COTTON MARKETING QUOTA REFERENDUM

Why do farmers vote on Marketing Quotas for Upland Cotton? Why should men take time out from a busy schedule to vote "yes" or "no" on a question like this? Since 1936 when the first Agricultural Adjustment Act was passed by Congress, except for periods of war, farmers have been voting yearly on the question of whether they would impose marketing quotas on themselves. Marketing quotas are simply a penalty assessed on a producer who over plants his cotton allotment. It is this penalty that has caused the program to work so well. Earlier, the only benefits to the farmer who stayed within his allotment were an absence of penalties and a loan on his participation, if needed. Now that we have a cotton program with diversion and price support payments additional benefits are given to the man who stays within the allotment and signs up in the cotton program. But, did you know that our present cotton program hinges on a "yes" vote for marketing quotas? Congress stipulated that quotas and penalties must be in effect in order to have our present cotton program.

Contrary to all rumors that you might have heard, this referendum will in no way affect the cotton allotments themselves. Most wheat farmers found this out in 1963 when wheat marketing quotas were voted down. We still have wheat allotments to this day.

It all boils down to a money question that farmers are voting on.

Farmers owe it to themselves to turn out a large vote. This has been made easy by holding a mail referendum. A large vote will show Congress that farmers are interested in farm programs and wish them to continue. Congress will be studying farmer reactions, conventions, and voting closely in the next two years. If farmers are going to have a farm program, then much ground work is going to have to be laid in the next two years. A good indication of further action on farm bills can be seen in the elimination of the CAP program and by not voting any appropriations for it. Many groups are working hard to eliminate farm programs. Farmers by turning out to vote in this referendum in record numbers, can show Congress that they want a farm program. Letters from individuals to their Congressman indicating their wishes over the next two years will have more influence than all the pressure groups in Washington.

BROTHER-IN-LAW OF LOCAL LADIES DIED RECENTLY AT AMARILLO

THOMAS C. STALLINGS

Funeral services for Thomas Calvin Stallings, 30, of Amarillo, were held last week in Amarillo, under direction of Blackburn-Shaw Funeral Directors. Mr. Stallings died Friday, November 17 in Northwest Texas Hospital where he had been a patient since October 8.

He was the brother-in-law of Mrs. Odie Reagan and Mrs. Leon Turner.

A resident of Amarillo most of his life, he was a member of the Church of Christ. He was an employee of Texaco.

Survivors include his wife Joyce; one son and two daughters, all of the home; his parents, two brothers and four sisters.

YOUNG NEPHEW OF BILL HELMS ACCIDENTALLY SHOT TO DEATH

Tommy Boyce Trout, 14, was accidentally shot to death while hunting about 6 p. m. Wednesday of last week near Plains. The boy was the great-nephew of Bill Helms, who received word of the tragedy early Thursday morning and he left immediately to go to Plains to attend the funeral service.

Yoakum County Sheriff Olan Heath said the youth was hunting with a friend, David Guterslah, 12, on the Guterslah Ranch about 7 miles northwest of Plains. The Guterslah lad turned to talk to young Trout and his .410 gauge shotgun discharged, striking the Trout youth in the head, according to Heath.

Funeral services were held at 4 p. m. Thursday in the Plains High School Auditorium with the Rev. James Bozeman, pastor of First Baptist Church, officiating. Burial was in Plains Cemetery under the direction of Barrett Funeral Home. Pallbearers were the Eighth Grade football players of Plains Junior High School.

Survivors include the parents, Mr. and Mrs. Royce Trout; two brothers and a sister, all of the home; and his grandparents. Mr. Helms spent Thursday night with the family. Mrs. Helms spent the night with Mary Ellen McCracken while her husband was away.

Thanksgiving Day guests at the home of Mr. and Mrs. Willie Woods were their daughters and their families: Mr. and Mrs. Truman Merrell, Cheryl and Janey, Mr. and Mrs. Joe Edd Smith and children, Mr. and Mrs. Jimmy Davidson and boys, Mrs. Butch Baca and girls, Mr. and Mrs. J. Ronald Taylor and son. Mr. and Mrs. James Starkey of Plainview were dinner guests at the home of his parents, Mr. and Mrs. Grady Starkey, then visited at the Woods home that afternoon.

