Football Season Ends For Patriots With Loss To Wheeler

Valley's best football season ever came to an end at Memphis last Friday night when they lost to a very outstanding Wheeler Mustang team 43-6. The Mustangs are defending state champs and they appear to be even stronger than last year. The Mustangs are riding a 29-game winning streak and those who saw them roll past the previously unbeaten Patriots last Friday night doubt they will be slowed much before they win another title. The word "awesome" has been used many times in describing the Mustangs and probably there is no better word to describe the team. It has good size, the team is quick, and it executes its assignments very well. The quarterback hands off the ball fast and smooth, the blockers block out the men they are supposed to block and the ball carrier has not much to do but run with the ball. Even some of the experts say that were this team in Class AA it would be rated high. It is that outstanding.

The Patriots won the pregame and received the game opening kickoff and returned it to about the 25 yard line. The Patriots picked up nine yards and with fourth down and one to go Valley went for the first down. They had been doing that a lot all year and made them most of the time but on this occasion the Mustangs stopped the Patriots two yards short of the first down which was an indication of just what the Patriots were up against. The Mustangs took the ball from that point and moved for their first touchdown. That was all the scoring for the first period, however. Late in the first quarter Darrell Dowd suffered a sprained ankle and did not play any more that night. With Darrell's loss went the team's leader, the spark. Early in the third quarter James McNary went out with a shoulder injury and he was carried to the hospital in the ambulance. Kenny Chandler was lost for awhile when he was injured. He returned later to the game. But the flood gates sort of opened in the second period and the Mustangs scored three times and at half-time the Mustangs owned the scoreboard 28-0. The Mustangs scored twice in the third period and much to the Patriots' credit they did not quit even when it was clear they could not win that night. In the waning minutes of the game the Patriots took the ball about their own 15 yard line and marched the length of the field, Kenneth Helms and Terry Brittain sharing the ball carrying chores, and with a fourth down and one yard to go for the TD and time almost gone, Kenneth Helms (one of the seniors on the team) scored the Patriots only touchdown of the night.

For the Patriots and Coaches Giddens, Adams and Phelps, it has been a very good season, one that saw the Patriots go undefeated in regular play, and enter the playoffs for the first time ever. In the four years this group of seniors has been in high school Patriot football teams have won 31 games, lost nine and tied one. Many of the players who helped to make this record have graduated already but for the past two years this group of players have had a big hand in the record. When the present seniors were freshmen the team had one of the finest teams in Valley's short history, for that year the team won nine games and lost only to Sudan 10-0. Sudan, of course, went on to win the district championship. Valley allowed only 44 points to be scored against them that year, holding five of their opponents scoreless. The present squad members were playing JV ball that year. This year's record

is very similar to that one, also, except this one was the championship year.

The Tribune offers sincere congratulations to the coaches and players on a good season and now we look forward to a good basketball season as well.

Valley Teams Go To Crosbyton To Officially Open BB Season

Valley High School's basketball season officially opened Tuesday night when the high school's teams drove to Crosbyton for a four-game set with the Chiefs and Chiefettes. The Valley girls won both of their outings but the Valley boys, with only one day of workouts due to the winning football season, dropped both games.

The Valley girls had played a couple of games earlier in the season and are now getting into the swing of things. The girls JV game led off the night's activities with a 36-14 win over the Chiefette JV. The Lady Patriot JV was sparked to their win by Mary McNary, who scored 14 points, and was selected as the offensive Player of the Game by Coach Tandy Medford and also was selected as the Defensive Player of the Game by Coach Medford. Miss McNary pulled down six rebounds and stole the ball from the opponents four times. Others scoring were Nadine Rice, seven; Lana Fuston, six; Enequina Reyna, six; Debra Clinton, two, and Nina Reyna, one.

The JV boys game was next and Crosbyton won this one 37-29. Tommy Morris led the scoring for the Patriots with 11 points. Richie Fuston was next in scoring with eight points. Brent Brown scored six points and Kevin Hendrix, four. Other members of the JV squad are James Green, Mike Rice, Randy Clay and Claude Brittain.

