MULESHOE — County Seat of Bailey County — TEXAS

Thursday, July 23, 1949

Funeral Services Conducted Sunday For Mrs. John Davis

Mrs. Clara Addie Carruth Davis, 47, passed away Saturday, July 16, at 1:45 p. m. at the family home south of Muleshoe after a long illness.

Other survivors are: Six sisters, Mrs. Lewis E. McNeely, Middleton, Texas; Mrs. Gus S. Bellamy, Sudan; Mrs. Carrie Lee Bishop, Lubbock; Mrs. Lillie Mae Chesler, Lubbock; Mrs. Horace Holt, Amberst; Mrs. Rex Batiste, Jackson, Miss.; and a brother, Charles E. Carruth, of Amberst, Texas.

Mrs. Davis was a member of the Methodist Church. She was born March 18, 1902, at Post Lavaca, Texas.

Funeral services were conducted at the First Methodist Church of Muleshoe at 4 p. m. Sunday, July 17, by Rev. Gladwick, South Methodist pastor and Rev. T. C. Craft, pastor of the Muleshoe church.

Lions President

NEW YORK, July 20.—Walter C. Fisher, Queenston, Ontario, Canada, is the new president of The International Association of Lions Clubs, (Lions International). He was elected by unanimous vote at the 32nd annual convention of the Association which closed here at Madison Square Garden today.

COTTON INSECT FIELD TOUR BEING ARRANGED FOR ALL INTERESTED FARMERS OF THIS AREA FOR NEXT WEDNESDAY

Odis Echols And His Melody Boys To Be Here On July 29

Reserve Unit May Be Formed

Consideration is being given to the establishment in Muleshoe of a volunteer Electronic Warfare Platoon, a part of the United States Navy Reserve.

Odis Echols

LaFont May Run For Legislature

Harold M. LaFont, Plainview attorney, said tonight that if Governor Shivers calls a special election to select a successor to L. B. (Doc) ... he definitely would be a candidate.

Soil Conservation Meeting To Be Held In Muleshoe Tuesday, Aug. 2

A group of interested farmers met at the Vocational Agriculture building last Tuesday night to discuss some prevalent farm problems that are of special interest at this time.

Field Man Named For Woodmen Here

District manager W. D. Chapman and H. A. Sessions, of Sunday, was here Wednesday making arrangements for Mr. Sessions to be field man for the Muleshoe territory.

Baptist Revival At Baileyboro

A revival meeting will begin at the Baileyboro Baptist Church on Friday night, August 5.

Fine Meeting Ended Sunday

The meeting at the Church of Christ, conducted by Minister Hershel Dyer, of Lubbock, came to a close Sunday evening, July 17.

W. B. Pruitt, 81, Dies In Lamesa

W. B. Pruitt, 81, died in Lamesa, Texas, July 3, 1949, at the home of a daughter.

Funeral services were held at the Bryan Street Baptist Church in Lamesa at 10 o'clock on the morning of July 5, by the Rev. Jones. The body was taken overland to Mangum, Okla., and was laid to rest by the side of his wife, who departed this life March 25, 1933.

Mrs. Creamer To Be At Lunch School

SAN MARCOS, July 20.—Mrs. Ethel Creamer of Maple is among the 150 school lunchmen managers from over the state who have enrolled for the Institute for School Lunch Managers to be held at Southwest Texas State Teachers College July 21 through August 6.

Main St. Church Plans Revival

A revival meeting will begin at the Main Street Missionary Baptist Church in Muleshoe July 28. It will continue through August 7.

Open House For New Legion Home

Open house at the American Legion new home in Muleshoe has been set for the coming Saturday afternoon, July 24, from 2 until 7 o'clock.

Rev. Nix Is To Preach Sunday

The public is cordially invited to hear Rev. J. E. Nix at the First Baptist Church, preach both services next Sunday, July 24.

BACK FROM CALIFORNIA

Rev. A. W. Haine and family have returned from a trip to California. He conducted a revival meeting at the First Baptist Church in Atroyo Grande, Calif.

VISIT THE RANDOLFS

Mr. and Mrs. J. E. King and sons of Texas, N. M., were visiting at the Ebba Randolf home Sunday.

Guy Carpenter, Extension Entomologist for this area, will arrive in Muleshoe Wednesday morning July 27, at 9:00 to take the major role in a cotton insect field tour being arranged for all interested farmers.

The count should always be made to assure each farmer that he is not dusting or spraying too early or too late and when control measures are necessary.

The Extension Service has discarded previous recommendations for aphid control and now recommends a dust of 10 to 15 pounds of 3-5-40 as needed for a "knockout".

The remainder of the day will be used to visit farms and farmers south of town. Mr. Carpenter will stop at Needmore at approximately 3:30 p. m.

Butane Dealers To Attend School

Butane dealers in the Texas Butane Dealers Association will attend a school at Lubbock on July 28 and 29 for a two-day session.

The local group expects to attend the sessions including members and employees of the Muleshoe Liquefied Gas Co. and Wadsworth & Childers, which firms are members of the Texas Butane Dealers Association.

The sessions are made possible by cooperation of the University of Texas with the Texas Butane Dealers Association, two top officials of the University's Division of Extension having been assigned to conduct the classes.

Training clinics form a definite part of the association's program of education and information for members and their employees.

Need The Journal West Ad.

More Roads Designated To Be Paved In Palmer County

State Highway Engineer D. C. Greer has notified Palmer County officials that the Texas Highway Commission, meeting in Austin recently, has designated another eleven miles of farm-to-market road in Palmer County to be constructed during a two-year period, beginning Sept. 1, 1949.

The additional eleven miles will begin at the end of the present pavement on E. M. No. 269, which now extends 4 miles south of the Hub, and will run to Bailey County line, thus giving a complete paving strip from Ytoma to Muleshoe.

County Judge A. D. Smith said today the county would take immediate steps to complete this right-of-way, and added that as yet none of it has been procured.

He expressed the opinion that all of the required right-of-way could be obtained through easements without cost to the county.

With this designation, Palmer County is soon to receive 21 miles of new farm-to-market road construction.

Costs of the extension of E. M. No. 269 is estimated by the State Highway Commission at \$85,000, and the route from Bailey county line to Ytoma will be maintained by the State after it is completed.

From The State Line Tribune, Farwell.

Frank A. Runkles New Camp Ranger

Frank A. Runkles

The Plains Council, Boy Scouts of America, announced today through its president, Dr. P. B. Melone, the employment of Mr. Frank A. Runkles to serve as Camp Ranger at the Council's Camp Post, located two and one-half miles southwest of Post, Texas.

Mr. Runkles, better known as "Chief" to the thousands of Boy Scouts over the South Plains, will assume his new duties on July 16. Mr. and Mrs. Runkles and their children, Don, Wayne, Wanda, and James, will live in the Campsite in the Caretaker's home.

