## Patriots Start Quest For Their First District Title

The Valley Patriots, the state's fourth rated Class B football team according to the Harris Rating System, begins district warfare here Friday night when they host the Nazareth Swifts at 7:30 p.m. The game has been designated as the Homecoming game.

The Patriots, who had an open date last Friday night, are undefeated though once tied, in four games, all against Class A teams.

In the opening game of the season with Crosbyton, the Patriots had several key players out with injuries and the game resulted in a 6-6 tie, the only blemish on each team's record, and each team heads the list in its own district, Crosbyton in 4-A and Valley in 2-B North Zone. As of this date, the Chiefs have won four and tied one. Last Friday night, Crosbyton won over Spur 27-7. The Patriots defeated Spur 41-12 earlier in the season.

The Patriots boast three wins and the tie for the best record in 2-B North.

In four games the Patriots have scored 95 points while holding their opponents to 26 points, an average of 6½ points per game. Only one opponent, Spur, managed two touchdowns and one team, Ralls, was scoreless.

Last Friday night Nazareth defeated the Canyon JV for a season record of three wins and one loss and on the strength of their respective records, Valley will be favored to win; however, fans should be reminded that last season the Patriots came off a smashing upset win over Motley County and drove over to Nazareth fully expecting to win and possibly go on to a place in the State Playoff, only to be rudely upset by the Swifts.

Coaches Gidden, Phelps and Adams and the players will certainly be determined that this will not be a repeat of that situation this time.

It is hoped that a very large group of fans will be on hand to help the Patriots win a BIG ONE! See you there!

The recent spell of cool, wet weather created some problems for cotton producers on the Texas High Plains. This spell resulted in the development of an ill-defined condition which covered light to extensive leaf damage in area cotton fields. This problem is especially critical in the irrigated areas of the South Plains where cotton was still in the peak fiber development period. Many producers are now faced with the problem of evaluating the extent of this damage and deciding whether to allow the cotton crop to continue to grow or to terminate growth with the use of harvest aid chemicals.

A team of specialists from the Texas Agricultural Extension Service were in Floydada to meet with Floyd and Briscoe producers Tuesday to discuss the present condition of the crop, consider the pros and cons of applying harvest aid chemicals, examine the economics of defoliation and field storage, and give information on field storage systems and the advantages and disadvantages of module builders.

If you missed the meeting in Floydada, there are others being held today. The meeting in Lorenz will be at the Community Center at 9:00 a.m.; another is at the Lovell State Bank at 2:00 p.m. and a third is in the Brownfield School Administration Board Room, 601 Tahoka Road at 8:00 p.m.

## Mrs. Bone To Lead Door-To-Door March

Mrs. Tim Bone has been named to head the 1978 door-to-door march for St. Jude Children's Research Hospital in Quitaque.

William J. Kirwen, St. Jude's Development Director, made the announcement and said other key positions for the march will soon be filled.

"We are proud to find such a dedicated person for this important task," Kirwen said. "St. Jude Children's Research Hospital offers hope to stricken children everywhere that would not be possible without such volunteers."

St. Jude Children's Research Hospital is the only research center dedicated exclusively to the study and conquest of catastrophic diseases of children. Its work, particularly in leukemia and other childhood cancers, has been internationally acclaimed and cited as a leading example for basic and clinical research.

"No one has ever been charged for the benefits provided by St. Jude Hospital," Kirwen said. "And that includes the extremely expensive total medical care provided children enrolled in its research studies."

"Over two-thirds of this year's 19 million dollar operating budget came from public support. Each year we rely on events like this to pay for the following year's costs."

"Since Danny Thomas opened this institution in 1962, his dream of conquering the deadly diseases of childhood has continuously been brought closer to reality. Mr. Thomas is still the very active president of this organization and inspires us in this cause," Kirwen said.

The drive is planned for October 15-28.

## Emergency Loans Available From Farmers Home Administration

Emergency loans for farmers, ranchers, or aquaculture operators are available through county offices of the Farmers Home Administration (FmHA), George H. James, Jr., FmHA county supervisor, said today.

