## TRADES DAY TO BE MERGED INTO "APPRECIATION DAY"

### Mr. Muleshoe ...

By J. M. Forbes

After 200 Years. The Same Thing Occurs:

Our piscatorial minded friends, and they are legion, yearly about this time gather up their costly paraphernalia and optimistic set forth to seek the finny tribe in rivers and creeks, in the salty deep, at the various points of the compass. And they might get a reminder of an experience similar to it, or an I told you so from this quotation I have bodily lifted from "The Angler" by Washington Irving, father of American letters, who wrote in the 1700s:

"I recollect also, that, after toiling and watching and creeping about for the greater part of a day, with scarcely any success, in spite of all our admirable apparatus, a lubberly country urchin came down from the hills with a rod made from a branch of a tree, a few yards of twine, and as Heaven shall help me! I believe, a crooked pin for a hook, baited with a vile earthworm, and in half an hour caught more fish than we had nibbles, throughout the day!"

Well, the race is not always to the swift, nor the battle to the strong.

Talk of the town Friday morning: Not a football victory, but the victory achieved by those who planned and took part in the Easter Choral, given the night before. I love the ball and all sports, but I don't remember having been thrilled by a sports event half so much as this program thrilled me, and I was not alone in this feeling.

How gratifying it must be to be able to sing. I suppose every human wants to sing, and in fact, comparatively speaking, still fewer can plan and present and direct such a truly fine event as this program. And I envy Fred Johnson his fine speaking voice and his elocution. The feeling and expression he put into his reading added not a little to the perfection of the whole. Maybe if we can't sing we could take lessons from Fred in reading aloud and speaking.

Maybe it's presumptions of us, but this column feels impelled to say, on behalf of all the people of this community to all of you who helped in this Choral: "Thanks, Thanks."

### Arnold Morris Auto Company Recognized For Training Mechanics

Arnold Morris Auto Company received official recognition on April 15, for advancing the automotive maintenance knowledge of its service personnel under the Chrysler Corporation Master Technicians Service plan.

The plan uses modern instructional methods to teach mechanics in dealerships the fundamentals of engineering principles. Under it, each dealership operates a factory-designed school for mechanics, using slide films and other visual aids to demonstrate proper service methods.

Arnold Morris Auto Company was awarded a plaque from the Dodge-Plymouth home offices certifying that five members of its service department have completed a year of participation in the school conducted here as part of the plan.

Each course, prepared by factory experts, is designed along the lines of the "tell, show, and do" presentation of a basic service problem. Instructional materials supplied by Chrysler Corporation include sound slide films, large blow-up charts, handbooks and lesson plans.

Although all instructional material was supplied through Chrysler Corporation, Arnold Morris Auto Company converted his building into a school. When classes were scheduled and Buford Butts Co-owner assumed the role of instructor. The firm is among the first automobile dealers to use these advanced training methods.

The program has been installed in Chrysler Corporation dealerships throughout the country, and involves over 50,000 mechanics. It has a two-fold purpose, according to B. B. Settle, director of service for the corporation's Dodge division.

"We are keenly interested in helping dealers provide the best possible mechanical services for their customers," Settle said. "And we are most certainly interested in assisting with the development of young men who are mechanically inclined. If our program can start young mechanics on the right

### Muleshoe Receives 1.27 Rainfall; Area Wheat Is Greatly Benefited

Just when everyone in this territory was beginning to sense the need for additional moisture, a fine rain descended Monday night, measuring at Muleshoe 1.27 inches.

The rain began falling gently about midnight and continued much of the night with some intermittent hard showers.

Wheat will benefit greatly. Some of the wheat was beginning to turn yellow from lack of moisture, and this will stop that trend, but additional moisture will be needed before the crop is matured.

Coming on top of fine precipitations in January, the latest rain will help to provide planting moisture, and planting time is not far away. Much planting will be done in May.

Reports indicated the rain covered a wide part of the Panhandle area. Near Happy an estimated four inches fell, accompanied by damaging hail. Only the stems of wheat were left in some fields.

One Panhandle farmer, David Johnson, 23, was killed by lightning as he walked from the house to the barn at milking time. Traffic was stopped in some areas as the rain and hail cut visibility. The rainstorm was accompanied by a rather severe electrical display, one tree on the Ballou County courthouse lawn having been struck by a bolt. The tree will die.

### Muleshoe Cow Tops Dairy Sale

A Muleshoe Milking Shorthorn dairy cow "topped" the auction of this breed last Friday in Plainview at the close of the annual Dairy Show. Teague's Roan Pearl, consigned to the sale by Virgil Teague, of Muleshoe, brought \$800.

She was bought by J. H. Hanks of Lamesa. Forty three head of Shorthorns brought a total of \$17,575 or an average of \$408.72 each.

The anaconda, sometimes more than 30 feet long, is the largest of New World snakes.

### Bazaar Planned By H. D. Council

The Home Demonstration Club Council met Monday, April 18, at 2:30 in the county courtroom. The Muleshoe, Progress, Enoch and West Camp clubs were represented by the president and council delegates.

Mrs. Corrington, home demonstration agent, was present. It was voted that each club discuss holding a bazaar featuring hand made articles some time next fall.

Each club is to nominate a song from which the council will vote on one to be used as the county song.

Entertainment will be provided by the five Bailey County HD Clubs at the Commissioners banquet to be held Friday, April 29, at 8 o'clock in the Buta school house.

Motion was passed that the council sponsor a tea in connection with the 4-H Club dress review to be held May 14.

The HD Council will pay in part or whole the 4-H Club girl winner and her chaperone to the 4-H Club Round Up at College Station June 13 to 17. Next meeting of the Council will be on May 9.

**VISIT IN CANADIAN**

Mr. and Mrs. W. H. Awtry spent the weekend in Canadian, Texas, with their son, Dean and family. The grandson, Ronnie, had a birthday dinner Sunday honoring his third birthday. Also present for the occasion were W. H. Awtry, Jr. and Miss Frances Morrow of Tucuman, spending the Easter Sunday and enjoying the birthday dinner.

track in addition to helping established mechanics to better themselves, we will feel that we are making a beneficial contribution toward serving the motoring public."

**TRADES DAY, Muleshoe Saturday.**

### Funeral Rites For J. J. Haun Held Monday

Jacob Johnathan Haun, 64, who resided 17 miles north of Muleshoe, passed away Friday, April 15, in a Shattuck, Okla., hospital, where he had been a patient about ten days.

Mr. Haun lived here since 1937 when he moved to this section from Spearman, Texas. He was born December 4, 1884, in Kingman, Kans.

Funeral services were conducted at the Main Street Missionary Baptist Church Monday, April 18, at 2 o'clock. Interment was in Muleshoe cemetery under direction of the Muleshoe Funeral Home.

Mr. Haun is survived by his wife, Mrs. J. J. Haun; his sons, Othel Haun, Cimmarron, N. M.; Marvin Haun, Durango, Colo.; Clayton Haun, Muleshoe; his daughters, Mrs. Marjorie Melton, El Paso; Mrs. Alta May Gosner, Melrose, N. M.; Mrs. Mary Schumann, San Diego, Calif.; and Miss Melva Haun, Muleshoe; twelve grand children.

Other survivors include four sisters, Mrs. Edith Kirkpatrick, Kingman, Kans.; Mrs. Fannie Pelter, Carmen, Okla.; Mrs. B. T. Clark, Enid, Okla.; and Mrs. Eva Duncan, Los Angeles, the latter unable to attend services here; three brothers, Albert Haun, Hat Creek, Calif.; Henry Haun, San Diego, Calif.; and Philip Haun, WALTERIA, Calif., none being able to attend services.

Among out of town relatives here for services were a niece, Mrs. Paul Skidmore and husband, Lambert, Okla.; a nephew, Vernon Pelter, Carmen Okla.; and a sister-in-law, Mrs. Viola Campbell, Denver, Colo.

