# Longtime labor boss George Meany dead

WASHINGTON (AP) — Cigar-chomping George Meany, the indomitable leader and sharp-tongued symbol of the American labor movement since the 1950s, is

Death came late Thursday at George Washington University Hospital, barely two months after deteriorating health forced his retirement as the only president in the

AFL-CIO's 24-year existence. The former Bronx plumber, who became one of the nation's most influential private citizens during his 57-year labor career, had been hospitalized on Sunday for treatment of a painful buildup of fluid in his legs. His condition worsened Thursday afternoon and he was

transferred to the hospital's intensive care unit, according to Meany's spokesman, Albert Zack. Meany's three daughters were with him when he died at

9:55 p.m. EST. Death was attributed to cardiac ar-

President Carter called Meany "an American institu-

tion" and "a patriot." "He changed the shape of our nation for the better in hundreds of ways, great and small, through the force of his character and the integrity of his beliefs," said Carter, who had clashed often with Meany over economic poli-

"A giant has fallen," Labor Secretary Ray Marshall said. "He leaves a legacy to all of us of a better, more decent and equitable society.

Massachusetts Sen. Edward Kennedy, a long-time political ally of the labor leader and candidate for the 1980 Democratic presidential nomination, said Meany 'was a great American and all of us will miss him."

Mr. Labor, as Meany was known for three decades, had been confined to a wheelchair with arthritis since last spring, when he injured his knee in a golfing accident. The injury frequently left him in severe pain and his health deteriorated rapidly after that.

Having outlived most of his contemporaries, he grew despondent last March following the death of his wife of 59 years, Eugenia, and lost the drive to regain his strength, said close friends and aides.

The son of a 19th century Irish-American union leader, Meany never finished high school. But he used his keen mind, uncanny political instinct and dominating personality to unite a fractious labor movement and hold most of it together for a quarter century.

Using the 14 million-member American Federation of Labor and Congress of Industrial Organizations as his base, Meany became one of the most effective lobbyists in Congress, the self-appointed adviser to eight presidents

and a key broker in Democratic Party politics.

With the merger of the AFL and CIO in December 1955, he ruled as the unchallenged spokesman for the American labor movement.

He presided over the labor movement during a period of relative labor peace and unprecedented prosperity for organized labor. Healthy wage gains pushed union members into the mainstream of the American middle class; the unions, their violent organizing ytruggles behind them, had joined the establishment.

Critics within the labor, however, complained that the movement under Meany had grown too complacent and conservative because of its success. Union membership failed to grow during the Meany era because of a lack of AFL-CIO interest in organizing the unorganized, particularly minorities and women, the critics charged.

Although Meany's authority over the AFL-CIO did not diminish as he advanced in age, some labor leaders grumbled in recent years that he was losing influence with

the White House, Congress and the public.

For a decade, he spurned suggestions that he retire. It was only when his health failed that he decided to step down last November as AFL-CIO president to be succeeded by his protege and personally selected heir,

UNITED NATIONS (AP) - Japan, China and Colombia attacked the Soviet intervention in Afghanistan in the U.N. General Assembly emergency debate, while the new Afghan government installed by the Russians defended them.

The United States and the Soviet Union were scheduled to speak

Speaking in the first session of the debate Thursday, Japanese Ambassador Masahiro Nisibori called on the Soviet Union to withdraw its troops immediately from its Central Asian neighbor and let the people of Afghanistan "solve their internal problems by themselves.

"The present crisis bears tremendous political implications, jeopardizing international peace and security and threatening the stability of the region," said Nisibori. "The Soviet actions in Afghanistan contravene international law and justice, and we find the use of force in these actions particularly deplorable."

Chief among the "internal problems" to which he referred is a rebellion by Moslem tribesmen which broke out after the Afghan communists seized control of the government

in Kabul in April 1978. Despite a change of government last September, the rebels were reported to control at least half the country, and last month the Soviet government sent thousands of its troops into Afghanistan, engineered another change of government and deployed its forces around the country to help the new government put down the rebellion.

Chinese Ambassador Chen Chu accused the Soviet Union of "flagrant and massive military aggression and intervention against Afghanistan" and charged that "Soviet social-imperialism is the most dangerous source of a new world war.'

Colombian delegate Indalecio Lie-

vano charged the Russians with an "arrogant abuse of power" that threatens other small nations with "a return to the law of the jungle in this era of nuclear weapons:

The Afghan delegate, Shah Mohammad Dost, asserted that "the socalled situation in Afghanistan is entirely an internal matter and poses no threat to peace in the world." He charged that the assembly special session was a throwback to "the dark days of the cold war" since it was convened under a 1950 resolution providing for recourse to the assembly when a veto blocked Security Council

Dost said his government requested

Soviet military aid to help defend it against attacks by "imperialists," the position taken ever since the coup Dec., 27 by the Russians and the new government.

