Stanton Police Chief Jerry Register peers under the reared-up cab of a five-ton dump truck Tuesday. The truck got into this embarrassing position after driver Anastacio Salgado, 62, started dumping five yards of sand, but apparently forgot to

open the tail gate. The weight of the sand threw the truck off balance. Raymond Marquez used a back-hoe to dip sand from the grounded bed and right the city of Stanton truck. (Staff Photo by Ed

Carter to go on TV to explain shake-up

WASHINGTON (AP) - President Carter, seeking to speak directly to millions of Americans tonight in a rare prime-time broadcast news conference, says the media have exaggerated the extent of his administration shake-

The president and his aides say both American and foreign reporters are blowing up the power of Carter's inner circle of faithful Georgians, especially chief of staff Hamilton Jordan.

"The Washington press has grossly exaggerated this," Carter was quoted by a participant as telling about 250 political appointees Tuesday.

A second source, one of the Georgians, quoted the president as saying Cabinet members won't report to Jordan. Carter said there has been "considerable exaggeration in some quarters of Hamilton's role," said this source, who asked not t be identified.

The meeting participant, who took detailed notes, said Carter specifically blamed the Washington press for the

Earlier in the day, two senior aides, reflecting concern by officials over foreign reporters' negative comments, called in five or six European journalists and one Japanese reporter to rebut some of their accounts.

The aides told the reporters the administration shakeup does not represent a constitutional crisis and denied that political advisers such as Jordan, press secretary Jody Powell and media adviser Gerald Rafshoon will be influencing basic economic and foreign policy decisions.

The aides stressed, according to two journalists who attended, that replacing Treasury Secretary W. Michael Blumenthal with G. William Miller does not represent any change in U.S. economic policy or support for the dollar.

The dollar has declined on foreign markets since last

week's multiple firings, and several foreign news reports have speculated that Jordan and other political aides may advise against politically painful decisions needed to bolster its value

Also on Tuesday, Carter: -Summoned members of the Senate Finance Committee to the White House and lectured them on the importance of passing his proposed tax on oil profits, which

faces delays and possibly weakening amendments.

-Reportedly narrowed to two the list of names he is considering for appointment as head of the Federal Reserve Board, the "top priority" vacancy created by last week's reshuffling.

It is possible Carter will announce his choice tonight at his news conference, scheduled for 8 p.m. Midland time in an attempt to get a bigger audience than his usual 3 p.m. sessions. It is only the second prime-time news conference to be broadcast nationally since Carter took office, and the first to be held in the White House itself rather than the Executive Office Building auditorium.

Sources said the leading candidate for Fed chief was Paul A. Volcker, 51, chairman of the Federal Reserve Bank of New York, followed by Bruce K. MacLaury, president of the Brookings Institution, a private think tank. The sources asked not to be named.

Carter had hoped for passage by early August of his proposed "windfall profits" tax on oil. The tax would produce an estimated \$140 billion over the next 10 years, much of which Carter wants to give to a new government corporation to spend on finding alternatives to imported

Carter, already worried by proposed Senate amend-ments that would cut as much as \$55 billion from the tax's take, was told by congressional leaders Tuesday morning that it probably would be October before the measure

The president quickly invitedSenate Fiance Committee members to an afternon meetingin which he strongly urged approval.

Carter said passage is a matter of national security and cautioned against "parochial or partisan positions that could damage the national welfare," according to a White

But the committee chairman, Russell Long, D-La., said afterward that no commitments were made and the committee still was divided. He predicted passage of a bill Carter would sign, and said he hoped but could not promise that this would happen before the end of Octo-

At the breakfast meeting, Carter also said he was considering appointing a mayor as his new secretary of housing and urban development.

School increases taxes and salaries

By DAVID CAMPBELL Staff Writer

School trustees Tuesday approved a six-cent increase in taxes, an 8.8 percent increase in teachers' salaries and made preliminary plans for a \$12 million bond election this fall.

The board gave preliminary approval to increasing the current school tax rate of \$1.20 to \$1.26, an increase of 5 percent. Under the provisions of the new Truth in Taxation Law, any increase

of more than 3 percent requires a public hearing before the board can endorse such an increase. Public hearing on the proposed tax rate increase will be at 4 p.m. Aug. 7 in the board room of the school administration building on 702 N. N

Street. The board must take action on the tax increase proposal 14 days after the public hearing. The school board also agreed to continue the policy maintaining teachers'

salary schedules 25 percent above state minimums. Continuation of this policy should help get and retain qualified instructors, Schools Superintendent Dr. The policy makes salaries for Midland teachers third highest in the

state in districts with enrollments of 15,000 or more, said Dr. Mailey. Trustee Parker Humes, in a report from a trustee planning committee,

told the board about the preliminary findings for a bond election sometime Voters would be asked to approve approximately \$12 million to cover such items as the construction of two new elementary schools, general re-

provements on the Midland High School campus, Humes said. In another action Tuesday, the board reviewed the request to serve notice for withdrawing from participation in the social security program. Two studies were presented indicating the feelings of school employ-

pairs and remodeling projects throughout the district and major im-

ees toward withdrawal of the program. James Leeper, representing a teachers' organization, expressed the teachers' reasons for voting favorably for withdrawing from the program. He also indicated concern that the money used for the social security program should be placed into another fund.

A budget study for the 1979-80 school year showed \$25,446,861 would be spent for the upcoming year. The projected budget represented about a 9.9 percent increase over last year's budget expenditures.

Other actions taken by the board in Tuesday's meeting included the acceptance of several resignations, accepting bids for replacement of a boiler in South Elementary and replacement of air conditioning in the trip bus and approving two appeals for transfer requests.

Volcker named to head Federal Reserve Board

WASHINGTON (AP) - President Carter announced today he is nominating Paul A. Volcker, a former Treasury official and now president of the New York Federal Reserve Bank, to be chairman of the Federal Reserve

In a statement read to reporters by White House Press Secretary Jody Powell, Carter said of his choice to succeed outgoing board Chairman G. William Miller:

"Mr. Volcker has broad economic and financial experience and enjoys an outstanding international reputation. He shares my determination to pursue the battle against inflation at home and insure the strength and stability of the dollar abroad.

He would replace Miller, who was named last week to succeed W. Michael Blumenthal as secretary of the

The appointments of Volcker and Miller require Senate confirmation.

Volcker, 51, a former Wall Street banker, was undersecretary of the Treasury for monetary affairs from 1969 until 1974, when President Richard Nixon resigned. He was one of the few Democrats to hold a high position in the Nixon administration.

Carter considered Volcker once before as a candidate for the Federal Reserve chairmanship - in 1977, when Miller was chosen.

