# At least 10 die in motel fire

CAMBRIDGE, Ohio (AP) — Fire swept through a crowded two-story Holiday Inn in this eastern Ohio city today, killing at least 10 persons, authorities said. Others escaped by smashing windows and leaping to the ground.

Six adults and four children died in the pre-dawn blaze, including one man who apparently had a heart attack while trying to escape, the authorities said.

Guernsey Memorial Hospital officials said 61 persons were treated for injuries and 11 were hospitalized with cuts and broken bones.

A baby was found safe in the arms of his unconscious mother, lying in a pool of blood.

In Columbus, Gov. James A. Rhodes this morning called the fire. "a tragedy for our state."

Trapped guests were seen banging on widows and screaming after the fire broke out about 3 a.m.

One youth picked up an iron bar and began smashing windows. Passersby found an old scaffold and rescued others.

Only four of the motel's 104 rooms were unoccupied, but the exact number of guests in the motels was not immediately known.

Most of the dead were found in hallways of the 10-year-old brick and wood structure. Fire officials said the blaze apparently started somewhere in the rear of the building.

The building was badly damaged but not destroyed.

Brown Clary, 18, and Rodman Blazvick, 18, were in the motel's lounge playing pinball when Blazvick smelled smoke.

"He told me the hotel was on fire," Clary said. "I thought he was joking.

But when Clary looked down a hallway, he saw smoke drifting along the lights and "an orange glow" in the ceiling.

The two young men sounded a fire alarm. They ran back into the lounge

Outside, the two came upon a young woman sprawled in a pool of blood on the ground and clutching a baby. The woman had apparently jumped from her second-floor window.

"The baby was lying in his mother's arms," Clary said. "The baby was all right. Rodman kept direct/pressure and kept her from bleeding to death.

"There was blood all around her." Blazvick said. He said he recalled his Boy Scout training and applied pressure to stop the bleeding.

"Somebody took the baby and we hollered for an ambulance," he said.

The baby's grandmother, also unconscious, was brought from the room by firemen. "Her face was all black and she wasn't breathing," Blazvick said. It was not immediately known whether the grandmother was dead.

The assistant manager of the motel, Mike Dawson, said firefighters were searching for additional bodies but thought all persons were out after the fire was brought under control at 6 a.m. An earlier report from police that 20 persons were killed was erroneous.

Other hotel fires listed

**By**//The Associated Press

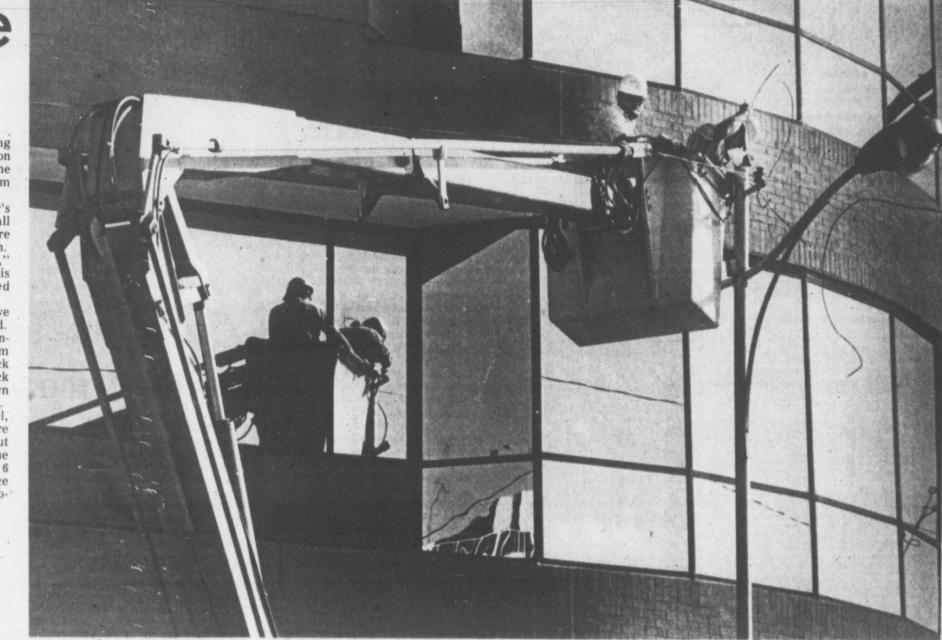

In connection with today's Holiday Inn fire in Cambridge, Ohio, that killed 10 persons, here is a list of some other major hotel fires:

World's worst hotel fire: Seoul South Korea, Dec.25, 1971, 162 dead. World's second worst; United

States' worst: Winecoff Hotel, Atlanta, Dec. 7, 1946, 119 dead. Other hotel fires:

# Attorney says company's reserve unusually large

AUSTIN (AP) - Texas Electric 'Service Co. is trying to charge its customers for an unusually large excess generating capacity, a state Public Utility Commission lawyer suggested Monday.

Allen King questioned why the Fort Worth-based company needs the capacity to generate 50 percent more electricity than its customers require at peak hours of a summer day.

At the first day of commission hearings on TESCO's \$88 million requested rate hike, King cited other companies' backup power supply. said.

Andrews traffic accident

kills Hobbs woman, hurts one

TESCO's customers in 48 counties eventually pay for a utility's reserve capacity, the lawyer said.

ANDREWS - A Hobbs, N.M.,

extra capacity the company should maintain but indicated customers might be paying too much for the 50 percent reserve.

King did not suggest how much

The commission staff has recommended a \$27.5 million hike. Residential customer bills would increase by an average of \$5 monthly if the company figure is approved. The hearing is expected to last seven to eight days.

**Opponents of TESCO's rate request** include Fort Worth, Burkburnett and Hurst; the county commissioners of Midland and Tarrant counties; the Texas Municipal League and the Association of Community, Organizations for Reform Now (ACORN).

King also questioned Taylor about the company's request to maintain a 2 million-barrel fuel oil inventory for backup.

The utility commission approved only 1 million barrels in fuel oil reserves during TESCO's rate case last October. The company was granted a \$40.4 million hike, but had asked for \$110 million.

King said the commission staff thinks TESCO should be allowed to charge customers the cost of maintaining only a 1 million-barrel reserve. He said this would amount to a \$1.3 million savings to customers.

**TESCO President Bill Marguardt** said the company needs a larger fuel oil inventory for several reasons. He said the federal government could divert natural gas supplies to the Northeast this winter.

The company would need the fuel oil, especially if freezing weather prevents mining of lignite in East Texas as happened this year, Marquardt told reporters.

# More thunderstorms may hit Permian Basin area tonight

#### By BILL MODISETT Staff Writer

Late afternoon thunderstorms pelted the Permian Basin area Monday and the weatherman said more of the same could occur tonight and Wednesday.

Although an official .32 inch of rain was recorded at the National Weather Service office at Midland Regional Airport late Monday, rain throughout the city and the area was spotty.

High wind damaged two Texas Electric Service Co. poles on Mid-land's north side late Monday, leaving 1,157 residents without electric service for about 40 minutes.

According to Shug Bowlin, staff assistant and media coordinator for TESCO, the two poles were blown over by high winds about 5:25 p.m. Monday, causing a brief power outage at Ranchland Hills, Midland Country Club, Hogan Golf Course and Parkview Hospital.

There was no major damage, Bowlin said, and service was restored within about 40 to 45 minutes.

About the same time, a major rain shower was reported 10 miles east of Midland. According to the weather service, that rainstorm dropped 1.3 inches about 6:24 p.m.

Several points in Midland reported receiving showers late Monday afternoon, but amounts of rainfall were light

# Answer Line

I am concerned with the weeds and trash which have accumulated on vacant lots throughout the city, particularly one located at West Wall and B streets.-Mrs. G.S.

ANSWER: You are not alone in your query, because a City of Midland Inspection Department' spokesman says the department is working as hard and rapidly as possible in taking care of some 100 similar reports.

Complaints should be made to the Inspections<sup>®</sup> Department, 683-4281. Acity inspector then takes a look at the lot, and if he discovers the lot to be in violation of city ordinances, the lot owner is given notice to clean his property. The city of Midland is re-, ponsible for care of lots owned by the city

If the property owner does not comply, the city can move in and assess mowing costs to the owner.

The trouble in some situations, the department says, is that many owners do not live in Midland and are difficult to contact.

In order to speed up the lot-cleaning process, the department hopes to have additional manpower in the neap future.

Sometime this summer there was a recipe for Chocolate Chip Cookies in the Mini-Page of The Reporter-Telegram. The cookies were delicious and I want to make them again, but have lost the recipe. Can you find it for me?-Mrs. Lloyd Peek

ANSWER: The recipe you refer to appeared in the Mini-Page of June 10. The recipe is as follows:

Ingredients: 1 package yellow cake mix(two-layer\_size), 2 eggs, 1/2 cup vegetable oil, 2 tablespoons water, 1 package(6 ounce) semisweet chocolate chips.

Procedure: Mix cake mix, eggs, oil and water until all are moist. Stir in chocolate chips. Drop by the teaspoonful onto a greased cookie sheet(about 2 inches apart). Bake at 350 degrees for 10 to 12 minutes; cool. Don't expect these to brown.

What are the requirements for obtaining a hardship driver license?-CS

ANSWER: The procedure for obtaining such a license, which is issued to drivers under 18 years of age who' have not had a Driver's Education Course, are outlined by the Driver License Division of the Texas Department of Public Safety.

A driver can apply for such a license when he is at least 15 years of age. He must obtain an application form from the department and fill it out with his parents. The next step is for the applicant and his parents to return to the department, meet with an officer, go over the application and discuss the need, such as driving to and from work or school.

The officer also will discuss the restrictions involved in such a license. Next, the applicant must take a

written test and driving test.

A hardship license can be used until the driver reaches 13.

# Accident kills

CRANE - A 27-year-old Andrews man was killed about 11: 30 a.m. Monday in an industrial accident at an oil production plant near here.

Jose Montoya of Andrews was working in an Atlantic-Richfield production plant about 10 miles northwest of Crane, according to reports. Montoya was holding on to a piece of pipe carried by a fork lift when the pipe apparently came in contact with a high voltage wire, according to a Crane County Sheriff's Department spokesman today."

An ambulance transported Montaya to a Crane hospital, where he was pronounced dead on arrival by Peace Justice Mary Teague.

#### THE MIDLAND REPORTER-TELEGRAM, TUES., JULY 31, 1979

# Judge rules state has no jurisdiction

CARLSBAD, N.M. - District Judge John B. Walker ruled Monday morning in favor of the four men - three of them Odessans - who allegedly held a federal employee hostage in Carlsbad Caverns July 10.

Judge Walker released the men from state felony charges.

A writ of habeas corpus filed last week in the Fifth Judicial District Court in Eddy County, N.M., had questioned the state's jurisdiction in matters occurring on federally-owned property.

Walker ruled that the state of New Mexico had no jurisdiction in the July 10 incident.

The judge's action put an end to three weeks of indecision over jurisdiction in the case, which had been tossed between state and federal officials.

The four men, originally charged with federal misdemeanors, are Dennis James Mark, 39, of Riesel, and Eugene Hiram Meroney, 31, William Charles Lovejoy, 28, and David W. Kuczynski, 28, all of Odessa.