Mr. and Mrs. Louie Hartgraves of Sweetwater came for a visit at the home of their daughter and family, the O. R. Starks, Jr. and children, and to be with Randy as he underwent surgery at the hospital in Plainview Wednesday of last week. Mr. Hartgraves returned home later in the week, but Mrs. Hartgraves remained until Tuesday when she went to Avoca for the basketball games there, her husband meeting them there and returned his wife home.

Gary Pointer, son of Mr. and Mrs. Billy Pointer of Dumas, and his new bride, spent Sunday with his grandparents, Mr. and Mrs. Elmore Pointer. Other guests were Billy Pointer, and Mr. and Mrs. Jimmy Pointer.

Mrs. Ronald Kaiser and children of Plainview spent Saturday with Mr. and Mrs. H. B. Finney.

RANDY STARK HAS APPENDIX REMOVED LAST WEEK

He came into the house with his eye hemorrhaging and his aunt Mrs. Earl Patrick, rushed him to Lockney, from where he was transferred on to Lubbock Methodist Hospital. He was able to return home Monday.

GRANDSON OF PIERCE WHITES BAGS DEER AND A BOBCAT

Gary White, 13-year-old son of Mr. and Mrs. Wayne White of Ruidoso, N. M. and grandson of Mr. and Mrs. Pierce White, recently bagged an 8-point buck deer, his granddad Pierce reported. In addition to the deer, Gary also bagged a bobcat on his hunting trip near his home at Ruidoso.

rough basketball, especially in the girls game. Carol Myers scored 11 points to top the other Pantherette forwards. Jackie Cheatham and Barbara Chandler tossed in 9 points each and Sherry Stark managed to tally 7 points. She had to set out much of the game after being slammed to the floor by one of the Paducah guards during a tussle for the ball. Sherry banged an elbow against the floor but the injury was not serious. This was a peculiar game in that the Quitauque forwards drew most of the fouls. Nine fouls were called against the Pantherette forwards, while Billie Cheatham drew four fouls, and Lynette Taylor, Joe Beth Merrell and Kay Cochran did not draw a single foul, Jo Beth Merrell played one of the better games of her high school career—a fine performance.

The Panthers played very good basketball against the Dragons, in spite of having to give away several inches in height almost to the man. The game was close

GOING AWAY PARTY HONORS MR. AND MRS. BOGGS

The home of Mr. and Mrs. Cecil Purcell was chosen as the site for a going-away party honoring Mr. and Mrs. Hayden Boggs last Saturday night. Mr. and Mrs. Boggs are moving to Tulsa.

Gary White, 13-year-old son of Mr. and Mrs. Wayne White of Ruidoso, N. M. and grandson of Mr. and Mrs. Pierce White, recently bagged an 8-point buck deer, his granddad Pierce reported. In addition to the deer, Gary also bagged a bobcat on his hunting trip near his home at Ruidoso.

for most of the first quarter, with the score being tied 6 times, the last time at 14-14. From that point however, the Panthers pulled away to a 21-14 first period lead. The Panthers were ahead by 12 points each and Sherry Stark managed to tally 7 points. She had to set out much of the game after being slammed to the floor by one of the Paducah guards during a tussle for the ball. Sherry banged an elbow against the floor but the injury was not serious. This was a peculiar game in that the Quitauque forwards drew most of the fouls. ROSS HERRINGTON BAGS COUNTIES' FIRST DEER

The first deer ever bagged in Briscoe County was brought in November 21st from the rugged Caprock country north of Quitaque.

Ross Herrington, who was accompanied on the hunt by Orval Cobb and Rev. Bill Curry, was credited with the kill. A 10 point buck, the deer was a fine deer, and when dressed out weighed over 160 pounds. Judging from this it probably weighed at least 250 pounds before being tracked down

by the trio of hunters.

Ross called the editors and told them to go and get a chunk of the venison, which we did and for which we thank Ross.

Saucy Delight

By Betty Barclay

As a beverage, coffee has no peer. Used as an ingredient in recipes, you will discover the same rewarding flavor. This sauce is no exception. It combines the good flavor of Instant Sanka Coffee with easy preparation. Store it in the refrigerator in easy reach for topping ice cream, pancakes, plain cake squares (especially delicious on chocolate), or use the sauce as a base for a refreshing soda.

