Quitaque Baptists Host Roy Davidsons

The Rev. Roy Davidson and family, missionaries to Malawi, Africa, and furloughing in the States, at present making their home in Plainview in a home furnished by Wayland Baptist College, were guests of the First Baptist Church in Quitaque Sunday.

Roy, Patsy, and children, Gil, Gay and Gwen, spent from Friday night until Monday in the home of the O. R. Stark, jr's. He was former pastor at Quitaque, leaving here in 1964 to begin preparation for duty as missionaries.

Bro. Roy preached Sunday morning, putting emphasis on our responsibility as a missionary where we are after we accept Christ as our personal Savior and His way of life. He told us each American is wealthy beyond measure, compared to other nations of the world. We are saved to witness each day wherever we are.

His message was beginning the Mary Hill Davis "Week of Prayer" for State Missions. eW were very privileged to have him and his lovely family in our midst.

After the morning message, the church met for lunch and fellowship in the fellowship hall. A bountiful meal was served with as much left over as was eaten. Bro. Roy told us Sunday night it grieved his heart to see the gallons of food put into garbage, when his people and so many of God's children have nothing to eat.

Sunday evening after the message, Mrs. Davidson, assisted at the projector by her son, Gil, showed slides of the area and work in Malawi and discussed each picture. She says there are few radios and no television in Malawi. The time for a program cannot be bought on the radio for any person, group or activity. The government past week.

LOVING PEOPLE

My family and I would like to take this opportunity to say thank you for being such wonderful people in Quitaque and Turkey. When we moved to your town 3 1/2 years ago, you welcomed us with open arms and opened your hearts to us. You let us become a part of your lives. We have never lived in a town with so many friendly and God loving people in it. We have loved every minute of it and it is difficult for us to leave this wonderful town.

The town of Quitaque has been extremely good to us and West Texas Utilities. It has been a privilege and honor for me to come to your service whenever needed and to represent my company.

I have enjoyed being part of the community, Lions Club, Valley Booster Club, Fire Department, and driver for the ambulance. I hope that in some small way I have returned a part of the love that was bestowed upon us.

To all the lovely people who participated in the beautiful gift (chair and flower arrangement), that was given us on our departure, I express our heartfelt thanks. I wish I could express my feelings to each and every one of you, but I feel that you know what is in our hearts. The gifts will always be cherished and displayed in the highest place of honor in our home.

As we have departed I am sure that you will make the new manager, Paul Sublett, and his family, as welcome to Quitaque as you have made us.

I surely hope that any time any of you are passing through Chillicothe, you will stop by and visit with us for awhile. I promise you that we will be back to visit your lovely town often. Our love,

Dick Evatt and family

For the third straight year the Valley High School Patriots take on always-tough Chillicothe in the season opening game Friday night

Evatt Transferred To Chillicothe by WTU

Dick Evatt, local manager for West Texas Utilities Company in Quitaque for the past three years, has been transferred to Chillicothe as local manager.

Paul Sublett, serviceman in Shamrock since 1954, has been transferred to Quitaque and promoted to local manager.

The announcement was made by A. D. Green of Childress, district manager for WTU's Panhandle District.

Evatt's service with WTU began in Abilene when he joined the Company on a distribution line crew in 1960 and four years later was promoted to a line serviceman. He was transferred to Quitaque and promoted to local manager in 1971.

Born in Hamlin, Evatt spent his early life in Eastland and is a 1952 graduate of Eastland High School.

DICK EVATT

PAUL SUBLETT

He attended Ranger Junior College. Prior to joining the Company, he served in the U. S. Army and was employed by Treanor Equipment Company in Abilene.

Mrs. Evatt is the former Annette Sherman of Eastland. The Evatts were married in Eastland in 1959 and have two children.

Sublett's service with WTU has all been in Shamrock as a serviceman in the Local Office. Before coming to work for the Company, he was self-employed in the service station business in Shamrock.

Sublett was born in Shamrock and attended the public schools in Sannorwood in Collingsworth County.