### Mrs. Slayden Is Number 1 Winner

Mrs. L. L. Slayden, of Star route 2, was the luckiest person attending the weekly trades day here last Saturday. Mrs. Slayden's prize was a \$50 merchandise certificate good at any store in Muleshoe taking part in the Trades Day.

Second prize went to Mrs. Clifford Tinsley, route 2, \$25.

Hulon Freeman, Muleshoe, got the \$10 certificate and \$5 certificates went to Mrs. E. M. Lovelady, Muleshoe; Mrs. Bessie Turner, Muleshoe; and Jim Clements, Star route 2.

### Southwestern Life Holding Convention

Mr. and Mrs. Marion F. Harris attended the 40th annual convention of agents of Southwestern Life Insurance Company at Houston this week.

Mr. Harris, local representative of the Company, qualified for the trip by reason of his outstanding record of work during the year, 1948.

The program included addresses by recognized leaders in the life insurance field and round-table discussions of problems of the business.

Mr. and Mrs. Harris expect to return to Muleshoe by April 24.

**TO TENNESSEE**

Mr. and Mrs. B. L. Pearson and daughter, Gloria, and Mrs. John Benson left Monday for a visit in Elizabethton, Tenn., with Mrs. Benson's daughters, Miss Virgie Benson and Mrs. Lila Payne.

**VISITED IN KEELING HOME**

Mr. and Mrs. Ray Keeling had as their guests over the Easter weekend, Mr. and Mrs. Charles Lewis of Odessa. The Keelings spent the previous weekend in Dallas with Mr. Keeling's parents.

When colonial Virginia started to raise tobacco, the leaf was rolled to wharfside warehouses along old Indian trails converted into "rolling roads."

Because bears are unable to hibernate in temperate regions, they

### Area THDA Members Attended District Meeting Held At Floydada

The district 2 Texas Home Demonstration Association held its annual meeting in Floydada April 16, with Mrs. G. T. Maltby, vice-president, presiding. Mrs. Gordon Murrah acted as secretary for the meeting.

MRS. G. T. MALTBY

### Large Group Of Dairymen Attend Dairy Show And Meeting

A crowd of approximately sixty to seventy-five area farmers and dairymen attended a dairy meeting which was held at the Jones Farm Store last Tuesday night.

Sam Merritt, Ralston Purina Co. representative conducted the show and gave a talk, showing charts of the various phases of good dairy cattle programs.

At the beginning of the program Sam Merritt made a presentation of a \$50.00 check to Jack Heald from the Ralston Purina Company for his outstanding achievement of raising championship hogs for the past three years.

Mr. Merritt stated during the very instructive show that he was conducting, "that you have to have a program, a long range program, in feeding livestock of any kind." "You have to keep a record of feed cost and production in order to know just how you stand."

The Ralston Purina company has spent twenty-one years in experimental dairy farming with the average type of dairy cows in the United States and according to the statistics shown at the meeting here Tuesday night the U. S. average cow produces milk from 3 to 4 years and will be at the butcher shop at six years. The Purina Farm, who had their cows on a "program," were milking their dairy cows at 7 years and she didn't reach the butcher shop until the ninth year.

Mr. Merritt stated that there are four cycles for dairy cows: 1. Calif. 2. Heifer, 3. Milking, 4. Dry Cow. He continued "all cows have to be cared for just like your own baby in order for you get the most out of them and that it's not how much you feed your cows, but the way it is fed.

After the very instructive program, "Chief" Jones and his crew served hot coffee, donuts and ice cream to the enthusiastic dairymen and farmers who attended the meeting which was held in his Farm Store.

This is the first in a series of schools of instruction that will be conducted here throughout the year by the Ralston Purina company stated Mr. Jones.

### Easter Choral Presentation by High School, Church Choirs Was Thrilling

The Easter Choral presented last Thursday night by the high school choir and the choir of the Methodist Church drew a crowd which entirely filled the high school auditorium. Many sat in balconies as the beautiful program was unfolded.

George L. Moore directs the high school choir and Mrs. C. W. Grandy is director of the Methodist choir. Both organizations have many good voices. Muleshoe people are just beginning to realize how many fine artists they have right here in their home community.

The high school chorus was grouped on the south side with the church choir on the north. The Methodist electric organ was placed in the center with Mrs. Sam Dameron presiding. The background featured a large electrically lighted cross and the stage was decorated with Easter lilies. L. C. Browder built the cross, Cox Radio and Electric furnished loud speakers.

Rev. T. G. Craft wrote the script and Fred Johnson was the reader. Flowers were by McWhorter Floral. Programs were made by Miss Elizabeth Harden.

The following program was given:

The Holy City, both choirs in unison.

Jesus, Word of God, Mozart, high school choir.

O' Sacred Head, Christiansen, Arrangement of the Hymn, Church Choir.

In Deepest Grief, Bach-Double Chorus.

Were You There, Waring Arrangement of the Negro Spiritual, Church Choir.

Christ The Lord Is Risen Today - From "Lyla Daviden," High School Choir.

A Mighty Fortress Is Our God - Luther, arranged for Double Choir by Mr. Moore - Massed Choir.

The Methodist Choir personnel is listed as follows:

SOPRANOS - Mrs. Pat Bobo, Pat Bennett, Elizabeth Harden, Mrs. Paul Gardner, Mrs. L. F. Willman, Mrs. S. C. Beavers, Mrs. Buford Butts.

BASSES - Joe Jennings, S. C. Beavers, H. A. Phillips, Paul Gardner, A. W. Copley.

ALTOS - Mrs. Joe Jennings, Mrs. T. G. Craft, Mrs. H. O. Barbour, Mrs. Cecil Davis, Mrs. Howard Cox.

TENORS - Keith Gaede, Willis Farrell, Billy Don Barbour, Tye Young.

PERSONNEL - High School Choir:

SOPRANOS - Dolores Determan, Wanda Gilliland, Charlene Hoover, Mary Horn, Dixie Lee Jennings, Sue Johnson, Joan Montgomery, Margaret Sanders, Lucille Smith, Joy Snyder, Coa Stinson, Linda Thuman.

TENORS - Doris Biokel, Billie Bartlett, Bob Fudge, Joe Bob Hershey, Ted Lawler, James Mitchell, Dorothy Murrach, Charles Roark, Jim Williams.

ALTOS - Waneen Bellar, Ivera Blackwell, Jackie Bovell, Dorothy Dorsey, Melba Fudge, Rilda Gabbert, Dorothy Giles, Barbara Grandy, Joyce Gwynn, Frieda Monneyham, Irene Shanks, Eudene Spradley.

BASSES - Delton Hughes, Al Jennings, Jerry Julian, Arlyn Kriozal, Mack Ragsdale, Joe Pat Wagoner.

### A gathering of several merchants of Muleshoe now taking part in the Trades Day program, voted Wednesday to continue the event and merge it into an "Appreciation Day" program that is copyrighted and that is working in many towns of the section. Harry Lewis, of Amarillo, was here to represent the Appreciation Day details to the merchants.

Those present decided that the Appreciation Day would come nearer being a permanent thing for Muleshoe; that it would cost less per firm than the present Trades Day; that it would take less time to operate it; and that it would offer those who trade in Muleshoe a bigger pot to look forward to than the present system. In addition to these points in its favor, it is said that actually less merchants in the program can still run it very well.

More details of this program will be announced from time to time. It can't be put into operation for two or three weeks because all the merchants will have to be seen by Mr. Lewis.

Sufficient for now it will be to say that in many towns the program has been running for years. Ralls, for instance, has recently had its 300th Appreciation Day event and "it is still going strong."

Trades Day will continue to be held in Muleshoe on Saturday with prizes to be announced at 3 o'clock in the afternoon.

### First Cowboy Contest Of 1949 Season Scheduled Next Friday

The first cowboy contest of the 1949 season to see who is the best non-professional performer will take place Friday, April 22, at 8:00 p. m., at the Muleshoe Roping Arena.