Eddy County Sheriff's Department currently is holding the four men in custody for the U.S. Marshal in Albu-querque, N.M., where they are to be arraigned later this week.

They are charged with damage to government property — a federal misdemeanor punishable by one year imprisonment and/or by \$1,000 in ney R.E. Thompson in Albuquerque, N.M. fines upon conviction, said U.S. Attor-

The charge is in reference to shots fired into the Caverns' elevators, an Eddy County Sheriff's department spokesman said.

At the men's initial arraignment, District Judge Harvey W. Fort of Carlsbad refused to accept misdemeanor charges. Subsequently, the Eddy County District Attorney's Office filed state feloay charges of kidnapping and aggravated assault against the foursome

The foursome was to have faced a preliminary hearing on the state felony charges today in Carlsbad, but that hearing was canceled after state charges were dropped as a result of the Monday hearing.

# Senate moves swiftly toward Cabinet confirmation votes

WASHINGTON (AP) - The Senate, moving rapidly to confirm appointments to President Carter's revamped Cabinet, neared a vote today on the nomination of Charles W. Duncan as energy secretary.

Duncan won unanimous approval Monday from the Senate Energy Committee after the 52-year-old former Coca-Cola president, now deputy defense secretary, assured senators he had been promised direct access to the president.

"I have a clear understanding that I will report directly to the president," said Duncan in an effort to assure senators that he, not the White House staff, will deal with policy.

Duncan also promised to cooperate with Congress to create "the broadest possible national consensus" on energy matters.

Meanwhile, Carter's nomination of Benjamin Civiletti as attorney general was likely to be approved by the Senate Judiciary Committee and sent held three days of hearings on the nomination last week. Carter's choice to head the Federal

to the full chamber today. The panel

Reserve Board, Paul A. Volcker, appeared Monday before the Senate Banking Committee. Volcker's widely acclaimed appointment differs from the six Cabinet nominations in that the board is answerable only to Congress.

"I want to be clear that the monetary policies ultimately are those of the federal reserve and they might clash at some point...with what the administration (believes) are appropriate in particular circumstances," Volcker told the panel.

Only two nominees, both announced Friday, have yet to go before Senate committees. Still to appear are former New Orleans Mayor Moon Landrieu, named secretary of housing and urban development, and Portland, Ore., Mayor Neil Goldschmidt, appointed secretary of transporta-

# Thunderstorm causes outage but little other area damage

#### (Continued from Page 1A)

er and Midland College reported receiving a trace of rainfall.

Around the Midland area, Midkiff, 37 miles southeast of Midland, received a trace of rain. Greenwood, 10 miles east of Midland, reported receiving .3 inch.

Elsewhere in the Permian Basin area, Andrews, Big Spring, Garden City and Odessa all reported light rainfall Monday afternoon, while Lamesa, Stanton, Rankin and Crane reported no rain at all.

In most of the Basin, skies were cloudy again this morning. And the weatherman was predicting a contin-

ued chance for showers again today, tonight and Wednesday.

A 30 percent chance for rain chance exists for tonight. A 20 percent chance for more thunderstorms will exist on Wednesday.

Otherwise, it should continue to be warm with Wednesday's high expected to be in the low 90s. The low temperature tonight should drop into the upper 60s.

Winds tonight should be out of the southeast at five to 10 mph.

Monday's high temperature reached 99 degrees, far short of the record 106-degree scorcher on that date in 1987. The overnight low was 71 degrees - cool, but still short of the record low 60 degrees set in 1971.

Firemen arrived to find a shed connected to the west end of the house in flames.

The shed and its contents were destroyed by the fire, according to reports, and the house, owned by the Rotary Club, received heavy damage on the west end.

Cause of the blaze had not been determined today, reports indicated. The shed contained materials used by Boy Scout Troops 96 and 280.

A 1969 Plymouth with New Mexico license plates was destroyed by flames after lightning struck utility lines on West U.S. Highway 80, causing the lines to fall on the car. The incident, which occurred near

the Coors Building, happened about 6 p.m. as a thunderstorm moved through the Midland area. Lightning struck a phase-down, or

the three top wires on the line, a spokesman for Texas Electric Service Co. said today.

Owner of the car had not been determined today.

# Second Odessa official resigns

ODESSA - The city of Odessa has lost its second top official in less than a week. Bryan Henderson, director of pub-

lic works and city engineer, Monday submitted his resignation effective today to City Manager Kerry Sweatt.

Last Thursday, Assistant Police Chief Tommy Callendar was asked to resign over an unrelated matter.

City officials would not comment on whether Henderson's resignation was requested, but acknowledged the 14year city employee has had "differences of opinion" with members of the City Council in the past.

Henderson's letter of resignation # said he was resigning "in the interests of a better community."

Henderson's duties included overseeing a number of capital improvement projects including construction of a new fire station and a overhead storage tank, traffic signalization project and street overlay work. Henderson joined the city staff in August 1965. He was named city engineer in October 1968 and director of public works in January 1971.

#### Death ruling returned

MONAHANS - A Monahans peace justice has ruled that the death of a man found hanging in his jail cell July 23 was self-inflicted. Peace Justice Ed Hammond ren-

dered the ruling in the death of Wesley Chamberlain. The official autopsy report showed that Chamberlain died from suffocation and strangulation.

He was being held in Ward County Jail on bonds totalling \$115,000 on five felony charges at the time of his death.

.

of Jacksonville, Fla., said before the rescue that authorities believed the man only meant to steal the car, and did not plan to abduct the girl.

The Thompsons returned to Daytona Beach several hours after Caroline was found and were whisked by police to the Holiday Inn where the incident began Saturday - hoping finaly to begin their vacation.

The parents hd remained at the hotel in Daytona Beach until word came that their daughter was safe. At a motel news conference on their

return, Mrs. Thompson said she was

thankful that the abductor took care Visitor to LBJ

## Library honored

AUSTIN, Texas (AP) - Janet Lee Hay of Jamestown, Pa., got a surprise Monday morning when she walked inside the Lyndon B. Johnson President Library.

She was warmly greeted by Lady Bird Johnson and presented with several gifts in a brief ceremony.

er, who was on her first trip to Texas, that she was the 5 millionth visitor to the library since it opened in May 1971.

dent Johnson and an autographed copy of Mrs. Johnson's book on life in the White House.

The gifts included a bust of Presi-

which was taken from a Florida motel parking lot Saturday with their daughter, Caroline, in the back seat. It was a tip from the Howells that alerted authorities, who Monday re-

James Keith Tucker, 18, of High Mrs. Johnson told the school teach-Point, N.C., was arrested and

charged with kidnapping and car theft. The Howells said Monday night they had noticed a quiet little girl who looked as if she had been crying sit-

ting in the back of the car. "The windows were rolled up and it was terribly hot," Howell recalled. "My

express our appreciation for everything you did to let it be known how we were looking for her and how much we needed her back." she said.

# 'Car buff' spotted station wagon in motel parking lot

wife waved at her but she didn't wave back and turned her head away."

Howell, on a vacation from his Goldsboro, N.C., Western Auto store, said the driver of the station wagon balked when he was asked at the motel to give his address. He said the man asked for two rooms, one for hiself and one for his sister.

"He led the little girl away and when they started across the parking lot she didn't look happy. She was dragging her feet," Howell said.

The Howells couldn't put their finger on what made the incident unusual

"It just didn't add up," Howell said. But when he saw the man's face on television the following evening, "I slipped my shoes on and ran down to the desk," he said.

On his way, Howell saw the silver station wagon pull away from the motel. "I told the desk clerk and he ran out and got the license number," Howell said.

Less than an hour later, Tucker was in custody.

# Jury selection resumed in second Cullen Davis murder-for-hire trial

FORT WORTH, Texas (AP) -Overcoming what some thought were long odds, attorneys resume jury selection today in the murder-for-hire trial of industrialist Cullen Davis.

"We said all along we could get 12 fair and impartial jurors in Cullen's home town" said Steve Sumner, a Dallas defense lawyer.

"So, no," he told a reporter, "I'm not totally surprised about what we've seen so far.'

Sumner referred to the fact that only 30 of 80 prospective jurors said Monday they have formed an opinion as to the millionaire defendant's guilt or innocence.

"I thought we'd lose 50 percent at least," admitted State District Judge Gordon Gray, alluding to the enormous publicity surrounding the Davis legal drama.

Prosecutors said publicly and members of the five-man defense team said privately they doubted a jury could be found in Fort Worth to hear the case.

Those fears, it seemed now, were unfounded.

Davis, 45, the darkly handsome czar of a billion-dollar family business empire, is accused of masterminding a plot to kill his one-time divorce judge.

The judge, Joe Eidson, 61, learned of the purported scheme from the FBI and participated in a super-secret scenerio that led to Davis' arrest last August.

The defense contends Davis was framed by his ex-wife, Priscilla, a missing defense witness, Pat Burleson, and FBI informant David McCrory.

The defense requested a new delay Monday, maintaining attempts to locate Burleson, a karate instructor, had been fruitless. His last known whereabouts was Los Angeles.

A district attorney's investigator, Rod Henson, told the court Burleson had contacted him and indicated he was not avoiding a subpoena. Gray overruled the motion for continuance and in short order summoned two prospective juror panels of 40 members each.

All said they had read or heard of the case, but surprisingly so, 50 maintained they had not-formed an opinion that would influence their verdict.

Once 32 potential jurors are "qualified " by both state and defense attorneys, each side witll "strike" 10 and the remaining 12 will compose the jury

A Houston jury last January failed to reach a verdict in the case, dead-99

locking 8-4 for conviction. After the mistrial, the case was returned to Fort Worth.

"It's a good sign," Davis said Monday, "after so relatively few prospects were dismissed for opinion.

He said he was not necessarily glad the trial was under way, but added: "I'm glad the beginning of the end is starting. If I never went to trial it would be all right but as long as it's staring me in the face, I'd like to get it over with."

# DEATHS Willie Calvert

DS. 682-6222

Beach,

ir child,

oto)

SAN ANGELO - Services for Willie Ray "Red" Calvert, 38, of San Angelo and formerly of Midland, will be at 2 p.m. Wednesday in the Robert Massie Riverside Chapel with burial in Fairmount Cemetery

Calvert died Saturday in a San Angelo hospital as a result of injuries received in an accident seven years

He was born April 12, 1941, in Littlefield. He was married to Mary Elizabeth Calvert May 12, 1965. After living in Midland 10 years, he moved to Odessa in 1970 and to San Angelo three years later. He was a driver for Britt Trucking Co.

Survivors include his wife; a son, Johnny Dewayne Calvert of San Angelo; a daughter, Demonica Kay Calvert of Monroe, La.; a sister, Wanda Sherfield of New Mexico, and four brothers, C.C. Calvert of Big Spring and A.C. Calvert, A.D. Calvert and C.M. Calvert, all of Oklahoma.

Pallbearers will be Tim Petree, Eddie Trice and Billy Sisson, all of Midland, and Tommy Phigpen, Jackie Jennings and John Mackey, all of San Angelo.

## **Alta Rodgers**

ANSON - Services for Mrs. George D. (Alta) Rodgers, 81, of Odessa, mother of Lois Lee of Midland, were held Saturday in the Neinda Baptist Church in the Neinda community west of Anson in Jones County. Officiating was the Rev. James Abernathy, pastor of Crescent Park Baptist Church in Odessa.