Mr. James asked that those who need farm credit as a result of drought and hail to make their needs known at the Farmers Home Administration office at 219 NW Second Street, Tulia, Texas.

Applications for assistance in the disaster stricken counties will be accepted by Farmers Home until June 27, 1979 for physical losses and October 1, 1979 for production losses.

FmHA loans covering actual physical and production losses may be used to replace installations, equipment, or buildings, (including homes) lost through this disaster. Funds may be used to buy feed, seed, fertilizer, livestock, or to meet interest and depreciation payments on current real estate and chattel debts. Other loans, beyond actual losses, can be made for annual operating expenses or to make major adjustments in a farming (or ranching or aquaculture) operation.

"Funds can be used for essential operating and living costs," Mr. James said.

Loans covering actual losses are made at an interest rate of three and five percent and are scheduled for repayment as rapidly as feasible consistent with the applicant's reasonable ability to pay. Loans beyond actual losses have various maturities, depending upon the purpose of the loan.

To be eligible for an emergency loan, an applicant must have suffered losses from the disaster and be unable to get credit from other sources.

Emergency loans can be used to help the farmer restore damaged farm operations and additional loans based upon the emergency designation can be used to reorganize the farm for greater efficiency and better production.

## Diamond Jubilee Celebrated By Quitaque Methodist Church

The Diamond Jubilee celebration of the founding of the First United Methodist Church in Quitaque began with Holy Communion on Wednesday evening, October 4, 1978, followed by a Sing-A-Long and reception on Saturday night, Morning Worship on Sunday and a fellowship dinner at noon. The Service of Consecration at 3:00 Sunday afternoon concluded planned activities.

The pastor, the Rev. George Price, preached on Sunday morning, and the Rev. Carlton Thomson, District Superintendent of the Plainview District of the United Methodist Church, was the speaker in the afternoon.

A highlight of the Sunday afternoon service was a history of the church given by Jimmy Davidson. Quitaque was one of many American settlements where the Methodist was the first church established in the community, and true to tradition to share the building with other congregations.

C. D. Pipkins, a circuit rider from Matador, was the organizer and first pastor. All of the living former pastors were invited to share in the celebration of this event of October 4, 1903. Those attending were the Reverends Kenneth Metzger, Stanley Simmons and Sidney Parsley. Tribute was made to the Rev. Richard Pittman, who grew up in this church and became a minister in the United Methodist Church.

Special music and fellowship among present and former members were important parts of all the services. Plants and flowers with congratulatory messages were placed throughout the church, and letters and special gifts from friends were acknowledged.

A committee composed of Delene Tyler, chairman; Estelle Davidson and Jeane Woods, Food; Johanna Robertson, Ann Jones, Linda Bone and Carol Stephens,

Reception; Clara Ruth Davidson and Billie Jeane Griffin, Correspondence; Edna Taylor, Amelia Johnson and Jimmy Davidson, History; George Price, Worship; Cindy Griffin, Music; Karen Price, Decorations, was joined by the remainder of the membership to make the seventy-fifth birthday a memorable occasion. Friends and members joined in the Call to Commitment of Continued Service to the total community of Quitaque by the First United Methodist Church.

Out-of-town friends and former members who signed the guest register include: Jack and Reba Tunnell, Prairie Grove, Arkansas; Myrtice Gillespie, Dallas; Woody and Margaret Yaroborough, Amarillo; Janice and Ty Crammer, Canyon; C. W. and Bernice Bond, Flomot; Bonnie Giden, Flomot; Rev. ## Judges Attend State-Wide Meet

Seventy-one justices of the peace from across the state of Texas attended a 20-hour Texas Justice of the Peace Training Center seminar September 19-22 in Amarillo. The training center is based at Southwest Texas State University.

Representing Briscoe County at the seminar were Dick Taylor, Briscoe County Justice of the Peace, Precinct 2, Quitaque, and Barbara Pigg, Briscoe County Justice of the Peace Precinct 1, Silverton.