The varsity girls, now beginning to round it out, won their game by a 55-37 count. Paula Lipscomb and Lisa Herrington shared scoring honors with 12 points each, Angie Eudy and Jenny Clay hit seven points each, Brenda Coker hit six points, Peggy Shannon netted four points, Laura Fuston, three; Jana Smith, two, and Marcia Taylor, two.

Coach Medford selected Paula Lipscomb as Offensive Player and Lisa Herrington as Defensive Player of the game. Paula got five rebounds and Peggy Shan-

non came up with three rebounds. In the boys varsity game the Chiefs won 57-49 but all things considered, Coach Adams reported that he was pleased with the Patriots' performance. The Valley boys played a football game last Friday night and had only one day to work out. Two of his athletes received injuries Friday night and did not even play.

Coach Adams reports that the Chiefs built up a near 20 point lead at one time but the Patriots kept plugging away and cut the deficit to eight points at game's end. The Patriots were playing without starter Darrell Dowd and in addition, Jon Davidson, who was having a terrific night against the Chiefs, got into early foul trouble and Coach Adams took him out of the game in the second quarter. Coach Adams sent Jon back to start the third period but he picked up his fifth foul right quick and was lost for the night. Jon picked up 12 points in spite of the brief period he played. The Patriots meanwhile sort of solved the Chiefs' fast break and settled down to playing pretty good basketball and overall looked pretty good. In addition to Jon Davidson, Kirk Proctor was lost via fouls. Kenny Chandler led the scoring for the Patriots with 19. Jon Davidson was next with 12, Rodney Carpenter hit for six and Greg Ramsey hit four points. Brittain got two points, and Proctor, Pinkerton and Cotton each scored one point.

The Valley High teams have open dates this weekend and then both varsity and junior varsity teams will host Jayton Tuesday of next week. First game is due to start at 4:00 p.m. Then on December 7-8-9 both varsity boys and girls are entered in the Paducah Tournament.

So, we have a new basketball season underway and The Valley Tribune says "welcome and good luck" to new head boys basketball Coach Steve Adams and new head girls basketball Coach Tandy Medford. It's good to have you both aboard.

DOUBLE ON WEDNESDAY
 TURKEY, TEXAS

MR. AND MRS. JOE RAY LYLES

LeValley - Lyles Vows Exchanged In Formal Church Ceremony

Nuptial vows were solemnized at 7:30 p.m. November 4 in the First Baptist Church in Turkey by Christina Ruth LeValley and Joe Ray Lyles.

The bride is the daughter of Navarre and Rosella Bain of Turkey, and the groom is the son of Euman and Jean Lyles of Hereford, formerly of Turkey.

Rev. John H. Johns of Tulia read the double - ring ceremony before a nuptial space decorated with brass candelabra entwined with pink carnations and greenery at the base and topped with pink tapers to form an arch. The family pews were marked with maroon ribbon and pink rosebuds.

Mrs. Linda Catoe, organist, played pre-nuptial selections which included "Laura's Theme" from "Dr. Zhivago," "Power of Love," and the traditional wedding marches.

Cindi LeValley of Ames, Iowa, sister of the bride, was maid of honor, and her sister, Ricque, of Turkey, served as bridesmaid. The attendants wore matching sundresses with shawls, which were white designed with pink flowers. Both carried bouquets of deep red and pink silk roses.

Charles Lyles of Hereford, brother of the groom, served as best man, while Larry Lyles of Amarillo was groomsman. Ushers were Frank Lane, Barry Lane, Johnny King and Johnny Dean Mullin, all of Turkey, and friends of the bridegroom. The groom wore a white tuxedo, while the groomsmen wore burgundy and the father black. All wore dark red silk boutonnières.