Coffee Sauce

Dissolve ¼ cup instant decaffeinated coffee in ½ cup hot water. Blend in 2 cups corn syrup and ¼ teaspoon salt. Simmer 5 minutes. Remove from heat and add 2 teaspoons vanilla. Cool. Store, tightly covered, in refrigerator. Serve on ice cream, pancakes, or other desserts. Makes 2 cups.

Coffee Sauce Soda

For each serving, pour ½ cup sauce into tall glass. Add 2 tablespoons heavy cream; stir in a little chilled soda. Add 2 scoops of ice cream; fill glass with additional soda, stirring gently to mix.

Mr. and Mrs. Joe David Payne and children spent Thanksgiving Day with his parents, Mr. and Mrs. Archie Payne at Lockney. They drove to Groom Monday of this week to visit his sister, Mrs. Virgil George, who is in the hospital there.

Some years ago there was a man whose business was tanning hides. One day he decided that if one could take an old, stiff, ugly, big-pored hide and turn it into a beautiful, small-pored soft piece of leather like a glove—then, somehow the same miracle could be wrought with human skin—particularly since there were living cells with which to work.

He experimented with his own skin, using in a modified form the things used in tanning hides. At 73 he had smooth, unblemished skin like that of a much younger man.

From this original discovery evolved MARY KAY COSMETICS. You, too, can enjoy this beauty secret. Let me show you that "No Woman Need Ever Look 40!"

AT LEAST 1 1/2 TONS OF WATER IS CARRIED HOME EVERY YEAR BY A FAMILY WHO BUYS BOTTLED WATER REGULARLY.

BAD-TASTING WATER AFFLICTS MUCH OF THE COUNTRY. WATER CAN BE UNPALATABLE FROM NATURAL OR MAN-MADE POLLUTION. IT RUINS FLAVOR OF ANYTHING MADE WITH IT, INCLUDING SOUPS, JUICES, ICED BEVERAGES AND COFFEE.

SEARCHING FOR A WAY TO REMOVE SALT FROM SEA WATER, SCIENTISTS DISCOVERED A PLASTIC MEMBRANE THAT REMOVES MOST OF WATER'S IMPURITIES. USED IN A NEW KITCHEN WATER PURIFIER, THE MEMBRANE TAKES OUT UNDESIRABLE MINERALS, COLOR, TASTE, OOR, DETERGENTS AND OTHER ORGANIC CONTAMINANTS.

PURIFIED WATER IS NOT ONLY BETTER FOR DRINKING, BUT WORKS BETTER IN STEAM IRONS, BATTERIES, VAPORIZERS... EVEN FISH ARE HAPPIER IN IT. AND, ACCORDING TO THE CULLIGAN WATER INSTITUTE, MAKING "BOTTLED" WATER AT HOME REDUCES ITS COST UP TO 50 PER CENT.

GOLDEN BROILED CHICKEN FOR "SPECIAL" MEALS

When the occasion calls for outdoor entertaining other than the paper plate and grilled burgers sort, plan an easy to do party with natural elegance.

Here's a company table that says "special" in its every detail... candlelit, flower decked, and dressed with a colorful cloth. It provides the perfect frame for Golden Broiled Chicken, a luscious entree featuring tender chicken glazed with a flavorful sauce.

To prepare the glaze, start with canned chicken gravy, that smooth, good gravy made from real chicken stock. It's ready to use right from the can. With a touch of Parmesan cheese and lemon juice, this extraordinarily tasty glaze doubles as a perfect spoon-on sauce for the Golden Broiled Chicken.

Add a dramatic note by serving the chicken on a bed of crisp parsley, surrounded with broiled tomatoes and mushroom caps. And include a big green salad. For dessert, carry out a tray laden with fresh fruits of the season.