Third-World countries are expected to introduce a resolution in the next day or two calling for withdrawal of the Soviet forces from Afghanistan, and the United States and its allies are reported confident that the 152nation assembly will approve it.

similar Security Council resolution which was supported by 13 of the other 14 council members. The Russians could not block a council resolution asking for the emergency assembly debate because it was a procedural vote in which the permanent members' veto did not apply. But the assembly can vote no punitive action if the Russians ignore its call to get out of Afghanistan.

# Arrest reported of Iranian rebel

Tehran reported the capture of the leader of Iran's most effective anti-Khomeini terrorist group and 15 of his men, but the roundup did nothing to ease the revolutionary regime's troubles with rebellious ethnic minori-

The broadcast said the gang chief, identified only by his family name, Goudarzi, and the other members of the organization called Forghan were captured after a gun battle with revolutionary guardsmen early Tuesday. It was not explained why the announcement was delayed two days.

A revolutionary guard spokesman said documents found in the group's headquarters on Jamalzadeh Street in central Tehran showed that more than 20 assassinations had been

The spokesman said more than 20 hideouts of Forghan members had been identified, but at least 20 members of the gang were still ar large.
The terrorists, firing submachine guns from motorcycles, have assassinated five of Ayatollah Ruhollah Khomeini's associates and his first army chief of staff since the Shiite Moslem leader's revolution ended Shah Mohammad Reza Pahlavi's reign last February and replaced it with an Islamic theocracy

The most recent victim was the dean of Tehran University's theology department, Hojatoleslam Mohammad Mofateh, who was killed with two bodyguards Dec. 18.

Mofateh had said government without clergymen was unacceptable, a direct challenge to Forghan, an extremist Moslem movement whose

main tenet is Islam without clergy. Forghan members believe the Prophet Mohammed and the imams who followed him were not clergymen, that Islam is a religion to live by, not to govern by, and that a clerical ruling class is a betrayal of

the religion and should not exist. Forghan is a Persian word that refers both to the scales of justice and the Koran, the Moslem holy book.

# Afghans riot in protest of Soviet intervention

PUL-I-CHARKHI, Afghanistan (AP) - More than 800 Afghans, shouting slogans against the Soviet Union and Afghanistan's Marxist regime. stormed through the main gate of a prison here today and freed at least 12 inmates from two cell blocks. Two persons were killed when authorities

quelled the riot... It was not immediately clear whether Russian or Afghan troops fired what sounded like short bursts of automatic weapons to end the uprising about 15 miles east of the capital city.

Later, an Afghan officer stood over the two bodies just outside the main gate of the prison and shook a fist in the direction of a Russian tank crew. Western reporters were led away at gunpoint.

The incident apparently stemmed from the crowd's disappointment about the number of political prisoners set free. About 3,000 Afghans gathered outside the high-walled prison compound to receive relatives they thought were being released. But only about 125

prisoners were freed, causing an uproar in the crowd. A teenaged boy grabbed the jacket of an Afghan officer and with tears streaming down his face, shouted: "Where's my father, my brother?"

lax appraisal board is officially organized

Members of the Midland County Tax Appraisal Board were sworn into office Thursday afternoon, although their duties are limited at the current

142nd District Judge Perry Pickett administered the oath of office to Gil Thompson, representing the Midland Independent School District; Fred Wright Jr., Midland College; Walter B. Holton, Midland Hospital District; Donald Lea, Greenwood school; Charlie Welch, Midland County; and Joe Nuessle, the city of Midland.

Following the swearing-in ceremony, Thompson was elected chairman and Nuessle was elected the board's secretary.

Thursday's meeting, the board's initial gathering, was called by County Attorney Leslie Acker who explained that the law creating the appraisal

board, passed during last year's Leg-islature, didn't specify how the board was to begin operation.

So, Acker said, he took it upon himself to call the meeting, since the law specified he was to serve as legal counsel for the board.

During the half-hour meeting Thursday, the board also voted to hold future meetings when called by chairman Thompson or a majority of the board. The board plans to meet in the Commissioners' Courtroom on the second floor of Midland County Court-

The next meeting has been scheduled for sometime in March. By law the board is required to meet Oct. 1 of each year.

One of the reasons for the scarcity of meetings during this initial year, Acker told the group, is a lack of operating funds and a lack of business

Seven die

HONOLULU (AP) — A howling rainstorm battered the Hawaiian Islands for the third day, leaving seven persons dead and causing millions of dollars in damage to homes, busin-

esses, roads and personal property. A 52-year-old man became the storm's seventh victim Thursday when he was buried alive in a mudslide behind his home in Oahu, the state's most populous island.