Burial was in Neinda Cemetery directed by Lawrence Funeral Home of Anson.

Mrs. Rodgers died Thursday in an Odessa nursing home.

She was born July 4, 1898, at Center Ridge, Ark., and moved with her parents to Gorman at age 12. She was married to George D. Rodgers July 5, 1914, in Gorman.

In 1921, Mr. and Mrs. Rodgers moved to Neinda, where they farmed until Rogers retired in 1956. They moved to Anson in 1956 and to Odessa in 1971.

Rodgers died Sept. 20, 1972, in Odessa

Mrs. Rodgers was a member of the Neinda Baptist Church.

Other survivors include a son, J.D. Rodgers of Rogers, Ark.; four daughters, Mrs. J. Frank Tollison of Anson, Mrs. Forrest Wilemon of Oakhurst, Calif., Mrs. Tony Pribyl of Victoria and Mrs. W.R. Lee of Odessa, 12 grandchildren and 16 great-grandchildren.

## Jose Montoya

ANDREWS - Services for Jose Montoya of Andrews are pending with Singleton Funeral Home. Montoya died Monday.

## Maria Sanchez

OZONA - Services for Maria R. Sanchez, 81, of Ozona were to be at 5 p.m. today in Our Lady of Perpetual, Help Catholic Church. Burial was to be in Lima Cemetery directed by Larry D. Sheppard Funeral Home of Ozona

Mrs. Sanchez died Monday in a Crockett County hospital following a lengthy illness.

She was born April 9, 1898, in Mexico. She was married to Paulina Sanchez in November 1925 in Ozona. She was a Catholic

Survivors include three daughters, Eloise Ramos, Alice Iay and Helen Perez, all of Ozona; a son, Jessie Sanchez of Ozona; two brothers Jesus Reyes and Jose Reyes, both of Mexico, 20 grandchildren and seven greatgrandchildren.

## 'Bill' Hogsett Jr.

William E. "Bill" Hogsett Jr., 65, 2929 W. Kansas Ave., died Sunday morning at his home following a lengthy illness.

Graveside services were to be at 10 a.m. today in Resthaven Memorial Park with Dr. Ray Riddle, minister of First Presbyterian Church, officiating. Arrangements were handled by Newnie W. Ellis Funeral Home.

Hogsett was born Jan. 11, 1914, in Sulphur Springs and came to Midland in 1927. He was graduated from Midland High School in 1933 and attended Texas Tech University in Lubbock.

He was employed by Gulf Oil Corp. in Crane for 42 years and lived in Crane for a number of years. He retired in December 1975.

Hogsett returned to Midland 12 years ago. He was married to Kathleen Hewett Aug. 14, 1938. He was a veteran of World War II, having served in the Army Air Corps. He was a Presbyterian.

Survivors include his wife; a son, William E. Hogsett III of Corvallis, Ore.; a daughter, Rebecca Kay Powell of Dallas, and a sister, Mrs. John B. Mills of Midland.

# **Dossia York**

Services for Dossia Ann York, 63, of Midland will be at 3 p.m. Friday in Mount Rose Baptist Church with the Rev. Tom Collins officiating. Burial will be in Fairview Cemetery directed by Jackson Funeral Home.

Mrs. York died Saturday in a Midland nursing home after an illness of several months.

She was born Aug. 14, 1915, in Gonzales. She moved to Midland in 1929 and had worked as a housekeeper.

Survivors include two brothers,

## Harmon Dennis

BRADY — Services for Harmon Edward "Mutt" Dennis, 59, of Rochelle, father of Don Edward Dennis of Big Lake, were Monday in Wilkersons Northside Chapel with burial in **Resthaven** Cemetery.

He died Saturday at his home.

Dennis was born March 3, 1920, in Rochelle. He was a farm and ranch worker and had lived in McCulloch County all his life. He was married to Dorothy Jane Sanders Jan. 21, 1947, in Fort Stockton.

#### Other survivors include his wife, two sons, two daughters, two sisters and six grandsons.

# **U.S making friendly** show to Rhodesia

can Unity approved a WASHINGTON (AP) resolution declaring the - The United States has Patriotic Front, the been making friendly guerrilla movement, the gestures toward the new sole legitimate and augovernment of Zimthentic representative' babwe Rhodesia to counter conservative charges that U.S. policies have aided the country's guerrilla forces,

U.S. officials say. But these measures appear to have undermined black African confidence in the United States' ability to steer a neutral course between the contending factions in Zimbabwe Rhodesia's eight-year civil war.

President Carter reaffirmed in June his intention to retain economic sanctions against the southern African country. But the impact of that policy has been softened by these measures

-Carter's decision to meet with Prime Minister Abel Muzorewa three weeks ago, despite his status as the head of an unrecognized government.

-The granting of a U.S. visa to the chief justice of the Zimbabwe. Rhodesian Supreme Court, Hector MacDonald. This is an apparent violation of United Nations' sanctions governing foreign travel by persons who normally reside in that country.

ZALES, THE DIAMOND STORE

SANANDAJ, Iran (AP) - Armed Kurds, some only 12 years old, walk the streets of this capital of Iranian Kurdistan, brandishing their weapons and ready to shoot it out with Ayatollah Ruhollah Khomeini's forces.

Heavily armed tribesmen were at tight roadblocks at intervals on the main highway through the Kurds' province in northwest Iran. Machinegun emplacements are located at strategic points, and no government forces are in sight.

Seeking the home rule and autonomy Shah Mohammad Reza Pahlavi and his predecessors denied them, the Kurds claim to control the roads from Kermanshah to Rezayieh, a distance of 270 miles along the Iraqi and Turkish borders. Government forces have made no major attempt to challenge them

A major confrontation appears to be shaping up this week at the town of Marivan, 45 miles northwest of Sanandaj and close to the Iraqi frontier, where the Tehran government sent a force of revolutionary militiamen week before last to establish its authority.

Marivan's population deserted the town and set up camps in the nearby hills and villages. Then Kurds from farther north started marching south to protest the military occupation of the town. They were reported to have numbered 10,000 at the start, but 30,000 now are reported on the march, and they are expected at Marivan today

Thirty government soldiers and Kurdish fighters were reported killed and scores were reported wounded in clashes around Marivan. A government column of 30 tanks and four armored personnel carriers set out from Kermanshah to reinforce the militiamen at Marivan a week ago. States. A senior State Department official, who asked not to be identified, conceded these gestures were an attempt to "redress the perception" in the United States that the administration is unalterably opposed to the Muzorewa experiment.

The country now has a black prime minister and a black majority parliament for the first time, but it also has a constitution that reserves extensive privileges for its 4 percent white population.

Black African countries have reacted negatively to the U.S. displays of friendship toward Muzorewa. At its recent annual meeting, the Organization of Afri-

# Bob goes 'way out'

State Comptroller Bob Bullock really went way out on a limb Thursday in urging labor to unionize state employees.

It was, indeed, a surprise action, and if it was his intention to shock his fellow Texans, then he got over real big. But it is quite doubtful if he gained many, if any, votes or supporters outside of organized labor and possibly some state employees.

Bullock, in addressing Texas AFL-CIO convention delegates at Austin, said if an AFL-CIO union would oganize state employees into a collective bargaining unit he would be the first state official "to recognize an AFL-CIO union on all matters not restricted by the appropriations bill or state law." What a grandstand play!

And of course, the convention delegates whooped it up in a big way, and of course Harry Hubbard, AFL-CIO president, responded by saying, "I guarantee you we will follow through on your challenge."

Unionization of state employees is one thing the Lone Star State certainly can get along very well without, and we were delighted to see Gov. Bill Clements' reply that he is "absolutely opposed" to such a move.

The governor said further that state employees will not gain any benefits or improve their efficiency if they join a labor union.

In response to Bullock's comment that many state employees fear losing their jobs to the governor's drive to reduce the payroll by 25,000 persons (during his fouryear term), Clements said the employees should not be fearful of losing their jobs. "We have a 25 percent turn rate in state employees each year. We are in a position of not hiring, (instead of) terminating," he explained. Bullock, in his address, also said that state employees "need a real friend. They need someone who's going to stick by them. Someone who can produce other than just promise.

your help. I'm here today to ask you for help on behalf of 169,000 state employees ...

And now you know the feeling and position of the comptroller in the role of union advocate.

What prompted Bullock to get out on this particular limb, we have no idea whatsoever.

And neither does the governor; who said he tried to call Bullock without success. "He apparently said that and left town," Clements added: We can't say that we would blame Bullock for leaving town after such a blast.

"I really don't understand Bob's position on that regard or what prompted him to say it at this particular moment," Gov. Clements said, adding that if Bullock wants to run for governor, "he's just going to have to get in line like the others.'

For the time being, we will just have to wait and see whether or not Mr. Bullock gets in line officially somewhere along the way to the next gubernatorial election.

Shah's threats to U.S. cited

#### By JACK ANDERSON

WASHINGTON - Top-secret State Department cables - one of them double encoded, preventing the CIA from reading it - reveal that the shah of Iran personally threatened to shut down the massive U.S. intelligence operation in Iran if any action were taken to check the illegal activities of SAVAK in the United States, SAVAK was the shah's notorious secret police.

The bullying tone of the shah's

Foggy Bottom make it painfully clear that the shah was holding our CIA agents in Iran hostage to give his secret police a free hand in the United States. Following a public outcry in October 1976, over SAVAK's operations in this country, the Iranian Foreign Ministry issued a cautious state-

WASHINGTON MERRY-GO-ROUND

ment warning of retaliation in case of a U.S. crackdown on SAVAK. In a secret cable on Nov. 7, 1976 Helms reiterated the warning. "The statement serves notice," he wired Kissinger, "that any restraints imof State ed upon, or actions taken toward Iranian representatives in the United States would be reciprocated here." Two days later, Assistant State Secretary Alfred L. Atherton Jr., met with the Iranian ambassador in Washington and reported afterward: "(Zahedi) said that if we did not like what SAVAK is doing here, Iran would send its agents home. Then, of course, the United States would have to bring its agents from Iran. It was, he said, simple reciprocity. On Dec. 27, 1976, Helms relayed another message from the shah to Kissinger: "The shah is very concerned to maintain the special relationship between Iran and the United States," he wired. "He contends that no SAVAK representative is operating against the United States or its citizens. Put another way, SAVAK is not authorized to conduct activities counter to U.S. law. Helms spelled out the tit-for-tat possibilities, warning against "an inflammatory, public brouhaha over possibly ill-advised intelligence activity" by SAVAK. "As you well know," he reminded Kissinger, "we are very beholden here in the intelligence area and therefore correspondingly vul-

nerable.'

Finally, on Jan. 2, 1977, Helms relayed the shah's boldest threat of all. It was so sensitive that Helms sent it on the "Roger Channel," a double-encrypted State Department line the CIA could not decipher. Even though Helms was the former CIA boss, he evidently didn't leak to his old colleagues. A well-placed CIA source told our associate Dale Van Atta that most officials in the agency were "shocked" by the threats disclosed in the Senate report, and had been unaware of them at the time

Helms' cable quoted the shah as

**CHARLEY REESE** America's idle rich out of touch with reality

# By CHARLEY REESE Sun Belt Syndicate

ORLANDO, Fla. - I was wondering the other day if all of the people trying to save whales and baby seals eat hamburgers.

