship when the carrier blew up. Sn. Gray was one of two Texans reported killed in the mishap. Funeral services for Sn. Gray were held Sunday at Farmington, N. M.

A nephew of Mrs. Josie Johnston, Allen Joe Thomas of Tullia, was also aboard the Oriskany but he called his parents as soon as he could and reported that he was unhurt.

He was also a nephew of Mrs. Jimmy Pointer.

COMING DOLLAR-A-BALE REFERENDUM EXPLAINED

Although definite dates have not been set by Secretary Freeman on the proposed cotton referendum, it has been announced that this referendum will be held at the same time as the referendum on cotton marketing quotas for upland cotton. The dates for the quota referendum, which will be by mail for the first time, has been set for December 5 through 9. It is generally acknowledged that when and if the promotion program referendum is set, that these will be the dates.

In a statement by the National Cotton Council on "How to Meet Synthetic Fiber Competition," the council points out that price is not the problem. The council says that "some of the market losses have been based on PRICE competition. This has been particularly true in the case of rayon and foreign-grown cotton.

"For the time being, however, cotton is being made competitive through government subsidies. And whatever else may be said about it, the new four-year program just enacted by Congress permits the government to go the last mile in making American cotton competitive in price.

"But will this kind of government price policy win the markets that cotton farmers so desperately need?

"It will help. It is a necessary condition for winning these markets. But price alone is completely incapable of doing the job."

Most producer leaders have acknowledged the fact, after considering the alternatives, that the uniform collection procedure is the only method for raising the necessary funds. The conclusion was arrived at after previous efforts on the part of the Cotton Producers Institute to raise adequate funds on a voluntary basis failed to meet its goal.

The proposal under the enabling act provides for the following:

A referendum of cotton growers, on a Beltwide basis, on the question of a research and promotion assessment of \$1 a bale. Two-thirds of those voting, or a majority of those voting, who also produce two-thirds of the cotton represented in the referendum, would be required. This assessment could be discontinued if it failed to win simple majority approval in subsequent referendums.

Voluntary participation of individual growers is provided for in the proposal. While collections would be uniform in order to eliminate the competitive factor among processors and handlers, any grower could request and receive a refund on his money.

Producer organizations in the various states would apply to the Secretary of Agriculture for approval to participate in the program. Approval would be based on a careful set of criteria to determine the extent to which a given organization is qualified to represent cotton producers.

A Cotton Board would be appointed by the Secretary, from nominations submitted by the approved producer organizations. Each of the 14 major cotton states would have at least one Board member, with additional members being allotted to the heavier producing states. The Board would be a quasi-governmental body. It would receive the funds; contract with a Beltwide cotton producer organization for their expenditure; and in general look after the government's responsibility for seeing that the

CLARENCE BARRETT SERVICE HELD TUESDAY AT BAPTIST CHURCH

Funeral services for Clarence Barrett, 51, who lost his life in the auto accident Sunday night, were held at 3 o'clock Tuesday afternoon at the First Baptist Church here.

The Rev. Bill Curry officiated, assisted by the Rev. Al Jennings, pastor of First Methodist Church, and Rev. Raymond Bowlin, pastor of Avondale Baptist Church in Amarillo. Burial was in Rest Haven Cemetery under the direction of Quitaque Funeral Home.

Pallbearers were O. R. Stark, Jr., Ray Doyle Ramsey, A. B. Ramsey, L. B. Monk and Glenn Ramsey. Honorary pallbearers were the directors of Farmers Co-op Gin. Clarence was also a director of the gin.

Clarence Eugene Barrett was born March 2, 1915 in Oklahoma and came to this community with his parents on October 28, 1923, and attended the local schools.

He was married to Lela Mae Hutcheson May 2, 1965.

Clarence was converted and became a member of the Baptist Church at an early age and was an active member of the church here and was a Sunday School teacher at the time of his death.

Survivors include his wife, Lela Mae of the home; sons Charles and Ronnie of Quitaque and Ray Gene of Lubbock; one daughter, Marilyn Hutcheson of Canyon; his parents, Mr. and Mrs. A. C. Barrett of Quitaque; one brother, Glynn Barrett, two sisters, Mrs. Clovis Hill and Mrs. Millard McNabb, all of Amarillo; and one grandson.

funds are spent for the purposes intended.

The governing body of the Beltwide producer organization would be selected by the approved producer organizations in the various cotton states—just as the CPI Board is now selected. Each state would be represented on the governing body in ratio to the funds paid in, just as at present. The governing body would have the power to allocate funds among various research and promotion projects. It would be able to utilize the experience and demonstrated ability of the research and promotion staff of the National Cotton Council and thus avoid overhead expenses.