"We are being swamped with calls from people about roofs and walls blowing away," said a spokesman for the Honolulu Fire Department.

Traffic tie-ups, stranded motorists, power outages, damaged boats and vehicles, rock slides, and flooded homes, businesses and roadways kept emergency crews working round-theclock on all islands.

Torrential rains and winds gusting to 60 mph in some areas forced the cancellation of some inter-island

At the summit of Haleakala Crater on Maui, the National Weather Service said more than 29 inches of rain fell during a two-day period beginning early Tuesday. Winds there gusted to more than 100 mph.

Maui Mayor Hannibal Tavares asked the governor to declare the island a disaster area. Many residents were without water and power for long periods and flooded roadways isolated some parts of the island.

A spokesman for Hawaiian Electric Company said he could not estimate how many customers were without power, because "once we get service restored in one area, it may go out again 10 minutes later.

Tavares urged tourists with reservations at several luxury resort areas to delay their arrivals, if possible. In Waikiki, thousands of tourists looking forward to the famed Hawai-

ian sunshine were confined to indoor shopping and candlelit dining. South of Puako, on the west side of Hawaii Island, high waves destroyed two beachfront homes in a resort community, including one that was to

"One of the realizations of life at this point," he told the six board members, "is you don't have any money." Acker said the state will be providing the board \$5,000 in operating funds this year.

But business, too, will be slow for a time, Acker said. First major duties of the board this year will be the appointment of a chief appraiser, appointment of an appraisal review board, adoption of a budget and establishment of a tax appraisal of-

Although being limited in power initially, the tax board eventually will handle the appraisal of all taxable property in the county for all taxing

One of the first items of business for the board will be the establishment of an appraisal office, according to chairman Thompson.

But, even prior to that, the board must learn more about its powers and duties. According to Acker, some of that information will be gleaned Feb. 29 during a seminar at Midland College to be conducted by the State Property Tax Board.

"Or, if the government in Iran topbill still will pass - "It just depends ples and the Russians move in."

Looking at the worsening world situation, neither one may be far away, he hinted. "If either incident happens, then we could be at war in a short period of time. We're closer to war now than we have been in many years."

The warm water port he referred to is the Straits of Hormuz - an 18-mile wide opening between Iran and Saudi Arabia which is crucial to the future of the United States. Through this bottleneck comes much of the crude oil shipped to this country

"You can take a World War II gun and pick off those ships coming through there," Hance said of the

If Russia took control of the straits, it would cause severe economic problems for the United States, he said. 'We're not prepared for a cutoff of crude oil (from Saudia Arabia)."

If the U.S. went to war now, this country wouldn't be in a superior position, in Hance's opinion. "In some areas the Russians are

PRESIDENT CARTER'S grain embargo to the Russians is going to severely hurt this country's farmers with a ripple effect being felt by all people, he said.

'We had \$34 billion in trade deficits last year," he explained. "If it had not been for agriculture exports, the deficit would have been \$64 billion. And a third of the grain exported is sold to the Soviet Union.

"Unless Carter does something to raise the loan rate to farmers now, our situation will be the worst thing since the 1929 Depression," he fore-

Already some effects are being felt in the 19th Congressional District. Hance cited the example of a car dealer in Lubbock who has had 42 contracts for new trucks canceled by farmers and grain dealers since the grain embargo was announced.

The House Agriculture Committee will begin hearings Jan. 29 on possible effects of the embargo. "The president has to do something or you cripple one of the strongest producing elements in our society.

The grain embargo has the same effect on farmers in the northern part of this congressional district as shutting down a third of all producing wells and stopping oil exploration in this section, he said as an example.

Production of gasohol - recommended by some as a possible use of the grain surplus - isn't a solution since some types of gasohol need more energy to produce it than the gas substitute could provide. Shutting off knowledge of technolo-

# Philadelphia cheerleader killed in auto-truck crash

PAOLI. Pa. (AP) - The Philadelphia Eagles fans' favorite Liberty Belle cheerleader, Cheryl R. Frey, has died in a car-tractor trailer collision in Chester County, state police said.

Authorities said her southbound compact car collided with the truck in the northbound lane of Route 202 in East Whiteland Township early Mrs. Frey, 25, of Kenilworth, was one of two new Liberty Belles cheer-

leaders for the National Football League team selected at a pre-season audition in April 1979. In two Philadelphia newspaper polls, Mrs. Frey, dubbed "Cheerful

"All of my girls and all of those in the Eagles organization are very, very sad. It's so tragic when someone so young, so spirited, so vibrant and in love with life is taken," she said.

