

Clipped From The Huntsville Item

The following story was sent to Rev. and Mrs. Frank Roberson from the Huntsville, Item, the newspaper in Huntsville, Texas. The "Hornet" mascot is the grandchild of the Robersons, and

Kooter Roberson is their son. An old voice came home last week. Officially, that is. The Public Address System at Pritchett Field never sounded better than it did Friday night when the Hornets opened their season against an old nemesis, the Brenham Cubs. From the opening ceremony till the last statistic was read, the situation was explained to

the crowd with clarity and professionalism, with one possible exception. He didn't give the little "Hornet" mascot the requested and deserved five minute introduction that everyone knew was due. He failed to identify the owner of the biggest stinger in Hornet kingdom as being the son of Hero, or as Fannie and Fred's grandbaby. He didn't even recognize him by his major claim to fame—being the senior resident at Dee Dee's Day Care Center.

But everyone knew that he was Chris Wilkinson, that he was sharing the spotlight with Melanie Nunneley and that he was late. He took the field well after his counterparts were already lined up, and he took it from the opposite side and end of the field. Some might say that he was stylishly late, others might argue that it took that long for Hero to get him to go at all, or others might place the blame right where it should have been. His mother couldn't find his left white shoe, and wouldn't hear of him wearing red saddle oxfords with his green and white Hornet suit.

The golden voice announced most of it, and was polite to keep his personal observations of all of the commotion to himself. The golden voice of Kooter Roberson was leading the fans of Huntsville through the opening ceremonies and it was good to have him home.

For several years, he was better known as "King Kooter" of KSAM nightly disc-jockey fame. He could spin those records and talk more trash, meaningful of course, than Wolfman Jack, and never failed to entertain his listeners.

He lived through a HHS student body presidency when hair and skirt lengths were more important to his constituency than English composition, and campus restriction protests were more important than football scores. But . . . he survived it all . . . and so did his peers.

He headed a newspaper sports staff that managed to go six weeks in the spring without a single baseball story, and made it okay with the baseball team.

He was an Oiler fan when a 1-13 season was successful, he was still a believer when an Astro pitcher pitched a no-hitter and lost, and he had a dream about the University of Houston Cougars when they were outlaws because nobody wanted them. And, he came back in a year when each team lived up to his advanced billing of them, and reminded all of us about it.

He came back home to find a wife who would put up with his late-night broadcasts and early morning football scoreboard updates. He even did that well.

It's good to have home-town talent return to let old school teachers appreciate their handiwork and marvel that in spite of all they could do, he grew up.

Young Farmer Week Proclaimed

September 16-22 has been officially designated as Young Farmer Week in Briscoe County by proclamation of County Judge Fred W. Mercer.

The proclamation signed recently gives additional recognition to this rapidly growing farm group. The Young Farmer Association is sponsored under the auspices of vocational agriculture departments in high schools across Texas and the Texas Education Agency.

Over 200 Young Farmer chapters have been organized on local school district or county-wide basis to carry out educational activities which will help the members keep abreast of the technological advancements in the field of agriculture and to develop greater skill and efficiency in management production and marketing.

Judge Mercer points out in the proclamation that, in addition to educational activities, Young Farmers incorporate in their planned chapter programs civic and community service projects and leadership activities that are designed to improve their communities, state and nation, and to promote the welfare of all citizens. He further points out that through these efforts they are helping to strengthen the economy of our county and are promoting good citizenship.

In closing the proclamation, Judge Mercer predicted that as the organization continues to grow, it will play an increasingly important role in the life of rural America.

Allen Arfsten, a 34-year-old ranch manager from New Braunfels, is President of the State Association of Young Farmers which has a membership of over 4,000.