Given in marriage by her father, Navarre Bain, the bride wore

a formal gown of all white floral patterned Chantilly lace. The full skirt with a wide flounce ruffle fell to the back forming a chapel length train. The all lace bodice was sprinkled with sequins and seed pearls, and the long Victorian sleeves were edged with Chantilly lace. The matching veil was three tiered bridal illusion of fingertip length. For something old and borrowed, the bride wore a necklace belonging to her sister. The dress was new, her garter was blue, and she placed a penny in her shoe for good luck.

The reception was held in Fellowship Hall where the guests were registered by Mrs. Charles Lyles. The table, covered with a white cloth, overlaid with lace, held the two tiered wedding cake which was decorated with pink and red roses and topped with a bride and groom. Mrs. Billy Joe Turner and Stephanie presided at the table where punch and coffee were served. Mrs. Larry Lyles and Mrs. Jack Bell assisted at the table where gifts were placed.

The rehearsal dinner was hosted by the groom's parents at the Big T Restaurant. For a wedding trip to Las Vegas the bride wore a blue three-piece pant suit. The couple will make their home in Turkey where the groom is self employed.

Out-of-town guests included Mr. and Mrs. J. K. Williams and Mary Katherine Williams, Childress; Mrs. Audrey Foster, Memphis; Mr. and Mrs. John Warren and Cody, Dickens; Mr. and Mrs. Larry Widd, Lubbock; Mr. and Mrs. Don DePriest, Plains, Kansas; Mrs. Rex Howell, Seymour; Mr. and

The registry table was covered with a white linen cloth, centered with a pot plant and the bride's book, where approximately fifty guests were registered.

The table holding the hostesses gift was centered with a small tree and from the branches of the tree hung pink bells tied with maroon ribbon bearing the names of the hostesses. Under the tree was a set of almond-colored Club Aluminum.

TIME FOR SOIL SAMPLING

Any farming operation requires planning, and this is particularly true when it comes to applying fertilizer. Fertilizer applications should be based on a soil test, and fall is a good time to take soil samples for testing.

Containers and instructions for submitting soil samples are available at the County Extension Office. Based on a soil test, a sound fertilization program can be developed for the coming year.

Such a program will be increasingly important in the months ahead. Under present economic conditions, low yields are not profitable, and fertilization, at least with nitrogen, is generally necessary for profitable yields. Yet, the need for each plant nutrient and its potential profitability should be closely evaluated.

For additional information on fertilizer use in Briscoe County, you are invited to review the 1977 and 1978 handbooks of result demonstrations. Various fertilizer rates were used on different crops to determine the highest profit potential, and these studies merit close evaluation.

With current high production costs, uncertainty about farm prices, and other risks in crop production, farmers must study their fertilizer needs more closely than ever to make sound management decisions.

WINDBREAKS CONSERVE ENERGY

Rising energy costs have made windbreak plantings real assets to suburban homeowners as well as rural farm families.

Fringe benefits of windbreaks can be protection for cattle and a refuge for birds and other wildlife.

A well-designed windbreak will reduce wind speed, prevent drifting snow and lower heating bills. Even a small windbreak can make outdoor living and working conditions more enjoyable during the winter. Plant screens also help reduce noise pollution from busy thoroughfares.

The location of the windbreaks is the key to their effectiveness. Evergreen windbarriers on the north and west sides of the house can cut 10 to 40 percent off winter fuel bills. Junipers and pines provide the most protection.

Windbreaks should be planted four to six times the height of the windbreak away from the house. Species are recommended that will mature to about one to one-and-a-half times the height of the house. Large trees should be located 100 to 150 feet from the north or west side of the house and roads to prevent snow drifts.

For maximum protection, three to six rows of trees are needed on farmsteads and one to two rows in suburban areas. Six to eight-foot spacings are appropriate for most evergreen plants used for windbreaks.

Trees for windbreaks are available from the Texas Forest Service and should be planted in late winter or early spring.

For information on ordering tree seedlings and on transplanting and fertilizing woody plants, contact the Extension Office.

SHOP SOON FOR BEST SELECTION TREES, SHRUBS

Home gardeners will want to start shopping soon for trees and shrubs at garden centers and nurseries. The best selections usually await early shoppers.