Ronald McDonald, of course, gets his hamburgers by bashing bovines in the head. Those of us who enjoy bacon and ham are able to do so because somebody kills the Three Little Pigs. We also fry Chicken Little and eat fish which have been hooked, netted and suffocated before we fry them in batters with secret ingredients.

I wonder sometimes if the animal fanatics have ever heard of the chain of life concept which is best summarized by the backwoods saying, "All creatures great and small eat and get et.'

I have no desire to upset children. I'm just concerned that too many people living in an urban environment are losing touch with reality. I run into people who act as if their exis-tence did not depend on human labor and the sacrifice of other life forms. All life is of one basic substance so it doesn't cut any mustard with me when people say they eat only vegetables. What's the difference between killing a carrot and killing a rabbit? The difference is the carrot can't squeal or wiggle so you can pretend you aren't doing what you are doing

which is destroying the life of the carrot to sustain your own.

There is no bigger herd of hypocrites than the anti-hunters. Most of them eat flesh and wear skins. They just want someone else to do their killing for them so they can fantasize about Bambi living to a ripe old age and retiring in some antlered sun city. Well, the world doesn't work that way. If the hunter misses Bambi, then disease or starvation or another animal will get him.

Most sportsmen are great conservationists. To them, the outdoors is not a political theory of a government-constructed hiking path with little signs, but a well-used, well-loved environment. Hunters were fighting for and financing conservation several generations before today's crop of environmentalists started leaving their trash for someone else to pick up after Earth Day celebrations.

Instead of teaching children fairy tales, we should teach them to hunt and to fish so they can learn first hand the true interdependence of life.

There is a poignant moment of truth for a youngster when he stands over his first kill. He learns there is a price for everything, including his excitement and pleasure in the hunt. He learns what a responsibility it is to carry a lethal firearm. He learns about the finality of death and the irreversibility of some decisions, and he gets his first inkling of his own mortality.

Most animal fanatics are not hunters, have never hunted, and don't know any hunters. A lot of them are just nasty people who don't like their fellow man and channel their emotions toward animals.

There are bad hunters naturally just as their are bad anybodies and sometimes greed does result in overkill, but in a world of hungry people, it's rather presumptuous of the rich and well-fed to preach sermons to the protein-short nations.

Only Japan and Russia hunt whales on a large scale today. They hardly

WASHINGTON - A reading of the

fine print in the SALT II treaty after it

went to the Senate has revealed, to

the horror of supporters of the arms

control pact, an uncanny repetition of

the worst U.S. blooper in the 1972

The 1972 mistake, not discovered

until long after ratification, failed to

pin down specific limits on the size of

a replacement for the SS-11 intercon-

tinental ballistic missile (ICBM).

Now, in a new negotiating blooper

discovered as Senate ratification de-

bate begins, SALT II does not clearly

define the size of Moscow's mainstay

SS-19 ICBM, which it sets as the limit

That history should be so sadly re-

played is explicable only by this fact:

the Russians simply refused to agree

on a specific definition of the size of

the SS-19. This adds new evidence

that U.S. negotiators, under orders

from Washington for an agreement at

almost any cost, bowed to the iron will

Ironically, the 1979 mistake oc-

curred in an effort to correct the

effect of the 1972 negotiating blunder.

By failing to pin down the size of the

new Soviet ICBMs, SALT I contribut-

ed to the vulnerability of land-based

U.S. missiles. Limiting future Rus-

sian ICBMs to the size of the SS-19 in

an effort to protect the land-based

But if there was no agreement on the size of the SS-19, how can Moscow

legally be held to the terms of the

of their Soviet counterparts.

U.S. missile force.

treaty?

on the size of any new missiles.

**INSIDE REPORT:** 

By ROWLAND EVANS AND ROBERT NOVAK

SALT I treaty.

The Country Parson® by Frank Clark

or has replaced the horse we'll have to teach it to eat oats

#### varnings to then-Secretary Henry Kissinger casts new light on the strange relationship between these two internation I power brokers. Over the years, we have told about Kissinger's curious obsequiousness toward the shah - which continued even after the shah's downfall, when Kissinger used his influence to arrange asylum in Mexico for the exiled dictator.

Whether Kissinger also used his considerable influence as secretary of state to block any crackdown on SAVAK's criminal operations in this country is not clear. What is clear is that nothing was done about SAVAK's activities - mainly directed at antishah dissidents in this country beyond a timid Justice Department investigation that ended inconclusively

The shah's messages to Kissinger were conveyed by American Ambassador Richard Helms and Ardeshir Zahedi, the urbane, party-giving Iranian ambassador in Washington, in late 1976 and early 1977. They are contained in a supersensitive Senate report on foreign intelligence operations in this country.

The messages between Tehran and

warning that if anything were done to his SAVAK agents, he "would not be able to overlook the presence of 70 of your people who are carrying out activities contrary to Iranian law," or of "others whom we do not know about officially. Footnote: Not only Kissinger but

Helms also has had a buddy-buddy relationship with the shah. Now out of government, Helms has been searching for a suitable mansion for the shah to purchase in the Virginia hunt country.

BRZEZINSKI'S VERSION: We recently reported that Zbigniew Brzezinski, the White House foreign policy whiz, had embarrassed Secretary of State Cyrus Vance in the midst of his SALT negotiations with the Russians. Brzezinski, we reported, tried to telephone Soviet Foreign Minister Andrei Gromyko, who diplomatically refused to take the call.

The busy Brzezinski, who did not return our telephone calls at the time, now tells us that our State Department sources garbled the story. As he recalls the incident, he received new instructions last December from President Carter who was spending the Christmas holiday in Plains, Ga. Brzezinski placed an urgent call to Vance in Geneva where the efficient White House telephone operators located the Secretary of State in the Soviet embassy. Brzezinski was not calling Gromyko, as we reported, but was trying to reach Vance.

As Brzezinski recalls it, Marshall Shulman, the State Department's specialist on Soviet affairs, came to the telephone. Cryptically, he explained that the call had reached them at the Soviet embassy and asked whether Brzezinski still wanted to discuss strategy with Vance.

The White House aide acknowledged the warning but asked to speak to Vance. Then Brzezinski, using coded words, carefully passed on the secret instructions to Vance right in the Soviet embassy.

#### **BIBLE VERSE**

"And if Satan cast out Satan, he is divided against himself; how shall then his kingdom stand?" - Matt. 12:26.

waste an ounce. Whale oil is used to make margarine, laundry soaps and other industrial products. Whale meat is eaten in Japan and Norway and also used as food for dogs, cats and minks. Other parts of the whale are used as livestock feed and fertiliz-

I would hate to see the whales go. I'm sorry the dinosaurs went and all the other species which disappeared, with or without man's help, but I'm not going to sit here with my comfortable job and tell another man trying to feed his family that he can't hunt whales or take seal pelts because it offends my sensibilities.

My first loyalty is to my fellow man. If I were a Japanese whaler and some rich American nut tried to interfere in my work, I'd part his hair with a harpoon.

In our times, with all our pressing and dangerous problems, the seal and whale crusade strikes me as just one more example of how out of touch with reality America's idle rich are. Thousands of Vietnamese refugees are drowning and starving and these silly sons of fools are worrying about whales.

#### THE BIBLE CAN YOU QUOTE IT?

#### By LAVINA ROSS FOWLER AND **ELIZABETH ROSS WIERSEMA**

1. Of the three James of the N.T., not inclusive of the James mentioned in Luke 6:16 are James, son of Zebedee, James the less, and James, "brother of the Lord," who is credited with writing his Epistle about A.D. 63. "Deeds not Words" is the topic. What does he say of "temptation?" James

2. What two words are used to describe "the beginning and the ending?" Revelation 1:8

3. Is there any evidence in Scripture that the Lord did not believe all the sayings of the prophets? Luke 24:25 4. What did Moses write on the altar, which Joshua constructed? Josh. 8:32 5. "The heavens declare the glory of

God; and the firmament -----." Psalm

Four correct...excellent. Three correct...good ..

,The answer: it cannot, any more than it could be forced to comply with the clear understanding of limits on "new" missiles in the 1972 treaty, negotiated by Henry Kissinger.

Kissinger relied, to his later dismay, on what he called the "safe-" guard" of Soviet assurance "that no missiles larger than the heaviest light missile that now exists can be substituted." In 1972, that was the SS-11. But after SALT I took effect, the SS-11 was replaced by the SS-19, which almost was half again as big.

President Carter's negotiators retraced 'Kissinger's slippery footsteps, relying on their own understanding of the size of the SS-19. The Soviets typically refused to agree or disagree with the U.S. definition.

The State Department virtually admits that it could not nail down the Soviets. Its "detailed analysis" of the treaty, sent to all senators, spells out "this country's position: the U.S. "considers" the SS-19 to have a launchweight (weight in the silo) of 90,000 kilograms and a throw-weight (weights of the warheads) of 3,600 kilograms. These are key measurements of size.

Another SALT blooper discovered as debate launched

'These figures are based on our estimate for the SS-19," the senators were told. "The Soviet Union did not respond to this statement (but) the U.S. will regard these figures as the limits for the one new type of ... ICBM permitted to the United States."

But will the Russians? Realists here doubt it, anymore than in 1972. Kissinger learned the hard truth slowly, as U.S. monitors in Iran began to accumulate data on the true size of the new SS-19 being tested to replace the old SS-11. 9

Trapped by Soviet duplicity three years later, Kissinger found himself lamely explaining away the sudden appearance of the big SS-19. "We obviously did not know in 1972 what missiles the Soviet Union would be testing in 1974," Kissinger told a State Department press conference on Dec. 9,01975.

But there was no way to stop SS-19 development. Moscow blithely kept insisting its new missile was just a slightly updated model of the old SS-11. Now, following SALT II, the Russians have a loophole to sustain their own verion of a "legal" follow-on missile to the SS-19 by claiming that the U.S. definition of the SS-19's size is simply wrong, and that Moscow never agreed on it.

This would not come up if the Russians played fair and square. But they play to win; they take advantage of whatever opportunity is granted.

Discovery of Soviet deception on the SS-19 by the Nixon-Ford administration long after SALT I took effect depended on America's ally, Iran. But the true size of the SS-19 almost

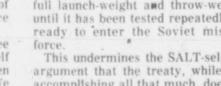

certainly would have eluded U.S. intelligence for even longer had it not been for U.S. monitoring stations in northern Iran, just south of the main

Soviet test range These stations no longer exist, and the U.S. is not close to duplicating them. This enhances the strong probability that the one new Soviet missile permitted under the treaty will not

harm. To the contrary, this new revelation of non-Yankee barganing suggests that the Soviet Union, under SALT II as under SALT I, will loophole its way to nuclear supremacy while Americans play by the rules.

only greatly exceed limits set forth by U.S. negotiators but will not reveal its full launch-weight and throw-weight until it has been tested repeatedly ready to enter the Soviet missile This undermines the SALT-sellers' argument that the treaty, while not accomplishing all that much, does no

Agressive men type

more susceptible than others to heart at- ed tacks?-Alan

Dear Alan: Men who are impatient, aggressive, and success-oriented-characteristics of what is referred to as the "Type A" personality-are more prone to heart disease: Researchers have shown that these individuals have twice as many heart attacks and more severe symptoms, and have three to four times as many second heart attacks as others.