Golden Broiled Chicken

- 2 whole chicken breasts (about 1 1/2 pounds), split
- 1 can (10% ounces) chicken gravy
- 2 tablespoons grated Parmesan cheese
- 1 tablespoon lemon juice
- 1/2 teaspoon mace

Brush chicken with salad oil; place on broiler pan, skin side down, 4 to 6 inches from heat. Cook 15 minutes; turn and cook 15 minutes longer. Meanwhile, in saucepan, combine remaining ingredients. Heat until cheese melts; stir now and then. Brush chicken with sauce, continue cooking 30 minutes or until done, basting with sauce and turning every 5 minutes. Serve with remaining sauce. Makes 4 servings.

college friends at a breakfast in the home of his parents last Sunday.

He was active in many of the high school extra-curricular activities. He was business manager of the prize-winning MHS Monitor, Mesquite High School's student publication. He also edited the "humor column." The Dallas Times Herald presented him the Outstanding Staffer Award for his newspaper work.

He was a member of Future Teachers of America, Key Club, National Honor Society, Junior Civitan Club, Future Business Leaders of America and the Mesquite High School Band. He was elected as Mr. Future Business Leader of Mesquite High, representing his school at both regional and state conventions. As a member of the Mesquite Junior Citizen's Traffic Safety Council, Joe Frank represented his club at the district convention where he and the club members received a trophy for their club's outstanding work. He played a leading part in his school's entry in the Interscholastic League's drama competition.

Joe Frank graduated with highest honors from his high school, last May, being in the top five percent of his class. He was presented

the Journalism Award. Joe Frank's hobbies are art, music and genealogy. He has traced his mother's family tree back to the time before Christ, and his father's for five generations.

Travel is one of Joe Frank's greatest pleasures. Traveling with parents or friends, he has been in over three - fifths of the United States and the Republic of Mexico. This past summer Joe Frank and two friends travelled for a week in Oklahoma and Arkansas. As the three boys were amateur photographers and camping out, they enjoyed taking many snapshots of the scenery along the way. His three favorite places are Salado, Texas, New Orleans, La., and Hot Springs, Ark.

QUALIFICATIONS & REQUIREMENTS FOR VOTING

"Every person subject to none of the foregoing disqualifications who shall have attained the age of twenty-one years and who shall be a citizen of the United States and who shall have resided in this state one year next preceding an election and the last six months within the district or county in which such person offers to vote, and who shall have registered as a voter, shall be deemed a qualified elector. No person shall be permitted to vote unless he has registered in accordance with the provisions of this code. The provisions of this section, as modified by Sections 35 and 39 of this code, shall apply to all elections, including general, special, and primary elections, whether held by the state, by a county, municipality, or other political subdivisions of the state, or by a political party."

"Subdivision 2. New Residents. Any person who was not a resident of the state on the first day of the regular registration period but who becomes a resident before the beginning date of a voting year may register for that voting year at any time after he becomes a resident and up to thirty days before the end of the voting year, if at the

time of applying for registration he is a qualified elector or will become a qualified elector before the end of the voting year."

Registration forms are kept on hand at the City Hall here in Quitaque.

NOTES FROM THE FARM AND HOME ADMINISTRATION

Farmers Home Administration makes and insures rural housing loans with maximum repayment period up to 33 years, according to Donald B. Cruce, County Supervisor for Briscoe and Swisher Counties.

Finger Tips

Elbow grease has now gone out of style thanks to the increase in the number of aerosol householding products that were sold last year. Latest surveys show that more than 183 million household products in spray form found their way into your cleaning closet and mine. Here are some hints on using sprays from the Aerosol Division, Chemical Specialties Manufacturers Association:

1. Clean Your Cleaning Closet: Empty containers take up time and space. So taking inventory is as good as house as it is in a store — it will show you what you have and what needs replacing.

2. Mobilize: Sounds like a troop movement, but it's really just basic organizing of cleaning products — from sprays to sponges. Put the sprays and other products used every day on the shelf easiest to reach. Others can go higher, or toward the back of the closet. (If you don't have a cleaning closet at all, try using shoe bags or empty soft drink containers with compartments in them.)

3. Do Your Homework: No, we're not joking about housework. We mean, learn about those products you use, including aerosols. Read the label on the sprays you are about to use — and, if it's a product you don't use often, reread the label. Find out if it's to be shaken, tilted, and about how far it should be held away from the surface to be cleaned.