Shrubs and trees usually sell in three forms, so gardeners can consider the transplanting method that is best for them.

Balled and burlapped plants, often called B&B, are usually larger than container-grown plants of the same price. A ball of soil is wrapped in burlap and pinned, so when handling this type, the plant should not be lifted by the stem or trunk. The life of the plant could be endangered if the ball of soil is loosened.

Container-grown plants continue to gain popularity. The advantage is less shock when transplanting from the container to the garden area. Containers are usually designed for easy removal, and there is less chance for damage from rough handling. Of course, plants should never be transplanted with the container left around the ball.

Nurseries also offer bare root plants for sale. Many fruit and nut trees are handled in this form. Transplanting bare root plants is most successful when

My brother, what is Christianity? In the home, it is kindness; in business, it is honesty; in society, it is courtesy; in work, it is thoroughness; in play, it is fairness; toward the fortunate, it is congratulation; toward the unfortunate, it is pity; toward the weak, it is help; toward the wicked, it is resistance; toward the strong, it is trust; toward the penitent, it is forgiveness, and toward God, it is reverence and love.

Just why do you scoff at the church because it has so many sinners in it? If it contained nothing but saints there might not be room for you. Jesus founded the church for sinners in the first place, and unless you are a saint you need it sorely.

If you don't believe in cooperation just observe what happens when one wheel comes off your automobile.

The very worst calamity which could happen to any human being would be this—to have his own way from the cradle to the grave; to have everything that he liked for the asking, or even for the buying. Never to deny himself, never to want. That man's soul would be in as great danger as if he were committing terrible crimes.

If I can enjoy a joke at the expense of another, if I can in any way slight another in conversation, or even in thought, then I know little about Calvary's love.

She will be at the P. C. A. community room at 10:00 a.m. Tuesday, December 5, to present a program on making these items and will have examples on display for you to see. You may also have a copy of the booklet which includes patterns and instructions.

This program is sponsored by the Texas Agricultural Extension Service and is open to people of all ages, regardless of socio-economic level, race, color, sex, religion or national origin.

If you work, come spend your coffee break with us. Refreshments will be provided by the Young Modern and Southwestern Home Demonstration Clubs.

Hope to see you there!

they are dormant during late fall and winter, and is most risky once the plants leaf out. Never allow the root system to dry out or be completely submerged in water for a long time. Also, pruning before transplanting is essential, and generally one-third to one-half of the top growth should be removed.

Maximum growth during the establishment period can be aided by plenty of humus worked into the soil, and a good mulch on the surface.

What Think Ye?

Cold war.

It was bad enough we had to fight the British for our freedom. But on top of that, we had to fight the weather, too.

Because winter at Valley Forge meant snow, ice, and freezing temperatures. All serious enemies to a makeshift army without proper clothing, not nearly enough food, and short on ammunition.

It was an army long on courage, but short on money.

And then the money came. Some \$27,000,000 from the pockets of new Americans.

That's how people took stock

in America back then, and you know how the story turned out.

Nowadays, people are still helping America stay strong and self-sufficient. And they're helping themselves to safe, dependable savings. By taking stock in America with the Payroll Savings Plan.

Large Crowd Patronizes "We The Women" Bazaar

by Lynnette Barefield
The annual Fall Bazaar sponsored by Quitaque's "We the Women" organization has again topped all expectations with proceeds this year coming to \$1204.44. The crowd began arriving early at the Community Center on the morning of November 18 to view the handcrafted items for sale and for display.

A noon meal of chili and beans was served, with all 50 pounds of chili being sold before the day was over. Thanks go to O. E. Chandler and Dale Smith for preparing the chili, and to Lillian White's committee for planning and serving the meal.

Twenty door prizes were donated by local merchants. The

winners were Jess Brunson, Wendall Farley, Thelma Waters of Clarendon, Mrs. Bryant Eddleman of Silverton, J. T. Persons, R. J. Harmon, D'Anna Smith, Glenn Ramsey, Scott Leeper, Lila Ramsey, Dorothy May, Martha Millhollon of Silverton, Sandy Price, Cora Gragson, Vivian Merrell, Dalsie Monk and Lockwood McCracken.