After he left the Treasury, Volcker became president of the Federal Reserve Bank of New York, the largest district bank in the Federal Reserve

A New York banking official said he thought Volcker would be a good choice as Miller's successor because "he seems like somebody with great qualifications for the job; he has the respect of the business and financial community, and he's somebody who wants the job, too."

Oil firms acknowledge benefits of oil crisis

NEW YORK (AP) - Oil companies continue to acknowledge the beneficial effects of the oil crisis on profits with several firms announcing hefty increases in second quarter earnings.

On Tuesday, Gulf Oil Co., the nation's fifth-largest oil company, reported a 65 percent increase in second-quarter profits and Standard Oil Co. of Ohio (Sohio), ranked 14th among U.S. oil firms, said earnings rose 70 percent in the quarter.

Earlier this wek, Standard Ol Co. (Indiana) reported a 36 percent profit jump and Exxon Corp., said its profits had gone up 20 percent in the second quarter, slightly less than some analysts expected. Gulf, based in Pittsburgh, earned \$291 million in the second quarter,

compared with \$176 million in the same quarter a year ago. Revenues rose to \$6.1 billion in the quarter from \$4.7 billion. Sohio, based in Cleveland, said second-quarter earnings were \$201.4 million compared with net income of \$118.4 million a year ago. Sales rose

to \$1.82 billion from \$1.33 billion in the year-earlier period. Included in Sohio's second-quarter results was a write-off of \$57.3 million from the abandonment of a proposed pipeline that would have carried Alaskan oil from Long Beach, Calif., to a national pipeline

distribution center in Midland, Texas. Sohio said, however, that the write-off was easily offset by higher profit margins at gas pumps and rising prices of crude oil produced by the company, particularly from Sohio's substantial interest in Alaska's Prudhoe Bay oilfields.

Gulf, on the other hand, said most of its profit resulted from gains in foreign operations, the same reasons given by Exxon and Amoco.

TESCO's rate increase. will also hike other bills

By RICHARD MASON Staff Writer

Texas Electric Service Company's request for an \$88 million revenue hike will result in more than just increased electric bills, Midland City Council members were informed Tuesday.

Winston Barclay, district manager for the Midland TESCO office, said the rate increase for municipal users, which includes the city of Midland, is more on the line of 30 percent. That increase will be reflected in

city water and sewer rates. The city uses electricity to pump water and sewage, City Secretary

James McCullough said. Barclay spoke during a public hearing Tuesday in council chambers on the TESCO rate hike request.

McCullough said the increase on city utility bills would be less than 5 percent per month.

"I don't think it would be that

high," he said. Residential users are facing an 18 percent increase in their average monthly bill, Barclay told council

members Overall, considering all users, the increase amounts to 16 percent, he

Barclay presented a slide show explaining TESCO's part in the construction of additional power generating plants which would rely on lignite coal and nuclear fuel instead of natu-Texas Utilities, parent company for

TESCO, Dallas Power and Light and Texas Power and Light, is constructing the additional plants. One nuclear generator at Comanche Peak near Glen Rose will be on line in 1981, Barclay said, with the second generator to follow in 1983. Barclay said the additional con-

struction would "stabilize" electric rates in the future. "I cannot stand here and tell you rates will decrease," Barclay said.

TESCO filed the rate request in May. The city previously joined other municipalities in the state as an intervenor in the hearing, which will be held before the Public Utilities Commission in Austin.

Intervenor status gives the city access to additional information in the rate request. Barclay said the company is facing

a decline in its return on equity, which affects the bond status for the utili-"The decline on the return on equity is causing us some problems," he

The company received just under a 14 percent return on equity from rate

increases in 1977 and 1978. "We're asking for a 15 percent return," he explained. Barclay said nuclear wastes from

the Comanche Peak plant will be stored on site until the federal government selects a repository site for the nuclear byproducts. The utility manager said increased

rates were promoting conservation. "We had been experiencing a 10 to 12 percent annual growth rate. Our growth patterns are running about 5 to 6 percent now," he said. "People

are using less service." Barclay said turning thermostats to 78 degrees would result in a 5 percent reduction on cooling costs for each degree achieved.

The council took no action following the public hearing.

City council OKs mobile home area

By RICHARD MASON Staff Writer

Mobile homes and mobile home districts drew fire Tuesday from a citizen who presented a petition to the Midland city council opposing a zoning change that would allow mobile homes to be located near the central

business district. Nonetheless, council members passed on first reading an ordinance that would create a mobile home district in an area bordering downtown

Midland. On a split vote, the council approved G. Thane Akins' motion to make the district smaller than the

original proposal. A second reading on the proposed

zoning change will be held at a later council meeting. Julia Robinson, 501 S. Baird St.,

presented two petitions to the council opposing a zoning change that would allow the location of mobile homes on vacant lots in an area bounded by New York and California Avenues and Baird and Dallas Streets - about five blocks from the downtown area. Currently, the area is zoned for retail business.

According to Richard Hennessy, director of planning and community development for the city, few businesses locate there because the section is too far from downtown to attract a retail trade.

As a result, there are a large number of vacant lots in the area, Hennessy said.

Five trailer homes have already located within the area in violation of city ordinances, Hennessy added. Ms. Robinson charged the zoning

change would lower property values in the area, which she said had risen lately along with those in the rest of the city. She charged that locating mobile

homes within five blocks of downtown would be unsightly.

"I wish you would reconsider, please, for all of us (in the neighborhood)," she said.

According to Hennessy, a mobile home district requires trailer owners to acquire a lot.

The district does not allow for the creation of mobile home parks, Hennessy said.

Under the motion approved by council, the district's western bound ary would be moved one and one-half blocks east to South Weatherford St.

Midland Mayor Ernest Angelo Jr. said mobile homes nowadays were the only way some people had to acquire a permanent residence.

We need to develop a different attitude toward mobile homes," he

Accident kills Andrews man

ANDREWS - An Andrews man was killed Teusday and another man was in satisfactory condition today in an Odessa hospital following a onecar accident at 8: 30 a.m. Tuesday five miles south of Andrews on U.S. Highway 385, according to a Texas Department of Public Safety spokes-

John Erik Pheatt, 39, of Andrews was pronounced dead on arrival Tuesday at Permian General Hospital here by Dr. Paul Rodgers, according to reports.

Pheatt was the passenger in a car being driven by Steven Dorman of Andrews when the vehicle failed to negotiate a curve, officials said.

Dorman suffered head injuries and was transferred to Odessa's Medical Center Hospital, where he was re-ported today to be in satisfactory condition, according to hospital offi-

Texas area forecasts

North Texas: A flash food watch was in effect for eastern ortion of north Texas through tonight. Consider-able cloudiness with showers and thunderstorms central and east through tonight and Thursday. Possible heavy rain east. Clear to partly cloudy west through Thursday. Continued warm days and cool nights. Highs 68 south-east to 98 northwest. Lows in the 70s.