He and his wife, MaryLou, were married in Wellington in 1950 and have three children and one grandson. They are members of the First Baptist Church in Kelton where he is Training Union director and secretary - treasurer of the Associational Brotherhood.

at Chillicothe beginning at 8 o'clock.

The 1974 model Patriots plan some changes for Friday night's contest, however. In the first two contests with Chillicothe, the Patriots were winning the games until the fading minutes only to let it slip away. Friday night the Patriots have their sights set dead on WIN and do not plan on a fourth quarter letdown. Fans who have seen the Patriots' two pre-season scrimmages with Kress and Wheeler say this team looks good.

Coach Bill Hulsey states without reservation that he was very pleased with last Friday's scrimmage with Wheeler and just hopes that his charges stay as fired up all season long as they were last Friday.

This year's team, like the two previous teams, is not big, but does have spirit and hustle and even more this year, a desire to win. And, too, this year's group is showing indication of knowing what they are supposed to do—they are showing signs of experience.

If members of the team were boxers, the team as a whole would probably be rated no better than middleweights. There would not be a heavyweight in the bunch and only two would be classified as light-heavyweights. But a good, tough middleweight can hold his own with many heavies.

Coach Hulsey has named as probable starters Friday night the following lineup: on offense the Patriots will run from the Wing-T formation and some Power-I formation with the following starters, center, Smitty Lane, 155 lbs.; guards, Mickey Smith, 160 lbs. and Norman Mullin, 140; tackles, Robert Gragon, 160 and Bruce Patrick; ends, Ernie Lucero, 160 and Pepper Jones, 145; QB, Scotty Setliff, 130; HB, Randy Green, 150; FB, Brian Wheeler; QB, Ron Eudy, 140. On defense it will be Mickey Smith at noseguard; tackles, Robert Gragon and Bruce Tiffin, 170 lbs.; ends, Barry Wheeler, 145 and Pepper Jones; LB, Brian Wheeler and Smitty Lane; CB, Randy Green and Rick Hall, 140; DH, Scott Eudy, 135 and Brent Guest, 145.

Several other members of the squad are pushing for starting posts and Coach Hulsey says that some of the starters might lose their starting jobs before the season is over for competition is keen.

Other squad members, many or all who will be seeing action as the season progresses, are: Joey Barefield, Jimmy Woods, Reggie Cathey, Von Hall, Randy Woods, Rosario Chavez, Lyndall Couch, Larry Curry, Dave Patrick, Gary Clinton, Rex Fuston, Doyle Proctor, Jimmy Davidson, Don Douglas, Lee Cruise, Jesse Ferguson, Billy Morris.

As of Wednesday of this week, there were 34 members of the squad. The coaches welcomed 32 prospects at the beginning of the season and here it is game time and the squad has picked up three more members, which is almost unheard of. Ordinarily a coach with 32 out at the beginning of the season would probably expect to have maybe 22 by the time the first game arrived. The fact that the squad has picked up more members speaks well for coaches and players alike.

It is hoped that a good crowd of fans will be present come game time at Chillicothe Friday night to boost the Patriots to their first win, ever, in football. The entire Tribune staff says Good Luck to Coaches Hulsey, Sanders and Setliff. We are looking for a fine season!

The Valley Junior High Patriots will drive over to Clarendon to take on the young Bronchos at 6 p.m. Thursday of this week.

LAND TO BE INTER-SEEDED TO PREVENT EROSION

Many farmers in the Hall-Childress Soil Conservation District are making plans to inter-seed cover crops of rye and winter peas to protect their land from blowing, according to Henry D. Gregory, District Conservationist with the Field Office at Memphis.

Windstorms in the Spring of 1974 did moderate to severe damage to some 125,000 acres of cropland in Hall County. This damage was caused by a lack of cover and drought conditions made emergency tillage operations ineffective. Not only did these sandstorms damage valuable farmlands, damage was done to fences, roads, bar ditches.

