Patriots Shoot Down Owls 27 - 14 For Homecoming Win

The Valley Patriots, defending 2-B Champions, took a stranglehold on the favorite's roll for the Zone Championship here last Friday night when they defeated Silverton 27-14 before a record crowd estimated at 2000. The win brings the Patriots record to 2-0 in district competition and 5-1 for the season. They have three games left in district play and have defeated the two strongest teams they will play in district.

Last Friday night's game was played before the largest crowd ever to see a game at Valley and was as expected a hard-fought affair. The Patriots who have used the big play most of the year stayed pretty close to the script most of Friday night.

Valley kicked off to the Owls to start the game, allowed the Owls one first down, then forced a punt and wound up owning the ball on the Silverton 47 yard line. On their first play from scrimmage, Quarterback Rodney

Carpenter called Juice Williams' number and that young man took the ball into play dirt for the game's first score. The try for extra point was missed. Valley led 6-0.

On their next possession, Silverton took the kick-off on their own 20, but could not advance the ball and had to kick, giving the Patriots back the ball near mid-field. On this possession, however, the Patriots sort of set the tone for the ballgame as they fumbled the ball away, the first of five for the Patriots for the game. Again, the Patriots stopped the Owls, forcing them to kick, and the ball was downed inside the five yard line of Valley. The Owl defense took over here and caught Quarterback Carpenter before he could get out of the end zone, giving the Owls a safety. The two points were the first given up by Valley in four games, and the quarter ended 6-2.

The second quarter was mostly

defensive by both teams. About mid-way of the quarter, Dane Cheatham picked up an Owl fumble in mid-air and raced 68 yards for a touchdown. James McNary ran for the extra points, making the score 14-2.

Also in the same period, the Patriots gave up the ball on a fumble inside the 10 yard line and Coach Ted Giddens' Killer Bees (the Patriot defense) stopped the Owls and took the ball, then promptly turned it back to the Owls on a fumble. This time Silverton scored on a five yard run by Cam Forbes, the point after failed, and Valley led 14-8. That was the score at halftime.

In the third period, the Patriots halted the Owls deep in their own territory, forcing a kick situation. The Owls failed to get the punt off, giving the Patriots possession on the Silverton two yard line. Rodney Carpenter scored on a two-yard sneak, and the run by Mike Dowd failed. The score stood at 20-8 at the end of the third period.

Early in the fourth period the Owls put together one of their best efforts, but were stopped inside the Patriot 20. The Patriots, however, gave it back to the Owls, and then were assessed a

Mrs. McWilliams Appointed Tax Assessor - Collector

Due to the death of Arthur S. McJimsey, Briscoe County Tax Assessor - Collector for two terms, Mrs. Fairy McWilliams was recently appointed by the Commissioners Court to fill the unexpired term, which will end on the last day of 1980. Mrs. McWilliams had been employed in the tax office prior to McJimsey's death.

When asked if she was considering running for the office, she said that she was "thinking about it" and probably would seek election to the office.

The Briscoe County tax office is now open again after having been closed for two weeks while awaiting a new bond. A partial

audit and inventory of supplies was made during that time, and everything checked out just fine, according to County Judge Fred W. Mercer.

The former Fairy Morrison, Mrs. McWilliams is married to C. L. McWilliams, jr. They have two daughters, Linda Gilmore and Janet Henderson, and one granddaughter. Born at DeKalb, Texas, Mrs. McWilliams moved with her parents, James and Molly Morrison, to Quitaque in 1929, where they lived for a year. After the death of her father, the family moved back to Briscoe County so Mrs. Morrison could live near her twin sister, Mrs. Polly Honea. They moved to Silverton in 1947.

Record Milo Yield Brought To Quitaque Elevator

L. V. Thrasher brought in the season's first load of milo to the Quitaque Elevator on September 19. According to elevator manager, Arville Setliff, this produced a good yield. The load averaged about 3000 pounds per acre, and a good dryland crop.

That report, however, was overshadowed by a load of grain brought in October 16 by Cecil Reagan who farms south of Quitaque. Mr. Reagan delivered 76,080 pounds of milo out from 12.9 acres dryland which averages out to 5897.67 pounds per acre, a very outstanding crop. The acreage was certified by the ASC, and the elevator has scale tickets to verify its authenticity.