South Texas: A flash flood watch is ineffect for Southeast Texas until midnight tonight. Mostly cloudy with numerous showers and thunderstorms Southeast Texas through Thursday. Elsewhere partly cloudy with widely scattered to isolated afternoon and evening showers and thunderstorms. Not much change in temperature. Highs in the 80s except low 100s west and southwest sections. Lows generally in the 70s.

Coronary bypass should be 'standard,' AMA report says

CHICAGO (AP) — The coronary bypass operation should be standard treatment for certain types of heart patients despite its high price, an American Medical Association report

The report by the AMA's Council on Scientific Affairs was up for consideration today by delegates to the annual

"There is no other concise, consensus summary on this topic," said Dr. C. John Tupper of Davis, Calif., chairman of the council.

"Our objective was to have a docu-

Domino tourney set in Big Spring

BIG SPRING - Partnership entries from as far as Kansas City, Mo., Fayettville, Ark., and Phoenix, Ariz., will toss dominoes around in the Second Annual National Texas-style Tournament here at the Dorothy Gar-

rett Coliseum this weekend. Opening round play will begin at 1 p.m. Thursday and continue through

5:30 p.m. Second round competition picks up at 9 a.m. Friday and runs through at

least 5: 30 p.m. Final round of play will move on to the tables at 9 a.m. Saturday, contin-

uing to late afternoon or early eve-Returning are the Newsome brothers from Kansas City, Mo., and the

Price brothers from Houston and

Majority of entries are from surrounding areas of Big Spring, with the host city furnishing only a small percentage of the players.

Prize money awards will go to the top four winners based on number of teams entered.

Some 64 contestants had paid their \$50 entry fees by early today. Entry deadline was noon today. Barbecue will be served to contestants only at 1:30 p.m. Thursday at

the coliseum.

ment of value not just to the cardiologist or open heart surgeon but to any doctor who might come in contact with chest pain," said Tupper, founding dean of the University of California Medical School at Davis.

With 70,000 operations performed a year, coronary bypass surgery is the most common major operation in the United States. It costs an average of

\$12,500. Surgeons take a piece of a vein from the leg and use it to bypass obstructed portions of the three small arteries that feed blood to the pumping muscles of the heart.

It's generally agreed the operation relieves angina pectoris, a pain thought to be caused by inadequate blood supply to the heart muscle. But whether it prolongs a patient's life is in dispute. Critics of the operation say it is too expensive and too risky.

In one Veterans Administration study, hospitals were found to lose 2 percent to 14 percent of their patients on the operating table. But the study was done five years ago and surgeons

say their technique has improved. The AMA report said the operation was definitely warranted in at least three cases:

-Where there is disabling angina pectoris that cannot be controlled with drugs, such as nitroglycerin;

-Where there is critical blockage of the left main coronary artery, the largest and most important of the

-Where all three coronary arteries have enough combined blockage to hurt the heart's pumping.

But the report cautioned that coronary bypass was not good for some patients. These included people whose heart muscle was irreversibly damaged or who had "other serious and untreatable manifestations of arteriosclerotic disease or other advanced

debilitation.' Tupper said some AMA delegates feared the report might lead insurance companies to refuse to pay for the operation except in the three recommended cases.

Kennedy will be choice': Jackson

Jackson also predicted Tuesday that Kennedy would make a bid for the Democratic nomination if Gov. Edmund G. Brown Jr. of California appears likely to win-out over

"Kennedy is not going to let Brown get very far," said the Washington Democrat who mounted an unsuccessful campaign for the nomination

"I think Kennedy is going to run,"

Jackson said. He later tempered his prediction, saying, "Kennedy is not going to get

Cloudy conditions to return

It'll be fair in Midland tonight, according to the weatherman, but skies should be partly cloudy on Thurs-

That's the word from the National Weather Service office at Midland Regional Airport.

But no relief from summer's heat is anticipated.

The low temperature tonight is expected to drop into the lower 70s while Thursday's high should reach the middle 90s

Winds tonight should be light and variable Meanwhile, the high temperature on Tuesday reached a skin-reddening

But that was six degrees shy of the record 103 sweltering degrees set July

The overnight low Tuesday was 73 degrees, far short of the record low 62

degrees set in 1976. In Southeast Texas, police moved through high water early today to help residents of several towns evacuate their homes as heavy torrential rain from Tropical Depression Claudette lashed the area.

There were no reports of injuries, but reports from the area were sketchy.

'It's mayhem down here," said a spokesman at the Orange County sheriff's office.

"We just don't know how many people are being evacuated," she added. The spokesman said the residents were being taken to schools in lters have been set

"Some of the schools can't be used because they are flooded," she con-

Water was at least 18 inches deep in the streets of several cities.

There were unofficial reports that Port Arthur had received about 15-18 inches of rainfall since early Tues-At Bridge City, residents were

moved into Sims Elementary School. Many sections of West Orange were inundated, a police spokesman said. Flooding was also reported widespread at Beaumont, Fannnett, Ham-

shire and Groves. Claudette's remnants were moving slowly northward in Southeast Texas

early today. The National Weather Service issued numerous warnings and advisories throughout the night.

A flash flood warning was in effect until dawn today in Jefferson County where major street flooding was reported in Port Arthur. Groves received 7.60 inches of rain since early Tuesday. Rainfall at the Jefferson County Airport amounted to 3.12 inches by midnight and more was falling.

At Beaumont, 3.86 inches of rain fell

between midnight and 4 a.m. Forecasts called for the remnants of Claudette to drift slowly northward, dumping very heavy rain along the way.

Forecasters issued a tornado warning for Matagorda County early today after several tornadoes were sighted between Matagorda and Wadsworth. There were no immediate reports of

damage. The area offshore from Matagorda and Brazoria Counties was under a special marine warning. Forecasters said wind gusts of up to 50 mph could be expected as the backside of Clau-

dette moved near the coast. The upper Texas coast between High Island and Sabine Pass was also under a special marine warning for several hours early today. Forecasters warned of high, gusty winds, heavy rain and rough seas.

Small craft operators along the upper Texas coast were warned to stay in port.

A flash flood watch was issued for today for all of Texas to the right of a line from Palacios to College Station. Forecasters warned that up to six inches of rain would likely fall in that

Another flash flood watch issued for today covered North Texas east of a line from Centerville through Fairfield and Henderson to 20 miles north of Longview.

along the Rio Grande in Southwest Scattered showers and thunderstorms were reported early today in the Panhandle and northern sections of the South Plains.

in unless Carter is knocked out. He knows he would be accused of dividing the party.'

For now, Jackson said, "I am supporting the president." Asked if he believes Carter will be knocked out as a candidate for re-

election, he said, "It all depends what happens between now and the pri-

maries. Jackson said Carter may yet recover his political popularity, but for the moment, "he is in serious trouble."