Participating businesses that donated the door prizes were Hawkins Insurance, Caprock Filling Station Company, The Country Store, Elaine's Beauty Shop, Post Office, Roye's, Merrell Food, Valley Farm Store, Brunson Supply, Kimbell's Drive Inn, Griffin Gulf, Caprock Home Center, Farley's Flowers & Variety, Stephens Insurance, Rice Dry Goods, West Texas Utilities, Plants, Flowers & Things and Wilma's Grocery.

Donations were received from Herrington Equipment and several other individuals.

The Bazaar was festively decorated by a group of women headed by Johnnie Morrison.

Delene Tyler was chairman of promotion and advertising. The

Guests in the home of Roy Russell over the holiday weekend were Mr. and Mrs. Doyle Weatherly, Tommy and Terry of Fort Worth, Mr. and Mrs. David Brown and children of Canyon, Mr. and Mrs. Russell Barnhill of Amarillo, Mr. and Mrs. John Marrs and children of Friona, Pam Williams of Dallas and Rondalyn Crump of Lubbock. They were visiting with other relatives also.

Mrs. Dolly Cardinal of Lockney, grandmother of Mrs. George Price, spent Saturday and Sunday visiting in the home of Rev. and Mrs. Price and son.

Valley Tribune donated the advertising expense to help promote the Bazaar.

The door prizes were collected and organized by a group led by Jackie Carpenter.

Items not sold at the Bazaar will be offered for sale at reduced prices at the noon luncheon of "We the Women" on December 4.

It is impossible to mention everyone responsible for making the Bazaar such a success.

Therefore, let "We the Women" say "thank you" here to all the businesses for donations; to the people who prepared food; to the women who planned the Bazaar and prepared the Community Center; to those who donated handcrafted items for sale and craft items for display; to many who donated meat and other food for the lunch; to all those who came to the Bazaar to window-shop, purchase crafts, and to enjoy a meal.

Without your help, we simply could not have done it. Thanks again.

PEACH TREE BORER CONTROL

The peach tree borer can greatly reduce the life of peach, plum and apricot trees if left uncontrolled. Peach tree borer larvae feed on the tree trunk at or near the soil line. Their feeding will girdle the tree if not controlled.

Gum mixed with brown frass in masses around the base of the peach tree is the best indication that peach tree borers are present. If paradichlorobenzene crystals are to be used, this material should be applied during the next two weeks. Other insecticides for peach tree borer control should be applied in early June and in mid August.

To apply paradichlorobenzene crystals, remove weeds, and loosen and level the soil about one foot from the tree trunk. Place 1/2 oz. for small trees and one oz. for larger trees in a groove two inches around the trunk of the tree. Mound and compact the dirt about six inches high around the trunk of the tree covering the crystals. Make sure none of the crystals are pushed against the tree trunk, since the crystals can cause injury.

Further information on the peach tree borer or on other peach pests is available from your county Extension agent.

JERRY MONK

WHAT MAKES JERRY RUN?

He's a young man with a burning desire to succeed . . . a man who cares about his customers and receives their respect . . . and, at age 24, is completing his fifth year as manager of Kelly Green Seeds at Farwell, Texas. He is Jerry Monk, family man, snow-skiing and motorecycling enthusiast, active in church work and outstanding Pioneer brand seed dealer.

Back in 1971, Jerry and his wife, Pam, faced working on a dryland cotton farm near Quitaque, Texas, or moving on to something else. They chose the latter, loaded their belongings into a gooseneck trailer and moved west to Farwell.

Jerry was hired by Pat Patrick, owner of Kelly Green Seeds, to work at the operation with later plans for him to manage a company farm. Patrick wanted his young recruit to learn about the Kelly Green Seeds operation—a company that, in 1971, sold farm chemicals and seed, produced and

QUITAQUE BAPTIST WOMEN ATTEND MEETINGS

reported by Lolla Belle Harmon, president

On Monday, November 6, five women of the First Baptist Church of Quitaque drove to Crosbyton for Women's World Day of Prayer to share with other women of our Association in a program on prayer and to pray with women around the world for specific needs.