Mr. Reagan planted 4 1/2 pounds of Richardson 126 A seed per acre on June 16, and harvested it four months later on October 16. The crop never lacked for water at any time.

Halloween Carnival Slated Saturday

Saturday, October 27, Alpha Rho Chi will sponsor a Halloween Carnival to be held in the old Turkey Gym. Everyone is urged to come and enjoy all the games, eats and surprises.

The Senior Class will sponsor the Hayride this year. Rumor has it that this ride will be so scary that an EMT may have to ride along.

The Junior Class agreed on the Cake Walk. As everyone

knows, this is the only walk you can go on and gain weight!

The Sophomore Class is really on the ball. They took three booths, the Guess Who, Baseball Throw and the Sponge Throw.

The Freshmen are also wonderful workers. They are having a Penny Pitch and Pie Throw. The Eighth Grade is keeping its booth a secret!

The Senior Citizens have pitched in and put together a Country Store. They have decided to give their proceeds to the Turkey Fire Truck Fund.

For all you football fans, the Turkey Lions are having a Football Throw. Watch out, Roger Staubauch!

Bouncing along with the fun will be the Valley Athletic Club with its Basketball Throw.

A little something will be set up by the Catholic Church for the younger children. The Bingo will be fun as always, sponsored by the Turkey Women's Fire Department Auxiliary.

At press time, there are more activities being planned by other organizations.

Alpha Rho Chi will have the concessions at the carnival. They would like for everyone to come by and eat supper with them while you enjoy the carnival.

Make this a night of fun for your family. It all begins at 6:00 p.m. Saturday.

Re-Scheduled

The baby shower that was previously planned has been re-scheduled for Saturday, October 27, from 3:00 until 4:00 p.m. in the First National Bank Community Room in Quitaque, honoring Jamie Lynne Wellman, daughter of Mr. and Mrs. Jack Wellman. Everyone is invited to attend and meet the new baby.

Senior Class Having Fish Supper Friday

The menu will consist of fried fish, baked potato, cole slaw, hush puppies and fruit cobbler.

After the fish supper Friday night, the Senior Class invites everyone to the football field for the Valley Patriots' third district football game to be played against the Motley County Matadors. We are expecting all of you to come out and support the Patriots.

He was scheduled to go back to the hospital Wednesday for a check-up, hopefully not to stay. He says he is doing fine.

The Light Bulb Sale and Candy Sale was reported to both be a success. The Lions Club members wish to express their thanks to everyone who supported them in these two projects.

Tax Director Board To Be Set Up For Hall County

Ballots to be used by the nine taxing entities in Hall County to choose the five members of the Hall County Tax Appraisal Board of Directors were being mailed this week to the various entity boards concerned by Hall County Clerk Phyllis Dunn. Deadline for nominations by the governing bodies was October 15. The governing bodies in Hall County are the county commissioners court; boards of the Memphis Independent School District, Estelline Independent School District, Lakeview Independent School District, and Valley Independent School District; and the councils of the cities of Memphis, Estelline, Turkey and Lakeview.

The 19 candidates nominated, listed in alphabetical order, are as follows: Barney J. Bevers, Pete Blankenship, Collins Craighead, Jim E. Chappell, Crump Ferrel, Don Ferrel, Zack Fisher, Billy Fuston, O. E. Gardenhire, W. M. Gowdy, Jr., Jay Hatley, W. C. Hignight, Jack Johnson, Jay Johnson, Don McMurry, Elem Orcutt, Lewis Richburg, Jack Scott and Jan Turner.

Votes for the governing board members to be elected will be cast by the governing bodies of each governing entity—not by the general public, it was emphasized by the county clerk. The voting strength of each governing body was determined by the amount of taxes assessed. The formula prescribed by the new state Property Tax Code gave the following voting strength: Memphis ISD, 1480 votes; Hall County, 1205; Valley ISD, 860; Lakeview ISD, 395; Estelline ISD, 390; City of Memphis, 550; City of Turkey, 95; City of Estelline, 15, and City of Lakeview, 10.

The various governing bodies may cast their votes for their choice in any breakdown the board may choose, limiting their choice to not more than five of the candidates. The votes are to be returned to the county clerk before November 15, when they will be tabulated and the results announced.