Now is the time to take action to get cover crops planted, Gregory advised. For further information contact the local Soil Conservation Service on planting cover for winter and spring protection.

SHIRTTAIL SERMON

Children of God

by Rev. Bill Green
 Pastor, Fairmont Missionary Baptist Church

But Jesus called them unto him, and said, suffer little children to come unto me, and forbid them not: for of such is the kingdom of God. Verily I say unto you, Whosoever shall not receive the kingdom of God as a little child shall in no wise enter therein.

Luke 18: 16-17
 In these passages of scripture we find that there were infants brought to Jesus so that He might touch them. But when His disciples saw it, they rebuked Him. Jesus said not to forbid these little ones to come to Him, for the Kingdom of God is like this. Jesus also said that whosoever did not receive the Kingdom of God as a little child shall in no wise enter therein.

What does Jesus mean here? Does he say that all His children should go about acting like little children in His work here on this earth? No, not in the sense that we are doing it today. It seems that today God's children go about feuding and fighting, tattling and whining; just as the children of the world do today. We as Christian people are looking at the wrong side of the little ones. When God said to receive His Kingdom as a little child, He did not mean it in this way. What He did mean was that we had to come with the faith of a child.

Have you ever noticed the faith that a small one has in its mother or father when they are holding it in their arms? The child feels secure and somehow knows that its parent will not drop him. This is the side of a child we should be like as Christians. God is our Father. We are in His hands. He holds us up, takes care of us, and supplies us with our every need. We have to have faith in God, believing that He will not drop us, and will take care of us. If we do not, then we don't have enough faith.

Children look up to their parents, and this is the way God wants us to be. As Peter said in I Peter 2:2, "As newborn babes desire the sincere milk of the word, that ye may grow thereby." If we desire the sincere milk of the Word, then we will have to look to God with all respect, fear, humility and faith.

After we, as Christians, have done this, at no time in our life should we forbid our children or anyone else's children, to go to the Lord. By the acts and deeds that we perform, or the example that we set before the world, we either encourage or discourage

Emergency Loans Available From Farmers Home

Farmers and ranchers in Briscoe County who sustained production losses as a result of drought from October 1973 to May 1974; windstorms and hailstorms on May 21 and June 1, 2, and 3, 1974; and excessive rainfall on June 13, 1974 may be eligible to receive an emergency loan from the Farmers Home Administration.

Those who have not received an emergency loan to assist them in recovering from their losses may apply for such a loan at the Farmers Home Administration county office at Agricultural Building, 219 N. W. Second Street, Tulia, Texas, before close of business on October 18, 1974 for physical losses or May 20, 1975 for production losses.

These loan applications will be taken under the terms of a new law (P. L. 93-237) enacted January 2, 1974. Individual examination will be made of each application to determine date of the disaster occurrence and emergency loan benefits for which the applicant is eligible.

Loans based on qualifying production losses may include funds to reimburse applicants for production expenses which went into damaged or destroyed crop and livestock enterprises, but not to produce new crops during 1975. Payment terms depend on the purposes for which the loan is used and the applicant's payment ability. No loan may exceed the actual loss sustained. The interest rate for these loans is 5% and there will be no principal cancellation. These loans must be secured by crops, livestock, farm machinery, or real estate.

Somebody's trying to take something that belongs to you.

Right here in Texas

In fact, somebody's trying to take something that belongs to all of us: freedom of speech. Somebody's undermining your right to communicate, to listen, to have all available information on a given subject.

Somebody's trying to tell certain Arkansas companies they may not advertise their services.

But advertising is just another word for communication. It is public information; it gives you a choice. It encourages new and better ways of doing things and helps continue the development of newer, better and more economical consumer goods.

Now, however, the right of certain Texas companies to communicate with their customers is in danger. This could ultimately have more far-reaching effects on free speech as we know it.

Right now, we want you to think very long, very hard and very deeply about advertising and about the good it does in America. We want you to think about its effect on business, on your own entertainment, on radio, television, newspapers and magazines, on your right to know.