Reid - Wheeler Vows Exchanged In Pretty Church Ceremony Saturday

The First Baptist Church in Silverton was the scene of the marriage of Miss Rebecca Ann Reid and Barry Douglas Wheeler at 7:30 p.m. Saturday, September 8. The Rev. Royce Denton, pastor, performed the ceremony in a garden setting featuring a white pyramiding candelabrum holding pink tapers and a white prayer rail accented with greenery. Burgundy bows and white mums outlined the altar and

stair-stepped up to the candelabrum. Burgundy glonias centered the background and front steps. All plants were dressed in pink with burgundy bows. Large burgundy candles surrounded with pink flowers were on tables flanking the altar. Pink bows marked the pews along the bridal aisle.

The bride is the daughter of Mr. and Mrs. James W. Reid, Jr. of Silverton, and the bride-

groom is the son of Mr. and Mrs. Billy Wheeler of Turkey.

Escorted and given in marriage by her father, the bride wore a formal gown of candlelight silk chiffon over bridal taffeta designed with modified sweetheart neckline and contour waistline. Her bodice and the scalloped lace bordering the hem of her gown and train were of re-embroidered Alencon lace heavily encrusted with seed pearls and crystal beads. Back fullness of the gown flowed into a chapel-length train. Lace motifs embroidered with seed pearls and crystals were delicately placed on her skirt front.

Her lace edged veil of candlelight silk illusion was sprinkled with pearls and crystals and fell from a lace and pearl Juliet cap. She carried a bouquet of pink and white silk roses and baby's breath showered with pink ribbons tied in lovers' knots.

To carry out bridal tradition, she had the wedding rings of her grandmothers, Mrs. Ted Reid and the late Mrs. A. B. Grier, tied into her bouquet. She added new pearl earrings, borrowed a pearl necklace from her mother, added a blue garter and placed a sixpence in her shoe.

The silk flowers for the wedding were made by the bride's sister-in-law, Mrs. Jim Reid of Amarillo.

Bridesmaids were Mrs. Chris Breedlove of College Station; Mrs. Gene Smith of Arlington and Mrs. Bill Reid of Silverton, sisters-in-law of the bride, and Mrs. David Fuston of Childress, sister of the bride.

They wore full-length gowns of plum-colored chiffon knit styled with draped necklines, drawstring sleeves and self belts. All carried nosegays of pink peonies, white roses and baby's breath showered with pink and burgundy streamers.

Little Miss Heather Turner, daughter of Mr. and Mrs. Johnny Turner of Flomot, was flower girl. She wore a plum chiffon knit dress with ruffled neckline and deep ruffle at the hemline, and had a halo of pink and white flowers in her hair.

Ring bearer was Roger Denton of Amarillo, cousin of the groom. Groomsmen were Doyle Dean Proctor, Ron Eudy and Pepper Jones, all of Turkey. Guests were seated by Bill Reid of Silverton and Gene Smith of Arlington, brothers of the bride.

Best man was Brian Wheeler of Turkey, brother of the bridegroom. Mrs. Bob Rauch played a variety of musical selections before the wedding, and accompanied Mrs. Gene Whitfill when she sang "The Twelfth of Never." Gene Whitfill accompanied himself on the guitar as he sang "The Wedding Song."

The bride's mother chose a jade green slubbed chiffon gown with collar flowing into a cape edged with a self ruffle for the wedding and added a corsage of pink and burgundy flowers. The bridegroom's mother wore a mint green knit full length dress with chiffon capelet and a corsage of pink and burgundy flowers.

A reception was held in the church fellowship hall immediately following the ceremony.

The bride's table was covered with a white lace-edged cloth with tulle overlay draped in centerfront and caught with a large pink bow. The bouquets of the bride and her attendants surrounded the three tiered all white wedding cake accented with clusters of pink silk roses between the tiers and topped with pink silk flowers surrounding hand-blown crystal doves in a heart-shaped cage. An antique silver punch bowl and crystal appointments were used by Mrs. Jim Reid of Amarillo and Mrs. Jim Smith of Tulia, sisters-in-law of the bride, in serving refreshments.