Local Markets

Table with 2 columns: Item and Price. Includes Cream, Eggs, Light Hens, Heavy Hens, Hides, Hogs, Meats, Kefir, Hegeri, and Wheat.

Lack Of Field Workers Slows Down Canning Of Area Bean Crop

Lack of pickers this week was holding up the operations of the Muleshoe Canning Co. plants now in the midst of their bean canning season.

Palsy Treatment Clinic To Be Held

The Cerebral Palsy Treatment Center will hold a clinic for the examination of cerebral palsied children on Monday, August 15, at 10 o'clock.

Barbara Bowers Eligible For Camp

Barbara Ann Bowers, 4-11 Club girl of Bailey County, has been named an alternate delegate to the second annual Conservation Camp to be held at Trinidad Lake, Texas, Aug. 22-26.

ENGLAND GOING SAME
WAY AS RUSSIA

There is a saying to the effect
that a "little bit of socialism" is a
good thing for a country—that it
puts free enterprise on its toes
and keeps it humping.

However, having a "little bit of
socialism" is like having a "little

touch of leprosy." It always grows
and feeds upon itself. And in time
it consumes everything that stands
in its way.

As an example, on June 8 the
New York World-Telegram carried
a revealing news story. It said that
"Britain's Labor government eyed
notice that if it wins next
year's parliamentary elections it
will transform the United Kingdom
into a collectivist state as soon as
possible." It will demand and un-
doubtedly enact a law giving the
government permanent authority
to impose rationing and other
such controls. It has marked at
least six more major industries for
socialization, including sugar re-
fining, meat wholesaling, cement
making, and various forms of in-
surance. A high labor spokesman
warned that "people must be
ready to change their jobs and
managements to change their lines
of production if the need arises."
He said further that private indus-
try must watch its step.

The meaning and intent of all
this is certainly clear. If the labor
party wins, "a little bit of social-
ism" will be made all inclusive,
and a total, regimented economy
established by the government. All
the principal instruments of pro-
duction and employment will be-
come possessions of the state. La-
bor will be a tool of the state, to

Babson Discusses Unemployment

BABSON PARK, Mass., July 15.—
Of course, someday this country
will suffer from a bad dose of un-
employment; but this time has
not come yet and it will not
come during 1949. The present un-
employment scare which certain
labor union officials are starting
has no justification.

What Are The Facts?
Let us assume that the official
figures issued last week of 3,788,-
000 unemployed are correct, al-
though I think these are too
large. Well, when I was Assistant
Secretary of Labor in 1917-1919,
normal employment was then
officially stated as 2,500,000. This
included the sick and those evi-
dently laid off. Yet, in those
years the total business of the
country was less than half what it
is today.

Roger W. Babson

The above facts show that un-
til 5,000,000 are reported as "un-
employed," we have nothing to
worry about. Remember that since
1917 the total number of unem-
ployed has jumped from 25,000,000
to 60,000,000 people. Remember
that five times as many women
are employed today as before
World War I. Remember how much
less work a carpenter, painter or
bricklayer does today than he did
thirty years ago. It is a miracle
that some of them are now em-
ployed at all!

Unemployment Insurance
Is unemployment insurance for
good or evil? I don't know; but
I believe that many are now leav-
ing their jobs for vacations this
summer and are taking their \$25
per week "unemployment" insur-
ance. I am sure that such insur-
ance encourages unemployment
and increases the unemployment
figures. Once each month your
State publishes what it paid out
the previous month to the so-called
"unemployed." Much of this
money is being taken unfairly, but
the people say: "Everyone else is
getting it, so why shouldn't I?"
Over half of the unemployment
money which is being distributed
every week in your community
comes out of the rest of us. It is
one of the chief causes for present
high taxes. It is teaching people
to be dishonest; and it is leading to

great abuse and corruption the
same as did Prohibition.

I recently heard of a city where
over 100 clerks are busy everyday
just writing unemployment checks!
It is not just the money paid out
to the unemployed; but the huge
cost of looking up the evidence
and keeping the books. I am told
that it costs over twenty cents for
clerk-hire in order to pay out one
dollar! Someday there will be a
big political scandal relative to
unemployment insurance. Such in-
surance has a legitimate use in a
real business depression, but no
such depression exists today when
people drive in shiny new auto-
mobiles to collect their insurance
on their way to the beach.

Unemployment Outlook
The question is often asked me
as to how bad unemployment will
be and when it will be at its
worst. I have not yet collected
sufficient data to give an opinion
now. But Doctor Joseph L. Snider,
one of the country's greatest
authorities on Business Economics
has some ideas on this question.

He is reported from the estimat-
ed that the Industrial Index of the
Federal Reserve Board will go off
about 25% below the peak of
1948 and that about 8 to 10% of
this decline has already taken
place leaving only about 15% or
more to go. Let us hope he is
correct as other authorities believe
this Industrial Index will go off
50% which means we may have
40% more to decline.

How To Look
Let us look forward instead of
backward; upward instead of
downward; outward instead of in-
ward. Think of the great unfulfilled
orders today for more automo-
biles, more roads, more houses,
more bathrooms and especially
more household electrical appli-
ances. This latter demand is es-
pecially evident from the budgets
which the public utility systems
have for the next few years. The
electric power companies alone
tell me that, unless some cata-
strophe like war should happen,
their output will double during the
next ten years. This output itself
will require new power units as
well as new wires, poles and mil-
lions of new motors and appli-
ances of all kinds. Certainly, this
is no time for those of good
character and education to worry
about unemployment. Such per-
sons can, if necessary, create new
jobs for themselves.

CITATION BY PUBLICATION

THE STATE OF TEXAS
TO: Tom C. Miller Greeting:
You are commanded to appear and
answer the plaintiff's petition at or
before 10 o'clock A.M. of the first
Monday after the expiration of 42
days from the date of issuance of
this citation, the same being Mon-
day the 22nd day of August, A. D.
1949, at or before 10 o'clock A. M.,
before the Honorable District
Court of Bailey County, at the
Court House in Muleshoe, Texas.
Said Plaintiff's petition was filed

be used in whatever way the
bosses think best.
It is only a step from this to the
police state that exists behind the
iron curtain. When you have a
dictated economy, you eventually
have a dictator and lost liberty.
Powerful political forces in the
United States want us to go the
way of Britain, and are using
every subterfuge to sell us on a
similar program, before the people
are aware of the danger.—Ex-
change.

on the 20th day of April, 1949. The
file number of said suit being No.
1594. The names of the parties in
said suit are: Texana Miller as
Plaintiff, and Tom C. Miller as de-
fendant. The nature of said suit
being substantially as follows, to-
wit:

Plaintiff alleges that she was
married to the defendant, on the
7th day of June 1947, and lived
with him until the 16th day of
September 1947, the date Defend-
ant left Plaintiff, and went to
Crane, Texas, to live. Plaintiff al-
leges, that the Defendant, within
two or three days after their mar-
riage, began a course of unkind,
harsh and tyrannical treatment
toward her, which continued un-
til the final separation. Plaintiff
alleges, that Defendant told her,
that he did not love her, but mar-
ried her to get hold of Plaintiff's
property. Plaintiff alleges that the
Defendant abused her, and struck
her in the face with his fists, and
hit her with a large stick, all of
which caused mental strain, phys-
ical pain and anguish. Plaintiff
alleges that there is no com-
munity property, either real or
personal owned by Plaintiff and
Defendant, and that there were no
children born of said union, and
that Plaintiff and Defendant, or
either of them, have at any time
adopted any children. Plaintiff
prays judgement for a divorce, and
that her former name of Texana
Blankenship be restored to her, and
for such other and further relief
that she may be justly entitled to,
etc.