### Local Boy Gets Two Certificates

Two certificates have been received by Mrs. Virgie L. Burris, from her son "Cpl. Monroe N. Burris, ASN, 1828490, Ser. Co., Apo 201 Unit 1, 5th. Calv. Inf. C-5 PM, San Francisco, California, who is stationed in Japan.

One of the diplomas from his course "Public Information Training," and the other was a certificate of his promotion to "Corporal" in the Army. Also she received a picture of her son "Monroe N. Burris", in his office of "Information" while on duty giving out information to five other soldiers, who were giving their very best attention to his information.

He is enjoying his army life, very much and has a string band, that they call "Bill Burris And His Saddle Pals", doing a wonderful job of entertaining at "The Bankers' Clubs", "Orphans' Homes" and Saddle Clubs, or where ever they are asked to entertain. His band consists of eight soldiers with string instruments, with one piano, with Monroe N. doing a lot of the singing with the band as well as playing with the band, on the string instruments or the piano.

Each member pledges to help promote good clean shows and discourage profanity and drinking on the rodeo grounds. Today all the boys' records stand at zero, but by Friday night at least four ropers and an undetermined number of riders will have accumulated points toward championship status. The N.P.R.A. is a non-profit association and its only aim is to promote clean sportsmanship and good clean entertainment for the attending public.

### Many Delegates Wanted For Two Day P-TA Congress In Lubbock

Muleshoe school and PTA have set out to establish an attendance record at the District PTA Congress to be held in Lubbock next Thursday and Friday, April 28 and 29. Mrs. Blanch Lenderman, president, said today. The local chapter, because it has nearly six hundred members, is eligible for 53 delegates and it is hoped that many persons will represent the district.

### Local Group Sees "Teen Town" Work

A group of Muleshoe people last week journeyed to Frederick, Okla., to learn more about "Teen Town", an organization of the youngsters which seems to be doing very fine work in that city. The group included grownups and several high school students.

Those with whom The Journal has talked seem very favorably impressed with the organization, which is governed mostly by the youngsters themselves, although they have adult advisors and a lady directs the activities every night, assisted by such of the mothers as she may need. The different age groups or classes gather for a time on different nights. A downtown building is rented for the purpose and enjoy recreation play games and enjoy recreation under proper supervision.

A. S. Stovall, who was well acquainted with the work of the organization brought up the subject before the Lions Club, whose members interested themselves in learning more about it.

The group which went up last Tuesday included: Mr. and Mrs. Stovall, Pat Bobo, C. W. Grandy, Rev. T. G. Craft, Mrs. Craft, Jim Cox, Fred Johnson, H. D. King, Mr. and Mrs. Morris Douglas, Sandra Wagoner, Mary Jo White, and Ted Lawler.

The Lions Club will get a full report on the subject at an early meeting.

Construction of the New York State capital building at Albany began in 1867 but wasn't actually finished until 1879.

### GEMS OF THOUGHT

**TAKING OFFENSE**  
It is well not to see everything,  
to hear every thing; let many  
causes of offense pass by us un-  
noticed.  
—Seneca  
Time to me this truth has  
taught, ('Tis a treasure worth re-  
vealing) More offend from want  
of thought than from want of feel-  
ing.  
—Charles Swain  
When men speak ill of thee, so  
live that nobody will believe them.  
—Plato  
To punish ourselves for others'  
faults, is superlative folly. The  
mental arrow shot from another's  
is practically harmless, unless our  
own thought barbs it.  
—Mary Baker Eddy  
The happiness of life depends  
less upon what befalls us than upon  
the way in which we take it.  
—Lavater

## More Poets Are Discovered In MHS

Word has come from the National Anthology of High School Poetry Association that in addition to the seven poems already accepted for publication in the anthology, six more have been accepted from the second group submitted. This makes a total of thirteen poems that will be in this year's anthology. The first seven have been printed in a previous edition of the Stinger. We take pride in printing for you the following:

#### I'M LONESOME

By Charles Lewis

I haven't been here but just a few days  
I don't like this place in many ways  
I'm new here—just came yesterday  
I don't know many people out this way—  
I don't know this place very well—  
I may have a friend here—no one can tell!  
I don't have a very good personality, you see—  
So why don't you come by and get acquainted with me!

#### LIFE

By Dorman Toten

This tedious trend of grief and sorrow,  
Teaches things for each tomorrow—  
Yet we only see things that suit us well  
But you, oh foolish mortal, must dwell  
Within yourself and your own foolish character  
Alone in the world with yourself, hereafter.

#### IF I WERE A MOVIE STAR

By Bobbie Roberts

If I were a movie star  
I'd have money, men and looks  
I'd have nothing to wish for  
And no time for reading books.  
On the stage and screen I'd appear  
I'd be in drama and comedy too  
My plays would make folks cheer  
And be great entertainment for you.

## Lamesa's "New Dealer," Corbin, Is A "Lone Wolf" In The Texas Senate

AUSTIN, Texas, April 12.—A New Dealer who thinks he's pretty much of a lone wolf in the Texas Senate is the new spokesman for the big South Plains and West Texas district of cotton, cattle, wheat and oil.

He's Sen. Kilmer B. Corbin of Lamesa. This tall, thin brunet is only 29. This is his first term in the Legislature. During the four years he'll represent the vast 24-county district that cuts a swath through the state in the South Panhandle, just below it and into West Texas.

This is the land of big ranches, irrigated and dry land farms. Lubbock is the city in the district, Texas Tech the big state school and the state hospital at Big Spring the chief eleemosynary institution.

#### Wants Taxes

Senator Corbin counts himself a New Dealer. And he adds, "I'd be more at home in the House with my political ideas than I am in the Senate." He doubts that there's anyone else in the Senate who shares his theories all the way.

"I'm for more taxes to give more services," Senator Corbin said. "The taxes would be on natural resources."

By the time Corbin was in the second grade in a country school in Dawson County, he knew he liked to make speeches. So he reasoned that he should become a lawyer. But probably the thing that turned him up the road to the Capitol was a state declamation contest in which he won the second prize. Then he was in Lamesa High School.

"In those days I thought all lawyers did was talk," Corbin said. When he graduated from Lamesa High School, he went to Texas Tech to study pre-law. Then later at the University of Texas he entered Law School in 1939.

He married a girl he knew in school in Lamesa and decided to drop out of law school to teach. Corbin was one of three teachers in a little country school near Lamesa. There he turned his interest to coaching boys and girls for debate and declamation contests.

And in 1942 he decided to run for county judge. He was elected and served continuously until 1948. By then he knew enough people in the district to get elected Sena-

#### MOOD

By Phillip Garrett

I am not in the mood  
All I want to do is sit here  
and brood!  
There's English to get and math  
also—  
And History's an awful bore!  
I'm not interested in war, politics  
or presidents anymore!  
What's school anyway in the  
spring?  
When you feel lazy and blue!  
What's in school—when you're  
not in the mood!

#### A WIRE

By Robert Berry

A wire suspending—  
Electricity it's sending  
For light and heat  
To help us compete  
With nature's cold.  
But it is told  
That it keeps us cool  
In summer.

#### DREARY WINTER

By Dorene Herrington

The glimmering, glittering snow  
flakes fall  
In a surging swirl of white.  
The quiet moan of the winter's  
wind  
Whispers throughout the night.

Tucked in the silent quietness  
Of a cold and wintry night  
Are the homes of millions of  
people  
That shut out the cold, cold  
night.

Each longs for the feel of  
springtime  
The sound of a cheery bird's  
call  
And all of the sights that mean  
springtime  
And the end of the snow's  
fall.

There are only two species of  
beaver, the European which is  
now almost extinct and the American,  
which is increasing in numbers  
because it has been protected  
by law.