"It's a great tragedy for such a lovely young lady to have her life wiped out," said Eagles' Public Relations Director Jim Gallagher. "We are just very saddened.' Mrs. Frey's car was struck in the left lane of the four-lane divided high-

way and was pushed about 30 feet by the truck, coming to rest against a guard rail, investigating troopers said. She was pronounced dead at Paoli Memorial Hospital at 2:28 a.m.

Police said the driver of the truck, Leon Butler Jr. of Sadsburyville, Chester County, suffered only minor injuries.

At the time of her death, Mrs. Frey was employed by a law firm in Kenilworth. She also had been a successful saleswoman for the United\_Biscuit Co. in Reading, Miss Cullum said.

market gains

NEW YORK (AP) — Heavy institutional buying again powered the stock market to a broad-based gain Thursday as it shrugged off some unfavorable economic news.

The Dow Jones average of 30 industrial stocks closed with a 8.87 gain at 858.96. The blue chip index, little changed throughout ohe morning, surged to an 11 point lead by midafternoon before giving back some of that gain near the close.

Analysts said specific news developments had less to do with the market's performance than the snowballing effects of institutional buying. Trading activity has been exceptionally heavy all week as the market gained confidence in the U.S. ability to deal with the Afgan crisis, analysts said.

"Institutions are coming a little late to the feast," said Robert Stovall, an analyst at Dean, Witter, Reynolds. The Dow Jones industrial index leaped more than 19 points on Tuesday and, although it slipped a bit the next day, volume picked up

Thursday's Big Board volume came to 55.98 million shares, down from 65.26 million Wednesday which was the third busiest day in NYSE history

Hiram-Walker, the subject of a takeover offer by Canadian-based Consumer Gas, jumped 9% to 59%. Yates Industries rose 51/2 to 271/4 as the biggest net gainer at the 4 p.m. NYSE close. Yates officials said they may be under consideration for a takeover bid but had

received no specific offer. Benguet Consolidated Mines Class B, a gold mining stock, gained 11/4 to 10 as the most active NYSE issue at the 4 p.m. close. Most other precious and industrial metals were higher although ASA slipped % to 43.

Alcan Aluminium gained 1½ to 54¼, Alcoa was up 1 to 58% and Kennecott Copper added 11/2 to 351/2.

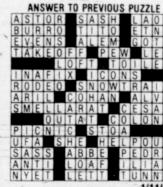

The NYSE composite index gained .53 to 63.25. Standard & Poor's index of 400 industrial stocks rose 1.01 to 123.31 and the S&I 500-stock composite was up .84 to 109.89

On the American Stock Exchange, the market value index gained 2.70 to 254.45. In over-the-counter trading, the NAS-DAQ composite index rose 1.52 to 153.12.

# Watergate top story of decade

By DAVE GOLDBERG **AP Newsfeatures Writer** 

On June 17, 1972, five men were arrested attemptng to rifle files at the headquarters of the Democratic National Committee. Two years and 53 days later, Richard Milhous Nixon became the first president of the United States to resign.

The events set off by what Nixon press secretary Ron Ziegler described as "a third-rate burglary," the scandal generically known as Watergate, has been voted overwhelmingly the top news story of the 1970s by Associated Press editors and broadcas-

Nearly 80 percent of the 700 voters picked it as the story of the decade and it had a 10-1 edge over its nearest competitor - the energy crisis. The end of the war in Vietnam finished third, recent events in Iran fourth, and 1978's Jonestown massacre fifth.

Watergate often seemed more fiction than fact. It had moments of tragedy and pathos, but it also had its comedy.

It spawned a notable glossary of words and phrases — "stonewall," "smoking gun," "enemies' list," "I am not a crook," "18½ minute gap," "at this point in time," "inoperative," "twist slowly, slowly in the wind," "Deep Throat," "deep six," "Big Enchilada," "expletive deleted," "The Saturday Night Massacre," "the plumbers," "a cancer on the

And it spawned a memorable cast of characters: -The mysterious spies: G. Gordon Liddy, E. Howard Hunt and the four Miamians known as "the Cubans" (Gonzales, Martinez, Barker and Stur-

-The mysterious informer, James McCord;

-The stern judge, John J. Sirica; -The gumshoes, Anthony Ulasewicz and John -The fatherly Southern senator, Sam Ervin;

-The intrepid reporters, Bob Woodward and Carl Bernstein -The run-of-the mill politician become states

man: Peter Rodino;

-The loyal secretary, Rose Mary Woods;

-The loyal press secretary, Ron Ziegler; -The martyr, Elliot Richardson;

-The insiders: Haldeman, Ehrlichman, Mitchell and Dean; Colson and Magruder and Kalmbach and LaRue and Higby and Strachan and Sloan and -And the victim, Richard M. Nixon, who wanted

to go down in history as an international statesmen; who went down instead the most disgraced president in American history. The opening scene is the burglary; it was in fact

the opening scene for the definitive Watergate movie - Robert Redford and Dustin Hoffman as Woodward and Bernstein in "All The President's Men. The second scene is the 1972 election: the various

activities that later came to be known as the "White House horrors" covered up as Nixon sweeps triumphantly to re-election over Sen. George McGovern. The third scene is the trial. The Cubans, McCord.