Issued this the 7th day of July,
1949. Given under my hand and
seal of said Court, at office in
Muleshoe, Texas, this the 7th day
of July A. D. 1949. M. G. Bass Clerk
District Court, Bailey County, Texas
By Lillian A. Sellars, Deputy.

CHRISTIAN SCIENCE SERVICES

"Truth" is the subject of the
Lesson-Sermon which will be read
in all churches of Christ, Scientist,
on Sunday, July 24.

The Golden Text is: "Teach me
thy way, O Lord; I will walk in
thy truth" (Psalms 86:11).
Among the citations which com-
prise the Lesson-Sermon is the
following from the Bible: "Lead
me in thy truth, and teach me:
for thou art the God of my salva-
tion; on thee do I wait all the
day" (Psalms 25:5).

The Lesson-Sermon also in-

cludes the following passage from
the Christian Science textbook,
"Science and Health with Key to
the Scriptures" by Mary Baker
Eddy: "Science will declare God
aright, and Christianity will dem-
onstrate this declaration and its
divine Principle, making mankind

Smith has been attending a military school in Montgomery, Ala. and was enroute to San Antonio, where he is stationed. He and Mrs. Smith left Thursday. He has been in the U. S. Army 21 years.

VISITED SISTER
Miss Elizabeth Harden visited over the week end with her sister, Mrs. W. H. Bethany in Amarillo.

ENROLLS AT TECH
Fuston McCarty entered Tech for the second summer semester. He is taking an extra course that will help him with his work at IA & M.

FURNITURE FASHIONS by Frances Ainsworth

GRAND RAPIDS, MICHIGAN—One of the distinctive, adaptable new furniture designs shown at the market in Grand Rapids, the illustrated chest is an authentic reproduction of an Old English design. Shown as a decorative, spacious dining room piece, the removal of the top deck and addition of a mirror makes it equally appropriate and convenient as a double dresser in the bedroom. Superbly made, the authentic burnished pulls, decorative inlays and rich finish make this piece a prized possession for the home-maker. It is a piece that exemplifies Grand Rapids' century old tradition for the finest in furniture.

NOW, YOU GET . . .
MAXIMUM CROP PROTECTION
THROUGH
CONTROLLED SPRAYING

Here's effective weed and insect control for your crops that SAVES YOU TIME AND MONEY.

The C. S. "COVERALL" Rig has been designed and constructed to give you LONGER OPERATIONAL LIFE and MAXIMUM SPRAYING EFFICIENCY at a price to fit your pocketbook.

The Carlson-Skea engineers have worked right on the farm to solve many of the mechanical problems involved for achieving effective crop spraying while extensive laboratory tests to determine the corrosion factors of the weather and spray chemicals on materials used in its construction were made.

Every effort was put forth to give top quality construction at lowest cost . . . and yet—CARLSON-SKEA HAVE PRODUCED A QUALITY SPRAY RIG AT THE RIGHT PRICE!

Farm Safety Week To Be Observed Over The Nation July 24 To 30

WHAT IS THE GOAL OF THE 1949 NATIONAL FARM SAFETY WEEK?
The goal for National Farm Safety Week this year is to direct all possible attention to unsafe practices which cause accidents to farm residents. Each member of every farm family will be asked to study the hazards associated with rural life so that all tasks may be performed in the safest possible manner every day in the year.

WHAT IS THE LONG RANGE PURPOSE OF NATIONAL FARM SAFETY WEEK?
The long range purpose of National Farm Safety Week is to make all members of every American farm family as safe as possible, to cut the annual toll of needless deaths and injuries as much as possible, to make farm life a safer, happier and more prosperous way of life.

WHO SPONSORS NATIONAL FARM SAFETY WEEK?
National Farm Safety Week was conceived by the National Safety Council in 1944, and is sponsored by the Council and the United States Department of Agriculture

in cooperation with the National Fire Protection Association, the Farm Equipment Institute, the American Farm Bureau Federation, the Farmer's Union, the National Grange and many other organizations interested in agriculture and farm life.

Each year the week has been officially proclaimed by the President of the United States.

WHO IS AFFECTED BY ACCIDENTS TO FARM PEOPLE?
Everyone in the United States is affected directly or indirectly by accidents to farm residents. Organizations having an interest in farm life can be greatly affected because of the economic upset caused by accidents on the farm. The greatest grief and loss as the result of farm accidents, of course, is to the farmers themselves.

Telephone Bill Now In Senate

WASHINGTON, July 14.—Legislation designed to make modern telephone service available to more than half the nation's farm homes went to the Senate today with the overwhelming backing of the House.

It was passed by the House yesterday, 282 to 109. The legislation would allow the Rural Electrification Administration to operate in the telephone field in the same manner that it now operates in the field of rural electricity. The REA could make loans to telephone companies, or to cooperatives formed to provide telephone service, with existing companies having priority for the first six months.

State Library In Austin Will Loan Books To Individuals Everywhere

Have You Tried?

Using cotton on a mouse trap instead of cheese. Mice gather it for baiting their nests. Keeping your bread in the refrigerator. If it is kept there wrapped it will stay fresh, moist and free from mold longer. You may lose one-third of your light if you let your bulbs or globes get dusty. Clean parchment shades by rubbing with a piece of fresh white bread, an art gum eraser or a soft cloth dipped in milk.

COLLEGE STATION, July 20.—One hundred and fifty of Texas' 254 counties have no public library, and 3½ million Texans are not getting adequate library service, says Wayne Rohrer, assistant professor, department of agricultural economics and sociology of Texas A. & M. College. It's assumed that a large number of these are members of farm and ranch families.