Pep Squad Report

by Judy Barrett

The past week was Homecoming Week for the Valley Patriots. There was much excitement and Valley Spirit in the air. The Pep Rally on October 19 opened with the boys and coaches marching in to the cheer, "We've Got the Fever, We're Hot," followed by "Two Bits" and "Going to the Top," to help boost the Patriots' spirit for their victory over the Silverton Owls. Two inspiring speeches were given by Mr. Coker and Coach Slover.

The Varsity Spirit Stick went to Dennis Farley, a senior, and the Junior Varsity Spirit Stick went to Brett Cheatham, a freshman. The girls Spirit Sticks went to Kelly Hawkins, a senior, and Paula Helms, a junior. The prizes for the best decorated doors in the school went to Cheryl Merrell's Kindergarten Class for Grades K through four; Mrs. Jones' fifth grade class received the prize for grades five through eight, and the sophomore girls won for decorating Miss Zetsche's homemaking door for grades nine through twelve.

The "Whisper Day" award went to Nellie Garcia for being the last person to whisper "Beat Silverton," speaking to Mrs. Green.

One dozen roses were presented to Lisa Herrington by the other five cheerleaders for being such a good companion and boosting the Patriot spirit.

The Valley Cheerleaders performed their Homecoming pom-pom routine.

The Pep Rally closed with the singing of the school song. The Lost: A spiral spoke hubcap for a 1978-98 Oldsmobile Regency. If found, please contact Grady or Delene Tyler, 806 455-1109 or 455-1300. 19-1tc

Owl JV Defeats JV Patriots 32-6

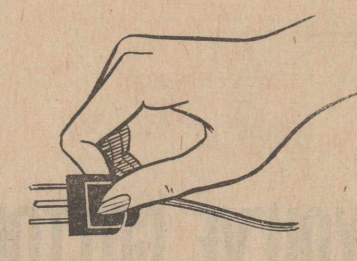

The Junior Varsity team was defeated by the Silverton JV by the score of 32-6 last Thursday. It was the same story as the week before. The Patriots could not get going in the first half. The Owls scored 26 points in the first half but were held to only six points in the second half, scored on a long pass with 11 seconds to be played in the game.

Offensively, the Patriots could not do anything in the first half, but came back the second half looking like a different team and scored on a three-yard run by John Morgan. Todd Mills was the outstanding player offensively.

Valley Eighth Grade Defeats Silverton 22-14

The Valley Junior High proved their metal once again by coming back from a 14-8 deficit at halftime and won the ball game 22-14. The Junior High Patriots could have given up at the half, but roared back on the running of Tommy Williams and Craig Cox. The line had some good blocking by J. Dale Butler, Keith Beavers, Daniel Ortiz, Lee J. Browning, Neal Barrett and Walt Rice. Darren Edwards played outstanding defense and shut down the odds in the last minutes of the game with an interception.

Reddy's tips on electric safety

- ★ When disconnecting an appliance, don't pull cord; pull plug.
- ★ Be sure each appliance has the type of cord suited to the job it does— heavy duty extension cords for power tools; moisture resistant cords and plugs for outdoor equipment.
- ★ Have frayed cords replaced promptly.
- ★ Water conducts electricity; never handle electric appliances or switches with wet hands or when standing on a wet surface.
- ★ If an appliance has a separate cord, attach cord to appliance before plugging it into an outlet; disconnect cord from outlet before disconnecting it from appliance. Store cords away from cutlery, heat and dampness.
- ★ Don't place cords where they'll be tripped over or be subject to wear (under a well-travelled rug, through doorways).
- ★ Teach children not to play with or around electric sockets or equipment.
- ★ Don't use an electric lawn mower or hedge clippers when barefoot, or on wet grass or hedges.

Wagon?

The wild, wild West. Land of hope and opportunity
to thousands of courageous settlers. But, if it weren't
for the dollars of thousands more Americans taking
stock in their country, there might never have been a
West to go west to.

You see, money raised from the sale of government
securities helped us purchase the Louisiana Territory
from the French. Other securities helped buy the
states of California, Nevada, Utah, western Colorado
and most of New Mexico and Arizona from
Mexico. Even settlement of the Oregon Territory
was made possible through the issuance of United
States securities.