Liddy and Hunt are convicted. But aside from a few odd newspaper stories, nothing shows beneath the In March 1973, things begin to unravel. Sirica is

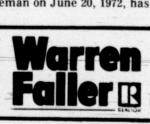

suspicious; McCord nervous. McCord writes to Sirica; Nixon, Haldeman and Ehrlichman huddle with Dean on ways to contain the disclosures.

The spring of 1973: 'Dean turns state's evidence; Haldeman and Ehrlichman resign - "two of the finest public servants I have ever known," says Hearings begin before Ervin's select committee on

Watergate. We hear about the "plumbers" and the break-in at the office of Daniel Ellsberg's psychia-trist; the "Enemies' List;" "The Huston Plan" for massive mail opening and wiretapping, wiretaps, the milk fund, ITT, Howard Hughes, the CIA.

Then, in July, an obscure retired Air Force colonel named Alexander Butterfield meets with committee staff in executive session. Almost offhandedly he mentions that Nixon had a taping system that automatically recorded his conversations.

Special Prosecutor Archibald Cox subpoenas the tapes. Nixon refuses, claiming executive privilege. The battle goes to the courts, and Sirica upholds Cox. Tapes are released sporadically. One of the most important, a conversation between Nixon and Haldeman on June 20, 1972, has an 181/2 minute gap.

on the Lucius soul. I can sympathize with Lucius on this one. 'Rockford's" last night, tonight, is one to be grieved. Television loses a lot in Jim Rockford.

**ROCKFORD WAS one** of TV's last adults, a man possessed of self-assurance and an abiding instinct for survival. He lived by his wits. He could take care of himself. He was a grownup in an era when most TV characters serve as doltish straight men for adolescent stand-up comics.

Rockford heroics were of the best sort — reluctantly drawn forth. He didn't carry a gun, but he was forever being shot at. He loathed fisticuffs, but, if pressed, would rearrange a wrongh-ead's facial features and then clutch his fist in

# Will 'Bear' maul 'Peacock's' plans?

LOS ANGELES (AP) — The Peacock meets The Bear. It is possible, I suppose, that the Kremlin did not consider NBC's 1980-81 prime time schedule when drawing plans for the Afghanistan interven-tion. In any event, the march of Red army onto Afghan turf could well ruin Fred Silverman & Co.'s neat plans for a happy future.

The linchpin of NBC's recovery plan was a successful 1980 Moscow Olympics. The design, like television itself, was simple, with a beginning, middle and end:

NBC would spend lots of money to buy the Olympics, use the event as a promotional tool for its 1980 fall schedule, and parlay its investment to the No. 1 position in the ratings race. It worked for ABC in 1976 and, given Fred Silverman's record, figured to work for NBC in 1980.

Unfortunately for NBC, Russia's historical imperatives were not figured into the scenario. Russia gets this occasional urge to visit the sea. Iran, Afghanistan and Pakistan sit between the Soviet Union and the

Arabian Sea. Russia went into Afghanistan.
This complicates things for NBC. President Carter has threatened to boycott the Moscow Olympics and has urged other nations to follow suit. Saudi Arabia, which likely isn't happy over the prospect of Russians in the Persian Gulf (also easier to get to from Afghanistan than from Russia), has already announced its intention to boycott the Games and is asking its friends to join in.

The British Commonwealth may boycott, and other nations, as well.

This bodes ill for the Moscow Olympics, and, thus, for NBC. If

President Carter calls for a boycott it's quite likely that the U.S. Olympic Committee would oblige. And without U.S. participation, NBC is left with damaged goods.

If the U.S. drops out, NBC might drop its plans to cover the Games.

The network has insurance that would cover most of its financial loss (the Moscow Olympics cost is estimated at somewhere over \$150 million right now), and the 152 hours of planned Olympic coverage from July 18 to Aug. 5 could be filled with regular programming.

But the value of the Moscow Olympics as a promotional tool is incalculable. Under Silverman, the network has learned to appreciate the value of on-air promotion. The hope was that viewers glued to Summer Games would become familiar with the NBC prime time lineup after a barrage of promotion spots.

# Texas judge says no filming

(AP) — A state judge has indicated he will not allow CBS' "60 Minutes" to film the testimony of a Dallas psychiatrist during the upcoming capital murder trial here of a 20-year-old man.

Officials of the television show had asked State District Judge Mike Machado for permission to film the testimony of Dr. James P. Griggon as part of a seg-ment on the importance of expert witnesses in

criminal trials. CBS News Producer Stephen A. Glauber told Machado in a letter that the segment would focus on Griggon.