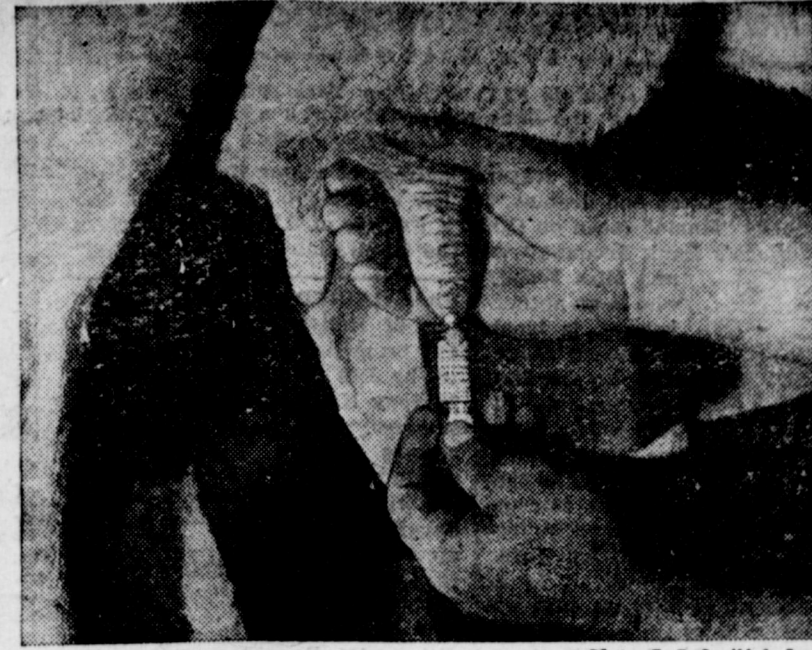

Rohrer gives two suggestions that should be helpful to those families who are interested in better library facilities. He says the Texas State Library, Austin, will loan books to any person who lives in a county that is not adequately served by a free public library. As many as six books may be borrowed at one time. The borrower pays the postage to and from the library and agrees to return the books within three weeks from the mailing date. Time extensions will be granted if asked for before the deadline date. This plan, continues Rohrer, is known as the Service to Individual Borrowers.

The other plan is known as the Family Library Service plan. It is a continuous and automatic service. Families registered for the service may receive at definite intervals a collection of books selected to meet the particular interests of each reader in the family and books may be kept for as long as two months. Rohrer says more than 50 different subjects are listed and they range from sewing and house plans to farm machinery, histories and special books for the younger members of the family. The Texas State Library makes it easy for the farm family to borrow books. The fact sheet that is filled out by the family shows the age, grade in school and the interests of each member of the family and this information is used by the librarians at Austin to help them make the best possible selection for the family. Rohrer adds, that the family may select the kind of service it desires; that is, they can get another collection of books each time they return a collection or they can write for a collection when one is desired.

This is an excellent service and it gives rural people the advantages of a conveniently located free public library. Here is a tax-supported service that is waiting to be enjoyed by anyone who is interested enough to write to the Texas State Library, Austin for complete details of the two borrowing plans, Rohrer concludes.

Penicillin Treatment for Mastitis Now a Matter of Seconds

Easy-to-use tube saves time, is hygienic and painless.

NEW BRUNSWICK, N. J.—Introduction of a new penicillin ointment, which comes in a specially designed "easy-to-apply" tube, now enables dairymen to treat Mastitis with penicillin easily, effectively, and at relatively low cost.

Mastitis has been one of the dairymen's worst destroyers of profit, for it is an insidious under infection which makes milk unsalable and progressively reduces milk production, causing losses each year of millions of dollars to the dairy industry.

It was as long as five years ago, in 1944, when it was first discovered that penicillin was effective against *Streptococcus agalactiae*, an organism which was responsible for 80 to 90 per cent of all cases of bovine Mastitis.

In the early days, however, the use of penicillin was restricted by the high cost of the drug and by the complicated procedure of application then obtaining. With the increase in production of penicillin, the price was reduced, but it remained for the veterinary profession and the pharmaceutical industry to perfect a penicillin treatment which would be easy to apply, as well as stable, non-toxic, non-irritating and long-lasting in its curative action.

Working with members of the veterinary profession, scientists at E. R. Squibb Laboratories here were successful in perfecting a penicillin ointment meeting these rigid requirements. It remained, however, to provide a proper dispensing agent, so that the penicillin would get into the infected

quarter of the cow easily, quickly and without pain. Clinical tests of the ointment in tubes showed that no tube then on the market was of the proper dimensions. Veterinarians envisioned a tube with a long, tapered, smooth nozzle which would be snug-fitting when inserted in the teat opening. Moreover, it must be small enough in diameter to go into the teat opening easily and without injury to the quarter.

Such a tube was finally designed by the Veterinary Division of E. R. Squibb and Sons. Tube manufacturers first thought it impossible to make, but this specially-designed tube is now in mass production and is being used by several manufacturers of penicillin.

The thoroughness with which penicillin ointment acts is largely due to the dispersing agent—petrolatum. After injection into an infected quarter, the ointment floats on the milk and is dispersed throughout the udder. The penicillin is released slowly from the ointment, prolonging effective action for as long as 72 hours after treatment.

"Instant-use" tubes of penicillin are available in most stores where drugs are sold. Injection is simple: the dairymen has only to insert the nozzle in the cow's teat opening and squeeze the tube. Treatment is only a matter of seconds. This revolutionary method of treating Mastitis is saving millions of gallons of milk otherwise lost, and saving thousands of valuable cows from slaughter.

THE MULESHOE JOURNAL, Thursday, July 21, 1949

Progress Man A Senior At A. & M.

COLLEGE STATION, July 20.—Elroy Otte, son of Fred Otte of Progress community, is now a senior at Texas A. & M. College. Elroy was inducted into the Navy in June of 1943, and finished boot camp in San Diego, California. He served one year in Alaska, 14 months in South America, six months in Annapolis, and was honorably discharged in April of 1946.

He entered A. & M. in September of 1946. Elroy is active in intramural football and baseball. He is past vice-president of the Heart O Texas Club, historian of the A. & M. Collegiate Chapter of Future Farmers of America, and past president of the Annex Student Association.

Elroy is majoring in agricultural education.

Wiring Tips . . .

When you plan your farmstead wiring job be sure that you consider all of the uses you will make of electric service. Be sure that it complies with the rules of the National Board of Fire Underwriters. Many rural people who do not plan ahead find it is often costly to rebuild their wiring system when it becomes inadequate to supply their needs.

You will need competent help in wiring your farmstead. Almost anyone handy with tools can string wires around the place, but it takes a good electrician to install the wiring safely and adequately. If properly done, your farmstead wiring should be as safe and efficient in 15 or 20 years as it was the day it was completed. Do not forget your plug-in outlets. You will want one placed along the wall in most rooms at least every 20 linear feet of wall space. At no point along the wall should your appliances have to be plugged in more than 10 feet from an outlet.