#### NOTICE TO CONTRACTORS

Sealed proposals addressed to the Mayor, Muleshoe, Texas, for constructing an elevated water storage tank of 200,000 or 250,000 gallon capacity will be received at the office of the City Clerk, Muleshoe, Texas, until 10:00 A. M. April 29, 1949, and then publicly opened and read.

Bidders must submit a bond, cashiers or certified check for Three Thousand Dollars (\$3,000.00) as a guarantee that the bidder will enter into the contract under the conditions set forth within 10 days after notice of award of contract. The minimum wages which shall apply on this work are the established rates for this area as set forth in the specifications. Each bidder shall submit a statement of his experience, financial resources and equipment with the bid. The City reserves the right to waive all formalities and to reject any or all bids. Plans and specifications may be inspected at the office of the City Clerk, Muleshoe, Texas. Plans and specifications may be obtained at the office of Hasie and Green Engineering Company, P. O. Box 1139, Lubbock, upon a deposit of twenty five dollars (\$25.00) which will be refunded to each actual bidder upon return of the plans and specifications. Fifteen dollars (\$15.00) will be refunded to non-bidders upon return of the docu-

ments. Proposals are available without charge.  
City of Muleshoe  
By Connie Gupton,  
Mayor. 163tc.

Corbin is cosigner with Sen. Walter Tynan of San Antonio on the controversial basic science bill in the Senate.

The self-styled liberal Senator also believes in lifting the ceiling on old-age assistance. He wants bigger appropriations for eleemosynary institutions.

Personally he's sponsoring a bill to set up a state distribution system for the school lunch program in co-operation with the federal plan. It carries a \$412,400 appropriation and so far hasn't gotten out of the finance committee. The Department of Public Welfare would administer the program.

**Farm Man**  
The Senator also introduced a bill to let private persons take over the county hospitals in counties which can not support them.

"I'm for the people because I'm one of them," Corbin said, "I've lived on a farm most of my life like most of the people I represent."

Senator and Mrs. Corbin have three children, Barry, 8; Blaine, 5; and Jane, 4. They are living in Austin during the session.

**GUESTS IN JONES HOME**  
Mrs. Maude Jones and father, J. W. Ellis, had as guests last week his niece Mrs. Irene Pennington, of Lawton, a son, Clive Ellis of Oklahoma City and a granddaughter, Mrs. Virgie Witt, also of Oklahoma City.

#### MORE NEW BOOKS FOR OUR LIBRARY

Another new library book is "Double Muscadine" by Frances Gaither. It is the story of a mere slip of a girl when she met easy going, attractive Kirk McLean and went as his bride to his Mississippi plantation home. Not long after she found an unsigned note and began to learn the things about her husband that so many Southern women in slave days had to know and bear in silence. But shy little Martha was not allowed to keep her pitiful secret hidden. A year later she became a focus of morbid interest in a spectacular murder trial. Read the story and see how she was defended by a backwoods lawyer.

The second new book is "Wine of Satan" by Loverene Gay. It is a tale of Bohemond, Prince of Antioch.

City of Muleshoe

## Dress Revue Will Feature 5 Garments

The Bailey County 4-H Dress Revue will be held in Fellowship Hall of Muleshoe Methodist Church Saturday afternoon, May 14. The parents of 4-H club members are urged to attend this contest and the general public is invited.

The following are the type garments to be entered:

1. Pair of mittens
2. Sun suit or play dress
3. School dress of washable material
4. Best dress of street length
5. Tailored outfit.

All 4-H club members eligible to enter this county contest; however, for a girl to compete for the state award she must be 14 years of age on or before January 1st.

## Rebekahs Attended Littlefield Meeting

Several members of Muleshoe Rebekah Lodge went to Littlefield Monday night to confer the Rebekah degree on some candidates for the Littlefield Rebekah lodge. After the lodge was closed five members of the Littlefield lodge conferred the Battle Degree on Chester Anderson and Arlie Thomas.

## BOUDREAU PEPS UP WITH A HAMBURGER

Lou Boudreau, player-manager of the world champion Cleveland Indians, takes time out between workouts to pep up his energy with a hamburger and a glass of milk. Lou's favorite sandwich is a hamburger deluxe, prepared like this: Add a teaspoon of grated onion to each tablespoon of softened butter or margarine. Spread on split hamburger bun. Make the sandwich with hot seasoned hamburger, lettuce, and chili sauce or ketchup.

## Tarter-Glaze Vows Are Read

In a double ring ceremony read April 13, at 1:30 p. m. in the home of the bride's parents, Miss Betty Jo Tarter became the bride of Mr. James B. Glaze.

The bride is the daughter of Mr. and Mrs. D. A. Tarter of Lubbud. The bridegroom is the son of Mr. and Mrs. Ross Glaze of Muleshoe.

Rev. W. A. Blaine, pastor of the Muleshoe Baptist church officiated. Music for the ceremony included the traditional "Wedding March" from Lohengrin (Wagner). The room was decorated with Easter lilies, red roses and fern covered the mantle.

The bride was given in marriage by her father, D. A. Tarter. She wore a gown of white nylon marquisette trimmed with white lace and fashioned with a fitted bodice and three-quarter length sleeves. She wore a waist length veil decorated with seed pearls. Her bouquet was made up of a dozen white roses centered with a white orchid.

Bea Tarter, sister of the bride, was matron of honor. She wore a gown of blue net, trimmed with blue lace and carried a bouquet of pink carnations.

Ross Glaze Jr., served his brother as best man. Gordon Thurman, of Amherst, served as usher. A reception in the home of the brides parents followed the ceremony.

A lace cloth covered the table which was centered with an arrangement of fern and Easter lilies. The cake was topped with a miniature bride and groom.

Mrs. Clarence Mason registered guests. Between fifty and sixty guests were registered. Mrs. Alton Morris and Mrs. Robert Marrs assisted at the table while Mrs. Douglass Frye served at the punch service.

For their wedding trip to East and South Texas, the bride wore a tan gabardine suit with brown accessories. Her corsage was made up of orchids.

Both the bride and bridegroom graduated from Muleshoe High School. The bride later attended E.N.M.C. and the bridegroom attended Texas Technological College and also served in the U. S. Army. Mrs. Glaze is a member of Sigma Beta Chi.

The couple will be at home at Muleshoe where the bridegroom is engaged in farming.

**VISITORS FROM ODESSA**  
Mr. and Mrs. Chuck Lewis of Odessa, were visitors over the week end in the home of Mr. and Mrs. Ray Keeling.

—Trades Day Is Saturday—  
Those who missed this sure missed a good time. It was a scream from beginning to end. Just ask Chester and Arlie. Delicious refreshments were served. Those making the trip were: Messrs and Mesdames Bill Millen, Kenneth Bristow, Chester Anderson, Arlie Thomas, J. J. Gross, Frank Snyder, Olen Jennings, and A. P. Lambert; and Mesdames Verne Garth, Hazel Whalen, Myrtle Freeman, Geneva Freeman, Velma Howell, May Providence, Eva Carpenter, Sarah Belle Snyder, Ruby Shelley, Clyde Dial, Ruby Green, and Katherine Merriman. Everyone reported a good time.

## Society News

THE MULESHOE JOURNAL, Thursday, April 21, 1949

### Hilltop News ...

Hilltop had about two and a half inches of rain Monday night. A hail storm also accompanied the rain late Monday night.

Hilltop had a quiet Easter Sunday as nearly everyone was gone.

Mr. and Mrs. U. C. Blair went to Earth Sunday visiting.

### Girl Scout News

The Girl Scouts met Monday evening at 4 o'clock in the home of their leader, Mrs. John Watson. Plans were made for a "Flag Pageant" which is to be held in Fellowship Hall May 3, at 8 o'clock. The Woodmen of Muleshoe and Littlefield are to present to the Girl Scouts a large American flag.