Scientists at the Duke University School of Medicine have received a grant from the National Heart, Lung, and Blood Institute to study this pehnomenon. Dr. Redford B. Williams, a professor of psychiatry, feels that if he can identify a specific component of Type-A behavior-such as hostility-as leading to coronary heart disease and heart attacks, patients may be able to be trained to control this factor, or it might be controlled through medica-

Dr. Saul Schanberg, a professor of pharmacology. is collaborating in the research. He will study changes in the levels of two hormones, epinephrine and norepinephrine, that affect the sympathetic nervous system, increasing both blood pressure and heart rate.

The two researchers already have demonstrated that patients with Type-A personalities have five or six times more atherosclerotic plaque-or fatty deposits-in their coronary arteries than do other heart patients. According to Dr. Williams, the Type-A personaltiy pattern can be identified in children as young as eight or nine years of age. Although research in this area has been limited, it is assumed the children learn the behavior from their parents or through childhood experiences, since it

Dear Dr. Solomon: A friend of mine recently gave birth to a baby who has a noticeably protruding forehead. She has two other children, both handsome youngsters. Can anything be done to correct the new baby's deformity?-Ms. E.S.

Dear Ms. S.: There is an excellent possiblity of surgical correction for babies born with major deformities of the skull and upper face. In fact, Dr. Linton Whitaker, associate professor of plastic surgery at the University of Pennsylvania, advocates that the surgery be performed before the infant is six months of age. He reports that during the past three and onehalf years, he has corrected such deformities in 40 infants, with results ranging from good to excellent.

Dr. Whitaker explains that in early infancy, the child's bone is membranous and easy to work with, regrowth is rapid, and the operation takes only about alf as long as it would with older patients. Moreover, the deformity is corrected even before the child can be aware of its existence, thus avoiding psychological damage.

# Chinese official urges reform

PEKING (AP) — A top Communist Party official urged reform of the party's bureaucracy today, culminating months of protest against leaders who live high, buy luxuries and seek privileges for their children.

"It is imperative to reform the party's cadre system systematically by introducing ... election, examination, supervision, award and punishment, recall, rotation and retirement," said Hu Yaopang, third secretary of the party's Central Commission for Inspecting Discipline.

Hu was quoted in a front-page article in the People's Daily, the voice of the Communist Party Central Committee. The newspaper, which also has called for an end to privilege-seeking, quoted Hu's recent comments at the commission's first working conference in Peking.

Hu said regulations must be drawn up at once to enforce discipline, overcome factionalism and safeguard unity.

He said the new rules should include "criteria for the party's internal political life, standards for the living conditions of leading cadres, conrete stipulations for the conscientious practice of democracy and the rights and duties of party members."

Hu's statement was the latest condemnation of privilege-seeking among party leaders and comes on the heels of mounting and noisy criticism of those who use their position to obtain advantage.

A letter to the People's Daily on July 21 said party officials come back from foreign countries laden with quartz watches, television sets and washing machines.

In the same edition the paper said some leading cadres frequently have improvements made to their homes, move to better surroundings, and are highly particular about their furniture. It also said they make trial use of high-quality products without paying a cent.

"Some spoil their children and satisfy their every demand, do their best to find them the best schools and jobs, and try every means to let them leave the countryside to work in the cities. Some even violate rules and regulations to enable their children to study or work abroad," it said.

The newspaper called it "an evil trend" and said, "this unhealthy tendency is a manifestation of feudalistic ideas of privilege ... It undermines the party's prestige ... It also impedes unity and dampens the morale of the people and spreads the plague of selfish ideas."

#### Officer killed in Ireland

ARMAGH, Northern Ireland (AP) —Gunmen killed a plainclothes police officer today as he sat in an unmarked car outside a courthouse in Armagh, police reported.

The officer was waiting in the car for a colleague who was in the courthouse collecting arrest warrants, a spokesman said.

He was shot dead by two gunmen who opened up from a car driving slowly past the police vehicle.

The slain officer, who was not named, was the 12th policeman killed in Northern Ireland this year and the 89th since sectarian violence erupted nearly 10 years ago.

The killing raised the known overall death toll to at

least 1,930.

None of Northern Ireland's terrorist groups has claimed responsibility for the assassination. But police sources blamed Irish Republican Army guerrillas.

#### Sunken ship blocks canal

GAMBOA, Panama Canal Zone (AP) — Traffic slowed down in the Panama Canal after the freighter Quidnet sank crossways halfway through the 51-mile waterway following a collision with the Greek ship Seatide.

Only one ship at a time was able to move by and passage was restricted to ships no longer than 600 feet with beams not exceeding 82 feet. The canal locks are 110 feet wide.

The 360-foot Quidnet and the 466-foot Seatide collided Sunday night. There were no injuries and the Seatide continued south to Gamboa. It will take a week to figure out the best way to raise the Quidnet.

#### Portugal forms cabinet

LISBON, Portugal (AP) — A 16-member Cabinet has been formed by Maria de Lourdes Pintassilgo, the premier-designate who has the task of steering Portugal's government through the autumn elections.

She announced formation of the Cabinet Monday. It was described as moderate, with centrist, independent Social Democrats far outnumbering members of other parties.

#### Diver rescues 15-year-old

TRURO, England (AP) — Royal Navy diver Jimmy Bauld rescued 15-year-old Peter Crowther from a small plane that crashed and sank in 50 feet of water, but the boy died in a hospital.

"The boy looked as if he'd tried to get out but had become disoriented. He was going the wrong way. I got him out as quickly as possible," Bauld said after getting Peter to the hospital.

The plane crashed Monday about 1½ miles off the coast of Cornwall in southwest England. Peter's 12-year-old brother, Simon, and the pilot and another passenger were rescued on the surface.

## Dead woman may be off sunken yacht

MONTREAL (AP) — A dead woman found floating off the Gaspe Peninsula last week with \$3,600 stuffed in her bathing suit is believed to be from the Ottawa area, Police Investigator Jean-Pierre Desgagnes said.

However, positive identification of the body is not expected until today at the Quebec City Morgue, Desgagnes said.

He said an autopsy showed the woman was about 28 years old and that the cause of death was drowning.

Bits of debris found after a tour boat picked up the body indicated the woman was from a yacht that sank in the area, Desgagnes said.

#### Costa Rica to return weapons

SAN JOSE, Costa Rica (AP) — Costa Rica will return weapons borrowed from Venezuela and Panama now that the Nicaraguan civil war is over and dictator Anastasio Somoza has fled.

The minister of public security, Juan Jose Echew verria, said the first of eight anti-aircraft batteries will be shipped back to Panama today, and 500 rifles will go back to Venezuela soon afterward.

The anti-aircraft guns were set up at San Jose Airport two months ago after Somoza charged Costa Rica was sheltering Sandinista guerrillas and allowing them to cross the border with guns and supplies.

LIFESTYLE

# Oriental foods offer short-cut to nutritious, balanced meals

#### **By WANDA MOUTON Lifestyle Editor**

Spending long hours preparing everyday meals or special treats for entertaining is a luxury not available to the 24 million working couples in the United States, but there are short cuts to achieving the same results.

Cooking well-balanced, attractive meals does not have to be a time-consuming chore. Tasty, nutritious Oriental meals can be prepared quickly, and the cook can have fun doing it. Paula Purdom of Midland does.

Mrs. Purdom first became interested in Chinese cooking about five years ago when she and husband Larry received as a wedding present a wok, which is a bowl-shaped cooking utensil used in preparation of Chinese food

Since then, she's become a real gourmet in the area of Oriental food, having studied under Irene Wong at the LaBonne Cuisine School of Bon Appetit in Austin.

Her goal is to "turn West Texas on" to Chinese cooking.

"My husband, who grew up here, is basically a meat and potatoes man,' she said. "I thought I was doing good when I finally got him to try stir-fried broccoli.

SHE IS ENTHUSIASTIC about the advantages of Oriental cooking.

"It's economical because a small amount of meat is used with a large amount of vegetables," she said. In addition, cooking times are

short, wih actual time for most Oriental recipes averaging about 10 minutes. "As a result, the stove is on for just

a very little while and the house doesn't get heated, saving on energy." she said.

Oriental cooking, by its very nature, is time-saving, said Mrs. Purdom. It employes three main principles that add speed. "First, you are using meat and vegetables that are cut into small pieces that naturally cook faster. Then, the ingredients are exposed to a lot of cookware surface, especialy if a wok is used. And, finally, Oriental foods are cooked at high heat, cutting down on the time.

"Additionally, the food is good for persons on a diet because of its lowalorie, low-salt and low-cholesterol

bit of experimenting. Many of the recipes, for example, call for seafood and shrimp, not always easy to find in West Texas. She adapts the recipe by using chicken and economical cuts of beef.

"Also, everyone has to alter recipes to suit the tastes of individual families," she said.

Many of the vegetables used in Oriental cooking can easily be grown in the West Texas climate. Mrs. Purdom plans, in fact, to plant a fall garden soon with broccoli, bok choy, cauliflower and spinach, all of which are excellent vegetables to include in Oriental recipes.

For Midlanders interested in learning the basic art of Chinese cooking, Mrs. Purdom will offer four classes beginning in August.

Courses will be held in (1) Stir-frying (the basic method of Oriental cooking; (2) Eggrolls and Wonton; (3) Hunan (also called Szechwan; this is the hot, spicy food of the Orient); and (4) Steaming (using the wok and bamboo steamers).

"By the time a person takes all four courses he or she will have acquired a basic feel for Chinese cooking," said Mrs Purdom.

**CLASS SIZE WILL BE LIMITED** and schedule will include the preparation of three recipes at each session. Instruction will also be given in chopping, equipment and operation, and following the recipe. Students will eat the foods which they prepare at each class.

She advises that there are two basic rules to preparing a Chinese meal. One, cut meats and vegetables in advance and have all sauces mixed before cooking," she instructed. 'That's the secret to Oriental cooking. The ingredients are cooked for a small amount of time at high heat, resulting in crisper vegetables and meat that is seared, but juicy.

Secondly, she advises that it is important to chop vegetables and meats in similar shapes and sizes "to make the dish pleasing to the eye.

Mrs. Purdom plans a demonstra tion of her art from 1 to 3 p.m. Saturday at the Gourmet Emporium in San Miguel Square. For further information on the demonstration and classes, call 683-8625.

"I belive Oriental cooking is really

She offers some basic recipes

EGGROLLS

1/2 teaspoon grated ginger root

2 teaspoons soy sauce 1/2 teaspoon vinegar 1/2 teaspoon sugar 1 teaspoon cornstarch, dissolved in 2 tablespoons cold water Purchased eggroll wrappers 1 beaten egg 2 cups oil

Fry bacon and grated ginger until crisp. Remove and drain on paper towel. Pour off all but one tablespoon bacon grease and fry mushrooms, onions and celery for two minutes. Add sprouts, return bacon to pan. Stir together soy sauce, vinegar, sugar and cornstarch mixture; add to vegetables. Heat until thickened. Place two to three tablespoons of mixture in middle of wrapper. Fold one point in, fold the two side points in over filling and roll up to last point, sealng with beaten egg. Deep fry in oil until crisp and serve with hot mustard or sweet and sour sauce.