Three good rules to follow in making the best use of your new electric servant are: plan your wiring with vision and foresight; have heavy enough wires and ample circuits to carry your estimated future power load and have a competent electrician do the work; second, before using, have it inspected by a competent inspector; third, make certain by inspection, that any additions that you may make in the future on your wiring system are safe and adequate.

One-Story Home Grows in Favor Plan Well Suited To Farmers' Needs

The one-story home with basement for the laundry storage purposes and the heating plant is growing in popularity.
Highly suited as a farm home because it eases housekeeping, its popularity is demonstrated by the number of ranch-type houses being built today in both rural and metropolitan areas.

The one-story and basement house pictured here offers features that justify the popularity of homes of this type. Planned as a farm home, it includes the conveniences of modern design found in city homes.

The narrow kitchen is accessible to both the dining area at one end

of the living room and to the dining porch. Sink and storage shelves are along the outside wall, with the stove and additional storage area on the inside wall. This arrangement provides numerous economies.

The work room is adjacent to the dining room porch but far enough from the living and bedrooms to confine disturbing noises. The two bedrooms, each with two exposures, contain ample closet space and are close to the bathroom.

The garage is separated from the house by a breezeway, which can also serve as an outside porch.

The basement includes several features considered essential to comfortable living on a farm. It is entered from the back porch, eliminating this traffic from the living area of the home.

The cold room is ample for storage of glassed fruits, vegetables and other farm produce. Plenty of electrical outlets in this room provide current for a food freezing locker.

In one corner of the laundry is a shower.
LOT FOR SALE—75x140 feet, Hillcrest addition. Bill Collins. 24-2tp.

Poultry House Cleaner

A superior poultry house cleaning method has now been found—cleaning with a high-pressure sprayer. As shown here, the high-pressure spray actually pulverizes the dirt and droppings and blasts them away. Food Machinery and Chemical Corporation developed the sprayer that is doing the cleaning. It is said to do a better and cheaper cleaning job, faster and easier.

Hormones May Limit Frost Damage in Time

American apple growers, usually hard hit financially by late spring frosts will soon be able to avoid that obstacle. A combination of tracers (radioactive atoms) and hormones may make it possible to keep apple buds closed until the cold season has passed—thus saving the industry millions of dollars lost annually through damaged fruit. A spray would be used to cover fruit and prevent freezes.

Tuesday is the day for issuing patents in the U. S. patent office. Patents are not issued on the other days of the week.

Washington is the No. 1 state in the production of aluminum.

CAA OFFICIALS HERE

Two officials of the Civilian Aeronautics Administration visited briefly in Muleshoe this morning and conferred with city officials and other interested people. They are: S. E. Travis, Fort Worth, chief of the Airport Division; and J. D. Church, Big Spring, Division Engineer. Both men praised Muleshoe's airport, remarking upon its accessibility and convenience of location, lay of the land etc.

4-H Girls Attend District Camp

There were 102 district II 4-H girls and 43 leaders and home demonstration agents attended a three day camp at the Panhandle-South Plains fair ground July 12, 13 and 14. This camp was supervised by Miss Kate Adele Hill, district agent of district II.

The Bailey County girls who won the privilege to go to this camp were: Barbara Bowers, Doris Jean Copley, Ruby Jane Carney, LaVon Copley, Patricia Simmacher and Joy Dean Warner. These girls

were sponsored by Mrs. Roy Carney and the home demonstration agent, Marie T. Corrington.

The theme was carried out in western style. The fair ground was 4-H Ranch, the girls were the dogies and steer heads were worn as identification lapel pins.

We had camp crafts where we made copper plaques and silver bracelets with etchings of various designs; recreation consisting of folk dances and study of nature; camp cookery where a whole meal was prepared, and served and various other activities. The "Cowgirl Capers" a bulletin written, edited and mimeographed by the girls created a great deal of interest.

Everyone attending the camp had a lot of fun and each 4-H girl attending the camp is sure to have come home better fitted to carry on club work another year.

VISITING PARENTS

Mrs. Carl Huber and small daughter of New York City, are visiting with her parents, Mr. and Mrs. C. R. Farrell, other relatives and friends.

Watsons Build Beautiful Farm Home

Above is pictured the farm home of Mr. and Mrs. Watson, recently completed on their place 9 miles west and one south of Muleshoe. The Watsons farm 600 acres, using three irrigation wells. The new home is planned to make the most of electricity, be-

ing filled with every possible appliance to make living more comfortable and housekeeping easier. The new home has every convenience known to town dwellers. Many such homes are being built by the people of the rural areas of the plains.

How Long Will Frozen Food Keep?

Clothes Dryer Saves Time, Work

The busy farmwife can save much time and energy by using an electric clothes dryer. Not only does it release her for other work, but permits her to wash oftener, keep fewer clothes and linens on hand.

The biggest job on washday is lifting and carrying heavy bunches of wet clothes, hanging and taking down the clothes piece by piece. With a dryer, clothes can be handled in from the washing machine in about 20 seconds. A dryer saves steps. According to one survey, the average woman walks about 40 miles a year while carrying and hanging clothes.

Stormy days can't upset washday by causing the farmwife to take down clothes which are still wet and rehang them inside. And with a dryer, there's no clothes line to become sooty or to break just as the last garment is hung.

Drying time is very much shortened by use of a dryer. The hot air, blown by a fan dries a mixed laundry in from 30 to 60 minutes.

A time-consuming laundry process, sprinkling, is eliminated by using this machine. Clothes can be removed from the dryer at the right dampness and can be ironed on the spot. A timer can be set for any number of minutes up to an hour.

If you're lucky enough to have a home freezer, or locker space, you're probably in the middle of freezing fruits, vegetables, and maybe chicken. How long will these frozen foods keep?

To answer that question for you, J. D. Winter, at the University of Minnesota, Agricultural Experiment Station, did some research. Here is a list to keep handy, so that you can check package dates and use the oldest packages first.

Of course, to keep food as long as Mr. Winter suggests, you will have to prepare and wrap them properly, and store them at zero. At 10 degrees F., your frozen foods will keep only half as long as at 0 degrees. The better the wrapping material, the longer your meats, poultry, and fish retain their flavor and color.

16 TO 20 MONTHS
Sliced apples, Rhubarb, Whole Kernel Sweet Corn, Pumpkin, squash pie mix.

Blackberries, boysenberries, loganberries, raspberries, and strawberries—packed in sugar or syrup.

Peaches, apricots, plums, and cherry plums—if packed with ascorbic acid.

12 TO 16 MONTHS
Blueberries, huckleberries, lima beans, ground cherries, broccoli, cauliflower, parsnips, peas, spinach, other greens, sweet potatoes.

8 TO 12 MONTHS
Beef, lamb, venison, rabbits, game birds, cantaloupe, beans—bush and pole, corn on the cob, fruit juices—except citrus.