We want you to think about the effect advertising has on your company's sales, and how the sales of your company affect your own life-style.

Right now, we want you to think very long, very hard and very deeply about the issue of free speech. Then we want you to write Governor Dolph Briscoe, State Capitol, Austin, Texas 78711, and your legislators and your friends and tell them how you feel.

The ball is in your hands. It's up to you not to drop it.

Advertising is everybody's business.

Cattlemen Should Be Alert For Anaplasmosis

Cattlemen should be alert for signs of anaplasmosis, a serious blood disease of cattle, cautions Jimmy Vanstory, county agent for the Texas Agricultural Extension Service. Horseflies—the most common insect spreader of the disease—are emerging in large numbers and will remain active for some time.

Anaplasmosis, characterized by anemia, is infectious but not contagious. This means the organism must get into the bloodstream of an animal either from an insect bite or careless handling of medical or other instruments, explains Vanstory.

In addition to horseflies, mosquitoes can also spread the dis-

ease along with certain ticks. Man can also spread anaplasmosis, notes Vanstory. This is especially true of those who engage in do-it-yourself veterinary service. In the hands of careless individuals, hypodermic needles, nose leads and dehorning knives can be transmitters of the disease. Anaplasmosis is particularly severe in mature cattle, often causing 30 to 50 percent death losses among infected animals. Annual losses to the livestock industry nationally are estimated at well over \$100 million.

What should cattlemen look for? When an animal becomes weak and lags behind the herd, anaplasmosis should be suspected. The skin first becomes pale around the eyes, on the muzzle, lips and teats, and then turns yellow.

Following the acute stage of the disease, infectious organisms can remain in the body of survivors, and these animals become carriers. Significantly, some animals—especially younger ones—become

carriers without showing any sign of illness. If anaplasmosis is suspected, the agent urges cattlemen to consult their veterinarians about control and preventative measures. Testing is most important to identify carriers. The Texas Veterinary Medical Diagnostic Laboratory is equipped to perform the rapid card test for anaplasmosis. Local veterinarians can provide additional information on this test. Unfortunately, this is not the best time of the year to test because blood samples from animals recently infected will not react to the test. They must have the infection 30 days or more to show a reaction. Ideally, testing should be carried out during the winter, says Vanstory. Then, depending upon the size of the herd and the number of carriers found, one to five alternate plans should be put into effect. —If only a few carriers are found, send them to slaughter. —If a large number are found

Pinkeye Problems In Cattle Can Be Reduced

Pinkeye is a serious problem in some beef cattle herds in Texas during the hot summer weather. The disease can cause considerable weight loss and even the loss of sight. There is no single cure—all for pinkeye, but there are several practices which you can follow to help reduce pinkeye problems, notes Jimmy Vanstory, County Agent for the Texas Agricultural Extension Service. Clipping pastures before seedheads develop on grass is one practice that helps. These seedheads may irritate the eyes of the cattle and increase the chances of pinkeye infection. Flies spread certain kinds of pinkeye. Vanstory recommends repeated spraying of the face of cattle with Ciodrin insecticide to control face flies. Dust bags, face wipers and backrubbers also help in controlling flies. Locate them near or on the salt box, on the way to water, or in shaded loafing areas.

An adequate amount of Vitamin A helps keep eyes healthy. Good pastures generally provide enough Vitamin A. However, due to dry conditions many pastures are turning brown, so supplementary Vitamin A should be provided. Separate animals with pinkeye from the herd and treat infected eyes before the disease progresses. Keep infected animals in a sheltered area. Covering infected eyes will protect them from light and foreign matter and will speed recovery. A simple patch made of burlap and held in place with rubber cement seems to be effective. If treatment does not improve conditions, consult a veterinarian, suggests Vanstory. Viral diseases such as IBR may be the cause of pinkeye. Your veterinarian can recommend a vaccination program for controlling such diseases. Studies have shown that calves with pinkeye weighed considerably less at weaning time and as yearlings when compared to calves the same age without pinkeye. Thus, controlling pinkeye can pay with increased profits at market time, points out Vanstory.