Jackson, one of the most influential Democratic members of the Senate, was echoing what several political observers have been saying privately since Carter's abrupt Cabinet shakeup last week.

One knowledgeable source said the attitude toward Kennedy is changing among Democrats, explaining, "Peo-

ple are now convinced Kennedy will have to come into the race - ironically, not as the divider but as the savior of the party." The source asked not to be named

Jackson praised the Massachusetts Democrat for making no overt moves to challenge Carter in advance of presidential primary elections in Massachusetts and New Hampshire next winter.

Jackson is a leader in the fight to defeat the SALT II treaty that Carter submitted to the Senate. Kennedy is one of its strongest supporters.

-Jackson and Kennedy both criticized Carter's decision to phase out price controls on domestic oil, although as chairman of the Senate Energy Committee, Jackson has supported Carter on energy issues more than he has opposed him.

Jackson was highly critical of the way Carter handled the recent changes in his administration, and especially of his demand that all Cabi-

net members submit resignations. Jackson also said Carter should have named Robert Strauss, the president's new Middle East negotiator, as White House chief of staff instead of Georgian Hamilton Jordan. Strauss, a former Democratic Party chairman, is considered among the most politically sophisticated of the

president's advisers. Jackson also has said he was irritated by the resignation of Energy Secretary James R. Schlesinger and his proposed replacement by Charles W. Duncan Jr., the deputy defense secretary, in the midst of an attempt to push Carter's new energy program through Congress.

Keeping birthdays straight around the Perry household, 2519 Neely Ave., is no problem. Jack Perry, left, celebrates his birthday today, as do his son Wes, 47, and granddaughter Dru Anne, 17. A retired foundry worker, the 68-year-old Perry lives

in Oklahoma City. Wes Perry is an independent geologist in Midland, and Dru Anne will be a senior at Midland High School this fall. (Staff Photo by Bruce Partain)

Defeat of amendment banning busing a 'human rights victory

WASHINGTON (AP) - House opponents of a proposed constitutional amendment to ban busing as a desegregation tactic say its defeat Tuesday was a victory for "basic human rights." But supporters vow the issue will come back to haunt its detractors

in upcoming elections. "I recommend that we dispose of it by soundly defeating this constitutional amendment and demonstrating to the world that the United States is

"Seats will definitely change," he said, adding that anti-busing amend-

Urban League hears 'unpleasant' predictions

CHICAGO (AP) - The National Urban League has heard some unpleasant economic predictions, with business and labor leaders forecasting more inflation and a Carter Cabinet member saying unemployment is expected to climb to 7 percent.

But Secretary of Labor Ray Marshall re-emphasized Tuesday what he said was the Carter administration's commitment to lessen the impact of that bad economic news on jobless minorities by creating more jobs for

Marshall's comments were made to the Urban League's annual conference the same day the league heard both John H. Perkins, president of the Continental Illinois National Bank & Trust Co. of Chicago, and Lane Kirkland, secretary-treasurer of the AFL-CIO, predict more inflation ahead.

But Kirkland favored price controls, while Perkins warned against that "tempting device." Marshall said he looked to the 1980s for improvement in employment op-

portunities for minorities. He said most of Carter's efforts to reduce national unemployment will be aimed at the poor and disadvantaged.

But Marshall said the unemployment rate is expected to climb to 7 percent, an unwelcome prediction to the Urban League, which has full employment as one of its goals for the

Marshall said the administration's plans to spend \$142 billion in the next decade to build a new "energy base" will mean "massive" public-works project as alternative energy sources not going to turn the clock back on basic human rights," said oposition member Rep. Mendel Davis, D-S.C.

Supporter Rep. Robert Dornan, R-Calif., predicted 10 to 15 House members will not return to Congress in 1980 because they voted against the

are developed. And about \$24 billion of that total

has been earmarked for helping the

'poor cope with energy problems," Marshall said. Although unemployment is expected to rise during the next year, Marshall said the administration still hopes to lower unemployment to 4 percent, the level mandated by Congress in the Humphrey-Hawkins act, by 1983.

Dallas policeman killed

DALLAS (AP) - Sgt. Elton W. Williams, 41, the city's most decorated police officer, was shot and killed in his home Tuesday. His wife Julia Belle Williams was charged with murder in the case.

Police Lt. Jimmy Dyess of suburban De Soto where the Williams lived said the 20-year veteran officer was shot nine times with a .44-caliber Magnum and a .380-caliber automat-

"He was shot in the bedroom and he evidently ran out into the hallway, and that was where the rest of the shooting occurred," said Dyess.

Police were summoned to the home by the couple's 15-year-old son. Mrs. Williams was found "sitting quietly on the bed" in the master bedroom, Dyess said. She was held in lieu of \$15,000 bond.

The shooting occurred about 4:30 a.m., officers said.

Williams had received 49 commendations and the police Medal of Valor, the distinguished service award, and the police life-saving bar.

UTPB vice president plans Elsewhere, forecasts called for attered showers and thunderstorms to resume position as dean

ODESSA - Dr. J. Edwin Becht, vice president for academic affairs at The University of Texas of the Permian Basin, has announced his plans to resume his position of professor upper 80s in the Panhandle to near 106 and dean of management effective

> Becht had requested this spring that he return to being dean of management, spending half time as dean and half in research and teaching.

He came to UTPB as dean of management in 1972 and was named academic vice president in January 1975. Since August 1977, he has served as academic vice president and act-

ing dean of management. UTPB president V.R. Cardozier praised Becht's work with the university and said he would not fill the vice president's position until next year when "we'll evaluate this arrangement."

ments will be brought up for a vote at

every opportunity. The amendment, proposed by Rep. Ronald Mottl, D-Ohio, and originally endorsed by a majority of House members, failed on a 216-209 vote. A two-thirds majority was required for

Rep. Kent Hance, a Democrat from Lubbock who represents Midland, voted for the measure, as did Rep. Richard White, a Democrat from

"I think it's real dead now," said Rep. Louis Stokes, D-Ohio, an opponent who expressed surprise at the strength of the rejection vote. "Our count was not that high. We thought,

at best, we would be up around 185." Mottl's amendment would have prohibited the busing of any public school student to a school other than the one nearest the child's home. Mottl says busing causes "white flight" and actually makes public schools more segregated.