Also participating in the school was Captain Harold Oates from the Texas Parks & Wildlife Department in Austin. He talked about Game Warden/J.P. Relations with the Justices of the Peace on Wednesday. After Captain Oates discovered there was a J.P. there from Silverton, for some reason he wanted to discuss the Silverton High School football teams. Wonder why? Captain Oates is the father of Silverton Coach Steve Oates.

Among judges attending a state-wide seminar in Amarillo September 19-22 were (left to right) Judge Curtis O. Tunnell, Hall County Precinct 4; Judge Barbara Pigg, Briscoe County Precinct 1; Judge Dick Taylor, Briscoe County Precinct 2; Rudy Roden, Hall County Precinct 1, and Judge W. Glen Nelson, Deaf Smith County Precinct 1.

**WHITTINGTONS TAKE TRIP EAST**

Mr. and Mrs. Wayne Whittington left Quitaque Thursday, September 21, and drove to Little Rock, Arkansas, where they spent the night with his uncle, Frank Whittington. The next day they went to Vicksburg, Mississippi, via Memphis, Tennessee. On Saturday they drove to Zachary, Louisiana, where they met Mr. and Mrs. C. G. Rush of Charleston, South Carolina. Wayne and C. G. served on the destroyer, USS Bailey, while they were in the Navy. They had exchanged Christmas cards for the past 34 years and had kept in touch in this way, but they had not seen each other in all this time.

planned a visit. They were house guests of Mr. and Mrs. T. O. Lloyd, an aunt of C. G., in Zachary. Sunday was spent visiting and catching up on the past. The next day they all went sightseeing to Baton Rouge, Louisiana, where they visited the capitol building, the museum, and areas around the town. The next day the Rushes and the Whittingtons drove to New Orleans for a day of sightseeing. Wednesday was spent in Zachary. C. G. grew up in Zachary and photographers from the local newspaper came to the Lloyd's home and made pictures of their house guests. These pictures were in the papers on Tuesday and on Wednesday they had several visitors. That night they were treated to a shrimp and catfish fry by a cousin of Mr. Rush.

Mr. and Mrs. Robert Ponthier. Mrs. Whittington stated she had never eaten more delicious food. Mr. and Mrs. Whittington started home on Thursday, returning through the eastern parts of Texas. They spent the night with Mrs. Whittington's aunt, Mrs. Roberta Faulkner, in Whitesboro and came home the next day, Friday.

**PERFECT SCORE FOR BEAR HUNTERS**

There was cause for celebration for six sportsmen after their successful bear-hunting trip June 2-11. All six men returned home from Northern Ontario with their quarry—black bear.

The national average for taking bear with a rifle is 27 percent, but these men scored 100 percent using bow and arrows.

Ron Aldridge of Oakville, husband of the former Regina Cathay, and his companions comprised the bow hunting team which traveled to Canada earlier this year. All veteran bow hunters, the group has "about 65 years total experience in the field," estimated Aldridge.

After arriving at the lodge, the men "scouted and set out baits the first couple of days," reported Aldridge. Each man used a portable tree stand, putting him 6-10 feet in the air on a seat mounted on and chained to the tree.

Tainted meat scraps were set out and covered with logs to keep the small animals from stealing it, they explained. From 3:30 until 10:30 each evening, the hunters would be in their stands watching for their prey. "Prime time for hunting is in the evening," Aldridge said. "All of our bears were taken from 7-9 p.m."

The hunters would use old logging roads, high line clearings, or streams for their bait stations. "The bugs aren't as bad in the clearings," said Aldridge. The hunters wore headnets, long sleeved shirts, gloves and tape on their cuffs to keep the heavy insects away, according to Aldridge.

A total of sixteen bears were sighted their week in Ontario, "a good concentration."

"We were in the right area at the right time," Aldridge said. They did take credit for "scouting good and putting the right bait out."