Pond being constructed on the Johnny Burson Ranch. The pond will furnish livestock water and better grazing distribution.

Pond Is Practical Water For Livestock

Building a pond is a practical way to supply water for livestock, distribute grazing, and to provide recreation. Water for livestock should be available in each pasture or grazing unit. Water is as important as forage in the production of livestock. Although the forage on your pasture may be palatable and plentiful, livestock do not thrive unless they have all the water they need. The ponds or water source should be spaced so that livestock do not have to travel more than one-quarter mile to water in rough, broken areas or more than one mile in nearly level areas. This spacing encourages uniform grazing. A well-managed pond can also yield a dependable supply of fish and provide recreation for the family. For further information contact the Soil Conservation Service.

This was 173 less accidents, three less killed, and 86 less injured in 1974 at the same period of time. The 18 traffic deaths for the month of July 1974 occurred in the following counties: four in Deaf Smith; two each in Garza and Haskell; and one each in Oldham, Wilbarger, King, Palo Pinto, Dallam, Montague, Parker, Terry, Wise and Roberts.

Escape?

He's escaped the fate of an egg—but what has the chick got to look forward to? The technology that incubated him in twenty-one days now carries him relentlessly toward the roaster.

We, too, often seem trapped on a similar conveyer belt, caught in a cadence which carries us step by step through life. The carefree days of childhood swiftly wane once schooling begins. Then come jobs, marriage, family, a home.

The list—and the responsibilities of mature life—seems endless. No wonder we long to escape—to "get away from it all."

Yet such daydreams little help us to cope with life today. God's love and wisdom give us the guidance and solace we need. His Church—the church down the street—stands ready to meet our needs.

MRS. BUD THRASHER

Minyard - Thrasher Vows Exchanged In Formal Church Ceremony

Miss Marilyn Janis Minyard and Calvin Daniel (Bud) Thrasher exchanged wedding vows in a double ring ceremony at 7:00 p.m. Friday, August 30, at the First Baptist Church in Silvertown. The Rev. Larry Wilson, pastor, officiated.

The bride is the daughter of Mr. and Mrs. J. E. Minyard of Silvertown, and parents of the bridegroom are Mr. and Mrs. Harold Thrasher of Turkey.

Vows were exchanged before an arch formed by two seven-branch candelabra laced with lemon leaves intertwined with blue pom-poms and bows.

Given in marriage by her father, the bride wore a floor-length white crepe dress with empire waist, long sleeves and A-line skirt. The stand-up collar and yoke were embroidered with pearls and crystal beads. Her short veil of illusion was attached to an open-work Juliet cap. She carried a nosegay of blue pom-poms and baby's breath.

Miss Nancy Graham of Loraine was maid of honor. Her floor-length princess-style gown was of blue dotted Swiss embossed with white flowers, designed with empire waist and short puffed sleeves. She carried a nosegay of blue carnations and baby's breath. Rodney Wynn of Turkey served

as best man. James Thrasher of Turkey, brother of the groom, seated the guests.

Mrs. Bob Rauch played traditional wedding selections and accompanied Mrs. Don Glenn of Kress, soloist.

Following the ceremony, a reception was given in the fellowship hall of the church. A white lace cloth covered the bride's table. Serving the wedding cake and punch were Miss Lou Whaley of Friona and Miss Alice Coper of Seymour, assisted by Mrs. Michael Buchanan of Lubbock and Mrs. Perry Brunson of Silvertown.

Miss Annette Minyard, sister of the bride, registered the reception guests and handed out rice bags. After a short wedding trip the couple will live in Shamrock. The bride, a 1974 graduate of West Texas State University, is employed by the Department of Public Welfare. The bridegroom, a 1971 graduate of Texas State Technical Institute in Amarillo, is employed by the Texas State Highway Department.

Mr. and Mrs. D. C. Powell of Turkey and John Powell of Shamrock returned Saturday afternoon after spending last week in South Fork, Colorado.