Assistant District Attorney Larry Souza contended Wednesday that the filming would be a distraction to the jury and possibly prejudice the case against Alan Johnson, who is charged with fatally stabbing 14year-old Joni Foster in her home last February.

Machado said he agreed, but asked the prosecutor to put his obection in the form of a written motion before

Johnson's attorney, Allan Manka, said he

# 'Copter just misses crash with jetliner

DALLAS (AP) - A helicopter passed dangerously close to an American Airlines jetliner carrying 44 persons as the plane made its descent into San Diego's airport Tuesday, an airline spokesman said

Art Jackson, director of operations public relations, said Thursday he did not know how close the Boeing 707 and the helicopter came to colliding in flight or if the pilot, Capt. Kenneth Allmond, was forced to take evasive

He said no injuries were reported aboard Flight 309 from Phoenix to

"The airplane was within a few minutes of the San Diego airport. It was at 6,000 feet and cleared to descend to 5,000 when the pilot reported a helicopter passed off to his right," Jackson said.

Jackson said he thought it was a military helicopter and said the Federal Aviation Administration would investigate the incident. San Diego has been the site of several in-flight near misses recently,

making it the focus of an escalating dispute over air traffic regula-

## TUGC staffs new nuclear plant

GLEN ROSE - Texas Utilities Generating Company personnel began staffing the control room for the first unit of the Comanche Peak nuclear plant Jan. 2, according to a news release from Texas Electric Service Company.

The control room must be staffed at all times as the plant systems are completed and turned over to operations for testing and eventual startup, the release noted. No nuclear fuel material is on the site.

The first unit of the nuclear plant is scheduled to go into operation in 1981. The second unit is expected to start operations in 1983.

# NTSU former president Nolen says he will testify voluntarily at hearing

AUSTIN, Texas (AP) - Former president C.C. Nolen of North Texas State University has sent word he will testify voluntarily at a public hearing Monday of the House General Investigating Committee, the panel's lawyer says.

"His lawyer indicated to me he would be there," said Jim Vollers, special council of the investigating committee.

Vollers also said Thursday "it is fair to assume the committee" will look into allegations that funds belonging to NTSU were channeled into a foundation seeking a public television station for Denton.

Three of the five committee members met less than an hour behind closed doors Thursday and presumably issue.

Chas for certain witnesses to appear at Monday's hearing. Chairman Richard Slack, D-Pecos, said the reason for the executive session was "to decide on subpoenas - how many and who will be the recipients of the glad tidings.

The Dallas Morning News reported in Thursday editions the committee has received NTSU records on the school's relations with Denton Channel 2

The News said investigators are interested in an alleged proposal to transfer a \$60,844 piece of property from NTSU to the television foundation

NTSU has been under investigation since April, when reports were published that the school had made unconstitutional transfers of state funds into the private North Texas State University Educational Foundation

Nolen resigned just before the committee's first meeting in April. Asked if the committee had discovered any prosecutable offenses, Slack told

"I would hesitate to say. I'd say they are serious enough for us to have a meeting about. There were clear violations of the law, although how far the prosecution would go, I cannot say. ... We want anyone who is guilty of misappropriation or misuse of public — we want something done about it."

The Texas Prosecutors Coordinating Council, which assembled a task force from several urban district attorneys' offices to look into the NTSU situation for Slack, gave Vollers the documentary evidence and written statements it

"After consultation with Mr. Vollers, it is clear that testimony must be taken from several additional witnesses. Therefore, no report is being made to protect the innocent as well as to ensure the successful prosecution of any guilty party," council director Andy Shuval wrote Slack.

# Official suggests shifting funds

WASHINGTON (AP) — Surplus Social Security disability funds should be shifted to cover anticipated shortages in the account used to pay old age and survivors benefits, the National Commission on Social Security

The government-appointed commission, midway through a two-year study, also said Congress should allow borrowing of general revenues if inflation and the recession create problems with paying benefits to the 35 million Social Security recipients.

The commission said in an interim report that seven of its nine members feel Congress should not roll back the steep payroll tax increases schedule

The other two members favor a rollback, possibly by paying for Medicare out of general revenues instead of the payroll tax.

That was the method proposed last month by another blue-ribbon panel, the Advisory Council on Social Security, which said the payroll tax could be cut to 5.6 percent if Medicare were

paid for out of income and corporate taxes.