Those arguing for a "yes" say that the proposed idea is neither new or radical, having been a concept applied for the research and promotion of other farm commodities including fruit, dairy products, wool, vegetables and others.

Opponents of the program base their opposition on the fact that the expenditure for cotton research and promotion should be shared in by processors handlers. In their testimony at the hearings they have also relied on the argument that the program constitutes government interference and that the Secretary is provided with undue authority over the operation of the program.

In a news release by the National Cotton Council from Waco this week Rep. W. R. Poage (D-Texas) said the attitude of Congress will be sharp-

(Continued On Page 2)

A grinding, head-on collision between two automobiles took two lives and wounded five others about 7:30 p. m. Sunday about four miles south of town just past the first river bridge.

Dead at the scene of the accident were Mrs. Ray Persons and Clarence Barrett. Critically injured were Lela Mae Barrett and Glynda Crowell. Ray Persons and his grandson, Ronnie Hutcheson, 14, received serious injuries and Ricky Boggs, 18, received numerous cuts and bruises, but not as serious as the others.

Ricky Boggs and Miss Crowell were traveling south in one car and the others were driving north toward Quitaque.

Mrs. Barrett was carried to Northwest Texas Hospital in Amarillo following the accident and was in surgery for several hours that night. She received severe head injuries, internal injuries and both legs were broken, and also injuries to her feet. Her condition was very critical and is still critical, but reports now are that she has a chance to recover, barring complications. Mrs. Barrett also received eye injuries, but latest reports were that they were not as serious as first reported.

The other injured were carried to Methodist Hospital in Lubbock. Miss Crowell, 16-year old daughter of Mr. and Mrs. Junior Crowell of Flomot, has been in critical condition since the accident, but reports Thursday morning were that she was showing slight improvement. She received severe head and eye injuries, a broken arm and a broken leg.

Ray Persons received two broken arms and several broken ribs and facial lacerations. Ronnie Hutcheson received severe cuts around his face and head and also a broken jaw. Mr. Persons and Ronnie are reported to be recovering, although their injuries are serious.

Ricky Boggs, son of Mr. and Mrs. Hayden Boggs, received cuts and bruises and shock. His father reported Thursday morning that Ricky might be released and allowed to return home Friday.

The communities of Quitaque and Flomot were both saddened and shocked when word of the tragedy was received. Probably no other tragedy or accident has touched the lives of so many people of the two communities as has this one and the sympathy of many hundreds of friends and relatives have been extended to the families of those directly involved. The Tribune does not contain very much of the comings and goings of our community this week because, like everyone else, we have tried in a small way to be of some help to the bereaved, and because we just did not seem to be able to get much work accomplished.

Monte Wise from LaCrosse, Wisconsin stopped over in Lubbock as he was on his way to San Antonio on business. He and the Tommy Starnes drove down to Quitaque early Sunday morning to spend the day with his mother, Mrs. Novelle Wise, and his brother, Murray Wise and his family. He resumed his flight to San Antonio at 7:45 Sunday evening.

MRS EUNICE PERSONS LAID TO REST WEDNESDAY

Funeral services for Mrs. Eunice Persons, 70, were held at 2 o'clock Wednesday at the First Baptist Church with the Rev. P. D. Fullingim of Lubbock officiating, assisted by the Rev. Bill Curry, pastor, and the Rev. Al Jennings, pastor of the Methodist Church.

Burial was in Rest Haven Cemetery under the direction of Quitaque Funeral Home.

Mrs. Persons died in the automobile accident Sunday night which also claimed the life of her son-in-law, Clarence Barrett.

Pallbearers were Jarrell Rice, Jack Loudermilk, Morris Wilson, Jake Merrell, O. R. Stark, Jr., and Frank Hawkins.

Eunice Witcher Persons was born October 11, 1896, in Carroll County, Ga., the daughter of the late Mr. and Mrs. L. D. Witcher. She moved with her parents to Hobart when she was 8 years old and lived there for a short time, then the family moved to New Mexico. The Witcher family moved to this area a few years later, coming from New Mexico in a covered wagon.

Mrs. Persons attended the local schools, and following graduation from school here she attended State Teachers College at Canyon long enough to receive a teachers certificate and taught school here one term. She was married to Ray B. Persons on May 21, 1916.

Mrs. Persons has been a member of the local Baptist Church for many years, and has been active, having served as W.M.U. president and taught classes in the Sunday School.

Mrs. Persons is survived by her husband Ray of the home; two sons, Amos of Farmington, N. M., and Tom of Tullia; one daughter, Mrs. Lela Mae Barrett of Quitaque; three brothers, J. T. Witcher of Roswell, N. M., J. B. Witcher of Monterey, Calif., and N. D. Witcher of Las Vegas, Nev.; three sisters, Mrs. Leona Morris of Quitaque, Mrs. Lillie Fulker-son of Odessa and Mrs. Evelyn Eaton of Modesto, Calif.; seven grandchildren and four great-grandchildren.