Dornan concedes the measure is dead for this congressional session. House rules prohibit the revival of an amendment brought before the body in the unusual manner used Tuesday. The issue reached the floor through a discharge petition, bypassing the Judiciary Committee. But Dornan promised the issue

would come up again.

had not been considered thoroughly enough to be considered as a potential addition to the Constitution. Rep. Parren Mitchell, D-Md., said if the amendment were passed, "We're going to unleash some forces in this country that God knows should not be unleashed again. The best and

CAL

Opponents of the amendment said it

best prevailed." President Carter also opposed the measure, citing the Supreme Court decision that ended the separate-but-

the worst of America came out during

the civil rights movement and the

equal doctrine. 'The 25th anniversary of the Supreme Court's decision in Brown vs. Board of Education is a time to renew our commitment to this fundamental goal - not a time to retreat," he wrote Rep. Peter Rodino, chairman of the Judiciary Committee.

Retired farmer goes

DANVERS, ILL. (AP) - Paul Murphy of Danvers does more than remember the past — he makes it a part of the present. The 70-year-old retired farmer now devotes all of his time to the art of harness making. Each morning, Murphy rises at 4:30

By MARK LAMBERT

LaSalle Daily News-Tribune

a.m. and starts to work in his leather shop in the basement of his home. What started out as a hobby soon became a time-consuming effort to keep up with a growing demand for his specialized craft.

"Farming with horses is beginning to make a comeback, and the registration of purebred horses has doubled in the past 10 years," Murphy

He gives the impression of being an energetic man but his energy is channeled into his craft, which takes patience, a good eye, and a good degree

of manual dexterity.

Much of the sewing is done by hand with heavy thread that has been treated with beeswax and pine tar. The stitching has to be exact because it follows a groove that has been cut into the leather with a special tool.

This is done so that the thread is recessed, making it barely noticeable and so that the thread is no exposed to unnecessary wear.

"Sewing is harder and takes longer than rivets, but it's better because rivets cheapen the harness," he

Murphy likes to work primarily on harnesses, halters and saddles, but occasionally he takes on an unusual

A Lacon woman brought an ottoman to Murphy to see if it could be fixed. "The thing came from Peru

and was made out of a thick leather. "There was a map of the world on top and I was surprised to find out

that it was stuffed with buffalo grass. been in her family for a while," Murphy said.

On another occasion, a woman who had just returned from England brought a set of old horse brasses (harness decoration) to have them put on a specially designed leather

"Each of the brass pieces had the head of an English king on it and the date of their reign. I think she hung them over her fireplace," he said.

Handmade harnesses for both show and work are designed and made to order by Murphy, and have been sent

to 15 states. Murphy knows the practical side of harness making because he did all of his farming with horses until the 1940s, and continued to use Belgian work horses in his operation until his

retirement in 1976.

"I sold good horses for \$50 back in It was a slow job but the lady was real 1940. Horses of the same quality happy to get it back because it had brought \$3,000 when I sold out in 1976," he said. He had as many as 16 Belgian draft horses at one time.

Poring his years farming with horses he bought only two sets of

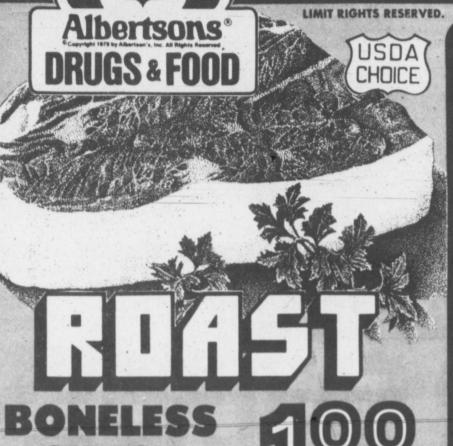

harness and that was back in 1931. "I bought them for \$31 each. Sold one of them in 1940 for \$30, and the other one sold for \$85 in 1976," he

Although he has had no special training, Murphy is proud that he has been able to fix anything that has

been brought to him. "I learned a little from my father and a little from two harness makers from LeRoy. I grew up with it. That's

how I learned.' Covering the walls and work tables of his shop are rolls of leather; brass, nickel and chrome harness trimm-

Four men jailed on charges of conspiring to run guns

PHILADELPHIA (AP) - The consul general to the Dominican Republic, a factory worker and two Miami men have been arrested on charges of conspiring to run guns to Sandinista guerillas in Nicaragua, authorities

Consul General Sandino Grullon was arrested at his home in nearby Cherry Hill, N.J., Tuesday night.

No weapons ever were delivered, but the conspiracy was aimed at delivering \$1,038,000 in weapons and ammunition, including 1,000 M-16 automatic rifles and 300 M-60 machine guns, according to James McClung, special agent in charge of U.S. Customs service here.

The conspiracy "cooled off" about two weeks ago, possibly because one of those arrested was alerted to a subpoena of some telephone records, Assistant U.S. Attorney John Penrose

A five-man junta representing the Sandinista guerrillas was sworn into power Friday in Managua, Nicaragua, following a seven-week offensive against the regime of President Anastasio Somoza in which an estimated 20,000 persons died.

The Dominican Republic minister for cultural affairs, Dr. Dario Suro, attached to the country's embassy in Wahington, eclined comment early

Virgilio Armando Mejie, 52, of Philadelphia, was arested Tesday night at Consolidated Container Co. of Philadelphia where he was a production worker, McClung said.

Grullon and Mejie were charged with conspiracy, violating the Neutrality Act and conspiracy to smuggle

and charged with conspiracy and violating the Neutrality Act were Michael Karasik and Ramon Barrientos, both of Miami.

Karaski was identified as part owner of a Miami Springs, Fla., advertising agency and Barrientos as a flight engineer for Tan Airlines of

Nicaragua.
The investigation by Customs, the Bureau of Alcohol, Tobacco and Firearms and the U.S. Drug Enforcement Agency began in February on the basis of a tip, McClung said.

The Neutrality Act charges stemmed from the alleged gun con-spiracy, McClung said. "In order to transmit weapons of this sort you have to obtain a state department license and no such license was granted," he said.

Police told of burglary

Midland police Tuesday received a report of a burglary at Mr. Muffler, 2324 W. Wall St., officials said.

A white cash register containing \$200 in checks and \$25 in change was taken in the burglary, police said. Entry to the business was ap-

parently gained by breaking a window on a garage door and unlocking it, officials said

A theft of two vending machines from 409 N. Baird St. was reported Tuesday, police said.