"It is critical to get a perfect shot," said Aldridge. "It's important to be a good archer." By taking their time and setting up the bears, each hunter came through with a good hit, bringing down his black bear.

By the next-to-last day, four hunters had gotten their bears, which they felt was a very successful hunt. But on the last day the other two hunters got their bears to make it unanimous. The bears averaged 200 pounds, with the largest one weighing in at 425-450 pounds. "That's a tremendous black bear for the spring," said Aldridge. "They will put on 150-200 pounds by fall." The hunters are sure the large black bear will "make the bow hunting record book."

All of the archers used compound bows, a type of bow which they feel is "responsible for the big boom in archery the last five years." It reduces the pull, but

you still have the thrust," said Aldridge. "It works like a block and tackle." He used a 65 pound bow with a 30 percent reduction for hunting.

"They shoot faster and flatter with a better propjectory," Aldridge added.

After bagging their bears, the men skinned the animals and took the meat to a locker to freeze and store it. "It is good eating," said Aldridge, but you have to treat it like pork."

Aldridge has been involved in archery for 10 years, and was 1973 state champion in bow hunting class. Another member of the group is present state champion with a new state record, shooting 292 out of a possible 300 points.

Aldridge said he had never been bear hunting before, but had been bow hunting for bobcat, wild boar, elk and deer in Colorado, Texas, Arkansas, Oklahoma, Missouri, Canada and Iowa. All six hunters bagged their first bear in the Canada expedition.

**PINK AND BLUE SHOWER**

**HONORS MRS. BARRY LANE**

A pink and blue shower honoring Mrs. Barry (Raenel) Lane of Turkey was held September 30 at the home of Mrs. Troy Guy, 713 N. 13th, Memphis.

Thirty-five guests came to honor the mother-to-be. Cake and punch were served to the guests, who also enjoyed playing three baby games.

Hostesses for the shower were Dorothy Bachman, Andrea Bachman, Billy Frisbee, Tamara Lowe, Sheryl Moran, Jo Barbee, Shirley Riley, Jan Watson, Delores Davis and Addie Lou Guy, all of Memphis.

Members of the Blackhawk Archers and Bowhunters Association, Aldridge and one other member of the group had high praise for the sport. "There are as many archers as golfers now," they reported.

# THE AG SIDE

Presented By  
**DANNY FUSTON**

The judging of protein for potency and quality for human consumption has been one of controversy among nutritionists these past few years. The cattle producer and his allies have claimed for many years that animal protein has many advantages over plant protein and have impressive evidence to support this argument.

Dr. Bruce Taylor, an animal nutritionist, says one of the most important aspects of judging protein is an evaluation of the amount of protein actually used by the body compared to the intake. Using a scale of 100 for egg protein, Dr. Taylor says beef would rate at 80 while corn would rate at 56.

With this in mind, feed grain could just as easily be used to feed out a steer for human consumption and from the steer gain the same amount of protein from the meat in usable protein as he would get from the same amount of grain it takes to feed a steer.

So the choice is yours . . . beef or corn.

## Lourey - Bolt Vows Exchanged In Formal Ceremony At Turkey

Wedding vows were solemnized October 7, 1978 at 6:30 p.m. in the First Baptist Church in Turkey uniting in marriage Miss Tanya Elaine Lourey of Childress and Allen J. Bolt of Paducah. Officiating at the double-ring ceremony was the Rev. Patton of Arkansas, assisted by the Rev. Melvin Clinton, local minister.

The bride is the daughter of Mr. and Mrs. Wayne Lourey of Turkey, and the bridegroom is the son of Mrs. Richard Bolt of Guthrie.

Music for the wedding included pre-nuptial selections and the traditional wedding march played by Miss Rondalyn Crump, and "Let It Be Me" and "If" played and sung by Rev. Bob Fisher of Paducah.

Mrs. Michael Fulton of Guthrie, friend of the couple, served as matron of honor. Another friend from Paducah, Mrs. Leroy Ross, served as bridesmaid. The matron of honor was attired in an apricot floor-length gown of qiana knit, and carried two rust colored rosebuds from which fell rust colored ribbon streamers. The bridesmaid wore an identical matching gown to that of the matron of honor.