Mrs. L. B. Monk brought the first part on the program entitled "What Is Prayer," followed by women from other churches giving parts. Those in attendance were Mrs. Monk, Mrs. Weldon Purcell, Mrs. R. J. Harmon, Mrs. Leon McCracken and Miss Gladys Stroup.

Three Baptist women from the Quitaque church attended a book review in Silvertown at the First Baptist Church Tuesday, November 14. The book was entitled, "Brailian Obsession." It told of the Baptist work in Brazil. Mrs. Mamie Wood of South Plains taught the first chapter. Mrs. R. J. Harmon, assisted by Mrs. Leon McCracken, and Mrs. Lillian White taught chapters two and three. The ladies from the Silvertown and South Plains churches taught chapters four and five.

A delicious salad luncheon was served in the dining hall. It was a very good day in spite of thunder, sleet and rain.

sold sorghum - sudangrass hybrid seed plus other forage seeds and included a custom wheat cleaning, bagging and treating operation. Patrick's plans for Jerry soon changed, however, when a fire in 1972 destroyed their seed cleaning, treating and bagging facilities. Patrick was needed to oversee the rebuilding work and Jerry was assigned to assist customers in the office. By January 1973, he was doing much of the office work associated with the business.

When the new plant started operations, Patrick so enjoyed working in the new facilities that he left Jerry inside to run the office. But, then, in November 1973, Pat Patrick died. Mrs. Patrick asked Jerry to run the business. He was very young, just 19, but he accepted the challenge.

Jerry says, "Mary Jean (Mrs. Patrick) put lots of faith in me when she asked that I take over the business. And farmers twice my age came to me for advice just like they had done with Mr. Patrick. I suddenly realized that many people were depending on me for correct decisions and advice. I knew I had to really hustle to meet their expectations, but the trust they put in me and my decisions just made me want to work harder."

Jerry set out immediately to learn everything he could about each product produced or sold by Kelly Green Seeds. He learned all he could about each customer's farming operation, too, and the business he now headed continued to grow. He states, "I learned a long time ago that you're going to get out of life just what you're willing to put into it. Learning each customer's operation took time, and still takes considerable time, but working together with each farmer helps both of us.

"We try to treat each customer like we'd want to be treated, to give him all of our time he needs, to be fair and honest with him."

The concert is over. The artist takes a bow. Or, perhaps the curtain rings down on a smash hit. And hands slap, smack, pat, or tap.

Hands do other things besides applaud. Some write on blackboards, others perform miracles of surgery — some type, some sew, some plant. Hands drive trucks, make music or diaper a baby.

There are crippled hands and wrinkled hands, soft ones and smooth; hands flung up as a shield; others stretched in supplication.

In God's Church are praying hands. These hands translate compassion into action. They find homes for the homeless and food for the hungry. They teach, as well as preach, and bring hope to hearts long lonely. They, literally, become the hands of God.

Today, as never before, mankind needs the assurance and comfort of God's love. Won't you help your church reach out? Offer your heart and your helping hands.

Site 106 will be built on the Lorene Saunders farm. An outlet channel for Site 16, located on the B. E. Davenport farm, is also included in the bid offering.

VALLEY FFA NEWS

by Rod Carpenter
On Monday morning, November 6, Jay Eudy, agriculture teacher at Valley School, Mike Rice and Lex Herrington left Quitaque for Kansas City, Missouri, to attend the National FFA Convention. The group saw Jeff Tiffin at the convention when he received his American Farmer Degree which is the highest award given by the FFA. They were among approximately 22,000 FFA members who heard President Carter and Paul Harvey speak. The group also attended the Kansas City Royal Stock Show and went through the General Motors assembly line. They returned from their trip on Friday evening, November 10.