Hale - McMeen Vows Solemnized

Miss Darlene Hale of Quitaque became the bride of Patrick Neal McMeen of Dalhart Sunday afternoon, August 25, 1974, at 3:00 o'clock, in the home of her grandparents, Mr. and Mrs. Walter Kelley, with whom she has been making her home. The Rev. Bill Curry read the double ring ceremony.

The couple stood before an arch covered with greenery and red roses.

Given in marriage by her grandfather, Walter Kelley, the bride wore a formal length white gown of crepe styled with a long yoke of lace and long sleeves which fell to a ruffle at the wrist. Her veil of illusion was edged in matching lace and fell from a headress. She carried a bouquet of red roses, her favorite flowers.

For something old, the bride wore a dinner ring given her by her grandmother, something new was a necklace of pearls given her by the bridegroom, new was her gown and blue was her garter.

Mrs. Hale wore a blue printed double knit dress for her daughter's wedding. The groom's mother wore a beige double knit dress. Each wore a red rose corsage.

Miss Rhonda Hale of Amarillo was her sister's maid of honor. She wore a red dress with flowers matching the bride's bouquet.

Jack McMeen served his son as best man. Guests were registered by Miss Peggy Hale, sister of the bride.

A reception was held in the grandparents' home immediately following the ceremony. Mrs. Mildred Hulsey poured the punch, and Mrs. Charles Barrett served the three-tiered wedding cake.

For going away, the bride chose a red and white double knit with red accessories.

BOB BULLOCK

Bullock Here To Say "Thank You"

Bob Bullock, Democratic nominee for State Comptroller, was in Quitaque on a recent Tuesday to say "thank you" to the voters of Briscoe County who gave him a 75.7 per cent majority in the May primary.

Bullock has won the Democratic nomination with the largest percentage vote of any contested statewide race. He carried all but one of Texas' 254 counties.

Visiting every county in Texas during the primary, Bullock said he "prefers to talk to the people personally instead of hiding behind words and gimmicks ground out by clever public relations people."

The size of his victory shows the people support improvements and reforms he recommends for the Comptroller's Office, Bullock said.

Bullock, 45, gained statewide acclaim as Secretary of State. He also has served as Assistant Attorney General and a member of the House of Representatives. He is a veteran of the Korean Conflict and lives in Austin with his wife, Amelia, and son, Bobby.

During the campaign Bullock has called for an end to faulty collection methods which he says cost the state millions of dollars a year by "fly-by-night" operators. Bullock also has promised to

CORN, BEANS, POTATOES MORE AMERICAN

THAN APPLE PIE

by Curtis Tunnell

State Archeologist

A great number of folks are going back to the soil. Gardens are appearing in back yards, front yards, flower beds and vacant lots. People have decided to fight inflation by growing their own.

If you are one of these new small farmers, you may occasionally till up a bone, burned rock, potsherd, or flint tool which will temporarily remind you that this land was utilized by other hungry families long before Columbus came to this New World.

You should take a few minutes to contemplate the living heritage left by our American Indian ancestors and reflected so beautifully in your garden.

Those rows of sweet corn growing along the fence are directly descended from one of the many varieties of domesticated corn developed by Indian agriculturists several thousand years ago. Other varieties include dent corn, flint corn and popcorn. Corn is a basic crop in North America today and fattens much of our beef and pork.

Kidney beans, lima beans, navy beans, wax beans and other varieties were all developed by the Indians during centuries of careful cultivation. Beans have long been a mainstay of the masses but are now almost competing with beefsteak at \$1 per pound.

Irish potatoes are misnamed, for they too were developed by the Indians. Generations of Irishmen starved without the benefit of these delightful tubers before they were introduced to the Emerald Isle during the 17th century. Sweet potatoes and yams are also products of the New World na-

cut down the amount of red tape facing businessmen in handling and paying state taxes. Other reforms urged by Bullock have included quicker processing of city sales taxes by the state.