Makes 4-5 eggrolls.

(Reserve beaten egg for use in fried rice.)

#### FRIED RICE

2 cups cooked rice 2 mushrooms, sliced 1 green onion, minced 1 beaten egg soy sauce

Fry rice in two tablespoons oil until it begins to brown. Add mushrooms and onion, and continue frying for one minute. Add beaten egg and stir into rice mixture until egg is absorbed. Season with a dash of soy sauce and serve.

Serves 4

#### **BEEF WITH** MIXED VEGETABLES

1 lb. beef round, sliced in 1/4 inch strips 2 tablespoons soy sauce 2 tablespoons dry sherry 1 clove garlic, crushed 1/2 small head of cabbage (bok choy), shredded 1 yellow onion, sliced thin in rings 12 snow pea pods 1/2 cup chicken broth tablespoon soy sauce

1 tablespoon cornstarch in

About 25 percent of the new houses sold in the United States this year are or will be covered by a warranty protecting the quality of the construction. That's twice as many as had such protection only one year ago.

The warranty, offered by many builders, is guaranteed by the National Association of Home Builders, the industry trade organization, which is a lot better than a guarantee from a single builder who may or may not be around when something goes wrong with the house.

. Under the arrangement, builders enter into a contractual arrangement with the National Home Owners Warranty Corp. and are responsible in the first year for the repair of all defects in craftsmanship, in the home's mechanical systems (wiring, plumbing and ductwork), and any defects in

structure, as specified in the guidelines

In the second year, the builder is obligated to correct all defects in mechanical systems and major structural defects. For years three through 10, the program guarantees repairs on all major structural defects. An interesting part of the protection is that it applies even though there may be a change in house ownership.

How did such a program get start-

Obviously, it was inspired by the complaints of consumers regarding faulty construction. But some reputable builders took it upon themselves to get behind the idea because they saw the industry was suffering from the misdeeds of other builders.

So, as Robert Levenstein, president of Kaufman and Broad Inc., put it, "This is a chance for private industry to play an important role in consumer

protection. The rise in consumer complaints over the years is injurious to the industry in the long run. Eventually, I believe that the majority of new houses in the country will be covered by a Home Owners Warranty program.

All such consumer guarantees (there are others) will do much to erase the bad image created by some fly-by-night builders over the years. Curiously, various forms of warranties have existed for many years on other costly items - among them television sets, refrigerators and automobiles - but the most expensive of them all offered the buyer little assurance of redress for grievances. Reputable builders usually cooperated with the new home owners, but others did not and, worst of all, some were out of the building business or had disappeared or both.

New regime brings new swim fashion for Iranian women

Having a way with words is important for writers, politicians, preachers and lawyers-among others. It's also helpful if you're a contestant on a television game show.

Capt. Lennol K. "Tex" Absher, a copilot with the 55th Weather Reconnaissance Squadron, McClellan AFB, Calif., and a native of Midland, definitely had a great way with words recently when he taped a week's worth of participation on NBC's "Password Plus" program.

Actress Elizabeth Montgomery was his "copilot" and she "bewitched" him into earning \$18,200 in cash and \$144 in prizes.

For those familiar with the show, the alphabetics round is the most difficult; when the contestant must correctly guess 10 words from oneword clues given him or her in 60 seconds. Tex and Ms. Montgomery set an all-time record for the program, guessing all 10 in just 32 seconds

The shows which Tex taped will appear this week.

Capt. Absher has been stationed at **McClellan since December of last** year, and in the service since June, 1971. He and his wife, Bonny, have two children, including son Lennol, age 4, and daughter Larissa, age 2.

His wife, as well as his mother and two nieces from Dallas, were in the audience during the taping sessions..

GAIL GRIGGS, daughter of Mr. and Mrs. Harry Griggs, 3506 W. Michigan Ave., was named outstanding twirler at the West Texas State University twirling camp held recently at the university. She will be featured Oct. 13 at the WTSU football game.

Gail also won among the top ten in the National Baton Twirling Association competition held in San Antonio this year. She was invited to participate at the American Youth on Parade championships held this month at Notre Dame University.

She has won state championships every year since 1972, has collected 500 trophies and medals, and has been featured in "Who's Who in Baton Twirling.

Gail was also a twirler with Alamo Junior High School for two years and one year at Edison Freshman School. is entering her senior year at Midland High School where she is head twirler in the MHS Bulldog Band.

#### **By ABIGAIL VAN BUREN**

DEAR ABBY: Six years ago I lent my brother \$1,000 because he was in a tight spot. (I was married at the time and so was he.) I didn't ask him to sign an IOU. Neither did I ask for interest on my money.

He promised to pay me back within a year, but never did. I would have been satisfied if he had paid me a few hundred dollars at a time just to show good faith, but he ignored the debt as if he never owed it. In the meantime he bought his wife a new car. Now they are buying a boat!

I called him up and reminded him that he should pay his honest debts before buying luxuries. He replied by saying if he had known I was that hard up he would have managed to repay me before this. I am NOT hard up and he knows it. I lost my cool and said, "It's not the money - in fact, you can skip it; it was worth \$1,000 to me to find out how lacking in character you are!'

WHAT'S YOUR PROBLEM?

Now my brother claims he doesn't owe me anything because I let him off the hook by a remark I made in anger. Does he owe me or doesn't he? - BIG-HEARTED SISTER

DEAR SISTER: When you told him he could "skip it," you let him off the hook, verbally. But, morally, he still owes you.

DEAR ABBY: How about a repeat on undressing in the closet? My wife undrsses in the closet and always has. When we make love, it's lights out and under a sheet.

Must I go to a peep show so I won't forget what a woman looks like? --POOR ME IN ESTHERVILLE

DEAR POOR: No. Try the beach.

DEAR ABBY: I recently met a New York man on vacation. He told me he had lost his wife three months before. (I've been a widow for four years.)

We had a lot in common and hit it

# 'If he loved me he wouldn't act that way'

#### By the Staff of Family Services of Midland

"If Joe cared anything about me, he would have been more sympathetic when I had a headache last week." "If Jane really loved me she would have been more understanding when I was having all that trouble on the job last month.

These are the kinds of complaints that marriage counselors hear very often in the course of their working day.

The fact is that Joe might have been very sympathetic in his won way or that Jane may have tried to convey understanding in a way her husband failed to comprehend. Everybody just got their signals crossed.

Perhaps Joe, who saw that his wife was depressed and miserable, tried to cheer her up by telling her all the latest office jokes, or by tuning on her favorite TV show. What she wanted him to do was to offer to cook dinner and get her the aspirin. She

affection rejected, became angry and

flict and misunderstanding had Engagements

Lafayette, La.

land.

ache.

quit

Jane may have started to talk about their planned vacation, when she saw that her husband was unhappy about his job. She thought that she might divert him from his troubles and give him something to look forward to. The husband may have interpreted her action as lack of concern for his job problems...he wanted her to tell him that, of course, the boss was all wrong, and he would certainly be missed...should he ever decide to

In both cases Joe and Jane had some very specific ideas about how they wanted love and sympathy conveyed...and they were not prepared to accept any other token of affection. They were also not prepared to explain to their spouses what they expected by way of sympathy and understanding. As a result, their partners, who found their expression of

#### started. A counselor is often able to help a

troubled person to trace some of his annoyance down to its source. How did he interpret Jane's action as lack of concern, when to an uninvolved observer they clearly indicate a desire of help? Why does he have such strong preconceived notions of how

love and sympathy must be shown? With the help of the counselor Joe or Jane can discover that no one meant to hurt their feelings...that, indeed, their spouse was trying to

help in his own way. They learn also to understand that it is important to be able to recognize and accept love

and aifection in the way it is actually given...not in the way in which it is imagined One of the most important results

of counseling can be this untangling of crossed signals. If Joe and Jane are able to recognize signs and tokens of affection that are characteristic of their spouses, they will often find these more precious than the ones that they imagined to be appropri-

## miscarriage suit

DENVER (AP) - A 30-year-old Denver housewife has received a \$6.8 million judgment in a suit charging that an intrauterine birth control device caused a miscarriage that nearly killed her in 1973.

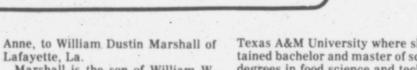

The judgment against A.H. Robins Co. of Richmond, Va., was handed down Monday in Denver District Court. Presiding Judge Robert Full-erton said the award — \$6.2 million in punitive damages and \$600,000 in actual damages — was the largest in Denver legal history.

The suit brought by Carrie Palmer was one of several hundred filed against A.H. Robins, which manufactured an IUD called "Dalkon Shield" in the early 1970s.

It was removed from the market in 1974 after the federal Food and Drug Administration reported a "sharp increase" in the number of deaths and uterine infections among women who used the shield.

Some scientists contend that the multi-filament string on the Dalkon Shield allowed bacteria to enter and infect the wombs of women who became pregnant while using it.

Attorneys for some of the women suing A.H. Robins claim there have been more than 200 "septic abortions" - or miscarriages with uterine infections - associated with the Dalkon Shield. There have been 17 eaths assciated with the IUD, attorneys claim.

# Stock market gains

NEW YORK (AP) - The stock market took news of the worst U.S. productivity figures in five years in stride today, recovering much of its early losses by the close of the New York Stock Ex-

The Dow Jones index of 30 industrial stocks, down by 4 points at noon, closed with a modest loss of 1.02 at 838.74. Some analysts pointed to comments by Federal Re-serve Board Chairman-designate Paul Volcker as an encouraging influence. Volcker said during Senate committee hearings on his nomination that he strongly believed a stable dollar was essential to a healthy U.S. economy and made it clear that fighting inflation would be his top priority.

The Labor Department reported today that its mea-surement of U.S. commercial productivity showed a 3.8 percent annual rate of decline in the second quarter, the worst showing since early 1974.

In the broader tally of market performance, gaining issues outnumbered losers by a 7-6 margin, at the NYSE close.

Big Board volume came to 28.64 million shares up from 27.76 million in the previous

The NYSE's composite common-stock index rose .06

At the American Stock Exchange, the market value index fell .28 to 199.30.

FORT WORTH, Texas (AP) — Export wheat 4.51-4.57. Milo 5.01-5.27. Yellow corn 3.17 ½-3.27 ½. Oats 1.89-1.92. KANSAS CITY (AP) — Wheat futures Monday on the Kansas City Board of Trade. WHEAT 5,000 bu minimum; dollars per bushel

# Labor officials endorse Carter

WASHINGTON (AP) - The endorsement a coalition of labor leaders is giving President Carter for re-election in 1980 may prove short-lived if Sen Edward M. Kennedy enters the race.

Officials of six major unions announced Monday the formation of a Labor for Carter-Mondale Committee, then ducked questions about what they would do if the Massachusetts senator made a bid for the Democratic presidential nomination.

Kennedy has said he will not run, and "this committee has accepted that statement," said group spokesman William H. Wynn, president of the largest AFL-CIO union, the 1.3 million-member United Food and Commercial Workers. "We do not want to speculate" about Kennedy challenging Carter in 1980, Wynn said.