The following Monday, November 13, the Valley FFA boys went to Clarendon for the District Leadership Contests. The Junior Chapter Conducting Team won second place. Members of the team were Ken Crump, president; Richey Fuston, vice president; Robert Johnson, sentinel; Kirby Chandler, treasurer; Tommy Morris, reporter; Brent Brown, secretary, and Billy Don Hughes, advisor.

The Junior Skill Team also took second place. Members of the team were Tommy Morris, Billy Don Hughes, Celistino Castillo and Kevin Hawkins.

The Senior Skill Team won third place at the contest. The team members were Scott Leeper, Johnny Monk, Steve Turner and Scott Hedrick. Both skill teams did interesting demonstrations on soil testing.

The Senior Chapter Conducting Team won first place at the contest and then Saturday, November 18, went to Plainview for the Area Contest. The members of the team were James Green, president; Dane Cheatham, vice president; Lex Herrington, secretary; Randy Purcell, sentinel; Bruce Setliff, treasurer; Rodney Carpenter, reporter, and Mike Rice, advisor.

Eva Cheatham, a senior student at Wayland Baptist College, and Linda Stark, also a senior at Wayland, are eligible for the Wayland Citizenship Award, one of the top honors available to graduating seniors.

Miss Cheatham is the daughter of Mr. and Mrs. W. W. Cheatham, Quitaque, and is a 1976 graduate of Valley High School.

Mrs. Stark is the wife of Randy Stark and is the daughter-in-law of Mr. and Mrs. O. R. Stark, jr., of Quitaque.

Voted by the student body annually, only one man and one woman receive the distinguished award. Only graduating seniors who have attended Wayland for three complete semesters are eligible to be nominated.

Ballots are tabulated by a committee composed of the president of the Junior class, a faculty member, and a representative of the administration. The names of three men and women receiving the highest number of votes is then presented to the full faculty which selects the winners by secret ballot. The names of the winners have their names inscribed on a special Citizenship Plaque in the corridor of Gates Hall, Wayland's administration building.

The purpose of the award is to inspire students to be outstanding citizens of the college community and to be active Christian citizens after graduation, exemplifying what Wayland proposes to produce in its graduates. Characteristics included are Christian attitudes, acceptable academic record, diversity of interest, loyalty to American ideals, personal integrity, and exemplification of the Wayland spirit.

Enclosed is a check to repay the money that you so generously loaned me during my recent visit to your community. Thanks to you I was back in College Station that evening. I want especially to thank Mr. Wynn for getting me to the bus station on time.

It is relatively easy to repay the debt of money. It is a debt of kindness that I still owe. I will remember the example you have set, and I will always look for someone stranded and a long way from home. But most of all I will remember my friends in Turkey.

Thank you all,
Tom Taylor
P. S. Mr. Majors, I have made the check to you because I figure you can distribute it a lot faster than I can from here.

Those in Lazbuddie Sunday to attend the 50th anniversary of the Methodist Church in that city from Turkey were Mr. and Mrs. Mike Hinkson, former members, Mr. and Mrs. Gene Fuston and Rev. and Mrs. Roy Patterson and family. Rev. Patterson was a pastor of the Lazbuddie Church from 1968 until 1971. The Fustons accompanied their friends, the Hinksons.

WE GATHER TOGETHER

We all went to church this morning. Later, as I carved the turkey, Mary and I began to reminisce about our first Thanksgiving in our own home.

It was the year Joe was a baby. Always before, we'd gone home to our families. We set a festive table and pretended not to be lonely.

"And were you?" asked Jane.

"Did you pray before you ate?" asked Ruthie.

"Of course, they prayed," said Joe importantly. After all, he'd been there! "That's what Thanksgiving is all about!"

Mary and I smiled at each other, remembering how we'd nearly forgotten. We'd bowed our heads together, baby son at our side. Suddenly, the real meaning of Thanksgiving swept over us, and we gave thanks for the blessings of the hour.

How grateful we are for the teachings of our church, which through the years has helped us interpret the source of all goodness!