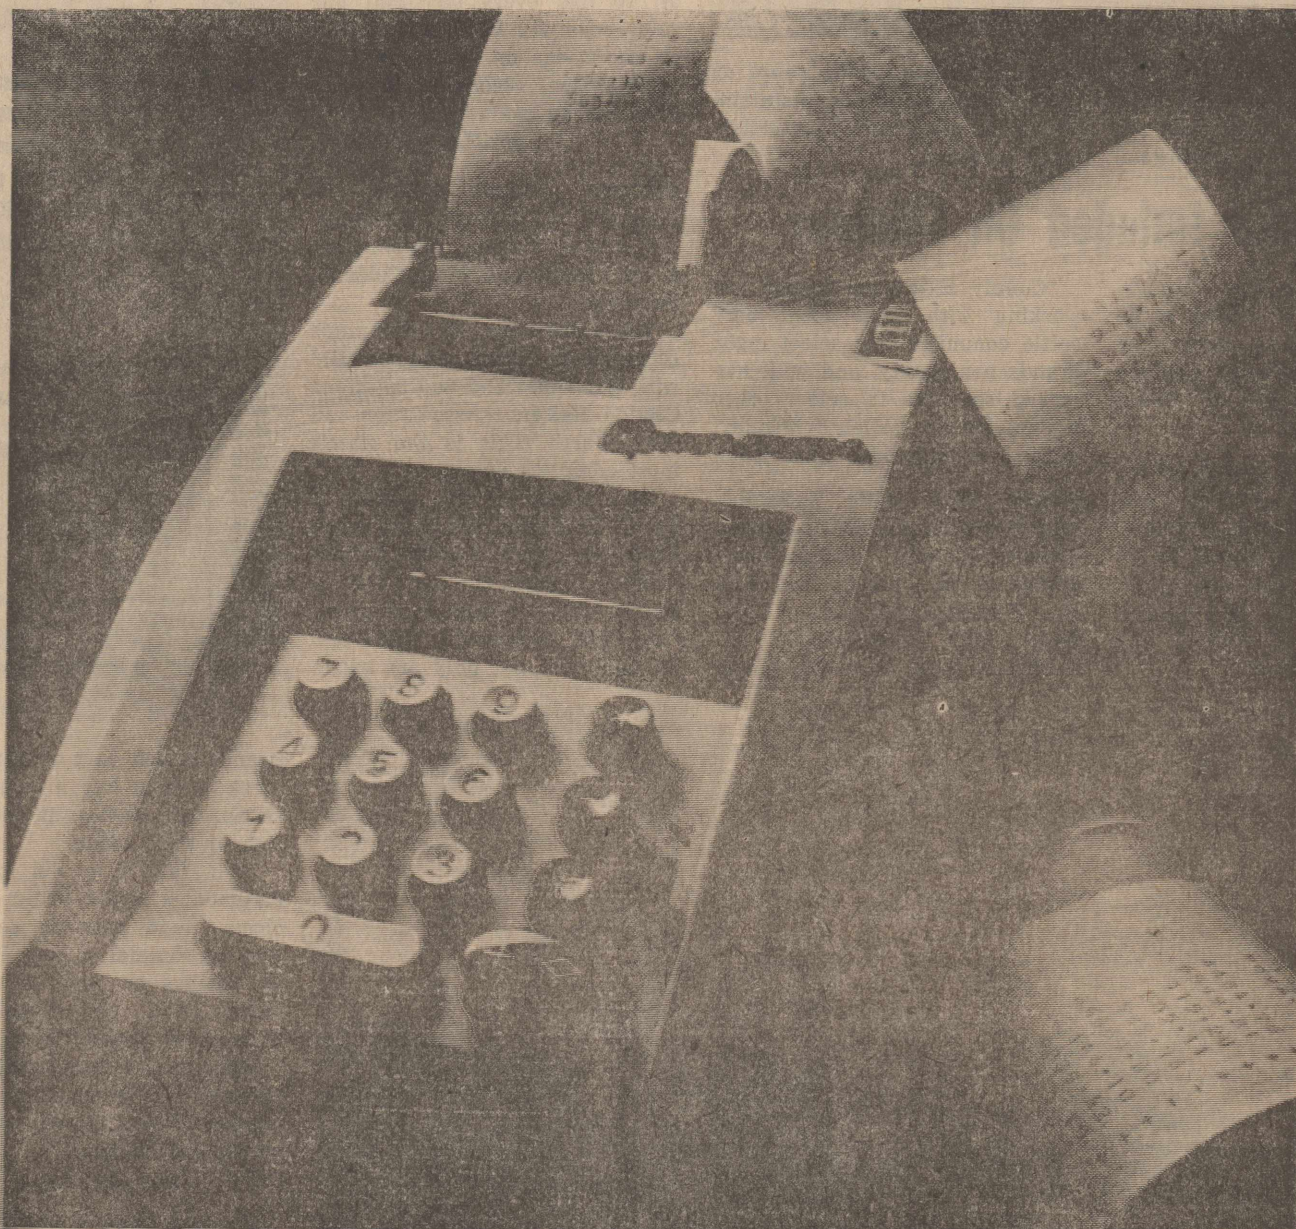

Today, you can still take stock in your country's
growth by buying U. S. Savings Bonds.

Just sign up for the Payroll Savings Plan where
you work. There's no easier, safer way to save or help
your country. After all, U. S. Savings Bonds are
still a great way for you to go West. Or East, North
and South.

Now E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year).
Lost, stolen or destroyed Bonds can be replaced if records are provided. When needed,
Bonds can be cashed at your bank. Interest is not subject to state or local income taxes,
and federal tax may be deferred until redemption.

Broomweed Infesting Native Grasslands

by Francis E. Northam
Range Conservationist