But one union official connected with the Carter backers said a Kennedy candidacy would force the announced Carter supporters to "reassess" their political plans. The official asked not to be named.

Kennedy, with his strong liberal views, appears to be the clear favorite for the nomination among union leaders, who reluctantly backed Carter in the 1976 general election campaign and then found his economic policies too conservative for their taste.

But the growing belief that Kennedy will not seek the presidency next year has prompted some labor leaders to endorse Carter as the only viable Democratic candidate even though many of them again are less than enthused with the president.

At Monday's joint news conference, Wynn read a statement praising Carter as a "consistent, committed champion of working men and women." When a reporter asked whether he would evaluate Carter's performance as good, fair or poor, Wynn responded, "Fair."

The idea for the Labor for Carter commit-tee originated with the president's political advisers, who had hoped to attract more supporters than those appearing together Monday.

Carter's aides, in trying to elicit early union backing, have warned labor leaders that a Carter-Kennedy race could split the Democratic Party and give the presidency to the Republicans.

# Eight from area receive paroles

#### **Austin Bureau**

AUSTIN-Eight persons convicted of crimes in the Midland area have been paroled by Gov. Bill Clements on recommendations by the Texas Board of Pardons and Paroles.

Another person had his parole revoked because of a new conviction.

Robert E. Adair, convicted of burglary in Andrews County May 22, 1978, was paroled to Andrews County after serving and earning two years of a five-year sentence

Robert G. Castaneda, convicted of burglary with intent to commit theft in Howard County Feb. 15, 1977, was paroled to Howard County after serving and earning three years and 10 months of a six-year sentence

Dennis Eckelberger, convicted of two counts of theft over \$200 in Ector County Sept. 8, 1978, was to 2 yellow paroled to California after serving and california one year and five months of a five-year sentence. L. Mata, convicted of burglary of a habitaintent to comit theft in Ector County Jan. 3, paroled to Ector County after serving and ine months of a two-year sentence.

WANT ADS work for YOU ... 108 ways! Dial 682-6222

# Wildcat, field work reported in PB areas

McClellan Oil Corp. of Roswell, N.M., and Ralph Nix of Artesia, N.M., each staked location for a wildcat in **Chaves** County

MClellan will drill No. 1-MM Federal as a 4,700-foot explorer 13 miles northeast of Roswell.

It is 1,980 feet from south and 1,-980 feet from west lines of section 319s-26e

Nix No. 1 Union-Happy will be dug as a 2,800-foot project 3.5 miles south of Elkins.

The location is 660 feet from south and 1,980 feet from east lines of section 1-8s-28e and 1.5 miles notheast of an unnamed 2,577-foot San Andres discovery.

#### EDDY TEST

Mesa Petroleum Co. of Midland no. 7-D Nash Unit is a new 14,295-foot Morrow project in the Nash Draw (Morrow) pool of Eddy County.

It is 11 miles northeast of Loving and 685 feet from north and 1,295 feet from west lines of secton 18-235-30e.

#### **RUNNELS WILDCAT**

W. W. West of Midland spotted No. 1 Maggie F. Brookshier as a 4,000foot wildcat in Runnels County.

West will drill the wildcat 1,900 feet from south and 1,100 feet from east lines of section 141, ETRR survey and two miles northeast of Benoit.

The location is 5/8 mile east of the West No. 1 Brookshier, discovery well and lone producer in the PWC,North (lower Goen sand) field that produces at 3,520 feet.

#### NOLAN WELL

Maralo, Inc., of Midland No. 1-66 Whiteside has been completed one location southwest of the discovery well of the one-well Group, South (Canyon reef) field, five miles northwest of Blackwell.

The operator reported a daily pumping potential of 113 barrels of oil and no water, through perforations opposite the Saddle Creek from 3,553 to 3,565 feet.

Gravity of the oil is 38.3 degrees and the gas-oil ratio is 5,619 feet.

Hole is bottomed at 4,044 feet, where 5.5-inch casing is set, and plugged back to 3,830 feet. The well is 990 feet from north and

330 feet from east lines of section 66. block 1-A, H&TC survey. The multipay pool has three other

Saddle Creek producers.

#### MARTIN OILER

ARCO Oil & Gas Co., operating from Midland, No. 1 Mabee has been completed in the Breedlove, South (Spraberry) pool of Martin County, 12 miles northwest of Tarzan.

The operator reported a daily

# Technical problems hamper experiment

and the second second

SAN BENITO, Texas (AP) - An experimental attempt to use gas derived from oil and coal to replace natural gas at a South Texas power plant has been stalled by technical problems.

A Central Power and Light project engineer said Monday the gasification process was shut down in June a few days after it began operation. Mike Shropshire said the \$10 million project may be delayed until September while repairs are being made.

CP&L is testing the feasibility of making gas from low quality oil and coal. The resulting gas will be tried as a substitute for increasingly expensive and scarce natural gas at the La Palma power station here. The station's boiler has used natural gas since its opening in 1946.

Shropshire said the major problem was in the "cyclone," a mechanical process used to purify the gas derived from the thick oil and East Texas lignite.

The utility company paid \$5 million for the construction of the experimental facility. Foster Wheeler Energy Corp., of New Jersey was granted a \$5.7 million federal contract to handle the engineering.

Fred Urich, Fostr Wheelers senior engineer here, said the EnvronmentalProtection Agency is interested in the project as a cleaner gasification process.

Urich said the system being tried here is the only one of its type in the nation

The system uses a limestone bed to clean the oil or coal. Urich said the high temperature in the process - up to 1,600 degrees -

may have contributed to the cyclone's failure.

Shropshire said there were also minor problems with vibration and insulation. He estimated it will cost up to \$12,000 to make the necessary changes before the experiment is resumed.

The engineer added that CP&L officials fear natural gas will be unavailable or too costly within a decade.

feet.

ick

Shropshire is confident the experiment will be a tecnical success. But he cannot tell if the system will prove economically worthwhile.

# Gulf, Faskin complete Permian Basin openers

New pool discoveries have been announced in Reeves and Lea County, N.M.; fields have been reopened in Upton and Crockett counties, and a strike has been reported in Runnels County

In addition, an attempt will be made to reopen a Sterling County field, and wildcat operations have been announced Nolan, Sutton, and Crockett counties.

#### **REEVES DISCOVERY**

Gulf Oil Corp., operating from Midland, announced the opening of a new field in Reeves County, 18 miles east of Pecos with completion of its No. 4 S. E. Ligon-State.

The discovery was completed from the Cherry Canyon for a calculated absolute open flow potential of 9,550,-000 cubic feet of gas per day, through perforations from 6,160 to 6,178 feet.

The total depth is 6,700 feet and the plugged back depth is 6,680 feet. Five and one-half-inch casing is cemented at 6,699 feet.

Wellsite is 330 feet east of Gulf No. 3 Ligon-State, recently completed as a Devonian well in the Worsham-Bayer multipay field.

The operator has suggested that

# Station owners rebelling on new DOE price rules

WASHINGTON (AP) - The Energy Department is scrambling to revise recent gasoline price rules as angry service station owners plan a Wednesday protest march on the White House

At issue is a new Energy Department rule requiring dealers to post profit margins for public inspection. "It's degrading and unnecessary. Other businessmen don't have to do

that," said Risque Harper, spokesman for the National Congress of Petroleum Retailers, which represents 60,000 independent service stations nationwide.

Energy Department sources, who

ENERGY OIL & GAS

asked anonymity, said the department plans revisions, probably by Wednesday, allowing station operators simply to certify that they are not exceeding legal profit ceilings. But dealers can expect no revision

in the department's main ruling that set a uniform 15.4 cent-per-gallon profit margin. Moreover, department sources say the ceiling also will apply to about 25,000 gasoline wholesalers and refinery-owned service stations not covered with price rules announced earlier this month.

In related developments:

-Congressional leaders worked today to win House approval of a standby gasoline rationing plan for Senate action that eliminates a previously approved provision for congressional veto any rationing plan in advance. A vote was expected this afternoon.

-The House Monday approved and sent to the Senate a \$3.4 billion appropriation for energy development, in-cluding a symbolic \$1.5 billion for future federal purchase of synthetic fuels. The measure also provides money for conservation, development of shale oil reserves and conversion of coal to oil.

-New York analysts say world oil supplies are just about meeting de-mand again, a reason behind the virtual disappearance of long gasoline lines. But the analysts said the stable condition might not last long, because militant foreign oil producers are cut-

The Palo Pinto was topped at 4,300 feet, the upper Gardner at 5,000 feet Oil slick 90 and th lower Gardner at 5,110 feet. Locarion is 1,198 feet from north miles from and 1,750 feet from west lines of H. A.

ting supplies to support higher export price levels.

Meanwhile, patrons of Sohio, Boron and BP gas stations in 12 states and the District of Columbia have been hit with another price increase, Sohio announced Monday.

Prices for all grades of gasoline at company-operated stations were raised three cents a gallon in Ohio, Indiana, Michigan and Kentucky, and four cents a gallon in Pennsylvania, West Virginia, New Jersey, New York, Connecticut, Delare, Maryland, Virginia and the District of Columbia, said officials of the Cleveland-based firm.

Wholesale prices to independent dealers were raised similarly in both sales regions, Sohio officials said.

And in Congress, Republican members of the Senate Judiciary Committee blasted a proposal from Sen. Edward M. Kennedy, D-Mass., to restrict major oil company mergers in a bid to encourage more oil and gas exploration. Under Kennedy's pro-posal, the 16 largest U.S. oil firms would be prohibited from acquiring other firms worth more than \$100 million.

"We are hoodwinking ourselves if we think legislation like this is going to create energy supplies," said Sen. Thad Cochran, R-Miss.

In another gasoline-related matter, the Federal Trade Commission said Monday its investigation into alleged antitrust violations by Shell Oil Co. has been closed. The commisson was investigating whether Shell allowed dealers to buy unleaded gasoline, which was in short supply, only if they bought a minimum amount of leaded fuel.

The FTC sent a letter to Shell's Houston headquarters saying that during its bureau of competition's investigation of the matter in December 1978, "Shell discontinued the alleged practice. ... Further investigation now is not warranted.

# Gasoline crisis fades with improved supplies

NEW YORK (A) — The gasoline crisis, which just a few weeks ago forced Americans into long lines at service stations around the country, seems to have all but disappeared.

But analysts say its disappearance is not as mysterious as it might seem. It's just that supply has once again caught up with demand.

The supply of gasoline is improving because the effects on oil supplies of the Iranian revolution and a drop in U.S. oil production last winter are substantially subsiding.

When they were unable to get the crude oil to make as much gasoline as they needed, oil companies had to allocate what gas they could make about 90 percent as much as last year. Under federal rules companies then had to give priority customers as much as they got a year ago, with the rest divided up among service stations. This meant that many stations were getting about 80 percent of what they got a year ago.

Because gasoline that couldn't be bought also couldn't be burned, consumption was cut sharply

"In essence, you had rationing," said Larry Goldstein, an analyst at Petroleum Industry Research Foun-

dation, a group supported by the oil industry.

Lines and gas station closings proliferated because of the sudden cutback in supply. But once Americans got used to the smaller amount of gasoline available, they drove less and the situation stabilized, analysts say. Fears of shortages and the effects of higher prices also decreased consumption, say analysts.