4. Make One Product Do the Work of More: For instance, you can often clean metal with a glass cleaner, or a painted wall with some of the new all-purpose bathroom cleaners.

5. Make Lists: A "permanent" list of which spray cleaners you keep on hand is a handy reminder. Tack it to the inside of the door where these products are kept. It'll sound quite executive — but then who ever said that a housewife isn't an executive — at least in her own home!

These loans are made to farmers and other residents of rural areas and small rural communities. There are special provisions for rural senior citizens who are 62 years of age and over and for low-income families.

Funds may be used to finance dwellings, building sites, and essential farm service buildings. They may be used to build, improve or repair rural homes, as well as refinance debts a family owes on its home when such action is necessary to help the family retain ownership. Rural Housing loans are made only to applicants who are unable to obtain the credit they need from private and cooperative lenders.

Applications from eligible veterans are given preference. Both veterans and non veterans must meet the same requirements and qualifications for loans.

It is possible to buy an existing home and lot or to buy a minimum adequate site on which to build a home as well as to build or repair a home on land owned.

A farmer may borrow funds to provide buildings for his use or for the use of his tenants and laborers. "It costs nothing," states Cruce, "to apply for a housing loan, but

the applicant pays for the legal services necessary to make certain he has a satisfactory title to the farm or nonfarm tract and for other incidental loan closing costs." An applicant applies at the Swisher County office at 222 West Broadway, Tulia, Texas or the Briscoe County office at the Courthouse in Silvertown.

Most of the loan insurance authority apportioned for the first half of the 1968 Fiscal Year has been obligated. Therefore, approval of loans will be delayed until after January 1, 1968. However, applications are being taken and developed up to the point of approval and can be submitted immediately after the first of the year.

BABY'S FEET NEED LOVING CARE

Have you ever stopped to think how important a baby's feet are to his future health and happiness? Probably not. But since one out of three babies will eventually have foot problems, a few basic facts about new feet and their care should be useful.

Why are a baby's feet so important? For one thing, they must last through a lifetime of walking. During his life, the average person walks a distance equal to nearly two and one-half times around the earth. What a long trip that could be on aching feet!

Neglecting foot health in the early years invites problems later on, not only in the feet themselves but in the legs, lower back and other areas. There also can be undesirable effects on the child's personality. The youngster with troublesome feet walks awkwardly and usually has poor general posture. As a result, he may become shy or introverted.

Podiatrists consider the first year of life the most significant in development of the feet. Why? By the time your child reaches age one, his feet will have grown to almost half the size they will be in his twenty-first year. Such pliable, rapidly expanding structures are susceptible to deforming pressures. Here is what you should remember about infant feet:

Your child has no real need for shoes or socks until he begins to stand and walk.

Do not bind feet covers over baby's feet. This restricts movement and retards normal development.

Let the child lie uncovered for some time each day. This allows for kicking and other motion so necessary for strengthening the feet and preparing them for their later weight-bearing role. Change baby's position several times a day. Lying too long in one position — especially on

the stomach — can put excessive strain on feet and legs and may cause deformities.

Your child's feet should be examined periodically by a foot specialist before he begins to walk.

When your baby takes a few hesitant steps he is ready for shoes and socks. The first shoes should lace up over the ankle, because the young heels are quite narrow and will easily pull out of low-cut shoes during walking. He will wear high shoes until about age two, or at least until a good heel fit can be obtained in low shoes.

When your child reaches walking age keep in mind: Have his feet examined again by your family podiatrist — the doctor who specializes in foot care. He will give you valuable advice about your youngster's feet and shoes.

Since baby's feet do grow rapidly, his shoes and socks must be checked often. In early childhood it is often necessary to change shoe and sock sizes every month or two.

Don't force your child to walk before he is ready. When he is physically and emotionally prepared, he will walk. Let baby set his own pace. Comparisons with other children are misleading and often harmful.

The average child begins to walk alone anywhere from ten to eighteen months.

When your child starts walking, take him out for daily strolls. Walking is a most important health habit and the very best of all foot exercises.

One final word of advice to the new mother: The care you give your child's feet will have a tremendous influence upon his foot health later on. Feet are important — and we get only one pair.
