Family Histories Needed For Book

By VIRGINIA BROWDER

What with the Christmas holidays and the following disagreeable weather, nothing has been in the local newspaper concerning The Hall County history. But be assured this compendium of people and events in Hall County within the past hundred years is very much 'in the mill'.

Many folks have been good enough to hand in their family stories and included a family photograph (to be returned after the reprint is made). Others are busy gathering their material to be delivered to us later. This is greatly appreciated by the authors.

It was erroniously reported that no one who had come to Hall County after 1904 would be included. That is untrue nor is it true that there is a deadline for handing in your family story. To put a book together requires a great deal of time and concentration. A book properly put together consists of revelations, inspirations and authority. We

do not wish to omit anyone who would like to be included in what we hope will be a beautiful hard-back editon of Hall County

If you have not to date begun to accumulate your family data, Please Begin Now! We think you will be sorry if you are included in our book. Furthermore, it is humanly impossible to contact everyone and insist they get busy so consider yourself contacted through this copy.