Soil Conservation Service

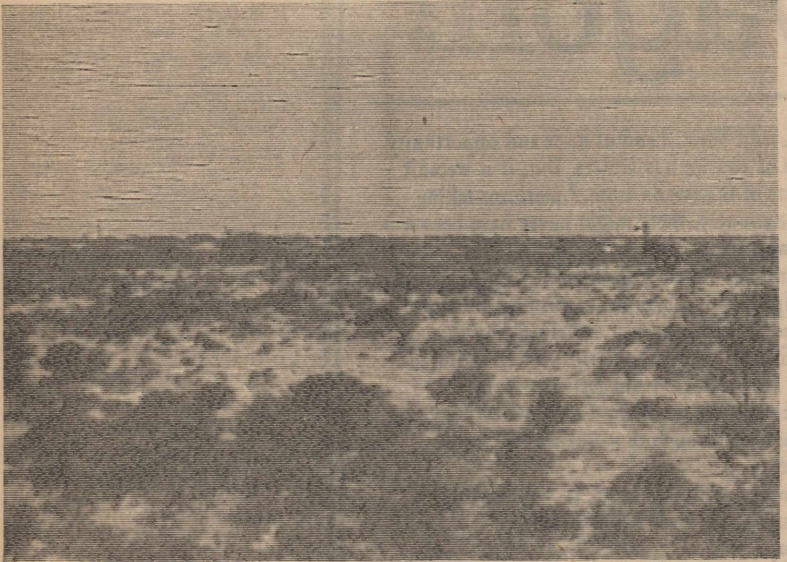

Common broomweed has grown exceptionally well this year on Briscoe County rangelands. The plant normally grows in disturbed areas, but this season broomweed is established on native grasslands. How badly native range is infested by a broomweed outbreak is largely influenced by grazing practices. Range plants that have been heavily overgrazed cannot compete with the weed, and thousands of the plants can thrive on an acre of native grassland.

Overgrazed range is easily invaded by weeds. When livestock graze away the grass cover, the soil is exposed to sunlight. Overgrazing also kills grass roots. With fewer grass roots in the soil, more moisture is available