The machines, one for chewing gum and one for mints, were taken between July 19 and July 24, police

WEDNESDAY, JULY 25, 1979

Operators report five wildcat sites

tors have announced locations for wildcat projects in Ward, King, Stonewall, Sutton and Crockett counties, and a Midland operator has completed a Connell discovery in Terrell

WARD WILDCAT Gifford, Mitchell & Wisenbaker No. 1 Longtail will be dug as a 6,500-foot wildcat in Ward County, seven miles

south of Pyote. The drillsite, 3/4 mile northwest of the same operator's No. 1 Blue Jacket, is 660 feet from the southeast and 1,980 feet from the southwest lines of

section 73, block 34, H&TC survey. The No. 1 Blue Jacket originally was completed as an Atoka gas discovery to open the Shawnee field. It has been re-entered for tests at 4,924

KING EXPLORER D. D. Strange of Wichita Falls No. 1 Gertrude has been staked as a 3,000foot wildcat in King County, 25 miles southeast of Guthrie. It is 330 feet from northeast and

2,320 feet from northwest lines of section 76, block 13, H&TC survey. The location is 5/8 mile southeast of

a 5,310-foot dry hole and 2,000 feet southeast of the Valley View (Tannehill oil) pool which produces at 2,506

SUTTON TESTER

A 6,000-foot wildcat has been staked 14 miles east of Sonora in Sutton

The prospector is William Perlman of Houston No. 1 McDermott, 1,097 feet from south and 2,132 feet from west lines of section 68, block B, HE&WT survey. Elevation at ground level is 2,239 feet.

The drillsite is one location north of Perlman No. 1 Lea Allison, recently scheduled 6,000-foot wildcat and 2.5 miles southeast of the depleted Headquarters (6,000 Strawn oil) pool.

STONEWAL AREA

International Oil & Gas Corp. of Midland No. 1-194 Zant will be dug as a 5.650-foot wildcat one location south of the Fuzz (Strawn) pool of Stonewall County, five miles west of Aspermont

The Fuzz pool produces at 5,640

Location for the new test is 1,980 feet from north and east lines of

CROCKETT WILDCAT

sity Lands, has been spotted in Crockett County, 14 miles southwest of Ozona.

The drillsite is 1,980 feet from south and 660 feet from west lines of section 9. block 32. University Lands survey. It is one and five-eighths miles southeast of the Howards Creek (Canyon and Clear Fork gas) pool and one mile east of Harrison No. 14-4-32 University Land, an active wildcat now drilling below 2,600 feet.

The location also is two miles southeast of Harrison No. 8-2-32 University Land, recently completed Pennsylvanian gas discovery in the Howards Creek area.

TERRELL STRIKE

Coquina Oil Corp. of Midland No. 1 Sheffield has been completed as a Connell gas discovery in Terrell County, 3.5 miles southeast of Sheffield.

The operator reported a calculated absolute open flow potential of 5,600, 000 cubic feet of gas per day, with a gas-liquid ratio of 13,155-1. The gravity of the liquid is 63 degrees.

Completion was through perforations from 10,080 to 10,094 feet after a 2,000-gallon mud-acid wash. The discovery is two and one-eighth

miles north of the Allison (detrital and Fusselman gas) pool and three and three-eighths miles southeast of the Yucca Butte (Pennsylvanian detrital, Connell and Ellenburger gas)

The Connell was topped at 10,038 feet on ground elevation of 2,575 feet. Other tops include the Pennsylvanian at 8,318 feet, the Devonian, 8,618 feet; Silurian shale, 9,192 feet; Oil Creek shale, 9,900 feet, and the Ellenburger at 10,168 feet.

The total depth is 10,550 feet and 5.5-inch casing is set at 10,352 feet. The plugged back depthis 10,263 feet. Location is 1,340 feet from south and 1,250 feet from east lines of section 14, block B-2, CCSD&RGNG sur-

Rail rates on coal high

By SOLL SUSSMAN

WASHINGTON (AP) - San Antonio Mayor Lila Cockrell told a congressional hearing Tuesday it may be cheaper to buy Australian coal than bear the rail freight costs for the domestic variety. After the city decided in 1973 to convert its electic generating plant from oil and gas to coal, it found the rail shipping costs from Wyoming to San Antonio rose substantially.

Mrs. Cockrell told the Joint Economic Committee the coal freight rate rose 133 percent between 1973 and 1979 in order to subsidize the railroads' less profitable operations.

"Frankly, our crystal ball just didn't show anything like that escalation," she said. "This certainly is not going to be an incentive for other cities and utilities to convert to coal."

The mayor said she recently started negotiating with he Mitsuishi Corp. of Japan to find if shipping Australian coal by water routes might be more economical than the Wyoming to San Antonio rail route.

"It seems ridiculous to me that there is even a remote possibility that we can better serve our citizens by importing coal from halfway around the world than we can by using our own resources," she said

House making another try on standby rationing

By TOM RAUM

WASHINGTON (AP) - With raised energy consciousness, the House is making another try at giving the president standby gas rationing authority. This time leaders are confidently predicting approval.

After rejecting the first plan 246 to 159 on May 10, the House today was considering a recycled and expanded version that has become a major piece of President Carter's energy program.

A changed mood in Congress toward energy issues - prompted by the summer's gas lines and given further impetus by Carter's new energy initiatives - is expected to provide the votes needed to overturn the May action.

The House Rules Committee, which picks the bills that will see floor action, approved the measure by voice vote Tuesday, opening the way for its consideration by the full 435-member House.

ANDREWS COUNTY
Gulf No. 2-FW State, td 12,500 feet, pumped trace of oil and 298 barrels of water in 24 hours through perforations from 5375 to 5384 feet.

The legislation may be the only part of Carter's plan with any chance of getting to the president's desk before the congressional August recess,

which begins Aug. 3.
On Tuesday, Senate leaders told Carter that final action on his "windfall profits" tax won't come until the fall. And other parts of the plan now

moving through Congress also seem trimmed. "It was put in only to get unlikely to be enacted until after the month-long recess.

The bill before the House would get the president to invoke rationing if oil or gasoline supplies fell by 20 percent over a 30-day period — or if such a shortage seemed likely. Once invoked, Congress would have 15 days during which either chamber could block the plan.

However, White House lobbyists are unhappy with the 20 percent "trigger" and are encouraging amendments to eliminate or reduce this provision.

House Speaker Thomas P. O'Neill predicts the House will approve the rationing bill and says there's a good chance the 20 percent trigger will be the bill out of committee," he recently confided to several reporters.

However, sponsors of the bill say they may try to keep the 20 percent requirement to ensure that rationingis used only in an emergency of the magnitude of another Arab oil em-

The legislation would also enable the president to impose lesser measures - including requiring states to meet federally mandated fuel-conservation goals - for shortages not severe enough to warrant rationing.

"Intermediate conservation steps are needed," said Rep. Toby Moffett, D-Conn., a prime sponsor of the over-all bill. "The gas lines can come back

Bundy convicted by Florida jury

MIAMI (AP) — Theodore Bundy, a quiet law student who never forgot Mother's Day, waved at the courtroom crowd after a clerk read the verdict - guilty of murdering two women and trying to kill three others at Florida State University

Bundy's mother slumped backward and his lawyer paled at the verdicts late Tuesday, but Bundy waved and smiled, and later told a friend he was simply perplexed.