The adult leaders and helpers

### DOUBLES OUTPUT

CHICAGO—In the first production increase in the appliance industry this year, Hotpoint, Inc., one of the nation's largest appliance manufacturers, has doubled scheduled output of a new automatic washing machine introduced early this year, James J. Nance, president, announced. The boost to 2,000 machines a week was necessary to meet strong demand.

Nance said that the step-up, made now in the face of adjustments in the national economy, "reaffirms this company's faith in America's system of producing abundantly in order to continually lower prices. Our \$25 million expansion program completed last October was an investment of American savings in developing new manufacturing efficiencies to bring the benefits of electrical living to the greatest number of people in the history of this country."

"Only in America can we find this example of industry teamwork resulting in more new work saving devices priced within the reach of every one of the nation's homes," Nance added.

### FARMERS: Nail down these facts about LUMBER!

EVERY FARMER KNOWS that there is no satisfactory substitute for the combined strength, durability, warmth, and workability that nature gives to wood.

1. Properly planned wood buildings work for you. They earn their way.
2. First cost is reasonable, maintenance low.
3. Improvements, alterations made easily.
4. Lumber from wood buildings can be used again in building better-located, more serviceable buildings.
5. Farm buildings of wood have been time-tested and have proved to be worthy, sound investments.
6. The economy, natural charm and pleasing appearance of wood-constructed farm homes make them popular everywhere.

**TOM MORGAN BUYS THE HOLT MOSELEY PLACE**

Tom Morgan and family are now at home on a 40 acre irrigated place they have bought from Holt Moseley. The Morgans moved here from Morton. They have a daughter, Betty Ann, who will be in the freshman class at high school the coming year. She is finishing the term at Morton before joining her parents here.

The farm is located about two miles west of Puckett's store west of Muleshoe.

**ONE CENT PIECE HAS EVERYTHING**

Did you know that on a Lincoln penny you can find a small animal, a snake, a messenger, a follower, the edge of a hill, a country, a fruit, part of a river, a beverage, yourself, a building, and a submarine?

A wise old owl lived in an oak. The more he saw, the less he spoke. The less he spoke, the more he heard.

Why can't we be like that old bird.

Trades Day Is Saturday— Read The Journal Want Ads.

The NEW

**54 COTTON PLANTING SEED NOW AVAILABLE**

The NEW Paymaster "54" is now available for the 1949 planting season—ready for farmers who want more profit from cotton. This quick-maturing, high-yielding, better-staple-producing planting seed answers the demand for a variety that is *tested and proved* for West Texas growers. It is the result of scientific selection and painstaking experiments to develop a seed that will produce more money per acre planted.

Here's why the NEW Paymaster "54" is a money-making cotton...

- **EARLY MATURITY**  
Of 25 varieties tested recently... "54" was first in percentage of crop harvested in a four-month period.
- **HIGH YIELD**  
In this same test, "54" was third among all varieties in yield per acre.
- **BETTER STAPLE**  
"54" ran 1 1/2" to 1 inch throughout West Texas, assuring a better price.
- **TESTED FOR DRY LAND**  
"54" has been proved successful for dry land farming as well as for irrigated Plains areas.

Be among those profit-minded farmers who demand a money-making cotton planting seed—the NEW "54"; order your supply of the improved, state-registered "54" NOW.

IT PAYS TO PLANT PAYMASTER "54"

Sold through your ginster, your seed dealer, all branches of the Western Cotton Oil Co., and at Lockview Farm, Plainview, Texas.

**WESTERN COTTON OIL CO.**  
products of *Paymaster* FORMULA FEEDS and SEEDS

**Easy to Make SEED FRAME**

Anyone handy with a hammer and saw can construct this sturdy seed frame. It is made up of four sides, and a hinged top glazed with Vynilite, flexible plastic glazing. Vynilite is used because it is shatterproof, lightweight, has good insulation qualities and is easy to install. No grooving of the frame, or putting in is necessary. Vynilite is merely latched in place like fly screens.

The standard size for seed frames is 3 feet x 6 feet. To protect it against rot and decay, the lumber used should be treated with Dow's pentachlorophenol. This chemical and Vynilite can be obtained at hardware, lumber and building supply stores.

Assemble the four sides, center partition, and top frames according to the sketch. For permanent construction it is advisable to use galvanized screws instead of nails.

The seed frame is set in place on the ground with the high side to the north, and the top wash slanted toward the sun. The inside should be filled with 3 inches of sand or gravel and then a layer of top soil. This insulates against cold, and improves drainage. When the seed frame has served its purpose each season, it should be removed and stored until it is time to use it again.

- Lumber List**
- Sides: 9 pcs. 1" x 6" x 6 ft.
  - 13 lineal ft. 1" x 2"
  - Base: 30 lineal ft. 1" x 2"
  - 4 hinges, 1 1/2" x 1 1/2"
  - 2 yds. VYNILITE, 36" wide
- Reg. U.S. Pat. Off.

**ANNIE ANTES**

The coaxial cable between New York City and Albany, N. Y., which is no thicker than a man's wrist, can handle 1,500 telephone conversations at the same time.

**Famous Designer To Speak in Texas**

Lester Gaba, of New York City, nationally known industrial designer, will speak at the American Fashion Association meeting in Dallas May 13 to 20. Mr. Gaba will address a breakfast clinic Tuesday morning, May 17, in the Baker Hotel crystal ballroom. The association's meeting will draw attendance from fourteen states and Mexico.

**Social Security Man To Be Here**

Elliot W. Adams, Social Security Administration Representative, will be in Muleshoe at the Post Office at 9:00 a.m. on April 28, 1949 for the purpose of answering any questions anyone might have on social security; discussing possible benefits and taking claims from persons who seem to be entitled to benefits; and taking applications for social security account number cards.

Federal old-age and survivors insurance—social security—provides monthly payments for retired insured workers. Further information can be secured from your social security representative when he visits Muleshoe on the above date.

**HAVE NEW SON**

Born to Mr. and Mrs. A. C. We in Clovis, April 11, a son, Dan Eugene. The new arrival is grandson of Mr. and Mrs. A. Ashford, of Muleshoe, and is second grandchild for the couple.

All snakes shed their skins regularly. There are about 2,000 different species of the frog and toad family of tailless amphibians.

Bright sun shining—new greenery showing—soft breezes calling you onto the highway—this is the season that Buick of yours was made for!

This is the time when you'll want to hear the sweet hum of its eager power, feel the luzzy comfort of its easy stride, get the springtime feel of its thrilling action.

And you can have all that—with just a little attention to some simple things to shake the winter out of its bones.

For instance—the rusty sludge that has accumulated in your radiator should be cleaned out. Transmission and rear end may be low on lubrication, and should be checked. Crankcase oil should be changed to a summer grade.

The underside of your car has taken a lot of splashing on wet roads. Some of the chassis grease has been washed out, some of it fouled with mud and grit.

**Time to Spring Clean your Buick too!**

So it's time to drain out the dregs of winter. Time for a little of the knowing, loving care every Buick gets at the hands of our Buick-trained men, armed with Buick-developed tools, Buick-established methods, Buick-engineered parts.

It doesn't take long, doesn't cost much. But it goes a long way toward making old Buicks stop out again like lively spring colts. How about stopping in—this week—to see about a spring rejuvenation for your faithful Buick?

**Check your car—Check accidents!**

Driving is twice the fun when you have complete confidence in your car—when you know that tires, brakes, steering, lights and the like won't let you down.

Altogether, there are 10 points to be checked for safety on any car. Bring your Buick in to us for a thorough going-over before setting off on your spring vacation. We'll take the worry and see off your hands—so you can be carefree at the wheel.

**WHEAT & COTTON FARMS**

As good a land as you have in Bailey County for half the price you pay there for the same kind of land. Lots cheaper tax rate. Portales is the county seat and is the fastest growing farming town on the Plains of Texas or New Mexico. We have every good thing you have and some you don't have.