"I'm fully confident that the people are more than anxious to see that their hard-earned tax dollars are carefully collected and wisely spent," Bullock said.

Mr. and Mrs. Jack Case are in Colorado fishing this week.

Mr. and Mrs. E. B. Baisden are enjoying a visit from their daughter and family, Mr. and Mrs. Pat Patterson and Chad, who live in Houston. They are spending the week in Turkey visiting other relatives and friends also.

Mrs. Nathan Hughes and son of Newlin visited in the home of Mrs. Zula Bell on Saturday, August 24.

Mr. and Mrs. George Gafford visited Mr. and Mrs. Randy Gafford in Floydada Sunday and Mrs. Myrtle Gafford returned to Turkey with them to spend a few days visiting friends and relatives.

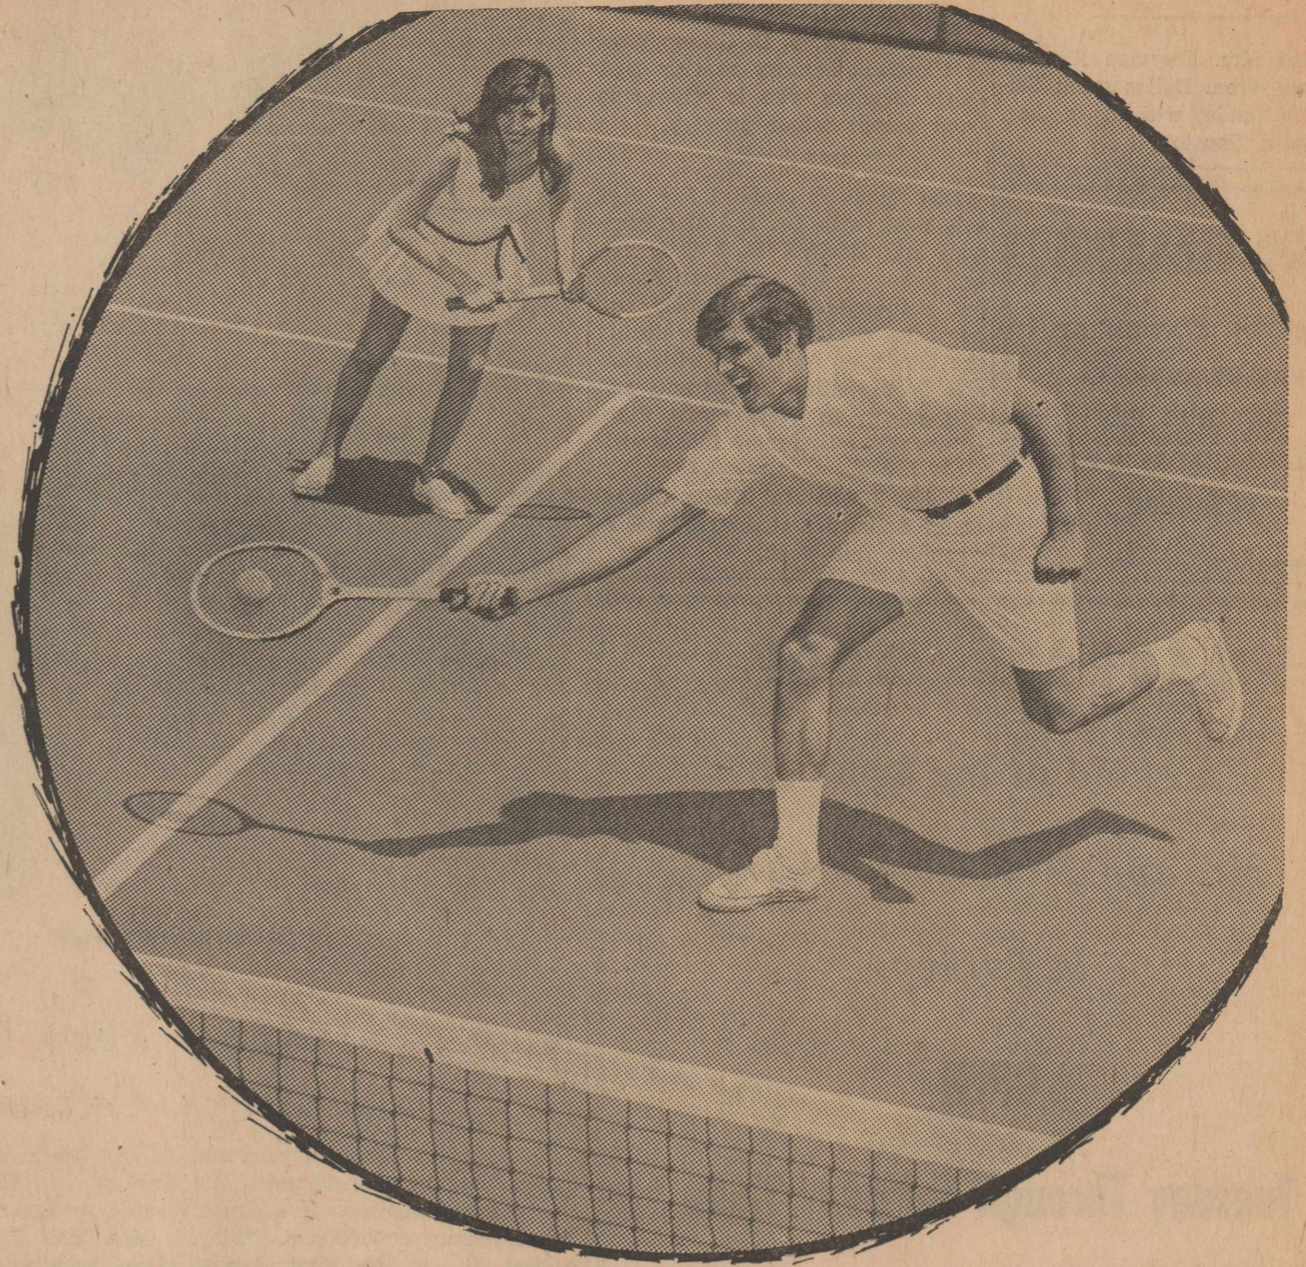

Mr. and Mrs. Joe Degan, Mr. and Mrs. Morris Degan of Medicine Mound and Mr. and Mrs. Bert Degan attended a fiftieth wedding anniversary of Mr. and Mrs. F. L. Degan of Tipton, Oklahoma.

Mrs. John Lane spent last Friday and Saturday with her daughter, Mrs. Jack Rhoades of Amarillo.

Are tomatoes one of your prize products? This member of the nightshade family (which includes the deadly nightshade) was discovered through trial and error by the Indians who eventually convinced their European neighbors that these red fruits were not only nontoxic but nutritious and delicious as well. Potatoes, incidentally, are also nightshades.

One other distinctly Indian product deserves specific mention—tobacco, in all its forms. Perhaps no other product is so universally used by all peoples of the world. Many Indian tribes were decimated by hard liquor and smallpox brought by the Europeans, but the Indians got a certain amount of revenge by giving the newcomers tobacco and a virulent type of syphilis.

We are all aware of our heritage as represented by monuments of stone, bronze, and wood, but next time you work in your garden, spend a few minutes appreciating the living heritage left by the American Indians.

EASIER WITHOUT THE NET

Why do we enjoy games that make it *harder* on us? We equip our tennis courts with nets. We line our golf courses with narrow fairways and dot them with sand traps. On a chess board we grant wide movement to only one piece, the queen. In football a team has but four downs to gain the required yardage.

This is because man at his best is innately honest. He demands that his every skill meet reasonable tests. He's convinced there is no satisfaction—no "fun"—without challenges.

Man's religious awareness, which inspires our weekly worship, continually cultivates that innate honesty. Our Christian faith prompts us to develop divine resources of character and commitment. Far more than any game, LIFE tests strength and weakness, rewards achievement not failure.