LINE FROM

Assistant Briscoe County Extension Agent

When the cool days and even cooler nights of Autumn arrive, the rush is normally to turn on the furnace and make the house comfy, cozy once more. But rushing to turn on a furnace that hasn't been properly serviced or inspected could make things hot for you sooner than you expect.

Defective heating equipment not only deprives a family of needed warmth while raising fuel bills, but also could create very real hazards. A faulty heating plant can result in fire or asphyxiation.

The following practices performed on a regular basis should help to keep the heating equipment in good running order:

Replace disposable air filters when dirty with replacements that bear the UL Listing Mark. Wash permanent filters in mild soap and water to help increase furnace efficiency and promote safe operation.

Keep the furnace area clean of combustible materials. Be sure that warm air outlet registers and air returns are not covered by materials such as rugs, drapes, curtains or the like.

Examine the room thermostat for the correct setting and to be sure it is free of dust.

Clean and inspect the humidifier for optimum operation.

Even though you have kept your unit in top operating condition, a qualified serviceman should perform the following inspections and service at the beginning of each heating season:

Inspect air blower belts, adjust the tension or replace them if worn.

When applicable, depending on the type of equipment, eliminate accumulated scale from the firebox and combustion chamber. Inspect for perforations, cracks or openings in the heat exchanger which may permit products of combustion to leak into the heated air supply.

Inspect flue pipe and connections between appliances and chimney.

Clean the circulating air blower wheel and also the combustion air blower wheel if one is provided on your heating unit.

"These are the two classes of customers we know very little about, so far as their electric demand habits are concerned" said Darwin Breeding, manager of WTU's Rate and Regulations Department.

Breeding emphasized that the information provided by the special recording devices will have no effect on the individual customer's electric bill, but will provide valuable information about the entire system which eventually could benefit all customers.

"This data will improve our decision making," he said, "especially in rate structuring, marketing, engineering analysis, and corporate and systems planning."

Probably the most important use of the research results will be in electric load analysis for future rate structuring. Breeding said President Carter's new Energy Act had made it "absolutely mandatory" that utility companies take the initiative to form load research programs that will provide accurate data for future rate issues as well as information to be utilized in the regulatory process. However, WTU's plans were underway before the Energy Act was passed.

State regulatory bodies, including the Public Utility Commission of Texas, also are requiring load research data from electric companies.

The first step in WTU's program will be to make personal contact with each of the 350 customers and to have them fill out questionnaires. The questionnaires will be administered by personnel from WTU's Customer Technical Services Department, headed by Bill Baxter. The questions will concern such basic facts as size of house, type and number of electric appliances, amount of ceiling insulation, and number of persons in the family.

The special equipment then will be installed at the site of the old meter, and the information recorded by magnetic tapes will provide specific details on electric demand by each customer.

"With the information from the questionnaires and the accurate load data from the tapes, we'll have a better knowledge of our customers' electric use patterns," Breeding said. "It's possible that we can use this information to improve the utilization of our generation and transmission facilities, and this could be beneficial to all customers."

"For one thing, it will enable us to better define the loads that cause our system peak demands," said. "This can help us decide such things as the feasibility of time-of-day rates for these customer classes."

Time-of-day rates for residential customers are under study by the Texas PUC, and already have been implemented on a limited basis by some companies in the state.

The initial phase of the load research program will last at least a year, and the project likely will continue as a permanent program, involving different types of customer samples. Also initiating

such programs are WTU's three sister companies in the Central and South System. The four companies are sharing computer facilities in order to reduce the cost of the operation.

The farm is a good place to live and work. I suppose it takes a lot of guts to be a farmer in these times, but it has its satisfactions. What occupation gives you the freedom of working without pressure from a boss above you and the freedom of working on the farm when and where you please. There is also great satisfaction in seeing a crop (or seed) you have planted grow to a full grown plant. The farmer has always been the backbone of the economy in these United States and his success stems from the fact he is the optimum of free enterprise. The farmer has done more to the development of America than any other group. Sure this is a broad statement but how much inventing will an inventor do on an empty stomach... apply this principle to each segment of our economy and this justifies our statement.