Prosecutors promised to ask for the death penalty. The same 12-member jury that convicted the 32-year-old Tacoma, Wash., resident will remain sequestered to hear arguments on sentencing Saturday and Monday. A simple majority vote is needed to recommend life or death. Judge Edward D. Cowart can overrule the

The jury deliberated six hours to end the 41/2-week trial that saw Bundy often act as his own attorney and argue bitterly with his lawyers. One attorney quit the case after the defense presentation was under way. Another tried to walk out.

Bundy was found guilty of first-degree murder in the deaths of Lisa Levy, 20, and Margaret Bowman, 21, both of St. Petersburg, Fla.

They were beaten with a crude oak club as they slept in the Chi Omega sorority house at Florida State University in Tallahassee, Fla., on Jan. 15, 1978. Both were garroted with

Bundy also was convicted of attempting to murder Kathy Kleiner DeShields, 20, of Boca Raton, Fla., and Karen Chandler, 21, of Marietta, Ga., both Chi Omega members, and Cheryl Thomas, 22, a student from Richmond, Va., who was attacked in her apartment.

In addition, Bundy was found guilty of two counts of burglary.

State prosecutors argued that Bundy's crooked teeth left a crude wound on Miss Levy's body, eyewitness Nita Neary said she saw Bundy leave the sorority house and hair similar to Bundy's was found in a pantyhose mask in Miss Thomas' duThe defense argued the case was built on shoddy police work and shaky dental evidence.

Bundy's 54-year-old mother, Louise, fell against the back of her courtroom seat as the verdicts were pronounced. She has called Bundy 'the kind of son who never forgets Mother's Day."

"I can't believe it," she said. "This isn't the end. There will be appeal upon appeal ... I know and the family knows that he isn't guilty and that he didn't do those terrible things."

She sobbed as she walked down the hallway and out of the courthouse.

Said prosecutor Larry Simpson: "It was a common-sense jury and they used their common sense. We certainly will ask for the death penal-

Bundy's long-time friend and supporter, Carole Ann Boone of Seattle. said Bundy called her from jail after

"More than anything he was perplexed," she said. "He was really baffled at the short amount of time the jury was out and the evidence they chose to review."

The jury asked once to see sketches made by an artist who interviewed Miss Neary, then for clarification of testimony about the hair found in the pantyhose mask.

In telephone interviews on the eve of the verdict, Bundy predicted a hung jury but said he anticipated a death sentence if convicted. "He doesn't expect to die," Ms. Boone said

Bundy also faces trials on charges of murdering 12-year-old Kimberly Leach of Lake City, Fla., and Dearborn, Mich., nurse Caryn Campbell, 23, in Aspen, Colo., in 1975. He has been convicted of kidnapping in Utah, where he was arrested in 1975 while attending law school.

After Bundy escaped from a Colorado jail in 1977, the FBI described him as wanted for questioning in 36 sexrelated slayings.

Except for the Utah, Colorado and Florida indictments, however, Bundy was never charged.

Theodore Bundy, center, listens without ex- trial in Miami late Tuesday night. They re- including two counts of first degree murder. pression as the verdict is read in his murder

turned a guilty verdict on all seven counts, (AP Laserphoto)

There's a darker side to this All-American boy

MIAMI (AP) - With his sharply cut features, strong build, and wavy brown hair, Theodore Bundy looks like the All-American boy. He has the credentials, too: Republican Party activist, social worker,

college honors graduate, crime commission researcher, law student. Once, he was even honored for catching a purse thief. But there is another, darker side: "He's a psychotic killer," a Utah

sheriff's captain has said. "He's the most vicious killer in history." His conviction Tuesday in the 1978 murders of two University students in Taliahassee and savage attacks of marked the second in a string of trials for the 32-year-old from Tacoma,

He had been convicted of kidnapping a 23-year-old woman in Utah and had escaped from a Colorado jail while awaiting trial on charges of killing a young nurse. He has been charged with the rape and murder of a 12-year-old girl in Florida. And the FBI once said he was wanted for questioning in 36 sex-related murders.

Bundy once admitted fearing that he might spend the rest of his life fighting a reputation he says has made him a "convenient" target. He is already one of America's best-known criminals. But his looks

and background contrast with the gruesome murders. He intrigues many. The 100-seat Miami courtroom was filled during his 41/2-week trial. Many of the seats were taken by young women.

"He has a look in his eyes, an angry look, an insane look. Those girls at Florida State were just sleeping there ...," said Vivian Casadement, a teacher in her mid-20s.

Bundy was born Theodore Robert Cowell in a home for unwed mothers in Burlington, Vt., on Nov. 24, 1946. As a child, he moved with his mother, Louise, to Tacoma, where she married John Bundy in 1951. He entered the University of Puget Sound in 1965, transferred to the

University of Washington the next year and later studied Chinese at After quitting college, he worked at odd jobs. In April 1968, he worked

for a Republican candidate for lieutenant governor in Washington and was Seattle chairman of the New Majority for Rockefeller. He also worked on the re-election campaign of former Washingon Gov. Dan Evans, who once praised Bundy for catching a purse thief on a

Seattle street. In 1968, he attended the GOP convention in Miami as an alternate delegate.

Four years later, he graduated from the University of Washington with an A-minus average, then helped design a county program for dealing with habitual criminals.

In September 1973, he enrolled at the Puget Sound Law School in Tacoma but dropped out two weeks before final exams. He enrolled at the University of Utah Law School after moving to Salt Lake City in Aug. 1974. It was there that he was convicted of kidnapping Carol DaRonch.

Louise Bundy's belief in her son's innocence unshaken

MIAMI (AP) - Louise Bundy watched with pride as the child she gave birth to in a Vermont home for unwed mothers grew into a handsome, hard-working and ambitious

He was "a good baby," and later a good son, "the kind who never forgot Mother's Day," Mrs. Bundy said.

When Theodore R. Bundy was accused of a 1974 kidnapping in Utah, her reaction was quick. No, she said, Ted would never do anything like

that. She steadfastly defended him as more charges came - charges that accused him of murdering four young women and a preteen girl in three

separate incidents. When a Miami jury found her son guilty Tuesday night of the brutal murders of two Florida State University coeds and attempted murders of three others, her belief in Theodore Bundy remained unshaken.

"I just can't believe the jury," said the small, gray-haired Mrs. Bundy,

tears misting her eyes.
"They didn't get enough time to deliberate. Plus they even asked questions and took time out to eat dinner.... I can't understand it."

She was reminded that Florida recently resumed execution of convicted murderers with the May 25 electrocution of John A. Spenkelink. Spenkelink was 30. Bundy, 32, could be sentenced to death.

"I don't even want to think about it. I know it's possible," she said.

But she admitted she had already

thought about it, a lot. "I think Florida is a terrible state," said Mrs. Bundy, 54, a mother of five in Tacoma, Wash., who does secretarial work at the University of Puget Sound.