The payroll tax is 6.15 percent now and jumps to 6.65 percent next year. Currently, the 6.13 percent tax is allocated this way: 4.33 percent to pay old age and survivors benefits, 0.75 for disability and 1.05 for Medi-

The commission recommended shifting 0.125 percent of the disability tax to the old age funds in 1981 to 1984, 0.2 percent in 1985 to 1989, and 0.1

percent from 1990 on. Social Security benefits increase automatically when the Consumer Price Index exceeds 6 percent a year. It is rising at more than double that

At the same time, if the recession puts more people out of work and fewer taxes are paid in, the system may have cash flow problems in a few years. Congress already knows about this problem

There might not be enough money in the trust funds at the start of a month to pay a full month's benefits, although the funds would be replen- trust funds so the cash-flow problems ished later in the month as taxes disappear, the report said.

# Another round of gas price boosts heads for consumers

#### By WILLIAM GLASGALL

NEW YORK (AP) — Consumers who were just getting used to the last round of gasoline and heating oil price increases are being hit with another series of boosts.

Reacting to decisions by members of the Organization of Petroleum Exporting Countries to raise crude prices, most major oil companies in recent days have posted wholesale price boosts of as much as 6 cents a gallon on top of last month's increases of 1 to 6 cents a gallon. The increases are likely to be passed along by retailers to consumers.

## Discovery reported

Adobe Oil & Gas Corp. of Midland announced a significant gas discovery from the Miogyp Sands in the Lake Arthur area of Vermilion Par-

The Adobe No. 1 Macdonell Estate was perforated from 17,455 to 17,460 feet and flowed at a daily rate of 10 million cubic feet of gas through a 10/64-inch choke with flowing tubing pressure of 12,000 psi.

Adobe owns 38.75 percent working interest in the well with other interests owned by Traverse Corp. etal, Traverse City, Mich., with 45 percent and Quest Exploration & Development Co. etal, Houston, with 10 percent, along with Jones-O'Brien Inc. of Shreveport, La., who owns an after payout interest.

Adobe has an average payout working interest of 23.25 percent in the 6,000 acre block surrounding the dis- 1 Warren;

#### Cotton well pleted the No. 3 T.C. James Jr., 1/2 completes

HOUSTON - Cotton Petroleum Corp., a subsidiary of United Energy Resources, Inc., Houston, and Dawson Exploration Inc. tested gas and condensate in a recently completed 9.978-foot wildcat in Jefferson Coun-

The Dawson Exploration, Inc., No. 1 Burrell well was completed through perforations ranging from 9,640 to 9,646 feet. Results of the completion test indicate calculated absolute open flow to be 52,000,000 cubic feet per day. The well flowed at a rate of 3,232,000 cubic feet per day and 201 barrels of 45.2-gravity condensate per day with a flowing tubing pressure of 6,321 psi on a 10/64-inch choke. Shut-in tubing pressure was 6,547 pounds. Cotton Petroleum owns a 1/2 interest in this well while Dawson Exploration is the operator and has the remaining working interest.

tion Lundberg Letter, the average U.S. retail price of a gallon of gasoline was \$1.0463 in December, the latest month for which figures are available. That compares with \$1.0167 a month earlier and 67.11 cents in December 1978.

December's gasoline consumption was about 8 percent lower than that for December 1978, the newsletter

Retail heating oil prices, meanwhile, have risen to about 82 to 94 cents a gallon this month from a national average of 53.7 cents a year

The estimate is derived by adding what sources say is a typical 15 cents-a-gallon retailer's markup to current wholesale prices on the East Coast, a major heating oil market.

One oil industry source believes some heating oil prices could fall by as much as a nickel a gallon later this

The source, who asked not to be identified, said the drop may result as high stockpiles of heating oil here and abroad are sold quickly to make room in refiners' storage tanks for summer gasoline supplies.

Heating oil use is running 5 to 10 percent behind last year's levels as rising prices have spurred conservation efforts and boosted conversions to natural gas and other fuels. Warmer-than-normal weather here and abroad also has kept heating of

In the latest round of increases, Exxon USA, the nation's largest gasoline marketer, raised wholesale gasoline prices 3 cents a gallon to an average of 76.6 cents for regular. Home heating oil rose 3 cents to an

average of 68 cents. Exxon's prices are lower than average because of the company's access to Saudi Arabian crude oil, which at \$24 a barrel is nearly \$3 below the average OPEC price. Third-ranked Shell Oil on Wednes-

day raised gasoline prices by 5 cents a gallon nationwide, and heating oil prices by 6 cents in the East and South and 5 cents in the Midwest and

Others to announce price increase in recent days include: Standard Oil Co. of Indiana, Gulf Oil Co., Texaco, Mobile, Standard Oil Co. of California, Cities Service and Sun Oil Co.

Price increases imposed before and during last month's OPEC meeting in Venezuela, and boosts by non-OPEC exporters, have raised the average price of a barrel of oil imported to the United States to about \$31, nearly double the level of a year ago.