The groom's table was covered with an ecru linen cloth and held a silver coffee service, crystal and silver appointments. A German chocolate cake iced with chocolate on which were inscribed the names of the bride and groom and the date of the wedding was served by Mrs. Sherrod Arnold and Mrs. Dennis Denton, aunts of the bridegroom, of Amarillo.

Miss Traci Mayfield presided at the guest registry which was decorated with a basket of pink and burgundy flowers.

Others assisting with the reception were Mrs. L. B. Garvin, Mrs. H. B. Simpson, Mrs. Marvin Montague, Mrs. Buck Hardin, all of Silverton; Misses Celia Simpson of Tulia, Samantha Simpson of San Angelo, Olivia Simpson of Tulia, and Mrs. Mike

MRS. BARRY D. WHEELER

Dawkins of Houston, cousins of the bride.

Rice bags and tulle bags containing candy-coated almond favors, a symbol of love and friendship, were given to the guests by the bride's nieces, Misses Lori Reid of Amarillo and Jennifer Smith of Tulia.

Following their wedding trip to Ruidoso and other points of interest, the newly married couple will be at home in Wellington, where he is associated with Wheeler and Sons Construction Company of Turkey and Wellington.

The bride is a graduate of Silverton High School and is a student at West Texas State University. The bridegroom is a graduate of Valley High School.

Special guests at the wedding and reception were the grandparents of the couple, Mr. and Mrs. Ted Reid of Canyon, Mrs. Dot Arnold of Tulia and Mr. and Mrs. Shorty Wheeler of Turkey.

REHEARSAL PARTY

A buffet supper was hosted by the parents of the bridegroom in Turkey following the wedding rehearsal Friday night. Tables were covered with white cloths on which were placed pink and white checked placemats and pink and white flower favors.

Mrs. Delila McFall and Mrs. Ava Hawkins spent Labor Day weekend visiting Mrs. Hawkins' brother, Joe McFall, in Lovington, New Mexico, and her sister, Mrs. Iva Denton in Brownfield. Mrs. Denton is in the hospital there. The ladies visited her Saturday, then drove to Lovington and spent the night, then visited Mrs. Denton again Sunday enroute home.

Mr. and Mrs. Eddie Owens of Plainview spent Sunday with his parents, the Gaston Owens, in Quitaque.

TURKEY, TEXAS

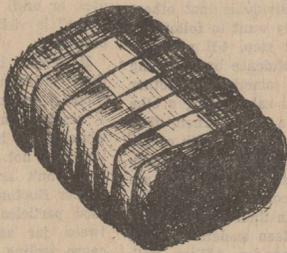

Spend a quiet evening at home without electricity... and see just how quiet it really is.

Forget about watching TV or listening to the stereo. How about reading a good book — that's a great idea if you do it before dark or if you plan on using Abe Lincoln's lighting, the fireplace.

Nobody has to tell you how important electricity is in your life. It surrounds you daily, lighting the way, entertaining you and making life more comfortable.

And that's the way it should be, but we at West Texas Utilities hope you'll use electricity wisely and efficiently. Make sure your home is properly insulated and weatherized, turn off unnecessary lights and appliances, and above all, watch that thermostat setting. These things not only conserve valuable energy, they can help to lower your monthly bills. And that's important now and in the future.

PUBLIC NOTICE BRIEF EXPLANATORY STATEMENTS OF PROPOSED CONSTITUTIONAL AMENDMENTS SPECIAL ELECTION NOVEMBER 6, 1979

PROPOSITION NO. 1 ON THE BALLOT (H.J.R. 108)

House Joint Resolution 108 proposes an amendment to the Texas Constitution relating to the appointment and terms of notaries public. The proposed amendment would:

—Require the Secretary of State to appoint a convenient number of Notaries Public for the state; and

—Authorize terms of office of Notaries Public of not less than two years nor more than four years.