Why buy that high priced land that you have left the other fellow beat you to, when it was cheap like ours? You can do the same thing here that they did there.

Please go to J. A. McGEHEE Real Estate or FARLEY Real Estate in Muleshoe, Texas and let them bring you over here FREE of charge. They are working with me and have seen part of my land. I have wheat and cotton farms from \$25.00 to \$45.00 per acre. No better on the Plains of Texas.

I am located ten miles west of Goodland, Texas, at Causey, N. M.

**JOHN KILLION** 16-2tc

**STORM PROOF COTON SEED**

### Johnson To Be On Naval Cruise

James P. Johnson, of Muleshoe, student at Northwestern University, Evanston, Ill., will take part in a University Naval ROTC unit cruise to the west coast this summer. The cruise is for sophomores and seniors enrolled as midshipmen in the unit.

They will go aboard two cruisers and four destroyers August 2 from San Francisco. After circling the Galapagos Islands, they will arrive at Balboa, Canal Zone, August 16, and will spend six days touring canal installations. They then will proceed to San Diego, where they are scheduled for a program of submarine training Aug. 31 to Sept. 3. From Sept. 3 to 12 the group will be in Long Beach, Calif., for gunnery practice. The cruise will end in San Francisco Sept. 13.

#### TO VISIT IN KANSAS

Mr. and Mrs. George Stotts, Mrs. Mabel Hunke, and Mrs. Emma Stotts are to leave about Saturday for Parsons, Kans., where they will visit with relatives for a week.

Exports by air express from the United States are seven times as large as imports by air.

### Many Deaths Laid To The House Fly

AUSTIN, Tex. (Spl.)—Countless thousands of lives are lost annually throughout the nation, from diseases that are transmitted by the common housefly. Dysentery, diarrhea, typhoid fever, tuberculosis and many other disabling and even fatal diseases are spread by flies, and the control of houseflies becomes of great importance when considered in the light of public health.

Dr. Geo. W. Cox, State Health Officer, says that in order to protect our families we should make sure our homes are fly-proof through proper screening, and then concentrate on eliminating filth, garbage, and other breeding places for flies.

"See that your windows, doors, and porches are screened so that the stray fly from some careless neighbor cannot molest your family," Dr. Cox said, "and make sure that your grocer observes proper food and food and vegetable sanitation standards and keeps your meat, food and vegetable supplies screened from flies.

"Then direct your efforts to eliminating all fly breeding places such as open garbage pails, open privies and other filth that offers the fly proper warmth, moisture and food. Flies thrive on filth, and inasmuch as one female housefly will lay from 600 to 100 eggs per season, it can easily be seen that one breeding place left available in a community, can be responsible for a tremendous horde of flies."

Dr. Cox recommended organized community efforts as being effective in ridding a community, and emphasized that no matter how clean one family's home and premises are, they are still not safe if another home down the street leaves exposed filth where flies can breed.

### Retail Sales Boomed In March

AUSTIN, April 20.—Texas retail sales for March climbed 21 per cent above February to an estimated \$434 million, preliminary tabulations made by the University of Texas Bureau of Business Research showed.

Shoe stores, increasing 39 per cent, and lumber and building material dealers, 35 per cent, headed the list for largest advances over the previous month.

Gaining impetus from the approaching Easter, March sales of women's specialty shops went up 38 per cent over the preceding month. General merchandise sales followed with 27-per cent rise for the same period. Other monthly increases over February were men's and boys' clothing stores, 23 per cent; department stores, 23 per cent; and filling stations, 20 per cent.

Besides eating the watermelon, natives of Afghanistan use the rind for summer hats.

### Bakery Products Best Food Buy

The cost of bakery products to homemakers has increased less since pre-war than any other major category of food, according to this chart which shows food cost increases between 1939-40 and 1947-48.

The price of bakery goods has risen only 68.6 per cent, compared with the average for all foods of 113.5 per cent. Meat buy, next to bakery foods, is canned and dried foods, according to the chart, with fresh fruits in third place.

The chart is based on information from the U.S. Bureau of Labor Statistics.

#### SERVICE WOMEN TO MEET

On May 14, 1949, at the Hilton Hotel in Albuquerque, New Mexico, there will be a reunion of all service women. Anyone interested in attending this reunion should contact Sgt. Burrows, WAF-WAC Recruiter in Roswell so that reservations may be made for you. Girls this is for all services so if you were or are now in the Navy, Marines, Coast Guards, Nurse Corps, Army or Air Force, why not plan to meet the girls in Albuquerque on May 14, 1949 at the Hilton Hotel?

#### Like Her Easter Bonnet?

You can have an original model just like the one pictured above. It's easy, according to lovely Rosemary Rice, of NBC's "When A Girl Marries," who is as practical as she is pretty. Rosemary passes along this equation for Easter. A visit to the nearest 10c store to purchase an inexpensive frame, flowers and veiling + 3/4 hour of your time = a frothy Easter bonnet every bit as scrumptious as a made-to-order design—and for under \$2.

## Surprise Party Honors Turrentines

A lovely surprise party honoring the 11th wedding anniversary of Ineta and Alton Turrentine was given by their employees in the banquet room of the Cross Roads Cafe at 8 o'clock on the night of Tuesday, April 19.

The table was decorated with white roses, pink and coral azaleas and pink and yellow snapdragons supplied with the compliments of McWhorter's. The guests grouped around the candlelit table while Mrs. Turrentine sliced the lovely cake, decorated with the words "11th Anniversary". Along the other decorations were the blue bows adorning the honoree's chairs.

Edward Cox furnished the music, which was "The Anniversary Song", and D. L. Smith kindly loaned his phonograph on which to play it and numerous other popular recordings to entertain those present.

An enjoyable evening was spent by: Mr. and Mrs. Reece Eaton, Mr. and Mrs. "Buddy" Blackburn, Mr. and Mrs. "Skinny" Winn, Mr. and Mrs. "Pinky" Barbour, O'Neil Rokey, Mrs. Evelyn Awtry, Mrs. Naomi Talley, Melvin Smith, Carroll Howell, Miss Ann Horsley and the honorees, Ineta and Alton Turrentine.

Refreshments of ice cream, cake and coffee were served by Opal Bowen, Billie McDaniels, Lorene Lambert, Lois Robinson, Letha Jacobus, Goldie Roberts, Billie Smith, Odie Rinker and Carrie Belle Chaney, who presented the honoree with a pair of beautiful aqua blue vanity lamps.

### HALF CENTURY CLUB MET IN KISTLER HOME

Members of the Half Century Club met in the home of Mrs. Kistler, Thursday, April 14, with a good attendance.

Those present were: Mesdames Welch, Duke, Haney, Willard, Jones, Paul, Burkhead, Painter, Hunkey, Glibreath, Martis, Williams, Witherspoon, Farrell, Stone, Layne, Carles and Ingram.

The house was called to order by the president, Mrs. Williams. After a short business session we enjoyed playing 42. We also sent potplants to our sick members, Mrs. Ann Moeller and mother Goodson.

The next meeting will be April 28, with Mrs. I. W. Haney.

### CARD OF THANKS

Words cannot express our gratitude to our many friends for the kindness and sympathy shown us during the illness and death of our beloved husband and father. God bless you all.

Mrs. J. J. Haun and Family.

## FIVE POLIO PRECAUTIONS ARE LISTED FOR PARENTS

Warning that the 1949 polio season is "just around the corner," the National Foundation for Infantile Paralysis today issued a list of precautionary measures to be observed by those in charge of children during the epidemic danger period which usually runs from May through October, reaching its peak during the hot, mid-summer months. The five easy-to-follow health rules for children are:

1. Avoid crowds and places where close contact with other persons is likely.
2. Avoid over-fatigue caused by too active play or exercise, or irregular hours.
3. Avoid swimming in polluted water. Use only beaches or public pools declared safe by local health authorities.
4. Avoid sudden chilling. Remove wet shoes and clothing at once and keep extra blankets and heavier clothing handy for sudden weather changes.
5. Observe the golden rule of personal cleanliness. Keep food

tightly covered and safe from flies or other insects. Garbage should be tightly covered and, if other disposal facilities are lacking, it should be buried or burned.