She winced, fighting back tears as she left the courtroom, but squared her shoulders and refused to let her anguish show as she walked to the end of the hallway to confront reporters and television lights.

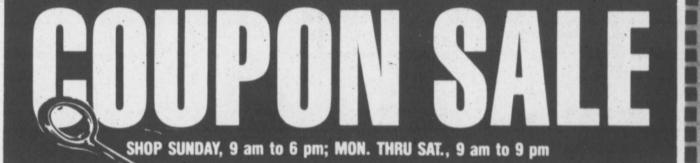

"Needless to say, I think the jury is very wrong. They didn't deliberate long enough." she said firmly in a high-pitched voice.

"This isn't It. We're by no means 3 finished. There'll be appeal upon ap- 22

"The family is devastated.... But we will stick by him because we know he is innocent.

She smiled bravely into the cameras. A young man gently took her arm and escorted her down the unmoving courthouse escalator.

As she reached the bottom, she broke into wracking, gasping sobs.

Stock market gains

NEW YORK (AP) - The stock market posted a moderate gain today in spite of concern over weakness in the dollar and rising interest rates. Trading was moderately active.

Gold prices rose to above \$306 an ounce in London today and the dollar remained on the defensive in

foreign-exchange markets. Analysts noted some disappointment over that trend, which came despite an increase in the Federal Reserve's discount rate late last week to a record 10 percent. Along with that increase in the charge the Fed sets on loans to its member commercial banks, openmarket money rates have been rising again of late.

"Everything but the proverbial kitchen sink is beng thrownat the market these days, and while stock prices are bending they ae not breaking," obseved Newto Zinder at E.F. Hutton & Co. The Dow Jones average of

30 industrials rose 4.27 to Advances outnumbered declines by a 4-3 spread on

the New York Stock Exchange. Big Board volume came to 29.69 million shares against 26.86 million in the previous

BUSINESS MIRROR Conspicuous waste of energy rapidly disappearing today

By JOHN CUNNIFF **AP Business Analyst**

NEW YORK (AP) - As energy prices rise and people become conscious of the potential depletion of natural resources, conspicuous consumption has been given an ignominious bum's rush.

It will be resurrected some day, but probably never again in the style of the past 30 years, when automobiles, for example, were rated on their useless horsepower and their parlor-like interiors.

It came to an embarrassing end. It was like the uncle who dressed like a banker but who never did a lick of work in his life, and who was eventually thrown out of the house. It was designed to impress rather than to perform. It was pride, snobbery,

It ingratiated itself into our houses, too. Over the past 20 years, they grew larger and more elaborate, with extra bedrooms, a family room that might never be used, an extra half bath, a heated garage and a pool.

Any real estate agent will tell you that many such houses were sold on the basis of appearance rather than structural quality, ease of living, or suitability. To afford such lavishness meant you had arrived.

Conspicuous consumpton is always associated with such an abundance of something or other that it leaves the owner puzzled about demonstrating it. A bank account shows little; a big house shows a lot. It was in part the motivation behind the scraggy miner who hit it big and built a castle on the biggest hill in town. Or the mill owner. Or the person who

could afford to buy into an overpriced subdivision. But now, the real estate people say, the size of houses is likely to shrink. So important have operat-

ing costs become, they contend, that even the conspicuously rich may have to reconsider.

The extra rooms are being closed off. The heat to the garage is being shut off. And some people with extremely conspicuous manses are selling them to institutions and moving to pieds-a-terre in town. The changes already are observed by the analysts.

Advance Mortgage Corp. commented this week that henceforth "luxury will be conveyed less by footage and more by quality of finish and amenities." It and other real estate concerns report a return to considerations of location: nearness to work, stores, schools, churches, transportation. Remoteness, once a symbol of those who could spend big, is out. No

longer may it be smart to leave the environment in which one earns a daily living. The new criterion, says Advance Mortgage, "will be nearness to em-ployment centers and to good public transportation Soon, of course, conspicuous consumption will return, thanks to the need of buyers to show they are

better off than you, and thanks also to American marketing enterprise, which will provide them with In the meantime, many Americans may begin to

treasure their homes for their essential virtues rather than as symbols of affluence. It happened with the car: Buyers learned that less could offer them more. Already in some communities the sticker prices of

small, efficient cars are the prices at which you begin to negotiate. Final prices can be a couple of hundred dollars higher. Demand supports the premiums.

And you can already observe in the real estate advertisements that the selling terminology of houses is changing. Conspicuous by its presence in a recent ad was the phrase "triply insultated."

Which suggests that there is probably more than one way to waste.

Secretary Brown dotes on spotlight

By DONALD M. ROTHBERG

WASHINGTON (AP) - Defense Secretary Harold Brown doesn't like to share the spotlight. That has become painfully clear at the televised hearings the Senate Foreign Relations Committee is holding on the SALT II treaty.

Brown didn't mind sharing the witness table with his Cabinet colleague, Secretary of State Cyrus Vance. And he doesn't object to having a couple of Pentagon aides sitting at his side. But he draws the line at people like CIA Director

Stansfield Turner; Gen. George Seignious, head of the Arms Control and Disarmament Agency; and Lt. Gen. Eugene F. Tighe, head of the Defense Intelli-At one committee session last week, Brown ar-

rived to find places set up at the witness table for

himself; William J. Perry, head of research and

development at the Pentagon; Seignious; and Brown told Seignious and Tighe to sit elsewhere. They moved to seats reserved for aides to the witnesses. As a result neither man got to give his prepared testmony and heir appearanes were esche-

There may have been a little more involved when the committee scheduled Brown and Turner for a joint appearance at a closed session on whether or not the United States could detect Soviet cheating.

Brown refused to testify with Turner and the CIA director ended up cooling his heels and finally "I was scrubbed," he told reporters.

In this case, it's known that Brown and Turner have given sharply different views - to the annoyance of the defense secretary - on how long it will take the United States to recover the monitoring capability of bases lost in the governmental upheav-

MATTERS WERE GETTING a little out of hand on the Senate floor during the debate on whether to continue construction of the Hart Senate Office Building, which may end up costing \$200 million or

Sen. John Chafee of Rhode Island was leading the

fight to halt construction. Chafee said the building was the Senate's way of saying to the American people: "You save. You fight inflation, but not us. We need more staff. We need

bigger offices. We need rooftop restaurants. We need paneled offices." Finally, Senate Majority Leader Robert C. Byrd, D-W.Va., stepped in to try to calm the situation.

But Byrd seemed to be having troubles of his own.

He referred to Chafee as "the senator from Connecticut." He did it once and then he did it again. "Rhode Island," said Chafee. "That is the first, mistake the senator has made today." "That is the second time I have made the same

mistake," said Byrd. THE STRAIGHT LINE TO