A temporary provision of the proposed constitutional amendment provides that the amendment would take effect January 1, 1980; that each person who was appointed a notary public before January 1, 1980, would continue to serve as a notary public for the term for which the person was appointed; and that this temporary provision would expire January 1, 1982.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for the appointment of notaries public for the state and for a term of not less than two years nor more than four years as provided by law."

PROPOSITION NO. 2 ON THE BALLOT (H.J.R. 133)

House Joint Resolution 133 proposes an amendment to the Texas Constitution to provide for legislative review of the process of rulemaking by agencies in the executive department. The proposed amendment would allow the Legislature to enact laws:

—To provide for legislative review of the process of rulemaking by agencies in the executive department;

—To prescribe conditions for rules to take effect;

—To provide for suspension, repeal, or expiration of rules;

—To prescribe procedures; and

—To delegate powers to either or both houses or to committees of either or both houses.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment to provide for legislative review of

the process of rulemaking by agencies in the executive department."

PROPOSITION NO. 3 ON THE BALLOT (S.J.R. 13)

Senate Joint Resolution 13 proposes an amendment to the Texas Constitution authorizing the Legislature to provide for the guarantee of loans used to purchase farm and ranch real estate for qualified borrowers. The proposed amendment would allow the Legislature to provide for, issue, and sell general obligation bonds called

"Farm and Ranch Loan Security Bonds" of the State of Texas not to exceed 10 million dollars. All money received from the sale of such bonds would be deposited in a separate fund with the State Treasurer and administered by the commissioner of agriculture without further appropriations. These funds would be used to guarantee loans for the purchase of farm and ranch real estate. The commissioner of agriculture would use these funds, under provisions to be prescribed by the Legislature for the purpose of guaranteeing loans used for the purchase of farm and ranch real estate, to acquire real estate mortgages or deeds of trust on lands purchased with guaranteed loans. These funds would also be used to advance to the borrower a percentage of the principal and interest due. The Legislature may also authorize the commissioner of agriculture to sell at foreclosure any land acquired in the manner authorized by this amendment. The commissioner of agriculture would be required to charge at least 6 percent interest on such loans. The proposed amendment appropriates an amount that is sufficient to pay the principal and interest on the bonds that mature or become due during the fiscal year less the amount in the interest and sinking fund at the close of the prior fiscal year.

The proposed amendment will appear on the ballot as follows:

"The constitutional amendment authorizing the legislature to provide for the guarantee of loans for purchase of farm and ranch real estate for qualified borrowers by the sale of general obligation bonds of the State of Texas."

USDA Seeks Comments On Proposals For 1980 Cotton Program

Before making decisions on the 1980 upland cotton program, the U. S. Department of Agriculture is asking the public to submit recommendations on the program. Deadline for receiving comments is November 19.

Ray Fitzgerald, Administrator of the U. S. Department of Agriculture's Agricultural Stabilization and Conservation Service, said public comment is being sought on the following program provisions:

- the target price;
- the national program acreage (NPA) and program allocation factor for upland cotton. (The NPA is the number of harvested acres the department estimates needed to meet domestic and export requirements during the 1980-81 marketing year which begins August 1, 1980. The minimum NPA required by law is 10 million acres. The allocation factor is determined by dividing the NPA for the 1980 crop by the estimated harvested acreage for the crop.)
- the voluntary reduction from 1979 upland cotton acreage in order to guarantee target price protection on total 1980 planted acreage;
- whether there should be a set-aside requirement for upland cotton and, if so, the amount of set-aside;
- if a set-aside is in effect, whether there should be a limitation on upland cotton planted acreage and, if so, the extent of such limitation;
- whether there should be a provision for additional diversion of upland cotton and, if so, the extent of such diversion and the payment therefor.

The national program acreage and the voluntary reduction percentage must be announced by December 14. The remaining provisions have no deadline. Before these determinations

are made, the secretary will consider any written recommendations received by the director, production adjustment division, USDA - ASCS, P. O. Box 2415, Washington, D. C. 20013. Comments will be available for public inspection during normal business hours in room 3630 of the department's South Building.