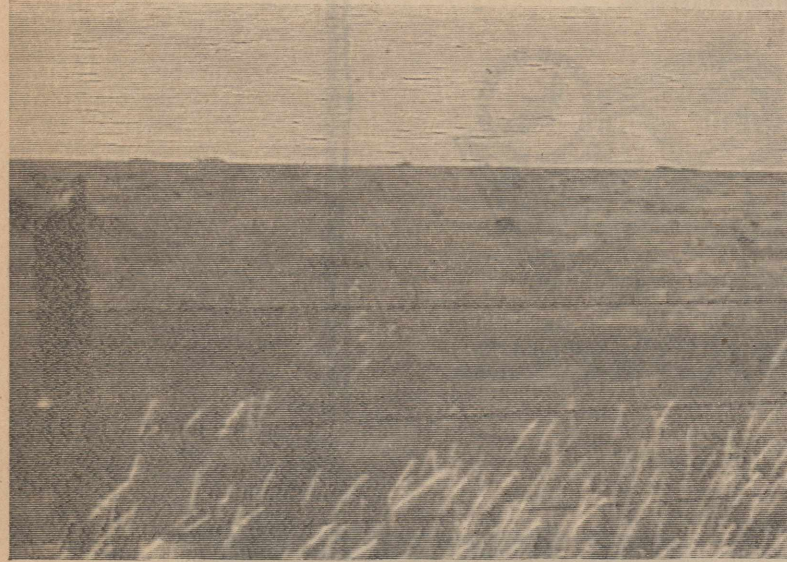

for weeds. The open ground and moisture produce hundreds of pounds of worthless weeds instead of livestock forage.

Proper management provides rest for range grasses during part of the growing season. Grasses use reserve food stored in their roots to replace grazed leaves. Overgrazing occurs when the new leaves are grazed away before they have time to replace the root reserves. As overgrazing continues, the root reserves are used up and the plant dies. Wade Steele, a southwest Briscoe County stockman, expressed this idea well when he said, "We don't graze our grass to death."

For information and assistance developing a good grazing management system that will insure properly utilized range, contact the Soil Conservation Service personnel in Silverton.

Bumper year for broomweed. This clay loam rangeland east of Silverton has 21 to 37 thousand broomweed plants per acre. Overgrazing destroys the native range's ability to compete with weeds.

This clay loam range on Wade Steele's ranch in southwest Briscoe County has only four to eight thousand broomweed plants per acre. Many years of good management has maintained an excellent turf that resists weed invasion.

Cattle Brands Included On Stairway

The search continues throughout Texas for outstanding cattle brands to include on county panels at the Kleberg Center's "branded stairway" at Texas A&M University.

L. A. Maddox, chairman of the unique branding project, said that some 3,500 brands, or more, are expected to be imprinted on the 254 "county oak panels" in the university's new \$9.5 million Robert J. Kleberg Animal and Food Sciences Center.

"County Extension Agents are working with their local beef cattle committees to select eight brands per county, and with historical societies to select other brands for the panels," Maddox, Texas Agricultural Extension Service beef cattle specialist, said. Recently, a delegation from Briscoe County added local brands to the county's oak panel. Participating were Lynn Welch, Bill Thornberry, D. T. Northcutt, E. A. Birdwell, Pascal

GROUP RETURNS FROM HAWAIIAN TRIP

Mrs. Ona Christian, Ruby Gregg Welbern and Bobbie Christian, Carol and Alpha Byrd, Jerry Martin and Louise Chappel have returned from a ten-day trip to Hawaii. While there, they visited four islands, saw Pearl Harbor and the volcano which erupted in 1974. They report that one can still see a vapor from the volcano. They visited the National Cemetery where 26,000 servicemen are buried.

The bus tours had 61 people entouring. They took boat rides, saw beautiful flowers, beautiful hotels. The time difference was a five hour span from the Los Angeles Airport to Honolulu and the flight was a five hour trip. Mrs. Christian reports that one would need a car and one full year to see and do the things one would like to do.

What Think Ye?

Sometimes we ministers get requests from people who have been given our name for reference. One such request came to a certain preacher, "Will you tell us all you know about Mr. A., his character, his habits, his financial responsibilities, etc."

The minister's reply was, "I found his name on the church roll when I came to serve this church. Neither he nor his family attend services. They say it is the only day they have for relaxation and pleasure. His name is not recorded on the treasurer's books, so I can't tell you anything about his financial responsibilities. That is all I know about him."

Somehow the letter was revealed to Mr. A. Was he burned up and did he tell the minister! Among the things he said was, "Any minister who is worth his salt must know that a man's relationship to the church and his financial contributions are of a confidential nature."

So the minister wrote another letter: "All I know about the gentleman is of a confidential nature and he has explicitly requested that I do not tell the truth."

We like to give references—good references, that is. Let us all so live every day that our references will be good not only on the books on earth, but also on the final record which is above human evaluation.

Garrison, Johnnie Burson, G. Mayfield, W. E. Cushing, McMurry Ranch, Wayne Whittington, J. W. Reid and Mrs. Coleman Garrison.