Serving as best man was Larry Miller of Rotan and groomsman was Leroy Ross of Paducah. Ushers were Jerry Williams of Childress, uncle of the bride, and Mark and Mike Carpenter, cousins of the bridegroom. Jerry Williams and Mark Carpenter also served as the candlelighters.

White bows and English ivy

marked the aisles to the altar where an arched candelabra of white brass decorated with English ivy, holding white bows and tapers, stood. This was flanked by small candelabra.

Given in marriage by her father, the bride wore a gown of crepe knit designed with a lace yoke outlined with chantilly lace. The bishop sleeves were decorated with matching lace cuffs and pearl buttons. A double row of lace encircled the hem of the floor-length dress and chapel length train. Her floor-length veil of illusion was attached to a bride's crown of organza rosebuds. Her bouquet was a cascade of white roses, carnations, baby's breath and greenery.

For something old, she added a cameo which belonged to her late Grandmother Lourey. Her something new was her bridal ensemble. She borrowed a bracelet from the bridegroom's mother, and added a blue garter. She placed in her shoes pennies minted in the years of birth of herself and her bridegroom.

Rice bags were handed out by Miss Lou Seal of Happy, cousin of the groom.

Mrs. Lourey, mother of the bride, wore a floor-length dress of cinnamon qiana knit with matching accessories and added a corsage of white silk roses. The groom's mother, Mrs. Bolt, wore a floor-length dress of copper knit with matching accessories and a corsage of white silk roses.

Following the ceremony a re-

**BILL CLEMENTS WILL CUT TAXES AND GOVERNMENT SPENDING**

Texas was built by men with the vision to look ahead and the grit to get things done. Bill Clements is the man to keep this tradition alive for the future of Texas.

Bill Clements will bring a strong, fresh and tough approach to our government in Austin. He is a businessman, not a politician.

Bill Clements started with nothing and built a successful, worldwide company with hard work and the skill to manage men and money. And now Bill Clements wants to preserve the future of our state and he wants the working people of Texas to have the same opportunities he had.

With his proposed "Taxpayers' Bill of Rights," Bill Clements is committed to protecting Texans from excessive taxation and runaway government spending. He is pledged to cutting taxes and returning that money directly to the taxpayers.

As former Chairman of the Southern Methodist University Board of Governors, Bill Clements knows how to make education in Texas the best in the Nation. He's for discipline in the classroom and "back to basics" quality education.

As the son and grandson of farmers, Bill Clements knows the frustrations that an indifferent government can cause people who make their living off the land. He will use the strength of the State Government to fight burdensome Federal restrictions.

*"I believe that Texas has always had more promise than problems,*

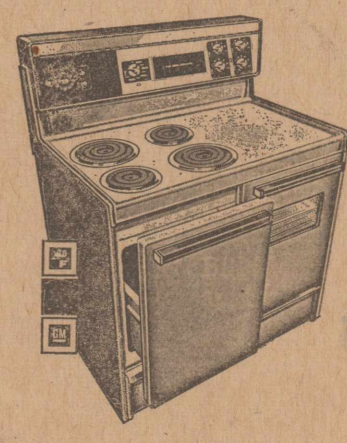

*but the balance is more delicate each year. We need to get to work now."*

**LILLIAN WHITE VISITS IN CALIFORNIA**

Mrs. Lillian White left Quitaque Friday, September 15, and drove to Amarillo where she left her car at the home of Mr. and Mrs. Bo Graham. She emplaned for Denver where she had two hours layover. She has a brother and sister-in-law, Mr. and Mrs. W. L. Graham, who live there and she called them and visited with them by telephone.

She left Denver by plane and flew to Fresno, California, arriving at 9:45. She was met at the airport by her son, Rayburn White, and his family.