6 TO 8 MONTHS
Veal, turkeys, mixed fruits, asparagus, poultry—except broilers, lean fish—bass, cod, pike, etc., citrus fruit juices—in glass jars, ascorbic acid.

4 TO 6 MONTHS
Ground beef—unsalted, poultry—cut up, broilers, fresh pork, Fatty fish—if cut pieces are dipped 20 minutes in ascorbic solution—1 ounce to each gallon of water.

3 TO 4 MONTHS
Ham, bacon—unsliced, ground pork—unsalted, cured pork—unsalted, seasoned, geese, poultry giblets, liver, heart, kidneys, most fatty fish—catfish, herring, mackerel.

2 TO 3 MONTHS
Most cooked foods, baked yeast breads, cookies—baked, unbaked, cakes, cupcakes—baked, sausage unsmoked, unseasoned, sliced bacon, baked quick breads, pies—baked, unbaked, lake trout, pink salmon, citrus juices—in glass jars, no ascorbic acid.

LESS THAN 1 MONTH
Left-over cooked foods, unbaked yeast breads, cake batters, ice cream.

How long you hold meat between slaughter and freezing has a definite effect on how long and well it keeps, Mr. Winter says. The longer meat is aged, the sooner the fat becomes rancid in storage. If beef is to be frozen and stored for several months or longer, it should not be aged as long as beef intended for immediate use.

Good, choice, and prime beef should be chilled and aged for 5 to 10 days. Beef of commercial grade or lower takes 4 to 5 days; good-quality lamb and mutton, 4 to 7 days; pork, 1 to 3 days (freeze internal temperature reaches 38 degrees F.); veal, 1 to 3 days; poultry, 3/4 to 1 day.

Soil Conservation District News

Our sixth annual National Farm Safety Week has been proclaimed by the President of the United States, its observance being set for the week of July 24 to 30, 1949.

As you know, most accidents can be prevented. The record of our Soil Conservation Service is proof that a well-directed, vigorous safety program does reduce accidents and injuries. Our Service lost time injury rate in 1936 was 38.00 lost time injuries per million man hours worked, whereas in 1948 our rate had been reduced to 4.90 lost time injuries per million man hours worked. People can be taught to observe hazards and remove or guard against them before an accident happens. The Secretary's memorandum directs that all Government employees who work with farm people should encourage them to become safety-conscious and reduce the frequency and severity of accidents to themselves.

The Work Unit personnel under the direction of the Work Unit Conservationist held a special Farm Safety Week meeting July

18 in the Work Unit office from 8:30 to 9:30 a. m. in which Farm Safety Week observance was discussed, data was distributed, and each employee was requested to check his home and premises for hazards, correcting those which he might find.

Soil Conservation Service technicians assisted R. C. Gaede and M. F. Mooney in laying out ditches for watering row crop land. A topographic survey has been completed on the C. C. and Loyd Stevens farm.

Observe National Farm Safety Week. Remember—Cultivate Safety and Harvest Happiness; One Accident Can Upset Your Whole World.

FASTEST EXPLOITERS IN HISTORY . . .

We in America have been the fastest exploiters in history because of our superior machines and labor-saving devices. Look at what has happened to us. Take 1630, for example. At that time we had:

- Dense primeval forest, 820 million acres.
- Native grasslands, tall and short, 600 million acres.
- Open woodlands, arid lands, mountain tops, etc., 430 million acres.

But then 300 years went by. Look what we have now. Look sharp. It isn't anything to be proud of. Here we are, 1930:

- Merchantable forest, not all virgin, 150 million acres.
- Cut-over forest growing, 200 million acres.
- Cut-over forest dying, 100 million acres.
- Farm woodlands, 150 million acres.
- Grazing lands—open, 330 million acres.
- Farm croplands (irrigated, 25 million) 400 million acres.
- Farm pasture lands, etc., 420 million acres.
- Urban lands, 50 million acres.
- Desert and waste, 100 million acres.

We were looking over our list of stockholders the other day and discovered something we thought you'd like to know. The largest holder of Southwestern Public Service stock owns less than 2% of the total shares!

To us it is reassuring that so many folks have invested their money to help us progress with the area we serve. It means also that ownership of Public Service is vested in thousands of folks right around here... teachers, ranchers, small businessmen, churches.

In other words, your Public Service Company belongs to the Panhandle-Plains-Pecos Valley-Eastern New Mexico. Somehow, that's the way things work best... free enterprise and sound business management... together... for a better way of life.

Mexico Caravan Being Projected

A "Friendship Caravan" to Mexico City, open to all residents of Texas, is being organized to take place in September, when the travelers will participate in the celebrations of Mexican Independence Day and will be formally honored by the Mexican government.

Expected to be one of the largest goodwill visits ever made to Mexico, the trip's headquarters has been established in San Antonio. Point of departure will be Laredo, on September 8. The journey will be 10 days.

The trip will be made in special air-conditioned Pullman trains. One of the many highlights in Mexico City will be a presidential banquet to be given in honor of the visitors by President and Mrs. Miguel Aleman at Casino Militar on Sept. 14. Other dignitaries of the Mexican government also will be present.

Record Polio Year Seems In Making

AUSTIN, July 20.—With the alarming total of 922 Texans having been attacked by the dread disease poliomyelitis, 1949 bids fair to be the worst polio year the State has ever experienced, and health officials in every section of the State are exerting every effort to bring the disease under control. Dr. Geo. W. Cox, State Health Officer, has re-iterated his appeal for every citizen to cooperate in a continuous clean-up program, ridding their premises of all rubbish and trash piles, and any such filth as will afford breeding places for flies and other disease-spreading insects.

"This polio situation will never be controlled without the observance of stringent basic sanitation measures", the State Health Officer declared. "The filth on your premises may cause the disease to attack your neighbor; and the same condition on his premises may cause polio in your home. This problem of controlling polio is one demanding the closest possible cooperation, and until a program of continuous cleaning up is instituted and stringently enforced, we shall continue to face the menace of polio in all sections of the State."

Dr. Cox emphasized to parents whose children are suffering from polio, the comforting knowledge that about 60 percent of all cases of recognized polio recover completely, and at least 25 to 30 percent of recognized cases recover with only minor disabling paralysis.

"Only about 8 percent of polio victims develop the deadly bulbar type, which affects the nerves at the base, or 'bulb' of the brain," Dr. Cox said. "Most patients suffering from bulbar polio die within a very short time. But it is a comforting thought that 92 percent of polio patients never develop bulbar polio, and make a partial, or in many cases, complete recovery and are restored to health."

Buick Will Show Special Model

Ray Keeling, local Buick dealer, goes to Fort Worth on July 21 to attend a preview of the new Buick Special model which will be introduced to the public next month.