The National Foundation also listed the following symptoms of infantile paralysis: headache, nausea or upset stomach, muscle soreness or stiffness, and unexplained fever. Should polio strike in your family, call a doctor immediately. Early diagnosis and prompt treatment by qualified medical personnel often prevent serious crippling, the National Foundation pointed out.

The organization emphasized that fear and anxiety should be held to a minimum. A calm, confident attitude is conducive to health and recovery. Parents, it said, should remember that of all those stricken, 50 per cent or more recover completely, while another 25 per cent are left with only slight after effects.

If polio is actually diagnosed, contact the chapter of the National Foundation for Infantile Paralysis serving your community. The chapter will pay that part of the cost of care and treatment which patient or family cannot meet.

FOR YOUR BENEFIT

We're mighty proud of a plaque recently awarded us. It signifies that our mechanics have completed a full year of postgraduate training under the "Master Technician Service Plan."

This means a lot to us — but it means still more to you. It means that—when you bring your Dodge or Plymouth here for service — you get the expert work of specialists who really know their stuff!

Our men were good before they took this year of specialized training. Now they are master technicians in the art of servicing your car. They save you money because of the speed with which they diagnose your car's needs. They save you future headaches because of the thoroughness with which they meet these needs.

Bring your car in today. We'd like to show you the new plaque we've just won. Then we'd like to show you what we think is the finest — and fastest — service your car ever had.

### Three Muleshoe Girls To Attend Future Homemakers State Convention In Dallas

Over 200 Future Homemakers of America, Texas Association, are setting their sights for their state meeting in Dallas, May 5, 6, and 7. Representatives from 688 chapters will take part in the three-day rally of homemaking students from junior and senior high schools in Texas.

The Muleshoe chapter of FHA is awarding trips to three girls to the state convention at Dallas. They are: Marquita Splawn, Mary Jo White, and Charlene Prather.

Two of the girls, Marquita Splawn and Mary Jo White, are receiving the trip as the two winners of the point system. Each person in the club was given points on his participation in club activities, with these two

girls having the largest number of points. The club is sending Charlene in gratitude of her service to the club the past four years.

Miss Prather is president of the chapter this year and was vice-president last year. Miss White is secretary-treasurer of the chapter and Miss Splawn is a member of the chapter for her first year, but she has made quite a record for herself in activities of the chapter.

Mrs. Wanda Newsom will sponsor the girls to Dallas.

A program of recreation and general get-acquainted will start the three-day session off on Thursday night. Under the direction of Dr. Anne Schley Duggan, students of the Department of Health, Physical Education and Recreation, Texas State College for Women, Denton, will lead Future Homemakers through a fun-fest.

Future Homemakers will meet in general sessions at State Fair Auditorium Friday. Promoting International Good Will, one of the purposes of the association, is the meeting theme. The program cl-

maxes a year's activity with special emphasis on promoting good will between our and other nations.

Ruth Hendler, State FHA president, Temple, will welcome the group with a talk: "Good Will in The Home".

Main speaker of the morning will be Senior Roberto de la Rosa, Cultural Agent for the Mexican Government. His subject is "International Good Will". Senior de la Rosa is one of twelve "good will ambassadors" touring this country in an effort to promote better understanding between us and our southern neighbor.

Highlight of the afternoon session will be a panel discussion of "Values We Live By As World Citizens. Future Homemakers boys and girls, State FHA President, State Distributive Education President and State President of College Home Economics Clubs will compose the panel. Dr. Bernice and Family Relations, Homemaking Division, State Board for Vocational Education, and the Hogw Foundation for Mental Hygiene.

Honor guest at the Future Homemakers banquet Friday night will be Mrs. Joseph M. Perkins, State Board for Vocational Education, Eastland. She will speak on "Homemaking Hearts are Happiest".

**BACK FROM POST**  
Mr. and Mrs. B. H. Porter has returned from Post where she visited with the family of a son, Travis Porter. The little daughter of the family has been seriously ill with measles.

**GUESTS HERE SUNDAY**

## Graham-Hoeme

### The Revolutionary Plow

WE HAVE 'EM ON HAND!

**Plowing the Correct Way**  
With the Graham-Hoeme two-inch chisel as shown in illustration prevents blowing, permits water to bypass top soil into the sub soil. Keeps the rubble on top, thus cutting down evaporation.

**PROVEN FACTS**  
Enough rain falls on your farm most every year to make fine crops. But after the first few minutes of rain a smooth surface seals itself so the rate of intake is greatly lessened. This causes run-off. It has been scientifically proven that the same field will not seal itself when plowed with the Graham-Hoeme Plow with a 2-inch chisel furrow every 12 inches to by-pass the rainfall through the top soil and keep a straw mulch on top. Experiments prove that upwards of three times the moist-

ure enters the ground.  
Suppose the next day turns off fair and hot. Bare soil would soon be steaming and losing its moisture rapidly. But not covered ground. It is shaded from the sun and protected from the wind. The moisture stays in the soil.  
Under these conditions your soil stays moist so long that it bridges the gap between rains.  
These things are not just opinions—they are proven facts. The Nebraska Experiment Station has proven them in some of the worst years the Midwest has ever known. Now we know that a covered, corrugated field in a good, brisk summer rain will absorb 200 percent more moisture than a bare field and 64 percent more than a field with a lot of vegetable matter plowed into the surface.

## Many Muleshoe Men Eligible For Organized Reserve

A survey just completed by the Instructor's Office, Organized Reserve Corps, of Muleshoe and the surrounding vicinity, has shown that there are many former army enlisted men and enlisted Reservists who are passing up a good opportunity by not belonging to or being active in the Reserve. The Reserves will be called upon to carry a large share of the responsibility of keeping the United States in the proper state of military preparedness in the future, and in so doing offer some very good benefits to enlisted reservists.

Major Samsel, Instructor for the Reserves of Lubbock District, said today that many former service

men believe that they would be subject at any time to a call to active duty if they were members of a Reserve Unit. This is an entirely erroneous opinion, since no Reservist may be called to Active Duty without his consent except in case of war or grave national emergency. An enlisted man may join the reserve and remain inactive except in a time of national emergency, or he may participate in inactive duty drill where he merits points for retirement, promotion and drill pay. Also, by being in the Reserve, he builds up his longevity he may work for a commission, attend schools of the services with full pay and allowances, or if he so desires, he may take periods of active duty that are available. He may retain his grade held at time of discharge, and in the event he is called during a national emergency, he will be called to duty with the rank of his grade held in the Reserves. After twenty years of satisfactory service in the regular and Reserve forces, an enlisted man upon reaching the age of 60 years may draw retired pay, the bare minimum which a Reservist could expect amounting to more than forty dollars a month.

In the near future an officer from the Instructor's Office, Lubbock, Texas, ORC will be in the vicinity on an announced date and place to explain in person the Reserve program and enlist or re-enlist men into the service of the Reserve.

Symbolic of the "Growth through service" of John Tarleton Agricultural College at Stephenville is the Auditorium Building. It stands on the site of the original college building where fifty years ago, on Sept. 3, 1899, a group of 114 students were the first to enroll. Now with an annual enrollment of over 1,000, Tarleton will combine on April 30-May 1 the Annual Parents Day and Ex-Students Homecoming Reunion with a Semi-Centennial Celebration in a gala two-day festival. President E. J. Howell is the first president of Tarleton since it became a state school in 1917.

PRESIDENT HOWELL

## A Good Insurance For Your Crops

COLLEGE STATION, April 12—Nobody can guarantee that your cotton will produce a good crop, but there is a good insurance in chemical seed treatment.