Mrs. White spent five days with her son. He and his family took her over the countryside to see the beautiful harvests. She says there is every kind of fruit, nut and flower grown there for harvesting for commercial sale. One of Rayburn's friends was leveling the land between 600 acres of walnut trees and they stopped to visit him. He told them his son just down the road was harvesting three acres of pistachio nuts. The nuts hang in clusters like castor beans.

They saw the harvest of grapes where they are put out in plastic covered trays, laying between the

rows of grapes, to be sun-dried. Saw figs, avocado, olives, walnuts, pistachio, almonds, pecans and all kinds of flowers growing for commercial sale. They also grow Pima cotton, but there is not as good profit in it as the nuts, fruit and flowers.

Mrs. White left there September 20 and flew back to Denver, Colorado where she was met by her sister-in-law. Mrs. Graham took her to Fort Collins to visit her son and family, the Wayne Whites. She stayed there five days visiting with them. On the following Sunday, the Grahams joined them for the day. Mrs. White returned home with the Grahams and visited from Sunday until Thursday. They shopped at Lee Wards in Denver, a store with all kinds of hand work. They drove to Dillon, Colorado on Tuesday where the Grahams have a condominium. Mrs. White reports this is a beautiful place. The aspens were in full color and the pines were beautiful and Lake Dillon added the final touch. Enroute to Dillon they drove through Eisenhower tunnel which is 1.9 miles long. It was cut through the mountain where one had to drive over the Continental Divide before it was finished. There are

**FHA NEWS**

by Jana Boyles

The Valley FHA girls initiated the Freshman girls into their club Monday, October 2. All the girls met in town and drove out to the Truman Merrell's. The Freshman girls were very well dressed in old clothing and with makeup on their faces. They were really a pretty sight.

The "Fish" played games that were enjoyed by everyone. Some of the games were a rock race with their noses down the river bed; a bottle sucking contest; a cow-chip throwing contest, and an egg-throwing contest.

After the games, everyone enjoyed hot dogs, cokes and roasted marshmallows.

Thanks, "Fish," for being such good sports.

**NUEVO STUDY CLUB HAS BUSINESS MEETING**

**CONDITIONS RIGHT FOR INTER-SEEDING RYE**

Moisture conditions are excellent now for inter-seeding rye or winter peas into your cotton if you have not already done so, according to Charles Wade, Range Conservationist with the Soil Conservation Service in Memphis.

A good cover crop will help protect the land this winter and spring from wind erosion as well as help build up the organic matter and humus in the soil. The more organic matter and humus the soil has, the better the aeration, absorption and water holding capacity is, Wade said.

The Hall-Childress Soil and Water Conservation District is encouraging everyone to interseed a cover crop to help protect their land against wind erosion.

**GIFT OF LIFE**

Not much from this great world I ask  
Beyond the strength to do my task.  
It is enough that I may be  
On hand to see a blossoming tree  
And hear a song bird, now and then,  
Singing his hymns of joy to men.  
I do not ask that life shall be  
Forever care and sorrow free,  
Nor that some distant morning I  
Shall not awake to grieve and sigh.  
I ask but faith to stand before  
Whatever the future has in store.  
Let me be the one whose courage springs  
From all the countless little things  
Of joy and beauty which abound  
Wherever man may look around.  
Let me exult in peace or strife  
That I have had the gift of life.

- ★ State Department Interference In Africa
- ★ The Undue Influence Organized Labor Exerts On Our Government At All Levels. ....
- ★ "Big Brother" Government That Restricts Personal Responsibility And Initiative.

**NOW LOOK AT WHAT THEY ARE TRYING TO DO**

That same government wants to give Washington, D.C., - a CITY OF BUREAUCRATS, two Senators and Congressional Representation. The residents of Washington D. C. should be allowed to vote for US Senators in their State of Maryland, and elect Congressmen in proportion to population, as in other states.

Our State Legislature will be voting on this proposed constitutional amendment—  
Elect me your State Representative and I will vote NO on this amendment and will work unceasingly for it's defeat!
