Forty or fifty years ago, the electric bill was most often called the "light bill". In thousands of homes, Mr. Edison's illuminating invention wasn't the only electrically powered appliance, but most people associated electricity with the most visible benefit - light.

Today, with the help of electrical energy and the appliances it powers, our tasks become easier and our lives more enjoyable. At West Texas Utilities we're working to provide you a continuing dependable source of electrical energy now and in the future.

Remember Reddy supplies the energy, only you can use it wisely.

This is when your insurance agent has to go to work for you

Any home in your neighborhood could catch on fire. If yours did, could you count on your insurance agent for help? If he's an independent agent, he's already on the job. He started when he chose from several fine insurance companies in recommending your policy. And since he owes allegiance to no one company, he serves you first when you need help. Only an independent agent displays this seal. Better make sure your man does. If you want continuing, personal attention-The Big Difference

in insurance today-call on us. As professional, independent insurance agents, we're qualified to plan all types of car, home, and business insurance. We're ready to give you service beyond the call of duty.