Bullock also announced that his office was sending September sales tax rebate checks totaling \$73.4 million.

WHY JARS DON'T SEAL

Sealing failures in home canning can result from some common mistakes.

Take the following precautions to avoid canning failures:

1. Read and follow package instructions for using caps and lids. Don't take it for granted that all home canning caps are alike and are used exactly the same way.
2. Leave correct amount of head space when filling jars.
3. Take time to "knife out" air bubbles before sealing the jar.
4. Remove particles of food, seeds or seasonings from jar top or threads with damp cloth before putting on lid. Particles left on jar rim can cause lid to seal, then loosen.
5. Tighten bands only comfortably tight to prevent buckled lids. Screwing the band too tight can cause lids to buckle. A band must be tight enough to hold the rubber sealing compound closely against the jar top. However, if the band is forced as far as it can be turned with a strong hand, the jar cannot vent. When the jar cannot vent, pressure within the jar causes the lid to buckle.
6. Heat sufficiently to seal the lid. Follow recommended processing time and method.
7. Exhaust (vent) steam-pressure canner for a full 10 minutes, or until a stream of "blue steam" is visible, before closing petcock.
8. If steam is not exhausted, there is an uneven amount of steam pressure in the canner. As a result, some lids may seal while others in the same canner load may not.
9. Don't let the pressure in canner fluctuate. This can cause food particles to be forced between jar and lid which will cause sealing failure.
10. The same thing may happen if steam is released too quickly after processing. Let pressure in canner reach zero degrees naturally before removing cover. Do not run cold water over canner to reduce pressure.
11. Don't reuse jars in which commercial foods are sold.
12. Don't use warped, rusted, worn bands, or old commercial caps.
13. Don't reuse lids. The lid of a two-piece metal cap should not be used more than once.
14. Don't use old jar lids. The sealing compound may be hard and not soften sufficiently to obtain a good seal.
15. As long as the sealing compound is resilient when mashed with the fingernail, the lid will probably seal.
16. If jars do not seal, you may reheat and process over again.
17. However, the product will be over-cooked and lose food value, flavor and texture.
18. You may keep a few jars in the refrigerator and use them within a short time instead of re-processing.

NEW PLAINVIEW PRINCIPAL IS FROM TURKEY

When Jerry Don George decided to move to Plainview to be the new high school principal, it was like "coming home."

George is a native of Turkey where he attended public schools and his associations and local

connections with many of the Plainview administration members go back over the years.

Jerry Don moved to Plainview from Hereford, where he had taught school and been an administrator for the last 21 years. He took a job in Hereford right after he graduated from Texas Tech in 1958.

Jerry Don takes over as high school principal and views it as a challenge. He admits one day he would like to be a superintendent. "The chances of getting a superintendent's job from the Plainview system are better than from Hereford. Plainview's schools are recognized as one of the best in the state," George said.

Jerry Don George is impressed with Plainview already. "I'm impressed with what I see. I've been working with the band and others, everyone has a tremendous attitude, including athletics. Greg Sherwood and his staff have a fine program. He was one of the reasons I chose to come here. I've known him for a number of years back when he was principal at Vega. I have the utmost respect for Greg," George said.

And long time loyalties to Hereford will be forgotten when the two schools compete against each other. "Plainview is our home and we are part of Plainview. Our loyalty is with Plainview now," Jerry Don said.

When Howe invented the sewing machine in 1846, he really got needed. Some tailors said a machine could never replace hand work, or so it seemed. But a few followed the thread of Howe's thinking. An automatic stitcher worked faster and more consistently, and the results were highly profitable. Which happens to be the same reason folks today sign up for the Payroll Savings Plan. It's tailored to let you buy U.S. Savings Bonds automatically. And that makes saving faster and more consistent. With results that are highly profitable. So, save regularly with U.S. Savings Bonds. You'll have your future all sewn up.

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.