There's often quite a difference in a cotton crop that has been planted with chemically treated seed, and a crop that wasn't. Here's the difference. With chemically treated seed, chances are good for better stands and greater yields because the chemicals kill seed-borne germs and protect the seeds against molds and fungi in the soil.

Without seed treatment, it is harder to get a good stand for producing a good cotton crop, says E. A. Miller, extension agronomist of Texas A. & M. College. Unprotected seed rots easily in the soil before it has a chance to germinate, especially if the ground is too cold or wet for quick germination. Even after the seed germinates, many young seedlings are killed by the angular leaf spot, soreshin or bacterial boll rot.

One of the worst cotton diseases is angular leaf spot. It often shows up first on the young seed leaves, and during damp weather after the seedlings come up, many of them will die unless they were

## Santa Fe Again Offer 4-H Awards

Sixty-five educational awards to outstanding 4-H Club members in Colorado, New Mexico, Texas and other states served by its lines, will be offered in 1949 by the Santa Fe Railway, in continuance of its policy of annually encouraging American boys and girls to train themselves in agricultural pursuits, President Fred G. Gurley has announced.

The awards are cash sums sufficient to defray all traveling and other expenses for the winners to attend the National 4-H Club Congress held in Chicago. Certificates of merit from the Santa Fe President are presented to the individ-

uals as a keep-sake record of their achievement and participation in the awards. Winners are certified by the state 4-H Club leaders to the National Committee on Boys and Girls Club Work headquarters in Chicago, and the railroad takes no part in the selection of winners except in establishing the original basis for the awards.

In announcing the 1949 awards, President Gurley stated that their purpose is to help 4-H Club members to help themselves and that the Santa Fe takes pride in the fine records its past winners have made in their home communities.

Experiments have shown that seed treatment greatly reduces these troubles and helps to promote more vigorous seedlings, which often can be chopped and cultivated earlier.

In a four-year test by the Texas Agriculture Experiment Station with chemical seed treatment, results showed good increases. There was a 25 percent increase at College Station, a 15 percent increase at Temple, a 10 percent increase in the Brazos bottoms near College Station, and a 4 percent increase in the average yield at Lubbock.

In another test at the Temple Substation, treated seed gave 25 to 30 percent better stands than untreated seed. At the same time, the plants made greater yields per acre, and had less angular leaf spot. The difference in yields between treated and untreated seed varied from year to year, depending on the amount of disease germs on the seed and the condition of the soil at planting time, Miller says.

Chemicals which have proved effective are ceresan M, common ceresan (2 percent), new improved ceresan (5 percent), Dow 9B and spergon.

Directions on the containers should be followed very closely, and the delinted as well as the fuzzy seeds should be treated. It is very important that the seeds are thoroughly and evenly covered with the dust in a container, such as a can on an axle that can be rotated, he concludes.

## Report Of Ground Water Indicates Levels Declining

Pumping of ground water for irrigation in the southern High Plains of Texas is still increasing rapidly and water levels are declining in the areas of heaviest withdrawal. This information is given in a report prepared in cooperation between the Texas Board of Water Engineers and the U. S. Geological Survey, according to Director W. E. Wrather.

It is estimated that about 10,000 wells were used in 1948 to irrigate more than a million acres of cropland. The rate of pumping so exceeds the rate of recharge that the withdrawal may be considered

as coming essentially from storage. If present trends in pumpage and decline in water level continue, some localities may be seriously affected in from 5 to 10 years. In other larger areas where wells are widely spaced, the declines of water levels to date are small. The life expectancy of large-scale withdrawals in these areas will be much greater, so long as the present rates of pumping are not increased.

The report is the seventh of a series of progress reports on the ground-water resources of the Southern High Plains in Texas. It presents data on the rate of ground-water development and the effect on the underground storage of water. The rate of ground-water development during the past decade is believed to be unsurpassed by any comparable area in the United States. Numerous tables and illustrations are included to show the geology and ground water conditions.

Copies of the report are available for public inspection at the Geological Survey, 2209 Federal Work Building, Washington, D. C.

ALL SUMMER LONG  
YOU'LL ENJOY EASIER MEALS

Electrically

Your electrical refrigerator is a clean, convenient storehouse of good things to eat all summer long.

When the weather's warm and meal preparation's a chore, you can have a variety of cool, refreshing foods on hand to add zest to tired summer appetites.

From an appetizing salad through a delicious cold dessert, your entire meal can be on the table with very little effort.

If you don't already have an electric refrigerator, or yours is one of the older models without the numerous advantages of a post war refrigerator, see the beautiful new models on display at your appliance dealer's soon.

## Grudge Fight On Tap For Saturday

Saturday night's wrestling bouts will feature Buck Weaver and Hy Sharman in the first event of a double main event card.

In the second bout of the double main event Alex Kasaboski will meet Rod Fenton in a grudge battle.

This bout should prove to be one of the best ever staged here so far since Kasaboski and Fenton aren't on very good terms with each other since their rough and bloody battle in Clovis recently. This is the first time the two boys have been in the ring with each other since that occasion and therefore plenty of action is expected to be seen.

The referee for the bouts next Saturday night will be Billy Sandow who substituted here as the third man in the ring in the main event of the "battle royal" last week.

According to Chamber of Commerce officials there will be an entirely new set of wrestlers making their appearance in the ring here Saturday night April 30. The new men will be just as good as the boys that have been making appearances here if not possibly a little better.

Good crowds have been attending the fights here each Saturday night with the largest crowd being on hand last Saturday night.

The local Junior Chamber of Commerce plan to sponsor these weekly bouts here in Muleshoe just as long as the public demands this type of sport in Muleshoe.

## Muleshoe Drops Earth, 19 to 8

The Muleshoe baseball team banged out a 19 to 8 victory over the Earth nine Sunday afternoon at Earth.

Alvin White started the game on the mound for local team with Rundell catching. White allowed only four men to score off of his pitching in the first seven innings of play. The relief pitcher came into the game in the eighth inning and allowed four runs to score, but in the ninth the first three men up to bat went down, the first two on fly-outs and the last man on a throw to first base.

The Muleshoe club showed plenty of power in both the hitting and pitching department while the Earth team showed considerable weakness in both.

Other substitutes made during the game for the local boys were: Dial who went to third, Taylor who went to right field and Howard moving to right field and White going to second base.

No results have been reported as to the outcome of other Capitol League games over the area last Sunday, but the Muleshoe boys show that they have the power in hitting and a staff of good pitchers which will likely take the team a long way toward the playoff for the pennant.

Sounds are either musical or nonmusical. The former are produced by sound waves in a rhythmic pattern; the latter are irregular waves which do not occur at equal intervals.

**SUDAN MAN ISSUED PATENT ON NEW DEVICE**

Leidon W. Phillips, of Sudan, has been issued a patent by the United States Bureau of Patents, Washington, D. C., on an automatic steering attachment for tractors.

The patent was issued Phillips on March 29. Complete details of the new device invented by the Sudan man will be published in its entirety following an official release from the Patent Bureau of McKeesport, Pennsylvania.

**TRADES DAY, Muleshoe Saturday.**

## Sharman, Fenton Win Battle Royal

For the second time since professional wrestling was introduced to Muleshoe a few weeks ago, the bouts was disrupted by the fact that one of the participants have become sick and called away on an emergency.

Over 300 local fans saw the referee who had taken an overdose of cold tablets before the bouts, nearly die in the ring. He was rushed to the local hospital where he received emergency treatments and was later removed to an Amarillo hospital.

Alex Kasaboski was the first man to be eliminated from the "battle royal" with Hy Sharman and Billy Sandow following, leaving Jack Pappenheim and Rod Fenton to battle out the main event.

Hy Sharman won over Billy Sandow in the preliminary bout of one fall or 20-minute time limit. Billy Sandow then took over the chores of refereeing the main bout between Pappenheim and Fenton with Fenton coming out on top in this match.