Some 800 dealers from the Dallas Zone will be present at the all-day session to be held at the Municipal Auditorium with the meeting being described as Buick's most important full-fledged dealer convention since before the War.

The Special is Buick's lowest priced model and is reported to be completely redesigned. It has been eagerly awaited by the industry

THE MULESHOE JOURNAL, Thursday, July 21, 1949

since the former model went out of production last December.

J. V. Nance, Zone Manager, will preside and, with his staff, will relay to dealers technical and descriptive data on the Special which they obtained during a field sales organization convention in Flint, Michigan July 11-13. Talks on films will be presented to dealers by Buick's top management covering all phases of manufacturing, engineering, sales and merchandising.

ANTON TO OPEN PLAY-OFF SERIES HERE

Amherst Nine Go To Springlake For Other Series Opener Sunday At 2:30

Sunday afternoon beginning at 2:30, the Muleshoe baseball nine will meet the Anton baseball team on the local field in the first game of the play-off. At the same time Amherst will meet Springlake at Springlake. The top four teams in the league at the end of the regular season are playing for the championship in a Shaughnessy play-off.

The decision on the forfeited game to Amherst by Muleshoe is still pending, until the telephone company sends out their regular monthly statement. The date the company has the telephone call listed on the bill will be the deciding evidence as to whether the Muleshoe team will have to forfeit to Amherst.

Regardless of how the decision goes, the four teams that are to be in the play-off will not be affected except that their position would be changed. However, the play-offs will begin on Sunday afternoon.

The Muleshoe and Anton teams also had a game to make up, but nothing was reported to The Journal as to whether this game will be made up or not. It would not make any difference in the teams that are in the play-off, but it also would make a change in the position of the Anton and Muleshoe teams.

A large crowd of local as well as out-of-town fans are expected to be present in Muleshoe to witness the battle between the two top teams in the league as well as can be determined, who will put up a real battle to win the first game of the play-off series.

The Amherst-Springlake game is also expected to bring out a record crowd. Their game is to be played at Springlake beginning at 2:30 p. m. Sunday afternoon.

Muleshoe Boys Blast Sudan 23-8

The Muleshoe Lions Recreation Program Team soundly thumped Sudan's Teen Town 23 to 8. Muleshoe used everybody but the bat-boy to hold the score down. Dean Herrington started the game and was the winning pitcher. He was relieved after Muleshoe was well ahead. Bobby Seid walked, hit 3 doubles, a home run and a single to pace the home team. Clark Colson also walked 3 doubles. The starting line-up for Muleshoe was Freddie Harvey C, Dean Herrington P, Bobby Seid 1b, Bob King 2b, Marion Waggoner 3b, Clark Colson ss, Roy Harris lf, Marvin Waggoner cf, Raymond Dial, rf.

Meeting Called To Rule On Forfeit Of Game To Amherst

The president of the Capitol League, Joel Thompson of Littlefield has notified the manager of the local team, Strott Walker that the game Muleshoe won over the Amherst nine would have to be forfeited to the Amherst team due to the fact that three of the players on the Muleshoe team had not been turned in to his office before the deadline, July 1.

It seems funny that the names had not been turned in before the deadline, but that according to Mr. Thompson's own admission the names of the players appeared on the roster in his office at the time the game was being played.

Walker stated that he has positive proof that the players names were turned in on the 29th day of June and so informed the president, but the president, stated Walker said, "I have already ruled that the Muleshoe team would have to forfeit and I will not change my decision as my books show that the men in question were not turned into this office until after the first day of July."

According to the rules and regulations passed by the managers of the Capitol League, the president has no authority to decide whether a team forfeit a game. The only way a ruling can be passed is by a meeting of the managers of the ball clubs, and Walker has asked for a called meeting to settle the situation.

This meeting was to be held this week in Littlefield and the outcome of this meeting was not known before The Journal went to press Thursday.

We have had the league president and the statistician under fire several times so far this season due to the fact that they have not ever put out any kind of information as to the scores of other teams besides our own and how the teams stood in the race for the play-off. Even now we are doubtful as to how the Muleshoe team stands in the league and we are sure that all the other area newspapers are as much in the dark as we are.

RICKY DWIGHT VERNON
Mr. and Mrs. D. L. Vernon are the proud parents of a 9 pound 3 1/2 ounce baby boy named Ricky Dwight, born at Amherst July 17.

THE MULESHOE JOURNAL, Thursday, July 21, 1949

Cardinals Are Still Leading In Local Softball League; Pirates Close Behind

By Earl Jennings

The Cardinals are still leading in the Softball League, closely followed by the Pirates. The Indians have been getting scalped instead of doing the scalping in the league, but Jack Jones, Captain of the Indians, promises a change pretty soon. Members of the Indians are Jack Jones, Roald Johnson, Charles Peace, Joe Coffee, Gene Jarman, Ted Millsap, Butch Vinson, James Dial, Archie Scharbrough, Bobby Nelms, Bob Pittman, Kenneth McCool, Bob Willeford, Robert Waggoner and Pete Collins.

Beverly Casey is assisting Don Jackson with the beginning swimming classes now. Beverly is to complete the Red Cross Senior Life Saving Course at Clevis this week.

Some of the teams have made a few trades this year. The Major trading deals to date are Dewayne Burkhead's transfer from the Tigers to the Indians and Truitt Craft of the Pirates was traded to the Cardinals for J. McKnight and Carl Thomas.

The youngest player in the Major League is eight year old Raymond Dial who is batting .462. Raymond has been on the Pirates starting line-up most of the summer, and well earns his position.

Jimmy Holt is still leading the league in batting with .875. He has been at bat officially only twenty-one times because he was walked twenty-three times. He has made only three outs all season.

Following Holt in batting are Kenneth Lovelady .825 of the Cardinals and Dewayne Burkhead .762 of the Indians. Kenneth Lovelady is leading in home runs with 11, total bases 90, runs 37, doubles 13, and tied in triples with Leon Harvey of the Cardinals with 3. Lovelady's great hitting is one of the main reasons that the Cardinals are in first place. Bob Nickels, Cardinals, is leading in hits with 41.

LEAGUE STANDINGS			
Team	W	L	Pct.
Cardinals	10	4	.710
Pirates	9	5	.643
Tigers	5	8	.385
Indians	3	9	.272

J. T. Bailey Accepts Coaching Job Here

Head coach, Woody Green announced Tuesday of this week that the assistant coaches job here had been accepted by T. J. Bailey of Denison, Texas.

Bailey is a graduate of Austin College, Sherman, Texas, and has been coaching for the past four years. He is married and has one child.

Coach Green and coach Bailey worked together at Denison when Green was coaching there. Bailey was the assistant coach at Denison up until he accepted the assistant's job here.

Bailey coached the baseball team and won third place in state AA competition. Last year's football team went to the semi-finals in AA competition. He also assisted in coaching the Denison basketball teams.