Mr. and Mrs. C. T. Rucker, Jr. and family of Amarillo arrived Saturday to visit his parents, Mr. and Mrs. C. T. Rucker and sister, Mary Pittman, this week. C. T. is recuperating from his recent accident of falling when a ladder collapsed under him. Sunday visitors at the Rucker home to visit the visitors were Mr. and Mrs. Bill Woods, Mrs. H. O. Dyer, Miss Clemmie Jacobs, Rev. Al Jennings, and Mr. and Mrs. Lee Driver of Memphis.

QHS Teams Split Games At McAdoo

Quitaque's Fighting Pantherettes and Panthers journeyed down to McAdoo Tuesday night for the annual donkeybrook and the expected happened. The Pantherettes came off the floor with a fine 48-27 win over Fabian Lemley's Eaglettes in a game that wasn't close most of the way.

The Panther - Eagle affair, however was usual fast, rough contest and when the firing was over, Quitaque was on the short end of the score, 56-58.

The Pantherettes simply gave McAdoo a good country licking, and only briefly in the second period did the Eaglettes threaten very strong. It was not much of a threat as the Quitaque team refused to be shaken and never lost their poise.

The Pantherettes led 14-6 at the end of the first quarter of play, 26-14 at halftime, 38-24 at the end of three quarters and with the reserves finishing out the final minutes, routed their opponents 48-27.

The Panthers got off to their usual rocky start and had to play catchup most of the first quarter, but they did catch up and led 13-10 at the end of the first quarter. They led by a single point, 25-24 at half time.

At the end of three periods McAdoo had taken a 42-39 lead, most of their third quarter points coming on free shots.

The Panthers knotted the score at 50-50, then went ahead at 51-50. The lead changed hands once more and was tied one more time. The Panthers had a chance to win the game in the final minute but threw the ball away.

The Panthers did not play as well as they are capable, but the loss was a bitter one to take.

Friday night the local teams go to Samnorwood for two games. Tuesday night of next week Hedley comes here for a doubleheader and on Friday night of next week McAdoo comes here. Coach Johnson and his Pantherettes and Panthers plan to fatten their winning records.

COMING DOLLAR-A-BALE REFERENDUM EXPLAINED

(Continued From Page 1) ly affected, "for better or for worse," by the decision made in the dollar-a-bale referendum on research and promotion. Rep. Poage is the ranking member

of the House Agriculture Committee. "As things now stand—under the emergency four-year program in effect—the government has gone just about the last mile in making cotton competitive in price, in the domestic as well as the foreign market," he pointed out.

If farmers show by their votes that they are ready to give up on cotton, "I think the Congress will be ready to give up too," he said.

On the other hand, he continued, "if cotton farmers show they want and intend to compete — by approving the assessment of \$1 per bale for research and promotion—I think the Congress will be inclined to go along with further substantial assistance after the present four-year program expires."

Representative Poage reminded cotton growers that in order to protect the farmer's income, meet price competition, and reduce the surplus, the government is making domestic allotment payments and diversion payments.

For a typical farmer who has an allotment of 30 acres, who has average yields and who took the 35 per cent diversion, he explained, the total payment on his production this year would come to about \$72.50 a bale.

"Is it worth this much to the country to try to save cotton?" he asked.

"In my judgment, Congress will feel that it is very worth-

while—if we can see genuine promise that there will be programs capable of putting cotton on its feet and making it self-sufficient within some reasonable period of time.

"If there is to be such an outlook, a greatly expanded program of research and promotion must be at the very heart of it."

Mr. Poage said he was delighted when cotton producers came to Congress with a self-help plan that would give farmers an opportunity to put up the dollar a bale for research and promotion programs they would operate themselves.

He, accordingly, helped bring about passage of the Cotton Research and Promotion Act which would make possible such a program provided it is approved in the referendum in early December.

"In this day and age," he reiterated, "the producers of any product have to put up big money to improve it and sell it through advertising and other techniques of promotion. Either they do this or go out of business."

"In essence, this is the essence, this is the decision farmers must make in the referendum on cotton research and promotion."

Vary the Vegetables, a recent survey on vegetables served in restaurants concluded that baked potato remains the all-time favorite of vegetables in the United States. Massed potatoes, green beans, French fried potatoes and asparagus were rated in the order listed. The summary of this survey indicated that restaurant patrons would like a wider selection of vegetables. Homemakers might take a cue from this survey. The family vegetable pattern may be in a rut and could stand more variety. With the vegetable bins overflowing in choice at the stores, now would be the time to change the pace.