The United States imports about half its crude oil. But about 60 percent of domestic crude oil production is not under price controls and thus rises along with OPEC's actions.

## RRC okays Shell unit

AUSTIN - The Railroad Commission authorized the Shell Oil Co. to operate the Bryans Mill (Rodessa Upper) Field in Cass County as a unit and to initiate a water injection program there to enhance additional oil

Through unit operation and the proposed waterflood, the Northeast Texas field is expected to yeild an

additional 400,000 barrels of oil. The field, discovered in 1974, has produced more than 644,000 barrels of oil and presently has six producing wells that average 11 barrels of oil per

The newly authorized unit consists of 286 surface acres of which 261 are considered productive. Production is from the 6,200-foot interval.

AUSTIN - Conoco Inc. has submitted an application to the Railroad Commission for authorization to surface mine uranium in Atascosa Coun-

The proposed permit area is situated on the property of Otto Retzloff and

John Lytle Tom Sr., aproximately four miles southwest of Fashing.

The area to be mined covers 54 acres of the proposed 847-acre permit area. Conoco anticipates mining by open pit method some 25,000 toms of uranium ore in the first and last years of a three-year program.

## **CRMWD** boosts fixed rate for member cities

BIG SPRING - Monthly fixed charges of the Colorado River Municipal Water District to the member cities were set at \$307,768 Thursday by directors, an increase of \$19,234 over the 1979 rates.

The distribution of increase ranged from 8.26 percent for Odessa to virtually an unchanged rate for Snyder, according to water district officials.

Most other rates are geared to those of member

Midland and Stanton, for example, will pay a rate of 45.36 cents per thousand gallons in 1980 — the rate Odessa paid in 1979 - plus a differential of 3.227

cents per thousand gallons.
Directors applied \$600,000 of oil company revenues to modify rates to the cities. This helped hold the line although electric power costs will go up by \$467,274 if the same amount of water is pumped in 1980 as was the case last year, water district officials indicat-

Monthly fixed charges are apportioned to member cities in the ratio that their deliveries bear to the total estimated expense of the district, plus a factor for distance from Lake J.B. Thomas. Actual rates per thousand gallons cannot be computed until the end of the year because they are based on fixed charges plus six cents per thousand gallons delivered.

The CRMWD supplies all of the water needs of Odessa, Snyder, Stanton and Big Spring, most of 7093 Midland's water requirements, and also contracts to supply specified quantities to San Angelo and Robert by Alice Brooks

## O'Connor interns at MC

Edwin Anthony "Tony" O'Connor has begun a one-semester administrative internship at Midland College, according to college president Dr. Al G. Langford.

'We are pleased to have Mr. O'Connor come to Midland Cellege to study the school's administrative processes and the way in which our board, administrators. staff and faculty operate on a daily basis," Langford said.

O'Connor currently is enrolled in The University of Texas at Austin graduate school, specializing in community college educational administration. He received his bachelor's degree from Holy Cross in Worcester, Mass., in 1956, was commissioned as a Naval officer and became a Navy pilot the following year.

After several years as a pilot and instructor, he was assigned to Notre Dame University as a Naval ROTC instructor. He did graduate work at Notre Dame, including study of the Russian language.

During his 23 years of military service, he handled a variety of administrative and operational assignments. His last two duty assignments were as Air Operations Department Head at the Naval Air Station in Agana, Guam, and in Corpus Christi. He retired as a commander.

**During his assignment** at Corpus Christi, he completed his graduate work and received the master of science degree from Corpus Christi State University

## **CRMWD** boosts fixed rate for member cities

BIG SPRING - Monthly fixed charges of the Colorado River Municipal Water District to the member cities were set at \$307,768 Thursday by directors, an increase of \$19,234 over the 1979 rates. The distribution of increase ranged from 8.26

percent for Odessa to virtually an unchanged rate for Snyder, according to water district officials.

Most other rates are geared to those of member

Midland and Stanton, for example, will pay a rate of 45.36 cents per thousand gallons in 1980 — the rate Odessa paid in 1979 — plus a differential of 3.227 cents per thousand gallons.

Directors applied \$600,000 of oil company revenues to modify rates to the cities. This helped hold the line although electric power costs will go up by \$467,274 if the same amount of water is pumped in 1980 as was the case last year, water district officials indicat-

Monthly fixed charges are apportioned to member cities in the ratio that their deliveries bear to the total estimated expense of the district, plus a factor for distance from Lake J.B. Thomas. Actual rates per thousand gallons cannot be computed until the end of the year because they are based on fixed charges plus six cents per thousand gallons deli-

The CRMWD supplies all of the water needs of Odessa, Snyder, Stanton and Big Spring, most of Midland's water requirements, and also contracts to supply specified quantities to San Angelo and Robert by Hice Brooks