There are some 200,000 brands recorded in Texas and on file with the Texas and Southwestern Cattle Raisers Association in Fort Worth. This is the state's most complete record.

The "branding" was an idea of Dr. O. D. Butler, for many years head of Texas A&M's Animal Science Department and now associate vice president for agriculture and renewable resources. He said that not only are cattle

brands a rich part of Texas livestock history but a prized possession of ranchers in identification of their cattle.

"We felt that the branding ceremonies would bring about a closer tie-in between cattlemen and our animal science facilities on campus as well as with research and educational work throughout Texas," Butler said.

Maddox said that branding ceremonies will be conducted by Extension district groups until "all panels are branded."

Variety and moderation are keys to sensible dieting.

A diet designed to help lose or maintain weight should be one that can be lived with for a lifetime. Promises of quick, painless weight-loss are an indication that a diet is probably not medically or nutritionally sound. Your personal diet plan should not become a hardship — it should satisfy your nutritional needs as well as the social aspects associated with food.

There is no magic food which will "burn" fat to cause immediate and permanent weight loss. Nor is there a food which "magically" reduces appetite.

A diet that overemphasizes any one food or food group to the exclusion of others is probably a "fad" diet. A diet which results in weight loss or weight maintenance—should be made up of a variety of foods. Foods should be included from all the four food groups — milk and dairy products; fruits and vegetables; breads and cereals; and protein-rich foods such as meat, poultry and fish.

When a food group, such as breads, is completely omitted from the daily diet, the essential nutrients supplied by that food group will be lacking. This results in an imbalance in your diet.

Next week: The Sensible Diet Plan.

Class B Players Of The Week

Three pass interceptions and general outstanding play through the game caused Brum Pinkerton to be selected as the Amarillo Daily News Class B Player of the Week for his play against Nazareth. The Valley Junior Linebacker picked off the first pass of the evening on the Nazareth 35-yard line and ran it all the way for a touchdown. The touchdown was called back because the Patriots were caught clipping on the play, although Valley did keep the ball. He returned the other two passes 20 and 15 yards. The last touchdown stopped what looked like a pretty good drive. In addition to his pass defense, Brum had three solo tackles and eight assists. Coach Ted Giddens stated that it was Brum's finest game of the season to date, and praised the young man's all-around play.

(Editor's Note: This story should have been in last week's issue of the Valley Tribune, but your reporter was under the weather and kind of out of things. Sincere congratulations to Brum.)

Ray (Juice) Williams, Valley Junior Linebacker - Fullback, made his presence felt strong enough on both offense and defense to enable him to be selected as the Amarillo Daily News Class B Player of the Week for his performance in the game with Silverton. Juice grabbed the spotlight early in the game when he took the ball on Valley's first offensive play and ran it 47 yards for a touchdown. The six foot, 180-pound Junior had ten assists and four solo tackles and caused a fumble from his defensive linebacker position. He carried the ball seven times for 91 yards and a touchdown and also caught a pass for a touchdown to spark the Patriots' 27-14 win over the Silverton Owls in a very key win in the district race. Coach Ted Giddens also praised the defensive efforts of Brum Pinkerton, Troy Scoggins, Dane Cheatham and Mike Dowd. Pinkerton, the Player of the Week from the previous week, had 16

assists, four solos and a sack. Scoggins had five assists, three solos, four sacks and caused two fumbles. Cheatham picked off a mid-air fumble and returned it 68 yards for a touchdown. Dowd had nine assists, five solos, two sacks, two fumbles caused and recovered one fumble.

James McNary, who was "keyed all night long," according to Giddens, had 110 yards on 19 carries for Valley.

The American farmer builds two things better than anyone else in the world. He builds the next generation, passing along a special kind of wisdom... respect for the soil, honesty, independence, and faith in the future. And he builds his land, leaving it better than he found it. That kind of building usually requires borrowed long-term capital. That's where we have helped for 60 years.

"Whether you're lost in a strange neighborhood, or just going to be late for dinner, a telephone booth is a welcome sight. That's why it's important that we keep them in working order. In my job, I do more than collect the change from the coin box. I also make sure that the instrument is working correctly. If it needs minor repairs I do them on the spot. That way, we make sure that you get a working phone when you need it. That's one reason I'm proud to be one of the people General Telephone is talking about when they say 'We keep you talking'."