Wise shoppers watch prices in local markets and purchase accordingly. Certain foods are seasonally more plentiful than others. Prices are more favorable when supplies are plentiful.

Plentiful foods for the next several weeks, according to the U. S. Department of Agriculture, include grapes, pears, dry beans, pork, turkey and raisins.

A team for a better Texas for you!

Governor John Connally and Attorney General Waggoner Carr have worked together for 4 years to give Texas and YOU a better state and better opportunities.

As a United States Senator in Washington, Waggoner Carr will co-operate with Governor Connally to work for better education, more jobs, benefits for our elderly, and better prices for our farmers, ranchers and dairymen. He will do what is right for Texas!

Vote Democratic, Tuesday, Nov. 8, 1966

Elect Democrat

WAGGONER CARR

United States Senator

Texas Citizens for Carr Committee Thomas W. Butler, State Chairman

TEXAS IS ON THE MOVE!

In virtually every field of endeavor, our state has made dramatic progress the past four years under the strong leadership of Governor John Connally. His administration's bold, yet sensible programs have helped provide new opportunity and a better way of life for all our people.

IMPROVED EDUCATION — Since 1963, state investment in higher education has doubled, and faculty salaries have increased 40%. State support of local public schools have increased 44% in four years, including a \$100 million teacher pay raise enacted in 1965. Technical and vocational training programs have been vastly increased; junior college enrollment doubled during the current bi-ennium. Special literacy programs for migrant workers and their children have been expanded. A college student loan fund of \$85 million has been established. And a special Governor's Committee on Public Education currently is studying all facets of elementary and secondary education.

WATER RESOURCES DEVELOPMENT — Long range planning and development have been given top priority. \$100 million in bonds have been issued for development of needed storage facilities; authorization has been granted to expand this program to \$200 million for the next two years.

CONCERN FOR THE AGED AND NEEDY — Since 1963, assistance to our elderly has been increased 27%. The Governor's Committee on Aging is continually working for the benefit of our senior citizens.

OUTDOOR RECREATION — More than \$2 million has been invested in improving ten of our most attractive state parks during the past two years to provide additional recreational facilities.

INDUSTRIAL EXPANSION — A record 855 new industrial plants have been established the past three years, moving Texas into second place in the nation in industrial expansion.

Last year, more than 23,000 new jobs were created in manufacturing alone — the best year ever for the Texas labor force.

INCREASED TOURISM — More than 12 million tourists visited Texas last year, adding more than \$900 million to the state's economy, and creating 140,000 new jobs. The state's tourist advertising program has been sharply expanded.

MENTAL HEALTH AND MENTAL RETARDATION — New emphasis on prevention of mental illness and mental retardation has been achieved through establishment of new community centers, replacing the former practice of "warehousing" patients. Investment for research into causes of mental disorders has doubled the past four years.

BETTER HIGHWAY TRANSPORTATION — Texas has more farm-to-market roads than any other state — more than 35,134 miles. We lead the nation in construction of interstate highways, at a cost 40% below the nation's average.

COMBAT AIR AND WATER POLLUTION — New legislation for public health, "The Clear Air Act of Texas," provides state action to combat air pollution. Similar vigorous action has been initiated to control pollution of Texas streams, bays and estuaries.

NEW CULTURAL GROWTH — The Fine Arts Commission was established in 1965 to nurture the cultural enrichment of Texans. The state's cultural heritage will be preserved and portrayed in the state's pavilion at HemisFair '68 in San Antonio.

BUSINESSLIKE ADMINISTRATION — With unprecedented teamwork, our state government has operated responsibly and efficiently. The Legislature has finished its work on time in each session. Following a pay-as-you-go policy, we have maintained a healthy surplus in the general revenue fund without curtailing essential services.

HEALTHY, GROWING ECONOMY — Business activity rose 11% last year, as Texas continues one of the brightest growth areas. Employment and income are at an all-time high, unemployment at an all-time low. Despite increased responsibilities, our state government costs only \$168.78 a year per citizen, fourth lowest in the nation. No broad-based tax has been enacted the past four years. Texas still has no personal income or payroll tax, no corporate income tax, and is one of few remaining states with a limited sales tax of 2%.

LET'S KEEP THIS KIND OF PROGRESS AND PROSPERITY FOR TEXAS! HELP GIVE AN OVERWHELMING MANDATE FOR THE VISIONARY LEADERSHIP OF DEMOCRATIC GOVERNOR JOHN CONNALLY AT THE POLLS NOVEMBER 8TH!

RE-ELECT GOVERNOR JOHN