But the higher prices did not, as has been suggested, ease the shortage by freeing up hidden supplies of gasoline, analysts say. Rather, consumer resistance to the higher prices cut demand, taking pressure off supplies

The loosening of the supply squeeze has, in some cases, even brought a return of old-fashioned gas price wars. Lines that have appeared in recent days, officials in some areas say, have formed at lower-priced stations even though stations selling more expensive gas may have no customers.

"People are perhaps more con-cerned with the price, where before they were more concerned with availability," says Caroline Hymoff of the Massachusetts chapter of the American Automobile Association.

pumping potential of 70 barrels of 36.2-gravity oil and eight barrels of water, through perforations from 9,-419 to 9,514 feet, after 2,000 gallons of acid and 80,000 gallons of fracture solution.

The total depth is 9,600 feet, 5.5inch pipe is set at 9,600 feet and the plugged back depth is 9,574 feet. Gas-oil ratio is 1,142-1.

Location is 267 feet from north and 467 feet from east lines of section 15, block 255, Briscoe County School Land survey.

#### HOWARD AREA

Murphy H. Baxter No. 1 J. J. Meador, drilled as a wildcat to 7,950 feet, has been completed from the Vincent pool's lower Clear Fork pay.

It finaled for a daily pumping potential of 5 barrels of 28.2-gravity oil and 83 barrels of water, through perforations from 4,211 to 4,215 feet after a 750-gallon acid treatment.

Total depth is 7,950 feet and 4.5-inch pipe is set at 4,816 feet. The plugged back depth is 4,762 feet. Location is 467 feet from north and

1,667 feet from west lines of section 60, block 26, H&TC survey and four miles south of Vincent.

#### LYNN WILDCAT

Mobil Oil Corp. and General Crude Oil Corp. will drill No.1 Franklin as an 11 200-foot wideat in Lynn County, five miles northeast of New Moore.

It was reported earlier with General Crude omitted as one of the operators.

The drillsite is 660 feet from north and east lines of seciton 48, block H, EL&RR survey.

#### GARZA PROJECTS

W.T.G. Exploraiton of Midland announced locations for three 3,350-foot tests in the W.T.G. (Glorieta) field of Garza County, 10 miles north of Post.

The No. 2 E. W. Williams Jr. is 853 feet from south and 467 feet from west ines of section 1142, TW&NG survey, abstrct 1113.

W.T.G. No. 3-A E. W. Williams Jr. is 853 feet from south and east lines of seion 1141, TW&NG survey.

The No. 4-A E. W. Williams Jr. is 467 feet from north and 1,787 feet from east lines of section 1152, H&OB survey, abstract 1124.

#### ECTOR WELL

John H. Hendrix Corp. No. 2-41 J. L. Johnson, drilled in an attempt to reopen Grayburg production in the Donnelly multipay area of Ector County, has been completed from the field's San Andres pay.

Drilled to 4,295 feet and plugged back to 4,294 feet, the well finaled for a daily pumping potential of 30 barrels of 38-gravity oil and 1-02 barrels of water, through perforations from 4,281 to 4,287 feet.

The gas-oil ratio is 1,666-1.

Location is 990 feet from south and 467 feet from west lines of section 41, block 43, T-1-S, T&P survey and seven miles northwest of Odessa.

No. 4 S. E. Ligon-State be designated the discovery well of the Worsham, East (Cherry Canyon) field. Alternate names include Ligon-State (Cherry Canvon) and Worsham-Bayer (Cherry Canyon).

The discovery is 2.8 miles north and west of the Waha, West (Cherry Canvon gas) pool and four miles east of the Worsham (Cherry Canyon gas) field.

The wellsite is 990 feet from north and east lines of section 16, block 7, H&GN survey.

#### LEA OPENER

David Fasken of Midland No. 1 Warren has been completed as a Devonian discovery in Lea County, eight miles southeast of Lovington.

The opertor reported a 24-hour flowing potential of 182 barrels of 53.1-gravity oil and no water, through a 1/2-inch choke and perforations from 11,818 to 11,882 feet. The pay was acidized with 500 gallons. The gas-oil ratio is 52-1.

Hole was drilled to 11,980 feet and plugged back to 11,931 feet. Five and one-half-inch casing is cemented on bottom.

Location is 2,080 feet from north and 1,980 feet from east lines of section 8-17s-37e.

#### UPTON DISCOVERY

Tom Brown, Inc., of Midland No. 1 Neal-Fluor has been completed as a Wolfcamp oil discovery in the Benedum multipay area of Upton County, 11 miles northeast of Rankin.

A re-entry project, it finaled for a daily flowing potential of 81 barrels of 53-gravity oil, no water, through a 12/64-inch choke and perforations from 9,498 to 9,520 feet.

The gas-oil ratio is 1,555-1. The pay was acidized with 1,500° gallons.

The operator called the top of the Wolfcamp at 8,156 feet on ground elevation of 2,701 feet.

Other tops include the Dean, 7,970 feet; Pennsylvanian lime, 9,890 feet; Woodford, 10,418 feet; Devonian, 10,-526 feet, and the Fusselman at 11,096 feet.

Total depth is 11,242 feet and the plugged back depth is 11,000 feet.

Wellsite is 660 feet. from south and 1,980 feet from east lines of section 38, block Y, TCRR survey.

#### CROCKETT REOPENER

The Block 46, East (Grayburg oil) pool of Crockett County has been reopened with completion of H&W Enterprises of Midland No. 1 Water Dog, 16 miles southeast of Big Lake. The well originally was drilled by

Eason & Hancok as the original discovery well of the field.

H&W re-entered and recompleted the well for a daily pumping potential of 15 barrels of 33.5-gravity oil, no water, through perforations from 1,-646 to 1,688 feet, after a 20-barrel fracture treatment. The original completion was through the same set of perforations.

The gas-oll ratio on the new potential is 400-1. )

Thomson survey No. 1. Total depth is 5,202 feet and 4.5-inch casing is set at 5,200 feet.

#### RUNNELS CONFIRMER

Ground elevation is 1,843 feet.

American Trading & Production Co. of Midland No. 1-A C.L. James has been completed as the third active well in the Lindemann (Gardner sand) field of Runnels County, eight miles northeast of Ballinger.

The Grayburg was topped at 1,588

feet and the Queen was hit at 1,508

feet. Derrck floor elevtion is 2,551

Total depth is 1,748 feet and the plugged back depth is 1,705 feet.

The operator reported a daily flow of 14.24 barrels of oil, no water, through a 14/64-inch choke and perforations from 3,868 to 3,877 feet, after a 2,0000-gallon fracture treatment.

Total depth is 3,898 feet and the plugged back depth is 3,908 feet. Four and one-half-inch pipe is set on bottom

Location is 330 feet from north and west lines of section 17, Norvell Travis survey No. 533.

#### STERLING RE-ENTRY

NRM Petroleum Corp. of Midland will attempt to reopen the Triple C (Ellenburger) field of Sterling County at its No. 1 Reed, a re-entry project 13 miles north of Sterling City.

The project is 660 feet from north and east lines of section 73, block 17, SPRR survey.

The project is the former C&K Petroleum No. 1-73 Reed which was drilled as a wildcat to 8,175 feet and abandoned in 1975. NRM will deepn to 8.275 feet.

#### NOLAN WILDCAT

Texas Pacif Oil Co., Inc., No. 1 Gertrude Withers has been staked as a 6,500-foot wildcat in Nolan County, three miles south of Sweetwater.

Drillsite is 990 feet from south and 2,173 feet from east lines of section 72, block -22, T&P survey and 1/2 mile east of the J.M.R. (Strawn) field and two miles northeast of the pool's Mississippian oil production. It also is 5/8 mile northeast of a 6,485-foot dry hole.

#### SUTTON EXPLORER

William Perlman of Houston announced location for a 6,000-foot wildcat in Suttn County, 15 miles east of Sonora.

It is No. 2 Lea Allison, 660 feet from north and 3,120feet from west lines ofsection 34, block B, HE&WT survey and one and five-eighths miles southeast of Perlman No. 1 Lea Allison, scheduled 6,000-foot wildcat 2.5 miles northeast of the Eight Mile Draw. (Cisco) field.

. 9

#### CROCKETT TEST

Dan J. Harrison Jr. of Houston No. 17-167-32 University Land will be dug as a 9,400-foot wildcat in Corckett County, 11 miles southwest of Ozona. It is 660 feet from south and west lines of section 17, block 32, University Lands surveyand 1/2 mile southeast of the depleted Wolfcamp gas discovdry of the Ozona, Southwest multipay field.

The location also is 1/2 mile north of Harrison No. 15-16-32 University, an active wildcat drilling below 1,087 feet on last report.

# Brownsville

CORPUS CHRISTI, Texas (AP) -Preliminary toxicity tests taken from the oil slick approaching Texas waters are expected today, and scientists plan to test the currents to determine where the slick is headed.

Gulf No. 626 W.N. Waddell, 1d 9410 feet, moved in and rigged up comple-tion unit, bled well down, went in hole with pump and rods, rigged down and released completion unit. Gulf No. 107 Estes, 1d 4900 feet, flowed and recovered 54 barrels of water, with no show of gas or oil, squeezed perforations 1797 to 1863 feet, released completion unit. An overflight Monday revealed the northernmost patch of oil was 90 to 100 miles south of Brownsville, he. said. "That was two isolated ribbons and some sheen, but not what you would consider as a slick," said Coast Guard spokesman Richard Griggs.

Members of the federal-state tracking team will drop current probes, which release dye into the water, he said. By watching the dye, scientists can calculate speed and direction of the oil.

A team of scientists rode the Coast Guard cutter Point Baker into the Gulf Monday to take samples of some of the oil. The scientists, part of the Environmental Protection Agency response team, also dropped a buoy about 155 miles southeast of Brownsville. A satellite will\*monitor movement of the buoy to show which way the currents are running, Griggs said.

Meanwhile, two truckloads of oil" containment equipment are headed for Texas from North Carolina, he said, adding that scientists will use the equipment offshore when it nears Texas waters.

The Coast Guard, which has been flying over parts of the Gulf in a C130 daily with special electronic surveillace equipment, spotted oil on a flight 180 to 240 miles south of Brownsville. Griggs said from 110 to 180 miles

south of Brownsville, the team observed "a lot of sheen, ribbons of oil, as well as some ribbons of oil a little bit farther north of that. But there was no significant amount of oil any farther north than we had expected.

The Coast Guard will make another overflight today, he said.

A Mexican official helping Americans monitor oil drifting from a runaway well off the Yucatan Penisula said the flow from the well has been reduced by a third and should be capped by Sept. 16.

"The spill has been reduced from 30,000 barrels a day to 20,000 to 21,000 barrels a day," said navyCapt. Jos H. Orozco of Mexico City. "That's by direct methods - pumping in special mud (tryig to clo the well). W are stil working on two relief wells.

He said relief wells will take the pressure off the well, which blew out June 3, "and eventually stop the flow. Sept. 16 is the target date." Orozco joined the U.S. team Sunday as a liaison officer.

A small patch of oil already has washed ashore near Tuxpan, Mexico, south of Tampico, but Orozco said it caused no lasting damage. "It was cleaned up in a day. The beach wasn't harmed," he said.