Bailey and his family plan to move to Muleshoe sometime in August and needs a place to live, so if any one having a house to rent and would like to have Mr. and Mrs. Bailey should contact Ray Keeling, Mr. Woody Green or The Journal office.

MRS. POOL ATTENDED FLORIST CONVENTION
Mrs. Lee R. Pool, of Muleshoe Floral & Gift Shop, attended the Texas State Florist's convention held at Texas Hotel, Fort Worth, July 12-14.

She attended a design school held at the convention, her fourth of the kind. The school featured the best artists in Texas with special artists from other states. The school took up wedding decorations, table decorations, corsage, vase arrangements, etc.

VISITING FARRELLS
Mrs. Carl Huber and daughter, Claudia, of Bronx, N. Y., are here for a visit with her parents, Mr. and Mrs. C. R. Farrell and family.

Clements Injured By Earth Player

Alvin White, pitcher for the local baseball team, with good backing from his teammates hurled the local lads to a 20 to 0 win over the Earth nine, giving up only 3 hits, two of which were made in the second inning and the other having been made in the sixth inning.

At the same time the local boys collected 21 hits off of the opposing pitcher, scoring 20 runs.

The local boys scored in every frame collecting 5 runs in the first inning, 2 in the second, 1 in the third and fourth innings, 2 in the fifth, 5 in the sixth, and 2 runs in the eighth and ninth.

Out of all this scoring, the local boys only batted out one home run during the entire game. It was in the second inning. Howell was on first with 2 men away, Knight came up to bat and banged one out of the ball park to score Howell and himself.

Alvin White registered 9 strikeouts and didn't walk a man, but three men got on by errors and two men got on by fielders choices.

Jimmy Clements, short stop for the local team was injured in the second inning of the game which may put him out of the lineup for the rest of the season. Clements was covering second base on a double play when the Earth baserunner, admittedly jumped on Clements intentionally.

The man should have been put off of the playing field by the umpire's, but he continued in the game until the seventh inning. Clements suffered a severe injury to one of his legs whenever he was hit by the runner, however he did not receive any cuts from the spikes, but the leg injury may be bad enough that he will be unable to play for the rest of the season.

This was the final scheduled game for the local team for this season, but a make-up game will have to be played this week with the Anton nine at Anton or at some other designated field. The Journal was unable to learn where the game was to be played before it went to press.

GUESTS IN COPLEY HOME
Mrs. Evie McClellan of Springfield, Mo., and Mrs. Ralph Farrar, Sr., of Roosevelt, Oklahoma, are visiting their niece, Mrs. A. W. Copley and family.

Next Time Try A Journal Want Ad

Slants From The Sidelines . . .

By W. E. Hill

There has been plenty of action the past ten days in the Capitol League. First the president, who had no authority to do so in the first place, ruled that the Muleshoe team had to forfeit their game with Amherst and then Sunday due to the unprofessional conduct of an Earth player Jimmy Clements of the Muleshoe team was near seriously injured and may be out for the remainder of the season.

No doubt the ruling passed by the league president will be reversed at a called meeting of the managers which will be held in Littlefield this week, since Strott Walker has positive proof that the players in question were turned in to the office of the president on June 29.

The player that admittedly injured a Muleshoe player here Sunday on purpose should be thrown out of the league and blacklisted in every town in the country. The act that he performed Sunday was not the first time that he had committed himself to unprofessional conduct as other teams have been complaining that his conduct has been very rotten.

If this is the case we don't see why someone hasn't done something about it before now. Even his teammates were astounded at his violent act here last Sunday and each and everyone of them showed that they were sorry that the incident occurred in every way. No doubt the manager of the Earth team will not let him wear an Earth uniform again.

Football fever is slowly but surely crawling into our veins and it won't be long until we can't hardly stand the pressure. Last week we passed through Seagraves and stopped at a station. The boy that waited on us on seeing a sign on our car asked, "are you from Muleshoe?" We stated that we were and he replied, "boy, I sure don't like that place." I asked why, and he replied, "We went there and we went there to play them football and they nearly killed me."

Muleshoe's first game on the schedule for next season will be with Springlake here Sept. 9. On Sept. 16 we meet Portales at Portales and on Sept. 23 we meet Slaton here for the first home game of the season. Sudan will be here Sept. 30 and on Oct. 7 we go to Seagraves. Oct. 14 we play Littlefield here and on Oct. 21, we play Sundown there. Oct. 28 is open and Nov. 4 we play Levelland there and Nov. 11, we play Morton here.

Wonder what ever became of the idea of changing the name of the Yellow Jackets. No one has even mentioned it for a long time, so we suppose that the team will continue under the name of Yellow Jackets again next season.

The local football team will be a well dressed team this next season . . . new uniforms have been ordered and have possibly already been received. They will be black, trimmed with white or silver.

OLLIE JONES BUILDS NEW HOME NEAR COURT

Mr. and Mrs. Ollie Jones are completing a new residence near their Muleshoe Courts. The new structure will have 1106 square feet of floor space in the basement and on the first floor, divided each into separate rooms and each with separate baths.

A new type building stones, filled here and there with concrete and with steel beam reinforcements at regular intervals is being used in construction of the new house. It ought to be extremely strong and should be cool in summer. It is so constructed that an additional story may be added if desired.

The basement has two private entrances from outside so that a part of it may be used to accommodate overflow at the courts. Ollie says that the basement ought to be a popular place when the next cyclone season rolls around. Workmen on the house call it the "atomic bomb shelter."

REV. BLAINE TO CONDUCT REVIVAL AT SILVERTON

Rev. A. W. Blaine, pastor of the First Baptist Church of Muleshoe, will conduct a revival at the First Baptist Church of Silverton beginning Friday, July 22, and continuing through July 31.

Arrangements have been made for other ministers to fill the pulpit of the local church on the Sundays when he will be gone.

LEONARD WEST IN CHARGE OF ALBUQUERQUE STORE

Mr. and Mrs. C. M. West received word from their son, Leonard West, that he would be in Albuquerque July 11 to take over the Gem Food Store and Market, located at 3002 Monta Vista Boulevard. Leonard began his career as meat cutter with the Gupton Grocery & Market in Muleshoe.

Since then he has been at the head of various meat markets in Arizona and New Mexico. The past three years he has been at Flagstaff, Ariz., supervising the meat

VISIT IN FORT WORTH

Mrs. Lee R. Pool and daughter, Sylvia, visited in Fort Worth, last week with an aunt Mrs. L. L. Sanders and with her brother, Truitt Hammock and family. Mr. and Mrs. Hammock returned home with Mrs. Pool for a visit.

Leonard writes he is well pleased with the store and location and that Albuquerque is the city of his choice. His wife and daughters, Gayle and Vickie, will join him soon. Here is wishing him success in his new location.
